CRIMINAL JUSTICE

College of Health and Human Services

Program Description

Criminal Justice encompasses multidisciplinary examinations of crime, crime control, the justice process, and justice institutions. The discipline addresses definitions, causation, prevention, investigation, legal process, treatment, rehabilitation, and research relating to crime and justice as well as the institutions of the justice system and their administration.

The comprehensive program at Sacramento State covers every aspect of the field. Courses are offered which span the entire system of justice administration in both public and private sectors.

The Division of Criminal Justice:

• Seeks to identify and increase understanding of major social issues related to crime, criminals, prevention and control, and victims.
• Features a large and diverse faculty combining scholars from a variety of disciplines who have contributed extensively to the justice field with practitioners who have many years of experience in justice administration.
• Offers a flexible undergraduate major, combined with highly structured advising, which allows the student to shape an undergraduate program specifically to prepare for employment in multiple areas of criminal justice, advanced study in criminal justice, or law school.
• Features a Master of Science curriculum allowing students to focus study on either theoretical aspects of crime or justice administration.
• Offers direct access to many local, state, and federal agencies through internships and fieldwork.

Many graduates find positions with various federal, state, and local criminal justice agencies. Others have pursued advanced study in criminology and law. Employment opportunities for Criminal Justice majors have remained strong for the past decade both with government agencies and in private security and future demand appears assured.

The Criminal Justice program at Sacramento State is one of the most highly sought after programs in Northern California. Due to the large number of applications, the program is now officially impacted. Students wishing to become Criminal Justice majors must complete a series of required lower division courses and then must apply for admission to the program. It is highly recommended that interested students speak with a Criminal Justice advisor as soon as possible.

Career Possibilities

Investigative positions, most with law enforcement authority, with federal, state, and local agencies such as the FBI, ATF, Secret Service, DEA, Homeland Security Administration, state level Departments of Justice, Alcohol Beverage Control, Department of Motor Vehicles, District Attorney’s and Public Defender’s Offices · Includes uniformed peace officer positions within local and state governments, such as: police officer, deputy sheriff, highway patrol, and natural resources officer, including crime scene specialists, and crime analysts · Correctional peace officer positions including state and local probation officers and parole agents within adult and juvenile correctional systems · Includes non-sworn correctional counselors and administrators. Private corporate security agents and investigators such as those employed by banks and insurance companies and transportation companies, including loss-prevention specialists · Victim services and officer services positions within a wide variety of social service agencies related to crime, justice, and rehabilitation · In addition, graduates can pursue advanced degrees in law or research disciplines, and may apply to military officer candidate schools.

Law as a Career

Lawyers are often called upon to fill many varied and complex roles. At various times they function as advocates, social planners, and mediators. Because society turns most frequently to the legal profession when it looks for a method of balancing changing conditions and traditional values, lawyers are social planners. Lawyers play a weighty role in our society and have a tremendous responsibility, not only to the citizenry
which they serve, but also to the law itself, and to the concept of justice, to which they must be committed.

**Pre-Law Education**

The student’s cumulative undergraduate GPA and his/her score on the Law School Admissions Test (LSAT) are the primary factors on which law schools base their admissions decisions. The importance of these factors cannot be overestimated. Assuming that you qualify in this manner for admissions, your undergraduate course of study plays a role in preparing for the study and practice of law. Students interested in law school should visit the Law School Admission Council’s website www.lsac.org (http://www.lsac.org) early in their college careers in order to learn about the process of preparing for and applying to law school.

**Undergraduate Program**

It would be unwise and, perhaps, impossible to prescribe a specific course of study and assert that it is the best one can receive in preparation for entering law school. Therefore, there is no established major for pre-law students. In 1988, the Association of American Law Schools (AALS) expressed the view that the “quality of education is concerned with the development of basic skills and insights. It thus involves education for:

1. comprehension and expression in words;
2. critical understanding of the human institutions and values with which the law deals;
3. creative power in thinking;
4. knowledge of computers and word processing.”

While no one major embraces all of these characteristics and, while personal development in these areas is an individualistic effort molded to one’s particular strengths, weaknesses, and interests, the University offers numerous courses which give training in these skills. The following areas of study encompass these recommendations and suggest courses which prepare students for the study and practice of law.

- **Business:** When an individual becomes a lawyer, he/she also becomes a member of the business community; hence, classes in business are beneficial to the pre-law student. Competence in this field can make the difference between an organized, successful lawyer and a bewildered, ineffective one. Furthermore, the practical judgment one develops in business classes frequently allows one to penetrate the legal maze and to quickly reach the important issues of any case.

- **Computer Science:** In an age where information storage and problem solving is increasingly accomplished by computers, a lawyer cannot afford to venture into the future without a working knowledge of computers.

- **Criminal Justice:** The Division of Criminal Justice includes three law courses in its core curriculum and offers the option of additional law and constitutional theory courses among its electives. The department offers intern placements in law related positions. Law courses are instructed in the case study method used in law schools. This instruction allows a student to determine their level of interest and aptitude for legal studies while still an undergraduate. Several members of the teaching faculty are attorneys, and law courses are taught by attorneys licensed by the bar. In addition, the major in criminal justice offers a general orientation to the justice field and provides students a suggested pre-law course of study engineered to provide an excellent foundation for the study of law.

- **Economics:** As the AALS asserts: “Economics is a science that calls upon the student to master patterns of thought, to explore questions of causation and to probe potentials for solutions.” Since many legal problems ultimately involve economic issues, a study of economics will benefit the pre-law student.

- **History and Government:** We are a product of yesterday in our society, our customs and our laws. Without a general understanding of history and how it relates to our present state, the lawyer cannot appreciate the intimate relationship laws have with our culture. By failing to comprehend the relationship between our society, its governmental institutions, and its laws, one risks not understanding certain laws intelligible only in terms of their historical and institutional significance.

- **Logic and Mathematics:** Since the law is abstract, those considering law school need training in the reasoning powers essential for dealing with abstract concepts. The study of logic and mathematics provides the practice needed for developing the ability to think logically.

- **Oral and Written Communication:** The lawyer is primarily a communicator; whether in the courtroom or in the legislature, as a counselor or negotiator, he/she must know how to communicate on many levels with precision and style.

- **Philosophy:** A sizable number of students of philosophy go on to law school and there are now many successful philosopher-lawyers. This is no mere coincidence. Legal questions often raise issues of profound philosophical import. And the two fields share many of the same methods of reasoning and argumentation. The Philosophy Department’s Major Concentration in Applied Ethics and Law is specifically designed to prepare prospective students for the intellectual rigors of law school.

- **Science and Engineering:** Students who concentrate in the sciences or in engineering develop the ability to think clearly and concisely. The rigor and discipline required in these courses is valuable training for the law school years.

- **Social Sciences:** Since both law and social science deal with behavior and its implications, lawyers draw on the social sciences for an understanding of human behavior. Applying the tools of the other social sciences to the practice of law enhances the effectiveness of the attorney.

Obviously, one cannot receive degrees in all of these areas; it is suggested that the pre-law student choose a major which interests him/her and supplement this curriculum with as many courses from other areas as possible. In addition to this, the pre-law student should read widely in areas outside the major.

**Pre-Law Student Organization**

The Phi Alpha Delta Law Fraternity International has been formed by pre-law students to meet the needs of students interested in preparing for a career in law. CSU, Sacramento has an active Phi Alpha Delta chapter and information about joining can be acquired by visiting one of the campus pre-law advisors.

**Grades**

Good grades are essential to those interested in being accepted at a well regarded school. However, it should be clear that one does not benefit from being so grade conscious that the major criterion for course selection becomes the likelihood of receiving an “A.” Tough, demanding professors and courses are essential for training the mind to perform well under the pressures of law school. Challenging, thought-provoking courses are the best way to prepare for the LSAT, for success in law school and as a member of the legal profession. Moreover,
when undergraduate transcripts are viewed by law school admission committees, a great deal of attention is given to the difficulty and the desirability of the courses chosen by the student. For law school admission, grades of "I" (Incomplete) or "W" (Withdrawal) are not included in computing the overall GPA. However, a grade of "WU" or "NC" (No Credit) is counted as an "F," and if a course is repeated, the two grades are averaged. Students should also note that failure to complete work for a grade posted as "I" will result in the "I" converting to an "F" after two semesters.

LSAT

The LSAT is the second major factor considered by law schools in determining admissibility. It is administered by the Law School Admission Council (LSAC). Everything a student needs to know about the LSAT is available at www.lsac.org (http://www.lsac.org). The test measures abilities and skills related to problem identification, analysis, logical reasoning, and reading. In addition, the LSAT includes a written essay, copies of which will be sent to individual law schools to enable them to evaluate a candidate’s writing ability. Because many law schools consider the LSAT as influential, or more influential, than the GPA, it is important that students prepare for the test very carefully. Students who believe they may qualify for a fee waiver because of serious financial need should apply for the LSAC fee waiver at www.lsac.org. The fee waiver will cover the student’s LSAT and Credential Assembly Service fees as well as provide materials that will enable the student to prepare for the LSAT.

Letters of Recommendation

Most law schools require between one to three letters of recommendation from individuals who can comment on the applicant’s potential as a law student. The individuals selected to write letters of recommendation should be able to comment extensively on the applicant’s academic capabilities. And, obviously, the evaluation should be a positive one. Letters should also discuss the applicant’s ability to comprehend, to communicate, and to critically analyze concepts.

Credential Assembly Service

Student’s must register for the Credential Assembly Service (CAS) at www.lsac.org (http://www.lsac.org) in order to submit applications for American Bar Association accredited law schools. There is a fee associated with registration for the CAS which is waived if the student is approved for the LSAC fee waiver. The CAS compiles a report that contains the student’s personal information, LSAT score(s), transcripts, letters of recommendation and, if prepared, recommender evaluations.

The student completes each individual law school application online using their account at www.lsac.org (http://www.lsac.org). Once the student has submitted the application the law school requests the CAS report and it is transmitted electronically to them by the LSAC.

Personal Statement

Most law schools require the applicant to submit a personal statement in which the applicant tells the law school something about the applicant’s background, the reasons why the applicant wants to study law, and, in some instances, what the applicant hopes to do following law school. This is an extremely important component of the application. It provides the student with an opportunity to share their personal background and experiences with the law school admissions committee. Students should take time to carefully craft the personal statement and should seek advice from trusted friends, professors and their pre-law advisor to help them in the writing process.

1 CRJ 195 internship can count for 1-6 units of credit, but for the Law Enforcement Certificate it can only be taken once for 3 units.

All courses and petitions for substitutions will need to be approved by the Law Enforcement Candidate Scholars’ Program and Criminal Justice Division and will reflect the criteria and learning outcomes of the Law Enforcement Certificate.

Additional eligibility criteria and certificate information can be obtained from the Law Enforcement Candidate Scholars’ (LECS) Program or Criminal Justice Division Advising Center. Visit [www.csus.edu/hhs/lecs](http://www.csus.edu/hhs/lecs) for more information.

## Graduate Program

The Master of Science program in Criminal Justice is designed to provide broad knowledge and understanding of the field of criminal justice, law enforcement, legal processes, and rehabilitation of offenders. It also provides an extensive academic foundation for a growing variety of professional opportunities and facilitates professional development in preparation for positions of increasing responsibility. Curriculum objectives are based on the philosophy that the function of the professional criminal justice practitioner and educator is to aid the orderly development of society to contribute significantly to the improvement of the quality of services, and to advance the criminal justice system. Students who anticipate pursuing graduate studies should prepare themselves for work on this level by selecting undergraduate courses which provide competence in the following areas:
statistical analysis, behavioral science methodology, independent library research, and the writing of research papers.

The University's location in the state capital provides direct access to many local, federal, and state agencies through internship and fieldwork opportunities. All graduate students should consult the Criminal Justice Graduate Coordinator when planning their program of courses for each upcoming semester.

All work toward the degree must be completed within a seven-year period. The general University requirements for graduate degrees are explained in the "Graduate Studies" section of this Catalog.

**Admission Requirements**

Admission as a classified graduate student in Criminal Justice requires:

- a baccalaureate degree from an institution accredited by a regional accrediting association;
- a minimum 3.0 GPA in the last 60 units attempted and a 3.0 GPA in the major field;
- a score of 4 or more in the Analytical Writing Section of the Graduate Record Examination (GRE) General Test;
- a letter outlining in some detail the applicant’s interests, goals, and expectations in pursuing the MS in Criminal Justice; and
- three letters of recommendation from individuals who can evaluate the applicant's potential for graduate study.

In addition, applicants are expected to have an undergraduate major in Criminal Justice or its equivalent. Whatever the applicant's undergraduate major, however, it is essential that each student have adequate preparation for graduate study. For this reason, some applicants (regardless of their undergraduate program) may be asked to remove deficiencies in their education by taking courses from the undergraduate curriculum before being admitted as a classified graduate student. In such cases, conditionally classified graduate status may be granted subject to completion of these courses with grade "B" or better. The number of units required to remove deficiencies will total no more than 15 and these must be taken in addition to the 30 units required for the MS. Any deficiencies will be noted on a written response to the admission application.

**Admission Procedures**

Applications are accepted as long as space for new students is available. If applications for graduate admissions exceed the capacity of the Department, the Department will limit admissions. Applicants will be ranked ordered for admission based on an evaluation of the academic record, GRE scores, professional and life experience, references, proposed academic plan and potential for diversifying, and enriching the Criminal Justice graduate program. For more admissions information and application deadlines, please visit http://www.csus.edu/gradstudies/.

All prospective graduate students, including Sacramento State graduates, must provide the following:

- an online application for admission;
- two sets of official transcripts from all colleges and universities attended, other than Sacramento State; and
- Graduate Record Exam (GRE) scores.
- a letter outlining in some detail the applicant’s interests, goals, and expectations in pursuing the MS in Criminal Justice; and
- three letters of recommendation from individuals who can evaluate the applicant's potential for graduate study.

Approximately six weeks after receipt of all items listed above, a decision regarding admission will be emailed by the University to the applicant.

**Advancement to Candidacy**

Each student must file an application for Advancement to Candidacy for the master's degree indicating the proposed program of graduate study. This procedure should begin as soon as the classified graduate student has:

- removed any deficiencies in admissions requirements;
- completed at least 12 units in the graduate program with a minimum 3.0 GPA; and
- taken the Writing Placement for Graduate Students (WPG) or taken a Graduate Writing Intensive (GWI) course in their discipline within the first two semesters of coursework at California State University, Sacramento or secured approval for a WPG waiver.

Students may not enroll in CRJ 502 before they are advanced to candidacy.

Advancement to Candidacy forms are available in the Office of Graduate Studies. The student fills out the form after planning a degree program in consultation with the Criminal Justice Graduate Coordinator. The completed form should then be returned to the Office of Graduate Studies for approval.

criminal justice system. Examines statistics, research and the literature
as it relates to female crime. Evaluates current patterns and practices of
law enforcement, criminal courts and corrections relative to women as
offenders, victims, and employees.

CRJ 112. Gangs and Threat Groups in America. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Examination of criminal organizations in America. The problems posed
by "anti-social groups," their structure and their history in contemporary
American society. The spectrum of social sciences is employed in an
examination of "illegal groups" and such issues as aggression and group
dynamics. Styles such as street gangs, prison gangs and traditional
organized crime are defined and studied.

CRJ 114. Sexual Offenses and Offenders. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Exploration of relevant factors and dimensions of sexual offenses
and offenders related to the Criminal Justice system, its cliental and
practitioners.

CRJ 115. Violence and Terrorism. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Systemically examines political violence, responses by government
institutions to that violence and implications of both for the
administration of justice. Content is structured along a continuum,
ranging from small scale violence to mass violence - assassinations,
terrorism by sub-national and transnational organizations, state terror
and genocide. In recent years political violence has progressively drawn
the American governmental institutions, particularly justice agencies,
into the global picture of violence committed by both domestic and
international terrorists.

CRJ 116. Restorative Justice and Conflict Resolution. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Examines concepts, principles, techniques of conflict resolution
and restorative justice in contemporary US legal system, global
peacebuilding, across cultures, and comparative justice practices.
The centerpiece is a classroom simulation that introduces students to
theoretic analysis and practical knowledge on resolution of conflicts
and crime. Addresses nonviolent responses to inter/intra state and
community conflicts. Topics include negotiation, mediation, victim
offender reconciliation, alternative dispute resolution (ADR), circle
sentencing, transitional justice, peace treaty, transformative justice,
tergroup dialogues, etc.

CRJ 117. American Criminal Justice and Minority Groups. 3 Units
General Education Area/Graduation Requirement: Race & Ethnicity
Graduation Requirement (RE), GE AREA D
Course examines the origins of racial/ethnic/gender/sex discrimination
and disparities in the US justice system. Additionally, course provides
a critical examination of the processes and outcomes of the justice
system by reviewing the major theories of crime and number of minorities
reported in crime data. Using discussions about various criminal justice
policies and their impact on minority groups, the course assesses the
changing dynamic of race relations and diversity in society and their
influences on justice administration.

CRJ 118. Drug Abuse and Criminal Behavior. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Sociogenic review of the case histories and life styles of selected juvenile
and adult offenders with a history of drug abuse. An inquiry into the drug
scene, "street" drugs, an examination of people who have abused drugs
and have been guilty of delinquent or criminal acts for the purpose of
determining the known and identified relationships between drug abuse
and crime, and probing the many unknown relationships. A sustained and
disciplined examination of the main issues and problems by the use of
case studies, discussion groups, and student involvement.

CRJ 121. The Structure and Function of the American Courts. 3 Units
Prerequisite(s): declares majors or chair permission.
