

MINOR IN GEOLOGY

Units required for Minor: 18

Program Description

Geology is the study of the earth, its environments, and its history. It is an interdisciplinary science that combines geological observations and concepts with those of biology, chemistry, physics, and mathematics. Its goals are to study rocks, minerals, fossils, and energy and water resources, and to understand geologic principles and processes that shape the earth and its environments.

Program Requirements

Code	Title	Units
GEOL 10	Physical Geology	3
GEOL 10L	Physical Geology Lab	1
GEOL 12	Historical Geology	3
GEOL 12L	Historical Geology Lab	1
Select 10 units of upper division courses in Geology electives ¹		10
Total Units		18

¹ Students wishing to minor in Geology must contact a Geology advisor before beginning upper division work in Geology.
