Welcome to California State University, Sacramento

We are the Hornet Family – a family of over 35,000 students, staff, and faculty. It is an interesting and transformational time at Sacramento State as our campus continues to navigate the impact of COVID-19. Despite the challenges, the Hornet Family continues to persevere and achieve in this new and difficult world.

Over the past few years, we have seen numerous accomplishments that are redefining Sacramento State. Our four-year and six-year graduation rates continue to improve. We are nearing completion of The WELL expansion and the 1,100 bed student housing complex on the south end of campus. Our programs and students would not have these successes without the outstanding faculty and curriculum at Sacramento State. Our faculty spend countless hours developing courses that will give our students the highest-quality and most relevant education for their field.

The catalog is designed to help you navigate your academic pathways to success throughout your time here at Sacramento State. It is a resource for courses, programs, and several academically-related policies; following its guidelines will help you graduate on time. I am proud to welcome you to the 2021-2022 catalog, and I look forward to seeing the Hornet Family back on campus soon. Stingers Up!

Sincerely,

Robert S. Nelsen
President
CALIFORNIA PROMISE

The California Promise Program (http://www.calstate.edu/sas/california-promise.shtml/) enables a specific number of CSU campuses to establish pledge programs for entering first-time students who are both interested and able to complete baccalaureate degrees in 4-years. All campuses have established programs for students with Associate Degrees for Transfer from any California Community College to complete their baccalaureate degrees in 2-years. The program is limited to students who are residents of California.

Students who commit to enter either the 4-year or 2-year pledge will be given a priority registration appointment for each state-supported enrollment period and will be provided with routine and thorough academic advisement. In order to remain in the program, students must meet with their advisors as prescribed, develop an enrollment plan and complete 30 semester units or the quarter equivalent within each academic year, including summer. Participating campuses may stipulate other requirements as well. Interested students entering the CSU should contact campus offices or visit CalState.edu (http://www2.calstate.edu/apply/freshman/getting_into_the_csu/pages/the-california-promise-program.aspx).

At Sacramento State, the "California Promise" is delivered through the "Finish in Four" program for first-year students and the "Through in Two" program for transfer students. These programs provide incentives and support for students who commit to taking a minimum number of units per year with the goal of completing their degrees in 4 years or 2 years, respectively.

Only admitted, incoming first-year students are eligible for the pledge.

Commitment:

- Enrollment in at least 15 units per semester, or 30 units per year, including summer session classes, if needed.
- Use of Smart Planner to plan all courses through graduation.
- One appointment per semester with a general advisor, graduation advisor, or major advisor to review courses and degree planning.
- Keep “on-track” with degree road map as determined by the Academic Requirements Report.
- An overall GPA of at least 2.0 each semester of enrollment until the completion of your degree.

Benefits:

- Priority registration for fall semester, spring semester, and summer session classes to stay “on track.”
- Grants of up to $1,000 for summer session courses. *Summer grants are subject to funding.
- In-person appointments with an advisor each semester to review courses and degree progression.
- The Sac State Rewards Program, which provides additional incentives through vouchers and discounts on campus goods and services.

Only admitted, incoming transfer students are eligible for the pledge.

Commitment:

The CSU System

Welcome to the California State University (CSU) – the nation’s largest comprehensive university with 23 unique campuses and eight off-campus centers serving approximately 486,000 students and employing more than 56,000 faculty and staff.

Each year, the university awards more than 129,000 degrees. CSU graduates are serving as leaders in the industries that drive California’s economy, including business, agriculture, entertainment, engineering, teaching, hospitality and healthcare. To learn more visit the California State University website (http://www.calstate.edu).

A Tradition of Excellence for More than Five Decades

Since 1961, the CSU has provided an affordable, accessible and high-quality education to 3.9 million living alumni throughout California. While each campus is unique based on its curricular specialties, location and campus culture, every CSU is distinguished for the quality of its educational programs. All campuses are fully accredited, provide a high-quality broad liberal educational program and offer opportunities for students to engage in campus life through the Associated Students, Inc., clubs and service learning. Through leading-edge programs, superior teaching and extensive workforce training opportunities, CSU students graduate with the critical thinking skills, industry knowledge and hands-on experience necessary for employment and career advancement.

Facts

- Today, one of every 20 Americans with a college degree is a CSU graduate.
- 1 of every 10 employees in California is a CSU graduate.
- The CSU awards about half of the bachelor’s degrees earned in California.
- The CSU awards 46% of California’s undergraduate nursing degrees.
- The CSU is the leading provider of teacher preparation programs in the state.
- In 2019-20, the CSU students earned nearly 24,000 business degrees and more than 10,000 engineering degrees.
- The CSU offers more than 160 fully online and 150 hybrid degree programs and concentrations.
- The CSU offers more than 5,700 online courses per term, providing more educational options to students who may prefer an online format to a traditional classroom setting.
- The CSU’s online concurrent enrollment program gives students the ability to enroll in courses offered by other campuses in the CSU.
- Over a recent four year period, the CSU has issued nearly 50,000 professional development certificates in education, health services, business and technology, leisure and hospitality, manufacturing, international trade and many other industries.
- CSU Centers for Community Engagement and Service Learning make available nearly 3,200 service learning courses.
- 64,000 CSU students participated in service-learning, contributing more than 934 thousand hours of service last year.

Governance

The CSU is governed by the Board of Trustees, most of whom are appointed by the governor and serve with faculty and student representatives. The CSU chancellor is the chief executive officer, reporting to the board. The campus presidents serve as the campus-level chief executive officers. The trustees, chancellor and presidents develop university-wide educational policy. The presidents, in consultation with the CSU Academic Senate and other campus stakeholder groups, render and implement local policy decisions.

CSU Historical Milestones

The individual California State Colleges were established as a system with a Board of Trustees and a chancellor in 1960 by the Donahoe Higher Education Act. In 1972, the system was designated as the California State University and Colleges, and in 1982 the system became the California State University. Today, the CSU is comprised of 23 campuses, including comprehensive and polytechnic universities and, since July 1995, the California State University Maritime Academy, a specialized campus.

The oldest campus—San José State University—was founded in 1857 and became the first institution of public higher education in California. The newest—California State University Channel Islands—opened in fall 2002, with freshmen arriving in fall 2003.

In 1963, the CSU’s Academic Senate was established to act as the official voice of CSU faculty in university wide matters. Also, the California State College Student Presidents Association—which was later renamed the California State Student Association, was founded to represent each campus student association on issues affecting students.

Through its many decades of service, the CSU has continued to adapt to address societal changes, student needs and workforce trends. While the CSU’s core mission has always focused on providing high-quality, affordable bachelor’s and master’s degree programs, over time the university has added a wide range of services and programs to support student success – from adding health centers and special programs for veterans to building student residential facilities to provide a comprehensive educational experience.

To improve degree completion and accommodate students working full-or part-time, the educational paradigm was expanded to give students the ability to complete upper-division and graduate requirements through part-time, late afternoon, and evening study. The university also expanded its programs to include a variety of teaching and school service credential programs, specially designed for working professionals.

In 2010, in an effort to accommodate community college transfer students, the CSU, in concert with the California Community Colleges (CCC), launched the Associate Degree for Transfer (ADT), which guarantees CCC transfer students with an ADT admission to the CSU with junior status. ADT has since proven to be the most effective path to a CSU for transfer students.

Always adapting to changes in technology and societal trends to support student learning and degree completion, the CSU launched CourseMatch, which enables CSU students to complete online courses at other CSU campuses, expanding enrollment opportunities and providing more educational opportunities for students who prefer an online format to a traditional classroom setting.

The CSU marked another significant educational milestone when it broadened its degree offerings to include doctoral degrees. The CSU independently offers Doctor of Education (Ed.D.), Doctor of Physical Therapy (DPT), Doctor of Audiology (AuD) and Doctor of Nursing Practice
(DNP) degree programs. Additionally, the CSU was recently authorized to offer the independent Doctor of Occupational Therapy (OTD). A limited number of other doctoral degrees are offered jointly with the University of California and private institutions in California.

The CSU strives to continually develop innovative programs, services and opportunities that will give students the tools they need to meet their full potential. In 2016, the university launched Graduation Initiative 2025, a bold plan to support students, increase the number of California’s graduates earning high-quality degrees and eliminate achievement and equity gaps for all students. Through this initiative, the CSU is ensuring that all students have the opportunity to graduate according to their personal goals, positively impacting their lives, families and communities.

By providing an accessible, hands-on education that prepares graduates for career success, the CSU has created a network of alumni that is so extensive and renowned that it spans across the globe. As of 2020-21, more than 3.9 million CSU alumni are making a difference in the lives of the people of California and the world.

Office of the Chancellor
The California State University
401 Golden Shore
Long Beach, CA 90802-4210
(562) 951-4000

Dr. Joseph I. Castro - Chancellor
Mr. Steve Relyea - Executive Vice Chancellor and Chief Financial Officer
Dr. Fred E. Wood - Interim Executive Vice Chancellor, Academic and Student Affairs
Mr. Andrew Jones - Executive Vice Chancellor, General Counsel
Mr. Garrett P. Ashley - Vice Chancellor, University Relations and Advancement
Ms. Evelyn Nazario - Vice Chancellor, Human Resources
Mr. Vlad Marinescu - Vice Chancellor and Chief Auditor Officer

Trustees of the CSU
Ex-Officio Trustees
The Honorable Gavin Newsom
Governor of California

The Honorable Eleni Kounalakis
Lieutenant Governor of California

The Honorable Anthony Rendon
Speaker of the Assembly

The Honorable Tony Thurmond
State Superintendent of Public Instruction

Dr. Joseph I. Castro
Chancellor of The California State University

Officers of the Trustees
The Honorable Gavin Newsom - President
Lillian Kimbell - Chair
Wenda Fong - Vice Chair
Andrew Jones - Secretary

Steve Relyea - Treasurer

Appointed Trustees
Appointments are for a term of eight years, except student, alumni, and faculty trustees whose terms are for two years. Terms expire in the year in parentheses. Names are listed alphabetically.

ABOUT THE UNIVERSITY

California State University, Sacramento

California State University, Sacramento offers life-changing possibilities for our students, preparing them to be leaders in their careers and communities. Our professors are known for their dedication to great teaching, and direct interaction with students helps to create extensive learning and research opportunities. Sacramento State’s location in California’s capital city also provides access to internships and job opportunities with some of the nation’s most influential public and private institutions.

A vibrant, metropolitan university, Sacramento State enrolls a multicultural student body and graduates about 7,000 students each year. The University has an annual economic impact on the region of nearly $900 million and more than $1 billion on the statewide economy.

Sacramento State remains one of the nation’s best higher education values, with student tuition fees among the lowest in the nation. About half of our students receive some form of financial assistance.

Our students choose from numerous fields of study. We offer a strong and diverse academic curriculum that includes nearly 60 undergraduate programs and more than 40 graduate programs, as well as two doctorates. In addition, numerous offerings, such as the Honors Program, help students pursue excellence, meet others with similar interests and develop strong ties with professors. Among our programs linked to state government is the nationally renowned Capital Fellows Program, in which graduate students work as full-time staff in the legislative, executive or judicial branch.

Preparing a career is a vital part of a Sacramento State education. We have one of the largest cooperative education programs in California, placing students in paid positions where they receive academic credit. Hundreds of other students participate in internships in business and government. One third of Sacramento State students use campus resources to provide a level of excellence at the University beyond what is possible through state funds.

University Mission and Strategic Planning

As California’s capital university, we transform lives by preparing students for leadership, service, and success. Sacramento State will be a recognized leader in education, innovation, and engagement.

Our campus imperatives are Student Success, Philanthropy, Diversity & Inclusion, Public Safety, and Community Engagement.

Hornet Honor Code

As proud members and representatives of the Sacramento State Hornet community, we commit ourselves to actively promoting honesty, integrity, respect, and care for every person, ensuring a welcoming campus environment, and striving to help every member of our Hornet Family feel a strong sense of belonging.

As Hornets, we will:
1. Promote an inclusive campus and community.
2. Listen and respect each other’s thoughts, interests, and views.
3. Value diversity and learn from one another.
4. Engage daily with mutual trust, care, and integrity.
5. Support a culture of honor and adhere to campus policies for honesty, ethics, and conduct.
6. Be proud to be Sac State Hornets

University Foundation at Sacramento State

The Foundation is an organization that was established to help raise and invest private gifts for the benefit of Sacramento State. It encourages philanthropy to the University and also provides a structure for accepting and managing gifts and endowments on behalf of Sac State.

Mission Statement

The University Foundation at Sacramento State promotes philanthropy to provide a level of excellence at the University beyond what is possible through state funds.

The members of the board of directors of The University Foundation accomplish this goal by helping to raise private resources that advance the mission and priorities of the University, and serving as ambassadors for philanthropy in the University community. The board provides stewardship in the prudent investment of resources, ensuring the integrity of the Foundation through accountability and transparency in its dealings.

Board of Directors

Robert S. Nelsen (President)
Tina Treis (Chair)  Holly Tiche (Vice Chair)  Sue McGinty (Secretary)  Paul Lau (Treasurer | Chair, Finance Committee)  Lisa Cardoza (Executive Officer)  Alice Perez (Chair, Audit Committee)  Bernice Bass de Martinez (Chair, Governance Committee Committee)  Christine Ault  Margot Bach  Jonathan Bowman  David Bugatto  Sonney Chong  Mark Drobny  Vanessa Guerra  David Lopez  Bob MacIntosh  Garry Maisel  Pam Stewart  Scott Syphax  Bud Travers  Amanda Merz (Alumni Association Representative)  Vacant (Faculty Representative)  Noah Marty (Student Representative)

California State University, Sacramento is fully accredited by the Western Association of Schools and Colleges, and for teacher education by the California Commission on Teacher Credentialing; the University is also a member of the National Council of Graduate Schools and the Western Association of Graduate Schools, and is on the list of approved colleges by the American Association of University Women.

Notice to Students RE: Professional Licensure and Certification
California State University programs for professions that require licensure or certification are intended to prepare the student for California licensure and certification requirements. Admission into programs for professions that require licensure and certification does not guarantee that students will obtain a license or certificate. Licensure and certification requirements are set by agencies that are not controlled by or affiliated with the California State University and licensure and certification requirements can change at any time.

The California State University has not determined whether its programs meet other states’ educational or professional requirements for licensure and certification. Students planning to pursue licensure or certification in other states are responsible for determining whether, if they complete a California State University program, they will meet their state’s requirements for licensure or certification. This disclosure is made pursuant to 34 CFR §668.43(a)(5)(v)(C).

76 Instructional Days; 87 Academic Workdays

*Academic workdays include Saturday at end of final week of instruction, preceding finals; and include Sunday of commencement, per campus preference. These three days are not included in instructional days.

**Total Academic Year** = 147 Instructional Days, 174 Academic Workdays

Certain collective bargaining agreements covering CSU employees are currently scheduled to expire prior to the last day indicated on this calendar. For employees in these bargaining units, any holiday(s) or winter break listed subsequent to the expiration date of the current agreement(s) are tentative and subject to negotiations with the appropriate exclusive representative.

### 2021-2022 Catalog

#### November 2021
- **November 11, 2021**: Veteran’s Day (Holiday, Campus Closed)<sup>1</sup>
- **November 25-26, 2021**: Thanksgiving Holiday (Holiday, Campus Closed)
- **December 10, 2021**: Last Day of Instruction
- **December 13-17, 2021**: Finals Week
- **December 18, 2021 - January 2, 2022**: Winter Recess (Students)
- **December 24, 2021**: Tentative Governor’s and President’s release time (Tentative Holiday Gift, Campus Closed)
- **December 25, 2021**: Christmas Day (Holiday, Campus Closed)
- **December 28, 2021**: Admissions Day Observed (Holiday, Campus Closed)
- **December 29, 2021**: Columbus and Indigenous People’s Day Observed (Holiday, Campus Closed)
- **December 30, 2021**: Lincoln’s Birthday Observed (Holiday, Campus Closed)
- **December 31, 2021**: President’s Day Observed (Holiday, Campus Closed)
- **January 1, 2022**: New Year’s Day (Holiday, Campus Closed)
- **January 3, 2022**: Last Day of Fall Semester; Fall Grades Due
- **January 4-18, 2022**: Winter Recess (Faculty)
- **January 11-14, 2022**: Spring 2022 Registration unavailable
- **January 15-18, 2022**: New Transfer Student Orientation and Registration
- **January 19-22, 2022**: Spring 2022 Semester Begins (Faculty)
- **January 23-27, 2022**: University-wide and/or College Meetings (Academic Workdays)
- **January 28-30, 2022**: Spring 2022 Registration unavailable
- **January 31-2022**: Instruction Begins
- **February 4-7, 2022**: Spring 2022 Late Registration and Schedule Adjustment
- **February 8-12, 2022**: Spring 2022 Late Registration and Change of Schedule completed by petition at departments
- **February 13-17, 2022**: Presidents’ Day (Holiday Observed in December 2022) Campus Open and Classes Held
- **February 18, 2022**: Census Date
- **March 1-2, 2022**: Spring Recess
- **March 3, 2022**: Cesar Chavez Birthday Observed (Holiday, Campus Closed)
- **May 13, 2022**: Last Day of Instruction
- **May 16-20, 2022**: Finals Week
- **May 20-22, 2022**: Commencement
- **May 23-24, 2022**: Evaluation Days (Academic Workdays)
- **May 25, 2022**: Last Day of Academic Year; Spring Grades Due
- **May 30, 2022**: Memorial Day (Holiday, Campus Closed)

#### December 2021
- **December 11, 2021 - January 2, 2022**: Spring 2022 Registration unavailable
- **January 3-13, 2022**: New Transfer Student Orientation and Registration
- **January 17, 2022**: Martin Luther King, Jr. Day (Holiday, Campus Closed)
- **January 14-20, 2022**: Spring 2022 Late Registration and Change of Schedule resumes
- **January 19-22, 2022**: Spring 2022 Semester Begins (Faculty)
- **January 19-22, 2022**: University-wide and/or College Meetings (Academic Workdays)
- **January 21-23, 2022**: Spring 2022 Registration unavailable
- **January 24, 2022**: Instruction Begins
- **January 24-30, 2022**: Spring 2022 Late Registration and Schedule Adjustment
- **February 4-7, 2022**: Spring 2022 Late Registration and Change of Schedule completed by petition at departments
- **February 8-12, 2022**: Presidents’ Day (Holiday Observed in December 2022) Campus Open and Classes Held
- **February 13-17, 2022**: Presidents’ Day (Holiday Observed in December 2022) Campus Open and Classes Held
- **February 18, 2022**: Census Date
- **March 1-4, 2022**: Spring Recess
- **March 5-9, 2022**: Cesar Chavez Birthday Observed (Holiday, Campus Closed)
- **May 13, 2022**: Last Day of Instruction
- **May 16-20, 2022**: Finals Week
- **May 20-22, 2022**: Commencement
- **May 23-24, 2022**: Evaluation Days (Academic Workdays)
- **May 25, 2022**: Last Day of Academic Year; Spring Grades Due
- **May 30, 2022**: Memorial Day (Holiday, Campus Closed)

#### February 2022
- **February 11, 2022**: President’s Day Observed (Holiday, Campus Closed)
- **February 12-16, 2022**: Spring 2022 Late Registration and Change of Schedule completed by petition at departments
- **February 17-21, 2022**: Presidents’ Day (Holiday Observed in December 2022) Campus Open and Classes Held
- **February 22, 2022**: Census Date
- **March 1-4, 2022**: Spring Recess
- **March 5-9, 2022**: Cesar Chavez Birthday Observed (Holiday, Campus Closed)
- **May 13, 2022**: Last Day of Instruction
- **May 16-20, 2022**: Finals Week
- **May 20-22, 2022**: Commencement
- **May 23-24, 2022**: Evaluation Days (Academic Workdays)
- **May 25, 2022**: Last Day of Academic Year; Spring Grades Due
- **May 30, 2022**: Memorial Day (Holiday, Campus Closed)

### Total Academic Year
- **76 Instructional Days; 87 Academic Workdays**

1. Certain collective bargaining agreements covering CSU employees are currently scheduled to expire prior to the last day indicated on this calendar. For employees in these bargaining units, any holiday(s) or winter break listed subsequent to the expiration date of the current agreement(s) are tentative and subject to negotiations with the appropriate exclusive representative.

### Academic Calendar - Spring 2022

**Please call (916) 278-1000 (Option 4) for registration inquiries.**

For more information about Commencement, such as the Commencement schedule, please visit the Commencement website (http://www.csus.edu/commencement/).

- **June 2021**: Spring 2022 Schedule Available at My Sac State
- **Nov 15 – Dec 10, 2021**: Spring 2022 Registration for continuing students in class level priority order

### Instructional Days and Academic Workdays

- **73 Instructional Days**
- **87 Academic Workdays** - Units 3 & 4

*Academic workdays include Saturday at end of final week of instruction, preceding finals; and include Sunday of commencement, per campus preference. These three days are not included in instructional days.

 Certain collective bargaining agreements covering CSU employees are currently scheduled to expire prior to the last day indicated on this calendar. For employees in these bargaining units, any holiday(s) or winter break listed subsequent to the expiration date of the current agreement(s) are tentative and subject to negotiations with the appropriate exclusive representative.
Academic Honesty

Vice President for Student Affairs
(916) 278-6060

Honesty is essential to the integrity of any institution of higher education. Accordingly, Sacramento State expects all faculty, staff, and students to protect the integrity of the curriculum and fair grading. Sacramento State is a publicly-assisted institution legislatively empowered to certify competence and accomplishment in general and discrete categories of knowledge. Because academic dishonesty defrauds all those who depend upon the integrity of the University, Sacramento State must diligently defend the integrity of all academic programs.

Grading System

Lower division courses (numbered 1-99), upper division courses (100-199), graduate level courses (200-299 and 500 and above) and some postbaccalaureate Education courses (300-499) are graded:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Grade Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.0</td>
</tr>
<tr>
<td>A-</td>
<td>3.7</td>
</tr>
<tr>
<td>B+</td>
<td>3.3</td>
</tr>
<tr>
<td>B</td>
<td>3.0</td>
</tr>
<tr>
<td>B-</td>
<td>2.7</td>
</tr>
<tr>
<td>C+</td>
<td>2.3</td>

</tr>
<tr>
<td>D</td>
<td>1.0</td>
</tr>
<tr>
<td>D-</td>
<td>0.7</td>
</tr>
<tr>
<td>F</td>
<td>0.0</td>
</tr>
</tbody>
</table>

Certain designated courses, e.g., co-curricular courses, fieldwork, field tours, workshops, theses, supervised teaching and similar courses are graded Credit ("CR") or No Credit ("NC"). The Credit ("CR") grade will equate to "A", "B" or "C" level competence for undergraduate courses and "A" or "B" level competence for graduate courses. The University uses a plus/minus grading system for letter grades. The grade of "C-" equates to a Credit for undergraduate courses and the "B-" equates to a Credit for graduate courses.

A student's academic standing is determined by grade point average (GPA). Grade point average is computed by dividing quality points (the total number of grade points earned) by the number of quality hours (total attempted hours excluding courses graded "CR" or "NC"). A grade point average of 2.0 indicates a "C" average, a 3.0 indicates a "B" average, etc. The University does not award a grade of "A+".

Definition of Grade Symbols

A  Exemplary achievement of the course objectives. In addition to being clearly and significantly above the requirements, work exhibited is of an independent, creative, contributory nature.

B  Superior achievement of the course objectives. The performance is clearly and significantly above the satisfactory fulfillment of course requirements.

C  Satisfactory achievement of the course objectives. The student is now prepared for advanced work or study. Note: The letter grade "C" does not imply satisfactory achievement at the graduate level.

D  Unsatisfactory achievement of course objectives, yet achievement of a sufficient proportion of the objectives so that it is not necessary to repeat the course unless required to do so by the academic department.

F  Unsatisfactory achievement of course objectives to an extent that the student must repeat the course to receive credit.
Withdrawal Unauthorized indicates that an enrolled student did not withdraw from the course and also failed to complete course requirements. It is used when, in the opinion of the instructor, completed assignments or course activities, or both, were insufficient to make normal evaluation of academic performance possible. For purposes of grade point average, this symbol is equivalent to an “F”. (See Deletion Policy)

Satisfactory achievement of course objectives. (Not used in Sacramento State grade point calculation.)

 Unsatisfactory achievement of course objectives. (Not used in Sacramento State grade point calculation, but is calculated as “F” by many graduate and professional schools.)

Incomplete Authorized. A portion of the requirements usually completed during one term remains to be completed and evaluated. (Not used in grade point calculation.) See Incomplete Grade policy, which follows.

Report in progress. Work is in progress on thesis, project or similar course extending beyond one term. (Not used in grade point calculation.) See “RP” Grade Policy, which follows.

The symbol “W” indicates that the student was permitted to withdraw from the course after the fourth week of instruction with the approval of the instructor and appropriate campus officials. It carries no connotation of quality of student performance and is not used in grade point calculation.

Report Delayed because a grade has not been reported to the registrar due to circumstances beyond control of student. (Not used in grade point calculation.)

Audit symbol indicates student’s status as auditor and does not earn degree credit. (See Admission of Auditors.)

Audit Grade Symbol
Enrollment as an auditor is subject to permission of the instructor provided that enrollment in a course as an auditor shall be permitted only after students otherwise eligible to enroll on a credit basis have had an opportunity to do so. Auditors are subject to the same fee structure as credit students and regular class attendance is expected. Once enrolled as an auditor, a student may not change to credit status unless such a change is requested no later than the last day to add classes in that term. A student who is enrolled for credit may not change to audit after the fourth week of instruction.

An auditor is a student who enrolls in a course for informational purposes only. Regular attendance is customary and expected, but an auditor does not participate in the class, does not take examinations, and does not receive academic credit for the course. Auditors are not permitted to enroll in activity, curricular, or participatory courses.

Incomplete Grades
The symbol “I” (Incomplete Authorized) indicates that a portion of required coursework has not been completed and evaluated during the course due to unforeseen but fully justified reasons and that there is still a possibility of earning credit. It is the responsibility of the student to bring pertinent information to the attention of the instructor and to determine from the instructor the remaining course requirements that must be satisfied to remove the Incomplete. A final grade is assigned when the work agreed upon has been completed and evaluated. An “I” (Incomplete Authorized) should not be assigned when it is necessary for the student to attend additional class meetings to complete the course requirements. When assigning an “I” grade faculty will complete an online contract visible to student indicating assignments needing to be completed to meet the terms of the contract. An Incomplete must be made up within the time limit specified by the instructor when the completed “I” grade is assigned. The time limit may not extend beyond 12 months. If the instructor does not specify a time limit, then the student must meet the conditions specified by the instructor within 12 months from the day grades are due on the Academic Calendar (the last day of the term) the same term in which the ”I” grade was assigned. This limitation prevails whether or not the student maintains continuous enrollment.

Failure to complete the assigned work will result in an Incomplete being converted to an “F” or “NC” on the academic transcript.

Incomplete Grades
Graduating Seniors
If a graduating senior has an incomplete “I” grade in a course in which
1. the student has not completed the course requirements, and
2. the time limit has not yet expired on the student’s graduation date, and the course is not required for the degree,
then the “I” grade remains on the official transcript as "I/Not Completed”.

RP Grade Policy
The “RP” symbol is used in connection with courses that extend beyond one semester. It indicates that work is in progress, but assignment of a final grade must await completion of additional work. The “RP” symbol shall be replaced with the appropriate final grade within one year of its assignment (within two years for master’s culminating requirement). If no final grade is reported by the instructor within the time limit, the “RP” will be converted to “F” or “NC” on the academic transcript.

C- Grades for Prerequisite Courses
A grade of “C-” or better is required for prerequisite courses. If a department requires a “C” or better in a prerequisite course and will not
accept a “C-” grade, then the department must specify so in the catalog course description. This policy applies to all undergraduate-level courses.

**Credit/No Credit Grading Option**

With the exception of certain designated courses, e.g., co-curricular courses, fieldwork, field tours, workshops, theses, supervised teaching, and similar courses, academic achievement is evaluated on a letter grade basis (“A”-“F”). Sacramento State students may choose to substitute Credit/No Credit (“CR”/“NC”) grading for a maximum of 15 letter-graded Sacramento State credit hours/units subject to the following conditions:

**Undergraduate Students**

1. No more than 15 units taken under the Sacramento State “CR”/“NC” option may apply toward a baccalaureate degree (this does not include credits obtained from challenge or Advanced Placement examinations).
2. Any course which is graded “CR”/“NC” cannot be used to satisfy requirements in the major, the minor, or general education unless the course is identified in the catalog as graded “CR”/“NC”. This applies to all University graduation requirements.
3. Students must submit the appropriate form requesting “CR”/“NC” grading to the Office of the University Registrar before the census date of the semester.
4. The instructor will assign a letter grade on the grade roster. If the grade earned by the student who elected the “CR”/“NC” option is “C-” or higher, “CR” will be posted to the student’s transcript. If the assigned grade is lower than “C-”, “NC” will be posted.

**Graduate Students**

1. Classified or conditionally classified graduate students, with the consent of their advisor and department, may elect “CR”/“NC” grading in courses normally letter graded. Units earned in this manner may not count toward graduate degree requirements.
2. Unclassified graduate students and postbaccalaureate credential students also may elect “CR”/“NC” grading in courses normally letter graded. Units earned in this manner may not be used to meet course requirements for admission to classified status or be applied to meeting second bachelor’s, certificate or credential requirements (unless department policy specifies otherwise).
3. Graduate students must submit the appropriate form requesting “CR”/“NC” grading, including approved signatures if required, to the Registrar’s Office before the census date of the semester.
4. The instructor will assign a letter grade on the grade roster. If the grade earned by the student who elected the “CR”/“NC” option is “B-” or higher, “CR” will be posted to the student’s transcript. If the assigned grade is lower than “B-”, it will be posted as “NC”.

**Co-Curricular Courses**

Co-curricular courses are designed to enhance student development, enrich the student’s educational experience and/or facilitate involvement in University life. Co-curricular courses are graded “CR”/“NC”. No more than 15 units of co-curricular coursework may be applied toward a baccalaureate degree.

Co-curricular courses include the following categories of courses (fieldwork and internships required in a major or minor program are not subsumed in this category):

1. elective courses that provide students opportunities to practice in a field related to their major, e.g., cooperative education, field tours, workshops, tutoring, fieldwork and internships;
2. courses that allow students to apply an individual talent or skill as a participant in intercollegiate competition or other extracurricular activities and events organized by the University;
3. orientation courses, e.g., introduction to college studies, academic strategies and study skills, career orientation; and
4. courses that promote student involvement in University governance and service, e.g., participation in student government, peer advising, residence hall advisor training.

**Grade Corrections, Deletions, and Appeals**

**Grade Correction Policy**

A grade correction is possible only in the case of a declared administrative error. A correction in letter grade must be approved by the instructor of record and the department chairperson by the last day of the semester, either spring or fall, after the grade is posted to the student’s record. The definition of administrative error is an error made by the instructor or assistant in grade determination or posting.

A grade Change may not be made as a result of work completed or presented following the close of a grade period, except for completion of work when an Incomplete grade was issued. Grades cannot be changed to “W” nor can they be changed from a letter grade to Credit/No Credit.

A grade correction after the semester following grade award will be allowed only if the course instructor and chair of the department where the course was offered submit the grade change and an explanation for the late grade correction to the Registrar. In the case where the course instructor and/or department chair is unavailable, the department faculty or a committee of department faculty must approve the grade correction. In such a case, a statement of the nature of the exception, the department’s method of approval, and the date of approval, must be forwarded with the grade correction.

**Deletion Policy**

A petition to delete grades may be submitted for consideration by the Academic Standards Committee for the following reasons only:

1. to remove penalty grades assigned due to failure to complete a course for causes related to illness. Medical verification is required;
2. to correct errors by academic departments. Department verification is required;
3. to correct errors made in registration (e.g., use of wrong class code). The Registrar’s Office must confirm this error.

Petitions to delete grades must be submitted within one academic year from the end of the semester in which the grade was received. After a degree has been awarded, no petitions will be considered to delete grades posted prior to that award.

**Grade Appeal Procedures**

The campus has a single grade appeal procedure available to students in all academic disciplines. Copies of the procedure are available in each academic department office, in the Office of the Provost and Vice President for Academic Affairs and the Office of the Vice President for Student Affairs. Information in its entirety about the grade appeal process can be accessed on the Sacramento State Web site at http://www.csus.edu/umanual/Acad%20Affairs/Grade_Appeal_Policy.htm.
Unauthorized Withdrawal Policy - WU (Withdrawal Unauthorized)

The University requires that students process an official drop or withdrawal online or by petition within published deadlines. Failure to withdraw properly from a course may result in assignment of a "WU", "F", or "NC" grade in the course.

The "WU" may be assigned in the case where the student has not completed sufficient course assignments or participated in sufficient course activity to make it possible, in the opinion of the instructor, to report satisfactory or unsatisfactory completion of the class by use of a letter grade (A - F).

For purposes of grade point average, a "WU" grade is equivalent to an "F". However, in courses which are graded Credit/No Credit, the use of the "NC" grade should be assigned and not the "WU" grade.

Petition to Discount First WU Grade. In the first term that a student receives one or more "WU" grades, the student may petition to have the "WU" grades dropped from their GPA calculation. To do so the student must obtain a "Petition to Discount First WU Grade" from the University Registrar's Office or the Academic Advising Center.

The student may submit a petition at any time prior to conferral of degree. While the petition will result in the "WU" grades being excluded from the GPA calculation, the "WU" grade remains on the student's transcript. The "Petition to Discount First WU Grade" only applies to the first term in which the student receives one or more "WU" grades. This "Discount" policy does not apply to "WU" grades earned in subsequent terms or "WU" grades received at institutions other than Sacramento State.

A student re-enrolling in a course in which the student previously received a discounted first WU grade, will not be considered to be officially repeating the course. These units will not be considered "repeat units" as specified in the University's Repeat Policy.

Student Complaint Hearing Policy

Vice President for Student Affairs
(916) 278-6060

The Student Complaint Hearing Policy addresses grievances that result from alleged inequitable treatment by a University employee, enforcement of an unfair policy, or failure to adhere to a University policy that does not fall into the categories of grades, student discipline, or harassment/discrimination issues. This policy reflects the University's desire to resolve disputes within each program center at an informal level. If such a resolution is not possible, this complaint procedure provides a fair and collegial hearing process.

For a copy of the policy, contact the offices of the Vice President for Student Affairs, any Program Center administrators or refer to the governing shelf at the University Library.

Student Complaint Procedure (Complaints Regarding the CSU)

The California State University takes complaints and concerns regarding the institution very seriously. If you have a complaint regarding the CSU, you may present your complaint as follows:

1. If your complaint concerns CSU's compliance with academic program quality and accrediting standards, you may present your complaint on the Western Association of Schools and Colleges (WASC) (http://www.wascstudent.org/comments/) website. WASC is the agency that accredits the CSU's academic program. If you believe that your complaint warrants further attention after you have exhausted all the steps outlined by WASC, you may file an appeal with the Assistant Vice Chancellor, Academic and Student Affairs at the CSU Chancellor's Office.

2. If your complaint concerns an alleged violation by CSU of any law that prohibits discrimination, harassment or retaliation based on a protected status (such as age, disability, gender (or sex), gender identity, gender expression, nationality, race or ethnicity (including color or ancestry), religion or veteran or military status), you may present your complaint as described in Section XVI (Nondiscrimination Policy).

3. If your complaint concerns an alleged violation by CSU of other state law, including laws prohibiting fraud and false advertising, you may present your complaint to the campus president or designee at nelsen@csus.edu. See Procedure for Student Complaints—Executive Order No. 1063 for details regarding the complaint requirements and complaint process. The president or designee will provide guidance on the appropriate campus process for addressing your particular issue.

4. Other complaints regarding the CSU may be presented to the campus dean of students, who will provide guidance on the appropriate campus process for addressing your particular issue.

This procedure should not be construed to limit any right that you may have to take action to resolve your complaint.

Repeating Courses

The policy governing course repeats at California State University, Sacramento follows Executive Order 1037-Grading Symbols, Minimum Standards Governing the Assignment of Grades, Policies on the Repetition of Courses, Policies on Academic Renewal, and Grade Appeals.  

1. Undergraduate students may repeat courses only if they earned grades lower than a C (C-, D+, D, D-, F, WU, NC).
2. Course repeats with "Grade Forgiveness" (Grade Forgiveness is the circumstances in which the new grade replaces the former grade in terms of the calculation of GPA, etc.):
   a. Undergraduate students may repeat up to 16 semester-units with grade forgiveness.
   b. Undergraduate students may repeat an individual course for grade forgiveness no more than one time. A course may be repeated no more than two times without petition.
   c. Grade forgiveness shall not be applicable to course for which the original grade was the result of a finding of academic dishonesty.
3. Course Repeats with "Grades Averaged":
   Undergraduate students may repeat an additional 12 semester-units, i.e., units in addition to the 16 semester-units for which grade "replacement" is permitted. In such instances the repeat grades shall not re-place the original grade; instead all grades (except any forgiveness grades) shall be calculated into the student's overall grade-point average.
4. Departments and Colleges may not have a repeat policy that differs from the campus policy. (Note: restrictions on repeats for enrolled and declared majors, pre-majors, minors, and certification students within specific programs, represent substantive program changes and not exceptions to the repeat policy.)
5. The limits apply only to units completed at the campus (i.e., While courses taken elsewhere may be repeated here or used to replace grades previously earned here (if the original grade was below a C), only the courses taken here will be counted towards the repeat caps).

California State University, Executive Order 1037 - Grading Symbols, Minimum Standards Governing the Assignment of Grades, Policies on the Recurrence of Courses, Policies on Academic Renewal, and Grade Appeals, eff. August 1, 2009, https://www.calstate.edu/EO/EO-1037.html

2 The default sequence for applying forgiven and averaged grades is to forgive grades for repeated courses that are eligible (that have not already been repeated once) until the forgiveness cap has been reached, whereupon they will be averaged until the repeat cap is reached. Grades for a course that has already been forgiven once will be averaged. Any residual units from the forgiveness cap that are not used for forgiveness may be used for averaging, within the 28 unit total repeat cap.

Any exception to the Repeat Policy may be granted through petition to the student’s major department and the Registrar’s Office.

Addendum - Transfer Credit

The existing repeat policy above will apply to transfer credit unless otherwise noted (see Number 5 above). Undergraduate students may repeat courses at California State University, Sacramento OR another college or university only if they earned grades lower than a C (C-, D+, D, D-, F, WU, NC). This policy applies to students who are repeating a course first taken at California State University, Sacramento and repeated at other college or university. This policy also applies to students who are repeating a course first taken at another college or university and repeated at California State University, Sacramento.

If a student has repeated a course in which that student has earned a grade of C or higher, neither the course credit nor grade will be recognized as a valid repeat and will not be forgiven or averaged. In these instances, the original grade will remain on the student’s record.

Academic Renewal

When all the policy conditions are met, Sacramento State may disregard previous unsatisfactory academic coursework, taken at any college, from all considerations associated with requirements for the baccalaureate degree. The request is limited to two semesters or three quarters of coursework. The policy action removes the earned hours, quality hours, and quality points (grade points) for the entire semester(s) or quarter(s) under consideration. The Academic Renewal policy does not allow for partial deletion of coursework within any semester or quarter. (See Grade Deletion Policy.) Sacramento State does not consider requests to delete any course completed and applied toward a baccalaureate degree after the degree has been awarded.

Requirements and Procedure

1. Using the Academic Renewal Petition, the student must present evidence that:
   a. the level of performance was due to extenuating circumstances;
   b. one or more additional terms of enrollment would be required to complete baccalaureate requirements if the request was not approved, i.e., all degree requirements would be met except the required minimum Sacramento State and overall GPA (2.000);
   c. five years have elapsed since the most recent coursework to be disregarded was completed (e.g., Fall 2001 semester will be considered after the Fall 2006 semester);
   d. the student has completed additional academic coursework at Sacramento State subsequent to the work to be disregarded;
   e. the additional academic coursework completed conforms with the following sliding scale: 15 semester units with at least a 3.0 GPA, 30 semester units with at least a 2.500 GPA, 45 semester units with at least a 2.000 GPA (work completed at another college/university cannot be used to satisfy this requirement); and
   f. the petitioner is currently attending Sacramento State, has filed to graduate from Sacramento State and has met with a degree evaluator from the Evaluations Office to determine if additional coursework is needed.

2. If another accredited college has acted to remove previous work from degree consideration, such action will be honored in terms of its policy. However, elimination of any work in a term by any other institution will reduce by one term the two-semester maximum that may be disregarded by Sacramento State.

3. When such action is taken, the student’s permanent academic record will be annotated so that it is readily evident that no work taken during the disregarded term(s), even if satisfactory, may apply toward baccalaureate requirements. However, all work must remain legible on the record ensuring a true and complete academic history.

4. Final determination that one or more terms will be disregarded will be based on careful review of evidence by a committee, which will include the Provost and Vice President for Academic Affairs, the College Dean of the major, the University Registrar, the Associate Registrar for Graduation and Evaluation, and the Vice President for Student Affairs.

Scholastic Standards

The University recognizes superior academic achievement at the time of admission, at the end of each semester and at the time of graduation. In addition, academic standards have been set for continuation of enrollment privileges based on minimum achievement required for completion of degree requirements.

Recognition of Academic Achievement

Honors List

Semester honors are awarded and the notation “Dean’s Honor List” is posted to the permanent academic record for freshmen earning a 3.000 grade point average and other undergraduates earning a 3.250 grade point average. To be eligible in either category, students must complete a minimum of 12 letter-graded units with no Incomplete grades and no grade lower than “C-“.

Graduation with Honors

Honors at Graduation are awarded to Sacramento State bachelor’s degree graduates who complete a minimum of 30 graded units in residence with a qualifying grade point average.

Honors are awarded based on the following grade point average ranges:

<table>
<thead>
<tr>
<th>Honor</th>
<th>Grade Point Average</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cum Laude</td>
<td>3.50-3.749</td>
</tr>
<tr>
<td>Magna Cum Laude</td>
<td>3.75-3.899</td>
</tr>
<tr>
<td>Summa Cum Laude</td>
<td>3.90-4.000</td>
</tr>
</tbody>
</table>
For posting of honors on the transcript, the GPA calculation will include all Sacramento State coursework, including the final semester. Second bachelor’s degree graduates are not eligible for Honors at Graduation.

**Scholastic Standards for Continuation of Enrollment**

**Undergraduate Students**

The grade point average in all courses attempted at Sacramento State plus the overall GPA in courses attempted at all accredited colleges are used in determining whether a student is demonstrating satisfactory progress toward degree completion. Students must maintain a 2.000 (“C”) average each semester, at Sacramento State, and overall. Failure to do so will subject the student to the loss of enrollment privileges as indicated in the following rules.

To be eligible for a bachelor’s degree, a student must earn a grade point average of 2.000 in the overall college record, in the cumulative Sacramento State record, in all upper division courses used to complete the major, in all courses used to complete the minor, and in all courses used to complete General Education.

**Graduate Students**

See Graduate Degree Requirements/Scholarship.

**Undergraduate Academic Action Categories**

**Good Standing**

Undergraduate students whose Sacramento State and cumulative grade point average (GPA) is 2.0 or above are considered in good academic standing.

**Academic Probation**

Students whose cumulative Sacramento State grade point average or overall grade point average falls below 2.000 will be placed on academic probation. Students on probation are eligible to enroll in the subsequent semester.

**Continued Probation**

Students on probation will be placed on Continued Probation if they:

- earn a 2.000 in the current semester, but have a Sacramento State GPA or overall GPA below 2.000.
Students placed on Continued Probation will be limited to a maximum course load of 14 units per semester until they return to academic good standing.

**Academic Disqualification**

If a student is on academic probation and the Sacramento State or cumulative grade point average is below the following levels, the student will be academically disqualified if their Sacramento State or cumulative GPA is below a:

- Freshman (30 units) will be academically disqualified if their Sacramento State GPA is below a 1.50;
- Sophomores (30-59.9 units) will be academically disqualified if their Sacramento State GPA is below 1.70;
- Juniors (60-89.9 units) will be academically disqualified if their Sacramento State GPA is below a 1.85;
- Seniors (90 or more units) will be academically disqualified if their Sacramento State GPA is below a 1.95.

Students not on probation will be disqualified if the cumulative GPA is 1.00 or less. Disqualified students will not be allowed to register unless they are formally reinstated and/or readmitted to the University.

**Academic Dismissal**

A student reinstated after disqualification who earns a semester GPA below 2.00 or fails to meet other requirements specified in the reinstatement contract will be dismissed. Academic Dismissal means that enrollment privileges have been withdrawn. Dismissed students are not eligible to use the immediate reinstatement procedure. Academically dismissed students are not eligible for readmission without at least one semester of absence from Sacramento State. Students who have been dismissed twice must sit out two years before petitioning to return.

**Administrative Probation and Administrative Disqualification**

Undergraduate students are subject to Administrative Probation for the following reasons:

1. Withdrawal from all or a substantial portion of their courses in two successive terms or in any three terms.
2. Repeated failure to progress toward a degree or other program objective, when such failure is due to circumstances within the control of the student.
3. Failure to comply, after due notice, with an academic requirement or regulation.

Students who do not meet the conditions for removal of administrative probation may be subject to further administrative actions, including Administrative Disqualification.

**Notification**

Student Service Center  
Office of the University Registrar  
Lassen Hall 1000  
(916) 278-1000

Students will be notified of their academic status (academic probation, continued probation, academic disqualification or academic dismissal) by letter, and/or My Sacramento State message and/or email at the end of each semester. Students on Probation or Continued Probation are required to meet with an advisor in their major department. Departments may block registration of students who fail to meet advising appointments. Students receiving veterans’ educational benefits may be ruled ineligible for continued benefits if, after one semester of unsatisfactory achievement (probation or disqualification), they do not return to academic Good Standing at the completion of the next semester.

**Reinstatement of Disqualified Students**

Students who have been academically disqualified may petition for reinstatement. The Petition for Reinstatement may be obtained from the reinstatement website (https://www.csus.edu/student-affairs/centers-programs/student-services-center/reinstatement.html). Reinstatement petitions are reviewed by a committee of faculty and professional advisors, who make recommendations for a student’s future academic standing. If reinstated, students will be placed on an academic contract that may stipulate maximum units, specific courses, and achievement levels. Failure to meet the conditions of the reinstatement contract and/or failure to achieve a subsequent semester GPA of 2.00 or higher will result in academic dismissal.

Students not recommended by their academic department for continuation in the first choice major may be considered for University reinstatement into a different major when approved by the department offering that major. Students reinstated as undeclared will not be allowed to enroll in upper division major courses during the period of the contract without the permission of the department chair or designee for that major.

Deadlines to petition for immediate reinstatement are as follows:

- Spring Semester: Third week of January
- Fall Semester: End of June

**Note:** Deadlines are strictly enforced.

Students whose petitions are approved are subject to review each semester until the Sacramento State GPA and overall cumulative GPA reach the minimum standard of 2.00 for academic Good Standing.

**Readmission of Academically Dismissed Students**

Students who are academically dismissed will not be considered for continued enrollment at the University for at least one semester depending on semester of dismissal. Academically dismissed students need to meet with an advisor for advice on developing a plan to remedy the conditions that led to dismissal.

After the mandatory interruption in enrollment, students who were academically dismissed must submit a petition for “Readmission after Dismissal” which is available on the Reinstatement website (https://www.csus.edu/student-affairs/centers-programs/student-services-center/reinstatement.html). Petitions for Reinstatement after Dismissal are available during the month of August in order to be reviewed for possible Spring term admission. The appeal must include a recommendation from the student’s major department. A student whose appeal is granted is subject to academic review each semester until the Sacramento State GPA and overall grade point average reach the minimum standard of 2.00 for academic Good Standing. Readmitted students who fail to meet conditions specified for readmission will be academically dismissed. A second dismissal will result in a mandatory interruption of at least two years.

**Note:** Deadlines are strictly enforced.

**Reinstatement Procedure for College of Business Undergraduate Students**

Business students who have been disqualified or dismissed from the University for academic reasons are no longer considered business students. This means that disqualified or dismissed students will not
be allowed to enroll in 100-level business courses until they have been reinstated into the business major.

Undergraduate students who did not enroll in the University the semester(s) immediately following their disqualification must obtain a Petition for Reinstatement or Petition for Readmission Following Dismissal from the Academic Advising and Career Center or the Student Services Counter, Lassen Hall. If enrolled in the University for non-business classes the semester(s) immediately following disqualification, the student must obtain a Change of Major - Reinstatement Petition from the Undergraduate Business Advising Center (UBAC), indicating the request for reinstatement into the major. All petitions, along with supporting documentation of explanation and a complete set of transcripts of all college-level courses taken, must be submitted to the UBAC, Tahoe Hall 1030, no later than the first Friday of any given month. Petitions are evaluated each month and recommendations are made for the subsequent semester.

All students must check with the Academic Advising and Career Center to assure they comply with the University’s reinstatement policy and procedures.

**Official Transcripts**

Student Office Center

Office of University Registrar

Lassen Hall 1000

(916) 278-1000

Sacramento State issues official transcripts only. There is a charge per transcript. Transcripts may be ordered in person, by mail (student’s signature required), or online (for an additional fee). Orders are not accepted by telephone, fax, or email. When ordering transcripts in person, please be sure to bring a government issued photo ID. Transcript requests will be returned if you owe any financial or administrative obligation to the University. Please refer to the Office of the University Registrar’s Web site at: https://www.csus.edu/student-life/records-transcripts/transcripts/.

**Information to Include with a Request**

Full name and any other names you may have attended under; student identification number, if known; complete social security number; date of birth; dates of attendance/graduation from Sacramento State. Please print legibly the address(es) where you would like the transcript(s) mailed. Provide any special instructions such as "Hold for current semester grades" or "Hold for the degree posting" or "Hold for grade change". If someone other than yourself will be picking up the transcript, you need to provide a signed release authorizing the third party to pick up your transcript. And, your signature is required on each transcript request.

To avoid delays in processing, include your full name, student identification number, date of birth, and previously used names. Submit the correct fee payment with written requests and specify any special handling instructions. Currently enrolled students may obtain unofficial transcripts from My Sacramento State. For current information on how to order transcripts and fees, please refer to the Office of the University Registrar’s Web site.

---

1 See Fees and Refunds/Fees and Debts Owed to the Institution.

**Schedule of Final Examinations**

Final examinations, including major section exams offered in lieu of a final exam, may not be scheduled during the last week of classes. However, quizzes, lab exams, and other academic assignments may be scheduled for the last week of classes provided they are specified on the course syllabus. No unscheduled (i.e., not included in the course syllabus) or additional requirements may be imposed on students during the last week of classes. Any exceptions that necessitate giving a final prior to final exam week must be stated on the course syllabus and require prior approval of the Dean.

**Credit Hour**

On July 1, 2020, the United States Department of Education changed its definition of the student credit hour. Fundamentally, the change now shifts responsibility for credit hour compliance to the accreditation agency and/or to the state.

As such, the CSU’s accreditor, the WASC Senior College and University Commission (WSCUC), has published its own updated definition of student credit hour and related accreditation processes. The new regulations no longer require an accrediting agency to review an institution’s credit hour policy and procedures. It does require the WSCUC to review the institution’s definition of credit hour and (as a newly introduced practice) an institution’s processes and policies for ensuring the credit hour policy is followed.

The CSU credit hour definition is consistent with federal law (600.2 and 600.4 revised July 1, 2020) and the requirements of the WSCUC. The CSU defines a credit hour as an amount of work represented in stated learning outcomes and verified by evidence of student achievement. Such evidence is an institutionally established equivalency that:

1. Approximates no less than:
   a. One hour of direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately 15 weeks for one semester or equivalent amount of work over a different amount of time; or
   b. At least an equivalent amount of work as required in paragraph 1.a. of this definition for other academic activities as established by the institution including laboratory work, internships, practica, studio work and other academic work leading to the award of credit hours; and

2. Permits an institution, in determining the amount of work associated with a credit hour, to take into account a variety of delivery methods, measurements of student work, academic calendars, disciplines and degree levels. Institutions have the flexibility to award a greater number of credits for courses that require more student work. A credit hour is assumed to be a 50-minute period. In courses in which “seat time” does not apply, a credit hour may be measured by an equivalent amount of work, as demonstrated by student achievement.

As in the past, a credit hour is assumed to be a 50-minute (not 60-minute) period. In some courses, such as those offered online, in which “seat time” does not apply, a credit hour may be measured by an equivalent amount of work, as demonstrated by student achievement.

For purposes of accreditation, all CSU campuses are required to develop, communicate and implement procedures for regular, periodic review of this credit hour policy to ensure that credit hour assignments are accurate, reliable and consistently applied. WSCUC published new draft guidelines that will take effect in June 2021. Campuses will be...
responsible (effective summer 2021) for publishing a clearly stated practice or process that ensures they are in compliance with the student credit hour definition.

Credit by Examination

Students may challenge courses by taking examinations developed at Sacramento State. Credit shall be awarded to those who pass them successfully.

Systemwide Credit by Examination

Sacramento State grants credit to those students who pass examinations that have been approved for credit systemwide. These include the Advanced Placement (AP) Examination, the CSU English Equivalency Examination, and some College-Level Examination Program (CLEP) examinations. The following examinations (chart below) are accepted for the amount of credit indicated, subject to the achievement scores noted.

Statistics B4 3 3

If student passes more than one AP calculus or computer science, only one examination may be applied to the baccalaureate. A score of 3 or above is required.

AP exam in Government does not fulfill CA Government requirement.

AP exam in US History does not fulfill Race & Ethnicity requirement.

If a student passes more than one AP Physics exam, only 6 units of credit may be applied to the Baccalaureate degree and only 4 units applied to GE certification.

### Amount and Use of Examination Credit for General Education

Students who present scores of three or better on the Advanced Placement Examinations may earn up to 6 units of college credit and meet applicable General Education Area Requirements. Advanced Placement credit is excluded from the credit by examination limit of 30 units.

Students passing the English Equivalency Examination administered after 1972-73 may earn up to 6 units of credit to be applied in general education in lieu of English 1A.

Students taking the CLEP Subject Examination, General Chemistry and who earn a score of 48 or above, earn 3 units of Natural Science credit.

### Campus Credit by Examination

Students may challenge courses by taking examinations developed at the campus. Results of the examination (“CR” or “NC”) will be noted on the student’s transcript. Only courses listed in this catalog may be challenged. Departments may exclude performance or other courses from challenge. Campus challenge procedure is open only to matriculated students enrolled during summer, fall, and spring semesters. A course may be challenged only once.

Individual departments may require students to enroll in courses they wish to challenge. The deadline for returning forms showing challenge results to the Office of the University Registrar, Student Services Counter, Lassen Hall.

### Other Conditions Governing Award of Credit by Examination

1. A student may not challenge a course if the course (or its equivalent) appears on the student’s transcript with any grade other than “W”.

2. Credit will not be awarded for successful passage of any systemwide examination if the student has taken that examination previously.
within the past term. Campus examinations may only be attempted one time.

3. Credit will not be awarded when equivalent degree credit has been granted for regular coursework, credit by evaluation or other instructional process, such as correspondence, at any institution.

4. Credit will not be awarded when credit has been granted at a level more advanced than that represented by the examination in question.

5. Where there is partial overlap with prior credit granted, the amount of examination credit will be reduced accordingly.

6. The total amount of credit earned on the basis of externally or internally developed tests that may be applied to a baccalaureate degree will not exceed 30 semester units. Advanced Placement credit is excluded from the limit. Total examination credit earned toward a master's or doctoral degree may not exceed 6 units.

7. Credit earned by examination will be so identified on the student’s permanent record. The name of the examination is included for systemwide examinations; the course number and title will be shown for campus examinations. An unsuccessful challenge will result in a grade of “NC”, also noted as “by examination”.

8. Neither systemwide nor campus examination nor advanced placement examination credits count toward the degree residence requirement.

9. Additional conditions affecting campus examinations only:

a. Individual departments may require a specific grade point average for credit.

b. Departments or divisions may have established limits on the number of credits within the area. A maximum of 12 units in any one foreign language may be earned by exam; the total of foreign language units earned by examination may not exceed 16.

c. Credit awarded for campus examinations is for elective purposes unless approved by appropriate department chairs for use in meeting major or minor requirements. Credit by examination may not be used for General Education requirements except as noted.

**International Baccalaureate Examination**

**Sacramento State Equivalencies for International Baccalaureate (IB Exams)**

Sacramento State will accept credit for admissions and advanced standing credit for students completing the International Baccalaureate (IB), a college preparatory program. Advanced standing credit may be earned for scores of 4, 5, 6 or 7 for the “Higher Level” examination. Students will be obliged to submit a copy of their official IB transcript. See table for Sacramento State Equivalencies.

A minimum score of 5 is required on some Higher Level IB exams in order to receive credit. Please see the table below for specific information regarding exams; exams requiring a minimum score of 5 will be marked with an asterisk (*).

*The following IB “Higher Level” exams require a minimum score of 5 in order to receive credit:
Waiver of Regulations

Rules and regulations in this catalog have been adopted by the faculty and administration to maintain appropriate academic standards and to facilitate the administration of the programs of the University. A student who finds that extenuating circumstances might justify the waiver of a particular regulation may file a petition with the Office of the University Registrar, Student Services Counter, Lassen Hall.
Title IX, Section 504 of the Rehabilitation Act of 1973 and the

For further information, or should you feel that you have been

state laws prohibiting discrimination and harassment on these bases.

Director of Equal Opportunity, has been designated to coordinate the

programs, including intercollegiate athletics. William "Skip" Bishop, the

committed to provide equal opportunities to all its students in all campus

regulations, and directives of the State of California. These statutes

that conform to applicable federal statutes, as well as pertinent laws,

Sacramento State has established nondiscrimination and affirmative action programs

marital status, veteran status, or disability. Discrimination based on

regard to race, color, religion, origin, age, sex, gender, gender identity/

expression, sexual orientation, genetic information, medical condition,

Prospective students applying for part-time or full-time undergraduate

programs of study must submit a completed undergraduate application

through Cal State Apply (https://www2.calstate.edu/apply/). The $70

nonrefundable application fee should be paid online at the time of

application via credit card or PayPal and may not be transferred or used

to apply to another term. Students who apply for admission through Cal

State Apply are automatically considered for an application fee waiver.

A student is assigned a unique Sacramento State ID upon submission

of an application for admission to the University, which is used as the

student identifier in all student records.

Students who want to enroll for residence credit in either a fall or spring

semester must file an application for admission. A student who has

been in attendance at Sacramento State in either of the two preceding

semesters is considered a continuing student and does not need to

reapply or pay the $70 application fee. The application and fee are

necessary when reentering California State University, Sacramento after

an absence of two or more semesters, but are not required for students

desiring to enroll only in Open University (https://cce.csus.edu/open-

university/) or intersession.

Sacramento State Affirmative Action and Non-Discrimination Policy

Sacramento State seeks the participation in all its programs and

activities, including admission and access, by all individuals without

regard to race, color, religion, origin, age, sex, gender, gender identity/

expression, sexual orientation, genetic information, medical condition,

marital status, veteran status, or disability. Discrimination based on

these factors is prohibited by University policy. Sacramento State

has established nondiscrimination and affirmative action programs

that conform to applicable federal statutes, as well as pertinent laws,

regulations, and directives of the State of California. These statutes

prohibit discrimination and harassment (including sexual harassment)

against applicants, students and employees. Sacramento State is

committed to provide equal opportunities to all its students in all campus

programs, including intercollegiate athletics. William "Skip" Bishop, the

Director of Equal Opportunity, has been designated to coordinate the

efforts of Sacramento State to comply with all applicable federal and

state laws prohibiting discrimination and harassment on these bases.

For further information, or should you feel that you have been
discriminated against in any one of the areas mentioned, including
Title IX, Section 504 of the Rehabilitation Act of 1973 and the

provisions of the Americans with Disabilities Act of 1990, as
amended, contact the Office for Equal Opportunity at (916) 278-5770,
email (equalopportunity@csus.edu), or visit our website (https://
www.csus.edu/diversity-inclusion/division-inclusive-excellence/office-
equal-opportunity/).

Social Security Number

Applicants are required to include their correct social security numbers
in designated places on applications for admission pursuant to
the authority contained in Section 41201, Title 5, California Code of
Regulations, and Section 6109 of the Internal Revenue Code (26 U.S.C.
6109). The university uses the social security number to identify students
and their records including identification for purposes of financial aid
eligibility and disbursement and the repayment of financial aid and
other debts payable to the institution. Also, the Internal Revenue Service
(IRS) requires the university to file information returns that include
the student's social security number and other information such as
the amount paid for qualified tuition, related expenses, and interest on
educational loans. This information is used by the IRS to help determine
whether a student, or a person claiming a student as a dependent, may
take a credit or deduction to reduce federal income taxes.

The student's social security number is not used as the individual
identifier in all student records which may include:

1. application and admissions records,
2. registration records,
3. enrollment/transcript records,
4. financial aid records,
5. alumni records,
6. records maintained by other University operated programs.

A student is assigned a unique Sacramento State ID upon submission
of an application for admission to the University, which is used as the
student identifier in all student records.

Such personally identifiable records are not shared or distributed to
private individuals or agencies unless such sharing or distribution is
authorized by the student or unless otherwise lawfully available. (See
Appendix D).

Undergraduate Application Procedures

Importance of Filing Complete, Accurate, and Authentic Application Documents

Sacramento State advises prospective students that they must supply
complete and accurate information on the application for admission,
residency questionnaire, and financial aid forms. Further, applicants
must, when requested, submit authentic and official transcripts of all
previous academic work attempted. Failure to file complete, accurate,
and authentic application documents may result in denial of admission, cancellation of registration or academic credit, suspension, or expulsion (Section 41301, Article 1.1, Title 5, California Code of Regulations).

**Impacted Programs**

The CSU designates programs as impacted when more applications from regularly eligible applicants are received in the initial filing period (October and November for fall terms, June for winter terms, August for spring terms, February for summer terms) than can be accommodated. Some programs are impacted at every campus which they are offered; others are impacted only at a few campuses. Candidates for admission must meet all of the campus’ specified supplementary admission criteria if applying to an impacted program or campus.

The CSU will announce during the fall filing period those campuses or programs that are impacted. Detailed information on campus and program impaction is available on the Impaction at the CSU (http://www2.calstate.edu/attend/impaction-at-the-csu/) website.

Campuses will communicate supplementary admission criteria for all impacted programs to high schools and community colleges in their application service area and will disseminate this information to the public through appropriate media. This information will also be published on the Sacramento State website and made available online (http://www.csus.edu).

Applicants must file applications for admission to an impacted program during the initial filing period. Applicants who wish to be considered for impacted programs at more than one campus should file an application at each campus for which they seek admission consideration.

**Supplementary Admission Criteria**

Each campus with impacted programs or class-level admission categories uses supplementary admission criteria in screening applicants. Supplementary criteria may include rank-ordering of freshman applicants based on the CSU eligibility index or rank-ordering of transfer applicants based on verification of the Associate in Arts for Transfer (AA-T) or Associate in Science Transfer (AS-T) degrees, the overall transfer grade point average (GPA), completion of specified prerequisite courses and a combination of campus-developed criteria. Applicants for freshman admission to impacted campuses or programs may need to have a higher "a-g" GPA. In no case will standardized test scores be utilized in making freshman admission decisions.

The supplementary admission criteria used by individual campuses to screen applicants are made available by the campuses to all applicants seeking admission to an impacted program.

**Sacramento State Designated Impacted Programs**

All undergraduate programs in Business have been officially designated as impacted programs on the Sacramento State campus. Check with the Undergraduate Business Advising Center to confirm current criteria at (916) 278-BIZZ (2499).

See Academic Programs/Business (p. 347).

The upper division Clinical Nursing Program has been officially designated as an impacted program on the Sacramento State campus. Check with the Division of Nursing to confirm current criteria at (916) 278-6525.

See Academic Programs/Nursing (p. 742).

The upper division Graphic Design program has officially designated as an impacted program on the Sacramento State campus. Check with the Department of Design, (916) 278-3962, to confirm current criteria.

See Academic Programs/Graphic Design (p. 172).

All undergraduate programs in Criminal Justice have been officially designated as impacted programs on the Sacramento State campus. Check with the Department of Criminal Justice to confirm current criteria at (916) 278-6487.

See Academic Programs/Criminal Justice (p. 654).

The undergraduate program in Public Health has been officially designated as an impacted program on the Sacramento State campus. Check with the Department of Public Health to confirm current criteria at (916) 278-6441.

See Academic Programs/Public Health (p. 708)

In addition to the Business, Clinical Nursing, Criminal Justice, Graphic Design, Health Science Psychology and Public Health programs, it is possible that any class level or program categories may be impacted if more applications are received in the initial application filing period than can be accommodated by the University. Preapproved criteria are announced prior to the beginning of each application cycle. Admission criteria are subject to revision.

**English Language Requirement**

All undergraduate applicants whose native language is not English and who have not attended schools at the secondary level or above for at least three years full-time where English is the principal language of instruction must demonstrate English language proficiency through at least one of the following acceptable tests.

<table>
<thead>
<tr>
<th>Test</th>
<th>Undergraduate</th>
<th>Graduate</th>
</tr>
</thead>
<tbody>
<tr>
<td>TOEFL (Test of English as a Foreign Language) required if your native language is not English</td>
<td>Score of 510 (paper based test)</td>
<td>Score of 550 (paper based test)</td>
</tr>
<tr>
<td>TOEFL</td>
<td>Score of 64 (internet based test)</td>
<td>Score of 80 (internet based test)</td>
</tr>
<tr>
<td>PTE Academic</td>
<td>Score of 50</td>
<td>Score of 65</td>
</tr>
<tr>
<td>IELTS (Academic)</td>
<td>Overall band score of 6.5</td>
<td>Overall band score of 7.0</td>
</tr>
</tbody>
</table>

Some majors and some campuses may require a higher score. A few campuses may also use alternative methods of assessing English
fluency: Pearson Test of English Academic (PTE Academic), the International English Language Testing System (IELTS) and the International Test of English Proficiency (ITEEP). Each campus will post the tests it accepts on its website and will notify students after they apply about the tests it accepts and when to submit scores.

CSU minimum TOEFL standards are:

Undergraduate 61 - INTERNET, 500 - PAPER
Graduate 80 - INTERNET, 550 – PAPER

At the graduate level, a TOEFL score of 550 (or 80 internet based test) is required for admission for all students, with the following exceptions:

- Communication Studies,
- English,
- International Affairs,
- Speech Pathology and Audiology,
- Teaching English to Speakers of Other Languages (TESOL) require higher scores.

1 Note: Sacramento State interprets “where English was the principal language of instruction” to mean that a school is located in a country where English is the native language (the daily medium of communication of the majority of residents is English), and that the students receive academic instruction in all subjects (except foreign language courses) at all levels of education in English.

Returning Students

Sacramento State students are granted an automatic leave of absence for one semester. This leave maintains the continuous attendance status of the student with eligibility to register in the following semesters and holds the catalog that determines degree requirements.

Former Sacramento State students who have been absent for two or more semesters must apply for readmission. An application fee is charged. Following a mandatory interruption of one or more semesters, students who have left in a negative academic standing¹ may not be eligible to return until they complete additional coursework. Students who have been academically disqualified or dismissed must file an appeal for reinstatement/readmission.²

¹ Visit https://www.csus.edu/apply/admissions/ for more information
² See Academic Policies/Readmission of Academically Dismissed Student (p. 24)

Reservation

The University reserves the right to select its students and deny admission to the University or any of its programs as the University, in its sole discretion, determines appropriate based on an applicant’s suitability and the best interests of the University.

Steps in the Application Process

Application Filing Periods

(Not all campuses/programs are open for admission to every term.)

Sacramento State uses a semester-based academic calendar. The initial filing periods for applications are the previous October through November for fall semester and the previous August for spring semester.

All applications received during the initial filing period will be given equal consideration within established enrollment categories and quotas.

Additional selection criteria may be used to select applicants if more applications are received during the initial filing period than can be accommodated in specific enrollment categories. If the campus is designated an “impacted campus,” supplemental criteria may be used to select applicants.

If any enrollment categories are not filled during the initial filing period, the University will continue to accept applications during an extended filing period until capacity is reached. Enrollment priorities within the extended period will be in chronological order of receipt of applications.

<table>
<thead>
<tr>
<th>Term</th>
<th>Applications First Accepted</th>
<th>Initial Filing Period</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall Semester</td>
<td>October 1</td>
<td>October 1 - November 30</td>
</tr>
<tr>
<td>Spring Semester</td>
<td>August 1</td>
<td>August 1 - 31</td>
</tr>
</tbody>
</table>

Filing Period Duration

Each non-impacted campus accepts applications until capacities are reached. Many campuses limit undergraduate admission in an enrollment category due to overall enrollment limits. If applying after the initial filing period, consult the campus admissions office for current information.

Application Acknowledgment

On-time applicants may expect to receive an acknowledgment from the campuses to which they have applied within two to four weeks of filing the application. The notice may also include a request that applicants submit additional records necessary to evaluate academic qualifications. Applicants may be assured of admission if the evaluation of relevant qualifications indicates that applicants meet CSU admission requirements, and in the case of admission impaction, supplemental criteria for admission to an impacted program. Unless specific written approval/confirmation is received, an offer of admission is not transferable to another term or to another campus.

Transcript and Test Score Requirements (Note: For Fall 2021 and Fall 2022 admission, test score requirements have been suspended)

Undergraduate students are required to comply with the following transcript and test score requirements as part of the application procedures for admission. Applicants project their class level as of the date of intended initial enrollment.

- Applicants with No College Units:
  Transcripts: One from high school showing final senior grades and date of graduation. Tests: Either ACT or SAT score.

- Applicants with Fewer Than 60 Semester Units:
  Sacramento State is not accepting applications from lower division transfer applicants with fewer than 60 transferable units.

- Applicants with 60 or More Transferable Semester Units:
  Transcripts: One official copy of final record from each college attended; one showing work-in-progress if currently enrolled.

- Returning Students:
  Transcripts: One official copy of final record from each college attended since last enrollment at Sacramento State; one showing work in progress if currently enrolled.
All transcripts become the property of the University and will not be released or copied. Processing of applications cannot be guaranteed unless all required documents and test scores are received during the appropriate application period. Individuals who do not file an application for admission are advised that transcripts are retained for one year only. Failure to disclose enrollment in each college or university attended constitutes grounds for denial of admission or dismissal from the University for unethical conduct. The University reserves the right to determine whether or not a record can be accepted as official.

**Notification of Admission**

Applicants will receive confirmation of their admission or a statement of ineligibility beginning in March for fall semesters and September for spring semesters, if they filed during the first month of the filing periods and all necessary documents have been received. If the campus has been designated an “impacted campus,” notification of admission status may be delayed while supplemental criteria are applied to applications received after the initial filing period.

Information about registration, placement testing, advising, and orientation will be e-mailed to all admitted students before registration when possible. Late applicants will be considered on a space-available basis.

**Hardship Petitions**

The campus has established procedures for consideration of qualified applicants who would be faced with extreme hardship if not admitted. Petitioners should write the campus Admission Offices regarding specific policies governing hardship admission.

**Appeal of Admission Decision**

Section 89030.7 of the California Education Code requires that the CSU establishes specific requirements for appeal procedures for a denial of admission. Each CSU campus must publish appeal procedures for applicants denied admission to the University. The procedure is limited to addressing campus decisions to deny an applicant admission to the University.

Admissions appeal procedures must address the basis for appeals, provide 15 business days for an applicant to submit an appeal, stipulate a maximum of one appeal per academic term, provide specific contact information for the individual or office to which the appeal should be submitted, and indicate a time estimate for when the campus expects to respond to an appeal. The appeal procedures must be included in all denial of admission notifications to students, and must also be published on the campus website.

Visit the “Admission Appeals” link at the Office of Admissions and Outreach website (https://www.csus.edu/apply/admissions/application-process/appeals.html) for more information.

**Freshman Requirements**

Office of Admissions and Outreach
Lassen Hall Lobby - Room 1102
Office of Admissions and Outreach Website (https://www.csus.edu/apply/admissions/)

The following section outlines the requirements for admission to Sacramento State and other CSU campuses. Prospective applicants should contact a high school or community college counselor or the Admissions and Outreach Office at California State University, Sacramento if they have further questions.

Generally, applicants will qualify for consideration for first-time freshman admission if they meet the following requirements:

1. Have graduated from high school, have earned a Certificate of General Education Development (GED) or have passed the California High School Proficiency Examination (CHSPE);

2. Complete the 15-unit comprehensive "a-g" pattern of college preparatory courses;

3. Have completed, with grades of C- or better, each of the courses in the comprehensive pattern of college preparatory subject requirements also known as the "a-g" pattern (see “Subject Requirements”); and

   - The CSU will accept "Credit" or "Pass" grades to satisfy "a-g" requirements completed during Winter, Spring, Summer or Fall 2020 terms and during Winter, Spring or Summer 2021 terms. The CSU expects and assumes that high school Pass (Credit) grades will represent work completed at the C- or higher level.

4. Earn a qualifying "a-g" grade point average (GPA) as described below.

   - California residents and graduates of California high schools will be eligible for admission by earning a 2.50 or greater "a-g" GPA.

   - Any California high school graduate or resident of California earning a GPA between 2.00 and 2.49 may be evaluated for admission based upon supplemental factors such as number of courses exceeding minimum "a-g" requirements, household income, extracurricular involvement, and other available information that would inform the campus admission decision.

   - Non-California residents may be eligible for admission to the CSU by earning a 3.00 or greater "a-g" GPA along with other supplemental factors utilized by the individual campus, including those outlined by impacted campuses and programs.

   - Any Non-California resident earning a GPA between 2.47 and 2.99 may be evaluated for admission based upon supplemental factors such as number of courses exceeding minimum “a-g” requirements, household income, extracurricular involvement, and other available information that would inform the campus admission decision.

5. Each CSU campus will determine the supplemental factors used with GPA to determine eligibility in these cases and communicate these criteria publicly for prospective students.

The California State University (CSU) has temporarily suspended the use of ACT/SAT examinations in determining admission eligibility for all CSU campuses for the 2021-2022 and 2022-2023 academic years.

The use of the admission eligibility index has been suspended for Fall 2021 and Fall 2022 admission. See https://www.csus.edu/apply/admissions/application-process/freshman-process.html

**Honors Courses**

Up to eight semesters of approved honors courses taken in the last two years of high school including up to two approved courses taken in the tenth grade, can be accepted toward students' high school GPA (see "Eligibility Index"). Each unit (one year) of grade "A" in an honors course will receive 5 points; grade "B", 4 points; and grade "C", 3 points.
Subject Requirements
The CSU requires that first-time freshman applicants complete, with grades of "C-" or better, a comprehensive pattern of college preparatory study totaling 15 units (a "unit" is one year of study in high school).

- 2 years of social science, including 1 year of U.S. history, or U.S. history and government
- 4 years of English
- 3 years of math (algebra, geometry, and intermediate algebra; four years recommended)
- 2 years of laboratory science (1 biological and 1 physical, both must have laboratory instruction)
- 2 years in the same foreign language (subject to waiver for applicants demonstrating equivalent competence)
- 1 year of visual and performing arts: art, dance, drama/theater, or music
- 1 year of electives: selected from English, advanced mathematics, social science, history, laboratory science, foreign language, visual and performing arts or other courses approved and included on the UC/CSU "a-g" list.

Note: All admission requirements (i.e., grade point average, test scores, and subjects) must be completed by the end of the spring term for a fall enrollment and the end of summer for a spring enrollment.

Advanced Placement (AP) Exams and Advanced Standing Credit
Sacramento State grants credit toward its undergraduate degrees for successful completion of examinations of the Advanced Placement Program of the College Board.

- Students may be granted up to 6 units for each Advanced Placement (AP) examination for which a score of 3, 4, or 5 is earned.
- Transferable college courses completed as a high school student will be evaluated for possible college credit upon receipt of an official college transcript. For the Official Transfer Evaluations click here (p. 24).

Foreign Language Subject Requirements
The foreign language subject requirement may be satisfied by applicants who demonstrate competence in a language other than English equivalent to or higher than expected of students who complete two years of foreign language study. Consult with a school counselor or any CSU admissions office for information.

International Baccalaureate (IB)
Sacramento State recognizes completion of the International Baccalaureate (IB) program as satisfying the college preparatory subject requirements for admission. 1 The applicant’s high school GPA and score on the ACT or SAT will also be used in determining eligibility for admission.

1 See Academic Policies/Credit by Examination/Sacramento State Equivalencies for IB Exams (p. 24).

Eligibility Index 1
Eligibility Index – The eligibility index is the combination of the high school GPA and scores on either the ACT or the SAT. GPA is based on grades earned in courses taken during the final three years of high school. Included in the calculation of GPA are grades earned in all college preparatory “a-g” subject requirements and bonus points for approved honors courses. Up to eight semesters of honors courses taken in the last three years of high school, including up to two approved courses taken in the tenth grade can be accepted. Each unit of A in an honors course will receive a total of 5 points; B, 4 points; and C, 3 points.

A CSU eligibility index can be calculated by multiplying a GPA by 800 and adding the total score on the SAT exam (mathematics and Evidence-Based Reading and Writing). For students who took the ACT, multiply the GPA by 200 and add 10 times the ACT composite score. Persons who are California high school graduates (or residents of California for tuition purposes) need a minimum index of 2950 or 694 using the ACT. The Eligibility Index Table illustrates several combinations of required test scores and averages. The university has no current plans to include the writing scores from either of the admissions tests in the computation of the CSU eligibility index.

Persons who neither graduated from a California high school nor are a resident of California for tuition purposes need a minimum index of 3570 or 842 using the ACT. Graduates of secondary schools in foreign countries must be judged to have academic preparation and abilities equivalent to applicants eligible under this section. An applicant with a grade point average of 3.00 or above (3.61 for nonresidents) is not required to submit test scores. However, all applicants for admission are urged to take the SAT or ACT and provide the scores of such tests to each CSU campus to which they seek admission. Campuses use these test results for advising and placement purposes and may require them for admission to impacted majors or programs. Impacted CSU campuses require SAT or ACT scores of all applicants for freshman admission.

Registration forms and the dates for either test may be obtained from school or college counselors or from a campus Testing Office. Testing information is also available at the Sacramento State Testing website (https://www.csus.edu/student-affairs/centers-programs/testing-center/), or by writing to:

College Board (SAT)
Registration Unit, Box 6200
Princeton, New Jersey 08541-6200
(609) 771-7600
College Board Website (http://www.collegeboard.org)

American College Testing Program (ACT)
Registration Unit, P.O. Box 414
Iowa City, Iowa 52243
(319) 337-1270
ACT Website (http://www.act.org)

1 The use of the admission eligibility index has been suspended for Fall 2021 and Fall 2022 admission. See https://www.csus.edu/apply/admissions/application-process/freshman-process.html

Applicants will qualify for regular (non-provisional) admission when the University verifies that they have graduated and received a diploma from high school, have a qualifiable minimum eligibility index, have completed the comprehensive pattern of college preparatory “a-g” subjects, and, if applying to an impacted program or campus, have met all supplementary criteria.

Graduates of secondary schools in foreign countries will be judged to have academic preparation and abilities equivalent to applicants eligible under this section.
Refer to Application to Sacramento State/Undergraduate/Impacted Programs (p. 24).

Subject Requirements Substitution for Students with Disabilities

Applicants with disabilities are strongly encouraged to complete college preparatory course requirements if at all possible. If an applicant is judged unable to fulfill a specific course requirement because of his or her disability, alternate college preparatory courses may be substituted for specific subject requirements.

Substitutions may be authorized on an individual basis after review and recommendation by the applicant’s academic advisor or guidance counselor in consultation with the director of a CSU disabled student services program. Although the distribution may be slightly different from the course pattern required of other students, students qualifying for substitutions will still be held accountable for 15 units of college preparatory study.

Students should be aware that course substitutions might limit later enrollment in certain majors, particularly those involving mathematics. For further information and substitution forms, please call the director of disabled student services at the nearest CSU campus.

Provisional Admission

Sacramento State may provisionally admit first-time freshman applicants based on their academic preparation through the junior year of high school and planned coursework for the senior year. The campus will monitor the final terms of study to ensure that admitted students complete their secondary school studies satisfactorily, including the required college preparatory subjects, and graduate from high school.
Students are required to submit an official transcript after graduation to certify that all coursework has been satisfactorily completed. Official high school transcripts must be received prior to the deadline set by the university. In no case may documentation of high school graduation be received any later than the census date for a student's first term of CSU enrollment. A campus may rescind admission decisions, cancel financial aid awards, withdraw housing contracts and cancel any university registration for students who are found to be ineligible after the final transcript has been evaluated.

Applicants will qualify for regular (non-provisional) admission when the university verifies that they have graduated and received a high school diploma, have earned a qualifiable minimum eligibility index, have completed the comprehensive pattern of college preparatory “a-g” subjects and, if applying to an impacted program or campus, have met all supplementary criteria.

**Special Categories**

**Educational Opportunity Program**

EOP, a special admission and support program for students who possess the potential and motivation to succeed, is designed to improve access and retention of low-income and educationally disadvantaged students among California residents who wish to pursue a college education.¹

¹ See Centers for Academic Support/EOP (https://catalog.csus.edu/academic-support-services/).

**Veterans**

See the Veterans Success Center website (https://www.csus.edu/student-affairs/centers-programs/veterans-success-center/).

**High School Students**

Office of Admissions and Outreach
Lassen Hall 1102

High school students may be considered for enrollment in certain special programs if recommended by the principal and the appropriate campus department chair and if preparation is equivalent to that required of eligible California high school graduates. Such admission is only for a given specific program and does not constitute a right to continued enrollment.

These programs include:

1. Accelerated College Entrance (ACE) for talented students who can benefit from accelerated academic studies, available by phone at (916) 278-7032;
2. Capitol Center MESA for underrepresented students in CSU mathematics, engineering, and science programs, available by phone at (916) 278-6699.

Students accepted into these programs qualify for reduced fees.

High school students other than those accepted into the above programs may also enroll concurrently in college courses without fee reduction upon approval of parents, high school principal, and appropriate Sacramento State academic department chairs.

**Applicants Not Regularly Eligible**

Applicants not admissible under one of the above provisions should enroll at a community college or another appropriate institution in preparatory courses to meet eligibility requirements. Only under the most unusual circumstances and only by special action will such applicants be admitted to Sacramento State.

**Admissions Appeal**

Section 89030.7 of the California Education Code requires that the California State University establishes specific requirements for appeal procedures for a denial of admission. Each CSU campus must publish appeal procedures for applicants denied admission to the University. The procedure is limited to addressing campus decisions to deny an applicant admission to the University.

Admissions appeal procedures must address the basis for appeals, provide 15 business days for an applicant to submit an appeal, stipulate a maximum of one appeal per academic term, provide specific contact information for the individual or office to which the appeal should be submitted, and indicate a time estimate for when the campus expects to respond to an appeal. The appeal procedures must be included in all denial of admission notifications to students, and must also be published on the campus website. Visit the "After Admission decisions are made link at the Admissions and Outreach website (https://www.csus.edu/apply/admissions/application-process/) for more information.

**Reservation**

The University reserves the right to select its students and deny admission to the University or any of its programs as the University, in its sole discretion, determines appropriate based on an applicant’s suitability and the best interests of the University.

**Transfer Student Preparation**

Prospective transfer students may obtain general information on Sacramento State educational opportunities and matriculation procedures from Sacramento State admission and outreach representatives at California community college transfer day and regional college night programs. Representatives are also available at selected transfer centers on a regular basis to provide specific information on CSU matriculation procedures, eligibility for admission, and evaluation of credit. Prospective students who don’t have access to a transfer center can schedule an appointment with an admission counselor for a pre-admission advising session. Applicants should bring unofficial transcripts to these sessions. Contact the Office of Admissions & Outreach for admission counseling hours and availability.

To make an appointment with academic department faculty to discuss academic program requirements and career alternatives, prospective students should call the relevant department office.

Hour-long student-led weekday campus tours are scheduled one week in advance for small and large groups. To schedule a tour on line visit the Campus Tours website (https://www.csus.edu/experience/visit/campus-tours/).

**Acceptance of Transfer Courses**

Sacramento State annually enrolls more than 5,000 new transfer students from more than 300 different colleges and universities, mostly California community colleges.

Frequently, course titles and numbers differ from campus to campus, making it difficult for transfer students to know in advance which courses will be accepted for transfer to another college. In order to provide students with the assurance that courses taken at their campus prior to transfer will meet Sacramento State lower-division requirements for
either General Education or a specific major, three methods of prior approval exist.

General Education Courses
The CSU system has authorized California community colleges and other approved colleges to designate "transferable" courses planned for use in a four-year baccalaureate program. In addition, they have jointly designated courses that may be used to certify a portion of the CSU General Education objectives to a maximum of 39 semester units. Sacramento State will apply courses completed at a California community college toward the CSU General Education objectives as listed on the community college certification form.

Students may have their lower division General Education courses certified by a California community college as meeting either the CSU GE Breadth Requirements or the Intersegmental General Education Transfer Core Curriculum (IGETC) in partial completion of the General Education requirements for the baccalaureate degree.¹

Upon matriculation, the Degree Evaluations Office will review courses completed at non-CSU colleges and universities; credit will be granted toward the Sacramento State General Education requirements in compliance with applicable CSU system, Sacramento State, and academic department policies.

¹ See General Education Policies/Transfer Students.

Lower Division Major Prerequisites
Sacramento State also has developed an extensive program of major preparation agreements called "Articulation" or "Transfer Credit Agreements." These are official documents prepared by Sacramento State faculty who carefully review coursework at other institutions and identify courses at those campuses that would be acceptable in lieu of Sacramento State courses. Students who take these courses can be assured they will receive credit toward their academic major at Sacramento State.

Articulation Agreements
Sacramento State has thousands of Articulation Agreements with community colleges and four-year institutions throughout the state. These Articulation Agreements are widely distributed and should be readily available to students at their home campus Counseling Centers or online at www.assist.org (https://assist.org/).

Transfer Centers
University representatives staffing Transfer Centers on community college campuses advise community college students on transfer issues, providing an excellent resource for prospective transfer students.

Transfer Student Assistance
Students may receive assistance in transferring to Sacramento State through the Transfer Centers at the following campuses:

American River College (916) 484-8685
Cosumnes River College (916) 691-7456
Folsom Lake College (916) 608-6510
Napa Valley College (707) 253-3115
Sacramento City College (916) 558-2181
San Joaquin Delta College (209) 954-5634
Santa Rosa Junior College (707) 527-4874
Sierra College (916) 660-7441
Solano College (707) 864-7158

Yuba College (530) 741-6790

Undergraduate Transfer Admission Requirements

Transfer Policies of CSU Campuses
Most commonly, college-level credits earned from an institution of higher education accredited by a regional accrediting agency are accepted for transfer to campuses of the CSU; however, authority for decisions regarding the transfer of undergraduate credits is delegated to each CSU campus.

California Community Colleges and other authorized certifying institutions can certify up to 39 semester (58.5 quarter) units of General Education-Breadth (GE-Breadth) or 37 semester (55.5 quarter) units of the Intersegmental General Education Transfer Curriculum (IGETC) for transfer students to fulfill lower-division general education requirements for any CSU campus prior to transfer.

“Certification” is the official notification from a California Community College or authorized institution that a transfer student has completed courses fulfilling lower-division general education requirements. The CSU GE-Breadth and the Intersegmental General Education Transfer Curriculum (IGETC) certification course lists for particular community colleges can be accessed on the official transfer and articulation system for California’s public colleges and universities website, Assist.org (http://www.assist.org).

CSU campuses may enter into course-to-course or program-to-program articulation agreements with other CSU campuses, any or all of the California community colleges and other regionally accredited institutions. Established CSU and CCC articulations may be found on Assist.org (http://www.assist.org). Students may be permitted to transfer no more than 70 semester (105 quarter) units to a CSU campus from an institution which does not offer bachelor’s degrees or their equivalents, for example, community colleges. Given the university’s 30-semester (45-quarter) unit residency requirement, no more than a total of 90 semester (135 quarter) units may be transferred into the university from all sources.

Transfer Requirements
Applicants who have completed fewer than 60 transferable semester college units (fewer than 90 quarter units) are considered lower-division transfer students. Applicants who have completed 60 or more transferable semester college units (90 or more quarter units) are considered upper-division transfer students. Applicants who complete college units during high school or through the summer immediately following high school graduation are considered first-time freshmen and must meet the CSU minimum eligibility requirements for first-time freshman admission. Transferable courses are those designated for baccalaureate credit by the college or university offering the courses and accepted as such by the campus to which the applicant seeks admission.

Lower Division Transfers Requirements
Due to increased enrollment demands, most CSU campuses do not admit lower-division transfer applicants. Sacramento State is not currently accepting admission applications from lower-division transfers.

An applicant who completes fewer than 60 semester (90 quarter) units of college credit is considered a lower-division transfer student. Due to
enrollment pressures, most CSU campuses do not admit lower-division transfers so that more upper-division transfers can be accommodated.

Having fewer than 60 semester (90 quarter) units at the point of transfer may affect eligibility for registration priority at CSU campuses and may affect the student's financial aid status.

California resident transfer applicants with fewer than 60 semester or 90 quarter units must:

- Have a cumulative grade point average of 2.0 (C) or better in all transferable units attempted;
- Have completed, with a grade of C- or better, a course in written communication and a course in mathematics or quantitative reasoning at a level satisfying CSU General Education Breadth Area A2 and B4 requirements, respectively;
- Be in good standing at the last institution attended; and
- Meet any one of the following eligibility standards.

**Transfer Based on Current Admission Criteria**

The applicant meets the freshman admission requirements in effect for the term for which the application is filed; - OR -

**Transfer Based on High School Eligibility**

The applicant was eligible as a freshman at the time of high school graduation and has been in continuous attendance in an accredited college since high school graduation; - OR -

**Transfer Based on Making Up Missing Subjects**

The applicant had a qualifiable eligibility index at the time of high school graduation (combination of GPA and test scores if needed), has made up any missing college preparatory subject requirements with a grade of C- or better, and has been in continuous attendance in an accredited college since high school graduation.

One baccalaureate-level course of at least 3 semester (4 quarter) units is usually considered equivalent to one year of high school study.

(Note: Some campuses may require lower-division transfer students to complete specific college coursework, for example the four basic skill courses, as part of their admission criteria.)

**Upper Division Transfers Requirements**

Generally, applicants will qualify for consideration for upper-division transfer admission if they meet all of the following requirements:

1. Cumulative grade point average of at least 2.0 in all transferable units attempted;
2. In good standing at the last college or university attended; and
3. Completed at least sixty (60) transferable semester (90 quarter) units of college level coursework with a grade point average of 2.0 or higher and a grade of C- or better in each course used to meet the CSU general education requirements in written communication, oral communication, critical thinking, and quantitative reasoning, e.g. mathematics.

The 60 units must include at least 30 units of courses that meet CSU general education requirements, including all of the general education requirements in communication in the English language (both oral and written) and critical thinking and the requirement in mathematics/quantitative reasoning (usually 3 semester units) or the Intersegmental General Education Transfer Curriculum (IGETC) requirements in English communication and mathematical concepts and quantitative reasoning.

**Associate Degrees for Transfer (AA-T or AS-T)**

The Associate in Arts for Transfer (AA-T) and the Associate in Science for Transfer (AS-T) degrees offered at the California Community Colleges (CCC) are designed to provide a California community college student the optimum transfer preparation and a clear admission pathway to the CSU degree majors.

CCC students who earn an Associate Degree for Transfer (AA-T or AS-T) are guaranteed admission with junior standing to a CSU and given priority admission over other transfer applicants when applying to a local CSU campus or non-impacted CSU program. AA-T or AS-T admission applicants are given limited priority consideration based on their eligibility ranking to an impacted campus/program or to campuses/programs that have been deemed similar to the degree completed at the community college. Students who have completed an AA-T/AS-T in a program deemed similar to a CSU major are able to complete remaining requirements for graduation within 60 semester (90 quarter) units. It is the responsibility of the student who has earned an AA-T/AS-T to provide documentation of the degree to the CSU campus.

**Provisional Admission**

Sacramento State may provisionally or conditionally admit transfer applicants based on their academic preparation and courses planned for completion. The campus will monitor the final terms to ensure that those admitted complete all required courses satisfactorily. All accepted applicants are required to submit an official transcript of all college-level work completed. Campuses may rescind admission for any student who is found to be ineligible after the final transcript has been evaluated. In no case may such documents be received and validated by the university any later than a student's registration for their second term of CSU enrollment.

**Local Area for Admission**

First-year freshmen applicants who graduate from high school in one of the following counties are considered in Sacramento State's local admission area: Sacramento, El Dorado, Nevada, Placer, San Joaquin, Solano or Yolo.

Transfer applicants transferring with the majority of units from one of the following community colleges are considered in Sacramento State's local admission area: American River, Cosumnes River, Folsom Lake, Lake Tahoe, Sacramento City, Sierra, San Joaquin Delta, Solano, woodland or Yuba.

Applicants from the local admission area who meet minimum admission eligibility requirements will be offered admission to the university. However, they may not be admitted to the major of their choice due to impaction.

**Wait List**

For application terms for which the number of eligible applicants for admission exceeds enrollment capacity, a waitlist will be established. Students who accept the offer to remain on the admission waitlist will be notified of an admission decision as space becomes available.

**Special Admission Categories**

1 Refer to Admission to Sacramento State (p. 24)/Special Categories. Veterans also refer to Application to Sacramento State/CSU Impacted Programs/Supplemental Criteria.
Admission of Auditors for Undergraduate Courses
Admission as auditor may be restricted during periods of over-enrollment. Applicants may check with the Office of Admissions and Outreach or the Office of the University Registrar.

Impacted Programs
To obtain the most current information on impacted programs and supplemental criteria, please contact the Office of Admissions and Outreach.

Catalog Rights for Degree Requirements
Transfer students may choose Sacramento State requirements in effect at the time they began their college study at a California community college or a CSU, at the time they entered Sacramento State, or at the time they graduate from Sacramento State, provided they maintain attendance in college.¹

¹ See Degree Requirements (p. 24)/Catalog Rights.

Reservation
The University reserves the right to select its students and deny admission to the University or any of its programs as the University, in its sole discretion, determines appropriate based on an applicant’s suitability and the best interests of the University.

Evaluation of Transfer Credit
Allowance of Transfer Credit from Accredited Colleges and Universities
Generally, students will be granted credit for baccalaureate level courses successfully completed at regionally accredited two or four-year colleges.

All courses, except remedial, are accepted for degree credit from institutions awarding four-year degrees. Credit is reviewed by the Degree Evaluations Office and is granted in compliance with applicable national, state, Title 5, CSU system, and University policies and procedures. Such credit may be applied toward fulfillment of major, minor, or general education requirements when applicable; other courses may count as elective credit toward the baccalaureate degree. This credit will be listed in summary form on the Sacramento State transcript of academic record.

Transfer credit generally is not posted to the Sacramento State transcript of postbaccalaureate students, including those seeking a Second Bachelor's degree. Check with the Office of Graduate Studies ((916) 278-6470) for exceptions.

Advanced Placement Examinations
Sacramento State grants credit toward its undergraduate degrees for successful completion of examinations of the Advanced Placement Program of the College Board. Students who present scores of three or better will be granted up to six semester units of college credit.

¹ If student passes more than one AP Calculus or Computer Science exam, only one examination may be applied to the baccalaureate degree. A score of 3 or above is required.
² AP exam in Government does not fulfill CA Government requirement.
³ AP exam in US History does not fulfill Race & Ethnicity requirement.
⁴ If a student passes more than one AP Physics exam, only 6 units of credit may be applied to the Baccalaureate degree and only 4 units applied to GE certification.

**Credit For Instruction in Non-Collegiate Instruction**

Office of the Registrar

Degree Evaluations

Lassen Hall 2000

(916) 278-4862

Sacramento State grants undergraduate degree credit for successful completion of non-collegiate instruction, either military or civilian, appropriate to the baccalaureate degree, which has been recommended by the Commission on Educational Credit and Credentials of the American Council on Education. The numbers of units allowed are those recommended in the Guide to the Evaluation of Educational Experience in the Armed Services and the National Guide to Educational Credit for Training Programs.
Credit For Prior Learning

College of Social Sciences and Interdisciplinary Studies
Amador Hall 255
(916) 278-6504

Sacramento State grants up to six units of credit for learning, knowledge, or skills-based experience that has been documented and evaluated according to campus policy. Students should be aware, however, that policies for earning credit for prior learning vary from campus to campus in the CSU.

Transfer Credit From Overseas Institutions

Credit is granted from recognized overseas institutions. Awarding of advanced standing varies depending on the educational system of the country. Certified copies of transcripts and degrees must be submitted in English translation. Sacramento State students who plan to study abroad through independent programs, CSU International Programs or through Sacramento State partnerships should contact International Programs and Global Engagement for information.

Nontraditional Credits

Sacramento State allows the following degree credit, based on evaluation of nontraditional academic experiences and/or examinations to apply toward the baccalaureate degree:

1. Baccalaureate-level course credit certified by the Defense Activities in Nontraditional Education Support (DANTES). The amount of credit is limited to 24 semester units, the limit on the number of extension/ correspondence course units that can be applied toward the degree.

2. Standardized examinations designated for system-wide credit by the Chancellor of the California State University. The names of these examinations, the passing scores required, and the number of semester units to be awarded is listed under system wide Credit by Examination. ¹ The total amount of examination credit applied to the baccalaureate degree cannot exceed 30 semester units.

3. The Advanced Placement Examinations of the College Entrance Examination Board on which the student receives a score of 3, 4, or 5. Up to six semester units may be awarded for each Advanced Placement Examination passed.

4. Credit for basic training and commissions in the military service. The American Council on Education’s Commission on Education Credit and Credentials recommends the number of units allowed for each branch.

5. Commissions held while in the military service: 12 upper division units.

6. Civilian and military courses and schools recommended for credit by the American Council on Education’s Commission on Education Credit and Credentials.

¹ See Academic Policies (p. 24)/system wide Credit by Examination.

Additional Degree Credits Allowed

1. Credit for selected vocational/technical courses applicable to Construction Management and/or Mechanical Engineering Technology programs.

2. Transfer credit from provisionally accredited colleges may be granted upon completion of 24 residence units with a "C" grade point average at Sacramento State. Credits granted would normally be in course areas commonly taught in four-year baccalaureate degree programs. Credit is granted only for courses in which at least "C" grades are earned. No credit will be granted for courses in religion, education, psychology, or philosophy if completed at a sectarian college. Credit may be restricted when the institution is specialized, e.g., offering only one or a small number of related programs. Credit to be used toward the student’s major or minor must receive the recommendation of the appropriate department. Students who have attended institutions that are listed as business schools only may receive credit through challenge examination.

Limitations on the Transfer of Credit

Unit limitations apply to specific categories of credit that may be used to meet baccalaureate degree requirements:

1. A maximum of 70 hours transferred from two-year or community Colleges.

2. A maximum of 30 hours of examination credit.

3. A maximum of 24 hours in extension and correspondence (transfer, Sacramento State or in combination).

4. A maximum of 30 hours of any combination of correspondence, extension, and military service credit.

5. A maximum of 24 units in Special Sessions

Transfer Grade Policies

Sacramento State utilizes the following policies in evaluating grades earned in courses accepted for transfer:

1. The grading policy of the regionally accredited institution where credit was earned is honored by accepting at face value all official transcript entries, including those:
   a. reflecting academic forgiveness actions;
   b. reflecting acceptance of grade point remediation for repeated courses; and
   c. regarding "incomplete" grades (e.g., "I", "IS", and "IU").

2. All transfer courses graded Pass/No Pass or Credit/No Credit are computed at neutral value, except in those cases where the specific grading symbol is identified by the source institution as equivalent to a grade less than "C" in which case it will be taken at face value.

3. All transfer course grades or symbols used to designate unsatisfactory, failing, or non-passing work at time of withdrawal such as "UW", "WU", or "WF" are evaluated as failing grades "F" unless otherwise defined by the source institution.

Official Transfer Evaluations

Office of the University Registrar
Lassen Hall 1000
(916) 278-1000

The Office of the University Registrar will prepare an official transfer credit evaluation summarizing prior college credit and indicating Sacramento State General Education requirements met. Students may access their Transfer Credit Evaluation through their MySacState account.

Questions about the evaluation can be discussed with the Student Services Center, Lassen 1000 or by calling the Help Line at (916) 278-1000.
Placement Measures for First-Year GE Written Communication and Mathematics/Quantitative Reasoning Courses

Freshman skills assessment and placement for general education written communication and mathematics/quantitative reasoning shall be based on systemwide skills assessment standards that include the Early Assessment Program/Smarter Balanced Achievement Levels, ACT scores and/or SAT scores, high school coursework, high school GPA and math GPA.

Skills assessments are not a condition for admission to the CSU; they are a condition of enrollment.

These skills assessments are designed to inform entering freshmen of placement in appropriate baccalaureate-level courses based on their skills and needs.

First-time freshmen in need of support as determined by the skills assessment will be placed in supported instruction. Supported instruction is designed to assist students in credit bearing courses. Students may also be required to participate in the Early Start Program.

The Early Start Program gives students the opportunity to earn college credit in written communication and mathematics/quantitative reasoning the summer before their first term.

Assessments and Placement for GE Written Communications

Has Fulfilled the GE Subarea A2 English Requirement

The student has met the requirement via completion of one of the following:

- Advanced Placement (AP) Test
  - 3 or above on AP English Language and Composition
  - 3 or above on AP English Literature and Composition

- College Transfer Coursework
  - Completed approved college course that satisfies CSU GE Area A2 (written communication) with a grade of C- or better

Placement in a GE Subarea A2 English Course

The student has met examination standards and/or multiple measures-informed standards via one of the criteria below:

- SAT Evidence-Based Reading and Writing Test:
  - 510 – 540 and 4 or more years of high school English

- ACT Test:
  - 19-21 and 4 or more years of high school English

Placement in a Supported GE Subarea A2 English Course

Based on multiple measures evaluation, student needs additional academic support including participation in the Early Start Program. Visit the Early Start Page to learn about the Early Start Program.

Assessments and Placement for GE Mathematics/Quantitative Reasoning: Non-Math Intensive Majors (Algebra and Statistics Disciplines, Non-STEM and Undecided Majors)

Has Fulfilled the GE Subarea B4 Math/Quantitative Reasoning Requirement

The student has met the requirement via completion of one of the following:

- Advanced Placement (AP) Test:
  - 3 or above on AP Calculus AB
  - 3 or above on AP Calculus BC
  - 3 or above on AP Statistics
  - 3 or above on AP Computer Science Principles

- International Baccalaureate (IB) Test:
  - 4 or above on Math Higher Level (HL)

- College Level Examination Program (CLEP):
  - 50 or above on: Calculus, College Algebra, College Algebra-Trigonometry, Pre-Calculus or Trigonometry

- College Transfer Coursework:
  - Completed math/quantitative reasoning college course with a C- or better that satisfies CSU GE Area B4
Placement in a GE Subarea B4 Math/Quantitative Reasoning Requirement
The student has met examination standards and/or multiple measures-informed standards via one of the following criteria:

CAASPP/EAP Math Exam:
- Standard Exceeded
- Standard Met and completed 12th grade approved year-long math course beyond Algebra 2 with a C- or better
- Standard Met and 4 or more years of high school math or quantitative reasoning

SAT Math Test¹:
- 570 or above
- 550 or above on Subject Test in Math Level 1 or 2
- 520 – 560 and completed 12th grade approved year-long math course beyond Algebra 2 with a C- or better

ACT Math Test:
- 23 or above
- 20-22 and completed 12th grade approved year-long math course beyond Algebra 2 with a C- or better
- SAT score conversion for scores prior to March 2016 (old SAT) (https://collegereadiness.collegeboard.org/sat-scoring-before-march-2016/)

High School Courses and GPA:
- Weighted math GPA 3.0 or above and completed 12th grade approved year-long math course beyond Algebra 2 with a C- or better
- Weighted math GPA 3.0 or above and 5 or more years of high school math or quantitative reasoning
- Weighted high school GPA 3.7 or above
- Weighted high school GPA 3.5 or above and 4 or more years of high school math or quantitative reasoning

Placement in a Supported GE Subarea B4 Math/ Quantitative Reasoning Requirement
The student has met examination standards and/or multiple measures-informed standards via one of the criteria below:

High School GPA:
- Weighted math GPA 3.3 or above
- Weighted high school GPA 3.0 or above

Placement in a Supported GE Subarea B4 Math/ Quantitative Reasoning Requirement and Participation in the Early Start Program Required
Based on multiple measures evaluation, student needs additional academic support including participation in the Early Start Program. Visit the Early Start page to learn about the Early Start Program.

Assessments and Placement for GE Mathematics/Quantitative Reasoning: Pre-STEM/STEM and Other Math-Intensive Majors
Has Fulfilled the GE Subarea B4 Math/Quantitative Reasoning Requirement
The student has met the requirement via completion of one of the following:

Advanced Placement (AP) Test:
- 3 or above on AP Calculus AB
- 3 or above on AP Calculus BC
- 3 or above on AP Statistics
- 3 or above on AP Computer Science Principles

International Baccalaureate (IB) Test:
- 4 or above on Math Higher Level (HL)

College Level Examination Program (CLEP):
- 50 or above on: Calculus, College Algebra, College Algebra-Trigonometry, Pre-Calculus or Trigonometry

College Transfer Coursework:
- Completed math/quantitative reasoning college course with a C- or better that satisfies CSU GE Area B4

Placement in a GE Subarea B4 Math/Quantitative Reasoning Requirement
The student has met examination standards and/or multiple measures-informed standards via one of the following criteria below:

CAASPP/EAP Math Exam:
- Standard Exceeded
- Standard Met and completed 12th grade approved year-long math course beyond Algebra 2 with a C- or better

SAT Math Test¹:
- 570 or above
- 550 or above on Subject Test in Math Level 1 or 2
- 520 – 560 and completed 12th grade approved year-long math course beyond Algebra 2 with a C- or better

ACT Math Test:
- 23 or above
- 20-22 and completed 12th grade approved year-long math course beyond Algebra 2 with a C- or better

High School Courses and GPA:
- Weighted math GPA 3.5 or above and completed 12th grade approved year-long math course beyond Algebra 2 with a grade of C- or better
- Weighted math GPA 3.5 or above and 5 or more years of high school math or quantitative reasoning
- Weighted high school GPA 3.7 or above
- SAT score conversion for scores prior to March 2016 (old SAT) (https://collegereadiness.collegeboard.org/sat-scoring-before-march-2016/)
Placement in a Supported GE Subarea B4 Math/ Quantitative Reasoning Requirement
The student has met examination standards and/or multiple measures-informed standards via the criteria below:

High School Math GPA:
- Weighted math GPA 3.3 or above

Placement in a Supported GE Subarea B4 Math/ Quantitative Reasoning Requirement and Participation in the Early Start Program Required
Based on multiple measures evaluation, student needs additional academic support including participation in the Early Start Program. Visit the Early Start page to learn about the Early Start Program.

Early Start Program
The goal of the Early Start Program (ESP) is to:

- Better prepare students in written composition and mathematics/quantitative reasoning before the fall term of freshman year, improving students’ chances of successful completion of a baccalaureate degree.
- If required to participate in ESP, as determined by multiple measures, students will begin in the summer before the start of the freshman year.
- For general information about ESP including fees and course listings, visit http://csustudentsuccess.org/earlystart_overview (http://csustudentsuccess.org/earlystart_overview/). Students are encouraged to visit the campus website for ESP information once admitted.
- Eligible financial aid applicants with an Estimated Family Contribution (EFC) of $5,500 or less will be eligible for waiver of the per unit ESP fee. For more information on assessments, placements and the Early Start Program, please visit www.csustudentsuccess.org

Directed Self Placement (DSP)
All first time freshmen must participate in Directed Self-Placement (DSP).
For additional information about DSP, please visit the DSP website (https://www.csus.edu/undergraduate-studies/writing-program/directed-self-placement.html).

First-year Composition Course Options:
By engaging in the Directed-Self Placement activities prior to coming to orientation and before enrolling in courses, students will receive a recommendation to help them choose from the options below:

The Semester-Long Program—English 5 or 5M1: Accelerated Academic Literacies, intensive, semester-long course to help students use reading, writing, discussion, and research for discovery, intellectual curiosity, and personal academic growth—students will work in collaborative groups to share, critique, and revise their reading and writing. Students will engage in reading and writing as communal and diverse processes; read and write effectively in and beyond the university, develop a metacognitive understanding of their reading, writing, and thinking processes; and understand that everyone develops and uses multiple discourses. 3 units.

The Year-Long “Stretch” Program—English 10/11 or 10M/11M1 Academic Literacies I & II. Year-long course to help students use reading, writing, discussion, and research for discovery, intellectual curiosity, and personal academic growth—students will work in collaborative groups to share, critique, and revise their reading and writing. Students will engage in reading and writing as communal and diverse processes; read and write effectively in and beyond the university; develop a metacognitive understanding of their reading, writing, and thinking processes; and understand that everyone develops and uses multiple discourses. 6 units.

One-Unit Small Group Tutorial — ENGL 1X: Composition Tutorial. Taken in conjunction with one of the courses above, this composition tutorial offers supplemental instruction in elements of composition and assists students in mastering the writing process with special emphasis on planning and revising essays. Instruction takes place both in traditional classroom setting and in small group and individual tutorials. Students enrolled in this tutorial must also be co-enrolled in a first-year composition course as the focus will be drafting and revising the work done in the primary writing course. 1 unit +5/5M or 10/10M, 11/11M.

1 “M” course instructors are specifically trained to help students with different language backgrounds develop the skills necessary for success in their university reading and writing. “M” courses focus on the experiences and languages that multilingual students bring to the classroom—using them as a resource for learning and refining students’ academic reading and writing.

Additional Course Placement Examination Requirements
Chemistry
Sequoia Hall 156
(916) 278-6684
Students enrolling in Chemistry 1A are required to take a General Chemistry Placement Examination. This examination must be taken in the first laboratory period during the first week of the semester.

Writing Placement for Juniors (WPJ) exam
All students must satisfy the Graduation Writing Assessment Requirement (GWAR) in order to graduate. The Writing Placement for Juniors (WPJ) exam is a prerequisite for all Writing Intensive courses. For additional information, please visit the GWAR website (https://www.csus.edu/undergraduate-studies/writing-program/) or call the Writing Programs Office in the English Department at (916) 278-6409.

Foreign Language
Mariposa Hall 2051
(916) 278-6333
Sacramento State students who continue their study of a foreign language begun elsewhere must enroll in a course that does not duplicate previous college credits received. A placement test will be given prior to registration or at the first class meeting. If given prior to registration, it will be listed in the Class Schedule. Adjustment of registration, if necessary, will be made in accordance with the results of the placement exam.

1 SAT score conversion for scores prior to March 2016 (old SAT): https://collegereadiness.collegeboard.org/sat-scoring-before-march-2016

Undergraduate Admissions
Students who have begun the study of any foreign language in high school and who will enroll before taking the placement test may use the following as a guide for their first enrollment:

1A - if the student has less than one year of satisfactory high school study
1B - if the student has one year but less than two years of high school study
1C - if students have completed up to two years of high school study or one year of college French or German or Spanish with failing or unsatisfactory achievement or evaluation; and if students have had an extended interruption of beginning or intermediate formal language study
2A - if the student has two but less than three years of high school study
2B - if the student has three years of high school study

Students who have acquired knowledge of a foreign language without having received high school or college credit should consult with an advisor for placement.

California State University, Sacramento is authorized to offer graduate programs culminating in the Doctor of Education, Doctor of Physical Therapy, Master of Arts, Master of Science, Master of Business, Master of Music, Master of Public Policy and Administration, Master of Social Work, and Education Specialist in School Psychology degrees. Sacramento State also offers a joint doctoral program in Public History in cooperation with UC Santa Barbara. In keeping with the objectives of the degrees offered, the University has developed a broad framework of requirements.

Degrees Offered
Master of Arts
Master of Arts programs are designed to provide improvement in professional competence in educational service, competence for self-directed study (research) in areas of specialization, broadening of cultural backgrounds, development of personal and social responsibility, and preparation for community leadership.

Master of Science
Objectives of the Master of Science programs are to increase competence in particular professional areas and to develop ability for independent self-directed study in selected fields. Provisions have been made in the various curricula for individual planning in light of each student’s objectives, previous education, and experience.

Master of Business
The Master of Business curriculum is designed to broaden the participants’ knowledge and understanding of business, to improve their capacity for effective decision-making, and to facilitate their professional growth and development for positions of greater responsibility. The curriculum is intended for individuals who seek careers as professional managers in business and business-oriented government organizations and as community college instructors of business. In addition, the curriculum prepares superior students for entry into doctoral programs in business.

Master of Music
The graduate program leading to the Master of Music degree is designed to provide opportunity for a variety of advanced studies in music. The Master of Music may be earned either with an academic or a performance emphasis. The program will effectively prepare students for continuation into doctoral study. Students may focus their studies in one of three areas: choral and instrumental conducting, composition, or performance.

Master of Public Health
The Master of Public Health (MPH) degree offers an emphasis in Health Promotion, Policy, and Leadership. The program focuses on preparing public health professionals to develop effective strategies for preventing illness and disease within diverse communities, while increasing the student’s capability in conducting health policy analysis and development. The program offers advanced study for public health professionals working (or seeking employment) as public health educators, policy analysts, health advocates, program managers, and public health consultants in community-based organizations, healthcare settings, local-state federal governments, and other practice settings.

Master of Public Policy and Administration
The Master of Public Policy and Administration curriculum is designed to prepare individuals committed to public service as effective and ethical leaders and advisors, managers and administrators, analysts and advocates. Students develop competence in three areas: management of the organizational context of policy implementation and administration; understanding of the political environment and process of policy making; and the analytic and research tools to plan, design, and evaluate public policy.

Master of Social Work
The curriculum leading to the Master of Social Work degree is designed to enable the student to develop professional competence in working with individuals and groups, participate knowledgeably in the implementation of social welfare policy and administration, understand human growth and development as they affect social and personal functioning, and develop social philosophies, ethics, and values relating to the practice of professional social work.

Master of Arts or Master of Science in Special Major
The special major for either a Master of Arts or a Master of Science degree provides an alternative for those individuals whose special needs and interests cannot adequately be met by any single existing or planned master’s degree program. A suitable interdisciplinary program may be planned for the superior graduate student who meets requirements established for admission to the special major graduate degree program. A student who wishes to undertake such a program should obtain an application to the program from the Office of Graduate Studies.

Ed.S. in School Psychology
The Specialist in Education, School Psychology (Ed.S.) degree can lead to professional degrees in the application of advanced educational theory. Completion of the Ed.S. requires coursework focused on identifying and addressing school-related issues that arise during school psychology practice. The School Psychology program at Sacramento State is
approved as a Specialist level program by the National Association of School Psychologists.

**Ed.D Educational Leadership**

The independent doctoral program in Educational Leadership is offered through the College of Education to help meet the need for leadership in California’s schools and community colleges. The program in educational leadership is geared to working professionals. Three key curricular themes are emphasized and provide the focus for all coursework in the program. These themes are:

1. Transformational Leadership,
2. Critical Policy Analysis and Action, and

It will lead to a Doctor of Education awarded by the CSU system.

**Doctor of Audiology**

The Doctor of Audiology (Au.D.) program is a four-year clinical doctorate that is designed to prepare students for professional practice of audiology. The Au.D. program provides coursework in the theoretical foundations of audiology practice and evidence-based practice, as well as varied clinical training experiences in the Sacramento community and surrounding areas. The Maryjane Rees Language, Speech, and Hearing Center, which is located on campus, provides the community with speech, language, and hearing services for children and adults with communication disorders. In addition, the department is located in Folsom Hall, home of the The Center for Health Practice, Policy & Research (CHPPR), giving students opportunities to work alongside and learn from and with other health professions students.

**Doctor of Physical Therapy**

The Doctor of Physical Therapy (DPT) is a three-year program dedicated to graduating professional, evidence-informed physical therapists who have the knowledge and skills to provide patient care in any practice environment. The program’s curriculum is designed to provide a foundation in the science and art of physical therapy, one that engages students in clinical reasoning through problem-solving within the context of patient cases, both actual and simulated. In addition, students complete 36 weeks of full-time internships at three locations to learn by doing in their respective practice settings. The program is fully accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE) and graduates are eligible to take the national licensure examination.

**Ph.D. Public History**

The joint doctoral program in Public History offered in cooperation with UC Santa Barbara provides training in public history, particularly in the following professional fields: history of public policy, cultural resource management, business and institutional history, and community and local history. Supporting courses are offered in oral history, archives and records administration, museum management, historical editing, and policy and litigation support.

**Admission Requirements**

The minimum requirements for admission to Master’s and Doctoral graduate degree programs and post-baccalaureate studies at a CSU campus are in accordance with University regulations as well as Title 5 chapter 1, subchapter 3 of the California Code of Regulations.

**Master’s and Post-Baccalaureate Program Admissions**

Master’s and post-baccalaureate applicants may apply for a degree objective, a credential or certificate objective, or where approved, may have no program objective. Depending on the objective, the CSU will consider an application for admission as follows:

- General Requirements — The minimum requirements for admission to master’s and post-baccalaureate studies at a California State University campus are in accordance with university regulations as well as Title 5, Chapter 1, Subchapter 3 of the California Code of Regulations.
- Specifically, a student shall at the time of enrollment:
  1. Have completed a four-year college course of study and hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association, or shall have completed equivalent academic preparation as determined by appropriate campus authorities;
  2. Be in good academic standing at the last college or university attended;
  3. Have earned a grade point average of at least 2.5 on the last degree completed by the candidate or have attained a grade point average of at least 2.5 (A=4.0) in the last 60 semester (90 quarter) units attempted; and
  4. Satisfactorily meet the professional, personal, scholastic, and other standards for graduate study, including qualifying examinations, as appropriate campus authorities may prescribe. In unusual circumstances, a campus may make exceptions to these criteria.

**Doctoral Program Admissions**

Doctor of Audiology applicants may apply for admission, in accordance with University regulations as well as Title 5, Chapter 1 Subchapter 3 of the California Code of Regulations. Specifically, a student shall at the time of enrollment:

1. The applicant holds an acceptable baccalaureate degree earned at an institution accredited by a regional accrediting association or the applicant has completed equivalent academic preparation as determined by the appropriate campus authority.
2. The applicant has an overall cumulative grade point average of at least 2.5 (A=4.0) in the last 60 semester (90 quarter) units attempted; and
3. The student has completed all campus-required prerequisite coursework.
4. The applicant must have been in good academic standing at the last institution.
5. The applicant has met any additional requirements established by the chancellor in consultation with the faculty and any additional requirements prescribed by the appropriate campus authority.

Doctor of Education applicants may apply for admission, in accordance with University regulations as well as Title 5, Chapter 1 Subchapter 3 of the California Code of Regulations. Specifically, a student shall at the time of enrollment:

1. Have completed a four-year college course of study and hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association, or shall have completed
equivalent academic preparation as determined by appropriate campus authorities;

2. Hold an acceptable master's degree earned at an institution accredited by a regional accrediting association, or have completed equivalent academic preparation as determined by the appropriate campus authority;

3. Have attained a cumulative grade point average of at least 3.0 in upper division and graduate study combined;

4. Have completed the Graduate Record Examination (GRE) with scores from the three subsections of the General Examination;

5. Be in good standing at the last institution of higher education attended;

6. Demonstrated sufficient preparation and experience pertinent to educational leadership to benefit from the program; and

7. Meet any additional requirements established by the Chancellor in consultation with the faculty and any additional requirements prescribed by the appropriate campus authority.

Doctor of Physical Therapy applicants may apply for admission, in accordance with University regulations as well as Title 5, Chapter 1 Subchapter 3 of the California Code of Regulations. At the time of enrollment:

1. The applicant holds an acceptable baccalaureate degree earned at an institution accredited by a regional accrediting association, or the applicant has completed equivalent academic preparation as determined by the appropriate campus authority;

2. The applicant has completed all required prerequisite coursework for the campus program(s) to which the applicant has applied with a cumulative grade point average of at least 3.0;

3. The applicant must have been in good academic, professional and clinical standing at the last institution and if applicable, in the last entry level physical therapist educational program attended;

4. The applicant has met any additional requirements established by the chancellor in consultation with the faculty and any additional requirements prescribed by the appropriate campus authority. Only those students who continue to demonstrate a satisfactory level or scholastic, professional, and clinical competence shall be eligible to continue in Doctor of Physical Therapy programs.

In unusual circumstances, a campus may make exceptions to these criteria.

THESE AND OTHER CSU ADMISSION REQUIREMENTS ARE SUBJECT TO CHANGE AS POLICIES ARE REVISED AND LAWS ARE AMENDED. THE CSU WEBSITE (http://www.calstate.edu/) AND THE ADMISSION PORTAL (http://www.calstate.edu/apply/) ARE GOOD SOURCES FOR THE MOST UP-TO-DATE INFORMATION.

**Graduate Programs Application Procedures**

All graduate and post-baccalaureate applicants (e.g., DPT, Ed.D., Ed.S., joint Ph.D. applicants, master’s degree applicants, those seeking educational credentials or certificates, and where permitted, holders of baccalaureate degrees interested in taking courses for personal or professional growth) must file a complete graduate application as described in the graduate and post-baccalaureate admission materials at Cal State Apply (http://www.calstate.edu/apply/). Applicants seeking a second bachelor’s degree must submit the undergraduate application for admission. Applicants who completed undergraduate degree requirements in the preceding term are also required to complete and submit an application and the $70 nonrefundable application fee. To be assured of initial consideration by more than one campus, it is necessary to submit separate applications (including fees) to each. All CSU applications must be submitted online at Cal State Apply (http://calstate.edu/apply/). An acknowledgement will be sent to the applicant when the online application has been submitted.

The application and fee are not required for students desiring to enroll only in Summer Session, Winter Intersession, or Open University through the College of Continuing Education.

**Application Filing Periods**

<table>
<thead>
<tr>
<th>Term</th>
<th>Applications First Accepted</th>
<th>Initial Filing Period</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall Semester</td>
<td>October 1</td>
<td>visit: <a href="http://www.csus.edu/graduate-studies">www.csus.edu/graduate-studies</a> (<a href="http://www.csus.edu/graduate-studies/">http://www.csus.edu/graduate-studies/</a>)</td>
</tr>
<tr>
<td>Spring Semester</td>
<td>August 1</td>
<td>August 1- September 15</td>
</tr>
<tr>
<td>Summer Semester</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Filing Period Duration**

Each non-impacted campus accepts applications until capacities are reached. Many campuses limit undergraduate admission in an enrollment category due to overall enrollment limits. If applying after the initial filing period, consult the campus admission office for current information.

On-time applicants may expect to receive an acknowledgment from the campuses to which they have applied within two to four weeks of filing the application. The notice may also include a request that applicants submit additional records necessary to evaluate academic qualifications. Applicants may be assured of admission if the evaluation of relevant qualifications indicates that applicants meet CSU admission requirements, and in the case of admission impaction, supplemental criteria for admission to an impacted program. Unless specific written approval/confirmation is received, an offer of admission is not transferable to another term or to another campus.

**Categories of Admission and Classification**

Students wishing to pursue a doctoral or master’s degree must be admitted to the specific program under which the student intends to study. At the time of application for admission to the University, the student indicates his or her proposed major and is evaluated against the admission requirements for that program. Students who meet the minimum requirements for graduate and post-baccalaureate studies may be considered for admission in one of the following four categories:

- **Graduate Classified** – To pursue a graduate degree, applicants are required to fulfill all of the professional, personal, scholastic, and other standards, including qualifying examinations, prescribed by the campus.

- **Graduate Conditionally Classified** – Persons wishing to enroll in a credential or certificate program will be required to satisfy additional
professional, personal, scholastic, and other standards, including qualifying examinations, prescribed by the campus.

- Post-Baccalaureate Classified, e.g., admission to an education credential program - Persons wishing to enroll in a credential or certificate program will be required to satisfy additional professional, personal, scholastic, and other standards, including qualifying examinations, prescribed by the campus.

- Post-Baccalaureate Unclassified – To enroll in undergraduate courses as preparation for advanced degree programs or to enroll in graduate courses for professional or personal growth, applicants must be admitted as post-baccalaureate unclassified students. By meeting the general requirements, applicants are eligible for admission as post-baccalaureate unclassified students. Admission in this status does not constitute admission to, or assurance of consideration for admission to, any graduate degree or credential program. (Most CSU campuses do not offer admission to unclassified post-baccalaureate students).

Admission of students not wishing to pursue a doctoral or master’s degree is limited. Students admitted as an unclassified graduate student may not use more than six units earned in unclassified status to apply toward a subsequent doctoral or master’s program. Therefore, unclassified students shall seek classification during their first semester’s enrollment if they wish to pursue a graduate degree. Unclassified students are allowed no more than two terms of enrollment.

Returning Post-baccalaureate, Master, Doctoral Students

Former Sacramento State students who have been absent for two or more semesters do not maintain catalog rights, must apply for readmission and a non-refundable application fee is charged. Following a mandatory interruption of one or more semesters, students who have left in a negative academic standing may not be eligible to return until they complete additional coursework. Students who have been academically disqualified or dismissed must in conjunction to applying for readmission must also file an appeal for reinstatement. At the time of readmission, student may be required to satisfy new university and/or program requirements.

Second Bachelor’s Degree

Applicants seeking a second bachelor’s degree should submit the undergraduate application for admission unless specifically requested to do otherwise. Admission is limited to a few select programs for students who have earned a bachelor’s degree from a regionally accredited institution with a GPA of 2.5 or higher in the last 60 semester units of baccalaureate or graduate level courses at Sacramento State. Students admitted in post-baccalaureate standing (unclassified) must meet residence and other specified requirements.¹

Applicants to an impacted program will be considered in the upper division quota category for admission purposes. Coursework completed in this status forms part of the post-baccalaureate grade point average and will affect the student’s eligibility for classified standing.

Candidates must file for graduation TWO SEMESTERS prior to the date of graduation. Forms are available from the Office of the University Registrar. A second bachelor’s cannot be awarded in the same major or closely related field as the first degree. Only students admitted into the second baccalaureate classification may petition to graduate with a second baccalaureate degree.

International Applicants Requiring an International Student Visa and Domestic Applicants with International Documents

Graduation from a college or university recognized by the Ministry of Education, or appropriate governing agency, with a degree requiring at least 16 years of prior education is required for graduate standing. Typically, this is 12 years of primary and secondary education and 4 years of post-secondary education.

For more information please go to Office of Graduate Studies Applicants with Foreign Documents. (http://www.csus.edu/gradstudies/futurestudents/applicantswithforeigndocuments/)

Graduate-Post-Baccalaureate English Language Requirement

All graduate and post-baccalaureate applicants, regardless of citizenship, whose native language is not English and whose preparatory education was principally in a language other than English must demonstrate competence in English. Those who do not possess a bachelor’s degree from a postsecondary institution where English is the principal language of instruction must receive a minimum score of 550 on the Test of English as a Foreign Language (TOEFL). Some programs require a higher score. Several CSU campuses may use alternative methods for assessing fluency in English including Pearson Test of English Academic (PTE Academic), the International English Language Testing System (IELTS) and the International Test of English Proficiency (ITEP).

Refer to Sacramento State/International Students/TOEFL Requirement (http://www.csus.edu/gradstudies/futurestudents/applicantswithforeigndocuments/languagetesting.html).

Advising

Classified graduate students should confer with their academic departments for requirements, course selection, and appointment of advisors.

Post-baccalaureate students seeking a teaching credential should contact the College of Education Student Service Center, Eureka Hall, Room 216, (916) 278-6403.

International Admissions

International Admissions is located within the International Programs and Global Engagement office.

Library 1001, open 8 am - 5 pm, Monday - Friday
(916)278-6686
intlinfo@csus.edu

www.csus.edu/international-programs-global-engagement/ (https://www.csus.edu/international-programs-global-engagement/)

The CSU must assess the academic preparation of foreign students. For this purpose, “foreign students” include those who hold U.S.
temporal visas as students, exchange visitors or in other nonimmigrant classifications.

The CSU uses separate requirements and application filing dates in the admission of foreign students. Verification of English proficiency (see the section on the English Language Requirement for undergraduate applicants), financial resources, and academic performance are each an important consideration for admission. Academic records from foreign institutions must be on file by the campus deadline for document submission for the first term and, if not in English, must be accompanied by certified English translations.

**English Language Proficiency Requirement**

All international applicants whose native language is not English and whose preparatory and post-secondary education was principally instructed in a language other than English must demonstrate English language proficiency through one of the following standardized tests.

<table>
<thead>
<tr>
<th>Test</th>
<th>Undergraduate</th>
<th>Graduate</th>
</tr>
</thead>
<tbody>
<tr>
<td>TOEFL (Test of English as a Foreign Language)</td>
<td>Score of 510 (paper based test)</td>
<td>Score of 550¹ (paper based test)</td>
</tr>
<tr>
<td>TOEFL</td>
<td>Score of 64 (internet based test)</td>
<td>Score of 80¹ (internet based)</td>
</tr>
<tr>
<td>IELTS (Academic)</td>
<td>Overall band score of 6.0</td>
<td>Overall band score of 6.5¹</td>
</tr>
<tr>
<td>PTE Academic</td>
<td>Score of 50</td>
<td>Score of 65¹</td>
</tr>
</tbody>
</table>

Those who have graduated from an accredited secondary (high school) or four-year U.S. college or university (obtained an undergraduate an/or graduate degree) where English is the primary language of instruction or who come from countries where English is the primary language need not submit an English language proficiency test.¹

¹ Note: Sacramento State interprets “where English was the principal language of instruction” to mean that a school is located in a country where English is the native language (the daily medium of communication of the majority of residents is English), and that the students receive academic instruction in all subjects (except foreign language courses) at all levels of education in English.

Those graduating from foreign high schools (or from California high schools after less than three years of attendance) may be admitted if their achievement is equivalent to that of eligible California high school graduates. They also may need to submit an English language proficiency test (TOEFL, IELTS, or Pearson’s) if English is not their native language.

Undergraduate applicants with foreign academic work are required to submit official copies of academic records from their school, college, or university in officially sealed envelopes, along with a certified English translation. Academic records should include:

1. secondary school records;
2. yearly records from each college or university attended, indicating the number of hours per semester or per year devoted to each course and the grades received (only if applying as an international transfer student); and
3. English Language Proficiency exam meeting the undergraduate requirement.

**International Graduate Admission Requirements**

International graduate students requiring F-1 or J-1 visas to study at Sacramento State must file the Cal State Apply online international application (https://www2.calstate.edu/apply/international/) during the posted filing period for respective graduate programs. Graduate programs may require supplemental applications and other supporting documents. Graduation from a recognized college or university with a degree requiring at least 16 years of prior education is required for graduate standing.

At the graduate level, a TOEFL score of 550 (or 80 internet based test) is required for international applicants. The following graduate programs require higher scores:

- Audiology, Au.D
- Electrical & Electronic Engineering
- English
- Public Policy and Administration
- Teaching English to Speakers of Other Languages (TESOL)

Applicants with foreign academic work are required to submit official copies of academic records from their school, college, or university in officially sealed envelopes, along with a certified English translation. Academic records should include:

1. Yearly records from each college or university attended, indicating the number of hours per semester or per year devoted to each course and the grades received;
2. Official documents that confirm awarding of a degree or diploma, with the title and date, if the applicant has already graduated; and,
3. English Language Proficiency exam meeting the graduate requirement.

**International Undergraduate Admissions Requirements**

International students requiring F-1 or J-1 visas to study at Sacramento State must file the Cal State Apply online international application (https://www2.calstate.edu/apply/international/). Applications received during the initial filing period of each undergraduate admission cycle receive priority consideration for admission. Undergraduate international and non-California resident students may not be admitted to some impacted programs.

International students graduating from U.S. high schools after three years of attendance will be admitted as freshmen under the same requirements as graduates of California high schools by use of the eligibility index.
Additional Information for International Applicants

All official documents submitted become the property of the University. The University will determine acceptability of any foreign coursework towards University degree programs. The U.S. Citizenship and Immigration Services (USCIS) requires F-1 and J-1 foreign visa students to enroll full-time, defined as follows:

- a minimum of 12 semester units for credit for undergraduates
- a minimum of 9 semester units for credit for graduate students.

International students must comply with all University and USCIS regulations, provide evidence of financial resources, and be enrolled in the mandatory CSU system student health insurance.
FINANCIAL AND REGISTRATION INFORMATION

Fees and Refunds (p. 59)
Financial Aid (p. 66)
Registration (p. 70)

Fees and Refunds

Tuition & Registration Fees
The CSU makes every effort to keep student costs to a minimum. Tuition Fees listed in published schedules or student accounts may need to be increased when public funding is inadequate. Therefore, CSU reserves the right, even after tuition or fees are initially made, to increase or modify any listed tuition or fees. All listed fees, other than mandatory systemwide tuition, are subject to change without notice, until the date when instruction for a particular semester has begun. All CSU listed tuition fees should be regarded as estimates that are subject to change upon approval by The Board of Trustees, the chancellor, or presidents, as appropriate. Changes in mandatory systemwide tuition will be made in accordance with the requirements of the Working Families Student Fee Transparency and Accountability Act (Sections 66028 - 66028.6 of the Education Code).

All students are required to pay tuition and registration fees. Additionally, nonresident, foreign-visa and graduate professional business students are required to pay per unit tuition and/or fees. Fees for auditing courses are the same as for those receiving credit for a course. Extensions and/or winter session students, resident or otherwise, pay tuition fees appropriate to the course administered through the College of Continuing Education.

Fees are payable based on the term registration date. Payments may be made by check, cash, money order, Visa, American Express, MasterCard, or Discover credit cards.

*Please note that credit cards/debit card payments must be paid online and will incur a 2.75% convenience fee.

The following reflects applicable system wide fees for semester campuses that were authorized by the Board of Trustees at their March 2017 meeting. These rates are subject to change.

### Fees and Refunds

**Definition of Mandatory Campus Fees**

**Tuition Fee** - Fee established to augment the budget for Instructional Services.

**Associated Students Inc. Fee** - To provide for non-instructional activities and programs which are designed to benefit all students and to maintain the student's well-being. Associated Students, Inc. programs include PEAK Adventures, Aquatic Center, Child Care Center, Student Life and Services (Community programs, KSSU Radio Station, SAFE Rides, and Green Sting), ASI Business Office, ASI Government Office, and Office of Governmental Affairs.

**Intercollegiate Athletics/Spirit Leaders Fee** - To provide support for Intercollegiate Athletics and Spirit Leaders. Includes support for scholarships, travel, coaches, and other support for athletic teams.

**Transportation Fee** - To provide support for alternative transportation for students including free ridership on Sacramento Regional Transit and its affiliates.

**Recreational Sports Fee** - To provide support to Recreational Sports Programs. This includes Sports Clubs and Intramural Programs.

**University Union/WELL Fee** - To provide support for the University Union building, The WELL, and all programs associated with the function of those facilities.

**Health Facilities Fee** - To provide payment for the bond on the Student Health Center.

**Instructional Related Activities Fee** - These funds are to provide support for essential educational experiences and activities that aid and supplement the fundamental educational mission of the University. For example, laboratory experiences which are at least partially sponsored by an academic discipline or department and which are, in the judgment of the IRA Committee and the President, integrally related to its formal instructional offerings. Activities which are considered to be essential to the quality of an educational program and an important instructional experience for any student enrolled in the respective program may be considered instructional related.

**Student Health & Counseling Services Fee** - To provide basic health services to students at the Health Center. Basic care is the treatment of common illnesses or injuries.

**Hornet Newspaper Fee** - To provide support for the State Hornet Newspaper. This includes free copies of the student newspaper to students, printing costs and web based services.

### Additional Fees Charged to Student Account

**Online Safety Training Fee** As part of joining the Sacramento State community, ALL incoming students are required to complete an online sexual violence prevention training. Undergraduate students are also required to complete training in alcohol abuse prevention. To complete the required tutorials, use your SacLink account information to log on to https://studentsuccess.org/students/csus. You will be charged a one-time fee ($10.00 for undergraduates; $5.00 for graduate and CCE students), which is part of the regular tuition fee process to cover the

### PRO-RATED REGISTRATION FEES:
If you withdraw (or are dropped from your classes for not paying) after the first day of the term, you will be responsible to pay approximately 1% per calendar day from the first day of the term until the day of being dropped or withdrawing, regardless of when you enrolled or when the course began.

### NON-RESIDENT TUITION (U.S. and Foreign):
$396.00 per unit plus appropriate registration tuition fees and campus fees listed above.

The tuition fees and campus fees listed are accurate at the time of posting and are subject to change. For more information on the amount of tuition fees and campus fees to pay and your due dates, check your Account Inquirt on your Student Center page at [My Sac State](https://www.sacstate.edu).
cost of the tutorials. For more information please visit Student Health and Counseling.

**Student Representation Fee** (SRF) This $2 contribution ensures that CSU students have a say on tuition, financial aid, student services, course availability, and academic advising.

**DUE DATE:** Your due date will be based on when you register for your FIRST class.

- Continuing students registering in the initial registration period will have fees due mid-June for the Fall term, and early January for the Spring term.
- New transfer students will have fees due mid-July for the Fall term, and mid-January for the Spring term in their first semester.
- New freshmen will have fees due mid-August for the Fall term, and mid-January for the Spring term in their first semester.
- Those registering during late registration will have fees due the Friday before the first day of instruction.
- Those registering in the first two weeks of instruction will have fees due by the end of the second week.
- Those registering in the third and fourth weeks should plan to prepay before registering.
- If you will be signing up for the Installment Payment Plan (IPP), your down payment will be due by your original due date.

**BILLING:** The University does not send out paper billing statements in the mail.

- Due dates and amounts will be visible on the student account 24-48 hours after registering.
- Log in to the Student Center at My Sac State and choose the Account Inquiry link.

**PAYMENT METHODS:**

- **Credit Cards:** Visa, MasterCard, American Express, and Discover credit cards may be used for payment of student tuition and fees but will be subject to a non-refundable 2.75% credit card processing fee. Credit/Debit cards are NOT accepted for payment of Registration Fees in-person.
- **Electronic Check:** Using a checking account number and routing number (eCheck) and is subject to a $5.00 flat fee.
- **In-Person:** Cash, check, money orders, OneCard and credit card checks are accepted for payment of registration fees. Please make these payable to "CSUS".
- **Mail:** Checks need to arrive at the Bursar's Office by the due date, as we cannot accept by the postmarked dates. Checks should be made payable to "CSUS" and mailed to: Sacramento State, Bursar's Office, 6000 J Street, MS 6052, Sacramento, CA, 95819

For more information about Payment Methods, please visit the Bursar's Office website (http://www.csus.edu/bursar/fees_deadlines_refunds.html#PAYMENT).

**Summer Term**

Summer Term is administered by the College of Continuing Education for all programs except the Education Doctorate Program and Doctorate of Physical Therapy. Please contact the College of Continuing Education for more information: (916) 278-4433.

### Installment Payment Plans

1. **Tuition Fees Installment Payment Plan**

   - The tuition fees installment plan allows tuition fees and mandatory campus fees to be paid in four installments. The down payment is due on your original due date and represents the campus fees (Instructional Related Activities, Associated Students Inc. Programs, Intercollegiate Athletics/Spirit Leaders, Recreational Sports, Transportation, Health Facilities, University Union/WELL, Student Health and Counseling Services, and Hornet Newspaper Fee) and a one-time $33.00 non-refundable finance charge.

   - The balance of tuition fees are due in three installments – September, October, and November in the Fall, and February, March, and April in the Spring.

   - You may not use the IPP if you have a fee waiver or a third-party sponsor. However, you may request a payment plan for the balance of your fees from the Bursar's Office.

   - If you have registered late, you may owe as much as the first two payments to avoid being dropped from your classes.

   - Late installment payments will incur a fee of $15 each time you are late.

   - Missed payments (or rejected checks) may result in: being dropped from your classes, forfeiture of your down payment, a hold preventing your use of the Installment Payment Plans for all subsequent semesters, and a hold on your records.

   - If you are dropped from your classes, you may still be required to pay a pro-rated portion of your registration fees.

   - If you re-enroll in the same term you may be charged a $100 re-enrollment fee, a $25 late registration fee and a $15 late payment fee. Re-enrollment eligibility after the term begins may be subject to instructor approval, and require payment of tuition fees IN FULL with guaranteed funds (cash, cashier's check or money order), prior to being added back into your courses.

   - Failure to pay may result in additional collection costs, including those associated with referral to a third-party collection agency.

   - Follow the 4-step process below to enroll in the Installment Payment Plan (or view the step-by-step tutorial here IPP Tutorial (http://www.csus.edu/sfsc/gallery/Album1/)):

     i. Log on to the Student Center through your MySacState at www.my.csus.edu (http://www.my.csus.edu).

     ii. Scroll down to the Finances Section and click on the drop down menu arrow.

     iii. Select the Payment Plan option.

     iv. Follow the on-screen instructions to be put on the plan

2. Non-resident Tuition Installment Payment Plan
   a. If you are a domestic non-resident or International student, you are eligible for this plan (unless you have previously defaulted). The education code allows a non-resident student to pay the required non-resident tuition on an installment basis; limited to three equal installment payments. A 15% non-refundable administrative fee will be assessed on the total non-resident amount. You are responsible for the due dates of the installment plan as stated on your contract. You will not receive paper bills in the mail.
   b. Non-resident students who wish to use the tuition installment plan MUST go to Bursar's Office in Lassen Hall 1001 to sign an agreement. At that time you will be required to pay registration fees. Non-resident students may use both the Tuition Installment Payment Plan, and the Non-resident Tuition Installment Payment Plans.
   c. A $15.00 late fee will be assessed for each late payment.

Note: Installment Payment Plans are available for the Fall and Spring semesters only.

Other Fees and Charges - Cal State Apply

| Application Fee | $70.00 |

This non-refundable fee is payable upon application for admission or readmission by all new students or students returning after an absence of two or more semesters online via credit card, e-check, or PayPal.

Parking

Parking permit information can be found online at [www.csus.edu/utaps](http://www.csus.edu/utaps/) or at the University Transportation & Parking Services (UTAPS) office located in the Welcome Center.

A license plate is required for all permit purchases. A permit does not guarantee the holder a parking space in any given area at any given time. Sacramento State is not responsible for lost or stolen parking permits.

Semester Permits

All students, staff, and faculty are eligible to purchase a semester parking permit. Parking permits can be purchased at the University Transportation & Parking Services (UTAPS) office located in the Welcome Center or online at [https://sacstate.t2hosted.com/cmn/auth_ext.aspx](https://sacstate.t2hosted.com/cmn/auth_ext.aspx)

Student Permit Amounts

| Automobiles, per semester | $178.00 |
| Motorcycles, mopeds, per semester | $44.00 |
| Weekly Permits | $12.00 |
| Daily Permits | $7.00 |
| Automobiles, summer | $119.00 |
| Motorcycles, summer | $30.00 |

*Permit prices can be found at [https://www.csus.edu/parking-transportation/parking/permit-pricing.html](https://www.csus.edu/parking-transportation/parking/permit-pricing.html)

Residence Hall Student Permits & Carpool Permits

Residence Hall permits can be purchased at the University Transportation & Parking Services (UTAPS) office located in the Welcome Center or online at [https://sacstate.t2hosted.com/cmn/auth_ext.aspx](https://sacstate.t2hosted.com/cmn/auth_ext.aspx)

Contact UTAPS for availability and release date of Residence Hall permits, (916) 278-7275.

Weekly and Daily Permits

Weekly parking permits are available for purchase by showing a valid Sacramento State OneCard at University Transportation & Parking Services (UTAPS) office located in the Welcome Center.

Daily parking permits are available from a daily parking permit machine or through PaybyPhone using location code "5115".

*Temporary permits are non-refundable.

More Information

Go to [www.csus.edu/utaps](http://www.csus.edu/utaps/) for more information on parking and transportation options.

Alternative transportation options can be found at [https://www.csus.edu/parking-transportation/alternative-transportation/](https://www.csus.edu/parking-transportation/alternative-transportation/)

Other Fees

| Campus Services I.D./OneCard (Initial or Replacement) | $15.00 |
| Late Payment Fee - when payments are not made by their due dates. | $15.00 |
| Checks and Credit Card Charges returned for any cause | $20.00 |
In the event a check or credit card payment for registration fee is returned, the total penalty fee is $45 ($20.00 returned check or credit card fee and a $25 late registration fee if applicable). If not cleared within 7 days from notice, student will be subject to cancellation without further notice.

**Liability** - if we pursue collection, you could be liable for three times the amount of the check, up to $1,500 - plus the face value of the check and court costs (per California Civil Code, Chapter 522, Section 1719).

**Stop Payment** on a check or credit card payment of registration fees is not acceptable as notice of withdrawal from classes. "Stop Payment" checks or credit cards returned to the University will be pursued through legal collection procedures, and the student will be responsible for all collection costs.

**Bad Checks** - persons having more than one check returned to the University from the bank will not have any checks accepted for their duration at Sacramento State. This includes checks written by another party on the individual's behalf. These persons are required to make payment by cash, money order, cashier's check, credit or debit card only.

**Late Registration Fee** - This fee applies to those registering during the late registration period. This also applies to those who have been cancelled and are re-registering during this period.

- **Late Add Fee** - This fee applies to those who have been cancelled and are reenrolling for the same term as of the 1st day of instruction or later.

- **Transcript of record fee** $8.00

- **Transcript RUSH fee (in addition to regular fee)** $15.00

- **All file document request** $15.00

- **Re-enrollment** - This fee applies to those who have been cancelled and are reenrolling for the same term as of the 1st day of instruction or later.

- **Writing Placement for Juniors fee** $25.00

- **Writing Placement for Graduates fee** $20.00

**Course Fees** - Campus departments may add additional course fees to your account. Most of these fees are added at the time of registration or shortly thereafter. These departments are, but not limited to: Art, Biology, Chemistry, Geology, Kinesiology, Music, Nursing, Theatre Arts, and Writing Placement for Juniors fee.

**Library Book Fees**

1. Once an item becomes 45 days overdue, a $90 lost item replacement fee is assessed. The fee is credited when the item is returned.

2. For Course Reserves, items one (1) day overdue are assessed a $10.00 overdue fine. When an item becomes 7 days overdue, a $90 lost item replacement fee is assessed. The fee is credited when the item is returned.

**Replacement of equipment** Cost of item lost or broken

**Graduation and Thesis Fees**

- Graduation and Diploma fee for degree candidate $63.50
- Graduation Date Change Fee $28.00
- Rush/Expedited Fee $15.00
- Replacement Diploma $20.00
- Diploma Cover $20.00

**Caps and Gowns (sold by the ASI Student Store)**

- Baccalaureate Degree $35.00
- Master's Degree $57.50

**Student Accident and Sickness Insurance (per year)**

Rates vary yearly. Please contact the Associated Students, Inc. Business Office at (916) 278-7782.

**Note:** Required of all students on A, F, or J visas unless adequate health coverage from some other source is demonstrated to the Office of Global Education.

**Thesis/Project microfilming and binding fee** $60.00

**Note:** This is not a complete listing of all fees that may be charged by the University. The fees listed were the most accurate available as of this posting and are subject to change. Courses that require student use of special materials or services may be charged a course fee.

**Refund Regulations**

Bursar’s Office
Lassen Hall 1003
(916) 278-6736

**Refund of Tuition and Mandatory Registration Fees, Including Nonresident Tuition**

Regulations governing the refund of tuition and mandatory fees, including nonresident tuition, for students enrolling at the California State University are included in Section 41802 of Title 5, California Code of Regulations. For purposes of the refund policy, mandatory fees are defined as those systemwide and campus fees that are required to be paid in order to enroll in state-supported academic programs at the CSU. Refunds of fees and tuition charges for self-support, special session and extended education programs or courses at the CSU are governed by a separate policy established by the university, available at the Bursar’s Office website (http://csus.edu/aba/bursars-office/fees_deadlines_refunds.html).

In order to receive a full refund of tuition and mandatory fees, including nonresident tuition, less an administrative charge established by the campus, a student must cancel registration or drop all courses prior to the first day of instruction for the term. Information on procedures and deadlines for canceling registration and dropping classes is available at the Bursar’s Office website (http://csus.edu/aba/bursars-office/fees_deadlines_refunds.html).
For state-supported semesters, quarters and non-standard terms or courses of four weeks or more, a student who withdraws during the term in accordance with the university's established procedures or drops all courses prior to the campus-designated drop period will receive a refund of tuition and mandatory fees, including nonresident tuition, based on the portion of the term during which the student was enrolled. No student withdrawing after the 60 percent point in the term will be entitled to a refund of any mandatory fees or nonresident tuition.

A student who, within the campus designated drop period and in accordance with campus procedures, drops units resulting in a lower tuition and/or mandatory fee obligation shall be entitled to a refund of applicable tuition and mandatory fees less an administrative charge established by the campus.

For state-supported non-standard terms or courses of less than four weeks, no refunds of tuition and mandatory fees, including nonresident tuition, will be made unless a student cancels registration or drops all classes, in accordance with the university’s established procedures and deadlines, prior to the first day of instruction for state-supported non-standard terms or courses or prior to the first meeting for courses of less than four weeks.

Students will also receive a refund of tuition and mandatory fees, including nonresident tuition, under the following circumstances:

- The tuition and fees were assessed or collected in error;
- The course for which the tuition and fees were assessed or collected was canceled by the university;
- The university makes a delayed decision that the student was not eligible to enroll in the term for which tuition and mandatory fees were assessed and collected and the delayed decision was not due to incomplete or inaccurate information provided by the student; or
- The student was activated for compulsory military service.

Students who are not entitled to a refund as described above may petition the university for a refund demonstrating exceptional circumstances and the chief financial officer of the university or designee may authorize a refund if he or she determines that the fees and tuition were not earned by the university.

Information concerning any aspect of the refund of fees may be obtained from:

Elena Larson, Bursar
Student Account Services
6000 J Street, Lassen Hall 1003
Sacramento, CA 95819
Phone (916) 278-6736.

### Refunds

The Application Fee, Installment Fee, Reenrollment Fee, and Late Registration Fee are NOT refundable.

Refunds will first be applied to any outstanding debt owed to the University. Refunds of checks, echecks, or debit payment will be subject to a waiting period of 10 business days. International payments will be subject to a waiting period of 20 business days. Students who OFFICIALLY withdraw or drop units within the published deadlines do not need to complete an Application for Refund for resident and non-resident fees as refunds will automatically be issued.

Students who believe they have extenuating circumstances that warrant a refund after the published deadlines must submit a Refund Application with a complete explanation of the circumstances and any supporting documentation to the Bursar’s Office.

### Withdrawing from all classes

Students who officially withdraw from the University prior to the first day of instruction will receive a 100% refund of Graduate Business Professional fees, tuition fees, campus fees, and non-resident tuition (minus a $10 processing fee). After this date students are eligible to receive a pro-rated refund only if withdrawing from all classes. If registration fees have not been paid in full at the time of withdrawal, the balance due will be pro-rated.

Beginning with the first day of instruction through the 60% date of the semester, refunds will be on a pro-rata basis using the official withdrawal date. Students are not eligible to receive a refund for withdrawing after the 60% date. The pro-rata refund will be calculated by the number of CALENDAR days from the first day of the semester to the date of withdrawal, regardless of when a student enrolled or when the course began.

To officially withdraw you must complete and file a Withdrawal Form at the Student Services Center in the Lassen Hall 1st floor lobby.

### Drop in Units

Students who drop from full to half time by the end of the second week of the semester are eligible to receive a 100% refund of the difference in tuition fees, minus a $10 processing fee. Non-resident students who drop units by the end of the second week of the semester are eligible to receive a 100% refund of the difference of non-resident tuition minus a $10.00 processing fee. Resident and Non-resident students who drop from full to half-time after these dates are not eligible to receive a refund. It is the student’s responsibility to become familiar with policies and procedures concerning add/drop and refund deadlines.

Resident students who drop units from full-time to half-time and non-resident students who drop units by the campus add/drop deadline will receive a refund of the difference in tuition fees and/or applicable non-resident tuition. Please note that the processing of drop-in-unit refunds will not begin until after the first two weeks of the term. If you received financial aid (including loans), your refund will not be considered until after the first four weeks of the term.

### Non-Credit/CEU Refund

Extension course tuition refund applications must be submitted to the University’s College of Continuing Education prior to the first meeting of the class for a full refund, less a $10 processing fee. If a student withdraws on or after the first class session, the following applies:

<table>
<thead>
<tr>
<th>Meetings</th>
<th>Full Refund</th>
<th>65% Refund Less $10</th>
<th>No Refund Less $10</th>
</tr>
</thead>
<tbody>
<tr>
<td>9 or more</td>

<td>Before 2nd Class</td>
<td>After 2nd Class</td>
</tr>
<tr>
<td>4 or less</td>
<td>Prior to 1st Class</td>
<td>None</td>
<td>None</td>
</tr>
</tbody>
</table>

### Special Session Academic Credit Refund

A $10 processing fee is charged on all Special Session tuition refunds. Refund applications must be submitted to the University’s College of Continuing Education prior to the first meeting of the class for a full refund. If a student withdraws on or after the first class session, the following applies:
Obtaining approval to drop a class does not grant you an automatic refund of course fees.

Refunds are still issued per your program's refund policy. Generally, refunds are allowed according to the following timeline:

- If you drop before the class starts, you will get a full refund minus a $10 processing fee.
- If you drop any time within the first 25% of the course, including the first day of class, you will get a 65% refund minus a $10 processing fee. If you have not paid for your course yet, you will still owe the other 35% of your tuition. This fee will remain due on your account.
- If you drop after the first 25% of the class has elapsed, you will not receive a refund. If you have not paid for your course, all fees will remain due on your account.

If you dropped after the full or partial refund deadline and would like to request a refund, please contact your program coordinator.

Not attending or not logging into your class does not remove your responsibility to pay your course fees if you are still officially enrolled.

Parking Refunds
Parking fee refund applications will be honored only if the student returns the parking permit with the refund application. The amount of parking fee refund will be determined by the following schedule:

<table>
<thead>
<tr>
<th>Fall/Spring</th>

Note: Weekly and daily permits are non-refundable.

Fees NOT Refundable
Application Fee, Late Registration Fee, Enrollment Cancellation Fee, State University Installment Payment Plan Administrative Fee, Non-resident Tuition Installment Payment Plan Administrative Fee, Weekly and daily permits

Financial Aid Refunds/Return of Title IV
Student Service Center
Lassen Hall Lobby
(916) 278-6554

A student who receives aid and withdraws, drops units, is expelled, etc., during or after the first day of enrollment will be reviewed in accordance with the Federal Title IV Student Financial Assistance Return of Title IV. The federal regulations require that Sacramento State provides for a refund using the pro-rata calculation if the student withdrew on or before 60 percent of the enrollment period.

Students are required to “officially” withdraw from the University. In the event that the student's progress does not reflect attendance, the unofficial withdrawal date used will be the mid-point of the term.

A repayment situation may occur when a student receives aid and ceases attendance. The Federal Formula will determine if the disbursement was greater than the student's expenses up to the withdrawal date. The student must repay any excess amount.

Fees and Debts Owed to the Institution
Should a student or former student fail to pay a fee or a debt owed to the institution, including tuition and student charges, the institution may "withhold permission to register, to use facilities for which a fee is authorized to be charged, to receive services, materials, food or merchandise or any combination of the above from any person owing a debt" until the debt is paid (see Title 5, California Code of Regulations, Sections 42380 and 42381).

Prospective students who register for courses offered by the university are obligated for the payment of charges and fees associated with registration for those courses. Failure to cancel registration in any course for an academic term prior to the first day of the academic term gives rise to an obligation to pay student charges and fees including any tuition for the reservation of space in the course.

The institution may withhold permission to register or other services offered by the institution from anyone owing fees or another debt to the institution. The institution may also report the debt to a credit bureau, offset the amount due against any future state tax refunds due the student, refer the debt to an outside collection agency and/or charge the student actual and reasonable collection costs, including reasonable attorney fees if litigation is necessary, in collecting any amount not paid when due.

The institution may not withhold an official transcript of grades by the institution from anyone owing fees or another debt to the institution (see Title 1.6C.7 (commencing with Section 1788.90) Part 4 of Division 3 of the Civil Code). The institution can still charge a fee for the issuance of the transcript pursuant to their published transcript processing fees.

If a person believes he or she does not owe all or part of an asserted unpaid obligation, that person may contact:

Elena Larson, Bursar
Bursar's Office, 6000 J Street
Lassen Hall 1003
Sacramento, CA 95819
Phone (916) 278-6736

The Bursar’s Office, or another office on campus to which the Bursar’s Office may refer the person, will review all pertinent information provided by the person and available to the campus and will advise the person of its conclusions.

Cancellation of Registration, Dropping Units or Withdrawal from the Institution

Students who find it necessary to cancel their registration or to withdraw from all classes after enrolling for any academic term are required to follow the University's official withdrawal procedures. Failure to follow formal University procedures may result in an obligation to pay fees.
as well as the assignment of failing grades in all courses and the need to apply for readmission before being permitted to enroll in another academic term. Information on canceling registration and withdrawal procedures is available from the Office of the Registrar at (916) 278-8088.

Students who receive financial aid funds must consult with the Financial Aid Office prior to withdrawing from the university regarding any required return or repayment of grant or loan assistance received for that academic term or payment period. Students who have received financial aid and withdraw from the institution during the academic term or payment period may need to return or repay some or all of the funds received, which may result in a debt owed to the institution.

Financial Aid

Financial Aid Office
Student Service Center Lassen Hall
(916) 278-1000
Financial Aid Website (http://www.csus.edu/aid/)

Although the primary responsibility for financing an education rests with the student and the student’s immediate family, the Financial Aid & Scholarships Office helps students and their families search for, apply, receive and maintain eligibility for various types of financial aid to help meet the cost of attending Sacramento State. All students are encouraged each year to file the Free Application for Federal Student Aid (FAFSA) or the California Dream Act Application (CADAA) prior to the March 2 priority filing date.

Types of financial aid may include scholarships, federal and state grants, federal work study, student loans and in some cases parent loans. Eligibility for financial aid is based on the Cost of Attendance (COA) minus the Estimated Family Contribution (EFC) determined by the information reported on the Free Application for Federal Student Aid (FAFSA) or the California Dream Act Application (CADAA). For more information on the types of financial aid available please refer to our website (http://www.csus.edu/aid/).

University staff are available to assist students by simply visiting the Student Service Center located in Lassen Hall Room 1000 or by calling 1-(916)278-1000.

Application Process

All students are encouraged to complete the Free Application for Federal Student Aid (FAFSA) or the California Dream Act Application (CADAA) before the March 2 priority filing deadline each year. There are two ways to apply for financial aid. A student ONLY needs to complete one financial aid application based on the eligibility criteria outlined here:

1. U.S. citizens or eligible noncitizens will need to complete the online FAFSA application (http://www.studentaid.gov).
2. Students who have an unofficial immigration status and meet the California AB540 eligibility criteria will need to complete the California Dream Act application (https://dream.csac.ca.gov).

This single application will determine the student’s need for all federal and state financial aid programs available at Sacramento State. Financial aid documents requested by the Financial Aid & Scholarships Office, must be submitted by May 1 each year to ensure financial aid funds are ready at the beginning of the FALL semester. Students must reapply for financial aid each year. The new application is available after October 1st for the following academic school year.

When filing the financial aid application, answer all questions accurately. Information reported on the application may need to be verified by the Financial Aid & Scholarships Office; if so, students will be informed through their student portal and provided a link to the required additional documentation. Once all documents have been received please allow between 4 to 6 weeks for the Financial Aid office to review your file and determine your award eligibility. You are encouraged to monitor your MySacState Student Center frequently for all communications.

Student Eligibility Requirements for US Citizens and Eligible Non-Citizens who Filed a FAFSA

To be eligible for financial assistance each applicant must:

1. be accepted for admission to the University;
2. be U.S. citizen or eligible non-citizen;
3. not be in default on a federal student loan;
4. not owe a repayment on a federal grant;
5. agree to use any student aid received solely for educational purposes;
6. be making satisfactory academic progress toward a degree (see Satisfactory Academic Progress); and
7. satisfy other general eligibility criteria established by the federal, state, or institutional regulations and guidelines.

These factors are reviewed at the time of application for financial aid. Before a financial aid disbursement (payment) is made, the student’s enrollment status and academic progress will be reviewed and verified. Financial aid awards will first apply to any outstanding institutional charges.

Student Eligibility Requirements for AB540 Students with an Unofficial Immigration Status who Filed a California Dream Act Application

To be eligible for financial assistance each applicant must:

1. be accepted for admission to the University;
2. be a AB540 eligible student with an unofficial immigration status;
3. not be in default on a student loan;
4. not owe a repayment on a grant;
5. agree to use any student aid received solely for educational purposes;
6. be making satisfactory academic progress toward a degree (see Satisfactory Academic Progress); and
7. satisfy other general eligibility criteria established by the federal, state, or institutional regulations and guidelines.

The above student eligibility factors are reviewed at the time of application for financial aid. Before a financial aid disbursement (payment) is made, the student’s enrollment status and academic progress will be reviewed and verified. Financial aid awards will first apply to any outstanding institutional charges.

Priority Dates

1. March 2 is the priority filing date for the FAFSA and the CADAA application. There is limited funding available for many of the need-based grants, therefore aid is awarded on a first come basis to eligible students who meet the priority filing date and have the greatest need.
2. March 2 is also the deadline to file the GPA verification form to the California Student Aid Commission (CSAC) for the Cal Grant programs.
• Students whose Financial Aid applications are received by the processor after March 2 are considered late filers and aid eligibility is based upon remaining fund availability.

Documents Required
A set of federal and state defined criteria is used to determine if additional documentation is needed in support of data reported on the financial aid application (FAFSA or the CADAA). This process is referred to as verification. Applicants selected for verification will be notified by email and asked to provide additional documentation. A student will need to frequently monitor their My Sac State Student Center for outstanding items on their “ToDo” List. To ensure timely disbursement of funding for Fall, we require all requested documents be submitted prior to the May 1 deadline.

Awarding Financial Aid
Eligibility for financial aid is determined by subtracting the estimated family contribution (EFC) amount the student and family can contribute toward the cost of attending Sacramento State. The EFC is determined based on the information provided on the financial aid application.

Financial aid is awarded based on full-time enrollment. Some awards, however, may be prorated for students attending less than full-time. Refer to the Award Notice Guide (https://www.csus.edu/apply/financial-aid-scholarships/apply-for-aid/) for more details.

Grants
Federal Pell Grant is available to eligible undergraduates and students pursing their first non-degree teaching credential. Students are eligible to receive a Pell Grant for up to 12 (full-time) semesters regardless of school attended.

Federal Supplemental Education Opportunity Grants (FSEOG) is available to eligible undergraduate students with extreme financial need. Funding is limited. To receive a FSEOG, a student must also be receiving the Federal Pell Grant.

Teacher Education Assistance for College and Higher Education (TEACH) grants are available for students who filed a FAFSA and currently completing coursework necessary to begin a career in teaching. Students must sign an Agreement To Serve/promise to repay and teach full-time for at least four years within eight years of completing the program as a highly qualified teacher, at a Title I school, in a specified subject area. If the service is not met, the grant must be repaid as an Unsubsidized Direct Stafford Loan, with interest from the date(s) of the original disbursement.

Educational Opportunity Program (EOP) Grant is available to eligible undergraduate California residents who are admitted to Sacramento State through the EOP program. Due to limited state funding, not all EOP students receive this grant. Other eligibility criteria also applies.

State University Grant (SUG) is available to eligible California residents and is designated to assist with tuition fees. A student may only receive one award designated for tuition fees. Priority for SUG is given to students meeting the eligibility criteria who have filed their financial aid application by the March 2 priority deadline. Funding is limited.

Cal Grants (Cal Grant A and B) is available to eligible undergraduate California residents. Eligibility is determined by the California Student Aid Commission (CSAC) for students meeting the March 2 priority filing deadline. Cal Grant A is designated for tuition fees. A student may only receive one award designated for payment of tuition fees. Other eligibility criteria also applies.

Loans
All loans must be repaid after the student graduates, leaves school or drops below half-time enrollment. Students are encouraged to only borrow the amount needed to cover educational expenses and to understand their rights and responsibilities as a borrower. All student loan borrowers must complete a Federal Direct Loan Master Promissory Note (MPN), Entrance Loan Counseling and Exit Loan Counseling.

Nursing Student Loans (NSL) assist eligible nursing students (admitted into the nursing program) with a low-interest (5%) loan. At Sacramento State, NSL are restricted to students in their junior and senior year in school. Awards are not made to pre-nursing students or students in the first and second year of the nursing program. Principal and interest payments are deferred until 9 months after the recipient stops attending at least half-time.

The Federal Direct Subsidized Loan is a long term, fixed interest rate loan for undergraduate students and is need-based. Interest is deferred until 6 months after the student graduates or ceases to be enrolled.

The Federal Direct Unsubsidized Loan is a long term, fixed interest rate loan for eligible undergraduate and graduate students and is non-need based. Interest begins to accrue at the time of disbursement. Students are highly encouraged to make interest only payments while in school to avoid the accruing interest being added to the principal amount of the loan at time of repayment.

Repayment of both Federal Direct loans begins 6 months after the student graduates, leaves school or drops below half-time. Students must have completed their financial aid file and an award acceptance must be submitted to the Financial Aid & Scholarships Office before a loan can be processed. Additionally, borrowers must complete the required Direct Loan Entrance Loan Counseling and a Master Promissory Note (MPN) before receiving loan funds. Students who have previously completed the Direct Loan Entrance Loan Counseling and MPN requirement at Sacramento State are exempt.

In general, students may borrow the following maximum amounts annually:

Federal Direct PLUS Loans (Parent Loans) is a long term, fixed interest rate loan for eligible parents of dependent students. The annual loan limit is the student’s cost of attendance minus other financial aid assistance. The parent borrower must begin repayment of principal and interest 60 days following the date of full disbursement. If the parent is denied the PLUS loan because of adverse credit history, the dependent student may request consideration for additional unsubsidized loan eligibility.

Federal Direct Graduate PLUS Loans is a long term, fixed interest rate loan for eligible graduate students who demonstrate credit worthiness. Repayment begins 6 months after the student graduates, leaves school, or drops below half-time enrollment.

Employment
Federal Work-Study (FWS) is a federally funded, need-based employment program that provides eligible students the opportunity to earn funds for their educational expenses through job opportunities. Many different types of job opportunities are available, ranging from library attendants to research assistants. A wide range of choices exists in the University as well as in nonprofit agencies in the metropolitan area, including community service opportunities. Recipients may work up to 20 hours per week. Job opportunities may be found by checking with our Career Center (https://www.csus.edu/student-life/career-center/).

Scholarships
The Financial Aid & Scholarships Office administers Institutional, Departmental, and Community scholarships. Typically, scholarships are disbursed at the beginning of the Fall and Spring semesters. Scholarships are considered a resource and must be coordinated as part of the student's overall financial aid package and therefore, may reduce other financial aid awards.

The Scholarship Program at Sac State
A student may apply for all available Institutional and Departmental Scholarships by completing the single general application. Access to the Scholarship application can be found on your MySacState Student Center. The University offers a wide number of scholarships in diversified categories and majors. Scholarship eligibility requirements and award amounts may vary from scholarship to scholarship. Application and award information is available on the Scholarships (https://www.csus.edu/apply/financial-aid-scholarships/scholarships/) Office website. The application cycle is open from mid-October through mid-March each year for the following Fall and Spring.

Other Scholarship Programs
Other various scholarship programs may be available from community organizations and private industry. Students should contact any service and religious organizations, and other professional affiliations they may be involved in for possible scholarship opportunities.

Fee Waivers and Exemptions
The California Education Code provides for the waiver of mandatory systemwide tuition fees as summarized below:

Section 66025.3 –

Military
Dependent eligible to receive assistance under Article 2 of Chapter 4 of Division 4 of the Military and Veterans Code; child of any veteran of the United States military who has a service-connected disability, has been killed in service, or has died of a service-connected disability, and meets specified income provisions; dependent, or surviving spouse who has not remarried of any member of the California National Guard who, in the line of duty, and while in the active service of the state, was killed, died of a disability resulting from an event that occurred while in the active service of the state, or is permanently disabled as a result of an event that occurred while in the active service of the state; and any undergraduate student who is a recipient of a Medal of Honor, or undergraduate student who is a child of a recipient of a Medal of Honor who is no more than 27 years old, who meets the income restriction and California residency requirement.

Foster Youth
Current or former foster youth who are 25 years of age or younger; have been in foster care for at least 12 consecutive months after reaching 10 years of age; meet one of the following: is under a current foster care placement order by the juvenile court, was under a foster care placement order by the juvenile court upon reaching 18 years of age, or was adopted, or entered guardianship, from foster care; completes and submits the Free Application for Federal Student Aid (FAFSA); maintains a minimum grade point average and meets the conditions necessary to be in good standing at the campus; and meets the financial need requirements established for Cal Grant A awards. The waiver of mandatory systemwide tuition and fees under this section applies only to a person who is determined to be a resident of California pursuant to Chapter 1 (commencing with Section 68000) of Part 41 of the California Education Code.

Section 66602 – A qualifying student from the California State University who is appointed by the Governor to serve as Trustee of the California State University for the duration of his or her term of office.

Section 68120 – Surviving spouse or child of a deceased resident who was employed by a public agency, or was a contractor or an employee of a contractor, performing services for a public agency, and was killed or died as a result of an industrial injury or illness arising out of and in the course of the performance of his/her principal duties of active law enforcement or active fire suppression and prevention duties (referred to as Alan Pattee Scholarships). Additionally, a person who qualifies for the waiver under this section as a surviving child of a contractor or of an employee of a contractor, who performed services for a public agency, must have enrolled as an undergraduate student at the California State University and meet the applicable income restriction requirement with supporting documentation (i.e. his/her income, including the value of parent support, does not exceed the maximum household income and asset level for an applicant for a Cal Grant B award).

Section 68121 – A qualifying student enrolled in an undergraduate program who is the surviving dependent of any individual killed in the September 11, 2001, terrorist attacks on the World Trade Center in New York City, the Pentagon building in Washington, D.C., or the crash of United Airlines Flight 93 in southwestern Pennsylvania, if the student meets the financial need requirements set forth in Government Code Section 69432.7 for the Cal Grant A Program and either the surviving dependent or the individual killed in the attacks was a resident of California on September 11, 2001.

Section 69000 – A person who has been exonerated, as that term is defined in Section 3007.05(e) of the Penal Code; complete and submits the FASFA; and meets the financial need requirements established for Cal Grant A awards. The waiver of mandatory systemwide tuition fees under this section applies only to a person who is determined to be a resident
of California pursuant to Chapter 1 (commencing with Section 68000) of Part 41 of the California Education Code.

Students who may qualify for the above benefits should contact the Admissions/Registrar’s Office for further information and/or an eligibility determination.

The California Education Code provides for the following nonresident tuition exemptions as summarized below:

Section 68075 - A student who is a member of the Armed Forces of the United States stationed in this state, except a member of the Armed Forces assigned for educational purposes to a state-supported institution of higher education, is entitled to resident classification only for the purpose of determining the amount of tuition and fees.

If that member of the Armed Forces of the United States who is in attendance at an institution is thereafter transferred on military orders to a place outside this state where the member continues to serve in the Armed Forces of the United States, he or she shall not lose his or her resident classification so long as he or she remains continuously enrolled at that institution.

Section 68075.7 – A nonresident student is exempt from paying nonresident tuition or any other fee that is exclusively applicable to nonresident students if the student (1) resides in California, (2) meets the definition of “covered individual” as defined in either: (A) Section 3679(c)(2)(A) or (B)(i)(I) of Title 38 of the United States Code, as that provision read on January 1, 2017 or (B) Section 3679(c)(2)(B)(i) or (ii)(I) of Title 38 of the United States Code, as that provision read on January 1, 2017, and (3) is eligible for education benefits under either the federal Montgomery GI Bill-Active Duty program (30 U.S.C. § 3301 et seq.) or the Post-9/11 GI Bill program (38 U.S.C. § 3301 et seq.) as each read on January 1, 2017.

Section 68122 – A student who is a victim of trafficking, domestic violence, and other serious crimes who has been granted T or U visa status (respectively under Section 1101(a)(15)(T)(i) or (ii), or Section 1101(a)(15)(U)(i) or (ii), of Title 8 of the United States Code) shall be exempt from paying nonresident tuition to the same extent as individuals who are admitted to the United States as refugees under Section 1157 of Title 8 of the United States Code.

Section 68130.5 – A student, other than a nonimmigrant alien (8 U.S.C. § 1101(a)(15)), who is not a resident of California is exempt from paying nonresident tuition if the student meets the requirements of (1) through (4), below:

1. Satisfaction of the requirements of either subparagraph (A) or subparagraph (B):
   a. A total attendance of, or attainment of credits earned while in California equivalent to, three or more years of full-time attendance or attainment of credits at any of the following:
      i. California high schools.
      ii. California high schools established by the State Board of Education.
      iii. California adult schools established by a county office of education, a unified school district or high school district, or the Department of Corrections and Rehabilitation (subject to the class hours’ requirement).
      iv. Campuses of the California Community Colleges (subject to the credit requirements).
   b. Three or more years of full-time high school coursework, and a total of three or more years of attendance in California elementary schools, California secondary schools, or a combination of California elementary and secondary schools.

2. Satisfaction of any of the following:
   a. Graduation from a California high school or attainment of the equivalent thereof.
   b. Attainment of an associate degree from a campus of the California Community Colleges.
   c. Fulfillment of the minimum transfer requirements established for the California State University for students transferring from a campus of the California Community Colleges.

3. Registration as an entering student at, or current enrollment at, an accredited institution of higher education in California not earlier than the fall semester or quarter of the 2001–02 academic year.

4. In the case of a person without lawful immigration status, the filing of an affidavit with the institution of higher education stating that the student has filed an application to legalize his or her immigration status, or will file an application as soon as he or she is eligible to do so.

Satisfactory Academic Progress (SAP)

A student must meet Satisfactory Academic Progress toward their degree in order to maintain eligibility for financial aid each year. At Sacramento State, the financial aid office measures SAP annually in three areas and all three standards must be met:

1. Minimum Cumulative GPA standard:
   Students are required to maintain a cumulative GPA of 2.0 as undergraduates and 3.0 as doctorate, graduate, credential students, and unclassified graduate students.

2. Overall Degree Progress standard:
   Students are required to complete their degree/certificate within 150 percent of their program degree objective.

   All graded coursework are counted, including transfer units, repeats, in-progress and withdrawals. SAP review also incorporates all unsuccessful coursework attempted at Sacramento State (i.e. “F”, “I”, “NC”, “W”, “WU”).

   Probation Warning: Students who have completed 120 percent of attempted coursework will receive a warning notification. This early warning enables the student to seek academic advisement for degree completion prior to reaching 150 percent.

3. Satisfactory Pace Standard:
   The satisfactory pace standard is an overall ratio of Sacramento State units earned to Sacramento State units attempted. Students must pass at least 75 percent of units attempted.

   All graded coursework are counted, including repeat coursework, in-progress and withdrawals. SAP review also incorporates all unsuccessful coursework attempted at Sacramento State (i.e. “F”, “I”, “NC”, “W”, “WU”). Transfer units are not included in this calculation.

   Students must meet the following standards to receive financial aid regardless of whether they were prior financial aid recipients. Satisfactory Academic Progress will be reviewed and monitored annually each spring after grades have posted.

   These standards comply with federal regulations and University policy, are applicable to all financial aid applicants at Sacramento State, and
Affect eligibility for all federal and state aid, including grants, loans, and work study.

Financial Aid Disqualification
Students will become disqualified from receiving financial aid if any one of the following applies:

- they fail to meet the GPA requirements;
- they fail to successfully complete fewer than 75% of their attempted units in any academic year;
- they fail to complete their program within 150% of their degree program required units;
- they are pursuing a second or subsequent bachelor’s, credential, or master’s degree.

Students are required to maintain a cumulative GPA of 2.0 as undergraduates and 3.0 as doctorate, graduate, credential students, and unclassified graduate students.

Appeal Review
Satisfactory academic progress is measured for all students on an annual basis. Students not meeting the requirements will be "Financial Aid Disqualified" and notified accordingly with instructions on how they may submit an appeal and the appeal process.

Appeal Process
Students who become disqualified from receiving financial aid will be notified via MySacState Student Center and provided instruction on the process. Appeals will be evaluated based on the student’s extenuating circumstance and their plan to take corrective measures toward successful degree completion.

Regaining Eligibility
Students who are disqualified due to low GPA or low unit completion will regain eligibility when they achieve the required GPA or unit completion. Undergraduate students who are disqualified due to exceeding 150% of the required units for their program must submit an Academic Plan with their appeal and indicate what required courses are needed to complete their undergraduate degree. These students will only be approved to receive financial aid for coursework required to graduate. Progress for those students on probation will be evaluated at the end of the term. A student must be meeting progress in order to maintain eligibility for financial aid.

Drop in Units
Students who received financial aid funds should consult with the Financial Aid & Scholarships Office prior to dropping a course or withdrawing from the University to determine the impact on the financial aid received. Financial aid regulations requires the Financial Aid & Scholarships Office to determine what percentage of aid is considered earned and any unearned aid must be returned to the appropriate program, resulting in refund or repayment of grant or loan assistance received for that academic term. For drop in units, aid will be adjusted at Census date to reflect the final enrollment status.

Special Categories of Students
Students in the International Program, Visitor Status, Consortium, and/or contractual programs must meet with a financial aid counselor.

Financial Aid Refunds/Return of Title IV
Open University students are not eligible for financial aid. Courses being audited are not considered toward enrollment for financial aid purposes.

Cost of Attending Sacramento State
Student budgets, also known as Cost of Attendance (COA), are designed to provide students with a projection of reasonable costs to attend school for a 9 month school period. The students COA includes direct costs which are actual tuition and fees charged and, if applicable on campus housing charges. Indirect costs included in the total COA include an allowance for books and supplies, food and housing for those living off-campus or with parents, transportation costs and an allowance for miscellaneous/personal items. The following chart is an estimate of the cost of attendance during the 2020-2021 academic year as a full-time undergraduate student and may not represent your actual expenditures for these items.

Budget figures are subject to change without notice. The CSU makes every effort to keep student costs to a minimum. Fees listed in published schedules or student accounts may need to be increased when public funding is inadequate. Therefore, the CSU must reserve the right, even after initial payments are made, to increase or modify any listed fees, without notice, until the date for a particular semester or quarter has begun. All CSU listed fees should be regarded as estimates that are subject to change upon approval by The Board of Trustees.

Registration
Introduction to My Sac State
Continuing Sacramento State students and new students who have received notice of admission are eligible to register for classes. Registration is conducted online through the Student Center on My Sac State. Eligible students are assigned a registration appointment by class level priority. The Class Schedule is available online in March for fall semester. In most academic departments, advising begins in early March for fall semesters and in October for spring semesters.

Registration information will be communicated to all eligible students in April for fall semesters and November for Spring semesters. Summer registration begins April. The Academic Advising Center offers advising and registration assistance to newly admitted students during the orientation program prior to each fall and spring semester.
Students who miss their registration appointment may enroll during Open or Late Registration. There is a $25 fee for late registration. Course availability may be limited.

Once students register for classes, all registration fees must be paid by established deadlines. Failure to pay registration fees or make appropriate arrangements for payments will result in enrollment cancellation. Contact the Bursar's Office for payment deadlines.

Adding Courses

Students are expected to add courses by using "My Sac State" at www.my.csus.edu

- Until the end of the second week of the semester. Course adds that require instructor permission must be completed by using add permit available from the academic department or at the Registrar's Office website (https://www.csus.edu/student-affairs/centers-programs/student-services-center/forms.html).
- Adds in weeks three and four of the semester are processed through the academic department and require approval by the instructor and department chair.
- Adds are not approved after week four (the census date) unless students present evidence of University error that prevented their timely registration. University error does not include failure to meet all payment deadlines. In addition to completing a Petition to Add/ Drop/Withdraw from courses after deadline, students must state their reason for a late add request on a separate page and attach it to the petition, along with verification of the circumstances. Students must then obtain signatures of the instructor, department chair, and college dean. See Petition to Add/Drop/Withdraw for more details.
- After filling out Petition to Add/Drop/Withdraw, students must submit the petition to the Registrar's Office, Lassen Hall 2000, for consideration by the vice president (or designee). A late fee of $10 will be posted on the student account within two weeks, if approved. Check back with the Registrar's Office two business days after submitting payment (check/money order only). If approved, the Registrar's Office will add the course to the student's schedule.
- Adds for audits must be noted on the petition, and the petition must be submitted to the Registrar's Office. No adds for audit are permitted after the census date.

Drop and Withdrawal Policy

Definitions

Dropping a course refers to official removal from a course within the first four weeks of the semester (before census date). In this instance, nothing is recorded on the student's permanent record.

Withdrawal from a course is an official removal from a course after census date. A grade of "W" is recorded on the student's permanent record.

Enrollment Cancellation refers to students being administratively dropped from courses due to non-payment of fees. Enrollment Cancellation is done throughout the registration cycles prior to the census date. No "W" grades are recorded on the student's permanent record. If a student is enrollment cancelled after classes begin, they will be charged fees prorated for each day of enrollment. If student is enrollment cancelled during their first semester prior to the first day of classes, they will be required to reapply for admission.

Unauthorized Withdrawal may result for failure to drop or withdraw properly from a course. In this case, a grade of "WU" is assigned by the instructor. (See "Unauthorized Withdrawal Policy" below.)

Limit on Withdrawal. For all units attempted at California State University Sacramento, withdrawals made after the census date and prior to the last three weeks of instruction are limited to a combined total of no more than 18 semester-units during a student's academic career at CSUS.

Dropping Courses

Although instructors may exercise their authority to administratively remove any student who fails to attend during the first two weeks of instruction, students should not assume they will be dropped. Students will receive a final grade of "F" or "WU" in courses they fail to drop officially.

- Students wishing to withdraw from all courses should fill out the Semester Withdrawal Form.
- Until the end of the second week of instruction of the semester, students are expected to drop courses by using "My Sac State" (www.my.csus.edu). Students will be charged registration fees for all courses not dropped prior to the first day of instruction. The drop in units refund deadline is the end of the second week of instruction.
- Drops during the third and fourth weeks of instruction are processed in the academic department offering the course and require instructor and department chair approval. Forms are available at academic department offices, or at the Office of the Registrar's website (https://www.csus.edu/student-affairs/centers-programs/student-services-center/forms.html).
- Students may withdraw from no more than 18 units in their undergraduate career, unless an exception is granted (any "W" grades received prior to the Fall 2010 semester do not count towards the 18 unit maximum).
- If students are seeking to drop or withdraw from an individual course or courses after the fourth week of the semester, and have reached the University maximum of 18 units of "W" grades allowable, they must submit an approved Petition to Add/Drop/Withdraw as a supplement to their Petition for Exception: Withdrawal in Excess of 18 units. This form is available at the Office of the Registrar's website (https://www.csus.edu/student-affairs/centers-programs/student-services-center/forms.html).

Withdrawal from a Course

Drops after the fourth week of the semester (census date) are called withdrawals. The approved Petition to Add/Drop/Withdrawal form must be submitted to the Registrar's Office (Lassen Hall) after the fourth week. The petition is available through academic department offices, or at the Office of the Registrar's web site (https://www.csus.edu/student-affairs/centers-programs/student-services-center/forms.html).

- Students may withdraw from no more than 18 units in their undergraduate career, unless an exception is granted (any "W" grades received prior to the Fall 2010 semester do not count towards the 18 unit maximum).
- If students are seeking to drop or withdraw from an individual course or courses after the fourth week of the semester, and have reached the University maximum of 18 units of "W" grades allowable, they must submit an approved Petition to Add/Drop/Withdraw as a supplement to their Petition for Exception: Withdrawal in Excess of 18 units. This form is available at the Office of the Registrar's website (https://www.csus.edu/student-affairs/centers-programs/student-services-center/forms.html).

Withdrawals after the fourth week of the semester are granted only for "serious and compelling" reasons:

a. Withdrawal during the 5th and 6th week of the semester requires the signature of the course instructor and the department chair. Reasons for dropping in during this period include medical circumstances, carrying an excessive course load, student's inadequate academic preparation for the course, or the student having significant job or career changes.

b. Withdrawal during the 7th through the 12th week requires the signature of the course instructor, the department chair, and the
college dean. Reasons for withdrawal during this period include only medical or work related circumstances clearly beyond the control of the student; a student initiated job change, carrying an excessive course load, or inadequate preparation do not qualify. Withdrawal is allowed after the 12th week of instruction only in exceptional cases, such as in cases of accident or serious illness due to circumstances beyond the student’s control. All signatures are required and the student must meet with an Academic Advisor in the Academic Advising Center. Withdrawals approved during the last three weeks of the semester will not count towards the 18 unit maximum; however, a grade of “W” is still recorded on the transcript.

Attendance
Classroom attendance is generally necessary for academic success; therefore, regular attendance at class is expected. In some courses (for example, laboratories or seminars), attendance is absolutely critical to the work of the course. Students are advised that individual faculty may establish attendance policies in their courses and may link absences to their evaluation of students’ performance in the course. Such policies must be stated in the course syllabus made available at the beginning of the semester. Excessive absences may lead a faculty member to assign a “WU” or “F” grade.

Instructors have the right to administratively remove any student who, during the first two weeks of instruction, fails to attend any two class meetings (for courses that meet two or more times a week), or one class meeting (for courses that meet once a week). It is therefore especially important that students contact instructors in advance regarding absences during the add/drop period. However, do not assume instructors will turn in official drops. It is the responsibility of each student to officially drop any scheduled courses he or she is not attending. Failure to do so will result in penalty grades (“WU” or “F”).

Cancellation of Registration or Withdrawal from the University
Student Service Center
Lassen Hall Lobby
(916) 278-1000

Students who find it necessary to cancel their registration or to withdraw completely from Sacramento State after enrolling for any academic term are required to follow the university’s official withdrawal procedures (see below). Failure to follow formal university procedures may result in an obligation to pay fees, the assignment of failing grades in all courses, and the need to apply for readmission before being permitted to enroll in another academic term. Information on canceling registration and withdrawal procedures is available from the Registrar’s Office at (916) 278-1000.

Students who receive financial aid funds must consult with the Student Services Center prior to withdrawing from the university regarding required return or repayment of grant or loan assistance received for that academic term or payment period. Students who have received financial aid and withdraw from the institution during the academic term or payment period may need to return or repay some or all of the funds received, which may result in a debt owed to the institution.

Sacramento State students withdrawing from all classes in a given semester must receive approval from the Student Services Counselor before leaving the university. Students withdrawing from one or some of the classes, but not all, after the sixth week of the semester for academic reasons must receive approval from the college dean of the class being dropped.

Students withdrawing after the fourth week of instruction will receive a grade of “W” in each class.

Students who are withdrawing because they are incapacitated and are unable to obtain approvals in person must contact the Student Services Center to discuss processing procedures. Verification of illness or accident should accompany a student’s request.

Withdrawals from the University during the final three weeks of the semester shall not be permitted except in cases such as accident or serious illness, where the cause of withdrawal is clearly beyond the student’s control, occurred after the 12th week of the semester, and the assignment of “Incomplete” grades each course is impractical. Medical documentation will be required.

A student who pays registration fees and subsequently withdraws after the first day of the semester usually is considered a continuing student for the next semester and need not reapply for admission.

For information regarding refund of registration fees upon withdrawal, refer to Fees page: https://www.csus.edu/apply/enrollment-costs-fees/refunds/.

1 See Fees and Refunds/Financial Aid Refunds/Title IV.

Immunization Requirements
Student Health and Counseling Services
(916) 278-6461
https://www.csus.edu/student-life/health-counseling/

CSU Immunization Requirements
Entering CSU students are required to present proof of the following immunizations to the CSU campus they will be attending before the beginning of their first term of enrollment.

Measles, Mumps, and Rubella (MMR): Two (2) doses with first dose on or after 1st birthday; OR positive titer (laboratory evidence of immunity to disease).

Hepatitis B (Hep B): All new students who will be 18 years of age or younger at the start of their first term at a CSU campus must provide proof of full immunization against Hepatitis B before enrolling. Full immunization against Hepatitis B consists of three timed doses of vaccine over a minimum 4 to 6 months period. If you need further details, please consult Student Health and Counseling Services.

Varicella (Chickenpox): Two (2) doses with first dose on or after 1st birthday; OR positive titer (laboratory evidence of immunity to disease) prior to enrollment.

Tetanus, Diphtheria, Pertussis (Td): One (1) dose after age 7.

Meningococcal conjugate (Serogroups A, C, Y, & W-135): One (1) dose on or after 16 for all students and age 21 or younger.

Tuberculosis Screening/Risk Assessment: All incoming students must complete a Tuberculosis risk questionnaire. Incoming students who are at higher risk* for TB infection, as indicated by answering “yes” to any of

* See Immunization Requirements.
the screening questions, should undergo either skin of blood testing for TB infection within one year of CSU entry.

*Higher risk include travel or living in South or Central America, Africa, Asia, Eastern Europe, and the Middle East; prior positive TB test; or exposure to someone with active TB disease.

The above are not admission requirements, but are required of students as conditions of enrollment in CSU.

Reservation

The University reserves the right to select its students and deny admission to the University or any of its programs as the University, in its sole discretion, determines appropriate based on an applicant’s suitability and the best interests of the University.

Immigration Requirements for Licensure

Office of the University Registrar

Office of the University Registrar
Student Service Center
Lassen Hall Lobby

The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (P.L. 104-193), also known as the Welfare Reform Act, includes provisions to eliminate eligibility for federal and state public benefits for certain categories of lawful immigrants as well as benefits for all illegal immigrants.

Students who will require a professional or commercial license provided by a local, state, or federal government agency in order to engage in an occupation for which the CSU may be training them must meet the immigration requirements of the Personal Responsibility and Work Opportunity Reconciliation Act to achieve licensure. Information concerning the regulation these requirements are available from the Office of the University Registrar.

Maximum Course Load

Because of the preparation required to do quality work, a normal course load is considered to be 15 to 17 units, depending on the curriculum in which the student is enrolled. Students who want to accelerate their programs may enroll for a maximum of 18 units in a semester by adding courses during the change-of-program period, known as Open Registration.

Students whose University record justifies a course load in excess of 21 units may petition to be allowed to carry extra units. The petition must be recommended by their advisor and approved by their major department chair and college dean. Only students with superior academic records are allowed to enroll for more than the maximum unit load. An overall grade point average of at least 3.25 is normally required, and the need to carry an overload must be established. Factors such as time spent in employment or commuting, nature of the program, and the student’s health should be considered in planning a student load. Students who are employed full time are advised not to carry a load in excess of 6 units.

Intrinsystem and Intersystem Enrollment Programs

Office of the University Registrar
Lassen Hall 2000

Fully matriculated students enrolled at any CSU campus have access to courses at other CSU campuses on a space available basis unless those campuses/programs are impacted. This access is offered without students being required to be formally admitted to the host campus and in most cases without paying additional fees. Students should consult their home campus academic advisors to determine how such courses may apply to their specific degree programs before enrolling at the host campus.

There are two programs for enrollment within the CSU and one for enrollment between CSU and the University of California or California Community Colleges. Please contact the Office of the University Registrar for additional information.

Students are not required to notify the University of their intention to discontinue enrollment unless applying for a Leave of Absence or one of the special statuses explained below.1

1 Refer to Application to Sacramento State (p. 24)/Returning Student.

CSU Fully Online Courses

Matriculated students in good standing may request enrollment in one course per term, offered by a CSU host campus. Enrollment requests will be granted based on available space, as well as completion of any stated pre-requisites. Credit earned at the host campus is electronically reported to the student’s home campus to be included on the student’s transcript at the home campus.

CSU Visitor Enrollment

Matriculated students in good standing enrolled at one CSU campus may enroll at another CSU campus for one term. Credit earned at the host campus is reported at the student’s request to the home campus to be included on the student’s transcript at the home campus. Students should consult Sacramento State advisors to determine how host campus courses may apply to their degree programs before enrolling.

Visitor transfers are approved for one term only and are subject to space availability and enrollment priority policies at the host campus. Enrollment as a visitor transfer may be repeated after re-enrollment at the home campus. Concurrent enrollment (see below) is not permitted during visitor status. Visitor applications may be obtained from the Admissions Office or the Office of the University Registrar.

Concurrent Enrollment Within CSU

Matriculated students in good standing enrolled at any CSU campus may enroll on a space available basis at both their home CSU campus and a host CSU campus during the same term. Credit earned at the host campus is reported at the student’s request to the home campus to be included on the student’s transcript at the host campus. Many online courses at CSU campus are available for concurrent enrollment. Because of overlap in academic terms of campuses on semester and quarter calendars, concurrent enrollment is subject to combinations and conditions described in the concurrent enrollment application forms available from the Office of the University Registrar.

Intersystem Cross Enrollment

Matriculated CSU, UC, or community college students may enroll on a “space available” basis for one course per term at another CSU, UC, or community college and request that a transcript of record be sent to the home campus.

Cross enrollment is available to students who:
Leaves of Absence
The leave policy allows enrolled Sacramento State undergraduate and second baccalaureate students to maintain enrollment eligibility and rights to specified degree requirement options. Unclassified postbaccalaureate students are allowed to maintain enrollment status while exploring goals away from the University. The policy also allows classified graduates (those enrolled in master’s degree programs) to maintain status in their programs during an absence. Sacramento State students who will not be enrolled at Sacramento State may file for a Leave of Absence to receive these benefits. Forms to apply for a Leave of Absence for Undergraduate students are available in the Office of the University Registrar, for Graduate level students the form is located on the Graduate Studies website.

Sacramento State students studying abroad through independent programs should contact the International Programs and Global Engagement Office for information.

As required by law, regulations regarding admission eligibility, established by the California State University Board of Trustees, will apply to re-admission. Students dismissed due to academic deficiencies or disciplinary action are not eligible for Leaves of Absence. (However, students readmitted to Sacramento State after only one semester of non-enrollment maintain catalog rights.) Students enrolled only in Extension courses or as Auditors are not eligible for Leaves of Absence.

Leaves approved for graduate students do not extend the seven year time limit for completion of graduate degree requirements established by Title 5, California Code of Regulations, Section 40510. Graduate students anticipating absence beyond such time limits must first seek approval through the Office of Graduate Studies, (916) 278-6470.

Enrolled Sacramento State students requesting leaves during a semester must follow withdrawal procedures. All contractual agreements (housing, financial aid, etc.) must be satisfactorily terminated.

1 Refer to Baccalaureate Degree Requirements (p. 24)/Catalog Rights.

Types of Leaves
Medical
Requests must be accompanied by a statement from a medical doctor explaining why the student must interrupt enrollment. No limit exists on the number of semesters of absence allowed, except leaves for pregnancy, which are restricted to the semester of delivery and the one following. An application and fee are required at readmission following a leave of two or more semesters.

Military
Requests must be accompanied by a copy of military orders indicating induction or transfer date. Eight semesters absence is the maximum that can be approved. An application and fee are required at readmission for a leave of two or more semesters.

Planned Educational Leave
Students may petition for planned educational leaves to pursue educationally related activities that will enhance the prospect of successful completion of their academic programs but which may not require enrollment at Sacramento State or any other institution of higher education. A planned educational leave may be granted for a period of up to two years to students who apply while enrolled in a degree program at Sacramento State. If the leave is approved, the student retains degree catalog rights and may enroll as a continuing student provided the student notifies the Office of the University Registrar of her/his return and registers in the same semester indicated on the petition.

Personal
Students who for personal reasons are temporarily unable to continue their program of studies may request a leave of absence for a specific period of time not to exceed two semesters. After reaching the two semester limit, students who are requesting to extend their leave of absence status must file a request to extend on the Leave of Absence petition for no more than an additional two semesters. Four semesters of absence is the maximum that can be approved for personal reasons. If the leave is approved, the student retains degree catalog rights. The student may enroll as a continuing student provided the student notifies the Office of the University Registrar of her/his return and registers in the same semester as indicated on the petition. However, an application and fee are required for formal readmission for a leave of two or more semesters.

One Semester Only
Sacramento State students who are not enrolled for one semester at Sacramento State are considered as on a leave of absence. Students who return after being absent for one semester do not have to file for readmission or pay the application fee, keep their catalog rights for
undergraduate students and maintain classified status for graduate students. (Exception: graduate students who have completed all coursework and have received an "RP" in their culminating experience are required to enroll in Continuous Enrollment. Further information is available at the Office of Graduate Studies.) Students who do not enroll for two consecutive semesters without filing for a Leave of Absence are not considered as continuing students. Students must reapply for admission and pay the application fee. All application deadlines must be followed for consideration for readmission.

### Enrollment at Regionally Accredited Colleges

Once catalog rights are established by enrollment at a California State University or California Community College (CCC), enrollment at a regionally accredited college maintains these catalog rights if two conditions are met:

1. enrollment takes place at the regionally accredited college for one semester or two quarters of each calendar year after leaving a CCC or Sacramento State; and
2. enrollment or re-enrollment at Sacramento State occurs within or at the end of a four-semester maximum absence.

Students attending regionally accredited colleges while absent from Sacramento State do not qualify for a Leave of Absence.

### Definition of Key Terms

**Academic Action** — When a student's academic performance does not meet the University's minimum scholastic standards, he/she will be subject to academic action that will affect eligibility to register.

**Academic Program** — A pattern of specialized courses designed to provide students with the skills and knowledge necessary to pursue a specific career or advanced study. See list of academic programs (or majors).

**Career** — There are three designated academic careers for which transcripts are maintained: Undergraduate, Graduate, and College of Continuing Education (extension).

**My Sac State** — The access portal for student, faculty, and staff specific information and services. Students access specific information in the Student Center. Faculty access specific information in the Faculty Center.

**Class Level** — A student's class level based on units completed or academic program objective. Undergraduate class levels are:

<table>
<thead>
<tr>
<th>Class Level</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freshman</td>
<td>less than 30 units</td>
</tr>
<tr>
<td>Sophomores</td>
<td>30 to 59.9 units completed</td>
</tr>
<tr>
<td>Juniors</td>
<td>60 to 89.9 units completed</td>
</tr>
<tr>
<td>Seniors</td>
<td>90 or more units completed</td>
</tr>
</tbody>
</table>

Graduate students are those who have graduated with a baccalaureate degree from an accredited college or university.

**Computer Proficiency** — Courses using the various forms of computers and labeled as such will include a notice within the catalog description identifying the specific knowledge requirement as listed below:

- MAC-OS: start-up procedures, icon usage, file management, mouse input, print, backup, formatting, and copying.
- PC-DOS: start-up procedures, disk formatting and copying, print, directory listing, and program access.
- UNIX: log-in procedures, directory navigation, print, copy, run programs, and file management.
- VMS: log-in procedures, directory navigation, print, copy, run programs, and file management.

**Corequisite** — A corequisite is a course or other preparation which must be taken simultaneously. Corequisites are listed in the course description.

**Course Number System**

<table>
<thead>
<tr>
<th>Course Number System</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-99</td>
<td>Lower Division</td>
</tr>
<tr>
<td>100-199</td>
<td>Upper Division</td>
</tr>
<tr>
<td>200-299</td>
<td>Graduate</td>
</tr>
<tr>
<td>300-499</td>
<td>Professional Education</td>
</tr>
<tr>
<td>500-599</td>
<td>Master's or Doctoral Thesis or Project</td>
</tr>
<tr>
<td>600-699</td>
<td>Doctoral</td>
</tr>
</tbody>
</table>

**Double Major** — Students may obtain a baccalaureate degree with two majors by completing the requirements for both majors. Multiple majors will be recorded on the student's permanent record and if the student has completed the requirements for two or more majors leading to different baccalaureate degrees, those degrees and completed major(s) shall be acknowledged on the diploma and official transcript.

**Earned Hours** — The number of academic units completed that may apply toward degree requirements.

**Electives** — Courses which may be selected by the student to complete total-unit requirements. In some cases, major requirements include electives, i.e., a given number of courses in the major to be selected by the student.

**Full-Time Status** — Undergraduate students enrolled in 12 or more units are considered full-time. Graduate students enrolled in 8 or more units are considered full-time. **Note:** off-campus agencies may use different definitions for determining full-time status.

**Minor** — The minor is a pattern of courses similar to the major, but less comprehensive. Only a few majors at Sacramento State require a minor, but students who have a substantial number of elective units in their degree program should consider applying them to a minor. The number of units required for a minor varies with the department; most minors require approximately 21 units. Requirements are listed in each department's section of this catalog. A minor is posted to the official transcript but does not appear on the diploma. Minor requirements completed after graduation are not posted to the official transcript.

**OneCard** — Sacramento State's digital-image identification card for students. It allows students to access campus services and also functions as a debit card.

**Part-Time Status** — Undergraduate students enrolled in 6-11 units are considered part-time. Enrollment in less than 6 units is considered less than part-time. Graduate students enrolled in 4-7 units are considered part-time. Enrollment in less than 4 units is considered less than part-time.

**Prerequisite** — A prerequisite is a course or other preparation which must be completed before enrollment in an advanced course. When applicable, prerequisites are included in catalog course descriptions.
Unit — A unit represents approximately one hour of class instruction each week for one semester. Semesters usually have 15 weeks of instruction with final examinations held on the 16th week. For example, HIST 17A, having a value of three units, would meet three hours each week for a total of 45 hours of instruction. The terms “unit” and “credit hour” are used interchangeably.
BACCALAUREATE DEGREE REQUIREMENTS

Baccalaureate Degree
All baccalaureate degrees at Sacramento State require completion of the requirements listed below. Degree requirements fall into three categories: General Education requirements; major/minor requirements; and other Graduation requirements, which are subject to catalog rights policy. These requirements are derived from Title 5 of the California Code of Regulations, action of the California State University system, and University policy.

Total Units
A minimum of 120 semester units is required. Some majors require additional units. No more than 70 units taken at a community college or other two-year college may be applied to this total.

Upper Division Units
Completion of at least 39 of the total units must be in junior and senior level courses numbered 100-199 at Sacramento State. At least 9 units must be upper division General Education.

Major
Completion of a specific number and pattern of courses in one or more academic departments is defined as a major and is required for graduation. Major requirements vary from a minimum of 24 units to a maximum of 105 units, with majors for the Bachelor of Arts requiring a minimum of 12 upper division units and majors for the Bachelor of Science requiring a minimum of 18 upper division units. Students may complete the requirements for two or more majors leading to the same baccalaureate degree concurrently. Some Sacramento State majors require an academic minor or approved area of concentration (see requirement listings by major in Academic Programs).

General Education and Graduation Requirements
All undergraduate students must complete a minimum of 48 units of General Education requirements. Approved General Education courses are listed on the online Schedule of Classes each year. Undergraduate students must also complete Graduation Requirements.

American Institutions Graduation Requirement
Demonstrated competency in "American Institutions", including: U.S. History and the U.S. Constitution, and California state and local government, is required for graduation. These requirements may be satisfied through approved courses or through examinations given by the History and Political Science departments. A maximum of three units may count towards both GE Area and American Institutions requirements.

English Composition Graduation Requirement
Two semesters of college-level English Composition courses, with a grade of "C" or higher, are required for graduation. English 5, 5M, 11, and 11M also satisfy GE Area B2 requirements.

Writing Proficiency Graduation Requirement
GWAR Website (http://www.csus.edu/gwar/)
All undergraduate students must satisfy the Graduation Writing Assessment Requirement (GWAR) in order to graduate. To do so, students will follow two steps. First, they will obtain their GWAR Placement. Students must choose how to obtain their GWAR Placement, which is determined by either the Writing Placement for Juniors (WPJ) timed exam or by taking a writing course, ENGL 109W or ENGL 109M. Second, students will complete the upper-division coursework required by their GWAR Placement, including the General Education writing-intensive (WI) course, which certifies the GWAR. The WI course may also count toward General Education and/or major requirements.

Students having satisfied the Graduation Writing Requirement at other CSU campuses may be considered to have satisfied the requirement at Sacramento State. Evidence of successful completion must be provided to the Writing Programs Office, Calaveras Hall 101.

Foreign Language Graduation Requirement
Undergraduate students are required to meet a foreign language requirement for the baccalaureate degree. The policy requires proficiency to be demonstrated at a level comparable to the second semester of college level language, including American Sign Language (ASL). However, some Bachelor of Science high unit majors have been given an exemption from the Foreign Language Requirement. Those programs will be so noted in their catalog section. Students who change majors and are no longer in an exempt program will be subject to the University’s Foreign Language Graduation Requirement.

Before Sacramento State Enrollment
The foreign language graduation requirement may be met by any one of the following:

1. completion of the third year of a foreign language in high school (grade of "C" or better).
2. graduation from a secondary school where the language of instruction was not English.
3. advanced Placement Foreign Language Examination scores of 3, 4, or 5; or
4. completion of two semesters of a foreign language at a community college or university, with a grade of "C" or better. The second semester of a foreign language may also count towards GE Area C2 requirements.

Students will be required to submit official high school or college transcripts or other admissions documents to verify the completion of this requirement.

Note: Students with language disabilities due to a specific learning disability, or are deaf, hearing or speech impaired, or who have sustained brain injury may, on the recommendation of the Director of Services for Students with Disabilities, satisfy the requirement in one of several alternative ways.
After Sacramento State Enrollment
If the language requirement has not been completed through one of the above options, students must meet the Sacramento State foreign language graduation requirement by completing one of the following options:

1. passing intermediate-level tests in two of four skills: reading, writing, listening, and speaking. One of the tests passed must be in reading or writing.
2. passing an advanced-level proficiency test in reading. Contact the Department of World Languages and Literatures (Mariposa 2051, (916) 278-6333) for more information; or
3. completing the second semester or equivalent (1B) of a college-level language (including ASL) course with a grade of "C-" or better.

Race and Ethnicity in American Society Graduation Requirement
All students must complete a three-unit course designated as meeting the Race and Ethnicity in American Society requirement. Courses meeting this requirement may also be used to satisfy the University's G.E. Area requirements. Transfer students may satisfy this requirement at a community college, upon completion of an appropriate course. Courses meeting this requirement taken at Sac State by G.E.-certified students may be used to satisfy portions of the G.E. residence requirement and, in the case of approved upper division courses, the G.E. upper division unit requirement.

Residence Requirement
At least 30 of the total units must be taken on the Sacramento State campus. A minimum of 24 of these units must be upper division, including at least 12 upper division units in the major (except for Business, English, and Psychology which require 15 units). Sacramento State units earned by extension and/or challenge examination do not count toward the Sacramento State residence credit requirement.

Grade Point Average Requirement
An overall grade point average (GPA) of 2.0 is required in five areas:

1. total courses (cumulative GPA),
2. Sacramento State courses,
3. upper division courses applied to the major,
4. courses applied to the minor, and
5. courses used to complete General Education requirements.

Departments may impose additional grade and GPA requirements (e.g., a department may require a "C-" or better in every course which is applied to the major).

General Education Program

Office of Undergraduate Studies Website (http://www.csus.edu/acaf/ge/)

One of the principles on which a modern university rests is the assumption that there is an important difference between learning to make a living and building the foundation for a life. While the first goal is important, the second is fundamental.

In focusing on the students' development as whole or "educated" people, a university distinguishes itself from a trade school. The goal of a university education is not simply the acquisition and application of knowledge, but the creation of people who firmly grasp the worth of clear thinking and know how to do it; who understand and appreciate the differences between peoples and cultures as well as their similarities; who have a sense of history and social forces; who can express thought clearly and have quantitative ability; who know something about the arts as well as how to enjoy them; who can talk and think intelligently about the physical and life sciences, the humanities, and literature; and, above all, who have the desire and capability for learning. This goal is why a university degree is so highly valued by individuals, employers, and the community at large.

Therefore students should carefully select courses and actively seek subject areas that are new and may challenge their world-views or cherished assumptions and offer new experiences, such as inquiry-based or community-based learning. In short, students shouldn't take the easy way out. This is their opportunity to lay the foundation for the rest of their lives, and to define themselves as educated members of the human community. Their time at the university is precious and the General Education Program has been designed to help them begin the process of becoming truly educated people. In deciding to pursue a university degree, they have chosen well and should make the best use of the opportunities open to them.

Objectives
Upon completion of the General Education Program requirements, students will be expected to:

- read, write, and understand relatively complex and sophisticated English prose;
- construct a non-fallacious verbal argument, recognize fallacious arguments, and follow the verbal arguments of others;
- find and use common information resources, engage in specialized library research, use computers and seek out appropriate expert opinion and advice;
- use mathematical ideas to accomplish a variety of tasks;
- gain a general understanding of current theory, concepts, knowledge, and scientific methods pertaining to the nature of the physical universe, ecosystems, and life on this planet;
- develop an acquaintance and understanding of cultures and major dynamic social institutions which affect one's life; and
- possess a significant and useful understanding of peoples from a diversity of cultures and backgrounds, including women and ethnic and other minority groups who have been the objects of prejudice and adverse discrimination within our society.

In addition to these basic skills, courses in the sciences, arts, humanities, and social sciences have been selected to help students attain the university's baccalaureate learning goals and to satisfy particular GE Area Learning Outcomes. The Baccalaureate Learning Goals include:

- **Competence in the Disciplines**: The ability to demonstrate the competencies and values listed below in at least one major field of study and to demonstrate informed understandings of other fields, drawing on the knowledge and skills of disciplines outside the major.
- **Knowledge of Human Cultures and the Physical and Natural World**: through study in the sciences and mathematics, social sciences, humanities, histories, languages, and the arts. Focused by engagement with big questions, contemporary and enduring.
• **Intellectual and Practical Skills, Including**: inquiry and analysis, critical, philosophical, and creative thinking, written and oral communication, quantitative literacy, information literacy, teamwork and problem solving, practiced extensively across the curriculum, in the context of progressively more challenging problems, projects, and standards for performance.

• **Personal and Social Responsibility, Including**: civic knowledge and engagement—local and global, intercultural knowledge and competence¹, ethical reasoning and action, foundations and skills for lifelong learning anchored through active involvement with diverse communities and real-world challenges.

• **Integrative Learning², including**: synthesis and advanced accomplishment across general and specialized studies.

1 Understanding of and respect for those who are different from oneself and the ability to work collaboratively with those who come from diverse cultural backgrounds.

2 Interdisciplinary learning, learning communities, capstone or senior studies in the General Education program and/or in the major connecting learning goals with the content and practices of the educational programs including GE, departmental majors, the co-curriculum and assessments.

Sacramento State General Education courses are designed, selected, and approved by the faculty to meet these program objectives. Students will benefit from consultation with the Academic Advising Center or advisors in their major departments in planning their General Education course choices. Students may search the online Schedule of Classes by Area or other specification(s) for currently available GE courses.

### Course Requirements

Courses have been approved to meet the 48-unit General Education pattern required of Sacramento State students. In addition, a second semester composition course and demonstration of proficiency in a foreign language are required for graduation. (See GE requirements for a description of these requirements.) Students must choose their General Education classes from the Areas and classes listed in the catalog.

### General Education Policies

- All upper division GE courses require at least second semester sophomore standing (45 units) and completion of all GE Area A courses as prerequisites.
- At least 3 upper division GE units must be completed each in Area B, Area C, and Area D, for a total of at least 9 upper division units. (Courses numbered 100-199).
- The Writing Intensive course may be counted as upper division GE if it is listed as a GE course. Students must complete the course with a C- or higher to certify the GWAR.
- Each course taken to satisfy the Area A Basic Subjects and Area B4 Quantitative Reasoning must be completed with a grade of "C-" or higher.
- A 2.0 cumulative GPA is required in General Education.

### Overlap Between General Education Graduation Requirements and Majors/Minors

General education requirements include six areas (A-F) in which you must take courses (Area Requirements) and, a nine-unit upper division requirement. Some courses that satisfy an Area Requirement may also satisfy a Graduation Requirement or a major requirement. The overlap possibilities are outlined below. Students needing help applying these overlap policies are encouraged to see an advisor in the Academic Advising and Career Center, Lassen Hall 1013.

1. The Race and Ethnicity requirement can be met with an upper or lower division course from a student’s major or major department or in a General Education Area. Example: A Social Work major can use SWRK 102 to meet the Race and Ethnicity requirement.
2. The Writing Intensive requirement can be met with a course from the major or major department in specified majors, but not in all majors. Some, but not all WI courses also satisfy a GE Area Requirement.
3. Up to three units of the American Institutions Graduation Requirement may also satisfy a GE Area Requirement.
4. Satisfying the Foreign Language Graduation Requirement by completing the second semester of a single language may also satisfy a GE Area Requirement.
5. There is no restriction on the overlap of courses between GE and minor requirements.
6. There is no restriction on the overlap of courses between GE and major courses.

### Transfer Students

Transfer students who have completed lower division General Education requirements at a California community college, including those certified under the Intersegmental General Education Transfer Core Curriculum (IGETC), and/or those in receipt of an Associate Degree for Transfer (ADT), are required to complete 9 units of upper division GE at Sacramento State, meet the foreign language proficiency graduation requirement, meet the state “code” requirements in U.S. History, American and California Government, and the writing intensive requirement. These 9 units may or may not include the writing intensive requirement, depending on the policy of the student’s major department. Students who have not completed an approved course for the “Race and Ethnicity in American Society” category at a community college must take a course in this category at Sacramento State. In addition, all transfer students, except those fully certified as having completed the IGETC or ADT core curriculum, must complete the required second semester composition course or an approved course at a community college.

For more information about IGETC requirements and/or Associate Degrees for Transfer, contact your community college counselor.

### Second Bachelor’s Degree Requirements

Students who hold a bachelor’s degree from regionally accredited institutions of higher education may be admitted to a second bachelor’s degree program. Students admitted are considered postbaccalaureate students.

Admissions criteria are:

1. Have a minimum 2.5 grade point average on the last 60 semester units of baccalaureate and/or graduate level courses.

Graduation requirements are:

1. An overall grade point average of 2.5 is required in **four** areas:
   a. total courses
   b. Sacramento State courses as a second bachelor’s student;
   c. upper division courses applied to the major, and
   d. courses applied to the minor.
2. Complete the content requirements for the second degree as specified by the department. Units from the first degree may be
counted, but a minimum of 24 upper division residence units (Sacramento State courses) in the major subsequent to earning the first bachelor's degree are required.

3. Complete a minimum of 30 units in residence at Sacramento State beyond the first bachelor's degree. Of the 30 units, 24 must be upper division in the major. **Note:** Former Sacramento State students who have completed 6 or more residence units will be held to 24 upper division units in the major and in residence. Extension and credit by examination units do not meet the residence requirement.

4. If you have not already completed the Graduate Writing Assessment Requirement (GWAR) at Sacramento State or at another approved campus as part of the first bachelor's degree, then you must take the Writing Placement for Juniors (WPJ) timed essay examination in which a passing score certifies the GWAR. If you fail the WPJ, you will need to take ENGL 109M or ENGL 109W. A passing grade in the class certifies the GWAR. If completed elsewhere, written verification is required.

5. Submit a graduation application with approval from the department chair of the major in which they seek the degree. Advising for the major takes place within the department.

Registration priority is that of an unclassified graduate student.

**Scholarship**

Second bachelor's degree candidates are expected to achieve a minimum Sacramento State and overall cumulative grade point average of 2.5 each semester to maintain good academic standing, the same as unclassified graduate students. Students are subject to academic probation the first term the student's term and overall grade point average is below 2.5. While on academic probation, if the student's subsequent term and overall grade point remain below a 2.5, the student will be academically disqualified. A student will be academically disqualified immediately if the overall cumulative grade point average is below 2.0.

Students who meet grade point average requirements stated above will be placed on Academic Warning if they earn a "NC". No Credit, grade in a semester. Grades of "NC" earned in subsequent consecutive semesters will result in Academic Probation, Continued Probation or Disqualification, depending upon the number of "NC" grades earned and the semester grade point average.

Candidates must file for graduation TWO SEMESTERS prior to the date of graduation. Graduation Application forms are available at the Office of the University Registrar, Lassen Hall.

**Note:** A second bachelor's degree cannot be awarded in the same major nor in any closely-related field.

**Catalog Rights**

Undergraduate students maintaining attendance in any combination of California community colleges and campuses of the California State University receive "catalog rights" in the election of regulations determining graduation requirements. Students may elect the requirements in effect at

1. the year they began their study at a California community college or CSU campus OR
2. the year they entered Sacramento State OR
3. the year they graduate from Sacramento State

Attendance is defined as enrollment in at least one semester or two quarters in each calendar year. Once catalog rights are established, absence related to an approved educational leave or for attendance at another accredited institution is not to be considered an interruption, providing the above attendance criteria are met and the absence does not exceed two years.

While catalog rights hold degree requirements, they do not shield students from changes in prerequisites required in a given course. Prerequisite requirements, which all students must follow, are those stated in course descriptions in the current catalog. The only exceptions to this are in cases in which the addition of course prerequisites also increases the number of units required in the major and minor. In these cases, students are encouraged to meet current course prerequisites, but are not required to do so.

**Overlapping Credit**

**Undergraduate**

The University allows course credit to overlap in completing major and minor requirements, provided that minimum University policy has been met with regard to content requirements and total units. **Note:** For the Bachelor of Arts degree, a major requires a minimum of 24 non-overlapping units of which 12 must be upper division.

For the Bachelor of Science degree, a major requires a minimum of 36 non-overlapping units of which 18 must be upper division. Any remaining units may be used for a second major or a minor.

Students who meet grade point average requirements stated above will be placed on Academic Warning if they earn a "NC". No Credit, grade in a semester. Grades of "NC" earned in subsequent consecutive semesters will result in Academic Probation, Continued Probation or Disqualification, depending upon the number of "NC" grades earned and the semester grade point average.

Candidates must file for graduation TWO SEMESTERS prior to the date of graduation. Graduation Application forms are available at the Office of the University Registrar, Lassen Hall.

**Note:** A second bachelor's degree cannot be awarded in the same major nor in any closely-related field.

**Catalog Rights**

Undergraduate students maintaining attendance in any combination of California community colleges and campuses of the California State University receive "catalog rights" in the election of regulations determining graduation requirements. Students may elect the requirements in effect at

1. the year they began their study at a California community college or CSU campus OR
2. the year they entered Sacramento State OR
3. the year they graduate from Sacramento State

Attendance is defined as enrollment in at least one semester or two quarters in each calendar year. Once catalog rights are established, absence related to an approved educational leave or for attendance at another accredited institution is not to be considered an interruption, providing the above attendance criteria are met and the absence does not exceed two years.

While catalog rights hold degree requirements, they do not shield students from changes in prerequisites required in a given course. Prerequisite requirements, which all students must follow, are those stated in course descriptions in the current catalog. The only exceptions to this are in cases in which the addition of course prerequisites also increases the number of units required in the major and minor. In these cases, students are encouraged to meet current course prerequisites, but are not required to do so.

**Overlapping Credit**

**Undergraduate**

The University allows course credit to overlap in completing major and minor requirements, provided that minimum University policy has been met with regard to content requirements and total units. **Note:** For the Bachelor of Arts degree, a major requires a minimum of 24 non-overlapping units of which 12 must be upper division.

For the Bachelor of Science degree, a major requires a minimum of 36 non-overlapping units of which 18 must be upper division. Any remaining units may be used for a second major or a minor.

**Postbaccalaureate Credit Earned as an Undergraduate**

The University will allow Sacramento State undergraduate students to petition to receive postbaccalaureate credit for courses in excess of all undergraduate degree requirements (major, minor, general education, total units, residence) if they are taken in the semester of graduation and students have a cumulative GPA of 2.75 or better. No more than six units can be applied towards a master's degree. If approved, credit will be designated as "graduate credit" toward a master's degree or credential and is discounted from undergraduate statistics and honors calculations. Sacramento State students seeking approval to use excess units toward a master's degree must submit a "Petition for Exception" to the Office of Graduate Studies during the last semester of undergraduate enrollment. Petitions must be filed with the Graduate Studies Office prior to graduation.

**Application for Graduation**

Degree Evaluations Office
Office of the University Registrar
Lassen Hall, Room 2000
(916) 278-1000

Students must apply for graduation. **Academic degrees are not granted automatically when students complete their degree requirements.**

Students are eligible to file a bachelor's degree application one semester prior to graduation once they have completed a minimum of 85 units. Refer to the Evaluations Office Graduation Website (http://
www.csus.edu/registrar/graduation/), for filing procedures and timelines. Notification via email is sent when the graduation evaluation is completed by the Degree Evaluations Office. Graduating seniors may contact the Degree advisors in the Office of the University Registrar to discuss their Graduation Evaluation and any remaining degree requirements.

**Posting of Degrees**

After grades become available for the semester of requested graduation, the Degree Evaluations Office will review the Graduation Evaluation for completion of all degree requirements. Those completing all requirements will have their degree major/minor and date of completion posted to their official academic transcript of record. Diplomas are mailed to students approximately two months after grades become available. Students attending graduation ceremonies do so as candidates for the degree. The degree is conferred only after all degree requirements have been completed, and the diploma and transcript of record reflect that semester’s graduation date. Students who have not completed all requirements will be notified by email and should contact the Degree Evaluations Office for assistance in developing plans for degree completion. Degree Advisors are available for assistance at all stages of the graduation process.

**Notes:**

- A student may not register for the semester following his/her intended graduation unless the intended degree date is canceled or changed, or the student has applied for and has been admitted to Sacramento State as a graduate student. Students may change their graduation date on their graduation application via their Student Center or by filing a Bachelor’s Degree Date Change form with the Degree Evaluations Office in Lassen Hall.
- Participation in the commencement ceremony does not constitute graduation. Degrees are conferred only after all requirements have officially been cleared.

**Graduating in Absentia**

Students who have fulfilled the degree residence requirements may be permitted to complete final requirements at other regionally accredited colleges or universities by petitioning to graduate “in-absentia.” Approval to graduate in absentia must be requested in advance. Major or minor course substitutions are to be approved by the appropriate academic departments, and general education courses must be approved through the Degree Evaluations Office. Approval for graduation in-absentia will hold catalog requirements and degree candidacy for one year.
GRADUATE DEGREE REQUIREMENTS

Office of Graduate Studies
River Front Center 215
(916) 278-6470
www.csus.edu/graduate-studies (http://www.csus.edu/gradstudies/)

Institutional Graduate Learning Goals
The campus has articulated minimum learning requirements for recipients of graduate degrees. For each Institutional Graduate Learning Goal, students are expected to achieve a level of competency associated with an advanced degree, as appropriate to the discipline. In addition, each program may set Program Learning Goals and Outcomes that are mapped onto the curriculum and assessed.

Institutional Graduate Learning Goals for Masters Programs
1. Disciplinary knowledge: Master, integrate, and apply disciplinary knowledge and skills to current, practical, and important contexts and situations.

2. Communication: Communicate key knowledge with clarity and purpose both within the discipline and in broader contexts.

3. Critical thinking/analysis: Demonstrate the ability to be creative, analytical, and critical thinkers.

4. Information literacy: Demonstrate the ability to obtain, assess, and analyze information from a myriad of sources.

5. Professionalism: Demonstrate an understanding of professional integrity.

6. Intercultural/Global Perspectives: Demonstrate relevant knowledge and application of intercultural and/or global perspectives.

Institutional Graduate Learning Goals for Doctoral Programs
All of the above Institutional Graduate Learning Goals for Masters Programs, with the addition of:

7. Research: Conduct independent research resulting in an original contribution to knowledge in the focused areas of their graduate program.

General Program Requirements

Master’s Degree Unit Requirements
Each master’s degree program must include a minimum of 20 approved units in the major subject area. These shall normally include a minimum of 18 units in a 30-40 unit degree program and 36 units in a 60 unit degree program of regularly scheduled 200-level courses requiring student participation as the primary instructional method and seminar courses requiring formal presentations by students. Units earned for thesis or project may contribute toward establishing the major, but they are not permitted in the required units in 200 level seminar courses. No more than 6 units of 295, 299, or non-seminar courses may be counted towards the degree.

The total number of units required for master’s degrees vary depending on the field and the degree sought. Master of Arts and Master of Science degrees require a minimum of 30 semester units of approved graduate credit. However, the minimum units for some master’s programs may be higher, for example:

- Master of Science in Counseling requires minimum of 60 semester units
- Master of Business degree requires from 31 to 52 semester units of approved graduate credit depending upon the student’s background in business at the time of admission
- Master of Social Work degree requires minimum of 60 semester units

Doctoral Degree Unit Requirements
The Doctor of Education degree requires a minimum of 60 semester units of approved graduate coursework. This must include a minimum of 48 units of regularly scheduled doctoral courses organized primarily for doctoral students. Units earned for the qualifying examination, or dissertation should not exceed 12 units and may contribute toward the major, but they are not permitted in the required 48 unit minimum. An oral defense of the dissertation is required.

The Doctor of Physical Therapy degree requires at least 90 semester units earned in graduate standing. At least 72 semester units required for the degree shall be in courses organized primarily for doctoral students, and the remaining units required for the degree shall be in courses organized primarily for doctoral students or courses organized primarily for master’s and doctoral students. No more than eight semester units shall be allowed for the doctoral project and an oral defense of the doctoral project shall be required.

Graduate Transfer Credit
Graduate transfer credit (with a grade of “B” or better) toward a doctoral or master’s degree at Sacramento State may be considered only if the coursework has not been used previously to complete another degree and the coursework must be current (within the time limit to complete the master or doctoral degree). A maximum of 6 units may be transferred as determined by appropriate campus authorities.

See Time Limit for more information.

Master’s Degree Academic Residence Requirements
A minimum of 21 approved semester units in 100-, 200-, and 500-series offerings in a 30-unit Master’s program must be earned in residence at Sacramento State. Three-hundred-level (methods) courses, student teaching, extension courses offered by Sacramento State, or work completed at other accredited institutions do not meet residence requirements.

Doctoral Degree Academic Residence Requirements
A minimum of 42 approved semester units in the 600 series in a 60 unit Education Doctoral program must be earned in residence at Sacramento State. For the Doctor of Physical Therapy program, No fewer than 60 semester units shall be completed in residence at Sacramento State. At the discretion of the appropriate campus authority, courses required for the DPT that are completed at another CSU campus may apply toward the residency requirement.

Graduate Writing Assessment Requirement (GWAR)
All students must demonstrate competency in writing skills as a requirement for graduation. Writing proficiency at the graduate level will be demonstrated by successful completion of the graduate program requirements. Students’ preparedness for graduate level writing is demonstrated by successful completion of a Graduate Writing Intensive (GWI) course(s) in their discipline within their first two semesters of
coursework at California State University, Sacramento. Students must earn a grade of "B" or above in GWI course(s) in order to advance to candidacy. Failure to demonstrate writing proficiency in a timely fashion may result in a student’s declassification from a degree program and require an application for readmission to the University.

Foreign Language
A reading knowledge of a foreign language may be required in some liberal arts areas. Students should consult their Graduate Coordinator to determine if foreign language requirements apply in the particular field in which they plan to take the doctoral or master's degree.

Advancement to Candidacy
Advancement to Master’s Candidacy
Each student who plans to become a candidate for a master's degree is required to do the following:

1. be admitted to classified graduate standing in the graduate degree curriculum for which candidacy is sought;
2. complete at least 40 percent of the graduate degree coursework and meet any special departmental requirements in the field in which they propose to take the degree; and
3. file an application for advancement to candidacy for the master's degree.
   a. Must be submitted to the Office of Graduate Studies by October 1 for the spring semester and February 1 for the fall semester in order to register for Culminating Experience during priority registration.
   b. The Office of Graduate Studies will review the petition and process results within six to eight weeks.

Eligibility for advancement to candidacy is based upon the following:

1. Scholarship in undergraduate and graduate work taken prior to advancement as follows:
   a. A satisfactory undergraduate preparation for admission to classified graduate standing in the graduate degree program.
   b. A minimum cumulative grade point average of 3.0. No grade below a "B" may be counted toward the degree requirement unless expressly permitted by a campus-approved graduate programs' written policies.
   c. A total of 18 units of 200-level seminar courses must be listed.
   d. No more than a total of six units of 295, 296, or 299 may be counted toward the degree.
2. Evidence of a plan of graduate study acceptable to the institution and the faculty concerned.
3. Fulfilled the Graduate Writing Assessment (GWAR) requirement.
4. Successfully fulfilled the Qualifying Examination requirement.

Advancement to Doctoral Candidacy
Initiation of advancement to candidacy procedures is the responsibility of the student. Each student who plans to become a candidate for the doctoral degree is required to do the following:

1. be admitted to classified standing in the doctoral degree program in which candidacy is sought;
2. have completed all coursework to qualify for the Qualifying Examination with a B or better in each course and a minimum cumulative grade point average of 3.0 in all courses taken;
3. successfully passed the written and oral Qualifying Examination by Unanimous agreement of the qualifying examination committee;
4. file an application for advancement to candidacy for the doctoral degree at the Office of Graduate Studies.
   a. Must be submitted to the Office of Graduate Studies by February 1 for eligibility to enroll in dissertation units for the Summer term.
   b. The Office of Graduate Studies will process within four to six weeks.

Eligibility for advancement to doctoral candidacy is based upon the following:

1. Scholarship in doctoral work taken prior to advancement as follows:
   a. Satisfactory completion of any preparation coursework required for admission to classified graduate standing in the doctoral degree program.
   b. A minimum cumulative grade point average of 3.0. No grade of less than "B" can be counted toward the minimum number of units needed to advance to candidacy.
   c. A total of 48 units of 600-level seminar courses must be listed.
2. Evidence of a plan of graduate study acceptable to the institution and the faculty concerned.
3. Successfully fulfilled the Qualifying Examination requirement.
4. Fulfilled the Graduate Writing Assessment (GWAR) requirement.

Culminating Experience Requirement
Master’s Culminating Requirement
A thesis is required under Plan A, a project is required under Plan B, and a comprehensive examination is required under Plan C. Students are eligible to enroll for full or partial credit for their theses or projects at any time after being advanced to candidacy, subject to approval by their faculty advisors. Credit is granted upon completion.

Each department offers one or more or a combination of the following plans:

Plan A: Thesis
A thesis is the written product of the systematic study of a significant problem. It clearly identifies the problem; states the major assumptions; explains the significance of the undertaking; sets forth the sources for, and methods of gathering information; analyzes the data; and offers a conclusion or recommendation. The finished product must evidence originality, critical and independent thinking, appropriate organization and format, clarity of purpose, and accurate and thorough documentation. Normally an oral defense of the thesis will be required.

Plan B: Project
A project is a significant undertaking of a pursuit appropriate to the fine and applied arts or to professional fields. It must evidence originality and independent thinking, appropriate form and organization, and a rationale. It must be described and summarized in a written abstract that includes the project's significance, objectives, methodology, and a conclusion or recommendation. An oral defense of the project may be required. Some samples of types of projects are outlined below:

1. A Creative Project in the Arts: an original contribution to the verbal, visual, or performing arts. Examples include a music recital; a musical composition; a completed novel or play; a completed collection of short stories or poems; direction of a theatrical production; a gallery showing of works of art.
2. A Curriculum Project: a project that contributes to a field of teaching by enhancing communication of a subject matter. Examples include a course of study; a teacher's guide; an instructional manual; a
design for a new teaching method; the development of new teaching materials.

3. A Research Project: a project which contributes to the physical sciences, natural sciences, social sciences, humanities, or the professions, by adding to technical/professional knowledge in the professional field. Examples include building a device; designing an experiment; a field study; a case study; a documentary report; a professional article of publishable quality.

The fulfillment of any of the above culminating requirements must conform to the appropriate requirements of the Sacramento State Thesis and Project Format Requirement Guides.

Plan C: Comprehensive Examination
A comprehensive examination should test the range of subject matter covered in the student's graduate program. The department may opt for an examination that is written, oral, or a combination of written and oral. Ordinarily the examination will be given in the student's last semester before the student plans to receive the degree, and in no instance can a student who has not been advanced to candidacy take the examination.

At least three examiners must certify to the success or failure of the student in the examination. A simple majority determines whether the student has passed or failed. The results of the examination must be submitted to the Office of Graduate Studies on the "Report of Comprehensive Examination" form. A student may repeat the examination once after a failure, provided that at least four calendar months have lapsed since the previous examination. A third trial is not allowed unless extreme extenuating circumstances are demonstrated by the department and approved by the Dean of Graduate Studies.

This culminating experience option cannot be changed once the initial examination has been administered.

Doctoral Culminating Requirement
A qualifying examination, proposal examination, dissertation (Ed.D.) or doctoral project (DPT, AUD), and oral defense are required for the doctoral degree at Sacramento State.

Qualifying Examination
The qualifying examination is designed to provide evidence toward validation of the candidate's advanced training in educational leadership. The student must unanimously pass the qualifying examination prior to advancing to doctoral candidacy and enrolling in dissertation units.

At least three examiners must certify to the success or failure of the student in the examination, and the results of the examination must be submitted to the Office of Graduate Studies on the "Report of Qualifying Examination" form. A unanimous decision on passing is required. A student may repeat the examination once after a failure, provided that at least four calendar months have lapsed since the previous examination. A third trial is not allowed unless extreme extenuating circumstances are demonstrated by the department to the Dean of Graduate Studies.

Proposal Examination
The doctoral proposal will normally contain a description of the problem, a review of the relevant literature, a statement of the research question, and a description of the research methodology or approach to explore the problem. The proposal must contain either (i) materials already submitted to the Institutional Review Board regarding the proposed dissertation research or (ii) materials completed for submission to the Institutional Review Board to meet human subjects' requirement.

1. The dissertation proposal examination is normally conducted by a three faculty member committee. A written report will be provided by the committee members to communicate: (1) approval; (2) approval with modifications, or (3) lack of approval.

2. The results of the doctoral proposal examination will be communicated to the Office of Graduate Studies on the "Report of Doctoral Proposal Examination" form. The form shall be accompanied by a copy of the dissertation or doctoral project proposal.

The Dissertation Proposal (Ed.D.) shall identify the research problem and question(s), state the major theoretical perspectives, explain the significance of the undertaking, relate it to the relevant scholarly and professional literature, set forth the appropriate sources for and methods of gathering and analyzing the data. An oral defense before a three member doctoral proposal committee is also required.

The Doctoral Project Proposal (DPT) must demonstrate students' understanding of the application of current evidence-based practice in a multicultural and complex health care environment. The proposal must be of sufficient rigor to ensure students' demonstrations of critical and independent thinking and abilities to interpret the research literature and apply to current physical therapist practice. The proposal includes a written document with the following chapters; General Background, Case Background Data, Examination Tests and Measurements, Evaluation, Plan of Care-Goals and Interventions, Outcomes, and Discussion. An oral defense before a three member doctoral proposal committee is also required.

The Doctoral Project Proposal (AUD) must demonstrate originality, evidencing students' critical and independent thinking. It shall be organized in an appropriate form and shall identify the research problem and question(s), state the major theoretical perspectives, explain the significance of the undertaking, relate it to the relevant scholarly and professional literature, identify the methods of gathering and analyzing the data. An oral defense before a three member doctoral proposal committee is also required.

Dissertation (Ed.D)
A dissertation shall be the written product of systematic, rigorous research on a significant professional issue. The dissertation is expected to contribute to an improvement in professional practices or policy. It shall evidence originality, critical and independent thinking, appropriate form and organization, and a rationale.

The dissertation shall identify the research problem and questions(s), state the major theoretical perspectives, explain the significance of the undertaking, relate it to the relevant scholarly and professional literature, set forth the appropriate sources for and methods of gathering and analyzing data, and offer a substantiated conclusion or recommendation(s). It shall include a written abstract that summarizes the significance of the work, objectives, methodology, and a conclusion or recommendation(s). All members of the dissertation committee must approve the written work.

Project (DPT)
The Doctoral Project/Culminating Experience may include evidence-based practice projects, clinical research projects, or case reports consistent with the Chancellor’s Office Executive Order. Culminating events must demonstrate students’ understanding of the application of current evidence-based practice in a multicultural and complex health care environment. They must be of sufficient rigor to ensure students’ demonstrations of critical and independent thinking and abilities to interpret the research literature and apply to current physical
therapist practice. The doctoral project includes a written document with the following chapters: General Background, Case Background Data, Examination Tests and Measurements, Evaluation, Plan of Care-Goals and Interventions, Outcomes, and Discussion.

Project (AUD)
The doctoral project shall demonstrate the student’s doctoral-level mastery of research skills, hearing science and/or current evidence-based practice. It shall demonstrate critical and independent thinking and a command of the research literature. The written component of the doctoral project shall demonstrate originality, evidencing critical and independent thinking. It shall be organized in an appropriate form and shall identify the research problem and question(s), state the major theoretical perspectives, explain the significance of the undertaking, relate it to the relevant scholarly and professional literature, identify the methods of gathering and analyzing the data, analyze and interpret data and offer a conclusion or recommendation.

Oral Defense
An oral defense of the dissertation or project is required. The student must notify the Office of Graduate Studies of his/her intent to defend the dissertation/project 30 days prior to the defense. A notice of the date, time, and place of the defense must be posted in a public place for 14 calendar days prior to the dissertation oral defense. The notice should include the title of the dissertation/project and a brief 150 word abstract.

Graduate and Post-Baccalaureate Academic Action Categories

Good Standing
Graduate, credential, certificate and unclassified students whose Sacramento State and cumulative grade point average (GPA) is 3.0 or above are considered in good academic standing.

Academic Probation
Students whose cumulative Sacramento State grade point average or overall grade point average falls below 3.0 will be placed on academic probation. Students on probation are eligible to enroll in the subsequent semester.

Continued Probation
Students on probation will be placed on Continued Probation if they:

- earn a 3.0 in the semester, but have a Sacramento State GPA and/or overall GPA below 3.0.

Students placed on Continued Probation will be limited to a maximum course load of 9 units per semester until they return to academic good standing.

Academic Disqualification
If a graduate, credential, certificate, or unclassified student is on academic probation and the Sacramento State or cumulative grade point average is below 3.0 for the active term, the student will be academically disqualified.

Students not on probation will be disqualified if the Sacramento State or cumulative GPA is 2.0 or less.

Disqualified students will not be allowed to register unless they are formally reinstated and/or readmitted to the University.

Administrative Probation and Administrative Disqualification
Graduate, credential, certificate, and unclassified students are subject to Administrative Probation for the following reasons:

1. Withdrawal from all or a substantial portion of their courses in two successive terms or in any three terms.
2. Repeated failure to progress toward a degree or other program objective, when such failure is due to circumstances within the control of the student.
3. Failure to comply, after due notice, with an academic requirement or regulation.

Students who do not meet the conditions for removal of administrative probation may be subject to further administrative actions, including Administrative Disqualification.

Notification
The Office of the University Registrar will notify students of their academic status (academic probation, continued probation, or academic disqualification) by letter, My SacState message, and/or email at the end of each semester. Graduate, credential, certificate, and unclassified students on Probation or Continued Probation are required to meet with an advisor in their major department, the credential office or the Office of Graduate Studies. Academic departments and units may block registration of students who fail to meet advising appointments. Students receiving veterans’ educational benefits may be ruled ineligible for continued benefits if, after one semester of unsatisfactory achievement (probation or disqualification), they do not return to academic Good Standing at the completion of the next semester.

Reinstatement of Disqualified Students
Students who have been academically disqualified may petition for reinstatement. The Petition for Reinstatement is obtained from the Office of Graduate Studies. If reinstated, students will be placed on an academic contract that may stipulate maximum units, specific courses and achievement levels. Failure to meet the conditions of the reinstatement contract and/or failure to achieve a subsequent semester GPA of 3.0 or higher will result in academic disqualification.

Students who are administratively disqualified or not recommended by their academic department for continuation in the graduate degree, credential, or certificate program must formally apply to the University as well as a graduate degree, credential, or certificate program and submit a petition for reinstatement. Reinstated unclassified students will not be allowed to enroll in graduate level courses during the period of the reinstatement contract without the permission of the department chair or designee for that major.

Deadlines to petition for immediate reinstatement are as follows:

- Third week of January for Spring Semester
- End of June for Fall Semester

NOTE: Please check the Office of Graduate Studies Web site www.csus.edu/graduate-studies for specific dates and forms.

Students whose petitions are approved are subject to review each semester until the Sacramento State GPA and overall cumulative GPA
reach the minimum standard of 3.0. Students may not earn the degree, credential, or certificate unless they are in good academic standing and their Sacramento State GPA and overall cumulative GPA reach the minimum standard of 3.0.

**Continuous Enrollment**

Classified graduate, post-baccalaureate, credential, or certificate students normally retain rights to the catalog and/or degree program requirement under which they were classified, providing they remain continuously enrolled. Students who do not stay continuously enrolled lose classified graduate standing or post-baccalaureate standing and will be required to apply for readmission. Such students may be required to fulfill additional program and/or university degree requirements that are current at the time of readmission.

**Continuous Enrollment (599) During the Culminating Experience**

Graduate students who have been advanced to candidacy and who have completed all coursework can maintain the required active degree program status without additional University registration by enrolling in “599 Continuous Enrollment.” There are no units associated with this enrollment, but a continuous enrollment fee equal to one unit is required. The fee is paid through the College of Continuing Education. Such enrollment is valid as long as the student is within the time period allowed for the completion of the culminating experience requirement.

**Continuous Enrollment (599) for the Master’s Degree**

If not otherwise actively registered at the University, students completing a thesis, project, or comprehensive exam who did not complete the culminating work in the semester of original enrollment must enroll in “599 Continuous Enrollment” and pay the associated 599 enrollment fee. Students may be allowed up to a maximum of three semesters of 599 enrollment beyond the semester of original enrollment to complete the culminating requirement according to the requirements of the graduate program.

Students who do not finish the master’s thesis/project/comprehensive exam within the semester of original enrollment will receive a grade of “RP” provided satisfactory progress has been made toward completion of the culminating experience. The “RP” grade will remain as long as progress is made toward completion and “599 Continuous Enrollment” is maintained in the subsequent semester(s) as allowable by the graduate program.

If the student does not complete the culminating experience within the total allowable semesters, a No Credit (“NC”) grade will be assigned for the original units. The “NC” remains as part of the academic record. If the five-year deadline for the Ed.S. or doctoral degree program has not expired, the student must re-enroll in the culminating experience units within the next semester and pay University fees before continuing the program. Failure to maintain continuous enrollment will result in the need to file an admission application and all related fees during the next available open admission cycle. Students may be required to fulfill additional program and/or university degree requirements that are current at the time of readmission.

**Time Limit**

All requirements for the master’s degree must be completed within seven (7) years immediately prior to graduation.

All requirements for the doctoral degree must be completed within five (5) years immediately prior to graduation.
ACADEMIC SUPPORT SERVICES

Advising
General Education Advising
Lassen Hall 1013
(916) 278-1000
www.csus.edu/acad

Effective intentional academic advising is essential to accomplishing the University’s instructional mission. Through collaboration and academic guidance, the Academic Advising Center fosters a developmental process of assisting undergraduate students in clarifying and achieving their personal, professional, and educational goals. Students are encouraged, and in some circumstances, required to meet with a professional or faculty advisor at least once a semester.

Advisors help students:
- Understand the value of the University’s General Education program, and the relationship of this program to individual interests and career objectives;
- Interpret and apply University policies;
- Ensure they are taking the courses for timely progress to degree; and
- Explore educational and career objectives compatible with their interests and abilities.

The ultimate responsibility for academic success rests with the student, who is expected to:
- Be aware of and comply with the University’s academic policies, procedures, and deadlines;
- Be familiar with the My Sac State Student Center including the KEYS to Degree toolbox;
- Meet regularly, at least once each semester, with an advisor in the major and an advisor in the Academic Advising Center; and
- Declare/Change their major when appropriate. The form is available online at http://www.csus.edu/registrar/forms/.

Because of the relationship between proactive advising and academic success, first year and transfer students are required to attend New Student Orientation. In addition, first year students are required to complete advising during their first two semesters at Sacramento State. It is recommended that students also meet with advisors in their major. All students on academic probation are required to meet with an advisor in their department and all second year students on probation are required to meet with the Academic Advising Center. Undeclared and Expressed Interest majors must officially declare a major before earning 60 units.

A complete list of the Academic Advising Center’s programs and services can be found at www.csus.edu/acad

Faculty Advisor
Advisors in the academic departments help students select appropriate major courses each semester and are also helpful in exploring career options specific to their major or concentration.

New Student Orientation
www.csus.edu/orientation

Orientation is required for all new first year and transfer students. The program is designed to help students make a successful transition from their previous college or high school to Sac State. During Orientation, student orientation leaders meet with small groups of new students to discuss academic requirements, advising tools and offer helpful tips regarding campus resources and student life. In addition, new students meet with their major department advisors and register for courses. New fall students attend Orientation during the summer, while new spring students attend Orientation in January. Program details (including the Parent/Guest program) are located on the New Student Orientation website.

Specific Advisors
Student-Athlete Resource Center
Lassen Hall 3002
www.csus.edu/sarc
(916) 278-5431; (916) 278-7796

The Student-Athlete Resource Center (SARC) is designed to enhance the academic and overall life development experience for NCAA Division I student athletes at Sacramento State. The SARC assists student-athletes in pursuing and successfully completing a college degree while also preparing them for challenges and experiences after college. The Center provides Sacramento State student-athletes with a very comprehensive academic support system.

The SARC provides student-athletes with a variety of academic support and services from the outset of their academic careers at Sacramento State. It provides the student-athletes with opportunities to develop and improve their academic skills, as well as to receive exceptional advising on University policies and procedures, coursework, and career choices. In addition, the Center’s staff monitors the progress of each student-athlete towards completion of their degree in compliance with the academic bylaws mandated by the National Collegiate Athletic Association (NCAA). The SARC provides student-athletes with additional academic support in the forms of computer labs, individual tutoring, and specialized retention advising for student-athletes with additional academic needs. The Center also coordinates all of the activities associated with the NCAA/CHAMPS Life Skills Program. This nationwide program focuses on helping student athletes achieve in all areas of personal, academic, community, career, and athletic development.

The SARC Office and academic computer lab is open Monday through Friday from 7:30 a.m. - 4:30 p.m.

Undergraduate Business Advising Center
Tahoe Hall 1030
(916) 278-BIZZ (2499)
www.csus.edu/cba/ubac

The Undergraduate Business Advising Center (UBAC) is part of the Office of Student Engagement in the College of Business. UBAC assists undergraduate business majors, expressed interest in business, and minors with program advising, graduation evaluations, and petitions relating to the major and/or minor.

Teaching Credentials Advising
Eureka Hall 437
(916) 278-6403
www.csus.edu/coe/offices-services/aero/advising

The Advising, Recruitment, Retention, and Outreach (AERO) Services assists students who are interested in pursuing a career as an elementary, middle/junior high, high school, or special education teacher. The AERO advisors work with students on issues related to state and university requirements for credential programs, support for taking required exams, and information about scholarships and other sources of financial support available to teacher candidates. Students considering teaching as a career should visit this office during their first semester.

Student Service Center
Lassen Hall 1000
(916) 278-1000
www.csus.edu/ssc

The Student Service Center (SSC) at Sacramento State is a student’s one stop toward success. The Center provides multi-faceted assistance to students, alumni, faculty and staff. SSC staff are able to provide assistance in a variety of areas including financial aid, scholarships, tuition payment options, major and graduation requirements, and registering for courses. The Center also helps students access a myriad of other campus resources.

Our mission is to provide a welcoming and accessible environment that is dedicated to educating, supporting and developing student success by providing accurate, efficient and holistic information to the Sacramento State campus community.

The Student Service Center is open Monday – Friday from 8:00 AM – 5:00 PM. sacstatessc@csus.edu

Admission and Academic Support Programs

First Year Experience Programs
ARC 4002
(916) 278-2804
www.csus.edu/fye

The First Year Experience Program
The mission of the First Year Experience Program (FYE) at Sacramento State is to improve the retention and graduation rates of native students, a goal that is directly aligned with the CSU system wide Graduation Initiative. FYE consists of:

1. the First Year Seminar course and University Learning Community course "clusters"
2. co-curricular activities embedded in the courses, that are designed to increase student engagement with the campus, community, faculty, and peers
3. Peer Mentors who attend courses with first year students, and provide personal, academic, and advising support
4. The FYE Space - #LIB3520 provides a space for first year college students to study, work in groups, meet their peer mentor, and find support. Students get support from peer mentors called the Go To Crew in the FYE Space

Enrollment in the University Learning Community Program (LCOM) and/or First Year Seminar Courses (FYS) occurs during New Student Orientation (http://www.csus.edu/orientation/First%20Year%20Orientation/) and during spring registration.

First Year Seminars
First Year Seminars provide students with an introduction to the nature and meaning of higher education and to the functions and resources of the University. Students in the class gain insights and develop tools that allow them to get the most out of their university education at Sacramento State. The seminars also provide students with the opportunity to interact with fellow students and the seminar leader, building a community of academic and personal support. Students who have taken the course do better academically than the general student population.

This introductory course satisfies the Area E General Education requirement. The course is listed under individual department names with the added designation of 21. For example, COMS 21 (Communication Studies) is a First Year Seminar, with specific information relevant to each major covered in more detail. Some of the First Year Seminars are stand-alone courses while others are part of a learning community.

The First Year Seminar is a 3 unit General Education (GE) Area E course where students explore the requirements and responsibilities of becoming a university educated person. Most FYS were paired with another course in the Learning Community, while the rest of FYS were “stand alone” (i.e. not paired with another course in a learning community).

Each First Year Seminar course shares the following characteristics:

• Small class sizes (capped at 30; lower cap for certain sections) to meet the needs of incoming first year students
• Use of the campus One Book for a common intellectual experience, common course description and learning goals, common class activities, assignments, and assessments aligned with Baccalaureate Learning Goals and GE Area E requirement
• Support for faculty to implement effective curricular activities (assignment descriptions, guest speaker lists, assessments, rubrics, all available online on SacCT/Blackboard)
• Opportunities for faculty professional development around teaching, learning and FYE programmatic research through an annual Convocation, annual curriculum workshop, and periodic faculty interest groups
• Support for embedding co-curricular activities (funding, coordination), including High Impact Practices
• Taught by both faculty and student affairs professionals, indicating the collaborative cross-divisional nature of the program
• Students learn how to access academic & personal support resources

The FYE Library Space
A designated academic location in Library 3520 (3rd floor) that is available primarily for first time college students called “The FYE Space.” Events are often held in the Space to introduce information to students, as well as celebrate achievements (“May One is Done.”) Students visit the Space to study, connect with faculty, meet with the FYE librarian, check-in with a Go To Crew peer mentor, or get support between classes. Workshops on writing, leadership, and major advising are offered throughout the semester. It was established to develop a space where First Year students could always connect with a community on campus.
Learning Communities
The Learning Communities program establishes connections between courses in different subject areas with General Education curricula. Each Learning Community consists of two to three classes, with faculty who try to link course topics, coordinating readings and assignments. Students who join a Learning Community are linked to other students enrolled in the same classes, helping students form connections with professors and other students that strengthen their networks of social and academic support. Learning Communities may also have a peer mentor to help students navigate the transition from high school to college.

Students admitted to Sacramento State do not need to meet any other admission criteria to join a Learning Community. New communities are formed each fall, and information about the semester’s Learning Community offerings is shared at summer First Year Student Orientation. More information is available on the First Year Experience website at http://www.csus.edu/fye (http://www.csus.edu/fye/)

Honors Program
ARC 4002
(916) 278-2804

The General Education Honors Program at California State University, Sacramento offers qualified and highly motivated students an opportunity to have a challenging, innovative, and stimulating learning experience. Through small class sizes (around 25 students), students experience intimate classroom settings which promote discussion, integrative learning and a global perspective. The Program is open to incoming freshmen. We do not accept transfer students.

The Honors Program academic experience is composed of 45 units of Honors courses (36 lower division and 9 upper division). Honors students take at least 12 units per semester. During their freshman and sophomore years, Honors students will take three Honors courses per semester and the remaining course(s) can be filled with other courses required in their major or pre-major. Three upper division courses taken during their junior and senior year conclude the Honors experience. Completion of all Honors courses will fulfill Sacramento State General Education requirements for graduation with the exception of the lab science and freshman composition.

The core of the lower division curriculum is a three-semester Honors seminar in which students read some of the great books of world civilizations, analyze the writings of world thinkers and writers, and improve their skills in critical thinking and writing. The three upper division Honors courses are organized around the theme of learning and acting for the public good.

Honors students at Sacramento State experience individualized attention from dedicated professors, special seminars in their academic programs, extracurricular activities in the form of cultural events, various Honors Colloquia and interaction with faculty members and their fellow Honors students in and out of class. Students are strongly encouraged to study abroad through either short term programs developed specifically for the Honors Program, or semester or year long programs created for Sacramento State, and the CSU. They are also encouraged to complete an internship and an undergraduate research experience. A variety of Scholarships are available to support study abroad and other academic pursuits.

For further information and application instructions, visit the Honors Web site at www.csus.edu/honorsprogram (http://www.csus.edu/honorsprogram/).

Graduate Preparation Academy (GPA)
River Front Center 203
(916) 278-3834
E-mail: graddiversity@csus.edu
http://www.csus.edu/graddiv/

The Graduate Preparation Academy (GPA) is designed to prepare undergraduate students for admission and study at the graduate level. The GPA provides undergraduate students interested in pursuing a graduate degree with intensive graduate school preparation. Students selected to participate in the graduate school preparation academy will be provided with information and resources about participating in academic research, engaging with faculty mentors, preparing academically for graduate school, assistance with scholarship and fellowship opportunities, and graduate education entrance examinations through interactive speakers, panels, and workshops.

We offer a rigorous academic program that prepares students for the opportunities and challenges that face them in post-baccalaureate education. Participants are connected with a faculty member who will offer mentoring throughout the graduate school application process, feedback on essays, and other application materials. Participants are encouraged to participate in regional and national academic conferences to present their academic research.

McNair Scholars Program
River Front Center 203
(916) 278-5118
E-mail: mcnair@csus.edu (mcnair@csus.edu)
www.csus.edu/mcnair (http://www.csus.edu/mcnair/)

The Ronald E. McNair Postbaccalaureate Achievement Program is a federally funded program designed to prepare selected Sacramento State undergraduate students for admission and study at the doctoral level. Each year, 24 McNair Scholars participate in both academic year and summer activities.

Students who have obtained 45 units or more, have a GPA of 2.8 or higher and are low income and first in their family to attend college, or students who are considered underrepresented in their major (as defined by federal regulations) can gain research skills, knowledge, and information needed to complete doctoral degrees in their fields of study.

The academic components include: a three-unit research methodology course, meetings with the McNair Program staff and the faculty mentors to assess personal needs and review academic progress, and preparation for a summer research project. For students who have completed 60 units or more, the summer component includes enrolling in a one unit supervised research course and travel to select McNair Symposia where students have the opportunity to present their research findings. Scholars receive additional guidance from the McNair Faculty Coordinator and a faculty mentor in completing a published research article. Senior McNair scholars complete a 3-unit senior seminar which provides assistance with selecting, applying, and financing graduate studies.

Stipends for travel to doctoral institutions and research conferences to present research papers are granted to students who complete their research projects. McNair scholars also receive a stipend as part of
their participation in the summer research experience. Scholars are encouraged to participate in statewide and national conferences to present their research findings.

**Business Based Educational Equity Program (BEEP)**

Tahoe Hall 1006  
(916) 278-5875  
http://csus.edu/cba/biz/index.html

The Business Educational Equity Program (BEEP) encourages and supports all students who major in business. BEEP, also known as the Business Tutoring & Study Center, provides peer-assisted tutoring and a place to study where one-on-one and group assistance is available for business students seeking academic support in numerous lower and upper division business courses. Tutoring is provided on a drop-in basis for business students, and at no charge. All business students interested in the program should contact the College of Business, Office of Student Engagement at (916) 278-5875 or visit the office in Tahoe Hall 1030.

**Cooper-Woodson College**

Enhancement Program (CWC)  
Amador Hall 460  
Director: Dr. Boatamo Mosupoe  
(916) 278-5363  
www.csus.edu/cooper

Cooper-Woodson College Enhancement Program (CWC) emphasizes scholarship, leadership, and service by creating a supportive and nurturing learning environment that is responsive to the needs of students. Although the program is patterned after traditional relationships between students and faculty at historically Black colleges and universities, it serves students from all backgrounds. Faculty, staff, and community members assume the responsibility for shaping and guiding students through the college experience. Key objectives of CWC are the retention of students and the development of leaders.

CWC scholars, staff, faculty, and members of the community organize and participate in the following activities/events: Faculty/Staff Mentoring Program, African-American History Month rally and lectures, the annual Anna J. Cooper and Carter G. Wood lectures, and the annual African-American graduation celebration ceremony.

**MESA Engineering Program (MEP)**

Santa Clara Hall 1213  
(916) 278-6699

Participation in the MESA Engineering (MEP) increases the probability that students will be successful in their engineering college studies. Focusing on the recruitment, retention, and graduation of highly motivated students from educationally disadvantaged backgrounds, MEP emphasizes participation by students from communities with low rates of enrollment in engineering majors.

The MEP program provides an on-campus home for its members with a large 24 hours-a-day study center that encourages study groups. MEP provides professional development, a freshman orientation course, and personal-academic advising. It assists in the coordination of tutoring services for all students in the College of Engineering.

**Science Educational Equity (SEE)**

Sequoia Hall 315  
(916) 278-6519  
www.csus.edu/nsm/see

The Science Educational Equity (SEE) program is a comprehensive academic support program designed for students who face social, economic, or educational barriers that limit access to careers in the sciences and health professions. Students are encouraged to form study groups for both lower and upper division coursework. Science faculty provide academic and pre-professional advising for each student and are available for career guidance and assistance with course material. Students attend professional conferences, participate in academic workshops and seminars, and are encouraged to attend summer enrichment programs at other universities and laboratories. The program provides assistance with applications to graduate programs, health professional schools, and summer enrichment programs. SEE also provides students the opportunity to meet and interact with faculty, community members, and other students.

All students interested in becoming a part of the SEE program are expected to demonstrate a commitment to the community through service to SEE, the University, and/or the Sacramento community. Upon entry to the program, each student is required to meet with an academic/major advisor to develop a comprehensive academic plan; it is the student's responsibility to schedule an advising appointment each semester thereafter to update the academic plan.

**Center for College and Career Readiness (CCR)**

Joy Salvetti, Director  
Library 4023  
(916) 278-2603  
http://www.csus.edu/ccb (http://www.csus.edu/ccb)

The Center for College & Career Readiness (CCR), a division of Academic Affairs, is the principle campus resource for everything “College and Career Ready.” Our success comes from building and developing intersegmental educational partnerships throughout the greater Sacramento Region. Using a collective impact infrastructure, CCR focuses on establishing a continuous pipeline from preschool to bachelor’s degree; ensures that high school graduates enter Sacramento State better academically prepared to succeed at the university level; and, provides readily available resources and timely interventions for current and future students.

Programs within the Center for College and Career Readiness include:

- The Early Assessment Program (EAP) serves as an ‘early readiness signal’ allowing for the placement of students in corresponding K-12 courses to fortify the academic and metacognitive skills needed for transition success. The EAP is responsible for the development of intersegmental curriculum in mathematics and English, as well as teacher professional development.
- The EAP Senior Year Mathematics (ESM) Course is the result of a regional partnership involving teams of mathematics faculty from higher education, high school teachers, and county offices of education. This course is designed to strengthen students’ mathematical foundation, and deepen their conceptual understanding of mathematical theory, skills and strategies.
- The Expository Reading and Writing Course (ERWC) prepares college-bound seniors for the literacy demands of higher education.
  Students in this yearlong, rhetoric-based course develop advanced proficiencies in expository, analytical, and argumentative reading and writing. Students will be expected to increase their awareness...
of the rhetorical strategies employed by authors, and to apply those strategies in their own writing.

The CCR works closely with local middle schools, high schools, and community colleges to create opportunities for students to gain the life and academic skills necessary for college success and future career aspirations. We strive to engage with each of the 215 high schools in our service area. Our programs include:

- **Middle School Outreach**: provides sixth, seventh, and eighth grade students the opportunity for early self-identification as a college student or career professional.
- **CCR Summer Boot Camp**: provides incoming high school juniors the opportunity to explore college and career readiness skill sets from both a metacognitive and academic perspective.
- **CCR High School Outreach**: provides onsite workshops, presentations, and campus visits for high school students, informing them of the importance of using their junior and senior years proactively, tips for choosing a college and a major, and how to avoid remediation.
- **Transition to Success Program (TSP)**: assists incoming freshman in making a smooth transition to Sacramento State by providing customized mentoring, social emotional support, and a ‘home base’ until graduation.
- **TSP Peer Coaches**: provide current TSP students with the opportunity to serve as peer coaches to high school sophomores; coaches receive a stipend and professional development.

## Centers for Student Support

### Student Academic Success and Educational Equity Programs (SASEEP)

The Student Academic Success and Educational Equity Programs are committed to fostering diversity and equity while promoting a campus learning environment that encourages and supports all students in persisting toward their educational goal by increasing their retention and graduation rates. This is accomplished through the unified effort of the following programs: the College Based Educational Equity Programs (CBEEP), the Dedicated to Educating, Graduating, and Retaining Educational Equity Students (DEGREES) Project, the Educational Opportunity Program (EOP), the Summer Bridge Academies, the Project HMONG, the Executive Trainers Program (ETP), Faculty Student Mentor Program (FSMP), the Guardian Scholars Program (GSP), the Martin Luther King, Jr. Scholars Program (MLK), the Male Empowerment Collaborative (MEC), the Parents and Families Program (P&F), the Paving Excellence, Retention, and Success in Student Trajectories (PERSIST) Program, the Peer and Academic Resource Center (PARC), the First Generation Student Institute (FGI), U-Mentor, Improve Your Tomorrow (IYT), the Native Scholars Transition Program, and Partnerships for Advancing the Value of Education (PAVE). These programs and services are designed to build upon the dreams and aspirations of our campus community – our students, faculty, and staff, our alumni, and the people of our region.

The Student Academic Success and Educational Equity Programs are guided by the following primary goals:

1. **Access and Equity**
   To provide underrepresented students with access to a higher education and supportive services that are designed to enable them to persist through the college experience.

2. **Recruitment and Transition**

   To aid students in their transition to college life through pre-college equity services and assistance in navigating the higher education experience.

3. **Retention and Graduation**

   To provide a comprehensive range of retention and progress to degree services (e.g., academic advising, tutoring, mentoring, coaching, & counseling, etc.) to underrepresented students in the Unit to facilitate their graduation.

### The Parents & Families Program

Lassen 2205
Haley.Myers@csus.edu; parentsfamilies@csus.edu
916-278-4353
Family Helpline: 916-278-3399

The Parents & Families Program supports the ongoing needs of students and their parents and family members, as well as students-with-children, to help students stay in school and graduate. Communications, events and customer service inform and involve students and families, and generate support and goodwill for the campus community and beyond.

Highlights of the program include the Parent Ambassadors, a group of specially-trained parent volunteers; and expanded support services for students-with-children, including advising for student-parents, Hornet Family Study Care Day Camp which offers free Saturday childcare on select dates for Pell-eligible students, and the Hornet Family Study Care Grant, which pays half of Pell-eligible student-parents' out-of-pocket childcare costs. See www.csus.edu/parents (http://www.csus.edu/parents/) for more information.

### College Assistance Migrant Program (CAMP)

River Front Center 1
(916) 278-7241
www.csus.edu/camp (http://www.csus.edu/camp/)

CAMP is a unique educational program that helps students from migrant and seasonal farmworker backgrounds succeed at Sacramento State. CAMP facilitates the transition from high school to college and offers first-year support services to develop the skills necessary to persist and graduate from college. CAMP strives to be "a home away from home" for its students.

**CAMP offers:**

- Early outreach and recruitment services
- Personal, academic and career counseling
- Tutoring and academic skill building instruction and assistance
- Assistance with special admissions
- Health services
- Assistance in obtaining student financial aid
- Housing support for students living in institutional facilities and commuting students
- Exposure to cultural events, academic programs, and other educational/cultural activities not available to migrant youth
- Internships
- A "home away from home" environment
- Follow-up services for students after they have completed their first year of college

To be eligible for CAMP students must reflect an agricultural background, meaning they or their parent(s) or guardian(s) must have engaged in
migrant or seasonal farm work labor for a minimum of 75 days within the last 24 months.

**Degrees Project**
Lassen 2006
Director: Dr. Marcellene Watson-Derbigny
http://www.csus.edu/degreesproject (http://www.csus.edu/degreesproject/)

The Dedicated to Educating, Graduating, and Retaining Educational Equity Students (DEGREES) Project seeks to provide enhanced services to undergraduate students to make timely progress to their degrees and to reduce the achievement gap. Services provided by the DEGREES Project include: access to DEGREES Project Coaches to ensure students are connected to resources, on-campus mentorship made available through the “U” Mentor Program, faculty advising in the Colleges, 24/7 tutoring available through Smarthinking, and an overall comprehensive and integrated menu of academic and student support services designed to foster student success. Targeted interventions reach particular populations to assist high-unit seniors to graduate, boost second-year persistence, promote the writing proficiency exam for juniors, assist with helping students to identify a major, and increase the utilization of high impact practices on campus.

**Martin Luther King Jr. Scholars Center**
Lassen Hall 2201
(916) 278-2MLK (2655)
http://www.csus.edu/saseep/mlk/

The Sacramento State Martin Luther King Jr. Scholars Program, which opened in November 2015, is a university-wide effort to promote the cultural and historical legacies of Black and African-American Students. The program is set by the backdrop of a mission to support and ensure the success of Black and African American students and those with an interest in African American heritage in their quest toward a degree at Sacramento State. The vision of the MLK Jr. Center is to foster an ethos of success that permeates the scholarly experience, the community and the world by setting a tone of change and lifelong improvement that inspires and fulfills the dream of Dr. Martin Luther King, Jr.

**Serna Center**
River Front Center 1022
(916) 278-7241
Dr. Viridiana Diaz
Email: viridiaz@csus.edu
http://www.csus.edu/sernacenter (http://www.csus.edu/sernacenter/)

The mission of the Serna Center is to promote, foster, and enhance leadership, empowerment, self-advocacy, and civic engagement among Chicano/Latina/x students, but also, students from other underrepresented backgrounds at Sacramento State. The Center established a strong foundation that enriches cultural identity and develops a sense of familia within the campus.

**Dreamer Resource Center (DRC)**
River Front Center 1022
https://www.csus.edu/student-affairs/centers-programs/dreamer-resource-center/

The mission of the Dreamer Resource Center is to make the dream of a college degree a reality for undocumented students and students with mixed-status families at Sacramento State. Services provided by the DRC include free immigration legal consultations, financial aid guidance, scholarship resources, ally trainings, a peer-mentoring program, a support group, and a seminar designed to help undocumented and mixed-status students navigate college. The goals of the DRC are to: (1) provide access to higher education opportunities to undocumented high school, transfer, and graduate students, and those with mixed-status families; (2) provide support to help alleviate the uncertainty that comes from a lack of immigration status; (3) create a campus culture of knowledge and sensitivity to the issues faced by undocumented and mixed-status students; and (4) increase the retention and graduation of undocumented students and students with mixed-status families.

**The High School Equivalency Program (HEP)**
River Front Center 1022
(916) 278-7241
Director: Andres Enriquez
Email: hep@csus.edu

The High School Equivalency Program (HEP) is a federally funded program that helps migrant and seasonal farmworkers who are 18 years of age or older and not currently enrolled in school to obtain the equivalent to a high school diploma (HSE) and gain employment, go to an institution of higher education, the military, other postsecondary education or vocational training. HEP provides:

- Courses in reading, writing, math, science, and social studies
- Instructors and tutors to help participants make progress in the classroom and prepare them to pass the HSE exam
- Career professionals to assist participants in finding opportunities, post-HSE, to improve their quality of life
- Courses offered in English and Spanish

**Migrant Student Leadership Institute (MSLI)**
River Front Center 1022
(916) 278-7241
Director: Dr. Viridiana Diaz,
Email: viridiaz@csus.edu

The Migrant Leadership Institute (MSLI) is a residential two-week program for migrant high school students from various regions throughout the state of California. Students are housed on campus providing them an authentic campus life experience; while being mentor by college students, staff, and faculty.

The mission of MSLI is to recruit and prepare students from migrant backgrounds to become college ready, competitive candidates for admission to a four-year institutions and ultimately future leaders in their communities.

The Institute provides students a safe and supportive environment that maximizes learning and allows for self-exploration, reflection, and transformation. Students also earn three-units of college credit upon successfully completing the academic coursework with a grade of C or better.

**Male Empowerment Collaborative (MEC)**
Lassen Hall 2205
(916) 278-6183
http://www.csus.edu/saseep/mec (http://www.csus.edu/saseep/mec/)
"The Male Empowerment Collaborative" (MEC) is committed to addressing the gap between the academic successes of males compared to females. It is committed to the intellectual, spiritual, and economic development of young men in higher education. Like many other universities across the country, retention and graduation rates of males are significantly lower than females. Sacramento State through the MEC has worked for several years to increase the successful passage of males in higher education.

Using a program of support services including events, workshops, and personal advising, the Male Empowerment Collaborative at Sacramento State provides:

- Academic Advocacy
- Educational Empowerment
- Leadership Cultivation
- Academic Advising
- One-on-One and Group Mentorship
- Generalized support in a variety of contexts

Educational Opportunity Program (EOP)

Lassen Hall 2205
(916) 278-6183
www.csus.edu/eop (http://www.csus.edu/eop/)

The Educational Opportunity Program (EOP) is one of the primary vehicles implemented by the CSU system to increase the access, academic success and retention of educationally and economically disadvantaged students. EOP strives to provide the necessary economic and educational resources to help students realize their academic potential. Students can apply to the EOP Program via the Cal-State Application (for the fall semester only).

The EOP program, enacted by law in 1969, is a state-mandated program that serves First-Time Freshmen and Transfer students. EOP students are California residents from low-income, educationally disadvantaged communities who may not have had the opportunity to prepare adequately for admissions to a four-year college. AB-540/Dream Act students are eligible for EOP services.

The EOP Program provides retention services to all Sacramento State students including: academic advising, career counseling, personal counseling, professional development, educational workshops, social/cultural programming, and peer-mentoring advising. Admitted EOP students who have an Expected Family Contribution (EFC) of $1,500 or less and enroll in 15 units per semester may qualify to receive the EOP Grant. The Financial Aid Office will identify and award the EOP Grant to students.

Admitted EOP First-Time Freshmen students are required to attend a mandatory six-week Summer Bridge Academy Program from (early July through early August). Summer Bridge allows students for a smooth transition into the institution, earn college units, network with peers, meet EOP staff, professors and learn leadership skills.

As part of the First-Year Experience (FYE) First-Time Freshmen & Transfer students are required to enroll in an EOP Learning Community. The Learning Communities are cohort-base and student receive support from their professors, EOP counselor and Instructor Student Assistant. The Learning Communities allow students to navigate the campus, learn about other departments, and enhance their leadership and professional development skills.

General and Continuing Services for current & prospective Students:

- Early Outreach to schools, communities and individuals
- Campus Tours & EOP Presentations
- Assistance with the CSU & EOP Application Process
- EOP New Student Orientation (for admitted students)
- Summer Bridge Academy Program (freshmen only)
- Fall Learning Communities (for incoming students)
- Financial Aid Advising
- EOP Grant
- Professional Development & Career Services
- Academic Success Workshops
- Learning and Study Strategies Workshops
- Student Retention Peer-Graduate Advisors
- Strategic Advising and Retention Services to all class levels (Freshmen through Senior)
- Provide Recommendations/Referrals to other Support Services
- EOP Graduation Ceremony

For EOP Admissions Criteria and Application Process, please click on the following link below;

1 See Admission and General Support Programs/Summer Bridge Academy below.

Guardian Scholars Program (GSP)

Lassen Hall 2302
(916) 278-6680
www.csus.edu/gsp (http://www.csus.edu/gs/)

The Guardian Scholars Program (GSP) is a student support service for current and former foster youth. The program office was established in 2006 to assist students in their pursuit of academic and career success. Program components consist of one-unit college strategies courses, one-on-one advising, counseling, financial assistance, workshops, social events, professional mentoring, priority registration, and direct referrals to other programs on-campus.

GSP is open to all Sacramento State students who have been in foster care, kinship care, or homeless situations and are considered “independent” by federal financial aid guidelines. We review applications throughout the year, so there is no deadline to apply. Our staff is committed to helping Guardian Scholars succeed and overcome obstacles to graduating.

All eligible students are encouraged to learn more about and apply to the Guardian Scholars Program by contacting our staff or visiting the Guardian Scholars website at www.csus.edu/gsp (http://www.csus.edu/gsp/).

Summer Bridge Academy (pre-college program)

Lassen Hall 2205
(916) 278-6183
https://www.csus.edu/student-affairs/centers-programs/educational-opportunity-program/

The Summer Bridge Academy is an educational equity project administered through the Educational Opportunity Program. Summer
Bridge is a mandatory six-week intensive academic preparation and college orientation program designed strictly for incoming EOP first-year student to help them make a smooth transition from high school to college. EOP serves economically disadvantaged, first-generation college students.

College level General Education courses are offered in the Academy. Students may complete up to two college courses, including an in-depth Leadership Development course. Summer Bridge also meets Early Start requirements. There is no cost to students.

Successful completion of the courses students may earn 3-5 units of credit. To be considered for the Summer Bridge Academy, students must be admitted to Sacramento State and to EOP. Prospective students are strongly encouraged to apply to the EOP program, via Cal State Apply, during the CSU Application cycle (Oct. 1st – Nov. 30th). Students must meet all admission deadlines, as established by the Admissions & Outreach Office to gain admission to EOP and Summer Bridge.

Note: EOP also provides Summer Bridge programming for upper-class level including sophomores and transfer students.

To learn more about the Summer Bridge Academy, visit or call the EOP office (916) 278-6183 or visit the Academy website at www.csus.edu/student-affairs/centers-programs/summer-transitional-programs.html

Faculty/Student Mentor Program (FSMP)
Lassen Hall 2205
(916) 278-6183
www.csus.edu/fsmp (http://www.csus.edu/fsmp/)

The Faculty Student Mentor Program (FSMP) is an educational equity program designed to offer academic and personal support to students from traditionally low-income communities and selected students who have requested services due to challenges experienced in their education. The Faculty Student Mentor Program's goals are to increase the retention rates of students by helping them develop the knowledge, skills, and attitudes necessary to complete their academic goals, introduce the students to a discipline, build communities, and promote excellence.

Faculty and Peer Mentors are key elements to goal attainment. Program participants’ integration into campus life is facilitated by the development of discipline-based faculty and peer mentor teams. The FSMP matches the faculty peer mentor teams with program participants. These teams may organize study sessions, workshops and tutorials in the seven colleges. In addition, the mentors give personal, career and academic advice, and provide referrals to advisors within the departments and other on-campus resources. The teams also plan activities supportive of the students’ interests and needs.

For more information, please call or visit our office.

Peer and Academic Resource Center (PARC)
Lassen Hall 2200
(916) 278-6010
www.csus.edu/parc (http://www.csus.edu/parc/)

The Peer and Academic Resource Center (PARC) is a centralized academic support hub where students are united for common goals of excellence and student success through peer-led and student-driven services. The mission of PARC is to promote the scholastic achievements of students through enriched and supportive academic peer-to-peer learning opportunities that aid students along the pathway to degree attainment. We offer four programs - Supplemental Instruction (SI), Supplemental Instruction (SI) Plus, the Peer-Led Advising for College Experience (PLACE) Program, and the Workshops & Individual Tutorials (WIT) Program.

* Supplemental Instruction (SI) is an international certified academic support program for students who are enrolled in historically-challenging general education (GE) courses. SI provides students credit (1 unit) to learn how to implement transferable academic learning skills and strategies to increase grades in difficult university courses.

* Supplemental Instruction (SI) Plus provides free academic review and test preparation sessions for students enrolled in large lecture courses. These sessions are connected to the SI classes offered by PARC, however, they are open to all students in the class, not just those enrolled in the SI program.

* Peer-Led Advising for College Experience (PLACE) is led by students who are familiar with campus life and resources. This program provides peer-led supplemental advising services for all students on campus. One of the well-known student-advising programs, the Government Odyssey Program, is also housed in the PARC.

* Workshops & Individual Tutorials (WIT) is a free tutoring service (group and individual tutorials) open to all students on campus. The tutorials are taught by trained tutors who are familiar with materials in historically-difficult courses. In addition to helping students develop academic strategies to better understand challenging course materials, WIT has also successfully presented many Academic Support workshops in collaboration with the Academic Advising Center, the Career Center, and First Year Experience (FYE), and Residential Life. Some workshop topics included Time Management, Study Skills, Self-Care, among other topics. We also offer workshops on culturally inclusive behavior and intercultural communication skills.

All of these programs assist students in collaboratively learning about how to be a successful student and how to successfully navigate the demands of the academic community. Our motto embodies who we are as a Center: Successful students promoting student success!

Center for First-Generation Student Initiatives
Lassen Hall 2205
(916) 278-6183
https://www.csus.edu/student-affairs/centers-programs/first-generation-students/

The Center for First-Generation Student Initiatives mission is to collaboratively build a collegial network of faculty, staff, students, and alumni who identify as first-generation and their supporters to promote, support, and advance first-generation student success while ensuring first-generation personal, professional, academic, and social college experiences are woven into the culture and climate of the university.

Project HMONG (Helping Mentor Our Next Generation)
Lassen Hall 2205
(916) 278-6183
https://www.csus.edu/student-affairs/retention-academic-success/project-hmong.html

Project HMONG (Helping Mentor Our Next Generation) is devoted to fostering student health, retention, persistence, and graduation
success. Project HMONG's mission is to ensure the academic, career, and life success for Hmong and other underrepresented students. In collaboration with faculty, staff, students and community members, Project HMONG's purpose is to build a positive and supportive community of mentors and peers through mentoring and networking with support, guidance, and encouragement while promoting positive character development.

P.A.V.E. Partnerships To Advance the Value of Education
Lassen Hall 2205
(916) 278-6183
https://www.csus.edu/student-affairs/centers-programs/pave/

PAVE is an academic tutoring and college readiness mentoring program that partners with local schools to offer tutoring, mentoring, and college preparedness in K-12 classrooms. PAVE student academic tutors and college role models are prepared to provide Common Core State Standards support in English Language Arts, Math and the Sciences. Through PAVE, student academic tutors will engage in an authentic educational experience in which they apply their personal experiences, academic knowledge and skills they gained in their college classroom.

Executive Trainers Program
Lassen Hall 2205
(916) 278-6183

The Executive Trainers Program is led by a mission of service, activism in day-to-day student success activities, and is designed to promote retention, student persistence, and timely to graduation through executive-level peer leadership programming and interventions that strive to support college degree attainment.

Services to Students with Disabilities (SSWD)
Lassen Hall 1008
(916) 278-6956 (voice) or (916) 278-7239 (TDD only), (916) 278-7825 (fax)
https://www.csus.edu/student-affairs/centers-programs/services-students-disabilities/ (web)
sswd@csus.edu (Email)

To be eligible for SSWD disability-related academic accommodation services, applicants must be currently enrolled at Sacramento State, submit a completed SSWD application along with current medical documentation verifying disability and functional limitations, and meet with an SSWD Access Coordinator for an intake meeting. Accommodations are not retroactive. Accommodations are not in effect until an intake with an SSWD Counselor has been completed, appropriate academic adjustments approved by the Access Coordinator, and a current accommodation letter has been issued by SSWD. The accommodation letter, to be current, must be requested and issued each semester.

SSWD services are located in three different buildings. The Access Coordinators and TRIO SSSD program are located in Lassen. The Assistive Technology Lab is located in AIRS, the Testing Center is housed in the basement of the Library.

Assistive Technology Lab (ATL)
The Assistive Technology Lab ensures SSWD students, with print disabilities, have equal access to instructional materials. The ATL staff convert books and required course information into accessible formats. SSWD students are encouraged to use the computer lab, where assistive hardware and software is available to qualified students, based on referrals from SSWD Access Coordinators. To learn more about qualification criteria and services, contact sswd@csus.edu.

Testing Center
Lower Level Library, Room 14
(916) 278-6296
www.csus.edu/testing (http://www.csus.edu/testing/)

The Testing Center provides testing accommodations for eligible students registered with SSWD. Students requesting disability related accommodations for placement exams, new student orientation or other exams must be determined to be eligible for this service by first applying to SSWD. Tests are administered in lower-distraction classrooms, have available adjustable height tables, and essential assistive technology.

In addition, the Testing Center also provides proctoring services for make-up tests for a fee. CSUS students, with their instructor's permission, may schedule appointments to take paper-based classroom exams, exams with class conflicts, or exams for distance education courses. And finally, the Testing Center provides proctoring services for a fee, for anyone needing to take a paper-based test for another university, college or agency.

TRIO (SSSD)
The federally funded “TRIO” Student Support Services (SSSD) Project offers supplemental retention services to students with disabilities who require additional academic support and meet the federal TRIO qualifications for eligibility. This program, even though housed with SSWD in Lassen, has specific criteria for eligibility, and is separate from SSSD. The SSSD project offers limited tutoring, grants, financial literacy support, career assistance, peer mentors; as well as sponsored academic, cultural and social activities to strengthen academic and non-cognitive skills, and to increase retention and ultimately graduation. Interested students must submit a TRIO SSSD application, meet federal and program eligibility criteria, be U.S. Citizens or Permanent Residents, and be committed to actively participating in SSSD program requirements at Sacramento State. For more information or an application, contact trio@csus.edu.

Crisis Assistance and Resource Education Support (CARES) Office
CARES Office suite is located in University Union Suite1260 / Business Hours: Monday-Friday 9am-4pm
Academic Centers and Institutes

The Sacramento State CARES Office provides assistance to students who are in crisis or experiencing unique challenges to their education. CARES Case Managers can coordinate referrals to campus and community resources, and offer follow-up support to address a variety of issues including, but not limited to:

- Housing displacement
- Transportation barriers
- Financial Emergencies
- Food insecurity
- Mental health and wellness
- Physical health and wellness
- Transition back to campus following a hospitalization

Additional Services and Support:

- Assistance with CalFresh applications
- Student Emergency Housing on campus
- Student Emergency Fund
- Low-Income Student Housing (Rapid Rehousing)
- Advocacy (for accessing resources)
- Faculty and staff workshops on working with students in distress

Basic Needs Initiative
Division of Student Affairs
(916) 278-6060
http://csus.edu/basicneeds/

The Basic Needs Initiative provides a variety of resources to meet the housing, food, and financial needs of students. Basic Needs are the minimum necessary elements that people need in order to succeed in their goals; these include food, clothing, shelter, safety. If you are experiencing challenges with food access, housing, or finances, Sacramento State wants to ensure you have resources available to you in your time of need.

We know that Basic Needs security is essential to academic success. We encourage you to leverage your resources and utilize the options on the Basic Needs Website.

Throughout the website, you will see tips on how to use these resources in order to address Basic Needs Challenges. We hope that you leverage all your resources creatively and in a way that works for you, we know that there are many ways to be a student (full-time vs. part-time, students with children, students with disabilities, students without parental support, students without FAFSA aid, etc.) so, creating a plan unique to your needs is important.

If you have any questions or need assistance creating your Basic Needs Support plan, please contact our CARES Office cares@csus.edu or 916-278-5138.

Project Rebound
Andrew Winn
Division of Student Affairs
Lassen Hall 2140
(916) 278-6794
https://www.csus.edu/student-affairs/centers-programs/project-rebound/

PR is a growing collaboration of college support programs uniquely equipped to help formerly incarcerated people access and navigate higher education at California State Universities. Founded in 1967 at San Francisco University (SFSU) by Dr. John Irwin, who had been incarcerated prior to earning his Ph.D., he became a tenured professor at SFSU for 26 years, and where nurtured PR’s philosophy for others to implement. In 2016, Project Rebound moved beyond the confines of SFSU onto seven other California State University (CSU) campuses, including Sacramento State; currently Project Rebound can be found on 11 CSU campuses, with several other campuses developing programs.

Project Rebound is a program to assist formerly incarcerated students to prepare for, apply to, enroll in and graduate with a high-quality degree from Sacramento State. Project Rebound provides support for each student to ensure their optimal success at the University. The program offers academic and financial counseling and referral, peer mentoring and tutoring, and career development. The program addresses the basic needs of students, enabling them to focus on their studies and achieve educational and personal empowerment.

Academic Centers and Institutes

Centers and institutes contribute significantly to the research, teaching, and service priorities of the University. By attracting external funding, academic centers and institutes provide opportunities for faculty and students to engage current or emerging problems in a search for new solutions. For more information, please contact the Offices of Research, Innovation, and Economic Development at (916) 278-6402 or visit www.csus.edu/research (http://www.csus.edu/research/).

CSU International Programs
International Programs
Developing intercultural communication skills and international understanding among its students is a vital mission of the California State University (CSU). Since its inception in 1963, the CSU International Programs (CSU IP) has contributed to this effort by providing qualified students an affordable opportunity to continue their studies abroad for a full academic year. More than 20,000 CSU students have taken advantage of this unique study option.

International Programs participants earn resident academic credit at their CSU campuses while they pursue full-time study at a host university or study center abroad. CSU IP serves the needs of students in more than 100 designated academic majors. Affiliated with more than 50 recognized universities and institutions of higher education in 18 countries, CSU IP also offers a wide selection of study abroad destinations and learning environments.

Students participating in CSU IP pay CSU tuition and program fees, and are responsible for airfare, accommodations, meals and other personal expenses. Financial aid, with the exception of Federal Work-Study, is available to qualified students and limited scholarship opportunities are also available. All programs require students to maintain good academic and disciplinary standing, many programs are open to sophomores or graduate students. California Community College transfer students are eligible to apply (to select programs) directly from their community colleges. Students must possess a current cumulative grade point average of 2.75 or 3.0, depending on the program, and must fulfill all coursework prerequisites. Additional program information and application instructions can be found on the International Programs Website (https://www.csus.edu/?FuseAction=Abroad.Home).

Research and Extended Programs

Offices of Research, Innovation, and Economic Development

Division of Academic Affairs
University Library, 2nd Floor South, Suite 2520
(916) 278-6402
research@csus.edu
www.csus.edu/research (http://www.csus.edu/research/)

The Offices of Research, Innovation, and Economic Development (ORIED), as part of Academic Affairs, reports to the Provost and works to expand the research capacity of Sacramento State’s faculty, students, and research staff. ORIED supports faculty pursuing external funds for research projects (proposal development, submission assistance, contract development, project coordination, and related infrastructure needs) as well as research program development initiatives. On behalf of the University, we submit faculty grant and contract proposals, administer internal research funds and recognition programs, facilitate the Institutional Review Board (IRB) and Institutional Animal Care and Use Committee (IACUC), and coordinate patent and tech transfer activities, as well as provide a full range of research integrity and compliance functions for the research enterprise.

Post-award account administration for sponsored agreements and related accounts is typically handled through the Office of Sponsored Programs Administration (SPA) of University Enterprises, Inc. (UEI). SPA professional staff work in coordination with ORIED to support, accept and administer the awards faculty receive from federal, state, and private funding agencies.

International Programs and Global Engagement

Library 1001
(916) 278-6686
www.csus.edu/international-programs-global-engagement/ (https://www.csus.edu/international-programs-global-engagement/)

Email: intlprg@csus.edu

The mission of the International Programs and Global Engagement (IPGE) (https://www.csus.edu/international-programs-global-engagement/) office is to provide opportunities for Sacramento State students and faculty to increase their global knowledge, expand their international experiences, and gain new global perspectives. The office is comprised of the following functional units:

- International Admissions
- International Student and Scholar Services
- Study Abroad
- Global Initiatives
- Faculty and Staff Immigration Services
- The Passport Place @ Sac State
- The English Language Institute

International Admissions

Sacramento State welcomes students from across the globe. The International Admissions (https://www.csus.edu/international-programs-global-engagement/application-admissions-process/) office serves as the point of contact for all prospective international applicants intending to study at Sacramento State on a F-1 or J-1 student visa. Dedicated international admissions specialists process undergraduate and graduate applications, in addition to providing guidance throughout the application process. For additional information regarding international admission, please e-mail the office at intlinfo@csus.edu.

International Student and Scholar Services

Sacramento State is host to more than 600 students and scholars from 70 different countries. International Student and Scholar Services (https://www.csus.edu/international-programs-global-engagement/international-student-scholar-services/) within IPGE provides immigration support, coordinates International Student Orientation, and offers cultural programming and other services geared towards assisting international students and scholars in becoming more engaged in campus and community life. For additional information, please e-mail the office at intlprg@csus.edu.

Study Abroad

Sacramento State students have a variety of opportunities to study at over 70 universities around the world. Overseas educational opportunities are available in almost every discipline. Financial aid and scholarships are available to qualified students.

While studying abroad, students develop global perspectives related to their field of study that enhance academic knowledge and professional development. Study Abroad is one of the most transformational experiences offered at Sacramento State.

Sacramento State offers a variety of study abroad options:

- California State University International Programs (CSU-IP) is the system wide, year-long study abroad program offered by the California State University
- Sacramento State Exchange Programs include semester and year-long study abroad experiences through exchange programs with partner institutions
- Short-term, Faculty-Led Study Abroad programs
- Short-term non-credit bearing study tours
- Study Abroad opportunities through independent affiliated providers

Students interested in studying abroad are advised to start the planning process as early as possible. For additional information about Study Abroad opportunities, please e-mail sabroad@csus.edu or visit the Study
Abroad Website (https://www.csus.edu/international-programs-global-engagement/study-abroad/).

The Study Abroad office also offers the following services to faculty members interested in leading student groups or conducting research in foreign countries:

- Assistance in making contacts with colleagues at affiliated institutions abroad;
- Advising for faculty exchange opportunities for one semester or one year;
- Providing information about State Department advisories for international travelers;
- Providing information on faculty development seminars abroad; and,
- Providing information and advising regarding the International Research Scholar Program.

For additional information about Faculty-Led Study Abroad programs, please e-mail Alessandra McMorris at mcmorris@csus.edu.

Global Initiatives

The Office of Global Initiatives is responsible for international recruitment and outreach, maintaining and building international partnerships, and developing international agreements. The office also provides resources for Sacramento State faculty and staff interested in learning more about the university's internationalization and global engagement efforts.

Specific inquiries or requests for information can be e-mailed to Kunyi Cheng, Coordinator of Global Initiatives, at kunyi.cheng@csus.edu or Tel: (916) 278-4877.

Faculty and Staff Immigration Services

Sacramento State is committed to the internationalization of the campus by hiring diverse faculty with world-class expertise in a wide range of academic disciplines. Faculty and Staff Immigration Services (https://www.csus.edu/international-programs-global-engagement/global-initiatives/immigration-services.html) provides information on immigration and international employment requirements for faculty and staff at Sacramento State.

Please direct Faculty and Staff Immigration questions to Kunyi Cheng, Coordinator of Global Initiatives, at kunyi.cheng@csus.edu or Tel: (916) 278-4877.

The Passport Place @ Sac State

The Passport Place @ Sac State (https://www.csus.edu/international-programs-global-engagement/the-passport-place.html) accepts U.S. Passport Applications between 8 AM – 4 PM, Monday – Thursday, and 8 AM - 1 PM on Friday. The Passport Place is located in the International Programs and Global Engagement (IPGE) office, Library 1001, next to the Grumpy Mule coffee shop. See campus map (https://www.csus.edu/campusmap/).

The English Language Institute

Library 1001

Email: eli@csus.edu
COMMUNITY CONNECTIONS

MESA Engineering Program (MEP)
Santa Clara Hall 1213
(916) 278-6699

Participation in the MESA Engineering Program (MEP) increases the probability that students will be successful in their engineering or computer science college studies. Focusing on the recruitment, retention, and graduation of highly motivated students from educationally disadvantaged backgrounds, MEP emphasizes participation by students from communities with low rates of enrollment in engineering majors.

The MEP program provides an on-campus home for its members with a large 24 hours-a-day study center that encourages study groups. MEP provides professional development, a freshman orientation course, and personal-academic advising. It assists in the coordination of tutoring services for all students in the College of Engineering and Computer Science.

Community Engagement Center (CEC)
Dr. Ann Moylan, Director
Francine Redada, Senior Partnership Coordinator

Library 4028
(916) 278-4610
www.csus.edu/cec (http://www.csus.edu/cec/)

The Community Engagement Center, a program of Academic Affairs, focuses Sacramento State’s greatest resource—the knowledge and skills of faculty, staff and students—on making a difference in the various communities throughout the Sacramento region.

Our mission is to engage members of the Sacramento State campus through their educational experiences to become aware of and respond to local and global community concerns through Service Learning, Volunteerism and Academic Internships. Additionally, our vision is to create a campus climate that promotes community awareness and involvement and supports students to become civically minded graduates who are actively engaged in making a difference both locally and globally.

At Sacramento State, community engagement describes the collaboration between institutions of higher education and their larger communities (local, regional/state, national, global) for the mutually beneficial exchange of knowledge and resources in a context of partnership and reciprocity.

The purpose of community engagement is the partnership of college and university knowledge and resources with those of the public and private sectors to enrich scholarship, research, and creative activity; enhance curriculum, teaching and learning, prepare educated, engaged citizens, strengthen democratic values and civic responsibility; address critical societal issues; and contribute to the public good.

Students, faculty, and the CEC collaborate with community partners to create community-engaged learning activities to:

• enhance classroom experience;
• connect scholarly work and community services;
• expand knowledge of civic and social issues;
• network with professionals;
• develop leadership and teamwork skills; and
• act locally, think globally.

The Community Engagement Center programs include:

• Service Learning (SL), which links students in courses with community-based partners for mutual benefit. The community partner gets assistance with various programs and the students gain experience understanding how different organizations operate and function to deliver programs and services. One example of Service Learning is: “Writing Partners @ Sac State,” a program where university students participate in a letter exchange with fifth graders at local elementary schools. Writing Partners helps Sac State students be better writers and it helps fifth graders aspire to become college students;
• Community Service, including Alternative Break @ Sac State and Sac State Volunteers, both of which provide volunteer opportunities with organizations throughout the Sacramento region;
• Civic Engagement, which supports opportunities for students to become “engaged” citizens in their communities and includes the Constitution and Civic Engagement Program (CCEP) sponsored by CEC and other campus programs; and
• Academic Internships, which are stand-alone courses that formally integrate students’ academic study with practical experience in a cooperating organization.

For more information on how to become involved, visit the Community Engagement Center Web site at http://www.csus.edu/cec (http://www.csus.edu/cec/).

Partnerships for Employment Opportunities
Dr. Melissa Repa, Director

Employer Relations Team:
Mary Kober, Senior Employer Relations/Workforce Analyst
Stephanie Francis, Internship Coordinator
Kate Lockwood, Employer Relations Coordinator
Voun Sa, Employer Relations Specialist
Emma Wadiak, Career Development Specialist

Career Center
Lassen Hall 1013
(916) 278-6231

Through a collaborative career development approach, the Career Center engages, educates and empowers our students and alumni to thrive and successfully contribute to our community, economy and future workforce. The Career Center offers a proactive comprehensive career development program, fostering partnerships with community and campus businesses to provide hands-on work experience for students and alumni.

Experiential education and internships offer students academic credit or experience for employment and learning opportunities that complement
their educational endeavors by matching educational goals with work experiences. The Student Employment program provides job-listing services for students looking for employment while attending college. Handshake (https://app.joinhandshake.com/login/), the online job database, lists thousands of opportunities (part-time, full-time, internship, and volunteer) for students and alumni in the Sacramento and Western region and beyond. It is accessible at the Career Center website 24 hours a day.

The On-Campus Interviews (OCI) program provides students and alumni with an opportunity to interview with Fortune 500 companies, top accounting firms, government agencies and other well-known organizations without ever leaving campus. Interviews for full-time and internship opportunities are conducted within our Career Center or virtually online.

Career Events and Job Fairs offer students and alumni even broader opportunities to meet with prospective employers. Over 500 employers attend Career Center events, annually, each searching specifically for Sacramento State students who have a reputation for professionalism, strong work ethic and academic preparedness to help companies and organizations excel.

Sacramento State alumni can also share advice and feedback with students via our online career mentoring platform: Sac State Career Network (http://sacstatecn.firsthand.co/) in partnership with Alumni Association.

See also Campus Life/Student Resources/Career Center.

The EXCEL Program
Pamela O’Kane: (916) 278-4345
E-mail: okane@csus.edu

In the EXCEL Program, Sacramento State students learn the basics of tutoring elementary school children in reading or mathematics. After training, they work under supervision at local elementary schools helping children who are achieving below grade level. The following classes each offer 3 units of upper division credit:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>EDUC 124A &amp; EDUC 124B</td>
<td>Tutoring Children in Mathematics: Practicum</td>
<td>3</td>
</tr>
<tr>
<td>EDUC 125A &amp; EDUC 125B</td>
<td>Tutoring Children in Reading Practicum</td>
<td>3</td>
</tr>
<tr>
<td>EDUC 126</td>
<td>Assisting the Elementary Classroom Teacher</td>
<td>3</td>
</tr>
</tbody>
</table>

Some paid positions are available with funding through FWS or America Reads/America Counts. This experience is an excellent way for students to find out if a career working with young people is right for them.

University Outreach Services
Office of Admissions and Outreach
Lassen Hall Lobby - Room 1102
www.csus.edu/admissions (http://www.csus.edu/admissions/)

The Admissions and Outreach Office is charged with the recruitment of prospective students to the University. This involves recruitment visits and yield events at high school and transfer services, as well as services to students from low income educationally disadvantaged groups. The programs are designed to meet enrollment levels that reflect the richness of diversity in the Sacramento Region and to build a healthy enrollment balance by class level and academic programs.

Additional services provided include:
- Pre-admission advising and presentations;
- California Residency review;
- Western Undergraduate Exchange (WUE) program;
- Undergraduate application review and processing;
- Prospective and new student event planning;
- Customer Relationship Management;
- Outreach and marketing services;
- Campus tours;
- Tele-counseling services;
- Distribution of complimentary copies of CSU/Sacramento State materials to schools, colleges, and related agencies;
- Consult and Liaison between University academic departments and partner institutions for course articulation.

High School Outreach Programs
High School Outreach programs provide information and guidance on higher education opportunities in general, and Sacramento State opportunities in particular, to prospective students, parents, guidance personnel, and other interested persons. High School Liaisons provide extensive outreach visits and activities at high schools in the Sacramento State service region and throughout the state. The Outreach staff also assists students in completion of the matriculation process and articulates University programs, policies, and procedures to other educational institutions and agencies.

Transfer Outreach Programs
Community College Outreach Programs work closely with community colleges in California to facilitate a smooth transition for students transferring to Sacramento State. In addition to the following list, the programs and services of the Community College Outreach mirror the High School Outreach program.

- Memoranda of Understanding, established with the Los Rios, Sierra, and Yuba Community College Districts, are partnerships emphasizing and promoting a seamless transition to Sacramento State.
- Development and distribution via www.assist.org (http://www.assist.org) of official articulation agreements between Sacramento State and other campuses specify the acceptability of transfer courses toward meeting lower-division major preparation.
- Visits to community colleges enable staff to meet with prospective students, providing instant, on-site admission for eligible applicants at major feeder community colleges.

Community Outreach
Project PLAY
Dr. Scott Modell
E-mail: modells@csus.edu
(916) 278-5041

Project PLAY (Play-Oriented Lifetime Activities for Youth) is a fitness and leisure program for individuals with disabilities ages 3-25, that also trains parents, legal guardians, and other family members to provide follow-up instructions and support for program participants in the home. Project PLAY combines activities in the areas of motor fitness, physical fitness, development of leisure time skills, opportunities in adapted aquatics,
Project PLAY is an opportunity for students to participate in community engagement in the Department of Kinesiology and Health Science.

**Capital Public Radio KXPR, FM 88.9 and KXJZ, FM 90.9**

(916) 278-8900  
E-mail: info@capradio.org  
http://www.capradio.org

Capital Public Radio is the NPR affiliate serving the Central Valley and Sierra Nevada. Seven frequencies, hundreds of thousands of listeners, and one mission: to build stronger communities by listening deeper. The seven listener-supported, non-commercial frequencies:

NEWS 90.9 FM Sacramento  # 90.5 FM Tahoe/Reno  # 91.3 FM Stockton/Modesto  # 88.1 FM Quincy

MUSIC 88.9 FM Sacramento  # 91.7 FM Groveland/Sonora  # 88.7 FM Sutter/Yuba City

The radio station sits on the Sacramento State campus and offers internship opportunities for qualified students who wish to gain experience by working in a professional broadcasting environment.

**Sacramento State Alumni Association**

Alumni Association  
(916) 278-6295  
E-mail: alumni@csus.edu  
www.csus.edu/alum/students/ (http://www.csus.edu/alum/students/)

The Alumni Association, open to all current students and friends of the University, was founded July 20, 1950 to encourage alumni involvement with their alma mater and to support the campus community. Governed by a 27-member Board of Directors, the Association offers its members various opportunities to volunteer and participate in social and fund-raising activities.

Current students are encouraged to join the Student Alumni Association (SAA). SAA is a student volunteer group that works on behalf of the Alumni Association to enhance the student experience by connecting students to one another, alumni, and the University. SAA volunteers plan and participate in social, career-oriented, and school unifying events. SAA membership for current students is only $20/year and, in addition to the full privileges and benefits of membership in the Alumni Association, members receive a t-shirt and keychain.

The Alumni Association also provides the opportunity to network with alumni who share your professional or social interests through chapters including: Art; ASI; Basketball Alumni and Friends; Black Alumni; Business; Capitol Fellows Affiliate; Construction Management; Criminal Justice; Education; Engineering/Computer Science; Government; Hong Kong; Football/Spirit Alumni and Friends; Latino; MPPA; Nursing; Recreation, Parks and Tourism; Speech Pathology and Audiology; Theatre/Dance; and Urban Collective. All groups welcome student member (SAA) participation as well.

Events are another way the Alumni Association keeps alumni active in the life of the University. Annual events include “Alumni Month” every April, the Causeway Classic, Homecoming, pre-game parties, and the prestigious Distinguished Service Awards. Members of the Alumni Association also support students through donations to the Alumni Scholarship Fund. Each year 12-15 scholarships ranging from $1,000-$2,000 are awarded to deserving Sacramento State students.

When you think of your alumni home on campus, think of the Alumni Center. Maintained and operated by the Alumni Association, it is an outstanding venue that may be rented for meetings, conferences, weddings, receptions, and other social events. It truly provides a “home” on campus for alumni and a place for activities that help alumni strengthen ties to the students, the campus, and the community.

Current Alumni Association membership information can be found online at www.csus.edu/alum/students/ (http://www.csus.edu/alum/students/). We hope you will get involved and consider showing your Hornet Pride by joining for life!
**University Housing Services**

**On Campus**
(916) 278-6655
www.csus.edu/student-life/housing

The on-campus community consists of approximately 3200 residents living at North Village or Hornet Commons. Living on campus can be a very special and rewarding part of the Sacramento State experience. On-campus living is convenient and offers opportunities for students to make new friends and be a part of an active and engaged community. Additionally, research shows that students who live on campus feel more connected and have a higher persistence rate toward graduation as compared to students who live off campus. North Village and Hornet Commons communities have dedicated full-time, post masters live-in professional staff, along with trained Resident Advisors. The residential staff organize educational programs, engage in academic advising, and serve as mentors and sources of campus information for residents.

Submitting an on-line application for on-campus housing is easy and convenient. Housing applications for the following academic year are available in early February. Students attending for the spring semester only can apply for housing in early November. Please visit the University Housing Services web site at https://www.csus.edu/student-life/housing/ or contact University Housing Services at housing@csus.edu for specific application time-lines and housing costs. Space fills up quickly, so interested students should submit an on-line application, including any necessary payments, as soon as charges are posted to the student’s account.

**North Village**
(916) 278-6655
www.csus.edu/student-life/housing

North Village housing community consists of approximately 2100 residents living in seven residence halls which offer a variety of living options including single and double rooms, and apartment style suites. Each residence hall provides furnished living accommodations along with Wi-Fi access, computer lab/ print stations, cable TV and XfinityOnCampus with 120+ Digital and HD online channels with DVR service, study rooms, recreation rooms, lounges, kitchenettes, and laundry facilities. Also, residents have access to a gaming lounge, movie room, fitness center, pool, basketball and tennis courts, and a rooftop terrace. The halls are situated adjacent to the American River which has walking and biking trails. Additionally, the Servery at the Dining Commons and the Courtyard Market provide a variety of freshly prepared dining options.

**Hornet Commons**
(916) 573-6205
www.csus.edu/student-life/housing

Hornet Commons (HC) is the newest all-inclusive, pet-friendly apartment complex located on the south side of campus. It houses 1100 Upper-Class students throughout six residential buildings. All units come fully furnished with full kitchens, in-unit washer/dryer, cable, and Wi-Fi. The property features a dedicated community building that includes a state-of-the-art fitness center, business center, pool, sundeck, and cafe.

**Off Campus**

**Upper Eastside Lofts**
916 739-0900
www.uelsacramento.com

A popular off-campus option is the Upper Eastside Lofts (UEL) located only a short walk from campus. UEL is Sac States only affiliated off campus housing. As with on-campus, UEL also has trained staff available to assist students with concerns and referrals to campus resources. They also provide educational programs, advising and mentoring.

**Campus Dining**

**Sac State Campus Dining**
(916) 278-6376
www.dining.csus.edu

Beginning July 1, 2021, Sac State Campus Dining, operated by University Enterprises, Inc. will be managed by Aramark (contracted supplier of University Enterprises, Inc.) and is proud to offer the campus community a wide variety of diverse, healthy, and great tasting dining choices throughout the campus. From snacks, food trucks, and fine dining, to everything in between, including vegan and vegetarian options, students will find dining options to fit their schedules and their tastes.

The University Union features classic American fare and ethnic cuisine, as well as Starbucks coffee, smoothies, and vending.

The River Front Center on the north side of campus houses the well-known favorite, Togo’s, as well as Baja Fresh Express, Starbucks, vegetarian and vegan eateries, and Mediterranean cuisine.

Other food and coffee locations are located throughout campus near Lassen Hall, the Library, the Hornet Bookstore, and beginning in the fall of 2021, the new on-campus housing facility, Hornet Commons, will feature Einstein Bros. Bagels.

Sac State Campus Dining also operates a Starbucks truck, which serves hot and cold beverages, pastries, breakfast sandwiches, bistro boxes, fruit, and bottled water.

Epicure Catering at Sacramento State offers a variety of fresh, healthy foods prepared by the chef at Epicure Restaurant at Sacramento State. The professional and experienced staff is available for a full range of events and activities, both on and off campus. To request information and a catering menu, please call (916) 278-6786. Visit the Sac State Campus Dining website at http://www.dining.csus.edu/ for a current list of eateries, hours of operation, map with dining locations, and complete information about the services Sac State Campus Dining provides.

**The Servery at the Dining Commons**

Dining Commons
(916) 278-6971
www.dining.csus.edu/dining-commons/
For the convenience of students living in the residence halls at Sacramento State, The Servery at the Dining Commons offers an “All You Care to Eat” meal service in a relaxed setting. Students living off campus may also eat here, and off-campus meal plans are available for purchase. The serving area in The Servery at the Dining Commons recently underwent a significant renovation, which changed the way food was prepared and served. The new, state-of-the-art venue includes 10 cooking exhibition stations with a different cuisine at each, where diners can see chefs prepare their meals. The Courtyard Market, a popular convenience store located in the American River Courtyard Residence Hall near The Servery at the Dining Commons, offers healthy snacks and freshly made foods, including vegan and vegetarian options.

**Campus Services**

**Bookstore**

State University Drive East  
(916) 278-6446  

The Hornet Bookstore carries all textbooks required in campus curricula. Textbooks are available for purchase in-store during store business hours or ordered online anytime at hornetbookstore.com (http://www.bkstr.com/csuscramentostore/home/en/). Please review the website for shipping options, store hours and pricing. The Bookstore offers a variety of textbook options, including new, used, rental and digital. All special program participants are advised to contact the Customer Service department before making purchases. The textbook department is located on the 2nd floor of the Hornet Bookstore.

The Bookstore offers merchandise to make life on campus more convenient. These items include school supplies, sportswear, backpacks, art supplies, calendars, greeting cards, sundries, snacks, and cold beverages. The Bookstore offers a selection of laptop and personal computers at academic pricing. The bookstore is an Apple Authorized Campus Store. Repairs are available on Apple laptops and computers. Printers and technology related supplies are also available. The Bookstore also offers a selection of general interest books, reference books, best sellers, study aids, children's books, and magazines. Special orders are accepted for items not in stock. The Bookstore Cafe offers coffee, tea, specialty drinks and pastries.

The Bookstore is located on State University Drive East, across from the University and adjacent to Parking Structure II. VISA, MasterCard, Discover, American Express, and the Sacramento State One-Card are accepted.

**The Store in the University Union**  
(916) 278-7906

The Store, located in the University Union, offers school supplies, test materials, snacks, cold beverages, logo apparel, gift merchandise, and sundries.

**Children's Center (Child Care)**

Atlas Cedar Way/State University Drive  
(916) 278-6216  

Built with student-raised funds, the Associated Students’ Children’s Center was carefully designed to provide support for Sac State students who are raising young children. A qualified staff of certificated, experienced teachers welcomes families with children six months of age through kindergarten. Student employees round out the rest of the adult-child ratio, adding a wealth of experience, knowledge, and cultural diversity. In addition to student employees, the Center provides internships for fieldwork courses and observation opportunities to students enrolled in a variety of courses. The Children’s Center earned National Accreditation through the National Association for the Education of Young Children (NAEYC) in 2006 and was re-accredited in 2011 and again in 2016.

Children of students, faculty, and staff may attend this program, although priority admission is given to children of enrolled Sacramento State students.

Students may apply directly to the Center for financial assistance if they meet income eligibility guidelines.

**Student Health and Counseling Services**  
(916) 278-6461  
www.csus.edu/shcs (http://www.csus.edu/shcs/)

Student Health & Counseling Services (SHCS) in the WELL offers basic medical services (including Primary Care and Urgent Care), pharmacy, athletic training, mental health counseling, violence support services, and wellness education to help students get and stay healthy. Our walk-in Urgent Care clinic can see students for urgent medical and mental health concerns. SHCS staff includes licensed and board-certified providers who work collaboratively across disciplines to provide top-quality care.

SHCS provides the following services:

- Acute illness and injury care
- Athletic Training
- Birth control methods/supplies
- Counseling (individual, group, and urgent care)
- Health education
- Immunizations
- Nutritional counseling
- Pharmacy
- Relaxation and mindfulness training
- Sexual/reproductive health services
- STD/STI testing & treatment
- Peer counseling
- Peer-led health education
- PEP/PrEP
- Support groups
- Transgender Care
- Violence & sexual assault support services
- Wellness Workshops
- X-ray and lab services

**Cost & Eligibility**

All currently enrolled students who pay health fees are eligible to access services. Additional fees may apply to specialty services, procedures, pharmaceuticals, vaccines and supplies. *Any services received off campus are the financial responsibility of the student.*

**Location & Hours**
SHCS is located at The WELL, and open Monday – Friday. See our website for current hours.

**Appointment Scheduling**
Students can make appointments online at www.csus.edu/student-life/health-counseling/ (http://www.csus.edu/student-life/health-counseling/) by clicking the Patient Portal link, or by calling 916-278-6461. Please see the SHCS website for more information.

**Urgent/Immediate Care – (916) 278-6461**
Patients who require immediate medical attention or crisis counseling can be seen on a walk-in basis at the Urgent Care clinic located on the 1st floor of The WELL. All walk-in patients are medically evaluated and seen or scheduled for further evaluation and treatment as appropriate. An after-hours Nurse Advice Line is available by calling 916-278-6461 or 1-888-840-5169. A list of off-campus urgent care facilities and emergency resources are listed on the SHCS website at http://www.csus.edu/shcs (http://www.csus.edu/shcs/).

**Nurse Advice**
Nurse Advice is available after hours and weekends to enrolled students. Students have the option of calling to speak with a registered nurse who can assist with medical concerns when Student Health & Counseling Services is closed by calling 916-278-6461 or 1-888-840-5169.

**Get Involved**
SHCS offers several opportunities for students to get involved:

- The Peer Health Educator (PHE) internship program is a year-long academic and hands-on learning program. PHEs actively promote health and wellness at Sac State. For more information, visit www.csus.edu/student-life/health-counseling/wellness-education/ (http://www.csus.edu/student-life/health-counseling/wellness-education/).
- The Student Health Advisory Committee (SHAC) is a student-based organization that advises campus administrators on student health issues from a student's perspective, covering such topics as accessibility, hours of operation, scope of services, student fees, quality of care and satisfaction. Email shac@csus.edu for more information.
- Peer Counselors (PCs) are part of the Student Health and Counseling Services team and serve as an additional on-campus resource to promote safety and well-being. PCs are not trained therapists but rather support their peers through active listening and helpful problem solving. For more information visit https://bit.ly/peer-counseling (https://bit.ly/peer-counseling/).
- Student Health & Counseling Services offers employment opportunities for students in the Pharmacy and Health & Wellness Promotion. Job openings are posted on Handshake when they become available.

**Confidentiality**
Privacy and confidentiality are fundamental rights to all who use SHCS services. In both Health Services and Mental Health Services, students’ right to privacy is respected and no information is released without student consent, except where disclosure is required by law.

*For more information on Student Health and Counseling Services visit www.csus.edu/shcs (http://www.csus.edu/shcs/) or call (916) 278-6461.*

**Sacramento State Police Department**
Personal Safety and Protection of Public Property

Police Department Building
Police Emergency, (916) 278-6900 or dial 911 from any campus phone www.csus.edu/police (http://www.csus.edu/police/)
www.twitter.com/sacstatepolice (https://twitter.com/sacstatepolice/)

The University and the Sacramento State Police Department (formerly known as the Department of Public Safety) encourage the prompt reporting of any incident that compromises the safety, health or rights of Sacramento State community members. The Sacramento State Police Department is the primary respondent for campus emergencies and reports of criminal activity on campus. The Department is open 24-hours-a-day, seven days a week.

Sacramento State Police Officers are fully certified by the State of California with full arrest powers and cooperate with State and local police agencies including the Sacramento City Police and Sacramento County Sheriff's Departments, resulting in the University’s awareness of criminal activity perpetrated beyond the campus. Reports of criminal activity will be fully investigated, and the appropriate referrals will be made with respect to subsequent action by the courts, the University, or both.

For more information on the Sacramento State Police Department's policies and procedures, refer to Appendix K. For The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act and the Campus Fire Safety Right-To-Know Act, please access our website, https://www.csus.edu/campus-safety/clery-act.html.

**Student Resources**

**University Library**
(916) 278-5679
www.library.csus.edu (http://www.library.csus.edu)

The University Library holds approximately 1.6 million books (including over 200,000 ebooks), provides access to over 100 databases, in excess of 30,000 media items, and thousands of maps, slides and pamphlets, and several million pieces of microforms and non-print media as well as subscriptions to thousands of print and online magazines, technical and scholarly journals, and newspapers. The Library is a depository for California State publications and for selected United States government materials.

OneSearch (the Library catalog and other databases) is searchable via Library computers or the Internet. Your SacLink login gives access to library resources both on and off campus.

You can ask questions, find course materials, and borrow equipment like laptops and anatomy models at the service desk located on the first floor. Items not owned by the Library can be obtained through an Interlibrary loan and document delivery service, usually provided without fee to Sacramento State students, faculty, and staff.

The second floor houses the Reference Collection and Research Help meeting spaces, as well as the Curriculum Collection that contains materials related to elementary and secondary school instruction. The California Department of Education has designated the University Library as a Learning Resources Display Center for all State adopted textbooks. Periodicals are located on the third floor, and the main circulating collection is on floors 2, 3, 4, and lower level.
The Department of Special Collections and University Archives collects materials from California State University, Sacramento as well as items documenting the social, cultural, economic, and political history of the Sacramento region. Other special Library facilities and services include group and individual study rooms, a Family Study Room, and hundreds of computers for student use. Self-service copiers and PrintSmart stations are available on each floor. The Tsakopoulos Hellenic Collection is an extensive collection of books, journals, pamphlets, non-book materials, rare books, and manuscript materials as well as art and artifacts related to all aspects of Greek, Byzantine, and Ottoman history and culture.

Reference librarians offer subject-oriented research help and other forms of library instruction. Hands-on sessions are scheduled in the Library Instruction classrooms.

Consult the Library homepage for additional information about Library collections and services, hours, staff, maps, exhibits, instructional materials, subject guides, and other materials.

**Career Center**

Dr. Melissa Repa, Director

Lassen Hall 1013  
(916) 278-6231

[www.csus.edu/student-life/career-center](http://www.csus.edu/student-life/career-center)

Through a collaborative career development approach, the Career Center engages, educates and empowers our students and alumni to thrive and successfully contribute to the community and today's economic workforce. The Career Center utilizes a variety of programs and services to assist students in identifying and obtaining their educational and career objectives.

**Career Counseling & Support Services:**

- Career and major exploration
- Internship search strategies
- Part and full-time job search strategies
- Resume and cover letter writing tips and feedback
- Interview preparation
- Career readiness skills
- Graduate school planning
- And more!

**Programs, Events & Workshops (conducted on campus or virtually):**

- Career fairs
- Employer information sessions
- On-campus interviews
- Career development workshops

**Online Resources:**

- Handshake: The Career Center's all majors' job board for part-time, full-time, and internship opportunities and career event information
- Big Interview: The virtual interview preparation and resume building platform
- Focus 2 Career: online assessments to identify personality and work interests to help determine major and career paths
- Sac State Career Network: A platform designed for students and alumni to give and receive career advice
- What Can I Do With This Major?: Information about common career paths, employers, and strategies for building experience in different career fields
- The HirED Podcast: Podcast that brings career and professional insights to you.

**University Reading and Writing Center**

Calaveras Hall 128  
(916) 278-6356  
[www.csus.edu/writingcenter](http://www.csus.edu/writingcenter)

The University Reading and Writing Center (URWC) is a place for all Sacramento State students to get help with reading and writing for any course or project. Trained undergraduate and graduate student tutors offer support at any stage of the writing process, including helping writers to begin an assignment and generate ideas, identify a focus for a paper, work on developing ideas, refining organization, citing sources, or clarifying language. The URWC can also help students learn how to proofread and edit their papers better. The URWC emphasizes nonjudgmental and encouraging feedback to help a student not only with a particular assignment but also with becoming a more confident college writer.

If a student is working on a writing assignment in any undergraduate major, in a writing course, or in a graduate course, it is appropriate to come to the URWC. Tutors are experienced in working with the diverse population of Sacramento State students including multilingual and multidialectal writers. Along with guidance on writing assignments, the URWC also provides help for students who are preparing to take the WPJ or other writing tests and for graduate students working on theses or projects. We also offer one unit of academic credit for regular tutoring, ENGL 121.

Appointments can be made in person in CLV 128 beginning the second week of classes each semester. Students interested in becoming a University Reading and Writing Center tutor should contact the Director.

**Accessible Technology Initiative (ATI)**

Sacramento State is committed to providing equal access to educational and information resources for every campus community member, including those with disabilities. Managed by Information Resources & Technology (IRT), the mission of the Accessible Technology Initiative (ATI) is to “make information technology resources and services accessible to all CSU students, faculty, staff, and the general public regardless of disability.” This encompasses the delivery of comprehensive services to students and faculty for web accessibility, instructional materials accessibility, and the accessibility of any campus-procured technology. A dedicated team of three ATI specialists in the areas of instructional materials, web development, and procurement partner with and provide consultation to campus groups including Services to Students with Disabilities, the Student Technology Center, the High Tech Center, the Office of Equal Employment Opportunity, the Hornet Bookstore, and academic departments, among others, to
ensure equal access to education for our students. Learn more at https://www.csus.edu/information-resources-technology/ati (https://www.csus.edu/information-resources-technology/ati/) or contact ati@csus.edu.

Information Resources & Technology (IRT)

Academic Information Resources Center 3010
(916) 278-6606
www.csus.edu/irt (http://www.csus.edu/irt/)

Information Resources & Technology (IRT) partners with faculty, staff, and students to provide essential information technology services that support mission critical activities and strategic campus goals. We actively engage our campus community to deliver high-quality services and innovative solutions that meet current and future technology needs. The IRT team is committed to communicating clearly, operating transparently, and taking a data-driven approach to continuous improvement. From log on to log off, we are a trusted partner in the shared vision to redefine the possible at Sacramento State. Faculty, staff, and students can request all IRT services online at ServiceNow (http://servicenow.csus.edu) or in person at the Service Desk.

IRT Service Desk
AIRC 2005
Hours: 7 days a week – visit http://csus.edu/irt/servicedesk (http://csus.edu/irt/servicedesk/) for hours

Academic Technology and Creative Services (ATCS)

Online Teaching and Learning, SacCT support, Materials Development and Creative Services Support
ARC 3005
(916) 278-3370

ATCS utilizes an integrated service approach to provide technology-based consultation, technical assistance and creative expertise in support of the teaching/learning, research, service and outreach missions of the University. Support is provided on both an individualized and global (University) basis. ATCS technology-related services include: consultation, online learning support, curricular and other materials
development, event support, hybrid/online course development, SacCT administration, and faculty & staff training.

The Sacramento State Online Teaching & Learning Program provides expanded learning opportunities using technology-mediated instructional options. Our services allow students, both regionally and globally, to access classes when they are unable to attend classes on campus. ATCS supports academic departments and programs in the development, and facilitation of matriculated courses through synchronous and asynchronous delivery systems. These systems include: online teaching and learning systems, video conferencing, and support services. ATCS also assists faculty individually and small groups in adapting their curriculum, teaching methodologies, and pedagogy for online/hybrid course delivery.

Veterans Success Center
Lassen Hall 3003
(916) 278-6733
www.csus.edu/vets

Sacramento State's Veterans Success Center (VSC) provides multifaceted assistance to prospective and enrolled student veterans and dependents. Most notably, the center assists students in accessing their GI benefits, completing the admission application process, and registering for courses. The center also helps student's access campus resources, get involved in leadership activities, and transition into the civilian work world.

The VSC provides a lounge, where student veterans may study, socialize, network, and meet other student veterans and dependents. The VSC additionally offers many opportunities for veterans to get involved in co-curricular leadership activities - please stop by or visit the VSC Website (http://www.csus.edu/vets) for more information.

The Veterans Success Center is open Monday – Friday from 8:00 AM – 5:00 PM.

Student Organizations & Leadership
University Union, Second Floor
(916) 278-6595
www.csus.edu/soal

Active participation in recognized student organizations, leadership development programs, and community service enriches and improves student's learning experience at Sacramento State. Student Organization & Leadership (SO&L) is committed to encouraging and supporting students to become involved in campus life through a variety of co-curricular and extracurricular programs.

Getting involved on campus is a great way to meet people, learn about campus resources, make lifelong friends, and enrich the total education experience on the road to graduation. Involvement also helps to make a large university such as Sacramento State seem more personal, as well as provides students with opportunities to develop the skills needed to be successful in the workplace.

Student Organizations & Leadership advises more than 300 student-led clubs and organizations that are social, religious, political, recreational, academic, cultural, fraternal, and professional. Through participation in organizations, students learn democratic processes, respect for others, develop concern for community issues, gain appreciation for aesthetics and culture, and participate in healthy recreational activities.

Student Organizations & Leadership coordinates the Leadership Initiative (LI), a co-curricular leadership certificate program open to all students that allows students an opportunity to earn certificates that show their commitment and involvement at Sacramento State. The LI is also a great way for students to build up their resumes with activities outside the classroom. In addition, Student Organizations & Leadership organizes workshops, conferences, and events to help students develop cultural competence, communication skills, and have fun.

SO&L staff members are happy to connect interested students with any of the organizations registered on campus or help them start new clubs and organizations. Get involved today by visiting http://www.csus.edu/soal online or come to our office on the second floor of the University Union.

Associated Students, Inc.
University Union, 3rd Floor
(916) 278-6784
www.asi.csus.edu

Associated Students, Inc. (ASI), a $10 million nonprofit corporation that serves as the student government at Sacramento State. Programs created and operated by ASI benefit the entire campus community. A student Board of Directors governs ASI. Elected each spring, this Board meets regularly through the fall and spring semesters. Students are encouraged to attend Board meetings, bringing their questions and concerns. With numerous committees and work teams, ASI offers students an assortment of ways to get involved in campus life and student representation. Participation as an ASI employee or volunteer provides students valuable experience and important future career contacts. ASI services to Sacramento State students range from free legal services to discount movie tickets. Programs include a variety of business and student services, a Children's Center, the Sacramento State Aquatic Center, ASI Peak Adventures, KSSU Radio, ASI Food Pantry, and Safe Rides. ASI also maintains the Hot Spot, which coordinates ASI campus life engagement and outreach. Located on the main floor of the University Union, the Hot Spot is a great place to learn about ASI. Through various grants and scholarships, ASI contributes financial support to student clubs and organizations, other University programs, and individual students. To get involved in ASI activities, stop by the main office, call (916) 278-6784, or visit www.asi.csus.edu.

Student Literary Journal
Calaveras Hall 117
(916) 278-6492
www.csus.edu/org/litjrnl

An annual student run publication, Calaveras Station Literary Journal solicits submissions of student writing in the fall semester, accepting approximately 10 percent for inclusion in its spring issue. Perfect bound and professionally designed, this journal offers its readers poetry, short fiction, essays, and literary criticism from a campus-wide selection of authors. Its website provides a glimpse into the current edition as well as past issues, with lists of student editors and submission details. English Department professors serve as faculty advisors.

The State Hornet Newspaper
State Hornet Newsroom, Del Norte Hall
Women's Resource Center, CARES Office, ASI Student Engagement and Organizations and Leadership, Union Event Services, PRIDE Center, The Union houses many offices and programs, including Student room for a variety of meetings, conferences and special events. 180 seat Hinde Auditorium and up to 25 breakout rooms, there is ample

whether you need a small conference room for 15, a banquet space for 800, or something in-between, the University Union can accommodate you. With the 14,000+ square foot multi-purpose University Ballroom, the 180 seat Hinde Auditorium and up to 25 breakout rooms, there is ample room for a variety of meetings, conferences and special events.

The Union houses many offices and programs, including Student Organizations and Leadership, Union Event Services, PRIDE Center, Women's Resource Center, CARES Office, ASI Student Engagement and Outreach, ASI Food Pantry, ASI Government, ASI Business & Student Shop, KSSU Radio, ASI Peak Adventures bike shop, Dean of Students Office, Epicure Catering, The Lab print shop, UNIQUE Programs and the Police Service Center.

An award-winning campus newspaper that began more than 65 years ago, The State Hornet has evolved from a four-page mimeographed publication into a weekly tabloid on Thursdays and daily publication online during the fall and spring semesters.

Students working on The State Hornet garner experience in reporting, editing, graphic design, photography, advertising, Web design, marketing, and management. As a working laboratory, The Hornet provides students with academic credits as well as opportunities for academic scholarships.

Buoyed by the paper’s strong alumni support, recent graduates have gone on to positions with the Associated Press, the Los Angeles Times, Newsday, The Sacramento Bee, Sactown magazine, and many other print and digital news publications. The State Hornet boasts a state-of-the-art newsroom stocked with Macintosh computers and Canon cameras. Numerous awards over the years include the General Excellence Award from the California Newspaper Publishers Association, and Best in Show and the Online Pacemaker from Associated Collegiate Press.

University Union
(916) 278-6997
theuniversityunion.com (https://theuniversityunion.com/)

Campus life happens here! The University Union is a welcoming environment and central gathering place where students, faculty, staff, and alumni participate in campus life and events. The building features a host of support services and facilities to meet the ever-changing needs of the Sacramento State community.

Services
The Union houses the Hornet’s Nest Food Court, which features Buzz Burger Bar, Gordito Burrito, Panda Express, Good Eats, and The Roost. The Union is also home to Starbucks, Round Table Pizza, Jamba Juice, and Ace Sushi. In addition, Epicure restaurant offers full service dining with indoor and outdoor seating.

The Union has amenities such as an information desk, games room, meditation room and foot wash station, art gallery, computers and printers, various open lounge spaces and dining seating, mother’s rooms, a convenience store, laptop rentals, multi-device charging lockers, all gender restrooms, baby changing stations, ATMs, and OneCard station for students.

Facilities
Whether you need a small conference room for 15, a banquet space for 800, or something in-between, the University Union can accommodate you. With the 14,000+ square foot multi-purpose University Ballroom, the 180 seat Hinde Auditorium and up to 25 breakout rooms, there is ample room for a variety of meetings, conferences and special events.

The Union houses many offices and programs, including Student Organizations and Leadership, Union Event Services, PRIDE Center, Women’s Resource Center, CARES Office, ASI Student Engagement and Outreach, ASI Food Pantry, ASI Government, ASI Business & Student Shop, KSSU Radio, ASI Peak Adventures bike shop, Dean of Students Office, Epicure Catering, The Lab print shop, UNIQUE Programs and the Police Service Center.

UNIQUE Programs
University Union, Third Floor
(916) 278-3928
uniqueprograms@sacstateunique.com
www.sacstateunique.com (http://www.sacstateunique.com/)

University Union UNIQUE Programs is a student volunteer program that brings a wide variety of cultural, educational, and entertainment programs to Sac State. These activities include a Cultural Affairs Series, performing arts, lectures, and a weekly Wednesday "Nooner" event series, as well as an array of special films, concerts, and comedy showcases, typically on Thursdays.

Students interested in participating in the planning, promotion and production of innovative, quality campus programs should contact UNIQUE to learn more.

Aquatic Center
Lake Natoma
(916) 278-2842, (916) 278-1105
www.sacstateaquaticcenter.com (http://www.sacstateaquaticcenter.com)

The Sacramento State Aquatic Center is Northern California’s most comprehensive aquatic boating safety center and is celebrating 39 years of service to the students, faculty, staff, and alumni of Sacramento State and the Sacramento community. Located on beautiful Lake Natoma, (only 20 minutes from campus) the center provides high quality boating instruction and safety programs through education, recreation, and competition.

Established in 1981, the Center is a program of Associated Students, Inc. and also supported by the University Union of California State University, Sacramento. The program has successful partnerships with: California Department of Parks and Recreation, the U.S. Bureau of Reclamation and the California Division of Boating and Waterways.

The Aquatic Center’s programs include classes for academic credit; leisure classes open to the community in: sailing, windsurfing, rowing, kayaking, stand-up paddling, canoeing, outrigger canoe, water ski, wakeboard, and "jet ski". The Sacramento State Aquatic Center is also the home of the Sacramento State Rowing Club and Women’s Rowing Team and Sacramento State Wakeboard and Water Ski Clubs. The Aquatic Center prides itself on hiring Sacramento State Students.

The Center is open to the general public as well as to Sacramento State students, faculty, staff, and alumni, who can receive a discount on boat rentals and leisure classes by showing their OneCard or Sac State Alumni Affiliation card.

Located next to Nimbus Dam at Highway 50 and Hazel Avenue, the Aquatic Center offers, Beach Reservations, Facility Reservations, Team Building Activities, Private Lessons, Summer Youth Camps and Youth Groups; additionally, there is an abundance of aquatic equipment available to rent: canoes, kayaks, stand up paddle boards, hydro bikes, rowing shells, sailboats, and windsurfing boards.

The Aquatic Center has hosted the NCAA Women’s National Championships, Intercollegiate Rowing Association Championships, US Rowing Youth National Championships, Pac 12 Conference
Championships, West Coast Conference Championships, American Athletic Association Championships, Western Intercollegiate Rowing Association Championships and US Rowing Southwest District Rowing Championships. Hosting annual regional and national rowing regattas, water ski tournaments, and special events attracting local, national, and international athletes, the Aquatic Center is a benchmark aquatic and boating safety facility that brings national and international visitors to Sacramento State and Lake Natoma.

**Intercollegiate Athletics**

Intercollegiate Athletics
Athletics Center
(916) 278-6481
www.hornetsports.com (http://www.hornetsports.com/)

Sacramento State is committed to providing equal opportunities to male and female students in intercollegiate athletics. Nearly 500 student-athletes participate in the athletics program with athletic scholarships awarded to student-athletes in every sport.

The A.G. Spanos Sports Complex provides excellent facilities for football and a superior track and field facility that was selected to host the U.S. Olympic Track and Field Trials in 2000 and 2004, the NCAA Division I Outdoor Championships in 2003, 2005, 2006 and 2007, the USATF National Championships in 2014 and 2017, the Junior Olympics in 2016, and the 2018, 2019, 2023 and 2026 NCAA West Regionals.

Sacramento State was also the host institution for the 2017 NCAA Men’s Basketball Tournament first and second rounds at the Golden 1 Center, and will host again in 2023. In addition, Sacramento State has been awarded the NCAA Women’s Basketball third and fourth rounds in 2026. The department will also host the NCAA Men’s Soccer College Cup in 2024, and the Women’s Soccer College Cup in 2025.

The Nest serves as the home for women’s volleyball, men’s and women’s basketball, and women’s gymnastics. Both the baseball and softball teams had their on-campus stadiums recently renovated with the baseball field receiving permanent lights in 2016. The men’s and women’s soccer teams also compete in a renovated facility. The women’s rowing team trains and competes at the Sacramento State Aquatic Center on Lake Natoma, rated as one of the nation’s top facilities in the nation. The venue has hosted the NCAA Women’s Rowing Championships on 10 occasions over the last 25 years.

The Eli and Edythe Broad Fieldhouse, a 25,000 square-foot structure at the south end of the Spanos Sports Complex, was opened in 2008. The state-of-the-art facility houses football and track and field locker rooms, offices, and meeting rooms as well as an athletic performance center, athletic training center, and equipment room.

Student-athletes benefit from quality athletic training and strength & conditioning facilities. There are six full-time athletic trainers, consulting and treating student-athletes daily. In addition, each sport has a designated strength and conditioning coach for its student-athletes.

Sacramento State competes at the Division I level of the National Collegiate Athletic Association (NCAA) and is a member of the Big Sky Conference in football (FCS), men’s and women’s basketball, men’s and women’s cross country, men’s and women’s indoor and outdoor track, men’s and women’s tennis, men’s and women’s golf, softball, volleyball and women’s soccer. The University’s baseball team competes in the Western Athletic Conference (WAC) and the gymnastics program is a member of the Mountain Pacific Sports Federation. The men’s soccer and beach volleyball teams compete in the Big West Conference and the rowing team resides in the American Athletic Conference. Beach volleyball was added as Sacramento State’s 21st intercollegiate sport in 2013.

Sacramento State athletics has combined to win 89 conference championships during the program's Div. 1 era (1991-pres.). In addition, Hornet student-athletes have achieved at least a 3.00 overall grade point average 12 consecutive semesters. Prior to that, Hornet Athletics had never achieved a grade point average higher than a 2.99.

All registered Sacramento State students with a valid One Card are admitted free of charge to regular season on-campus home athletic events.

**ASI Peak Adventures**

The University Union, First Floor
(916) 278-6321
www.peakadventures.org (http://www.peakadventures.org/)

ASI Peak Adventures is the outdoor adventure program of Associated Students, Inc. at Sacramento State. ASI Peak Adventures provides outdoor trips, team building, a full service bike shop, and equipment rentals. They are dedicated to providing adventure education and leadership development opportunities to the campus and the community. They have been guiding people on outdoor adventures since 1989 and have become the most unique, diverse, and affordable outdoor recreation provider in Northern California.

The Outdoor Trips Program is all about increasing participants’ outdoor confidence and helping them feel at ease while daring to adventure away from home. All trips are beginner friendly and everyone is welcome. Outdoor trip offerings include urban adventures, backpacking, day hiking, camping, mountain biking, rock climbing, snow trips, white water rafting and more! Outdoor rental gear is also available for those looking to venture out on their own!

The Challenge Center empowers individuals and teams to achieve greater results through a personalized learning experience they won’t forget! Their skilled facilitators engage participants in interactive games that build relationships, challenging problem-solving activities that strengthen teamwork, and exciting climbing opportunities to inspire personal growth. Over 8,000 participants from Sacramento area visit this on-campus ropes course per year.

The Bike Shop is conveniently located on the Sacramento State Campus and right off the American River Bike Trail. They proudly provide friendly and professional service at reasonable prices. Highly skilled bike technicians perform repairs, sell parts and accessories, teach bike maintenance classes and offer free clinics. The Bike Shop is open to the general public; however, Sacramento State students and staff receive special discounted pricing. The Bike Shop gets cyclists and their bikes rolling for commuting and recreating.

During the summer months ASI Peak Adventures offers week-long outdoor youth camps for campers ages 8-17. For the younger kids, activities include campus tours, arts and crafts, games, water activities and lots more! Older kids have the chance to experience new activities each day including the Challenge Center ropes course, outdoor rock climbing, caving, hiking and white water rafting.
The WELL
(916) 278-9355
www.thewellatsacstate.com (http://www.thewellatsacstate.com)

The WELL is a 151,000 square foot facility with over 120,000 feet of recreational space, including six volleyball courts, five basketball courts, four racquetball courts, three fitness studios, an indoor track, approximately 16,000 square feet of cardio machine and free weights, as well as the largest climbing wall in the CSU system. The WELL is also the home of Student Health & Counseling Services.

Located in The WELL, the Sacramento State Campus Recreation program provides opportunities for all students, faculty and staff to participate in intramural sports, informal recreation, fitness classes, personal training, and special events. In addition to structured activities, the WELL features open recreation hours for members who would like to shoot some hoops or run on our indoor track, as well as rock climbing for all skill levels, racquetball courts, and much more.

Students at The WELL may work toward reaching their fitness goals by utilizing the wide variety of cardio and strength equipment, participating in group fitness classes, or working with one of the WELL’s nationally-certified personal trainers. Whether students are a beginning, intermediate or advanced exerciser, the WELL has options for everyone. The diverse schedule of group fitness classes includes yoga, zumba, pilates, cycling, and strength training among many others. Cardio machines, free weights, and strength equipment are available for open use during the building operation hours. The WELL also offers various wellness workshops and fitness assessments opportunities to help you reach your wellness goals.

Students may sign up as a team or as individuals for intramural sports such as flag football, tennis, basketball, volleyball and indoor and outdoor soccer. One day tournaments include dodgeball, golf, bowling, racquetball and badminton just to name a few, and the WELL offers men’s, women’s and co-recreational divisions in most sports and encourages everyone to join the fun - regardless of previous experience or skill level.

The Women’s Resource Center (WRC)
(916) 278-7388

The Women’s Resource Center promotes gender equity through four distinct pillars: Allyship, Feminism, Leadership, and Empowerment. The WRC develops various programs and events aimed to increase the awareness and understanding of the contributions, opportunities, and barriers facing women in our society in the past and present. 2nd Floor, University Union.

The Multi-Cultural Center (MCC)
(916) 278-6101
https://www.csus.edu/student-affairs/centers-programs/multi-cultural-center/

The Multi-Cultural Center at Sacramento State supports the needs of diverse communities by providing educational programs and a welcoming space that helps students learn about themselves and others. Partnering with multiple campus and community entities to co-create diversity and social justice initiatives, the MCC is committed to responding to student needs, building bridges for fostering social awareness and cultural understanding, and taking action on important issues and concerns of our communities. University Library Room 1010.

The PRIDE Center
(916) 278-8720

The PRIDE Center is committed to enriching the campus experience and developing students as individuals and as members of communities. We exist to create and maintain a campus environment that is open, safe, and supportive of student diversity in the areas of sexual orientation and gender identity/expression. Our work is accomplished through student-centered education, outreach, advocacy and support. 1st Floor, University Union.
College Overview

The programs within the College of Arts and Letters present a diverse array of disciplines, from art and music to history and communication studies, yet they share the common mission of teaching students to elucidate the human condition and the rich variety of human expression. The College is committed to:

- enhancing students’ awareness and aesthetic sensitivity through the study of literary and/or symbolic texts and engagement with the visual and performing arts;
- using literature and the arts in order to promote understanding of cultures and historical movements; and
- fostering critical thinking and effective oral and written communication skills.

The College includes the departments of Art, Communication Studies, Design, English, History, Humanities and Religious Studies, Music, Philosophy, Theatre and Dance, and World Languages and Literatures. The College offers 30 baccalaureate degrees, 24 minors, and 15 master’s degrees, and one joint doctorate.

Students in the College of Arts and Letters develop skills in reasoning, problem solving, finding information, and communicating in both oral and written form, as well as developing an understanding of creative accomplishment in many cultures, past and present. Students also have access to a variety of opportunities to perfect their skills outside of the classroom, including service learning connections to the community; internships; producing or performing in plays, concerts, readings, and recitals; and exhibiting their art and design works on and off campus.

The College offers many courses in the University’s General Education program as well as approved single-subject pre-credential preparation programs for students interested in the teaching profession in art, English, history, and music.

Faculty members in the College are dedicated to creating a learning environment that is student-centered and that encourages inquiry into the development of concepts and the exploration of ideas. Many of the faculty are nationally known scholars and artists.

For more information about the College of Arts and Letters, please click here (http://www.csus.edu/alc/).

Program Descriptions

Art

The Department of Art has a long-standing reputation for its quality and diversity. Courses in art education, art history, and art studio promote creativity, visual literacy, and critical thinking. Graduate and undergraduate artists have the opportunity to exhibit their work in the Else and Witt Galleries. Exhibitions of work by nationally and internationally-significant artists take place in the University Library Gallery. The department offers lectures and symposia featuring presentations by renowned art educators, art historians, and artists.

Communication Studies

One of the larger departments in the University, the Department of Communication Studies offers degrees in general communication, organizational communication, public relations, media communications, digital media, journalism, and government journalism. The department provides a television studio, dedicated computer labs, an audio-editing suite, and a high-end video editing lab. The Department supports a variety of student activities including a nationally respected debate program, Public Relations Student Society of America chapter and the University’s weekly newspaper, the State Hornet. Five of the faculty have won the College Outstanding Teacher Award in the past ten years, and key faculty are leaders in the Film program.

Design

The Department of Design prepares its students for a wide range of career opportunities in the fields of Graphic Design, Interior Design, and Photography. Our graduates are trained to work creatively and to explore new possibilities in their respective media while at the same time providing the highest quality of professional services to their clients.

The Department of Design recognizes that the environments in which we live and work are shaped by an ever-increasing quantity of visual information. This information, in the form of two and three dimensional images, comes to us from a variety of sources that utilize both traditional and technologically advanced modes of visual communication. To a greater extent than at any other point in our history, artists and designers are dissolving the boundaries between two and three dimensional visualization.

The Department of Design is well positioned to respond to the multifaceted nature of today’s visual arts. By offering degree programs in Graphic Design, Interior Design, and Photography we are able to train our students in a wide range of visual and design practices that play a part in creating our built environment. Students in the Department typically take a group of core courses that introduces them to a vocabulary of shared visual concepts and techniques before moving on to advanced study in their selected field.

The Department of Design offers Bachelor of Arts in Photography and Interior Design, and a Bachelor of Science in Graphic Design. Programs in the Department are accredited by NASAD; the Interior Design Program is also accredited by CIDA, the professional organization that establishes standards for the practice of interior design.
English

The Department of English offers a wide variety of courses in composition, creative writing, film studies, language arts, literary studies, teacher preparation, and teaching English to speakers of other languages (TESOL). The faculty are dedicated to classroom excellence, and several of our faculty have received the College Outstanding Teacher Award and the Outstanding Service Award. The Department offers student assistantships, graduate teaching associationships, internships with companies like Intel, and a variety of endowed scholarships and writing contests. Many of the M.A. graduates teach in California community colleges, while others have been accepted into some of the country's top Ph.D. programs. Its undergraduate alumni work in a multitude of professional fields, including teaching, editing, journalism, law, literary agencies, and government.

History

The Department of History is a dynamic program, with over 500 undergraduate majors and graduate students. The department has a master's program with options in standard and public history and offers a Ph.D. in public history in cooperation with the University of California, Santa Barbara.

Humanities and Religious Studies

The Department of Humanities and Religious Studies offers the Bachelor of Arts with two concentration options. The Humanities concentration explores cultural eras and themes through study of literature, philosophy, the visual arts, music, drama, and film. The Religious Studies concentration focuses on beliefs and practices of the world's religions in their historical and cultural contexts. The department's Humanities M.A. program offers graduate-level studies with areas of concentration in ancient, modern, and global humanities.

Learning Skills

The Educational Opportunity Program offer courses, workshops, and individual assistance to students at all university levels. Program areas include composition, reading, study skills, mathematics, English for multilingual speakers, and special services for students with learning disabilities.

Courses numbered Learning Skills (LS) 1 through 49 are precollege level courses. These courses carry workload credit and may be counted only toward establishing full-time enrollment status. Precollege level course units are not applicable to the bachelor's degree. Course MLSK 199 carry regular bachelor's degree credits.

The following are specifically for Educational Opportunity Program students and are taught by Educational Opportunity Program faculty.

Course Repeat Policy

A student may only repeat one time the following Learning Skills Center courses (These courses may be taken a total of two times; a student enrolling in one of these a third time may be disenrolled.).

Music

The School of Music has a long and impressive history of preparing students for careers in music and for assuming a leadership role in the artistic life of Northern California. The School presents over two hundred concerts each year, including many student and faculty performances as well as outstanding guest artists programs in the Festival of New American Music, the New Millennium Series, the Piano Series, and the World Music Series. The School of Music offers a major for liberal arts students as well as professional degrees at the undergraduate and graduate level.

Philosophy

The Department of Philosophy offers four concentrations within its Bachelor of Arts in Philosophy. The General Major presents the broadest choice of electives. The concentration in Ethics, Politics, and Law is a pre-law program designed to develop analytic and argumentative abilities as well as skill in applying principles to cases, which will be needed by those preparing for a career in law. The concentration in Logic and Philosophy of Science offers preparation for graduate study in those areas. The Honors Concentration builds on one of the other concentrations. The Department maintains the Center for Practical and Professional Ethics, which provides a forum for exchange of ideas as well as a consultative resource in the community.

Theatre and Dance

The Department of Theatre and Dance actors, designers, technicians, directors, dancers, and choreographers as well as individuals with an interest in the history, theory, and criticism of theatre and dance. In addition, the Department maintains a strong commitment to multicultural performance and puppetry. A rigorous production season that involves students in every step of the creative process complements the formal curriculum.

World Languages and Literatures

The Department of World Languages and Literatures provides coursework in many languages including many traditional European languages as well as other worldwide strategic languages. The exposure to foreign language enhances cultural and linguistic understanding of peoples near and far. Department faculty teach language in a cultural context that expands the learner’s worldview and increases job marketability in the ever-changing global society.

Students taking classes that meet the University’s foreign language requirement build life-changing linguistic and cultural affinities that add value to their futures; while those who complete a degree in World Languages and Literatures also develop linguistic and cultural fluency. Additionally, all students are encouraged to participate in the various exchange opportunities overseas offered by CSUS exchange partnerships and the CSU System International Program.

The University Library Gallery features exhibitions of significant works of art by international, national and regional artists. In addition, the Gallery is a favorite campus venue for many artistic gatherings, such as poetry readings sponsored by the English Department, recitals and performances by the Music Department, and film showings associated
with the Film program. Special guided tours of current students and community groups are offered on a regular basis.

Art
College of Arts and Letters

Program Description
Through our courses, exhibitions, lectures and public programs, the Department of Art at Sacramento State introduces students and members of the local community to the expressive world of the fine arts. The Department also promotes an appreciation and understanding of the fine arts in the general student population. A wide variety of approaches based on both Western and Non-Western cultures are integrated into courses that are oriented toward creativity, imagination, and critical thinking. Students can explore art through courses in art education, art history, ceramics, new media art, painting, printmaking, and interdisciplinary sculpture.

The Department of Art serves as a significant cultural resource in the region through the sponsorship of art exhibits, workshops, lectures, and symposia each academic year. The department extends its influence out into the community through the involvement of its faculty, staff, and students in projects, activities, and events off campus. Courses, programs, and exhibitions sponsored by the Department serve to engage students in the visual arts within a liberal arts context and to promote appreciation of the fine arts in the general student population. Fieldwork experiences can be arranged with the Crocker Art Museum, Sacramento Metropolitan Arts Commission, and other public and private art institutions and galleries in the Capital region. Opportunities to study art and art history abroad are available through the Office of International Programs and Global Engagement at Sacramento State and the California State University International Program. University credit can be obtained for a semester to a year of study at college and international centers in Britain, Europe, Latin America, Asia, Africa, and Australia.

California State University, Sacramento is an accredited institutional member of the National Association of Schools of Art and Design (NASAD).

Degree Programs
The Department of Art offers a wide range of courses in Art Education (https://catalog.csus.edu/colleges/arts-letters/art/education), Art History (https://catalog.csus.edu/college/undergraduate/art/history), and Studio Art (https://catalog.csus.edu/college/undergraduate/art/studio). Studio experiences develop the creative and artistic skills necessary for mastery of established styles and for exploration of new ones. Art history classes provide an appreciation for and an understanding of our visual cultural heritage within a historical context. Courses in art education provide an understanding of the behavioral aspects of art, with regard to the creator, the viewer and the developing person.

BA in Art History (https://catalog.csus.edu/college/undergraduate/art/history)
BA in Art (Studio Arts Methods) (p. 128)
BFA in Studio Art (p. 133)
Art Education (Single Subject Pre-Credential Preparation) (p. 127)
Minor in Art Education (p. 138)
Minor in Art History (p. 138)
Minor in Art Studio (p. 138)
MA in Art (p. 135)

Special Features
- The Department's main facility consists of two buildings, Kadema Hall and the Art Sculpture Lab. Some Art Studio and Art History courses also are taught in Mariposa Hall.
- Two art exhibition spaces, the Robert Else Gallery and the R.W. & Joyce Witt Student Art Gallery, are located in Kadema Hall. Graduate, undergraduate, and shows featuring regionally and nationally known artists are held here throughout the academic year.
- Four types of Art Department awards are available. The Raymond W. and Joyce Witt Awards and the Peyer Prize in Painting are awarded annually during a juried exhibition of artwork by undergraduate students. There also is a Witt Award in Art History. The Robinson Memorial Fellowships are open to all classified graduate art students.
- Five Art Department scholarships also are offered. The Peggy Saunders Hall Memorial Scholarship, the Juanita and José Montoya Memorial Art Scholarship and the Marla Chicconi Memorial Endowed Art Scholarship are all intended to support outstanding undergraduate art students who have chosen teaching as a future goal. The Ruth Rippon Ceramics Scholarship is awarded to an outstanding undergraduate or graduate Art student who shows promise in making ceramic art a career. The Jeanette B. Yuppa Scholarship is available to all art majors.
- Faculty members have national reputations as artists and scholars. Works by Art Studio faculty can be found in major collections, including the Museum of Modern Art, the Whitney Museum of American Art, and the American Craft Museum in New York; the Minneapolis Art Institute; the San Francisco Museum of Modern Art; the Di Rosa Art and Nature Preserve in Sonoma; the Art Institute of Chicago; Yale University; the Rockefeller Institute; and the Museum of Modern Art in Tokyo. Publications by Art Education and Art History faculty are available through the University Library.

Career Possibilities
Art Conservator · Art Consultant · Art Critic · Art Dealer · Art Historian · Art Librarian · Artist · Artist Representative · Art Teacher · Arts Administrator · Art Therapist · Ceramist · Gallery Director · Jewelry Designer · Metalsmith · Museum Work · New Media Artist · Painter · Printmaker · Sculptor · Visual Resource Curator

Contact Information
Carolyn Gibbs, Department Chair
ART 1C. Global Modern and Contemporary Art.  3 Units  
General Education Area/Graduation Requirement: Arts (Area C1)  
Term Typically Offered: Fall, Spring  
A 3-unit lecture based survey of the history of world art from the late 18th century to the present, from the European Rococo, Enlightenment, age of science and revolution, through Neo-Classicism, Romanticism and the rise of the international avant-garde, Realism, Impression, Symbolism, photography and film. In the 20th century, Fauvism, Cubism, the Bauhaus, Expressionism, Pop, Minimal art, Postmodernism, conceptualism, performance, video and new media are considered from global perspectives and artistic production. Part of the art history foundation sequence.  
Note: Recommended for freshman or sophomore years; It is also recommended that ART 1A and/or ART 1B be taken before ART 1C.

ART 2. History of Islamic Art.  3 Units  
General Education Area/Graduation Requirement: Arts (Area C1)  
Term Typically Offered: Fall only  
Introduces students to the art and architecture of major Islamic cultures and offers a background in the religion and philosophy of Islam. Works of art from Muslim countries and regions are studied in comparison to those of other major Asian and European cultures. Lecture. 3 units

ART 3A. Traditional Asian Art.  3 Units  
General Education Area/Graduation Requirement: Arts (Area C1)  
Term Typically Offered: Fall only  
Introduces students to the art and architecture of Asia from the pre-historic through pre-modern periods (approximately 1600). The styles, subjects, and significance of the art of India, Sri Lanka, Indonesia, Thailand, Burma, Cambodia, Tibet, China, Japan and Korea will be presented in a broad context including the history, geography, ethnic populations, languages, and religions of these countries (i.e., Buddhism, Hinduism, Jainism, Islam, Daoism, and Shinto).

ART 3B. Modern and Contemporary Asian Art.  3 Units  
General Education Area/Graduation Requirement: Arts (Area C1)  
Term Typically Offered: Spring only  
Covers the art and architecture of Asia from the modern period to the present day. Attention will be given to the impact of outside influences upon the development of art in several Asian countries, including India, Thailand, Vietnam, Indonesia, Philippines, China, Korea, and Japan. Contacts between those countries, their exposure to western visual culture through new or increased contact with the west, and the spread of Christianity all had an impact on Asian art during the period under consideration.

ART 4. European Visual Traditions.  3 Units  
Term Typically Offered: Fall only  
An introduction to European art and visual culture created from ca. 800 to 1800, from the age of Charlemagne to the French Revolution and the reign of Napoleon. This course will cover painting, architecture, sculpture, and the decorative arts and will analyze creative work in the context of religious, political, and social change.
ART 5.  Art of the Americas.  3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Spring only

An introduction to art and visual culture from across the Americas, from ancient civilizations to the present, with an emphasis on indigenous cultural production. Students will analyze and compare creative work from a variety of cultures and time periods, exploring themes such as "Expressing Identities," "Humans in the Natural World," "Death, the Afterlife, and Living on," and "Colonization and Resistance."

ART 7.  Introduction to Art and Visual Culture.  3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

For the general education student who wants to explore the world of art and visual culture. A wide range of multicultural, historical, and contemporary art works, art media, art history, art ideas, and art practices are presented through illustrated lectures, discussions, field trips, guest lectures, studio visits, and beginning-level art projects. Field trip(s) may be required.

ART 20A.  Beginning Drawing.  3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring, Summer

Introduction to various techniques of and approaches to drawing, using still lifes, landscapes, and figures.  
Note: fee course.

ART 20B.  Intermediate Drawing.  3 Units
Prerequisite(s): ART 20A or equivalent.  
Term Typically Offered: Fall, Spring

Extension of drawing experiences initiated in ART 20A, with emphasis on surveying materials and concepts pertinent to contemporary and historical drawing.  
Note: fee course.

ART 22.  Beginning Painting.  3 Units
Prerequisite(s): ART 20A or equivalent.  
Term Typically Offered: Fall, Spring

Introduction to the methods and problems of painting in oil or acrylic medium.  
Note: May be taken twice for credit. Fee course.

ART 24.  Beginning Watercolor.  3 Units
Prerequisite(s): ART 20A or equivalent.  
Term Typically Offered: Not offered

Introduction to both transparent and opaque watercolor.  
Note: May be taken twice for credit. Fee course.

ART 27.  Beginning Color.  3 Units
Term Typically Offered: Fall, Spring

Investigation of the interactions of color based on the laws of perception, color composition, space, and design. An empirical study of the phenomena of color as developed by Josef Albers and Johannes Itten, and the use of color as a visual experience with acrylic paints.

ART 40.  Beginning Printmaking.  3 Units
Prerequisite(s): ART 20A or ART 60
Term Typically Offered: Fall, Spring

Introduction to printmaking processes, their history, and their contemporary applications. Students will learn a combination of basic relief, intaglio, lithography, monotype, and/or screen print techniques, along with their historical and contemporary context.  
Note: Fee course. This course will carry a fee of $75 to cover ink, plates, and other supplies.

ART 40B.  Basic Printmaking: Etching.  3 Units
Term Typically Offered: Fall, Spring

Introduction to intaglio techniques, including etching, drypoint, and aquatint. Fee course.

ART 40D.  Basic Printmaking: Relief.  3 Units
Term Typically Offered: Fall, Spring

Introduction to wood and linoleum cutting and printing. Fee course.

ART 40E.  Basic Printmaking: Silkscreen.  3 Units
Term Typically Offered: Fall, Spring

Introduction to silkscreen processes and printing. Includes the construction of the equipment necessary to print direct drawing materials, and photo-established imagery. Fee course.

ART 50.  Beginning Ceramics.  3 Units
Term Typically Offered: Fall, Spring

Projects in basic techniques and approaches to the potter’s wheel. Fee course.  
Note: May be taken twice for credit.

ART 53.  Beginning Hand-Built Ceramics.  3 Units
Term Typically Offered: Fall, Spring

Basic techniques and approaches to pottery through practice in hand-building methods, including coil, slab, pinch, and combinations thereof. Fee course.  
Note: May be taken twice for credit.

ART 60.  Two-Dimensional Composition.  3 Units
Term Typically Offered: Fall, Spring

Structured exploration of principles used to organize two-dimensional images. Basic art elements and their properties are explored in a series of progressive projects.  
Note: Recommended for freshman or sophomore years.
ART 70. Foundation in three-dimensional design primarily concerned with the visual dialogue between form and space. A heightened visual sensitivity for three-dimensional composition is a major objective of every project. Line, plane, and volume are utilized separately and in concert to construct three-dimensional forms. A variety of materials are employed in the activation of form and space: wire, cardboard, clay, wood, and plaster. Fee course.

Fee course.

Note: Recommended for freshman or sophomore years.

ART 74. Introduction to techniques and tools used in the design and fabrication of jewelry, such as lost wax casting, stone setting, and finishing processes. Emphasis is on compositional arrangement and finish. Fee course.

Fee course.

ART 75. Foundation in three-dimensional design primarily concerned with the visual dialogue between form and space. A heightened visual sensitivity for three-dimensional composition is a major objective of every project. Line, plane, and volume are utilized separately and in concert to construct three-dimensional forms. A variety of materials are employed in the activation of form and space: wire, cardboard, clay, wood, and plaster. Fee course.

Note: Recommended for freshman or sophomore years.

ART 76. Develops students' awareness of traditional and contemporary techniques used as the basis for fine and applied art. Devoted to materials and their methods of application, with most materials introduced via their traditional antecedents (for example, hide glue before modern epoxies). May be team taught. Lecture one hour; laboratory four hours. Fee course.

Fee course.

ART 80. Introduction to techniques, tools, and methods used in fabrication of ferrous and non-ferrous metal, such as piercing, riveting, soldering, forging, and finishing processes. Emphasis is on composition and imagery. Fee course.

Fee course.

ART 86. Includes work with the various forms of hand-built sculpture in both low- and high-fire clay. Glazes are used sparingly to stress forms and their relationships. Fee course.

Fee course.

ART 88. Introduction to traditional and non-traditional processes of sculpture and three-dimensional forms in space. Students can expect to use the following materials: cardboard, clay, metals, plaster, plastics, wire and wood to explore the making of three-dimensional imagery. Investigations will include the formulation of ideas relative to sculptural problem solving while discovering historical and contemporary examples of sculpture. Fee course.

Fee course.

ART 97. Explores the creative potential of imaging software used by visual artists. Familiarity with software, hardware and output devices will be established. The creation of digital art will be considered within the framework of current ideas in art and culture. No previous computer experience is necessary. Fee course.

Fee course.

ART 100. Survey of 19th and 20th century American Indian art. Emphasis is on the student's involvement with Indian art and includes discussion of Indian philosophy and art techniques.

ART 101. Introduces students to the history of photography, from inception to Mid-20th Century. Practices of photographers and artists, working with photographic technologies, will be discussed. The course examines photographic vision and the impact of the medium through lectures and readings by art historians and photographers. Cross-listed: PHOT 101.

ART 102. A thematic exploration of world art and visual culture throughout human history. Throughout this course, students will be able to draw connections between works of art created in various time periods and from a diverse variety of cultural contexts.

ART 103. Art of the Ancient Mediterranean.

ART 104. Architecture, crafts, and sculpture in the ancient Mediterranean world from ca. 700 BCE to ca. 500 CE.

ART 105. Architecture, crafts, painting, and sculpture of medieval Western Europe.

ART 106. Architecture, painting, graphic arts, sculpture, and crafts principally of the 15th and 16th centuries. Emphasis is on the art of Europe in the historical context of an emerging global consciousness.

ART 107. European architecture, painting, and sculpture of the 17th and 18th centuries.
ART 108. 19th Century Art. 3 Units
Prerequisite(s): ART 1C or equivalent.
Term Typically Offered: Fall, Spring
European architecture, painting, and sculpture of the 19th century.

ART 109. Modern Art. 3 Units
Prerequisite(s): Upper-division standing and ART 1C or equivalent with instructor approval.
Term Typically Offered: Fall only
Presented as the cultural episode that began with the emergence of the avant-garde in mid-nineteenth century Paris and ended in the middle of the twentieth century with WW II and the beginning of the postmodern era: from Realism, the birth of photography, and Impressionism through the high modernist movements associated with the international School of Paris, including Fauvism, Cubism, Constructivism, Dada, and Surrealism. It concludes with post-WW II expressions, including Abstract Expressionism.

ART 110. US and Caribbean Art: Race and Representation. 3 Units
Prerequisite(s): Any lower-division GE course in art history (ART 1A, 1B, 1C, 2, 3A, 3B, 4, 5, or 7).
General Education Area/Graduation Requirement: Arts (Area C1), Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Spring only
Provides an overview of U.S. and Caribbean art from the colonial period to the present, with an emphasis on the role of race in constructing individual, community, and national visual identities. Considers artworks by African-American, Asian-American, Indigenous, Latinx, and White artists, underscoring the dynamic interactions between race, class, gender, and sexuality in the visual arts. Field trip. Field trip(s) may be required.

ART 111. Latin American and Latino Art History. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Arts (Area C1), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall only
Provides an overview of Latin American and Latino art from the independence movements of the 1820s to the present. After an introductory survey of pre-Columbian and Spanish colonial art, the art of Mexico, Central and South America, the Caribbean and the U.S. is studied within the contexts of contemporaneous cultural, intellectual, political and social history. The diverse visual cultures of Latin American and Latino art are thematically unified by an examination of common concerns and motivations.

ART 112. Contemporary Art. 3 Units
Prerequisite(s): ART 1C or ART 109 or instructor permission.
Term Typically Offered: Spring only
Beginning with international Pop art and Minimalism in the 1960s, surveys the history of contemporary art from the end of avant-garde modernism to the postmodernism and globalism of today. Lectures, discussions, readings and assignments offer insights into the contexts, attitudes, and ideas behind current art and visual culture.
Note: Taught in conjunction with ART 212.

ART 113B. Asian Art and Mythology. 3 Units
Prerequisite(s): ART 3A or equivalent or instructor permission.
Term Typically Offered: Spring only – odd years
Survey and investigation of selected myths from Asian cultures and traditions.

ART 114. Topics in Early Modern Art. 3 Units
Prerequisite(s): ART 1A or ART 1B; an upper division art history course in a related subject area; upper division or post-baccalaureate status; and GWAR certification before Fall 2009; or WPJ score of 80 or above; or 3-unit placement in ENGL 109M/W; or 4-unit placement in ENGL 109M/W + co-enrollment in ENGL 109X; or WPJ score 70/71 + co-enrollment in ENGL 109X.
Term Typically Offered: Fall only – even years
Seminor on topics in early modern art history.
Note: Course may be taken twice for credit, if the topic is not the same.

ART 115. Topics in Asian Art. 3 Units
Prerequisite(s): Upper division or graduate status; completion of ART 3A (or equivalent); and an upper division Asian art history course such as ART 117A, ART 117B, ART 113B, or or instructor permission; GWAR certification before Fall 09, WPJ score of 70+, or at least a "C-" in ENGL 109M/W.
Term Typically Offered: Fall only
Seminor on topics in Asian art.

ART 116. Topics in Modern and Contemporary Art. 3 Units
Prerequisite(s): Upper division or graduate status; completion of ART 1C (or equivalent); and an upper division art history course in a related subject area (or instructor permission); GWAR certification before Fall 09, WPJ score of 70+, or at least a "C-" in ENGL 109 M/W.
Term Typically Offered: Fall only
Seminor on topics in modern and contemporary art history.

ART 117A. Art of India and Southeast Asia. 3 Units
Prerequisite(s): ART 3A or equivalent, or instructor permission.
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall only
Provides a broad overview of the architectural remains and visual arts of India and Southeast Asia from prehistory to the present. Consideration will be given to the art styles, iconography, history, geography, ethnic populations, languages, and religions (i.e., Buddhism, Hinduism, Jainism, and Islam) of each region.

ART 117B. Art of China and Japan. 3 Units
Prerequisite(s): ART 3A or equivalent, or instructor permission.
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Spring only
Provides a broad overview of the architectural remains and visual arts of China and Japan from prehistory to the present. Consideration will be given to the art styles, iconography, history, geography, ethnic populations, languages, and religions (i.e., Buddhism, Taoism, and Shintoism) of each region.
ART 117C. Art of Korea. 3 Units
Term Typically Offered: Spring only – even years
Introduces students to the art and architecture of Korea from the pre-historic through contemporary periods. The styles, subjects, and significance of the art of Korea will be presented in a broad context including the history, geography, ethnic populations, languages, and religions of Korea (i.e., Buddhism, Daoism, Confucianism, and Christianity).

ART 118A. Modern Architecture. 3 Units
Prerequisite(s): ART 1C (or equivalent), or instructor permission.
Term Typically Offered: Not offered
A survey of modern architecture which covers the architectural theories and principles underlying certain significant structures. Special consideration is given to an analysis of the works of 20th century pioneers and their followers, such as Wright, Gropius, Le Corbusier, Van der Rohe, Aalto, and Johnson, among others, and to certain movements, such as the International Style, Brutalism, and Formalism.

ART 118B. California Architecture and Urban History. 3 Units
Term Typically Offered: Fall, Spring
Survey of the history of California architecture and its impact on the urban environment from Native Americans to the 20th century. Particular attention will be given to architecture as a symbol or statement of social, economic, and political empowerment. Cross listed as HIST 184; only one may be counted for credit.

ART 118C. Public Art in the Americas. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall only – odd years
Explores the major issues in the history of public art in the Americas, including monuments, memorials, murals, graffiti, and new media art. Particular attention will be given to public art in Sacramento. Field Trip. Field trip(s) may be required.

ART 119. Directed Research in Art History. 3 Units
Prerequisite(s): Instructor permission and Department chair via signed petition form.
Term Typically Offered: Fall, Spring
Open to upper division art majors or minors only who have completed 9 units in a specialized area.
Note: May be repeated as often as approved by advisor and Department chair.

ART 120. Advanced Drawing. 3 Units
Prerequisite(s): ART 20B or equivalent.
Term Typically Offered: Fall, Spring
Continuing investigation of drawing. Emphasis is on the development of individual style.
Note: May be taken twice for credit.

ART 121. BFA Junior Studio. 3 Units
Term Typically Offered: Fall, Spring
Junior-level studio art course designed to prepare students for the senior year of the BFA degree. Course builds dialog among an interdisciplinary cohort of BFA students while engaging them with contemporary professional practices in the arts. Emphasis placed on students’ ability to communicate about their work through critiques with faculty, peers, and visiting artists, preparation of professional documents and presentations. Fee course. Pre-requisite: Completion of a minimum of 3 units upper division studio coursework, second semester Junior standing with 75 units minimum. Fee course.

ART 122A. Intermediate Painting. 3 Units
Prerequisite(s): ART 22 or equivalent.
Term Typically Offered: Fall, Spring
Continuing investigation of the technical and conceptual issues of painting.
Note: May be taken twice for credit.

ART 122B. Advanced Painting. 3 Units
Prerequisite(s): ART 122A, or ART 124A, or ART 125A, or ART 126, or instructor permission.
Term Typically Offered: Fall, Spring
Continuing investigation of the technical and conceptual issues of painting, with an emphasis on intensive individual exploration.
Note: May be repeated four times for credit.

ART 123. Figure Drawing. 3 Units
Prerequisite(s): ART 20A or equivalent.
Term Typically Offered: Fall, Spring
Concentrates on the development of drawing and visual skills with emphasis on the human figure. Strong emphasis is placed on anatomical knowledge of the body and its expression through drawing techniques. The effects of volume and movement in space as well as compositional possibilities with the figure are explored. Slides are used to inform students of the drawing techniques achieved in historic and contemporary images. Fee course.
Note: May be taken for credit three times.

ART 124A. Intermediate Watercolor. 3 Units
Prerequisite(s): ART 24 or equivalent.
Term Typically Offered: Spring only – odd years
Continuing investigation of the technical and conceptual issues of painting, using transparent water media.
Note: May be taken twice for credit.

ART 124B. Advanced Watercolor. 3 Units
Prerequisite(s): ART 124A or equivalent.
Term Typically Offered: Fall, Spring
Continuing investigation of the techniques and conceptual issues of painting using transparent water media, with emphasis on intensive individual exploration.
Note: May be taken four times for credit.
ART 125A. Life Painting.
Prerequisite(s): ART 20A or equivalent.
Term Typically Offered: Fall only

Painting from professional models.
Note: May be taken for credit twice. Fee course.

Fee course.

ART 125B. Life Studio.
Prerequisite(s): ART 20A or equivalent.
Term Typically Offered: Fall, Spring

Drawing and painting from professional models. Fee course.
Note: May be taken twice for credit.

Fee course.

ART 126. Painting and Drawing in the Field.
Prerequisite(s): ART 22 or ART 24, or equivalent.
Term Typically Offered: Fall, Spring

Further development of painting and drawing skills with emphasis on direct observation and use of color to make form. Class will meet at specific landscape sites to work, with primary focus on painting. In addition, work will be developed in the classroom based on prior field study. Critiques will examine how one situation is variously interpreted.

ART 127. Collage and Assemblage.
Prerequisite(s): ART 20A, ART 22 and either ART 70 or ART 88 (or equivalent), or instructor permission.
Term Typically Offered: Spring only

Use of found and readily available materials to make 2-dimensional collage and 3-dimensional assemblage. Most projects are conceptual, a few purely visual, and take from one to three class periods, including critique, and class discussions.
Note: May be taken twice for credit. Fee Course

Fee course.

ART 128. Art and the Artist in the Marketplace.
Term Typically Offered: Spring only

Study of the thought processes and preparations for presenting one's artwork in the marketplace. An overview of what it takes to begin showing and selling artworks, including the skills and procedures of presenting artwork to galleries. A study of contracts, loan agreements, invoicing, commissions, model releases, taxes, pricing of work, resumes, slide preparation/presentation, publicity skills, and record keeping. Lecture, field trips to galleries and museums. Field trip(s) may be required.

ART 129. Painting/Drawing Studio.
Prerequisite(s): Instructor permission and Department chair via signed petition form.
Term Typically Offered: Fall, Spring

Open to upper division art majors or minors only who have completed 9 units in a specialized area.
Note: May be repeated as often as approved by advisor and Department chair.

ART 130. Theories in Art Education.
Prerequisite(s): Upper division or graduate status; declared major in Art.
Term Typically Offered: Spring only

Overview of national and international theories in the fields of visual art and education through historical and contemporary literature with particular attention to strategies for engaging student populations in the topics.

ART 133. Art Education for Children.
Prerequisite(s): Upper division status; declared major or minor in Art, or a declared major in Child Development, or Liberal Studies, or Blended Liberal Studies
Term Typically Offered: Fall, Spring, Summer

Intended for students who are preparing to become elementary school teachers in California, providing meaningful, thematic instruction suitable for grades 1-6. Students will explore several 21st century education approaches applicable to both elementary generalists and visual art specialists, including meaning making, visual culture, holistic integration, learner-directed, and standards-based. Students will explore and evaluate the Common Core State Standards and the California Visual and Performing Arts Standards.
Note: Fee course.

Fee course.

ART 134. Interdisciplinary Art.
Prerequisite(s): ART 20A and upper division status.
Term Typically Offered: Fall, Spring

Students learn how to make connections and relationships between visual art and curriculum subjects such as ecology, history, anthropology, language arts, theatre and music. Through studio activities and interdisciplinary themes, students will learn how to integrate the California Visual Art Content Standards.

ART 135. Overview of Secondary Art Education.
Prerequisite(s): ART 133 or instructor permission.
Term Typically Offered: Fall, Spring

Students learn how to make connections and relationships between visual art and curriculum subjects such as ecology, history, anthropology, language arts, theatre and music. Through studio activities and interdisciplinary themes, students will learn how to integrate the California Visual and Performing Art Content Standards.

ART 136. Art for Exceptional Children.
Prerequisite(s): Upper division or graduate status; declared major in Art, or a declared major in Child Development, or Liberal Studies, or Blended Liberal Studies
Term Typically Offered: Fall, Spring, Summer

Intended for students who are preparing to become elementary school teachers in California, providing meaningful, thematic instruction suitable for grades 1-6. Students will explore several 21st century education approaches applicable to both elementary generalists and visual art specialists, including meaning making, visual culture, holistic integration, learner-directed, and standards-based. Students will explore and evaluate the Common Core State Standards and the California Visual and Performing Arts Standards.
Note: Fee course.

Fee course.
ART 139.  Directed Research in Art Education.  3 Units
Prerequisite(s): Instructor permission and Department chair via signed petition form.
Term Typically Offered: Fall, Spring

Open only to upper division art majors/minors who have successfully completed 9 units in a specialized area.
Note: May be repeated as often as approved by advisor and Department chair.

ART 140.  Intermediate Printmaking.  3 Units
Prerequisite(s): ART 40
Term Typically Offered: Fall, Spring

Intermediate-level study of printmaking processes, their history, and their contemporary applications. This course focuses on a single set of printmaking media each semester: Intaglio, Relief/Monotype, Lithography, or Screen Printing. Students will engage with the relationship between research, content, and process to develop a body of work through assigned and self-designed projects.
Note: Fee course. This course will carry a fee of $75 to cover ink, plates, and other supplies. This course may be repeated for up to 6 units of credit.

ART 141.  Advanced Silkscreen.  3 Units
Prerequisite(s): ART 40E or equivalent.
Term Typically Offered: Fall, Spring

Advanced work in silkscreen including photo-silkscreen. Emphasis is on exploration of color and imagery.
Note: May be taken for credit four times.

ART 142.  3D Computer Modeling.  3 Units
Prerequisite(s): CSC 10 or ART 97 or equivalent.
Term Typically Offered: Fall, Spring

Techniques and processes to create 3D computer models and environments. Exercises, assignments and projects designed to build skill levels with 3D computer modeling tools. Demonstrations and workshops in the use of 3D computer modeling software. Critiques, discussion and presentations to develop students' conceptual grasp of 3D computer modeling and virtual reality environments. Example applications in art/ new media and computer gaming.
Note: May be taken twice for credit. Cross-listed as CSC 126.

ART 143.  3D Computer Animation.  3 Units
Prerequisite(s): ART 142 or CSC 126.
Term Typically Offered: Fall, Spring

Creative skills and techniques for animating 3D computer-modeled objects/environments. Topics include animation techniques; keyframing and interpolation; deformation and morphing; path control; skeletal animation; model rigging and skinning; forward and inverse kinematics, constraints and IK solvers; particle systems; fluid, cloth, hair, and fur simulation; shape keys; and soft body animation. Emphasis on both skill development and creative application of modeling and animation techniques. Includes demos, in class and homework exercises, and self directed projects.
Cross-listed: CSC 127.

ART 144.  Digital Printmaking.  3 Units
Prerequisite(s): ART 97 or equivalent.
Term Typically Offered: Fall, Spring

Through traditional and digital print media, the course explores the convergence of digital imaging (vector and raster processes) and printmaking techniques (such as monoprint, lithography, etching and silkscreen). Vector graphics use geometry: points, lines and fills, creating crisp re-scaleable images. Raster graphics use a rectangular grid of pixels to create continuous-tone effects. By exploring these approaches and their transference to printmaking processes, students gain deeper understanding of print technology and a more tactile awareness of image making. Fee course.
Note: May be taken twice for credit.

ART 145.  Advanced Printmaking Studio.  3 Units
Term Typically Offered: Fall, Spring

Advanced exploration of printmaking media (etching, lithography, relief, and monoprinting techniques) within a historical framework. Students investigate the printmaking techniques of historically significant figures and apply them to their own imagery.
Note: Open to students with experience in upper division painting or photography, or lower division printmaking. May be taken twice for credit.
Fee course.

ART 146.  Creative Coding.  3 Units
Prerequisite(s): ART 97 Fee course
Term Typically Offered: Fall only

Introduces techniques and artistic perspectives on interactivity and computationally-generated visual composition for New Media Artists. Nonlinear, dynamic, and generative approaches to composition, animation, video, and data processing are covered.
Note: This course is recommended for students planning to take ART 143 and ART 198.

ART 147.  Video Art.  3 Units
Prerequisite(s): ART 97 or COMS 27A/FILM 27A and COMS 27B/FILM 27B.
Term Typically Offered: Fall, Spring

The creation and analysis of video artwork; including techniques of video production, post-production manipulation and critique, within the context of art and communication. The techniques and theory of producing and editing video will serve as a foundation for the pursuit of individual, creative projects.
Cross-listed as COMS 157; only one may be counted for credit.

ART 148.  Barrio Art for Ethnic Groups.  3 Units
Term Typically Offered: Fall, Spring

Provides a cultural situation for students who expect to work with the Mexican American community. Involves personal contact with persons in that community. Uses poetry, music, slides, and film to understand art as a non-verbal language.
Note: May be taken twice for credit.
ART 149. Graphics/Printmaking Studio. 3 Units
Prerequisite(s): Instructor permission and Department chair via signed petition.
Term Typically Offered: Fall, Spring
Open only to upper division art majors/minors who have completed 9 units in a specialized area.
Note: May be repeated as often as approved by advisor and Department chair.

ART 150. Advanced Ceramics. 3 Units
Prerequisite(s): ART 50 or equivalent.
Term Typically Offered: Fall, Spring
Advanced study of ceramic techniques leading toward the development of an individual creative expression. Fee course.
Note: May be taken for credit four times.
Fee course.

ART 153. Hand-Built Ceramic Techniques. 3 Units
Prerequisite(s): ART 53 or equivalent.
Term Typically Offered: Fall, Spring
Specialization in hand-built clay forms. Methods of working include coil, slab, pinch, and combinations of techniques which might include some wheel-thrown parts, decoration, and glazing of forms. Fee course.
Note: May be taken for credit four times.
Fee course.

ART 159. Ceramics Studio. 3 Units
Prerequisite(s): Instructor permission and Department chair via signed petition form.
Term Typically Offered: Fall, Spring
Open to upper division art majors or minors only who have completed successfully 9 units in a specialized area.
Note: May be repeated as often as approved by advisor and Department chair.

ART 160. Special Topics in Art Studio. 3 Units
Prerequisite(s): ART 121
Term Typically Offered: Fall only
A range of rotating exploratory investigations in studio art practice that consider and explore various topics of interest. A requirement for students in the BFA Program.
Note: This course may use materials that are hazardous and therefore both safety training and the use of personal protective equipment (PPE) will be required.

ART 161. Photography in the Field. 3 Units
Prerequisite(s): PHOT 141 or instructor permission.
Term Typically Offered: Fall, Spring
The class visits specific sites followed by a group critique of the resulting photographic work. The course objective is to examine how one situation can be interpreted by many varied sensibilities, broadening the artist’s visual vocabulary. Students are required to create visually unified portfolio that demonstrates a sense of place. Cross-listed: PHOT 161.

ART 162. Alternative Photographic Processes. 3 Units
Prerequisite(s): PHOT 141 or instructor permission.
Term Typically Offered: Fall, Spring
Studio course exploring alternative photographic processes that may include: printing-out paper, new cyanotype, argentotype, and platinum-palladium. Slide discussions, individual and class critiques. Cross-listed: PHOT 162.

ART 163. Pinhole Photography. 3 Units
Prerequisite(s): PHOT 40 or equivalent.
Term Typically Offered: Fall, Spring
Intermediate course investigating the theory, history, and practice of pinhole photography. Use of student-made pinhole cameras of varying focal lengths using black and white and color materials. Emphasis on creative approach in both camera making and image formation, supported by intermediate-level photographic technique. Individual final portfolios and group exhibition of cameras and prints at conclusion of course. Cross-listed: PHOT 163.

ART 164. Intermediate Jewelry. 3 Units
Prerequisite(s): ART 74 or equivalent, or instructor permission.
Term Typically Offered: Fall, Spring
Continued study of the techniques and tools used in metal fabrication, such as raising, tool making, chasing and repousse, and scoring/bending process. Emphasis is on development and individual style. Fee course.
Note: May be taken twice for credit.
Fee course.

ART 165. Intermediate Metalsmithing. 3 Units
Prerequisite(s): Art 75.
Term Typically Offered: Fall, Spring
Continued exploration of techniques, tools, and methods used in fabrication of ferrous and non-ferrous metal such as cold fastening, repousage, forging, and finishing processes. Emphasis is on composition and imagery. Fee course.
Fee course.

ART 166. Advanced Jewelry. 3 Units
Prerequisite(s): ART 174.
Term Typically Offered: Fall, Spring
Focus on the development of personal style in metal fabrication and casting techniques. Students learn to build mechanical devices such as clasp systems that enhance the overall appearance of their work. Research involving historical periods in metal work.
ART 178A. Public Art Processes. 3 Units
Term Typically Offered: Fall only

Students will engage in the process of creating public art proposals. Along with community engagement the conception and design of a project will include historical, geographic and sociological research. Students will create professional presentations of their proposed project that consider all factors related to creating work in a public setting. Studio course engaging in model making, ideation, comprehensive investigation, collaboration, presentation and discussion. Field Trip(s) may be required. Fee course.
Note: may be taken twice for credit.

Fee course.
Field trip(s) may be required.

ART 178B. Public Art Studio. 3 Units
Term Typically Offered: Spring only

Following up on project proposals designed the previous term in ART 178A, students will engage in the process of creating public art works. The course will focus on the primary components of the project: budget, method or form, materials, dimension, transportation, engineering, permitting, installation and publicity. Students do not need to have taken 178A in order to benefit from and enroll in 178B. Field Trip(s) may be required. Fee course.
Note: May be taken twice for credit.

Fee course.
Field trip(s) may be required.

ART 179. Small Metals Studio. 3 Units
Prerequisite(s): ART 176.
Term Typically Offered: Fall, Spring

Open to upper division art majors or minors only who have completed 9 units in a specialized area.
Note: May be repeated as often as approved by advisor and Department chair.

ART 180. Figure Sculpture. 3 Units
Prerequisite(s): ART 20A or equivalent.
Term Typically Offered: Fall only

Work from live models in clay and plaster. Construction of armatures and waste mold demonstrated. Fee course.
Note: May be taken for credit four times.

Fee course.

ART 182. Intermediate Sculpture. 3 Units
Prerequisite(s): ART 70 or ART 88 or equivalent.
Term Typically Offered: Fall, Spring

Intermediate explorations with traditional and non-traditional processes of sculpture, three-dimensional form and spatial relationships. Students will expect to explore concept based learning through visual problem solving while accumulating in depth techniques and skills in a variety of sculpture materials. Includes study of historical and contemporary examples of sculpture and other relevant forms of art.
Note: May be taken twice for credit. Fee course

Fee course.

ART 183. Advanced Sculpture. 3 Units
Prerequisite(s): ART 180 or 182 or instructor permission.
Term Typically Offered: Fall, Spring

Advanced explorations and study in sculpture, three-dimensional media and imagery and conceptual based art. Students can explore sculpture, advanced three-dimensional design, mixed media, installation art, site specificity, performance art, public art or other. Study will be both assignment based or self-directed. Fee course.
Note: May be taken twice for credit.

Fee course.

ART 187. Installation and Performance Art. 3 Units
Prerequisite(s): ART 20A and either ART 70 or ART 88 or equivalent.
Term Typically Offered: Spring only – even years

Explores the practice, theory and history of making installation and performance art. Students will study contemporary artists of this genre while designing, modeling and creating installation projects. Performances are not mandatory. Students will exhibit their works in traditional campus galleries alternative spaces. Emphasizes individual investigation and discovery while remaining open to collaborative projects that may cross disciplines. Fee course.
Note: may be taken twice for credit.

Fee course.

ART 189. Sculpture Studio. 3 Units
Prerequisite(s): Instructor permission and Department chair via signed petition form.
Term Typically Offered: Fall, Spring

Open to upper division art majors or minors only who have completed 9 units in a specialized area. Fee course.
Note: may be repeated as often as approved by advisor and Department chair.

Fee course.

ART 191. Film as an Art Form. 3 Units
Term Typically Offered: Fall, Spring

Wide range of theory and criticism of film, photography, and painting in the 20th century is presented from which the student may cultivate a coherent critical awareness. The development of realism in Western art, the photographic image, narrative in film, montage, and the development of cinematography will be included with special attention given to the films of D.W. Griffith, Sergei Eisenstein, Jean Renoir, Alfred Hitchcock, and Orsen Welles.

ART 192A. Senior Seminar in Studio Art. 3 Units
Prerequisite(s): Senior status (90 overall units), completion of 30 units of art studio courses, and (GWAR certification before Fall 09, or WPJ score of 70+ or at least a C- in ENGL 109M or ENGL 109W).
Term Typically Offered: Fall, Spring

Culminating studio art course designed to deepen experiences in diverse visual arts. Emphasis placed on independent studio practice with additional development in verbal and written skills in a variety of art disciplines. Participation in BA candidate exhibition required in the second enrolled semester for completion of the course.
Note: Must be taken twice. Cannot be taken twice in the same semester.
ART 192B.  Senior Seminar in Art History.  3 Units
Prerequisite(s): Senior status, completion of all lower-division major requirements, HIST 100, and GWAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109 M/W.
Term Typically Offered: Fall, Spring

Focuses on the research, writing, and oral presentation of a 25-35 page thesis in the student's area of interest. Seminar readings, discussions, and weekly workshops support the thesis project and develop basic career skills. Explores how to employ traditional and new research technologies and develops writing skills. Career topics include how to locate appropriate jobs, professional schools, and graduate programs; how to write professional resumes, correspondence, including graduate school and grant applications.

ART 192C.  Senior Seminar in Art Education.  3 Units
Prerequisite(s): Senior status, and ART 130, ART 133, ART 134, and ART 135.
Term Typically Offered: Fall only

Relates current art education theories to teaching practices in elementary and secondary classrooms, and museum/gallery settings. Teaching practices in a classroom or gallery/museum setting will connect to curriculum materials developed.

ART 193.  Art Gallery Management.  3 Units
Term Typically Offered: Fall only

Designed for direct participation of students in the management of an art gallery, including installation, publicity, and budgeting.
Note: May be taken twice for credit.

ART 193B.  Introduction to Curatorial Studies.  3 Units
Term Typically Offered: Spring only

This course provides the foundation needed for professionally managing and displaying objects held in art collections. Through readings, small group discussions, field trips, guest lectures, and the directed experience of creating an exhibition of artworks from the Sacramento State Art Department collection, students learn the basics of curatorial studies and art collection management. Field trip. Field trip(s) may be required.

ART 194.  BFA Senior Project.  3 Units
Prerequisite(s): Second semester Senior standing in BFA program with a minimum 63 units in the major.
Term Typically Offered: Fall, Spring

Under the mentorship of a faculty advisor, students develop a body of work to be exhibited in the BFA exhibition. Emphasis placed on engagement with research, content, and the process to produce professional quality work in preparation for graduate study and/or careers in the arts.

ART 195.  Fieldwork.  1 - 3 Units
Term Typically Offered: Fall, Spring

Directed observation and work experience with public agencies. Field work is offered for the purpose of giving students orientation in occupational specialties. Supervision is provided by both the instructional staff of the University and the cooperating agencies. Each student is required to maintain a record of activities and assignments, and to prepare periodic reports. The student must make arrangements with a faculty member for a work program prior to admittance to the course.
Credit/No Credit

ART 196.  Experimental Offerings in Art.  1 Unit
Term Typically Offered: Fall, Spring

Undergraduate seminar in art, to be scheduled as needed.

ART 196W.  Protest and Play: Northern California Art of the 1970s.  3 Units
Prerequisite(s): Upper-division standing, and Art 1B or Art 1C, or instructor permission
Term Typically Offered: Fall only – odd years

From the humor and wit of Funk through the politically engaged art of the Black Power, Chicano, Native Californian, and Feminist movements, this class surveys the history of Northern California art of the 1970s with a focus on the greater Sacramento region and art and artists emerging from the era's defining protest movements. Lectures, discussions, readings, and assignments offer insights into the outstanding vitality and historical significance of this art world. Field Trip(s) Field trip(s) may be required.

ART 197.  Intermediate Electronic Art.  3 Units
Prerequisite(s): ART 97, or equivalent experience, such as PHOT 11, Introduction to Digital Imaging.
Term Typically Offered: Fall, Spring

Explores the creative potential of digital imaging and multimedia art making techniques. Teaching methods will include hands on demonstrations, lab workshops, creative projects, reading assignments, seminars, discussion and critiques. The development of technical fluency will be stressed, and the creative potential of digital media within the framework of contemporary art, design and culture will be emphasized. Fee course.
Note: Proficiency in MAC-OS recommended. May be taken for credit three times.

Fee course.

ART 198.  Advanced Electronic Art.  3 Units
Prerequisite(s): ART 197, or equivalent experience, evidenced in portfolio.
Term Typically Offered: Fall only

Utilizes the creative potential of electronic media to create art projects, working within the conceptual framework of developments in contemporary culture using a range of available software programs. An experimental and exploratory approach to the digital medium in concept, process and execution of work is encouraged. Fee course.
Note: Proficiency in MAC-OS recommended. May be taken for credit three times.

Fee course.

ART 199.  Special Problems.  1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading. Open only to students who are competent to carry on individual work.
Note: Departmental petition required.
Credit/No Credit
ART 201A. Mentored Individual Studio Practice 1. 3 Units
Prerequisite(s): Graduate Art Student Status or Instructor Permission
Term Typically Offered: Fall only

Individual studio guidance and instruction, semester 1 of 3. Students establish their individual studio practice and the research that informs it. Students work independently, meeting with an advisor regularly to evaluate their progress and work through problems. In 201A, students establish a graduate-level studio practice and the research and habits that surround it. Students take an exploratory approach, experimenting with content and methods to create a breadth of work for evaluation and discussion at the first-semester review. Supervisory Course.

ART 201B. Mentored Individual Studio Practice 2. 3 Units
Prerequisite(s): Graduate Art Student Status or Instructor permission, and ART 201A
Term Typically Offered: Spring only

Individual studio guidance and instruction, semester 2 of 3. Students maintain their individual studio practice and the research that informs it. Students work independently, meeting with an advisor regularly to evaluate their progress and work through problems. In the second semester, emphasis is placed on focusing students' studio practice and research to create a body of work for presentation at the first-year review. Supervisory Course.

ART 201C. Mentored Individual Studio Practice 3. 3 Units
Prerequisite(s): Graduate Art Student Status or Instructor permission, and ART 201A and ART 201B
Term Typically Offered: Fall only

Individual studio guidance and instruction, semester 3 of 3. Students expand upon their individual studio practice and the research that informs it. Students work independently, meeting with an advisor regularly to evaluate their progress and work through problems. In the third semester, emphasis is placed on preparing a cohesive body of work for the advancement to candidacy exhibition and review. Supervisory Course.

ART 206. Art Theory and Criticism. 3 Units
Term Typically Offered: Fall only

Seminar discussions of essential readings in Western aesthetic philosophy and contemporary art theory and criticism. Stress is placed on the conceptualization of the student's own graduate production.
Note: Required for students in art graduate program; Graduate Writing Intensive (GWI) course.

ART 207. Graduate Studio and Critique. 3 Units
Term Typically Offered: Fall, Spring

Graduate Studio and Critique focuses on the development of students' individual studio practice, while bringing that practice into dialog with others. Class time is divided between group critiques and individual studio work time.

ART 208. Intensive Graduate Studio and Critique. 6 Units
Prerequisite(s): Graduate Art Student Status or Instructor permission
Term Typically Offered: Fall, Spring

Intensive Graduate Studio and Critique focuses on the development of students' individual studio practice, while bringing that practice into dialog with others. Class time is divided between group critiques and individual studio work time. In ART 208, students increase the depth and focus of their work, as well as their engagement in critiques.
Note: May be taken twice for credit

ART 212. Contemporary Art. 3 Units
Prerequisite(s): Modern Art History: Art 1B or ART 109 or equivalent or instructor permission.
Term Typically Offered: Spring only

Beginning with international Pop art and Minimalism in the 1960s, surveys the history of contemporary art from the end of avant-garde modernism to the postmodernism and globalism of today. Lectures, discussions, readings and assignments, offer insights into the contexts, attitudes and ideas behind current art and visual culture.
Note: Students who earned a grade of B or higher in ART 112 can fulfill the requirements for ART 212 by taking a one-unit supplemental ART 299 to satisfy graduate level criteria.

ART 219. Directed Research in Art History. 3 Units
Prerequisite(s): Instructor permission and Department chair via signed petition form.
Term Typically Offered: Fall, Spring

Open to classified and unclassified art graduate students only.
Note: May be repeated as often as approved by advisor and Department chair.

ART 220. Advanced Problems in Painting and Drawing. 3 Units
Prerequisite(s): ART 122B, graduate art student status, or instructor permission.
Term Typically Offered: Fall, graduate level only

Special problems in painting and drawing.
Note: May be taken twice for credit.

ART 222. Studio Critique Seminar. 3 Units
Term Typically Offered: Fall, Spring

Critique seminar taught by one or more instructors representing different creative experiences.
Note: Required for students in the art studio graduate program, every semester until the final review has been passed. Only 6 units may be applied toward the degree program. Open only to classified graduate students.
ART 222A. Graduate Seminar 1.  
**Prerequisite(s):** Graduate Art Student Status or Instructor permission  
**Term Typically Offered:** Fall only  

This course builds dialogue among an interdisciplinary cohort of MFA students while engaging them with contemporary issues and professional practices in the arts. Students discuss readings, attend lectures, prepare for program milestones, and produce and discuss professional documents and presentations. The first-semester graduate students focus is on beginning to develop their professional documents in preparation for the first-semester review while contextualizing their current studio practice. First three weeks of class are dedicated to first-year orientation. Seminar. Semester 1 of 4.

ART 222B. Graduate Seminar 2.  
**Prerequisite(s):** Graduate Art Student Status or Instructor permission, and ART 222A  
**Term Typically Offered:** Spring only  

This course builds dialogue among an interdisciplinary cohort of MFA students while engaging them with contemporary issues and professional practices in the arts. Students discuss readings, attend lectures, prepare for program milestones, and produce and discuss professional documents and presentations. The second-semester graduate student's focus is on further developing their professional documents in preparation for the first-year review while continuing to contextualize their current studio practice. Seminar. Semester 2 of 4.

ART 222C. Graduate Seminar 3.  
**Prerequisite(s):** Graduate Art Student Status or Instructor permission, and ART 222A and ART 222B  
**Term Typically Offered:** Fall only  

This course builds dialogue among an interdisciplinary cohort of MFA students while engaging them with contemporary issues and professional practices in the arts. Students discuss readings, attend lectures, prepare for program milestones, and produce and discuss professional documents and presentations. The third semester graduate student's focus is on further developing their professional documents in preparation for the advancement to candidacy exhibition and review while continuing to contextualize their current studio practice. Seminar. Semester 3 of 4.

ART 222D. Graduate Seminar 4.  
**Prerequisite(s):** Graduate Art Student Status or Instructor permission, and ART 222A, ART 222B, and ART 222C  
**Term Typically Offered:** Spring only  

This course builds dialogue among an interdisciplinary cohort of MFA students while engaging them with contemporary issues and professional practices in the arts. Students discuss readings, attend lectures, prepare for program milestones, and produce and discuss professional documents and presentations. The fourth semester graduate student's focus is on further developing their professional documents in preparation for the final MFA exhibition and review while continuing to contextualize their current studio practice. Seminar. Semester 4 of 4.

ART 229. Painting/Drawing Studio.  
**Prerequisite(s):** Instructor permission and Department chair via signed petition form.  
**Term Typically Offered:** Fall, Spring  

Open to classified and unclassified art graduate students only.  
**Note:** May be repeated as often as approved by advisor and Department chair; only 6 units may be applied toward the degree program.

ART 231. Teaching Practicum.  
**Prerequisite(s):** Graduate Art Student Status or Instructor permission  
**Term Typically Offered:** Fall, Spring  

Instruction on the methods and procedure of running a studio art course. Practical experience working with and instructing undergraduate students. Applying skills in the student's expertise to the art of teaching in tandem with supervisory instructor. Supervisory course.

ART 239. Directed Research in Art Education.  
**Prerequisite(s):** Instructor permission and Department chair via signed petition form.  
**Term Typically Offered:** Fall, Spring  

Open to classified and unclassified art graduate students only.  
**Note:** May be repeated as often as approved by advisor and Department chair; only 6 units may be applied toward the degree program.

ART 249. Graphics/Printmaking Studio.  
**Prerequisite(s):** Instructor permission and Department chair via signed petition form.  
**Term Typically Offered:** Fall, Spring  

Open to classified and unclassified art graduate students only.  
**Note:** May be repeated as often as approved by advisor and Department chair; only 6 units may be applied toward the degree program.

ART 259. Ceramics Studio.  
**Prerequisite(s):** Instructor permission and Department chair via signed petition form.  
**Term Typically Offered:** Fall, Spring  

Open to classified and unclassified art graduate students only.  
**Note:** May be repeated as often as approved by advisor and Department chair; only 6 units may be applied toward the degree program.

ART 269. Photography Studio.  
**Prerequisite(s):** Instructor permission and Department chair via signed petition form.  
**Term Typically Offered:** Fall, Spring  

Open to classified and unclassified art graduate students only.  
**Note:** May be repeated as often as approved by advisor and Department chair; only 6 units may be applied toward the degree program.

ART 279. Crafts/Art Metal Studio.  
**Prerequisite(s):** Instructor permission and Department chair via signed petition form.  
**Term Typically Offered:** Fall, Spring  

Open to classified and unclassified art graduate students only.  
**Note:** May be repeated as often as approved by advisor and Department chair; only 6 units may be applied toward the degree program.
ART 283. Graduate Sculpture. 3 Units
Prerequisite(s): Graduate Art student status, or instructor permission.
Term Typically Offered: Fall, Spring

Special problems in sculpture, mixed media, installation art, site specific art, performance art, public art or other. Students will engage in self-directed projects while participating in sculpture studio forum and critiques.
Note: may be taken twice for credit

ART 289. Sculpture Studio. 3 Units
Prerequisite(s): Instructor permission and Department chair via signed petition form.
Term Typically Offered: Fall, Spring

Open to classified and unclassified graduate students only. Fee course.
Note: May be repeated as often as approved by advisor and Department chair; only 6 units may be applied toward the degree program.
Fee course.

ART 297. New Media 1. 3 Units
Term Typically Offered: Spring only

Students will work on self-directed new media projects with the supervision of the instructor. The work will focus on projects that are either entirely based on digital image and/or animation, or on works that also utilize other media or processes combined with digital image or animation, such as intermedia, mixed media and installation work. This course also includes reading assignments, critique and discussion.
Note: May be repeated twice for credit.

ART 298. New Media 2. 3 Units
Term Typically Offered: Fall only

Students will work on self-directed new media projects with the supervision of the instructor. The work will focus on projects that are either entirely based in new media and video, or on works that also utilize other media or processes combined with video and/or interactive processes, such as intermedia, mixed media and installation work. The course also includes reading assignments, critique and discussion.
Note: May be taken twice for credit.

ART 299. Special Problems. 1 - 3 Units
Prerequisite(s): Open only to graduate art students competent to carry on individual work. Admission requires approval of the faculty member who will direct the work and of the Department chair via signed petition form.
Term Typically Offered: Fall, Spring

Individual projects or directed reading.
Note: Only 6 units may be applied toward the degree program.
Credit/No Credit

ART 305. Art in the Public School. 3 Units
Prerequisite(s): Enrollment in the art teaching credential program.
Term Typically Offered: Fall, Spring

Art teaching methods and programs for public school grades K-12. Must be taken during Phase I or II of student teaching.

ART 500. Culminating Experience. 3 Units
Prerequisite(s): Advanced to candidacy and chair permission of student’s project committee.
Term Typically Offered: Fall, Spring

Culminating exhibition of student work.

ART 500A. Culminating Experience Thesis. 3 Units
Prerequisite(s): Graduate Art Student Status and Instructor Permission.
Corequisite(s): ART 500B.
Term Typically Offered: Spring only

Guidance with written thesis as it pertains to the final body of work. Students will work with individual faculty to develop and complete thesis objective(s), outline and organize imagery as it pertains to the final body of work and create a final written document for digital publication. Supervisory course.

ART 500B. Culminating Experience Exhibition. 3 Units
Prerequisite(s): Graduate Art Student Status and Instructor Permission.
Corequisite(s): ART 500A.
Term Typically Offered: Spring only

Graduating cohort instruction for final MFA Exhibition including final proposal, exhibition catalogue, curatorial studio visit and selection, MFA exhibition catalogue and promotional material.

Art Education (Single Subject Pre-Credential Preparation)

Units required for the Subject Matter Program: 48

Program Description

Courses in Art Education provide students with the knowledge and tools necessary to thrive as teachers in both K-12 and community settings. The Art Education program includes instruction in artistic perception; creative expression; historical and cultural foundations in art; aesthetic valuing; connections, relationships, and applications in art; visual art and education theories; and visual culture art education.

Art majors wishing to pursue a Single Subject Teaching Credential in Art in the College of Education must contact the Art Department’s Credential Coordinator to have their transcripts evaluated for courses required for admission to the credential program and to have their single subject competency assessed.

Teaching credential candidates must also complete the Professional Education Program in the College of Education and meet the California art subject matter standards. Students interested in teaching art in public schools in California should get information from the Teaching Credentials Office in Eureka Hall 401 or the College of Education’s Web site at www.csus.edu/coe/academics/credentials/ (http://www.csus.edu/coe/academics/credentials/).

Minimum Grade Requirement

Courses applied toward the Subject Matter program must be completed with a grade of "C" or higher.

Total Units: 48

**Note:** ART 305 (Art in the Public School) is the required learning methods course for students enrolled in the Professional Education Program in the College of Education. The program is currently under review by the Commission on Teacher Credentialing and students are strongly encouraged to consult an advisor.

**BA in Art (Studio Arts Methods)**

Units required for Major: 48

Total units required for BA: 120

**Program Description**

The Department of Art at Sacramento State introduces students to the expressive world of the visual arts. A wide variety of approaches based on both Western and Non-Western cultures are integrated into courses that are oriented toward creativity, imagination, and critical thinking. Students are able to explore art through courses in art education, art history, ceramics, metalsmithing/jewelry, new media art, painting, printmaking, and interdisciplinary sculpture.

Studio Art experiences develop the creative and artistic skills necessary for mastery of established styles and for exploration of new ones. They also reward students with an introduction to a lifetime appreciation of the arts.

Courses, programs, and exhibitions sponsored by the Art Department serve to engage students in the visual arts within a liberal arts context and to promote appreciation of the fine arts in the general student population. Fieldwork experiences can be arranged with the Crocker Art Museum, Sacramento Metropolitan Arts Commission, and other public and private art institutions and galleries in the Capital region. Opportunities to study art and art history abroad are available through the Office of International Programs and Global Engagement at Sacramento State and the California State University International Program. University credit can be obtained for a semester to a year of study at college and
international centers in Britain, Europe, Latin America, Asia, Africa, and Australia.

California State University, Sacramento is an accredited institutional member of the National Association of Schools of Art and Design (NASAD).

**Minimum Grade Requirements**

A minimum grade of “C” is required in all courses applied to the Studio Art Methods concentration.

**Notes:**

- Whenever possible, classes should be selected in consultation with a faculty advisor.
- It is recommended that students complete a minimum of 75% of the lower division requirements (18 units) before enrolling in upper division courses while recognizing and following prerequisite requirements.
- Lower division prerequisites for some courses may be waived on the advisement of an Art instructor and a portfolio review.

Select one of the following: 3

- ART 22  Beginning Painting
- ART 40  Beginning Printmaking
- PHOT 40 Darkroom Photography

Select one of the following: 3

- ART 53  Beginning Hand-Built Ceramics
- ART 75  Beginning Metalsmithing
- ART 88  Beginning Sculpture

Select one of the following: 2

- ART 50  Beginning Ceramics
- ART 53  Beginning Hand-Built Ceramics
- ART 70  Form, Space Vision
- ART 74  Beginning Jewelry
- ART 75  Beginning Metalsmithing
- ART 86  Clay Sculpture
- ART 88  Beginning Sculpture

Select one of the following: 3

- ART 1A  Art, Religions, and Power before 1400
- ART 1B  Art, Empires, and Cross-Cultural Exchange, 1400-1800
- ART 3A  Traditional Asian Art

**Required Upper Division Core Courses (18 Units)**

Select four courses from one of the following studio course groups 18 and two courses from any studio course group: 3

**Drawing Group**

- ART 120  Advanced Drawing
- ART 123  Figure Drawing

- ART 127  Collage and Assemblage (may be taken twice for credit)
- ART 129  Painting/Drawing Studio
- ART 199  Special Problems

**Painting Group**

- ART 122A Intermediate Painting (may be taken twice for credit)
- ART 122B Advanced Painting (may be taken four times for credit)
- ART 124A Intermediate Watercolor
- ART 124B Advanced Watercolor
- ART 125A Life Painting
- ART 125B Life Studio
- ART 126  Painting and Drawing in the Field
- ART 127  Collage and Assemblage (may be taken twice for credit)
- ART 129  Painting/Drawing Studio
- ART 199  Special Problems

**Printmaking Group**

- ART 127  Collage and Assemblage (may be taken twice for credit)
- ART 140  Intermediate Printmaking
- ART 144  Digital Printmaking
- ART 145  Advanced Printmaking Studio
- ART 149  Graphics/Printmaking Studio
- ART 199  Special Problems

**Photography Group**

- ART/PHOT 161 Photography in the Field
- ART/PHOT 162 Alternative Photographic Processes
- ART/PHOT 163 Pinhole Photography
- ART 169  Photography Studio
- ART 199  Special Problems

**Small Metals and Jewelry Group**

- ART 174  Intermediate Jewelry
- ART 175  Intermediate Metalsmithing
- ART 176  Advanced Jewelry
- ART 179  Small Metals Studio
- ART 199  Special Problems

**Interdisciplinary Sculpture Group**

- ART 127  Collage and Assemblage (may be taken twice for credit)
- ART 142/ CSC 126 3D Computer Modeling
- ART 180  Figure Sculpture
- ART 182 Intermediate Sculpture (may be taken twice for credit)
- ART 183 Advanced Sculpture (may be taken twice for credit)
- ART 187 Installation and Performance Art (may be taken twice for credit)
- ART 189 Sculpture Studio
### Ceramics Group
- **ART 150** Advanced Ceramics
- **ART 153** Hand-Built Ceramic Techniques
- **ART 159** Ceramics Studio
- **ART 180** Figure Sculpture
- **ART 199** Special Problems

### New Media Group
- **ART 142/ CSC 126** 3D Computer Modeling
- **ART 143/ CSC 127** 3D Computer Animation
- **ART 144** Digital Printmaking
- **ART 146** Creative Coding
- **ART 147/ COMS 157** Video Art
- **ART/PHOT 162** Alternative Photographic Processes
- **ART 187** Installation and Performance Art (may be taken twice for credit)
- **ART 197** Intermediate Electronic Art
- **ART 198** Advanced Electronic Art
- **ART 199** Special Problems

### Art History Courses (3 Units)
Select one of the following:
- **ART 100** Origins of American Indian Art
- **ART/PHOT 101** Photography, Inception to Mid-Century
- **ART 103** Art of the Ancient Mediterranean
- **ART 105** Medieval Art
- **ART 106** Renaissance Art
- **ART 107** Baroque and Rococo Art
- **ART 108** 19th Century Art
- **ART 109** Modern Art
- **ART 110** US and Caribbean Art: Race and Representation
- **ART 111** Latin American and Latino Art History
- **ART 112** Contemporary Art
- **ART 113B** Asian Art and Mythology
- **ART 115** Topics in Asian Art
- **ART 116** Topics in Modern and Contemporary Art
- **ART 117A** Art of India and Southeast Asia
- **ART 117B** Art of China and Japan
- **ART 117C** Art of Korea
- **ART 118A** Modern Architecture
- **ART 118B/ HIST 184** California Architecture and Urban History
- **ART 191** Film as an Art Form

### Upper Division Elective Requirement (3 Units)
Select one additional course from one of the following categories:
- **Studio Group**
- **Art History Group**
- **Special Topics in Art Group**

**Total Units:** 48

1. Course also satisfies General Education (GE)/Graduation Requirement.
2. Courses in the lower division cannot be repeated for credit towards the major.
3. All courses must be chosen with advisor approval. See the current course catalog for courses that may be taken more than once for credit.
4. Excluding courses from the studio course group selected above; also excluding supervisory courses in studio disciplines.
To help you complete your degree in a timely manner and not take more units than absolutely necessary, there are ways to use single courses to meet more than one requirement (overlap). For further information, please visit the General Education page (p. 1100).

**Note:** There is no way to list all possible overlaps so please consult with a professional advisor. The Academic Advising Center can be visited online (http://www.csus.edu/acad/), by phone (916) 278-1000, or email (advising@csus.edu).

Required in Major; also satisfies GE.

To help you complete your degree in a timely manner and not take more units than absolutely necessary, there are ways to use single courses to meet more than one requirement (overlap). For further information, please visit the General Education page (p. 1100).

**Note:** There is no way to list all possible overlaps so please consult with a professional advisor. The Academic Advising Center can be visited online (http://www.csus.edu/acad/), by phone (916) 278-1000, or email (advising@csus.edu).

If not satisfied before entering Sacramento State, it may be satisfied in General Education Area C2 (Humanities). "C- or better required." The alternative methods for satisfying the Foreign Language Proficiency Requirement are described here: https://www.csus.edu/college/arts-letters/world-languages-literatures/foreign-language-proficiency.html

### BA in Art History

#### Minimum Grade Requirement

All lower division art history requirements and demonstrated writing proficiency as prescribed by California State University, Sacramento must be completed prior to enrollment in upper division courses. A minimum grade of "C" is required in all courses applied to the Art History concentration. Art History students are required to meet the Sacramento State Foreign Language Requirement by completing the second semester (1B) of a college-level foreign language course with a grade of C- or better (or equivalent foreign language study, as described in the current University catalog). Students who plan to pursue further graduate study in art history are encouraged to learn a foreign language relevant to their art historical interests through the second semester intermediate level (2B).

Units required for Major: 48

### Program Description

The Art History BA provides a full range of courses in Western and non-Western art, criticism, and visual culture from pre-history to the present and from many perspectives. Lecture/discussion classes, seminars, independent studies, fieldwork, and studio courses produce college-level visual literacy, global perspectives, art historical skills, and understanding of curatorial and art-making practices. Students focus on one of four areas of interest: Early Modern European Art, Asian Art, Art of the Americas, or Modern and Contemporary Art. The art history degree affords a broad education as well as practical preparation for a range of vocations and advanced professional studies. Students who wish to pursue advanced degrees in Art History after finishing the Bachelor of Arts will benefit from the close supervision of a mentor-professor who helps prepare them for graduate studies.

Fieldwork experiences can be arranged with the Crocker Art Museum, Sacramento Metropolitan Arts Commission, and other public and private art institutions and galleries in the Capital region. Opportunities to study art history abroad are available through the Office of International Programs and Global Engagement at Sacramento State and the California State University International Program. University credit can be obtained for a semester to a year of study at college and international centers in Britain, Europe, Latin America, Asia, Africa, and Australia.

California State University, Sacramento is an accredited institutional member of the National Association of Schools of Art and Design (NASAD).

**Total Units** 48

---

1. Course also satisfies General Education (GE)/Graduation Requirement.
2. This course should be taken in the second semester of the sophomore year or the first semester of the junior year for transfer students. Art History students are strongly advised to take 6 units of lower division Art History coursework and 6 units of lower division History coursework before taking HIST 100.
3. With the approval of an Art History faculty advisor, students may use ART 118C as a Group 4 course instead of Group 3.
4. Students may take either PHOT 101 or PHOT 102, but not both.
5. Independent study and supervisory courses in the major are limited to one (no more than 3 units), must be approved by an Art History faculty advisor, and may be applied only to the elective category.
6. With the approval of an Art History Seminar faculty advisor, students may satisfy the seminar requirement with a seminar in another liberal arts discipline.
7. Culminating course for students with senior status after completion of all lower division requirements. Prerequisites: completion of two semesters of a foreign language (1B or equivalent), the University’s Graduation Writing Assessment requirement, HIST 100, and the art history seminar (item D).

1. To help you complete your degree in a timely manner and not take more units than absolutely necessary, there are ways to use single courses to meet more than one requirement (overlap). For further information, please visit the General Education page (p. 1100).

**Note:** There is no way to list all possible overlaps so please consult with a professional advisor. The Academic Advising Center can be visited online (http://www.csus.edu/acad/), by phone (916) 278-1000, or email (advising@csus.edu).
If not satisfied before entering Sacramento State, it may be satisfied in General Education Area C2 (Humanities). “C- or better required.” The alternative methods for satisfying the Foreign Language Proficiency Requirement are described here: https://www.csus.edu/college/arts-letters/world-languages-literatures/foreign-language-requirement.html

BFA in Studio Art

Units required for Major: 75
Total units required for BFA: 120

Program Description

The Bachelor of Fine Arts in Art Studio is a four-year program that prepares students for successful careers as artists. It is the professional degree for an artist and provides the foundation for the master's program in studio art. While the B.F.A. program provides students with a broad overview of the fine art areas of ceramics, drawing, painting, printmaking, sculpture, interdisciplinary and new media art, it is designed to develop in-depth skills in one of these areas of the visual arts. The studio curriculum in the program emphasizes technical mastery, individuality, creative experimentation and prepares students for a variety of post-graduate pursuits. The curriculum also provides a thorough grounding in visual art thinking, contemporary art history and critical theory. The degree is designed for undergraduate students who want to combine intensive and innovative studio art practice with an outstanding education in the liberal arts.

Minimum Grade Requirements

A minimum grade of "C" is required in all lower division courses and upper division non-studio courses applied to the Studio Art program.

A minimum grade of "B" is required in all upper division studio courses.

Additional Requirements

Participation in an exhibition of BFA candidates is required for completion of the degree.

Note: Whenever possible, classes should be selected in consultation with a faculty advisor. It is recommended that students complete all of the lower division requirements before enrolling in upper division courses. Prerequisites for some courses may be waived on the advisement of an Art instructor and a portfolio review. ART 192A Senior Seminar in Studio Art (3 units) is a required course, taken in the final semester of the Senior year and concurrently with ART 194, BFA Senior Project.

Interdisciplinary/Integrated Media (or Inter-media) Group

With prior approval from two advisors, students may develop their own group.

Studio Elective Requirement
Select three courses from any upper division or lower division studio group or any of the following:

ART 128  Art and the Artist in the Marketplace
ART 130  Theories in Art Education
ART 133  Art Education for Children
ART 134  Interdisciplinary Art
ART 135  Overview of Secondary Art Education
ART 148  Barrio Art for Ethnic Groups
ART 193  Art Gallery Management
ART 193B  Introduction to Curatorial Studies
ART 195  Fieldwork

Art History Requirement
Select two upper division art history courses from the following:

ART 100  Origins of American Indian Art
ART 101  Photography, Inception to Mid-Century
ART 103  Art of the Ancient Mediterranean
ART 105  Medieval Art
ART 106  Renaissance Art
ART 107  Baroque and Rococo Art
ART 108  19th Century Art
ART 109  Modern Art
ART 110  US and Caribbean Art: Race and Representation
ART 111  Latin American and Latino Art History
ART 112  Contemporary Art
ART 113B  Asian Art and Mythology
ART 114  Topics in Early Modern Art
ART 115  Topics in Asian Art
ART 116  Topics in Modern and Contemporary Art
ART 117A  Art of India and Southeast Asia
ART 117B  Art of China and Japan
ART 118A  Modern Architecture
ART 118B  California Architecture and Urban History
ART 118C  Public Art in the Americas
ART 191  Film as an Art Form

Total Units  

1  Course also satisfies General Education (GE)/Graduation Requirement.
2  Selected course may not satisfy multiple major requirements. Courses in lower division cannot be repeated for credit towards the major.
3  All courses must be chosen with advisor approval. Course repeats will be allowed with advisor approval when in compliance with the University Repeat Policy. See course catalog for courses that may be taken more than once for credit.
Note: Students must receive a “B” or better in all upper division courses to continue in the program.
4  Three units of ART 199 is required in order to meet the minimum required units for the Studio Course Group.

1. To help you complete your degree in a timely manner and not take more units than absolutely necessary, there are ways to use single courses to meet more than one requirement (overlap). For further information, please visit the General Education page (p. 1100).

2. Required in Major; also satisfies GE.

3. Upper-division Area C requirement met with ART 111, ART 117A, or ART 117B

### MA in Art

**Total units required for the MA: 30**

**Program Description**

The Master of Arts program is designed to produce graduates with professional competence in studio arts. While acquiring those abilities, the student is also expected to develop skills used in the criticism and analysis of the visual arts. The Master of Arts degree at Sacramento State may serve as preparation for admission into a Master of Fine Arts (MFA) program at another institution.

The studio curriculum encourages integration of professional practice with historical and theoretical studies. The progression of classes facilitates the transition from student to independent artist through studies in ceramics, drawing, jewelry, metalsmithing, new media, painting, photography, printmaking, and sculpture. Special emphasis is placed on the development of individuality, depth, and professional competence in both technique and concepts.

**Admission Requirements**

Admission as a classified graduate student in art requires:

- a BA in Art or its equivalent, including 12 units in art history;
- a minimum 2.5 GPA in the last 60 units attempted;
- approval by Studio Art faculty review of other submitted materials (see Admission Procedures below); and
- English language proficiency: International students must pass the TOEFL examination. Advancement to candidacy requires passing English proficiency requirements. See below.

Applicants who have deficiencies in admission requirements that can be removed by specified additional preparation may be admitted with conditionally classified status. Any deficiencies will be noted on a written response to the student's admission application.

**Admission Procedures**

Applicants must complete a university application and a separate departmental application by the posted application deadline dates for the term applying.

- an online application for admission; and
- official transcripts from all colleges and universities attended, other than Sacramento State. In addition, all materials listed below must be submitted to the Art Department by the posted deadline;
- the Art Department application form;
- official transcripts of all college work other than Sacramento State;
- twenty slides of the applicant’s recent artwork in a carrousel tray (a description of each slide, listing size, medium, and date of composition, must be included).

For more admissions information and application deadlines, please visit http://www.csus.edu/gradstudies/.

**Minimum Units and Grade Requirement for the Degree**

Units required for the MA: 30

Minimum Cumulative GPA: 3.0
Advancement to Candidacy

Each student must file an application for Advancement to Candidacy, indicating a proposed program of graduate study. This procedure should begin as soon as the classified graduate student has:

- removed any deficiencies in admission requirements;
- completed at least 12 units of 200-level courses in the graduate program with a minimum cumulative 3.0 GPA;
- taken the Writing Placement for Graduate Students (WPG) or taken a Graduate Writing Intensive (GWI) course in their discipline within the first two semesters of coursework at California State University, Sacramento or secured approval for a WPG waiver; and
- secured approval from the studio art faculty, based on a formal presentation of the student’s work.

Advancement to Candidacy forms are available on the Office of Graduate Studies Web site csus.edu/gradstudies/forms. The student fills out the form after planning a degree program in consultation with his/her Art Department advisor. The completed form is then returned to the Office of Graduate Studies for approval.

Final Review

During the semester when the student expects to complete 30 units, the student should consult with the Graduate Coordinator and the student’s advisor in order to determine the details (such as the number of pieces and manner of presentation) of the final review, which is a culminating exhibition of student work. (Final reviews may be attempted only twice.)

Total Units 30

1 ART 222 is a 3 unit course which must be taken each semester until final reviews are passed. Only 6 units of credit count toward graduation.

2 ART 299 does not count towards the 6-unit requirement.

3 Only 6 units of each studio course

4 Open only to graduate art students competent to carry on individual work; admission requires approval of the faculty member who will direct the work and of the Department chair via signed petition form

MFA in Studio Art

Total units required for the MFA: 60

Program Description

The Master of Fine Art degree is a two-year 60-unit, multi-disciplinary and interdisciplinary program in the visual arts with studies in ceramics, drawing, painting, new media art, printmaking and sculpture. This professional terminal degree offers opportunities for solo and group exhibition, curatorial collaboration, exhibition catalogue production and written thesis. The curriculum encourages an integration of art theory, art history and art studio practice. Students will be expected to demonstrate an advanced level of professional studio competence developed through a significant body of work that is contextualized in contemporary culture. Special emphasis is placed on the development of
individuality, depth, and professional competence in both art technique and concepts.

The program prepares students to enter the Fine Art profession by providing experiences with intensive and immersive study, exhibition of their work, and community and professional engagement. The program also offers assistantship opportunities in teaching, art technician work, and gallery operations. For a more complete list of possible professions attached to the MFA see Career Possibilities in Art (p. 114).

Admission Requirements
Admission as a classified graduate student in Studio Art requires:

- a BFA or BA in Art or its *equivalent, including 12 units in Art History;
- a minimum 2.5 overall GPA
- a minimum 3.0 GPA in Art courses
- approval by Studio Art faculty review of other submitted materials (see Admission Procedures below); and
- English language proficiency: International students must pass TOEFL - minimum of 80 IBT, IELTS - minimum of 7.0 Band Score, PTE Academic Score: 65

*Equivalent: BA in Studio Art

1. In the liberal arts studio art major, normally at least 20% of the total credits are in studio courses, and at least 5% are in art/design history. Total required work in the visual arts normally equals 30-45% of the curriculum.

2. The curriculum should aim primarily toward breadth of experience and understanding rather than professional specialization. The primary objective of such training is not necessarily preparation for a career in art or design.

Upon graduation from BA or BFA, students must demonstrate:

- A developed visual sensitivity.
- The technical skills, perceptual development, and understanding of principles of visual organization sufficient to achieve basic visual communication and expression in one or more media.
- The ability to make workable connections between concept and media.
- Some familiarity with the works and intentions of major artists/designers and movements of the past and the present, both in the Western and non-Western worlds.
- An understanding of the nature of contemporary thinking on art and design.

Admission Procedures
Applicants must complete a University application and a separate Art Departmental application by the posted application deadline dates for the term applying.

- Graduate Studies (university) application submitted online via Cal State Apply (https://www2.calstate.edu/apply/) by Graduate Studies deadline.
- Art Department application submitted via SlideRoom (refer to Art Department website) that includes the following:
- Art Department application form
- Essay of intent addressing listed content on site
- 3 letters of recommendation from previous faculty or art professionals
- Official transcripts of all colleges attended
- Twenty images or appropriate format of work (time-based images or documentation, video, audio etc.)

For additional admissions information please visit the Office of Graduate Studies website (https://www.csus.edu/graduate-studies/).  

Minimum GPA Requirement
Minimum Cumulative GPA: 3.0

Advancement to Candidacy
Each student must file an application for Advancement to Candidacy, indicating a proposed program of graduate study. This procedure should begin as soon as the classified graduate student has:

- removed any deficiencies;
- completed at least 30 units of 200-level courses in the graduate program with a minimum 3.0 GPA;
- taken the Writing Placement for Graduate Students (WPG) or taken a Graduate Writing Intensive (GWI) course in their discipline within the first three semesters of coursework at Sacramento State or secured approval for a WPG waiver; and
- secured approval from the studio art faculty, based on a formal presentation of the student’s work.

Advancement to Candidacy forms are available on the Office of Graduate Studies website (https://www.csus.edu/graduate-studies/). The student fills out the form after planning a degree program in consultation with Art Department Graduate Coordinator. The completed form is then returned to the Office of Graduate Studies for approval. Note: Advancement to Candidacy may be attempted only twice.

Final Review
During the semester when the student expects to complete 60 units, the student should consult with the Graduate Coordinator and the student’s advisor in order to determine the details (such as the number of pieces and manner of presentation) of the final review, which is a culminating exhibition of student work. Note: Final reviews may be attempted only twice.

**Program Description**

The Department of Art at Sacramento State introduces students to the expressive world of the visual arts. A wide variety of approaches based on both Western and Non-Western cultures are integrated into courses that are oriented toward creativity, imagination, and critical thinking. Students are able to explore art through courses in art education, art history, ceramics, metalsmithing/jewelry, new media art, painting, print making, and interdisciplinary sculpture.

**Minimum Grade Requirement**

A grade of "C" or better is required for all courses applied to the Minor in Art Education.

**Program Requirements**

Units required for Minor: 21, including 9 lower division units in Art Studio, 3 lower division units in Art History, and 9 units of Art Education selected with the approval of the Art Education Credential Advisor.

### Minor in Art History

Units required for Minor: 21, all of which must be taken in Art History

**Program Description**

The Department of Art at Sacramento State introduces students to the expressive world of the visual arts. A wide variety of approaches based on both Western and Non-Western cultures are integrated into courses that are oriented toward creativity, imagination, and critical thinking. Students are able to explore art through courses in art education, art history, ceramics, metalsmithing/jewelry, new media art, painting, print making, and interdisciplinary sculpture.

**Minimum Grade Requirement**

A grade of "C" or better is required for all courses applied to the Minor in Art History.

**Note:** Students are strongly encouraged to select the four lower division courses and three upper division courses in consultation with an Art History faculty advisor.

**Program Requirements**

Select four of the following lower division courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>ART 1A</td>
<td>Art, Religions, and Power before 1400</td>
<td>12</td>

<td>Culminating Experience Exhibition ⁵</td>
<td>3</td>
</tr>
</tbody>
</table>

**Total Units:** 60

¹ Six units of the nine units may be selected from any university undergraduate (upper-division only) course or graduate course with faculty approval.

² EDTE 280B and ART 231 are part of the teaching option and will satisfy 6 of the 9 elective units.

³ Open only to graduate art students competent to carry on individual work; admission requires approval of the faculty member who will direct the work and of the Department Chair via signed petition form.

⁴ ART 500A is a written thesis requirement and is taken with studio advisor.

⁵ ART 500B is the final exhibition requirement taken with Graduate Coordinator.

¹ Must be selected in consultation with a faculty advisor.

BA in Arts and Letters
Units required for Major: 36

Advisors:
Christina Bellon, Philosophy
Brad Nystrom, Humanities and Religious Studies
Aaron Cohen, History

Eligibility Requirements
This multidisciplinary major is designed for students who have stopped-out in good standing from the pursuit of any major at Sacramento State.

At the time of application, students must have met the following requirements:

1. Must not have been enrolled at the university for a minimum of one year and have left in good academic standing.
2. Completed at least 84 units of coursework (may be upper or lower division units).
3. Completed all lower division General Education and Graduation Requirements. A condition of admission to the program is that students have completed all GE Area B requirements. If the GE Area B and other lower division GE/GR requirements are not completed at the time of application, they must be completed prior to beginning the program.
4. Have a minimum cumulative GPA not lower than 2.0.

### Program Description

Communication Studies is a broad-based discipline concerned with the exchange of messages in interpersonal and mediated situations and with the impact of such exchanges on society. Courses focus on understanding the communication process and developing skills to...
communicate effectively. The Department offers a wide range of courses in interpersonal, group, and organizational communication, rhetorical theory and criticism, public relations, mass communication and research methodologies.

The Sacramento State Journalism program provides both a general academic experience and professional preparation. Sacramento's program emphasizes writing, editing, writing for interactive media, and other courses necessary to prepare students for success in media-related jobs; it also includes courses that critically examine media as an institution.

The Film Program offers interdisciplinary coursework in the areas of film production, history, theory, criticism, and writing. The Film major aims at developing a deeper understanding of the art and practice of film, its complex components, and the artists whose vision have inspired generations of filmmakers. All students are required to take a common core that provides a foundation for film criticism and production. After completing the core, students select either the film studies or film production track. Students are supervised by the Film Coordinator.

Degree Programs

Communication Studies (p. 142)

Journalism (p. 164)

Film Studies (p. 159)

Special Features

• Communication Studies faculty possess professional expertise and academic excellence. Faculty maintain a high level of scholarly publication, creative activity, consulting, and outstanding teaching.
• The Sacramento State Debate Program is highly ranked nationwide with opportunities for both experienced and beginning debaters.
• The Department's Internship Program serves over 100 students each semester with internships in government agencies, private industry, TV stations, and public service organizations.
• The Department sponsors Epsilon Phi, a chapter of the National Communication honors society Lambda Pi Eta. Students eligible for membership participate in a variety of activities and are recognized at the university's graduation ceremony.
• The Department also sponsors PRSA, our student chapter of the Public Relations Student Society of America.

COMS 2. Argumentation. 3 Units
General Education Area/Graduation Requirement: Critical Thinking (A3)
Term Typically Offered: Fall, Spring

Practice in argumentation, critical evaluation, evidence, and reasoning. Basic principles are applied in a variety of formal and informal advocacy situations. Concepts of argument structure and context are discussed and applied.

Note: Majors must complete with a grade of "C-" or better.

COMS 4. Introduction to Public Speaking. 3 Units
General Education Area/Graduation Requirement: Oral Communication (A1)
Term Typically Offered: Fall, Spring

Theory and technique of public speaking. Emphasis on organizing, supporting, and clearly stating ideas. Practice in informative and persuasive speaking.

COMS 4H. Honors Public Speaking. 3 Units
Prerequisite(s): Open only to Honors students.
General Education Area/Graduation Requirement: Oral Communication (A1)
Term Typically Offered: Fall, Spring

Provides both theoretical and practical training in the art of public discourse. Students learn both to recognize and to demonstrate the strategic processes of organizing and delivering speeches, especially within the context of global citizenship issues. Students are also introduced to the basic idea of forming reasonable challenges to speech in the public square.

COMS 5. The Communication Experience. 3 Units
General Education Area/Graduation Requirement: Oral Communication (A1)
Term Typically Offered: Fall, Spring

Basic skills and introductory concepts necessary for effective communication in a variety of settings. Special emphasis on practical experiences within groups, facilitation of interpersonal relationships, and methods of conflict resolution.

Note: Not recommended for COMS majors in General, Organizational or Public Relations concentrations.

COMS 8. Interpersonal Communication Skills. 3 Units
Term Typically Offered: Fall, Spring

Basic skills and introductory concepts for examining and altering interpersonal communication. In addition to lectures and discussions, students engage in structured interpersonal exercises and simulations to practice interpersonal communication skills such as listening, paraphrasing, describing feelings and intentions, and giving and receiving criticism.

Note: Majors must complete with a grade "C-" or better.

COMS 20A. Audio Production. 2 Units
Corequisite(s): COMS 20B.
Term Typically Offered: Fall, Spring

Introduction to the theory and practice of audio production in radio, television, film and recording applications.
Cross listed: FILM 20A.

COMS 20B. Audio Production Laboratory. 1 Unit
Corequisite(s): COMS 20A.
Term Typically Offered: Fall, Spring

Experience in audio console operation, microphone selection and use, and audio recording in radio, television, film and recording applications.
Cross listed: FILM 20B.

COMS 21. First Year Seminar: Becoming an Educated Person. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Introduction to the nature and possible meanings of higher education, and the functions and resources of the University. Helps students to develop and exercise fundamental academic success strategies and to improve their basic learning skills. Students interact with fellow students and the seminar leader to build a community of academic and personal support.

COMS 26. Introduction to Capturing and Editing Digital Media. 3 Units
Term Typically Offered: Fall, Spring

Developing skills in producing photographic, graphic and animated materials used for the World Wide Web and multimedia.

COMS 27A. Digital Film/Video Production. 2 Units
Corequisite(s): COMS 27B.
Term Typically Offered: Fall, Spring

Addresses the theory and practice of film/video production. Students will be expected to understand: camera operation, audio control, basic directing, lighting, and editing. Students will also be expected to learn the terminology of video production/post-production and use this terminology competently. Students enrolled in COMS 27A must be concurrently enrolled in COMS 27B. There are no exceptions to this requirement.
Cross-listed: FILM 27A
COMS 27B. Digital Film/Video Production Laboratory. 1 Unit
Corequisite(s): COMS 27A.
Term Typically Offered: Fall, Spring

Provides practical, hands-on experience in video production. Students will be expected to become proficient in all production roles: camera operation, audio control, basic directing, lighting, and editing. Students enrolled in COMS 27B must be concurrently enrolled in COMS 27A.
Cross listed: FILM 27B.

COMS 55. Media Communication and Society. 3 Units
Term Typically Offered: Fall, Spring

Introduction to the basic concepts of mass communication, including the effects, uses, and functions associated with the goods and services of mass media. Examination of the ways mass media combine with other institutions to affect the organization, design, and comprehension of messages, as well as political thought, cultural beliefs, and economic behavior.
Note: Majors must complete with a grade of "C-" or better. Cross Listed: JOUR 55; only one may be counted for credit.

COMS 100A. Survey of Communication Studies. 3 Units
Term Typically Offered: Fall, Spring, Summer

Survey of various theories of communication. Attention given to such topics as verbal and nonverbal coding, information processing, interpersonal and small group communication, organizational communication, the structure and effects of mediated communication, rhetorical criticism, and research in communication.
Note: Majors and minors must complete with a grade of "C-" or better.

COMS 100B. Rhetoric and Social Influence. 3 Units
Prerequisite(s): COMS Studies Majors only. COMS 2, COMS 4, (COMS 5 is accepted for COMS 4 for MCOM majors) or transfer equivalents and (GWAR Certification before Fall 09, or WPJ score of 80+, or at least a C- in ENGL 109M or ENGL 109W).
Corequisite(s): COMS 100A
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring, Summer

Detailed examination of texts on controversial issues in order to illustrate the varied forms of rhetorical action and the diverse modes of rhetorical analysis. Examples drawn from the literature of classical/contemporary rhetors.
Note: Majors must complete with a grade of "C-" or better; Writing Intensive

COMS 100C. Introduction to Scientific Methods in Communication Research. 3 Units
Prerequisite(s): COMS 100A; may be taken concurrently.
Term Typically Offered: Fall, Spring, Summer

Empirical methods commonly applied during communication research. An introduction to the concepts fundamental to the scientific study of communication, including conceptual and operational definitions, sampling, measurement, experimental design, independent and dependent variables, and quantitative data analysis.
Note: Majors must complete with a grade of "C-" or better.

COMS 101. Information Management and Privacy. 3 Units
Term Typically Offered: Fall, Spring

Students develop skills to use information proficiently in digital environments. In order to cope with information overload, students learn how to define and limit informational needs, how to access and evaluate information critically, and how to analyze and integrate information purposefully. The course teaches students evolving strategies and techniques for maintaining personal information spaces and security.

COMS 103. Presentational Speaking in the Organization. 3 Units
Prerequisite(s): A general education oral communication course.
Term Typically Offered: Fall, Spring, Summer

Contemporary communication techniques for use in business and industry. Principles and practice of oral reporting, persuasive speaking, conference participation, and interpersonal interaction.
Note: COMS majors are urged to take COMS 104 instead of COMS 103.

COMS 104. Persuasive Public Speaking. 3 Units
Prerequisite(s): COMS 2, COMS 4, or instructor permission.
Term Typically Offered: Fall, Spring

Advanced public speaking focusing upon persuasive strategies, principles and techniques.

COMS 105. Communication in Small Groups. 3 Units
Term Typically Offered: Fall, Spring, Summer

Theory and practice in small group communication. Topics include leadership, meeting management, evolution of group norms, phases of group development, communication networks, good communication techniques, conflict management, and problem solving in a variety of contexts.

COMS 106. Digital Media Creation - An Introduction. 3 Units
Term Typically Offered: Fall, Spring

Students learn multimedia authoring through the manipulation of digital media download legally from online repositories. Students learn how to digitally edit pixel-based images, vector images, audio, video and 3D models, while learning the principles that govern all digital media. The course uses Open Source and specialized software.

COMS 107. Children And Television. 3 Units
Term Typically Offered: Fall, Spring

Cognitive, affective, and behavioral effects of television on children. Explores in detail issues such as televised violence, stereotyping, advertising and cognitive development. Discusses relationship between television and education.

COMS 108. Family Communication. 3 Units
Prerequisite(s): COMS 8 or FACS 50 or SOC 166, or instructor permission.
Term Typically Offered: Fall, Spring

Family as a small group with emphasis on understanding and interpreting the dynamics of family communication and socio-psychological theories. Cross Listed: FACS 108; only one may be counted for credit.

COMS 110. Advanced Debate Workshop. 1 Unit
Term Typically Offered: Fall, Spring

Participation in intercollegiate debate competition.
Credit/No Credit
COMS 111. Debate Research Practicum. 3 Units
Term Typically Offered: Fall only
Directed research in the current intercollegiate debate topic; identification of issues, compilation of evidence, and case building.
Note: May be taken four times for credit with instructor permission.

COMS 114. Communication and American Culture. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring, Summer
Critical analysis of the ways modern American media interact with the conduct of American life; emphasizes the role of commercialism and other aspects of contemporary American capitalism; examines the problem of personal development and relationships in the context of a commercially dominated media system.

COMS 115. Nonverbal Communication. 3 Units
Term Typically Offered: Fall, Spring
Nonverbal communication will focus on the nonverbal aspects of human communication. Students will learn the vocabulary of nonverbal communication (NVC) as we examine the nature of NVC, NVC Codes, and the effects of NVC on messages we receive and send. In addition, we will consider nonverbal behaviors in interpersonal relationships, intercultural communication and research in nonverbal.

COMS 116. Intercultural Communication. 3 Units
Term Typically Offered: Fall, Spring, Summer
Analysis of factors which influence communication between individuals of different cultures and cocultures. Discussion and practical application.

COMS 117. Multimedia Communication. 3 Units
Prerequisite(s): COMS 106
Term Typically Offered: Fall, Spring
Students create and integrate information and digital media with the purpose of informing or persuading an audience. By identifying communication needs, students learn to prepare multimedia presentational aids and standalone multimedia presentations for distribution in online environments. This course features topics in visual communication, story-boarding, presentation and delivery.

COMS 118. Survey of Public Relations. 3 Units
Prerequisite(s): At least one college writing course in ENGL or JOUR with a grade of "C-" or better.
Term Typically Offered: Fall, Spring
Introduces the student to publics, organization-environment relationships, structures, practices, and processes from a communication theory and research perspective. Specifically, the student is introduced to the multi-phased approach to public relations, an approach that highlights the PR subprocesses of task identification, task analysis, and task performance.

COMS 119. Conflict Resolution Through Communication. 3 Units
Term Typically Offered: Fall, Spring
Ways to identify, clarify, and resolve conflicts in dyads, groups, and organizations. Conflict is contrasted with disagreement, aggression, incompatible values, etc. The costs and benefits of conflict are explored.

COMS 120. History of the Media. 3 Units
Prerequisite(s): COMS 55 or JOUR 55 or equivalent; may be taken concurrently.
Term Typically Offered: Fall, Spring
Examination of development of major mass communication media in the U.S. and of how the economics, content, regulation and audience use of the media have been affected by the way the media have evolved. Current issues and trends are discussed, as well as possible future development. Cross Listed: JOUR 120; only one may be counted for credit.

COMS 121. Media Aesthetics. 3 Units
Term Typically Offered: Fall, Spring
Overview and analysis of the primary aesthetic tools used to create messages in video and film. The basic properties of light, color, area, space, shape, sound, time and motion are defined and discussed as they relate to media production. Introduces students to the concepts and vocabulary necessary for effectively conceiving, producing or criticizing mediated messages. Designed primarily for students with interest in digital media. Provides a foundation for students working in media criticism. Cross listed: FILM 121.

COMS 122. Writing for Interactive Media. 3 Units
Prerequisite(s): ENGL 1A and ENGL 20 or (GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.)
Term Typically Offered: Fall, Spring
Writing and editing for visual, audio, and interactive media. How to choose appropriate format and delivery mechanisms for news, web sites, kiosks, and CD/DVD. Topics include copyright law and information ethics.

COMS 123. Writing for Public Relations. 3 Units
Prerequisite(s): JOUR 30; GWAR certification before Fall 09; or WPJ score of 80+; or at least a C- in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
Term Typically Offered: Fall, Spring
Organization and operation of communication media; practice in publicity and public relations techniques. Emphasis on clear writing and correct public relations formats such as releases, PSAs, articles, and speeches. Cross listed: JOUR 123

COMS 124. Writing Scripts for Film/Video. 3 Units
Prerequisite(s): ENGL 1A and ENGL 20.
Term Typically Offered: Fall, Spring
Developing narratives, documentaries, educational, promotional, and experimental short screenplays. Students are expected to develop a writing style and master screenwriting and audio/visual scripting formats. Scripts will be developed to be produced in advanced production courses: COMS/FILM 128 and COMS/FILM 185.
Cross listed: FILM 124.
COMS 126. Motion Graphics in Film and Video. 3 Units
Prerequisite(s): COMS 20A, COMS 20B and COMS 26 or both COMS 27A and COMS 27B each with a grade of "B-" or better or instructor permission.
Term Typically Offered: Fall, Spring

Artistic and technical skills employed when capturing and editing photographic, audio, and video data files. Data files are prepared for export into multimedia authoring applications. Mastery of appropriate hardware and software.

COMS 127. Producing and Directing for Television. 3 Units
Prerequisite(s): COMS 20A, COMS 20B, COMS 27A, COMS 27B, each with a grade of "B-" or better.
Term Typically Offered: Fall, Spring

Theory and practice of producing and directing television programs with emphasis on studio and location techniques.

COMS 128. Intermediate Production. 3 Units
Prerequisite(s): FILM/COMS 20AB with a grade of "C" or better. FILM/COMS 27AB with a grade of "C" or better.
Term Typically Offered: Fall, Spring

Continued exploration of the digital filmmaking process through lecture, lab, and practical application. Project-based learning emphasizes working as a crew and the three distinct stages of production: prep, production, and post. Students write, produce, direct and edit original content to bring projects to fruition.
Cross-listed: FILM 128.

COMS 129. Film and Video Production Management. 3 Units
Term Typically Offered: Fall, Spring

Management and administration of the preproduction and production process. Course to include script breakdown, budgeting, scheduling and other preproduction and production management skills needed for film or video production. Special attention on the history, development and current practices of the Production Manager.
Cross listed: FILM 129.

COMS 130. Staging and Lighting Digital Video. 3 Units
Prerequisite(s): COMS 20A, COMS 20B, COMS 27A, COMS 27B, each with a grade of B- or better.
Term Typically Offered: Fall, Spring

Introduction to the aesthetics, concepts and techniques used to control lighting in digital video productions. Aspects of staging, blocking and composition in the context of studio and location lighting.
Note: Students enrolled are required to work on productions outside of scheduled class time (1-3 hours/week). Cross listed: FILM 130.

COMS 133. The Documentary Film. 3 Units
Term Typically Offered: Fall, Spring

Examines the historical, development, and present state of documentary film. Emphasis is on both understanding and critically analyzing the significance of various genres of the documentary and its uses as a tool for information, proselytizing, education, and propaganda.

COMS 136. Introduction to Electronic Publishing. 3 Units
Prerequisite(s): COMS 26 or instructor permission.
Term Typically Offered: Fall, Spring
Design and production of information sites for the World Wide Web. Concepts covered include market analysis, cognitive design, layout, navigation, interactive strategies, site management, and multimedia components for electronic distribution systems. Introduction to object oriented programs and XHTML text editors.

COMS 140. Online Collaboration. 3 Units
Term Typically Offered: Fall, Spring

Students learn to communicate in virtual environments in real-time and asynchronously. Students survey current technologies for collaboration, explore psychological and cultural aspects of individuals working and communicating in teams across computer networks, and identify strategies to foster cooperatives in distributed work.

COMS 141. Theory of Film and Video Editing. 3 Units
Prerequisite(s): COMS/FILM 27A and COMS/FILM 27B with final posted grade of C or better.
Term Typically Offered: Fall, Spring

Study of history and theory of film and video editing. Many films are viewed and discussed, examining how editing theory is put into practice. Cross listed: FILM 141.

COMS 142. Film As Communication. 3 Units
Term Typically Offered: Fall only
Explores the uses of film as a tool of communication.

COMS 143. Theories of Interpersonal Communication. 3 Units
Prerequisite(s): COMS 8 or equivalent; COMS 100A may be taken concurrently.
Term Typically Offered: Fall, Spring, Summer

One-to-one communication between individuals in both social and task settings. Theories of communication during the growth and decay of relationships, as well as research on the forces behind relational dynamics. Topics include nonverbal communication, self concept, communication of self, theories of conflict resolution, communication competence and the rhetoric of disconfirmation.

COMS 144. Developing Rich Media Websites. 3 Units
Prerequisite(s): COMS 27A, and COMS 27B.
Term Typically Offered: Fall, Spring

An introduction to the creation of multimedia websites using current multimedia development software such as Flash. Emphasis will be placed on creating interactive video and formatting video programs for delivery over the WWW, extranets, or intranet.

COMS 145. Organizational Communication. 3 Units
Prerequisite(s): COMS 100A.
Term Typically Offered: Fall, Spring, Summer

Basic concepts of interpersonal and inter-group communication within formal and informal social organizations. Current techniques of auditing and evaluating organizational communication.
COMS 149. Multimedia Authoring. 3 Units
Prerequisite(s): COMS 106, COMS 126.
Term Typically Offered: Fall, Spring

Basic multimedia authoring theory and skills. Text, graphics, audio, and video are synchronized into interactive media. Topics include 2D animation, interface design, and fundamentals of scripting language.

COMS 150. Mass Communication Theories and Effects. 3 Units
Prerequisite(s): COMS 55 or JOUR 55 or equivalent; and COMS 100A which may be taken concurrently.
Term Typically Offered: Fall, Spring, Summer

Survey of the major theories dealing with the relationship between the mass media and human communication behavior. Examination of research into the social, political, economic and cultural effects of mass communication.

COMS 152. Freedom Of Speech. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Thorough introduction to issues related to freedom of speech and censorship, sections of the historical origins of free speech, seditious speech, libel and slander, pornography and obscenity, commercial speech and advertising, symbolic speech and hate speech. The class brings a communication focus to addressing issues related to the First Amendment.

COMS 153. Journalism Law and Ethics. 3 Units
Term Typically Offered: Fall, Spring

Laws and regulations that govern print, broadcast, and the electronic mass media in the U.S. Discusses the process by which laws and regulations are enacted and interpreted as well as legal and regulatory issues concerned with the content, control, political role and responsibilities of media practitioners, regulators, Congress, and the public.
Cross listed: JOUR 153

COMS 154. Instructional Design and Training. 3 Units
Term Typically Offered: Fall, Spring

Communication theory and practice in organizational training. Surveys instructional communication theory and the instructional design process. Focus on effective communication in training contexts. Topics include needs assessment, training design, training evaluation and training delivery via electronic media.

COMS 155. Survey of World Cinema. 3 Units
Term Typically Offered: Fall, Spring

A historical review of the development of major international film styles and themes. Concepts derived from this study of international film are then used as a basis to analyze contemporary films of India, Asia, and Africa. Emphasis is on both the development of formal film technique and a comparison of the unique cultural values that shape the film narrative and style.

COMS 157. Video Art. 3 Units
Prerequisite(s): ART 97 or COMS 27A/Film 27A and COMS 27B/Film 27B.
Term Typically Offered: Fall, Spring

The creation and analysis of video artwork; including techniques of video production, post-production manipulation and critique, within the context of art and communication. The techniques and theory of producing and editing video will serve as a foundation for the pursuit of individual, creative projects.
Cross listed as ART 147; only one may be counted for credit.

COMS 158. Public Relations Planning and Management. 3 Units
Prerequisite(s): COMS 118 and COMS 123 or JOUR 123 with grade of "C-" or better.
Term Typically Offered: Fall, Spring

Theoretical concepts to the solution of problems for pre-selected non-profit and campus clients by forming small group PR agencies; completing needs assessments; profiling target and secondary audiences; developing and implementing a strategic public relations plan; producing targeted messages for media kits and other uses; developing and evaluating formative and summative evaluation plans; and making formal in-class presentations to peers, clients and invited PR professionals. Students will also learn how to negotiate contracts, maintain client relations, track work on projects and develop timelines and budgets.
Cross Listed: JOUR 158; only one may be counted for credit.

COMS 160. Political Communication. 3 Units
Term Typically Offered: Fall only

Analyzes the relationship between mass media and political decision-making, including a structural analysis of political and media institutions. Particular attention on the formation of public opinion through messages and strategies, and the impact of public opinion on public policy.

COMS 161. Health Communication. 3 Units
Term Typically Offered: Fall, Spring

Communication principles and techniques as they apply to the many facets of health care, health education and promotion, and research in health communication. Emphasis on understanding and improving communication among health professionals, and between health professionals and clients. Explores the rapidly emerging field of health communication. Selected concepts and theories of human communication are directly applied to communication problems and situations in health care settings through the use of case studies. In addition, pertinent research that helps explain human interaction in health care is incorporated through readings and discussions.

COMS 162. Gender Ideology and Communication. 3 Units
Prerequisite(s): COMS 100A
Term Typically Offered: Fall, Spring

Scholarly, theoretical and critical writings on the production and circulation of gender roles, images, and gender-types attributes through communication, with a special focus on mass-mediated communication such as television, video, and film.
COMS 163. Propaganda, Power, & Manipulation. 3 Units
Term Typically Offered: Fall, Spring

This course will map major moments in the development of power and propaganda as a communication apparatus, identify the discursive and media presentations of ideologies, and engage in struggles for control and resistance. Twentieth century propaganda sought to advance nationalism, advertise consumer society, and enact war. The 21st century clash of civilizations couples media and events into circulation of acts of terror. With post-modern social media, novel interactions among communication apparatus, norms, and global entities generate new threats and opportunities.

COMS 164. Visual Communication. 3 Units
Prerequisite(s): COMS 100A and 100B or equivalent, with a grade of C- or better.
Term Typically Offered: Fall, Spring, Summer

Comprehensive overview of the theoretical concepts and communication methodologies appropriate for analysis of contemporary visual messages. Focuses on rhetorical analysis of visual messages. Significant research and critical writing required

COMS 165. Communication and Religion. 3 Units
Term Typically Offered: Fall, Spring, Summer

Examines the history, development and present state of religious communication. Discussion of the limits and challenges communication theories face when confronted with situations requiring them to describe the in describable. Emphasis upon the communication methods in a religious context as well as the communication strategies, limits, and possibilities that are revealed in what is arguably the most extreme of communication situations: the intersection of religion and words.

COMS 166. Theories of Persuasion and Attitude Change. 3 Units
Term Typically Offered: Fall, Spring

Various theories of persuasion and attitude change, both classical and empirical, in terms of their effectiveness and social impact. Includes units on production and consumption of persuasive messages.

COMS 167. Systems and Theories of Rhetoric. 3 Units
Prerequisite(s): COMS 100B or equivalent with a grade of "C-" or better.
Term Typically Offered: Fall, Spring, Summer

Historical survey of theories of rhetoric. Comparison/contrast of scope and value of rhetorical theories. Practice in critical writing.

COMS 168. Approaches to Rhetorical Criticism. 3 Units
Prerequisite(s): COMS 100B or equivalent with a grade of "C-" or better.
Term Typically Offered: Fall, Spring, Summer

Analyzes rhetorical events, using a variety of critical perspectives. Current issues on criticism's function and the critic's role. Practice in critical writing.

COMS 169. Television Criticism. 3 Units
Prerequisite(s): COMS 100B with a grade of C- or better; completion of 12 units of upper division COMS courses; or unclassified graduate student status; or instructor permission.
Term Typically Offered: Fall, Spring, Summer

Introduction to television criticism theory and to various critical methods with which television program texts may be analyzed. Current theoretical and critical issues in the function of criticism and the role of the critic are addressed through readings, writing assignments, screenings and discussion.

COMS 170. Data Analysis in Communication Research. 3 Units
Prerequisite(s): COMS 100C or equivalent with a grade of "C-" or better; or instructor permission.
Term Typically Offered: Fall, Spring, Summer

Introduction to the application of data analysis to the study of communication processes.

COMS 171. Survey Methods in Communication Research. 3 Units
Prerequisite(s): COMS 100C or equivalent with a grade of "C-" or better; or instructor permission.
Term Typically Offered: Fall, Spring

Techniques of survey research in communication, including sampling, questionnaire construction, interviewing, data analysis, and report writing. Each student designs and executes a research project.

COMS 172. Content Analysis. 3 Units
Prerequisite(s): COMS 100C or equivalent with a grade of "C-" or better; or instructor permission.
Term Typically Offered: Fall, Spring

Content analysis as a research technique in communication. Emphasizes design and execution of content analysis studies in a wide range of communication situations. Each student completes several short studies and a major project.

COMS 173. Communication, Language and Culture. 3 Units
Prerequisite(s): COMS 100A.
Term Typically Offered: Spring only

Cross-cultural exploration of communication and social interaction; relationship between language and society; cross-cultural implications of values embedded in message production, transmission, and interpretation; studies of how language influences perception and organization of social reality; linguistics, information and message transmission.

Note: Restricted to junior and above or instructor permission.

COMS 174. International Communication. 3 Units
Prerequisite(s): COMS 100A.
Term Typically Offered: Fall, Spring, Summer

Movement of mediated messages across and between national boundaries. Topics include news and entertainment flow, media systems and philosophies, cultural dependency and imperialism, the new world information order and communication development.

COMS 175. Creative Problem Solving. 3 Units
Term Typically Offered: Fall, Spring

Creative problem solving techniques for use by individuals and groups. Topics include the nature of creative problem solving, barriers to creativity, clear problem definition, idea generation, decision making, group dynamics in creative situations, implementation of changes, and overcoming resistance to change.
COMS 176. Communication and Terrorism. 3 Units
Prerequisite(s): COMS 100A or instructor permission
Term Typically Offered: Spring only

This course addresses the communication aspects of terrorism, including both the ways terrorism has been used to make political and religious statements worldwide; how the media cover these messages; and how we talk about those messages and the coverage they receive. The course draws on the cutting-edge communication research from international/intercultural, political, mass communication, and computer-mediated communication sources. This is a course in the communication of terrorism. It is neither a course in the political science of terrorism nor in the criminal justice enforcement of counter-terrorism.

COMS 178. Virtual Communities on the Internet. 3 Units
Term Typically Offered: Fall, Spring

The nature of communication in virtual communities on the Internet and the impact that these communities have on traditional communication media. Topics include: the interaction of real and cyber communities, self-publishing, educational uses of virtual communities, virtual self-governance, artificial intelligent agents, and the issues of security, privacy, and anonymity. Students will participate in structured on-line activities.

COMS 179. Media, Sports, and Society. 3 Units
Term Typically Offered: Spring only

Examines and critiques the relationship between the mass media and sports. Reviews theoretical approaches for studying media and sports (including historical, sociological, psychological, political, and cultural studies perspectives), then examines how sport is mediated through literature, print journalism, radio, and television.

COMS 180. Senior Seminar in Organizational Communication. 3 Units
Prerequisite(s): COMS 145; completion of 12 units of upper division COMS courses including COMS 100A.
Term Typically Offered: Fall, Spring, Summer

Seminar on communication theories, techniques and research methodologies in the field of social and governmental organizational systems.

COMS 181. Senior Seminar in Small Group Communication. 3 Units
Prerequisite(s): COMS 105; completion of 12 units of upper division COMS courses including COMS 100A.
Term Typically Offered: Fall, Spring, Summer

Seminar on the ways theories of group communication are realized in actual social settings.

COMS 182. Senior Seminar in Interpersonal Communication. 3 Units
Prerequisite(s): COMS 8, COMS 143, and completion of 12 units of upper division COMS courses including COMS 100A.
Term Typically Offered: Fall, Spring, Summer

Seminar on advanced theories of interpersonal communication. Sample topics include relational development, relational termination, communication and interpersonal attraction, and communication competence. Students present one in-class report and complete a major research paper.

COMS 183. Senior Seminar in Media Issues and Ethics. 3 Units
Prerequisite(s): COMS 55 or JOUR 55; COMS 150; completion of 12 units of upper division COMS courses including COMS 100A.
Term Typically Offered: Fall, Spring

Seminar on the functions and roles of communication media in contemporary society. Includes issues and ethical considerations associated with freedom, responsibility, and control examined from the points of view of the media, the government, and the public. Specific topics will vary.

COMS 184A. Multimedia Project Completion. 3 Units
Prerequisite(s): Instructor permission.
Corequisite(s): COMS 184A.
Term Typically Offered: Fall, Spring

Second of a two-semester senior project sequence. Students complete the project designed in COMS 184A. Projects are completed with assistance and feedback from the instructor, client, and working professionals.

COMS 185. Senior Practicum in Video Production. 3 Units
Prerequisite(s): COMS/FILM 124 with a final posted grade of C or better; COMS/FILM 128 with a final posted grade of C or better.
Term Typically Offered: Fall, Spring

Assignments in various phases of video production including creative use of camera, sound and lighting, editing, production design, production planning and management, and directing and producing. Students in first semester function as crew members for productions.

Note: May be repeated once for credit. Repeating students are expected to produce and direct a major student project. Cross listed: FILM 185.

COMS 186. Seminar in Health Communication. 3 Units
Term Typically Offered: Fall, Spring

Examines how health messages impact individuals, communities, and mass audiences. Critiques health communication research, raises awareness about health-related messages in our daily lives, applies theories of health communication, and critically analyzes how the creation, sending, and reception of health messages impacts society. Sample topics include doctor-patient communication, cross-cultural communication about health, and mass media effects of health-related images in media.

COMS 187. Issue Management and Case Studies in Public Relations. 3 Units
Prerequisite(s): COMS 118; completion of 12 units of upper division COMS courses.
Term Typically Offered: Fall, Spring

Examines the management of issues in the public and private sectors, including knowledge and skills in the communication activities and thinking processes that affect an issue's development. Uses case studies of organizations—governmental agencies, businesses, and not-for-profit entities to assess issue development and management by examining the fundamental questions confronting organizations: What should the particular organization do and how should it do it? Examines criteria for selecting among alternative options, and the relation of the organization to its environment. Explores the broader social, legal, and ethical implications of the organization's activities.
COMS 188. Senior Seminar in Intercultural Communication.  3 Units
Prerequisite(s): COMS 116; completion of 12 units of upper division
COMS courses including COMS 100A.
Term Typically Offered: Fall, Spring, Summer

Critically examines and analyzes complex dynamics and concepts in communication and culture in a pluralistic society. Also relates various perspectives on intercultural communication theories and methods to an analysis of social interaction processes among culturally diverse groups. An interactive dimension includes problem-solving strategies.

COMS 189. Practicum in Communication Training.  3 Units
Prerequisite(s): COMS 145 and COMS 154 or instructor permission.
Term Typically Offered: Spring only

Students work in groups to complete organizational training projects within community organizations. After assessing the organization's needs, students design, conduct and evaluate training. Advanced readings and professional competencies are emphasized.

COMS 190. Human Communication on the Internet.  3 Units
Term Typically Offered: Fall only

Provides an in-depth study of communication models that summarize and explain the interaction of humans in electronic environments, especially the Internet. Students locate, organize, analyze, and synthesize the latest research in online communication and make connection between theoretical models and their own experiences.

COMS 191. New Media and Society.  3 Units
Term Typically Offered: Fall, Spring, Summer

The course examines contemporary social, cultural, political and economic topics regarding the adoption of digital media and the Internet. Students understand their role as citizens of a global knowledge-based society and the ethical dimensions brought by the new computer-enabled media environment.

COMS 192. Senior Seminar in Film.  3 Units
Prerequisite(s): Completion of the Film Studies upper and lower division core or COMS 142, and (GWAR Certification before Fall 09, or WPJ score of 80+, or at least a C- in ENGL 109M or ENGL 109W).
Term Typically Offered: Spring only

Research seminar that provides an in-depth investigation of film as an art form, a medium of mass communication and a means of personal expression. Subject will vary according to instructor.
Cross listed: FILM 192.

COMS 194. Communication Studies - Related Work Experience.  3 - 6 Units
Prerequisite(s): Open only to upper division or graduate students with appropriate course preparation. Units may not be used to meet COMS major, minor or graduate course work requirements. Consent of Communication Studies Department faculty advisor required. No more than 12 units may be counted toward the degree.
Term Typically Offered: Fall, Spring

Supervised employment in a company or agency working on communication studies-related assignments, arranged through the Department of Communication Studies and the Cooperative Education Program office. Requires preparation of application packet, completion of a 6 month full-time or part-time work assignment, and a written report.
Credit/No Credit

COMS 195. Internship in Communication Studies.  1 - 6 Units
Prerequisite(s): COMS 100A, minimum 2.3 overall GPA.
Corequisite(s): COMS 100A.
Term Typically Offered: Summer only

Directed work experience in the internship program. Supervision is provided by both instructional staff and the cooperating agency. Faculty approval required.
Credit/No Credit

COMS 196. Critical Analysis of the Media.  3 Units
Prerequisite(s): Upper division standing for majors and non majors.
Term Typically Offered: Fall, Spring

The course will introduce students to semiotics that will be employed to tease out "overt" and hidden meanings in news (print and video) and other mediated messages. In particular the course will focus on the various, powerful strands of American ideology, e.g., individualism, democracy, patriarchy, femininity, feminism, capitalism, the family, patriotism, environmentalism, and the First Amendment that shape an understanding of ourselves and of our society. It will examine the present state of American journalism and how it operates.

COMS 196R. Latin American Rhetoric.  3 Units
Prerequisite(s): COMS 100B
Term Typically Offered: Fall, Spring

This course combines historical and rhetorical perspectives to examine the development of Latin American public culture. Studying different types of public discourse that combine intellectual sophistication with literary merit (including speeches, essays, poetry, and art), will illuminate how a unique public culture developed in Latin America, born from the roots of European and indigenous traditions. As we analyze these texts, we will examine what contributions their authors make to the field of rhetoric and rhetorical theory.

COMS 199. Special Problems.  1 - 3 Units
Prerequisite(s): COMS 100A.
Term Typically Offered: Fall, Spring

Individual projects or directed reading open to students who wish to attempt independent work. Faculty approval required.
Credit/No Credit

COMS 200A. Intro To Graduate Studies--Disciplinary History and Conventions.  1 Unit
Term Typically Offered: Fall only

This course introduces students to graduate-level research in Communication Studies, acquainting students with the discipline generally, and the CSUS Department of Communication Studies specifically. During this course, students will learn the: culture and expectations of graduate study, areas of inquiry in the discipline, sources for advanced research (including journals and databases, etc.), and conventions such as academic writing. Students will also learn about disciplinary structures, requirements for various degrees, types of academic/scholarly organizations, and venues for showcasing research. 
Note: Required; COMS 200A and 200B can be taken in any order, and must be completed in the first two semesters of graduate study.
COMS 200B. Intro To Graduate Studies--Paradigm and Methods. 1 Unit
Term Typically Offered: Spring only

This course is an introduction and orientation to advanced research in Communication Studies, specifically focused on disciplinary paradigms and research methods. During this course, students will gain familiarity with the culture and expectations of graduate study, various paradigms that underpin communication research, and the numerous methods used to research communication across various contexts, including qualitative, quantitative, critical. Students consider ways to successfully integrate into the communication discipline through a variety of class discussions, readings, and activities.

Note: Required; COMS 200A and 200B can be taken in any order, and must be completed in the first two semesters of graduate study.

COMS 201. Communication Theory. 3 Units
Term Typically Offered: Fall, Spring

This course critically examines the theoretical and paradigmatic foundations of the communication discipline. Students will learn the role of theory in research, and analyze general theories of communication and specific theories of rhetoric, symbolic interaction, information processing, interpersonal communication, small group communication, persuasion, organizational communication, and mass communication. Students practice analyzing, synthesizing, and contrasting relevant bodies of literature and theory. Must be taken within first two semesters of graduate enrollment.

Note: Graduate standing or instructor permission required; Graduate Writing Intensive

COMS 202. Quantitative Research Methods in Communication Studies. 3 Units
Prerequisite(s): Graduate student status or instructor permission.
Term Typically Offered: Fall, Spring

Introduction to advanced quantitative and qualitative research methods. Students will demonstrate their ability to apply at least one research perspective to a significant topic of interest in the discipline. Students are expected to produce a well-crafted research proposal as part of a culminating experience.

COMS 203. Qualitative Research Methods in Communication Studies. 3 Units
Term Typically Offered: Fall, Spring

Introduction to advanced qualitative research methods. Students will critically review and analyze qualitative research, learn how to collect and analyze qualitative data, complete a qualitative research project about communication phenomena, and respond to the research projects of peers.

COMS 204. Rhetorical Criticism. 3 Units
Term Typically Offered: Fall, Spring

Intensive examination of the methods used by rhetorical critics to define, explicate, and understand both how meaning occurs in texts as well as the scope and mechanisms of meaning that influence public life. A major critical paper is prepared by each student.

COMS 205. Organizational Communication. 3 Units
Term Typically Offered: Fall, Spring

This course explores the foundations, research, and theories of organizational communication. Students examine and critique foundational theories and concepts in organizational research, and explore contemporary research topics. Students are expected to produce a well-crafted research project as part of a culminating experience.

COMS 207. Relational Communication. 3 Units
Term Typically Offered: Fall, Spring

This seminar explores communication concepts, theories, and methods used to understand a broad array of relationship types. Relational communication within interpersonal, professional, romantic, family, and friendship interactions will be investigated. Includes an exploration of emergent and current quantitative, qualitative, and critical research regarding relational communication. As a part of the culminating experience, students will develop a research project examining a relational communication topic of their choice (e.g., relationship stages, support, conflict, social networks, and competence).

COMS 208. International Communication. 3 Units
Term Typically Offered: Fall, Spring

This course uses qualitative (hermeneutic, ethnographic, discourse analysis) and quantitative methods to critically explore the infrastructure that allows for the movement of mediated messages across national boundaries, and the cultural, sociopolitical, and geopolitical effects of that transmission. Topics include news and entertainment flow, media systems and philosophies, cultural dependency and imperialism, the new world information order, communication development, and the role of racial, ethnic, gender, and national identity in an increasingly globalized mediasphere.

COMS 209. Social Movements. 3 Units
Term Typically Offered: Fall, Spring

This course is devoted to the rhetorical study of genre and social movements. Students will use a historical lens to examine how genre develops into societal change. Students will develop papers to explicate the rhetorical dimensions of areas of social change.

COMS 210. Media Effects. 3 Units
Term Typically Offered: Fall, Spring

Concentrated survey of mass media and an analysis of theories of media uses and effects. Students are required to conduct library research on a specific media-related topic and to present their findings orally.

COMS 211. Media and Culture. 3 Units
Term Typically Offered: Fall, Spring

Introduction to the major approaches and concepts that are central to the study of the intersection(s) between media and culture. Students investigate the social structures of media industries (technological, philosophical, aesthetic, economic, political, etc.) and their cultural products (media artifacts, created of image and sound), while also considering the historical and theoretical framework necessary for understanding this critical space.
COMS 212. Communication and Leadership. 3 Units
Term Typically Offered: Fall, Spring

This seminar explores the concept of leadership including current theory and research on the communicative aspects of leadership in a variety of contexts. Students will review a wide array of multidisciplinary scholarship using various methodologies through which leadership has been viewed. Leadership communication within organizations, small groups, and interpersonal settings will be explored. Students will develop a research project on a leadership topic of their choosing.

COMS 213. Rhetorical Theory. 3 Units
Term Typically Offered: Fall, Spring

Intensive examination of the development and current state of a variety of theoretical outlooks that inform rhetorical criticism. Relationship of theory and method is discussed.

COMS 214. Health Communication. 3 Units
Term Typically Offered: Fall, Spring

Rigorous survey of how health messages impact individuals, communities, and mass audiences. The course includes an analysis of health communication theories, an overview of how health communication plays a role in individual, social, and macro-levels of society, and an evaluation of intentional and unintentional media effects on health beliefs, attitudes, and behaviors.

COMS 215. Political Communication. 3 Units
Term Typically Offered: Fall, Spring

Examines the intersection of politics and mass communication in the United States. Topics will include normative theory of journalism; agenda-setting, framing, and priming; advertising; the sociology of news; war (including terrorism) and media; infotainment; media bias; hegemony theory; and the internet and politics.

COMS 216. Intercultural Communication. 3 Units
Term Typically Offered: Fall, Spring

This course introduces various theories, perspectives, and approaches to the study of intercultural communication to help understand the complex nature of intercultural communication research. The course considers intercultural communication in various contexts, such as a workplace, healthcare, media, tourism, and education.

COMS 217. Applied Organizational Communication. 3 Units
Term Typically Offered: Fall, Spring

This course asks students to consider the relationship between theory and practice in organizational communication research. Students will critically review relevant literature regarding applied organizational communication research. Students will apply organizational communication concepts, theories, and methods to their analysis of communication in organizations to craft a theoretically grounded, practically relevant study.

COMS 219. Conflict Management. 3 Units
Term Typically Offered: Fall, Spring

Review of theory and research regarding the role of communication in conflict management. The course considers conflict at interpersonal, group, organizational, and cultural levels.

COMS 221. Instructional Communication Theory. 3 Units
Term Typically Offered: Fall, Spring

Survey of dominant theories of instructional communication. Students read, study and critique prevailing bodies of literature which have a bearing on the study and practice of instructional communication. Theories are used to help students reflect on their own experiences as teachers and students and to generate new ideas for research in instructional communication.

COMS 222. Instructional Communication Practicum. 3 Units
Term Typically Offered: Fall, Spring

Examination of communication theory and research in instructional or training contexts. Designed for beginning teachers or organizational trainers. Centers on those communication principles which contribute to greater student/client learning and satisfaction. Emphasis on the development and implementation of instructional communication packages for adult learners.

COMS 228. Corporate Advocacy and Public Policy. 3 Units
Term Typically Offered: Fall, Spring

Explores "corporate advocacy" as a kind of rhetorical, persuasive transaction between Corporate America and those in its environment. Seeks to understand corporate America's role in the "policy process" (broadly defined), by analyzing the constituted authority for policy formation, the actual institutions involved in such formation, the interaction between/among these centers of power, the difference between authority and influence between/among these centers of power and influence, and how corporate America uses rhetorical messages to enhance various goals.

COMS 230. Computer-Mediated Communication. 3 Units
Term Typically Offered: Fall, Spring

Instruction and analysis of human and social Computer-Mediated Communications. Covers from how digital media affects representation and narrative to research on current uses of the Internet and the theoretical frameworks applied to summarize it. Includes a component of Computer Literacy that will help students understand Computer-Mediated Communication and use online collaborative tools efficiently. No previous computer knowledge is required.

COMS 285. Colloquium for Teaching Communication Studies. 1 Unit
Term Typically Offered: Fall, Spring

This colloquium is designed to facilitate the development, refinement, and maintenance of effective pedagogical methods and strategies for teaching communication studies courses. Strongly encouraged for student teachers across all disciplines.

Note: May be repeated up to three times with permission of instructor.

Credit/No Credit

COMS 295. Apprenticeship in Communication Studies. 1 - 3 Units
Term Typically Offered: Fall, Spring

Directed experience in research or teaching using an apprenticeship model. Students will work with faculty members to assist with teaching or research. Faculty and Graduate Committee approval required prior to enrollment.

Note: Faculty and Graduate Committee approval required prior to enrollment.

Credit/No Credit
COMS 296A. Communication Research Methods. 1 Unit
Term Typically Offered: Fall, Spring
This one-unit module provides an in-depth look at a particular communication research method or data analysis technique. Content varies.
Note: 1 unit, repeatable.

COMS 296B. Communication Topics. 1 Unit
Term Typically Offered: Fall, Spring
This one-unit module provides an in-depth look at a particular communication research topic or theory. Content varies.
Note: Course may be repeated so long as the topic is different.

COMS 297. Directed Study and Comprehensive Examination. 1 - 3 Units
Prerequisite(s): Must be advanced to candidacy.
Term Typically Offered: Fall, Spring
Structured and supervised reading program for MA candidates preparing for comprehensive examinations. Should be taken after completion of all other requirements for the degree. Credit given upon successful completion of comprehensive examinations. Examining committee determines the number of units to be credited.
Note: Open to students who have been advanced to candidacy and have secured permission of the chair of their examining committee and the Graduate Coordinator.
Credit/No Credit

COMS 298. Colloquium In Communication. 3 Units
Term Typically Offered: Fall, Spring
A seminar on a communication topic of contemporary concern. Topic may change from semester to semester. May be taken for credit more than once, provided topic is not repeated.

COMS 299. Independent Study. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading open to students wishing to attempt independent work and research. Faculty and Graduate Committee approval required the semester prior to enrollment.
Credit/No Credit

COMS 500. Culminating Experience. 3 - 6 Units
Prerequisite(s): Advanced to candidacy and chair permission of his/her thesis or project committee.
Term Typically Offered: Fall, Spring
Completion of a thesis or project approved for the Master's degree. Thesis or project prospectus committees determine the number of units to be credited.

BA in Communication Studies
(General Communication)

Units Required for Major: 39
Total units required for BA: 120

Program Description
Communication Studies is a broad-based discipline concerned with the exchange of messages in interpersonal and mediated situations and with the impact of such exchanges on society. Courses focus on understanding the communication process and developing skills to communicate effectively. The Department offers a wide range of courses in interpersonal, group, and organizational communication, rhetorical theory and criticism, public relations, mass communication, research methodologies, and digital media (video or multimedia).

This concentration is designed to:

- improve student awareness, understanding, and practice of communication in professional and social interactions;
- enhance the traditional citizenship role in the democratic process; and
- train students in communication skills in preparation for professions within the public or private sectors of the economy

### Foreign Language Proficiency Requirement

1. To help you complete your degree in a timely manner and not take more units than absolutely necessary, there are ways to use single courses to meet more than one requirement (overlap). For further information, please visit the General Education page (p. 1100).

2. Required in Major; also satisfies Graduation Requirement

3. If not satisfied before entering Sacramento State, it may be satisfied in General Education Area C2 (Humanities). “C- or better required.” The alternative methods for satisfying the Foreign Language Proficiency Requirement are described here: https://www.csus.edu/college/arts-letters/world-languages-litersatures/foreign-language-requirement.html

### BA in Communication Studies (Public Relations)

Units required for Major: 48
Total units required for BA: 120

### Program Description

This concentration, developed from the Commission on Public Relations Education recommendations, is designed to:

- prepare students to assume professional entry level roles in the practice of public relations;
- help students understand the integration of public relations and marketing;
- prepare students to compose, develop, and analyze print and broadcast messages;
- help students to develop demonstrable competencies in writing, analyzing, problem-solving, and critical thinking;
- provide opportunities for testing public relations theory and practice, not only in the classroom, but in the field as well; and
- develop relationships with local public relations professionals as well as with community organizations.

### Pre-Major Requirements

Prior to acceptance as a Communication Studies major, students must complete a pre-major consisting of all required lower division courses

1. To help you complete your degree in a timely manner and not take more units than absolutely necessary, there are ways to use single courses to meet more than one requirement (overlap). For further information, please visit the General Education page (p. 1100).

2. Note: There is no way to list all possible overlaps so please consult with a professional advisor. The Academic Advising Center can be visited online (http://www.csus.edu/acad/), by phone (916) 278-1000, or email (advising@csus.edu).
plus the upper division survey course (COMS 100A). Students must successfully complete each pre-major course with a grade of "C-” or better. Students with a Sacramento State grade point average of 2.3 or better may request early admission to the major.

General Requirements

• All Communication Studies majors except those in Mass Communication and Digital Media are required to complete at least one three-unit public speaking course such as COMS 4, COMS 104, or transfer equivalent. Public speaking courses taken to fulfill the GE oral communication requirement also fulfill this Department requirement.

• Majors must complete each core course and each option core course with a grade of "C-” or better.

• Not more than 6 units of debate, internship and/or individual study (see the following) can be applied to the major requirements.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

• Majors are urged to take COMS 2, Argumentation (or transfer equivalent) to fulfill their critical thinking requirement.

• Communication Studies courses may only be repeated once for a grade change. Students who fail to achieve at least a "C-” in two attempts in a core course will be disqualified in majoring in Communication Studies.

• One project or paper from each capstone course will be reviewed by selected faculty for the purpose of departmental assessment.

To help you complete your degree in a timely manner and not take more units than absolutely necessary, there are ways to use single courses to meet more than one requirement (overlap). For further information, please visit the General Education page (p. 1100).

Note: There is no way to list all possible overlaps so please consult with a professional advisor. The Academic Advising Center can be visited online (http://www.csus.edu/acad/), by phone (916) 278-1000, or email (advising@csus.edu).

2 Required in Major; also satisfies Graduation Requirement.

3 If not satisfied before entering Sacramento State, it may be satisfied in General Education Area C2 (Humanities). “C- or better required.” The alternative methods for satisfying the Foreign Language Proficiency Requirement are described here: https://www.csus.edu/college/arts-letters/world-languages-literatures/foreign-language-requirement.html (https://www.csus.edu/college/arts-letters/world-languages-literatures/foreign-language-requirement.html)

BA in Public Relations

The Public Relations degree, developed from the Commission on Public Relations Education recommendations, is designed to prepare students to assume professional entry level roles in the practice of public relations; to help students understand the integration of public relations and marketing; prepare students to compose, develop, and analyze print and broadcast messages; to help students to develop demonstrable competencies in writing, analyzing, problem-solving, and critical thinking; to provide opportunities for testing public relations theory and practice, not only in the classroom, but in the field as well; and to develop relationships with local public relations professionals as well as with community organizations.

The PR degree at Sacramento State emphasizes research, writing and editing focused on the theories and methods for managing the media image of a business, organization, or individual. The program builds understanding of the communication process with stakeholders, constituencies, audiences, and the general public to prepare individuals to function as public relations assistants, technicians, and managers. Upon completion of the program, graduates are prepared to enter a variety of public relations careers in media relations; promotion and advertising; marketing; message/image design; image management and crisis communication; special event management; community relations; public affairs/government relations; and internal communications.

Students gain extra-curricular experiences via a robust internship program involving dozens of public and private companies and organizations across California and the nation, as well as via involvement in a large, active and award-winning Public Relations Student Society of American (PRSSA) chapter.

Prior to acceptance as a Communication Studies major, students must complete a pre-major consisting of all required lower division courses plus the upper division survey course (COMS 100A) and upper division research methodology course (COMS 100C). Students must successfully complete each pre-major course with a grade of “C-” or better. Students with a Sacramento State grade point average of 2.3 or better may request early admission to the major.

- Majors must complete each core course and each option core course with a grade of “C-” or better.
- Not more than 6 units of debate, internship and/or individual study (see the following) can be applied to the major requirements.
- Majors are urged to take COMS 2 (https://catalog.csus.edu/search/?P=COMS%202), Argumentation (or transfer equivalent) to fulfill their critical thinking requirement.
- Communication Studies courses may only be repeated once for a grade change. Students who fail to achieve at least a “C-” in two attempts in a core course will be disqualified in majoring in Communication Studies.
- One project or paper from each capstone course will be reviewed by selected faculty for the purpose of departmental assessment.

1 To help you complete your degree in a timely manner and not take more units than absolutely necessary, there are ways to use single courses to meet more than one requirement (overlap). For further information, please visit the General Education page (p. 1100).

Note: There is no way to list all possible overlaps so please consult with a professional advisor. The Academic Advising Center can be visited online (http://www.csus.edu/acad/), by phone (916) 278-1000, or email (advising@csus.edu).

2 Required in Major; also satisfies Graduation Requirement

3 If not satisfied before entering Sacramento State, it may be satisfied in General Education Area C2 (Humanities). "C- or better required.

The alternative methods for satisfying the Foreign Language Proficiency Requirement are described here: https://www.csus.edu/college/arts-letters/world-languages-literatures/foreign-language-requirement.html (https://www.csus.edu/college/arts-letters/world-languages-literatures/foreign-language-requirement.html)

MA in Communication Studies

Total Units required for the MA: 30

Program Description

A Master’s degree can lead to doctoral or other professional education, or to advanced positions in business, public service, or government. The graduate program in Communication Studies is guided by two interrelated goals. First, that each student has the opportunity to study and conduct original communication research consistent with individual interests and abilities. Second, each student develops and follows a coherent, rigorous plan of study within the field of communication. Accordingly, a structured advising procedure has been established in the Department to help accomplish these two goals (see "The Graduate Document," available from the Department, for details). As an integral part of a plan of study, each student will designate a series of courses to be completed for their degree with the assistance of their advisor and the approval of the Graduate Committee. A statement outlining the logic of the chosen courses will be required and will be reviewed by the Graduate Committee. Areas of faculty expertise include (but are not limited to):

- Mediated Communication
- Organizational Communication
- Instructional Communication
- Rhetoric and Criticism
- Political Communication
- Intercultural/International Communication
- Relational Communication

As mentioned above, this program, culminating in the Master of Arts in Communication Studies, is designed for the student who subsequently will pursue a doctoral degree or a professional career. The program is NOT designed for students who wish to train in production or presentational skills which are taught at the undergraduate level in the Sacramento State Communication Studies Department.

Admission Requirements

Admission as a classified graduate student in Communication Studies is based on the assessment of individual credentials by the Graduate Committee, but requires at least:

- a 3.0 overall GPA or 3.25 GPA in the last 60 units completed;
- a grade "B-" or better in the following (or equivalent courses):

1 To help you complete your degree in a timely manner and not take more units than absolutely necessary, there are ways to use single courses to meet more than one requirement (overlap). For further information, please visit the General Education page (p. 1100).

Note: There is no way to list all possible overlaps so please consult with a professional advisor. The Academic Advising Center can be visited online (http://www.csus.edu/acad/), by phone (916) 278-1000, or email (advising@csus.edu).

2 Required in Major; also satisfies Graduation Requirement

3 If not satisfied before entering Sacramento State, it may be satisfied in General Education Area C2 (Humanities). "C- or better required.

The alternative methods for satisfying the Foreign Language Proficiency Requirement are described here: https://www.csus.edu/college/arts-letters/world-languages-literatures/foreign-language-requirement.html (https://www.csus.edu/college/arts-letters/world-languages-literatures/foreign-language-requirement.html)
Advancement to Candidacy form, with their major advisor and graduate Near the completion of coursework each student must submit an Advancement to Candidacy form. Minimum cumulative GPA: 3.0. No course with a grade lower and "B" may apply towards the degree. Units required for the MA: 30. Minimum Units and Grade Requirement for the Degree. A decision regarding admission will be mailed to the applicant. Admission Procedures. Applicants are strongly encouraged to apply several months prior to the semester first enrollment is sought. All application materials must be received before any evaluation begins. Three letters of recommendation indicating the applicant’s abilities and potential for completing graduate work successfully. An online intake form available on the department website that includes a short Analytic Essay allowing applicants to demonstrate their ability to analyze a communication problem and craft an argument; at least one substantive example of writing that indicates research, analytical, and/or creative abilities; an earned baccalaureate degree, and an online application for admission; and if taken a Graduate Writing Intensive (GWI) course in their discipline. MA in Communication Studies. At least 18 units must be 200-level courses and no more than 6 units of courses numbered 150-198 (excluding 195) may count toward the minimum 30-unit requirement. By University policy, courses completed to satisfy deficiencies or admission requirements are not counted toward the MA degree. Program Requirements. Required Courses (8 Units). Select one of the following: COMS 201 Communication Theory. Select one of the following: COMS 202 Quantitative Research Methods in Communication Studies. COMS 203 Qualitative Research Methods in Communication Studies. COMS 204 Rhetorical Criticism. Total Units 8. At least 18 units must be 200-level courses and no more than 6 units of courses numbered 150-198 (excluding 195) may count toward the minimum 30-unit requirement. By University policy, courses completed to satisfy deficiencies or admission requirements are not counted toward the MA degree. Program Requirements. Major Courses. 16 - 19. Select one of the following: COMS 297 Directed Study and Comprehensive Examination (Plan C: Exam).
COMS 500  Culminating Experience (Plan A: Thesis, Plan B: Projects)  

| Total Units | 30 |

1. Select between 16 and 19 units of graduate courses with the assistance of your advisor. Be certain these Major Courses contain a specific focus or area of concentration that can be described and explained to the Graduate Committee. Courses may be grouped into a Major and Minor area of concentration if desired. Up to six units may be taken in a related department and still be counted toward the degree.

2. For students completing Plan A or B, no more than a total of 3 units of COMS 295 or COMS 299 may be applied to the 30-unit MA requirement. For students completing Plan C, this limit is increased to 6 units. Graduate Committee approval is required in the semester prior to enrollment for these units.

**Minor in Communication Studies**

Total units required for Minor: 18, 12 of which must be upper division

**Program Description**

Communication Studies is a broad-based discipline concerned with the exchange of messages in interpersonal and mediated situations and with the impact of such exchanges on society. Courses focus on understanding the communication process and developing skills to communicate effectively. The Department offers a wide range of courses in interpersonal, group, and organizational communication, rhetorical theory and criticism, public relations, mass communication and research methodologies.

**Notes:**

- Minor programs must be approved by a Department advisor.
- All 18 units in the Minor program must be Communication Studies courses.

**Film**

Department of Communication Studies

**Program Description**

The Film Program offers interdisciplinary coursework in the areas of film production, history, theory, criticism, and writing. The Film major aims at developing a deeper understanding of the art and practice of film, its complex components, and the artists whose vision have inspired generations of filmmakers. All students are required to take a common core that provides a foundation for film criticism and production. After completing the core, students select either the film studies or film production track. Students are supervised by the Film Coordinator.

FILM 20A. Audio Production. 2 Units
Corequisite(s): FILM 20B.
Term Typically Offered: Fall, Spring
Introduction to the theory and practice of audio production in radio,
television, film and recording applications.
Cross-listed: COMS 20A.

FILM 20B. Audio Production Lab. 1 Unit
Corequisite(s): FILM 20A.
Term Typically Offered: Fall, Spring
Experience in audio console operation, microphone selection and use,
and audio recording in radio, television, film and recording applications.
Cross-listed: COMS 20B.

FILM 27A. Digital Film/Video Production. 2 Units
Corequisite(s): FILM 27B.
Term Typically Offered: Fall, Spring
Introduction to the techniques and aesthetics of digital film making. The
course covers camera technique and cinematography.
Cross-listed: COMS 27A.

FILM 27B. Digital Film/Video Production Lab. 1 Unit
Corequisite(s): FILM 27A.
Term Typically Offered: Fall, Spring
Introduction to the techniques and aesthetics of digital film making. The
course covers camera angles, basic lighting, framing, and non-linear
editing techniques.
Cross-listed: COMS 27B.

FILM 97. Introduction to Film Studies. 3 Units
Term Typically Offered: Fall, Spring
Examines cinematic techniques, styles, vocabulary, and discourses.
Introduces different ways for writing about films and for working with
a variety of cinematic terms. Film form and style will be studied by
examining specific scenes in films from different genres, nations, and
directors. Film used throughout the course will be selected from different
historical periods.
Cross-listed: ENGL 97.

FILM 98. Introduction to Film Discourse and Analysis. 4 Units
Term Typically Offered: Fall, Spring
An introduction to cinematic vocabulary, film history, and film analysis.
Through this introduction, students will learn how to write about and
analyze film. The course prepares students for upper division work in film
studies and cultural analysis. The course includes a significant research
and/or creative project.
Cross-listed: ENGL 98

FILM 105. Film Theory and Criticism. 4 Units
Term Typically Offered: Fall, Spring
Survey of film theory focusing on Auteurism, Class, Expressionism,
Formalism, Genre, Gender, Narratology, Neorealism, Phenomenology,
Post-Structuralism, Psychoanalysis, Realism, Semiology, Structuralism,
and Third Cinema.
Cross-listed: ENGL 105.

FILM 121. Media Aesthetics. 3 Units
Term Typically Offered: Fall, Spring
Overview and analysis of the primary aesthetic tools used to create
messages in video and film. The basic properties of light, color, area,
space, shape, sound, time and motion are defined and discussed as they
relate to media production. Introduces students to the concepts and
vocabulary necessary for effectively conceiving, producing or criticizing
mediated messages. Designed primarily for students with interest in
digital media. Provides a foundation for students working in media
criticism.
Cross-listed: COMS 121.

FILM 124. Writing Scripts for Film/Video. 3 Units
Prerequisite(s): ENGL 1A and ENGL 20.
Term Typically Offered: Fall, Spring
Developing narratives, documentaries, educational, promotional, and
experimental short screenplays. Students are expected to develop
a writing style and master screenwriting and audio/visual scripting
formats. Scripts will be developed to be produced in advanced production
courses: COMS/FILM 128 and COMS/FILM 185.
Cross-listed: COMS 124.

FILM 124F. Avant-Garde Film. 3 Units
Prerequisite(s): ENGL 97 or PHOT 102.
Term Typically Offered: Spring only
A survey of experimental films from the beginning of the cinema in
the 1890s through today's avant garde. The course will emphasise
film making as a means of personal, artistic expression and will pay
particular attention to those aspects of cinema that are typically ignored
or marginalized in mainstream Hollywood movies. Films we will study
include those by: Melies, Porter, Richter, Leger, Cornell, Deren, Brakhage
and Gehr.
Cross-Listed: INTD 124F.
FILM 128. Intermediate Production. 3 Units
Prerequisite(s): FILM/COMS 20AB with a grade of "C" or better.
FILM/COMS 27AB with a grade of "C" or better.
Term Typically Offered: Fall, Spring

Continued exploration of the digital filmmaking process through lecture, lab, and practical application. Project-based learning emphasizes working as a crew and the three distinct stages of production: prep, production, and post. Students write, produce, direct and edit original content to bring projects to fruition.
Cross-listed: COMS 128.

FILM 129. Film and Video Production Management. 3 Units
Term Typically Offered: Spring only

Management and administration of the preproduction and production process. Course to include script breakdown, budgeting, scheduling, and other preproduction and production management skills needed for film and video production. Special attention on the history, development and current practices of the Production Manager.
Cross-listed: COMS 129.

FILM 130. Staging and Lighting Digital Video. 3 Units
Prerequisite(s): FILM 20A, FILM 20B, FILM 27A and FILM 27B each with a grade of "B-" or better.
Term Typically Offered: Fall, Spring

Introduction to the aesthetics, concepts and techniques used to control lighting in digital video productions. Aspects of staging, blocking and composition in the context of studio and location lighting.
Cross-listed: COMS 130.

FILM 141. Theory of Film/Video Editing. 3 Units
Prerequisite(s): COMS/FILM 20A and COMS/FILM 27B with final posted grade of C or better.
Term Typically Offered: Fall, Spring

Study of history and theory of film and video editing. Many films are viewed and discussed, examining how editing theory is put into practice.
Cross-listed: COMS 141.

FILM 155. Contemporary World Cinema. 3 Units
Term Typically Offered: Fall, Spring

A historical review of the development of major international film styles and themes. Theoretical and critical concepts derived from this study of international film and then used as the basis to analyze contemporary films of South America, Europe, India, East Asia, Africa and the Middle East. Emphasis is on both the development of formal film techniques and a comparison of the unique cultural values that shape the film narrative style.
Cross Listed: THEA 155; only one may be counted for credit.

FILM 185. Senior Practicum in Video Production. 3 Units
Prerequisite(s): COMS/FILM 124 with a final posted grade of C or better; COMS/FILM 128 with a final posted grade of C or better.
Term Typically Offered: Fall, Spring

Assignments in various phases of video production including creative use of camera, sound and lighting, editing, production design, production planning/management, and directing.
Cross-listed: COMS 185.

FILM 192. Senior Seminar in Film. 3 Units
Prerequisite(s): Completion of the Film Studies upper and lower division core or COMS 142, and (GWAR Certification before Fall 09, or WPJ score of 80+, or at least a C- in ENGL 190M or ENGL 190W).
Term Typically Offered: Spring only

Research seminar that provides an in-depth investigation of film as an art form, a medium of mass communication and a means of personal expression. Subject will vary according to instructor.
Cross-listed: COMS 192.

BA in Film (Digital Film/Video Production)

Units required for Major: 45-46
Total units required for BA: 120

Program Description

The Film Program offers interdisciplinary coursework in the areas of film production, history, theory, criticism, and writing. The Film major aims at developing a deeper understanding of the art and practice of film, its complex components, and the artists whose vision have inspired generations of filmmakers. All students are required to take a common core that provides a foundation for film criticism and production. After completing the core, students select either the film studies or film production track. Students are supervised by the Film Coordinator.

### BA in Film (Film Studies)

**Total units required for Major: 46**

**Total units required for BA: 120**

### Program Description

The Film Program offers interdisciplinary coursework in the areas of film production, history, theory, criticism, and writing. The Film major aims at developing a deeper understanding of the art and practice of film, its complex components, and the artists whose vision have inspired generations of filmmakers. All students are required to take a common core that provides a foundation for film criticism and production. After completing the core, students select either the film studies or film production track. Students are supervised by the Film Coordinator.

Total Units 18-21

Journalism

Department of Communication Studies

2 If not satisfied before entering Sacramento State, it may be satisfied in General Education Area C2 (Humanities). "C- or better required." The alternative methods for satisfying the Foreign Language Proficiency Requirement are described here: [https://www.csus.edu/college/arts-letters/world-languages-literatures/foreign-language-requirement.html](https://www.csus.edu/college/arts-letters/world-languages-literatures/foreign-language-requirement.html)

Minor in Journalism

BA in Journalism (p. 168)

BA in Political Science/Journalism (p. 167)

Minor in Journalism (p. 170)

Special Features

- The location of Sacramento State in the state’s capital provides uncommon advantages for the student interested in journalism. Many students take internships with state agencies or news operations that provide both experience and opportunities unlikely to be found elsewhere.
- Sacramento State offers the only Political Science-Journalism degree program in the nation, tailored to take advantage of the Department’s location at the hub of state politics. The Department has more than 100 internships available to upper-division journalism majors.
- Journalism majors have the opportunity to take classes from both Department faculty and community journalists. The full-time faculty are practicing professionals who contribute regularly to publications on a freelance basis. Good use is also made of professionals from the area media both as guest lecturers and as part-time instructors.
- The University’s association with the Washington Center makes it possible for CSU Sacramento students to undertake internships in Washington, D.C. There are many opportunities for Political Science/Journalism majors to do an internship to meet their unique interests through this program.

Career Possibilities

Reporter · Editor · Columnist · Editorial Writer · Magazine Writer · Speech Writer · Correspondent · Public Affairs Manager · Legislative Assistant · Press Relations Officer · Public Information Specialist · Technical Writer/Editor · Broadcast Journalist · News Director · Disc Jockey · News Producer · Online Journalist

JOUR 20. Style For Media Writers. 1 Unit
Term Typically Offered: Fall, Spring

Intensity review of grammar, word use, spelling, and principles of clear, concise writing.
Credit/No Credit

JOUR 30. News Writing. 3 Units
Corequisite(s): JOUR 20.
Term Typically Offered: Fall, Spring

Fundamentals of news gathering and news writing. Emphasis on language and style used in feature and news stories.
Note: Computer familiarity (MAC-OS) recommended.

JOUR 50. Media Literacy and Critical Thinking. 3 Units
General Education Area/Graduation Requirement: Critical Thinking (A3)
Term Typically Offered: Fall, Spring

Introduction to reasoning skills useful to the journalism major and general education student alike in interpreting and judging information, entertainment and advertising in the mass media. Emphasis on how to assess the quality of news as information, and on how to think critically about the effects of mass-produced culture.

JOUR 55. Media Communication and Society. 3 Units
Term Typically Offered: Fall, Spring

Introduction to the basic concepts of mass communication, including the effects, uses, and functions associated with the goods and services of mass media. Examination of the ways mass media combine with other institutions to affect the organization, design, and comprehension of communication messages, as well as political thought, cultural beliefs, and economic behavior.
Cross Listed: COMS 55; only one may be counted for credit.

JOUR 116. Data Visualization. 3 Units
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Spring, Summer

Instruction in visualizing datasets using charts, graphs and maps. Students will use spreadsheets to analyze data, along with software and online applications to create data visualizations. Emphasis on visualizations for business, academia and journalism.

JOUR 120. History Of The Media. 3 Units
Prerequisite(s): COMS 55/JOUR 55 or equivalent; may be taken concurrently with prerequisite.
Term Typically Offered: Fall, Spring

Examination of development of major media of mass communication in the U.S. and how the economics, content, regulation and audience use of the media have been affected by the way the media have evolved. Current issues and trends are discussed, as well as possible future development. Cross Listed: COMS 120; only one may be counted for credit.

JOUR 123. Writing for Public Relations. 3 Units
Prerequisite(s): JOUR 30; GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
Term Typically Offered: Fall, Spring, Summer

Organization and operation of communication media; practice in publicity and public relations techniques. Emphasis on clear writing and correct public relations formats such as releases, PSAs, articles, and speeches.
Note: Computer familiarity (MAC-OS) recommended. Cross listed: COMS 123

JOUR 125. Multimedia Storytelling. 3 Units
Prerequisite(s): JOUR 30
Term Typically Offered: Fall, Spring

Principles and techniques of reporting and writing news for radio, television, podcasts, social media, and other emerging media platforms. Field and laboratory experience, including basic multimedia story production.

JOUR 128. News Editing. 3 Units
Prerequisite(s): JOUR 20, JOUR 30.
Term Typically Offered: Fall, Spring

Introduction to the role of the editor in contemporary news production. Instruction in story assigning and digital editing, headline/caption writing, photo/visual selection, identifying story treatments, and web tools including search engine optimization and audience analytics. Lab sessions include story/copy editing, fact-checking exercises, headline/caption writing, photo/visual selection, analysis and application of audience metrics in story assignments, and other editorial work.

JOUR 130A. News Reporting I. 3 Units
Prerequisite(s): JOUR 20, JOUR 30.
Term Typically Offered: Fall, Spring

Instruction and practice in journalistic research, interviewing and reporting skills.
Note: Computer familiarity (MAC-OS) recommended.

JOUR 130B. News Reporting II. 3 Units
Prerequisite(s): JOUR 30.
Corequisite(s): JOUR 130A.
Term Typically Offered: Fall, Spring

Practice in covering a news beat, producing news and feature stories on a weekly basis. Instruction includes reporting on local government.

Instruction and practice in finding, analyzing, visualizing and using data for journalism.

Examination of the relationship between historically underrepresented groups and the news media. Provides a critical analysis and discussion of the role played by the news media in racial, cultural, and social change in the U.S. and explores how the news media can create a more pluralistic society.

Examination of business models and concepts influencing the contemporary news media industry. Study the traditional financial structures of media publications, evaluate opportunities in media entrepreneurship and develop business plans for publications.

Examination of women's role in the mass media, with particular emphasis on news reporting and advertising. Includes discussion of women's role in media industries. Culminates in a final project.

Examination of the relationship between historically underrepresented groups and the news media. Provides a critical analysis and discussion of the role played by the news media in racial, cultural, and social change in the U.S. and explores how the news media can create a more pluralistic society.

Preparation and practice for covering California issues, with a focus on state government and investigative reporting techniques. Culminates with a final project.

Examination of the laws, regulations, and ethical principles that govern print, broadcast, and electronic journalism in the U.S. The process by which laws and regulation are enacted and interpreted and the development of socially responsible journalistic practice are discussed.

Preparation and practice for covering California issues, with a focus on state government and investigative reporting techniques. Culminates with a final project.

Directed work experience through the internship program with public agencies or with journalistic publications, organizations or agencies. Supervision is provided by both the instructional staff and the cooperating agency.

Fundamentals of gathering, organizing, evaluating and writing sports information in accepted professional style across news media and media relations platforms.
JOUR 197. Journalism Laboratory. 3 Units
Term Typically Offered: Fall, Spring

Working as a staff member of the State Hornet news organization. Roles and responsibilities may include writing, reporting, photography, editing, audio/video production, web layout and design, promotions, marketing, distribution, and/or media business management.

Note: Journalism majors are required to take either JOUR 197A, JOUR 197B, or JOUR 195 Pre-requisite

JOUR 197A. Journalism Laboratory. 3 Units
Prerequisite(s): JOUR 30.
Term Typically Offered: Fall, Spring

Working as a staff member of the State Hornet Newspaper as a writer, photographer, graphic designer or advertising salesperson.

Note: Journalism majors are required to take either JOUR 197A, JOUR 197B, or JOUR 195.

JOUR 199. Special Problems. 1 - 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Individual projects or directed reading open to students who wish to attempt independent work. Faculty approval required.

Note: Journalism majors or minors may submit no more than 6 units of JOUR 199 and JOUR 299 toward their degrees.

Credit/No Credit

JOUR 299. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading. Open only to students who are competent to carry on individual work.

Note: Departmental petition required. Journalism majors or minors may submit no more than 6 units of JOUR 199 and 299 toward their degrees.

Credit/No Credit

BA in Political Science and Journalism

Units required for Major: 51
Total units required for BA: 120

Program Description

A unique interdisciplinary program that spans the combined areas of Political Science and Journalism.

The University’s association with the Washington Center makes it possible for California State University, Sacramento students to undertake an internship in Washington, D.C. There are many opportunities for Government-Journalism majors to do an internship to meet their unique interests through this program.

Note: Political Science and Journalism majors should have both an advisor in the Political Science Department and a Journalism Advisor in the Communication Studies Department.

Minimum Grade Requirement

Majors must complete each required lower and upper division Journalism course with a grade of ”C” or better.

¹ To help you complete your degree in a timely manner and not take more units than absolutely necessary, there are ways to use single courses to meet more than one requirement (overlap). For further information, please visit the General Education page (p. 1100). Note: There is no way to list all possible overlaps so please consult with a professional advisor. The Academic Advising Center can be visited online (http://www.csus.edu/acad/), by phone (916) 278-1000, or email (advising@csus.edu).

² Required in Major; also satisfies Graduation Requirement.

³ If not satisfied before entering Sacramento State, it may be satisfied in General Education Area C2 (Humanities). "C- or better required." The alternative methods for satisfying the Foreign Language Proficiency Requirement are described here: https://www.csus.edu/college/arts-letters/world-languages-literatures/foreign-language-requirement.html

BA in Journalism

Units required for Major: 40
Total units required for BA: 120

Program Description

The Sacramento State Journalism program educates its students in ethical, accurate, and compassionate storytelling. We engage our community using new technology and innovative methods in order to enlighten the public and monitor the powerful. Our students become committed and versatile professionals with a strong background in both journalism theory and practice.

Sacramento State’s program emphasizes research, writing and editing for interactive media, and other courses necessary to prepare students for success in media-related jobs; it also includes courses that critically examine media as an institution.

Journalism majors write The State Hornet (https://statehornet.com/), a weekly print newspaper and daily multimedia publication.

A journalism degree prepares students for a variety of careers and graduate studies. Graduates work as journalists in a diverse range of media, as public relations representatives, and as communications staff for government agencies, non-profits, and other organizations.

Pre-Major to Journalism

Prior to acceptance as a Journalism major, students must first complete a pre-major consisting of all required lower division courses plus JOUR 130A and JOUR 130B. Students must successfully complete each pre-major courses with a "C-" or better.

Students with a Sacramento State grade point average of 2.3 or better may request early admission to the major.

**General Education Requirements**

**Area A: Basic Subjects (6-9 Units)**
- A1 - Oral Communication 3
- A2 - Written Communication 3
- A3 - Critical Thinking 0-1

**Area B: Physical Universe and Its Life Forms (13 Units)**
- B1 - Physical Science 3
- B2 - Life Forms 3
- B3 - Lab (Note: Lab experience to be taken with one of the following: B1, B2 or B5) 1
- B4 - Math Concepts 3
- B5 - Additional Course (Any B to reach 12 units) - Take upper-division course to complete Area & upper division requirements. 3

**Area C: Arts and Humanities (12 Units)**
- C1 - Arts 3
- C2 - Humanities 3
- C1/C2 - Area C Course 3
- C1/C2 - Area C Course - Take upper-division course to complete Area & upper division requirements. 3

**Area D: The Individual and Society (6 Units)**
- Area D Course 3
- Area D Course - Take upper-division course to complete Area & upper division requirements. 0

**Area E: Understanding Personal Development (3 Units)**
- Area E Course 3

**Area F: Ethnic Studies (3 Units)**
- Area F Course 3

**Graduation Requirements**

**Graduation Requirements (required by CSU) (6 Units)**
- American Institutions: U.S. History 3
- American Institutions: U.S. Constitution & CA Government 3
- Writing Intensive (WI) 0

**Graduation Requirements (required by Sacramento State) (12 Units)**
- English Composition II 3
- Race and Ethnicity in American Society (RE) 3
- Foreign Language Proficiency Requirement 6

1. To help you complete your degree in a timely manner and not take more units than absolutely necessary, there are ways to use single courses to meet more than one requirement (overlap). For further information, please visit the General Education page (p. 1100).

2. Required in Major; also satisfies GE.

3. Department offers students an "OR" option for JOUR 55 and JOUR 50:
   - If student chooses to take JOUR 55 or COMS 55, they will not meet any area of General Education.
   - If student chooses to take JOUR 50, they will meet Area A3.
If not satisfied before entering Sacramento State, it may be satisfied in General Education Area C2 (Humanities). "C- or better required."

The alternative methods for satisfying the Foreign Language Proficiency Requirement are described here: https://www.csus.edu/college/arts-letters/world-languages-litersatures/foreign-language-requirement.html (https://www.csus.edu/college/arts-letters/world-languages-litersatures/foreign-language-requirement.html)

Minor in Journalism

Units required for Minor: 21

Program Description

The Sacramento State Journalism program provides both a general academic experience and professional preparation. Sacramento's program emphasizes writing, editing, writing for interactive media, and other courses necessary to prepare students for success in media-related jobs; it also includes courses that critically examine media as an institution.

Journalism majors are the core of students who write for The State Hornet, a weekly newspaper with a website updated daily at www.statehornet.com (http://www.statehornet.com/).

A student at Sacramento State may major either in Journalism or in Government-Journalism. A minor in Journalism is valuable to the student entering a career field in which journalism plays a role.

The Journalism graduate who wants to work for a newspaper should expect to serve an apprenticeship with a small newspaper before moving up to a metropolitan daily. Journalism graduates also work as magazine editors and writers, as publications employees in government agencies and associations, in broadcast journalism, and in public affairs.

Design

College of Arts and Letters

Program Description

The Department of Design continually works towards establishing itself as a leader in design education for the California central valley. We strive to serve students that seek a rigorous program of study in order to empower them to be leaders in their respective fields.

The Department of Design recognizes that the environments in which we live and work are shaped by an ever-increasing quantity of visual information. This information, in the form of two- and three-dimensional forms, comes to us from a variety of sources that utilize both traditional and technologically advanced modes of visual communication. To a greater extent than at any other point in our history, artists and designers are dissolving the boundaries between two- and three-dimensional visualization.

The Department of Design is well positioned to respond to the multifaceted nature of today’s visual culture. By offering degree programs in Graphic Design, Interior Architecture, and Photography we prepare our students for a wide range of visual and design practices that play a part in creating our built environment.

The Department of Design strives to prepare students to have an impact in professional creative environments that will require collaboration, adaptation to technology and leadership in solving complex problems. The needs of the institutions, businesses and individuals they work with are rapidly changing. The technology they will use to create, as well as the technology used by their audiences, will change the most. We want graduates to be capable of seizing opportunities as they arise and turn them into meaningful learning experiences throughout their career.

Furthermore, the Department seeks to prepare students to be articulate in their discipline: to be able to discuss and present their work, both in writing and in conversation, from the perspective of the functional and aesthetic concepts that underlay the work and how their decisions in these areas frame and solve a given problem.

The Department of Design is where creative and critical thinking come together in a curriculum that, while preparing students for different career paths, fully engages students in relevant areas of technical and aesthetic concern while establishing historical and social context to their disciplines. Students are taught how to utilize an iterative process to create high quality solutions that respond to complex functional and aesthetic requirements that correspond to the appropriate audience, occupant or user.

The Department of Design offers a Bachelor of Arts in Design Studies as well as Bachelor of Fine Arts in Photography, Interior Architecture, and Graphic Design. All four programs of study are accredited by the National Association of Schools of Art and (NASAD).

Faculty

ANKER, ANDREW K.

DERTINGER, DOUG
BA in Design Studies

Units required for Major: 48
Minimum units required for BA: 120

Program Description
The Bachelor of Arts in Design Studies is intended for students who are interested in understanding the role of design and material culture within a broad social, political, and cultural discourse. The program takes as its formative assumption that design is everywhere, from the smallest objects around us to the cities and landscapes we inhabit, and, that along with visual images, constitutes a vital language with which we as a society express our values and desires.

Design Studies graduates will be prepared for career opportunities as researchers and administrators in the design field, working with private and public agencies. Graduates will also be academically prepared to enter M.A. and Ph.D. programs in design studies or design history.

Graphic Design

Program Description

The Bachelor of Fine Arts in Graphic Design has been developed to prepare students for professional practice and/or preparation for admission to graduate level study. The program's foundation is a lower division core that introduces students to the history and theory of design, and, through a series of studio classes, to design practice. Because the lower division core is shared with the Design Department's other three programs (Design Studies, Interior Architecture and Photography), students will have a rich experience that combines an in-depth knowledge of design history with an appreciation for the creative design process. The overall course of study is a layered exploration that starts with fundamental principles of visual communication paired with an intensive introduction to the creative process.

Exposure, in the lower division core, to multiple facets of two and three-dimensional design opens up the student's ability to engage in interdisciplinary work. Each successive layer builds in complexity to encompass technical, conceptual, and research challenges that culminate with capstone courses devoted to professional practice. Historical perspective and ethical concerns are addressed throughout the curriculum. A series of interdisciplinary requirements provide an additional conduit for students to explore possible connections in their future design practice.

The program's goal is to provide the community with a comprehensive and adaptable visual problem solver that has a strong aesthetic ability coupled with a clear understanding of the strategic and conceptual challenges facing them in practice.

Degree Program

BFA in Graphic Design (p. 174)

Accreditation

In addition to California State University, Sacramento's full accreditation by the Western Association of Schools and Colleges, the Bachelor of Fine Arts in Graphic Design is also individually accredited by the National Association of Schools of Art and Design.

Notice to Students RE: Professional Licensure and Certification

California State University programs for professions that require licensure or certification are intended to prepare the student for California licensure and certification requirements. Admission into programs for professions that require licensure and certification does not guarantee that students will obtain a license or certificate. Licensure and certification requirements are set by agencies that are not controlled by or affiliated with the California State University and licensure and certification requirements can change at any time.

The California State University has not determined whether its programs meet other states' educational or professional requirements for licensure and certification. Students planning to pursue licensure or certification in other states are responsible for determining whether, if they complete a California State University program, they will meet their state's requirements for licensure or certification. This disclosure is made pursuant to 34 CFR §668.43(a)(5)(v)(C).

Special Features

All of the faculty in the Graphic Design program have diverse and extensive expertise in the field and continue to work in the profession. Exhibitions and lectures by nationally recognized designers, field trips, and guest instruction add further exposure to professional practice and methodology. Students have been recognized in national competitions, as well as community and campus exhibitions.

Work experience is highly valued in the field of graphic design, and internships, for academic credit, provide students with practical, hands-on experience. Faculty members are instrumental in coordinating a wide range of student internships at highly respected firms and organizations throughout the region. Service learning is also a strong component of hands-on opportunities available through the program.

Graphic Design majors form an active student group called G.R.I.D.S (Graphic Resources and Information Design Students). Students meet regularly and organize workshops, field trips, and lectures. These activities increase understanding of and exposure to the graphic design field. G.R.I.D.S also provides internal networking opportunities that offers members support as they pursue their studies in design.

Being located in California's capital city, California State University, Sacramento offers a wealth of cultural, professional, and employment opportunities. Graduates from the Graphic Design program at Sacramento State have secured positions in design and multimedia firms, advertising agencies, and major corporations.

Career Possibilities

Advertising Designer · Brand Designer · Broadcast Designer · In-house Corporate Designer · Identity Designer · Information Architect · Multimedia Designer · Packaging Designer · Prepress Technician · Print Designer · Production Artist · Project Manager · Publication Designer · Signage Designer · Type Designer · Web Designer

PRATT, RICHARD
GPHD 5. Introduction to Graphic Design. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall only

Introduction to the field of Graphic Design. Subjects include career possibilities, current trends, issues and practices in the industry. The basic theory, techniques and practices involved in solving a visual communication problem will also be introduced.

GPHD 10. Introduction to Digital Design. 3 Units
Term Typically Offered: Spring only

Designed to familiarize students with basic understanding of the digital hardware, software, and vocabulary utilized by visual artists from a variety of disciplines. Discussions and activities will cover both creative and efficient application of digital tools and techniques. Students will complete assignments utilizing a variety of applications which may include page layout, illustration, digital image processing, and 3-D rendering software.

GPHD 20. History Of Graphic Design. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

Overview of the history of graphic design. Emphasis on symbol, type, and image development, from early pictographs to modern communication design.

GPHD 25. Visual Basics. 3 Units
Prerequisite(s): ART 20A or Pre-Interior Design Major.
Term Typically Offered: Fall, Spring

Provides a basic understanding of how visual structures are created and interpreted. Students study the main components of visual structures, become familiar with basic laws of color, and learn the basics of the gestalt principles of visual organization.

GPHD 30. Visual Basics II. 5 Units
Prerequisite(s): GPHD 25
Term Typically Offered: Fall, Spring

Introduction to the tools, materials and methodologies of the creative process in graphic design. Students study the main components of visual structures, become familiar with basic laws of color, and learn the basic principles of visual organization. The skill of rapid prototyping, through the processes of idea development, thumbnailing, sketching, and mockup, will be covered. Basic concepts in visual systems and graphic message making will be introduced. A special emphasis will be placed on craftsmanship in this course.

GPHD 120. Typography I. 5 Units
Prerequisite(s): DSGN 4, INTD 20, INTD 25, PHOT 20, PHOT 11, GPHD 5, GPHD 20, GPHD 25, GPHD 30, and acceptance into the major via supplemental application.
Corequisite(s): GPHD 125 Fee course.
Term Typically Offered: Fall, Spring

Explores the history and perceptual development of typography and its application in design solutions. Theoretical constructs of typography as they relate to legibility, clarity, composition and output will be addressed. Techniques using compositional layout applications will be covered with an emphasis on typographic accuracy and efficiency as well as preparation of digital files for proper output in a variety of digital and analog formats.
Fee course.

GPHD 122. Design Production and Management. 3 Units
Prerequisite(s): GPHD 5 or GPHD 20, and ART 20A, PHOT 40, GPHD 10, GPHD 20, GPHD 25, GPHD 30, and be a declared GPHD major.
Corequisite(s): GPHD 120, GPHD 125.
Term Typically Offered: Fall only

Introduction to project management techniques specific to the creative business and technical processes for graphic design. Orchestration of image editing, vector and compositing software will be covered with an emphasis in accuracy and efficiency. Various codes and regulations related to graphic design will be reviewed.

GPHD 125. Graphic Design Systems I. 5 Units
Prerequisite(s): DSGN 4, GPHD 5, GPHD 20, GPHD 25, GPHD 30, INTD 20, INTD 25, PHOT 11, PHOT 20, and acceptance into the major via supplemental application.
Corequisite(s): GPHD 120 Fee course.
Term Typically Offered: Fall, Spring

Introduction to the language and perception of design as it is applied to systems. Complex visual structures are created, used in composition and interpreted. Techniques on ideation, design thinking, storyboarding and presentation are covered. Color theory as an integral component of message is addressed. Introduction to project management techniques specific to the creative business and technical processes for graphic design.
Fee course.

GPHD 130. Typography II. 5 Units
Prerequisite(s): GPHD 120, GPHD 125.
Corequisite(s): GPHD 135. Fee course.
Term Typically Offered: Fall, Spring

Advanced typography and its relationship with message. Application of typographic principles to a diverse series of graphic design problems utilizing type and image. Techniques in using a range of digital tools to execute solutions are reviewed.
Fee course.

GPHD 135. User Interface Design. 5 Units
Prerequisite(s): GPHD 120, GPHD 125
Corequisite(s): GPHD 130
Term Typically Offered: Spring only

Emphasis is on design of a user-centered experience in an interactive environment. Enables the students to understand the characteristics of relevant technology and select appropriate forms and functions to create specific experience for users. Introduction to formative research techniques to establish context and audience and summative research techniques to determine success of screen based design solutions.

GPHD 140. User Experience Design. 5 Units
Prerequisite(s): GPHD 130, GPHD 135
Corequisite(s): GPHD 145
Term Typically Offered: Fall, Spring

Emphasis on the development of conceptual themes, formal exploration, and user-centered interaction in time-based design. Enables the students to create vital experiences using text, sound, image, motion, and interactivity. The ability to compile, use, and defend relevant formative and summative research in creation of an appropriate design solution will be covered.
GPHD 142. Advanced Graphic Design I. 3 Units
Prerequisite(s): GPHD 130, GPHD 135.
Corequisite(s): GPHD 140, GPHD 145.
Term Typically Offered: Fall, Spring
Builds on established research, process and project management techniques and provides students with the opportunity to focus on a practical investigation in design. Theoretical, professional, and historical issues facing the design profession will be reviewed. Development of both visual and written research material will culminate in an oral presentation and then be applied to an appropriate project.

GPHD 145. Typography II. 5 Units
Prerequisite(s): GPHD 130, GPHD 135.
Corequisite(s): GPHD 140 Fee course.
Term Typically Offered: Fall, Spring
Builds on established research, process, and project management techniques and provides students with the opportunity to focus on a practical investigation in design. Development of both visual and written research material will culminate in an oral presentation and then be applied to an appropriate project. Semiotics as applied to advanced design problems will be discussed. Image making will be stressed in this course as students experiment with techniques and media including, but not limited to, photography and illustration.
Fee course.

GPHD 150. Graphic Design Digital Portfolio. 3 Units
Prerequisite(s): GPHD 140, GPHD 142, GPHD 145.
Corequisite(s): GPHD 152, GPHD 155.
Term Typically Offered: Fall, Spring
Introduction to the concepts and tools used in a digital portfolio production for entry into the practice of design or the advanced study. Exploration and development of the graphic design portfolio and resume in digital and print form. Discussions will cover such topics as networking, interview tips, employment issues, and presentation skills.

GPHD 152. Advanced Graphic Design II. 3 Units
Prerequisite(s): GPHD 140, GPHD 142, GPHD 145.
Corequisite(s): GPHD 150, GPHD 155.
Term Typically Offered: Fall, Spring
Advanced course in graphic design that requires students to provide solutions to real world design problems. Helps refine the students individual design process and advance their understanding of professional practice. Professional, business, and ethical issues facing the design profession will be reviewed. Development of both visual and written material will be required in a group environment as well as oral and visual presentations of this material.

GPHD 155. Graphic Design Systems II. 5 Units
Prerequisite(s): GPHD 140, GPHD 145.
Corequisite(s): GPHD 150 Fee course.
Term Typically Offered: Fall, Spring
Advanced study of visual systems as applied to branding and way finding. Construction of visual systems for an expansive multi-dimensional design solutions will be covered. Introduction to methods, techniques, and approaches of emotion-driven brand development. Application of syntactic, semantic, and pragmatic aspects of pictorial design systems to wayfinding system development. Exploration of the interplay between environmental conditions and human culture impact decisions in wayfinding system development.
Fee course.

GPHD 195. Fieldwork in Graphic Design. 3 Units
Prerequisite(s): Upper division status; GPA of 2.5 or above; GPHD 130, GPHD 135; instructor permission.
Term Typically Offered: Fall, Spring
Directed observation and supervised work experience in an approved business, government, or service agency. Internships are offered to increase student understanding of the nature and scope of agency operations and giving students orientation in occupational specialties. Supervision is provided by authorized persons in the cooperating agencies and collaborative supervision is provided by the Graphic Design faculty. Minimum of three hours per week per unit of credit is required. Each student maintains a record of activities and assignments and prepares periodic reports.
Note: Students must make arrangements with a faculty member for a work program prior to admittance. No more than 6 units of GPHD 195 may be counted toward the major.
Credit/No Credit

GPHD 196. Introduction to Human Centered Design. 3 Units
Term Typically Offered: Summer only
Introduction to the planning, development, and implementation of innovative tools and services informed by the human perspective. Emphasis on design thinking frameworks and tools used to develop solutions by including participatory action research. Techniques on empathizing with users, defining problems, ideating and prototyping solutions, testing, and iterating are covered. Importance of product accessibility and usability is addressed.

GPHD 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed projects open to students who wish to attempt independent work.
Note: Faculty approval is required. No more than 6 units of GPHD 199 may be counted toward a Graphic Design degree.
Credit/No Credit

BFA in Graphic Design

Units required for major: 78
Minimum units required for BFA: 121

Program Description

The Bachelor of Fine Arts in Graphic Design has been developed to prepare students for professional practice and/or preparation for admission to graduate level study.

The course of study is a layered exploration that starts with fundamental principles of visual communication paired with an intensive introduction to the creative process. Exposure to multiple facets of two and three-dimensional design opens up the students’ ability to engage in interdisciplinary work. Each successive layer builds in complexity to encompass technical, conceptual, and research challenges that run concurrently with a series of classes devoted to professional practice. Historical perspective and ethical concerns are addressed throughout the curriculum. A series of curated electives provide an additional conduit for students to explore possible interdisciplinary connections in their future design practice. The programs goal is to provide the community with a comprehensive visual problem solver that has a strong aesthetic.
ability coupled with a clear understanding of the strategic and conceptual challenges facing them in practice.

Admission Requirements

The Graphic Design program at Sacramento State is one of the most highly sought-after programs in Northern California. Due to the large number of applicants, the program is officially impacted and enrollment in upper division coursework is subject to a supplemental application.

The application for admission includes completion of a specific set of required lower division prerequisites and submission of a portfolio. Portfolio specifications and application procedures are available on the Department of Design website (http://csus.edu/design/). It is highly recommended that interested students speak with a Graphic Design advisor as soon as possible.

Minimum Grade Requirement

Students wishing to become Graphic Design majors must complete a series of required lower division courses with a grade of "C" or better and then must apply for admission to the program.

Prerequisite Lower Division Course Requirements

When submitting an application with the required portfolio students must have completed or be enrolled in the following courses:

Technology Requirement

Students that have been accepted to the Graphic Design program, with the Department of Design, are required to own a laptop computer with appropriate software for upper division courses. Upon beginning upper division coursework this requirement must be met. Before purchasing, please consult your major advisor or the Department of Design Office for the specific minimum requirements for the laptop computer and software.

1. Course also satisfies General Education (GE)/Graduation Requirement.

Graduation Requirements

1. To help you complete your degree in a timely manner and not take more units than absolutely necessary, there are ways to use single courses to meet more than one requirement (overlap). For further information, please visit the General Education page (p. 1100).

Note: There is no way to list all possible overlaps so please consult with a professional advisor. The Academic Advising Center can be visited online (http://www.csus.edu/acad/), by phone (916) 278-1000, or email (advising@csus.edu).

2. If not satisfied before entering Sacramento State, it may be satisfied in General Education Area C2 (Humanities). "C- or better required." The alternative methods for satisfying the Foreign Language Proficiency Requirement are described here: https://www.csus.edu/college/arts-letters/world-languages-literatures/foreign-language-requirement.html

3. Department offers students an "Select from the following" option:
   - If student chooses to take ANTH 2, they will meet one area of Area D (lower division).
   - If students choose to take INTD 125, they will meet the upper division Area D requirement.

**Interior Design**

**College of Arts and Letters, Department of Design**

**Program Description**

The Bachelor of Fine Arts in Interior Architecture has been developed to prepare students for professional practice and/or preparation for admission to graduate level study. The degree is intended for students who want to pursue careers in interior design, interior architecture and architecture.

The program’s foundation is a lower division core that introduces students to the history and theory of design, and, through a series of studio classes, to design practice. Because the lower division core is shared with the Design Department’s other three programs (Design Studies, Graphic Design and Photography), students will have a rich experience that combines an in-depth knowledge of design history with an appreciation for the creative design process. The breadth of courses in the program reflects the importance of both a liberal arts background and professional preparation in the design field.

The Interior Architecture curriculum equips students with the technical, creative, and critical thinking skills needed to practice in a variety of roles and provides comprehensive coverage in all the major areas of training, including concept development, design, communication, presentation, construction, and professional services.
Many of the course assignments are based on actual design projects. Guest lecturers and professional panel critiques and discussions as well as building tours of outstanding projects are all important parts of the curriculum. Community service projects also help to maintain a strong connection to the community and profession.

Upper division studios will provide interior architecture students with the design and technical skills needed to practice interior design and to sit for the NCIDQ exam and become Certified Interior Designers.

When students begin taking upper division studio courses they are required to own a laptop computer and the appropriate software to create two and three dimensional drawings and renderings. Before purchasing, please consult your major advisor or the department office for specific minimum requirements for the laptop computer and software.

**Degree Program**

BFA in Interior Architecture (p. 177)

**Accreditation**

In addition to California State University, Sacramento’s full accreditation by the Western Association of Schools and Colleges, the Bachelor of Fine Arts in Interior Architecture is also accredited by the National Association of Schools of Art and Design (NASAD).

**Notice to Students RE: Professional Licensure and Certification**

California State University programs for professions that require licensure or certification are intended to prepare the student for California licensure and certification requirements. Admission into programs for professions that require licensure and certification does not guarantee that students will obtain a license or certificate. Licensure and certification requirements are set by agencies that are not controlled by or affiliated with the California State University and licensure and certification requirements can change at any time.

The California State University has not determined whether its programs meet other states’ educational or professional requirements for licensure and certification. Students planning to pursue licensure or certification in other states are responsible for determining whether, if they complete a California State University program, they will meet their state’s requirements for licensure or certification. This disclosure is made pursuant to 34 CFR §668.43(a)(5)(v)(C).

**Special Features**

- The Interior Architecture program is accredited by the National Association of Schools of Art and Design (NASAD). The four-year major leads to a Bachelor of Fine Arts degree in Interior Architecture.
- Sacramento State Interior Architecture students have been award winners in numerous design competitions.
- Students are often involved in community design projects as well as projects on our growing campus.
- The Interior Design program at Sacramento State has an active student club (PRINTS) representing the American Society of Interior Designers (ASID) and the International Interior Design Association (IIDA). Monthly meetings feature guest speakers from the professional community and include workshops and field trip events.
- California State University, Sacramento, located in the state capital, is less than 100 miles from the San Francisco Bay Area. This location offers a wealth of professional employment opportunities. Graduates from our program at California State University, Sacramento have secured positions in architectural firms, interior design firms, government agencies, private corporations, furniture manufacturing companies, and design.

**Career Possibilities**

Residential and/or Commercial Interior Designer · Space Planner · Corporate Designer · Interior Design Showroom Manager · Manufacturer’s Representative · Contract Interior Designer · Freelance Design Consultant

**BFA in Interior Architecture**

Units required for Major: 78
Minimum units required for BFA: 120

**Program Description**

The Bachelor of Fine Arts in Interior Architecture is intended for students who are interested in pursuing professional careers as interior designers/interior architects. The program provides students with the technical, creative, and critical thinking skills needed to practice in a variety of roles, including: design, presentation, client contact, field supervision and furniture/lighting specifications. The breadth of courses in the program reflects the importance of both a liberal arts background and professional preparation in the design field. Courses encompass the study of design history and theory, aesthetics, graphics, lighting, space planning, computer-aided design, interior construction, and professional practice.

The Interior Architecture curriculum provides comprehensive coverage in all the major areas of training, including concept development, design, communication, presentation, construction, and professional services. Many of the course assignments are based on actual design projects. Guest lecturers and professional panel critiques and discussions as well as building tours of outstanding projects are all important parts of the curriculum. Community service projects also help to maintain a strong connection to the community and profession.

**Minimum Grade Requirement**

A minimum grade of “C” or better is required in all major course requirements.

Total Units 43

Photography

College of Arts and Letters, Department of Design

Program Description

The Bachelor of Fine Arts in Photography at Sacramento State is aimed at educating students in contemporary photographic methodologies and in the current situation of photography, its use and communicative effects. The curriculum is designed to give students a broad exposure to not only the technologies, processes, and models of contemporary practice, but also to introduce them to the aesthetic, cultural, and ethical dialogues surround the use and role of photography in our society. The program does not aim to create, specifically, studio artists or commercial practitioners, but to give students the tools to act in a world where such models are concurrent and highly overlap. We wish our students to be adaptable in a changing landscape of photographic practice, and to be successful and responsible in their role shaping how and what images communicate.

The Bachelor of Fine Arts in Photography is intended for students who are interested in pursuing careers as photographic image makers. The program provides students with the technical, creative, and critical thinking skills needed to practice in a variety of fields including art, design, editorial, and production. The breadth of courses in the program reflects the importance of both a liberal arts background and professional preparation in the field. Courses encompass the study of photographic and graphic history and theory, aesthetics, design, contemporary digital and analog photographic practice, lighting, complex planning, and professional practice.
Degree Program
BFA in Photography (p. 181)

Special Features
- Among the facilities available for Photography students is a large digital lab furnished with Macintosh computers, large format inkjet printers, and film and flatbed scanners. There is also an alternative process facility, a well-equipped chemical darkroom, and a studio lighting facility.
- The Photography program has a generous collection of equipment available for student checkout that includes small, medium and large format cameras, various lenses, tripods, and portable lighting equipment.
- A Design Department gallery on the 4th floor of Mariposa Hall that regularly exhibits student work.

Career Possibilities
Photography is one of the most widely used forms of visual communication in our world today. As the technology to create and share visual imagery has become more accessible and expedient, photographs have taken on a vital role in how we share complex visual information. We use it both to form and communicate the sense of who and what we are via social media, and it is an important tool in the material and mental exploration and interpretation of our world. The Photography degree at Sacramento State prepares students to thoughtfully engage in the production, interpretation, and presentation of photographic images, asking them to consider how these images can be created and used in the world, whether in personal, social, or professional contexts. While gaining technical skills in the production of photographs, students engage rigorously in the conceptual discourse surrounding photographic images (their use and meaning) and are encouraged to consider the application of photographs broadly and with flexibility. Students who earn a degree in Photography can bring this expertise to all career fields, whether these are the more traditional photographic careers that occur in the fine arts, commercial photography, journalism, or editorial work, or in the any of the myriad professions that need and rely on photographic imagery to help define, gather, and assess information, or communicate who and what they are.

POOR, NIGEL
SHEPARD, NICK

PHOT 101.  Photography, Inception to Mid-Century.  3 Units
Term Typically Offered: Fall only

Introduces students to the history of photography, from inception to Mid-20th Century. Practices of photographers and artists, working with photographic technologies, will be discussed. The course examines photographic vision and the impact of the medium through lectures and readings by art historians and photographers. Cross-listed: ART 101.

PHOT 102.  Photography, a Social History.  3 Units
Term Typically Offered: Spring only

Examines photographic vision and the impact of the medium on society through readings by both photographers and photographic critics. Establishes the importance of photography as a contemporary medium, explores the development of photographic vision and the relationship between photographs and cultural events. Lecture/discussion.
PHOT 111. Intermediate Digital Photography. 3 Units
Prerequisite(s): PHOT 11 and PHOT 40
Term Typically Offered: Fall, Spring
Covers intermediate to advanced concepts and techniques in digital photographic practice, providing students with the ability to explore both new and previously mastered software and hardware applications. Emphasis is on using digital techniques to generate and print effective and imaginative photographs. Lectures, discussion, and assignments focus on expanding the technical, aesthetic, and conceptual concerns surrounding the creation of contemporary photographic images.

PHOT 141. Intermediate Darkroom Photography. 3 Units
Prerequisite(s): PHOT 40 and PHOT 11
Term Typically Offered: Fall, Spring
Course covers intermediate level concepts and skills in chemical-process photographic practice. Emphasis is placed on the artistic potential of camera- and darkroom-based image production and manipulation. Lectures, discussions, and assignments focus on expanding the aesthetic and conceptual concerns surrounding the creation and application of photographic imagery.

PHOT 148. Artificial Light, Studio. 3 Units
Prerequisite(s): PHOT 111 and PHOT 141
Corequisite(s): PHOT 102 and PHOT 155
Term Typically Offered: Spring only
A commercially oriented course with assignments covering such topics as food, fashion and products photographed with artificial light in the studio. Business, legal and ethical practices in commercial and editorial photography are discussed as they apply to work done in a studio setting. Students are expected to become visually and technically competent with artificial light sources used in a studio setting.

PHOT 149. Artificial Light, Location. 3 Units
Prerequisite(s): PHOT 148 and PHOT 155
Corequisite(s): PHOT 165
Term Typically Offered: Fall only
A location lighting course covering the use of artificial light and non-studio photography. Assignments cover such topics as: interior and exterior architecture, food and fashion shot on location. Techniques for combining the use of hot lights, electronic flash and ambient light are discussed. Students will use a body of work demonstrating their visual and technical understanding of artificial light sources for editorial and commercial application.

PHOT 155. Advanced Photography Techniques. 3 Units
Prerequisite(s): PHOT 111 and PHOT 141
Corequisite(s): PHOT 102 and PHOT 148
Term Typically Offered: Spring only
Explores advanced techniques in the production of photographic imagery, with special emphasis on the hybridization of photographic processes. Lectures cover advanced chemical and digital photographic procedures in camera use and printing techniques. Students must demonstrate a high level of visual awareness and technical competency, and must be willing to take risks in the creative application of photographic processes.

PHOT 161. Photography in the Field. 3 Units
Prerequisite(s): PHOT 141 or instructor permission.
Term Typically Offered: Fall, Spring
The class visits specific sites followed by a group critique of the resulting photographic work. The course objective is to examine how one situation can be interpreted by many varied sensibilities, broadening the artist’s visual vocabulary. Students are required to create visually unified portfolio that demonstrates a sense of place.

PHOT 162. Alternative Photographic Processes. 3 Units
Prerequisite(s): PHOT 141 or instructor permission.
Term Typically Offered: Fall, Spring
Studio course exploring alternative photographic processes that may include: printing-out paper, new cyanotype, argyrotype, and platinum-palladium. Slide discussions, individual and class critiques.

PHOT 163. Pinhole Photography. 3 Units
Prerequisite(s): PHOT 40 or equivalent.
Term Typically Offered: Fall, Spring
Intermediate course investigating the theory, history, and practice of pinhole photography. Use of student-made pinhole cameras of varying focal lengths using black and white and color materials. Emphasis on creative approach in both camera making and image formation, supported by intermediate-level photographic technique. Individual final portfolios and group exhibition of cameras and prints at conclusion of course.

PHOT 165. Issues in Contemporary Photographic Practice. 5 Units
Prerequisite(s): PHOT 148 and PHOT 155 Fee course.
Term Typically Offered: Fall only
Covers advanced problems in the process of creating photographic work. Emphasis is on the ways which content/form relationships within a body of work are informed by the artist’s conceptual and material engagement, as well as the way in which process and context shape meaning in photographic work. Course centers on readings in contemporary theory and aesthetics, discussion, the production of photographic work, and critique.

PHOT 175. Studio Topics in Photography. 3 Units
Prerequisite(s): PHOT 148 and PHOT 155
Term Typically Offered: Fall, Spring
This class is a broad investigation of photography's potential. Each semester the class concentrates on a photographic strategy including but not limited to: documentary, journalism, fabrication, image and text, and the archive. Students are introduced to photography's varied application, new developments and conversations in the medium. Readings and discussions will enlist a range of theoretical and critical approaches. Course center on readings, discussion, production of photographic work and critique.
PHOT 180. Senior Portfolio. 5 Units
Prerequisite(s): PHOT 165 Fee course
Term Typically Offered: Spring only
A senior level course aimed at furthering student’s knowledge of postgraduate opportunities. The required final portfolio of images will reflect the student’s photographic education, experience and area of expertise. The content and format of this portfolio will depend on the student’s future academic or professional goals.
Note: Type III Fee $45

PHOT 195. Internship In Photography. 3 Units
Prerequisite(s): A minimum of two upper division photography courses.
Term Typically Offered: Fall, Spring
Directed observation and work experience with public agencies, organizations, publications, design or photography studios. Fieldwork is offered to give students experience, personal contacts and orientation in the area of professional photography. Supervision is provided by faculty and the cooperating community employer. Students are required to maintain a detailed record of activities and report regularly to the supervising faculty member. To receive credit the selected activity must be approved prior to adding the course. Ten hours weekly.
Credit/No Credit

PHOT 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed readings in photography. Open to students who are working at an advanced level of photography and competent to carry on individual work.
Credit/No Credit

PHOT 299. Special Problems. 1 - 3 Units
Prerequisite(s): Requires instructor approval.
Term Typically Offered: Fall, Spring
Individual projects or directed readings in photography for graduate level students. Open to students who are working at an advanced level of photography and competent to carry on individual work.
Credit/No Credit

BFA in Photography

Units required for Major: 79
Minimum units required for BFA: 120

Program Description

The Bachelor of Fine Arts in Photography is intended for students who are interested in pursuing careers as photographic image makers. The program provides students with the technical, creative, and critical thinking skills needed to practice in a variety of design and art fields. The breadth of courses in the program reflects the importance of both a liberal arts background and professional preparation in the design field. Courses encompass the study of photographic and graphic history and theory, aesthetics, design, contemporary digital and analog photographic practice, lighting, complex planning, and professional practice.

The Photography curriculum provides comprehensive coverage in all major areas of training, including techniques in contemporary photographic image making, concept development and communication, image production and presentation techniques, critical image evaluation, historical understanding and contextualization, and issues of proper conduct and ethics within the field. Guest lecturers are an important part of the photography curriculum.

College of Arts and Letters

Program Description

The English department of California State University, Sacramento, is a community of teachers, scholars, writers, and support staff whose primary mission is to promote learning in composition, creative writing, English education, linguistics, literature, and the teaching of English as a second language. The department seeks to help students acquire knowledge, develop skills, and realize their own intellectual and creative goals.

At the undergraduate and graduate levels, the English Department presents a broad and balanced curriculum designed to develop the reading and writing skills, the interpretative abilities, and the cultural awareness of its students by maintaining and enhancing a tradition of strong teaching, solid scholarship, and vigorous support of creative literary activity.

Degree Programs

BA in English (p. 203)
Minor in English (p. 212)
Minor in Teaching English to Speakers of Other Languages (TESOL) (p. 212)
Single Subject Matter Program (Pre-Credential Preparation) (p. 212)
Certificate in Teaching Composition (p. 205)
Certificate in Advanced Study in Teaching English to Speakers of Other Languages (TESOL) (p. 206)
MA in English (Creative Writing) (p. 207)
MA in English (Literature) (p. 208)
MA in Teaching English to Speakers of Other Languages (TESOL) (p. 210)

Special Features

A Course Description Booklet giving detailed descriptions of courses to be offered in the next semester, together with statements of requirements for the major and minor and for the graduate program, will be available on the English Department Web site a month or so before registration materials are issued. All students are assigned an English faculty advisor; students are encouraged to consult with them in planning schedules. English majors and minors are urged to examine their career goals early in their program and to discuss their plans with English Department faculty advisors.

Qualified upper division and graduate students may apply for paid assistantships or associateships in the English Department. Student Assistants and Graduate Assistants usually work from 10 to 20 hours per week at such tasks as tutoring and clerical assistance. Teaching Associates normally teach one section of composition each semester for up to three semesters. Information is available on the English Department website.

Internships are available for academic credit and career training governmental agencies, businesses, community colleges, and other institutions and organizations.

Students interested in the various aspects of publication are encouraged to become involved in the student-produced Calaveras Station Literary Journal, a professional-quality journal of student work published annually. Submissions, solicited in fall semester, are open to all Sacramento State students.

Career Possibilities

ENGL 1. Basic Writing Skills. 3 Units
Prerequisite(s): Score of 146 and below on English Placement Test or credit in ENGL 15. Department approval required.
Term Typically Offered: Spring only

Prepares students for the challenging thinking, reading, and writing required in academic discourse. Uses writing as a means for discovery and reflection as well as reading as a source for ideas, discussion, and writing. Concentrates on developing expository essays that communicate clearly, provide adequate levels of detail, maintain overall coherence and focus, and demonstrate awareness of audience and purpose.
Note: May be taken for workload credit toward establishing full-time enrollment status, but is not applicable to the baccalaureate degree.

ENGL 1C. Critical Thinking and Writing. 3 Units
Prerequisite(s): Grade of C- or better in ENGL 5.
Term Typically Offered: Fall, Spring

Devoted to the principles of critical thinking and the writing of argumentative essays. Focuses upon formulating defensible statements, evaluating evidence, and applying the principles of inductive and deductive reasoning.

ENGL 3. Introduction to Academic Discourse. 4 Units
Term Typically Offered: Fall, Spring

Offers students a rigorous introduction to academic discourse at the college level in the areas of critical reading, critical thinking, academic discussion, and the use of academic research. Concentrates on using expository texts as a foundation for analyzing the rhetorical strategies and effectiveness of an argument. Promotes academic discussion and fosters intellectual curiosity and collaboration.
Note: Receives baccalaureate credit.
Credit/No Credit

ENGL 3M. Introduction to Academic Discourse for Multilingual Students. 4 Units
Term Typically Offered: Fall, Spring

Offers multilingual students a rigorous introduction to academic discourse at the college level in the areas of critical reading, critical thinking, academic discussion, and the use of academic research. Concentrates on using expository texts as a foundation for analyzing the rhetorical strategies and effectiveness of an argument. Promotes academic discussion and fosters intellectual curiosity and collaboration.
Note: Receives baccalaureate credit.
Credit/No Credit

ENGL 5. Accelerated Academic Literacies. 3 Units
General Education Area/Graduation Requirement: Written Communication (A2)
Term Typically Offered: Fall, Spring

Intensive, semester-long course to help students use reading, writing, discussion, and research for discovery, intellectual curiosity, and personal academic growth - students will work in collaborative groups to share, critique, and revise their reading and writing. Students will engage in reading and writing as communal and diverse processes; read and write effectively in and beyond the university; develop metacognitive understandings of their reading, writing, and thinking processes; and understand that everyone develops and uses multiple discourses.
Note: Writing requirement
ENGL 11M. Academic Literacies II-Multilingual. 3 Units
General Education Area/Graduation Requirement: Written Communication (A2)
Term Typically Offered: Spring only

Continued study (following ENGL 10M) to help multilingual students use reading, writing, discussion, and research for discovery, intellectual curiosity, and personal academic growth - students will work in collaborative groups to share, critique, and revise their reading and writing. Students will engage in reading and writing as communal and diverse processes; read and write effectively in and beyond the university; develop a metacognitive understanding of their reading, writing, and thinking processes; and understand that everyone develops and uses multiple discourses.

Note: Writing requirement

ENGL 15. College Language Skills. 4 Units
Prerequisite(s): Score of 120-141 on the English Placement Test.
Term Typically Offered: Fall, Spring

Instruction in reading and writing skills. Focuses on the interrelationship of reading and writing, with emphasis on development, organization, and clarity of communication. Lecture three hours; lab two hours.

Note: Utilizes computers.

ENGL 16. Structure Of English. 3 Units
Prerequisite(s): ENGL 5 or equivalent.
Term Typically Offered: Fall, Spring

Introduction to the terminology and structure of traditional grammar; analysis of the standard rules for agreement, punctuation, pronoun reference, etc.; introduction to social variance with respect to usage-standard vs. non-standard; and a description of the English sound system (vowels and consonants) and its relationship to standard orthography (sound/letter correspondences) spelling rules.

ENGL 20. College Composition II. 3 Units
Prerequisite(s): Completion of ENGL 5 or ENGL 5M OR ENGL 11 or ENGL 11M or equivalent with a C- or better; sophomore standing (must have completed 30 units prior to registration).
Term Typically Offered: Fall, Spring

Advanced writing that builds upon the critical thinking, reading, and writing processes introduced in ENGL 5 and ENGL 5M. Emphasizes rhetorical awareness by exploring reading and writing within diverse academic contexts with a focus on the situational nature of the standards, values, habits, conventions, and products of composition. Students will research and analyze different disciplinary genres, purposes, and audiences with the goals of understanding how to appropriately shape their writing for different readers and demonstrating this understanding through various written products.

Note: Writing requirement

Advanced writing for multilingual that builds upon the critical thinking, reading, and writing processes introduced in English 5/5M. Emphasizes rhetorical awareness by exploring reading and writing within diverse academic contexts focusing on the situational nature of the standards, values, habits, conventions, and products of composition. Students will research and analyze different disciplinary genres, purposes, and audiences with the goals of understanding how to appropriately shape their writing for different readers and demonstrating this understanding through various written products.

**Note:** Writing requirement

| ENGL 21    | First Year Seminar: Becoming an Educated Person         | 3     |                                                                                | Understanding Personal Development (E)                               | Fall only                    |      |

Introduction to the meaning of higher education, resources of the University, and skills for lifelong learning. Designed to help students develop academic success strategies and to improve information literacy, intercultural competence, and integrative thinking. Provides students with the opportunity to interact with fellow students and seminar faculty to build a community of academic and personal support, as well as explore gerontological concepts needed to respond to demographic changes in today's world.

**Note:**

| ENGL 30A   | Introduction to Creative Writing                        | 4     |                                                                                |                                                                      | Fall, Spring                 |      |

Workshop for students who have had little or no experience writing fiction or poetry and who are trying to decide if they are interested in becoming writers. Over the course of the semester, students write and polish several poems and short stories which they present for critique and commentary. In addition, they study the basic elements of fiction and poetry and learn how to use these effectively in their own work.

**Note:**

| ENGL 30B   | Introduction to Writing Fiction                          | 4     |                                                                                |                                                                      | Fall, Spring                 |      |

Workshop for students who have had little or no experience writing fiction. Students write and polish several short stories which they present for critique and commentary. In addition, they study the basic elements of plot, character, description, and dialogue and learn how to use these effectively in their own fiction.

**Note:**

| ENGL 30C   | Introduction to Poetry Writing                           | 4     |                                                                                |                                                                      | Fall, Spring                 |      |

Designed for lower division students who have little or no experience writing poetry. Students will write approximately twelve poems in a variety of forms and receive instruction and practice in the workshop method. In addition, they study the basic elements of poetic craft: rhythm, enjambment, basic figures of speech, etc., and how to use them effectively in their own poetry.

**Note:**

| ENGL 40A   | Introduction to British Literature I.                   | 3     |                                                                                | Humanities (Area C2)                                                 | Fall only                    |      |

Major developments in the literature of England from Chaucer through the close of the Augustan Age.
ENGL 86. College Language Skills for Multilingual Students. 4 Units
Prerequisite(s): Score of 120-141 on the English Placement Test or score of 2 or 3 on the English Diagnostic Test.
Term Typically Offered: Fall, Spring

Focuses on the interrelationships of reading and writing, with emphasis on development, organization, grammar, and clarity of communication. Lecture three hours; lab two hours.
Note: Utilizes computers.
Credit/No Credit

ENGL 87. Basic Writing Skills for Multilingual Students. 3 Units
Prerequisite(s): Score of 142-145 on English Placement Test or score of 4 on English Diagnostic Test, or credit in ENGL 86.
Term Typically Offered: Fall, Spring

Emphasizes writing and language development. Instruction in reading and essay writing, from idea generation to revision and editing.
Credit/No Credit

ENGL 90A. Modern Short Plays. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

ENGL 97. Introduction to Film Studies. 3 Units
Term Typically Offered: Fall, Spring

Examines cinematic techniques, styles, vocabulary, and discourses. Introduces different ways for writing about films and for working with a variety of cinematic terms. Film form and style will be studied by examining specific scenes in films from different genres, nations, and directors. Films used throughout the course will be selected from different historical periods.
Cross-listed: FILM 97.

ENGL 98. Introduction to Film Discourse and Analysis. 4 Units
Term Typically Offered: Fall, Spring

An introduction to cinematic vocabulary, film history, and film analysis. Through this introduction, students will learn how to write about and analyze film. The course prepares students for upper division work in film studies and cultural analysis. The course includes a significant research and/or creative project.

ENGL 100B. Literary Theory. 4 Units
Term Typically Offered: Fall, Spring

Designed to engage students in a productive conversation about the various theories of literature and reading that currently inform Literary Studies. Provides a historical overview of modern theory including, but not limited to, Formalism, Structuralism, Psychoanalysis, Marxism, Deconstruction, and Feminism. Students are encouraged to apply these theories to their practice of literary criticism and to assess the strengths and weaknesses of each paradigm.

ENGL 100Z. Topics in Literary Theory and Criticism. 4 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Investigates one or more schools of literary theory or criticism and their application to works of literature and/or film.
Note: May be repeated twice for credit as long as topics vary; Writing Intensive

ENGL 105. Film Theory and Criticism. 4 Units
Term Typically Offered: Fall, Spring

Survey of film theory focusing on Auteurism, Class, Expressionism, Formalism, Genre, Gender, Narratology, Neorealism, Phenomenology, Post Structuralism, Psychoanalysis, Realism, Semiology, Structuralism and Third Cinema.

ENGL 109M. Writing for GWAR Placement-Multilingual. 3 Units
Prerequisite(s): ENGL 20 with at least a C- grade and have and have completed at least 60 semester units.
Term Typically Offered: Fall, Spring

Provides intensive practice in prewriting, drafting, revising, and editing academic writing for multilingual writers. Students research, analyze, reflect on, and write about the kinds of writing produced in academic disciplines. Students produce a considerable amount of writing such as informal reading responses, rhetorical analyses, and an extended academic research project: students will submit their writing late in the semester in a GWAR Portfolio, from which they will receive a GWAR Placement.

ENGL 109W. Writing for GWAR Placement. 3 Units
Prerequisite(s): English 20 with a C- grade or better and have completed at least 60 semester units.
Term Typically Offered: Fall, Spring

Provides intensive practice in prewriting, drafting, revising, and editing academic writing. Students research, analyse, reflect on, and write about the kinds of writing produced in academic disciplines. Students produce a considerable amount of writing such as informal reading responses, rhetorical analyses, and an extended academic research project: students will submit their writing late in the semester in a GWAR Portfolio, from which they will receive a GWAR Placement.

ENGL 109X. Writing-Intensive Workshop. 1 Unit
Prerequisite(s): Writing Placement for Juniors: student who receive a 4-unit placement on the WPJ.
Corequisite(s): Writing-Intensive upper-division course.
Term Typically Offered: Fall, Spring

Student-centered group tutorial which will offer supplemental instruction in elements of academic writing taught in writing-intensive upper-division courses; it will provide support to students concurrently enrolled in writing-intensive upper-division courses throughout the writing process, including drafting, revising, and editing, for a variety of papers.
Credit/No Credit
ENGL 110A. Linguistics and the English Language. 3 Units
Term Typically Offered: Fall, Spring

Survey of modern English and the basic concepts of modern linguistics. Students will learn how linguists view regularity in language, as exemplified by data from English. Students will also learn how English spelling is an imperfect representation of sounds, how the sound system of English operates, how words and sentences are formed and may be analyzed, how the language changes over time, space, and social setting, and how the language is learned by children and adults.

ENGL 110B. History of the English Language. 3 Units
Term Typically Offered: Fall, Spring

Survey of the linguistic and social history of the English language, tracing its growth from a minor dialect of the Germanic family to one of the most widely spoken languages of the world. Topics include structural change in the language, vocabulary growth, and variation in English around the world.

ENGL 110C. Technology in Second Language Teaching. 3 Units
Term Typically Offered: Summer only

Prepares language teachers to effectively integrate technology into classrooms. Examines theoretical rationales for using computer-assisted language learning, the range of uses of technology in classrooms, and best practice. Develops students' technological literacy and ability to critically evaluate computer-assisted language teaching materials. Cross Listed: ENGL 210C; only one may be counted for credit.

ENGL 110J. Traditional Grammar and Standard Usage. 3 Units
Term Typically Offered: Fall, Spring

Develops a thorough understanding of basic issues in traditional English grammar and usage. It emphasizes knowledge of traditional grammar needed by single-subject credential students expecting to teach high school English. Topics include parts of speech, functions of words in sentences, phrases and clauses, and punctuation. Students will learn to apply their knowledge of grammar in composition instruction and marking essays. Students will also study use of specific grammatical features in developing rhetorical styles.

ENGL 110P. Second Language Learning and Teaching. 3 Units
Term Typically Offered: Fall, Spring

Surveys the major issues involved in the acquisition of second languages and in teaching second language (L2) students. Topics covered include differences between first and second language acquisition, including age, biology, cognitive styles, personality, sociocultural factors, and linguistic variables; in addition, various models, techniques and approaches to L2 teaching are covered. Special attention is given to the unique demographics and characteristics of language minority students in California's public schools.

ENGL 110Q. English Grammar for ESL Teachers. 3 Units
Term Typically Offered: Fall, Spring

A survey of those aspects of English grammar that are relevant to teaching second language learners of English. The emphasis is on elements of simple and complex sentences, particularly the structure of noun phrases, the meanings of verb forms, and the expression of adverbal meanings.

ENGL 116A. Studies in Applied Linguistics. 3 Units
Prerequisite(s): GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.
Term Typically Offered: Fall, Spring

Students learn the basics of the English system of phonology and morphology. Takes an integrated approach synthesizing the issues of phonics, schemata-building, and whole language strategies in teaching reading and writing to young learners. Students will also learn the importance of first and second language acquisition for elementary school students. Evaluation will include classroom examinations, and students will also undertake a detailed case study of one child learning to read and write.

ENGL 116B. Children's Literary Classics. 3 Units
Prerequisite(s): Successful completion of at least 60 units (junior standing).
Term Typically Offered: Fall, Spring

Introduction to the rich profusion of children's literature from a variety of cultures and countries and provides the opportunity to respond to this literature creatively and personally. Students will become familiar with the basic terminology of literary analysis -- themes, irony, point-of-view, etc. -- in order to deepen and enrich their experiences with the fiction, drama, and poetry available to young people. The readings are balanced for gender, culture, and ethnic concerns.

ENGL 120A. Advanced Composition. 4 Units
Prerequisite(s): GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.
Term Typically Offered: Fall, Spring

Intensive writing workshop in which student writing is the focus. Students will engage in a writing process that will include feedback from peers and the instructor throughout the process. This writing process may occur in a variety of rhetorical situations and genres. Through reflection on their writing products and processes, students will gain an awareness of themselves as writers. By the end of the course students will complete an extensive research project and a guided project focused on academic inquiry.

Note: ENGL 120A is a requirement for English majors.

ENGL 120C. Topics in Composition. 4 Units
Prerequisite(s): ENGL 20 or ENGL 120A. GWAR certification before Fall 09, or WPJ score of 80+, or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
Term Typically Offered: Fall, Spring

Offers a rotating series of topics relevant to composition studies, such as technology-based writing, writing across the curriculum, critical literacy, etc. Introduces students to the theory and practice of the field under consideration. Regardless of the topics, students will explore the major scholarly works of the field and produce writing that analyzes and utilizes the concepts in the area under consideration.

Note: May be repeated for credit as long as topic differs.
Professional Writing. 4 Units
Prerequisite(s): ENGL 20 or ENGL 120A. GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive
Term Typically Offered: Fall, Spring
Teaches students the most common professional writing genres used in career fields ranging from business to public relations to nonprofit management. Focuses on how business or technical communication is different from academic styles and introduces students to the current writing challenges and practices in these fields. Students will gain instruction and practice composing various essential writing formats, such as memos, reports, and feasibility studies.

Topics in Rhetoric. 4 Units
Prerequisite(s): Complete ENGL 20 or ENGL 120A; GWAR certification before Fall 2009; or WPJ score of 80 or above; or 3-unit placement in ENGL 109M/W; or 4-unit placement in ENGL 109M/W + co-enrollment in ENGL 109X; or WPJ score 70/71 + co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive
Graduation Requirement (WI)
Term Typically Offered: Fall, Spring
Offers a rotating series of topics relevant to rhetorical studies, such as digital rhetoric, cultural rhetorics, contemporary rhetorical theories, etc. Introduces students to the theory and practice of the field under consideration. Regardless of the topic, students will explore the major scholarly works of the field and produce writing that analyzes and utilizes the concepts in the area under consideration.
Note: May be repeated for credit as long as topic differs.

Writing in the Social Sciences. 3 Units
Prerequisite(s): GWAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109 M/W.
Term Typically Offered: Fall, Spring
Introduces principles of analyzing and composing texts appropriate for various social science disciplines. Provides practice in analyzing texts in social science journals and in writing abstracts, summaries, and literature reviews. Appropriate for upper-division undergraduate students and beginning graduate students in TESOL and in other social science programs (e.g., psychology, sociology, anthropology, etc.)

Technical Writing. 4 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Written Communication
Term Typically Offered: Fall, Spring
Teaches students the skills of a technical communicator capable of translating information created by technical experts for non-expert readers, whether those are business decision makers or members of the public. Focuses on how technical communication is different from academic styles and introduces students to the current writing challenges and practices. Prepares students to craft messages using ever-changing and increasingly powerful, integrated media. 4 units

MLA and APA Style Guides. 1 Unit
Corequisite(s): ENGL 120A, ENGL 198T, a Writing Intensive course, or instructor permission.
Term Typically Offered: Fall, Spring
Students will learn how to format papers, cite sources, and integrate in-context citations into their work according to MLA and APA formatting and style guides.

Writing Center Tutoring. 1 Unit
Term Typically Offered: Fall, Spring
One-on-one tutoring in reading and writing at the University Writing Center. Student writers will meet with assigned tutor an hour a week. Topics could include understanding assignments, prewriting, revising, reading strategies, editing strategies, integrating research, etc. Students must sign up for a regular tutoring session time during week two of the semester at the University Writing Center.
Note: May be repeated for credit.

Literature and Film for Adolescents. 4 Units
Prerequisite(s): ENGL 20 or ENGL 120A and COMS 104 or COMS 4
Term Typically Offered: Fall, Spring
Provides prospective secondary school English teachers with an opportunity to think through important issues related to the planning and implementation of literature programs for adolescents. Equal emphasis will be given to the study of poetry, fiction, non-fiction, drama, and film. The focus will embrace literature from a variety of cultures and periods.

Writing and the Young Writer. 3 Units
Prerequisite(s): ENGL 20 or ENGL 120A; and ENGL 110J or ENGL 110Q or ENGL 16
Term Typically Offered: Fall, Spring
Provides an introduction to teaching writing in high school and operates on the assumption that the need for and impact of writing competence for students is interdisciplinary and pervasive. The class has a workshop format, and students will practice many of the strategies studied. The texts will cover theoretical issues in teaching composition and practical methods of implementing theory in public school classrooms.

Academic Reading and Writing for Second Language Students. 3 Units
Term Typically Offered: Fall, Spring
Helps prospective teachers to better understand the unique needs of second language students. Covers second language acquisition theory with particular emphasis on the teaching of reading and writing for academic purposes. Practical skills covered will all focus on the particular needs of second language readers and writers, for instance, how to help them to read more efficiently and with greater comprehension, how to write more fluently and accurately in ways that meet the needs and expectations of the academic discourse community.

Teaching Oral Skills. 3 Units
Term Typically Offered: Fall, Spring
Provide students with both the necessary background knowledge as well as the specific pedagogical tools for promoting proficiency in spoken interaction, listening skills, and pronunciation in second language/foreign language contexts, specifically, English as a Second Language (ESL) and English as a Foreign Language (EFL).
ENGL 130A. Intermediate Fiction Writing. 4 Units
Prerequisite(s): ENGL 30A or ENGL 30B
Term Typically Offered: Fall, Spring
Workshop for students who already have some experience writing short stories. Students write and polish several stories which they present for critique and commentary. They also take an in-depth look at the theory and craft of fiction-writing, analyze the stories of contemporary writers from diverse ethnic and cultural backgrounds, and learn how to apply what they have learned to their own writing.

ENGL 130B. Intermediate Poetry Writing. 4 Units
Prerequisite(s): ENGL 30A or ENGL 30C.
Term Typically Offered: Fall, Spring
Designed for students interested in developing their poetic expression beyond the basics covered in ENGL 30A and ENGL 30C. Emphasizes practice and experimentation with meters, verse forms, and figures of speech. Focal points for analysis and discussion will be poems and essays by contemporary poets of various aesthetic orientations, as well as work produced by members of the class.

ENGL 130C. Special Topics in Poetry Writing. 0 Units
Prerequisite(s): ENGL 30A or ENGL 30C.
Term Typically Offered: Fall, Spring
Provides students with further opportunity to refine their poetic craft beyond the levels achieved in 30C and 130B. Emphasizes further experimentation with meters, verse forms, and figures of speech as well as questioning the "rules" of poetry and encouraging students to blur or defy the boundaries of genre. Focal points for analysis and discussion will be poems and essays by contemporary poets of various aesthetic orientations, as well as work produced by members of the class.

ENGL 130D. Meter and Rhythm. 4 Units
Term Typically Offered: Fall, Spring
Offers an in-depth study of prosody including the principles of meter (line measurement) and scansion (the marking of stressed syllables to determine meter and rhythm), as well as examining the relationship of these principles to verse in English. Examines a variety of poetic schemes, tropes, and forms. Three hours, lecture and guided practice.

ENGL 130F. Writing For Television. 4 Units
Term Typically Offered: Fall, Spring
Focuses on training students in video literacy and script writing for the video explosion: educational media, documentaries, and interactive programs.

ENGL 130G. Between Genres: Flash Fiction/Prose Poetry. 4 Units
Term Typically Offered: Fall, Spring
Offers undergraduate poets and fiction writers the opportunity to explore/experiment with the long-standing anti-genre of the poetry/fiction hybrid. For 200 years writers around the world have noted the symbiosis between the genres of poetry and prose. Currently, some of America's most exciting writers are currently exploring the margins between prose poetry, flash fiction, and related evolving forms. Prerequisite: ENGL 30A, ENGL 30B, or ENGL 30C.

ENGL 130J. Writing Feature Film Scripts. 4 Units
Term Typically Offered: Fall, Spring
Workshop designed for students who have little or no previous experience writing for the screen. Students write the synopsis, treatment, and part of the master scene script for a feature film, all of which are polished and revised in a workshop setting. Special attention is given to the dynamics of plot, characterization, and dialogue with an emphasis on the difference between writing for film and writing other kinds of fiction.

ENGL 130M. Art of Autobiography. 4 Units
Prerequisite(s): At least a C- grade in ENGL 30A or 30B, and GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring
Students keep a journal and write several drafts of an autobiographical essay which they present for critique and commentary. They also read and analyze several biographies and journals by writers from diverse ethnic and cultural backgrounds.

ENGL 130N. Creative Non-Fiction. 4 Units
Prerequisite(s): ENGL 30A or ENGL 30B.
Term Typically Offered: Fall, Spring
Students write several non-fiction pieces which may include (but are not limited to) autobiography, memoir, nature-writing, travel writing, and literary memoir. Students need not previously have had fiction-writing experience to take this course, but they must be prepared to write literary non-fiction of high quality.

ENGL 130W. Advanced Poetry Writing. 3 Units
Prerequisite(s): ENGL 30A or ENGL 30C
Theory and practice in the writing of poetry at the advanced level. Consists primarily of the preparation and evaluation of student work. Students arc also assigned supplemental readings designed to help them determine their affinity (or lack of affinity) with current poetic theory and practice.

ENGL 130Y. Creative Writing for Young Audiences. 4 Units
Term Typically Offered: Fall, Spring
In this creative writing course students will learn how to write children’s literature in a wide array of genres, including picture book texts, early readers, poetry, and middle grade and young adult novels. The course will give an overview of these genres and through portfolio assignments allow students to sample different genres and gain expertise in one particular genre. Prerequisite ENGL 30A or ENGL 30C or ENGL 30B

ENGL 140A. Introduction to Old English. 4 Units
Term Typically Offered: Fall, Spring
Study of the grammar of Old English with particular attention to its survival in the modern language. Shows students how to use their instincts as native speakers of Modern English to acquire a good working sense of the original form of the language. Readings in biblical and historical texts will be supplemented by an introduction to Old English paleography which will allow students to access literature in the original.
ENGL 140B. Medieval Literature.  4 Units
Term Typically Offered: Fall, Spring
Survey of English literature from 1100 to 1500. Students will read texts from the various genres of Middle English literature—romance, lyric, ballad, lay, drama, history—in the dialects of origin. Focuses on how medieval thought both differs from and anticipates modern thought.

ENGL 140C. The English Renaissance.  4 Units
Term Typically Offered: Fall, Spring
The early modern period was a time of exploration, experimentation, and creativity during the sixteenth and early seventeenth centuries in England. The writers of the age include Queen Elizabeth I, Lady Mary Wroth, Sir Thomas Wyatt, Sir Philip Sidney, William Shakespeare, Christopher Marlowe, Edmund Spenser, John Donne, Aemilia Lanyer, and John Milton. In this course, students will explore and analyze representative works by these writers and others, making connections between the writers and the cultural context in which they lived.

ENGL 140E. Restoration & Eighteenth-Century Drama.  4 Units
Term Typically Offered: Fall, Spring
In-depth examination of the drama of late 17th and 18th-century England. Course includes the study of the age itself, the social and political issues of the time as well as its dramatic art, including many of its comedies, which the course it examines in their historical and cultural contexts.

ENGL 140F. British Literature, 1660-1780.  4 Units
Term Typically Offered: Fall, Spring
A period survey of British literature from the Restoration of King Charles II in 1660 through the stirrings of British Romanticism in the last decades of the eighteenth century. Authors to be covered will likely include Dryden, Behn, Rochester, Finch, Swift, Pope, Gay, Montagu, Addison & Steele, Gray, Johnson, Equiano, Goldsmith, and Sheridan.

ENGL 140G. The Eighteenth-Century British Novel.  4 Units
Term Typically Offered: Fall, Spring
The novel as we know it today was invented in the 18th century. Students study the cultural origins of the novel and read several major works by of 18th-century novelists such as Daniel Defoe, Samuel Richardson, Henry Fielding, Fanny Burney, Ann Radcliffe, Laurence Sterne, and Jane Austen, among others.

ENGL 140H. Nineteenth-Century Novel.  4 Units
Term Typically Offered: Fall, Spring
Devoted to exploring the fiction of nineteenth-century British novelists from Jane Austen through Thomas Hardy. Particular attention is paid to prevalent genres, especially the mixing of romance and realism, narrative and plot structures, imagery patterns, character types and anti-types, and thematic concerns, which usually involve some sort of conflict between the self and society, the individual and institutions (or the environment).

ENGL 140I. British Romanticism.  4 Units
Term Typically Offered: Fall, Spring
Examines British literature and culture during the late eighteenth and early nineteenth centuries. Topics may include war and revolution, tourism and the picturesque, genius and imagination, the Gothic, Romantic orientalism and literature and the environment. Writers covered may include Smith, Blake, Wollstonecraft, the Wordsworths, Scott, Coleridge, Austen, de Quincey, Byron, the Shelleys, Hemans and Keats.

ENGL 140J. The Victorian Imagination.  4 Units
Term Typically Offered: Fall, Spring
Explores themes and forms of the Victorian period, stressing the evolving role of the artist and the growth of self-consciousness in verse and prose. Victorian themes like the divided self, the love-duty conflict, and the inevitable crises of faith are recurring problems in the obsessive Victorian debate between flesh and spirit. Analyzes this dialectic in the poetry of Browning, Tennyson, the Pre-Raphaelites and Decadents, in a representative novel, and in the prose of Ruskin, Mill, and Pater.

ENGL 140K. Modern British Literature, 1900-Present.  3 Units
Term Typically Offered: Fall, Spring
In-depth examination of some of the important British texts in fiction, poetry, and drama from 1900 to the present. The works dramatize the important historical, social and aesthetic changes in a century which saw the collapse of the British Empire, the spread of democracy, the rise of Modernism and the Absurd in the arts, and the continuing struggle of the personal statement in an impersonal world.

ENGL 140L. Modern British Fiction, 1900-Present.  4 Units
Term Typically Offered: Fall, Spring
Survey of British fiction from 1900 to the present which covers the struggle between traditional Realism and Modernism in the novel, the decline and fall of the British Empire and the rise of the former colonies as purveyors of fictions in English in their own right, and the development of new experimental forms in the last decades of the 20th century.

ENGL 140M. Modern British Drama, 1889-Present.  4 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring
In-depth examination of British drama from the arrival of Ibsen's A Doll's House on the British stage (and Shaw's publication of his influential treatise The Quintessence of Ibsenism), both laying to rest for serious artists the moralistic, bourgeois theater of the late 19th century. Includes study of various dramatic movements in Britain, including realism, absurdist, kitchen-sink naturalism, surrealism, epic theater, expressionism.

ENGL 140N. Renaissance Drama.  4 Units
Term Typically Offered: Fall, Spring
Readings in and analysis of English drama written in the period, roughly from 1500-1660. Provides a survey of playwrights and genres from the entire period or a focus on a particular theme or a grouping of authors. Students will study texts as well as the historical, political, cultural, social, sexual, and religious contexts in which the playwrights of the era composed their works.

ENGL 140Z. Studies in British Literature.  4 Units
Term Typically Offered: Fall, Spring
Topics in periods and movements in the literature of Britain. Course may focus on a limited period (e.g. The Edwardian Age), a single author (e.g. Anthony Trollope or Margery Kempe), an authorial dialogue (e.g. Shakespeare and Wilde or G.M. Hopkins and Christina Rossetti), or a unique literary feature, theme, or structure (e.g. the Sonnet or Literature and the Law).
ENGL 145A. Chaucer - Canterbury Tales. 4 Units
Term Typically Offered: Fall, Spring
Reading of The Canterbury Tales in Middle English. Chaucer’s great unfinished poem will be investigated as the pinnacle of literary achievement in the English Middle Ages, a work that attempts, like Dante’s Divine Comedy, to account for all the issues and problems of human life as medieval thinkers had come to regard them.

ENGL 145B. Shakespeare - Early Plays, 1592-1600. 3 Units
Term Typically Offered: Fall, Spring
Exploration of representative plays from roughly the first half of Shakespeare’s career as a dramatist, including early and middle comedies (e.g., A Midsummer Night’s Dream, As You Like It), early and middle tragedies (e.g., Richard II, Henry IV, Part One), while situating the plays within their cultural and historical context.

ENGL 145C. Shakespeare - Later Plays, 1600-1612. 4 Units
Term Typically Offered: Fall, Spring
Exploration of representative plays from roughly the second half of Shakespeare’s career as a dramatist, with emphasis on the major tragedies (Hamlet, Othello, King Lear, and Macbeth), but also including the middle comedies (e.g., Twelfth Night, Measure for Measure) and the later romances (e.g., The Winter’s Tale, The Tempest), while situating the plays within their cultural and historic contexts.

ENGL 145I. John Milton. 3 Units
Term Typically Offered: Fall, Spring
Students study the major poems of Milton-among them Comus, "Lycidas," Paradise Lost, Paradise Regained, and Samson Agonistes-giving special attention to Paradise Lost. Students will also consider such prose works as Of Education, the divorce tracts, and Areopagitica, Milton's famous argument against censorship. Finally, it includes lectures on the Puritan Revolution of 1640-60 and Milton's role in it.

ENGL 150A. Early American Literature. 4 Units
Term Typically Offered: Fall, Spring
Focusing on the literature of early American settlement, the literature that first defined our nation. Students analyze such works as oral literature of Native America, earliest writings of Spanish explorers, Puritan settlement literature, Captivity Narratives of the 17th through 19th centuries, Witchcraft Narratives, and Slave Narratives. Students might also study connections to later works (e.g., Puritan literature and Hawthorne's Scarlet Letter, Witchcraft narratives and Miller's The Crucible).

ENGL 150B. American Romanticism. 4 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring
Focuses on one of the great periods in the history of literature. It has appropriately been called the American Renaissance. Writers covered might include but not be limited to Poe, Hawthorne, Emerson, Thoreau, Fuller, Melville, Whitman, Dickinson.

ENGL 150C. American Realism. 3 Units
Term Typically Offered: Fall, Spring
Examines American literature written during the period after the Civil War, a time of unprecedented change that transformed America from rural, agricultural, and homogeneous culture into its urban, industrial, heterogeneous counterpart. It investigates how the literature of this period reflected these changes and simultaneously tried to reconcile them with the values of an earlier America. The magnitude of this endeavor produced a remarkable literary heritage for the 20th century.

ENGL 150D. American Modernist Fiction, 1910-1950. 4 Units
Term Typically Offered: Fall, Spring
Survey of the important historical movements and conflicts in American literature, including the development of Realism and Naturalism, the experimental Modernist movement of the twenties, the populist literature of the thirties and the development of psychological realism in the forties.

ENGL 150E. American Poetry, 1910-1950. 4 Units
Term Typically Offered: Fall, Spring
Many scholars argue that American literature's greatest achievement in the twentieth century literature is in the genre of poetry. Offers a survey of such movements as the "New Poetry," Modernism, Imagism, Primitivism, and Postmodernism. Major figures will include, but not be limited to, Robinson, Frost, Eliot, Pound, Millay, Cummings, Stevens, W.C. Williams, Jeffers, Moore, and Hughes.

ENGL 150F. Contemporary American Fiction, 1950-Present. 3 Units
Term Typically Offered: Fall, Spring
Survey of the important movements and conflicts in American literature, including the development of Realism and Naturalism, the experimental Modernist movement of the twenties, the populist literature of the thirties and the development of psychological realism in the forties.
ENGL 150G. Contemporary American Poetry, 1950-Present. 4 Units
Term Typically Offered: Fall, Spring

Examines the richness of American poetry since World War II giving some consideration to the impact of recent world poetry brought to us by our skillful poet/translators.

ENGL 150H. Recent American Fiction, 1980-Present. 4 Units
Term Typically Offered: Fall, Spring

Introduction to the remarkable flowering of American fiction in the late decades of the twentieth century. The primary focus is to scrutinize a collection of novels for which there is no firmly established critical opinion but which are nonetheless distinguished fictional accomplishments. Emphasis is placed on revealing the diversity of voices and the ways in which these writers demonstrate the continuing possibilities for artistic variety and experimentation.

ENGL 150I. Modern American Short Story. 4 Units
Term Typically Offered: Fall, Spring

Since the publication of Washington Irving’s “Legend of Sleepy Hollow,” Americans have excelled at the genre of the short story. Offers a survey of traditional “masters” and recent innovators. Provides an opportunity to read a wide variety of writers (such as Wharton, Chopin, Crane, Gilman, James, Anderson, Hemingway, Faulkner, Ellison, O’Connor, Barth, Oates, Proulx, Roth, Carvey, and Welty) and examine a range of forms, themes and experiences that reflect and shape American culture.

ENGL 150J. Twentieth-Century American Drama. 4 Units
Term Typically Offered: Fall, Spring

In-depth examination of American drama, starting with Eugene O’Neill. Traces American drama from the early decades of the 20th century to the present, examining the plays themselves, their themes, dramatic idioms, stage craft and European influences in their social, historical and artistic contexts.

ENGL 150L. Lost Generation Writers. 4 Units
Term Typically Offered: Fall, Spring

Examines one of the most remarkable flowerings of literary achievement in American letters, the writing of “The Lost Generation,” authors born between 1885 and 1900. Unified by a profound disillusionment with American culture after World War I, writers such as T.S. Eliot, Eugene O’Neill, William Faulkner, and Ernest Hemingway produced enduring masterpieces. In the process they demonstrated that their generation might find in art what had been lost on the battlefield.

ENGL 150M. California Literature. 4 Units
Term Typically Offered: Fall, Spring

Focuses on the California phenomenon, the place where the American Dream strives to reach fulfillment “because here,” according to Sacramento-native Joan Didion, “beneath that immense bleached sky, is where we run out of continent,” and how this phenomenon has captivated writers for centuries. Presents a cross-section of literary works (fiction, poetry, essays, etc.) while examining and interrogating various literary manifestations of California golden myths and grayer realities.

ENGL 150P. The American Gothic. 4 Units
Term Typically Offered: Fall, Spring

Explores American works written in the Gothic mode. In novels, captivity narratives, short stories, and poetry, we will investigate representations of terrorifying, uncanny, and supernatural phenomena. As we trace the development of the Gothic mode in American literature, we will examine how narratives and poetic depictions of horror rehearse our individual and cultural fears about sexuality, race, violation, rebellion, madness, and death, and we will inquire into that thrill of macabre pleasure that attends the exploration of the darker side.

ENGL 150R. American Regionalism. 4 Units
Term Typically Offered: Fall, Spring

Examines literature by American regionalist writers during the late-nineteenth century. Topics may include nationalism, sectional divides, local color, dialect fiction, conditions of publication, and emerging women writers and writers of color. Students will investigate the role that regionalism plays in relation to literary representations that depict the conflicting and complex social, cultural, and historical formation of racialized and gendered identities. Independent-online project required.

ENGL 150T. Hemingway and Fitzgerald. 4 Units
Term Typically Offered: Fall, Spring

Intensive study of two of the most important American writers of the 20th century: Ernest Hemingway and F. Scott Fitzgerald. This focus on two authors allows students to read them in-depth, to examine the dynamics of their friendship, and to explore the similarities and differences in their responses to World War I and the Great Depression.

ENGL 150U. A Survey of Irish Literature. 3 Units
Term Typically Offered: Fall, Spring

Survey of Irish literature, beginning with various myths, moving through the bardic period and eighteenth and nineteenth centuries, and then centering upon the “Irish Renaissance” (1885-1940). Covers the genres of poetry, drama, and fiction, and representative figures include W.B. Yeats, Patrick Kavanagh, James Joyce, Flann O’Brien, John Synge, Lady Gregory, Sean O’Casey, Sean O’Faolain, and Frank O’Connor.

ENGL 150V. Postcolonial Literature. 4 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (W)
Term Typically Offered: Fall, Spring

Deals with the considerable body of Postcolonial literature written in English. Many of the writers come from countries of the former British Commonwealth, including Achebe, Desai, Emchetcha, Naipaul, and Rushdie. It focuses on the literary, cultural and political environments in which the texts are situated and on their relationship to the wider tradition of literature in English.
ENGL 165F. Caribbean Literature. 4 Units
Term Typically Offered: Fall, Spring

Focuses on the literature—novels, shorts stories, poetry, and plays—by a wide range of Caribbean authors, among whom are two recent Nobel Prize winners, Derek Walcott and V. S. Naipaul. Students will learn to appreciate the cultural diversity of this post-colonial literature and will become familiar with its important themes and stylistic techniques. Students will also experience the multi-dialectal richness and flavor of the Anglophone Caribbean as expressed by authors from linguistically diverse islands.

ENGL 170A. Fantasy. 4 Units
Term Typically Offered: Fall, Spring

Helps students develop their own working definition of fantasy by examining its central narrative and dramatic structures, image pattens, and thematic preoccupations. At the same time, encourages students to compare these motifs with those of so called "realist" fiction so they may understand how blurred conventional distinctions between "fantasy" and "reality" actually are.

ENGL 170D. Drama. 4 Units
Term Typically Offered: Fall, Spring

Offers a survey of dramatic literature; tragedy, comedy, tragi-comedy, with plays both modern and classical. Focus is on analysis of genre, theme, structure, and interpretation of the plays. Since plays are meant to be seen as well as read, we will screen selections from our plays to deepen our understanding and enjoyment.

ENGL 170E. Short Fiction. 4 Units
Term Typically Offered: Fall, Spring

Survey of the art of short fiction through readings of a variety of world writers. Representative figures include, but are not limited to, Melville, James, Chopin, Maupassant, Chekhov, Saki, Cather, Joyce, Kafka, Dinesen, Hemingway, Borges, O'Connor, Munro, Carver, Everett, Lahiri, etc.

ENGL 170G. Modern Poetry. 4 Units
Term Typically Offered: Fall, Spring

General course in English language poetry written in the late 19th and early 20th century poetry, a period of great innovation in poetry. It focuses on approach: what is the modern poem and how does one read it? Emphasis is placed on the function of image, voice, line break, rhythm, etc. Writers might include Whitman, Dickinson, Yeats, Pound, Eliot, Hardy, and Hopkins.

ENGL 170H. Introduction To Comedy. 4 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Focuses on various comic genres and theories—from 4th century BC to the present. It examines romantic comedy, tragicomedies, comedies of manners, of humors, of menace; farce, satire, slapstick. Students also read widely in comic theory, examining aspects psychological, phenomenological, aesthetic—in drama, fiction, poetry and prose.

ENGL 170I. Introduction To Tragedy. 4 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Focuses on the literatures and theories of tragedy—from 5th century BC to the present—from Sophocles to Mamet, from Flaubert to Stoppard. It examines the "tragic vision" in light of individual genres, times, social mores, religious beliefs and expectations, using Aristotle for both its touchstone and lodestar.

ENGL 170K. Masters of the Short Story. 4 Units
Term Typically Offered: Fall, Spring

Concentrates on the works of a few distinguished writers of short fiction. In each case the writer is one with a widely acknowledged reputation. Emphasis is upon exploring how writers shape and manipulate the genre to produce lasting, individual, distinctive works. Representative figures include, but are not limited to, James Joyce, Nathaniel Hawthorne, Sherwood Anderson, Ernest Hemingway, Frank O'Connor, Flannery O'Connor, John Barth, D.H. Lawrence, and Eudora Welty.

ENGL 170M. Literatures Of Sexuality. 4 Units
Term Typically Offered: Fall, Spring

Examines the relation between sexuality and literature, exploring different conceptions of sexuality over time and across cultures and the rhetorical strategies employed in representations of sexuality in literary texts. Topics may include the modern connection between sexuality and identity, the links between nation, race, and sexuality; and the treatment of homosexuality and women's sexuality. Throughout, careful attention will be paid to the literary forms and discursive strategies (e.g., the confessional mode, modern scientific discourses) used to represent sexuality.

ENGL 170N. Narrative Poetry. 4 Units
Term Typically Offered: Fall, Spring

Provides an introduction to the genre of narrative poetry, a historical survey of the vicissitudes of its reception from the nineteenth century to the present, and a close study of representative narrative poems by poets who have excelled in this mode.

ENGL 170Z. Twentieth-Century Fiction. 4 Units
Term Typically Offered: Fall, Spring

Study of twentieth-century fiction from a variety of ethnic and social backgrounds, including and moving beyond British Modernism. Readings explore English as a literary language used across the globe, ranging from Paris to Mazatlán, Calcutta to San Francisco.

ENGL 180A. Forms of African-American Poetry. 4 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Focuses on four or more African-American poets, representing a historical succession of literary periods.
ENGL 180B. Forms of African-American Fiction. 4 Units

**Prerequisite(s):** GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

**General Education Area/Graduation Requirement:** Writing Intensive Graduation Requirement (WI)

**Term Typically Offered:** Fall, Spring

Focuses on four or more African-American writers of fiction, surveying texts representing a historical succession of literary periods.

ENGL 180F. Major African-American Authors. 4 Units

**Term Typically Offered:** Fall, Spring

Employing a lecture-discussion format, involves studies in a single literary genre or a combination of literary genres emphasizing the work of three or fewer African-American authors.

ENGL 180H. American Identities: In the Intersection of Race, Gender, and Ethnicity. 4 Units

**Term Typically Offered:** Fall, Spring

Uses a team-teaching approach to sample a range of diverse American literatures. Texts are selected by the team to represent both mainstream and marginalized groups and to reflect the individual professors’ interests and expertise. Examines the commonalities that cross ethnic, racial, class, and gender boundaries as well as the differences that enrich our cultural identity. Independent, online project required.

ENGL 180J. Jewish American Literature. 3 Units

**General Education Area/Graduation Requirement:** Humanities (Area C2)

**Term Typically Offered:** Fall, Spring

Students will examine a rich tradition of Jewish American literature in the context of a complex American multicultural narrative. Topics include the immigrant experience, assimilation, alienation, responses to the Holocaust and other forms of anti-Semitism, the place of Israel in the Jewish American imagination, and a contemporary rediscovery of reconstruction of Jewishness and Judaism. Students will interrogate what constitutes Jewish American identity and defines its literature in a culture that is itself conflicted about its secular/religious ethos and the degree to which subjectivity is determined by "consent and/or descent."

ENGL 180L. Chicano Literature. 4 Units

**Prerequisite(s):** GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

**General Education Area/Graduation Requirement:** Writing Intensive Graduation Requirement (WI)

**Term Typically Offered:** Fall, Spring

Gives students an overview of Chicano Literature. Students examine both contemporary Chicano poetry and fiction.

ENGL 180M. Asian American Literature. 4 Units

**Prerequisite(s):** GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

**General Education Area/Graduation Requirement:** Writing Intensive Graduation Requirement (WI)

**Term Typically Offered:** Fall, Spring

Designed to help students gain an understanding of the diversity as well as the similarities among various Asian American writers. How do the categories of race, gender, and class affect the way different characters construct their cultural experiences and fashion their personal identities? By studying the variety of processes through which different protagonists "become American"—through assimilation, appropriation, or "translation"—students should arrive at a better understanding of how we all construct our own identities.

ENGL 180Z. Topics in Multi-Ethnic Literatures. 4 Units

**Term Typically Offered:** Fall, Spring

Comparative analysis of two or more ethnic literary and cultural productions with an emphasis on relationships among history, politics, and culture in American, British, or World literatures.

**Note:** May be repeated twice for credit as topics vary.

ENGL 185B. Twentieth Century Fiction by Women. 4 Units

**Prerequisite(s):** GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

**General Education Area/Graduation Requirement:** Writing Intensive Graduation Requirement (WI)

**Term Typically Offered:** Fall, Spring

Covers short stories and novels spanning the century and including women writers from a variety of nationalities, class, cultural and ethnic groups. Emphasizes what Virginia Woolf calls "the delicate transaction between a writer and the spirit of the age" and works with the writers presented so as to elicit the developing strands of influence and critique that bring these disparate writers into a common dialogue.

ENGL 185C. British Women Novelists. 4 Units

**Term Typically Offered:** Fall, Spring

Focuses on the ways in which women writers of the 19th and 20th centuries concern themselves with questions of the differences in male and female experience and how those differences affect their writing. Students will study the portrayal in fiction of the evolution of the "modern woman"—with the conflicts between self and other, dependence and independence, love and power that are part of that process.

ENGL 185D. American Women Writers. 4 Units

**Term Typically Offered:** Fall, Spring

Focuses on women writers primarily from the early 20th century with an emphasis on how gender expectations affect people, society, novels, poems. Students study the theme of awakening, the roles that families, friends, class, social expectations and conditions play in the development of individuality and self-awareness. Examines implications of power relationships and certain areas of conflict, such as those between self and other, repression and expression, inner and outer, dependence and independence, love and power.
ENGL 185E. Chicana/Latina Women Writers. 4 Units
Term Typically Offered: Fall, Spring
Focuses on major Chicana and Latina writers of the 19th, 20th, or 21st centuries. Includes an analysis of Chicana and Latina novels, short stories, theater and/or poetry. Students develop analytical skills through class lectures, discussions, written assignments and readings.

ENGL 190D. Detective Fiction. 4 Units
Term Typically Offered: Fall, Spring
Readings in and analysis of crime and detective fictions (novels, short stories, plays, etc.). Crime fiction continually asks us what do we know about people and events and how do we know it. Investigates a variety of texts that address this desire to know and its connections to the mysterious and the criminal. Discussions of this popular genre will address the ways in which an obsession with crime and punishment manifests itself in various cultures and cultural moments.

ENGL 190H. The Supernatural in Literature. 4 Units
Term Typically Offered: Fall, Spring
Approaches supernatural literature from the perspective that, regardless of how bizarre or fantastical a literary work may seem, it deserves serious scholarly study because it represents the realism of apparent human experiences and provides readers with access to the inner workings of the human mind. Readings include Ambrose Bierce, H.P. Lovecraft, Edgar Allan Poe, Lord Dunsany, Fitz-James O'Brien, and contemporary writers from around the world.

ENGL 190J. Tolkien: Lord Of The Rings. 4 Units
Term Typically Offered: Fall, Spring
Helps students understand the primary structures, images, and themes informing Tolkien's Middle Earth and the ways these link the medieval worldview with modern, and even postmodern, wish-and fear-fulfillments. Students will read Tolkien's criticism, poetry, short tales, The Hobbit, The Lord of the Rings trilogy, and selections from The Silmarillion.

ENGL 190P. Popular Literature and Culture. 4 Units
Term Typically Offered: Fall, Spring
The study of popular texts through the various lenses of literary analysis. Students will work with a variety of texts, which might include genre fiction, graphic novels and comics, film and television, and other digital media, to consider the ways and whys of their popularity, as well as their impact, both historical and contemporaneous, on literature, audience, and culture.

ENGL 190Q. LGBTQ Literature. 4 Units
Term Typically Offered: Fall, Spring
Readings in and analysis of literature by and about lesbian, gay, bisexual, transgender, and queer creators. Students will work with a variety of texts (fiction, poetry, film, nonfiction) about LGBTQ identities; students will also come to understand the historical contexts and shifting theoretical paradigms that have shaped and reshaped conceptions of sexuality.

ENGL 190R. Romance Fiction. 4 Units
Term Typically Offered: Fall, Spring
Readings in and analysis of romance fictions (primarily novels). Romances continually promise emotional (and sexual) fulfillment, but what do readers of romance novels get from this reading experience? Discussions of this popular genre will address the ways in which the pursuit of love and companionship and the indulgence in lust and passion manifest themselves in various cultural moments; critical materials will help theorize the appeals, dangers, and uses of romance fiction.

ENGL 190V. Great Drama on Video. 4 Units
Term Typically Offered: Fall, Spring
Conducted by lecture and discussion. Students see a selection of dramas on videos (such as but not limited to A Streetcar Named Desire, Death of a Salesman, Doll's House, Hamlet, Oedipus, Pygmalion, and Rosencrantz and Guildenstern) and core texts (Sculpting in Time: Tarkovsky The Great Russian Filmmaker Discusses His Art, Truffaut by Truffaut, and Staring Point by Hayao Miyazaki).

ENGL 191A. Masterpieces of the Cinema. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring
Studies and evaluates a selection of dramas on videos (such as but not limited to A Streetcar Named Desire, Death of a Salesman, Doll's House, Hamlet, Oedipus, Pygmalion, and Rosencrantz and Guildenstern) and core texts (Sculpting in Time: Tarkovsky The Great Russian Filmmaker Discusses His Art, Truffaut by Truffaut, and Staring Point by Hayao Miyazaki).

ENGL 195A. Writing Center Theory and Practice: Internships. 4 Units
Term Typically Offered: Fall, Spring
Provides interns with an opportunity to apply tutoring principles while working at tutors in the writing center. Note: ENGL 195A is a paired course with ENGL 410A, which meets at the same time in the same room. The graduate level class has a significantly increased reading, writing, and research component. May be repeated for up to 8 units of credit.

ENGL 195C. Internship In Field Work. 4 Units
Term Typically Offered: Fall, Spring
Work experience in an area related to the English major. Credit/No Credit

ENGL 195W. Writing Programs Internship. 4 Units
Term Typically Offered: Fall, Spring
Students will work with a Composition faculty member to complete a project for the campus writing program, the University Reading and Writing Center, the Graduation Writing Assessment Requirement, or the Writing Across the Curriculum Program. Students should contact the appropriate program coordinator to register for the course and design a project. Note: May be repeated for credit if topic of internship differs.

ENGL 197A. Film -- Horror, Comedy, Science-Fiction. 4 Units
Term Typically Offered: Fall, Spring
Major genres of the cinema conducted by lecture and discussion. Students see a selection of films from the major genres including (but not limited to) horror, science fiction, and comedy; learn about the history and development of each genre; and explore the commercial, aesthetic, social, and philosophical forces that have shaped the major film genres.
ENGL 197G. Films of Great Directors.
Term Typically Offered: Fall, Spring

4 Units

Focuses on the role of the director in the creation of excellent films. Students will view, analyze, and discuss memorable films by great directors, concentrating on their personal styles, cinematic strategies, and typical themes. Representative examples will include such filmmakers as Chaplin, Keaton, Renoir, Welles, Ford, Truffaut, Bunuel, Kurosawa, Hitchcock, Bergman, and others.

ENGL 197I. Film - Depression Giggles.
Term Typically Offered: Fall, Spring

4 Units

A semester of films, readings, and discussions focused on what is often called the ¿Golden Age of Hollywood¿ the 1930s and early 1940s. Class will study as well the studio era, the star system, the development of cinematic genres, and censorship under the Production Code both when it was more strictly enforced [1934-after] and when it was not [1930-1934].

ENGL 197K. Fiction Into Film.
Term Typically Offered: Fall, Spring

Students see a selection of films adapted from novels, short stories, or other literary works; read the original work from which the film was adapted; and explore the history, aesthetics, and craft of adapting fiction to film.

ENGL 197L. The American Film.
Term Typically Offered: Fall, Spring

4 Units

Focus on American films. Topics may cover a range of periods, movements, genres, styles and issues.

ENGL 197M. Recent American Films.
Term Typically Offered: Fall, Spring

4 Units

Emphasizes the trends, themes, forms, and cinematic techniques, technological advances, and "revisionist" genres of recent American films of approximately the last twenty years, partly as a way of analyzing the American film conventions, partly as a means of examining our contemporary culture, but primarily as a means of analyzing and understanding the films themselves.

ENGL 197P. British Film.
Term Typically Offered: Fall, Spring

4 Units

Screenings and analysis of films produced in Great Britain. Students will view a variety of British films, starting possibly with silent and early Hitchcock and ending with films from the contemporary moment. Students will come to understand the historical and artistic contexts of the films and encounter the shifting definitions of what represents "British" on the screens of the cinema and in the minds of viewers. May provide a survey of films or focus on particular themes, studios, or directors.

ENGL 197R. Films Of Alfred Hitchcock.
Term Typically Offered: Fall, Spring

4 Units

Traces Hitchcock’s "game with the audience" from its beginnings in silent films, through its British period, to its American conclusion. It closely examines important sequences, shots, images, character types, and themes. Students will view several of Hitchcock's classic films in their entirety.

ENGL 197T. Senior Seminar In English.
Prerequisite(s): ENGL 120A and a minimum of 90 units.
Term Typically Offered: Fall, Spring

3 Units

Features specialized topics taught by a variety of instructors depending upon the semester. Topics can include subject matter from literature, linguistics, English education, creative writing, composition/rhetoric, and film. Tend to the production of a significant research paper, a paper which will emphasize the student’s ability to: Analyze and interpret multiple texts; Integrate primary and secondary sources; Construct a sustained, coherent, and rhetorically sophisticated piece of writing.

ENGL 198T. Senior Seminar In English.
Term Typically Offered: Fall, Spring

2 Units

In this course, students, as one element of their capstone experience, will write a significant research paper with a topic of their choosing. This course will emphasize the student's ability to: analyze and interpret multiple texts; integrate primary and secondary sources; construct a sustained, coherent, and rhetorically sophisticated piece of writing.

ENGL 198X. Senior Portfolio.
Term Typically Offered: Fall, Spring

2 Units

Note: On-line course

Credit/No Credit

Term Typically Offered: Fall, Spring

3 Units

Required for all MA candidates in English.

ENGL 200A. Methods and Materials of Literary Research.
Term Typically Offered: Fall, Spring

4 Units

Required for all MA candidates in English under Plans A and C and Creative Writing Plan B, acquaints students with principal sources and techniques of literary research. It also introduces students to contemporary critical approaches to literature. Students should take this course as early as possible in their graduate careers, preferably in the first semester. Students prepare an annotated bibliography and a paper applying a particular critical approach to one of a selection of anchor texts.

Note: Graduate Writing Intensive (GWI) course.
ENGL 200D. Materials and Methods of TESOL Research. 3 Units
Term Typically Offered: Fall, Spring
Explores research design and testing methods for quantitative and qualitative research in second language acquisition (SLA). Students develop the ability to read second language acquisition research critically; study a variety of theoretical perspectives represented in current SLA research; and review the history of the current "burning issues" in SLA.
Note: Graduate Writing Intensive (GWI) course.

ENGL 200E. Curriculum and Assessment Design for Language Classrooms. 3 Units
Term Typically Offered: Fall, Spring
Examine the interplay between curriculum design and classroom assessment. The goals are 1) to familiarize prospective teachers with the terminology and practices underlying curriculum design and classroom assessment; 2) to develop the ability to analyze student needs and propose appropriate changes to curricula; and 3) to construct and implement language tests that reflect curricula.
Note: May be counted as an elective for the M.A. TESOL program.

ENGL 210A. Contemporary Theory. 4 Units
Term Typically Offered: Fall, Spring
Introduces students to the place of theoretical texts in literary studies and engages with theory through a survey of approaches and/or a thematic inquiry; examples of thematic approaches might include but are not limited to formalism and new formalism, critical race studies, theories of poetics, and the linguistic turn.

ENGL 210B. Sociolinguistics and TESOL. 3 Units
Term Typically Offered: Fall, Spring
Examines the factors affecting the acquisition of a second language, focusing on research in this area since 1970. Topics covered are: transfer and the role of the first language; developmental sequences; the role of input, interaction and output; cognitive and personality variables, including age; and the role of formal instruction and error correction.

ENGL 210A. Reading/Vocabulary Acquisition. 3 Units
Term Typically Offered: Fall, Spring
Preparation of teachers of English to speakers of other languages.
Examines the psycholinguistic bases of the reading process in ESL, provides opportunities for seminars to test reading practices in peer demonstrations, and explores the fundamentals of testing, evaluation, and syllabus design in the ESL curriculum. Particular attention for reading and vocabulary will be given to miscue analysis and acquisition theory.

ENGL 215B. ESL Writing/Composition. 3 Units
Term Typically Offered: Fall, Spring
Provides the groundwork to prepare teachers of English to speakers of other languages for composition instruction. An examination of the theoretical bases of language acquisition, composing process, and correction/revision strategies that will enable students to plan and demonstrate writing lessons to their peers. Consideration of traditional tests of writing, such as the TOEFL, the WPJ, and innovative forms of evaluation are integrated with syllabus design and text evaluation.

ENGL 215C. Pedagogical Grammar for TESOL. 3 Units
Term Typically Offered: Fall, Spring
Examines those areas of English grammar that are typically taught to non-native speakers. The goals are 1) to familiarize prospective ESL teachers with terminology and analyses that can be used in the classroom; 2) to develop the ability to explain and exemplify grammatical phenomena in terms accessible to ESL students; 3) to review sample materials and techniques for teaching English grammar to non-native speakers.

ENGL 215D. Pedagogy of Spoken English. 3 Units
Term Typically Offered: Fall, Spring
Examines aspects of spoken English that are typically taught to non-native speakers. The goals are 1) to familiarize prospective ESL teachers with terminology and analyses that can be used in the classroom; 2) to develop the ability to analyze student difficulties and provide appropriate help; 3) to review sample materials and techniques for teaching spoken English to non-native speakers.

ENGL 220A. Teaching College Composition. 4 Units
Term Typically Offered: Fall, Spring
Designed for prospective community college and university writing instructors. It focuses on theory and research in rhetoric, composition, and cognitive development and on practical, pedagogical classroom strategies. Students discuss a variety of theories and research studies and then apply writing theory to classroom strategies, design lessons, assignments, and syllabi, and practice analyzing and responding to student writing; and prepare a teacher portfolio.
Note: Graduate Writing Intensive (GWI) course.

ENGL 220C. Topics in Composition Studies. 4 Units
Prerequisite(s): ENGL 220A
Term Typically Offered: Fall, Spring
Rotating series of topics relevant to composition studies. Regardless of the topic, students will explore the history of the field, the theory and practice of the field, the major scholarly works of the field, and the relationship of the field of study to the broader field of composition and rhetoric.

ENGL 220D. Teaching and Composition Research. 4 Units
Term Typically Offered: Fall, Spring
Examines the history and current status of research methods and methodologies in Composition Studies. It explores both producing and consuming research — studying how and why research has been conducted and how it has been understood and put to practical use by readers of composition research.
ENGL 220P. Professional Writing. 4 Units
Term Typically Offered: Fall, Spring

Examines theories that inform the practices of professional writers and applies theoretical principles to some common professional writing genres used in career fields ranging from business to public relations to nonprofit management. Focuses on how business or technical communication is different from academic styles and introduces students to the current writing challenges and practices in these fields.

ENGL 220R. Topics in Rhetorical Theory and Practice. 4 Units
Term Typically Offered: Fall, Spring

Designed to help students learn about and apply rhetorical theory. Its goal is to introduce graduate students to the history and theory of rhetorical movements after—or outside of—the rhetorics of Western antiquity. Evaluation will be based on weekly journal responses to readings, a major paper on rhetorical theories, and a course portfolio.

ENGL 220W. Writing in Your Discipline. 3 Units
Prerequisite(s): Graduate GWAR placement Score of 40 or a GWI course grade of "B-" or lower
Term Typically Offered: Fall, Spring

Writing workshop course designed to immerse graduate students in the discourse of their disciplines; required for graduate students who have received a 3 unit placement on the Writing Placement for Graduate Students (WPG). Focuses on the writing process, text-based academic writing in various academic genres, revising, and editing. Students will produce 5000 words. Includes assessment via Course Portfolio.

ENGL 222. Understanding Multidisciplinarity in Writing Studies. 1 Unit
Term Typically Offered: Fall, Spring

The discipline of Writing Studies has roots in a number of areas of scholarly inquiry. Some disciplines that have contributed to the development of the field include Literary Studies, Linguistics, Communications, Information Technology, Philosophy, Library Science, Psychology, and Education. In this course, students will evaluate a theory or concept presented in a discipline outside of Writing. Required for students in the MA in Composition, Rhetoric, and Professional writing who are taking a ENGL 215B or another three-unit elective.

ENGL 225A. Theories of Teaching Literature. 3 Units
Term Typically Offered: Fall, Spring

Introduction to theories of teaching literature so students who intend to teach at the college level have examined their assumptions and options before they develop their teaching practices. Organized around three questions: Why do we teach literature? What do we teach? How do we teach?

ENGL 225C. Theoretical Issues in Adult Literacies. 3 Units
Term Typically Offered: Fall, Spring

Introduces students to current theories surrounding the pedagogies and politics of adult literacies within a wide variety of contexts, including community colleges, prisons, and community projects. Incorporates information on technological literacies, information literacies, cultural literacies, and multiliteracies. In addition, students will be partnered with community literacy experts and required to complete formal observations of adult reading classrooms throughout the semester, fostering collaboration between the local community and the university. Cross-listed. EDTE 225C; only one may be counted for credit.

ENGL 226. Writing Fiction. 4 Units
Term Typically Offered: Fall, Spring

Seminar in the workshop format designed for experienced writers of fiction. It is designed to provide intensive instruction in the theory and craft of writing short stories, novels, and screenplays.

ENGL 229. Advanced Poetry Writing. 4 Units
Term Typically Offered: Fall, Spring

Theory and practice in the writing of poetry. Consists primarily of the preparation and evaluation of student work. Students are also be assigned supplemental readings designed to help them determine their affinity (or lack of affinity) with current poetic theory and practice.

ENGL 230D. Meter and Rhythm. 4 Units
Term Typically Offered: Fall, Spring

In-depth study of prosody including the principles of meter (line measurement) and scansion (the marking of stressed and unstressed syllables to determine meter and rhythm), as well as examining the relationship of these principles to verse in English. Examines a variety of poetic schemes, tropes, and forms. Lecture and guided practice.

ENGL 230E. Writing and Theorizing Memoir. 4 Units
Term Typically Offered: Fall, Spring

Examines the craft of writing memoir and creative nonfiction as well as the theory and history of contemporary memoir writing. Students will write and workshop their own memoirs and creative nonfiction. Introduces students to literary and philosophical theories of memory and writing as well as look at contemporary memoirs written in a variety of styles.

ENGL 230G. Between Genres: Flash Fiction/Prose Poetry. 4 Units
Term Typically Offered: Fall, Spring

English 230G offers graduate poets and fiction writers the opportunity to explore/experiment with the long-standing anti-genre of the poetry/fiction hybrid. For 200 years writers around the world have noted the symbiosis between the genres of poetry and prose. Currently, some of America's most exciting writers are currently exploring the margins between prose poetry, flash fiction, and related evolving forms.

ENGL 230X. Master Class in Writing Fiction. 4 Units
Prerequisite(s): ENGL 130A, or ENGL 130M, or ENGL 130N, or ENGL 230A or instructor permission.
Term Typically Offered: Fall, Spring

Workshop provides intensive instruction in the theory and craft of writing fiction designed for students who are already writing at a professional or near-professional level, and for those who have proven themselves ready to take advanced study with careful, individualized direction of the instructor.

Note: May be repeated once for credit.

ENGL 230Y. Master Class in Writing Poetry. 4 Units
Prerequisite(s): ENGL 130B or ENGL 230B or instructor permission.
Term Typically Offered: Fall, Spring

Designed to provide intensive practice in the techniques and problems of writing poetry. It is aimed at students interested in creative writing, those who have already done significant work and who have proven themselves ready to take advanced study with careful individualized direction of the instructor.
ENGL 240. British Literature. 3 Units
Term Typically Offered: Fall, Spring

Seminars in British literature.

ENGL 240A. Chaucer. 4 Units
Term Typically Offered: Fall, Spring

Investigation of the body of Chaucer's poetry, seen against the backdrop of the late 14th century.

ENGL 240B. The World and the Flesh: Victorian Fiction. 4 Units
Term Typically Offered: Fall, Spring

Explores the Divided-Self of Victorian fiction, a consciousness split between word and flesh, duty and love, society and the self, or most generally between one's public role and one's private needs. Such polar themes affect several fictional genres such as the Pastoral, Gothic, Bildungsroman, Historical Novel and Naturalism. The word and flesh dialectic also informs the narrative structure of Victorian fiction.

ENGL 240E. 18th-Century Novelists. 4 Units
Term Typically Offered: Fall, Spring

Focuses on individual novelists, pairs of novelists, or thematic groupings. Might include works of fiction by authors such as Behn, Defoe, Richardson, Fielding, Sterne, Goldsmith, Bumey.

ENGL 240F. Dickens+Thackeray. 4 Units
Term Typically Offered: Fall, Spring

Dickens and Thackeray dominated the popular mind as the novelists of the age; no other novelists are more representative of their age and yet can claim to have risen above it. Concentrates on just a few of their novels. Students study the writers and their novels in the context of English society in the 19th century.

ENGL 240G. Yeats, Kavanagh and Heaney: Ireland's Modern Irish Poets. 3 Units
Term Typically Offered: Fall, Spring

Yeats, often considered a modernist and a poet in the British tradition, saw himself primarily as an Irish poet working within distinctly Irish literary traditions. Focuses on Yeats' conception of a national, ethnic poetry and the effect that mission had on Ireland's other two major 20th century poets—Kavanagh and Heaney. Students analyze Yeats' most influential work; Kavanagh and Heaney are studied in terms of their debt to Yeats and their individual expressions of national consciousness.

ENGL 240H. DH Lawrence. 3 Units
Term Typically Offered: Fall, Spring

Lawrence was immensely original. Like Tolstoy and Dostoevsky, Lawrence is a prophetic visionary intensely concerned to articulate and embody an all-embracing, profoundly existential, vision of life. Examines Lawrence's work closely after a brief exploration of modernism and Lawrence's relation to it and an examination of how conditions in post-Victorian England and events in Europe in the early 20th century contributed to the making of Lawrence's world view and his role as a controversial outsider.

ENGL 240I. Jane Austen. 4 Units
Term Typically Offered: Fall, Spring

Focuses on Jane Austen, perhaps England's greatest novelist. Students read almost all of her work and trace the development of her art from her teenage years until her death in 1817, noting how each new book is a distinct departure from previous ones.

ENGL 240J. James Joyce. 3 Units
Term Typically Offered: Fall, Spring

James Joyce is a monument among twentieth century writers. His masterful Ulysses and other intricate works have kept generations of critics in business. Examines his major fictions, studying them in relationship to the life out of which they grew.

ENGL 240K. English Renaissance Drama. 3 Units
Term Typically Offered: Fall, Spring

Sense of exploration, discovery, experimentation, creativity, and moral complexity of the Renaissance in England (roughly 1550 to 1660) is reflected in the variety and number of plays written by Shakespeare's predecessors, contemporaries, and successors. Following introductory material on the development of the drama in England, students analyze Elizabethan and Jacobean playwrights, exclusive of Shakespeare. Emphasis is on the forms and themes of the plays, with application of "New Historicism" and attention to Renaissance backgrounds.

ENGL 240L. Conrad and Greene. 3 Units
Term Typically Offered: Fall, Spring

When English critic F.R. Leavis declared that the great English novelists were Austen, Eliot, James, and Conrad, he emphasized these writers' intensely moral pre-occupation. No modern novelist has been more influenced by Conrad than Graham Greene, whose work has the same romantic subject matter and concerns with ethical judgments. Both writers are concerned with the question: to act or not to act, for either choice has inescapable ethical consequences.

ENGL 240M. The Gothic Novel. 4 Units
Term Typically Offered: Fall, Spring

Examines the origins and development of the Gothic Novel in England. Attention is paid to recurring structures and themes such as architecture, the use of a narrative frame, reader identification figure, the divided self, the relationships between sex, violence, and death, the wasteland motif, and existential concerns. Special attention is given to the role of the reader and his or her response to the novels.

ENGL 240N. Arthurian Literature. 4 Units
Term Typically Offered: Fall, Spring

Study of Arthurian literature in the Middle Ages from its origins to Thomas Malory, as well as some coverage of reception history.

ENGL 240O. Satire In Age Swift+Pope. 3 Units
Term Typically Offered: Fall, Spring

Examines the major narrative, plot, and genre structures, image patterns, and thematic preoccupations in Dickens' novels, like the interrelationships between homes, prisons, factories and schools. The influences of Dickens' life, periodical publishing of illustrated magazines, and of Victorian society also receives attention. Introduces students to relevant insights of several "post-structural" critical schools, including those of deconstruction, the carnivalesque, liminality, and Lacanian psychology.
ENGL 240S.  Modern Irish Fiction.  3 Units  
Term Typically Offered: Fall, Spring  

Examines in detail one aspect of the Irish Renaissance (approximately 1880-1940)—Ireland's contribution to fiction in the twentieth century. Also examines not only individual writers and works but the development of the genres of the novel and short story and movements such as realism, naturalism, modernism, and post-modernism. Writers might include Joyce, O'Brien, O'Thiabhart, O'Faolain, and others.

ENGL 240T.  Renaissance Literature.  4 Units  
Term Typically Offered: Fall, Spring  

Students will explore the poetry, prose, and drama produced in England during the 16th and 17th centuries. Contemporary criticism and theory will provide a context for reading these primary works.

ENGL 240U.  Nineteenth-Century Texts and Sex.  4 Units  
Term Typically Offered: Fall, Spring  

Examines a range of sexual identities through which nineteenth-century Britons imagined their lives. Such identities were influenced by ideas about race, class, status, ethnicity, gender, and age that often differed markedly from our own. Moves beyond the literary to look at texts from a variety of genres (medical, literary, erotic, and autobiographical) and cover both well-treated and more obscure texts.

ENGL 240X.  Contemporary British Fiction—1980 to Present.  4 Units  
Term Typically Offered: Fall, Spring  

Students read and study British works of fiction—novels and short stories—written after 1979. Although the choice of authors and works might vary from one semester to another, focuses on works of fiction deemed significant and valuable by literary scholars and critics.

ENGL 240Z.  Special Topics in British Literature.  4 Units  
Term Typically Offered: Fall, Spring  

Open to the investigation of either a limited period (e.g. World War I poets or Victorian Children's literature), a single author (e.g. Hanif Kureishi or Apha Behn), an authorial dialogue (e.g. Chaucer & Spenser, Stopppard and Shakespeare, Sidney & Wroth), or a unique literary feature, theme, or structure (e.g. Pastoral & Utopia or Empire & Race).

ENGL 245A.  Shakespearean Romance.  3 Units  
Term Typically Offered: Fall, Spring  

ENGL 250A.  Wharton and Cather.  3 Units  
Term Typically Offered: Fall, Spring  

Examines in detail one aspect of the Irish Renaissance (approximately 1880-1940)—Ireland's contribution to fiction in the twentieth century. Also examines not only individual writers and works but the development of the genres of the novel and short story and movements such as realism, naturalism, modernism, and post-modernism. Writers might include Joyce, O'Brien, O'Thiabhart, O'Faolain, and others.

ENGL 240T.  Renaissance Literature.  4 Units  
Term Typically Offered: Fall, Spring  

Students will explore the poetry, prose, and drama produced in England during the 16th and 17th centuries. Contemporary criticism and theory will provide a context for reading these primary works.

ENGL 240U.  Nineteenth-Century Texts and Sex.  4 Units  
Term Typically Offered: Fall, Spring  

Examines a range of sexual identities through which nineteenth-century Britons imagined their lives. Such identities were influenced by ideas about race, class, status, ethnicity, gender, and age that often differed markedly from our own. Moves beyond the literary to look at texts from a variety of genres (medical, literary, erotic, and autobiographical) and cover both well-treated and more obscure texts.

ENGL 240X.  Contemporary British Fiction—1980 to Present.  4 Units  
Term Typically Offered: Fall, Spring  

Students read and study British works of fiction—novels and short stories—written after 1979. Although the choice of authors and works might vary from one semester to another, focuses on works of fiction deemed significant and valuable by literary scholars and critics.

ENGL 240Z.  Special Topics in British Literature.  4 Units  
Term Typically Offered: Fall, Spring  

Open to the investigation of either a limited period (e.g. World War I poets or Victorian Children's literature), a single author (e.g. Hanif Kureishi or Apha Behn), an authorial dialogue (e.g. Chaucer & Spenser, Stopppard and Shakespeare, Sidney & Wroth), or a unique literary feature, theme, or structure (e.g. Pastoral & Utopia or Empire & Race).

ENGL 245A.  Shakespearean Romance.  3 Units  
Term Typically Offered: Fall, Spring  

ENGL 250A.  Wharton and Cather.  3 Units  
Term Typically Offered: Fall, Spring  

Focuses on the writing of Edith Wharton and Willa Cather, two of our most accomplished early American writers. Shows how these writers, poised on the threshold of the twentieth century and pulled simultaneously forward and back, explored similar themes and how, as two of the few revered women writers of this time, they focused particularly on shifting gender roles; Wharton with her eye on interior space and Cather with her eye on exterior space.

ENGL 250D.  Hawthorne and Melville.  3 Units  
Term Typically Offered: Fall, Spring  

Readings and discussion of major works by Hawthorne and Melville.
ENGL 250Q. Irish-American Fiction. 3 Units
Term Typically Offered: Fall, Spring

Examines the theme of immigration and that of assimilation in a particular ethnic group: Irish-Americans. Through an examination of the literature, we find an ethnicity that is uneasily part of the American fabric and one defined to a large degree by the culture they either abandoned or were forced to abandon. Representative writers include Eugene O'Neill, Alice McDermott, William Kenney, Mary Gordon, John Gregory Dunne.

ENGL 250R. Wm. Faulkner: Major Fict. 3 Units
Term Typically Offered: Fall, Spring

ENGL 250T. Postmodern Fiction. 3 Units
Term Typically Offered: Fall, Spring

Study of important recent fiction that has come to be referred to as "postmodernist" because its non-traditional themes, subject matter, and narrative technique embody or reflect the postmodern era.

ENGL 250U. Roaring Twenties Literature. 3 Units
Term Typically Offered: Fall, Spring

Focus on literature dramatizing the roaring, irrepressible twenties, a decade of unprecedented change following the "Great War to end all wars." Highlighting Fitzgerald, whose life mirrors the times, also includes other "expatriate" writers such as Wharton, Dos Passos, Stein, Eliot, and Hemingway, who looked at America from an overseas perspective and reflected on the changes in communication, sensibility, and values resulting from the new freedom of this revolutionary, liminal period.

ENGL 250V. Cultural Studies. 4 Units
Term Typically Offered: Fall, Spring

Surveys the range of contemporary cultural phenomena and the relevant modes of analysis currently employed in Cultural Studies with a focus on literary production and cultures.

ENGL 250W. The Poetry of T.S. Eliot. 4 Units
Term Typically Offered: Fall, Spring

Focuses on the poetry of T.S. Eliot, one of the dominating figures of English and American literature for a substantial part of the twentieth century. In 1948 he received the Nobel Prize for Literature, and by 1950 his authority had reached a level that seemed comparable in English writing to that of figures like Johnson and Coleridge. Offers students the opportunity to analyze and discuss Eliot's poems. We will trace his poetic/aesthetic development from his early poems ("Prufrock" et al.)

ENGL 250Z. Special Topics in American Literature. 4 Units
Term Typically Offered: Fall, Spring

The investigation of either a limited period (e.g. The Transcendental period or the Novel of the 1960s), a single author (e.g., Philip Roth or Toni Morrison), or a unique literary feature or structure (e.g. Literary Naturalism or the Experimental Novel).

ENGL 260A. Myth Criticism. 3 Units
Term Typically Offered: Fall, Spring

Introduces and traces through several literary works and genres the fundamental topics in myth criticism; significance of ritual, fairy tales, and archetypal romance forms; contributions of Freudian, Lacanian, and Jungian psychology and their relation to Joseph Campbell's notion of the monomyth; relevance of Victor Turner's "liminal" theories of rites of passage in anthropology; importance of recent discoveries with the bicaneral and "triune" brain in biological sciences; kinds of myth (hero, heroine, American, love, wasteland, artist, time); and relationships between myth criticism and post-structuralism.

ENGL 260D. Literature and Biography. 3 Units
Term Typically Offered: Fall, Spring

Focuses on contemporary literary works from postcolonial locations such as Africa, Australia, South Asia, Canada and the Caribbean. Explores the relationships between literary texts and the historical and social contexts from which they arise; especially European colonialism.

ENGL 265A. Postcolonial Literature. 3 Units
Term Typically Offered: Fall, Spring

ENGL 275. Seminar in Literary History. 3 Units
Term Typically Offered: Fall, Spring

Literary history designed to introduce the graduate student to bibliographical materials necessary to the successful pursuit of advanced study in English. It will deal with the major historical periods of English and American literature, and looks briefly at the major European traditions.

ENGL 280A. Aesthetics of Minority Literature. 4 Units
Term Typically Offered: Fall, Spring

This course examines African American literature and film. Focusing on the emergence of a distinctly black modernist and post-modernist literary discourse, we will also study how neo-slave narratives illuminate the difficulties of comparative freedom and the legacies of Caribbean and American slaveries and oppression.

ENGL 280B. The Ethics of Black Verbal Aesthetics. 4 Units
Term Typically Offered: Fall, Spring

This course introduces the advanced study of black verbal aesthetics in the novels of Ralph Ellison (the dozens), Toni Morrison (folktales), Colson Whitehead (call and response), the poetry of Harryette Mullen (diasporic blues/jazz improvisation), and others. Exploring black verbal aesthetics and sonic technologies, we will investigate how the these authors above (as well as James Baldwin and Amiri Baraka) treat verbal expressive arts as sites of hidden knowledge, subversion, and everyday politics that centralizes black life and culture.

ENGL 280J. Jewish American Literature. 3 Units
Term Typically Offered: Fall, Spring

Students will examine a rich tradition of Jewish American literature in the context of a complex American multicultural narrative. Topics include the immigrant experience, assimilation, alienation, responses to the Holocaust and other forms of anti-Semitism, the place of Israel in the Jewish American imagination, and a contemporary rediscovery or reconstruction of Jewishness and Judaism. Students will interrogate what constitutes Jewish American identity and defines its literature in a culture that is itself conflicted about its secular/religious ethos and the degree to which subjectivity is determined by "consent and/or descent."
ENGL 297A. Prose Style in Literature. 3 Units
Term Typically Offered: Fall, Spring

ENGL 299. Special Problems: English Tutorial. 1 - 3 Units
Prerequisite(s): ENGL 200.
Term Typically Offered: Fall, Spring

Individual projects or directed reading. Highly recommended for, and open only to, students who are able to carry on individual tutorial study. Admission by approval of faculty member who is to act as tutor and of graduate advisor or of Department Chair.
Credit/No Credit

ENGL 410A. Writing Center Theory and Practice: Internships. 4 Units
Term Typically Offered: Fall, Spring

Provides interns with an opportunity to apply tutoring principles while working at tutors in the writing center.
Note: ENGL 410A is paired course with ENGL 195A, which meets at the same time in the same room. The graduate class, 410A, has a significantly increased reading, writing, and research component. May be repeated for up to 8 units of credit.
Credit/No Credit

ENGL 410B. Internship-ESL Teaching. 3 Units
Term Typically Offered: Fall, Spring

Provides interns with an opportunity to experience the day-to-day life of an ESL class. Tutors will observe an ESL class, will assist the teacher in conducting various aspects of the class, and will be responsible for planning and teaching at least one class session. Seminar meetings will provide an overview of ESL teaching methodology.
Credit/No Credit

ENGL 410C. Internships. 4 Units
Term Typically Offered: Fall, Spring

Work experience in an area related to the English major. Can be repeated if topic of internship differs. Credit/No credit
Credit/No Credit

ENGL 410E. Internship in Teaching Writing. 4 Units
Term Typically Offered: Fall, Spring

Students considering a teaching career intern in a composition class at an area community college. They work with a mentor teacher on site and meet periodically at CSUS. The internship provides students with an opportunity to experience the day-to-day life of a composition class and hands-on opportunity to design assignments, respond to student writing, conduct class discussions, etc. Students read composition and rhetorical theory with an eye toward day-to-day application in the classroom.
Credit/No Credit

ENGL 410F. Internship in Teaching Literature. 4 Units
Prerequisite(s): Recommended ENGL 225 or ENGL 22A or instructor Permission
Corequisite(s): Instructor Permission
Term Typically Offered: Fall, Spring

Gives graduate students the opportunity to gain teaching experience in a literature classroom. Students will work closely with an instructor-of-record in a large (60+) lecture literature course and in small group discussion sessions under the supervision of the mentor professor.
Interns will also meet regularly with their peers to discuss pedagogical issues and readings as they pertain to their experiences in the classroom.
Credit/No Credit

ENGL 410L. Internship in Teaching Adult Reading. 3 Units
Term Typically Offered: Fall, Spring

Tutoring in adult reading. Tutors work with students who need reading instruction at Sacramento State, local community colleges or adult education agencies in the Sacramento area.
Credit/No Credit

ENGL 410W. Writing Programs Internship. 3 Units
Term Typically Offered: Fall, Spring

Students will work with a Composition faculty member to complete a project for the campus writing program, the University Reading and Writing Center, the Graduation Writing Assessment Requirement, or the Writing Across the Curriculum Program. Students should contact the appropriate program coordinator to register for the course and design a project.
Credit/No Credit

ENGL 500. Culminating Experience. 2 Units
Term Typically Offered: Fall, Spring

Completion of a thesis, project, comprehensive examination. In addition, students will be asked to edit and reflect on their portfolio projects from coursework.

ENGL 598T. Culminating Experience - TESOL. 3 Units
Term Typically Offered: Fall, Spring

Completion of a thesis, project, or TESOL comprehensive exam. Requires advancement to candidacy and permission of graduate coordinator. Project and thesis options require GPA of 3.7.

BA in English

Units required for Major: 44, 27-30 of which must be upper division
Total units required for BA: 120

Program Description

The English department of California State University, Sacramento, is a community of teachers, scholars, writers, and support staff whose primary mission is to promote learning in composition, creative writing, English education, linguistics, literature, and the teaching of English as a second language. The department seeks to help students acquire knowledge, develop skills, and realize their own intellectual and creative goals.

At the undergraduate and graduate levels, the English Department presents a broad and balanced curriculum designed to develop the reading and writing skills, the interpretative abilities, and the cultural awareness of its students by maintaining and enhancing a tradition of strong teaching, solid scholarship, and vigorous support of creative literary activity.

Minimum Grade Requirement

English majors must achieve a grade of "C-" or better in all courses included in the major, unless otherwise specified.

Note: With the noted exception of ENGL 5, English courses may NOT be challenged.

<td>25</td>
<td></td>
</tr>
</tbody>
</table>

**Total Units**: 44

1. Students must take at least one British Literature survey (ENGL 40A, ENGL 40B), and at least one American Literature survey (ENGL 50A, ENGL 50B). We recommend that lower division requirements be completed no later than the first semester in which the student begins taking required upper division courses.

2. Course also satisfies General Education (GE)/Graduation Requirement.

3. Students are required to complete a course in their senior year, selecting from courses specially designated as Senior Seminars. The seminar has a reduced class size and requires a term paper, student presentations and submission of the student's work.

4. Students must take one of the classes listed to satisfy this requirement (unless they have already taken ENGL 40A or ENGL 50A as one of the required Lower Division courses).

5. In addition to the required courses, student take an additional 25 units of electives, including their writing intensive course, which must be taken in the English department. Of those 25 units, at least 18 units must be upper division.

Students can satisfy the historical breadth requirement by taking ENGL 40A or ENGL 50A as one of their required Lower Division courses; students who have not done so must take at least one course that meets the Historical Breadth requirement as part of their 25 units of elective courses in the major.

**Notes:**

- Students must complete 18 units of English, of which at least 15 must be in upper division (100-level) courses, in residence at California State University, Sacramento.
- The following courses may not be included toward the major:
  - ENGL 1X Academic Literacies Workshop
  - ENGL 199 Writing-Intensive Workshop
  - ENGL 199X Writing for GWAR Placement
  - ENGL 199M Writing for GWAR Placement-Multilingual

Certificate in Teaching Composition

Units required for the certificate: 16

Employment as a Teaching Associate in the English Department at Sacramento State may be substituted for ENGL 410E, reducing total number of coursework units to 12.

Program Description

The English department of California State University, Sacramento, is a community of teachers, scholars, writers, and support staff whose primary mission is to promote learning in composition, creative writing, English education, linguistics, literature, and the teaching of English as a second language. The department seeks to help students acquire knowledge, develop skills, and realize their own intellectual and creative goals.

At the undergraduate and graduate levels, the English Department presents a broad and balanced curriculum designed to develop the reading and writing skills, the interpretative abilities, and the cultural awareness of its students by maintaining and enhancing a tradition of strong teaching, solid scholarship, and vigorous support of creative literary activity.

The "Teaching Composition Certificate" is designed for individuals who seek formal recognition for completing an organized, integrated, specialized program of study: teaching composition. This certificate is recommended for those students preparing to teach writing at the community college level or for high school teachers seeking to update their knowledge of composition theory and practice. Upon successful completion of the designated course of study, a certificate will be awarded.

Note: Candidates must have an overall GPA of 3.0 in courses submitted for the certificate. Applicants for the Certificate Program in Teaching Composition must have completed all requirements for eligibility for any English graduate program. This certificate is not recognized by the California Commission on Teacher Credentialing; it does not meet the eligibility requirements to teach in K-12 California public schools.

Required Courses (16 Units)
Certificate in TESOL

Units required for Certificate: 15 (Option A) or 18 (Option B)

Program Description
This Advanced Study in Teaching English to Speakers of Other Languages (TESOL) certificate program has two options:

- **Option A**: This option is intended for undergraduates who want preparation for teaching ESL students (in the U.S. or abroad).
- **Option B**: This option is intended primarily for graduate (see English graduate page) students who want to pursue an MA in English or another field, but also want to be prepared to teach ESL writing at the college level.

Eligibility Requirements for options A and B
Students must either be in a degree program at Sacramento State or must apply for graduate admission to the University. Once admitted to Sacramento State, prospective TESOL Certificate students must apply to the TESOL Coordinator for admission to the program.

Undergraduates must be within 45 units of completing a bachelor’s degree (in any field) with a 3.0 overall GPA.

Graduate students must have a completed bachelor’s degree (in any field) with a 3.0 overall GPA.

All applicants must complete the University’s Writing Placement for Juniors (WPJ) requirement.

International students must have a TOEFL score of 600 or higher (or a score of 250 or higher on the computerized TOEFL) and a score of 5 on the Test of Written English.

Minimum Grade Requirement
Courses must be completed with grades of "B" or better

Program Requirements

Notes:
The Certificate in TESOL is not a teaching credential. It is recognized abroad as advanced training in language teaching. In conjunction with a BA or MA degree or a state teaching credential, it may also be helpful in obtaining employment as an ESL teacher in the United States.

MA in Composition and Rhetorical Analysis
The MA in Composition, Rhetoric, and Professional Writing is recommended for students preparing to teach at the high school or community college level or advance as writers in professional, workplace contexts. The MA in Composition, Rhetoric, and Professional Writing offers preparation for careers in fields such as education, journalism, publishing, law, technical writing, advertising, arts administration, or civil service; or to pursue study at the doctoral level. Because many graduate students work during the day, most graduate courses are scheduled for late afternoon and evening hours. The course of study leads to an M.A. thesis project in rhetoric, composition, and professional writing in which the student undertakes original research or creates a professional writing portfolio under the supervision of a two-person faculty committee.

Admission Requirements
- a minimum GPA of 3.0 in the last 60 units of all university level coursework or a 3.0 GPA in courses in Communication Studies, Education, English, Philosophy, Political Science or related major on the transcript from your degree-granting institution (effective beginning with Spring 2015 admissions)
- Statement of purpose and writing sample

Total Units: 30

1. In order to satisfy the Graduation Writing Requirement (GWAR) and advance to candidacy, students in this program must receive a "B" or higher in ENGL 220A. For more information on this requirement and possible equivalencies, please visit: http://www.csus.edu/gradstudies/currentstudents/gwar.html.

2. Up to four units of upper-division (100-level) coursework in the English department may be counted toward electives.

3. Students who enroll in a three-unit elective must also enroll in ENGL 222: Understanding Multidisciplinary Writing Studies.

4. The Culminating requirement for the Composition Concentration shall be completed via Plan A requirements by writing a thesis.

MA in English (Creative Writing)

Total units required for the MA: 30

Program Description

The M.A. in English with a Concentration in Creative Writing is recommended for students preparing to teach at the community college level, for those students whose objective is to pursue an M.F.A. or Ph.D. in creative writing, and writers seeking to advance their understanding of creative writing practice and theory.

In general, the M.A. degree in each of its concentrations seeks to enhance students’ skills in: critical reading; analysis of language, ideas, and the formal attributes of texts; creative engagement with the writing traditions of its two disciplinary fields; and independent research.

The two concentrations of the English M.A. offer preparation for students who aspire: to teach writing or literary study in high-school or community-college settings; to teach English to adult learners and to students abroad; to pursue career opportunities in fields such as journalism, publishing, law, and creative writing, advertising, arts administration, or civil service; or to pursue study at the doctoral level.

Because many graduate students work during the day, most graduate courses are scheduled for late afternoon and evening hours.

Admission Requirements

Admission as a classified graduate student in English requires:

For: All Applicants to the MA in English

- a baccalaureate degree;

- a minimum GPA of 3.0 in the last 60 units of all university level coursework or a 3.0 GPA in courses in the English major on the transcript from the degree granting institution;

- a minimum of 27 units of upper division courses in English;

- (for foreign students from non-English speaking countries) a TOEFL score of 600 or higher (or a score of 250 or higher on the Computerized TOEFL) and a score of 5 on the Test of Written English; and

- a minimum of fifteen units of upper-division coursework in literature

- at least one course must primarily address British literature and at least one course must primarily address American literature;

Application Materials Required by the English Department for All Applicants

In addition to the materials that must be sent directly to the Office of Graduate Studies as outlined in “Application Materials Required by the University” (below), students must also send to the English M.A. Graduate Coordinator in the English Department additional material by the application deadline.

Before submitting the materials, please check with the English Department website (http://www.csus.edu/engl/ (http://www.csus.edu/engl/)) for updates and specific deadlines.

Please have the following material delivered to the English Department directly and addressed to the English M.A. Coordinator:

- Personal statement of no more than 300-500 words. The personal statement should discuss the applicant's interest in the program concentration (literature or creative writing) that he or she has chosen and the experiences (academic and non-academic) that have shaped this interest and prepared the applicant for graduate work in this field.

- Three confidentially submitted recommendation forms (found on the department website) for all students (both California State
University, Sacramento and other institutions). Students graduating from universities other than California State University, Sacramento, must also provide formal letters from their three recommenders in addition to the completed recommendation forms.

- Writing sample for Creative Writing applicants only (for prose or fiction, the writing sample should be no more than 15 pages; for poetry, the writing sample should consist of approximately 5 or 6 poems).
- Students graduating from any institution other than California State University, Sacramento, must send directly to the English Department an official copy of all transcripts from each institution of higher education that they have attended.
- Students who have attended California State University, Sacramento, must send directly to the English Department official transcripts from institutions of higher education they have attended other than California State University, Sacramento.
- A completed copy of the Department of English Supplemental Application found on the English Department website.

The Graduate Coordinator will screen all applicants according to these requirements and a ranking system devised by the department. Applicants who have deficiencies in these admission requirements which can be removed by specified additional preparation will be ranked accordingly but may be admitted with conditionally classified graduate status. Any deficiencies will be noted on a written response from the Graduate Coordinator to the student’s admission application.

**Application Materials Required by the University**

In addition to any materials sent directly to the department, all prospective graduate students including California State University, Sacramento, graduates, must file the following with the Office of Graduate Studies, River Front Center 215, (916) 278-6470:

- an online application for admission;
- two sets of official transcripts from all colleges and universities attended, other than California State University, Sacramento; and
- TOEFL scores, if applicable.

**Note:** For materials that must be sent directly to the English Graduate Program Coordinator in the English Department, see “Application Materials Required by the English Department” as listed above.

Applicants are accepted as long as room for new students exists or until the deadline passes. Applicants should file as early as possible.

For more admissions information and application deadlines, please visit:

ENGL 500 | Culminating Experience | 2 |

**Total Units** | 30 |

1 In order to satisfy the Graduation Writing Assessment Requirement (GWAR) and advance to candidacy, Creative Writing and Literature students must receive a "B" or higher in ENGL 200A. For more information on this requirement and possible equivalencies, please visit: http://www.csus.edu/gradstudies/currentstudents/gwar.html

2 The culminating requirement for Creative Writing Concentration shall be the Comprehensive Examination (Plan C), for which student will prepare by taking ENGL 500.

**MA in English (Literature)**

Total units required for MA: 30

**Program Description**

The MA in English with a Concentration in Literature is recommended for students preparing to teach at the community college level, for those whose objective is to pursue a Ph.D. in literature, or for high school teachers seeking to advance their understanding of literature and literary theory.

In general, the M.A. degree in each of its concentrations seeks to enhance students’ skills in: critical reading; analysis of language, ideas, and the formal attributes of texts; creative engagement with the writing traditions of its two disciplinary fields; and independent research.

The two concentrations of the English M.A. offer preparation for students who aspire: to teach writing or literary study in high-school or community-college settings; to teach English to adult learners and to students abroad; to pursue career opportunities in fields such as journalism, publishing, law, creative writing, advertising, arts administration, or civil service; or to pursue study at the doctoral level.
Because many graduate students work during the day, most graduate courses are scheduled for late afternoon and evening hours.

Admission Requirements

Admission as a classified graduate student in English requires:

For: All Applicants to the MA in English

• a baccalaureate degree;
• a minimum GPA of 3.0 in the last 60 units of all university level coursework or a 3.0 GPA in courses in the English major on the transcript from the degree granting institution;
• a minimum of 27 units of upper division courses in English;
• (for foreign students from non-English speaking countries) a TOEFL score of 600 or higher (or a score of 250 or higher on the Computerized TOEFL) and a score of 5 on the Test of Written English; and
• a minimum of fifteen units of upper-division coursework in literature.
• at least one course on their transcript must primarily address British literature and at least one course must primarily address American literature.

Application Materials Required by the English Department for All Applicants

In addition to the materials that must be sent directly to the Office of Graduate Studies as outlined in "Application Materials Required by the University" (below), students must also send to the English Graduate Coordinator in the English Department additional material by the application deadline.

Before submitting the materials, please check with the English Department website (http://www.csus.edu/engl/) for updates and specific deadlines.

Please have the following material delivered to the English Department directly and addressed to the English M.A. Coordinator:

• Personal statement of no more than 300-500 words. The personal statement should discuss the applicant’s interest in the program concentration (literature, composition, or creative writing) that he or she has chosen and the experiences (academic and non-academic) that have shaped this interest and prepared the applicant for graduate work in this field.

Applicants who have deficiencies in these admission requirements which can be removed by specified additional preparation will be ranked accordingly but may be admitted with conditionally classified graduate status. Any deficiencies will be noted on a written response from the Graduate Coordinator to the student’s admission application.

Application Materials Required by the University

In addition to any materials sent directly to the department, all prospective graduate students including California State University, Sacramento, graduates, must file the following with the Office of Graduate Studies, River Front Center 215, (916) 278-6470:

• an online application for admission;
• two sets of official transcripts from all colleges and universities attended, other than California State University, Sacramento; and
• TOEFL scores, if applicable.

Note: For materials that must be sent directly to the English Graduate Program Coordinator in the English Department, see "Application Materials Required by the English Department" as listed above.

Applicants are accepted as long as room for new students exists or until the deadline passes. Applicants should file as early as possible.

For more admissions information and application deadlines, please visit http://csus.edu/gradstudies/.

Minimum Units and Grade Requirements for the Degree

Units required for the MA: 30

Minimum Cumulative GPA: 3.0. No units with a grade lower and “C” may apply towards the degree

Advancement to Candidacy

Each student must file an application for Advancement to Candidacy indicating a proposed program of graduate study. This procedure should begin as soon as the classified graduate student has:

• removed any deficiencies in admission requirements;
• completed at least 12 units of English 200-level courses in the Master’s Degree program with a minimum cumulative grade point average of 3.0; and
• taken the Writing Placement for Graduate Students (WPG) or taken a Graduate Writing Intensive (GWI) course in their discipline within the first two semesters of coursework at California State University, Sacramento or secured approval for a WPG waiver.

Advancement to Candidacy forms are available in the Office of Graduate Studies. The student fills out the form after planning a degree program in consultation with an English faculty advisor. The completed form is then returned to the Office of Graduate Studies for approval.

MA in TESOL

Total units required for MA: 33

Program Description

The MA in Teaching English to Speakers of Other Languages (TESOL) requires extensive study of linguistics and pedagogy, as well as actual teaching and/or tutoring experience with second-language students. The culminating experience of the MA TESOL Concentration is the comprehensive examination.

The MA TESOL provides professional preparation and training in the theory and practice of teaching English to non-native speakers. The program is designed for graduate students who expect to teach in community college or secondary or adult education settings in the U.S. or in adult or university level courses overseas. The program is also preparation for the Ph.D. in Applied Linguistics.

Admission Requirements

To ensure that students entering the program have the potential to succeed, both in the program and in their teaching careers, the MA TESOL has the following admission requirements:

- a baccalaureate degree with a minimum 3.0 GPA, including a 3.0 GPA in the final 60 units;
- international students must achieve minimum scores on the TOEFL as follows: 600 on the traditional TOEFL, with a score of 5 on the Test of Written English (TWE) OR 250 or higher on the computerized TOEFL, with a score of 5 on the Test of Written English OR 100 or higher on the TOEFL, with a minimum of 24 on the writing section;
- completion of prerequisite courses (or their equivalents) with a grade of "B" or better.

Admission Procedures

Applications are accepted on a first-come, first-served basis. Enrollment is limited, so applicants should file as early as possible in the semester prior to intended admittance. Students not meeting all requirements may be conditionally accepted as long as space is available in the program. Applications must complete a university application by the posted application deadline date for the term applying. For more admissions information and application deadlines, please visit http://www.csus.edu/gradstudies/gradstudents/gwar.html

Note: Because of the budget constraints, undergraduates and unclassified graduate students can be admitted to TESOL graduate courses on a space available basis only.

The following materials must also be submitted:

- Personal statement of no more than 300-500 words. The personal statement should discuss the applicant's interest in the program and the experiences (academic and non-academic) that have shaped this interest and prepared the applicant for graduate work in this field.
- Three confidentially submitted recommendation forms for all students (both California State University, Sacramento and other institutions). Students graduating from universities other than California State University, Sacramento, must also provide formal letters from their three recommenders in addition to the completed recommendation forms.
- A completed copy of the TESOL Supplemental Application found on the English Department website.

Minimum Units and Grade Requirement for the Degree

Units required for the MA: 33

Minimum Cumulative GPA: 3.0

Notes:

- Up to 3 units of ENGL 299 may apply to the degree.

Advancement to Candidacy

Each student must file an application for Advancement to Candidacy indicating a proposed program of graduate study. The procedure should begin as soon as the classified graduate student has:

- filed the application for Advancement to Candidacy; and
- completed Plan A requirements by writing a thesis, provided they have a baccalaureate degree with a minimum 3.0 GPA, including a 3.0 GPA in 21 units in their graduate program may elect to complete Plan A requirements by writing a thesis, provided they have two faculty willing to read and direct the thesis.

1 Students should see the TESOL Coordinator for a transcript evaluation if they have completed equivalent coursework. Under no circumstances will any coursework more than seven years old be accepted for transfer.

2 The culminating requirement for the Literature Concentration shall normally be the Comprehensive Examination, for which the student will prepare by taking ENGL 500. Students who have earned a 3.7 GPA or better in 21 units in their graduate program may elect to complete Plan A requirements by writing a thesis, provided they have two faculty willing to read and direct the thesis.

Enrollment of international students must achieve minimum scores on the TOEFL, with a score of 5 on the Test of Written English (TWE) OR 250 or higher on the computerized TOEFL, with a score of 5 on the Test of Written English OR 100 or higher on the TOEFL, with a minimum of 24 on the writing section;
• removed any deficiencies in admission requirements;
• a plan of study that has been filled out with the help of the TESOL Advisor;
• completed at least 12 units of 200-level courses in the Master’s Degree program with a “B” or better in each course; and
• take a Graduate Writing Intensive (GWI) course in their discipline within the first two semesters of coursework at California State University, Sacramento.
• Advancement to Candidacy forms are available on the Office of Graduate Studies website. The completed form is then returned to the Office of Graduate Studies for approval.

The MA in TESOL includes the Certificate of Advanced Study in TESOL. Coursework for the Certificate must be completed with grades of “B” or better. Credential candidates may apply for Supplemental Authorization in ESL through the Commission on Teacher Credentialing. Candidates for the Adult Education Credential in ESL may apply through their local County Office of Education. An extensive job file for employment in the U.S. and overseas is maintained in the TESOL Program Office, Calaveras Hall 138.

| Culminating Requirement (3 Units) | ENGL 598T | Culminating Experience - TESOL | 3 |

**Total Units: 33**

The following courses may not be counted toward the minor:

1. An upper division or graduate course not on this list may be substituted with the prior permission of the graduate coordinator.
2. Students must complete a thesis, project, or TESOL comprehensive examination. The thesis and project options require permission of the graduate coordinator. Only students with an earned GPA of 3.7 or higher will be given permission to do a thesis or project.
Minor in English

Units required for Minor: 21

Program Description
The English department of California State University, Sacramento, is a community of teachers, scholars, writers, and support staff whose primary mission is to promote learning in composition, creative writing, English education, linguistics, literature, and the teaching of English as a second language. The department seeks to help students acquire knowledge, develop skills, and realize their own intellectual and creative goals.

Minimum Grade Requirement
Grades of "C-" or better are required in all courses in the minor.

Note: Nine of the units for the minor, including at least 6 upper division units, must be taken in residence at Sacramento State.

Program Requirements
Code | Title | Units
--- | --- | ---
ENGL 1 | Basic Writing Skills | 3
ENGL 5 | Accelerated Academic Literacies | 3
ENGL 1C | Critical Thinking and Writing | 3
ENGL 5M | Accelerated Academic Literacies - Multilingual | 3
ENGL 20 | College Composition II | 3
ENGL 109M | Writing for GWAR Placement-Multilingual | 3
ENGL 109W | Writing for GWAR Placement | 3
ENGL 120A | Advanced Composition | 3

Select two of the following | 6
ENGL 40A | Introduction to British Literature I | 3
ENGL 40B | Introduction to British Literature II | 3
ENGL 50A | Introduction to American Literature I | 3
ENGL 50B | Introduction to American Literature II | 3
ENGL 65 | Introduction to World Literatures in English | 3

Select 15 additional units of upper-division English electives | 15

Total Units | 21

Note: Courses being applied to other degree programs (e.g., to Spanish majors) cannot also be applied to the TESOL Minor. See the TESOL Coordinator for prior approval of substitute courses.

Subject Matter Program (English)
Units required for Major: 47
Total units required for BA: 120

Program Description
The English Single Subject Matter Program is a version of the major designed for students planning to teach English at the secondary school level.

General Requirements
Both new and continuing students in this major must establish a file with the English Education Advisor and to see the advisor at least once per semester to keep their file current.

Students must achieve a grade of "B-" or better in the following courses:

Code | Title | Units
--- | --- | ---
ENGL 16 | Structure Of English | 3
or ENGL 110J | Traditional Grammar and Standard Usage | 3
or ENGL 110Q | English Grammar for ESL Teachers | 3
ENGL 110A | Linguistics and the English Language | 3
ENGL 110P | Second Language Learning and Teaching | 3
ENGL 125A | Literature and Film for Adolescents | 4
ENGL 125B | Writing and the Young Writer | 3,4
### Minimum Grade Requirement

Students must achieve a grade of "C" or better in all other courses for the program.

### Program Requirements

*Note:* Required in Major; also satisfies Graduation Requirement.
Hellenic Studies

College of Arts and Letters

Program Description

The Hellenic Studies minor emphasizes coursework and independent study in the areas of Greek language, Greek History, Greek politics, and Greek arts and literature. The Hellenic Studies curriculum includes lower and upper division classes offered by the departments of Foreign Languages, History, Humanities and Religious Studies, Philosophy, Government, and Art. The minor is associated with the Tsakopoulos Hellenic Collection (http://www.library.csus.edu/tsakopoulos/) in the Sacramento State Library.

History

College of Arts and Letters

Program Description

History, in the broad sense, is the study of all human experience. It examines the people, institutions, ideas, and events from the past to the present. The study of history contributes to cultural literacy and develops critical thinking and other useful skills while helping students understand the present and plan for the future. Historical study provides a solid, fundamental preparation for careers in business, industry, government, and education. It also serves as excellent preparation for law school, foreign service, international work, urban affairs, historical consulting, and library science.

History is an academic discipline offering both breadth and focus. At Sacramento State, the History major includes four lower division survey courses and three upper division seminars. In addition, students choose seven upper division electives from a wide variety available. The flexibility of the major allows students to focus on topical areas such as: women's history, the history of particular geographic areas, cultural history, ethnic group history, economic history, military history, and history from the ancient world to that of the U.S. in the 20th Century. Teaching credential candidates should complete the History/Social Science Precredential Program.

The Sacramento State History Department has an extensive master's program, offering degrees through the Standard Program, and the Public History Option. The History Department also offers a joint Ph.D. in Public History in cooperation with the University of California, Santa Barbara. Applications for admission to the joint Ph.D. are available at the UC Santa Barbara Department of History.

Degree Programs

BA in History (p. 230)

Minor in History (p. 235)

Minor in Latin American Studies (p. 236)

Subject Matter Program in History/Social Science (Pre-Credential Preparation) (p. 237)

MA in History (Comprehensive Option) (p. 231)
MA in History (Specialized Option) (p. 232)

MA in Public History (p. 234)

Ph.D. in Public History (p. 236)

Special Features

• The History Department administers two interdisciplinary minors: Middle East and Islamic Studies Minor and the Hellenic Studies Minor.

• The Capitol Campus History Resources Institute, Hellenic Studies Center, North Central Information Center, and the Center for Science, History, Policy, and Ethics are associated with the Department.

• The California State Library, California State Archives, the Sacramento Discovery Museum, and the California State Railroad Museum provide a rich supply of materials for historical research. Sacramento State history students may use materials from these and other off-campus sources in their work.

• Internships are available in a variety of public agencies and in some private enterprises. They are open to majors and other students with some history or related background. In the past, students have interned in a variety of California state agencies and in the Sacramento Discovery Museum. The Department office has a descriptive brochure on internships that students are encouraged to consult.

• The undergraduate major in History at Sacramento State is designed to provide cultural enrichment and a sense of alternatives and perspectives, especially relevant in a society confronted with widespread institutional change. In addition to subject matter, the Department gives particular emphasis to various methodologies and ways of thinking about the past.

• A minor in History can provide valuable support to majors in many other programs, such as Business Administration, Journalism, and Criminal Justice.

• History courses also make excellent electives, contributing interest and variety to an academic program. Neither lower division nor upper division history courses are designed only for history majors or minors. The Department welcomes and encourages all students.

Career Possibilities

Pre-Law/Lawyer · Journalist · Pre-Theology/Clergy · Foreign Service · Teacher · Archivist · Researcher/Research Analyst · Museum Curator · State Park Historian · Librarian · Business-Person · Writer · Consultant · Historian · Banking · Market Research · Travel · Historical Societies

HIST 4. Survey of Early Western Civilization. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
Survey of the earliest civilizations with emphasis on the contributions of the Hellenic, Roman and the Medieval eras to the West. Continues to the close of the Middle Ages. Stress is placed on social, economic, as well as political factors.

HIST 5. Survey of Modern Western Civilization. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
Survey of the development of western civilization from the Renaissance to the present day. Stress is placed on social and economic, as well as political, factors.

Note: Not open for credit to students receiving prior credit in HIST 105.
HIST 6. Asian Civilizations. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Introduction to major developments in the histories and cultures of China, Japan, and India — origins of civilizations, great empires, religions, growth and spread of cultures, alien invasions, Western impact, nationalist movements, modernization, and characteristics of contemporary society.

HIST 7. History of African Civilizations. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Introductory survey of the history of Africa from earliest times to the present. Major topics include: origins of humanity and society, civilizations of the Nile Valley, the peopling of Sub-Saharan Africa, African societies to 1500, pre-colonial Saharan and Sub-Saharan Africa, Colonial Africa and the emergence of modern states in Africa.

HIST 8. Islam and the West. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Introductory survey of basic events, themes, issues, and concepts in Islamic history from the rise of Islam to the present, with emphasis on the encounters and exchanges between the Islamic world and the “West” (Europe and the United States). Topics include: The similarities between Islam, Judaism and Christianity; the religious, political, social, and cultural developments in the Islamic world and their impact on Western civilization; colonialism; nationalism; religious revivalism; and revolutionary movements.

HIST 9. What We Ate: A Global History of Food. 3 Units
Term Typically Offered: Fall, Spring

A historical examination of the political, economic, and cultural transformations involved in food production and consumption since 1500. Emphasis on important food networks between South Asia and the Middle East, the role of addictive products in the rise of European trade empires, the emergence of national cuisines across the Atlantic and Pacific rims, and the varied responses to modern scientific and industrial farming.

HIST 10. History’s Mysteries: Thinking Critically about the Past. 3 Units
General Education Area/Graduation Requirement: Critical Thinking (A3)
Term Typically Offered: Fall, Spring

From the builders of the Pyramids to the cause of the Holocaust: unlock mysteries of the past; apply historical thinking skills to answer compelling historical questions; sharpen reasoning and argumentative skills; evaluate historical evidence; learn to recognize scientific standards of historical investigation; hone college level writing skills. Topics vary based on instructor’s expertise.

HIST 15H. Major Problems in U.S. History. 3 Units
General Education Area/Graduation Requirement: United States History, Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring

A survey of topics in American history from the colonial period to the end of the twentieth century. Subjects may include reform movements, immigration, racial problems, religion, politics and the role of women.
Note: Fulfills graduation requirement for U.S. History and Race and Ethnicity.

HIST 17A. United States History, 1607-1877. 3 Units
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), GE AREA D, United States History
Term Typically Offered: Fall, Spring

Basic historical survey of the rise of American civilization from colonial beginnings through the rebuilding of the union during Reconstruction.
Note: Fulfills state graduation requirement for U.S. History.

HIST 17B. United States History, 1877-Present. 3 Units
General Education Area/Graduation Requirement: United States History, GE AREA D, Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring

Basic historical survey of the growth of urban-industrial American civilization and its rise to world power, 1877-present.
Note: Fulfills state graduation requirement for U.S. History.

HIST 17D. United States History Discussion Section. 1 Unit
Corequisite(s): Enrollment in a section of HIST 17A or HIST 17B
Term Typically Offered: Fall, Spring

A weekly discussion section to accompany enrollment in HIST 17A or 17B. Text discussions and presentations, reading and note-taking strategies, historical writing, primary source investigations.
Credit/No Credit

HIST 18. Health, Medicine, and Science in America, 1600-Present. 3 Units
Term Typically Offered: Fall, Spring

This course will examine science, medicine, and public health in America from the colonial era through the present.

HIST 21. First Year Seminar: Becoming an Educated Person. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Introduction to the nature of higher education, and the functions and resources of the University. Designed to help students develop academic success strategies and to improve learning skills. Students will interact with fellow students to build a community of academic and personal support. Introduces history as an academic discipline by requiring students to interpret historical information about issues such as academic freedom and the development of racism.

HIST 50. World History I: to 1500. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

A comparative history of the world’s major civilizations that highlights human community’s increased level of connection. Explores the diverse global cultural, political, and economic patterns from the origins of complex societies to the birth of modern capitalism.

HIST 50H. World History I: to 1500. 3 Units
Prerequisite(s): Open only to Honors students.
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only

Intensive comparative history of the world’s major civilizations that highlights human community’s increased level of connection. Explores the diverse global culture, political, and economic patterns from the origins of complex societies to the birth of modern capitalism.
HIST 51. World History from 1500 to the Present. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

A survey of the increased in-ter-connections of the world's civilizations from the conquest of the Americas to the dawn of the 21st century. Explores the history of the human community's political development, cultural diversity, and economic globalization.

HIST 51H. World History from 1500 to the Present. 3 Units
Prerequisite(s): Open only to Honors students.
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only

An intensive survey of the increased inter-connections of the world's civilizations from the conquest of the Americas to the dawn of the 21st century. Explores the history of the human community's political development, cultural diversity, and economic globalization.

HIST 100. Introduction to Historical Skills. 3 Units
Term Typically Offered: Fall, Spring

Introduction to the skills of secondary and primary source research, critical analysis of documentary sources, historical reasoning and the preparation of written reports. Attention to research procedures, record-keeping, citation, and bibliography.

Note: Open to History majors who have completed at least 6 units of required lower division coursework. Recommended for second semester of sophomore year.

HIST 101A. Language and written culture in Ancient Greece. 3 Units
Term Typically Offered: Fall, Spring

This is part of the two-semester hybrid course on Ancient Greek language and written culture. The language component of the course is taught online through an interactive language-teaching website, while the weekly meetings are mainly discussions on Ancient Greek texts in translation. The focus in this first part is on basic grammatical rules, the reading and construction of simple sentences, and the study of Greek written culture from its beginnings to the Classical Period. Cross Listed: WLL 120A; only one may be counted for credit.

HIST 101B. Language and written culture in Ancient Greece. 3 Units
Prerequisite(s): HIST 101A
Term Typically Offered: Spring only

This is the second part of a two-semester hybrid course on Ancient Greek language and written culture. The language component of the course is taught online through an interactive language-teaching website, while the weekly meetings are mainly discussions on Ancient Greek texts in translation. The focus in this second part is on advanced grammar, the reading and understanding of long passages, and the study of Greek written culture from the Classical Period to the Roman era. Cross Listed: WLL 120B; only one may be counted for credit.

HIST 102A. Culture and Language in Modern Greece, 1821-1909. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall only

This is the second part of a two-semester hybrid course on modern Greek language, history, and culture. This course is an introduction to the main cultural forces in history and literature that shape modern Greek society. It explores the historical development of modern Greek culture from the period of the Greek War of Independence to the present. Students will also obtain a basic level of modern Greek grammatical rules, the reading and writing of simple sentences, and basic everyday conversation skills.

HIST 102B. Culture and Language in Modern Greece, 1909-Present. 3 Units
Prerequisite(s): Student must complete HIST 102A with a minimum "C-" grade or better.
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Spring only

This is the second part of a two-semester hybrid course on modern Greek language, history, and culture. This course is an introduction to the main cultural forces in history and literature that shape modern Greek society. It explores the historical development of modern Greek culture from the period of the Greek War of Independence to the present. Students will also obtain a basic level of modern Greek grammatical rules, the reading and writing of simple sentences, and basic everyday conversation skills.

HIST 103. Mediterranean Europe: From the Renaissance to the European Union. 3 Units
Term Typically Offered: Fall, Spring

Traces the development of Southern European countries from the Renaissance to European Union membership. These two "rebirths" for Europe had a unique impact on Portugal, Spain, Italy and Greece. Focuses on the political, economic, and cultural aspects of these Mediterranean countries.

HIST 104A. Ancient Science. 3 Units
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring

An examination of the theories, experiments, and calculations of Greek and Roman scientists as well as the work of major contributors to astronomy, natural philosophy, medicine, and technology in the ancient period.

HIST 105. Great Ages and Issues in Modern European History. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Advanced analysis of topics in modern European history from the Renaissance to the present. Emphasis is placed upon primary sources and contemporary as well as historical interpretations of the sources.

Note: Not open for credit to students receiving prior credit in HIST 5.
HIST 106. Everyday Life and Society in Antiquity. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

An overview of social beliefs and practices in a variety of ancient cultures, including Ancient Greece, Rome, and the Near East chronologically ranging from Late Prehistory to the rise of Christianity. All the examined themes are approached comparatively and on the basis of ancient historical evidence, consisting of both texts and archaeological materials.

HIST 107. History of the Physical Sciences. 3 Units
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring

Study of the development of the major physical laws presently used in describing our physical world. Some considerations of the influences of these developments on other areas of knowledge and on society in general.
Cross Listed: PHSC 107; only one may be counted for credit.

HIST 108. Ancient Egypt: History & Culture. 3 Units
Term Typically Offered: Fall, Spring

Overview of the history of ancient Egypt from prehistory to the Roman conquest, combined with a study of cultural development in areas of ancient Egyptian religion, art, and literature.

HIST 109. History of Modern Greece. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Introduces the fundamental events and figures that shaped modern Greek history and politics. Topics will include: the Greek War of Independence, the Megali idea, the Asia Minor Catastrophe, and Greece's entry into the European Union. No prior knowledge of Greek or Greek language assumed.

HIST 110. The Ancient Near East: A Cultural History. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Growth and development of Ancient Near Eastern civilization with emphasis on Mesopotamia and Egypt as the foundation of ancient Mediterranean civilization. Religion, literature, art and social institutions will all be stressed as integral elements in an historical process.

HIST 111. Ancient Greece. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Political, social, and cultural development of Greece from the Mycenaean to the post-Alexandrian world with emphasis on Fifth Century Athens and on a reading of Thucydides.

HIST 112. Ancient Rome. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Rome from its foundation to Justinian with emphasis on its political institutions, their strengths and weaknesses, social structure, the ancient economy, paganism and Christianity, and the end of ancient civilization.

HIST 113. Early Medieval Europe. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

The transformation of Mediterranean civilization from Late Antiquity to its three heirs: Western Europe, Byzantium and Islamic Civilization. Topics include: Late Antique Christianity, monasticism, economic and trade structures, Islamic conquests, Carolingian civilization, medieval archaeology and technology, and the origins of manorialism and feudalism.

HIST 114. Europe in the High Middle Ages. 3 Units
Term Typically Offered: Fall, Spring

Flourishing of European civilization from the Gregorian reform (11th century) until the end of the Middle Ages. Emphasizes the development of Latin Christianity, the formation of national communities in France and England, and the multi-faceted crisis of the 14th and 15th centuries.

HIST 115. The Renaissance and Reformation in Europe. 3 Units
Term Typically Offered: Fall, Spring

Survey of the development of Italian City States and their relation to Northern Europe; an examination of the relationship among commerce, capitalism and secular culture; a survey of Reformation and Counter-Reformation.

HIST 116. Europe, 1648-1815, The Age of Revolution. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Political and social survey of Europe with emphasis on (a) the scientific revolution and the Enlightenment, (b) absolute monarchs and enlightened despots, (c) the American and French Revolutions, (d) Napoleon I, and (e) art, society and popular culture.

HIST 117. Europe, 1815-1914. 3 Units
Term Typically Offered: Fall, Spring

Consideration of historical trends in 19th Century Europe. Emphasis on Germany and France. Attention is devoted to liberalism, conservatism and nationalism; the industrial revolution, national unification, nationalism, imperialism and the rise of socialism.

HIST 118A. World War I: Causes, Conduct, Consequences. 3 Units
Term Typically Offered: Fall, Spring

Political and social development of Europe from the beginning of the 20th Century to the accession of Hitler to power in 1933 with emphasis on relations among the Great Powers.

HIST 118B. World War II: Causes, Conduct, Consequences. 3 Units
Term Typically Offered: Fall, Spring

Critical examination of political, military, social, and cultural transformations in the era of the Second World War. Particular emphasis will be placed on diplomatic relations between the Great Powers, military conduct during the war, the experience of fascism, the causes and ramifications of the Holocaust, and the war's cultural and political legacy in Europe.
HIST 119. Europe Since 1945. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
Examination of major developments in Europe since the end of World War II. Topics include: the basic intellectual structures of the 20th century; the origins of the Cold War; the rise of the EEC; decolonization; the political and social upheaval of the 1960's; détente; and the new preoccupation with nationalism and ethnic identity.

HIST 120A. History of Medicine, Ancient and Medieval. 3 Units
Term Typically Offered: Fall only
History of ancient-medieval medicine, the role of medicine in society, and attitudes toward illness and the body. Also covers alternative remedies such as magic and folk medicine. Primary focus on Greco-Roman medicine but also Sumerian, Egyptian, Christian and Islamic traditions.

HIST 121. Democracy and Human Rights in the Era of the French Revolution and Napoleon. 3 Units
Term Typically Offered: Fall, Spring
Explores the crucial social, cultural, intellectual, and political legacies of the Revolutionary and Napoleonic years (1789-1815) in France and across the globe. In particular, examines ideas and policies regarding religious toleration, democratic participation, slavery, gender, and nationalism.

HIST 122A. History of Women in Western Civilization, Prehistory-Middle Ages. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Humanities (Area C2)
Term Typically Offered: Fall, Spring
Emphasis on the lives and experiences of women as they relate to the fundamental characteristics of Western culture. Topics include women and religion, production and economic institutions, reproduction and family structures, power and politics, women's self-definition.

HIST 122B. History of Women in Western Civilization, Renaissance-Present. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Humanities (Area C2)
Term Typically Offered: Fall, Spring
Emphasis on the lives and experiences of women as they relate to fundamental characteristics of Western culture. Topics include women and industrialization, the modern state, the development of feminism, feminism and socialism, revolutionary and reactionary movements.

HIST 123. The Crusades. 3 Units
Term Typically Offered: Fall only
The Crusading movement from the eleventh through the thirteenth centuries. Explores the eight "official" Crusades, and explores the concept of "crusading" as Christian Holy War. Extensively covers the intersection of Byzantine, Islamic, Catholic, and Jewish cultures in the Middle Ages, and incorporates religious, social, military, and political, history.

HIST 124A. Warfare: Alexander to Napoleon. 3 Units
Term Typically Offered: Fall, Spring
Conduct of war from 336 B.C. to 1815. Social and political consequences; development of weaponry, strategy and tactics; Great Captains.

HIST 124B. European Warfare from the French Revolution to the Present. 3 Units
Term Typically Offered: Fall, Spring
Study of the inception, conduct and impact of European warfare from the French Revolution to the present. Students will be required to complete one or more projects designed to increase their understanding of modern warfare and its implications.

HIST 125. Modern Germany, 1806-Present. 3 Units
Term Typically Offered: Fall, Spring
History of Germany from the fall of the Holy Roman Empire to the present. Topics will include the rise of German nationalism, the formation of the German nation-state, the Nazi era and the Holocaust, and postwar Germany's development.

HIST 126. Evolution of Christianity to the Reformation. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
Christianity from Jesus to Martin Luther. Emphasis on the evolution of Christian thought and institutions and the relationship of the Church to popular culture and secular powers.
Cross Listed: HRS 126; only one may be counted for credit.

HIST 127. Evolution of Christianity Since the Reformation. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only
European Christianity from the Reformation to the present. Emphasis on the evolution of Christian thought, the co-existence of the Catholic and Protestant traditions, and the relationship of religious and secular values in European society.
Cross Listed: HRS 127; only one may be counted for credit.

HIST 128A. Medieval England To 1485. 3 Units
Term Typically Offered: Fall only
Examines the developments of English history from the Celtic Bronze Age to the fifteenth century. Issues of race and ethnicity, gender, social classes, political ideology, religious toleration, economic developments, and artistic achievements will be examined in particular detail.

HIST 128B. Tudor and Stuart England, 1485-1714. 3 Units
Term Typically Offered: Fall, Spring
History of England from the consolidation of royal power under Henry VII to the Hanoverian succession. Emphasis on the Tudor Renaissance and Reformation, the growth of England's international status under Elizabethan, Stuart rule, the Civil Wars, the dictatorship of Oliver Cromwell and the Restoration.

HIST 128C. British History, 1714-Present. 3 Units
Term Typically Offered: Fall, Spring
History of the British Isles from Hanoverians to the Present. Emphasis upon the rise of Parliament, industrialization, reform, rise of labor, the two World Wars, the Welfare State and contemporary Britain.
HIST 129A. Medieval Russia. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Emergence of modern Russia from the principalities of medieval Russia. Emphasis on Eastern European, Byzantine, and Eurasian contributions to Russian history.

HIST 129B. Imperial Russia. 3 Units
Term Typically Offered: Fall, Spring

Emergence and collapse of imperial Russia as a continental world power from 1600 to 1917. Emphasis on the role of monarchy, a changing society and economy, and the growth of the educated public in the development of a distinctive imperial Russian culture and its final destruction in revolution.

HIST 129C. Twentieth Century Russia. 3 Units
Term Typically Offered: Fall, Spring

Revolutionary origins of the Soviet Union, its rise as a global superpower, and its sudden dissolution. Emphasis on the major political, economic, social, and cultural trends that defined Soviet civilization, as well as the Soviet legacy for contemporary Russia and the world.

HIST 129D. A Cultural History of Russia. 3 Units
Term Typically Offered: Fall, Spring

A historical survey of cultural expression in Russia. Emphasis on the changing role of elite and popular institutions as patrons and audiences, the definition of Russian culture through the canonization of content and form, and the relationship between politics and society as expressed in a variety of genres and media such as the visual arts, literature, music, and film.

HIST 130. The Fall Of Communism. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Causes and consequences of the dramatic transformations in the political, economic, and cultural life of the Soviet Union, eastern Europe, and China after 1970. Topics include "real-existing" socialism, Gorbachev and the revolutions of 1989, the emergence of China, impact on the non-socialist world, and implications for the future.

HIST 131. History Of Sexuality in Comparative Perspective. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Survey of the comparative history of sexuality in the pre-modern and modern world (including the United States and Europe). Topics include the intersections of gender, sexuality, race, and social status across societies and time periods; religion and sexual norms; sex, sexuality and the rise of the nation-state; sex and imperialism; and sexuality and the law.

HIST 132. Topics In World History. 3 Units
Prerequisite(s): HIST 50.
Term Typically Offered: Fall, Spring

Designed for students who want to acquire multiple subject teaching credentials. Examines world history from a topical perspective, focusing on large themes and trends. Builds upon the detailed history taught in the HIST 50.

HIST 133. Twentieth-Century World History. 3 Units
Prerequisite(s): HIST 51 or HIST 51H
Term Typically Offered: Spring only

A survey of the major international themes and historical processes that shaped the twentieth century. Designed for History majors and present or prospective teachers of history.

HIST 134. The Rise and Fall of European Colonial Empires. 3 Units
Term Typically Offered: Fall, Spring

This course covers the origins of European colonialism in the Iberian expansion, the development of English and Dutch empires, the role of spices, slaves, sugar, and opium in the making of the modern global economy, the "New Imperialism" of the 19th Century, the anti-colonialist and nationalist movements, and the final collapse of the empires after World War II.

HIST 135A. History Of Mexico To 1910. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Emphasizes Meso-American culture, the creation and flourishing of Spanish colonial culture, the independence movements, and the trials and tribulations of nationhood in the 19th century.

HIST 135B. Revolutionary and Modern Mexico. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Political, social, economic and cultural history of the Mexican upheaval, from 1910 to 1920, and the development of Modern Mexico since 1920.

HIST 136. Spanish Civil War. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

In-depth examination of the Spanish Civil War (1936-1939) focusing on its social, political, and cultural contexts. The course also examines the war's historical origins, immediate aftermath and implications for understanding modern Spain.

HIST 137A. Latin American Revolutions in the Twentieth Century. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall only

Comparative analysis of twentieth-century Latin American revolutions. Considers economic and political causes, revolutionary aims, and historical outcomes.
HIST 137B. Latin American History in Film. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Humanities (Area C2)
Term Typically Offered: Spring only

An analysis of films representing Latin American history from conquest through present.

HIST 138A. Colonial Latin America. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Survey course in the history of Latin America from the late fifteenth century to the early nineteenth century.

HIST 138B. Modern and Contemporary Latin America. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Survey course in the history of Latin America from the early nineteenth century to the present.

HIST 139A. Global Environmental History in the Age of Imperialism, 1450-Present Day. 3 Units
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall only

Study of global environmental history, from before the Columbian Exchange to the present day. Focus on world patterns in environmental history, including imperial expansion, economic growth, exploitation of natural resources, and epidemics, among other topics. Also consideration of how humans around the world constructed their environments both physically and socially.

HIST 140. Modern East Asian Cinema. 3 Units
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Arts (Area C1)
Term Typically Offered: Fall, Spring

Survey of the development of cinema in Asia, focusing primarily on cinematic masterpieces from China, Hong Kong, and Japan. Focuses on directors, actors, and studios that left a lasting mark on cinema history. Also focuses on how Asian aesthetic sense differs from the Hollywood norm. Prerequisite: GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X. Cross-listed: ASIA 140; only one may count for credit.

HIST 141. History of Africa Since 1800. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

European control in Africa, African primary resistance and proto-nationalist movements, decolonization and post-independence, nation-building to present.

HIST 142. History of Women in Africa. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Examines the role of African women in politics, religion, the economy, the family and the arts from ancient times to the present. Considers the varying status of women in different regions of the continent. Also looks at the impact of kinship structures on women, development issues, and African responses to feminist discourse.

HIST 143A. Middle Eastern History to 1800. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only

Surveys the history of the Muslim Middle East from the age of the Prophet Mohammed to the late Ottoman Empire. Topics include: the Islamic religious revolution; the splintering of the Islamic community into Sunnis, Shias and other Islamic minorities; the impact of Islam upon the European West; the Crusades; and Western influence at the end of the 18th century.

HIST 143B. The Modern Middle East. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Spring only

Surveys Middle Eastern history from 1800 to the present. Topics include: the late Ottoman Empire; World War I and state creation; western imperialism; Arab nationalism; Zionism; state building; modern economies and traditional societies; Islam and the modern state; and the Arab-Israeli conflict.

HIST 143C. Ottoman State and Society. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Overview of the history of the Ottoman Empire from its rise in the 13th century to its demise in the early 20th century. Topics include Ottoman state structure, military, economy, legal system, society, culture, and legacy.

HIST 143D. The Arab-Israeli Conflict. 3 Units
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Spring only

Overview of the origins, evolution, and implications of the ongoing Arab-Israeli conflict. Focus will be on the role of external and internal factors in the emergence and escalation of the conflict, the opposing claims over Palestine, and the impact of the conflict on different groups in the region. Topics include colonialism, transition from empire to nation state, Jewish and Arab nationalism, secularism, the Cold War, religious revivalism, and identity.

HIST 144. Indonesia, 1965: Context, Causes, and Consequences of Cold War Mass Murder. 3 Units
Term Typically Offered: Fall, Spring

Examines the domestic and international political, social, and economic context of the overthrow of Indonesian President Sukarno, the mass murder of perhaps a million individuals associated with the Indonesian Communist Party, and subsequent US-backed military dictatorship of General Suharto.
HIST 145. South Asian History & Civilization. 3 Units
Term Typically Offered: Fall, Spring

South Asian history from the Indus Valley Civilization to the 1947 partition of British India to the nation-states of India and Pakistan. Topics include: development of Hinduism, Buddhism, Jainism, and Sikhism; rise and fall of the Mauryan, Mughal, and British empires; Indian philosophy, art, literature, South Asian expressions of Islam, Judaism, and Christianity; elite and popular religious syncretism; gender and sexuality in South Asia; Portuguese and British colonialism; South Asian nationalism; and the life and thought of Mahatma Gandhi.

HIST 146A. Cultural History of Japan to 1800. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only

History of traditional Japan stressing developments in literature, drama, art, religion and philosophy in the context of political, social and economic development. Movies, slides and readings in Japanese literature will be used.

HIST 146B. Modern Japan, 1800-present. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Spring only

Roots of modernization in late feudal Japan; Western impact; political, economic and social modernization; the growth and decline of democratic institutions; militarism and World War II; U.S. occupation; and Japan's impressive "success story" 1950-present.

HIST 146C. The History of Manga. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

A survey of the history of manga (Japanese graphic novels) that will trace the historical antecedents of manga from ancient Japan to today. The course will focus on major artists, genres, and works of manga produced in Japan and translated into English.

HIST 147. History of Buddhism. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Examines in cultural and historical perspective, drawing from ancient and contemporary sources, the key practices and ideas of Buddhist traditions in India, China, Southeast Asia, Tibet, Japan and other surrounding regions; as well as the most recent spread of these practices and ideas to Europe, North America, and Australia. Cross listed: HRS 147

HIST 148A. China: Antiquity to 1600 AD. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only

Historical development of China from the Neolithic period to the end of the 16th Century. In addition to texts and records, other sources such as archaeology, literature, and art will be examined to gain understanding of and appreciation for the longevity of China as a culture and a polity. Traditionally neglected groups such as women and the lower classes will be emphasized.

HIST 148B. China, 1600 to Present. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Spring only

The transformation of China since the 17th Century. Examines the internal tensions of population growth and social unrest, as well as external pressures of encroaching imperialism and modern values of freedom and democracy. Revolution, communism, modernization, and nationalism will be addressed.

HIST 149. The Making of Modern Southeast Asia. 3 Units
Term Typically Offered: Fall, Spring

Examines the historical formation of Southeast Asia, how European colonization integrated Southeast Asia into the global economic order, and how the region became a critical strategic zone in the Second World War and the Cold War. Traces the centuries long formation of nations of Southeast Asia, the second half will focus on political and economics developments of the 20th Century.

HIST 150. Colonial America. 3 Units
Term Typically Offered: Fall, Spring

Development of the British mainland colonies from exploration, contact, and settlement to the age of the American Revolution. Topics include: background to colonization; mercantilism, the emergence of a multicultural society; regional variation; Native Americans, slavery, women and family, community formation, religion, education, Enlightenment in America, European rivalries, imperialism.

HIST 151. The Age of the American Revolution. 3 Units
Term Typically Offered: Fall, Spring

Causes and consequences of the American Revolution. Topics include: Whig ideology, popular politics, loyalism, economic concerns, the western frontier, Native Americans, African-Americans, and women during the era, the course of the war with Great Britain, the Confederation and Constitution, social consequences of the Revolution.

HIST 152. Young Republic, 1790-1840. 3 Units
Term Typically Offered: Fall, Spring

Beginnings of government under the Constitution; the U.S. in a warring world; Thomas Jefferson and Andrew Jackson; market economy, canals and factories; nationalism, the debate over slavery, and emerging sectionalism.

HIST 153. Civil War and Reconstruction, 1840-1890. 3 Units
Term Typically Offered: Fall, Spring

Political history of the Civil War and Reconstruction. Topics include sectionalism; slavery, westward expansion, secession, the conduct of the war, industrialization, and the changing status of African Americans.

HIST 154. 20th Century United States, 1890-1940. 3 Units
Term Typically Offered: Fall, Spring

U.S. response to urban, industrial growth from the origin of the Spanish-American War to Franklin D. Roosevelt. Progressivism, Imperialism, World War I, the decade of the 1920's; Depression and the New Deal.

HIST 155. 20th Century United States, 1941-Present. 3 Units
Term Typically Offered: Fall, Spring

Social, economic, and cultural challenges and achievements in U.S. life as they are reflected in political history. Emphasis upon domestic affairs, supplemented by foreign concerns that have presented fundamental choices to the American people.
HIST 156. The Sixties: Years of Hope, Days of Rage. 3 Units
Prerequisite(s): HIST 17B.
Term Typically Offered: Fall, Spring
Examines the key events and ideas that helped shape American politics and culture in the 1960s. Special emphasis placed on political power, race and racism, the role of dissent and social activism, and nonviolent civil disobedience. Covers the Vietnam War, the African-American Civil Rights movement, the Chicano movement, the women's movement, the counterculture, as well as social conflict and its resolution.

HIST 157. History of International Relations in the 20th Century. 3 Units
Term Typically Offered: Fall, Spring
Survey of the history of international relations (political, military, economic, cultural, and environmental) in the 20th century. Covers Europe, Asia, the Middle East, Africa, and the Americas, with emphasis on global events and issues from non-U.S. perspectives.

HIST 158. Military History of the United States. 3 Units
Term Typically Offered: Fall, Spring
Survey from the colonial militia to the present, including all military branches, with emphasis on the U.S. Army. In addition to doctrine, operations, weapons and warfare, focuses on the interrelationship of the military with the economic, social and political concerns of the American nation.

HIST 159. History of US Foreign Relations. 3 Units
General Education Area/Graduation Requirement: United States History, GE AREA D
Term Typically Offered: Fall, Spring
Diplomatic, military, economic, and cultural relations between the U.S. and the world from 1789 to the present, with emphasis on the 20th Century; focus on transformation of U.S. into a global power. Note: Fulfills state graduation requirement for U.S. History.

HIST 160. The United States in Vietnam, 1940-1975. 3 Units
Term Typically Offered: Fall, Spring
Case study of the making of foreign policy through seven presidencies. Identifies the causes of an American war in Vietnam and examines that involvement as a representative example of post-World War II U.S. globalization. Consideration of the domestic impact of the War and a critical examination of the "lessons" learned from it.

HIST 161. The American Vision. 3 Units
General Education Area/Graduation Requirement: GE AREA D, United States History
Term Typically Offered: Fall, Spring
Media survey of American life from the beginnings to the present. Integrates slides of American art, architecture, popular culture, and technology with history, literature and contemporary music. Note: Fulfills state graduation requirement for U.S. History.

HIST 162. Social History of the United States. 3 Units
General Education Area/Graduation Requirement: United States History, GE AREA D
Term Typically Offered: Fall, Spring
Survey of topics in American social history from the colonial period to the middle of the Twentieth Century. Subjects may include reform movements, immigration, racial problems, religion, medicine, and the role of women. Note: Fulfills state graduation requirement for U.S. History.

HIST 163. The City in US History. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
Role of the city in the American experience, with emphasis on the rapid urbanization of the 19th and 20th centuries. Attention given to the attractions and problems of urban life and to proposals for reforming the cities.

HIST 164. History of American Capitalism. 3 Units
Term Typically Offered: Fall, Spring
Survey of U.S. business from the colonial era to the present that places U.S. business in a global context. Examines how individual entrepreneurs and regulators have contributed to the development of the modern American political economy. Cross Listed: GOVT 164; only one may be counted for credit.

HIST 165. American Environmental History. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
Traces the changing relationship between human society and the natural environment from pre-colonial era to the present. Focuses on the interplay between industrialization and nature, and examines past and present environmental movements. Cross Listed: ENVS 165; only one may be counted for credit.

HIST 166. Popular Culture. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring
Focuses on entertainment and everyday life in America from the beginnings to the present. Enhances the students’ understanding of how popular culture reflects and shapes the larger issues and institutions of American life.

HIST 167. History of American Women. 3 Units
General Education Area/Graduation Requirement: GE AREA D, United States History
Term Typically Offered: Fall, Spring
Study of the role of women throughout American history with emphasis on the suffrage movement, abolitionism, and birth control. Considers the emancipation of women and their role in contemporary society. Note: Fulfills state graduation requirement for U.S. History.
HIST 168. Images Of America. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), Humanities (Area C2), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring
Interdisciplinary survey of major events, trends and figures in American history viewed through American literature, visual arts, music and architecture. The arts in America are studied in relation to major ideas, significant personalities and important historical events from the period of the early republic to the present.
Cross Listed: HRS 168; only one may be counted for credit.

HIST 169. Hollywood and America. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
Chronological survey of American films and their cultural significance from the 1890's to the present. Focus on films produced in Hollywood, the contexts in which they were created, and the impact of Hollywood as a mythical place in the development of American culture.
Cross-listed: HRS 169; only one may be counted for credit.

HIST 170A. Sports in American History. 3 Units
Explores the significance of sports in American history from the colonial era to the present. Examines how the social, cultural, and economic role of sports in the American experience intersects with race, class, gender, immigration, citizenship, and nationality. Considers the wide-ranging articulations of popular sports in the public imaginary throughout the 20th century.

HIST 171A. American Indian History to 1840. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
History of North American native people from before the European invasion to 1840. Particular attention given to the formation of indigenous societies before and during European colonization of the Americas and to the experience of Indian cultures, societies, and nations in the early U.S.

HIST 171B. American Indian History since 1840. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Spring only
History of North American native people from 1840 to the present. Particular attention given to Indian nations’ engagement with the Indian policies of the United States and the persistence and adaptation of American Indian cultures, societies, and identities in the modern U.S.

HIST 172. LGBTQ Histories. 3 Units
Term Typically Offered: Fall only
This course provides an introduction to the study of lesbian, gay, bisexual, transgender, and queer (LGBTQ) histories. Uses an interdisciplinary and comparative approach to explore the historical emergence and development of LGBTQ identities, communities, and political movements. Includes theoretical analysis of the history of gender and sexuality and the practice of historical analysis.
Cross Listed: WOMS 172; only one may be taken for credit.

HIST 173. The History of the Civil Rights Movement: From Reconstruction to Deconstruction, 1865-Present. 3 Units
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), GE AREA D
Term Typically Offered: Fall, Spring
Examines the campaign for civil rights waged by African Americans from the Reconstruction era through the present. Treats the movement's roots, goals, main organizations, and its relationship with African American culture in this period. Includes a comparison with the experiences of Mexican Americans and Native Americans.

HIST 174A. History of Disability in the United States. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall only
Study of mental and physical disability in United States history from colonial times to the present. Emphasizes disability as a social and cultural construction and examines how disability intersects with historical constructions of race, class, gender, and sexuality. Includes lived experiences of disabled Americans, changing cultural perceptions of disabled Americans, and disability activism and legislative action, including the passage of the Americans with Disabilities Act and its aftermath.

HIST 175A. Sex, Population, and Birth Control in America. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Spring only – odd years
Explores efforts to control reproduction in America in the nineteenth and twentieth centuries. It examines the medical and legal institutions that shaped public policy and the general public's response to efforts to regulate citizens' reproduction, sexuality, and healthcare. It also investigates how race, ethnicity, class, and gender determined the types of reproductive choices available to Americans.

HIST 175B. Health, Death and Disease in America. 3 Units
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), GE AREA D
Term Typically Offered: Spring only – even years
An examination of American medicine from the colonial era through the present from a multi-cultural perspective, including how measures of health determined the monetary value of enslaved Americans in the colonial and antebellum eras and how Americans ability to access healthcare has been based upon their race, class, gender, and (dis)ability. Also addresses challenges to established medical practices launched by the womens health movement, civil rights activists, the Black Panther Party, and the right-to-die movement.

HIST 176. African Cultural Heritage in the Americas. 3 Units
Term Typically Offered: Fall, Spring
Focuses on the legacies of African cultural and social systems among the diasporic Africans in the Americas in the 19th and 20th centuries. Primary focus is on the U.S., but also examines African retentions in Jamaica, Haiti, Cuba, and South America.
Cross Listed: ETHN 176; only one may be counted for credit.
HIST 177. The African-American Experience, 1603-Present. 3 Units
General Education Area/Graduation Requirement: United States History, Race & Ethnicity Graduation Requirement (RE), GE AREA D
Term Typically Offered: Fall, Spring

Gives students an understanding of African-American history from the colonial period to the present. Focuses on African-Americans as active agents in shaping U.S. History, and analyzes the issues, ideas and strategies they have developed and used in their struggle for justice and equality.

Note: Fulfills the state graduation requirements for U.S. History.

HIST 178. Mexican-American History. 3 Units
General Education Area/Graduation Requirement: GE AREA D, Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring

Explores the contours of Mexican American history from the Spanish colonial experience through the present. Examines the roots of the Chicano community in the U.S. conquest of the Southwest, the twentieth-century immigration experience, the development of diverse Chicano communities after 1900, and the struggles for full civil rights in American society. Compared with the experiences of African Americans and Native Americans.

HIST 179. American Immigration History. 3 Units
Term Typically Offered: Fall, Spring

Study of immigration in American life. Particular attention given to the shifting causes and patterns of immigration, similarities and differences among the experiences of immigrants in the U.S., nativism, the development of immigration restrictions, and the effects of immigration on the life of the nation over time.

HIST 180. American Legal History. 3 Units
Term Typically Offered: Fall only

Examines the interaction of law, society, and politics in America from the colonial period to the present, with special emphasis on law as an arena of social and cultural conflict. Major topics include the development of the common law in early America; the law of slavery and its impact on constitutional development; the role of the law in defining controversies over race and gender; legal thought and education; and the role of the Supreme Court in 20th Century America.

HIST 181. Anarchists and Revolutionaries: Transnational Radicalism in America. 3 Units
Term Typically Offered: Fall, Spring

This course explores the intersection of anti-authoritarian ideologies, transnational migration and anarchist movements in the United States. It will focus on the time period of 1871 through 1940 and the ways in which concepts of “liberty” informed radical movements. Topics may include: European and Caribbean origins of anti-authoritarianism, immigrant enclaves, radical labor, anarchism, anarchist periodicals, and selected liberation movements.

HIST 182. American West. 3 Units
Term Typically Offered: Fall, Spring

Study of the Spanish and Indian frontiers, the advance of the Anglo-American settlers, and the emergence of the modern West.

HIST 183A. California History, 1542-1860. 3 Units
Term Typically Offered: Fall, Spring

Study of the people, institutions and cultural influence of Spanish-Mexican California and the changes brought by U.S. conquest and the Gold Rush.

HIST 183B. California History, 1860-1970. 3 Units
Term Typically Offered: Fall, Spring

Study of the social, political and economic evolution of California from construction of the first continental railroad link to the present, focusing on issues which are still significant in the state.

HIST 184. California Architecture and Urban History. 3 Units
Term Typically Offered: Fall, Spring

A survey of the history of California architecture and its impact on the urban environment from Native Americans to the 20th Century. Particular attention will be given to architecture as a statement of social, economic, and political empowerment.

Cross Listed: ART 118B; only one may be counted for credit.

HIST 185. California Indian History. 3 Units
Term Typically Offered: Fall, Spring

Historical study of California’s native people and Indian-white relations from the Spanish colonial era to the present.

HIST 186A. The California Gold Rush. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: GE AREA D, Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall only

Study of the social, cultural, economic, political, and environmental influences of the California Gold Rush in the contexts of state, national, and world history.

HIST 186B. History of California Water. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

Term Typically Offered: Fall, Spring

Study of the history of water in California, including its social, cultural, legal, economic, political, land use, and environmental significance.

HIST 186C. Sacramento History. 3 Units
Term Typically Offered: Fall only

Surveys the history of Sacramento and the lower Sacramento Valley through the nineteenth, twentieth, and early twenty-first centuries. Using local history methodologies, explores landscape change and patterns of community development in Sacramento and situates the city and region within national and global historical contexts.
HIST 187.  Topics in United States History 1600-1900.  3 Units
Prerequisite(s): HIST 17A.
Term Typically Offered: Fall, Spring

Designed for students who want to acquire multiple subject teaching credentials. Examines United States history between 1600 and 1900 from a topical perspective, focusing on large themes and trends. Builds upon HIST 17A.

HIST 188.  American Labor History.  3 Units
Term Typically Offered: Fall, Spring

Survey of the history of working people in the United States from the colonial period to the present. Topics include labor systems from slavery to wage work, strategies of labor organizations, race and labor, radicalism and reform, immigration and labor, labor and leisure, women and work, and globalization.

HIST 189.  California Dreamin': A Cultural History of California since 1840.  3 Units
Term Typically Offered: Fall, Spring

Study of the cultural history of California as reflected in the humanities - art, music, literature, and film - from early American settlement and conquest to the present.

HIST 190.  Clio: Editing and Publishing in History.  3 Units
Prerequisite(s): HIST 100
Term Typically Offered: Spring only

Seminar devoted to learning the editing and publishing side of the history profession. Students will produce the student history journal Clio.

HIST 191.  Seminar in Historical Interpretation and Analysis.  3 Units
Prerequisite(s): HIST 100 and (GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W).
Term Typically Offered: Fall, Spring

Reading seminar in philosophy of history, historical methodology, and historical reasoning. Special focus on the instructor’s field of expertise. Designed for History majors and present and prospective teachers of history.
Note: Not open to lower division students.

HIST 192A.  Seminar in Recent Interpretations of United States History.  3 Units
Prerequisite(s): GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.
Term Typically Offered: Fall, Spring

Reading seminar in recent scholarship and current trends in the interpretation of United States history. Designed especially for History majors and present and prospective teachers of history.
Note: Not open to lower division students.

HIST 192B.  Seminar in Recent Interpretations of European History.  3 Units
Prerequisite(s): GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.
Term Typically Offered: Fall, Spring

Reading seminar in recent scholarship and current trends in the interpretation of European history. Designed especially for History majors and present and prospective teachers of history.
Note: Not open to lower division students.

HIST 192C.  Seminar in Recent Interpretations of Asian History.  3 Units
Prerequisite(s): GWAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109 M/W.
Term Typically Offered: Fall, Spring

Reading seminar in recent scholarship and current trends in the interpretation of Asian history. Designed especially for History majors and present and prospective history teachers.
Note: Not open to lower division students.

HIST 192E.  Seminar in Recent Interpretations of African History.  3 Units
Prerequisite(s): GWAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109 M/W.
Term Typically Offered: Fall, Spring

Reading seminar in recent scholarship and current trends in the interpretation of African history. Designed especially for History majors and present and prospective history teachers.
Note: Not open to lower division students.

HIST 192F.  Seminar in Recent Interpretations of Latin American History.  3 Units
Prerequisite(s): GWAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109 M/W.
Term Typically Offered: Fall, Spring

Reading seminar in recent scholarship and current trends in the interpretation of Latin American history. Designed especially for History majors and present and prospective history teachers.
Note: Not open to lower division students.

HIST 192G.  Seminar in Recent Interpretations of a Special Topic.  3 Units
Prerequisite(s): GWAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109 M/W.
Term Typically Offered: Fall, Spring

Reading seminar in recent scholarship and current trends in the interpretation of a special topic. Designed especially for History majors and present and prospective history teachers.
Note: Not open to lower division students.

HIST 193.  Public History.  3 Units
Prerequisite(s): HIST 100
Term Typically Offered: Fall, Spring

Note: Field trip. Students will be required to attend field trips to public history institutions both on and off campus.
Field trip(s) may be required.
HIST 194. Oral History: Theory and Practice. 3 Units
Prerequisite(s): GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M/W and HIST 100.
Term Typically Offered: Fall, Spring
Introduces students to the theory and practice of oral history. Examines ethical and legal issues as well as problems of accuracy in memory. Students will also learn how to conduct, transcribe, and edit oral histories and develop oral history projects.

HIST 195A. History Internship. 3 Units
Prerequisite(s): Permission of the faculty internship director.
Term Typically Offered: Fall, Spring, Summer
Supervised work and project experience with history-related agencies and organizations, developing entry level skills. May not be repeated for credit.
Credit/No Credit

HIST 195B. Advanced History Internship. 3 Units
Prerequisite(s): HIST 195A and permission of the faculty internship director.
Term Typically Offered: Fall, Spring, Summer
Supervised work and project experience with history-related agencies and organizations, developing more advanced entry level skills and practice in communicating history to public audiences. May not be repeated for credit.
Credit/No Credit

HIST 195T. History Pre-credential Internship. 3 Units
Prerequisite(s): HIST 17A, HIST 17B, HIST 50, HIST 51, and HIST 100; permission of instructor.
Term Typically Offered: Fall, Spring
Supervised classroom observations and historical research to assist with curriculum development in secondary grade level history classrooms, with accredited schools, teaching related agencies and organizations. Students improve historical research skills, content mastery, and develop knowledge of using primary sources in history teaching. Students are exposed to secondary grade level history classrooms and observe instructional methods.
Note: Limited to upper division majors in the pre-credential program and students who have an interest in teaching history at the secondary level.
Credit/No Credit

HIST 196M. Japanese History in Japan. 3 Units
Term Typically Offered: Winter
A three-week course, with a two week Study-Abroad portion to Matsuyama Japan. Students will learn about Japanese history in both a classroom setting and through field trips to local sites in Ehime and Hiroshima prefectures. Field trip. Field trip(s) may be required.

HIST 197A. Senior Research Seminar: United States History. 3 Units
Prerequisite(s): GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.
Term Typically Offered: Fall, Spring
Research seminar in historical writing in which students will complete a research paper in United States History based on primary sources. Subject will vary according to instructor. Recommended for the second semester of the senior year.
Note: Not open to lower division students.

HIST 197B. Senior Research Seminar: World History. 3 Units
Prerequisite(s): GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.
Term Typically Offered: Fall, Spring
Research seminar in historical writing in which students will complete a research paper in world history based on primary sources. Subject will vary according to instructor. Recommended for the second semester of the senior year.
Note: Not open to lower division students.

HIST 197C. Senior Research Seminar: Public History. 3 Units
Prerequisite(s): GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.
Term Typically Offered: Fall, Spring
Introduction to bibliographic and research skills in secondary and primary sources, and the development of expertise in writing historical reports. Particular attention to regional research libraries, manuscript repositories and archival facilities.
Note: Not open to lower division students.

HIST 198. Summative Assessment for Teachers. 3 Units
Corequisite(s): HIST 100.
Term Typically Offered: Fall, Spring
Capstone seminar that serves as a bridge between academic preparation and entry into a professional teacher credential program. Students will examine social science-history in the State curriculum framework, reflect on subject matter preparation, focus on middle and high school social science teaching and learning, investigate and evaluate resources pertinent to instruction, and explore current issues in education.

HIST 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading. Open only to students who appear competent to carry on individual work.
Credit/No Credit

HIST 200. History and Theory. 3 Units
Prerequisite(s): Classified standing in History or instructor permission.
Term Typically Offered: Fall, Spring
Study of the theoretical schools and debates that have most influenced historical research and writing in the modern era. Introduces students to both important theoretical texts and their applied use. It is designed to provide an intellectual foundation for subsequent graduate-level history seminars.
Note: Graduate Writing Intensive (GWI) course.

HIST 201. Interpreting World History. 3 Units
Prerequisite(s): Classified graduate status in History or instructor permission.
Term Typically Offered: Fall, Spring
Study of historical interpretations of major issues and problems in world history. Helps students to define world history as a field and to consider different approaches to teaching and/or researching world history topics.
HIST 202. Interpreting U.S. History. 3 Units
Prerequisite(s): Classified graduate status in History or instructor permission.
Term Typically Offered: Fall, Spring

Study of historical interpretations of major issues and problems in US history. Helps students to define US history as a field and to consider different approaches to teaching and/or researching US history topics.

HIST 203. Public History Principles and Techniques. 3 Units
Prerequisite(s): Graduate status or instructor permission.
Term Typically Offered: Fall, Spring

Provides an introduction to public history by surveying the major topics in the field through readings, discussion, and guest lectures. Students will learn about the history of public history, employment opportunities for public historians, and public historical issues.
Note: Graduate Writing Intensive (GWI) course.

HIST 209A. Research and Writing in US History. 3 Units
Prerequisite(s): Classified standing in History or instructor permission.
Term Typically Offered: Fall, Spring

Research seminar in fields of special interest. Topics will be announced each semester.

HIST 209B. Research and Writing in the History of the American West. 3 Units
Prerequisite(s): Classified status in History or instructor permission.
Term Typically Offered: Fall, Spring

Research seminar in fields of special interest in the history of the American West. Topics will be announced each semester.
Note: May be repeated for credit provided the period or the topic is different.

HIST 209C. Research and Writing in World History. 3 Units
Prerequisite(s): Classified status in History or instructor permission.
Term Typically Offered: Fall, Spring

Research seminar in fields of special interest in the history of regions outside the U.S. Topics will be announced each semester.
Note: May be repeated for credit provided the period or the topic is different.

HIST 280A. Reading Seminar in African or Asian History. 3 Units
Prerequisite(s): Classified status in History or instructor permission.
Term Typically Offered: Fall, Spring

Extensive reading and analysis of the significant historical literature on a topic in African or Asian history. The area or topic to be studied will change from term to term.
Note: May be repeated for credit provided the period or the topic is different.

HIST 280B. Reading Seminar in Ancient or Medieval European History. 3 Units
Prerequisite(s): Classified status in History or instructor permission.
Term Typically Offered: Fall, Spring

Extensive reading and analysis of the significant historical literature on a topic in ancient or medieval European history. The area or topic to be studied will change from term to term.
Note: May be repeated for credit provided the period or the topic is different.

HIST 280C. Reading Seminar in Modern European History. 3 Units
Prerequisite(s): Classified status in History or instructor permission.
Term Typically Offered: Fall, Spring

Extensive reading and analysis of the significant historical literature on a topic in early modern or modern European history. The area or topic to be studied will change from term to term.
Note: May be repeated for credit provided the period or the topic is different.

HIST 280Z. Reading Seminar: Topics in World History. 3 Units
Prerequisite(s): Classified status in History or instructor permission.
Term Typically Offered: Fall, Spring

Extensive reading and analysis of the significant historical literature in world history. The area of topic to be studied will change from term to term.
Note: May be repeated for credit provided the period or the topic is different.

HIST 281A. Reading Seminar in Colonial or Early US History. 3 Units
Prerequisite(s): Classified status in History or instructor permission.
Term Typically Offered: Fall, Spring

Extensive reading and analysis of the significant historical literature of a particular period or topic in colonial North American or early U.S. history; the era or topic to be studied will vary from semester to semester.
Note: May be repeated for credit provided the period or the topic is different.

HIST 281B. Reading Seminar in Nineteenth Century US History. 3 Units
Prerequisite(s): Classified status in History or instructor permission.
Term Typically Offered: Fall, Spring

Extensive reading and analysis of the significant historical literature of a particular period or topic in nineteenth century U.S. history; the era or topic to be studied will vary from semester to semester.
Note: May be repeated for credit provided the period or the topic is different.

HIST 281C. Reading Seminar in Modern US History. 3 Units
Prerequisite(s): Classified status in History or instructor permission.
Term Typically Offered: Fall, Spring

Extensive reading and analysis of the significant historical literature of a particular period or topic in U.S. history after 1900; the era or topic to be studied will vary from semester to semester.
Note: May be repeated for credit provided the period or the topic is different.

HIST 282B. Reading Seminar: Topics in United States History. 3 Units
Prerequisite(s): Classified status in History or instructor permission.
Term Typically Offered: Fall, Spring

Extensive reading and analysis of significant historical literature of a particular period or topic in U.S. history; the era or topic to be studied will vary from semester to semester.
Note: May be repeated for credit provided the period or the topic is different.
HIST 282A. Research Seminar in Public History.  3 Units
Prerequisite(s): Graduate status or instructor permission.
Term Typically Offered: Fall, Spring
Professional training in the research and analysis of cartographic, archival, architectural, and artifact sources related to public history. Attention to such research areas as cultural resources management, environmental impact, and historic sites and structures.

HIST 282B. Archives and Manuscripts.  3 Units
Prerequisite(s): Graduate status or instructor permission.
Term Typically Offered: Fall, Spring
Professional training in archives and manuscripts administration. Historical development of archives and manuscripts administration, theoretical concepts that underlie the discipline, integration of these concepts into practice, and various uses of archival resources.

HIST 282C. Oral History: Theory and Practice.  3 Units
Prerequisite(s): Graduate status or instructor permission.
Term Typically Offered: Fall, Spring
Professional training in oral history, with attention to the field’s historical and theoretical development. Emphasis is placed on the methodology of oral history in the context of selected public history topics. Students learn to prepare for, conduct, transcribe, and edit oral history interviews.

HIST 282D. Museum Studies.  3 Units
Prerequisite(s): Graduate status or instructor permission.
Term Typically Offered: Fall, Spring
Intensive introduction to museum theory, practice, and management. Concentrates on providing an understanding of museums including museum exhibitions, collections, and acquisition policy. Students will have opportunities for practical museum experience and for meeting museum professionals.

HIST 282E. Historic Preservation.  3 Units
Prerequisite(s): Graduate status or instructor permission.
Term Typically Offered: Fall, Spring
Overview of the different aspects of historic preservation, including downtown revitalization, neighborhood organization, historic site management, preservation legislation, preservation education and historic architecture. The history of historic preservation in the U.S. Students will engage in on-site visits to historic sites.

HIST 282F. History and Memory.  3 Units
Prerequisite(s): Classified standing in Public History, History or instructor permission.
Term Typically Offered: Fall, Spring
Study of theoretical schools and debates regarding the formation, transformation, and transmission of collective memory. Draws upon theoretical literature on group memories from the social sciences and humanities, and it examines the importance of this literature for public and academic historians.

HIST 282G. Cultural and Heritage Tourism.  3 Units
Term Typically Offered: Fall, Spring
Seminar course that explores the theory and methods of cultural and heritage tourism as it pertains to experiences locally and globally. Topics include interpretation, audience interaction, and the economic, social, and political implications of heritage travel. Field trips and collaborative course project are required. Field trip(s) may be required.

HIST 282Z. Special Topics in Public History.  3 Units
Prerequisite(s): HIST 203 or instructor permission.
Term Typically Offered: Fall, Spring
Intensive seminar in a particular topic related to public history studies. Topics may vary and may include exhibit design, digital production, world heritage, cultural landscape, or other specialized knowledge in the field.

HIST 290. Clio: Editing and Publishing in History.  3 Units
Term Typically Offered: Spring only
Seminar devoted to learning the editing and publishing side of the history profession. Students will produce the student history journal Clio.

HIST 295. History Internship.  3 Units
Prerequisite(s): Graduate status and permission of faculty internship director.
Term Typically Offered: Fall, Spring
Supervised work and project experience with history-related agencies and organizations, developing entry-level professional skills.

HIST 297. Advanced Internship.  3 Units
Prerequisite(s): HIST 295 and permission of the faculty internship director.
Term Typically Offered: Fall, Spring
Professional work experience in a specialized field of public history, with training and supervision as part of the Capital Campus Graduate Program in Public History.

HIST 299. Special Problems.  1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading.
Note: Open only to students who appear competent to carry on individual work; May be repeated for credit.

HIST 400. The Teaching of History in College.  3 Units
Term Typically Offered: Fall, Spring
Seminar devoted to the teaching of college history. Students will intern in lower division courses.

HIST 500. Culminating Experience.  3 Units
Prerequisite(s): Advanced to candidacy.
Term Typically Offered: Fall, Spring
Credit given upon successful completion of one of the following: A.) Thesis. An original contribution to historical knowledge, which includes the statement of a problem, a review of pertinent literature, the collection and presentation of relevant material, a conclusion, and a formal bibliography, all presented with appropriate documentation; OR B.) Project. A significant undertaking appropriate to public history, based upon the relevant literature, research skills, and applied expertise in areas of professional concern. Available for MA, Public History Option students only. OR C.) Comprehensive Examination. Structured and supervised reading programs for MA candidates preparing for the History Comprehensive Examination.
BA in History

Units required for Major: 42
Total units required for BA: 120

Program Description

History, in the broad sense, is the study of all human experience. It examines the people, institutions, ideas, and events from the past to the present. The study of history contributes to cultural literacy and develops critical thinking and other useful skills while helping students understand the present and plan for the future. Historical study provides a solid, fundamental preparation for careers in business, industry, government, and education. It also serves as excellent preparation for law school, foreign service, international work, urban affairs, historical consulting, and library science.

History is an academic discipline offering both breadth and focus. At Sacramento State, the History major includes four lower division survey courses and three upper division seminars. In addition, students choose seven upper division electives from a wide variety available. The flexibility of the major allows students to focus on topical areas such as: women's history, the history of particular geographic areas, cultural history, ethnic group history, economic history, military history, and history from the ancient world to that of the U.S. in the 20th Century. Teaching credential candidates should complete the History/Social Science Pre-credential Program.

Minimum Grade Requirement

A minimum grade of "C-" is required in courses applied to the major.

Upper Division Electives (21 Units)

Select one course in U.S. History                               3
Select one course in European History                         3
Select one course in the History of Africa, Asia, Latin America, or the Middle East 3
Select four additional upper division history courses selected in consultation with an advisor 12

Total Units 42

1 Course also satisfies General Education (GE)/Graduation Requirement.

2 Students should take HIST 100 in the second semester of their sophomore year; transfer students should take it in the first semester of their junior year after completion of at least 6 units of required lower division coursework. After completing the majority of their upper division electives and passing the Writing Placement for Juniors Exam, history majors should take one seminar from the HIST 192 series followed by one from the HIST 197 series. Typically, students take the HIST 197 seminar during their senior year.

Notes:

• Students should consult with a faculty advisor in their first semester at Sacramento State.
• Study of a foreign language is recommended.
• For substitutions in requirements, students should consult with a faculty advisor early in their program. Substitutions require the approval of the Department Chair.

Program Description

The Master of Arts program in History introduces students to the use of the historical method, the critical investigation of problems in historical study, and the analysis and interpretation of primary source material. These skills are valuable in many professions, especially to students interested in pursuing graduate study culminating in the doctorate in History, experienced teachers of history in public schools, students who wish to teach in California Community Colleges, and to students seeking employment in archival management, oral history, consulting, and public sector historical research.

California State University, Sacramento is well situated to offer rich historical resources in several fields of study. The California State Archives, the California State Library and the Sacramento Archives and Museum Collection Center offer unique opportunities for the study of Western and California History. The presence of many state and community agencies dealing with historic preservation offers possibilities for stimulating internships, and the history graduate program is also able to draw upon rich materials in a number of areas of United States, European, and world history located in the Sacramento State Library.

Admission Requirements

Admission as a classified graduate student in the Standard History program requires:

- a baccalaureate degree;
- an undergraduate major in History, OR a minimum of 27 semester units in History, or a closely related field, approved by the Graduate Coordinator. Fifteen of the units must be upper division and include one seminar from the HIST 192 series (or equivalent); and
- a minimum 3.0 GPA in the last 60 units attempted and a minimum 3.25 GPA in History courses.

Students who have deficiencies in admission requirements that can be removed by specified additional preparation may be admitted to the degree program with conditionally classified graduate status. Any deficiencies will be noted on a written response to the admission application. The department Graduate Coordinator will specify courses to be taken by students with fewer than 27 units of history and/or without the required seminars. Work taken to remove such deficiencies may not be counted toward the master's degree.

Admission Procedures

Applicants should apply online following the guidelines in the History Department’s website. The official deadlines are September 15 for Spring admission and February 15 for Fall admission.

MA in History (Comprehensive Option)

Total units required for the MA: 30

To help you complete your degree in a timely manner and not take more units than absolutely necessary, there are ways to use single courses to meet more than one requirement (overlap). For further information, please visit the General Education page (p. 1100).

Note: There is no way to list all possible overlaps so please consult with a professional advisor. The Academic Advising Center can be visited online (http://www.csus.edu/acad/), by phone (916) 278-1000, or email (advising@csus.edu).

1 Required in Major; also satisfies GE.

2 Required in Major; also satisfies GE.

3 Required in Major; also satisfies Graduation Requirement.

The alternative methods for satisfying the Foreign Language Proficiency Requirement are described here: https://www.csus.edu/college/arts-letters/world-languages-literatures/foreign-language-requirement.html
statement, the department encourages statements of approximately 500 words;

- two letters of recommendation that attest to their qualifications and ability to complete a professional degree program in History. These letters should ideally come from university instructors, but if these are not available, another credible individual who can address an applicant’s qualifications will be acceptable;
- an academic writing sample. Our strong preference is for a history research paper that integrates primary and secondary source evidence. Please select a sample of seven (7) to twenty (20) pages. You may provide a larger sample.

For more admissions information please visit https://www.csus.edu/graduate-studies/future-students/application-information.html#admission-requirements and https://www.csus.edu/college/arts-letters/history/admissions-history-ma-program.html.

Applicants will be informed of the Admission Committee’s decision within six weeks of the Department’s application deadline.

**Minimum Units and Grade Requirements for the Degree**

- Units required for the MA: 30
- Minimum Cumulative GPA: 3.0

**Advancement To Candidacy**

Each student must file an application for Advancement to Candidacy, indicating a proposed program of graduate study. This procedure should begin as soon as the classified graduate student has:

- removed any deficiencies in admission requirements;
- completed at least 12 units in the graduate program with a minimum 3.0 GPA, including at least one 200-level course;
- determined with the History Graduate Coordinator whether to attempt the thesis, examination, or project (Public History and Specialized Options only) as the Culminating Requirement;
- determined which department faculty member will supervise the student’s work and act as his/her History advisor;
- filed and received departmental approval of a Petition for Approval of Thesis/Examination/Project (only in the Public History and Specialized Options); and
- taken a Graduate Writing Intensive (GWI) course in their discipline within the first two semesters of coursework at California State University, Sacramento.

Students must file their Advancement to Candidacy in the semester prior to enrolling in HIST 500, Culminating Experience.

Advancement to Candidacy forms are available on the Office of Graduate Studies website. The student fills out the form after planning a degree program in consultation with his/her History advisor. The completed form is then returned to the Graduate Coordinator and the Office of Graduate Studies for approval.

**Note:** A foreign language is not a degree requirement. However, students who plan further graduate study in History are encouraged to study French, German, or another foreign language since proficiency in two foreign languages is usually required in doctoral programs.

Work taken to remove such deficiencies may not be counted toward the master's degree.

Admission Procedures

Applicants should apply online following the guidelines in the History Department’s website. The official deadlines are September 15 for Spring admission and February 15 for Fall admission.

All applicants, including Sacramento State graduates, must submit the following to the Office of Graduate Studies:

• an online application;
• Application Fee as required by the CSU system (You can pay this when you are filling out your online application)
• an official copy of all transcripts from colleges and universities attended, other than Sacramento State.

All applicants, including Sacramento State graduates, must submit the following to the History Department:

• one statement of purpose that attests to one's qualifications and the ability to complete a professional degree program in History. This statement should include an applicant’s reasons for applying to the Master's program, career objectives, and an explanation of how the program will help the applicant achieve them. It should also include relevant professional training, experience, internships, or volunteer activities, and any non-academic skills, interests, and notable accomplishments that may be pertinent to the pursuit of a graduate degree in History. While there is no page limit on this statement, the department encourages statements of approximately 500 words;
• two letters of recommendation that attest to their qualifications and ability to complete a professional degree program in History. These letters should ideally come from university instructors, but if these are not available, another credible individual who can address an applicant’s qualifications will be acceptable;
• an academic writing sample. Our strong preference is for a history research paper that integrates primary and secondary source evidence. Please select a sample of seven (7) to twenty (20) pages. You may provide a larger sample.

For more admissions information please visit https://www.csus.edu/graduate-studies/future-students/application-information.html#admission-requirements and https://www.csus.edu/college/arts-letters/history/admissions-history-ma-program.html.

Applicants will be informed of the Admission Committee’s decision within six weeks of the Department’s application deadline.

MA in Public History

Total units required for the MA: 36 including 9 units of supervised professional internship.

Program Description

The Public History Program offers a two-year course of study leading to the Master of Arts as a degree option within the History Department. The program provides an integrated professional curriculum that includes specialized project and internship experience in several concentrations including: archives and manuscripts, business history, oral history, public history research and analysis, and historic preservation. All students pursue a common course of study, gain professional experience through a series of internships, and complete a master’s project or thesis within their area of program specialization.

Program requirements meet the educational guidelines of the Society of American Archivists, the Oral History Association, and the National Council on Public History. Graduates are qualified for listing on the Professional Register of Public Historians maintained by the California Committee for the Promotion of History.

All applicants must meet the requirements for admission as a classified graduate student in History. Applicants are also encouraged (but not required) to submit both verbal and quantitative scores from the aptitude portion of the Graduate Record Examination with their admission application.

Applications are available from the History Department Office. Students who are not enrolled in the program may take public history courses on a space available basis, with instructor permission.

Admission Requirements

Admission as a classified graduate student in the Standard and the Public History programs requires:

- a baccalaureate degree;
- an undergraduate major in History, OR a minimum of 27 semester units in History, or a closely related field, approved by the Graduate Coordinator. Fifteen of the units must be upper division and include one seminar from the HIST 192 series (or equivalent) and one seminar from HIST 197 series (or equivalent); and
- a minimum 3.0 GPA in the last 60 units attempted and a minimum 3.25 GPA in History courses.

Students who have deficiencies in admission requirements that can be removed by specified additional preparation may be admitted to the degree program with conditionally classified graduate status. Any deficiencies will be noted on a written response to the admission application. The department Graduate Coordinator will specify courses to be taken by students with fewer than 27 units of history and/or without the required seminars. Work taken to remove such deficiencies may not be counted toward the master’s degree.

Admission Procedures

Applicants should file two applications: one to the Sacramento State Office of Graduate Studies for admission to the University, and the other to the Department of History for classified status in the History master’s program. Please check with the Department office for the official deadline.

All applicants, including Sacramento State graduates, must file the following with the Office of Graduate Studies, River Front Center 215, (916) 278-6470:
• an online application for admission; and
• two sets of official transcripts from all colleges and universities attended, other than Sacramento State.

For more admissions information and application deadlines please visit [http://www.csus.edu/gradstudies/](http://www.csus.edu/gradstudies/).

Applicants must also file the following with the Sacramento State History Department:

• a Department Application for Admission (available through the History Department office or Web site);
• a statement of purpose of at least 250 words. This statement should include reasons for applying to the master’s program, career objectives and an explanation of how the program will help achieve them, relevant professional training, experience, internships, or volunteer activities, and any non-academic skills, interests, or notable accomplishments that may be pertinent to the application;
• two letters of recommendation. Letters should ideally come from university instructors, but if these are not available, any other credible source who can address qualifications will be acceptable (i.e., work supervisor, clergy, or community leader);
• a set of transcripts from all colleges attended, including Sacramento State (unofficial transcripts will suffice);
• academic writing sample (optional but highly encouraged).

Applicants will be informed of the Admission Committee’s decision within six weeks of the Department’s application deadline.

**Minimum Units and Grade Requirement for the Degree**

Units required for the MA: 36 including 9 units of supervised professional internship

Minimum Cumulative GPA: 3.0

**Advancement To Candidacy**

Each student must file an application for Advancement to Candidacy, indicating a proposed program of graduate study. This procedure should begin as soon as the classified graduate student has:

• removed any deficiencies in admission requirements;
• completed at least 12 units in the graduate program with a minimum 3.0 GPA, including at least one 200-level course;
• determined with the History Graduate Coordinator whether to attempt the thesis, examination, or project (Public History and Specialized Options only) as the Culminating Requirement;
• determined which department faculty member will supervise the student’s work and act as his/her History advisor;
• filed and received departmental approval of a Petition for Approval of Thesis/Examination/Project (only in the Public History and Specialized Options); and
• taken the Writing Placement for Graduate Students (WPG) or taken a Graduate Writing Intensive (GWI) course in their discipline within the first two semesters of coursework at California State University, Sacramento or secured approval for a WPG waiver.

Students must file their Advancement to Candidacy in the semester prior to enrolling in HIST 500 ([http://catalog.csus.edu/search/?P=HIST%20500](http://catalog.csus.edu/search/?P=HIST%20500)), Culminating Experience.

Advancement to Candidacy forms are available on the Office of Graduate Studies website. The student fills out the form after planning a degree program in consultation with his/her History advisor. The completed form is then returned to the Graduate Coordinator and the Office of Graduate Studies for approval.

1 No more than one seminar from the HIST 281 series can be included as a Public History program elective.
2 Students complete either a master's thesis or master's project under the guidance of the Public History faculty. Students will make an oral presentation and defense of their thesis/project before a committee of at least two faculty members including the director of the MA thesis/project.
3 Students may not enroll in HIST 500 until all "Incomplete" grades received up to that point are completed. Students who receive “Incomplete” grades in coursework after enrolling in this course will not receive final approval on thesis or examination until a passing grade has been assigned to incomplete coursework.

**Minor in History**

Units required for Minor: 24, all of which must be taken in History; a minimum of 12 upper division units is required

**Program Description**

History, in the broad sense, is the study of all human experience. It examines the people, institutions, ideas, and events from the past to the present. The study of history contributes to cultural literacy and develops critical thinking and other useful skills while helping students understand the present and plan for the future. Historical study provides a solid,
Minor in Latin American Studies

Units required for Minor: 21

Program Description
The minor in Latin American Studies (LAS) provides students with coursework that explores the historical, social, cultural, political, and transnational/transoceanic conditions of Latin American societies as well as the ways in which these factors have shaped historical and contemporary Latino/a/x identities. The curriculum includes courses from a variety of disciplinary perspectives and allows students to specialize in particular topical and/or thematic areas of interest.

Ph.D. in Public History

Program Description
The joint doctoral program in Public History offered in cooperation with UC Santa Barbara provides training in public history, particularly in the following professional fields: history of public policy; cultural resource management; business and institutional history; and community and local history. Supporting courses are offered in oral history; archives and records administration; museum management; historic preservation; historical editing; and policy and litigation support.

Admissions Requirements
Prospective applicants for the joint Ph.D. program should have completed a Master's degree in history, public history, or a related field (in unusual circumstances, highly qualified candidates can be admitted without the MA).

Applicants should provide the following information to the Graduate Program in Public History at UCSB: the appropriate application forms; transcripts of completed academic work; GRE scores; three letters of
recommendation; and an essay explaining the applicant’s reasons for seeking a Ph.D.

Admissions Procedures
The Joint Public History Committee will review applications for admission and select the individuals to be admitted to the joint doctoral program.

Program Requirements
Students admitted to the program must spend at least one academic year in residence on each of the two campuses.

In addition to the required research seminars and professional coursework, students will complete an internship assignment and report.

To complete the doctoral program, students must pass a combination of written and oral examinations in four fields. These fields are typically: a general field (usually U.S. History); a specialized field within the general field; a third field encompassing the dissertation topic; a cognate field outside the department (e.g., art history, anthropology, political science).

In addition, each student will: pass one foreign language examination; complete a dissertation; and serve as a research or teaching assistant.

Subject Matter Program (History)
Units required for Major: 72
Total units required for BA: 120

Program Description
The History BA with Social Science Subject Matter Competency is for history majors interested in a career as a middle- or high-school teacher. The program addresses the needs of future teachers for essential content knowledge and academic skills preparation in the subjects covered by the Single Subject Credential in Social Science: U.S. and World History, Economics, Geography, and Political Science.

Many of the course requirements of the program meet GE and/or Graduation Requirements. Students are strongly encouraged to meet regularly with a major advisor every semester to select courses and prepare for the credential program.

Preparation for Credential Program
The History BA with Social Science Subject Matter Competency is a California state-approve subject matter program. Students who successfully complete the program satisfy the requirement of the Commission on Teacher Credentialing for demonstrated competence in Social Science. Graduates of the program are exempt from the CSET exams in Social Science.

Early field experience: Students are strongly encouraged to seek opportunities to gain experience in classroom settings or with youth in organized activities.

Sacramento State's Single Subject Teaching Credentials Program (https://catalog.csus.edu/colleges/education/teaching-credentials/single-subject-teaching-credential/) requires a minimum of 45 hours (100 preferred) of experience working with middle- to high-school aged youth during the two year prior to apply to the credential program.

1. To help you complete your degree in a timely manner and not take more units than absolutely necessary, there are ways to use single courses to meet more than one requirement (overlap). For further information, please visit the General Education page (p. 1100).
   Note: There is no way to list all possible overlaps so please consult with a professional advisor. The Academic Advising Center can be visited online (http://www.csus.edu/acad/), by phone (916) 278-1000, or email (advising@csus.edu).

2. Required in Major; also satisfies GE.

Humanities and Religious Studies

College of Arts and Letters

Program Description

The Department of Humanities and Religious Studies offers an integrated approach to the study of world cultures from ancient times to the present. In our courses, students undertake interdisciplinary study of core ideas, ideals, and values. The Humanities — known by Renaissance thinkers as studia humanitatis ("studies of humanity") — explore such subjects as literature, history, philosophy, religion, the visual arts, music,
drama, and film. Religious Studies focuses on beliefs and practices of the world's religions in their historical and cultural contexts. Employing the methods and insights of disciplines such as history, anthropology, sociology, psychology, and philosophy, Religious Studies approaches its subject matter with empathy while avoiding assumptions or judgments about religious truth claims.

The Department offers the following degree programs:

The BA in Humanities provides a strong interdisciplinary foundation in world cultures while also allowing students the opportunity to focus their studies on a specific era – such as the ancient, medieval, or modern eras – or on culture in a particular region.

The BA in Humanities with a Concentration in Religious Studies emphasizes religion as an aspect of culture and investigates major religious traditions, including Hinduism, Sikhism, Jainism, Buddhism, Confucianism, Daoism, Judaism, Christianity, and Islam.

Minor programs in both Humanities and Religious Studies.

The MA in Humanities provides graduate-level engagement with humanistic approaches to world cultures.

Students in all five programs acquire concrete skills in critical thinking, analysis, research, writing, and organization that lead to attractive careers throughout the job market. Many of our students prepare for careers in teaching at the elementary level (as part of a Liberal Studies major program) or secondary level (as part of a single subject credential program in English/Humanities). Others pursue postgraduate study in the Humanities, History, Theology, and related fields in preparation for careers in teaching at the community college and university levels or in library, museum, or curatorial work. Humanities majors are also well-prepared for careers in government and fields such as law and counseling, which require interaction with people from diverse cultural backgrounds.

**Degree Programs**

BA in Humanities (p. 247)

BA in Humanities (Religious Studies) (p. 249)

Minor in Humanities (p. 252)

Minor in Religious Studies (p. 253)

MA in Humanities (p. 251)

**Special Features**

- Faculty advisors are available to help majors and minors design individual patterns of study that reflect students’ particular interests and prepare them for work in their chosen fields.

- The Department fosters a sense of community among faculty and students in order to create a welcoming and congenial environment that encourages mutual respect, active learning, and the lively exchange of ideas.

**Career Possibilities**

Teaching · Academic Research · Publishing · Journalism · Government · Public Relations · Law · Library Science · Creative Writing · Literary Research · Theology · Ministry · Counseling

**Course Descriptions**

**HRS 4. Exploring World Religions. 3 Units**

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Fall, Spring, Summer

Comparative inquiry into the nature of global religions, including Hinduism, Buddhism, Confucianism, Daoism, Judaism, Christianity, and Islam. Experiential, social, and material aspects of religions will be considered as well as beliefs and practices.

**HRS 10. Arts and Ideas of the West: Ancient to Medieval. 3 Units**

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Fall, Spring

Introduction to the literature, art, architecture, philosophy and history of the ancient and medieval West, with emphasis on classical Greece and Rome and the European Middle Ages.

**HRS 11. Arts and Ideas of the West: Renaissance to Modern. 3 Units**

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Fall, Spring

Introduction to the literature, art, architecture, music, philosophy, and history of the West from the Renaissance to the present.

**HRS 21. First Year Seminar: Becoming an Educated Person. 3 Units**

General Education Area/Graduation Requirement: Understanding Personal Development (E)

Term Typically Offered: Fall only

Introduction to the nature and possible meanings of higher education, and the functions and resources of the University. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills.
HRS 60. Popular Culture: Thinking Critically About the World Around Us. 3 Units
General Education Area/Graduation Requirement: Critical Thinking (A3)
Term Typically Offered: Fall, Spring

Focus on thinking critically and building arguments about popular culture in its various forms, including television, film, music, art, and literature. Enhances understanding of popular culture, including definitions of key analytical terms, sociocultural history, generic structures, and aesthetic appreciation.

HRS 70. Arts and Ideas of Asia: Ancient to Medieval. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only

Introduction to the cultural history of ancient and early medieval Asia incorporating examples of art, literature, philosophy, and religion, providing a survey of China, India, and several other distinct cultures of the areas surrounding them—especially Japan.

HRS 71. Arts and Ideas of Asia: Medieval to Modern. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only

Introduction to the cultural history of late medieval and modern Asia incorporating examples of art, literature, philosophy, and religion, providing a survey of China, India, and several other distinct cultures of the areas surrounding them—especially Japan.

HRS 80. Introduction to Film. 3 Units
Term Typically Offered: Fall, Spring

Introduction to the aesthetics of cinema, including understanding of how lighting, editing, angles, shot length, and framing create meaning in film. Discussion of aesthetic movements such as German Expressionism, Nouvelle Vague, and auteurism.

HRS 105. Approaches to the Humanities. 3 Units
Prerequisite(s): HRS 10 and HRS 11 or instructor permission.
Term Typically Offered: Fall only

Advanced study of interdisciplinary methods applied to the arts, including literature, music and other modes of humanistic expression.

HRS 108. Approaches to Religious Studies. 3 Units
Term Typically Offered: Fall only

Exploration of the history and methodology of Religious Studies, including the analysis of several significant theories of the origin and function of religion. Methods and theories drawn from the disciplines of psychology, sociology, history, anthropology, philosophy and feminist studies.

HRS 113. The Culture of Classical Greece. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only

Examination of the Golden Age of Athens and the birth of Western humanism; studies in the classical ideals, tragedy, comedy, poetry, history, philosophy, art and architecture.

HRS 114. The Culture of Classical Rome. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only

Study of Roman culture and its influence. Emphasis on art, architecture, literature, history, philosophy and religion of Rome from the early Republic to the end of the Western Empire.

HRS 115. Material Culture of Ancient Rome. 3 Units
Term Typically Offered: Fall, Spring

A focused study of ancient Roman culture as understood through investigation of materials artifacts, especially as found in archaeological sites and museum exhibits. The majority of course time will be spent in Rome and in Pompeii and other locations near Bay of Naples. Visits to archaeological sites and museums will be supplemented by readings of relevant texts and by ongoing discussion.

HRS 117. Paganism in the Roman World. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Survey of ancient Roman paganism, the wide variety of religious beliefs, practices, and institutions found throughout the Roman world. Topics include Greek influences, traditional religion, state and ruler cults, healing cults, oracles, astrology, mystery religions, priests and priestesses, prayer, sacrifice, and religious philosophies.

HRS 119. Classical Mythology. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring, Summer

Study of Greek and Roman myths and hero tales and their place in the arts and literature of Western civilization. Also provides an introduction to the general nature and function of myth.

HRS 120. Reason and Revelation: The Origins of Western Culture. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Study of the conflicting cultures that have shaped the social, religious and ethical perspectives of Western Culture. Readings in the Bible, Plato, Greek drama, the New Testament, and church fathers.

HRS 121. Introduction to the Hebrew Bible/Old Testament. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only

Survey of the historical narratives and other literature of the Bible, analysis of archeological evidence and introduction to the basic problems of textual criticism. Topics of study will include the origins and development of early Judaism and its interaction with surrounding cultures.

HRS 122. Introduction to the New Testament. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only

Study of the New Testament literature in its historical and cultural setting. Topics covered include the literary relationships of the four Gospels, the historical Jesus, the evolution of early Christianity, and the diverse theologies represented in the letters of Paul and other canonical and non-canonical writings.
HRS 126. History of Christianity to the Reformation. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only

Christianity from Jesus to Martin Luther. Emphasis on the evolution of
Christian thought and institutions and the relationship of the Church to
popular culture and secular powers.
Cross Listed: HIST 126; only one may be counted for credit.

HRS 127. History of Christianity Since the Reformation. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only

European Christianity from the Reformation to the present. Emphasis on the
evolution of Christian thought, the co-existence of the Catholic and
Protestant traditions and the relationship of religious and secular values
in European society.
Cross Listed: HIST 127; only one may be counted for credit.

HRS 131. Medieval Culture. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only

Decline of Rome to the Renaissance. Emphasis on the cultural
development of the West from the Germanic invasions until the advent
of Humanism with attention to theology, art, architecture and literature to
illustrate the dynamics of these diverse years.

HRS 132. Renaissance. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+;
or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement
in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ
score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Humanities (Area C2),
Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Spring only

Investigates the nature and implications of Renaissance Humanism in
Italy (14th and 15th centuries) as well as its impact in Northern Europe in
the 16th century. Includes the literary works of such writers as Petrarca,
Pico, Machiavelli, Erasmus and Cervantes, along with the art of Giotto,
Botticelli, Michelangelo, Brunelleschi, Cellini, Dufay, da Vinci, and the
music of Palestrina.

HRS 134. Baroque and the Enlightenment. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Multi-faceted survey of the culture of Europe and North America in
the Age of the Baroque and Enlightenment (1600-1792). Emphasizes
literature, music, painting, architecture and ideas in France, Britain,
Germany and Italy.

HRS 135. Romanticism and Revolution. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Interdisciplinary survey of the cultures of Europe and North America in
the 19th century. Building on the Romantic aesthetic developed late in
the 18th century. Considers the literature, music, painting and ideas of
northern Europe and America until the 1900s.

HRS 136. Birth Of The Modern. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Investigation of those crises in art and society underlying the
development of modernism and post-modernism.

HRS 137. Global Crossings: Art and Culture 1945 to Present. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Exploration of concepts and expressions of postmodernism and its
emphasis on irony, citation, and the interconnectedness of politics,
aesthetics, and philosophy across the disciplines (art, literature,
architecture, film) and the continents (Europe, Asia, Africa, America and
Latin America).

HRS 141. Introduction To Judaism. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only

Survey and analysis of the fundamental tenets of Judaism set within
the context of the historical and intellectual development of the Jewish
People.

HRS 142. Introduction to Christianity. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only

Study of the beliefs, practices, institutions and history of the Christian
religion. Emphasis on the Orthodox, Roman Catholic, and Protestant
traditions and the relationship of Christianity to global cultures.

HRS 144. Introduction To Islam. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring, Summer

Survey of the Islamic way of life: its beliefs, traditions and practices from
Quranic origins and the Sunna of the Prophet Muhammad. The historical
development of Islamic law, religious sects, mysticism, and intellectual
thought of the global Muslim community from medieval to contemporary
times.

HRS 145. Introduction to Islamic Cultures. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only

Survey of the expression of Islamic values in religious practice,
philosophy, theology, art, architecture, music, and literature in different
geographic locations and historical periods.

HRS 146. Islam in America. 3 Units
Term Typically Offered: Fall, Spring

An inquiry into the history and development of Islam in United States.
Special emphasis will be placed on issues related to race, ethnicity,
gender, ritual practice, and the politics of being Muslim in America.

HRS 147. History of Buddhism. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Examines in cultural and historical perspective, drawing on both ancient
and contemporary sources, the key practices and ideas of Buddhist
traditions in India, China, Southeast Asia, Tibet, Japan, and other
surrounding regions, as well as the more recent spread of these practices
and ideas to Europe, North America, and Australia.
Cross listed: HIST 147
Survey of African cultural and artistic forms which explores the intersection of culture and the humanities in different African contexts past and present. Emphasizes the cultural diversity of the African continent, and surveys how different cultural, ethical, aesthetic, and religious values are expressed in literature, visual art, music, architecture, and ritual. Focuses primarily on sub-Saharan Africa.

Introduction to the nature and function of myth. The specific literature studied will be exclusive of classical mythology and because of the breadth of subject matter will vary in content. The mythology of at least four cultures will be covered each term.

Examination of the meaning of mysticism as a “direct experience of ultimate reality” in the world’s religions. The history, teachings, belief systems and scriptures of Hinduism, Buddhism, Daoism, Confucianism, Judaism, Christianity and Islam will be studied to illuminate the lives and works of each religion’s great mystical thinkers.

Examination of primary sources dealing with the sacred dimensions of food and farming in pre-modern and modern world cultures. Attention paid to sustainable, small-scale farming, and spiritual perspectives that promote and reinforce sustainable food practices. Interested students may receive one additional unit of credit for 20 hours of work with a local organization involved in farming and/or local food distribution through the Community Engagement Center and reflection assignments relating this work to course materials.

Comparative inquiry into the critical connection between religion and nature. Traditional views of selfhood, the sacred, morality and specific ecological issues, such as energy consumption will be examined through representative sources in world religions.

Topically structured, interdisciplinary introduction to the cultural experiences of historically under-represented groups. Historical and contemporary events, as well as values and beliefs in American culture, are examined through various artistic expressions, such as music, painting and literature.

Examination of the ways in which physical spaces within America contribute to the formation of American identities and vice versa. Interdisciplinary and topically organized, analyzes both exterior and interior spaces: city, suburb, regions, body, mind, and the borderlands, to name a few. Also studies the interaction of race, class, gender, and sexuality with space and identity.

Interdisciplinary survey of major events, trends and figures in American history viewed through the lenses of American literature, visual arts, music and architecture. The arts in America are studied in relation to major ideas, significant personalities and important historical events from the period of the early republic to the present.

Interdisciplinary and topically organized, analyzes both exterior and interior spaces: city, suburb, regions, body, mind, and the borderlands, to name a few. Also studies the interaction of race, class, gender, and sexuality with space and identity.

Interdisciplinary survey of major events, trends and figures in American history viewed through the lenses of American literature, visual arts, music and architecture. HRS 172. The Classical Culture of China. 3 Units  
General Education Area/Graduation Requirement: Humanities (Area C2)  
Term Typically Offered: Fall, Spring

Introduction to classical Chinese culture through a survey of history, philosophy, religion, literature and art. The course identifies the uniqueness of Chinese culture as well as the common concerns it shares with other high cultures.

HRS 173. Chinese Philosophy and Religion. 3 Units  
General Education Area/Graduation Requirement: Humanities (Area C2)  
Term Typically Offered: Fall, Spring

Study of Chinese philosophic and religious ideas through representative works in English. The traditional Chinese views on human nature, society, politics, morality, and spirituality are examined. The Chinese transformation of Buddhism will also be discussed. The inner dynamics of traditional Chinese thought and its contemporary implications are explored.

HRS 174. Modern Japanese Literature and Culture. 3 Units  
General Education Area/Graduation Requirement: Humanities (Area C2)  
Term Typically Offered: Fall, Spring

Study of representative Japanese literature (in English translation) from the late Tokugawa through the modern period. Traditional Japanese values will be identified and Japan's journey toward modernity examined. Both the uniqueness of Japanese culture and common concerns among cultures will be explored.

HRS 175. Zen Buddhism and Daoism. 3 Units  
General Education Area/Graduation Requirement: Humanities (Area C2)  
Term Typically Offered: Fall, Spring

Mystical nature of Daoist and Zen teachings will be emphasized. The organic linkage between Daoism in China and Buddhism in India will be explored. The emergence of Zen as a quintessential representative of East Asian cultural and aesthetic values will be discussed.

HRS 176. The Confucian Tradition. 3 Units  
Term Typically Offered: Fall, Spring

Study of the Confucian tradition as it unfolded in China and influenced China's East Asian Neighbors. Philosophical and religious dimensions, as well as the evolution and transformation of this uniquely Chinese tradition over time, will be studied. The Confucian influence on Chinese culture, philosophy, religion, literature, political structure and social organization will be identified and analyzed.

HRS 178. Religions of India. 3 Units  
General Education Area/Graduation Requirement: Humanities (Area C2)  
Term Typically Offered: Fall, Spring

An introduction to the bewildering diversity of Indian religions, relating religious practices & ideas to broader cultural developments, including visual arts and literature. Focuses on the way Hindu, Buddhist, Jain and Sikh traditions address the concept of karma in distinctive ways, paying special attention to the way words and intentions are said to influence the consequences of a person's deeds.

HRS 178A. Religions of India I: The Formative Period. 3 Units  
General Education Area/Graduation Requirement: Humanities (Area C2)  
Term Typically Offered: Fall, Spring

Introduction to religious life on the Indian subcontinent during its ancient period, relating religious practices and ideas to broader cultural developments, including visual arts and literature.

HRS 179A. The Hindu Year: Fall. 3 Units  
General Education Area/Graduation Requirement: Humanities (Area C2)  
Term Typically Offered: Fall, Spring

A survey of Hindu religious teachings, stories, and history, as expressed through the holy days and festivals celebrated each fall by Hindus throughout India and abroad, during which ideas, stories, and values are transmitted from one generation to the next. Examines the little understood and rarely discussed historical development behind each celebration, based on both ancient and contemporary sources, thereby revealing why Hindu ideas and history have remained compelling to Hindus for thousands of years.

HRS 179B. The Hindu Year: Spring. 3 Units  
General Education Area/Graduation Requirement: Humanities (Area C2)  
Term Typically Offered: Fall, Spring

A survey of Hindu religious teachings, stories, and history, as expressed through the holy days and festivals celebrated each spring and summer by Hindus throughout India and abroad, during which ideas, stories, and values are transmitted from one generation to the next. Examines the little understood and rarely discussed historical development behind each celebration, based on both ancient and contemporary sources, thereby revealing why Hindu ideas and history have remained compelling to Hindus for thousands of years.

HRS 179B. India's Religions: Jains & Sikhs. 3 Units  
General Education Area/Graduation Requirement: GE AREA D  
Term Typically Offered: Fall only – odd years

Introduction to India's stunningly diverse religious landscape, exploring perspectives and practices in the development of the lesser known but widely influential Jain and Sikh traditions that lend special insight into India's modern cultural practice and worldview. Focuses on Jain and Sikh notions of heroism and non-violence, paying special attention to the ideals of iconoclasm, religious pluralism and devotion.

HRS 180. The Film. 3 Units  
General Education Area/Graduation Requirement: Arts (Area C1)  
Term Typically Offered: Fall, Spring

Introduction to the aesthetics of cinema with special attention to the evolution of critical theories of cinema within the framework of twentieth century arts and ideas.

HRS 181. Contemporary Issues in Film. 3 Units  
General Education Area/Graduation Requirement: Arts (Area C1)  
Term Typically Offered: Fall, Spring

Examination of contemporary film and film criticism from an interdisciplinary perspective, stressing the links between film, literature, the visual arts and society.

HRS 183. World Religions and Cultures in Cinema. 3 Units  
General Education Area/Graduation Requirement: Humanities (Area C2)  
Term Typically Offered: Summer only

Examination of the religious and spiritual dimensions of selected films from around the world. The cinematic arts are examined in relationship to religious and spiritual concerns, concepts, and values.

HRS 185. Women in Film and American Culture. 3 Units  
General Education Area/Graduation Requirement: GE AREA D  
Term Typically Offered: Fall, Spring

Study of major social issues confronting American women, examined through their images in film and other visual and literary arts.
HRS 188. Fantasy and Romance. 3 Units General Education Area/Graduation Requirement: Humanities (Area C2) Term Typically Offered: Fall, Spring
Exploration of the aesthetic of fantasy. Approaches may include emphasis on the historical development of the quest-romance or the use of the fantastic as social commentary. Particular genres, such as science fiction, may be explored.

HRS 190B. Seminar in HRS: The Body. 3 Units Prerequisite(s): Completion of 9 units of lower division core courses and eligibility for WI classes based on WPJ placement score or passage of the appropriate prerequisite; HRS major or minors only Term Typically Offered: Fall, Spring
Seminar for Humanities and Religious Studies majors. Examines cultural constructions of the body through analysis of art and literature and through the insights of media studies, cultural studies, sociological, psychology, and anthropology. Cross listed: HRS 290B

HRS 190C. Seminar in HRS: Many Realities of Consciousness. 3 Units Prerequisite(s): Completion of 9 units of lower division core courses and eligibility for WI classes based on WPJ placement score or passage of the appropriate prerequisite; HRS major or minors only Term Typically Offered: Fall, Spring
Seminar for Humanities and Religious Studies majors. Examines philosophies and theories of perception as applied to cultures, religious traditions, nature, film and literature. Investigates consciousness through examination of the subjectivity of human perception. Cross listed: HRS 290C

HRS 190D. Seminar in HRS: Death and Afterlife. 3 Units Prerequisite(s): Must be HRS major or minor; Completion of 9 units of HRS lower division courses; Completion of the GWAR Term Typically Offered: Fall, Spring
Seminar for Humanities and Religious Studies majors. Examines myths, theories, and perceptions of death and afterlife in cross-cultural and historical perspective through analysis of literature, the visual arts, and music. Cross listed: HRS 290D

HRS 190H. Seminar in HRS: The Hero. 3 Units Prerequisite(s): Completion of 9 units of lower division core courses and eligibility for WI classes based on WPJ placement score or passage of the appropriate prerequisite; HRS major or minors only Term Typically Offered: Fall, Spring
Seminar for Humanities and Religious Studies. Examines the hero in cross-cultural and historical perspective through analysis of visual artifacts, literature, history, philosophy, music and film. Cross listed: HRS 290H

HRS 190M. Saints, Relics, and Miracles in Late Antique and Medieval Europe. 3 Units Prerequisite(s): Student must complete 9 units of lower division core courses and be eligible for WI classes based on WPJ placement score or passage of the appropriate prerequisite Term Typically Offered: Fall, Spring
Seminar in Humanities and Religious Studies majors. Examines the role of the body in the creation of saints’ cults in medieval Europe through analysis of literature and art. Considers how the idea of martyrdom set the terms for an ideal Christian life and explores the role relics, pilgrimage and miracle stories played in medieval society. Cross Listed: HRS 290M

HRS 195. Seminar in Humanities. 3 Units Prerequisite(s): Completion of 12 units of HRS lower division core courses, HRS 105, senior status; or instructor permission. Term Typically Offered: Spring only
Senior seminar for Humanities and Religious Studies majors with Humanities Concentration; focuses on the perspectives and methods of the academic study of the humanities. Topics chosen by the instructor. Note: May be repeated once for credit.

HRS 196. Experimental Offerings in Humanities and Religious Studies. 3 Units Prerequisite(s): Instructor permission. Term Typically Offered: Fall, Spring
Special experimental course on specific themes, figures, or topic areas. Note: May be taken twice for credit if topic differs. Credit/No Credit

HRS 198. Seminar in Religious Studies. 3 Units Prerequisite(s): Completion of 9 units of HRS lower division core courses, HRS 108, senior status; or instructor permission. Term Typically Offered: Spring only
Senior seminar for Humanities and Religious Studies majors with Religious Studies Concentration; focuses on the perspectives and methods of the academic study of religion. Topics chosen by the instructor. Note: May be repeated once for credit.

HRS 199. Special Problems. 1 - 3 Units Term Typically Offered: Fall, Spring
Tutorial-reading course involving independent research. Topic and research method to be decided upon jointly by student and instructor. Note: May be repeated for credit.

HRS 200A. Culture and Expression: Prehistory to the Middle Ages. 3 Units Prerequisite(s): Must be a HRS major or minor Term Typically Offered: Fall, Spring
Interdisciplinary seminar on cultural movements, figures, and art forms of eras from prehistory to the European Middle Ages. Focus on the West with some global comparison. Emphasis on theoretical perspectives, methods, and research techniques germane to the humanities.
HRS 200. Culture and Expression: Renaissance to the Present. 3 Units
Prerequisite(s): Must be a HRS major or minor
Term Typically Offered: Fall, Spring
Interdisciplinary seminar on cultural movements, figures and art forms of eras from the Renaissance to the present. Focus on the West with some global comparison. Emphasis on theoretical perspectives, methods and research techniques germane to the liberal arts.

HRS 202. Western Aesthetics: Traditions and Revision. 3 Units
Prerequisite(s): Graduate standing.
Term Typically Offered: Fall, Spring
Introduction to critical methodologies in the Humanities and to techniques of formal analysis as applied to specific eras and artworks in Western cultural history.

HRS 205. Space and Time. 3 Units
Prerequisite(s): 6 units in philosophy or instructor permission.
Term Typically Offered: Fall, Spring
Introduction to significant philosophical issues involving space and time. An investigation into the current state of these issues.
Note: No background or work in mathematics or physics is required.
Cross-listed: PHIL 192D; only one may be counted for credit.

HRS 209. Versions of the Self in Western Literature and the Arts. 3 Units
Term Typically Offered: Fall, Spring
Traces the stages through which the concept of the "self" emerges in Western literature, philosophy and the arts, from Antiquity to the 20th Century. Focus is on the transformation of moral identity as the West moves from a divinely ordered cosmos to a relativized universe.

HRS 210. Gender and Religion in Cross-Cultural Perspective. 3 Units
Term Typically Offered: Fall, Spring
Exploration of the relationships and roles of women and men in the context of religious life. May focus extensively on one or more particular religious traditions cross-culturally, or draw on a wider spectrum of examples. Special attention paid to the complementary nature of men's and women's roles in many religious traditions; and also the way that male perspectives have dominated many areas of formal religious discourse, noting the dissenting voices of women often hidden in more informal types of expression.
Cross-listed: LIBA 210; only one may be counted for credit.

HRS 213. Ancient Greek Culture. 3 Units
Term Typically Offered: Fall, Spring
A graduate-level survey of ancient Greek culture. Emphasis on social and private life, religion, historiography, literature, philosophy, drama, art, and architecture.

HRS 214. Ancient Roman Culture. 3 Units
Term Typically Offered: Fall, Spring
A graduate-level survey of Roman culture. Emphasis on social and private life, religion, historiography, literature, philosophy, drama, art, and architecture.

HRS 216. Historical Reflections on the American Dream. 3 Units
Term Typically Offered: Fall, Spring
Multicultural exploration of how our nation's history has been constructed, experienced, told and valued from varying ethno-cultural points of view, including each student's personal history.

HRS 217. Ordinary America. 3 Units
Term Typically Offered: Fall, Spring
Inquiry into the issues, theories, and methods associated with popular and material culture studies in order to provide students with insights into the past and present nature of American experience. Intended to be an exploration of the ways in which popular and material culture both reflect and contribute to the search for meaning in everyday life.

HRS 220. Seminar in Religious Studies. 3 Units
Term Typically Offered: Fall, Spring
Designed to offer a variety of topics in the study of religion. Seminar presents a rotating series of subjects ranging from ancient religious literature to contemporary religious problems.

HRS 222. Evolving Concepts of God: Portrait of Deity in Monotheistic Religions. 3 Units
Term Typically Offered: Fall, Spring
Seminar traces the historical origin and cultural evolution of the God concept in monotheistic religions. Topics include the archaeological record of humanity's earliest religious artifacts, evidence for the prehistoric worship of the "Great Goddess" figure, an examination of the polytheistic religions of the ancient Near East and their influence on the development of monotheism. Analyzes the evolving portrait of the Deity in the Hebrew Bible (Old Testament), the New Testament, and the Koran.

HRS 224. Religions of the Roman Empire. 3 Units
Term Typically Offered: Fall, Spring
Survey of the major religious beliefs and practices in the Greco-Roman world from 100 B.C.E. -- 400 C.E. Topics include traditional Greek and Roman religions, healing cults, philosophical religion and Gnosticism.

HRS 226. Wisdom and Apocalyptic Literature. 3 Units
Prerequisite(s): LIBA 200A or graduate status in History or instructor permission.
Term Typically Offered: Fall, Spring
Examines two of the more creative literary genres that make up the canonical and deuterocanonical literature of the Jewish and Christian bibles. Both the historical and theological underpinnings of wisdom and apocalyptic writing will be explored in-depth, with some consideration given to literary analogues in Egyptian, Mesopotamian and Greek culture. Significant research into wisdom and apocalyptic writings outside of the testamental framework required.
Cross-listed: LIBA 226; only one may be counted for credit.

HRS 228. Early Christian Literature. 3 Units
Term Typically Offered: Fall, Spring
Survey of the major genres of Christian literature in the first three centuries CE and their relationship to the development of Christian thought and institutions. Topics include the New Testament; Jewish-Christian literature; Gnostic Christian literature; apocryphal gospels, acts, epistles, and apocalypses; polemical literature; lives of saints; and canons and creeds produced by early church councils.
HRS 234. The Gothic Spirit. 3 Units
Term Typically Offered: Fall, Spring

Arts and ideas of the twelfth and thirteenth centuries in Western Europe, structured according to the principle of the "reconciliation of opposites." The Gothic period sees such opposites as faith and reason, vertical and horizontal (in architecture), counterpoint brought into harmony (in music). The period culminates in Dante's masterpiece, the Divine Comedy, which exhibits the reconciliation of opposites in such sets as female/male, faith/reason, human/divine, beauty/horror, and chaos/harmony.

HRS 235. Transcendence & Transgression in the Romantic Period. 3 Units
Term Typically Offered: Fall, Spring

Interdisciplinary study of Romanticism and other literary, philosophical, and artistic movements of the 18th and 19th centuries. Topics will vary from term to term.

HRS 236. Modernism: Contingent Realities of Self and World. 3 Units
Prerequisite(s): Graduate standing or instructor permission.
Term Typically Offered: Fall, Spring

Interdisciplinary studies in the arts of the modern era.

HRS 237. Global Citizenship and Culture. 3 Units
Term Typically Offered: Fall, Spring

This seminar is an exploration of how "the global" is conceptualized in an age with competing notions of the individual and the community. Special emphasis will be placed on race, class, ethnicity & gender to elucidate the many paths that thought, language, and identity take when traversing borders.

HRS 290B. Seminar in HRS: The Body. 3 Units
Prerequisite(s): Must be an HRS major or minor; Completion of 9 units of HRS lower division core courses and eligibility for WI classes based on WPJ placement score or passage of the appropriate prerequisite
Term Typically Offered: Fall, Spring

Seminar for graduate students studying in the Department of Humanities and Religious Studies. Examines the role of the body in the creation of saints' cults in medieval Europe through analysis of literature and art. Considers how the idea of martyrdom set the terms for an ideal Christian life and explores the role relics, pilgrimage and miracle stories played in medieval society. Cross listed: HRS 190B

HRS 290C. Seminar in HRS: The Many Realities of Consciousness. 3 Units
Prerequisite(s): Must be an HRS major or minor; Completion of 9 units of HRS lower division core courses and eligibility for WI classes based on WPJ placement score or passage of the appropriate prerequisite
Term Typically Offered: Fall, Spring

Seminar for graduate students studying in the Department of Humanities and Religious Studies. Examines philosophies and theories of perception as applied to cultures, religious traditions, nature, film and literature. Investigates consciousness through examination of the subjectivity of human perception. Cross listed: HRS 190C

HRS 290D. Seminar in HRS: Death & Afterlife. 3 Units
Prerequisite(s): Must be HRS major or minor; Completion of 9 units of HRS lower division courses; Completion of the WPJ.
Term Typically Offered: Fall, Spring

Seminar for graduate students studying in the Department of Humanities and Religious Studies. Examines myths, theories, and perceptions of death and afterlife in cross-cultural and historical perspective through analysis of literature, the visual arts, and music. Cross listed: HRS 190D

HRS 290H. Seminar in HRS: The Hero. 3 Units
Prerequisite(s): Completion of 9 units of HRS lower division core courses and eligibility for WI classes based on the WPJ placement score or passage of the appropriate prerequisite
Term Typically Offered: Fall, Spring

Seminar for graduate students studying in the Department of Humanities and Religious Studies. Examines the hero in cross-cultural and historical perspective through analysis of visual artifacts, literature, history, philosophy, music and film. Cross listed: HRS 190H

HRS 290M. Saints, Relics, and Miracles in Late Antique and Medieval Europe. 3 Units
Prerequisite(s): Completion of 9 units of lower division core courses and eligibility for WI classes based on WPJ placement score or passage of the appropriate prerequisite; HRS majors or minors only.

Seminar for graduate students in Department of Humanities and Religious Studies. Examines the role of the body in the creation of saints' cults in medieval Europe through analysis of literature and art. Considers how the idea of martyrdom set the terms for an ideal Christian life and explores the role relics, pilgrimage and miracle stories played in medieval society. Cross Listed: HRS 190M

HRS 296. Experimental Offerings in Humanities & Religious Studies. 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Special graduate-level experimental course on specific themes, figures or topic areas. Scheduled as needed. Note: May be taken twice for credit if topic differs.

HRS 299. Special Problems. 1 - 3 Units
Prerequisite(s): Approval of the faculty member under whom the work is to be conducted and of the department's Graduate Advisor.
Term Typically Offered: Fall, Spring

Graduate level tutorial-reading course involving independent research. Topic and research method to be decided upon jointly by student and instructor.

HRS 500. Culminating Experience. 3 Units
Prerequisite(s): Advanced to candidacy and permission of the Graduate Coordinator.
Term Typically Offered: Fall, Spring

Completion of a thesis or comprehensive examination.

BA in Humanities

Units required for Major: 39
Program Requirements

The Department of Humanities and Religious Studies offers an integrated approach to the study of world cultures from ancient times to the present. In our courses, students undertake interdisciplinary study of core ideas, ideals, and values. The Humanities – known by Renaissance thinkers as studia humanitatis (“studies of humanity”) – explore such subjects as literature, history, philosophy, religion, the visual arts, music, drama, and film. Religious Studies focuses on beliefs and practices of the world’s religions in their historical and cultural contexts. Employing the methods and insights of disciplines such as history, anthropology, sociology, psychology, and philosophy, Religious Studies approaches its subject matter with empathy while avoiding assumptions or judgments about religious truth claims.

The BA in Humanities provides a strong interdisciplinary foundation in world cultures while also allowing students the opportunity to focus their studies on a specific era – such as the ancient, medieval, or modern eras – or on culture in a particular region.

Students in all five available programs acquire concrete skills in critical thinking, analysis, research, writing, and organization that lead to attractive careers throughout the job market. Many of our students prepare for careers in teaching at the elementary level (as part of a single subject credential program in English/Humanities). Others pursue postgraduate study in the Humanities, History, Theology, and related fields in preparation for careers in teaching at the community college level or in library, museum, or curatorial work. Humanities majors are also well-prepared for careers in government and fields such as law and counseling, which require interaction with people from diverse cultural backgrounds.

BA in Humanities
Graduation Requirements

1 To help you complete your degree in a timely manner and not take more units than absolutely necessary, there are ways to use single courses to meet more than one requirement (overlap). For further information, please visit the General Education page (p. 1100).

Note: There is no way to list all possible overlaps so please consult with a professional advisor. The Academic Advising Center can be visited online (http://www.csus.edu/acad/), by phone (916) 278-1000, or email (advising@csus.edu).

2 Required in Major; also satisfies GE.

3 Department offers students a "select form the following" option:
   • If student chooses to take HRS 185, they will meet upper division Area D.

4 If not satisfied before entering Sacramento State, it may be satisfied in General Education Area C2 (Humanities). "C- or better required." The alternative methods for satisfying the Foreign Language Proficiency Requirement are described here: https://www.csus.edu/college/arts-letters/world-languages-literatures/foreign-language-proficiency.html (https://www.csus.edu/college/arts-letters/world-languages-literatures/foreign-language-proficiency.html)

BA in Humanities (Religious Studies)

Units required for Major: 39
Total units required for BA: 120

Program Description

The Department of Humanities and Religious Studies offers an integrated approach to the study of world cultures from ancient times to the present. In our courses, students undertake interdisciplinary study of core ideas, ideals, and values. The Humanities – known by Renaissance thinkers as studia humanitatis (“studies of humanity”) – explore such subjects as literature, history, philosophy, religion, the visual arts, music, drama, and film. Religious Studies focuses on beliefs and practices of the world’s religions in their historical and cultural contexts. Employing the methods and insights of disciplines such as history, anthropology, sociology, psychology, and philosophy, Religious Studies approaches its subject matter with empathy while avoiding assumptions or judgments about religious truth claims.

The BA in Humanities with a Concentration in Religious Studies emphasizes religion as an aspect of culture and investigates major religious traditions, including Hinduism, Sikhism, Jainism, Buddhism, Confucianism, Daoism, Judaism, Christianity, and Islam.

Students in all five available programs acquire concrete skills in critical thinking, analysis, research, writing, and organization that lead to attractive careers throughout the job market. Many of our students prepare for careers in teaching at the elementary level (as part of a Liberal Studies major program) or secondary level (as part of a single subject credential program in English/Humanities). Others pursue postgraduate study in the Humanities, History, Theology, and related fields in preparation for careers in teaching at the community college and university levels or in library, museum, or curatorial work. Humanities majors are also well-prepared for careers in government and fields such as law and counseling, which require interaction with people from diverse cultural backgrounds.

Admission as a classified graduate student in Humanities requires:

**Admission Requirements**

- Cultural backgrounds.
- Majors are also well-prepared for careers in government and fields such as sociology, psychology, and philosophy. Religious Studies approaches its subject matter with empathy while avoiding assumptions or judgments about religious truth claims.
- Students in all five available programs acquire concrete skills in critical thinking, analysis, research, writing, and organization that lead to attractive careers throughout the job market. Many of our students prepare for careers in teaching at the elementary level (as part of a Liberal Studies major program) or secondary level (as part of a single subject credential program in English/Humanities). Others pursue postgraduate study in the Humanities, History, Theology, and related fields in preparation for careers in teaching at the community college and university levels or in library, museum, or curatorial work. Humanities majors are also well-prepared for careers in government and fields such as law and counseling, which require interaction with people from diverse cultural backgrounds.

**MA in Humanities**

**Total units required for the MA: 30**

**Program Description**

The Department of Humanities and Religious Studies offers an integrated approach to the study of world cultures from ancient times to the present. In our courses, students undertake interdisciplinary study of core ideas, ideals, and values. The Humanities – known by Renaissance thinkers as studia humanitatis (“studies of humanity”) – explore such subjects as literature, history, philosophy, religion, the visual arts, music, drama, and film. Religious Studies focuses on beliefs and practices of the world’s religions in their historical and cultural contexts. Employing the methods and insights of disciplines such as history, anthropology, sociology, psychology, and philosophy, Religious Studies approaches its subject matter with empathy while avoiding assumptions or judgments about religious truth claims.

The MA in Humanities provides graduate-level engagement with humanistic approaches to world cultures.

Students in all five available programs acquire concrete skills in critical thinking, analysis, research, writing, and organization that lead to attractive careers throughout the job market. Many of our students prepare for careers in teaching at the elementary level (as part of a Liberal Studies major program) or secondary level (as part of a single subject credential program in English/Humanities). Others pursue postgraduate study in the Humanities, History, Theology, and related fields in preparation for careers in teaching at the community college and university levels or in library, museum, or curatorial work. Humanities majors are also well-prepared for careers in government and fields such as law and counseling, which require interaction with people from diverse cultural backgrounds.

**Admission Requirements**

Admission as a classified graduate student in Humanities requires:

- a baccalaureate degree from an accredited four-year college or university (or equivalent preparation if the student has done undergraduate work outside the U.S.);
- an undergraduate major in Humanities or in a closely related field (subject to approval by the Graduate Coordinator);
- a minimum 3.0 GPA in the last 60 semester units attempted and a minimum 3.3 GPA in Humanities courses (or in major in a related field);

Students with deficiencies in Admission Requirements that can be removed by specified additional preparation may be considered for admission with conditionally classified graduate status. Any deficiencies will be noted on a response to the admission application.

**Admission Procedures**

Applicants should file two applications: one to the California State University, Sacramento Office of Graduate Studies for admission to the University, and the other to the Department of Humanities and Religious Studies for classified status in the Humanities master’s program. Please check with the Office of Graduate Studies for current application deadlines.

All applicants must file the following with the Office of Graduate Studies, River Front Center 215, (916) 278-6470, www.csus.edu/grad studies (http://www.csus.edu/gradstudies/):

- an online application for admission; and
- two sets of official transcripts from all colleges and universities attended, other than California State University, Sacramento

Applicants must also file the following with Department of Humanities and Religious Studies:

- statement of purpose of approximately 500 words (typed) in response to the following question: How does the Humanities master’s program fit with your talents, interests, and aspirations?
- two letters of recommendation. Letters should ideally come from college/university instructors, but if these are not available, any other credible source who can address qualifications will be acceptable (e.g., work supervisor or community leader);
- academic writing sample of 3-5 pages, to be accompanied by a brief explanation regarding the context (e.g., the course and assignment) for which the writing was produced.

**Minimum Units and Grade Requirement for the Degree**

Units required for the MA: 30

Minimum Cumulative GPA: 3.0

**Advancement to Candidacy**

Each student must file an application for Advancement to Candidacy, indicating a proposed program of graduate study. This should be initiated by the student as soon as the student has:

- removed any deficiencies in Admission Requirements;
- completed at least 12 units of 200-level courses in the graduate program with a minimum 3.0 GPA;
- achieved a passing grade on the Humanities M.A. Preliminary Exam; and
- received a placement Score Number of 80 on the Writing Placement for Graduate Students (WPG) timed essay exam or received a grade of "B" or better in a Graduate Writing Intensive (GWI) course in their discipline within the first two semesters of course work at California State University, Sacramento or met one of the graduate GWAR equivalency standards.

Advancement to Candidacy forms are available on the Office of Graduate Studies website. The student fills out the form after planning a degree program in consultation with his/her HRS advisor. The completed form is then returned to the Graduate Coordinator and the Office of Graduate Studies for approval.

HRS 141 Introduction To Judaism
HRS 142 Introduction to Christianity
HRS 144 Introduction To Islam

Supporting Courses (0-9 Units)

Select up to three of the following: 0 - 9

HRS 119 Classical Mythology
HRS 145 Introduction to Islamic Cultures
HRS 151 World Mythology
HRS 152 Great Mystics of the World
HRS 154 Food, Farming, and the Sacred
HRS 155 Spirit and Nature
HRS 183 World Religions and Cultures in Cinema

Select one course in the HRS 190 Seminar in Humanities and Religious Studies series

HRS 196 Experimental Offerings in Humanities and Religious Studies
HRS 198 Seminar in Religious Studies
HRS 199 Special Problems

With approval of HRS faculty advisor, a student may select up to, two of the following:

ANTH 13 Magic, Witchcraft and Religion
ANTH 166 Rise of Religious Cults
COMS 165 Communication and Religion
ETHN 50 Native American Religion and Philosophy
ETHN 171 African Religions and Philosophies
HIST 170
PHIL 131 Philosophy Of Religion
SOC 171 Sociology of Religion
WOMS 145 Feminism and the Spirit

Total Units 12-30
Middle East and Islamic Studies

College of Arts and Letters

Program Description

The minor in Middle East and Islamic Studies (MEIS) emphasizes coursework in the history, politics, society, culture, and religion of the Middle East and the wider Islamic world. The curriculum for the program includes upper and lower division courses offered by the departments of History, Humanities and Religious Studies, Government, Sociology, Women's and Gender Studies, and Foreign Languages. Students wishing to minor in Middle East and Islamic Studies are required to consult with the program coordinator.

Degree Program

Minor in Middle East and Islamic Studies (p. 254)

Special Features

- The minor in Middle East and Islamic Studies is administered through the Department of History in the College of Arts and Letters.
- The program committee consists of faculty from several departments in the College of Arts and Letters and the College of Social Science and Interdisciplinary Studies.
- With the approval of the student’s MEIS faculty advisor and the program coordinator students may take a maximum of three (3) units of independent study towards the electives requirement for the minor. The independent study project must consist of substantial readings and research in a project developed in consultation with the student’s faculty advisor.

Philosophy

College of Arts and Letters

Program Description

The subject of philosophy encompasses such fundamental issues as the scope and limits of human knowledge, the ultimate constituents of reality, the sources of value and obligation, and the nature of logic and correct reasoning. Philosophy utilizes the findings of many other academic disciplines and, in its method, stresses clear, rigorous, impartial and systematic thought. The application of philosophical ideas to practical problems is central to the subject.

Sacramento State offers the Bachelor of Arts degree with a major in philosophy as well as a philosophy minor. Philosophy is an excellent
vehicle for refining one's skills in critical reasoning and rational decision-making, making it a useful major for a wide variety of career goals. For instance, philosophy is good preparation for the study and practice of law. Philosophy majors who plan a career in teaching at the college or university level must commit themselves to a program of graduate study upon completion of the BA.

**Degree Programs**

BA in Philosophy (General Concentration) (p. 262)

BA in Philosophy (Ethics, Politics, and Law) (p. 260)

BA in Philosophy (Logic and Philosophy of Science) (p. 264)

BA in Philosophy (Honors) (p. 263)

Minor in Philosophy (p. 266)

**Special Features**

- The Philosophy Department professors are active scholars who have presented many written papers and lectures at professional conferences. They are also active in the community, giving public lectures both on and off campus. Many participate in our Future Philosophers program by giving presentations to local high schools.

- The Philosophy Department houses The Center for Practical and Professional Ethics, which is dedicated to fostering better public understanding of contemporary ethical issues from a philosophical perspective.

- Flexible major and minor requirements allow students to choose concentrations and a range of electives to fit their specific interests and career objectives. The minor is an excellent complement to a variety of majors. It is also possible to complete the minor in such a way that almost all classes satisfy GE requirements.

- Students are encouraged to take part in the Philosophy Club. Its regular meetings are designed to promote group discussions about topics of philosophical interest. Club speakers have included students, philosophy faculty, professors from other departments on campus, and professors from other universities.

- The Philosophy Department offers a Philosophy Major Honors Program for qualified students. This program provides motivated students with an opportunity to expand their philosophy education, develop their writing, pursue philosophical research, prepare for graduate studies or law school, or enhance their career preparations. Students interested in pursuing graduate study in Philosophy are especially encouraged to participate in this program.

**Career Possibilities**

Law · Medicine · Public Health · Government · Politics · Ministry · Publishing · Social Work · Education · Journalism · Business

**PHIL 2. Ethics.**

**General Education Area/Graduation Requirement:** Humanities (Area C2)

**Term Typically Offered:** Fall, Spring

Examination of the concepts of morality, obligation, human rights and the good life. Competing theories about the foundations of morality will be investigated.

**PHIL 4. Critical Thinking.**

**General Education Area/Graduation Requirement:** Critical Thinking (A3)

**Term Typically Offered:** Fall, Spring

Study of the basic skills of good reasoning needed for the intelligent and responsible conduct of life. Topics include: argument structure and identification, validity and strength of arguments, common fallacies of reasoning, use and abuse of language in reasoning, principles of fair play in argumentation.

**PHIL 6. Introduction to Philosophy: Knowledge, World and Self.**

**General Education Area/Graduation Requirement:** Humanities (Area C2)

**Term Typically Offered:** Fall, Spring

Representative selection of philosophical problems will be explored in areas such as knowledge, reality, religion, science, politics, art and morals.

**PHIL 21. First Year Seminar: Becoming an Educated Person.**

**General Education Area/Graduation Requirement:** Understanding Personal Development (E)

**Term Typically Offered:** Fall only

Introduction to the nature and possible meanings of higher education, and the functions and resources of the University. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills. Students have the opportunity to interact with fellow classmates and the seminar leader to build a community of academic support and personal support.
PHIL 26. History of Philosophy. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Introduction to the history of philosophy, emphasizing such themes as the foundations of knowledge, the nature of reality, the basis of a good life and a just society, the existence of God, and the nature of self, and tracing the development of these themes from antiquity to the modern period.

PHIL 27. History of Early Modern Philosophy. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Examines the major developments in Western philosophy after the Middle Ages, with emphasis on the period from Descartes to Kant. Attention will be paid to the general historical and cultural setting within which the philosophical theories developed.

PHIL 60. Deductive Logic I. 3 Units
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Fall, Spring

Introduction to deductive logic. Topics include: basic concepts of deductive logic; techniques of formal proof in propositional and predicate logic.

PHIL 61. Inductive Logic I. 3 Units
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Fall, Spring

Introduction to inductive logic and the problem of decision under uncertainty. Topics include: the nature of inductive rationality, philosophical theories of induction and probability, cognitive biases and common errors in inductive reasoning, and philosophical problems in defining risk, rational agency, and the expected value of an action.

PHIL 100. Ethics and Personal Values. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Moral concerns of everyday life stressing such features of moral character as right and wrong conduct, virtue and vice, the emotions, attitudes, and personal relationships. Emphasis is on analytical and critical discussion of philosophical theories and competing viewpoints.

PHIL 101. Ethics and Social Issues. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: GE AREA D, Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring, Summer

Moral controversies that divide society today, such as abortion, the death penalty, affirmative action, sexism, war and peace. Emphasis is on identifying the relevant values and moral principles underlying competing views and subjecting them to rational assessment.

PHIL 102. Professional and Public Service Ethics. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring, Summer

Prepares students planning careers in professional practice or public service to identify, understand, and resolve ethical problems. Includes examinations of: (i) ethical theory, rights and duties, virtue ethics, utilitarian ethics, social contract theory, and role morality; (ii) the philosophical underpinnings of professional codes of conduct, regulations, and norms of professional and public service practices; (iii) moral reasoning and argumentation; (iv) the relation between ethical judgement and action; (v) the relation between professional practice, public service, and democratic principles.

PHIL 103. Business and Computer Ethics. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring, Summer

Analytical treatment of controversial moral issues which emerge in the business world, e.g., affirmative action, corporate responsibility, the global economy, industry and environmental damage, social effects of advertising, the computer threat to personal privacy, ownership of computer programs. Discussion will focus on basic moral principles and concepts relevant to these issues.

PHIL 104. Bioethics. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring, Summer

Ethical dilemmas faced by professionals and patients in the field of medicine, e.g., patient self-determination and informed consent, discrimination in health care, euthanasia, abortion, surrogate motherhood, genetic modification, and rights to health care. Emphasis is on the well-reasoned application of general moral principles to practical medical decisions.

PHIL 105. Science and Human Values. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), GE AREA D
Term Typically Offered: Fall, Spring

Examination of the values implicit in a scientific culture and the problems that arise as a commitment to the development of scientific knowledge and technology. These problems include: distinguishing good scientific practice from bad; the intrinsic value of scientific knowledge independent of its benefits in application; the proper and improper applications of scientific knowledge.
Investigation of the main approaches to ethics in Western moral philosophy. Emphasis on Plato, Aristotle, Hume, Kant and Mill.

**PHIL 115. Philosophy In Literature.** 3 Units

- **Prerequisite(s):** GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
- **General Education Area/Graduation Requirement:** Humanities (Area C2), Writing Intensive Graduation Requirement (WI)
- **Term Typically Offered:** Fall, Spring

Study of selected works of fiction which focus on philosophically controversial questions, e.g., basic moral dilemmas, the meaning of life, alienation, nihilism, the existence of God.

**PHIL 116. Existentialism.** 3 Units

- **Prerequisite(s):** GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
- **General Education Area/Graduation Requirement:** Writing Intensive Graduation Requirement (WI), Humanities (Area C2)
- **Term Typically Offered:** Spring only – even years

Study of the problem of the existing individual, or inner self – most especially the problem of choice in the context of radical freedom and finitude. Particular attention will be paid to the philosophical writings of Kierkegaard, Nietzsche, Heidegger and Sartre, through some major literary works of these figures and others (Camus, Dostoevsky) will also be considered.

**PHIL 122. Political Philosophy.** 3 Units

- **General Education Area/Graduation Requirement:** Humanities (Area C2)
- **Term Typically Offered:** Fall, Spring

A philosophical examination of the individual, the community, and rights; the conflict between individual rights and the common good; various conceptions of justice, equality, liberty and the public good; and the relationship of politics to ethics, economics, law, war and peace.

**PHIL 123. Philosophy and Feminism.** 3 Units

- **Term Typically Offered:** Spring only – even years

Study of feminist perspectives on important philosophical questions. Examples of the questions treated are: mind-body dualism; reason and emotion; the fact/value distinction; the nature of the public and private realms; equal rights; and whether knowledge is intrinsically "gendered." Different feminist perspectives will be considered and compared with traditional approaches to these questions.

**PHIL 125. Philosophy Of Science.** 3 Units

- **General Education Area/Graduation Requirement:** Further Studies in Area B (B5)
- **Term Typically Offered:** Fall, Spring, Summer

Study of the philosophical problems that arise in the sciences: the nature of scientific reasoning, the limits and styles of explanation, identifying pseudoscience, values in science, unity and diversity of the sciences, and science’s impact on our world view.

**PHIL 126. The Meanings Of Evolution.** 3 Units

- **Term Typically Offered:** Fall, Spring

Study of the philosophical basis of the biological sciences: the power and limits of evolution as a scientific explanation; Darwinism, its refinements, alternatives and critics; the origin and nature of life; the scope of evolution as an explanation, including critical investigations of evolutionary psychology and sociobiology.

**PHIL 127. History Of Ancient Philosophy.** 3 Units

- **Prerequisite(s):** 3 units in Philosophy.
- **Term Typically Offered:** Fall, Spring

Examination of the major developments in Western philosophy after the Middle Ages with emphasis on the period from Descartes to Kant.

**PHIL 128. History Of Modern Philosophy.** 3 Units

- **Prerequisite(s):** 3 units in Philosophy.
- **Term Typically Offered:** Fall, Spring

Examination of the major developments in Western philosophy after the Middle Ages with emphasis on the period from Descartes to Kant.

**PHIL 131. Philosophy Of Religion.** 3 Units

- **General Education Area/Graduation Requirement:** Humanities (Area C2)
- **Term Typically Offered:** Summer only

Introduction to philosophical theology, the philosophical study of religious assertions, arguments, and beliefs: the existence and nature of God; the rationality of religious belief; the relation of faith to reason; the problem of evil; immortality and resurrection; the possibility of miracles; the meaning of religious language. Includes both traditional and contemporary approaches.

**PHIL 136. Philosophy Of Art.** 3 Units

- **General Education Area/Graduation Requirement:** Arts (Area C1)
- **Term Typically Offered:** Fall, Spring

Inquiry into the nature of art, beauty and criticism, with critical consideration of representative theories.

**PHIL 145A. Chinese Philosophy.** 3 Units

- **Prerequisite(s):** GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
- **General Education Area/Graduation Requirement:** Writing Intensive Graduation Requirement (WI), Humanities (Area C2)
- **Term Typically Offered:** Spring only

Survey of the major philosophical traditions of China and Japan, focusing on concepts of nature, man, society, freedom and knowledge. Special attention will be given to Confucianism, Taoism, Buddhism, and recent philosophical movements. Taught alternate semesters with PHIL 145B.
PHIL 145B. Philosophies Of India. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment.
General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall only
Survey of the major schools of Indian philosophical development. The emphasis will be on the Hindu and Buddhist traditions, with consideration given to competing notions of the self, consciousness, the origin of human suffering, and the possibility of transcendence.
Note: Taught alternate semesters with PHIL 145A.

PHIL 152. Recent Ethical Theory. 3 Units
Term Typically Offered: Spring only
Major topics in ethical theory with attention to their contemporary formulation, including such topics as utilitarianism vs. rights-based theories and the dispute over the objectivity of ethics.

PHIL 153. Philosophy Of Mind. 3 Units
Prerequisite(s): 3 units in philosophy or instructor permission.
Term Typically Offered: Spring only
Rival theories of the nature of the mind and mental activity, including dualism, materialism, functionalism. Difficulties in achieving a theoretical understanding of familiar psychological concepts such as belief, sensation, emotion, intention.

PHIL 154. Philosophy Of Language. 3 Units
Term Typically Offered: Fall only
Study of philosophical issues concerning language: theories of the nature of linguistic meaning, in particular those involving the concepts of sense, reference, truth conditions, intention, convention, speech act, and force. Topics include the relation between meaning and reference to objects, and between meaning and mental processes. Emphasis on contemporary views, including views on the promise of a theory of language to shed light on fundamental philosophical problems in metaphysics and the philosophy of mind.

PHIL 155. Philosophy Of Law. 3 Units
Term Typically Offered: Spring only
Theories of the nature of law, e.g., natural law, legal positivism, legal realism. Selected controversies in contemporary law will also be studied, such as the justification of punishment, the legislation of morality, judicial activism vs. judicial restraint.

PHIL 160. Deductive Logic II. 3 Units
Prerequisite(s): CSC 28 or PHIL 60 or instructor permission.
Term Typically Offered: Spring only
Further study of deductive logic. Topics include: principles of inference for quantified predicate logic; connectives; quantifiers; relations; sets; modality; properties of formal logical systems, e.g., consistency and completeness; and interpretations of deductive systems in mathematics, science, and ordinary language.

PHIL 161. Inductive Logic II. 3 Units
Prerequisite(s): Phil 61 Inductive Logic I or instructor permission.
Term Typically Offered: Fall, Spring
Further study of inductive logic. Topics include: the nature of uncertainty, probability and inductive rationality, Bayes' Theorem, the nature of utility, expected value theory, decisions under uncertainty, game theory, strict and weak dominance, decision-theoretic paradoxes, pure and mixed strategy Nash equilibria.

PHIL 176. Twentieth Century Anglo-American Philosophy. 3 Units
Term Typically Offered: Spring only
Rise of the analytic tradition in contemporary Anglo-American philosophy represents a turn toward common sense, science, language, logic and rigor. Readings will cover the philosophical movements of common sense, logical atomism, logical positivism, ordinary language philosophy and more recent analytical philosophy.

PHIL 180. Knowledge and Understanding. 3 Units
Prerequisite(s): 6 units in philosophy or instructor permission.
Term Typically Offered: Fall, Spring
Examines the concept of knowledge. Representative topics include: the role of sense perception and memory, the importance of certainty, the justification of belief, philosophical skepticism, the concept of truth and the nature of philosophical inquiry. Emphasis is on contemporary formulations.

PHIL 181. Metaphysics. 3 Units
Prerequisite(s): 6 units in philosophy or instructor permission.
Term Typically Offered: Fall, Spring
Examines arguments concerning the nature of reality. Representative topics include: substance, space, time, God, free will, determinism, identity, universals. Emphasis is on contemporary formulations.

PHIL 189. Senior Seminar in Philosophy. 1 Unit
Prerequisite(s): Philosophy majors (any concentration), 21 upper-division units in Philosophy, and graduating semester; or instructor permission.
Corequisite(s): Philosophy major (any concentration) and graduating semester; or instructor permission.
Term Typically Offered: Fall, Spring
A required capstone experience in the philosophy major. The course involves: completion of a senior essay under direction of a faculty member; preparation for knowledge and skills examination; submission of written critiques for three public events in philosophy; completion of departmental assessment questionnaire.

PHIL 190. Selected Philosophers. 3 Units
Prerequisite(s): 6 units in Philosophy or instructor permission.
Term Typically Offered: Fall, Spring
An examination of the works of one or more important philosophers in different philosophical areas such as ethics, political philosophy, metaphysics, logic and epistemology.
Note: This course can be repeated for credit once if the second iteration focuses on a different philosopher than the first.
PHIL 192B. Topics in Bioethics. 3 Units
Prerequisite(s): 6 units of Philosophy or instructor permission
Term Typically Offered: Fall, Spring

Advanced in-depth study of an ethical dilemma faced by professionals and patients in the field of medicine, such as patient self-determination and informed consent, discrimination in health care, euthanasia, abortion, surrogate motherhood, genetic modification, or rights of health care.

PHIL 192D. Space and Time. 3 Units
Prerequisite(s): 6 units in philosophy or instructor permission.
Term Typically Offered: Fall, Spring

Introduction to significant philosophical issues involving space and time. An investigation into the current state of these issues.

PHIL 192E. Topics in Epistemology. 3 Units
Prerequisite(s): 6 units in Philosophy or instructor permission.
Term Typically Offered: Fall, Spring

Topics include: the nature of inquiry, knowledge, explanation, understanding, rationality, judgment, and decision.

PHIL 192F. Topics in Ethics. 3 Units
Prerequisite(s): 6 units in Philosophy or instructor permission.
Term Typically Offered: Fall, Spring

Topics include: animal rights, abortion, euthanasia and assisted suicide, poverty, race, gender, same-sex marriage, war and humanitarian intervention, environmental ethics, ethics of science or technology, and other advanced topics in bioethics.

PHIL 192L. Topics in Philosophy Language. 3 Units
Prerequisite(s): 6 units in philosophy or instructor permission.
Term Typically Offered: Fall, Spring

Advanced topics in the philosophy of language. Topics may include: sense and reference, meaning and force, intentions vs. conventions, conditions for sameness of sense, conditions for successful reference, propositional content, indexical and demonstrative reference, and the semantics of propositional attitude and perceptual reports, linguistic pragmatics.

PHIL 192M. Topics in Philosophy of Mind. 3 Units
Prerequisite(s): 6 units in philosophy or instructor permission.
Topics in Philosophy of Mind. Topics may include: Artificial Intelligence; Qualia; functionalism; philosophy of neuroscience; property dualism; eliminative materialism; or specific theories of consciousness. Emphasis is on contemporary formulations.

PHIL 192O. Topics in Contemporary Metaphysics. 3 Units
Prerequisite(s): 6 units in Philosophy or instructor permission.
Term Typically Offered: Fall, Spring

Contemporary topics in metaphysics. Topics may include: Ontology; realism and anti-realism; universals; individuals; substance; identity through time and change; kinds and degrees of necessity; physicalism; moral realism; realism regarding social entities. Emphasis is on contemporary formulations.

PHIL 192R. Topics in Philosophy of Religion. 3 Units
Prerequisite(s): 6 units in Philosophy or instructor permission.
Term Typically Offered: Fall, Spring

Topics may include: The problem of evil, atheism, modal arguments for God’s existence, design arguments for God’s existence, reformed epistemology, recent work in natural theology, divine hiddenness, skeptical theism, or Molinism. Emphasis is on contemporary formulations.

PHIL 192S. Topics in Philosophy of Science. 3 Units
Prerequisite(s): 6 units of Philosophy or instructor permission.
Term Typically Offered: Fall, Spring

Topics include: Issues in the epistemology and ontology of science; special problems in the philosophy of mathematics, physics, chemistry, cognitive science, and biology; naturalistic and non-naturalistic approaches to understanding scientific inquiry.

PHIL 192T. Topics in Philosophy of Social Science. 3 Units
Prerequisite(s): 6 units in Philosophy or instructor permission.
Term Typically Offered: Fall, Spring

Topics include: the ontology of social kinds, social construction, individualism vs. structuralism, philosophy of economics, explanations of social injustice, critical theory, methodology of social sciences, and categorization and measurement in the social sciences.

PHIL 195. Philosophy Internship. 1 - 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Supervised work experience in an approved office or organization where significant philosophical issues are raised. The student must write regular reports on these issues. Supervision is provided by the faculty instructor and a managing official in the work situation. Open to majors only. Credit/No Credit

PHIL 196. Experimental Offerings in Philosophy. 3 Units
Term Typically Offered: Fall, Spring

Experimental offerings will be scheduled as needed.
PHIL 197. Honors Thesis. 1 Unit
Prerequisite(s): Admission into Philosophy Department Honors Concentration.
Term Typically Offered: Fall, Spring
Capstone seminar for Honors Program students in Philosophy major. Student will propose, research, write, and present an honors thesis; student will also provide comments and criticism of other honors theses.

PHIL 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Special projects calling for independent philosophical investigation under the supervision of an individual faculty member. Note: Requires prior approval of the faculty member under whom work is to be conducted.

Credit/No Credit

PHIL 299. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Special projects calling for independent philosophical investigation under the supervision of an individual faculty member. Note: Requires graduate status and prior approval of the faculty member under whom work is to be conducted.

Credit/No Credit

BA in Philosophy (Ethics, Politics, and Law)

Units required for Major: 40-43
Total units required for BA: 120

Program Description
The concentration in Ethics, Politics, and Law is designed as a preparation for the study of law as well as for advanced professional study in applied ethics. It is also intended to give undergraduates a foundation in rational decision-making, embodying the conviction that such an intellectual capacity has broad application.

The concentration gives students an understanding of the theories behind moral and legal principles as well as training in the process of decision-making applying those principles. Students will be called upon to make decisions in particular cases; state the facts impartially; convey their decisions and their reasoning cogently and persuasively; and justify their decisions by showing how they are both a reasonable consequence of those principles and not overturned by overriding conflicting principles. There will be a particular emphasis on clear and effective writing.

Area D Course

Area D Course - Take upper-division course to complete Area & upper division requirements.  

Area E: Understanding Personal Development (3 Units)

Area E Course

Area F: Ethnic Studies (3 Units)

Area F Course

Total Units: 40-46

1 To help you complete your degree in a timely manner and not take more units than absolutely necessary, there are ways to use single courses to meet more than one requirement (overlap). For further information, please visit the General Education page (p. 1100).

2 Department offers students a “select from the following” option:
   * If student chooses to take PHIL 2, PHIL 6, or PHIL 28, they will meet Area C2.
   * If student chooses to take PHIL 4, they will meet Area A3.

3 Required in Major; also satisfies GE.

4 Department offers students a “select from the following” option:
   * If student chooses to take PHIL 101, PHIL 103, PHIL 104, or PHIL 105, they will meet upper division Area D.

1 To help you complete your degree in a timely manner and not take more units than absolutely necessary, there are ways to use single courses to meet more than one requirement (overlap). For further information, please visit the General Education page (p. 1100).

2 Required in Major; also satisfies Graduation Requirement.

3 Required in Major; also satisfies Graduation Requirement.

4 If not satisfied before entering Sacramento State, it may be satisfied in General Education Area C2 (Humanities). “C- or better required.” The alternative methods for satisfying the Foreign Language Proficiency Requirement are described here: https://www.csus.edu/college/arts-letters/world-languages-literatures/foreign-language-requirement.html
BA in Philosophy (General Concentration)

Units required for Major: 40
Total units required for BA: 120

Program Description

This general concentration forms an excellent basis for a broad liberal arts education and has been the chosen mode of preparation for successful careers in such diverse areas as university teaching, government, education, medicine, consulting, publishing, business, and finance.

To help you complete your degree in a timely manner and not take more units than absolutely necessary, there are ways to use single courses to meet more than one requirement (overlap). For further information, please visit the General Education page (p. 1100).

**Note:** There is no way to list all possible overlaps so please consult with a professional advisor. The Academic Advising Center can be visited online (http://www.csus.edu/acad/), by phone (916) 278-1000, or email (advising@csus.edu).

1. Department offers students a "select from the following" option:
   - If student chooses to take PHIL 4, they will meet Area A3.
   - If student chooses to take PHIL 2, PHIL 6, or PHIL 26, they will meet Area C2.

2. Department offers students a "select from the following" option:
   - If student chooses to take PHIL 102, PHIL 112, PHIL 115, PHIL 117, PHIL 122, PHIL 131, PHIL 136, PHIL 145A, or PHIL 145B, they will meet upper division Area C.
   - If student chooses to take PHIL 101, PHIL 103, PHIL 104, or PHIL 105, they will meet upper division Area D.

**BA in Philosophy (Honors)**

Total units required in addition to the required major units: 50-53 units

**Program Description**

The Honors Concentration is to be combined with one of the other concentrations: the General Major, the Concentration in Ethics, Politics, and Law, or the Concentration in Logic and Philosophy of Science. Upon admission into the Honors program, students must produce a course plan approved by the Department Honors Committee.

BA in Philosophy (Logic and Philosophy of Science)

Units required for Major: 40
Total units required for BA: 120

Program Description

The concentration in Logic and Philosophy of Science is designed for students who are interested in the general nature of scientific inquiry and/or philosophical problems that arise within specific fields like psychology, biology, and physics. It is a good choice for the science-oriented philosophy major and will help to prepare those who are interested in studying logic and philosophy of science at the graduate level. This concentration also provides an excellent double major opportunity for science students interested in broadening and deepening their grasp of their chosen field.

The concentration gives students an understanding of logical theory and how logic applies to scientific and philosophical reasoning. It will also provide an understanding of issues in the philosophy of science. These include the nature of scientific explanation, the nature of scientific evidence, and the process of confirming and revising scientific theories. Philosophy of science also explores traditional philosophical questions as they arise in the context of scientific inquiry. Some of these are: Do we really know that the theoretical entities of science exist? What is the difference between science and pseudo-science? Do different sciences give us fundamentally different ways of understanding the world? Is science converging on truth or will it always undergo revolutionary changes that reject widely accepted theories of the past? Does scientific inquiry have intrinsic value or are there questions that scientists should not ask?

Note: Philosophy majors must fulfill the GE Writing Intensive "supervenient requirement" with courses in the major, only.

3 If not satisfied before entering Sacramento State, it may be satisfied in General Education Area C2 (Humanities). "C or better required." The alternative methods for satisfying the Foreign Language Proficiency Requirement are described here: https://www.csus.edu/college/arts-letters/world-languages-literatures/foreign-language-requirement.html

Minor in Philosophy

Units required for Minor: 18

Program Description

The subject of philosophy encompasses such fundamental issues as the scope and limits of human knowledge, the ultimate constituents of reality, the sources of value and obligation, and the nature of logic and correct reasoning. Philosophy utilizes the findings of many other academic disciplines and, in its method, stresses clear, rigorous, impartial and systematic thought. The application of philosophical ideas to practical problems is central to the subject.

Note: Students who minor in Philosophy are free to plan a sequence of courses suited to their individual needs and interests. However, for a given major, the Department offers certain courses that have particular relevance. Contact Department advisors for course recommendations.

Students majoring in Music are not only expected to be technically proficient in the art but are required to have broad training in the liberal arts and sciences that are the core of the University’s program.

## Degree Programs

**BA in Music** (p. 283)

- Bachelor of Music (Instrumental) (p. 285)
- Bachelor of Music (Jazz Studies) (p. 287)
- Bachelor of Music (Keyboard) (p. 289)
- Bachelor of Music (Music Education) (p. 291)
- Bachelor of Music (Jazz Education) (p. 287)
- Bachelor of Music (Theory/Composition) (p. 293)
- Bachelor of Music (Voice) (p. 295)
- Minor in Music (p. 300)
- Master of Music (Conducting) (p. 298)
- Master of Music (Composition) (p. 297)
- Master of Music (Performance) (p. 299)

**The Performer's Certificate** (p. 301)

## Accreditation

In addition to California State University, Sacramento’s full accreditation by the Western Association of Schools and Colleges, the Bachelor of Arts, Bachelor of Music, and Master of Music are also individually accredited by the National Association of Schools of Music.

**Notice to Students RE: Professional Licensure and Certification**

California State University programs for professions that require licensure or certification are intended to prepare the student for California licensure and certification requirements. Admission into programs for professions that require licensure and certification does not guarantee that students will obtain a license or certificate. Licensure and certification requirements are set by agencies that are not controlled by or affiliated with the California State University and licensure and certification requirements can change at any time.

The California State University has not determined whether its programs meet other states’ educational or professional requirements for licensure and certification. Students planning to pursue licensure or certification in other states are responsible for determining whether, if they complete a California State University program, they will meet their state’s requirements for licensure or certification. This disclosure is made pursuant to 34 CFR §686.43(a)(5)(v)(C).

## Special Features

- With all of its degree programs fully accredited by the National Association of Schools of Music, the Sacramento State School of Music has developed a regional and national reputation for the high quality of its faculty and the superior achievements of its students and performing ensembles.
- Each year the School of Music presents a large number of performances to the campus and the greater Sacramento area. These include concerts by the bands, orchestra, jazz ensembles, concert choir, chorus, and opera workshop. For over 40 years, the Festival

### Music

**College of Arts and Letters**

### School of Music Description

The fundamental purpose of the Sacramento State music curriculum is threefold:

1. to promote excellence in all aspects of music performance and academic coursework,
2. to provide basic preparation for careers in music, and
3. to promote interest in all musical and artistic endeavors at the University and in the Sacramento community.

The main emphasis of the School of Music is on performance. Sustaining this concept is the School's faculty, which remains committed to individual and ensemble performances as a means of enhancing the teaching quality of the institution and the cultural climate of the campus and community.

of New American Music has been an important part of the musical scene in the United States. Other concerts are part of the Piano Series, the New Millennium Series, and the World Music Series.

• In addition, the School of Music has brought to campus such notable personalities as composers George Crumb, Anthony Davis, Pauline Oliveros, Terry Riley, and Joan Tower; pianists Gilbert Kalish, Michael Mizrahi, and Garrick Ohlsson; violinist Rachel Barton Pine; the Juilliard Quartet; the Kronos Quartet; Imani Winds; opera star Denyce Graves; and jazz greats Bobby Hutcherson and Bob Mintzer.

• Several music faculty have written textbooks; a number of them are composers with numerous performances to their credit; others perform frequently nationally and internationally.

Note: After an initial session with the School’s Admissions Advisor & Program Counselor, the student will be assigned to an applied instructor for future advising. The advising process is greatly enhanced by the regular weekly contact between student and instructor/advisor.

MUSC 2. Musicianship II. 2 Units
Prerequisite(s): MUSC 1
Corequisite(s): MUSC 7.
Term Typically Offered: Fall, Spring
Advanced aural skills and practical applications of the rhythmic, melodic, and harmonic materials needed to perform, teach, and compose music. Class activities will focus around the musicianship skills of rhythmic reading and dictation, melodic dictation, contrapuntal dictation, harmonic dictation, aural analysis of form, and sight singing.

MUSC 3. MIDI Sequencing and Notation. 2 Units
Term Typically Offered: Fall, Spring
Introduction to professional music software applications and MIDI hardware. Exploration of various hardware options such as keyboards, computers, synthesizers, samplers, and drum machines. Topics include basic MIDI principles, creating, performing, and printing music using computer-based sequencing and notation software.

MUSC 4. Elements Of Music. 2 Units
Term Typically Offered: Fall only
Elements of Music is designed to introduce you to some of the fundamental materials of music and musicianship with the goal of attaining basic musical literacy. The course focuses on the understanding of some of the ways rhythm and pitch function in music, the interpretation of the most common elements of a musical score, and the association of music notation with sound.

MUSC 7. Advanced Theory. 3 Units
Prerequisite(s): MUSC 1 and MUSC 6.
Corequisite(s): MUSC 2.
Term Typically Offered: Fall, Spring
Advanced tonal theory that includes the study of enriched harmonic resources of the eighteenth and nineteenth centuries as well as an introduction to counterpoint and large musical forms. The aural component includes dictation and vocal reading of chromatic music and aural analysis of form.

MUSC 8. Basic Music. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring
Orientation designed to provide musical knowledge, skills, and competencies necessary for reading music or listening to music.

Note: May not be taken for credit by music majors.
MUSC 9. Music In World Cultures. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

Designed as a survey of world music for music majors. Explores how music is used as a form of human expression in all cultures. Musical instruments, forms and styles, and the roles and functions of music in traditional and contemporary societies in various cultures throughout the world.

MUSC 10A. Survey of Music Literature I. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall only

Survey of Medieval, Renaissance and Baroque music literature in Western art music, its stylistic development, and cultural context. Emphasis on score reading and listening. Introduction to primary source readings and musicological literature.

MUSC 10B. Survey of Music Literature II. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Spring only

Survey of Classical and Romantic music literature in Western art music, its stylistic development, and cultural context. Emphasis on score reading and listening. Introduction to primary source readings and musicological literature.

MUSC 10C. Survey of Music Literature III. 3 Units
Term Typically Offered: Fall only

Survey of 20th and 21st Century music literature in Western art music, its stylistic development, and cultural context. Emphasis on score reading and listening. Introduction to primary source readings and musicological literature.

MUSC 11A. Music Theory I. 2 Units
Prerequisite(s): MUSC 4 or placement by exam at the time of university enrollment.
Corequisite(s): MUSC 12A for students enrolled in all music degree programs other than the BA Music degree.
Term Typically Offered: Fall, Spring

Theory I is designed to introduce students to some of the materials and structures of certain styles of tonal and modal music. The course begins with a brief review of fundamentals before moving quickly into the understanding of two important kinds of notational shorthand. The second half of the course is concerned primarily with the study of counterpoint. These studies will prepare students to engage two topics critical to the success of a musician: interpretation and expression.

MUSC 11B. Music Theory II. 2 Units
Prerequisite(s): MUSC 11A or placement by exam at the time of university enrollment.
Corequisite(s): MUSC 12B for students enrolled in all music degree programs other than the BA Music degree.
Term Typically Offered: Fall, Spring

Theory II is designed to deepen students' understanding of some of the materials and structures of certain styles of tonal and modal music. The course is a balance of taking music apart through score analysis and putting music together through model composition, or creating original music that imitates a particular style. These studies will prepare students to engage two topics critical to the success of a musician: interpretation and expression.

MUSC 11C. Music Theory III. 2 Units
Prerequisite(s): MUSC 11B or placement by exam at the time of university enrollment.
Corequisite(s): MUSC 12C for students enrolled in a music degree program other than the BA Music degree
Term Typically Offered: Fall, Spring

Theory III is designed to deepen students' understanding of some of the materials and structures of certain styles of tonal and modal music. The course is a balance of taking music apart through score analysis and putting music together through model composition, or creating original music that imitates a particular style. These studies will prepare students to engage two topics critical to the success of a musician: interpretation and expression.

MUSC 12A. Musicianship I. 2 Units
Prerequisite(s): MUSC 4 or placement by exam at the time of university enrollment.
Corequisite(s): MUSC 11A
Term Typically Offered: Fall, Spring

Musicianship I is a skills-focused course designed to improve the way students associate music notation with sound. By improving their skills in this area, students will be able to read music more quickly and accurately, and understand better the music they are listening to. They will accomplish these tasks through a structured approach to sight-reading, transcription, improvisation, and keyboard playing. These studies will prepare students to engage two topics critical to the success of a musician: interpretation and expression.

MUSC 12B. Musicianship II. 2 Units
Prerequisite(s): MUSC 12A or placement by exam at the time of university enrollment.
Corequisite(s): MUSC 11B
Term Typically Offered: Fall, Spring

Musicianship II is a skills-focused course designed to improve the way students associate music notation with sound. By improving their skills in this area, students will be able to read music more quickly and accurately, and understand better the music they are listening to. They will accomplish these tasks through a structured approach to sight-reading, transcription, improvisation, and keyboard playing. These studies will prepare students to engage two topics critical to the success of a musician: interpretation and expression.

MUSC 12C. Musicianship III. 2 Units
Prerequisite(s): MUSC 12B or placement by exam at the time of university enrollment.
Corequisite(s): MUSC 11C
Term Typically Offered: Fall, Spring

Musicianship III is a skills-focused course designed to improve the way students associate music notation with sound. By improving their skills in this area, students will be able to read music more quickly and accurately, and understand better the music they are listening to. They will accomplish these tasks through a structured approach to sight-reading, transcription, improvisation, and keyboard playing. These studies will prepare students to engage two topics critical to the success of a musician: interpretation and expression.
MUSC 14B. Basic Piano for Majors.  1 Unit
Prerequisite(s): Music major or minor and instructor permission.
Term Typically Offered: Fall, Spring
Development of fundamental keyboard skills for the non-keyboard Music major. Sectioned according to the ability of the student. Completion of MUSC 14D meets the departmental piano requirement.

MUSC 14C. Basic Piano for Majors.  1 Unit
Prerequisite(s): Music major or minor and instructor permission.
Term Typically Offered: Fall, Spring
Development of fundamental keyboard skills for the non-keyboard Music major. Sectioned according to the ability of the student. Completion of MUSC 14D meets the departmental piano requirement.

MUSC 14D. Basic Piano for Majors.  1 Unit
Prerequisite(s): Music major or minor and instructor permission.
Term Typically Offered: Fall, Spring
Development of fundamental keyboard skills for the non-keyboard Music major. Sectioned according to the ability of the student. Completion of MUSC 14D meets the departmental piano requirement.

MUSC 15. Jazz Piano Class.  1 Unit
Prerequisite(s): MUSC 14D or instructor permission.
Term Typically Offered: Fall, Spring
Provides basic instruction in keyboard skills and jazz theory. Includes composing, basic chord voicing, realizing chord progressions at sight, and fitting chords to a given melody.

MUSC 17. Voice Class.  1 Unit
Term Typically Offered: Fall, Spring
Elementary instruction in the correct use of the singing voice and the development of style in singing. Open to all students beginning the study of voice. Recommended for elementary credential candidates. May be taken for credit four times.

MUSC 18. Music Appreciation.  3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring
Basic music orientation for the layman. A non-technical consideration of the various aspects of music literature designed to stimulate interest in all phases of music.
Note: Not open to music majors.

MUSC 21. First Year Seminar: Becoming an Educated Person.  3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall only
Introduction to the meaning of higher education for a music major, to the resources of the University, and to skills for lifelong learning. Designed to help students develop academic success strategies, time management for the music major, and to improve information literacy, intercultural competence, and integrative thinking. Special attention to career readiness for music majors. Provides students with the opportunity to interact with fellow students and seminar faculty to build a community of academic and personal support.

MUSC 25. Voice For Music Theater.  1 Unit
Prerequisite(s): Instructor permission and proficiency examination.
Term Typically Offered: Fall, Spring
Training in vocal techniques and repertoire of the modern American musical theater. May be taken for credit twice.

MUSC 30A. Harpsichord/Organ: Intermediate - BM.  1 Unit
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 30B. Harpsichord/Organ: Intermediate.  1 Unit
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only.
Note: May be taken for credit four times.

MUSC 32B. Piano: Intermediate - BM.  1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only.
Note: May be taken for credit four times.

MUSC 34B. Piano: Intermediate.  1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only.
Note: May be taken for credit four times.

MUSC 35A. Harpsichord/Organ: Intermediate.  1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only.
Note: May be taken for credit four times.

MUSC 35B. Harpsichord/Organ: Intermediate - BM.  1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only.
Note: May be taken for credit four times.

MUSC 37A. Voice: Intermediate.  1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 37B. Voice: Intermediate - BM.  1 Unit
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 38C. Beginning Hand Drums.  1 Unit
Term Typically Offered: Fall, Spring
Note: May be taken for credit four times.

MUSC 38A. Beginning Hand Drums.  1 Unit
Term Typically Offered: Fall, Spring
Not open to music majors.

MUSC 38D. Beginning Hand Drums.  1 Unit
Term Typically Offered: Fall, Spring
Explores the fundamentals of hand-drumming through two methods of study: the music of North India, the tabla drums and the rhythmic system of Hindustani music and rhythms of the Middle East through traditional drums, including the tar, riqq, and dumbek.
MUSC 38S. Beginning Shakuhachi. 1 Unit
Term Typically Offered: Fall, Spring

Elementary class instruction in the fundamentals of playing the traditional Japanese flute known as the shakuhachi. The focus is on fundamental blowing and fingering techniques, as well as the basis of the fu ho u notation system.

Note: Open to Music majors and minors; others by instructor permission.

MUSC 39. Beginning Folk Guitar. 1 Unit
Term Typically Offered: Fall, Spring

Folk guitar for the beginner, with emphasis on chords and strums as well as the playing of melodies. Guitars are to be furnished by the student.

MUSC 40B. Brass Methods. 1 Unit
Term Typically Offered: Fall only

Class instruction in brass instruments including performance techniques and pedagogy. Required for Music Education majors; other music majors admitted if space permits.

MUSC 40P. Percussion Methods. 1 Unit
Term Typically Offered: Spring only

Class instruction in percussion instruments including of fundamental performance techniques and pedagogy. Required for Music Education majors; other music majors admitted if space permits.

MUSC 40S. String Methods. 1 Unit
Term Typically Offered: Fall only

Class instruction in string instruments. Instruction of fundamental performance techniques and pedagogy of string instruments. Required for Music Education majors; other music majors admitted if space permits.

MUSC 40W. Woodwinds Methods. 1 Unit
Term Typically Offered: Spring only

Class instruction in woodwind instruments. Instruction of fundamental performance techniques and pedagogy. Required for Music Education majors; other music majors admitted if space permits.

MUSC 42. Introductory Composition. 2 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall only

Individual instruction in composition for the beginning composition major. Work will be designed to fit the preparation of the student, with emphasis on principles of sound melodic and harmonic construction. Original compositions will develop a mastery of the smaller forms. May be taken twice for credit.

MUSC 43A. Jazz Improvisation I. 2 Units
Prerequisite(s): MUSC 6
Term Typically Offered: Fall, Spring

Part one of a two-semester study of jazz improvisation required of all jazz studies majors. This course will provide the student with basic and intermediate skills of creative improvisation styles in the jazz idiom. In order to expand the skill level of improvisation of each particular jazz student, this class will focus on four main areas: listening, scale and chord development, repertory development and transcribing jazz solos.
Prerequisite(s): Approval by applied area committee and instructor permission. 
Term Typically Offered: Fall, Spring 
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 58B.  Double Bass: Intermediate - BM.  
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission. 
Term Typically Offered: Fall, Spring 
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 60.  Introduction to String Project Pedagogy.  
Term Typically Offered: Fall, Spring 
In this course students study pedagogical techniques and participate in a step-by-step practicum as assistant teachers in the Sacramento State String Project. Set in a rigorous teaching lab, the course gives students experience both observing and assistant teaching in the String Project program. Student assistants master effective methods of teaching fundamental string instrument skills to beginners, including correct position, tone production, reading proficiency, intonation, phrasing and listening.

MUSC 65A.  Flute: Intermediate.  
Prerequisite(s): Approval by applied area committee and instructor permission. 
Term Typically Offered: Fall, Spring 
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 65B.  Flute: Intermediate - BM.  
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission. 
Term Typically Offered: Fall, Spring 
Individual instruction. Music majors only. May be taken for credit four times.

Prerequisite(s): Approval by applied area committee and instructor permission. 
Term Typically Offered: Fall, Spring 
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 66B.  Oboe: Intermediate - BM.  
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission. 
Term Typically Offered: Fall, Spring 
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 67A.  Bassoon: Intermediate.  
Prerequisite(s): Approval by applied area committee and instructor permission. 
Term Typically Offered: Fall, Spring 
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 67B.  Bassoon: Intermediate - BM.  
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission. 
Term Typically Offered: Fall, Spring 
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 68A.  Clarinet: Intermediate.  
Prerequisite(s): Approval by applied area committee and instructor permission. 
Term Typically Offered: Fall, Spring 
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 68B.  Clarinet: Intermediate - BM.  
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission. 
Term Typically Offered: Fall, Spring 
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 69A.  Saxophone: Intermediate.  
Prerequisite(s): Approval by applied area committee and instructor permission. 
Term Typically Offered: Fall, Spring 
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 69B.  Saxophone: Intermediate - BM.  
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission. 
Term Typically Offered: Fall, Spring 
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 70A.  Percussion: Intermediate.  
Prerequisite(s): Approval by applied area committee and instructor permission. 
Term Typically Offered: Fall, Spring 
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 70B.  Percussion: Intermediate - BM.  
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission. 
Term Typically Offered: Fall, Spring 
Individual instruction. Music majors only. May be taken for credit four times.

Prerequisite(s): Approval by applied area committee and instructor permission. 
Term Typically Offered: Fall, Spring 
Individual instruction. Music majors only. May be taken for credit four times.

### MUSC 100B. Concert Attendance.
**Term Typically Offered:** Fall, Spring

Designed to develop critical listening, aural analysis, and the appreciation of a wide range of musical forms and genres. Each student will be required to attend a minimum of ten concerts approved by the Music Department and submit a portfolio of programs attended with comments about the music and performance. May be taken for credit eight times.

### MUSC 101. Experiences In Music.
**Term Typically Offered:** Fall, Spring

Development of essential musical skills and knowledge for teaching music in the elementary classroom including competencies necessary for reading and notating music in the elementary classroom. The study of curriculum and literature through songs, rhythmic movement, instrumental activities, creating and improvisation, and listening. Lecture/lab.

**Note:** Required for the Liberal Studies major.

### MUSC 102. Scoring and Arranging.
**Term Typically Offered:** Spring only

Scoring and arranging techniques related to the needs of orchestra, concert band, marching band, vocal and instrumental ensembles.

**Prerequisite(s):** MUSC 7

### MUSC 103. Counterpoint.
**Term Typically Offered:** Fall only

Study of the contrapuntal style and devices of the 18th century. Includes writing in two and three parts in such forms as the canon, invention, chorale prelude, and fugue.

**Prerequisite(s):** MUSC 7

### MUSC 104. Contemporary Music Theory and Musicianship.
**Term Typically Offered:** Spring only

This course will engage the art music of today from both a theoretical standpoint; that is, an understanding of musical materials and structures through analysis; and a creative standpoint; that is, creating their music based upon the models they study through composition and improvisation.

**Prerequisite(s):** MUSC 11C and MUSC 12C, or placement by exam at the time of university enrollment.

### MUSC 105. 20th Century Theory.
**Term Typically Offered:** Spring only

Course deals with the harmonic, melodic, and rhythmic aspects of music from Debussy to present, with emphasis on the evolutionary nature of its development.

**Prerequisite(s):** MUSC 7

### MUSC 106. Form and Analysis.
**Term Typically Offered:** Fall only

Consideration of the development of musical forms from the phrase through the multi-movement sonata and symphony. Emphasis is placed on the music of major 18th, 19th, and 20th century composers.

### MUSC 107. Composition.
**Term Typically Offered:** Fall, Spring

Individualized practical experience in the composition of music. Students are allowed freedom in the development of a personal music style and the exploration of forms and genres. May be taken for credit four times.

### MUSC 108A. Jazz Arranging I.
**Term Typically Offered:** Fall, Spring

Part I of a two-semester study of arranging. Provides basic and intermediate tools of creative writing and arranging styles in the jazz idiom as applied to the small jazz ensemble (jazz combo).

**Prerequisite(s):** MUSC 108A or instructor permission.

### MUSC 108B. Jazz Arranging II.
**Term Typically Offered:** Fall, Spring

Part 2 of a two-semester study of arranging. Addresses creative writing in the idiom of the large jazz ensemble (big band). Two major projects are required, performed and recorded. Jazz orchestration is the central focus with special attention to the idiomatic demands from the sections of the big band and how they relate to each other.

### MUSC 109. Instrumentation and Arranging.
**Term Typically Offered:** Fall only

This class is designed to introduce students to two topics: instrumentation, or the properties of various instruments and voices, and how to write for them; and orchestration, or how to combine instruments effectively. The approach will be hands-on in nature: students will be called upon to demonstrate their instrument and perform in class, and they will often orchestrate music for their classmates to perform in class.

### MUSC 110. Research in Music History.
**Term Typically Offered:** Fall, Spring

Capstone research in special topics of music history. Emphasis on critical reading, writing, and speaking. This course satisfies the writing intensive requirement for music majors.

### MUSC 110B. History Of Music.
**Term Typically Offered:** Fall, Spring

Chronological study of music’s development from ancient Greeks through contemporary composers. Recordings and printed music are used to illustrate the development of musical forms and content through the various periods.

**Note:** A working knowledge of musical notation is required.
MUSC 118B. American Popular Music: Jazz History. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

A survey of jazz history. Emphasis is placed on the evolution of different jazz styles and trends, through the study of recorded examples and videos by some of the major artists of the 20th century. Discussion of the social conditions surrounding the evolution of jazz will be included.

MUSC 118C. History of Rock Music. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

A survey of rock music history. Emphasis is placed on the diverse influences and subsequent development of classic rock musical styles through the study of recorded examples and videos by major artists of the 20th century. Discussion of the social conditions surrounding the evolution of rock music will be included.

MUSC 118D. Hip-Hop in Urban America. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

A survey course of hip-hop history. Emphasis is on the musical and cultural evolution of hip-hop through the study of recorded examples, videos, and articles focused on five urban hip-hop centers: New York, Los Angeles, Chicago, and New Orleans.

MUSC 119A. World Music: Asia. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

Examines music from cultures in Asia. Music is examined as a cultural process, a cultural object and as sound. Musical instruments, forms and styles are discussed along with the roles and functions of music. Although traditional music will be emphasized, contemporary and popular music will also be discussed.

MUSC 119B. World Music: Africa. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

Examines music from cultures in Africa. Music is examined as a cultural process, a cultural object and as sound. Musical instruments, forms and styles are discussed along with the roles and functions of music. Although traditional music will be emphasized, contemporary and popular music will also be discussed.

MUSC 119C. World Music: Latin America. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

Examines music from cultures in Latin America. Music is examined as a cultural process, a cultural object and as sound. Musical instruments, forms and styles are discussed along with the roles and functions of music. Although traditional music will be emphasized, contemporary and popular music will also be discussed.

MUSC 125. Advanced Voice for Music Theater. 1 Unit
Prerequisite(s): MUSC 25 or instructor permission and proficiency examination.
Term Typically Offered: Fall, Spring

Designed to give singers advanced training in vocal techniques, interpretation, stage presence, audition preparation, through the utilization of modern musical theater repertoire commensurate with the individual abilities of each class participant.
Note: May be taken twice for credit.

MUSC 127. The American Musical Theater. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Arts (Area C1)
Term Typically Offered: Fall, Spring

Study of Broadway musicals. Examination of the music, lyrics, dramatic structure, and use of dance in selected shows which demonstrate the evolution of the American musical from its inception through contemporary forms. Includes reading, discussion, listening assignments, and attendance at live performances.

MUSC 129. American Society and Its Music. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Arts (Area C1)
Term Typically Offered: Fall, Spring

Introduction, through reading, discussion, taped assignments in the Music Department listening center, live music in the classroom, and outside live listening assignments, to all significant manifestations of American music, their roots, and their place in American life. Includes folk, religious, popular, jazz, and fine-art music.

MUSC 130. Pedagogy of Music Theory and Musicianship. 3 Units
Prerequisite(s): MUSC 11C and MUSC 12C, or placement by exam at the time of university enrollment.
Term Typically Offered: Fall only

This course will serve as a laboratory in which you will learn about and try out effective written theory and aural skills pedagogical practices. You will read research by leading music theorists and cognitive scientists, survey textbooks, develop lesson plans and courses, practice-teach your classmates, and tutor Sacramento State students.

MUSC 132A. Piano: Advanced. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.
MUSC 132B. Piano: Advanced - BM.
Prerequisite(s): Admission to the BM degree program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 135A. Harpsichord/Organ: Advanced.
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only.
Note: May be taken for credit four times.

MUSC 135B. Harpsichord/Organ: Advanced - BM.
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only.
Note: May be taken for credit four times.

MUSC 136A. Diction For Singers.
Term Typically Offered: Fall, Spring

International Phonetic Alphabet and its application to song literature in Latin, Italian, German, French, and English. Designed for advanced voice majors, others admitted by instructor permission.

MUSC 136B. Vocal Pedagogy.
Term Typically Offered: Fall, Spring

Study of the methods, problems and practical application of teaching singing. Topics will include the functional unity of the singing voice, pedagogical principles, and current methods/resources in voice training, teaching the beginning singer. Designed for voice majors; others admitted with instructor permission.

MUSC 137A. Voice: Advanced.
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 137B. Voice: Advanced - BM.
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 140. Jazz Theory and Harmony.
Prerequisite(s): MUSC 7 and instructor permission.
Term Typically Offered: Spring only

Introduction to the theoretical language of jazz improvisation: rhythms, articulations, style, harmony and melody, forms, simple analysis, chord/scale relationships, ear training and keyboard harmony.

MUSC 141A. Piano Chamber Music.
Prerequisite(s): 4 semesters of MUSC 142.
Corequisite(s): MUSC 132B or equivalent.
Term Typically Offered: Fall, Spring

Instruction in small ensemble rehearsal performance. Focus given to duos, trios, and quartets of various instrumentation with piano. Includes required performances, listening, reading, and examination.

MUSC 141B. Piano Chamber Music.
Prerequisite(s): MUSC 141A.
Corequisite(s): MUSC 132B or equivalent.
Term Typically Offered: Fall, Spring

Continued instruction in small ensemble rehearsal performance. Focus on duos, trios, and quartets of various instrumentation with piano. Includes required performances, listening, reading, and examination.

MUSC 142A. Concert Band.
Term Typically Offered: Fall, Spring

Note: May be taken for credit eight times.

MUSC 142B. Concert Choir.
Term Typically Offered: Fall, Spring

Note: May be taken for credit eight times.

MUSC 142C. Marching Band.
Term Typically Offered: Fall, Spring

Note: May be taken for credit eight times.

MUSC 142D. Orchestra.
Term Typically Offered: Fall, Spring

Note: May be taken for credit eight times.

MUSC 142E. University Chorus.
Term Typically Offered: Fall, Spring

Note: May be taken for credit eight times.

MUSC 142F. Symphonic Wind Ensemble.
Term Typically Offered: Fall, Spring

Note: May be taken for credit eight times.

MUSC 142G. Vocal Jazz Ensemble.
Term Typically Offered: Fall, Spring

Rehearsal and performance of literature written for vocal jazz ensemble. Note: May be taken for credit eight times.
MUSC 144B. Brass Ensemble. Term Typically Offered: Fall, Spring

Note: May be taken for credit eight times.

MUSC 144G. Chamber Music -- Guitar. Term Typically Offered: Fall, Spring

Coaching in the performance of chamber music for guitar. Open to both BA and BM majors upon permission of major instructor of applied music. May substitute for a maximum of two semesters of major performing ensemble requirement.

Note: May be taken for credit eight times.

MUSC 144I. Chamber Music -- Instrumental Jazz. Term Typically Offered: Fall, Spring

Note: May be taken for credit eight times.

MUSC 144L. Chamber Music -- Liberace. Term Typically Offered: Fall, Spring

Note: May be taken for credit eight times.

MUSC 144P. Percussion Ensemble. Term Typically Offered: Fall, Spring

Note: May be taken for credit eight times.

MUSC 144S. String Ensemble. Term Typically Offered: Fall, Spring

Note: May be taken for credit eight times.

MUSC 144W. Woodwind Ensemble. Term Typically Offered: Fall, Spring

Note: May be taken for credit eight times.

MUSC 144X. Saxophone Ensemble. Term Typically Offered: Fall, Spring

Note: May be taken for credit eight times.

MUSC 145. Pep Band. Corequisite(s): MUSC 142W, MUSC 142B, or MUSC 142M, or instructor permission. Term Typically Offered: Fall, Spring

Performance of instrumental music for university and community events.

MUSC 146. Camerata Capistrano Baroque. Term Typically Offered: Fall, Spring

A conductor-less ensemble that explores in-depth score study, detailed techniques for stylistic performance, and advanced concertante playing of varied repertoire from the Renaissance to contemporary works in groupings of diverse size. Instrumentalists, keyboardists and singers are invited to experience repertoire not normally encountered in the symphony orchestra or traditional chamber groups. Students will achieve a more comprehensive understanding of musical preparation, ensemble discipline and conductor-less performance, culminating in a final concert for a public audience. Paired with MUSC 246.

Note: Each participant must be an enrolled student or registered volunteer, admitted with Instructor permission. Non-Music majors must purchase a music fee card (Lassen Hall) in order to participate. Registered volunteers will receive a parking pass for rehearsal times after required paperwork is completed. May be taken for credit eight times.

MUSC 150. Jazz Applied: Advanced BM. 2 Units

Prerequisite(s): Approval by jazz area committee and instructor permission. Term Typically Offered: Fall, Spring

Individual instruction in jazz performance.

Note: May be taken for credit four times.

MUSC 150A. Jazz Applied: Advanced Mus Ed Emphasis. 1 Unit

Prerequisite(s): Approval by jazz area committee and instructor permission. Term Typically Offered: Fall, Spring

Individual instruction in jazz performance for students pursuing the Music Education emphasis.

Note: May be taken for credit four times.

MUSC 151. Fundamentals of Conducting. 2 Units

Prerequisite(s): MUSC 2, MUSC 7. Term Typically Offered: Fall only

Basic techniques and skills of conducting. Areas of concern are all basic patterns in simple, compound and asymmetrical meters, correct baton technique, styles, appropriate left hand usage, tempi, fermatas, and introduction to simple score reading.

MUSC 153. Advanced Choral Conducting. 2 Units

Prerequisite(s): MUSC 151. Term Typically Offered: Spring only

Choral techniques, including rehearsal procedures, score analysis, choral/orchestral repertoire, and approaches to choral literature from the main history eras.

MUSC 154. Advanced Instrumental Conducting. 2 Units

Prerequisite(s): MUSC 151. Term Typically Offered: Spring only

Instrumental conducting techniques including refinement of basic conducting skills, rehearsal procedures, score study, and familiarization with and interpretation of instrumental literature.
MUSC 155A. Violin: Advanced. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 155B. Violin: Advanced -- BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 156A. Viola: Advanced. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 156B. Viola: Advanced -- BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 157A. Cello: Advanced. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 157B. Cello: Advanced -- BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 158A. Double Bass: Advanced. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 158B. Double Bass: Advanced -- BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 160. Advanced String Project Pedagogy. 1 Unit
Prerequisite(s): MUSC 60 and instructor consent
Term Typically Offered: Fall, Spring
This course is a step-by-step practicum that prepares students to be lead teachers in the Sacramento State Strings Project. Set in rigorous teaching lab, the course gives students experience in creating lesson plans and teaching in the String Project program. Student teachers learn to apply effective pedagogical methods and techniques to teach fundamental skills to beginning level children and more advanced skills to intermediate-level children.

MUSC 161. Jazz Pedagogy. 2 Units
Term Typically Offered: Spring only
Develops skills in the teaching of jazz in all of its facets and dimensions by a variety of approaches to materials, techniques and philosophies surrounding jazz education. Choosing, editing, rehearsing and programming concert materials will be taught. Also taught are scheduling, music and equipment maintenance, basic administration concerns, and other factors pertinent to operating a jazz program.

MUSC 162. Foundations of Music Education. 2 Units
Prerequisite(s): Sophomore status in music or instructor permission.
Term Typically Offered: Fall only
For majors considering a teaching career. Overview of the history, principal philosophies, current issues, methodologies and materials related to Music Education in kindergarten through twelfth grade. Guided classroom and/or rehearsal observations at the elementary, middle/junior high school and senior high levels. Required for the Music Education major.

MUSC 164. Music in General Education. 2 Units
Prerequisite(s): MUSC 162.
Term Typically Offered: Spring only
Curricular and instructional strategies for non-performance music classes in kindergarten through twelfth grade. Teaching techniques for classroom instruments, with emphasis on folk guitar. Required for the Music Education major.

MUSC 165A. Flute: Advanced. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 165B. Flute: Advanced -- BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 166A. Oboe: Advanced. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.
MUSC 166B. Oboe: Advanced -- BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 167A. Bassoon: Advanced. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 167B. Bassoon: Advanced -- BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 168A. Clarinet: Advanced. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 168B. Clarinet: Advanced -- BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 169A. Saxophone: Advanced. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 169B. Saxophone: Advanced -- BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 170A. Percussion: Advanced. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 170B. Percussion: Advanced -- BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 171A. Harp: Advanced. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 171B. Harp: Advanced -- BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 172. Repertoire Class in the Performance Major. 1 Unit
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Parallel class taken in conjunction with the performance major to supplement student's knowledge of the literature, performance practice, pedagogy, and criticism of his chosen instrument or voice. May be taken for credit four times.

MUSC 173A. Vocal Accompanying. 2 Units
Prerequisite(s): 4 semesters of MUSC 142.
Corequisite(s): MUSC 132B or equivalent.
Term Typically Offered: Fall, Spring

Introductory course to piano accompanying with an emphasis on vocal literature. Includes techniques of sight reading, elementary transposition, and interpretation of lieder from the pianist's point of view.

MUSC 173B. Vocal Accompanying. 2 Units
Prerequisite(s): MUSC 173A.
Corequisite(s): MUSC 132B or equivalent.
Term Typically Offered: Fall, Spring

Continuing study of piano accompanying with an emphasis on art song repertoire. Includes techniques of sight reading, transposition, rehearsing, as well as realization of orchestral reductions. Performances required.

MUSC 174A. Guitar: Advanced. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 174B. Guitar: Advanced -- BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.
and advanced MIDI applications.

**Principle of Sampling Synthesizers, Computer-Based Digital Synthesis, Digital Synthesis with an emphasis on independent voice construction, to gain more technical background. Topics include various principles of sampling synthesizers, computer-based digital synthesis, and advanced MIDI applications.**

**Course for students with previous electronic music experience who wish to gain more technical background. Topics include various principles of digital synthesis with an emphasis on independent voice construction, principles of sampling synthesizers, computer-based digital synthesis, and advanced MIDI applications.**

**Prerequisite(s):** Admission to the Bachelor of Music degree program, or instructor permission.

**Term Typically Offered:** Fall, Spring

Formal recital demonstrating the performance abilities of the student. Contents of the program must be approved by instructor in the major performance medium, and permission to enroll approved by the appropriate faculty committee of the performance medium.

**MUSC 176. Piano Pedagogy.** 2 Units

**Prerequisite(s):** Admission to the Bachelor of Music program, or instructor permission.

**Term Typically Offered:** Spring only

Study of the content, methods, and problems of teaching the piano with an emphasis on the first years of instruction for both the child and adult beginner.

**MUSC 177. Instrumental Literature and Materials (Grades 4-12).** 3 Units

**Corequisite(s):** Phase III Student Teaching.

**Term Typically Offered:** Fall only

Methods and materials for teaching voice and choral music in grades 4-12. Includes introduction to singing, care and development of the student voice, rehearsal techniques, and selection of materials appropriate for use in small and large choral ensembles.

**Note:** Required for Music Education students enrolled in Phase III of the Credential Program.

**MUSC 178. Vocal Literature and Materials (Grades 4-12).** 3 Units

**Term Typically Offered:** Fall only

Methods and materials for teaching vocal and choral music in grades 4-12. Includes introduction to singing, care and development of the student voice, rehearsal techniques, and selection of materials appropriate for use in small and large choral ensembles.

**Note:** Required for instrumental students and recommended for choral students.

**MUSC 179. Advanced Counterpoint.** 2 Units

**Prerequisite(s):** MUSC 103 and instructor permission

**Term Typically Offered:** Fall, Spring

Advanced Counterpoint. Counterpoint styles from 16th to 20th centuries are studied through analysis of works from the repertoire and completion of preliminary exercises, culminating in the composition of original student pieces in various historical styles. Includes writing in two, three, and four parts. Work will be designed to a large extent to fit the needs, preparation and interest of individual students. May be taken twice for credit.

**MUSC 180. Digital Synthesis and Sampling.** 2 Units

**Prerequisite(s):** Instructor permission.

**Term Typically Offered:** Fall, Spring

Course for students with previous electronic music experience who wish to gain more technical background. Topics include various principles of digital synthesis with an emphasis on independent voice construction, principles of sampling synthesizers, computer-based digital synthesis, and advanced MIDI applications.

**Prerequisite(s):** Music major with senior standing

**Term Typically Offered:** Fall, Spring

Weekly seminar for senior students in the B.A. Music concentration. Senior portfolio preparation, resume preparation, and career planning. Credit/No Credit

**MUSC 184. Senior Seminar.** 1 Unit

**Term Typically Offered:** Fall, Spring

Informal program presented before a faculty committee and invited guests. It is designed to accommodate students who have special problems in developing their performance to Senior Recital level. Registration must be approved by the applied music faculty, and contents of the audition approved and supervised by instructor in the performance medium.

**MUSC 185. Senior Recital.** 2 Units

**Term Typically Offered:** Fall, Spring

A formal recital demonstrating the performance abilities of the student. Required of all majors completing the Bachelor’s degree in Music. Permission to enroll by permission of the appropriate faculty committee. MUSC 185H or MUSC 185A may be substituted for 185 with the permission of the appropriate faculty committees. Contents of the program must be approved and supervised by instructor in the performance medium.

**MUSC 185A. Senior Audition.** 1 Unit

**Term Typically Offered:** Fall, Spring

Informal program presented before a faculty committee and invited guests. It is designed to accommodate students who have special problems in developing their performance to Senior Recital level. Registration must be approved by the applied music faculty, and contents of the audition approved and supervised by instructor in the performing medium.

**MUSC 185B. Senior Recital.** 2 Units

**Term Typically Offered:** Fall, Spring

A formal recital demonstrating the performance abilities of the student. Required of all majors completing the Bachelor’s degree in Music. Permission to enroll by permission of the appropriate faculty committee. MUSC 185H or MUSC 185A may be substituted for 185 with the permission of the appropriate faculty committees. Contents of the program must be approved and supervised by instructor in the performance medium.

**MUSC 185E. Senior Recital Music Education.** 1 Unit

**Term Typically Offered:** Fall, Spring

Informal program presented before a faculty committee and invited guests. It is designed to accommodate students who have special problems in developing their performance to Senior Recital level. Registration must be approved by the applied music faculty, and contents of the audition approved and supervised by instructor in the performing medium.

**MUSC 185H. Honors Recital.** 2 Units

**Term Typically Offered:** Fall, Spring

Applied music faculty may designate outstanding performers for an Honors Recital. Contents of the program must be approved and supervised by instructor in the performance medium.

**MUSC 185J. Senior Recital Jazz.** 2 Units

**Term Typically Offered:** Fall, Spring

Formal recital demonstrating the performance abilities of the student in the Jazz Studies concentration. Contents of the program must be approved and supervised by instructor in the performance medium.

**MUSC 190A. Trumpet: Advanced.** 1 Unit

**Term Typically Offered:** Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

**MUSC 190B. Trumpet: Advanced -- BM.** 1 Unit

**Term Typically Offered:** Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

**MUSC 190C. Trumpet: Intermediate.** 1 Unit

**Term Typically Offered:** Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

**MUSC 190D. Trumpet: Intermediate -- BM.** 1 Unit

**Term Typically Offered:** Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.
MUSC 191A.  Trombone: Advanced.  1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 191B.  Trombone: Advanced -- BM.  1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 192A.  Baritone: Advanced.  1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 192B.  Baritone: Advanced -- BM.  1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 193A.  French Horn: Advanced.  1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 193B.  French Horn: Advanced -- BM.  1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 194A.  Tuba: Advanced.  1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 194B.  Tuba: Advanced -- BM.  1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 195.  Fieldwork in Music.  1 - 3 Units
Term Typically Offered: Fall, Spring
Directed observation and work experience with public agencies. Fieldwork is offered for the purpose of giving students orientation in occupational specialties. Supervision is provided by both university instructional staff and cooperating agencies. Each student is required to maintain a record of activities and assignments and to prepare periodic reports. The student must make arrangements with a faculty member for a work program prior to admittance.
Credit/No Credit

MUSC 197.  Music And Business.  3 Units
Term Typically Offered: Fall, Spring
Introduction to career possibilities in the area of music and business. Students will explore and develop directions of interest and opportunity through reading, discussion, lectures, and outside speakers. Individual field projects will provide the opportunity to see at close hand the workings of Sacramento area music businesses of the student's choice.

MUSC 199.  Special Problems.  1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading. Open only to students who appear competent to carry on individual work. Admission requires the approval of the faculty member under whom the work is to be conducted and of the Department Chair.
Credit/No Credit

MUSC 201.  Introduction to Graduate Study.  3 Units
Prerequisite(s): An undergraduate degree with music major or instructor permission.
Term Typically Offered: Fall, Spring
Systematic and historical study of the various disciplines related to music. Prepares the student to do advanced study and research. Required of all MM students in Music. Must be taken the first time scheduled after student is enrolled.
Note: Graduate Writing Intensive

MUSC 202A.  Seminar in Music Education.  3 Units
Term Typically Offered: Fall, Spring
Study of current methodology in the development of reliable knowledge in the field of music education. Includes identification and formation of research problems, designing, and strategies.

MUSC 202B.  Seminar in Music Education.  3 Units
Term Typically Offered: Fall, Spring
Review of current research trends in music education. Includes review of relevant literature and the definition, design, and justification of a research problem.

MUSC 206.  Topics in Music History.  3 Units
Prerequisite(s): Undergraduate major in music or instructor permission
Term Typically Offered: Fall, Spring
Detailed study of topics in music history and their relation to musical style, performance, reception, and cultural context. Designed to allow narrow focus on the historical contexts of a particular theory, repertoire, performance practice, or critical stance. May be repeated for credit with different topics.
MUSC 207. Topics in Music Analysis. 3 Units
Prerequisite(s): Undergraduate major in music or instructor permission.
Term Typically Offered: Fall, Spring
Detailed study of topics in music analysis and its relation to harmony, rhythm, style, and form. Designed to allow narrowed focus on music of a select composer or small group of composers. May be repeated for credit with different topics.

MUSC 208. Topics in Ethnomusicology. 3 Units
Prerequisite(s): Undergraduate major in music or instructor permission.
Term Typically Offered: Fall, Spring
Current practices, methodologies, and scholarly agendas in the field of ethnomusicology including global studies of traditional, classical, folk, and popular musics. Readings from interdisciplinary literature. Students respond in discussion and writing to this scholarly discourse in order to familiarize themselves with theoretical approaches current in the discipline and to practice the spoken and written conventions of the field.

MUSC 210. Composition. 2 Units
Prerequisite(s): Undergraduate composition and instructor permission.
Term Typically Offered: Fall, Spring
Advanced work in composition for students seeking the MM degree with composition option. May be taken for credit twice.

MUSC 211. Graduate Music Theory. 3 Units
Term Typically Offered: Fall, Spring
Comprehensive and intensive overview of the major disciplines of music theory with an emphasis on application of skills. Focus is mainly on tonal practice (part writing, figured bass realization, chromatic harmony, melodic construction, phrase structure, reductive analysis, forms) but also includes discussion of post-tonal music and applicable analytical techniques (extended scalar resources, dodecaphony, set-theory).

MUSC 214. Ethnomusicology. 3 Units
Term Typically Offered: Fall, Spring
Introduction to the field of Ethnomusicology with an emphasis on its history, development, contemporary trends, research issues, and methodologies.
Note: May be used as a music history elective.

MUSC 217A. Choral Conducting Applied Music. 1 Unit
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Graduate music majors only. May be taken for credit four times.
Note: Limited to choral conducting students only.

MUSC 217B. Instrumental Conducting Applied Music. 1 Unit
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Graduate music majors only. May be taken for credit four times.
Note: Limited to instrumental conducting students only.
MUSC 246. Camerata Capistrano Baroque. 1 Unit
Term Typically Offered: Fall, Spring

A conductor-less ensemble that explores in-depth score study, detailed techniques for stylistic performance, and advanced concertante playing of repertoire from the Renaissance to newly composed works in groupings of diverse size. Instrumentalists, keyboardists and singers are invited to experience repertoire not normally encountered in the symphony orchestra or traditional chamber groups. Students will ultimately achieve a more comprehensive understanding of musical preparation, ensemble discipline and conductor-less performance, culminating in a final concert for a public audience. Paired with MUSC 146.

Note: This course is paired with MUSC 146. Students who have received credit for MUSC 146 as an undergraduate student at CSU Sacramento will not receive credit for MUSC 246. Each participant must be an enrolled student or registered volunteer, admitted with Instructor permission. Non-Music majors must purchase a music fee card (Lassen Hall) in order to participate. Registered volunteers will receive a parking pass for rehearsal times after required paperwork is completed. May be taken for credit four times.

MUSC 285. Graduate Recital. 2 Units
Prerequisite(s): Permission to enter Performance option and approval of Music Department Graduate Studies Committee.
Term Typically Offered: Fall, Spring

Public recital demonstrating the performance abilities and musical maturity of the student. Content of the recital and quality of performance must be approved by instructor in the performance medium. Must articulate with MUSC 500B.

MUSC 295. Fieldwork in Music. 1 - 3 Units
Term Typically Offered: Fall, Spring

Directed observation and work experience. Fieldwork is offered for the purpose of giving students orientation in occupational specialties. Supervision is provided by both the instructional staff of the university and cooperating agencies. Each student is required to maintain a record of activities and assignments and to prepare periodic reports. The student must make arrangements with a faculty member for a work program prior to admittance to the course. Credit/No Credit

MUSC 297. Comprehensive Examination. 1 Unit
Prerequisite(s): MUSC 285 and Advancement to Candidacy
Term Typically Offered: Fall, Spring

Comprehensive oral examination covering student's major field of study. Credit / No Credit. Credit/No Credit

MUSC 299. Special Problems. 1 - 3 Units
Prerequisite(s): Approval of the faculty member under whom the work is to be conducted and the Department Chair.
Term Typically Offered: Fall, Spring

Individual projects or directed reading. Open only to students who appear competent to carry on individual work. Credit/No Credit

MUSC 500. Culminating Experience. 1 - 3 Units
Prerequisite(s): Advanced to candidacy and permission from the graduate coordinator.
Term Typically Offered: Fall, Spring

Completion of thesis or project approved for the Master's degree. Three options are available:

MUSC 500D. Comprehensive Examination. 0 Units
Prerequisite(s): Advanced to Candidacy and permission from graduate coordinator.
Term Typically Offered: Fall, Spring

The Comprehensive Examination is one of the culminating experiences available for the Master of Music Education Degree. The one-hour oral examination is taken during the final semester of the degree program and administered by a three-member graduate faculty committee. The material to be addressed includes the content of classes taken and the application of concepts as applied to music education. Credit/No Credit

BA in Music

Units required for Major: 40
Total units required for BA: 120

Program Description

The fundamental purpose of the Sacramento State music curriculum is threefold:

1. to promote excellence in all aspects of music performance and academic coursework,
2. to provide basic preparation for careers in music, and
3. to promote interest in all musical and artistic endeavors at the University and in the Sacramento community.

The main emphasis of the School of Music is upon performance. Sustaining this concept is the School's faculty, which remains committed to individual and ensemble performances as a means of enhancing the teaching quality of the institution and the cultural climate of the campus and community.

Students majoring in Music are not only expected to be technically proficient in the art but are required to have broad training in the liberal arts and sciences that are the core of the University's program.

Grade "C-" or better required in all courses applied to the major.

General Requirements

The following are required for the Bachelor of Arts and Bachelor of Music degree programs:

Performance Evaluation: Upon entering the music major, each student is required to:

1. declare his/her major performance medium (instrument or voice);
2. perform an entering placement audition before the appropriate applied faculty; and
3. continue the development of his/her performance ability through regular study in accordance with Departmental requirements.
This development in performance is demonstrated at end-of-semester auditions before the applied music faculty. See applied music numbers for appropriate courses.

**Soloist:** Each student in the BA program of sophomore standing or above should appear as a soloist in at least one student recital or repertoire class each semester. Students in the BM program must do either a repertoire class performance or one student recital each semester.

**Ensemble:** As an ensemble experience, each student must participate in at least one large performing ensemble each semester. The following groups meet this requirement: symphonic band, concert band, marching band, opera workshop, orchestra, concert choir, or University chorus. Assignment to the performing ensemble(s) is to be made in consultation with the music major advisor and by audition. A MUSC 142 series course is the appropriate course in which to register.

**Piano:** All undergraduate students majoring in music must have basic facility in piano to graduate from the University. For students other than keyboard majors, completion of MUSC 14D meets this requirement.

**Attendance/concerts-recitals:** Each music major is required to attend a minimum of ten concerts and/or recitals each semester. Attendance is monitored electronically. Students may choose to earn academic credit for this requirement by enrolling in MUSC 100A as an elective.

**Teacher Preparation:** Teaching credential candidates must also complete the Professional Education Program in addition to the BM Music Education requirements. See the College of Education section of this catalog for admission procedures and consult the department credential advisor for details.

**Marching Band:** Wind and percussion majors who are credential candidates must include at least one semester of marching band (MUSC 142M) as their Large Performance Ensemble experience.

**Total Units**                                    | 40-43 |

**General Education Requirements**

**1** Course also satisfies General Education (GE)/Graduation Requirement.

**2** A course from the MUSC 142 series must be taken 4 times for a total of 4 units; each student is assigned to a specific MUSC 142 series course each semester as appropriate for their instrument/voice type and skill level. **Students enrolled in Applied Voice as their major instrument:** A minimum of 4 semesters of MUSC 142 in a choral ensemble (142C or 142U, placement based on audition with the Director) is required. Transfer students in Voice may receive up to 2 semesters of credit toward this requirement from another institution upon approval from the Director of Choral Activities.
Threefold:

Program Description

1. To help you complete your degree in a timely manner and not take more units than absolutely necessary, there are ways to use single courses to meet more than one requirement (overlap). For further information, please visit the General Education page (p. 1100).

Note: There is no way to list all possible overlaps so please consult with a professional advisor. The Academic Advising Center can be visited online (http://www.csus.edu/acad/), by phone (916) 278-1000, or email (advising@csus.edu).

2. Required in Major; also satisfies GE.

3. Department offers students a "select from the following" option:
   - If student chooses to take MUSC 127 or MUSC 129, they will meet upper division Area C.

1. To help you complete your degree in a timely manner and not take more units than absolutely necessary, there are ways to use single courses to meet more than one requirement (overlap). For further information, please visit the General Education page (p. 1100).

Note: There is no way to list all possible overlaps so please consult with a professional advisor. The Academic Advising Center can be visited online (http://www.csus.edu/acad/), by phone (916) 278-1000, or email (advising@csus.edu).

2. Department offers students a "select from the following" option:
   - If student chooses to take MUSC 110, MUSC 127, or MUSC 129, they will meet the Writing Intensive (WI) graduation requirement.

3. If not satisfied before entering Sacramento State, it may be satisfied in General Education Area C2 (Humanities). "C- or better required." The alternative methods for satisfying the Foreign Language Proficiency Requirement are described here: https://www.csus.edu/college/arts-letters/world-languages-literatures/foreign-language-requirement.html (https://www.csus.edu/college/arts-letters/world-languages-literatures/foreign-language-requirement.html)

Bachelor of Music (Instrumental)

Units required for Major: 71-76, including units for concentration (see below)

Total units required for BM: 120

Program Description

The fundamental purpose of the Sacramento State music curriculum is threefold:

1. to promote excellence in all aspects of music performance and academic coursework,
2. to provide basic preparation for careers in music, and
3. to promote interest in all musical and artistic endeavors at the University and in the Sacramento community.

The main emphasis of the School of Music is upon performance. Sustaining this concept is the School's faculty, which remains committed to individual and ensemble performances as a means of enhancing the teaching quality of the institution and the cultural climate of the campus and community.

Students majoring in Music are not only expected to be technically proficient in the art but are required to have broad training in the liberal arts and sciences that are the core of the University's program.

Admission Requirements

Admission to the Bachelor of Music degree program requires the recommendation of the student's major applied instructor, a 3.0 GPA in music courses, and approval of the applied area based upon a successful audition. Admission criteria and audition instructions may be obtained from the Music Department Office.

Each area of concentration has unique course requirements. Students interested in a BM degree should discuss the details of the program with a faculty advisor in the Music Department.

Grade "C-“ or better required in all courses applied to the major.

General Requirements

The following are required for the Bachelor of Arts and Bachelor of Music degree programs:

Performance Evaluation: Upon entering the music major, each student is required to:

1. declare his/her major performance medium (instrument or voice);
2. perform an entering placement audition before the appropriate applied faculty; and
3. continue the development of his/her performance ability through regular study in accordance with Departmental requirements.

This development in performance is demonstrated at end-of-semester auditions before the applied music faculty. See applied music numbers for appropriate courses.

Soloist: Each student in the BA program of sophomore standing or above should appear as a soloist in at least one student recital or repertoire class each semester. Students in the BM program must do either a repertoire class performance or one student recital each semester.

Ensemble: As an ensemble experience, each student must participate in at least one large performing ensemble each semester. The following groups meet this requirement: symphonic band, concert band, marching band, opera workshop, orchestra, concert choir, or University chorus. Assignment to the performing ensemble(s) is to be made in consultation with the music major advisor and by audition. A MUSC 142 series course is the appropriate course in which to register.

Piano: All undergraduate students majoring in music must have basic facility in piano to graduate from the University. For students other than keyboard majors, completion of MUSC 14D meets this requirement.

Attendance/concerts-recitals: Each music major is required to attend a minimum of ten concerts and/or recitals each semester. Attendance is
monitored electronically. Students may choose to earn academic credit for this requirement by enrolling in MUSC 100A as an elective.

**Teacher Preparation:** Teaching credential candidates must also complete the Professional Education Program in addition to the BM Music Education requirements. See the College of Education section of this catalog for admission procedures and consult the department credential advisor for details.

**Marching Band:** Wind and percussion majors who are credential candidates must include at least one semester of marching band (MUSC 142M) as their Large Performance Ensemble experience.

### Area D: The Individual and Society (9 Units)
1. Admissions: Admission to the Bachelor of Music degree program requires the following:

   1. to promote excellence in all aspects of music performance and academic coursework,
   2. to provide basic preparation for careers in music, and
   3. to promote interest in all musical and artistic endeavors at the University and in the Sacramento community.

   The main emphasis of the School of Music is upon performance. Sustaining this concept is the School’s faculty, which remains committed to individual and ensemble performances as a means of enhancing the teaching quality of the institution and the cultural climate of the campus and community.

   Students majoring in Music are not only expected to be technically proficient in the art but are required to have broad training in the liberal arts and sciences that are the core of the University’s program.

**Admission Requirements**

Admission to the Bachelor of Music degree program requires the recommendation of the student’s major applied instructor, a 3.0 GPA in music courses, and approval of the applied area based upon a successful audition. Admission criteria and audition instructions may be obtained from the Music Department Office.

Each area of concentration has unique course requirements. Students interested in a BM degree should discuss the details of the program with a faculty advisor in the Music Department.

Grade “C-“ or better required in all courses applied to the major.

**General Requirements**

The following are required for the Bachelor of Arts and Bachelor of Music degree programs:

**Performance Evaluation:** Upon entering the music major, each student is required to:

1. declare his/her major performance medium (instrument or voice);
2. perform an entering placement audition before the appropriate applied faculty; and
3. continue the development of his/her performance ability through regular study in accordance with Departmental requirements.

This development in performance is demonstrated at end-of-semester auditions before the applied music faculty. See applied music numbers for appropriate courses.

**Soloist:** Each student in the BA program of sophomore standing or above should appear as a soloist in at least one student recital or repertoire class each semester. Students in the BM program must do either a repertoire class performance or one student recital each semester.

**Ensemble:** As an ensemble experience, each student must participate in at least one large performing ensemble each semester. The following groups meet this requirement: symphonic band, concert band, marching band, opera workshop, orchestra, concert choir, or University chorus. Assignment to the performing ensemble(s) is to be made in consultation with the music major advisor and by audition. A MUSC 142 series course is the appropriate course in which to register.

**Piano:** All undergraduate students majoring in music must have basic facility in piano to graduate from the University. For students other than keyboard majors, completion of MUSC 14D meets this requirement.
Attendance/concerts-recitals: Each music major is required to attend a minimum of ten concerts and/or recitals each semester. Attendance is monitored electronically. Students may choose to earn academic credit for this requirement by enrolling in MUSC 100A as an elective.

Teacher Preparation: Teaching credential candidates must also complete the Professional Education Program in addition to the BM Music Education requirements. See the College of Education section of this catalog for admission procedures and consult the department credential advisor for details.

Marching Band: Wind and percussion majors who are credential candidates must include at least one semester of marching band (MUSC 142M) as their Large Performance Ensemble experience.

Area D: The Individual and Society (9 Units)

Area D Course | 3     |
Threefold:
The fundamental purpose of the Sacramento State music curriculum is to promote excellence in all aspects of music performance and academic coursework, to provide basic preparation for careers in music, and to promote interest in all musical and artistic endeavors at the University and in the Sacramento community.

The main emphasis of the School of Music is upon performance. Sustaining this concept is the School's faculty, which remains committed to individual and ensemble performances as a means of enhancing the teaching quality of the institution and the cultural climate of the campus and community.

Students majoring in Music are not only expected to be technically proficient in the art but are required to have broad training in the liberal arts and sciences that are the core of the University's program.

Admission Requirements
Admission to the Bachelor of Music degree program requires the recommendation of the student's major applied instructor, a 3.0 GPA in music courses, and approval of the applied area based upon a successful audition. Admission criteria and audition instructions may be obtained from the Music Department Office.

Each area of concentration has unique course requirements. Students interested in a BM degree should discuss the details of the program with a faculty advisor in the Music Department.

Grade *C-* or better required in all courses applied to the major.

General Requirements
The following are required for the Bachelor of Arts and Bachelor of Music degree programs:

Performance Evaluation: Upon entering the music major, each student is required to:
1. declare his/her major performance medium (instrument or voice);
2. perform an entering placement audition before the appropriate applied faculty; and
3. continue the development of his/her performance ability through regular study in accordance with Departmental requirements.

This development in performance is demonstrated at end-of-semester auditions before the applied music faculty. See applied music numbers for appropriate courses.

Soloist: Each student in the BA program of sophomore standing or above should appear as a soloist in at least one student recital or repertoire class each semester. Students in the BM program must do either a repertoire class performance or one student recital each semester.

Ensemble: As an ensemble experience, each student must participate in at least one large performing ensemble each semester. The following groups meet this requirement: symphonic band, concert band, marching band, opera workshop, orchestra, concert choir, or University chorus. Assignment to the performing ensemble(s) is to be made in consultation with the music major advisor and by audition. A MUSC 142 series course is the appropriate course in which to register.

Piano: All undergraduate students majoring in music must have basic facility in piano to graduate from the University. For students other than keyboard majors, completion of MUSC 14D meets this requirement.

1. To help you complete your degree in a timely manner and not take more units than absolutely necessary, there are ways to use single courses to meet more than one requirement (overlap). For further information, please visit the General Education page (p. 1100).
   Note: There is no way to list all possible overlaps so please consult with a professional advisor. The Academic Advising Center can be visited online (http://www.csus.edu/acad/), by phone (916) 278-1000, or email (advising@csus.edu).
2. Required in Major; also satisfies GE.
3. If not satisfied before entering Sacramento State, it may be satisfied in General Education Area C2 (Humanities). "C- or better required." The alternative methods for satisfying the Foreign Language Proficiency Requirement are described here: https://www.csus.edu/college/arts-letters/world-languages-liternaries/foreign-language-requirement.html (https://www.csus.edu/college/arts-letters/world-languages-liternaries/foreign-language-requirement.html)

2 Required in Major; also satisfies GE.

Master of Music (Composition)

Total Units required for the MM: 30, chosen in consultation with a School
of Music graduate advisor

Program Description

The graduate program leading to the Master of Music degree is designed
to provide opportunities for a variety of advanced studies in music.
The objective of the program is to produce a graduate student skilled
in research, able in organizational and writing skills, and imaginative
in developing new approaches and concepts: a student who, with a broad
knowledge of the history and literature of music, is able to use this
knowledge with effective musicality as a performer or conductor.

The MM may be earned with either an academic or a performance
emphasis. The program will effectively prepare students for continuation
into doctoral study. Students may focus their studies in one of three
areas: Conducting, Composition, Performance.

Admission Requirements

Applicants to the graduate program in Music must meet the following
requirements:

• a baccalaureate degree with a music major;
• a minimum 3.0 GPA in the last 60 units; and
• successful audition or composition portfolio review (see the School
  of Music website (http://www.csus.edu/music/) for audition
  information).

Fully classified graduate status is granted after successful completion
of nine units of graduate work. The student must file for a change in
status, using a form available from the Music Department’s Graduate
Coordinator.

Admission Procedures

Applications are accepted as long as room for new students exists. All
prospective graduate students, including Sacramento State graduates,
must file the following with the Office of Graduate Studies (http://
www.csus.edu/gradstudies/):

• an application for admission;
• once set of official transcripts from all colleges and universities
  attended (other than Sacramento State); and
• two letters of reference.

For more admissions information and application deadlines please visit the
Office of Graduate Studies website (http://www.csus.edu/gradstudies/).

After receipt of all items listed above, a decision regarding admission will
be emailed to the applicant.

Minimum Units and Grade Requirement for the Degree

Units required for the MM: 30, chosen in consultation with a School of
Music graduate advisor

Minimum Cumulative GPA: 3.0. Majors must complete each required
graded course with a grade “C-” or better and must pass MUSC 297.

Optional Support Field

From 3 to 5 units in fields other than Music may apply toward the degree
with approval of the School of Music graduate committee. Students
should have at least 10 upper division units in this field as preparation.
Normally the supporting field units are on the graduate level. Supporting
fields currently approved for music majors are Education, Humanities and
Religious Studies, Modern Languages, and Theatre Arts. In the case of
Music Education, courses which are part of the credential requirements
may not be included.

Advancement to Candidacy

Each fully classified graduate student must file an application for
Advancement to Candidacy, indicating a proposed program of graduate
study. This procedure should begin as soon as the student has:
• completed approximately 15 units of graduate study, including MUSC 201 and two other 200-level courses, with a minimum of 3.0 GPA;
• received approval from supervising faculty to enter courses leading to MUSC 500, Culminating Experience (see Graduate Studies Handbook for details);
• taken a Graduate Writing Intensive (GWI) course in their discipline within the first two semesters of coursework at California State University, Sacramento.

Advancement to Candidacy forms are available on the Office of Graduate Studies website. Instructions are found in Part II of the Graduate Studies Handbook.

**Minor in Music**

Units required for the Minor: 20, including 9 units upper division.

**Program Description**

The fundamental purpose of the Sacramento State music curriculum is threefold:

1. to promote excellence in all aspects of music performance and academic coursework,
2. to provide basic preparation for careers in music, and
3. to promote interest in all musical and artistic endeavors at the University and in the Sacramento community.

The main emphasis of the School of Music is upon performance. Sustaining this concept is the School’s faculty, which remains committed to individual and ensemble performances as a means of enhancing the teaching quality of the institution and the cultural climate of the campus and community.

Students majoring and minoring in Music are not only expected to be technically proficient in the art but are required to have broad training in the liberal arts and sciences that are the core of the University’s program.

The Performer's Certificate

Units required for the certificate: 22

Program Description

The Performer's Certificate is a post-baccalaureate program designed for highly qualified instrumentalists, vocalists, and conductors. Exceptionally talented and dedicated performers admitted through a competitive audition will receive instruction at an advanced level and will be expected to make substantive contribution to the School of Music through participation in a Large Ensemble (LPE) or equivalent.

Admission Requirements

1. Baccalaureate Degree
2. Audition demonstrating exceptional skill in the student’s area of specialization (conducting, instrumental, or voice performance)

Theatre and Dance

College of Arts and Letters

Program Description

The California State University, Sacramento Department of Theatre and Dance fosters student-learning to advance critically-thinking, creative and collaborative artists. It provides a broad and thorough foundation of the history, theory, literature and the practice of theatre and dance to students who wish to pursue post graduate studies or join the profession. The Department of Theatre and Dance offers an imaginative and ambitious program of historical and contextual studies supported by studio and production work. Our mission challenges students to be independent thinkers. Our department provides a collaborative, artistic environment that reflects a richly complex and diverse global perspective complemented by national and international faculty and staff experience.

Degree Programs

BA in Dance (p. 310)
BA in Theatre (p. 311)
Minor in Dance (p. 313)
Minor in Musical Theatre (p. 314)
Minor in Theatre (p. 314)

Subject Matter Program (English/Theatre) (http://catalog.csus.edu/colleges/arts-letters/theatre-dance/subject-matter-program/)

Theatre

Majors in the Theatre program receive in-depth training in acting, voice, movement, audition technique, design, history, literature, criticism, multicultural theatre, musical theatre, puppetry, and film studies.

Accreditation

In addition to California State University, Sacramento's full accreditation by the Western Association of Schools and Colleges, the Bachelor of Arts in Theatre is accredited by the National Association of Schools of Theatre.

Notice to Students RE: Professional Licensure and Certification

California State University programs for professions that require licensure or certification are intended to prepare the student for California licensure and certification requirements. Admission into programs for professions that require licensure and certification does not guarantee that students will obtain a license or certificate. Licensure and certification requirements are set by agencies that are not controlled by or affiliated...
with the California State University and licensure and certification requirements can change at any time.

The California State University has not determined whether its programs meet other states’ educational or professional requirements for licensure and certification. Students planning to pursue licensure or certification in other states are responsible for determining whether, if they complete a California State University program, they will meet their state’s requirements for licensure or certification. This disclosure is made pursuant to 34 CFR §668.43(a)(5)(v)(C).

Special Features

- Academic offerings include an excellent program of performance opportunities. Each year we offer four to six faculty-directed productions and a varied selection of additional productions including student-directed one-acts, recruitment shows, and community outreach performances. Students are also offered production assignments as stage managers, designers and technicians, all of which enhance the range of theatrical knowledge and experience.
- Included are African American and Chicano/Latino Theatre productions that make this program unique in the State University System.
- In addition to the performance and technical components, Sacramento State’s Theatre program provides organizations that encompass social, academic and professional opportunities, both on campus and in the community.
- The Theatre program participates annually in the Kennedy Center American College Theatre Festival (KCACTF).

Dance

Majors in the Dance program receive training in dance technique, performance, production, choreography, theory, dance history, and dance education.

The comprehensive Dance program starts with the basic principles of dance technique and refines them through choreographic and theoretic processes, culminating in the creation of full-scale concert productions. Students in the program are involved at every level of the creative process.

Special Features

- Dance majors have the opportunity to participate as members of several dance companies and organizations. Company members are involved in all aspects of producing and presenting dance, from creating and performing choreography to designing and implementing the production and promotional aspects of the concerts.
- Dance majors are given the opportunity to work with professional dance artists. Each year, at least one regional professional dance artist is in residence, and the program invites nationally acclaimed guest artists to teach master classes and choreograph.
- The Dance program participates annually in the American College Dance Association (ACDA) conference and the International Association of Blacks in Dance (IABD) conference.

Career Possibilities

Actor · Choreographer · Dancer · Director · Scenographer · Lighting Designer · Scenic Designer · Puppeteer · Theatre Manager · Critic · Announcer/Narrator · Sound/Light Technician · Scenic Artist · Propmaster · Educator (Instructor/Teacher/Professor) · Stage and Production Manager

DNCE 1A. Jazz Dance Level IA.
2 Units
Term Typically Offered: Fall, Spring
Theory and practice of basic beginning jazz techniques.
Note: May be repeated for up to 4 units of credit.

DNCE 1B. Jazz Dance Level IB.
2 Units
Term Typically Offered: Fall, Spring
Continued theory and practice of beginning jazz techniques.
Note: Does not satisfy degree requirements for major, all students welcome. May be repeated for up to 4 units of credit.

DNCE 1C. Jazz Dance Level IC.
2 Units
Term Typically Offered: Fall, Spring
Further theory and practice of beginning jazz techniques.
Note: May be repeated for up to 4 units of credit.

DNCE 2A. Contemporary Dance Level IA.
2 Units
Term Typically Offered: Fall, Spring
Introduction to the history and techniques of the contemporary dance and modern dance tradition through basic dance principles and aesthetics including the introduction to contemporary movement to develop and improve strength, flexibility, balance, coordination and creative expression.
Note: Does not satisfy degree requirements for major, all students welcome.
DNCE 2C. Contemporary Dance Level IC. 2 Units
Term Typically Offered: Fall, Spring
Further introduction to the history and techniques of the contemporary
dance and modern dance tradition through further study of basic
contemporary dance principles and aesthetics including the further
practice of contemporary movement for the deepened development and
improvement of strength, flexibility, balance, coordination and creative
expression.
Note: Does not satisfy degree requirements for major; all students
welcome.

DNCE 3A. Ballet Level I A. 2 Units
Term Typically Offered: Fall, Spring
Introduction to the history and development of traditional ballet
techniques. Students will study ballet principles and aesthetics and
continue to learn basic ballet movement, vocabulary, and skills.
Note: Does not satisfy degree requirements for major; all students
welcome.

DNCE 3B. Ballet Level IB. 2 Units
Term Typically Offered: Fall, Spring
This course provides continued introduction to the history and
development of traditional ballet techniques. Students will study ballet
principles and aesthetics and continue to learn basic ballet movement,
vocabulary, and skills.
Note: Does not satisfy degree requirements for major; all students
welcome.

DNCE 3C. Ballet Level IC. 2 Units
Term Typically Offered: Fall, Spring
This course provides a further introduction to the history and
development of traditional ballet techniques. Students will expand upon
their earlier study of ballet principles and aesthetics and continue to learn
basic ballet movement, vocabulary, and skills.
Note: Does not satisfy degree requirements for major; all students
welcome.

DNCE 4A. Tap Dance Level I A. 2 Units
Term Typically Offered: Fall, Spring
Introduction to fundamental tap dance skills including basic steps,
history and vocabulary, and style development.
Note: May be repeated for up to 4 units of credit. Satisfies degree
requirement, all students welcome.

DNCE 4B. Tap Dance Level IB. 2 Units
Term Typically Offered: Fall, Spring
Continued introduction to fundamental tap dance skills including a
deepened study of basic steps, history and vocabulary, and continued
style development
Note: May be repeated for up to 4 units of credit. Satisfies degree
requirements, all students welcome.

DNCE 4C. Tap Dance Level IC. 2 Units
Term Typically Offered: Fall, Spring
Further introduction to fundamental tap dance skills including an
expanded study of basic steps, history and vocabulary, and further style
development
Note: May be repeated for up to 4 units of credit. Satisfies degree
requirements, all students welcome.

DNCE 5A. Mexican Folklorico Level I A. 2 Units
Term Typically Offered: Fall, Spring
Introduction to dances typically and traditionally performed by Mexican
and Latin Americans exploring the interrelationship of dance culture to
historical events, holidays, and people throughout the Americas and with
opportunities to learn folk dances representative of specific regions of
Mexico and Latin America.
Note: May be repeated for up to 4 units of credit. Satisfies degree
requirements, all students welcome.

DNCE 5B. Mexican Folklorico Level IB. 2 Units
Term Typically Offered: Fall, Spring
Continued introduction to dances typically and traditionally performed
by Mexican and Latin Americans with deepened exploration of the
interrelationship of dance culture to historical events, holidays, and
people throughout the Americas and with continued study of folk dances
representative of specific regions of Mexico and Latin America.
Note: May be repeated for up to 4 units of credit. Satisfies degree
requirement, all students welcome.

DNCE 5C. Mexican Folklorico Dance Level IC. 2 Units
Term Typically Offered: Fall, Spring
Further introduction to dances typically and traditionally performed
by Mexican and Latin Americans with expanded exploration of the
interrelationship of dance culture to historical events, holidays, and
people throughout the Americas and with further study of folk dances
depresentative of specific regions of Mexico and Latin America.
Note: May be repeated for up to 4 units of credit. Satisfies degree
requirement, all students welcome.

DNCE 6A. Hip Hop Level I A. 2 Units
Term Typically Offered: Fall, Spring
Introduction to the fundamentals of Hip Hop and Urban dance skills,
including basic steps, history, and vocabulary.
Note: May be repeated for up to 4 units of credit. Does not satisfy degree
requirement, all students welcome.
DNCE 6B. Hip Hop Level IB.
Continues the introduction of the fundamentals of Hip Hop and Urban dance skills, with a deepened study of basic steps, history, and vocabulary.
Note: May be repeated for up to 4 units of credit, does not satisfy degree requirement, all students are welcome.

DNCE 6C. Hip Hop Level IC.
Further introduction of the fundamentals of Hip Hop and Urban dance skills, with an expanded study of basic steps, history, and vocabulary.
Note: May be repeated for up to 4 units of credit, does not satisfy degree requirement, all students are welcome.

DNCE 11A. Jazz Dance Level IIA.
Term Typically Offered: Fall, Spring
Theory and practice of current jazz techniques including continued study of movement vocabulary with an emphasis on the different jazz styles. Instructor with dance faculty representatives will audition students during first week of class for proper placement.
Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 11B. Jazz Dance Level IIB.
Term Typically Offered: Fall, Spring
Continued theory and practice of current jazz techniques including the continued study of movement vocabulary with an emphasis on the different jazz styles. Instructor with dance faculty representatives will audition students during first week of class for proper placement.
Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during the first week of classes, all students welcome.

DNCE 11C. Jazz Dance Level IIC.
Term Typically Offered: Fall, Spring
Further expanded theory and practice of current jazz techniques including the deepened study of movement vocabulary with an emphasis on the different jazz styles. Instructor with dance faculty representatives will audition students during first week of class for proper placement.
Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during the first week of classes, all students welcome.

DNCE 12A. Contemporary Dance Level IIA.
Term Typically Offered: Fall, Spring
Examination of theories of the contemporary dance and modern dance tradition that develops proficiency in performing intermediate level contemporary dance techniques from an intellectual and kinesthetic understanding. Instructor with dance faculty representatives will audition students during first week of class for proper placement.
Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 12B. Contemporary Dance Level IIB.
Term Typically Offered: Fall, Spring
Continued examination of theories of the contemporary dance and modern dance tradition that continues the proficiency in performing intermediate level contemporary dance techniques with a deepened intellectual and kinesthetic understanding. Instructor with dance faculty representatives will audition students during first week of class for proper placement.
Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 12C. Contemporary Dance Level IIC.
Term Typically Offered: Fall, Spring
Further examination of theories of the contemporary dance and modern dance tradition that further expand the proficiency in performing intermediate level contemporary dance techniques from a deeper intellectual and kinesthetic understanding. Instructor with dance faculty representatives will audition students during first week of class for proper placement.
Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 13A. Ballet Level IIA.
Term Typically Offered: Fall, Spring
Understand and demonstrate proficiency of Ballet movement and vocabulary including different styles while learning the importance of proper anatomical alignment, collaboration of foot and arm positions, and appreciation of classical musical accompaniment. Instructor with dance faculty representatives will audition students during first week of class for proper placement.
Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 13B. Ballet Level IIB.
Term Typically Offered: Fall, Spring
Continued understanding and deepened demonstration of proficiency of Ballet movement and vocabulary including different styles while learning the importance of proper anatomical alignment, collaboration of foot and arm positions, and appreciation of classical musical accompaniment. Instructor with dance faculty representatives will audition students during first week of class for proper placement.
Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.
DNCE 13C. Ballet Level IIC. 2 Units
Term Typically Offered: Fall, Spring

Further understanding and expanded demonstration of proficiency of Ballet aesthetics through Ballet movement and vocabulary including different styles while learning the importance of proper anatomical alignment, collaboration of foot and arm positions, and appreciation of classical musical accompaniment. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 14B. Tap Dance Level IIB. 2 Units
Term Typically Offered: Fall, Spring

Continued development and refinement of intermediate tap skills and vocabulary through the study of historical and current tap styles. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 14C. Tap Dance Level IIC. 2 Units
Term Typically Offered: Fall, Spring

Further development and refinement of intermediate tap skills and vocabulary through the expanded study of historical and current tap styles. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 21. First Year Seminar: Becoming an Educated Person. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Introduction to the meaning of higher education, resources of the University, and skills for lifelong learning. Designed to help students develop academic success strategies and to improve information literacy, intercultural competence, and integrative thinking. Provides students with the opportunity to interact with fellow students and seminar faculty to build a community of academic and personal support.

DNCE 22. Music for Dance. 2 Units
Prerequisite(s): DNCE 1A or DNCE 1B or DNCE 1C or DNCE 2A or DNCE 2B or DNCE 2C or instructor permission.
Term Typically Offered: Fall only

Experiential course exploring the musical elements utilized by the dancer, choreographer, and teacher of dance including a survey of music history and vocabulary; rhythms and theory; musical and dance phrasing; and dance performance musicality. This course fulfills requirements for the Dance Major and Dance Minor, non-dance major or minor students welcome.

DNCE 111A. Jazz Dance Level IIIA. 2 Units
Term Typically Offered: Fall, Spring

Advanced training in the theory and practice of jazz techniques. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 111B. Jazz Dance Level IIIB. 2 Units
Term Typically Offered: Fall, Spring

Continued training at the advanced level in the theory and practice of Jazz Dance techniques. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 111C. Jazz Dance Level IIIC. 2 Units
Term Typically Offered: Fall, Spring

Further advanced training at a deepened level for the theory and practice of jazz techniques. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 112A. Contemporary Dance Level IIIA. 2 Units
Term Typically Offered: Fall, Spring

Advanced training in the theory and practice of Contemporary Dance techniques and Modern Dance Traditions. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 112B. Contemporary Dance Level IIIB. 2 Units
Term Typically Offered: Fall, Spring

Continued training at the advanced level in the theory and practice of Contemporary Dance techniques and Modern Dance Traditions. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.
DNCE 112C. Contemporary Dance Level IIIC. 2 Units
Term Typically Offered: Fall, Spring

Further advanced training at a deepened level for the theory and practice of Contemporary Dance techniques and Modern Dance Traditions. Instructor with dance faculty representatives will audition students during first week of class for proper placement. 
Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 113A. Ballet Level IIIA. 2 Units
Term Typically Offered: Fall, Spring

Advanced training in the theory and practice of Ballet including proper alignment, collaboration of foot and arm positions, and appreciation of classical musical accompaniment. Instructor with dance faculty representatives will audition students during first week of class for proper placement. 
Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 113B. Ballet Level IIIIB. 2 Units
Term Typically Offered: Fall, Spring

Continued training at the advanced level in the theory and practice of Ballet including proper alignment, collaboration of foot and arm positions, and appreciation of classical musical accompaniment. Instructor with dance faculty representatives will audition students during first week of class for proper placement. 
Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 113C. Ballet Level IIIIC. 2 Units
Prerequisite(s): Instructor permission
Term Typically Offered: Fall, Spring

Further refinement within the proficiency of performing Ballet techniques while expanded intellectual and kinesthetic understanding of different Ballet styles which will be attained through the further emphasis of anatomy and the expanded building of the bodily strength and endurance through barre and center work. 
Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 118. Dance Improvisation. 2 Units
Prerequisite(s): DNCE 1A or DNCE 1B or DNCE 1C or DNCE 2A or DNCE 2B or DNCE 2C or instructor permission.
Term Typically Offered: Spring only

Exploration of the creation of movement through improvisation. Students will simultaneously explore and create, while spontaneously performing inner-directed movement without intellectual censorship. 
Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome.

DNCE 120. Dance Composition I. 2 Units
Prerequisite(s): DNCE 118 or instructor approval
Term Typically Offered: Fall only

An exploration of the principle elements and processes utilized in the choreographic process. 
Note: Satisfies degree requirements, all students welcome

DNCE 122. Dance Composition II. 2 Units
Prerequisite(s): DNCE 120 or Instructor permission.
Term Typically Offered: Fall, Spring

An in-depth exploration of the concepts, approaches, and processes used to further develop a stylistic approach to Dance Composition. 
Note: Satisfies degree requirements, all students welcome.

DNCE 130. Appreciation and History of Dance. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

Survey in the appreciation and history of dance and the relationship of dance to the fine and liberal arts in Western Civilization. Emphasis upon the history of ballet, American modes of expression: modern and jazz forms. 
Note: Non-activity.

DNCE 131. Dance Cultures Of America. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1), Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring

Survey course in the appreciation and understanding of dance cultures in America. The relationship of dance to the identity and expression of different cultural groups in the U.S. will be examined. Jazz, modern, and ballet from a multicultural perspective will be the focus of the class. 
Note: Non-activity.

DNCE 132. African-Caribbean Dance. 3 Units
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), Arts (Area C1)
Term Typically Offered: Fall, Spring

Introduction to the rich dance cultures of the Caribbean. Students will learn the different dances of Haiti, Cuba, Jamaica and Trinidad as they relate to their function in secular and religious culture, including the study of the Dunham Dance Technique. 
Note: May be repeated for up to 6 units of credit.

DNCE 142. Dance Science and Somatics. 3 Units
Prerequisite(s): Upper division standing, or instructor permission.
Term Typically Offered: Fall, Spring

The study of skeletal structure, joint and muscle function, and the mechanics of movement geared specifically for dancers and movement practitioners. Incorporated into the course will be the study of embodied awareness practices - Somatics. The structural and energetic connections of the body will be explored within a context of both ease and efficiency of movement as well as creative expression. 
Note: May be repeated for up to 6 units of credit. Satisfies degree requirement, all students welcome.
DNCE 143. University Dance Company. 1 Unit
Term Typically Offered: Fall, Spring
Participation in the University Dance Company includes pre-professional dance conditioning and performance skill acquisition. Fulfills requirement for Dance Major and elective for Dance Minor; all students welcome to audition.
Note: Admission by audition only, this course is approximately 30 hours of participation in mandatory weekly class.

DNCE 150. Dance Theory and Criticism. 3 Units
Prerequisite(s): DNCE 122, DNCE 130, DNCE 131, instructor permission.
Term Typically Offered: Fall, Spring
Exploration of the contemporary theories and philosophies of movement, specifically in the dance genres of modern and jazz. Also explores personal aesthetics and how to look at dance from a critical writing and oral presentation perspective. The role of the audience as well as the critic will be assessed and students will learn to evaluate content of movement in relation to its intention, motivation, and delivery.

DNCE 160. Creative Dance for Children. 3 Units
Term Typically Offered: Spring only
Exploration of creative dance as it applies to young children; including exploration of non-locomotor and locomotor movement patterns through problem solving and guided discovery techniques.

DNCE 190. Capstone Dance Project. 2 Units
Prerequisite(s): DNCE 150
Term Typically Offered: Fall, Spring
Participation and creative research in the rehearsal, production, and performance of a public dance production. Students will synthesize all major course materials to individually create a new choreographic work and collaboratively produce the Senior Dance Concert as their capstone project. Fulfills requirements for Dance Major.
Note: Dance Majors Only or Instructor Permission.

THEA 1. Introduction To Theatre. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring
Primarily for non-majors interested in acquiring a background of information in theatre. Plays, history, acting theories, technical methods and people in the theatre. Lectures, demonstrations and discussions will characterize the greater portion of the course.

THEA 2. History of the Theatre: Ancient to Renaissance. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall only
Broad survey of the nature and development of theatrical performance from ancient times through the Renaissance which emphasizes the relationship between theatre and the larger philosophical social and political concerns of its time.

THEA 3. Theatre History After 1660. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Spring only
Investigates the relationship between the development of theatre styles, structures and institutions, and philosophical, political, and cultural practices after 1660. Considers plays, production styles, theatre as an institution, and issues of representation of gender, race and class.

THEA 5. Aesthetics of Theatre and Film. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring
Interpretations of seminal dramatic scripts emphasizing the aesthetics of the theatrical art in relation to the cinematic medium.

THEA 9. Appreciation Of Acting. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring
Examination of the art of acting, including a review of actors and acting - past and present. Basic exercises in voice and diction, movement, and character will be utilized.

THEA 11. Acting Study I. 3 Units
Prerequisite(s): Theatre and Dance Majors or Minors or instructor permission.
Term Typically Offered: Fall, Spring
An introduction to, and a solid working foundation of, the basic building blocks of the acting craft. Through ensemble building, personal reflection, physical commitment, and vocal awareness exercises, students have the opportunity to improve and grow as an actor in both individual and partnered performance. Key learning goals include the ability to understand, interpret and execute the foundational elements of drama (plot, character, thought, and language).

THEA 14. Stage Makeup and Costume Construction. 3 Units
Term Typically Offered: Fall, Spring
This course provides a comprehensive look at the technical side of stage makeup and stage costumes, with an emphasis on makeup application and costume construction. Students learn use of materials, equipment, theatre terminology, and the practical aspects of costume and stage makeup realization. Students work on costume and makeup projects from start to finish in the makeup lab and costume shop.
Note: MAY NOT be taken concurrently with THEA 16 or THEA 20 without instructor permission.

THEA 16. Stagecraft. 3 Units
Term Typically Offered: Fall, Spring
Principles of scenic and stage prop construction, techniques of mounting and shifting stage scenery, and the study of ground plans and construction drawings for theatrical production. Lecture/lab activity.
Note: May not be taken concurrently with THEA 14 or THEA 20 without instructor permission.

THEA 20. Lighting. 3 Units
Term Typically Offered: Fall, Spring
Principles of stage lighting, fixtures, control and color. Introduction to basic concepts and practices of lighting design. Lecture/lab activity.
Note: May not be taken concurrently with THEA 14 or THEA 16 without instructor permission.
THEA 21.  First Year Seminar: Becoming an Educated Person.  3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Introduction to the meaning of higher education, resources of the University, and skills for lifelong learning. Designed to help students develop academic success strategies and to improve information literacy, intercultural competence, and integrative thinking. Provides students with the opportunity to interact with fellow students and seminar faculty to build a community of academic and personal support.

THEA 100.  Script Analysis.  3 Units
Prerequisite(s): THEA 2, THEA 3
Corequisite(s): THEA 3
Term Typically Offered: Spring only

Through lecture and discussion, students explore the foundational elements of play scripts. The class investigates the structure of a play as well as its use of character, thought, plot, diction, song, and spectacle to analyze how a play’s social and cultural elements inform potential productions.

THEA 102A.  Voice and Movement I.  3 Units
Prerequisite(s): THEA 11
Term Typically Offered: Fall, Spring

Introduction to the basic fundamentals of voice production and movement for the actor. Basic anatomy and physiology, relaxation, alignment, and breath work and its connection to movement. Feldenkrais, the Alexander Technique, and physical strengthening exercises are used in combination with vocal exercises to develop the actor’s voice and body. Vocal and physical improvisation are introduced through various voice and movement exercises.

THEA 102B.  Voice and Movement II.  3 Units
Prerequisite(s): THEA 11, THEA 102A or instructor permission.
Term Typically Offered: Fall, Spring

Strengthening and enhancing the vocal work developed in Voice and Movement I is continued with an in-depth study of the International Phonetic Alphabet and its importance when performing heightened language plays. Solo presentation and a devised final ensemble project round out the course requirements.

THEA 104.  Acting Study II.  3 Units
Prerequisite(s): THEA 11, THEA 102A or instructor permission.
Term Typically Offered: Fall, Spring

To further develop the basic concepts of acting through scene work from the American modern repertoire. Particular emphasis is placed on the importance of a play’s given circumstances, and the commitment required to make bold, active tactic choices when developing a character. Further investigation of the actor’s process in analyzing text and incorporating research through character analysis, as it ties into performance, are explored.

THEA 106.  Latin American Film.  3 Units
Term Typically Offered: Fall, Spring

Exploration of the major movements in Latin American cinema beginning with the initial impetus of the Argentine and Mexican film industry of the late 1940’s and the relationship of their aesthetic formulas to the cultural and socio/political climate of major Latin American nations.

THEA 107.  Directing.  3 Units
Prerequisite(s): THEA 2, THEA 3, THEA 11, THEA 14, THEA 16, THEA 20, THEA 100
Term Typically Offered: Fall only

Practical experience in production procedures, characterization and basic principles of play direction. Analyzes directing techniques. Class typically attends a rehearsal and performance at Capital Stage (professional theatre in Midtown).

Note: Field trip.

THEA 109.  Musical Theatre.  3 Units
Prerequisite(s): THEA 11
Term Typically Offered: Spring only

Practical study in singer-actor performance techniques. Major consideration is given to coordination of gesture and/or choreography, dialogue, melody, and lyric.

THEA 110.  Acting Study III: Advanced Acting.  3 Units
Prerequisite(s): THEA 11, THEA 102A and/or THEA 102B, THEA 104 or instructor permission.
Term Typically Offered: Fall, Spring

The study of ways to research, rehearse and perform advanced acting styles and techniques with an emphasis on text analysis, given circumstances, subtext, and heightened language.

Note: May be taken twice for credit.

THEA 111.  Audition Technique.  3 Units
Prerequisite(s): THEA 11, THEA 102A &/OR THEA 102B, THEA 104; Musical Theatre minors must also take THEA 109.
Term Typically Offered: Spring only

An in-depth study of the business of becoming a working professional actor and the techniques needed when auditioning for a professional theatre company. Students prepare an audition repertoire that is appropriate to their age and type; audition for a panel of theatre professionals and receive feedback for both areas of skill and those needing improvement. Resumes, headshots, trade papers, skill sets, and financial budgeting are examples of the areas included within the content of this course. An introduction to television/commercial and musical theatre audition techniques is also incorporated.

THEA 113.  Acting Styles: Shakespeare.  3 Units
Prerequisite(s): THEA 11, THEA 102A &/or THEA 102B, THEA 104
Term Typically Offered: Fall, Spring

Designed to familiarize the intermediate acting student with the very specific demands of performing the works of William Shakespeare. Beginning with an in-depth study of the structure and meter of verse poetry, THEA 113 provides the vocal, physical, and analytical tools with which to approach this material in an intelligent and confident manner. Scene and monologue work is detailed and extensive.

THEA 115.  Puppetry.  3 Units
Term Typically Offered: Fall, Spring

Play production with puppets. Practical work in constructing and manipulating various kinds of puppets. Simple puppets for use at elementary level; hand puppet production. Lecture/lab activity.
THEA 115A. Multicultural Puppetry. 3 Units  
General Education Area/Graduation Requirement: Arts (Area C1), Race & Ethnicity Graduation Requirement (RE)  
Term Typically Offered: Fall, Spring  
Multicultural puppetry was developed to introduce the student to the techniques and construction of puppetry and its use in a multicultural setting. Puppetry has been found to be an excellent tool for the teaching of multiculturalism to children. Emphasizes the methodology in the development of multicultural/multilingual scripts and their use in the implementation of curriculum. The ability to speak a second language is not a prerequisite.

THEA 118. Children's Theatre. 3 Units  
Term Typically Offered: Fall, Spring  
Study of special problems and techniques in the production of formal and improvisational drama for children; a consideration of techniques, methods and materials for use in the classroom to support and supplement curricular goals.

THEA 120A. Practicum in Technical Production. 1 Unit  
Term Typically Offered: Fall, Spring  
Practical experience in handling technical stagecraft problems, stage management, and crew management. Activity and participation in major productions. Four hours per week minimum required in workshop. 
Note: THEA 120A requires students to work on one departmental production a semester for a minimum of 4 hours/week; may be repeated for credit.

THEA 120B. Practicum in Technical Production. 2 Units  
Term Typically Offered: Fall, Spring  
Practical experience in handling technical stagecraft problems, stage management, crew management. Activity and participation in major productions. Eight hours minimum a week required workshop. 
Note: THEA 120B requires student to work on two departmental productions a semester for a minimum of 8 hours/week; may be repeated for credit.

THEA 120C. Practicum in Technical Production. 3 Units  
Term Typically Offered: Fall, Spring  
Practical experience in handling technical stagecraft problems, stage management, and crew management. Activity and participation in major productions. 12 hours minimum a week required work shop. 
Note: THEA 120C requires students to work on three departmental productions a semester for 12 hours/week; may be repeated for credit.

THEA 121. Rehearsal and Performance. 1 Unit  
Term Typically Offered: Fall, Spring  
Participation in the preparation, rehearsal and performance of a departmental production. Approximately 50 hours of participation (including rehearsal and performance time) for one unit of credit. Admission by audition. A total of six undergraduate units may be taken.

THEA 123. Lighting and Set Design. 3 Units  
Prerequisite(s): THEA 16 and THEA 20 or instructor permission.  
Term Typically Offered: Fall, Spring  
Advancement in the methods of developing concepts for and of productions involving analysis of the script, research and spatial awareness in relation to scenic and lighting design.

THEA 131. Costume Design. 3 Units  
Term Typically Offered: Spring only  
Study of costume history, design elements, play and character analysis, rendering and presentation techniques, and production procedures. Practical experience in the basics of costume construction with a focus on character interpretation and collaboration with other theatre artists.

THEA 140. Black Drama in the African Diaspora. 3 Units  
General Education Area/Graduation Requirement: Arts (Area C1)  
Term Typically Offered: Fall, Spring  
Survey of the contributions of theatre artists in the African Diaspora. The reading list includes dramas from Africa, the Caribbean and United States and focuses on how social, cultural, and political climates influence Black Drama.

THEA 144. Women and Theatre: Staging Diversity. 3 Units  
General Education Area/Graduation Requirement: Arts (Area C1), Race & Ethnicity Graduation Requirement (RE)  
Term Typically Offered: Fall, Spring  
Survey and performance course that focuses on identity theories and the contributions of contemporary female theatre artists. Lecture two hours; lab two hours.  
Cross Listed: WOMS 144; only one may be counted for credit.

THEA 155. Contemporary World Cinema. 3 Units  
Term Typically Offered: Fall, Spring  
A historical review of the development of major international film styles and themes. Theoretical and critical concepts derived from this study of international film and then used as the basis to analyze contemporary films of South America, Europe, India, East Asia, Africa and the Middle East. Emphasis is on both the development of formal film techniques and a comparison of the unique cultural values that shape the film narrative style.  
Crosslisted: FILM 155

THEA 170. African American Theatre and Culture. 3 Units  
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.  
General Education Area/Graduation Requirement: Arts (Area C1), Writing Intensive Graduation Requirement (WI)  
Term Typically Offered: Fall, Spring  
Survey of African American theatre and drama as a reflection of African American history and culture from slavery to today. This is a writing-intensive course.

THEA 173. Contemporary Chicano/Latino Theatre: Themes and Performance 1965-Present. 3 Units  
General Education Area/Graduation Requirement: Arts (Area C1)  
Term Typically Offered: Fall, Spring  
Study of contemporary Chicano/Latina theatre and drama from 1965 to the present, and its approaches toward performance. The course focuses on new trends, influences and new developments in playwriting, directing, performance styles, and its impact on the movie industry.
THEA 174. Multicultural Perspectives in American Theatre. 3 Units
General Education Area/Graduation Requirement: Race & Ethnicity
Graduation Requirement (RE), Arts (Area C1)
Term Typically Offered: Fall, Spring

Study of the historical and artistic contributions of Native Americans, Chicano/Latinos, African-Americans and Asian-Americans to American Theatre. Focuses on a range of plays from various ethnic and racial groups, forming a multicultural classroom experience; specifically study groups, from 1965 to the present, and examine the cultural, sociological and political climate in which these plays were created.

THEA 175. Multicultural Perspectives in American Film. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1), Race &
Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring

Study of the historical and artistic contributions of Native American, Chicano/Latino, African-Americans and Asian American to the American cinema. The course will concentrate on a range of films with an emphasis on multicultural theoretical and critical writings and will examine the cultural and socio-political climate in which these films were crafted.

THEA 190. Senior Production. 2 Units
Prerequisite(s): THEA 2, THEA 3, THEA 11, THEA 14, THEA 16, THEA 20,
THEA 100, THEA 120A, THEA 104, THEA 107, THEA 120 (3 units),
THEA 121 and THEA 123 or THEA 131.
Corequisite(s): THEA 120 (3 units) may be taken concurrently if needed
Term Typically Offered: Spring only

This capstone course provides practical experience in theatrical production by focusing on the foundational elements of play production and the collaborative page-to-page production process.

THEA 194. Theatre-Related Work Experience. 3 - 12 Units
Prerequisite(s): Consent of Department chair.
Term Typically Offered: Fall, Spring

Supervised employment in a company or producing agency working on theatre-related work, arranged through the Theatre and Dance Department and the Cooperative Education Program office. Requires preparation of application packet, completion of a 3-6 month full-time or part-time work assignment, and a written report. No more than 3 units will be counted towards the degree.
Note: Open only to upper division or graduate students with appropriate course preparation.

Credit/No Credit

THEA 195. Fieldwork. 2 - 3 Units
Prerequisite(s): Junior or Senior standing and permission of the instructor of record.
Term Typically Offered: Fall, Spring

Internship with local theatre company or arts organization that provides direct, supervised experience with different aspects of performance and/ or theatre management. Requires students to maintain a journal and submit a final paper to faculty internship coordinator. Graded: Credit/ No Credit Units: 2.00 - 3.00
Credit/No Credit

THEA 199. Special Problems in Theatre. 1 - 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Individual project or directed reading.
Note: Departmental petition required.

THEA 500. Culminating Experience. 3 Units
Prerequisite(s): Advanced to candidacy and permission of the graduate coordinator.
Term Typically Offered: Fall, Spring

Completion of a thesis, directing project, or playwriting project.

BA in Dance

Units required for Major: 48
Total units required for BA: 120

Program Description

The California State University, Sacramento Department of Theatre and Dance fosters student-learning to advance critically-thinking, creative and collaborative artists. It provides a broad and thorough foundation of the history, theory, literature and the practice of theatre and dance to students who wish to pursue post graduate studies or join the profession. The Department of Theatre and Dance offers an imaginative and ambitious program of historical and contextual studies supported by studio and production work. Our mission challenges students to be independent thinkers. Our department provides a collaborative, artistic environment that reflects a richly complex and diverse global perspective complemented by national and international faculty and staff experience.

Minimum Grade Requirement

A minimum grade of "C-" is required of courses applied to the major.

Minor in Musical Theatre

Units required for Minor: 18

Program Description
The California State University, Sacramento Department of Theatre and Dance fosters student-learning to advance critically-thinking, creative and collaborative artists. It provides a broad and thorough foundation of the history, theory, literature and the practice of theatre and dance to students who wish to pursue post graduate studies or join the profession. The Department of Theatre and Dance offers an imaginative and ambitious program of historical and contextual studies supported by studio and production work. Our mission challenges students to be independent thinkers. Our department provides a collaborative, artistic environment that reflects a richly complex and diverse global perspective complemented by national and international faculty and staff experience.

Minimum Grade Requirement
A minimum grade of "C-" is required of courses applied to the minor.

World Languages and Literatures

College of Arts and Letters

Program Description
Sacramento State offers courses and/or degrees in the languages listed below. Refer to appropriate section of catalog for course descriptions and requirements.

Chinese - Minor
French - Bachelor of Arts, Minor
German - Minor
Italian - Minor
Japanese - Minor
Spanish - Bachelor of Arts, Minor, Master of Arts

In addition, coursework is available in:

Arabic
Korean
Punjabi

Special Features

- International Programs are offered in China, France, Germany, Italy, Japan, Quebec, Spain and Taiwan.
- Honor Societies exist for the areas of French, German, and Spanish. Language Clubs are organized for Chinese, French, German, Italian, Japanese, and Spanish. Community internships and field experience are offered in Chinese, French, German, Italian, Japanese, and Spanish.

Chinese
College of Arts and Letters

Program Description
Courses in Chinese encompass the study of Chinese language, literature, media, and culture. The primary emphasis is on Modern Standard Mandarin Chinese. Elementary Chinese courses (CHIN 1A through CHIN 1B) focus on reading, writing, and spoken Mandarin, based on Traditional Chinese characters. Upon completion of CHIN 2B, students will be able to converse at an elementary to intermediate level and to read and write Traditional and Simplified Chinese texts. The upper division courses form the nucleus of the minor and provide a foundation for advanced studies at other universities or graduate school. Upper division lecture courses taught in English are designed to help students appreciate the richness of Chinese culture, language, and literature in the tradition of general education.

An understanding of China, combined with proficiency in the Chinese language, will, in addition to the obvious academic and intellectual gains, make graduates more versatile and sought after in international business, education, social work, law enforcement, government, and Foreign Service positions.

Through language instruction, students will acquire the basic tools to communicate with the growing population of Chinese-speaking immigrants in California, to undertake travels in China, Taiwan, Hong Kong, and other Southeast Asian countries where Chinese are a major ethnic group, and to pursue further studies in Chinese history, culture, and society.

Students interested in further advanced study in Chinese may design a Special Major in Chinese by consulting program faculty and spending one year undergoing intensive language study at a Mandarin Training Center in Taiwan, China, or Hong Kong. The Asian Studies Program also offers a major with a concentration in Chinese Studies.

Faculty
SMITH, CURTIS D.

CHIN 1A. Elementary Mandarin. 5 Units
Term Typically Offered: Fall only
Beginning Mandarin with emphasis on listening comprehension, speaking, grammar structure and character writing. The relationship between language and culture will also be emphasized. Includes an introduction to elements of Chinese culture that pertain to language, such as mode of thinking, inter-human relations, and aesthetic expressions.

CHIN 1B. Elementary Mandarin. 5 Units
Prerequisite(s): CHIN 1A or instructor permission.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement, Humanities (Area C2)
Term Typically Offered: Spring only
Continuation of CHIN 1A, with growing emphasis on reading, writing, and listening. Chinese cultural patterns as reflected in the language, such as societal values and views of the world, will continue to be emphasized.
CHIN 2A. Intermediate Mandarin. 4 Units
Prerequisite(s): CHIN 1B or instructor permission.
General Education Area/Graduation Requirement: Foreign Language
Graduation Requirement
Term Typically Offered: Fall only

Intermediate Mandarin on the further development of reading, speaking, and writing skills. Emphasis will be placed on the shift from romanized script to Chinese characters. Introduction will also be made to simple prose reading. Meets the Foreign Language Graduation Proficiency Requirement.

CHIN 2B. Intermediate Mandarin. 4 Units
Prerequisite(s): CHIN 2A or instructor permission.
General Education Area/Graduation Requirement: Foreign Language
Graduation Requirement
Term Typically Offered: Spring only

Continuation of CHIN 2A designed to further the development of reading, speaking, and writing skills at the intermediate to intermediate-high level.

CHIN 110. Advanced Mandarin: Modern Chinese Fiction. 3 Units
Prerequisite(s): CHIN 2B or instructor permission.
Term Typically Offered: Fall, Spring

Taught exclusively in Mandarin as an introduction to Modern Chinese Fiction through a careful study of representative works from both the People's Republic of China and Taiwan.

CHIN 120. Chinese Civilization. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Presentation of formative cultural achievements of China through language and literature with a view to understanding present-day popular Chinese culture. A general survey conducted in English for students who are taking Chinese language courses and others who want a deeper appreciation of this important non-Western culture.

CHIN 130. Introduction to Classical and Literary Chinese. 3 Units
Prerequisite(s): CHIN 2A or equivalent
The classical Chinese language, also known as literary Chinese, is the doorway into the fascinating world of Chinese culture. It has been the primary form of communication for at least three thousand years. Although Classical Chinese uses many of the same characters as modern Mandarin Chinese, the syntax and diction are quite different. In this course, we will study the language through readings in early philosophical, historical, and poetic texts.

CHIN 150. Survey of Chinese Literature. 3 Units
Prerequisite(s): GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.
Term Typically Offered: Spring only

Introduction to Chinese literature from classical times to the present. The various forms of Chinese prose, poetry, and novel will be surveyed through the selective reading of representative works (in English translation). Class is conducted in English.

CHIN 195. Fieldwork-Tutoring. 1 - 3 Units
Prerequisite(s): Advanced level fluency and instructor permission.
Term Typically Offered: Fall, Spring

Tutoring of lower division students in Mandarin or Cantonese. 3 hours of tutoring per week for each unit. May be taken for credit more than once. Credit/No Credit

CHIN 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading. Open only to students who appear competent to carry on independent study. Admission requires the approval of the instructor by whom the work is to be supervised. Credit/No Credit

Minor in Chinese

Total units required for Minor: 12 upper division units in Chinese selected with the approval of the Chinese language advisor

Note: The prerequisite lower division language acquisition will generally be done through coursework, though an equivalency exam is available for those students who feel they may already be at the upper division level.

French

College of Arts and Letters
Program Description
The French program is a cultural resource to Sacramento State and the
Sacramento community in general; it represents the French language,
literature, and civilization of Europe and North America as well as other
areas of the world where French is the common language.

The French program helps prepare its majors and minors for careers
not only in teaching but in many other fields as well, such as business,
journalism, and government service. To that end it offers courses that
enable students to grow intellectually and to live and work successfully in
areas where the French language is spoken.

The program reaches out to both the local and international communities.
Students have the opportunity to study abroad as well as to tutor and
teach in local schools. The French faculty pride themselves on being
accessible to students and taking a keen interest in the students’
individual achievements.

The Bachelor of Arts in French offers an exploration of the vast
contribution that French language and culture have made to the world.
The program gives courses in literature, culture, and language (there are
also courses in translating and interpreting).

Students majoring in business often find a French minor to be an asset
to their careers. Students majoring in other fields may minor in French if
a large part of their professional literature is in French or because they
may work in a location where French is widely spoken; for others a French
minor may meet graduate-degree requirements.

Degree Programs
BA in French (p. 319)
Minor in French (p. 321)
Subject Matter Program (p. 321)

Special Features
• An active French Club offers students the opportunity to participate
  in French-oriented cultural and social events and a chance to meet
  French people on an informal basis.
• Students are encouraged to spend part of their undergraduate
  careers in study abroad. Sacramento State sponsors exchanges with
  various universities in Quebec and a consortium of campuses of the
  University of Paris. The CSU has a Junior Year Abroad program in
  France at Aix-en-Provence. In addition, each year a Sacramento State
  graduate with a major in French is awarded a teaching assistantship
  in France with a salary from the French government. CSU students,
  with any major, may enroll for one year at a Canadian university.
French majors, particularly, will find this program gives them a
unique opportunity to become acquainted with French-Canadian
culture and language. Summer language programs are available in
Canada; students who achieve sufficient proficiency in French may
attend a French-language university (information available from the
Sacramento State Office of International Programs, Library 1001).

Career Possibilities
International Business Personnel · Trade and Commerce · Export/Import · Interpreter/Translator · Banking Representative · Buyer/Sales Representative · Foreign/Diplomatic Service · Airlines Personnel · Travel Industry · Media Personnel/Foreign Correspondent · Public Relations · US Immigration/Customs · US Information Agency · Peace Corps · Language

FREN 1A. Elementary French. 4 Units
Term Typically Offered: Fall, Spring
Focuses on the development of elementary linguistic skills, with
emphasis on the spoken language. The relationship of the language to
French civilization and culture is given special attention.

FREN 1B. Elementary French. 4 Units
Prerequisite(s): FREN 1A and a suitable score on placement exam; or
instructor permission.

General Education Area/Graduation Requirement: Humanities (Area C2),
Foreign Language Graduation Requirement
Term Typically Offered: Fall, Spring
Continuation of FREN 1A, with emphasis on reading, writing, listening
and speaking. French culture and its relationship to language is given
continued attention.
Note: Meets the Foreign Language Graduation Proficiency Requirement.

FREN 2A. Intermediate French. 4 Units
Prerequisite(s): One year of college French, suitable score on placement
exam; or instructor permission.

General Education Area/Graduation Requirement: Foreign Language
Graduation Requirement, Humanities (Area C2)
Term Typically Offered: Fall, Spring
Emphasis on speaking, reading and writing ability. Dialogues, discussions
and compositions in French.
Note: Meets the Foreign Language Graduation Proficiency Requirement.

FREN 2B. Intermediate French. 4 Units
Prerequisite(s): FREN 2A, suitable score on the placement exam; or
instructor permission.

General Education Area/Graduation Requirement: Foreign Language
Graduation Requirement
Term Typically Offered: Fall, Spring
Continuation of FREN 2A.
Note: Meets the Foreign Language Graduation Proficiency Requirement.
FREN 100. Phonetis and Pronunciation. 3 Units
Prerequisite(s): Four semesters of French or equivalent.
Term Typically Offered: Fall, Spring

Review and practice all the main phonetic features of the spoken French language. Complete familiarization with the international phonetic alphabet. Practice in written transcription and oral pronunciation of all vowel and consonant sounds in French. Review and practice characteristics of diction, articulation, intonation, the musical movement of the sentence and rhythm. Orthographic problems and the phenomena of spelling and pronunciation are integrated with all written and oral exercises. Elimination of specific pronunciation problems for English speakers (r/l, mute, e, nasals, final consonants, etc.).

FREN 101. Advanced Grammar. 3 Units
Prerequisite(s): FREN 2B or equivalent.
Term Typically Offered: Fall, Spring

FREN 102. Advanced Conversation. 3 Units
Prerequisite(s): Four semesters of French or equivalent.
Term Typically Offered: Fall, Spring

Mastery of spoken French language through discussion of personal readings to develop vocabulary and syntactical skills. Conducted in French. May be taken for credit twice.

FREN 103. Advanced Composition. 3 Units
Prerequisite(s): FREN 101 or instructor permission.
Term Typically Offered: Fall, Spring

Special attention to help students learn the dynamics of good writing, become sensitive to style and develop ability to express their thoughts coherently, in essentially correct and well structured French prose. Conducted in French.

FREN 104A. French Translation (French-English). 3 Units
Prerequisite(s): Upper division status in French.
Term Typically Offered: Fall, Spring

Development of translating techniques applicable to texts in areas such as literature, sciences, journalism, history, art. Review and comparative study of French and English grammars and styles. Conducted in French.

FREN 104B. French Translation (English-French). 3 Units
Prerequisite(s): FREN 101 and upper division status in French.
Term Typically Offered: Fall, Spring

Development of translating techniques from English to French applicable to texts in such areas as business, culture and/or literature. Continued comparative study of French and English grammars and styles. Conducted in French.

Note: Meets the Foreign Language Graduation Proficiency Requirement.

FREN 107. Business French. 3 Units
Prerequisite(s): Second year college level proficiency or equivalent; or instructor permission.
Term Typically Offered: Fall, Spring

Designed to create awareness of linguistic and crosscultural differences affecting effective communication between American and Francophone speakers in the world of business, and to provide added confidence in transactions and negotiations. Explores how to do business in France, how different business structures work and interact, and how to participate in everyday business activities. Particularly helpful to International Business students to enhance understanding of Francophone and European markets and to develop business oriented French language skills. Prepares student to obtain two different Business French Certificates offered by the Chamber of Commerce and Industries of Paris and the French Ministry of Education. Conducted in French.

FREN 109. French Language Practice. 3 Units
Prerequisite(s): FREN 2B.
Term Typically Offered: Fall, Spring

Practice with French conversation, reading, and vocabulary development; supervised individual and small-group instruction designed to develop French vocabulary, including the conversation, listening and reading skills necessary for advanced study in French. May be taken for credit three times.

FREN 110. Survey of French Literature. 3 Units
Prerequisite(s): FREN 101, FREN 103, FREN 109 or instructor permission.
Term Typically Offered: Fall, Spring

An introduction to French literature through texts of varied length from different time periods and genres with a focus on the use of language. Conducted in French.

FREN 111. Topics in Francophone Literature. 3 Units
Prerequisite(s): FREN 110, or equivalent; or instructor permission.
Term Typically Offered: Fall, Spring

Study of literary texts by Francophone writers with an emphasis placed on textual analysis and the relationship between text and context. Conducted in French.

Note: Meets the Foreign Language Graduation Proficiency Requirement.

FREN 120. French Civilization. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Presentation of formative cultural achievements of the French world from its origins to the present, i.e., the origin of the French language. Contributions to European Renaissance, Baroque and Classicism, the Revolutionary and Romantic eras, and modern western culture.

Note: Open to non-majors. Course taught in English.

FREN 125. Quebec and French North America. 3 Units
Term Typically Offered: Fall, Spring

Development and significance of francophone culture in North America, notably Quebec, French Canada and Louisiana, are explored through historical events, social changes and artistic achievements. Introduces major cultural trends and traditions from the 17th century to the present through non-fiction, literary works and audio-visual presentations in art and music. French majors and minors are required to do all reading, research and papers in French.

Note: Upper division status required.
FREN 130. Culture Wars: From Knighthood to Revolution. 3 Units
Prerequisite(s): GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.
Term Typically Offered: Fall, Spring
Study of the profound influence of culture wars through the interpretation of major French writers, philosophers and scientists ranging from the Middle Ages to the 18th century. All readings and lectures in English.
Note: Open to non-majors.

FREN 170. Seminar Conducted in French. 3 Units
Prerequisite(s): FREN 110.
Term Typically Offered: Fall, Spring
Seminar in French will be offered as needed.

FREN 194. Field Experience/Internship. 1 - 3 Units
Prerequisite(s): Intermediate competency in French and instructor permission.
Term Typically Offered: Fall, Spring
Directed fieldwork in a project which uses language skills developed through previous study of French. Projects may include interpreting and translating for public and/or private agencies in Sacramento or other projects approved by the faculty supervisor. All work will be monitored by Sacramento State faculty. The student must submit written reports to his/her supervisor. May be taken more than once for credit. Does not apply to major.
Credit/No Credit

FREN 195. Fieldwork - Tutoring. 1 - 3 Units
Prerequisite(s): Native or near-native fluency in French, upper division status; or instructor permission.
Term Typically Offered: Fall, Spring
Tutoring of lower division French students under supervision of an instructor. Three hours of tutoring per week for each unit. Does not apply to major.
Credit/No Credit

FREN 196. Experimental Offerings in French. 3 Units
Term Typically Offered: Fall, Spring
Special courses will be scheduled as needed.

FREN 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading.
Note: Departmental petition required.
Credit/No Credit

FREN 210. Studies in French Literature. 3 Units
Term Typically Offered: Fall, Spring
Studies of authors, periods, movements, genres, criticism or literary history.
Note: May be repeated for credit if subject matter is not repeated.

FREN 220. Studies in French Civilization. 3 Units
Term Typically Offered: Fall, Spring
Studies in French language and linguistics problems, e.g., history of the language, semiotics, stylistics, translating, interpreting and oral expression.
Note: May be repeated for credit three times if subject matter is not repeated.

FREN 230. Studies in the French Language. 3 Units
Term Typically Offered: Fall, Spring
Studies in French language and linguistics problems, e.g., history of the language, semiotics, stylistics, translating, interpreting and oral expression.
Note: May be repeated for credit if subject matter is not repeated.

FREN 299. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading.
Note: Departmental petition required.
Credit/No Credit

FREN 500. Culminating Experience. 1 - 4 Units
Prerequisite(s): Advanced to candidacy and permission of the graduate advisor.
Term Typically Offered: Fall, Spring
Completion of a thesis, project or comprehensive examination.

BA in French

Units required for Major: 36
Total units required for BA: 120

Program Description

The French program is a cultural resource to Sacramento State and the Sacramento community in general; it represents the French language, literature, and civilization of Europe and North America as well as other areas of the world where French is the common language.

The French program helps prepare its majors and minors for careers not only in teaching but in many other fields as well, such as business, journalism, and government service. To that end it offers courses that enable students to grow intellectually and to live and work successfully in areas where the French language is spoken.

The program reaches out to both the local and international communities. Students have the opportunity to study abroad as well as to tutor and teach in local schools. The French faculty pride themselves on being accessible to students and taking a keen interest in the students’ individual achievements.

The Bachelor of Arts in French offers an exploration of the vast contribution that French language and culture have made to the world. The program gives courses in literature, culture, and language (there are also courses in translating and interpreting).

Note: A GPA of 2.75 is required in courses applied to the major.
Additional Information

- **Credit by Exam:** A maximum of 16 units in foreign language studies may be challenged, only 12 of which may be in French.
- **Junior Year in France:** Student planning to apply for admission to the overseas program should consult the department for information.
- **Foreign Language for Advanced Degree Requirements:** Many graduate degree programs require competence in one or more foreign languages, and French is often recommended or required. Students planning advanced degree study in areas having foreign language requirements should give careful consideration to completing two or more years of a foreign language as part of their baccalaureate degree.

Minor in French

Units required for Minor: 12 units all upper division courses taught in French

Program Description

The French program is a cultural resource to Sacramento State and the Sacramento community in general; it represents the French language, literature, and civilization of Europe and North America as well as other areas of the world where French is the common language.

TheFrench program helps prepare its majors and minors for careers not only in teaching but in many other fields as well, such as business, journalism, and government service. To that end it offers courses that enable students to grow intellectually and to live and work successfully in areas where the French language is spoken.

The program reaches out to both the local and international communities. Students have the opportunity to study abroad as well as to tutor and teach in local schools. The French faculty pride themselves on being accessible to students and taking a keen interest in the students’ individual achievements.

Students majoring in business often find a French minor to be an asset to their careers. Students majoring in other fields may minor in French if a large part of their professional literature is in French or because they may work in a location where French is widely spoken; for others a French minor may meet graduate-degree requirements.

Additional Information

- Credit by Exam: A maximum of 16 units in foreign language studies may be challenged, only 12 of which may be in French.
- Junior Year in France: Student planning to apply for admission to the overseas program should consult the department for information.
- Foreign Language for Advanced Degree Requirements: Many graduate degree programs require competence in one or more foreign languages, and French is often recommended or required. Students planning advanced degree study in areas having foreign language requirements should give careful consideration to completing two or more years of a foreign language as part of their baccalaureate degree.

Program Requirements

Units required for Minor: 12 units all upper division courses taught in French

Note: Students are required to meet with a Minor Advisor for course selection.

Subject Matter Program

Program Description

The French program is a cultural resource to Sacramento State and the Sacramento community in general; it represents the French language, literature, and civilization of Europe and North America as well as other areas of the world where French is the common language.

The French program helps prepare its majors and minors for careers not only in teaching but in many other fields as well, such as business, journalism, and government service. To that end it offers courses that enable students to grow intellectually and to live and work successfully in areas where the French language is spoken.

The program reaches out to both the local and international communities. Students have the opportunity to study abroad as well as to tutor and teach in local schools. The French faculty pride themselves on being accessible to students and taking a keen interest in the students’ individual achievements.

Additional Information

- Credit by Exam: A maximum of 16 units in foreign language studies may be challenged, only 12 of which may be in French.
- Junior Year in France: Student planning to apply for admission to the overseas program should consult the department for information.
- Foreign Language for Advanced Degree Requirements: Many graduate degree programs require competence in one or more foreign languages, and French is often recommended or required. Students planning advanced degree study in areas having foreign language requirements should give careful consideration to completing two or more years of a foreign language as part of their baccalaureate degree.

Program Requirements

The requirements for a teaching credential in French are the same as those for the major. Candidates must contact the French Credential Program Coordinator, in the Department of Foreign Languages, to have their transcripts reviewed, to schedule an oral interview in French and to assess their subject matter competency. The Foreign Language Proficiency Examination in French may also be required.

Teaching credential candidates must also complete the Professional Education Program in addition to other requirements for a teaching credential. You may obtain information about the Professional Education Program from the Teacher Preparation Program Office, Eureka Hall 216, (916) 278-6403.

A minor in another subject which can lead to a Supplementary Teaching Credential is strongly recommended.

German

College of Arts and Letters
Program Description
Courses in German encompass the study of German language, literature, and culture. Language study begins with the imparting of the four basic language skills, namely, speaking, aural comprehension, reading, and writing. The teaching of these skills is provided as part of programs in liberal arts, in general education and in professional training, as well as a service for other degree programs.

The imparting of the basic language skills is the first and necessary step toward what is actually the liberal arts core of our curriculum: the upper division offerings. It is through the advanced language, literature, and culture courses that the students become familiar with the intricacies of another language and with the literary and cultural contributions made by the people who speak it.

Students who are considering the study of German should talk to a German faculty advisor. Each student minoring in German is assigned an advisor upon entry into the program. For assistance in obtaining an advisor, contact the Foreign Language Department office.

Teaching credential candidates must complete the Professional Education Program in addition to other requirements for a teaching credential. Consult a Department credential advisor for details. They may also obtain information about the Professional Education Program from the Teacher Preparation Program Office, Eureka Hall 216, (916) 278-6403.

Degree Programs
Minor in German (p. 323)
Subject Matter Program (p. 324)

Special Features
• Close cooperation between members of the German faculty and the Sacramento German community has provided students with an opportunity to improve their language abilities and to become familiar with German customs and traditions.
• In addition, the German Club on campus allows students to socialize with others of similar interests.
• The Sacramento State chapter of Delta Phi Alpha, the national German honor society, gives recognition and awards to outstanding students and scholars.
• The German program is supported by modern language laboratory facilities, a departmental library, and a collection of instructional materials.
• Students receive tutorial help from graduate exchange students and other graduate students.
• In order to acquire maximum proficiency in the use of the German language, students are encouraged to participate in the Sacramento State International Programs in Heidelberg or Tübingen, the student exchange program established with the Department of American Studies at the Johannes-Gutenberg Universität of Mainz, Germany, or the German-Education Student Exchange Program at the Marburgische Hochschule of Flensburg, Germany, or the summer work abroad with the International Education Program.

Career Possibilities
International Business Personnel · Trade and Commerce · Export/Import · Interpreter/Translator · Banking Representative · Buyer/Sales Representative · Foreign/Diplomatic Service · Airlines Personnel · Travel Industry · Media Personnel/Foreign Correspondent · Public Relations · U.S. Immigration/Customs · U.S. Information Agency · Peace Corps · Language Teacher · Bilingual/Foreign Secretary · Foreign Publications/Textbook Editor · Research Assistant

</table>
GERM 100. Advanced German Grammar. 3 Units
Term Typically Offered: Fall, Spring
Study of grammar and style and their practical application in writing and speaking.

GERM 105. Advanced German Language Practice. 3 Units
Term Typically Offered: Spring only
Supervised individual and small-group practice for upper-division students desiring to improve their German language skills, especially conversation, listening and vocabulary. Some written work may be assigned. May be taken for credit three times, but may count only once for major or minor credit.

GERM 140. Heroes, Dragons and Quests. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only
Exploration of the heroic adventures of the medieval knights in their quests for fame and love, with special attention to the bridal quest and the roles of their "ladies": their social, political, and economic position, and their impact on life in the Middle Ages. Discussions will be based on the reading of selected Middle High German works in English translation.
Note: No German language requirement.

GERM 141. German Mythology and Legend. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only
Exploration of Germanic myth and legend and their impact on art and literature. Readings in English.
Note: No German language requirement.

GERM 142. German Folk Literature, Legend, and Lore. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only
Study of the traditional folk literature; fairy tales, folk tales, legends, ballads and folk songs; of the German-speaking people, their holiday traditions, festivals and social customs. Readings in English.
Note: No German language requirement.

GERM 143. King Arthur and the Knights of the Round Table in Germany. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only
Study of King Arthur and the knights of the Round Table in the German medieval romances read in English translation.
Note: No German language requirement. Course will be offered every two years.

GERM 150. German Civilization: Beginning to 16th Century. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only
Historical, social, and artistic forces in German civilization from the time of the Great Migrations to the Reformation. All readings and lectures in English.

GERM 151. German Civilization: 17th Century to Present. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only
Historical, social, and artistic forces in German civilization from the Reformation through the 20th century. All readings and lectures in English.

GERM 194. Field Experience/Internship. 1 - 3 Units
Prerequisite(s): Intermediate competency in German and instructor permission.
Term Typically Offered: Fall, Spring
Directed fieldwork in a project which uses the language skills developed through previous study of German. The projects may include interpreting and translating for public and/or private agencies in Sacramento or other projects approved by the faculty supervisor. All work will be monitored by Sacramento State faculty. The student must submit written reports to his/her supervisor. May be taken more than once for credit.
Credit/No Credit

GERM 195. Fieldwork: Tutoring. 1 - 3 Units
Prerequisite(s): Native/near-native fluency in German; upper division status; instructor permission.
Term Typically Offered: Fall, Spring
Tutoring of lower division students of German under supervision of instructor. May be taken for credit more than once.
Credit/No Credit

GERM 199. Special Problems. 1 - 3 Units
Prerequisite(s): Approval of instructor supervising the work.
Term Typically Offered: Fall, Spring
Individual projects or directed reading.
Note: Open only to students who appear competent to carry on independent study.
Credit/No Credit

Minor in German
Units required for Minor: 12 upper division units.

Program Description
Courses in German encompass the study of German language, literature, and culture. Language study begins with the imparting of the four basic language skills, namely, speaking, aural comprehension, reading, and writing. The teaching of these skills is provided as part of programs in liberal arts, in general education and in professional training, as well as a service for other degree programs.

The imparting of the basic language skills is the first and necessary step toward what is actually the liberal arts core of our curriculum: the upper division offerings. It is through the advanced language, literature, and culture courses that the students become familiar with the intricacies of another language and with the literary and cultural contributions made by the people who speak it.

Students who are considering the study of German should talk to a German faculty advisor. Each student minoring in German is assigned an advisor upon entry into the program. For assistance in obtaining an advisor, contact the Foreign Language Department office.
Program Requirements
Units required for Minor: 12 upper division units.

Note: Students are required to meet with an advisor for course selection.

German Studies Options
No new majors are being accepted into the German BA at this time. Please consult a German Faculty Advisor for information regarding meeting subject matter certification requirements in preparation for a teaching credential and/or a special major in German with one year of study in Germany.

Additional Information
- Residence Requirement: Transfer students and students participating in International Programs must complete at least 6 upper-division units in German at Sacramento State.
- Study in Germany: Students are urged to participate in a study-abroad program through California State University International Programs.
- Credit by Examination: A maximum of 16 units in Foreign Language studies may be earned through examination, of which only 8 units may be in German.

Italian
College of Arts and Letters
Program Description
The Italian program offers its students a strong foundation in Italian language, literature, cinema, and civilization. Students who concentrate on Italian studies may teach in secondary schools, be admitted to graduate school, work in translating and interpreting firms, or work at the national or international level for Italian firms or American firms dealing with Italy. Statistics show that Sacramento State graduates are in graduate programs, are teaching Italian, or are working in international programs, using their preparation from the Sacramento State Italian program.

Minor in Italian (p. 326)

Special Features
- Students may enroll for a junior year abroad with the CSU International Program in Florence, for which they may receive units toward graduation.
- By enrolling in fieldwork courses, students can tutor or teach in local parochial schools.
- Students interested in further advanced study in Italian language and culture may design a Special Major in Italian by consulting program faculty and spending one year undergoing intensive language study in Italy. Policies relating to the special major are discussed in this catalog.

Faculty
CARLE, BARBARA
ITAL 1A. Elementary Italian. 4 Units
Term Typically Offered: Fall only

Focuses on the development of the four basic skills (understanding, speaking, reading, writing) through the presentation of many cultural components (two per week) which illustrate the Italian "modus vivendi:" social issues, family, food, sports, etc.
ITAL 1B. Elementary Italian. 4 Units
Prerequisite(s): ITAL 1A or instructor permission.
General Education Area/Graduation Requirement: Humanities (Area C2), Foreign Language Graduation Requirement
Term Typically Offered: Fall, Spring
Continuation of ITAL 1A with greater emphasis on reading, writing. Addition of one reader which contains more cultural material (geography, political issues, government, fashion, etc.).

ITAL 2A. Intermediate Italian. 4 Units
Prerequisite(s): One year college Italian or suitable score on placement exam.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement
Term Typically Offered: Fall only
Intermediate course in the Italian language with emphasis on speaking, reading and writing ability; review of grammar; discussions and compositions in Italian. Meets the Foreign Language Graduation Proficiency Requirement.

ITAL 2B. Intermediate Italian. 4 Units
Prerequisite(s): ITAL 2A or suitable score on placement exam.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement
Term Typically Offered: Fall, Spring
Continuation of ITAL 2A. Meets the Foreign Language Graduation Proficiency Requirement.

ITAL 102. Italian Advanced Conversation. 3 Units
Prerequisite(s): ITAL 2B or instructor permission.
Term Typically Offered: Fall, Spring
Designed to develop oral fluency through free discussion on prepared topics, and supervised practice to develop audio-lingual skills at the advanced level. Course conducted in Italian. May be taken for credit twice.

ITAL 103. Advanced Grammar and Composition. 3 Units
Prerequisite(s): ITAL 2B or equivalent.
Term Typically Offered: Fall, Spring
Study of grammar and style and their application in oral and written exercises, in translations and in compositions.

ITAL 104A. Introduction to Italian Cinema I. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring
Italian Cinema from the 1940's to its Golden Period in the 1960's through the 1970's. Films will be viewed in their cultural, aesthetic and/or historical context. Readings and guiding questionnaires will help students develop appropriate viewing skills. Films will be shown in Italian with English subtitles.

ITAL 104B. Introduction to Italian Cinema II. 3 Units
Term Typically Offered: Fall, Spring
Focuses on Italian Cinema from the 1980's and the 1990's. The "New Generation" of Italian Directors will be considered (Nanni Moretti, Gabriele Salvatores, Maurizio Nichetti, Giuseppe Tornatore, Roberto Benigni, Liliani Cavi, Fiorenza Infascelli, Francesca Archibugi, etc.) as well as current productions. Films will be shown in Italian with English subtitles.

ITAL 110. Introduction to Italian Literature I. 3 Units
Prerequisite(s): Upper division status and instructor permission.
Term Typically Offered: Fall only
Beginning and major developments of the literature of Italy from the Middle Ages through the Baroque period of the 17th Century. Analyzes the literary movements with emphasis on their leading figures, discussion of literary subjects, instruction in the preparation of reports on literary, biographical and cultural topics. Taught in Italian.

ITAL 111. Introduction to Italian Literature II. 3 Units
Prerequisite(s): Upper division standing and instructor permission.
Term Typically Offered: Fall, Spring
Major developments in the literature of Italy from the Enlightenment movement of the 18th Century through the 20th Century. Analysis of the literary movements with emphasis on their leading figures, discussion of literary subjects, instruction in the preparation of reports on literary, biographical, and cultural topics. Taught in Italian.

ITAL 130. Italian Civilization: The Dialogue Form It's Origins and European Context. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
Focus on Italian civilization in a Mediterranean context. Allows students to develop a critical understanding of the dialogue in the context of Italian and Western Civilization, from its origins in Ancient Egypt and Greece, to its flowering in the Renaissance and its return during the Enlightenment, to its endurance in modern times. Issues emphasized are philosophical and literary movements in their historical contexts. Socratic dialogue and other related genres, the dialogue as a typical Renaissance form with a variety of perspectives (feminine, poetic, satirical, etc.) the Enlightenment thinkers in Italy and France and their modern heritage are studied. Taught in English.

ITAL 131. The Italian Renaissance and Its Influence on Western Civilization. 3 Units
Term Typically Offered: Fall, Spring
Taught in English, explores the phenomenon of the Italian Renaissance in its literary, artistic, religious, social, historical, scientific, and economic aspects through the analysis of the period's major works, and through films, slides, lectures and discussions. The issues to be emphasized are the uniqueness of the Italian contribution to new ideas and values, and their influence on Western Civilization. The students will learn to recognize the sources and the effects of the Italian Renaissance within the integrated context of Western culture and various fields of knowledge.

ITAL 194. Field Experience/Internship. 1 - 3 Units
Prerequisite(s): Intermediate competency in Italian and instructor permission.
Term Typically Offered: Fall, Spring
Directed fieldwork in a project which uses the language skills developed through previous study of Italian. The projects may include interpreting and translating for public and/or private agencies in Sacramento or other projects approved by the faculty supervisor. All work will be monitored by Sacramento State faculty. The student must submit written reports to his/her supervisor. Can be taken more than once for credit. Credit/No Credit
ITAL 195. Fieldwork - Tutoring. 1 - 3 Units
Prerequisite(s): Student with native or near-native fluency in Italian and upper division status; or instructor permission.
Term Typically Offered: Fall, Spring

Tutoring of lower division Italian students, under the supervision of an instructor. Three hours of tutoring per week for each unit.
Note: May be repeated until a maximum of 6 units is reached.

Credit/No Credit

ITAL 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading.
Note: Departmental petition required.
Credit/No Credit

Minor in Italian

Total units required for Minor: 12

Program Description
The Italian program offers its students a strong foundation in Italian language, literature, cinema, and civilization. Students who concentrate on Italian studies may teach in secondary schools, be admitted to graduate school, work in translating and interpreting firms, or work at the national or international level for Italian firms or American firms dealing with Italy. Statistics show that Sacramento State graduates are in graduate programs, are teaching Italian, or are working in international programs, using their preparation from the Sacramento State Italian program.

Additional Information
• Placement in Italian Courses: Students should consult an advisor in Italian regarding the level at which to begin college Italian, as well as the choice and sequence of courses to take. Students who studied Italian in high school must take a placement test. Arrangement for the placement test should be made with an advisor in Italian.
• Transfers: Students from other colleges must have their pattern of courses assessed by a Department advisor and complete at least one upper division Italian course in residence before the Department can approve a program.
• Credit by Exam: A maximum of 16 units in foreign language studies may be challenged, only 12 of which may be in Italian.
• Junior Year in Italy: Students planning to apply for admission to the overseas program should consult the Italian advisor and the Sacramento State Office of Global Education, Lassen Hall 2304, (916) 278-6686, for information.

Japanese

College of Arts and Letters

Program Description
A working knowledge of Japanese is increasingly becoming an important tool in the world of international business and foreign affairs; hence Sacramento State offers a minor program in the Japanese language. Coursework in Japanese may be applied toward other specially designed minors and majors such as Asian Studies, Anthropology, Humanities and Religious Studies, International Business, and International Affairs.

Degree Program
Minor in Japanese (p. 328)

Faculty
MASUYAMA, KAZUE
VASSIL, KRISTINA

JAPN 1A. Elementary Japanese. 5 Units
Term Typically Offered: Fall only

Develops elementary spoken Japanese, reading and writing in Kana and Kanji, and the practical skills required to effectively use the modern language. Emphasis on the culture, customs, and traditions of Japan.
JAPN 1B. Elementary Japanese. 5 Units
Prerequisite(s): JAPN 1A or instructor permission.
General Education Area/Graduation Requirement: Humanities (Area C2), Foreign Language Graduation Requirement
Term Typically Offered: Spring only

Continuation of JAPN 1A, with emphasis on speaking, vocabulary, reading, grammar, speech patterns, and cultural knowledge. The Kana and Kanji writing systems, geography, and aspects of Japanese customs and manners are included.

JAPN 1C. Accelerated Elementary Japanese. 8 Units
This is an intensive introductory Japanese language course equivalent to one year of first-year Japanese (JAPN 1A and JAPN 1B) concentrated in one semester. Class meets four times a week for two hours a period and progresses at an accelerated pace. The course provides a solid foundation in the four language skills—listening, speaking, reading, and writing. In addition, students will acquire cultural knowledge necessary for appropriate communication and smooth functioning in Japanese society. Students enrolling in JAPN 1C must be able to read and write hiragana and katakana, the two basic phonetic syllabaries.

JAPN 2A. Intermediate Japanese. 4 Units
Prerequisite(s): JAPN 1A, JAPN 1B; or equivalent.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement
Term Typically Offered: Fall only

Emphasis on speaking, reading, and grammatical skills through dialogues, discussions, and reading. Meets the Foreign Language Graduation Proficiency Requirement.

JAPN 2B. Intermediate Japanese. 4 Units
Prerequisite(s): JAPN 2A or equivalent.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement
Term Typically Offered: Spring only

Continuation of JAPN 2A. Further development of speaking, reading, grammar, and composition skills. Meets the Foreign Language Graduation Proficiency Requirement.

JAPN 110. Introduction to Japanese Literature. 3 Units
Prerequisite(s): JAPN 2B or instructor permission.
Term Typically Offered: Spring only

Introduction to Japanese literature from the 10th century to the present. The various forms of Japanese classic and contemporary literature will be surveyed through the selective reading of representative works. Class will be conducted in both Japanese and English.

JAPN 116A. Third Year Japanese 1 - Language and Culture of Japan. 4 Units
Prerequisite(s): JAPN 2B or equivalent.
Term Typically Offered: Fall only

This course is the first in a two-semester series in advanced (third-year) Japanese. It is designed to expose students to the practical use of advanced structures and to further develop the four language skills—listening, speaking, reading and writing. Students will also acquire cultural knowledge necessary for appropriate communication at the advanced level. Taught in Japanese. This course counts towards the Japanese Minor.

JAPN 116B. Language and Culture of the Japanese and the Japanese in America. 3 Units
Prerequisite(s): JAPN 116A or instructor permission.
Term Typically Offered: Spring only

Continuation of JAPN 116A in more advanced modern Japanese.

JAPN 120. Japanese Civilization. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only

A broad survey of Japanese civilization from ancient to contemporary times, focusing on the overarching themes of continuity and change. Exploration includes Japanese geography, traditional aesthetics, warrior ethos, rapid modernization, postwar culture, popular culture, among others. Materials drawn predominantly from the fields of literature, film, and history.

JAPN 128. Introduction to Japanese Popular Culture. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

A survey of major forms of Japanese popular culture from the postwar period to the present with a focus on genre and narrative. Genres include anime, shoujo manga, Jpop, popular fiction, and fashion. Among topics to be discussed are common themes, narrative form, global appeal, and fandom. Emphasis on close reading and analysis of the texts/films. No knowledge of Japanese language or culture is required.

JAPN 150. Advanced Japanese Grammar, Conversation. 3 Units
Prerequisite(s): JAPN 2B or instructor permission.
Term Typically Offered: Fall only

Review of general principles of Japanese grammar and study of advanced grammar and their application in oral and written exercises and projects such as speech, presentations, and translations.

JAPN 194. Field Experience/Internship. 1 - 3 Units
Prerequisite(s): Intermediate competency in Japanese and instructor permission.
Term Typically Offered: Fall, Spring

Directed fieldwork in a project which uses the language skills developed through previous study of Japanese. The projects may include interpreting and translating for public and/or private agencies in Sacramento or other projects approved by the faculty supervisor. All work will be monitored by Sacramento State faculty. The student must submit written reports to his/her supervisor. Can be taken more than once for credit.
Credit/No Credit

JAPN 195. Fieldwork -- Tutoring. 1 - 3 Units
Prerequisite(s): Advanced students who have native or near native fluency or upper division status, or instructor permission.
Term Typically Offered: Fall, Spring

Tutoring of lower division Japanese students, under the supervision of an instructor. 3 hours of tutoring per week for each unit.
Credit/No Credit

Spanish

College of Arts and Letters

Program Description

A working knowledge of Spanish will enable students to communicate with one of America’s rapidly growing minority groups, as well as to benefit extensively from travel to foreign countries. Most coursework lends itself to a practical acquisition of the necessary language skills for effective communication.

Coursework at the upper division and graduate level is equally distributed among four areas: linguistics, culture, Peninsular literature, and Hispanic American literature. Students with career plans in teaching, bilingual programs, translation and diplomatic services, as well as careers in public service requiring knowledge of Spanish, will find a balanced curriculum available at Sacramento State. The programs in Spanish also serve those students who plan on continuing their studies at the doctorate level by providing a thorough academic background in the language.

Students interested in Bilingual/Crosscultural programs should also contact the College of Education (916) 278-6840 for more details.

Many students find that the acquisition of skills in Spanish is a valuable adjunct to their career goals in other areas such as business administration, public administration, international relations, etc.

Field trip(s): Field trip(s) may be required.
SPAN 100. Introduction to the Study of Hispanic Literature. 3 Units
Prerequisite(s): SPAN 47.
Term Typically Offered: Fall, Spring
Introduction to literary theory and a practical application of the techniques of literary criticism.

SPAN 101. Introduction to Contemporary Drama. 3 Units
Prerequisite(s): SPAN 100.
Term Typically Offered: Fall, Spring
Study of the specific components of Hispanic drama, including the societal and political contexts, as well as the effectiveness of translation and interpretation.

SPAN 102. Spanish Phonetics. 3 Units
Prerequisite(s): SPAN 47 or equivalent.
Term Typically Offered: Fall, Spring
Study of the sound system of Spanish with some attention to comparison with English and the physiology of sounds. Drills to develop good pronunciation.

SPAN 103. Advanced Spanish Grammar. 3 Units
Prerequisite(s): SPAN 47 or equivalent or a "5" on the Spanish Language AP exam.
Term Typically Offered: Fall, Spring
Study of the specific components of Spanish grammar with particular emphasis on the Spanish verbal system, the subjunctive, and other problematic aspects of grammar. Will be of particular interest to those planning to teach Spanish as well as to the Spanish-speaking students.

SPAN 106. Advanced Spanish Composition. 3 Units
Prerequisite(s): SPAN 103 and completion of all lower division requirements.
Term Typically Offered: Fall, Spring
Increased practice in writing with emphasis on sentence and paragraph structure, and compositions to effectively convey meaning and ideas. Attention will be given to narrative, descriptive, expository prose, and dialogue, as well as to letters and other forms of written communication.

SPAN 110. Survey of Spanish Literature to 1800. 3 Units
Prerequisite(s): SPAN 100.
Term Typically Offered: Fall only
Advanced readings, lectures, and discussions dealing with a panoramic view of Spanish literature from early works through the Golden Age and up to the 1800s.

SPAN 111. Survey of Spanish Literature from 1800 to the Present. 3 Units
Prerequisite(s): SPAN 100.
Term Typically Offered: Spring only
Continuation of SPAN 110; deals with literature from the Neoclassic period to the contemporary. Readings taken from works and genres of this period.

SPAN 112. Latin American Literature, Beginnings to Modernism. 3 Units
Prerequisite(s): SPAN 100.
Term Typically Offered: Fall only
Study of the major writers and trends in Latin American literature from beginnings until Modernism.

SPAN 113. Latin American Literature, Modernism to Present. 3 Units
Prerequisite(s): SPAN 100.
Term Typically Offered: Spring only
Study of the major writers and trends in Latin American literature from Modernism to the present.

SPAN 114. Latin American Literature, Modernism to Present. 3 Units
Prerequisite(s): SPAN 100.
Term Typically Offered: Spring only
Study of the major writers and trends in Latin American literature from Modernism to the present.

SPAN 115. Magical Realism. 3 Units
Prerequisite(s): SPAN 100.
Term Typically Offered: Spring only
Magic and the wonderful infra-mythical world of major contemporary Latin America writers are explored in this in-depth study of Magical Realism. Short stories and novels are examined as they create a marvelous "other world" or reality. Authors studied include Gortazar, Carpentier, Bombal, Borges, Rulfo, Garcia Marquez, Fuentes, Sainz, Esquivel, and others.

SPAN 121. Spanish For Professionals. 3 Units
Prerequisite(s): SPAN 2A or equivalent.
Term Typically Offered: Fall, Spring
Designed to teach present and future public servants the necessary vocabulary and structures for effective communication in interviews, visits, etc. Some attention to local dialect differences.

SPAN 123. Topics in Spanish Literature. 3 Units
Prerequisite(s): SPAN 100
Term Typically Offered: Fall only
Topics in literature from Spain offered as needed. Typical topics are: Spanish novel through the Golden Age; 19th and 20th century Spanish novel; Spanish drama from the Middle Ages to the Golden Age; Spanish Contemporary drama.
Note: May be repeated for credit provided topic is different.

SPAN 125. Introduction to Spanish-English Translation and Interpreting. 3 Units
Prerequisite(s): Spanish 47 or Instructor Consent
Term Typically Offered: Fall only
Teaches foundational technical and critical skills that bilingual Spanish-English speakers need to embark on the path to successful written translation and spoken interpreting in fields such as healthcare, law, education, business, and community service. Students engage theoretical readings, authentic case studies, and hands-on practice. By the end of the semester, students develop critical observation skills and build confidence to explore specialization in translation and/or interpreting.

SPAN 129. Spanish Civil War. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
In-depth examination of the Spanish Civil War (1936-1939) focusing on its social, political, and cultural contexts. The course also examines the war’s historical origins, immediate aftermath and implications for understanding modern Spain. Cross listed: HIST 136.
SPAN 130. Contemporary Mexican Literature. 3 Units
Prerequisite(s): SPAN 100.
Term Typically Offered: Spring only
Inquiry into the significance of the individual in contemporary Mexican culture and his greater relationship to the cosmos as seen through his literature. May be of particular interest to the Mexican American.

SPAN 134. The Short Story in Latin America. 3 Units
Prerequisite(s): SPAN 100.
Term Typically Offered: Spring only
Development of the short story in Latin America with some introductory study of the North American short story by way of comparison. Selected readings from different countries where the short story has had an important development. Emphasis on the contemporary short story.

SPAN 142. Advanced Spanish Conversation. 3 Units
Prerequisite(s): SPAN 47.
Term Typically Offered: Fall, Spring
Increases language fluency and acquisition of new vocabulary through intensive conversational practice, based on topics of contemporary interest.

SPAN 151. Civilization and Culture of Hispanic America. 3 Units
Prerequisite(s): SPAN 47
Term Typically Offered: Fall, Spring
Readings, visuals, and discussion of the history, geography, anthropology, sociology, politics, economics, folklore, and artistic expression of the nations of Hispanic America.

SPAN 152. Civilization and Culture of Spain. 3 Units
Prerequisite(s): SPAN 47
Term Typically Offered: Fall, Spring
Reading and discussion of the history, geography, anthropology, sociology, political science, economics, folklore, music, art, and the dance as these areas relate to Modern Spain.

SPAN 153. Civilization and Culture of Mexico. 3 Units
Prerequisite(s): SPAN 47
Term Typically Offered: Fall, Spring
Reading and discussion of the history, geography, anthropology, sociology, political science, economics, folklore, music, art, and the dance of Mexico.

SPAN 159. Cultures of Latin America for the Professions. 3 Units
Prerequisite(s): SPAN 6A, 6B, and SPAN 121 or instructor approval.
Term Typically Offered: Spring only
Readings, visuals, and discussion of Latino/Hispanic culture and cross-cultural practices variation within Latin America as related to healthcare and other professions such as Criminal Justice, Social Work, Sociology, and Psychology.
Note: Students will need to pay a fee to cover for the cost of the Spanish Proficiency Exam, which will be used for Assessment Purposes.

SPAN 194. Field Experience/Internship. 1 - 3 Units
Prerequisite(s): Intermediate competency in Spanish and instructor permission.
Term Typically Offered: Fall, Spring
Directed fieldwork in a project which uses the language skills developed through previous study of Spanish. The projects may include interpreting and translating for public and/or private agencies in Sacramento, teaching or tutoring in the community, or other projects approved by the faculty supervisor. All work will be monitored by Sacramento State faculty. The student must submit written reports to his/her supervisor. Can be taken more than once for credit.
Credit/No Credit

SPAN 195. Fieldwork -- Tutoring. 1 - 3 Units
Prerequisite(s): Advanced students with native or near-native fluency, upper division status ("U" exam), or instructor permission.
Term Typically Offered: Fall, Spring
Tutoring of lower division Spanish students, under the supervision of an instructor.
Credit/No Credit

SPAN 199. Special Problems. 1 - 3 Units
Prerequisite(s): Permission of instructor supervising work, the advisor, and the Department Chair.
Term Typically Offered: Fall, Spring
Individual projects or directed reading.
Note: Open only to students who appear competent to carry on individual work, and enrollment will be limited to hardship cases.
Credit/No Credit

SPAN 201A. General Spanish Linguistics. 3 Units
Prerequisite(s): SPAN 102 and SPAN 103; or equivalent.
Term Typically Offered: Fall, Spring
Depending upon the interest of the group, one topic of Spanish Linguistics will be chosen. The emphasis may be Comparative, Popular Spanish divergencies, or psycho- or socio-linguistics, especially the development of Mexican-American Spanish and the learning problems of bilinguals.

SPAN 201B. History of the Spanish Language. 3 Units
Prerequisite(s): SPAN 102 and SPAN 103; or equivalent.
Term Typically Offered: Fall, Spring
Historical evolution of the Spanish language from Vulgar Latin to the present day with special emphasis on the phonetic and morphological changes involved in this evolution. Some attention will be devoted to Old Spanish readings as well as the differences between Old and Modern Spanish. Knowledge of Latin is helpful, but not required.

SPAN 201C. Contrastive Grammatical Structures of Spanish and English. 3 Units
Prerequisite(s): SPAN 102 and SPAN 103; or equivalent.
Term Typically Offered: Fall, Spring
Analyzes the major differences between the grammatical system of Spanish and English, with particular emphasis on those areas of contrast which are vital to the teacher.
SPAN 201D. Applied Spanish Linguistics. 3 Units
Prerequisite(s): SPAN 102 and SPAN 103; or equivalent.
Term Typically Offered: Fall, Spring

Application of linguistic theory, principally to the areas of language teaching and learning acquisition. Occasionally the application of linguistics to other fields may be examined.

SPAN 220A. Spanish Literature in the Middle Ages. 3 Units
Prerequisite(s): SPAN 100 and an upper division course in Peninsular Literature; or equivalent.
Term Typically Offered: Fall, Spring

Specific topic from this period will be chosen for intensive study as announced.

SPAN 220B. Spanish Literature in the Golden Age. 3 Units
Prerequisite(s): SPAN 100 and an upper division course in Peninsular Literature; or equivalent.
Term Typically Offered: Fall, Spring

Specific topic from this period will be chosen for intensive study as announced.

SPAN 220C. Spanish Literature in the 18th and 19th Centuries. 3 Units
Prerequisite(s): SPAN 100 and an upper division course in Peninsular Literature; or equivalent.
Term Typically Offered: Fall, Spring

Specific topic from this period will be chosen for intensive study as announced.

SPAN 220D. Contemporary Spanish Literature. 3 Units
Prerequisite(s): SPAN 100 and an upper division course in Peninsular Literature; or equivalent.
Term Typically Offered: Fall, Spring

Specific topic from this period will be chosen for intensive study as announced.

SPAN 224A. Spanish-American Literature to 1825. 3 Units
Prerequisite(s): SPAN 100 and an upper division course in Latin American Literature; or equivalent.
Term Typically Offered: Fall, Spring

Beginnings of Spanish American Literature from the period of discovery and conquest through the colonial period until the end of the Wars of Independence in 1825. Covers the Renaissance, Baroque, and Neo-Classical Periods.

SPAN 224B. Spanish-American Literature, 1825 to 1880. 3 Units
Prerequisite(s): SPAN 100 and an upper division course in Latin American Literature; or equivalent.
Term Typically Offered: Fall, Spring

Independence (1825) through 1880. Covers the following movements: Romanticism, Realism, and Naturalism and deals with selected authors.

SPAN 224C. Spanish-American Literature, 1880 to 1945. 3 Units
Prerequisite(s): SPAN 100 and an upper division course in Spanish American Literature; or equivalent.
Term Typically Offered: Fall, Spring

Specific topic from this period will be chosen for intensive study as announced.

SPAN 224D. Spanish-American Literature, 1945 to Present. 3 Units
Prerequisite(s): SPAN 100 and an upper division course in Spanish American Literature; or equivalent.
Term Typically Offered: Fall, Spring

Specific topic from this period will be chosen for intensive study as announced.

SPAN 250A. Civilization and Culture of Spain. 3 Units
Prerequisite(s): Graduate status with fluency in understanding, speaking, reading, and writing contemporary Spanish.
Term Typically Offered: Fall, Spring

Seminar examining aspects of the national character and personality of Spain as revealed through Hispanic social and literary studies from prehistory to 1700.

SPAN 250B. Civilization and Culture of Modern Spain. 3 Units
Prerequisite(s): Graduate status with fluency in understanding, speaking, reading, and writing contemporary Spanish.
Term Typically Offered: Fall, Spring

Seminar examining aspects of the character and personality of the various political, geographical, and cultural groups of Spain as revealed through the social and literary studies of Spain from 1700 to the present.

SPAN 250C. Civilization and Culture of Hispanic America. 3 Units
Prerequisite(s): Graduate status with fluency in understanding, speaking, reading, and writing contemporary Spanish.
Term Typically Offered: Fall, Spring

Seminar examining aspects of the character and personality of the various nations of Hispanic America as revealed through Hispanic-American social and literary studies. Attention will be given to the various ethnic groups found in Hispanic America.

SPAN 250D. Civilization and Culture of Mexico. 3 Units
Prerequisite(s): Graduate status with fluency in understanding, speaking, reading, and writing contemporary Spanish.
Term Typically Offered: Fall, Spring

Seminar examining aspects of the national character and personality of Mexico as revealed through Mexican social and literary studies.

SPAN 299. Special Problems. 1 - 3 Units
Prerequisite(s): Permission of instructor supervising work, the advisor, and the Department chair.
Term Typically Offered: Fall, Spring

Individual projects or directed reading. Note: Open only to students who have the required number of units in residence and who appear competent to carry on individual work. Enrollment will be limited to hardship cases. Only 3 units of upper division or 3 units of graduate division credit will be accepted for any one degree in Spanish.

Credit/No Credit

SPAN 500. Culminating Experience. 1 - 4 Units
Prerequisite(s): Advanced to candidacy and permission of the graduate coordinator.
Term Typically Offered: Fall, Spring

Completion of a thesis, project or comprehensive examination.

BA in Spanish

Units required for Major: 42
Program Requirements

Total units required for BA: 120

Program Description

A working knowledge of Spanish will enable students to communicate with one of America’s rapidly growing minority groups, as well as to benefit extensively from travel to foreign countries. Most coursework lends itself to a practical acquisition of the necessary language skills for effective communication.

Coursework at the upper division and graduate level is equally distributed among four areas: linguistics, culture, Peninsular literature, and Hispanic American literature. Students with career plans in teaching, bilingual programs, translation and diplomatic services, as well as careers in public service requiring knowledge of Spanish, will find a balanced curriculum available at Sacramento State. The programs in Spanish also serve those students who plan on continuing their studies at the doctorate level by providing a thorough academic background in the language.

Minimum Grade Requirement

All Spanish majors must earn a grade of “C” or better in all courses counted toward the major. SPAN 42 and SPAN 142 may be taken by challenge exam for Credit/No Credit only provided that student enrolls in course.

Required Lower Division Courses

It is assumed that Spanish majors will have completed the equivalent of college level elementary and intermediate Spanish in high school, at a community college, or by completing SPAN 2B at Sacramento State, prior to beginning upper-division courses.

Required Upper Division Courses (36 Units)

Students interested in Bilingual/Crosscultural programs should also contact the College of Education (916) 278-6840 for more details.

Many students find that the acquisition of skills in Spanish is a valuable adjunct to their career goals in other areas such as business administration, public administration, international relations, etc.

Coursework at the upper division and graduate level is equally distributed among four areas: linguistics, culture, Peninsular literature, and Hispanic American literature. Students with career plans in teaching, bilingual programs, translation and diplomatic services, as well as careers in public service requiring knowledge of Spanish, will find a balanced curriculum available at Sacramento State. The programs in Spanish also serve those students who plan on continuing their studies at the doctorate level by providing a thorough academic background in the language.

Minimum Grade Requirement

All Spanish majors must earn a grade of “C” or better in all courses counted toward the major. SPAN 42 and SPAN 142 may be taken by challenge exam for Credit/No Credit only provided that student enrolls in course.

Study Abroad Programs

Students having a 2.75 GPA average overall are eligible to apply for admission to the CSU International Programs in a Spanish-speaking country such as Chile, Mexico, or Spain for their junior or senior years or during graduate studies. Spanish skills must be sufficiently developed to permit satisfactory performance in a Spanish-language university; planning from the beginning of the freshman year is advisable. Programs are also available for beginning students in Spain and Mexico. For details, contact International Programs and Global Engagement and consult a member of the Spanish faculty about developing your language skills.

Certificate Program in Healthcare Spanish

Total units required for certificate: 17

Program Description

The HEALS Certificate Program is designed to prepare students and professionals in the healthcare fields to serve healthcare needs of the growing Spanish-speaking population in California by being able to communicate with them.

Coursework in the HEALS program lends itself to a practical acquisition of specialized medical/healthcare terminology in Spanish and Hispanic cultural competence.

Total Units 17

MA in Spanish

Units required for the MA: 30

Program Description

The Master of Arts program in Spanish affords an opportunity for specialized work in Spanish linguistics, Peninsular and Latin American Literature, and in the cultures of the Spanish-speaking world. The program is of particular value to those who plan to teach Spanish at the secondary school level (or already do so) or in a community college, and to those who plan to continue working toward a doctorate in Spanish.

Admission Requirements

Admission as a classified graduate student in Spanish requires:

- a baccalaureate degree;
- a minimum 3.0 GPA in the last 60 units attempted;
- a satisfactory score on the Graduate Examination designed and administered by the Spanish Area of the Department of Foreign Languages. The student must take the Graduate Examination prior to entrance into any 200 series graduate course and must successfully pass the entire examination before being advanced to candidacy. The student may pursue graduate work while concurrently correcting any deficiencies noted as a result of the examination and must retake the exam sections failed only after the passage of one semester. Three-summer MA applicants will take the Graduate Exam during their first summer in the program and will retake any sections not passed during the second summer that they attend the program. Consult the Graduate Coordinator in Spanish regarding steps to complete this requirement; and
- completion of the following Sacramento State courses (or equivalents):

<table>

</tr>
</tbody>
</table>

Total Units 18

Students not meeting all these requirements may be admitted with conditionally classified graduate status and work toward the MA degree while the admission requirements are being completed. (SPAN 102 and SPAN 103 may be met by challenge examination.) Units taken to remove admission requirement deficiencies do not count toward the MA program. Any such deficiencies will be noted on a written response to the admission application.
Admission Procedures

Applications are accepted as long as room for new students exists during the application filing period. The University operates under a completion deadline system; all transcripts and materials must be received by the filing deadline of March 1st. Only completed applications will be reviewed. All prospective graduate students, including Sacramento State graduates, must file the following with the Office of Graduate Studies:

- an online application for admission, and
- two sets of official transcripts from all colleges and universities attended, other than Sacramento State.

For more admissions information and application deadlines please visit the Office of Graduate Studies Website (http://www.csus.edu/gradstudies/).

At the same time, each applicant must send by February 15th a separate application to the Spanish Graduate Coordinator (http://www.csus.edu/wll/spanish/ma-in-spanish/master-application-guidelines.html) in the Department of World Languages and Literatures consisting of:

1. A cover letter.
2. A one-page Statement of Purpose.
3. A five-page writing sample in Spanish that was graded by an instructor.
4. Two letters of recommendation if their BA is not from Sacramento State.
5. Official transcripts from all post-secondary institutions.

Departmental recommendation for Office of Graduate Studies acceptance into the MA in Spanish program is based on overall student scholastic achievement, the number of completed prerequisites, the quality of the applicant’s writing in Spanish, and letters of recommendation.

For more admissions information and application deadlines please visit the Office of Graduate Studies Website (http://www.csus.edu/gradstudies/) and the Department of World Languages and Literatures website (http://www.csus.edu/wll/spanish/ma-in-spanish/master-application-guidelines.html).

A decision regarding admission will be mailed from the Office of Graduate Studies approximately 6 weeks after the completion deadline.

Advancement to Candidacy

Each student must file an application for Advancement to Candidacy, indicating a proposed program of graduate study. This procedure should begin as soon as the classified graduate student has:

- removed any deficiencies in admission requirements;
- completed at least 18 units in the graduate program with a minimum 3.0 GPA, including at least four 200-level courses; and
- taken the Writing Placement for Graduate Students (WPG) within the first two semesters of coursework at California State University, Sacramento or secured approval for a WPG waiver.

The Advancement will list all of the courses presented for the degree and must be approved by the Spanish Graduate Coordinator and the Office of Graduate Studies.

Culminating Requirement

The comprehensive exams for the MA in Spanish can be taken in November or April. Students take an exam in each of the following areas:

- Spanish Linguistics
- Spanish Peninsular Literature
- Latin American Literatures, and Hispanic Culture. A passing grade is considered to be 80% or higher, and a student may only fail one exam, which must be re-taken the following semester.

Total Units: 30-34
1. Take at least one 200-level course in each of the four categories; a minimum of 18 graduate level units required.
2. The Graduate Coordinator will coordinate the examination process with the faculty involved.

Minor in Spanish

Units required for Minor: 20, 12 of which must be upper division courses
Minimum total units required for BA: 120

Program Description

A working knowledge of Spanish will enable students to communicate with one of America’s rapidly growing minority groups, as well as to benefit extensively from travel to foreign countries. Most coursework lends itself to a practical acquisition of the necessary language skills for effective communication.

Coursework at the upper division and graduate level is equally distributed among four areas: linguistics, culture, Peninsular literature, and Hispanic American literature. Students with career plans in teaching, bilingual programs, translation and diplomatic services, as well as careers in public service requiring knowledge of Spanish, will find a balanced curriculum available at Sacramento State. The programs in Spanish also serve those students who plan on continuing their studies at the doctorate level by providing a thorough academic background in the language.

Students interested in Bilingual/Crosscultural programs should also contact the College of Education (916) 278-6840 for more details.

Many students find that the acquisition of skills in Spanish is a valuable adjunct to their career goals in other areas such as business administration, public administration, international relations, etc.

Study Abroad Programs

Students having a 2.75 GPA average overall are eligible to apply for admission to the CSU International Programs in a Spanish-speaking country such as Chile, Mexico, or Spain for their junior or senior years or during graduate studies. Spanish skills must be sufficiently developed to permit satisfactory performance in a Spanish-language university; planning from the beginning of the freshman year is advisable. Programs are also available for beginning students in Spain and Mexico. For details, contact International Programs and Global Engagement and consult a member of the Spanish faculty about developing your language skills.

Minimum Grade Requirement

All Spanish minors must earn a grade of "C" or better in all courses counted toward the minor.

Subject Matter Program

Program Description

A working knowledge of Spanish will enable students to communicate with one of America’s rapidly growing minority groups, as well as to benefit extensively from travel to foreign countries. Most coursework lends itself to a practical acquisition of the necessary language skills for effective communication.

Coursework at the upper division and graduate level is equally distributed among four areas: linguistics, culture, Peninsular literature, and Hispanic American literature. Students with career plans in teaching, bilingual programs, translation and diplomatic services, as well as careers in public service requiring knowledge of Spanish, will find a balanced curriculum available at Sacramento State. The programs in Spanish also serve those students who plan on continuing their studies at the doctorate level by providing a thorough academic background in the language.

Students interested in Bilingual/Crosscultural programs should also contact the College of Education (916) 278-6840 for more details.

Many students find that the acquisition of skills in Spanish is a valuable adjunct to their career goals in other areas such as business administration, public administration, international relations, etc.

Program Requirements

Spanish majors wishing to pursue a Single Subject Teaching Credential in Spanish should contact the Spanish credential advisor to have their transcript reviewed for courses currently required for the credential program and then have single subject competency assessed. Specific course requirements are the same as for the BA in Spanish plus successful completion of a proficiency examination in Spanish. The Single Subject Credential in Spanish is valid for teaching Spanish in grades K-12.

Teaching credential candidates must also complete the Professional Education Program in addition to other requirements for a teaching credential. Consult the department credential advisor for details. You may also obtain information about the Professional Education Program from the Teacher Preparation Credentialing Office, Eureka Hall 216, (916) 278-6403.

College of Business

Mission Statement

The Sacramento State College of Business develops engaged, responsible, and inclusive leaders who enrich our communities.

Undergraduate Program Description

The College of Business offers a broad, professional education in Business. The Bachelor of Science program offers students a choice of 9 concentrations by which they may focus their goals. All students must choose a concentration to complete their requirements for the baccalaureate degree. Students who are uncertain about which concentration to choose are encouraged to select the General Management concentration, as it is the most comprehensive. The structure of the General Management concentration also provides an overlap with other concentrations, thus making changes in focus possible. Students who wish a more customized program may elect to complete the requirements for additional concentrations as well.
For example, students may elect dual concentrations such as General Management and Management of Human Resources and Organizational Behavior. For more information about program options, contact Undergraduate Business Advising Center, Tahoe Hall 1030, (916) 278-BIZZ (2499).

The College offers Minors in Business, Human Resources Management, Marketing, Real Estate and Land Use Affairs, and Risk Management and Insurance. A Minor in Business is valuable to the student majoring in another area who wishes to supplement his/her knowledge with a business background.

For more information about the College of Business, please click here (http://www.csus.edu/cba/).

Concentrations
BS: Accountancy / Business Analytics / Entrepreneurship / Finance / General Management / Management of Human Resources and Organizational Behavior / International Business / Management Information Systems / Marketing/ Supply Chain Management.

Graduate Program Description
The College offers several general and specialized business graduate degree programs. They include Master of Business (MBA), International Master of Business (IMBA), Master of Business for Executives (EMBA), Master of Science in Accountancy (MS/ACCY),

Concentrations
MBA: Finance / Business Analytics in Healthcare/Entrepreneurship and Global Business

Special Features
• The College of Business is fully accredited by the AACSB International-The Association to Advance Collegiate Schools of Business.
• Operating a class schedule from 7:30 a.m. to 9:00 p.m., the College is designed to facilitate the full- and part-time student.
• Graduate academic counselors are available in the Graduate Programs Office, Tahoe Hall 1020. This office serves in all aspects of program advising and graduation evaluation approval for business students.
• The College of Business has a Business Graduate Career Services Office that serves all MBA/graduate programs. Services include individual and customized career advising, employment and internship support, and professional development events. Services also include resume and document review, interview preparation, and job seeking strategies.

Centers And Institutes
Center for Small Business
The Center for Small Business provides technical business services to business enterprises and nonprofit institutions in the Sacramento area, in the areas of financial planning and budgeting, feasibility studies, market research, design of accounting systems, production planning and control, advertising strategies, capital budgeting, and management improvement programs. Gratuitous assistance is provided on a voluntary basis by students of the College with faculty members serving as experienced advisors to the students and their clients.
Sharyn Gardner, Faculty Director, (916) 278-7278.

Student Activities
The following organizations are affiliated with the College:

Honor Societies
Beta Alpha Psi
Beta Alpha Psi is an honorary organization for Financial Information students and professionals. This includes promoting the study and practice of accounting, finance and information systems; providing opportunities for self-development, service and association among members and practicing professionals, and encouraging a sense of ethical, social, and public responsibility.

Beta Gamma Sigma
Beta Gamma Sigma is the honor society serving business programs accredited by AACSB International - The Association to Advance Collegiate Schools of Business. Membership in Beta Gamma Sigma is the highest recognition a business student anywhere in the world can receive in a business program accredited by AACSB International. Invitations are sent to qualified students during the fall and spring semesters.

ACCY 1. Accounting Fundamentals. 3 Units
Prerequisite(s): Entry Level Math (ELM) test of at least 36 or a CR grade in LS 7A.
Term Typically Offered: Fall, Spring
Accounting as the basis of an information system with emphasis on concepts and assumptions underlying data accumulation for financial reports. Includes the concepts of income determination and financial position, and the accounting for various types of ownership equities.

ACCY 2. Managerial Accounting. 3 Units
Prerequisite(s): ACCY 1.
Term Typically Offered: Fall, Spring
Use and reporting of accounting data for managerial planning, control, and decision making. Broad coverage of concepts, classification, and behavior of costs.

ACCY 111. Intermediate Accounting I. 3 Units
Term Typically Offered: Fall, Spring
In-depth knowledge of how financial information provides information about a company’s: economic resources, obligations, and owner’s equity; income and its components; and cash flows. Topics include the development and application of basic assumptions, principles and constraints underlying financial statements; the use of information derived from financial statements and the limitations of the information; and the use of accounting information to evaluate a company’s return on investment, risk, financial, flexibility, liquidity, and operational capability. Students learn how to prepare financial statements.

ACCY 112. Intermediate Accounting II. 3 Units
Prerequisite(s): ACCY 111.
Term Typically Offered: Fall, Spring
Application of Generally Accepted Accounting Principles to the reporting of tangible and intangible assets, liabilities, and the capital section of the balance sheet. Other topics include the reporting of stock-based compensation and earnings-per-share.

ACCY 113. Intermediate Accounting III. 3 Units
Prerequisite(s): ACCY 111.
Term Typically Offered: Fall, Spring
Application of Generally Accepted Accounting Principles to revenue recognition and matching, pensions, leases, income taxes, accounting changes, interim financial statements, and segmental reporting. Students develop an in-depth knowledge of the preparation and the analysis of the cash flow statement.

ACCY 117. Advanced Accounting. 3 Units
Prerequisite(s): ACCY 111 and ACCY 112.
Term Typically Offered: Fall, Spring
Specialized topics in partnership accounting; consolidated statements; foreign currency translation and financial statements.

ACCY 121. Cost Accounting. 3 Units
Term Typically Offered: Fall, Spring
Importance of the allocation of costs; the cost allocation techniques available to accountants; the techniques used by management to maintain and create enterprise value, e.g., CVP analysis; the accountant’s responsibility for the management of inventory; and the ethical consideration in internal reporting.

ACCY 122. Advanced Management Accounting. 3 Units
Prerequisite(s): ACCY 121.
Term Typically Offered: Fall, Spring
Accountant’s responsibility to provide financial and no financial information to managers; the planning techniques available to accountants; managerial control techniques that enhance the maintenance and improvement of enterprise value, and short-run and long-run analyses.
ACCY 131. Survey of Auditing, Attest, and Assurance Topics. 3 Units
Prerequisite(s): ACCY 111, ACCY 112.
Term Typically Offered: Fall, Spring
Survey of topics in auditing as a control activity in society. Covers a variety of opportunities in the auditing profession including external auditing, internal auditing, compliance auditing, and operational auditing as well as fraud examinations. Topics include evidence and documentation, professional ethics, auditing computer systems, statistical sampling, and internal controls.

ACCY 132. Accountants’ Ethical and Professional Responsibilities. 3 Units
Prerequisite(s): ACCY 111, ACCY 112.
Corequisite(s): ACCY 131.
Term Typically Offered: Fall, Spring
This course addresses professional responsibilities for the accounting profession, including the development of ethical standards, ethical reasoning, AICPA and California Codes of Professional Conduct, financial reporting fraud, corporate governance, and other relevant topics.

ACCY 161. Government and Nonprofit Accounting. 3 Units
Prerequisite(s): ACCY 111
Term Typically Offered: Fall, Spring
Fundamentals of accounting and financial reporting for governmental units and institutions; accounting for various types of funds; accounting aspects of budgetary control.

ACCY 171. Federal Tax Procedures I. 3 Units
Term Typically Offered: Fall, Spring
Federal taxation concepts are used in effective decision making; a working knowledge of the concepts of gross income, deductions, tax rates, and property transactions as they pertain to C corporations, partnerships, S corporations, and individuals; and proficiency in the application of tax concepts as they pertain to business and individual taxpayers.

ACCY 172. Federal Tax Procedures II. 3 Units
Prerequisite(s): ACCY 171.
Term Typically Offered: Fall, Spring
Business entity formation, operation, and termination and business taxation principles and concepts used in effective decision-making. Students develop the ability to understand and apply business tax principles and the critical and analytical skills that are necessary in the study and application of taxation and tax law.

ACCY 190. International Accounting. 3 Units
Prerequisite(s): ACCY 111, Business Major
Term Typically Offered: Fall, Spring
Accounting concepts, principles, and methods applicable to multinational transactions and global corporations. Contents include the translation of financial statements, comparative accounting systems, financial reporting, currency risk management, international accounting standards and organizations, taxation problems, and the managerial aspects of multinational transactions.

ACCY 194. Cooperative Education Experience in Accountancy. 6 - 12 Units
Prerequisite(s): Minimum overall GPA of 2.75; instructor permission.
Term Typically Offered: Fall, Spring
In-depth supervised work experience in accounting for the purpose of exposing the student to comprehensive accountancy experience in business, governmental, or service agencies.
Note: Open to upper division students, subject to permission of the Accountancy Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.
Credit/No Credit

ACCY 195. Internship in Accountancy. 3 Units
Prerequisite(s): Completion of 15 units of upper division business courses at Sacramento State; minimum overall GPA of 2.75; instructor permission.
Term Typically Offered: Fall, Spring
Supervised work experience in accountancy for the purpose of increasing student understanding of the nature and scope of the operations of business, governmental, or service agencies. Supervision is provided by the faculty and the cooperating agencies.
Note: Open to declared business administration upper division majors only, subject to permission of the Accountancy Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.
Credit/No Credit

ACCY 196B. Exper Offer Accountancy. 3 Units
Prerequisite(s): AIS 141
Corequisite(s): ACCY 131
Term Typically Offered: Fall, Spring
A course in Accounting and Audit Analytics examines the changing technological environment in accounting and the role of data analytics in accounting. This course will help students to understand different structured and unstructured accounting data, and develop new analytic skills to make better accounting decisions. It will also improve student’s ability to conduct audit analytical procedures, in accordance with financial reporting regulatory requirements.

ACCY 199. Special Problems in Accountancy. 1 - 3 Units
Prerequisite(s): Senior status or instructor permission.
Term Typically Offered: Fall, Spring
Individual projects or directed reading for students qualified to carry on independent work. Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030.
Note: Open to declared business administration majors only.
Credit/No Credit
ACCY 220. Accountancy Teaching Experience. 3 - 6 Units
Term Typically Offered: Fall, Spring

Supervised experience of teaching lower division accountancy courses. Students will teach one section of ACCY 1 or 2 for each three units of credit. They may teach no more than two classes (6 units of credit) during any semester and be under direct supervision of an appropriate coordinator. To be eligible, students must register for nine units in addition to ACCY 220 and must have approval of the Department Chair. May not be used to satisfy any requirements in the CBA graduate programs. No student may earn more than twelve (12) units cumulative. Credit/No Credit

ACCY 240. Integrated Accounting Concepts. 3 Units
Term Typically Offered: Fall, Spring

Designed for students who enter the Master of Science Accountancy program without a Bachelor of Science in Accountancy or students who need to refresh their basic skills and understanding in record keeping, financial statement preparation and analysis, ethics in the practice of accounting, and internal controls through the use of comprehensive case study/practice set. Delivered via independent project work rather than lecture.

ACCY 250. Financial Reporting I. 3 Units
Term Typically Offered: Fall, Spring

Corporate financial reporting to external users in accordance with US Generally Accepted Accounting Principles (GAAP), including financial information about a company's economic resources, obligations, owners' equity, income, case flow, and use of information to evaluate a company's return on investment, risk, financial flexibility, liquidity, and operational capability.

ACCY 251. Foundations of International Accounting. 3 Units
Prerequisite(s): ACCY 250 or equivalent.
Term Typically Offered: Fall, Spring

The role of culture in accounting; comparative international financial and managerial accounting fundamentals; international financial statement analysis; international accounting standards and U.S. GAAP convergence; international business combinations; foreign exchange; international auditing; international taxation; and international capital flows.

ACCY 260. Financial Reporting II. 3 Units
Prerequisite(s): ACCY 250.
Term Typically Offered: Fall, Spring

In-depth study of technical financial accounting issues including accounting for pensions and leases, income tax, accounting changes, consolidated financial statements, and foreign currency.

ACCY 261. Cost Analysis and Control. 3 Units
Term Typically Offered: Fall, Spring

Fundamentals of cost accounting concepts and practice relating to cost accumulation, control, and analysis for managerial planning and decision making. Specific topics generally include product costing, standards, cost allocation, estimation, budgeting, transfer pricing, and performance evaluation. Emphasis is on current issues.

ACCY 262. Auditing. 3 Units
Term Typically Offered: Fall, Spring

Study auditing as a control activity in society. It covers a variety of opportunities in the auditing profession including external auditing, internal auditing, compliance auditing, and operational auditing as well as fraud examinations. Topics include evidence and documentation, auditing computer systems, and internal controls.

ACCY 263. Governmental and Non-Profit Accounting. 3 Units
Term Typically Offered: Fall, Spring

This course provides an in depth study of accounting and reporting for state and local governmental and non-profit entities. The course emphasizes the governmental reporting environment, the accounting for various types of funds, the accounting aspects of budgetary control, and the preparation of governmental financial information to be included in the Comprehensive Annual Financial Report. This course also emphasizes the key differences between governmental and non-profit organizations, and the financial accounting and reporting for non-profit organizations.

ACCY 264. Taxation of Business Entities. 3 Units
Term Typically Offered: Fall, Spring

Covers the topics for corporate tax, partnership tax, estate and gift tax, and tax planning. Corporate tax includes taxation of transactions between corporations and their shareholders, transfers to corporations, dividends and non-liquidating distributions, stock redemptions, corporate liquidations, and S corporation. Partnership tax includes operation and liquidation, dissolution, sales, and exchange of partnership interests. Estate and gift tax addresses the types of transfers for federal gift tax.

ACCY 265. Advanced Accounting Information Systems Analysis and Controls. 3 Units
Term Typically Offered: Fall, Spring

Emphasis on the role of computer and information technology in the development, analysis, and operation of accounting information systems; may include advanced coverage of accounting transaction cycles, accounting systems planning and analysis, accounting system design, accounting systems implementation and operation, the accounting system internal control structure, data modeling and database design in accounting, computer fraud and security, and auditing of computer-based information systems.

ACCY 266. Business Environment and Concepts. 3 Units
Term Typically Offered: Fall, Spring

Designed to provide understanding of knowledge and skills necessary for the general business environment and business operation. In addition, students are required to apply that knowledge in performing professional responsibilities. Topics include corporate governance, business cycles, global economic markets, business strategy, effect of financial management policies on accounting transactions, economic substance of transactions and their accounting implications, and budgeting/forecasting techniques.

ACCY 269. Taxation of Individuals. 3 Units
Term Typically Offered: Fall, Spring

Covers the required topics for tax form preparation for reporting individual incomes. Examines fundamental concepts in tax law and the underlying reasons for income identification, exemption, and deduction.
ACCY 270. Tax Research and Procedure. 3 Units
Prerequisite(s): ACCY 172 or ACCY 269.
Term Typically Offered: Fall, Spring

Tax reporting and collection procedure; administrative and judicial procedures governing tax controversies; the rights and obligations of the taxpayer. Intensive training in performing and communicating tax research. Includes use of current database programs. Lecture basis, followed by "hands-on" application of research methods.

ACCY 271. Tax Accounting Periods and Methods. 3 Units
Prerequisite(s): ACCY 172 or ACCY 269.
Term Typically Offered: Fall, Spring

Concepts and principles of the overall cash, accrual and hybrid methods of tax accounting. Applications of specific methods such as: inventory costing and capitalization rules, installment sales, long-term contracts, and original issue discount/time value of money will be examined. Lecture format to present the underlying rules and concepts. Case studies will then be analyzed and discussed by the students to examine the topics in a "real-world" context.

ACCY 272. Taxation of Business Enterprises I - Corporations. 3 Units
Prerequisite(s): ACCY 172 or ACCY 269.
Term Typically Offered: Fall, Spring

Discusses federal tax law as it applies to corporations, including the following topics: special deductions, formation, distributions, and complete liquidations. Incorporates problem sets, case analysis, a corporate tax return project, and a research project to enhance analytical and critical thinking skills and compliance experience.

ACCY 273. Taxation of Business Enterprises II - Partnerships. 3 Units
Prerequisite(s): ACCY 172 or ACCY 269.
Term Typically Offered: Fall, Spring

Discusses general concepts, acquisitions and basis of partnerships interests, operations, transfers of partnership interests, and distributions. Incorporates problem sets, a partnership tax return project, and research projects to enhance analytical and critical thinking skills and compliance experience and to develop students' technical proficiency in the application of partnership concepts.

ACCY 274. Estate, Gift and Trust Taxation. 3 Units
Prerequisite(s): ACCY 172 or ACCY 269.
Term Typically Offered: Fall, Spring

Taxation of decedent's estate and lifetime gifts; valuation of property subject to estate and gift taxes; income taxation of estates and trusts; estate planning. Uses a lecture format to present the underlying rules and concepts. Case studies will then be analyzed and discussed by the students to examine the topics in a "real-world" context.

ACCY 275. International Wealth and Asset Management. 3 Units
Term Typically Offered: Fall, Spring

Importance of global asset protection and wealth management; domestic Statutory and case law authorities of selected European, American and Asian countries as they relate to wealth protection and asset management; bi-lateral international agreements relating to wealth management and asset protection; Multilateral agreement affecting wealth management and asset protection; tax and legal liability minimizing models.

ACCY 276. U.S. Taxation of International Transactions. 3 Units
Prerequisite(s): ACCY 272, Advanced to Candidacy.
Term Typically Offered: Fall, Spring

U.S. tax jurisdiction; U.S. source of income rules and related expense allocation; U.S. taxation of foreign taxpayers; transfer pricing issues; U.S. taxation of the foreign income of U.S. citizens and residents; cross border transactions; foreign currency tax issues; and U.S. bilateral tax agreements. Successful completion will satisfy the culminating experience for the MSBA/Taxation program. Students may select topics for their Master's projects that are outside the discipline topic of the class subject to the approval of the instructor.

ACCY 277. Comparative International Tax Systems. 3 Units
Term Typically Offered: Fall, Spring

The similarities and differences between current global tax systems including jurisdiction and conflict of laws issues; the role of bilateral international tax treaties and other international tax related agreements in business operations; international tax planning for individuals and multinational enterprise including corporations, partnerships and estates and trusts.

ACCY 278. International and Multi-State Taxation. 3 Units
Term Typically Offered: Fall, Spring

Focuses on the taxation of cross-border transactions which encompasses discussion of the laws, rules, and regulations that affect transactions that cross both state and national borders. It covers various issues such as income sourcing and jurisdiction to tax. This course generally discusses these issues from the perspective of a U.S. person, but emphasizes and illustrates the general applicability of these rules for the tax regimes as established by other countries and states.

ACCY 280. Management Control Systems. 3 Units
Term Typically Offered: Fall, Spring

Development of the concepts and practice of management control systems. How alternative accounting-based planning, performance motivation and evaluation, and control systems fit and are used in varying strategic, management, and operative environments. How systems focus and motivate managers' decision behavior. How systems fit and are used in varying decision, competitive, and organization settings. Emphasis is on cases.

ACCY 295. Internship in Accountancy. 3 Units
Prerequisite(s): Classified graduate status; minimum Sacramento State GPA of 3.0 required.
Term Typically Offered: Fall, Spring

Supervised work experience in business, governmental service, or agencies for the purpose of increasing and enhancing student understanding of the nature and scope of the organization's accounting operations. Supervision is provided by the faculty and the cooperating agencies. Open to MS in Accountancy students. Petitions are obtained from Tahoe Hall 1035. Credit/No Credit

ACCY 296. Experimental Offerings in Accountancy. 3 Units
Term Typically Offered: Fall, Spring

When a sufficient number of qualified students apply, a faculty member may conduct a seminar on a designated advanced topic in accountancy.
ACCY 299. Special Problems in Accountancy. 1 - 3 Units
Prerequisite(s): Classified graduate status.
Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work. Admission requires approval of faculty member under whom the individual work is to be conducted in addition to the approval from the Department Chair of Accountancy. Petitions to be obtained from the CBA Graduate Programs Office, Tahoe Hall 1037.
Credit/No Credit

ACCY 500A. Thesis. 1 - 3 Units
Prerequisite(s): Advanced to candidacy; completion of MGMT 210 is required for the MBA only.
Term Typically Offered: Fall, Spring

Completion of a thesis approved for the Master's degree.

ACCY 500B. Project. 1 - 3 Units
Prerequisite(s): Advanced to candidacy; completion of MGMT 210 is required for the MBA only.
Term Typically Offered: Fall, Spring

Completion of a project approved for the Master's degree.

ACCY 500C. Comprehensive Examination for MS/Accountancy and MSBA/Taxation Degrees. 1 - 3 Units
Prerequisite(s): Advanced to candidacy. For comprehensive examination for MBA only (MGMT 500C, 1 unit), completion of Program Requirements (ACCY 240, MGMT 222, MGMT 223, MGMT 234, MGMT 280, MIS 221, OBE 252). For comprehensive examination for MS/Accountancy and MSBA/Taxation degrees, student must be in final semester of program.
Term Typically Offered: Fall, Spring

Note: MS Accountancy degree, student must be in final semester of program.

ACCY 501. Culminating Experience Project in Accounting and Ethics. 3 Units
Prerequisite(s): Advancement to Candidacy
Term Typically Offered: Fall, Spring

Each student conducts an individual project to fulfill the culminating experience graduation requirement of the MS in Accountancy program as required in Title V of the CA Educational Code. The course also covers the development of ethical standards, ethical reasoning, AICPA Code of Professional Conduct, accountants' professional responsibilities, financial reporting fraud and responses, corporate governance, and other relevant topics.
Note: May be repeated for credit

AIS 142. Enterprise and E-Commerce Accounting Models. 3 Units
Prerequisite(s): AIS 141 or instructor permission.
Term Typically Offered: Fall, Spring

Survey of Enterprise Resource Planning (ERP) models, Business-to-Business (B2B) E-commerce models, and the effects of the changing business and technology landscape upon the accounting profession. Topics include internal control, auditing, and economics relating to these new business-process models.

AIS 194. Cooperative Education Experience in Accounting Information Systems Problems. 6 - 12 Units
Prerequisite(s): Minimum overall GPA of 2.75; instructor permission.
Term Typically Offered: Fall, Spring

In-depth supervised work experience in accounting information systems for the purpose of exposing the student to comprehensive Accounting Information Systems experience in business, governmental, or service agencies.
Note: Open to upper division students, subject to permission of the Accountancy Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.
Credit/No Credit

AIS 195. Internship in Accounting Information Systems. 3 - 6 Units
Prerequisite(s): Completion of 15 units of upper division business courses at Sacramento State; minimum GPA of 2.75 required; instructor permission.
Term Typically Offered: Fall, Spring

Supervised work experience in accounting information systems for the purpose of increasing student understanding of the nature and scope of the operations of business, governmental, or service agencies. Supervision is provided by the faculty and cooperating agencies.
Note: Open to declared business administration upper division majors only, subject to permission of the Accountancy Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.
Credit/No Credit

AIS 199. Special Problems in Accounting Information Systems. 1 - 3 Units
Prerequisite(s): Senior status or instructor permission.
Term Typically Offered: Fall, Spring

Individual accounting information systems projects or directed reading for students qualified to carry on independent work.
Note: Open to declared business administration majors only. Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030.
Credit/No Credit

BS in Business Administration (Accountancy)

Units required for Major: 69
Total units required for BS: 120

Program Description

The objective of the Accountancy concentration is to provide conceptual and practical knowledge to students who will practice accounting
or use accounting in business or other organizations. Students in Accountancy at Sacramento State have the opportunity to take courses of study in preparation for careers in public accountancy, private industry, and government. Studies in Accountancy give students a strong preparation in the fields of business, finance, insurance, banking, government agencies, tax authorities, and many other profit and nonprofit organizations. Some of these career opportunities may lead to professional certification such as Certified Public Accountants, Certified Internal Auditors, Certified Management Accountants, and Certified Governmental Financial Managers. An Accountancy undergraduate education provides a foundation for entry-level jobs and long-term careers in these areas, giving students familiarity with a range of employment opportunities.

**Note:** The use of the words “business administration” throughout this section refers to courses designated as Accountancy (ACCY), Accounting Information Systems (AIS), Decision Sciences (DS), Entrepreneurship (ENTR), Finance (FIN), General Management (GM), Human Resources/Organizational Behavior (HROB), International Business (IBUS), Management (MGMT), Management Information Science (MIS), Marketing (MKTG), and Operations Management (OPM).

**Note:** Students graduating with a Bachelor of Science in Business Administration (all concentrations) will not be subject to the University’s Foreign Language Graduation Requirement. Students who change major may be subject to the University’s Foreign Language Graduation Requirement.

**Note:** At least 15 units of upper division business administration courses must be taken in residence at (or under the auspices of) California State University, Sacramento. Of these 15 units, a minimum of nine units must be in upper division courses in the concentration.

### Pre-Requisite Requirements

A student **may not enroll** in any of the Major program or Concentration courses until he/she has completed the Pre-Requisite lower division program with a grade of "C-" or better in each course and an overall GPA of 2.0 ("C"), with the exception of MATH 24 which requires a minimum acceptable grade of "C" or better.

Students enrolled as Expressed Interest in Business may enroll in the following courses after completing the lower division pre-requisite requirements:

**Pre-Requisite Requirements**

A student may not enroll in any of the Major program or Concentration courses until he/she has completed the Pre-Requisite lower division program with a grade of "C-" or better in each course and an overall GPA of 2.0 ("C"), with the exception of MATH 24 which requires a minimum acceptable grade of "C" or better.

Students enrolled as Expressed Interest in Business may enroll in the following courses after completing the lower division pre-requisite requirements:

**Computer Literacy**

All business majors must meet spreadsheet competency prior to taking upper division courses in the major. This requires completing MIS 10 (or equivalent).

**Minimum Grade Requirements**

The purpose of this requirement is to assure that all business administration students attain the minimum level of competency in all their coursework required for the business administration degree.

The minimum acceptable grade for any undergraduate course required for the business administration degree is “C-” with the exception of MATH 24 which requires a minimum acceptable grade of "C" or better.

A minimum grade point average of 2.0 ("C") is required in the Pre-Requisite courses, Major Core courses, and the Concentration courses presented for the degree.

### Program Requirements

2. If not satisfied before entering Sacramento State, it may be satisfied in General Education Area C2 (Humanities). “C- or better required.”

The alternative methods for satisfying the Foreign Language Proficiency Requirement are described here: [https://www.csus.edu/college/arts-letters/world-languages-literatures/foreign-language-requirement.html](https://www.csus.edu/college/arts-letters/world-languages-literatures/foreign-language-requirement.html)

**MS in Accountancy**

**Total units required for MS/ACCY: 30**

**Program Description**

The MS/ACCY program is offered through collaboration between the College of Business Administration and the College of Continuing Education. The degree is offered by the College of Business Administration and administered through the College of Continuing Education.

The MS/ACCY program was developed in response to new developments in the accounting and business worlds. Increasingly, accountants who hold undergraduate degrees in accounting seek advanced degrees as the complexity of the accounting field increases. Accounting professionals are involved with an ever-widening range of careers including public accounting, corporate accounting, income tax accounting, not-for-profit accounting, and government accounting. Significant changes in the regulatory climate, including the Sarbanes-Oxley Act, have increased the need for graduate level education. One result is a heightened interest in
forensic accounting, fraud detection, and information system security. The 150 credit-hour education requirement established by the American Institute of Certified Public Accountants (AICPA) also has significantly increased the demand for graduate education in accounting. The MS/ACCY program helps to qualify students to sit for professional accounting examinations that lead to credentials such as the CPA (Certified Public Accountant) and the CMA (Certified Management Accountant) designations. The MS/ACCY program uses an online platform to deliver a completely web-based degree. The MS/ACCY courses are only available through the College of Continuing Education.

Admission Requirements

For students who have taken the GMAT, the five Admission Criteria are as follows:

1. Index #1 of 1050 or Index #2 of 1100 (see description below) AND
2. Minimum Total GMAT score of 500 AND
3. Minimum GMAT Quantitative percentile of 30 AND
4. Minimum GMAT Verbal percentile of 30 AND
5. Minimum 2.5 overall undergraduate GPA.

Index #1 - (index = (GPA x 200) + GMAT score). An index of 1050 is required using the overall undergraduate GPA.

Index #2 - (index = (GPA x 200) + GMAT score). An index of 1100 is required using the last 60 semester units (last 90 quarter units) undergraduate GPA.

Example: [3.0 GPA x 200] + 500 GMAT Score = 1100

For students who have not taken the GMAT, the Admission Criteria are as follows:

If the applicant has passed all four parts of the Certified Public Accountant examination but has not taken the GMAT, then a 500 GMAT score will be used to calculate admission indices #1 and #2. If the applicant has taken the LSAT but has not taken the GMAT, then the LSAT equivalent GMAT score will be used to calculate the admission indices #1 and #2. Actual GMAT scores take precedence over imputed GMAT scores as admission criteria for the CBA graduate business programs. LSAT minimum score of 150.

1. Index #1 of 1050 (see description above) OR
2. Index #2 of 1100 (see description above) AND
3. Minimum 2.5 overall undergraduate GPA.

The proof for passing the CPA exam must be evidenced by one of the following:

1. Unlicensed applicants must supply a copy of their CPA exam grade report sent by the State Board of Accountancy or
2. Licensed applicants must supply a copy of their CPA license.

Deadlines

Please see the CBA Web site for current admission deadlines: http://www.cba.csus.edu/graduate/ACCY (http://www.cba.csus.edu/graduate/ACCY)

Application Procedures

All prospective graduate students must file the following documents with both the CBA Graduate Business Advising Center (GBAC) and the Sacramento State Office of Graduate Studies (River Front Center, 206) as noted below:

1. To the College of Business Administration Graduate Business Advising Center, submit the following:
   a. One (1) set of official transcripts
   b. Results from GMAT, LSAT or CPA scores
   c. Recommendation Form Waiver
   d. Two (2) Recommendation Forms
   e. Current Resume.

Mail all of the above documents to the following address:

Graduate Business Advising Center (GBAC)
Tahoe Hall, 1037
College of Business Administration
CSU, Sacramento
6000 J Street
Sacramento, CA 95819-6088
Phone: (916) 278-6772
FAX: (916) 278-4233
Email: cba-gbac@saclink.csus.edu

If you attend Sacramento State, you must request an official transcript. We cannot obtain one on your behalf. You may order transcripts from the Office of the University Registrar at their Web site: csus.edu/gradstudies/forms/index (http://www.csus.edu/gradstudies/forms/index). If you attended additional schools besides Sacramento State, you must obtain official transcripts from those institutions, this includes community and junior colleges.

2. To the Sacramento State Office of Graduate Studies, submit the following:
   a. Online CSU Graduate Application: (https://www2.calstate.edu/apply/graduate (https://www2.calstate.edu/apply/graduate/))
   b. $55 Application Fee (paid on-line when you file your application).
   c. Mail one (1) Set of Official Transcripts to the following address:

Office of Graduate Studies
River Front Center, Room 206
CSU, Sacramento
6000 J Street
Sacramento, CA 95819-6122
Phone: (916) 278-6470
Email: gradctr@cba.csus.edu (gradctr@csus.edu)

Please Note: Applications are not considered complete and will not be reviewed unless you complete all the steps as directed. You must submit official transcripts from ALL colleges and universities previously attended. Submission of official transcripts and test scores must be received no later than the application deadline.

International Students

International students will not be issued an F-1 student visa for this program as it is a completely online program. You may apply but you will not be issued a student visa to come to the United States. All materials, inclusive of TOEFL scores, must be turned into the Office of Graduate Studies. To ensure consideration, international students should submit their material to the International Admissions Office one month prior to the above CBA application deadlines.
TOEFL
The University requires a minimum TOEFL score of 550 (paper based), 80 (internet based), or 213 (computer based).

To understand the guidelines for your country please go to http://www.csus.edu/gradstudies/futurestudents/applicantswithforeigndocuments/index.html (http://www.csus.edu/gradstudies/futurestudents/applicantswithforeigndocuments/). Click on your country for detailed information.

California State University, Sacramento interprets "where English was the principal language of instruction" to mean that a school is located in a country where English is the native language (the daily medium of communication of the majority of the residents is English), and that the student received academic instruction in all subjects (except foreign language courses) at all levels of education in English.

Minimum Units and Grade Requirements for the Degree
Total units required for MS/ACCY: 30 (excluding foundation courses). Minimum Cumulative GPA: 3.0. The minimum acceptable grade for any graduate business course is "C." No more than two (2) courses with a grade of "C" will be counted for satisfaction of graduate program requirements.

Advancement to Candidacy
A student's program requirements are governed by the catalog in effect at the time one is accepted into and begins graduate school or by the catalog in effect at the time advancement to candidacy is approved.

Prior to enrolling in Culminating Requirements, a student must advance to candidacy. Initiation of advancement procedures is the responsibility of the student. The application to advance must be filed no later than the semester prior to enrollment in culminating experience requirements.

Eligibility to advance to candidacy requires satisfactory scholastic achievement, presentation of a plan of graduate study, and demonstration of writing proficiency. A classified graduate student in Business Administration may apply to the Graduate Business Advising Center (GBAC) for advancement to candidacy for the Master's degree after s/he has completed at least 12 units of the program requirements beyond the Foundation requirements. Students with a GPA deficiency or who have not fulfilled the Writing Placement for Graduate Students (WPG) cannot advance to candidacy.

Business
For more information regarding services and program options, please visit the CBA Web site at: www.csus.edu/college/business-administration/ (https://www.csus.edu/college/business-administration/)

Undergraduate Program Description
The College of Business offers a broad professional education in Business. The Bachelor of Science program offers students a choice of 9 concentrations by which they may focus their goals. Additionally, the CBA’s Business Honors program provides an alternative path to its most capable students to prepare them for management opportunities. All students must choose a concentration to complete their requirements for the baccalaureate degree. Students who are uncertain about which concentration to choose are encouraged to select the General Management concentration, as it is the most comprehensive. The structure of the General Management concentration also provides an overlap with the other concentrations, thus making changes in focus possible. Students who wish a more customized program may elect to complete the requirements for additional concentrations as well. For example, students may elect dual concentrations such as General Management and Management of Human Resources and Organizational Behavior. For information about program options, please visit our website at: Undergraduate Programs | Sacramento State (csus.edu) (https://www.csus.edu/college/business-administration/undergraduate/).

The College also offers Minors in Business, Management of Human Resources and Organizational Behavior, Marketing, Real Estate and Land Use Affairs, and Risk Management and Insurance. A Minor in Business is valuable to the student majoring in another area who wishes to supplement his/her knowledge with a business background.

Note: The use of the word “business” throughout this section refers to courses designated as Accountancy (ACCY), Accounting Information Systems (AIS), Decision Sciences (DS), Entrepreneurship (ENTR), Finance (FIN), General Management (GM), Human Resources/Organizational Behavior (HROB), International Business (IBUS), Management (MGMT), Management Information Science (MIS), Marketing (MKTG), Operations Management (OPM).

Accreditation
In addition to California State University, Sacramento’s full accreditation by the Western Association of Schools and Colleges, the Bachelor of Science, Master of Business, and Master of Science are also individually accredited by the AACSB Internationally Association to Advance Collegiate Schools of Business.

Notice to Students RE: Professional Licensure and Certification
California State University programs for professions that require licensure or certification are intended to prepare the student for California licensure and certification requirements. Admission into programs for professions that require licensure and certification does not guarantee that students will obtain a license or certificate. Licensure and certification requirements are set by agencies that are not controlled by or affiliated with the California State University and licensure and certification requirements can change at any time.

The California State University has not determined whether its programs meet other states' educational or professional requirements for licensure and certification. Students planning to pursue licensure or certification in other states are responsible for determining whether, if they complete a California State University program, they will meet their state's requirements for licensure or certification. This disclosure is made pursuant to 34 CFR §668.43(a)(5)(v)(C).

Graduate Program Description
The College offers several general and specialized business graduate degree programs. They include: Master of Business (MBA), Master of Business for Executives (EMBA), International Master of Business (IMBA), and Master of Science in Accountancy (MS/ACCY).

Degree Programs
International Master of Business (IMBA)
MBA (General)
MBA (Business Analytics in Healthcare)
MBA (Entrepreneurship and Global Business)
MBA (Finance)
MBA for Executives (EMBA)
MS in Accountancy

Add/Drop Policies
Students are subject to being administratively dropped from business courses if they fail to meet academic standards for which they have not met the prerequisite requirements as prescribed by the CBA or by Sacramento State.

Rules for adding and/or dropping a course during the first few weeks of a semester differ substantially from the policies in effect after that period of time. Different procedures may apply for undergraduate and graduate students.

Adding Courses: Students normally enroll in courses during the registration period. After the registration period, students may be permitted to add courses only with the approval of the instructor and the Associate Dean for the Academic Programs.

Dropping Courses: The requirement for dropping selected courses becomes more difficult as the semester progresses. It is the responsibility of the student to maintain progress in each course in which the student is enrolled. Students who fail to continue in the course without an approved drop will receive a grade of "WU" or "F" for the course. Please visit the Academic Programs Office Tahoe Hall 2028. You may visit the Undergraduate Business Advising Center for Undergraduate courses. For students enrolled in the EMBA program, the MBA Program Services (MPS).
**Course Repeat Policy**

Undergraduate courses used for the CBA's major requirements may be repeated twice (for a total of three attempts). If the subject course is required and the student has not earned a grade of “A”, “A-”, “B+”, “B”, “B-”, “C+”, “C”, or “C-” in three attempts, the student will be disqualified from the CBA. If the course represents a computer literacy requirement, and the student has not earned a grade of “A”, “A-”, “B+”, “B”, “B-”, “C+”, “C”, “C-”, or “CR” in three attempts, the student will not be allowed to enroll in the course a fourth time. However, the student may be given the opportunity to demonstrate computer literacy by passing the appropriate examination.

Graduate students may repeat only two graduate courses — one at the Foundation level and one at the MBA/MS level.

**Reinstatement Policy**

Undergraduate Business majors who have been disqualified from the University will not be allowed to enroll in 100-level business courses until they have been reinstated into the business major. In order for students to qualify to petition for reinstatement into the business major, they must be in good standing according to University standards. Undergraduate business students seeking reinstatement to the CBA must reapply to the major through the impaction process.

Graduate students must complete a Reinstatement Petition obtained in the MBA Program Services (MPS). Graduate students must file the petition with the MPS, including an explanation with relevant documentation supporting their request for reinstatement. The CBA Academic Standards Committee will review the petition.

**Incomplete Grades**

Under certain conditions, students may request a grade of “Incomplete.” Students must be passing the course at the time an “Incomplete” is requested. The issuance of an “Incomplete” is appropriate only when required by University policy or in situations such as:

- the student misses a final exam for reasons that are fully justifiable in the eyes of the instructor; or
- the student was granted an extension of time to complete a class assignment.

Except in those cases specifically approved by University policy, the course instructor has sole discretion over what constitutes a fully justifiable reason for an “Incomplete.”

**Contract to Finish an Incomplete Grade**

A petition for Incomplete Grade must be submitted with both the student’s and course instructor’s showing the work to be completed, the basis by which the student’s final grade will be determined, the last date for completing the incomplete work, and the grade earned by the student at the time the petition was approved. All “Incomplete” grade petitions must be approved by the student, as indicated by the student’s signature and date of signing. The contract must also be signed by the course instructor.

**Open University Enrollment**

The CBA restricts the enrollment in 100-level business courses through Open University to only six (6) units. The purpose of Open University is to provide opportunity for individuals from the community to enroll in certain courses for purposes of professional development. Matriculating and/or matriculated students in a CBA degree program are not to use Open University. See the Undergraduate Business Advising Center (TAH-1030) for undergraduate courses.

**Simultaneous Course Enrollment**

Students may not enroll in two or more courses that are offered on the same day and at the same time. In very rare circumstances, and with approval of the course instructors and the Associate Dean for the Academic Programs, students may enroll in courses that overlap by no more than 15 minutes.

**Currency of Knowledge Requirement**

All students must have what is considered “currency of knowledge” in courses they apply towards an earned degree. This applies to both majors and minors within the CBA. Courses that do not satisfy the currency of knowledge requirement must be repeated.

**Currency of Course Prerequisites**

All current course prerequisites must have been completed within seven years of enrolling in any course having prerequisites. This currency requirement may be waived in cases where more advanced courses in the same area than the listed prerequisites have been completed in the last seven years with a grade of “C-” or better.

**Undergraduate Courses**

Lower division courses used to satisfy major or minor requirements must have been completed within seven years of the date of admission to the business major or minor. Upper division courses used to satisfy graduation requirements must have been completed within seven years of the date of graduation.

The CBA Academic Standards Committee may grant credit for courses taken beyond the seven year requirement for extensive experience in the area. The burden rests upon the applicant to demonstrate how his/her experience satisfies the requirement for currency.

**Graduate Courses**

All program requirements, excluding the Foundation courses, must be completed within seven years of the date of expected graduation.

During the admission cycle, courses used to fulfill Foundation course requirements must have been completed within seven years of the date of admission. The CBA Academic Standards Committee, however, may approve currency for Foundation courses taken beyond the seven year requirement if a request is so filed. Waiving of the seven year requirement shall be based on the relevancy, level of responsibility, and duration of the applicant’s work experience. The burden rests upon the applicant to demonstrate how his/her experience satisfies the requirement for currency.

**Course Transfer Credit Articulated Courses**

The CBA has articulation agreements with a number of community colleges. These agreements stipulate the CBA has agreed that certain identified undergraduate courses are deemed to be “equivalent” between the respective institutions, and therefore credit will be awarded for those courses taken at another (articulated) institution, towards a degree from Sacramento State. Approval of courses submitted for articulation is subject to currency of knowledge stipulations. See the following Web site for an up-to date list of articulated courses: www.assist.org (http://www.assist.org/web-assist/welcome.html).
Course Transfer Credit Non-Articulated Courses
Courses taken at an AACSB International accredited college of business will be accepted for transfer credit if the course is regarded as equivalent to the course for which credit is requested. Business core courses and concentration courses will not be accepted for transfer credit from programs that are not AACSB International accredited unless taken at institutions that have national or international reputations of high quality programs.

Petitions for equivalency for undergraduate, non-articulated courses must be submitted to the Undergraduate Business Advising Center (UBAC). Petitions for equivalency for graduate, non-articulated courses must be submitted to the Graduate Programs Office, TAHOE 1020. For all other CBA graduate programs contact the Graduate Programs Office. The CBA Academic Standards Committee will evaluate whether the institution satisfies the requirement of "national or international reputations of high quality programs." Subsequently, faculty in the appropriate area will make the final determination of course equivalency, e.g., content, method of instruction, method of evaluating students, and/or course duration.

Change of Major
The undergraduate Business Major is impacted. The students must meet the impaction criteria found at:
https://www.csus.edu/college/business-administration/undergraduate/impacted-major.html

Students who are declared in another major and wish to declare business as their minor, must fill a Minor Request Petition. Students must complete and return these petitions to the Undergraduate Business Advising Center, Tahoe Hall 1030. The deadline for the fall semester is March 1st; for the spring semester the deadline is October 1st.

ACCY 1. Accounting Fundamentals. 3 Units
Prerequisite(s): Entry Level Math (ELM) test of at least 36 or a CR grade in LS 7A.
Term Typically Offered: Fall, Spring

Accounting as the basis of an information system with emphasis on concepts and assumptions underlying data accumulation for financial reports. Includes the concepts of income determination and financial position, and the accounting for various types of ownership equities.

ACCY 2. Managerial Accounting. 3 Units
Prerequisite(s): ACCY 1.
Term Typically Offered: Fall, Spring

Use and reporting of accounting data for managerial planning, control, and decision making. Broad coverage of concepts, classification, and behavior of costs.

ACCY 111. Intermediate Accounting I. 3 Units
Term Typically Offered: Fall, Spring

In-depth knowledge of how financial information provides information about a company's: economic resources, obligations, and owner's equity; income and its components; and cash flows. Topics include the development and application of basic assumptions, principles and constraints underlying financial statements; the use of information derived from financial statements and the limitations of the information; and the use of accounting information to evaluate a company's return on investment, risk, financial flexibility, liquidity, and operational capability. Students learn how to prepare financial statements.

</table>
ACCY 195. Internship in Accountancy. 3 Units
Prerequisite(s): Completion of 15 units of upper division business courses at Sacramento State; minimum overall GPA of 2.75; instructor permission.
Term Typically Offered: Fall, Spring

Supervised work experience in accountancy for the purpose of increasing student understanding of the nature and scope of the operations of business, governmental, or service agencies. Supervision is provided by the faculty and the cooperating agencies.
Note: Open to declared business administration upper division majors only, subject to permission of the Accountancy Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.

Credit/No Credit

ACCY 196B. Exper Offer Accountancy. 3 Units
Prerequisite(s): AIS 141
Corequisite(s): ACCY 131
Term Typically Offered: Fall, Spring

A course in Accounting and Audit Analytics examines the changing technological environment in accounting and the role of data analytics in accounting. This course will help students to understand different structured and unstructured accounting data, and develop new analytic skills to make better accounting decisions. It will also improve student's ability to conduct audit analytical procedures, in accordance with financial reporting regulatory requirements.

ACCY 199. Special Problems in Accountancy. 1 - 3 Units
Prerequisite(s): Senior status or instructor permission.
Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work. Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030.
Note: Open to declared business administration majors only.

Credit/No Credit

ACCY 220. Accountancy Teaching Experience. 3 - 6 Units
Term Typically Offered: Fall, Spring

Supervised experience of teaching lower division accountancy courses. Students will teach one section of ACCY 1 or 2 for each three units of credit. They may teach no more than two classes (6 units of credit) during any semester and be under direct supervision of an appropriate coordinator. To be eligible, students must register for nine units in addition to ACCY 220 and must have approval of the Department Chair. May not be used to satisfy any requirements in the CBA graduate programs. No student may earn more than twelve (12) units cumulative. Credit/No Credit

ACCY 240. Integrated Accounting Concepts. 3 Units
Term Typically Offered: Fall, Spring

Designed for students who enter the Master of Science Accountancy program without a Bachelor of Science in Accountancy or students who need to refresh their basic skills and understanding in record keeping, financial statement preparation and analysis, ethics in the practice of accounting, and internal controls through the use of comprehensive case study/practice set. Delivered via independent project work rather than lecture.

ACCY 250. Financial Reporting I. 3 Units
Term Typically Offered: Fall, Spring

Corporate financial reporting to external users in accordance with US Generally Accepted Accounting Principles (GAAP), including financial information about a company's economic resources, obligations, owners' equity, income, case flow, and use of information to evaluate a company's return on investment, risk, financial flexibility, liquidity, and operational capability.

ACCY 251. Foundations of International Accounting. 3 Units
Prerequisite(s): ACCY 250 or equivalent.
Term Typically Offered: Fall, Spring

The role of culture in accounting; comparative international financial and managerial accounting fundamentals; international financial statement analysis; international accounting standards and U.S. GAAP convergence; international business combinations; foreign exchange; international auditing; international taxation; and international capital flows.

ACCY 260. Financial Reporting II. 3 Units
Prerequisite(s): ACCY 250.
Term Typically Offered: Fall, Spring

In-depth study of technical financial accounting issues including accounting for pensions and leases, income tax, accounting changes, consolidated financial statements, and foreign currency.

ACCY 261. Cost Analysis and Control. 3 Units
Term Typically Offered: Fall, Spring

Fundamentals of cost accounting concepts and practice relating to cost accumulation, control, and analysis for managerial planning and decision making. Specific topics generally include product costing, standards, cost allocation, estimation, budgeting, transfer pricing, and performance evaluation. Emphasis is on current issues.

ACCY 262. Auditing. 3 Units
Term Typically Offered: Fall, Spring

Study auditing as a control activity in society. It covers a variety of opportunities in the auditing profession including external auditing, internal auditing, compliance auditing, and operational auditing as well as fraud examinations. Topics include evidence and documentation, auditing computer systems, and internal controls.

ACCY 263. Governmental and Non-Profit Accounting. 3 Units
Term Typically Offered: Fall, Spring

This course provides an in depth study of accounting and reporting for state and local governmental and non-profit entities. The course emphasizes the governmental reporting environment, the accounting for various types of funds, the accounting aspects of budgetary control, and the preparation of governmental financial information to be included in the Comprehensive Annual Financial Report. This course also emphasizes the key differences between governmental and non-profit organizations, and the financial accounting and reporting for non-profit organizations.
ACCY 264. Taxation of Business Entities. 3 Units
Term Typically Offered: Fall, Spring
Covers the topics for corporate tax, partnership tax, estate and gift tax, and tax planning. Corporate tax includes taxation of transactions between corporations and their shareholders, transfers to corporations, dividends and non-liquidating distributions, stock redemptions, corporate liquidations, and S corporation. Partnership tax includes operation and liquidation, dissolution, sales, and exchange of partnership interests. Estate and gift tax addresses the types of transfers for federal gift tax.

ACCY 265. Advanced Accounting Information Systems Analysis and Controls. 3 Units
Term Typically Offered: Fall, Spring
Emphasis on the role of computer and information technology in the development, analysis, and operation of accounting information systems; may include advanced coverage of accounting transaction cycles, accounting systems planning and analysis, accounting system design, accounting systems implementation and operation, the accounting system internal control structure, data modeling and database design in accounting, computer fraud and security, and auditing of computer-based information systems.

ACCY 266. Business Environment and Concepts. 3 Units
Term Typically Offered: Fall, Spring
Designed to provide understanding of knowledge and skills necessary for the general business environment and business operation. In addition, students are required to apply that knowledge in performing professional responsibilities. Topics include corporate governance, business cycles, global economic markets, business strategy, effect of financial management policies on accounting transactions, economic substance of transactions and their accounting implications, and budgeting/forecasting techniques.

ACCY 269. Taxation of Individuals. 3 Units
Term Typically Offered: Fall, Spring
Covers the required topics for tax form preparation for reporting individual incomes. Examines fundamental concepts in tax law and the underlying reasons for income identification, exemption, and deduction.

ACCY 270. Tax Research and Procedure. 3 Units
Prerequisite(s): ACCY 172 or ACCY 269.
Term Typically Offered: Fall, Spring
Tax reporting and collection procedure; administrative and judicial procedures governing tax controversies; the rights and obligations of the taxpayer. Intensive training in performing and communicating tax research. Includes use of current database programs. Lecture basis, followed by "hands-on" application of research methods.

ACCY 271. Tax Accounting Periods and Methods. 3 Units
Prerequisite(s): ACCY 172 or ACCY 269.
Term Typically Offered: Fall, Spring
Concepts and principles of the overall cash, accrual and hybrid methods of tax accounting. Applications of specific methods such as: inventory costing and capitalization rules, installment sales, long-term contracts, and original issue discount/time value of money will be examined. Lecture format to present the underlying rules and concepts. Case studies will then be analyzed and discussed by the students to examine the topics in a "real-world" context.

ACCY 272. Taxation of Business Enterprises I - Corporations. 3 Units
Prerequisite(s): ACCY 172 or ACCY 269.
Term Typically Offered: Fall, Spring
Discusses federal tax law as it applies to corporations, including the following topics: special deductions, formation, distributions, and complete liquidations. Incorporates problem sets, case analysis, a corporate tax return project, and a research project to enhance analytical and critical thinking skills and compliance experience.

ACCY 273. Taxation of Business Enterprises II - Partnerships. 3 Units
Prerequisite(s): ACCY 172 or ACCY 269.
Term Typically Offered: Fall, Spring
Discusses general concepts, acquisitions and basis of partnerships interests, operations, transfers of partnership interests, and distributions. Incorporates problem sets, a partnership tax return project, and research projects to enhance analytical and critical thinking skills and compliance experience and to develop students' technical proficiency in the application of partnership concepts.

ACCY 274. Estate, Gift and Trust Taxation. 3 Units
Prerequisite(s): ACCY 172 or ACCY 269.
Term Typically Offered: Fall, Spring
Taxation of decedent's estate and lifetime gifts; valuation of property subject to estate and gift taxes; income taxation of estates and trusts; estate planning. Uses a lecture format to present the underlying rules and concepts. Case studies will then be analyzed and discussed by the students to examine the topics in a "real-world" context.

ACCY 275. International Wealth and Asset Management. 3 Units
Term Typically Offered: Fall, Spring
Importance of global asset protection and wealth management; domestic Statutory and case law authorities of selected European, American and Asian countries as they relate to wealth protection and asset management; bi-lateral international agreements relating to wealth management and asset protection; Multilateral agreement affecting wealth management and asset protection; tax and legal liability minimizing models.

ACCY 276. U.S. Taxation of International Transactions. 3 Units
Prerequisite(s): ACCY 272, Advanced to Candidacy.
Term Typically Offered: Fall, Spring
U.S. tax jurisdiction; U.S. source of income rules and related expense allocation; U.S. taxation of foreign taxpayers; transfer pricing issues; U.S. taxation of the foreign income of U.S. citizens and residents; cross border transactions; foreign currency tax issues; and U.S. bilateral tax agreements. Successful completion will satisfy the culminating experience for the MSBA/Taxation program. Students may select topics for their Master's projects that are outside the discipline topic of the class subject to the approval of the instructor.

ACCY 277. Comparative International Tax Systems. 3 Units
Term Typically Offered: Fall, Spring
The similarities and differences between current global tax systems including jurisdiction and conflict of laws issues; the role of bilateral international tax treaties and other international tax related agreements in business operations; international tax planning for individuals and multinational enterprise including corporations, partnerships and estates and trusts.
ACCY 278.  International and Multi-State Taxation.  3 Units
Term Typically Offered: Fall, Spring

Focuses on the taxation of cross-border transactions which encompasses discussion of the laws, rules, and regulations that affect transactions that cross both state and national borders. It covers various issues such as income sourcing and jurisdiction to tax. This course generally discusses these issues from the perspective of a U.S. person, but emphasizes and illustrates the general applicability of these rules for the tax regimes as established by other countries and states.

ACCY 280.  Management Control Systems.  3 Units
Term Typically Offered: Fall, Spring

Development of the concepts and practice of management control systems. How alternative accounting-based planning, performance motivation and evaluation, and control systems fit and are used in varying strategic, management, and operative environments. How systems focus and motivate managers’ decision behavior. How systems fit and are used in varying decision, competitive, and organization settings. Emphasis is on cases.

ACCY 295.  Internship in Accountancy.  3 Units
Prerequisite(s): Classified graduate status; minimum Sacramento State GPA of 3.0 required.
Term Typically Offered: Fall, Spring

Supervised work experience in business, governmental service, or agencies for the purpose of increasing and enhancing student understanding of the nature and scope of the organization’s accounting operations. Supervision is provided by the faculty and the cooperating agencies. Open to MS in Accountancy students. Petitions are obtained from Tahoe Hall 1035.
Credit/No Credit

ACCY 296.  Experimental Offerings in Accountancy.  3 Units
Term Typically Offered: Fall, Spring

When a sufficient number of qualified students apply, a faculty member may conduct a seminar on a designated advanced topic in accountancy.

ACCY 299.  Special Problems in Accountancy.  1 - 3 Units
Prerequisite(s): Classified graduate status.
Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work. Admission requires approval of faculty member under whom the individual work is to be conducted in addition to the approval from the Department Chair of Accountancy. Petitions to be obtained from the CBA Graduate Programs Office, Tahoe Hall 1037.
Credit/No Credit

ACCY 500A.  Thesis.  1 - 3 Units
Prerequisite(s): Advanced to candidacy; completion of MGMT 210 is required for the MBA only.
Term Typically Offered: Fall, Spring

Completion of a thesis approved for the Master’s degree.

ACCY 500B.  Project.  1 - 3 Units
Prerequisite(s): Advanced to candidacy; completion of MGMT 210 is required for the MBA only.
Term Typically Offered: Fall, Spring

Completion of a project approved for the Master’s degree.

ACCY 500C.  Comprehensive Examination for MS/Accountancy and MSBA/Taxation Degrees.  1 - 3 Units
Prerequisite(s): Advanced to candidacy. For comprehensive examination for MBA only (MGMT 500C, 1 unit), completion of Program Requirements (ACCY 240, MGMT 222, MGMT 223, MGMT 234, MGMT 280, MIS 221, OBE 252). For comprehensive examination for MS/Accountancy and MSBA/Taxation degrees, student must be in final semester of program.
Term Typically Offered: Fall, Spring

Note: MS Accountancy degree, student must be in final semester of program.

ACCY 501.  Culminating Experience Project in Accounting and Ethics.  3 Units
Prerequisite(s): Advancement to Candidacy
Term Typically Offered: Fall, Spring

Each student conducts an individual project to fulfill the culminating experience graduation requirement of the MS in Accountancy program as required in Title V of the CA Educational Code. The course also covers the development of ethical standards, ethical reasoning, AICPA Code of Professional Conduct, accountants’ professional responsibilities, financial reporting fraud and responses, corporate governance, and other relevant topics.
Note: May be repeated for credit

AIS 141.  Accounting Information Systems Development.  3 Units
Term Typically Offered: Fall, Spring

Design, analysis, and implementation of computer-based accounting information systems. Discussion of flow charting, data security, systems development, program architecture, and management of the implementation process. Development of computer applications and formulation of decision information for managerial uses. Use of the computer in projects.

AIS 142.  Enterprise and E-Commerce Accounting Models.  3 Units
Prerequisite(s): AIS 141 or instructor permission.
Term Typically Offered: Fall, Spring

Survey of Enterprise Resource Planning (ERP) models, Business-to-Business (B2B) E-commerce models, and the effects of the changing business and technology landscape upon the accounting profession. Topics include internal control, auditing, and economics relating to these new business-process models.

AIS 194.  Cooperative Education Experience in Accounting Information Systems Problems.  6 - 12 Units
Prerequisite(s): Minimum overall GPA of 2.75; instructor permission.
Term Typically Offered: Fall, Spring

In-depth supervised work experience in accounting information systems for the purpose of exposing the student to comprehensive Accounting Information Systems experience in business, governmental, or service agencies.
Note: Open to upper division students, subject to permission of the Accountancy Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.
Credit/No Credit
AIS 195. Internship in Accounting Information Systems. 3 - 6 Units
Prerequisite(s): Completion of 15 units of upper division business courses at Sacramento State; minimum GPA of 2.75 required; instructor permission.
Term Typically Offered: Fall, Spring

Supervised work experience in accounting information systems for the purpose of increasing student understanding of the nature and scope of the operations of business, governmental, or service agencies. Supervision is provided by the faculty and cooperating agencies.
Note: Open to declared business administration upper division majors only, subject to permission of the Accountancy Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.

Credit/No Credit

AIS 199. Special Problems in Accounting Information Systems. 1 - 3 Units
Prerequisite(s): Senior status or instructor permission.
Term Typically Offered: Fall, Spring

Individual accounting information systems projects or directed reading for students qualified to carry on independent work.
Note: Open to declared business administration majors only. Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030.

Credit/No Credit

BHON 102. Business Communication. 2 Units
Prerequisite(s): Admitted into Business Honors Program.
Term Typically Offered: Fall, Spring

Provides basic concepts for the understanding and practice of communication for managers and professionals. Examines the use of language and conversations in business settings and their role in coordinating actions, resolving breakdowns in work performance, and providing customer satisfaction. Topics include professional styles and formats of business writing and development of competence in business conversation skills (written, electronic and oral).

BHON 103. Business Legal Environment. 2 Units
Prerequisite(s): Admitted into Business Honors Program.
Term Typically Offered: Fall, Spring

Investigates substantive law and stresses critical thinking and analytical evaluation of contemporary business legal issues. Identifies ethical concerns and addresses potential legal problems. Topics include an introduction to the legal system, court procedures, contracts and sales, real and personal property, labor and employment law, product liability, and the government regulation of business.

BHON 104. Fundamentals of Organizational Behavior. 2 Units
Prerequisite(s): Admitted into Business Honors Program.
Term Typically Offered: Fall, Spring

The course provides students frameworks to deal and work with members of work organizations, and focuses on how individual, group and organization-level factors influence employee attitudes and behaviors. The course further discusses challenges people face in today's dynamic work environment and global settings.

BHON 105. Introduction to Management Information Systems. 2 Units
Prerequisite(s): Admitted into Business Honors Program.
Term Typically Offered: Fall, Spring

Explores the application of information technology in the organizational environment to assist in managerial decision making. Examines the alignment of IT and business strategy.

BHON 106. Business Data Analysis. 2 Units
Prerequisite(s): Admitted into Business Honors Program.
Term Typically Offered: Fall, Spring

Applies statistical methods to solve business problems and inform managerial decision making. Topics include data analysis, statistical reasoning, model building and communication of statistical results. A statistical computer package is used in this course.

BHON 107. Business Finance. 2 Units
Prerequisite(s): Admitted into Business Honors Program.
Term Typically Offered: Fall, Spring

Study of principles of finance and their application to typical financial problems of business enterprises. Topics include financial analysis, management of working capital, capital budgeting, long-term financing, dividend policy, internal financing, and time value of money.

BHON 108. Fundamentals in Business. 2 Units
Prerequisite(s): Admitted into Business Honors Program.
Term Typically Offered: Fall, Spring

An introduction to marketing concepts and principals. Examines the marketing function, its relationships with other business functions, and its role in the US and global economies.

BHON 109. Operations Management. 2 Units
Prerequisite(s): Admitted into Business Honors Program.
Term Typically Offered: Fall, Spring

Introduces the basic concepts and methods used to analyze and improve operation performance in manufacturing and service organizations. Topics include operations strategy, process design and capacity management, inventory management, supply chain management, and operations planning and control.

BHON 110. Business Intelligence. 3 Units
Prerequisite(s): BHON 102, BHON 104, BHON 105, BHON 106, BHON 107, BHON 108, BHON 109
Term Typically Offered: Fall, Spring

Focuses on enterprise problem solving and decision making using information technology, and data and financial analyses for mission critical and integral applications in planning and control. Alternative solutions are examined and evaluated for their effectiveness in achieving results.

BHON 130. Value Chain and Supply Chain Management. 3 Units
Prerequisite(s): BHON 102, BHON 104, BHON 105, BHON 106, BHON 107, BHON 108, BHON 109
Term Typically Offered: Fall, Spring

Methods used for developing effective organizational value chains that integrate strategic planning, procurement, R&D, production, warehousing, distribution, and customer service to support business strategy. Includes critical decisions surrounding various organizational stakeholders, such as customer and supplier management, and the movement of goods and information throughout a supply chain network.
BHON 140. Enterprise Resource Planning and Infrastructure. 3 Units
Prerequisite(s): BHON 102, BHON 104, BHON 105, BHON 106, BHON 107, BHON 108, BHON 109
Term Typically Offered: Fall, Spring
Examines the design, planning, implementation and impact of enterprise-wide systems on the organization and infrastructure. Focuses on the integration and coordination of all facets of business, including production, accounting, finance, human resources, and marketing to improve the organization’s resource planning, and management and operational control.

BHON 150. Entrepreneurship and Innovation. 3 Units
Prerequisite(s): BHON 102, BHON 104, BHON 105, BHON 106, BHON 107, BHON 108, BHON 109
Term Typically Offered: Fall, Spring
An application based course that provides a broad understanding of the new venture processes. Discusses fundamental tools and skills necessary to create, run, and grow a successful new venture. Offers a multidisciplinary framework for studying and developing innovative and creative capabilities of entrepreneurs.

BHON 160. Project Management. 3 Units
Prerequisite(s): BHON 102, BHON 104, BHON 105, BHON 106, BHON 107, BHON 108, BHON 109
Term Typically Offered: Fall, Spring
Methods and processes used for planning, controlling and managing projects. Includes project selection and scope, scheduling methodologies, economic analysis, the use of software, and life-cycle costing for managing different phases of projects. Emphasis on effective management of projects to achieve operational, managerial and strategic goals of organizations.

BHON 170. Strategy and Leadership. 3 Units
Prerequisite(s): BHON 102, BHON 104, BHON 105, BHON 106, BHON 107, BHON 108, BHON 109
Term Typically Offered: Fall, Spring
An introduction to traditional and contemporary theories of business strategy, corporate strategy and strategic leadership. Compares and contrasts theories in strategy and styles of strategic leadership through case studies, current research, and conversations with business leaders.

BHON 190. Practicum in Business. 1 Unit
Prerequisite(s): Currently enrolled in the business honors program.
Term Typically Offered: Fall, Spring
A series of forums that exposes students to practical business issues that have significant impact on the enterprise. Discussions with managers who have effectively led planning and operations. Compares and contrasts business concepts and principles to their practical applications.
Credit/No Credit

BUS 162. Project Management. 3 Units
Prerequisite(s): MGMT 102.
Term Typically Offered: Fall, Spring
Processes, methodologies, tools, techniques, software, economic analysis, and life-cycle costing for managing different phases of projects. Emphasis on effective management of projects to achieve operational, managerial, and strategic goals of organizations.

DS 101. Data Analysis for Managers. 3 Units
Prerequisite(s): MATH 24, STAT 1; must be a business pre-major, business major (any concentration), or business minor, and have at least sophomore standing
Term Typically Offered: Fall, Spring
Second course in business statistics that focuses on the application of statistical methods to business problems. Emphases are placed on case studies, data analysis, model building techniques, statistical reasoning, and communications of statistical results. A statistical computer package will be used in the course.

DS 110. Data Mining for Business Analytics. 3 Units
Prerequisite(s): DS 101 or STAT 103 or ENGR 115 or equivalent. Business, Computer Science, and Mathematics are approved majors to enroll in the course.
Term Typically Offered: Fall, Spring
Data mining methods including data visualization, classification (logistic regression, discriminant analysis), tree-based methods, cluster analysis, principle components analysis, factor analysis, neural networks, classification and regression trees, and facilitated through software. Focus on applications in the business environment.

ENTR 185. Venture Growth Strategies. 3 Units
Prerequisite(s): MATH 24, STAT 1; must be a business pre-major, business major (any concentration), or business minor, and have at least sophomore standing.
Term Typically Offered: Fall, Spring
Introduction to management science techniques for the solution and analysis of management problems. Topics include mathematical programming, decision theory, analysis of waiting lines, simulation, and Markov processes.

ENTR 187. Entrepreneurship. 3 Units
Term Typically Offered: Fall, Spring
Objective is to lead students through all steps necessary in starting a business: analyzing personal and business goals, researching the market, developing a marketing plan, determining land, building, equipment, supplies, inventory, people needed, determining cash flow and pro forma financial statements, and money needed. The output of all this will be a professional business plan and financial package ready to submit to prospective investors.
FIN 138. Principles of Risk Management and Insurance. 3 Units
Prerequisite(s): Must be a business major (any concentration) or Health Science major (Occupational Health & Safety concentration) or Real Estate & Land Use Affairs minor or a Risk Mgmt & Insurance minor
Term Typically Offered: Fall, Spring

Study of the concept of pure risk and its implications for decision making. Provides business students the basics of risk theory and its application to risk management or insurance purchasing using a personal consumer's viewpoint. Practical personalized examples and cases will be used to illustrate risk decision making, primarily on a personal basis, but also in selected business decisions. Topics include risk theory, social insurance, life insurance, pensions, medical coverage, workers' compensation, property insurances, and liability insurances. Ideal as a supplement to any business major, especially those making risk management or insuring decisions, including insurance company personnel, investment counselors, financial managers, real estate majors, employee benefits/personnel specialists, pre-law, and Occupational Health & Safety.

FIN 139. Business Property and Liability Insurance. 3 Units
Prerequisite(s): FIN 138 or instructor permission.
Term Typically Offered: Fall, Spring

Concentrated and analytical approach to the study of property and liability loss exposures for the business enterprise. While the emphasis is on the different types of business insurance coverage’s, a risk management approach and examples are used. Topics include business property insurances; liability, especially workers’ compensation; the SMP and CGL contracts; business auto, crime coverage’s; bonds; transportation insurance; consequential coverage’s; and capacity and other related marketplace problems. Case studies and problems, as well as a computer analysis are used. The course is an excellent supplement for insurance, finance, real estate and pre-law majors, small business owners, and anyone who will be making business financial decisions, or providing insurance products in the insurance industry. Successfully completing FIN 138 and 139 substitutes for the one-year experience requirement for those interested in taking the Insurance Broker’s Licensing Exam.

FIN 140. Employee Benefits. 3 Units
Prerequisite(s): FIN 138 or instructor permission.
Term Typically Offered: Fall, Spring

Intensive and analytical examination of the employee benefit planning environment and its risk exposures. Using a risk management approach, the topical areas studied include mandatory programs, especially OASDHI and ERISA; health care; group life and disability; retirement income and capital accumulation plans; paid time off; family-centered benefits; flexible benefits and cafeteria plans; and benefit cost information. Case studies and extensive contact with the business community as well as team projects are required. This is an important class for specialists in human resources management, especially personnel, pre-law, and health care or those who will be providing insurance products to fulfill employment benefit needs.
FIN 141. Managerial Real Estate Law. 3 Units
Prerequisite(s): FIN 19
Term Typically Offered: Fall, Spring
Examination of the decision making process in land utilization transactions relative to the minimization of risks of legal confrontation. Traditional conflicts underlying real estate transactions are examined and principles of preventive law are derived. The management of litigation and transaction attorneys is considered. Court remedies that are pertinent to land utilization transactions are analyzed and compared to nonjudicial alternatives.

FIN 142. Real Estate Finance. 3 Units
Prerequisite(s): FIN 19 or ACCY 121 or FIN 101 or ENGR 140; Business Majors only
Term Typically Offered: Fall, Spring
Examination of the mechanisms of real estate finance, sources of funds, loan contracts, principles of mortgage risk analysis, and the role of group equity investment. The evolution of secondary mortgage markets, government policy, and market interference will be investigated from a risk management standpoint.

FIN 143. Real Estate Investment. 3 Units
Prerequisite(s): FIN 19 or ACCY 121 or FIN 101 or ENGR 140; business majors only
Term Typically Offered: Fall, Spring
Analyzes non-financial and financial factors influencing investment decision making in income producing property. Topics include: location and its linkages; methods of estimating demand for real estate; methods for evaluating competing supply; use of market analysis in decision making; development of cash flow statements, alternative investment criteria, risk, legal, financing, and tax analysis, operating, financing investment and reversion decisions.

FIN 144. Real Estate Market Analysis. 3 Units
Prerequisite(s): FIN 19 or FIN 101; must be BSBA major or RELU minor
Term Typically Offered: Fall, Spring
Introduction to real estate markets, economic analysis of property markets, and impact of local governments on real estate markets. Topics include space and asset markets; location, land use and competitive bidding; land markets, housing markets, and site selection; economic growth and real estate markets, office, retail, and industrial markets; impact of local governments on real estate markets; tools of market analysis, computer applications and geographic information systems.

FIN 145. Real Estate Development and Land Use. 3 Units
Prerequisite(s): FIN 19 or FIN 101; must be BSBA major or RELU minor
Term Typically Offered: Fall, Spring
Process of real estate development and the federal and state laws that regulate development. Topics may include creating industrial real estate, office space, shopping centers, and hotel/recreation facilities, strategy, market and feasibility analysis; site planning/design; capital cost analysis; construction; financial structuring; federal and state laws that regulate environment impact; land use and real estate development. Emphasis on case studies and a project analysis.

FIN 149. Current Topics in Real Estate. 3 Units
Prerequisite(s): FIN 19 or FIN 101; must be BSBA major or RELU minor
Term Typically Offered: Fall, Spring
Examines contemporary and emerging issues in real estate trends, space and asset market equilibrium, land use controls and regulation, market analysis, mortgage markets, property markets, real estate cycles, real estate development, real estate finance and investments, real estate securities, and/or real estate taxation. Use of computer software and applications are emphasized to understand real estate analytics and geographic information systems applications to real estate data.

FIN 150. Capstone in Professional Financial Planning. 3 Units
Prerequisite(s): ACCY 171, FIN 135, FIN 136, FIN 138 and FIN 140; FIN 136 and/or FIN 140 may be taken concurrently.
Term Typically Offered: Spring only
This course will engage the student in critical thinking and decision-making about personal financial management topics in the context of the financial planning process. The purpose of this course is to refine and develop skills needed for personal financial planners when working with individuals, families, and business owners in meeting financial needs and objectives.

FIN 160. Student Investment Fund Management. 3 Units
Prerequisite(s): FIN 135 with a final posted grade of B- or higher; must be in BSBA major or minor
Term Typically Offered: Fall, Spring
Students will manage a real investment portfolio by applying theories of investment analysis and portfolio management. Topics include economic analysis, valuation theories, risk measurement and management, performance measurement, and benchmarking.

FIN 190. Multinational Business Finance. 3 Units
Prerequisite(s): FIN 101 or instructor permission. Prior additional course in finance or international business recommended but not required.
Term Typically Offered: Fall, Spring
Principles of international financial management. Issues covered include the international environment of financial management, uses of foreign exchange spot, forward, futures, options, and swap markets, foreign exchange risk management, international investment and financing decisions.

FIN 194. Cooperative Education Experiences in Real Estate. 6 - 12 Units
Prerequisite(s): FIN 19, FIN 142 and a minimum overall GPA of 2.5; Business major only
Term Typically Offered: Fall, Spring
In-depth supervised work experience in Real Estate and Land Use Affairs. This supervised work experience allows the student to become familiar with the practices of the real estate industry and/or governmental agencies.

Note: Open to all upper division students subject to permission. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.

Credit/No Credit
FIN 195. Internship In Finance. 3 Units
Prerequisite(s): Minimum Sacramento State GPA of 2.5.
Term Typically Offered: Fall, Spring

Supervised work experience in business, governmental or service agencies for the purpose of increasing student understanding of the nature and scope of their operations. Supervision is provided by the faculty and the cooperating agencies.
Note: Open to upper division students, subject to permission of the Finance Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065. Open to declared business administration majors only.

Credit/No Credit

FIN 195A. Internship in Real Estate and Land Use Affairs. 3 - 6 Units
Prerequisite(s): FIN 19 and FIN 142. Minimum Sacramento State GPA of 2.5 required; open to declared business administration majors only
Term Typically Offered: Fall, Spring

Supervised work experience in business, governmental or service agencies for the purpose of increasing student understanding of the nature and scope of their operations. Supervision is provided by the faculty and the cooperating agencies. Open to upper division students, subject to permission. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.

Credit/No Credit

FIN 196A. Exper Offer Finance. 3 Units
Prerequisite(s): FIN 135 with a final posted grade of B- or higher and instructor's consent.
Term Typically Offered: Fall, Spring

Students will manage a real investment portfolio by applying theories of investment analysis and portfolio management. Topics include economic analysis, valuation theories, risk measurement and management, performance measurement, and benchmarking.

FIN 199. Special Problems in Finance. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.
Note: Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030.

Credit/No Credit

FIN 200. Financial Reporting and Analysis. 3 Units
Term Typically Offered: Fall, Spring

Designed for business students with prior knowledge of accounting who intend to use corporate financial statements intensively in valuation, credit or equity analysis, or strategic competitor analysis. Topics include inventory, pensions, business combination, income tax and other current issues for their impacts on financial statement. Emphasis on financial statement analysis and interpretation of financial disclosures for improving risk assessment, forecasting, and decision-making.

FIN 210. Financial Institution Management. 3 Units
Term Typically Offered: Fall, Spring

Develop an understanding of the theory and practice of the management of financial institutions. Emphasis is placed on risk measurement and management. Financial institutions include commercial banks, investment banks, savings banks, credit unions insurance companies and financial companies such as mutual funds.

FIN 220. Corporate Finance. 3 Units
Term Typically Offered: Fall, Spring

Investigate the principles that corporations use in their investing, financing, and day-to-day management decisions. Topics include financial statement analysis, capital investment decision, capital structure, dividend policy, mergers and acquisitions, corporate governance and its impact on valuation.

FIN 230. Equity Analyses. 3 Units
Term Typically Offered: Fall, Spring

Covers advanced concepts and techniques essential to asset valuation. Key topics include, but not limited to, free cash flow, price multiples, asset-based and contingent claim valuations. Applications of various valuation techniques are emphasized. Provides a framework for selecting the most appropriate model for specific circumstances.

FIN 240. Fixed Income. 3 Units
Term Typically Offered: Fall, Spring

Discuss a wide range of fixed income products. Topics include trading concepts and mechanics, pricing, duration, convexity, term structure of interest rates, and options embedded fixed income securities.

FIN 250. Derivatives. 3 Units
Term Typically Offered: Fall, Spring

Discuss major types of financial derivatives and derivative markets. Topics include forward contracts, futures, options, SWAP's and credit derivatives. Emphasis on characteristics, trading process, pricing, parity conditions, risk involved, and investment strategies for different financial derivatives.

FIN 260. Alternative Investments. 3 Units
Term Typically Offered: Fall, Spring

Discuss major types of alternative investments including real estate, hedge funds, commodities, private equity, and venture capital. Emphasis on the technical aspects and the performance analyses of alternative investments, their advantages and disadvantages, role of alternative investments, and strategies of selection.

FIN 270. Portfolio Management. 3 Units
Term Typically Offered: Fall, Spring

Cover topics of asset management utilizing the major aspects of Markowitz portfolio theory, Capital ASSET Pricing Model, and Arbitrage Pricing theory. Discuss the comprehensive approach, starting with portfolio construction and asset selection, following with portfolio performance evaluation, and concluding with rebalancing strategies. Introduce and utilize worksheet modeling techniques which are useful for portfolio management.

FIN 280. Global Financial Markets. 3 Units
Term Typically Offered: Fall, Spring

Cover advanced concepts and applied techniques essential to understand the mechanism of the global financial markets. Key topics include global capital allocation, international tax management, foreign exchange markets, derivatives, parity relationships, and others. Focuses on the core concepts and techniques are applied in the global financial markets using different case studies. Integrate the key principles of finance and extends them to a multinational setting. Topics follow the Chartered Financial Analyst (CFA) Level 1 and 2 Exam on equity valuation.
FIN 299. Special Problems in Finance. 3 Units
Prerequisite(s): Classified graduate status or instructor approval
Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.
Note: Enrollment requires approval of faculty member supervising work in addition to the approval of the Associate Dean for Graduate and External Programs; 6 units maximum; May be repeated for credit.

FIN 500. Culminating Experience Project in Finance and Ethics. 3 Units
Prerequisite(s): Advancement to candidacy; 12 units of any combination of the following courses: FIN 200, FIN 210, FIN 220, FIN 230, FIN 240, FIN 250, FIN 260, FIN 270 and FIN 280.
Term Typically Offered: Fall, Spring

Each student conducts an individual project to fulfill the culminating experience graduation requirement of the MS in Finance program as required in Title V of the CA Educational Code. The course also covers the ethical conducts and professional standards as outlined in CFA institute standards.
Note: May be repeated for credit

GM 105. Strategic Management. 3 Units
Prerequisite(s): Completion of all other upper-division core courses, except MIS 101.
Term Typically Offered: Fall, Spring, Summer

This capstone course focuses on the integration of functional areas of a business and requires students to determine strategies/policies at the general-management level. Students address problems and issues faced by companies from a general management perspective which integrates accounting, financial, marketing, human resources, and operations in relation to the environment within a framework of balance between profit or cost-effectiveness and social responsibility.

GM 170. Fundamentals of Business Strategy. 3 Units
Prerequisite(s): HROB 101, MKTG 101, FIN 101, and OPM 101.
Term Typically Offered: Fall, Spring

Basics of business-level strategy and how they are applied in modern organizations. Underlying primary principles, theories and practices are examined and discussed. Cases presenting actual, real-world situations will be analyzed to derive solutions to the business-level opportunities and problems facing strategic managers.
Note: General Management students must complete all functional core courses before taking GM 170.

GM 194. Cooperative Education Experience in Management. 6 - 12 Units
Prerequisite(s): Minimum overall GPA of 2.5.
Term Typically Offered: Fall, Spring

In-depth supervised work experience in management for the purpose of exposing the student to comprehensive management experience in business, governmental, or service agencies.
Note: Open to all upper division students, subject to permission of the Management Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.
Credit/No Credit

GM 195. Internship in Strategic Management. 3 Units
Prerequisite(s): Minimum Sacramento State GPA of 2.5.
Term Typically Offered: Fall, Spring

Supervised work experience in business, governmental or service agencies for the purpose of increasing student understanding of the nature and scope of their operations. Supervision is provided by the faculty and the cooperating agencies.
Note: Open to upper division students, subject to permission of the Management Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065. Open to declared business administration majors only.
Credit/No Credit

GM 199. Special Problems in Strategic Management. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.
Note: Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030.
Credit/No Credit

HROB 101. The Management of Contemporary Organizations. 3 Units
Term Typically Offered: Fall, Spring

Overview of managerial and organizational theory and practice, including a discussion of the contingencies that influence an organization’s effectiveness and efficiency. Focus is on the decision making and problem-solving processes that affect managerial performance in planning, implementing, and controlling the work of contemporary organizations.

HROB 151. Management of Human Resources. 3 Units
Term Typically Offered: Fall, Spring

Seminar covering contemporary processes and practices pertaining to the organization and management of personnel including employee selection, development, motivation, evaluation and remuneration, and union relations. Emphasis on the management of human resources in task oriented organizations. Instructional method provides for case method, laboratory exercises, and small group discussion.

HROB 152. Management Skills Seminar. 3 Units
Prerequisite(s): HROB 101; HROB 151 recommended.
Term Typically Offered: Fall, Spring

Development of management awareness of the dynamics of organizational behavior. Emphasis on case discussions, small group action and role playing for the acquisition of knowledge and skills for effective managing and changing in an organization.

HROB 153. Employment Law. 3 Units
Term Typically Offered: Fall, Spring

Provides students with an overview of the employment laws that impact and influence the workplace including laws regarding employment discrimination, disability discrimination and accommodation, employment leaves of absence, workplace harassment, employment torts and contracts, wage/hour regulations, employee privacy, intellectual property in the employment setting, and other emerging issues in employment law and personnel management. The impact of law on the management of human resources will be the focus of this class.
HROB 154. Strategic Human Resources Management. 3 Units
Prerequisite(s): HROB 151, HROB 152, HROB 153.
Term Typically Offered: Fall, Spring

The objective of this capstone course is to identify contemporary strategies to improve individual and organizational performance. Utilizes a strategic human resource management perspective and incorporates Human Resource Management and Organizational Behavior theories for practical implementation in organizations. Links such concepts as compensation, performance management, law, conflict management, communication, diversity, ethics, and managerial skill building towards preparing for the future of managing individuals in organizations.

HROB 155. Conflict Management and Negotiation. 3 Units
Term Typically Offered: Fall, Spring

Analyzes conflict in organizations, and strategies and processes for effective settlement or resolution of that conflict. Emphasis on the practical aspects of institutional and extra-institutional processes outside the conventional legal system. These dispute resolution methods include negotiation, mediation, arbitration and fair hearing. Students participate in a variety of exercises including simulated negotiations. Through these exercises students explore the basic theoretical models of bargaining and test and improve individual negotiation skills. Class format includes lecture, class discussion, simulation/role-play, expert guests and video demonstrations.

HROB 156. Current Trends and Emerging Issues. 3 Units
Term Typically Offered: Fall, Spring

Designed to provide an in-depth examination of current trends and emerging issues in human resources management and/or organizational behavior. Provides students the opportunity to better understand the latest people-related challenges organizations face. Instructional method provides for case method, group discussion, industry guest speakers, and classroom exercises.

HROB 157. Labor Relations. 3 Units
Term Typically Offered: Fall, Spring

Employer-employee relations in historical and contemporary contexts, with emphasis on the development of labor and management institutions and philosophies, public policies, collective bargaining, and contract administration in the private and public sectors.

HROB 158. Special Topics in Human Resource Management. 3 Units
Term Typically Offered: Fall, Spring

Designed to provide an in-depth examination of a current human resource management topic(s), from both a theoretical and practitioner perspective. Possible topics include, but are not limited to, outsourcing and staffing trends, merit-based performance and compensation plans, technology-based recruiting and selection practices, and innovations in training and career development. Instructional method provides for case method, group discussion, industry guest speakers, and classroom exercises.

HROB 159. Special Topics in Organizational Behavior. 3 Units
Term Typically Offered: Fall, Spring

Designed to provide an in-depth examination of a current organizational behavior topic(s), from both a theoretical and practitioner perspective. Topics include, but are not limited to, family-work relations, stress and burnout, workplace aggression, leadership and motivation, organizational politics and culture, attitudes and change, and organizational learning. Instructional method provides for case method, group discussion, industry guest speakers, and classroom exercises.

HROB 194. Cooperative Education Experiences in Human Resources Management. 6 - 12 Units
Prerequisite(s): HROB 151 and a minimum overall GPA of 2.5.
Term Typically Offered: Fall, Spring

In-depth supervised work experience in human resources management. This supervised work experience allows the student to become familiar with the practice of human resources management in businesses or governmental agencies.

Note: Open to all upper division students subject to permission of the Management Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.

Credit/No Credit

HROB 195. Internship in Human Resources Management. 3 Units
Prerequisite(s): Minimum Sacramento State GPA of 2.5 required.
Term Typically Offered: Fall, Spring

Supervised work experience in business, governmental or service agencies for the purpose of increasing student understanding of the nature and scope of their operations. Supervision is provided by the faculty and the cooperating agencies. Open to upper division students, subject to permission of the Management Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.

Note: Open to declared business administration majors only.

Credit/No Credit

HROB 199. Special Problems in Human Resources Management. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work. Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030.
Credit/No Credit

IBUS 180. Sustainability Business in Global Economy. 3 Units
Term Typically Offered: Fall, Spring

Introduces students to the emerging field of sustainability in business and the growing focus on the social, environmental, and economic performance of businesses in global economy. The course presents scientific, moral, and business cases for adopting sustainability.

IBUS 190. International Business. 3 Units
Term Typically Offered: Fall, Spring, Summer

Analyzes international business: foreign markets; export-import trade; licensing agreements; foreign exchange problems; role of the multinational firm; intergovernmental trade agreements; balance of payments; decision making in foreign environments.
IBUS 195. Internship in International Business. 3 Units
Prerequisite(s): Minimum Sacramento State GPA of 2.5.
Term Typically Offered: Fall, Spring

Supervised work experience in business, governmental or service agencies for the purpose of increasing student understanding of the nature and scope of their operations. Supervision is provided by the faculty and the cooperating agencies.

Note: Open to upper division students, subject to permission of the Management Area. Open to declared business administration majors only. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.

Credit/No Credit

IBUS 199. Special Problems in International Business. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.

Note: Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Center, Tahoe 1030.

Credit/No Credit

MBA 201. Accounting. 2 Units
Term Typically Offered: Fall, Spring

Concepts and models of financial accounting are introduced. Included are the analysis, interpretation and reporting of financial events.

MBA 202. Business Communication. 2 Units
Term Typically Offered: Fall, Spring

Stresses fundamental communication principles and techniques for effective business writing in diverse managerial situations. Participants complete a variety of writing activities, including responding to management communication cases and evaluating written communications using holistic and analytic tools. Within this context, participants are provided an opportunity to achieve an understanding of syntactical and grammatical patterns while improving analytical and logical business writing skills.

Note: This requirement will be waived for students who achieve a score of 4.5 or higher on the Analytical Writing Assessment (AWA) exam. Graduate Writing Intensive (GWI) course.

MBA 203. Legal Environment of Management. 2 Units
Term Typically Offered: Fall, Spring

Intensive study of important aspects of law for managers, including law as an instrument of social and political control. Analyzes selected problems in areas of private law such as contract, tort, business organizations, and agency. In addition, selected issues of administrative law and government regulation of business will be investigated.

MBA 204. Management and Organization Concepts. 2 Units
Term Typically Offered: Fall, Spring

Evolution of management and organization thought; examination of behavioral science variables influencing working relationships among managers, individuals and groups; the study of political and social behavior in organizations; identification, analysis, and synthesis of contemporary concepts and administrative practices; investigation of organization structure, function, and properties leading to an understanding of administration and organization.

MBA 205. Introduction to Managerial Issues in Information Technology. 2 Units
Term Typically Offered: Fall, Spring

Explores from a management perspective, the impact of IT on individuals, organizations, and society. Focuses on how organizations use information systems to solve strategic and operational problems. Topics may include functional information systems, decision support systems, enterprise systems, interorganizational information systems, e-commerce, and business analytics. The relationship between managers and IT personnel will be defined. May include case studies and appropriate software packages.

MBA 206. Managerial Statistics Analysis. 2 Units
Term Typically Offered: Fall, Spring

Computer-based course in data analysis. Business case studies are used to differentiate between common and specific sources of statistical variation and to construct statistical models such as multiple regression, times series, and statistical quality control. Emphasis is placed on intuitive statistical thinking and communication of results.

MBA 207. Finance. 2 Units
Prerequisite(s): ECON 204, MBA 201, MBA 206.
Term Typically Offered: Fall, Spring

Theory and practice in determining the need for, the acquisition of, and the use of funds by organizations. Topics include time value of money, financial analysis, management of working capital, cost of capital, capital budgeting, long-term financing, dividend policy, and internal financing.

MBA 208. Marketing. 2 Units
Prerequisite(s): ECON 204, MBA 201, MBA 203.
Term Typically Offered: Fall, Spring

Application of decision making in solving marketing problems; such as product, place, promotion and price decisions with reference to consumers and users.

MBA 209. Production and Operations Analysis. 2 Units
Prerequisite(s): ECON 204, MBA 201, MBA 206.
Term Typically Offered: Fall, Spring

Study of operational systems; fundamental concepts, tools, and methodologies required to analyze and solve problems of the operations manager. Topics include: work design, facilities design, scheduling, quality control, and inventory management.

MBA 210. Managerial Accounting. 3 Units
Term Typically Offered: Fall, Spring

Management accounting data characteristics and application to internal decisions made by managers. Topics cover management accounting as a tool of business management. Topics generally include product costing, managers’ use of accounting data in specific decision frameworks, performance evaluation, and relevant versus strategic analysis. Class participation is encouraged.

MBA 220. Financial Management. 3 Units
Term Typically Offered: Fall, Spring

Financing of corporations and management of corporate resources, short-term and long-term, stressing maximizing shareholder wealth. The case method is used extensively. Both oral and written communication skills are stressed.
MBA 221. Financial Markets. 3 Units
Prerequisite(s): MBA 220 or instructor permission.
Term Typically Offered: Fall, Spring
Behavior of equity, debt, currency, and derivatives markets and the linkages between these markets. Presents the principles of valuations of instruments traded in these markets and the use of these instruments to investors, speculators, hedgers and arbitrageurs.

MBA 222. Security Analysis and Portfolio Management. 3 Units
Term Typically Offered: Fall, Spring
Evaluation of stocks and bonds from the investor’s viewpoint. Interpretation of stocks’ financial statements to estimate potential future earnings and dividends; and evaluation of the securities’ risks and expected returns through analysis of economic, industry and market environment in order to develop conclusions as to the securities’ suitability for inclusion in various types of portfolios. Ethical issues faced by practicing security analysts and portfolio managers.

MBA 223. Asset Valuation. 3 Units
Prerequisite(s): MBA 220 or instructor permission.
Term Typically Offered: Fall, Spring
Advanced concepts and techniques essential to asset valuation. Key topics include, but not limited to, free cash flow, price multiples, asset-based and contingent claim valuations. Applications of various valuation techniques are emphasized.

MBA 224. Advanced Investment Strategies. 3 Units
Prerequisite(s): MBA 222 (may be taken concurrently) or permission of instructor.
Term Typically Offered: Fall, Spring
Theoretical and empirical applications of fund formation models. Emphasis is placed on model development strategies based on analyzing secondary sources of financial data. The quality of models is assessed in terms of their logical consistency, robustness of underlying theoretical assumptions, and predicative power. Development, analysis and predicative assessment are conducted within the Excel environment.

MBA 225. Financial Aspects of Health Care Administration. 3 Units
Term Typically Offered: Fall, Spring
Financing in health care institutions will be studied; including planning and control features involving budgets, funds flow, funding sources, and factors affecting finance in the health care industry. Analyzes will be made of the relationships and effects on health care finance of such factors as labor, business, government, insurance, research, and demography.

MBA 230. Behavior Science Applications in Management. 3 Units
Term Typically Offered: Fall, Spring
Behavioral science theories, concepts, and practices in current use in private and public organizations. Critical evaluation of research supporting those practices.

MBA 231. Managing in High Performance Work Organizations. 3 Units
Term Typically Offered: Fall, Spring
This course focuses on contemporary problems, issues, and objectives relating to the value of collaboration with control in maximizing human capital effectiveness in high performance work organizations. Course work will include research projects, experiential case studies and in-class simulations to help students better understand human capital effectiveness and learn how to serve multiple stakeholders’ interests across different sectors such as private, public, healthcare and information technology.

MBA 232. Negotiation and Relationship Management. 3 Units
Term Typically Offered: Fall, Spring
Investigation of the formal and informal methods of dispute resolution including negotiating, litigation, administrative hearings, arbitration, mediation, ombudsperson, summary jury trial, private judging, and fact finding. Emphasizes the application of these methods to organization, business, and public sector disputes.

MBA 233. Seminar in Organization Development. 3 Units
Prerequisite(s): MBA 230 or equivalent.
Term Typically Offered: Fall, Spring
Seminar focusing on individual and organization responses to a changing environment. Includes assumptions and values of organization development; action research; personal, team and intergroup interventions; consultant-client relationships and instrumentation. Cases, laboratory experience, workshop and field analysis techniques are utilized.

MBA 234. Industrial Relations. 3 Units
Term Typically Offered: Fall, Spring
Dual approach emphasizing in-depth analysis of both the philosophical and the practical aspects of industrial relations. The impact of social, economic, and political forces, and their interaction with union and management institutions and public policies. Analyzes relationships between organized employees and employers, the bargaining process, strategies and issues, contract administration, and impasse resolution processes.

MBA 235. Management Of Innovation. 3 Units
Term Typically Offered: Fall, Spring
Synthesis of specialized problems relating to the acquisition, introduction, and utilization of innovations and technological advances by managers in business, industry, government, profit or nonprofit organizations. Current research, thinking methodology dealing with the economics and social impact, sources, barriers, and transfer mechanisms of innovations and technological advances will be investigated.

MBA 236. Current Topics and Processes in Organizational Development. 3 Units
Term Typically Offered: Fall, Spring
Explores contemporary frameworks for dealing with change in today's organizations. Contemporary processes and topics are presented in the context of these frameworks. Lectures and readings may be supplemented by experiential work and firsthand observations of local organizations.
MBA 240. Marketing Management. 3 Units
Term Typically Offered: Fall, Spring
Marketing policy for channels of distribution, pricing brands, advertising, and sales as interrelated at the executive level. Designed to develop capacity for sound decision making by marketing managers.

MBA 241. Marketing and Its Environments. 3 Units
Term Typically Offered: Fall, Spring
Analyzes the firm's or public agency's external environments, forces of change within them, and their influence on the organization's strategies and actions.

MBA 242. Marketing Problems. 3 Units
Term Typically Offered: Fall, Spring
Consideration of current problems and issues in marketing from the perspective of the individual firm or public agency.

MBA 243. Global Marketing Environment. 3 Units
Term Typically Offered: Fall, Spring
An in-depth coverage of a marketing functions in global environment. Explores traditional and contemporary theories, strategies, practices, and issues of international marketing, develops skills required for entry and maintaining presence on the foreign markets.

MBA 244. Research Methodology. 3 Units
Term Typically Offered: Fall, Spring

MBA 251. Real Estate Finance and Investment. 3 Units
Term Typically Offered: Fall, Spring
Concept and methods used to analyze equity investment in income-producing properties such as apartments, office buildings, and retail. Topics include market analysis, leasing and property income streams, financial structuring, taxation of real estate operations and transactions, the theory and methods used to assess the performance of individual real estate projects, alternative ownership structures, recent innovations in real estate capital markets, material on regulatory restrictions, taxation, and mixed assets portfolio analysis. Use of computer models for investment decision-making.

MBA 252. Mortgage Markets: Institutions, Securities, and Strategies. 3 Units
Term Typically Offered: Fall, Spring
Provides an understanding of mortgage markets and the knowledge required to make financing and lending decisions. Topics include sources of funds, mortgage design and analysis of financing alternatives; mortgage origination, risks in real estate loans, forecasting loan performance, loan modifications and workout strategies, foreclosure, bankruptcy and REOs; secondary mortgage markets and mortgage-backed securities; development and construction financing, risks in construction performance and project management, and management of interest rate risk. Use of computer models for decision-making.

MBA 253. Seminar in Real Estate Development. 3 Units
Prerequisite(s): MBA 251, PPA 250, advanced to candidacy, and instructor permission.
Term Typically Offered: Fall, Spring
Capstone course in urban land development. Case problems and theoretical issues in such areas as debt and equity financing, feasibility analysis, land use regulation, market analysis, risk management, site selection, and taxation of income-producing properties.

MBA 254. Business Intelligence. 3 Units
Term Typically Offered: Fall, Spring
Cover the processes, methodologies, infrastructure, framework, and current practices used to transform business data into useful information and knowledge for fEnabled managerial decision support and performance improvement. Data-orientated techniques for corporate performance management and decision making, as well as methodologies for business process improvement, are emphasized. Foundation knowledge in data storage and retrieval, logical data models for database management systems and data warehouses, and security-related issues are discussed.
MBA 270. Global Business Management. 3 Units
Term Typically Offered: Fall, Spring
Provides graduate students an understanding of the management approaches of multinational corporations in dealing with operational differences in various countries. Topics include such areas as: foreign investment decisions, relations with host governments, and organizational planning.

MBA 271. Integrated Entrepreneurship Management. 3 Units
Term Typically Offered: Fall, Spring
Explore multi-dimensions of entrepreneurship including the entrepreneurial initiatives in a corporate context. As a nascent entrepreneur, students are to evaluate new venture opportunities and to understand the entire process of a new venture creation. In corporate settings, students are to understand the innovation and change management of established firms to accomplish their sustainable competitive advantages.

MBA 272. Entrepreneurial Resources Management. 3 Units
Term Typically Offered: Fall, Spring
Study the concepts of identifying and managing talent in entrepreneurial ventures. Demonstrate through theories, empirical evidence, case studies and simulations, the value of sustainable human resource management in new and established enterprises.

MBA 280. Value Chain Integration. 3 Units
Prerequisite(s): classified or conditionally classified graduate student in the College of Bus Admin
Term Typically Offered: Fall, Spring
Study the current state of enterprise value chains from an operation management perspective. Discuss contemporary issues regarding supply and operations management of organizations including profit and nonprofit, service and manufacturing organizations. Integrative topics will be selected among issues affecting an organization’s value chain at operational, strategic, and economic levels.

MBA 281. Quality and Process Improvement in Healthcare. 3 Units
Prerequisite(s): classified or conditionally classified graduate student in the College of Bus Admin
Term Typically Offered: Fall, Spring
Discuss contemporary developments and methods in managing quality and process improvement in the healthcare industry. Topics include: Healthcare quality, leadership, teambuilding and project management; quality management processes and tools; quality measurement and management; human participation and organizational design in healthcare quality management; quality and process improvement initiatives; Lean and Six Sigma methodologies for continuous process improvement; process and systems integration; and emerging trends in healthcare quality management.

MBA 282. Global Supply Chain Management. 3 Units
Prerequisite(s): classified or conditionally classified graduate student in the College of Bus Admin
Term Typically Offered: Fall, Spring
A comprehensive study of the basic concepts, methods, processes, and strategies used in the design, development and management of global supply chains. Topics include: defining the supply chain on a global scale, designing global supply chain networks, global procurement, strategic alliances, global logistics, supply chain-orientated product design, quantitative and qualitative tools for supply chain management and current industry initiatives.

MBA 294. Cooperative Education Experience in Management. 6 - 12 Units
Prerequisite(s): Minimum overall GPA of 3.0.
Term Typically Offered: Fall, Spring
In-depth supervised work experience in management for the purpose of exposing the students to comprehensive management experience in business, government, or service agencies.
Note: Open to all classified graduate students, subject to permission of the Associate Dean for Graduate and External Programs. Units do not apply toward degree.
Credit/No Credit

MBA 295A. Internship In Finance. 3 Units
Prerequisite(s): Classified graduate status; minimum Sacramento State GPA of 3.0 required.
Term Typically Offered: Fall, Spring
Supervised work experience in business, governmental service, or agencies for the purpose of increasing and enhancing student understanding of the nature and scope of the organization's operations. Supervision is provided by the faculty and the cooperating agencies.
Note: Open to second year MBA and MSBA/MIS students. Petitions are obtained from Tahoe Hall 2065.
Credit/No Credit

MBA 295B. Internship In Marketing. 3 Units
Prerequisite(s): Classified graduate status; minimum Sacramento State GPA of 3.0 required.
Term Typically Offered: Fall, Spring
Supervised work experience in business, governmental service, or agencies for the purpose of increasing and enhancing student understanding of the nature and scope of the organization's operations. Supervision is provided by the faculty and the cooperating agencies.
Note: Open to second year MBA and MSBA/MIS students. Petitions are obtained from Tahoe Hall 2065.
Credit/No Credit
MBA 295C. Internship in Operations Management. 3 Units
Prerequisite(s): Classified graduate status; minimum Sacramento State GPA of 3.0 required.
Term Typically Offered: Fall, Spring
Supervised work experience in business, governmental service, or agencies for the purpose of increasing and enhancing student understanding of the nature and scope of the organization's operations. Supervision is provided by the faculty and the cooperating agencies.
Note: Open to second year MBA and MSBA/MIS students. Petitions are obtained from Tahoe Hall 2065.
Credit/No Credit

MBA 295D. Internship in Organizational Behavior and Management. 3 Units
Prerequisite(s): Classified graduate status; completion of graduate foundation courses plus 6 units of the second year requirement, minimum Sacramento State GPA of 3.0 required.
Term Typically Offered: Fall, Spring
Supervised work experience in business, governmental service, or agencies for the purpose of increasing and enhancing student understanding of the nature and scope of the organization's operations. Supervision is provided by the faculty and the cooperating agencies.
Note: Open to second year MBA and MSBA/MIS students. Petitions are obtained from Tahoe Hall 2065.
Credit/No Credit

MBA 295E. Internship in Urban Land Development. 3 Units
Prerequisite(s): Classified graduate status; completion of graduate foundation courses plus 6 units of the second year requirement, minimum Sacramento State GPA of 3.0 required.
Term Typically Offered: Fall, Spring
Supervised work experience in business, governmental service, or agencies for the purpose of increasing and enhancing student understanding of the nature and scope of the organization's operations. Supervision is provided by the faculty and the cooperating agencies.
Note: Open to second year MBA and MSBA/MIS students. Petitions are obtained from Tahoe Hall 2065.
Credit/No Credit

MBA 296. Experimental Offerings in MBA. 3 Units
Term Typically Offered: Fall, Spring
When a sufficient number of qualified students apply, a faculty member may conduct a seminar on a designated advanced topic in the MBA program.
Note: May be repeated for credit

MBA 299A. Special Problems in Finance. 1 - 3 Units
Prerequisite(s): Classified graduate status.
Term Typically Offered: Fall, Spring
Individual projects or directed reading for students qualified to carry on independent work.
Note: Admission requires approval of faculty member supervising work in addition to the approval of the Associate Dean for Graduate and External Programs. Petitions are obtained from Tahoe Hall 1035.
Credit/No Credit

MBA 299B. Special Problems in Marketing. 1 - 3 Units
Prerequisite(s): Classified graduate status.
Term Typically Offered: Fall, Spring
Individual projects or directed reading for students qualified to carry on independent work.
Note: Admission requires approval of faculty member supervising work in addition to the approval of the Associate Dean for Graduate and External Programs. Petitions are obtained from Tahoe Hall 1035.
Credit/No Credit

MBA 299C. Special Problems in Operations Management. 1 - 3 Units
Prerequisite(s): Classified graduate status.
Term Typically Offered: Fall, Spring
Individual projects or directed reading for students qualified to carry on independent work.
Note: Admission requires approval of faculty member supervising work in addition to the approval of the Associate Dean for Graduate and External Programs. Petitions are obtained from Tahoe Hall 1035.
Credit/No Credit

MBA 299D. Special Problems in Organizational Behavior and Management. 1 - 3 Units
Prerequisite(s): Classified graduate status.
Term Typically Offered: Fall, Spring
Individual projects or directed reading for students qualified to carry on independent work.
Note: Admission requires approval of faculty member supervising work in addition to the approval of the Associate Dean for Graduate and External Programs. Petitions are obtained from Tahoe Hall 1035.
Credit/No Credit

MBA 299E. Special Problems in Urban Land Development. 1 - 3 Units
Prerequisite(s): Classified graduate status.
Term Typically Offered: Fall, Spring
Individual projects or directed reading for students qualified to carry on independent work.
Note: Admission requires approval of faculty member supervising work in addition to the approval of the Associate Dean for Graduate and External Programs. Petitions are obtained from Tahoe Hall 1035.
Credit/No Credit

MBA 500A. Thesis. 3 Units
Prerequisite(s): Advanced to candidacy; completion of MBA 244.
Term Typically Offered: Fall, Spring
Completion of a thesis approved for the Master's degree.

MBA 500B. Project. 1 - 3 Units
Prerequisite(s): Advanced to candidacy; completion of MBA 244.
Term Typically Offered: Fall, Spring
Completion of a project approved for the Master's degree.

MBA 500C. Comprehensive Examination. 1 Unit
Prerequisite(s): Advanced to candidacy. For comprehensive examination for MBA only, completion of Program Requirements (MBA 210, MBA 220, MBA 230, MBA 420, MBA 270, MBA 280).
Term Typically Offered: Fall, Spring
MBA 501. Culminating Experience Project in Business and Strategy. 3 Units
Prerequisite(s): Advanced to candidacy
Term Typically Offered: Fall, Spring

Each student conducts an individual project to fulfill the culminating experience graduation requirement of the MBA program as required in Title V of the CA educational Code. The course also covers the competitive strategy of a firm, investigates competitive position, strategic capabilities, inter-firm dynamics, and strategic levers of firms. It integrates the accumulative knowledge, skills and techniques delivered in the program to review the strategy process executives employ for effective decision making.

Note: May be repeated for credit.

MGMT 10. Introduction to Business Law. 3 Units
Term Typically Offered: Fall, Spring

Study of business law for the future business professional. Introduces students to basic business problems that have legal consequences. Encourages the identification of ethical concerns along with the ability to anticipate potential legal problems with the goal of preventing them. Covers introduction to the legal system; court procedures; contracts and sales; business organizations; real and personal property; labor and employment law; product liability, and the government regulation of business.

MGMT 20. Introduction To Business. 3 Units
Term Typically Offered: Fall, Spring

Provides an overview of the various basic functions of business and how they interface. Topics will include accounting, finance, marketing, human resources management, management information systems, operations management, real estate, and international business.

MGMT 21. First Year Seminar: Becoming an Educated Person. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Introduction to the meaning of higher education, resources of the University, and skills for lifelong learning. Designed to help students develop academic success strategies and to improve information literacy, intercultural competence, and integrative thinking. Provides students with the opportunity to interact with fellow students and seminar faculty to build a community of academic and personal support.

MGMT 101. Legal Environment of Business. 3 Units
Prerequisite(s): Must be a Business pre-major, Business major (any concentration), a business minor, a Construction Mgmt major, a Mech Engr Tech major, or a Music (Music Mgmt) major to enroll in this course.
Term Typically Offered: Fall, Spring

Study of business law for the business professional. Aside from investigating substantive law, the course stresses critical thinking and analytical evaluation of contemporary business problems. Encourages the identification of ethical concerns along with the ability to anticipate potential legal problems with the goal of preventing them. Covers introduction to the legal system; court procedures; contracts and sales; business organizations; real and personal property; labor and employment law; product liability, and the government regulation of business. OBE 16 or the equivalent is recommended.

MGMT 102. Business Communications. 3 Units
Prerequisite(s): Completion of Area A in General Education and ENGL 20. Recommend COMS 2 and COMS 4.
Term Typically Offered: Fall, Spring

Provides basic concepts for understanding and practice of communication in the changing world of business for managers and professionals. It examines the use of language and conversations in business settings and their role in coordinating actions, resolving breakdowns in work performance, and providing customer satisfaction. Topics include: Practice in professional styles of business writing and formats, preparation of a formal report, development of competence in business conversation skills (written, electronic, and oral), and other selected topics. International, technical, and linguistic developments are integrated into the various applications of business communication.

MGMT 117. Business, Ethics and Society. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: GE AREA D, Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Investigation of contemporary business issues and management dilemmas in relation to broad social concerns. Focus is upon public and private decision making in the business environment and how business practices, ethics, and social concerns interrelate. Topics such as the nature of property and profits, efficiency and human values, the balancing of claims of owners, employees, customers, and others in community, corporate responsibility, corporate governance, government regulation and international dimensions of public policy will be covered.

MIS 1. Word Processing. 1 Unit
Term Typically Offered: Fall, Spring

The course teaches Microsoft Office Word that establishes a student’s fundamental computer skills required to perform business related tasks. Topics include developing and refining a document; identifying and correcting errors; formatting, modifying and printing documents; working with pictures, graphics, tables and charts; creating reports, forms, references and mailings; securing content and sharing documents, exploring advanced document features and macros, etc. Credit/No Credit

MIS 2. Spreadsheets. 1 Unit
Term Typically Offered: Fall, Spring

The course teaches Microsoft Office Excel that establishes a student’s fundamental computer skills required to perform business related tasks. Topics include creating and formatting a worksheet; summarizing and analyzing data; using decision making tools; working with logical, statistical, database and financial functions, sharing data with other applications, etc.

Note: Not open to students receiving credit for CSC 6B.
Credit/No Credit
Term Typically Offered: Fall, Spring

The course teaches Microsoft PowerPoint that establishes a student’s fundamental computer skills required to perform business related tasks. Topics include creating, refining and delivering presentations; working with graphics, tables and charts; inserting and enhancing pictures, shapes, sound and video; using templates, slide masters and text boxes, printing, securing and sharing presentations, etc.

Credit/No Credit

MIS 4. Database Applications.  
Term Typically Offered: Fall, Spring

Use of database management systems (DBMS) to provide students with fundamental information retrieval skills required to perform business related tasks. Topics include basic DBMS operations, working with tables, queries, forms, reports and data analysis.

Note: Students will be required to purchase an online learning application to facilitate skill development.

Credit/No Credit

Term Typically Offered: Fall, Spring

The course teaches the use of spreadsheets to establish a student’s fundamental computer skills required to perform business related tasks. Topics include basic spreadsheet operations, working with charts and graphics, application of formulas and spreadsheet presentation formatting.

Note: Students will be required to purchase an online learning application to facilitate skill development.

MIS 15. Introduction to Business Programming.  
Term Typically Offered: Fall, Spring

Introduction to object oriented programming language. Topics include use of simple data structures and data types, arrays, strings, input-output functions, file processing, and flow control.

Term Typically Offered: Fall, Spring

Explores the application of computers to the organizational environment with a management perspective. Topics may include transaction processing systems, management reporting, decision support systems, strategic planning, security, controls and acquisition of hardware, software and services. The interface between the information systems professional and the manager will be defined. Case studies and use of appropriate software packages may be included.

MIS 120. Advanced Object-Oriented Business Programming.  
Term Typically Offered: Fall, Spring

Advanced course in programming principles using an Object Oriented (OO) programming language. Topics will focus on object-oriented (OO) programming including the design and development of OO applications, object classes, inheritance, polymorphism and encapsulation, and graphical user interface (GUI) application development including contrasting event-driven and procedural programming. Assignments will focus on problem-solving in a business context.

Prerequisite(s): MIS 15.

Term Typically Offered: Fall, Spring

Advanced course in programming principles using an Object Oriented (OO) programming language. Topics will focus on object-oriented (OO) programming including the design and development of OO applications, object classes, inheritance, polymorphism and encapsulation, and graphical user interface (GUI) application development including contrasting event-driven and procedural programming.

Prerequisite(s): MIS 15 or CSC 15.

MIS 124. Web Development for Business Applications.  
Term Typically Offered: Fall, Spring

Examines the technologies and principles of modern Web development in the creation of Web-based business applications. Emphasis will be given to client-side and server-side technologies and include the topics of basic Web technologies, forms, database access, frameworks, and Web services. Topics are accompanied by design principles, tools, and techniques for Web application development.

Prerequisite(s): MIS 120.

MIS 125. Mobile Business Application Development.  
Term Typically Offered: Fall, Spring

Provides an introduction to the art and practice of mobile business application development on the Android or iOS platform. Topics will include, but are not limited to, business opportunities, challenges, and cost presented by mobile devices, user-driven design, personas, screen layouts, and use case diagramming. Students will design and build a variety of business applications throughout the course to reinforce learning and to develop real world competency.

Prerequisite(s): MIS 15.

MIS 140. Business Data Communication.  
Term Typically Offered: Fall, Spring

Examines the basic terminology, hardware/software components, and issues with the establishment, configuration, and management of data communication networks in and across organizations. Topics include wired and wireless local area networks, wide area networks, the internet, and cloud infrastructure.

MIS 150. Database Systems for Business.  
Term Typically Offered: Fall, Spring

Involves the study of generalized database management systems. The study will include logical data base models and physical base models based primarily on the relational and object-relational models. The student will create and manipulate a database utilizing an established database management system. The importance of data administration and other database related topics such as independence, integrity, privacy, query, backup, and recovery will be covered.
MIS 151. End-User Database Application Development for Business.  3 Units

Prerequisite(s): MIS 1, MIS 2, MIS 3 or approved equivalent.
Term Typically Offered: Fall, Spring

Introduction to end-user database application development in the business environment. Topics will focus on issues in the development of business database applications and include database concepts, organization, storage and retrieval of data, query and analysis with interactive software tools, informative and performance management reporting.

Note: Not open to MIS students.

MIS 160. Systems Development Life Cycle.  3 Units

Prerequisite(s): MIS 101 and MGMT 102
Term Typically Offered: Fall, Spring

Analyze, design, and develop business information systems to solve information needs of businesses and organizations. Topics include various systems analysis and design techniques, tools and methods for building new and/or integrated information systems.

MIS 161. Information Systems Practicum.  3 Units

Prerequisite(s): MIS 15, MIS 150, MIS 160, and Business major or minor.
Term Typically Offered: Fall, Spring

This course provides a comprehensive integration of MIS coursework through the completion of an information systems project. Topics include information systems development life cycle, project management, application development, database management, and security.

MIS 163. Business Process Engineering and ERP Configuration.  3 Units

Term Typically Offered: Fall, Spring

This course focuses on identifying and understanding business requirements, modeling business processes that incorporate the business requirements, and configuring the processes for their implementation in an enterprise resource planning (ERP) system. Students will gain insights to implementation issues and propose alternative solutions to overcome them. A project team environment further develops individual student's communication and team skills.

MIS 170. Information Systems Security.  3 Units

Prerequisite(s): MIS 140
Term Typically Offered: Fall, Spring

This course provides a comprehensive study of IT security principles and of information systems. Emphasis will be placed on understanding the framework of IT security in enterprise IT infrastructure. Topics include information security concepts, security risks and vulnerabilities, common attacking techniques, technical and administrative countermeasures for modern enterprise IT infrastructure, such as encryption, authentication, access control, security policies and standards, and IT risk management and audit.

MIS 171. Enterprise Resource Planning Systems.  3 Units

Prerequisite(s): MIS 101
Term Typically Offered: Fall, Spring

Foundation, business functions, processes, data requirements, development, and management of ERP systems for sales, marketing, accounting, finance, production, supply chain and customer relationship management. Emphasis on re-engineering, integration, standardization, and methodologies of ERP systems.

MIS 173. Microcomputers for Managers.  3 Units

Term Typically Offered: Fall, Spring

For students who want to have more than the minimum required personal computer literacy knowledge. The topics covered are: hardware, system software, utility software, spreadsheet modeling, the Internet, and presentation graphics.

Note: Not open to MIS students.

MIS 181. Machine Learning Applications in Business.  3 Units

Prerequisite(s): DS 101 and MIS 150
Term Typically Offered: Fall, Spring

Applies modern machine learning applications in business to data analysis and problem solving. Topics are presented in the context of decision support and may include knowledge representation, neural networks, genetic algorithms, rule induction, fuzzy logic, case-based reasoning and intelligent agents.

MIS 182. Topics In MIS.  3 Units

Prerequisite(s): MIS 150, MIS 160.
Term Typically Offered: Fall, Spring

Current topics will be presented regarding the technical, managerial, and organization considerations affecting computer-based information systems. Topics may include programming languages and techniques, emerging technologies, and MIS development and implementation issues. Readings, topical research, case presentations, and/or projects will be required.

MIS 183. Business Intelligence Applications.  3 Units

Prerequisite(s): Business major and minor
Term Typically Offered: Fall, Spring

Advanced information technologies that extract non-trivial, actionable, and novel knowledge from data to achieve strategic goals of organizations. Emphasis on multidimensional data modeling, online analytic processing, data warehouse, and data mining.

MIS 191. Culminating Experience.  1 Unit

Prerequisite(s): Completion of all coursework in minor.
Term Typically Offered: Fall, Spring

Students demonstrate their knowledge and apply their skill sets from the minor to a working project, and conduct an executive-level, management-oriented presentation.

Note: Students must be in their final semester of the minor’s program.

Credit/No Credit

MIS 194. Cooperative Education Experience in Management Information Systems.  6 - 12 Units

Prerequisite(s): MIS 160, minimum Sacramento State overall GPA of 2.75.
Term Typically Offered: Fall, Spring

In-depth supervised work experience in management information systems for the purpose of exposing the student to comprehensive MIS experience in business, governmental, or service agencies. Open to all upper division students, subject to permission of the MIS Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.

Credit/No Credit
MIS 195. Internship in Management Information Systems. 3 - 6 Units
Prerequisite(s): MIS 160, minimum Sacramento State overall GPA of 2.75.
Term Typically Offered: Fall, Spring

Supervised work experience in management information systems for the purpose of increasing student understanding of the nature and scope of the operations of business, governmental, or service agencies. Supervision is provided by the faculty and the cooperating agencies. Open to upper division students, subject to permission of the MIS Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.

Note: Open to declared business administration majors only.
Credit/No Credit

MIS 199. Special Problems in Management Information Systems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.

Note: Admission requires approval of the instructor and the Associate Dean. Petitions may be obtained from the Undergraduate Business Advising Center, Tahoe 1030.
Credit/No Credit

MIS 210. Information Systems I. 3 Units
Term Typically Offered: Fall, Spring

Introduction to business information systems planning and systems development methodologies. Various methodologies are explored and information systems development project planning is emphasized.

MIS 211. Information Systems II. 3 Units
Term Typically Offered: Fall, Spring

Introduction to basic and object-oriented programming concepts, data structures for information representation, and database management systems.

MIS 232. Management Science. 3 Units
Term Typically Offered: Fall, Spring

Introduction to deterministic and stochastic models in operations research. Topics that may be included are: mathematical programming, inventory theory, analysis of waiting lines, Markov processes, game theory, decision theory and simulation. Various computer programs such as LINDO are used to assist in solution and analysis of management problems.

Note: Not open to students with credit for MIS 132.

MIS 240. Communications Technologies for Business. 3 Units
Prerequisite(s): Graduate MIS status or instructor permission.
Term Typically Offered: Fall, Spring

Focuses on the concepts, technology, applications, and management of data and voice communication with an emphasis on building, supporting, securing, and administering the requirements of network infrastructure and architecture to support businesses.

Note: May be taken twice for credit.

MIS 250. Data Management. 3 Units
Prerequisite(s): Graduate MIS status or instructor permission, and MIS 15 or equivalent.
Term Typically Offered: Fall, Spring

Focuses on database concepts, design and implementation in business. Topics include database design techniques, such as extended entity-relationship and unified modeling language, logical and physical data models for objection-relational database, object oriented database and relational databases, database implementation and administration issues, and the discussion of distributed database, web database, and database security.

Note: May be taken twice for credit.

MIS 251. Strategic Applications of Information Resources. 3 Units
Prerequisite(s): MSBA/MIS students: MIS 210 and 211, or their equivalents. MBA students: MBA 260 and instructor permission.
Term Typically Offered: Fall, Spring

Discussion of the techniques and methodologies to utilize information resource to improve an organization's strategic performance measures. Topics include data warehouse, data mining, online analytical transaction processing, and multidimensional database.

MIS 260. Systems Design. 3 Units
Prerequisite(s): Graduate MIS status or instructor permission.
Term Typically Offered: Fall, Spring

Involves the study of various methods used to analyze and design a computer-based information systems and emphasizes object-oriented systems development (OOSD) techniques.

Note: May be taken twice for credit.

MIS 261. Information Technology Integration for the Enterprise. 3 Units
Prerequisite(s): MSBA/MIS students: MIS 260 or MIS 270; MBA students: MBA 260 or permission of instructor.
Term Typically Offered: Fall, Spring

IT presents many new opportunities at the enterprise level for the design and implementation of integrated organizational structures and business processes that better align the business to meeting its market demands and allow it to pursue new strategic relationships with other organizations. Enterprise IT primarily involves enterprise resource planning (ERP), supply chain management (SCM), knowledge management (KM), and customer relationship management (CRM) to support and coordinate business activities.

Note: May be taken twice for credit.

MIS 262. Business Project Management. 3 Units
Prerequisite(s): MSBA/MIS students: MIS 260; MBA students: MBA 260 or instructor permission.
Term Typically Offered: Fall, Spring

Examines various aspects of IT project management, including project selection involving feasibility, complexity, scalability and impact comparisons, project portfolio to direct the right resources to the right projects to assure their timely completion, risk assessment, key performance measures, and others.

Note: May be taken twice for credit.
MIS 270. Information Technology Operations. 3 Units
Prerequisite(s): Graduate MIS status or instructor permission.
Term Typically Offered: Fall, Spring

Examines the management of information technology as a vital resource to an organization. IT can enable businesses to seize opportunities, gain competitive advantages and establish close relationships with other businesses and their customers. Thus, the business must effectively and efficiently manage and secure its IT resources.

Note: May be taken twice for credit.

MIS 272. Strategic Information Technology Planning. 3 Units
Prerequisite(s): MSBA/MIS students: MIS 270; MBA students: MBA 260 or instructor permission.
Term Typically Offered: Fall, Spring

Strategic IT planning defines the direction a business chooses for its IT resources. It encompasses a vision, mission, strategy, and objectives that closely align to the business’ vision, mission, strategy, and objectives. Planning involves examining how IT will support the achievement of the business’ goals and objectives, and how IT can open new opportunities to create new business goals.

Note: May be taken twice for credit.

MIS 279. Information Technology Leadership. 3 Units
Prerequisite(s): MSBA/MIS students: MIS 261 or MIS 262, MIS 272; MBA students: MBA 260 and instructor permission.
Term Typically Offered: Fall, Spring

Leadership plays an important role in determining a business’ success with IT. It requires recognizing and leveraging the business’ competencies and core values, and championing initiatives and projects that work in the best interest of the business and create value. Because IT opens opportunities and enables the organization, IT leadership extends to both market (external) and organizational (internal) environments.

Note: May be taken twice for credit.

MIS 280. Decision and Knowledge-Based Systems. 3 Units
Prerequisite(s): MIS 211 or equivalent.
Term Typically Offered: Fall, Spring

Organizational use of information generated from transaction processing systems, management information systems, and decision support systems. The uses of information by managers for planning, control, and decision-making purposes will be discussed. The types of information systems implemented in various kinds of organizations will be covered.

MIS 281. Topics in the Management of Information Systems. 3 Units
Prerequisite(s): Open to non-MSBA/MIS majors with credit in MBA 260 or equivalent; and to those who have completed MSBA/MIS Program Prerequisites.
Term Typically Offered: Fall, Spring

Current topics will be presented regarding the managerial, behavioral, and organizational considerations affecting computer-based information systems. Includes topics such as project selection and justification techniques, system controls, security and privacy issues, strategic planning, and use/data processing department relations. Readings, topical research, and case presentations will be required.

MIS 295. Internship in Management Information Systems. 3 Units
Prerequisite(s): Completion of two of the following: MIS 240, MIS 250, MIS 260, or MIS 270; minimum Sacramento State GPA of 3.0.
Term Typically Offered: Fall, Spring

Supervised work experience in management information systems for the purpose of increasing and enhancing student understanding of the nature and scope of the organization's operations of business, governmental, or service agencies. Supervision is provided by the faculty and the cooperating agencies.

Note: Open to second year MBA and MSBA/MIS students. Petitions to be obtained from Tahoe Hall 1037.

Credit/No Credit

MIS 299. Special Problems in Management Information Systems. 1 - 3 Units
Prerequisite(s): Classified graduate status.
Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.

Note: Admission requires approval of faculty member under whom the individual work is to be conducted in addition to the approval of the Graduate Programs Office. Petitions to be obtained from Tahoe Hall 1035.

Credit/No Credit

MIS 500A. Thesis. 1 - 3 Units
Prerequisite(s): Advanced to candidacy. Completion of MBA 244.
Term Typically Offered: Fall, Spring

Completion of a thesis approved for the Master's degree.

MIS 500B. Project. 1 - 3 Units
Prerequisite(s): Advanced to candidacy. Completion of MBA 244.
Term Typically Offered: Fall, Spring

Completion of a project approved for the Master's degree.

MIS 500C. Comprehensive Examination. 1 - 3 Units
Prerequisite(s): Advanced to candidacy; for comprehensive examination for MBA only (MGMT 500C, 1 unit), completion of program requirements (ACCY 240, MBA 230, MBA 240, MBA 241, MBA 270, MBA 280; for comprehensive examination for MSBA/MIS Degree, student must be in final semester of program.
Term Typically Offered: Fall, Spring

For MSBA/MIS.

MKTG 101. Principles Of Marketing. 3 Units
Prerequisite(s): You must be a Business major (any concentration), a business minor or in one of the following majors: Coms/Pub Relations, CM, MET, FACS (Apparel Mktg/Design), FACS (Cons Sci), FASH, GPHD, INTD (Mktg), Rec & Park Mgmt, Photography to enroll in this course.
Term Typically Offered: Fall, Spring

The purpose of this course is to help students develop a working knowledge of marketing. Students will learn about the role marketing plays in an organization, as well as how to plan, implement and evaluate marketing activities. This course builds a foundation for further study in marketing and related fields.
MKTG 115. Marketing Analytics. 3 Units
Prerequisite(s): MKTG 101; and either DS 101 or MKTG 121; or instructor permission.
Term Typically Offered: Fall, Spring
The course covers current developments in marketing analytics. Topics include methodologies for market forecasting, estimating market size, and demand; evaluating marketing ROI and customer lifetime value; modeling of segmentation, positioning, competitive analysis, conjoint analysis, distribution channel analytics, and sales analytics. Students will also learn the latest datamining tools to collect, analyze, and visualize data for decision making and communicating to senior executives.

MKTG 121. Marketing Research and Information. 3 Units
Prerequisite(s): MKTG 101.
Corequisite(s): DS 101
Term Typically Offered: Fall, Spring
Examines the acquisition of information for marketing management decision making, including methods of collection and analysis applicable to secondary and primary data, as this process relates to the management information system. Seminar.

MKTG 122. Buyer Behavior. 3 Units
Prerequisite(s): MKTG 101.
Term Typically Offered: Fall, Spring
Understanding buying as a process in order to develop more effective solutions to marketing problems; an interdisciplinary approach drawing on insights from the behavioral sciences; applications to practical marketing situations. Seminar.

MKTG 123. Public Relations and Ethics in Business. 3 Units
Term Typically Offered: Fall, Spring
Managerial function of evaluating public attitudes toward business firms and other organizations and institutions, and of adjusting policies and executing programs to earn public acceptance and support. Media and method of communicating with the various publics, and problems in responsible leadership.

MKTG 124. Retail Management. 3 Units
Prerequisite(s): MKTG 101.
Term Typically Offered: Fall, Spring
Development, trends, and institutions of retailing; organization and management of retail establishments; principles and policies of retail store operations including location and layout, planning and control of budgets, personnel, pricing and customer services.

MKTG 125. Advertising. 3 Units
Prerequisite(s): MKTG 101.
Term Typically Offered: Fall, Spring
Examination of advertising as a marketing communications tool in profit and nonprofit organizations. Emphasis will be placed on creative methods, alternative media, measurements of effectiveness, and coordination with other aspects of the marketing program through class discussion and written projects. Seminar.

MKTG 126. Salesmanship. 3 Units
Term Typically Offered: Fall, Spring
Principles of the sales process including prospecting, structuring a sales presentation, handling objections, closing and customer relationship management. Application of sales techniques in product and service situations, integration of technology as a sales tool. Includes lectures, role playing, and practice in sales presentations.

MKTG 127. Sales Management. 3 Units
Prerequisite(s): MKTG 101.
Term Typically Offered: Fall, Spring
Individual problems of manufacturer or wholesaler in merchandising; intensive development of the "selling" function of marketing; duties of the sales manager.

MKTG 129. Marketing Management. 3 Units
Prerequisite(s): MKTG 101 and senior status.
Term Typically Offered: Fall, Spring
Application of marketing principles to the solution of a wide variety of problems and cases including target markets, product selection, channels of distribution, promotion and pricing.
Note: It is a capstone course. It is recommended that students take MKTG 121 and MKTG 122 prior to taking MKTG 129. Seminar.

MKTG 130. Digital Marketing. 3 Units
Prerequisite(s): MKTG 101 and Business majors or Marketing minors only.
Term Typically Offered: Fall, Spring
The purpose of this course is to help students learn and apply emerging marketing techniques to become efficient and effective marketers in the 21st century. Topics covered center on effective marketing in an online environment to help students refine their strategic marketing skills, ability to work effectively in diverse teams, and understanding of the local marketing environment.

MKTG 140. Sports Marketing. 3 Units
Prerequisite(s): MKTG 101
Term Typically Offered: Fall, Spring
The purpose of this course is to help students to integrate principles of marketing and sports industry management. It examines the marketing of sports, teams, athletes, sport arenas, as well as the use of sports related marketing tools (such as sponsorships, celebrity athlete endorsements, promotional licensing) for promoting non-sport consumer and industrial products.

MKTG 160. Principles of Quality Management. 3 Units
Term Typically Offered: Fall, Spring
Study of the major principles of quality management: customer focus, continuous improvement, employee involvement, and process improvement. Use of case studies and a project to gain knowledge in implementing quality management principles. Seminar.
MKTG 181. Supply Chain Logistics Management. 3 Units
Prerequisite(s): OPM 101.
Term Typically Offered: Fall, Spring
Delivery of enhanced customer and economic value through synchronized management of the flow of physical goods and associated information from sourcing through consumption. Examines the management of those activities that facilitate the movement, control and direction of goods and services to create time, place, form and ownership utilities in the global market. Topics include transportation, warehousing, information systems, sourcing, strategic alliances, modeling, purchasing and international operations.

MKTG 186. Advanced Operations Planning and Control. 3 Units
Prerequisite(s): OPM 101.
Term Typically Offered: Fall, Spring
Focuses on effective operations strategies for companies that operate in a dynamic business environment, with an emphasis on in-depth treatments of the decision situations facing managers in charge of related to the planning and control of the flow of goods and services in supply chain systems.

MKTG 188. Supply Chain Modeling and Analysis. 3 Units
Prerequisite(s): OPM 101.
Term Typically Offered: Fall, Spring
Covers modeling and analytics for designing, managing and improving supply chain systems in order to achieve competitive advantages: cost, quality, service, flexibility, adaptability, and sustainability which support business level strategies of cost leadership and differentiation.

MKTG 190. Multinational Marketing. 3 Units
Prerequisite(s): MKTG 101 or instructor permission.
Term Typically Offered: Fall, Spring, Summer
Environmental factors affecting international trade, such as culture and business customs, political factors and constraints, economic development and legal differences, are integrated with the marketing management functions of market potential, analysis marketing research, international organization, channels and distribution, sales promotion, prices, credit, and financing.

MKTG 195. Internship in Marketing. 3 Units
Prerequisite(s): Minimum Sacramento State GPA of 2.5.
Term Typically Offered: Fall, Spring
Supervised work experience in business, governmental or service agencies for the purpose of increasing student understanding of the nature and scope of their operations. Supervision is provided by the faculty and the cooperating agencies.
Note: Open to upper division students, subject to permission of the Marketing Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065. Open to declared business administration majors only.

Credit/No Credit

MKTG 199. Special Problems in Marketing. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading for students qualified to carry on independent work.
Note: Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030.

Credit/No Credit

MKTG 199A. Special Problems in Supply Chain Management. 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading for students qualified to carry on independent work.
Note: Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030.

Credit/No Credit

OPM 101. Operations Management. 3 Units
Prerequisite(s): Student must be a Business Major or Business Administration minor to enroll in this course
Corequisite(s): DS 101
Term Typically Offered: Fall, Spring
Introduction to the basic concepts and methods used to analyze and improve performance of operations in manufacturing and service organizations.

RELU 199. Special Problems in Real Estate and Land Use Affairs. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading for students qualified to carry on independent work. Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030.

Credit/No Credit

Business Honors Program

Units required for the Major: 54 units
Minimum total units required for the BS: 120

Program Description

The Business Honors program:

• Presents a holistic and integrated view of business that reflects not only current business practice but also the best of practice.
• Challenges students in critical thinking while building their decision making and problem solving skills.
• Immerse students in a learning experience in which they learn not only from their professors, but also from their peers.
• Develops students as future business leaders and pioneers.
• Provides students with many opportunities to meet and interact with professionals to learn real-life lessons.
• Provides an exceptional value to their business education through advanced knowledge and skill sets.

The Business Honors program is a full-time program. Business Honors students will be immersed in a cohort-based learning experience where they will work with and learn from others in their cohort group as well as high-qualified faculty.

For more information, please contact the Office of the Associate Dean for Academic Programs at (916) 278-6463.

Foundation Courses
Concurrent Master's and Juris Doctoral Programs

Program Description
An arrangement between the College of Business Administration (CBA) and the University of the Pacific McGeorge School of Law allows a student to earn credits toward an MBA degree and a juris doctor (JD) degree concurrently.

Applicants who are interested in both MBA and JD programs should consult this catalog for the requirements for admission to the MBA degree program and contact the Graduate Business Advising Center (GBAC), Tahoe Hall 1037 of the College of Business Administration for information on the current program.

Concurrent Master's Program

Program Description
A student may concurrently earn the MS/ACCY from Sacramento State and the MBA from Sacramento State. To earn the MS degree, the catalog requirements for that degree must be met, i.e., Foundation Courses, Program Requirements, Electives, and Culminating Experience (30-49) units. To concurrently and jointly earn the MBA degree, the student must satisfy the MBA Program Requirements (21 units) and the MBA Culminating Experience (3 units). Coursework from the MS program can be used to satisfy the nine-unit requirement for Elective Courses. For more information, contact the CBA Graduate Business Advising Center (GBAC), Tahoe Hall 1037.

MBA (Business Analytics in Healthcare)

Total units required for MBA: 33

Program Description
The MBA is intended to improve the participant’s capacity for effective decision making, to facilitate his/her professional growth and development for increasing managerial responsibility, and to broaden his/her knowledge and understanding of management.

The Business Analytics in Healthcare (BAH) concentration will explore finance, information technology, operations and other areas as it is applied to and used in the healthcare industry. Students will be exposed to the challenges in healthcare and gain managerial and technical expertise addressing the complex and multi-faceted aspects of healthcare organizations such as pharmaceuticals and medical product companies, financial and insurance services, hospitals and other medical institutions, entrepreneurial ventures, consulting firms, foundation, and governments. The complementary themed design of the program will open up multiple career opportunities for graduate in several emerging areas.

Admission Requirements
All applicants for post-baccalaureate degree programs in Business must have earned a baccalaureate degree from a regionally accredited four-year institution of higher learning or the equivalent from a foreign institution. Admission requirements are different for each of the CBA Graduate Programs. The specific admission requirements for each degree program are listed within the program descriptions under “Admission Information” on the following pages. The College of Business Administration reserves the rights to revise its admissions standards and to limit enrollment in its graduate degree programs.

Applicants who are approved for admission will receive a letter from the Office of Graduate Studies informing them that they have been admitted as a conditionally or fully classified graduate student.

The following represent minimum academic qualifications and admission criteria. As the College of Business Administration receives a large number of applications each cycle, it reserves the right to admit fewer applicants than those who meet the minimum criteria.

Title V of the California Educational Code requires that MBA candidates must have earned a minimum 2.5 cumulative GPA and an undergraduate degree from a regionally accredited institution.

Unless a valid waiver is presented, applicants must also submit a valid admission test (GMAT or GRE) and/or English Language Proficiency exam scores.

Minimum Admission or Language Test Scores

GMAT: 30% overall, 30% verbal, 30% quantitative; Scores valid for 5 years from test date. Test must be taken by the application deadline. Students are able to apply with pending scores, but must submit an official score report to be considered for admission.

GRE (General Test): 30% verbal, 30% quantitative; Scores valid for 5 years from test date. Test must be taken by the application deadline. Students are able to apply with pending scores, but must submit an official score report to be considered for admission (use institution code of 4671 ONLY when requesting official score reports be sent to Sacramento State; do not use department code).

TOEFL: Paper-based: 550; Internet-based: 80 (International Students only).

IELTS: 7(International Students only).

Deadlines
See the CBA MBA website for current admission deadlines: https://www.csus.edu/college/business-administration/graduate/mba.html

Special Admission Process

Applicants not meeting all the admission criteria may be admitted to the program based on evidence of potential success in the program provided by the applicant. Such evidence may include, but is not limited to: the applicant’s maturity, motivation, employment history, managerial potential, letters of recommendation, personal statement, community activities, and other accomplishments that support the applicant’s potential to successfully complete the program. An applicant so considered and recommended for admission may be approved by the Graduate Dean or Dean’s designee.

Application Procedures

All prospective graduate students must file all of the following documents by the application deadline with both the CBA MBA Program Services and the Sacramento State Office of Graduate Studies (River Front Center 215) as noted below:

1. To Sacramento State, Office of Graduate Studies:
   a. Online Cal State Apply Graduate Application and Application Fee (you can pay this when you are filling out your online application).
   b. Official transcripts from all universities previously attended. Sacramento State current students or graduates: only submit transcripts not previously submitted to the university or from institutions attended after graduation.
2. To the College of Business Administration, MBA Program Services Office, the following are required for a complete application:
   a. The MBA Supplementary Application.
   b. Supplemental Application Materials.
      i. Official GMAT or GRE scores;
      ii. Current resume;
      iii. 1-2 page statement of purpose;
      iv. Two letters of recommendation.
   c. Copies of official transcripts. Please request two copies of official transcripts from all colleges and universities you have attended. Send transcripts to both the MBA Program Services Office and the Office of Graduate Studies. Sacramento State current students or graduates: only submit transcripts not previously submitted to the university or from institutions attended after graduation.

Note: Applications are not considered complete and will not be reviewed unless all application materials and transcripts have been received.

Phone: (916) 278-4501
Email: mba@csus.edu

And to:
Office of Graduate Studies

Sacramento State
River Front Center, Room 215
6000 J Street
Sacramento, CA 95819-6112
Web site: https://www.csus.edu/graduate-studies/
Phone: (916) 278-6470
Email: grad_admissions@csus.edu

International Applicants

International students (F or J Visas) must apply through International Admissions (https://www.csus.edu/international-programs-global-engagement/application-admissions-process/). Do not fill out the general graduate studies application as it will slow down your application process. All materials, inclusive of TOEFL scores, must be turned in to the International Admissions Office. To ensure consideration, international students should submit their material, including GMAT/GRE and TOEFL test scores, to the International Admissions Office one month prior to the CBA MBA Program Services application filing deadline. For an application and details international students should visit The International Admissions Office Web site. (https://www.csus.edu/international-programs-global-engagement/application-admissions-process/)

Prerequisites

Prior to enrolling in the Foundation courses, students must be proficient in mathematics, statistics, and computer usage:

- Mathematics: at least one semester of calculus is strongly preferred;
- Statistics: an introductory course in probability and statistics; and
- Computer usage: ability to use common personal computer hardware and software, particularly word processing programs, spreadsheet programs, and internet browsers.

The faculty will assume that all MBA students have these proficiencies. A student may gain the necessary proficiencies in many ways: through coursework, review classes, self-study; or experience. No proficiency courses can count as credit towards program requirements.

Graduate Writing Assessment Requirement (GWAR)

The Graduate GWAR is a CSU wide requirement that should be completed by students before advancing to candidacy. The purpose of the GWAR is for students to demonstrate their proficiency at writing in an academic setting at a graduate-level.

Graduate students must successfully pass a Graduate Writing Intensive (GWI) course in their Graduate Program to complete the requirement.

Foundation Courses

The Foundation courses provide an academic background in the various disciplines of business. The MBA degree program is built upon this common background. Foundation courses should be taken after the student has attained the required entry proficiencies (prerequisites) and should be completed prior to taking program requirement courses.

A student who has a baccalaureate degree or a minor in Business Administration from an AACSB-INTERNATIONAL accredited university may have completed all or most of the Foundation requirements. However, the student will be required to take certain Foundation courses if she/he:

1. has not previously completed the comparable undergraduate course(s) for academic credit from an AACSB-INTERNATIONAL
supported a waiver challenge application.

It is the responsibility of a student to provide sufficient documentation to

1. has earned less than an overall 3.0 ("B") grade point average (GPA) in the comparable undergraduate courses presented for waiver of required courses;
2. has received a "C" or lower grade in the comparable undergraduate course;
3. cannot demonstrate currency in these courses (7 year limit); or
4. has completed the bachelor's degree at a foreign institution.

Courses taken at AACSB-INTERNATIONAL accredited colleges of business will be accepted for transfer credit if the course is regarded as equivalent to the course for which credit is requested. Business Foundation courses and Core courses will not be accepted for transfer credit from programs that are not AACSB-INTERNATIONAL accredited unless taken at institutions that have national or international reputations of high quality programs.

Please visit the MBA Program website to download Foundation Course Waiver forms and petitions for equivalency for graduate, non-articulated courses. The CBA Academic Standards Committee will evaluate whether the institutions satisfy the requirement of "national or international reputations of high quality programs." Subsequently, faculty in the appropriate department will make the final determination for course equivalency, e.g., content, method of instruction, method of evaluating students, and/or course duration. To find out if your university is AACSB accredited go to www.AACSB.edu.

Master students who are registered in the last two Foundation courses must file an Application for Classification with the MBA Program Services at mps@csus.edu, to be able to enroll in the courses designated as Program Requirements. The student's academic status will be reviewed to assure that he/she meets the necessary criteria to be accepted as a classified graduate student.

A GPA of at least 3.0 ("B") is required in all Foundation courses taken at Sacramento State, and program requirement courses presented for the degree.

The foundation courses are available after acceptance into one of the CBA Graduate Programs.

Note: To be completed after the student has demonstrated the required entry proficiencies and must be completed prior to taking Program Requirements in any of the Master's programs.

A graduate student may request a challenge for waiver of a College of Business Administration foundation or core course if it at least one of the following conditions is met:

* The student has taken an equivalent class elsewhere, subject to the GPA requirement in CBA academic policy. For core classes, the equivalent class must be at the graduate level; for the foundation classes, the equivalent class can be taken at the undergraduate level.
* The student has achieved appropriate professional or academic qualification.
* The student has appropriate professional work experience.

It is the responsibility of a student to provide sufficient documentation to support a waiver challenge application.

### Minimum Units and Grade Requirement for the Degree

Units required for MBA: 33 (excluding foundation courses)

Minimum Cumulative GPA: 3.0. The minimum acceptable grade for any graduate business course is "C." No more than two (2) courses with a grade of "C" will be counted for satisfaction of graduate program requirements.

### Advancement to Candidacy

A student’s program requirements are governed by the catalog in effect at the time one is accepted into and begins graduate school or by the catalog in effect at the time advancement to candidacy is approved.

Prior to enrolling in Culminating Requirements, a student must advance to candidacy. Initiation of advancement procedures is the responsibility of the student. The application to advance must be filed no later than the semester prior to enrollment in culminating experience requirement.

Eligibility to advance to candidacy requires satisfactory scholastic achievement, presentation of a plan of graduate study, and demonstration of writing proficiency. A classified graduate student in Business Administration may apply to the MBA Program Services at mps@csus.edu for advancement to candidacy for the Master’s degree after s/he has completed at least 12 units of the program requirements beyond the Foundation requirements. Students with a GPA deficiency or who have not fulfilled the Writing Placement for Graduate Students Requirement (WPG) cannot advance to candidacy.

Total Units 33

1. A graduate student may request a challenge for waiver of a College of Business Administration foundation or core course if at least one of the following conditions is met:
   - The student has taken an equivalent class elsewhere, subject to the GPA requirement in CBA academic policy. For core classes, the equivalent class must be at the graduate level; for foundation classes, the equivalent class can be at the undergraduate level.
   - The student has achieved appropriate professional or academic qualification.
   - The student has appropriate professional work experience.

It is the responsibility of a student to provide sufficient documentation to support waiver challenge application. Academic credit for core courses is not earned by waiver. The requirement for completing a core course is waived, providing the student enrolls in and satisfactorily completes an elective course in that discipline or an elective approved to the appropriate faculty advisor who grants the waiver.

MBA (General)

Total units required for MBA: 33

Program Description

The MBA program has been developed to provide an education that is extensive and broadening rather than intensive or specialized within a limited functional area. The MBA is intended to improve the participant’s capacity for effective decision making, to facilitate his/her professional growth and development for increasing managerial responsibility, and to broaden his/her knowledge and understanding of management in the areas of:

- Accountancy
- Finance
- International Management
- Management Information Systems
- Supply Chain Management

The MBA is also appropriate preparation for teaching business education subjects at the community college level. Students are encouraged to obtain further guidance from the school districts in which they will teach. The flexible design of the program allows students to pursue individual areas of interest.

Admission Requirements

All applicants for post-baccalaureate degree programs in Business must have earned a baccalaureate degree from a regionally accredited four-year institution of higher learning or the equivalent from a foreign institution. Admission requirements are different for each of the CBA Graduate Programs. The specific admission requirements for each degree program are listed within the program descriptions under "Admission Information" on the following pages. The College of Business Administration reserves the rights to revise its admissions standards and to limit enrollment in its graduate degree programs.

Applicants who are approved for admission will receive a letter from the Office of Graduate Studies informing them that they have been admitted as a conditionally or fully classified graduate student.

The following represent minimum academic qualifications and admission criteria. As the College of Business Administration receives a large number of applications each cycle, it reserves the right to admit fewer applicants than those who meet the minimum criteria.

Title V of the California Educational Code requires that MBA candidates must have earned a minimum 2.5 cumulative GPA and an undergraduate degree from an accredited institution.

Unless a valid waiver is presented, applicants must also submit a valid admission test (GMAT or GRE) and/or English Language Proficiency exam scores.

Minimum Admission or Language Test Scores

GMAT: 30% overall, 30% verbal, 30% quantitative; Scores valid for 5 years from test date. Test must be taken by the application deadline. Students are able to apply with pending scores, but must submit an official score report to be considered for admission.

GRE (General Test): 30% verbal, 30% quantitative; Scores valid for 5 years from test date. Test must be taken by the application deadline. Students are able to apply with pending scores, but must submit an official score report to be considered for admission (use institution code of 4671 ONLY when requesting official score reports be sent to Sacramento State; do not use department code).

TOEFL: Paper-based: 550; Internet-based: 80 (International Students only).

IELTS: 7 (International Students only).

Deadlines

See the CBA MBA website for current admission deadlines: https://www.csus.edu/college/business-administration/graduate/mba.html

Special Admission Process

Applicants not meeting all the admission criteria may be admitted to the program based on evidence of potential success in the program provided by the applicant. Such evidence may include, but is not limited to: the applicant’s maturity, motivation, employment history, managerial potential, letters of recommendation, personal statement, community activities, and other accomplishments that support the applicant’s potential to successfully complete the program. An applicant so considered and recommended for admission may be approved by the Graduate Dean or Dean’s designee.

Application Procedures

All prospective graduate students must file all of the following documents by the application deadline with both the CBA MBA Program Services and the Sacramento State Office of Graduate Studies (River Front Center 215) as noted below:
1. To Sacramento State, Office of Graduate Studies:
   a. Online Cal State Apply Graduate Application and
   b. Application Fee (you can pay this when you are filling out your online application).
   c. Copies of official transcripts from all colleges and universities attended. Sacramento State current students or graduates: only submit transcripts not previously submitted to the university or from institutions attended after graduation.

2. To the College of Business Administration, MBA Program Services Office, the following are required for a complete application:
   a. The MBA Supplementary Application.
   b. Supplemental Application Materials.
      i. Official GMAT or GRE scores;
      ii. Current resume;
      iii. 1-2 page statement of purpose;
      iv. Two letters of recommendation.
   c. Copies of official transcripts. Please request 2 copies of official transcripts from all colleges and universities you have attended. Send transcripts to both the MBA Program Services office and the Office of Graduate Studies. Sacramento State current students or graduates: only submit transcripts not previously submitted to the university or from institutions attended after graduation.

Note: Applications are not considered complete and will not be reviewed unless all application materials and transcripts have been received.

Phone: (916) 278-6470
Email: grad_admissions@csus.edu

International Applicants

International students (F or J Visas) must apply through International Admissions (https://www.csus.edu/international-programs-global-engagement/application-admissions-process/). Do not fill out the general graduate studies application as it will slow down your application process. All materials, inclusive of TOEFL scores, must be turned in to the International Admissions Office. To ensure consideration, international students should submit their material, including GMAT/GRE and TOEFL test scores, to the International Admissions Office one month prior to the CBA MBA Program Services application filing deadline. For an application and details international students should visit The International Admissions Office Web site. (https://www.csus.edu/international-programs-global-engagement/application-admissions-process/)

Prerequisites

Prior to enrolling in the Foundation courses, students must be proficient in mathematics, statistics, and computer usage:
   - Mathematics: at least one semester of calculus is strongly preferred;
   - Statistics: an introductory course in probability and statistics; and
   - Computer usage: ability to use common personal computer hardware and software, particularly word processing programs, spreadsheet programs, and internet browsers.

The faculty will assume that all MBA students have these proficiencies. A student may gain the necessary proficiencies in many ways: through coursework, review classes, self-study, or experience. No proficiency courses can count as credit towards program requirements.

Graduate Writing Assessment Requirement (GWAR)

The Graduate GWAR is a CSU wide requirement that should be completed by students before advancing to candidacy. The purpose of the GWAR is for students to demonstrate their proficiency at writing in an academic setting at a graduate-level.

Graduate students must successfully pass a Graduate Writing Intensive (GWI) course in their Graduate Program to complete the requirement.

Foundation Courses

The Foundation courses provide an academic background in the various disciplines of business. The MBA degree program is built upon this common background. Foundation courses should be taken after the student has attained the required entry proficiencies (prerequisites) and should be completed prior to taking program requirement courses.

A student who has a baccalaureate degree or a minor in Business Administration from an AACSB-INTERNATIONAL accredited university may have completed all or most of the Foundation requirements. However, the student will be required to take certain Foundation courses if she/he:

1. has not previously completed the comparable undergraduate course(s) for academic credit from an AACSB-INTERNATIONAL accredited institution or from a high quality program that has a "national or international reputation";
2. has earned less than an overall 3.0 ("B") grade point average (GPA) in the comparable undergraduate courses presented for waiver of required courses;
3. has received a "C" or lower grade in the comparable undergraduate course;
4. cannot demonstrate currency in these courses (7 year limit); or
5. has completed the bachelor's degree at a foreign institution.

Courses taken at AACSB-INTERNATIONAL accredited colleges of business will be accepted for transfer credit if the course is regarded as equivalent to the course for which credit is requested. Business Foundation courses and Core courses will not be accepted for transfer credit from programs that are not AACSB-INTERNATIONAL accredited unless taken at institutions that have national or international reputations of high quality programs.

Please visit the MBA Program website to download Foundation Course Waiver forms and petitions for equivalency for graduate, non-articulated
courses. The CBA Academic Standards Committee will evaluate whether the institutions satisfy the requirement of “national or international reputations of high quality programs.” Subsequently, faculty in the appropriate department will make the final determination for course equivalency, e.g., content, method of instruction, method of evaluating students, and/or course duration. To find out if your university is AACSB accredited go to www.AACSB.edu.

Master students who are registered in the last two Foundation courses must file an Application for Classification with the MBA Program Services at mps@csus.edu, to be able to enroll in the courses designated as Program Requirements. The student’s academic status will be reviewed to assure that he/she meets the necessary criteria to be accepted as a classified graduate student.

A GPA of at least 3.0 (“B”) is required in all Foundation courses taken at Sacramento State, and program requirement courses presented for the degree.

The foundation courses are available after acceptance into one of the CBA Graduate Programs.

Note: To be completed after the student has demonstrated the required entry proficiencies and must be completed prior to taking Program Requirements in any of the Master’s programs.

A graduate student may request a challenge for waiver of a College of Business Administration foundation or core course if at least one of the following conditions is met:

- The student has taken an equivalent class elsewhere, subject to the GPA requirement in CBA academic policy. For core classes, the equivalent class must be at the graduate level; for foundation classes, the equivalent class can be taken at the undergraduate level.

- The student has achieved appropriate professional or academic qualification.

- The student has appropriate professional work experience.

It is the responsibility of a student to provide sufficient documentation to support a waiver challenge application.

### Advancement to Candidacy

A student’s program requirements are governed by the catalog in effect at the time one is accepted into and begins graduate school or by the catalog in effect at the time advancement to candidacy is approved.

Prior to enrolling in Culminating Requirements, a student must advance to candidacy. Initiation of advancement procedures is the responsibility of the student. The application to advance must be filed no later than the semester prior to enrollment in culminating experience requirement.

Eligibility to advance to candidacy requires satisfactory scholastic achievement, presentation of a plan of graduate study, and demonstration of writing proficiency. A classified graduate student in Business Administration may apply to the MBA Program Services at mps@csus.edu for advancement to candidacy for the Master’s degree after s/he has completed at least 12 units of the program requirements beyond the Foundation requirements. Students with a GPA deficiency or who have not fulfilled the Writing Placement for Graduate Students Requirement (WPG) cannot advance to candidacy.

- MBA 501 Culminating Experience Project in Business and Strategy 3
- MBA 500A Thesis 1
- MBA 500B Project 1

**Total Units**: 33

### Minimum Units and Grade Requirement for the Degree

Units required for MBA: 33 (excluding foundation courses)

Minimum Cumulative GPA: 3.0. The minimum acceptable grade for any graduate business course is “C.” No more than two (2) courses with a grade of “C” will be counted for satisfaction of graduate program requirements.

It is the responsibility of a student to provide sufficient documentation to support waiver challenge application. Academic credit for core courses is not earned by waiver. The requirement for completing a core course is waived, providing the student enrolls in and satisfactorily completes an elective course in that discipline or an elective approved to the appropriate faculty adviser who grants the waiver.
For a general MBA, elective courses may be chosen from a broad array of graduate Business Administration courses, nonbusiness graduate classes (6 units maximum), or supervisory coursework (6 units maximum: 3 units of Internship [a 295 series course], 3 units of Special Problems [a 299 series course]). Elective courses may also be selected from any other MBA concentration electives.

MBA for Executives (EMBA)

Total units for EMBA: 41

Program Description

The EMBA program is offered through collaboration between the College of Business Administration and the College of Continuing Education. The degree is offered by the College of Business Administration and administered through the College of Continuing Education and the External Graduate Programs Office (EGP) in the College of Business Administration.

Our EMBA program is designed to help just that as well as help the region redefine the business community. The new millennium is about making choices to make our lives easier and more enriched. New technological advances are happening every day that provide us with a better quality of life and the opportunity to have more flexibility than ever before. That is where the Master of Business Administration for Executives (EMBA) Program at Sacramento State comes in. The College of Business Administration recognizes the need among working professionals to advance their careers in a flexible and supportive environment that has not been met in the Sacramento region ever before. We believe that business executives deserve to have an EMBA program tailored to their unique needs.

A key consideration for the EMBA Program is that it is tailored to the needs of full-time working professionals. The program is designed to meet the needs of highly engaged working executives and managers. The entire program can be completed within 15 months. The EMBA courses are only available through the College of Continuing Education.

The EMBA program consists of 41 academic units broken down by the following components: orientation, eight required courses, four elective courses selected for each cohort, and an individual project for culminating experience. A listing of the courses is given below.

Admission Requirements

Selecting candidates for admissions is a very critical decision for the EMBA program. That is why we have adopted a system that takes into account three primary areas of evaluation when making admission decisions:

1. Professional Experience (length, breadth, and depth of professional and managerial experience, and potential for career development);
2. Academic Qualifications (a baccalaureate degree from an institution accredited by a regional accrediting association, previous graduate level coursework if available, and performance on the Graduate Management Admission Test (GMAT); and
3. Additional Relevant Criteria (Potential contribution to learning experience of the program, maturity and motivation, ability and willingness to commit the required time and energy to the program, community service and professional activities, and support of an applicant’s employing organization).

A candidate with good academic qualifications and a solid, but short, work record will have the same opportunity as someone with a strong, long, work record, but who has been out of school for a while. We believe candidates who have successful professional careers, solid education, and additional relevant qualifications will excel in our EMBA Program.

We do require that our candidates have a baccalaureate degree from a regionally accredited institution. We also recommend applicants have at least 3 to 5 years of professional work experience. Professional work experience will provide the applicants and their peers with a more stimulating learning environment.

Deadlines

Since class size is limited, early applications are highly encouraged.

Please contact the EMBA Admission Help Desk (916-278-2895) or visit the EMBA Web site (csus.edu/cba/emba/admissions) for application deadlines.

Application Procedures

(All forms can be downloaded from our Web site csus.edu/cba/emba/howtoapply.)

1. To Sacramento State, Office of Graduate Studies:
   • Online Sacramento State Graduate Application (csus.edu/cba/graduate/mba.html) and
   • $55 Application Fee (you can pay this when you are filling out your online application).

2. To the College of Business Administration, External Graduate Programs Office (EGP). The following are required for a complete application:

   The following are required for a complete application:

1. The Supplementary Application Form (http://www.embas.csus.edu/emba/documents/CBAApplication-Spring2010.pdf). You may print out a copy and manually fill out the form or fill out the form electronically by downloading the application form from www.embas.csus.edu and save a copy on your computer. Please type or print clearly on the application. Give your full legal name and avoid abbreviations. You may use additional paper if you need more space to respond, but please put your name on each page, and attach the pages to your application.

2. Two copies of official transcripts. Please request 2 copies of official transcripts from all colleges and universities you have attended. A Transcript Request form (http://www.csus.edu/cba/emba/howtoapply.html) is included for your convenience. It is recommended that you have the transcripts directly sent to you in sealed envelopes.

3. Two letters of recommendation. At least one of these letters should come from supervisors and business associates who can discuss knowledgeably your managerial and academic abilities, accomplishments, and potential. Please use the Recommendation Letter Form (http://www.csus.edu/cba/emba/howtoapply.html) for the application.

4. Results on the Graduate Management Admission Test (GMAT). The Computer Adaptive GMAT is administered at test centers throughout the world. To register, visit their Web site at www.mba.com (http://www.mba.com). Please be sure to use the correct Sacramento State institutional code on your GMAT registration form.
5. Statement of career objectives. This statement should include a
description of your long- and short-term career goals, and the ways in
which you believe the EMBA degree will help you to achieve them.

6. A reverse chronological resume of your work experience. The resume
should include job title, organization (nature of business, gross sales/
revenues, number of employees), location, dates of employment, a
summary of duties and responsibilities, and a description of your
organizational unit (size, scope, budget, personnel, and reporting
relationships) for each position held.

7. Corporate/Individual Sponsorship Form (http://www.csus.edu/cba/
emba/howtoapply.html). Required to insure that your organizational
sponsor will agree to allow you to attend classes on the mandatory
Friday afternoons and Saturdays, and to determine if your
organization plans to cover all or part of your educational fees. If
you will be self-supporting, please ask your employer to confirm their
agreement to your attendance and indicate your personal payment
option preference on the bottom of the form.

8. Application interview. An application interview may be required,
depending on individual circumstances. The Graduate Programs
Office will contact you if needed.

Your completed Supplementary Application Form, and all supporting
documents should be mailed to the address below, unless otherwise
indicated:

College of Business Administration
MBA for Executive Program
Tahoe Hall, Room 1010
Sacramento State
6000 J Street
Sacramento, CA 95819-6088

International Applicants
International applications are not accepted for the program.

Note: Applications are not considered complete and will not be
reviewed unless GMAT scores and transcripts are included. To facilitate
processing your application so that you receive an admission decision
more quickly, you must submit official transcripts from ALL colleges
and universities previously attended (other than courses taken at
Sacramento State University) even if you attended Sacramento State as
an undergraduate. You should arrange to have all official transcripts sent
at the same time you submit your application.

Minimum Units and Grade Requirement for the Degree
Units for EMBA: 41
Minimum Cumulative GPA: 3.0. The minimum acceptable grade for
any graduate business course is “C.” No more than two (2) courses
with a grade of “C” will be counted for satisfaction of graduate program
requirements.

Advancement to Candidacy
A student’s program requirements are governed by the catalog in effect
at the time one is accepted into and begins graduate school or by the
catalog in effect at the time advancement to candidacy is approved.

Prior to enrolling in Culminating Requirements, a student must advance
to candidacy. Initiation of advancement procedures is the responsibility
of the student. The application to advance must be filed no later than the
semester prior to enrollment in culminating experience requirement.
• Statistics
• Financial Accounting
• Business Economics

The program consists of twelve 3 unit courses to provide in depth knowledge and skills for students. The twelve courses include eight core courses and four courses from a specific area of emphasis: Finance, International Management, and Information Technology.

Admission Requirements

All applicants for post-baccalaureate degree programs in Business must have earned a baccalaureate degree from a regionally accredited four-year institution of higher learning or the equivalent from a foreign institution. Admission requirements are different for each of the CBA Graduate Programs. The specific admission requirements for each degree program are listed within the program descriptions under “Admission Information” on the following pages. The College of Business Administration reserves the rights to revise its admissions standards and to limit enrollment in its graduate degree programs.

Applicants who are approved for admission will receive a letter from the Office of Graduate Studies informing them that they have been admitted as a Pre-Master or classified graduate student. Included with that correspondence will be an Acceptance Form which the new graduate student must then return to the CBA Graduate Business Advising Center (GBAC), Tahoe Hall 1037.

Admission Criteria for the MBA Program:

1. Index 1 of 1050 or Index 2 of 1100 (see description below);
2. GMAT Total score of 500;
3. GMAT Quantitative percentile of 30;
4. GMAT Verbal percentile of 30; and
5. 2.50 Overall Undergraduate GPA.

**Index #1** - (GPA x 200) + GMAT total score. An index of 1050 is required using the overall undergraduate GPA.

**Index #2** - (GPA x 200) + GMAT total score. An index of 1100 is required using the last 60 semester units (last 90 quarter units) undergraduate GPA.

**Example:** 
[3.0 GPA x 200] + 500 GMAT total score = 1100

**Note:** We reserve the right to admit fewer applicants that those meeting the minimum criteria.

**Deadlines**
See the CBA Web site for current admission deadlines: www.cba.csus.edu/graduate/MBA (http://www.cba.csus.edu/graduate/MBA/)

**Special Admission Process**

Applicants not meeting all the admission criteria may be admitted to the program based on evidence of potential success in the program provided by the applicant. Such evidence may include, but is not limited to: the applicant’s maturity, motivation, employment history, managerial potential, letters of recommendation, personal statement, community activities, and other accomplishments that support the applicant’s potential to successfully complete the program. An applicant so considered and recommended for admission may be approved by the Dean or Dean’s designee.

Application Procedures

All prospective graduate students must file all of the following documents by the application deadline with both the CBA Graduate Business Advising Center (Tahoe Hall 1037) and the Sacramento State Office of Graduate Studies (River Front Center 206) as noted below:

1. To the College of Business Administration, Graduate Business Advising Center:
   • 1 Set of Official Transcripts;
   • GMAT Scores;
   • Recommendation Letters (two letters are strongly preferred); and
   • Resume.

2. To Sacramento State Office of Graduate Studies:
   • Online CSU Graduate Application (www.csus.edu/gradstudies (http://www.csus.edu/gradstudies/));
   • 1 Set of Official Transcripts; and
   • Application Fee as required by the CSU system (You can pay this when you are filling out your online application).

**Note:** Applications are not considered complete and will not be reviewed unless GMAT scores and transcripts are included. To facilitate processing your application so that you receive an admission decision more quickly, you must submit official transcripts from ALL colleges and universities previously attended (other than courses taken at Sacramento State) even if you attended Sacramento State as an undergraduate. You should arrange to have those official transcripts sent at the same time you submit your application.

**International Students**

All materials, inclusive of TOEFL scores, must be turned in to the International Admissions Office (Lassen Hall 2304). To ensure consideration, international students should submit their material, including GMAT and TOEFL test scores, to the International Admissions Office one month prior to the CBA Graduate Business Advising Center’s (GBAC) application filing deadline. For an application and details international students should visit The International Admissions Office Web site at http://www.csus.edu/oge/international-admissions/.

**Application Submission**

For Graduate Programs: MBA, MS/ACCY, and CABS:

College of Business Administration
Graduate Business Advising Center (GBAC)
Tahoe Hall, Room 1037
Sacramento State
6000 J Street
Sacramento, CA 95819-6088
Web site: csus.edu/cba/graduate/index (http://www.csus.edu/cba/graduate/)
Phone: (916) 278-6772
Fax: (916) 278-4943
Email: cba-gbac@saclink.csus.edu

And to:

Office of Graduate Studies
Sacramento State
River Front Center, Room 215
6000 J Street
Sacramento, CA 95819-6112
Web site: csus.edu/cba/graduate/index (http://www.csus.edu/cba/graduate/)
Phone: (916) 278-6470
Prerequisites

Prior to enrolling in the Foundation courses, students must be proficient in mathematics, statistics, and computer usage:

- Mathematics: at least one semester of calculus is strongly preferred;
- Statistics: an introductory course in probability and statistics; and
- Computer usage: ability to use common personal computer hardware and software, particularly word processing programs, spreadsheet programs, and internet browsers.

The faculty will assume that all MBA students have these proficiencies. A student may gain the necessary proficiencies in many ways: through coursework, review classes, self-study, or experience. No proficiency courses can count as credit towards program requirements.

Writing Placement for Graduate Students Exam

All graduate students are expected to have demonstrated writing proficiency at the undergraduate level as prescribed by the California State University System. Applicants for admission to graduate programs who have not fulfilled this requirement will be required to take the Writing Placement for Graduate Students (WPG) or take a Graduate Writing Intensive (GWI) course in their discipline within the first two semesters of coursework at California State University, Sacramento or secured approval for a WPG waiver. A student may be eligible for a WPG Waiver based on selected criteria (obtain a list of criteria and a WPG waiver from the Graduate Business Advising Center). Graduate students are required to meet this requirement before advancing to candidacy. No exceptions will be made to this policy.

Foundation Courses

The Foundation courses provide an academic background in the various disciplines of business. The MBA degree program is built upon this common background. Foundation courses should be taken after the student has attained the required entry proficiencies (prerequisites) and should be completed prior to taking program requirement courses. The Foundation courses are available through the Sacramento State College of Continuing Education.

A student who has a baccalaureate degree or a minor in Business Administration from an AACSB-INTERNATIONAL accredited university may have completed all or most of the Foundation requirements. However, the student will be required to take certain Foundation courses if she/he:

1. has not previously completed the comparable undergraduate course(s) for academic credit from an AACSB-INTERNATIONAL accredited institution or from a high quality program that has a "national or international reputation";
2. has earned less than an overall 3.0 ("B") grade point average (GPA) in the comparable undergraduate courses presented for waiver of required courses;
3. has received a "C" or lower grade in the comparable undergraduate course;
4. cannot demonstrate currency in these courses (7 year limit); or
5. has completed the bachelor's degree at a foreign institution.

Courses taken at AACSB-INTERNATIONAL accredited colleges of business will be accepted for transfer credit if the course is regarded as equivalent to the course for which credit is requested. Business Foundation courses and Core courses will not be accepted for transfer credit from programs that are not AACSB-INTERNATIONAL accredited unless taken at institutions that have national or international reputations of high quality programs.

Please contact the Graduate Business Advising Center (GBAC) Tahoe Hall 1037 to request petitions for equivalency for graduate, non-articulated courses. The CBA Academic Standards Committee will evaluate whether the institutions satisfy the requirement of "national or international reputations of high quality programs." Subsequently, faculty in the appropriate department will make the final determination for course equivalency, e.g., content, method of instruction, method of evaluating students, and/or course duration. To find out if your university is AACSB accredited go to www.AACSB.edu (http://www.aacsb.edu/).

Pre-Master students who are registered in the last two Foundation courses must file an Application for Classification with the Graduate Business Advising Center (GBAC) Tahoe Hall 1037, to be able to enroll in the courses designated as Program Requirements. The student's academic status will be reviewed to assure that he/she meets the necessary criteria to be accepted as a classified graduate student.

A GPA of at least 3.0 ("B") is required in all Foundation courses taken at Sacramento State, and program requirement courses presented for the degree.

Foundation Courses (0-11 units)

The foundation courses are available through the College of Continuing Education after acceptance into one of the CBA Graduate Programs.

Note: To be completed after the student has demonstrated the required entry proficiencies and must be completed prior to taking Program Requirements in any of the Master’s programs.

All of the Foundation Courses below are required for the MBA and the MSBA/MIS programs. MSBA/Taxation and MS/Accountancy programs only require the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 204</td>
<td>Business Economics</td>

1 This requirement will be waived for students who achieve a score of 4.5 or higher on the Analytical Writing Assessment (AWA) section of the GMAT exam.

Minimum Units and Grade Requirement for the Degree

Units required for MBA: 36 (excluding foundation courses)

Minimum Cumulative GPA: 3.0. The minimum acceptable grade for any graduate business course is "C." No more than two (2) courses with a grade of "C" will be counted for satisfaction of graduate program requirements.

Advancement to Candidacy

A student’s program requirements are governed by the catalog in effect at the time advancement to candidacy is approved.

Prior to enrolling in Culminating Requirements, a student must advance to candidacy. Initiation of advancement procedures is the responsibility of the student. The application to advance must be filed no later than the semester prior to enrollment in culminating experience requirement.

Eligibility to advance to candidacy requires satisfactory scholastic achievement, presentation of a plan of graduate study, and demonstration of writing proficiency. A classified graduate student in Business Administration may apply to the Graduate Business Advising Center (GBAC) for advancement to candidacy for the Master’s degree after s/he has completed at least 12 units of the program requirements beyond the Foundation requirements. Students with a GPA deficiency or who have not fulfilled the Writing Placement for Graduate Students Requirement (WPG) cannot advance to candidacy.
