PHILOSOPHY

Program Description

The subject of philosophy encompasses such fundamental issues as the scope and limits of human knowledge, the ultimate constituents of reality, the sources of value and obligation, and the nature of logic and correct reasoning. Philosophy utilizes the findings of many other academic disciplines and, in its method, stresses clear, rigorous, impartial and systematic thought. The application of philosophical ideas to practical problems is central to the subject.

Sacramento State offers the Bachelor of Arts degree with a major in philosophy as well as a philosophy minor. Philosophy is an excellent vehicle for refining one's skills in critical reasoning and rational decision-making, making it a useful major for a wide variety of career goals. For instance, philosophy is good preparation for the study and practice of law. Philosophy majors who plan a career in teaching at the college or university level must commit themselves to a program of graduate study upon completion of the BA.

Special Features

- The Philosophy Department professors are active scholars who have presented many written papers and lectures at professional conferences. They are also active in the community, giving public lectures both on and off campus. Many participate in our Future Philosophers program by giving presentations to local high schools.

- The Philosophy Department houses The Center for Practical and Professional Ethics, which is dedicated to fostering better public understanding of contemporary ethical issues from a philosophical perspective.

- Flexible major and minor requirements allow students to choose concentrations and a range of electives to fit their specific interests and career objectives. The minor is an excellent complement to a variety of majors. It is also possible to complete the minor in such a way that almost all classes satisfy GE requirements.

- Students are encouraged to take part in the Philosophy Club. Its regular meetings are designed to promote group discussions about topics of philosophical interest. Club speakers have included students, philosophy faculty, professors from other departments on campus, and professors from other universities.

- The Philosophy Department offers a Philosophy Major Honors Program for qualified students. This program provides motivated students with an opportunity to expand their philosophy education, develop their writing, pursue philosophical research, prepare for graduate studies or law school, or enhance their career preparations. Students interested in pursuing graduate study in Philosophy are especially encouraged to participate in this program.
