

MINOR IN NUTRITION AND FOOD

Units required for Minor: 21, all of which must be taken in Nutrition and Food.

Program Description

The minor in Nutrition and Food gives students an understanding of the role food and nutrition play in health and disease prevention through coursework in food safety, cultural foods, nutrition & wellness, and metabolism and elective options in life-cycle nutrition, sports nutrition, and current nutrition controversies. The minor could be a relevant addition to any major and is particularly well-suited towards students pursuing careers in public health, gerontology, psychology, human development, health science, education, medicine, nursing, and other healthcare professions.

Minimum Grade Requirement

A minimum grade of "C-" is required for all prerequisite courses within and outside the Department.
