Students are enrolled in the basic course (lower division) for the first two years on a voluntary basis. There is no military obligation associated with attendance in lower division courses. Admission to the advanced course (upper division) is by application from second-year lower division students who meet the academic, physical, and military aptitude requirements. Qualified veterans can enter the advanced course immediately because of their military service experience, upon approval by the Department Chair. Upper division students receive $350 (Juniors) or $400 (Seniors) subsistence per month after executing a contract agreeing to complete the course and accept a commission if offered. During the course, all military science textbooks, uniforms and equipment are provided without cost. Students are given leadership development experience at summer camp (advanced camp) between their third and fourth years of the course. Emphasis is on individual participation, leadership development and the capability to function effectively in positions of significant responsibility.

Two-Year Program
The two-year program is for students who have not attended lower division Military Science classes. In lieu of lower division courses an applicant attends the Army ROTC National Leader’s Camp at Fort Knox, Kentucky. Applicants are paid for camp attendance and transportation costs. Applications are accepted during the winter and spring terms of the year preceding enrollment in the two-year program. All other provisions explained above for the upper division course apply to the two-year program.
Scholarships
The U.S. Army offers four-, three-, and two-year Active Duty and two-year Reserve Forces Duty or Dedicated California National Guard scholarships to students planning to attend or attending Sacramento State. The U.S. Army ROTC scholarship package pays tuition and educational fees. Also included in all scholarships is a flat rate of $600 per year for textbooks, up to $400 per year for miscellaneous fees such as laboratory, student activity, transcript, and graduation fees, and a subsistence allowance of up to $400 a month for 10 months for each year that the scholarship is in effect.

The Army Reserve Officers’ Training Corps four-year Active Duty merit scholarships are awarded to qualified high school seniors in a national competition each year. There are two cycles available for submission of the four-year scholarship application. High school juniors can compete for an Early Cycles scholarship by submitting their application complete and postmarked by July 15 between their junior and senior years. Applicants will receive notification of their final status by November 1. As high school seniors, students compete for the Regular Cycle scholarship by submitting their application complete and postmarked by December 1. Those applicants not selected in the Early Cycle are considered in the Regular Cycle competition. Applicants will receive notification of their final status by March 1 of their senior year in high school. Interested applicants should see their high school counselor for an application or contact the UC Davis Department of Military Science at (530) 752-7682.

The three-year Active Duty and two-year Reserve Forces Duty scholarships are awarded to college students who are already attending Sacramento State or transferring from a junior college to Sacramento State, and have three to two years remaining before graduating with a baccalaureate. Students interested in competing for these scholarships can submit their application beginning in November of each school year. The deadline for submission of an application is January 15 for the three-year scholarship and February 15 for the two-year scholarship. Students apply for and are awarded these Army scholarships through the Military Science Department.

Leadership Laboratory
During the course of the school year, several weekends and two hours per week are spent in the conduct of practical exercises. Classes emphasize adventure activities including offense, defense and patrolling techniques, weapons familiarization, rappel ling, rope bridging, obstacle course, leadership reaction course, and land navigation. All cadets are required to attend leadership laboratories at the UC Davis campus for practical leadership experience and to prepare for attendance at the Army ROTC Advanced Camp, held at Fort Knox, Kentucky.

AERO 1A. Heritage and Values of the United States Air Force I. 1 Unit
Term Typically Offered: Fall, Spring
Orientation to the Air Force and AFROTC. This is a survey course designed to introduce students to the United States Air Force and provides an overview of the basic characteristics, missions, organizations of the Air Force, and benefits of Air Force membership. Students will be required to complete an oral and written project.

AERO 1B. Heritage and Values of the United States Air Force II. 1 Unit
Term Typically Offered: Fall, Spring
Continuation of AERO 1A: completes students’ orientation to the Air Force. Specific topics include evolution of Airpower, Air Force structure, and social media and the Air Force. Students will be required to complete an oral and written project.

AERO 21A. Team Leadership and Fundamentals I. 1 Unit
Term Typically Offered: Fall, Spring
Focuses on laying the foundation for teams and leadership in the Air Force. Topics include skills that will allow cadets to improve their leadership on a personal level and within a team. Cadets will experience initial field training preparation. Communication skills will be emphasized and include: public speaking, writing, and class participation.

AERO 21B. Team Leadership and Fundamentals II. 1 Unit
Term Typically Offered: Fall, Spring
Continuation of AERO 21A. The purpose of this course is to instill a leadership mindset and to motivate sophomore students to transition from AFROTC cadets to AFROTC offer candidates. Topics include conflict management, human relations, building teams. Communication skills will be emphasized and include: speaking, writing, and class participation.

AERO 99. Special Problems. 1 - 4 Units
Term Typically Offered: Fall, Spring
Academic study and evaluation in specified topics associated with aerospace development, technology, and doctrine.
Note: Open only to students who appear competent to complete assigned work and who meet prerequisites established by the Department of Aerospace Studies. Approval in writing by the Department Chair required.

Credit/No Credit
AERO 135A. Leading People and Effective Communication I. 3 Units
Term Typically Offered: Fall, Spring
This course teaches cadets advanced skills and knowledge in management and leadership. Also a survey of selected concepts, principles, and theories on decision making, change management, effective supervision and Air Force diversity issues. Students will be given the opportunity to improve speaking and writing skills.
AERO 135B. Leading People and Effective Communication II. 3 Units
Term Typically Offered: Fall, Spring

Continuation of AERO 135A. Survey of selected concepts, principles, and theories on negotiating in teams, bias, creating a vision, public affairs, and professionalism. Students will be given the opportunity to improve speaking and writing skills.

AERO 145A. National Security and Preparation for Active Duty I. 3 Units
Term Typically Offered: Fall, Spring

Provides an overview of the role of the military in our national security policy and processes. It includes an analysis of the roles of the three branches of government as they relate to national security; organization of the Air Force as well as other branches of the military; an overview of military ethics; how the Air Force deploys; and a discussion of global current events which impact our national security. Students are expected to participate in class discussions/complete written/oral presentations.

AERO 145B. National Security and Preparation for Active Duty II. 3 Units
Term Typically Offered: Fall, Spring

Continuation of AERO 145A. Presentation of critical issues facing today's military professionals. A wide variety of topics are discussed including: the military legal system; the laws of armed conflict; security issues; personal finance; professional/unprofessional relationships; information warfare; and issues pertinent to the first assignment after commissioning into the Air Force. Students will be expected to participate in class discussions and complete a written and oral presentation.

AERO 199. Special Problems. 1 - 4 Units
Term Typically Offered: Fall, Spring

Academic study and evaluation in specified topics associated with aerospace development, technology, and doctrine.

Note: Open only to those students who appear competent to complete assigned work and who meet prerequisites established by the Department of Aerospace Studies. Approval in writing by the Department Chair required.

Credit/No Credit

MILS 14. Introduction to Military Science I. 1 Unit
Term Typically Offered: Fall, Spring

Discussion of the military as one element of national power; its role in American defense; its purpose, weapons and organizations; its participation in international treaties. Discussion of other subjects required for a student to understand the military and its place in modern society. Fall only.

MILS 15. Introduction to Military Science II. 1 Unit
Term Typically Offered: Fall, Spring

Discussion of the military's role in American Society, current society attitudes, sources of its leaders, and an examination of its structure. Spring only.

MILS 24. Principles and Tactics of the Soldier. 1 Unit
Term Typically Offered: Fall, Spring

Familiarizes students with the nine principles of war, and gain an appreciation for the role of the commander in warfare. A study of small unit level will enable the student to understand the nature of the battlefield environment, and will put the decisions of the commander into perspective. These discussions will lead to the discussion of the elements of leadership to be presented in MILS 25. Fall only.

MILS 25. Leadership Assessment and Beginning Counseling Skills. 1 Unit
Term Typically Offered: Fall, Spring

Students will gain insight and practical experience in the manager-leader skills of counseling using the Army's sixteen leadership dimensions as a model. The student will understand the elements of leadership, and undergo the Army's Leadership Assessment Program in class. Interactive role playing scenarios will be conducted and behavior recorded in a group setting. The student will be given individual feedback on the results of the assessment by scheduling a private appointment with the instructor. Spring only.

MILS 99. Special Problems. 1 - 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Intensive examination of one or more special problems in Military Science. Possible areas of study include examination of the structure of the military and its place in modern society, participation in international treaties, leadership skills, decision making, as well as other topics in military science.

MILS 134. Principles Of Instruction. 2 Units
Term Typically Offered: Fall, Spring

Principles and practice in fundamentals applicable to military instruction to include planning, presentation, execution and evaluation. Student presentations exemplify lecture material. Application of small combat unit tactics (squad and platoon) will solidify concepts discussed in class. Fall only.

MILS 135. Military Operations. 2 Units
Prerequisite(s): Upper division standing, MILS 134 or instructor permission.
Term Typically Offered: Fall, Spring

Military small unit tactical theory and application are taught and serve as a basis for leadership development. Introduces principals of combat contemporary operating environment, Geneva Law of Land Warfare, and military offensive and defensive operations. Emphasis is placed on developing critical thinking, problem solving, and communication skills. Spring only.

MILS 144. Principles of Military Administration. 2 Units
Term Typically Offered: Fall, Spring

Comprehensive course in the organization, structure, and functions of the various types of staffs and an introduction to the theory and application of military law and legal systems focusing on the Uniform Code of Military Justice and the rights of the accused under the Constitution. Fall only.
MILS 145. Military Leadership and Ethics. 2 Units
Term Typically Offered: Fall, Spring

Capstone seminar designed to bring together all previous Military Science instruction. Examines contemporary leadership problems. Designed to provide the ROTC cadet with the basic management skills necessary for a foundation for future growth as a junior officer. Spring only.

MILS 199. Special Problems. 1 - 3 Units
Prerequisite(s): MILS 14, MILS 15, MILS 24, MILS 25 and Department Chair permission.
Term Typically Offered: Fall, Spring

Intensive examination of one or more special problems in military science. Possible areas of study include leadership dimensions, professional ethics, critical thinking, problem solving, communication skills as well as other topics in military science.

Special Major/Minor

www.csus.edu/gradstudies (http://www.csus.edu/gradstudies/)

Special Major (Graduate)

Graduate Program
The Special Major for the Master's degree provides an alternative for superior students whose special needs and interests cannot adequately be met by any one of the existing master's degree programs of the University. The student may earn a Master of Arts or a Master of Science, as appropriate to the department in which the culminating experience requirement is completed. The special major is a coherent program directed towards a clear theme, not available within an existing graduate major. The courses are chosen from two or more departments and may bridge more than one college within the University. The courses must be carefully selected for their correlation and clear applicability to the objective of the unique major being proposed. The proposed program must be compatible with the objectives of the University and supportable by courses already offered within the degree programs and by the expertise of the faculty members.

Eligibility
The Special Major program is restricted to superior graduate students who are eligible for admission to classified standing in one of the regular master's degree programs of the University.

Eligibility
Students must present evidence of overall undergraduate grade point averages of 3.0 and 3.0 in the last 60 semester units taken.

Courses taken to fulfill prerequisite requirements must be completed with a minimum GPA of 3.5, and they may not be counted toward the degree requirements.

Admission Requirements
Students may apply to the University as unclassified graduate students or directly into a Special Major program.

A Special Major application with department approvals must be submitted no later than the end of the first semester of attendance.

The applicant will need to obtain the assistance and approval of three or more faculty advisors. Because of the interdisciplinary nature of the Special Major, students are required to obtain the assistance and concurrence of faculty advisors from the key instructional units listed in the Program of Study. Obtain the detailed Graduate Special Major guidelines from the Office of Graduate Studies, River Front Center 206, (916) 278-6470. Prepare the program in consultation with the faculty committee.

Advancement to Candidacy
Each student must file an application for Advancement to Candidacy indicating a proposed program of graduate study. This procedure may begin as soon as the classified graduate student has:

• removed any deficiencies in admission requirements;
• completed at least 12 units of 200-level courses with a minimum 3.0 GPA; and
• taken the Writing Placement for Graduate Students (WPG) or taken a Graduate Writing Intensive (GWI) course in their discipline within the first two semesters of coursework at California State University, Sacramento or secured approval for a WPG waiver.

Master of Arts/Master of Science – Special Major
Minimum upper division and graduate level units required: 30

• At least 18 units must be in regularly established lecture or seminar courses at the 200 level (not to include 299 courses).
• No more than six units may be in Independent Study (299 or similar courses).
• No more than six units shall be in any one or in any combination of:
  a. approved extension credit;
  b. transfer credit, for work carrying graduate degree residence credit at another accredited institution. No more than half the units may be in any one department.

Special Major (Undergraduate)

Program Description
When an existing, authorized Bachelor's degree, Minor, Certificate, or Non-Certificate Program of Study does not meet the needs of a student, a Special Major or Minor can be requested. The Special Major or Minor can be a first and only program or a second major or minor. In the latter case, students are encouraged to develop a program of study which complements the first major. Programs will be interdisciplinary in nature and will require at least six units of coursework in each of
at least two academic units. Materials describing the procedures and requirements applying to special majors and minors can be obtained from the Dean’s office in each of the colleges or online at: https://sacramentostate.policystat.com/policy/11442935/latest/ All approvals should be obtained at least one year in advance of graduation date. Final special major program plans with appropriate signatures are submitted to the Dean for Undergraduate Studies, Sacramento Hall 234. The program does not qualify for special major authorization until all parties have approved the program.

Eligibility
To qualify for a Special Major or Minor a student must satisfy the following requirements:

- Before submitting the application to begin work on the Special Major, the student must have a combined grade point average of 2.5 on all coursework completed to that point.
- Describe the educational and career objectives sought.
- Identify and justify the relationship of the pattern of study requested to the objectives sought.
- Outline the coursework and academic activity necessary to complete the objectives cited.
- No more than 6 units may be in Independent Study (199 or similar courses) and Fieldwork (195 or similar courses).
- Obtain the assistance and approval of two or more faculty advisors from the key instructional units listed in the Program of Study as well as the Department or Academic Unit Chairs from those units.
- Obtain the approval of the appropriate college dean(s).
- Submit all materials for review and approval to the Office of Undergraduate Studies, Sequoia Hall, 311.

Specific Degree Requirements
- A minimum/maximum total of 120 units are required for the Bachelor of Arts or Bachelor of Science Special Major
- A BA Special Major must have a minimum of 24 units
- A BS Special Major must have a minimum of 36 units
- Each Special Major must have a minimum of 6 units in each of the key areas of the degree program
- All other University requirements for a Bachelor’s degree, such as State Code, General Education, upper division minimum requirements, etc. must be met.
- At least two-thirds of the upper division units must be taken in residence at California State University, Sacramento

Program Requirements

Special Major
A minimum of 120 units are required for the Bachelor of Arts or Bachelor of Science Special Major. No more than 6 units may be in Independent Study (199 or similar courses) and Fieldwork (195 or similar courses).

The unit requirements for the major are:

- BA: no less than 24 units with at least 12 upper division units
- BS: no less than 36 units with at least 18 upper division units

In all cases at least two thirds of the upper division units must be taken in residence, i.e., at Sacramento State.

Special Minor
Total units required for the Special Minor: 12, including a minimum of 6 upper division units in the field of specialization.

Programs:
Athletics (p. 1156)

Athletics

President’s Office

Program Description
The program of intercollegiate athletics is organized and conducted as an integral part of the total educational program of the University. Academic excellence and athletic accomplishments go hand in hand at Sacramento State. There are three separate and unique missions in this program: to contribute to the educational objectives of the University; to provide a healthy, competitive athletic experience to individual student-athletes; to serve as a public relations vehicle within the community.

The Department of Intercollegiate Athletics offers both academic courses and an intercollegiate athletics program. Academic courses offer the opportunity for individuals to gain knowledge and understanding in a particular area of expertise related to intercollegiate athletics.

Sacramento State has made a strong commitment to the achievement of national excellence at the NCAA Division I level. It also is committed to maintaining an equitable program between men and women.

Special Features
- Most of Sacramento State’s sports are affiliated with the Big Sky Conference.
- Baseball is a member of the Western Athletic Conference
- Men’s Soccer and Beach Volleyball are members of the Big West Conference.
- Gymnastics is a member of the Mountain Pacific Sports Federation.
- Rowing is a member of the American Athletic Conference.
- The Student-Athlete Resource Center (SARC) (Lassen Hall 3002) offers a counseling system for student-athletes, designed specifically by the Department of Intercollegiate Athletics and Student Affairs to ensure academic development.

Student-Athlete Special Action Review Committee
The Student-Athlete Special Action (SASA) Committee serves to review admission appeals for prospective undergraduate Sacramento State student-athletes who do not meet University admission standards, NCAA initial-eligibility requirements, and/or admission exceptions provided through the athletic admissions process. The SASA Committee will also follow the requirements of Assembly Bill 1383-Admission by Exception. The Committee will consider and provide final decisions to the Director of Admissions or their designee on whether an applicant is granted special admission to the University based on previous academic
coursework, grade-point-averages, and test scores (as applicable). Additional educational evidence may also be considered (e.g., academic performance issues, multi-factor background details, and/or those requiring accommodations or appropriate adjustments for equal access to Sacramento State).

The SASA Committee will be comprised of the following individuals and should include at least three voting representatives reviewing each admissions request. For AB 1383 purposes, three senior-level (Associate Vice President or higher-level) administrators must participate in the process (unless the prospect is a California resident expected to be on athletic-related scholarship).

1. Vice President for Student Affairs (Admin IV)
2. Associate Vice President for Enrollment Management and Student Services (Admin III)
3. AVP for Student Affairs and Dean of Students (Admin III)
4. NCAA Faculty Athletic Representative
5. AVP or Vice Provost from Academic Affairs with preference given to the administrator who oversees IPGE
6. Alternate – One Admin III AVP, Vice Provost or Dean, as selected by the VPSA, to serve if an existing member is unable to participate or must recuse themselves from a specific case.

The Committee may request other campus officials input to provide background or serve as support to the committee based on their relationship to the particular case. Examples: athletic coach, admissions representative, Student-Athlete Resource Center staff, or IPGE staff.

The following process will be used in the review of each case:

1. If a prospective student-athlete does not meet University admission standards or a reasonable admission exception during the evaluation process; is denied admission; or denied an admissions appeal to the University, Intercollegiate Athletics (via the head coach and Director of Athletics) may request in writing, a SASA Committee review of the prospect to determine whether the granting of a special exception is warranted.

2. The prospective student-athlete, coaching staff, and/or Director of Athletics should forward or present any relevant information to the SASA Committee for its review and consideration. This can include providing additional documentation and/or meeting in-person or virtually with the Committee.

3. The admission decision recommended by the SASA Committee for each applicant will be forwarded in writing to the Director of Admission or their designee or the AVP for IPGE or their designee (if the review involves an international prospect) and the Student Athlete Resource Center, and should include any requirements or expectations that relate to the student-athlete's admissions recommendation. The SASA Committee's decision is final.

4. The Student Athlete Resource Center Director and staff will assist in the communication of decisions to Intercollegiate Athletics staff (Director of Athletics, Head coach, etc.).

5. Approved prospects will coordinate with the Student Athlete Resource Center for late-admissions procedures, orientation, late-registration and any other requirements or expectations set-forth by the SASA Committee and Sacramento State.

Note: Student-athlete prospects admitted on exception who are not on athletic-related financial aid (i.e. non-scholarship) or non-California resident student-athlete prospects (regardless of athletic-related financial aid status) must participate (i.e. remain on roster) in their sport for a minimum of one year per Assembly Bill 1383.

The SASA Committee's role is intended to review admissions primarily on scholarship student-athlete prospects who are expected to meet at least Academic Redshirt NCAA initial-eligibility requirement status.

ATIC 61. Men's Cross Country. 2 Units
Prerequisite(s): Intercollegiate Student Athletes only
Term Typically Offered: Fall, Spring
Practice begins mid-August and the season ends in mid-November.
Credit/No Credit

ATIC 62. Men's Tennis. 2 Units
Prerequisite(s): Intercollegiate Student Athletes only
Term Typically Offered: Fall, Spring
Practice begins the first day of the fall semester and the spring schedule ends the last of May.
Credit/No Credit
ATIC 63. Men's Track and Field. 2 Units
Prerequisite(s): Intercollegiate Student Athletes only
Term Typically Offered: Fall, Spring

Indoor Track and Field practice begins in the fall. The competitive season is in the winter. Outdoor Track and Field practice begins the first day of spring semester and the season ends the last week of May.

ATIC 64. Men's Baseball. 2 Units
Prerequisite(s): Intercollegiate Student Athletes only
Term Typically Offered: Fall, Spring

Practice begins in the fall with the competitive season starting February 1. The 56-game schedule is followed by the NCAA Championships for qualified teams in May.

ATIC 65. Men's Basketball. 2 Units
Prerequisite(s): Intercollegiate Student Athletes only
Term Typically Offered: Fall, Spring

Practice begins mid-October. The season ends in late February and leads to NCAA Championships for qualified teams.

ATIC 66. Men's Football. 2 Units
Prerequisite(s): Intercollegiate Student Athletes only
Term Typically Offered: Fall, Spring

Daily afternoon practice begins in late August. The 10-11 game schedule is followed by NCAA Championships for qualified teams.

ATIC 67. Men's Golf. 2 Units
Prerequisite(s): Intercollegiate Student Athletes only
Term Typically Offered: Fall, Spring

Practice begins fall semester Monday through Friday starting at noon.

ATIC 68. Men's Soccer. 2 Units
Prerequisite(s): Intercollegiate Student Athletes only
Term Typically Offered: Fall, Spring

Practice begins mid-October. The competitive season begins in November and continues to the end of February leading to the NCAA Championships for qualified teams.

ATIC 69. Women's Tennis. 2 Units
Prerequisite(s): Intercollegiate Student Athletes only
Term Typically Offered: Fall, Spring

Practice begins the first day of the fall semester and the spring schedule ends the last of May.

ATIC 70. Women's Track and Field. 2 Units
Prerequisite(s): Intercollegiate Student Athletes only
Term Typically Offered: Fall, Spring

Indoor Track and Field practice begins in the fall. The competitive season is in the winter. Outdoor Track and Field practice begins the first day of spring semester and the season ends the last week of May.

ATIC 71. Women's Basketball. 2 Units
Prerequisite(s): Intercollegiate Student Athletes only
Term Typically Offered: Fall, Spring

Practice begins mid-October. The competitive season begins in November and continues to the end of February leading to the NCAA Championships for qualified teams.

ATIC 72. Women's Soccer. 2 Units
Prerequisite(s): Intercollegiate Student Athletes only
Term Typically Offered: Fall, Spring

Practice begins in the fall with the competitive season starting November 1. The 10-11 game schedule is followed by NCAA Championships for qualified teams in May.

ATIC 73. Women's Softball. 2 Units
Prerequisite(s): Intercollegiate Student Athletes only
Term Typically Offered: Fall, Spring

Practice begins the second week of September. Competition consists of one or two matches in the fall and the remaining part of the schedule is during the spring semester. Interested student-athletes who would like to walk on and try out for the team should contact the coach.

ATIC 74. Women's Golf. 2 Units
Prerequisite(s): Intercollegiate Student Athletes only
Term Typically Offered: Fall, Spring

Practice begins the second week of September. Competition consists of one or two matches in the fall and the remaining part of the schedule is during the spring semester. Interested student-athletes who would like to walk on and try out for the team should contact the coach.

ATIC 75. Women's Rowing. 2 Units
Prerequisite(s): Intercollegiate Student Athletes only
Term Typically Offered: Fall, Spring

Practice begins the second week of September. Competition consists of one or two matches in the fall and the remaining part of the schedule is during the spring semester. Interested student-athletes who would like to walk on and try out for the team should contact the coach.
ATIC 87. Women's Volleyball. 2 Units
Prerequisite(s): Intercollegiate Student Athletes only
Term Typically Offered: Fall, Spring

Preseason begins in mid-August. Competition begins September 1 and ends in mid-December with NCAA Championships for qualified teams. Daily practices are 2:00-5:00 p.m. Interested student-athletes must contact the coach prior to the preseason, be cleared by the Clearinghouse, and meet all eligibility requirements in order to participate in tryouts.
Credit/No Credit

ATIC 88. Women's Cross Country. 2 Units
Prerequisite(s): Intercollegiate Student Athletes only
Term Typically Offered: Fall, Spring

Practice begins mid-August and the season ends in mid-November.
Credit/No Credit

ATIC 89. Women's Track and Field. 2 Units
Prerequisite(s): Intercollegiate Student Athletes only
Term Typically Offered: Fall, Spring

Indoor Track and Field practice begins in the fall. The competitive season is in the Winter. Outdoor Track and Field practice begins the first day of spring semester and the season ends the last week of May.
Credit/No Credit

ATIC 167. Coaching of Football. 3 Units
Term Typically Offered: Fall, Spring

Examines all phases of the game, including offense, defense and special teams. Other topics covered are public/media relations, budget management, academic rules, marketing strategies, officiating, equipment and many other aspects. Lecture two hours, activity two hours.

ATIC 175. Sports Information Fieldwork. 1 - 3 Units
Prerequisite(s): JOUR 123 or instructor permission.
Term Typically Offered: Fall, Spring

Directed observations and work experience with intercollegiate athletics sports information support services. Field work is offered to give students orientation in the profession of sports information services. Supervision is provided by the instructional staff of the university. Each student is required to maintain a record of activities and assignments and to prepare periodic reports.
Note: May be repeated once for credit.
Credit/No Credit

ATIC 195. Field Experience in Intercollegiate Athletics. 1 - 3 Units
Term Typically Offered: Fall, Spring

Directed experience in athletics. Student interns keep records of daily experiences and prepare periodic progress reports. Succeeding enrollments should be in different sports.
Note: Registration requires prior approval of Director of Athletics.
Credit/No Credit

ATIC 199. Directed Individual Study. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual research, project or directed reading.
Note: Registration requires approval of the faculty under whom the individual work is to be conducted and the Director of Athletics.
Credit/No Credit
APPENDICES

Appendix A: Determination of Residency for Tuition Purposes

University requirements for establishing residency for tuition purposes are independent from requirements for establishing residency for other purposes, such as for tax purposes, or other state or institutional residency. These regulations were promulgated not to determine whether a student is a resident or nonresident of California, but rather to determine whether a student qualifies to pay university fees at the in-state or out-of-state rate. A resident for tuition purposes is someone who meets the requirements set forth in the Uniform Student Residency Requirements. These laws governing residency for tuition purposes at the California State University are California Education Code sections 68000-68086, 68120-68133, and 89705-89707.5, and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41900-41915. This material can be viewed by accessing the California State University Office of General Counsel (https://www.calstate.edu/csu-system/administration/general-counsel/) website.

Each CSUs Admissions Office is responsible for determining the residency status of that university’s new and returning students based, as applicable, on the student’s Application for Admission, Residency Questionnaire, and, as necessary, other information the student furnishes. A student who fails to provide sufficient information to establish resident status will be classified a nonresident.

Residency Requirements

Initial Determination: Eligible Immigration Status, Physical Presence and Intent

A student seeking to pay in-state tuition at a California State University (CSU) as a first-time freshman, transfer, or as a post-baccalaureate/graduate student must have an eligible immigration status to establish residency (see https://www.calstate.edu/apply/california-residency-for-tuition-purposes/Pages/default.aspx) Immigration Information, meet physical presence by the Residence Determination Date, and demonstrate intent to indefinitely remain in the State of California for more than one year immediately preceding the Residence Determination Date. If the student is under the age of 19 (with limited exceptions), the student’s residence status is derived from that of the parent or from that of the legal guardian.

Requirements for Residency for Tuition Purposes

Physical Presence: The student or parent/guardian must be physically present in California for more than one year immediately preceding the Residence Determination Date in which enrollment is contemplated. For example, if a student plans to attend the CSU for the Fall 2022 academic term, and the Residence Determination Date for that term is September 20, 2022, the student must establish physical presence in California no later than September 19, 2021.

Intent: California law stipulates the burden of proof rests with the student, and merely living in California for a year does not support a claim for residency for tuition purposes. The student, or in some cases a parent or legal guardian, must demonstrate intent to remain indefinitely in the state for more than one year immediately preceding the Residence Determination Date (RDD) and sever all residential ties with the former state or country of residence. If the student is under the age of 19, the student’s residence status is derived from that of the parent or legal guardian unless an exception applies. There must be sufficient documentation to demonstrate that intent was established more than one year (a minimum of one year and one day) before the RDD.

Documents must include the student’s name, the student’s California address, and a date at least one year and one day prior or on the RDD for the term. For students under the age of 19, documents must be in the parent or legal guardian’s name unless an exception applies. Also, a parent or legal guardian’s immigration status does not preclude a student from establishing residency; therefore, the parent or legal guardian is not required to provide any immigration documents to demonstrate intent.

Evidence demonstrating intent to remain in the State of California indefinitely may vary from case to case, but will include, and is not necessarily limited to, the absence of residential ties to any other state, California voter registration and history of actually voting in California elections, maintaining California vehicle registration and driver’s license, maintaining active California bank accounts, filing California income tax returns and listing a California address on federal tax returns, owning residential property or occupying or renting a residence where permanent belongings are kept, maintaining active memberships in California professional or social organizations, and maintaining a permanent military address and home of record in California.

Immigration Information

A student seeking to pay in-state tuition at a California State University as a first-time freshman, transfer, or as a post-baccalaureate/graduate student must have an eligible immigration status to establish residency. Therefore, the student must be a United States citizen, a permanent resident (Green Card holder), or hold an eligible visa status (see list). If a student does not qualify as a California resident, the student may be eligible for certain exceptions and exemptions.

Nonimmigrant Statuses and Other Categories that are Eligible to Establish California Residency for Tuition Purposes

The Immigration and Nationality Act allows individuals in certain nonimmigrant statuses to establish permanent residency in the United States. Therefore, they are entitled to establish California residency for tuition purposes. For a complete list of eligible visas and other eligible categories, review the Nonimmigrant list Students must hold an eligible visa status at least one year before the Residence Determination Date (RDD) to be eligible to establish California residency for tuition purposes.

Students in the category of Deferred Action for Childhood Arrivals (DACA) or Temporary Protected Status (TPS) are also eligible to establish residency for tuition purposes. Also, students who are adjusting their immigration status, such as asylum, may qualify for residency depending on where they are in the application process.

Most nonimmigrant visa holders, such as an F-1 or J-1 visa holder, are not eligible to establish California residency for tuition purposes. Students with a visa or without an immigration status should contact the university Admissions Office.

Exceptions

Exceptions to the general residency requirements are contained in California Education Code sections 68070-68086 and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41906-41906.6, 41910. Whether an exception applies to a particular student can only be determined after the submission of an application for admission and, as necessary, additional supporting documentation. Because neither the university nor the Chancellor’s Office staff may give legal advice,
applicants are strongly urged to review the material for themselves and consult with a legal advisor.

**Reclassification - Financial Independence (only applies to continuing students)**

A student classified as a nonresident for a prior term may seek reclassification in any subsequent term; however, reclassification requires that, in addition to satisfying the requirements of physical presence and intent to remain indefinitely in the state, the student must also satisfy the requirement of financial independence as outlined in Title 5 CCR § 41905.5. To do so, the student must contact the appropriate person in the university admissions office and complete a Residency Questionnaire Form and provide supporting documents.

Residence Reclassification - Financial Independence Requirement

- Any nonresident student requesting reclassification to resident for tuition purposes must demonstrate financial independence;
- Student has not and will not be claimed as an exemption for state and federal tax purposes by his/her parent in the calendar year the reclassification application is made and in any of the three calendar years prior to the reclassification application;
- Student has not and will not receive more than seven hundred fifty dollars ($750) per year in financial assistance from his/her parent in the calendar year the reclassification application is made and in any of the three calendar years prior to the reclassification application;
- Student has not lived and will not live for more than six weeks in the home of his/her parent during the calendar year the reclassification application is made and in any of the three calendar years prior to the reclassification application;
- Student has not lived and will not live for more than six weeks in the home of his/her parent during the calendar year the reclassification application is made and in any of the three calendar years prior to the reclassification application;
- Note: Students who receive a government scholarship and/or financial assistance should be viewed the same as state and federal financial aid, and athletics grants-is-aid; and should not be counted as parental support;
- Effective Fall 2020 academic term, if the student meets at least one of the following criteria, the student does not have to meet the financial independence requirement. Student must provide the university admissions office supporting documents (e.g. state income tax returns, court documents, marriage certificate, military order form) that demonstrate they meet the criteria.
- Dependent on a parent who has California residence for more than one year immediately preceding the residence determination date;
- Enrolled in a graduate or postbaccalaureate program, regardless of age;
- Turned 24 years of age by the residence determination date;
- Married or registered domestic partner as of the residence determination date;
- Active duty members serving in the U.S Armed Forces;
- Veteran of the U.S. Armed Forces;
- Legal dependent other than spouse or registered domestic partner;
- Former ward of the court, foster youth or both parents are deceased;
- Declared by a court to be an emancipated minor;
- Unaccompanied youth who is homeless or at risk of becoming homeless.

**Residency Appeals**

A student classified as a nonresident may appeal a final university decision within 30 days of notification by the university. Appeals will be accepted only if at least one of the following criteria applies:

1. The decisions was based on:
   a. A significant error of fact by the university;
   b. A significant procedural error by the university;
   c. An incorrect application of the law which, if corrected would require that the student be reclassified as a California resident; and/or
   d. Significant new information, not previously known or available to the student, became available after the date of the university decision classifying the student as a nonresident and based on the new information, the classification as a nonresident is incorrect.

Instructions to submit an appeal and additional information can be found on the California Residency for Tuition Purposes Website (https://www2.calstate.edu/apply/california-residency-for-tuition-purposes/).

Appeals via email, fax and U.S. mail will not be accepted. A student with a documented disability who is requesting an accommodation to submit an appeal through the California State University (CSU) website (http://www.calstate.edu/) should contact Student Affairs and Enrollment Management at residencyappeals@calstate. (residencyappeals@calstate.edu) or (residencyappeals@calstate.edu).

The office of the Chancellor will either decide the appeal or send the matter back to the university for further review.

A student incorrectly classified as a resident or incorrectly granted an exception from nonresident tuition is subject to reclassification as a nonresident or withdrawal of the exception and subject to payment of nonresident tuition in arrears. If incorrect classification results from false or concealed facts, the student may also be subject to discipline pursuant to Section 41301 of Title 5 of the California Code of Regulations. A student previously classified as a resident or previously granted an exception is required to immediately notify the Admissions Office if the student has reason to believe that the student no longer qualifies as a resident or no longer meets the criteria for an exception.

Changes may have been made in the rate of nonresident tuition and in the statutes and regulations governing residency for tuition purposes in California between the time this information is published and the relevant residency determination date. Students are urged to review the statutes and regulations stated above.
Appendix B: Student Conduct

Title 5, California Code of Regulations, § 41301 Standards for Student Conduct.

University Community Values

The university is committed to maintaining a safe and healthy living and learning environment for students, faculty, and staff. Each member of the university community should choose behaviors that contribute toward this end. Students are expected to be good citizens and to engage in responsible behaviors that reflect well upon their university, to be civil to one another and to others in the university community, and contribute positively to student and university life.

Grounds for Student Discipline

Student behavior that is not consistent with the Student Conduct Code is addressed through an educational process that is designed to promote safety and good citizenship and, when necessary, impose appropriate consequences. The following are the grounds upon which student discipline can be based:

1. Dishonesty, including:
   a. Cheating, plagiarism, or other forms of academic dishonesty that are intended to gain unfair academic advantage.
   b. Furnishing false information to a University official, faculty member, or university office.
   c. Forgery, alteration, or misuse of a University document, key, or identification instrument.
   d. Misrepresenting one's self to be an authorized agent of the University or one of its auxiliaries.
2. Unauthorized entry into, presence in, use of, or misuse of university property.
3. Willful, material and substantial disruption or obstruction of a university-related activity, or any on-campus activity.
4. Participating in an activity that substantially and materially disrupts the normal operations of the university, or infringes on the rights of members of the university community.
5. Willful, material, and substantial obstruction of the free flow of pedestrian or other traffic, on or leading to university property or an off-campus university related activity.
6. Disorderly, lewd, indecent, or obscene behavior at a university related activity, or directed toward a member of the university community.
7. Conduct that threatens or endangers the health or safety of any person within or related to the university community, including physical abuse, threats, intimidation, harassment, or sexual misconduct.
8. Hazing or conspiracy to haze. Hazing is defined as any method of initiation or pre-initiation into a student organization or student body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury to any former, current, or prospective student of any school, community college, college, university or other educational institution in this state (Penal Code 245.6), and in addition, any act likely to cause physical harm, personal degradation or disgrace resulting in physical or mental harm, to any former, current, or prospective student of any school, community college, college, university or other educational institution. The term "hazing" does not include customary athletic events or school sanctioned events. Neither the express or implied consent of a victim of hazing, nor the lack of active participation in a particular hazing incident is a defense. Apathy or acquiescence in the presence of hazing is not a neutral act, and is also a violation of this section.
9. Use, possession, manufacture, or distribution of illegal drugs or drug-related paraphernalia, (except as expressly permitted by law and university regulations) or the misuse of legal pharmaceutical drugs.
10. Use, possession, manufacture, or distribution of alcoholic beverages (except as expressly permitted by law and university regulations), or public intoxication while on university or at a university related activity.
11. Theft of property or services from the university community, or misappropriation of university resources.
12. Unauthorized destruction, or damage to university property or other property in the university community.
13. Possession or misuse of firearms or guns, replicas, ammunition, explosives, fireworks, knives, other weapons, or dangerous chemicals (without the prior authorization of the university president) on campus or at a university related activity.
14. Unauthorized recording, dissemination, or publication of academic presentations (including handwritten notes) for a commercial purpose.
15. Misuse of computer facilities or resources, including:
   a. Unauthorized transfer into a file, for any purpose.
   b. Unauthorized transfer of a file.
   c. Use of another's identification or password.
   d. Use of computing facilities, university network, or other resources to interfere with the work of another member of the university community.
   e. Use of computing facilities and resources to send obscene or intimidating and abusive messages.
   f. Use of computing facilities and resources to interfere with normal University operations.
   g. Use of computing facilities and resources in violation of copyright laws.
   h. Violation of a university computer use policy.
16. Violation of any published University policy, rule, regulation, or presidential order.
17. Failure to comply with directions of, or interference with, any University official or any public safety officer while acting in the performance of his/her duties.
18. Any act chargeable as a violation of a federal, state, or local law that poses a substantial threat to the safety or wellbeing of members of the University community, to property within the university community or poses a significant threat of disruption or interference with university operations.
19. Violation of the Student Conduct Procedures, including:
   a. Falsification, distortion, or misrepresentation of information related to a student discipline matter.
   b. Disruption or interference with the orderly progress of a student discipline proceeding.
   c. Initiation of a student discipline proceeding in bad faith.
   d. Attempting to discourage another from participating in the student discipline matter.
   e. Attempting to influence the impartiality of any participant in a student discipline matter.
   f. Verbal or physical harassment or intimidation of any participant in a student discipline matter.
   g. Failure to comply with the sanction(s) imposed under a student discipline proceeding.
20. Encouraging, permitting, or assisting another to do any act that could subject him or her to discipline.

Procedures for Enforcing This Code
The Chancellor shall adopt procedures to ensure students are afforded appropriate notice and an opportunity to be heard before the university imposes any sanction for a violation of the Student Conduct Code 1.

1 At the time of publication, such procedures are set forth in California State University Executive Order 1098 (Revised March 29, 2019), available at https://calstate.policystat.com/policy/6742449/latest/.

Application of This Code
Sanctions for the conduct listed above can be imposed on applicants, enrolled students, students between academic terms, graduates awaiting degrees, and students who withdraw from school while a disciplinary matter is pending. Conduct that threatens the safety or security of the university community, or substantially disrupts the functions or operation of the University is within the jurisdiction of this Article regardless of whether it occurs on or off university. Nothing in this Code may conflict with Education Code Section 66301 that prohibits disciplinary action against students based on behavior protected by the First Amendment.

Title 5, California Code of Regulations, Section 41302. Disposition of Fees: University Emergency; Interim Suspension
The President of the university may place on probation, suspend, or expel a student for one or more of the causes enumerated in Section 41301. No fees or tuition paid by or for such student for the semester, quarter, or summer session in which he or she is suspended or expelled shall be refunded. If the student is readmitted before the close of the semester, quarter, or summer session in which he or she is suspended, no additional tuition or fees shall be required of the student on account of the suspension.

During periods of university emergency, as determined by the President of the individual university, the President may, after consultation with the Chancellor, place into immediate effect any emergency regulations, procedures, and other measures deemed necessary or appropriate to meet the emergency, safeguard persons and property, and maintain educational activities.

The President may immediately impose an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required in order to protect lives or property and to insure the maintenance of order. A student so placed on interim suspension shall be given prompt notice of charges and the opportunity for a hearing within 10 days of the imposition of interim suspension. During the period of interim suspension, the student shall not, without prior written permission of the President or designated representative, enter any of the CSUs other than to attend the hearing. Violation of any condition of interim suspension shall be grounds for expulsion.

Appendix C: Privacy Rights of Students in Education Records
The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) (FERPA) and regulations adopted thereunder (34 C.F.R. 99) set out requirements designed to protect students’ privacy in their educational records maintained by the university. The statute and regulations govern access to certain student records maintained by the university and the release of those records. FERPA provides that the university must give students access to most records directly related to the student, and must also provide opportunity for a hearing to challenge the records if the student claims they are inaccurate, misleading, or otherwise inappropriate. The right to petition to correct a record under FERPA does not include the right to challenge the appropriateness of a grade determined by the instructor. In addition, FERPA generally requires the university obtain a student’s written consent before releasing personally identifiable data pertaining to the student. The university has adopted a set of policies and procedures governing the implementation of FERPA and its regulations. Copies of these policies and procedures may be obtained at Lassen Hall 3008. Among the types of information included in the university statement of policies and procedures is:

1. The student records maintained and the information they contain;
2. The university official responsible for maintaining each record;
3. The location of access lists indicating persons requesting or receiving information from the record;
4. Policies for reviewing and expunging records;
5. Student access rights to their records;
6. Procedure for challenging the content of student records; and
7. The right of the student to file a complaint with the Department of Education.

The Department of Education has established an office and review board to investigate complaints and adjudicate violations. The designated office is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, D.C. 20202-5920.

FERPA authorizes the university to release “directory information” pertaining to students. “Directory information” may include the student’s name, address, telephone listing, electronic mail address, photograph, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, grade level, enrollment status, degrees, honors, and awards received, and the most recent previous educational agency or institution the student attended. The university may release the “directory information” at any time unless the university has received prior written objection from the student specifying the information the student requests not be released. Written objections should be sent to the Office of the University Registrar (Lassen Hall 2000).

The university is authorized to provide access to student records to university officials and employees who have legitimate educational interests in such access. These persons have responsibilities in the university’s academic, administrative or service functions and have reason for accessing student records associated with their university or other related academic responsibilities. Student records will be disclosed to the CSU Chancellor’s Office to conduct research, to analyze trends, or to provide other administrative services. Student records may also be disclosed to other persons or organizations under certain conditions (e.g., as part of the accreditation or program evaluation; in response to a court order or subpoena; in connection with financial aid; or to other institutions to which the student is transferring).

All student records of the California State University, including California State University, Sacramento, are kept in accordance with the provisions of the FERPA, as amended.
FERPA affords students certain rights with respect to their education records. These rights include:

1. The right to inspect and review the student’s education records within 45 days of the day the University receives a request for access. Students should submit to the registrar, dean, head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom request should be addressed.

2. The right to request the amendment of the student’s education records that the student believes are inaccurate or misleading. Students may ask the University to amend a record that they believe is inaccurate or misleading. They should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student’s education records and the right to withdraw consent to disclosure FERPA authorizes disclosure without consent to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted (such as an auditor, clearinghouse, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. In addition, the University may disclose education records without consent upon request a) to officials of another school in which a student seeks or intends to enroll, and b) to a parent who establishes that student’s status as a dependent according to Internal Revenue Code.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by California State University, Sacramento to comply with the requirements of FERPA. The name and address of the office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202-4605

5. California State University, Sacramento shall exercise its prerogative within the Family Educational Rights and Privacy Act, as amended, and release directory information to any person, party, or agency, so long as the student has not requested confidentiality. University directory information is defined as that information contained in an education record of the student that generally would not be considered harmful or an invasion of privacy if disclosed. The following is considered Direct Information and Sacramento State will release and make available to the public unless notified by the student to withhold release of this information: Student’s name, addresses, University email address, telephone number, likenesses used in University publications including photographs, date of birth, major field of study, class level, dates of attendance, enrollment status (part/full-time), degrees earned, awards and honors (e.g., Dean’s Honor List) received, participation in University recognized activities and sports, weight and health of members of athletic teams and most recent educational agency or institution attended by the student. For student employees covered by the Unit 11 Collective Bargaining Agreement with the United Auto Workers (e.g., Teaching Associates, Graduate Assistants, and Instructional Student Assistants), directory information which may be released by the CSU to the UAW also includes: enrollment status (undergraduate vs. graduate, part-time vs. full-time), department employed and employment status (e.g., TA, GA, or ISA). Data may be added to or removed from the definition of directory information from time to time. Only currently enrolled students may withhold disclosure of directory information by filing a request form with the Office of the Registrar through the Student Services Counter.

For more information about FERPA, please go to the University Registrar’s website (http://www.csus.edu/registrar/Confidentiality%20FERPA/).

Appendix D: Average Support Cost & Source of Funds Per Full-Time Equivalent Student

The total support cost per full-time equivalent student (FTES) includes the expenditures for current operations, including payments made to students in the form of financial aid, and all fully reimbursed programs contained in state appropriations. The average support cost is determined by dividing the total cost by the number of FTES. The total CSU 2022-23 budget amounts were $4,589,590,000 from State General Fund (GF) appropriations, before a $(68.5) million CalPERS retirement adjustment, $2,446,491,000 from gross tuition revenue, and $672,655,000 from other fee revenues for a total of $7,708,736,000. The 2022-23 resident FTES target is 383,680 and the nonresident FTES based on past-year actual is 19,953 for a total of 403,633 FTES. The GF appropriation is applicable to resident students only whereas fee revenues are collected from resident and nonresident students. FTES is derived by dividing the total student credit units attempted by a fixed amount depending on academic level (e.g., 30 for a semester university and 45 for a quarter university, the figures that define a full-time undergraduate or postbaccalaureate student’s academic load).

</tbody>
</table>

1 Represents state GF appropriation in the Budget Act of 2022-23; GF is divisible by resident students only (383,680 FTES).
The 2022-23 average support cost per FTES based on GF appropriation and tuition fee revenue only is $18,023 and is $19,960, which includes all fee revenue (e.g., tuition fees, application fees, and campus mandatory fees) in the CSU Operating Fund. Of this amount, the average tuition and other fee revenue per FTES is $7,728.

The average CSU 2022-23 academic year, resident, undergraduate student basic tuition and other mandatory fees required to apply to, enroll in, or attend the university is $7,520 ($5,742 tuition fee plus $1,778 average campus-based fees). However, the costs paid by individual students will vary depending on the university, program, and whether a student is part-time, full-time, resident, or nonresident.

Appendix E: Procedure for the Establishment or Abolishment of University-Based Mandatory Fees

The law governing the California State University provides that specific university fees defined as mandatory, such as a student association fee and a student center fee, may be established. A student association fee must be established upon a favorable vote of two-thirds of the students voting in an election held for this purpose (Education Code, Section 89300). The university President may adjust the student association fee only after the fee adjustment has been approved by a majority of students voting in a referendum established for that purpose. The required fee shall be subject to referendum at any time upon the presentation of a petition to the university President containing the signatures of 10 percent of the regularly enrolled students at the university. Student association fees support a variety of cultural and recreational programs, childcare centers, and special student support programs. A student body center fee may be established only after a fee referendum is held which approves by a two-thirds favorable vote the establishment of the fee (Education Code, Section 89304). Once bonds are issued, authority to set and adjust student center fees is governed by provisions of the State University Revenue Bond Act of 1947, including, but not limited to, Education Code sections 90012, 90027, and 90068. A student success fee may be established or adjusted only after the university undertakes a rigorous consultation process and a fee referendum is held with a simple majority favorable vote (Education Code, Section 89712). The student success fee may be rescinded by a majority vote of the students only after six years have elapsed following the vote to implement the fee.

The process to establish and adjust other university-based mandatory fees requires consideration by the university fee advisory committee and a consultation of student referendum process as established by California State University Student Fee Policy, Section III (or any successor policy). The university President may use consultation mechanisms if he/she determines that a referendum is not the best mechanism to achieve appropriate and meaningful consultation, and referendum is not required by the Education Code of Student Success Fee policy. Results of the referendum and the fee committee review are advisory to the university President. The President may adjust university-based mandatory fees but must request the Chancellor to establish a new mandatory fee. The President shall provide to the university fee advisory committee a report of all university-based mandatory fees. The university shall report annually to the Chancellor a complete inventory of all university-based mandatory fees.

For more information or questions, please contact the System Budget Office in the CSU Chancellor’s Office at (562) 951-4560.

Appendix F: Nondiscrimination Policy and Complaint Procedures

Protected Status: Age, Genetic Information, Marital Status, Medical Condition, Nationality, Race or Ethnicity (including color, caste, or ancestry), Religion or Religious Creed, and Veteran or Military Status.

California State University does not discriminate on the basis of age, genetic information, marital status, medical condition, nationality, race or ethnicity (including color, caste and ancestry), religion (or religious creed), and veteran or military status – as these terms are defined in the CSU Policy Prohibiting Discrimination, Harassment, Sexual Misconduct, Sexual Exploitation, Dating Violence, Domestic Violence, Stalking, and Retaliation (Nondiscrimination Policy) in its programs and activities, including admission and access. Federal and state laws, including Title VI of the Civil Rights Act of 1964 and the California Equity in Higher Education Act, prohibit such discrimination. The Office for Equal Opportunity has been designated to coordinate the efforts of California State University, Sacramento to comply with all applicable federal and state laws prohibiting discrimination on these bases. Inquiries concerning compliance may be presented to Skip Bishop, Director of Equal Opportunity, at California State University, Sacramento 6000 J Street, Sacramento, CA 95819-6032, (916) 278-5770. CSU Policy Prohibiting Discrimination, Harassment, Sexual Misconduct, Sexual Exploitation, Dating Violence, Domestic Violence, Stalking, and Retaliation (Nondiscrimination Policy) Made Against a Student, (or any successor policy) is the systemwide procedure for all complaints or discrimination, harassment or retaliation made against other CSU students. CSU Policy Prohibiting Discrimination, Harassment, Sexual Misconduct, Sexual Exploitation, Dating Violence, Domestic Violence, Stalking, and Retaliation (Nondiscrimination Policy) Made Against an Employee or Third-Party (or any successor procedure) is the systemwide procedure for all complaints of discrimination, harassment or retaliation made against the CSU, a CSU employee or a third party.

Protected Status: Disability

The California State University does not discriminate on the basis of disability (physical and mental) – as this term is defined in the CSU Policy Prohibiting Discrimination, Harassment, Sexual Misconduct, Sexual Exploitation, Dating Violence, Domestic Violence, Stalking, and Retaliation (Nondiscrimination Policy) – in its programs and activities, including admission and access. Federal and state laws, including sections 504 and 508 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, prohibit such discrimination. The Office for Equal Opportunity has been designated to coordinate the efforts of California State University, Sacramento to comply with all applicable federal and state laws prohibiting discrimination on the basis of disability. Inquiries concerning compliance may be presented to Skip Bishop, Director of Equal Opportunity, at California State University, Sacramento 6000 J Street, Sacramento, CA 95819-6032, (916) 278-5770. CSU Policy Prohibiting Discrimination, Harassment, Sexual Misconduct, Sexual Exploitation, Dating Violence, Domestic Violence, Stalking, and Retaliation (Nondiscrimination Policy) Made Against a Student (or any successor policy) is the systemwide procedure for all complaints of discrimination, harassment or retaliation made against other CSU students. CSU Policy Prohibiting Discrimination, Harassment, Sexual
Misconduct, Sexual Exploitation, Dating Violence, Domestic Violence, Stalking, and Retaliation (Nondiscrimination Policy) Made Against an Employee or Third-Party (or any successor procedure) is the systemwide procedure for all complaints of discrimination, harassment or retaliation made against the CSU, a CSU employee or a third party)

**Protected Status: Gender (or sex), Gender Identity (including nonbinary and transgender), Gender Expression and Sexual Orientation**

California State University does not discriminate on the basis of gender (or sex), gender (including nonbinary and transgender), gender expression or sexual orientation – as these terms are defined in CSU policy – in its programs and activities, including admission and access. Federal and state laws, including Title IX of the Education Amendments of 1972, prohibit such discrimination. The Office of Equal Opportunity, has been designated to coordinate the efforts of California State University, Sacramento to comply with all applicable federal and state laws prohibiting discrimination on these bases. Inquiries concerning compliance may be presented to Skip Bishop at (916) 278-5770, equalopportunity@csus.edu, or visit our website at www.csus.edu/hr/departments/equal-opportunity/ (http://www.csus.edu/hr/departments/equal-opportunity/). The California State University is committed to providing equal opportunities to all CSU students in all university programs, including intercollegiate athletics. CSU Policy Prohibiting Discrimination, Harassment, Sexual Misconduct, Sexual Exploitation, Dating Violence, Domestic Violence, Stalking, and Retaliation (Nondiscrimination Policy) Made Against a Student (or any successor) is the systemwide procedure for all complaints of discrimination, harassment or retaliation made against other CSU students. CSU Policy Prohibiting Discrimination, Harassment, Sexual Misconduct, Sexual Exploitation, Dating Violence, Domestic Violence, Stalking, and Retaliation (Nondiscrimination Policy) Made Against an Employee or Third-Party (or any successor procedure) is the systemwide procedure for all complaints of discrimination, harassment or retaliation made against the CSU, a CSU employee or a third party).

As a matter of federal and state law and California State University policy, the following types of conduct are prohibited:

**Sex Discrimination or Gender Discrimination** is (an) adverse action taken against a complainant because of their protected status.

**Adverse Action** means an action engaged in by the respondent that has a substantial and material adverse effect on the complainant's ability to participate in a university program, activity, or employment. Minor or trivial actions or conduct not reasonably likely to do more than anger or upset a complainant does not constitute and adverse action.

**Sexual Harassment** means unwelcome verbal, nonverbal or physical conduct of a sexual nature that includes, but is not limited to, sexual advances, requests for sexual favors, offering employment benefits or giving preferential treatment in exchange for sexual favors, or indecent exposure, and any other conduct of a sexual nature where:

1. Submission to, or rejection of, the conduct is explicitly or implicitly used as the basis for any decision affecting a Complainant's academic status or progress, or access to benefits and services, honors, programs, or activities available at or through the university; or
2. Submission to, or rejection of, the conduct by the Complainant is explicitly or implicitly used as the basis for any decision affecting a term or condition of the Complainant's employment, or an employment decision; or
3. The conduct is sufficiently severe, persistent, or pervasive that its effect, whether or not intended, could be considered by a reasonable person in the shoes of the Complainant, and is in fact considered by the Complainant, as limiting their ability to participate in or benefit from the services, activities or opportunities offered by the university; or
4. The conduct is sufficiently severe, persistent, or pervasive that its effect, whether or not intended, could be considered by a reasonable person in the shoes of the Complainant, and is in fact considered by the Complainant, as creating an intimidating, hostile or offensive environment.

Sexual Harassment could include being forced to engage in unwanted sexual contact as a condition of membership in a student organization or in exchange for a raise or promotion; being subjected to video exploitation or a campaign of sexually explicit graffiti; or being exposed to unwanted images of a sexual nature in a work environment, or in a classroom where the images are unrelated to the coursework.

Claiming that the conduct was not motivated by sexual desire is not a defense to a complaint of Sexual Harassment.

Sexual and/or romantic relationships between members of the campus community may begin as consensual, and may develop into situations that lead to Discrimination, Harassment, Retaliation, Sexual Misconduct, Dating or Domestic Violence, or Stalking subject to this policy.

**Sexual Misconduct**

All sexual activity between members of the CSU community must be based on **Affirmative Consent**. Engaging in any sexual activity without first obtaining Affirmative Consent to the specific activity is Sexual Misconduct, whether or not the conduct violates any civil or criminal law.

Sexual activity includes, but is not limited to:

- Kissing
- Touching intimate body parts
- Fondling
- Intercourse
- Penetration, no matter how slight, of the vagina or anus with any part or object
- Oral copulation of a sex organ by another person.

Sexual Misconduct includes, but is not limited to, the following conduct:

- An attempt, coupled with the ability, to commit a violent injury on the person of another because of that person's Gender or Sex,
- The intentional touching of another person's intimate body parts without Affirmative Consent,
- Intentionally causing a person to touch the intimate body parts of another without Affirmative Consent,
- Using a person's own intimate body part to intentionally touch another person's body without Affirmative Consent,
- Any unwelcome physical sexual acts, such as unwelcome sexual touching,
- Using physical force, violence, threat, or intimidation to engage in sexual activity,
- Ignoring the objections of the other person to engage in sexual activity,
- Causing the other person's incapacitation through the use of drugs or alcohol to engage in sexual activity,
• taking advantage of the other person’s incapacitation to engage in sexual activity.

1. Intimate body part means the sexual organ, anus, groin, buttocks, or breasts of any person.

2. Sexual activity between a Minor (a person younger than 18 years old) and a person who is at least 18 and two years older than the Minor always constitutes Sexual Misconduct, even if there is Affirmative Consent to all sexual activity. The existence of Affirmative Consent and/or the type of sexual activity may be relevant to the determination of an appropriate Sanction.

3. Persons of all Genders, Gender Identities, Gender Expressions, and Sexual Orientations can be victims of these forms of Sexual Misconduct. Sexual Misconduct can be committed by an individual known to the victim including a person the Complainant may have just met, i.e., at a party, introduced through a friend, or on a social networking website.

4. Affirmative Consent
   Affirmative Consent must be voluntary, and given without coercion, force, threats, or intimidation.
   It is the responsibility of each person involved in the sexual activity to ensure Affirmative Consent has been obtained from the other participant(s) prior to engaging in the sexual activity.
   Affirmative Consent means an agreement to engage in sexual activity that is:
   • Informed
   • Affirmative
   • Conscious
   • Voluntary and
   • Mutual
   • Lack of protest or resistance does not mean there is Affirmative Consent.
   • Silence does not mean there is Affirmative Consent.
   • The existence of a dating or social relationship between those involved, or the fact of past sexual activities between them, should never by itself be assumed to be an indicator of Affirmative Consent.
   • A request for someone to use a condom or birth control does not, in and of itself, mean there is Affirmative Consent.
   • Affirmative Consent can be withdrawn or revoked. Consent must be ongoing throughout a sexual activity and can be revoked at any time, including after sexual activity begins. Once consent is withdrawn or revoked, the sexual activity must stop immediately. Consent to one form of sexual activity (or one sexual act) does not constitute consent to other forms of sexual activity. Consent given to sexual activity on one occasion does not constitute consent on another occasion.

1. Incapacitation
   Affirmative Consent cannot be given by a person who is incapacitated. A person is unable to consent when asleep, unconscious, or incapacitated due to the influence of drugs, alcohol, or medication so that the person could not understand the fact, nature, or extent of the sexual activity. A person is incapacitated if the person lacks the physical and/or mental ability to make informed, rational decisions. A person with a medical or mental disability may also lack the capacity to give consent.
   Whether an intoxicated person (as a result of using alcohol or other drugs) is incapacitated depends on the extent to which the alcohol or other drugs impact the person’s decision-making ability, awareness of consequences, and ability to make informed judgments. A person’s own intoxication or incapacitation from drugs or alcohol does not diminish that person’s responsibility to obtain Affirmative Consent before engaging in sexual activity.
   Sexual activity with a minor (a person under 18 years old) is not consensual, because a minor is considered incapable of giving consent due to age.
   It shall not be a valid excuse that a person affirmatively consented to the sexual activity if the Respondent knew or reasonably should have known that the person was unable to consent to the sexual activity under any of the following circumstances:
   • The person was asleep or unconscious
   • The person was incapacitated due to the influence of drugs, alcohol, or medication, so that the person could not understand the fact, nature, or extent of the sexual activity
   • The person could not understand the fact, nature, or extent of the sexual activity, or was unable to communicate, due to a mental or physical condition
   It shall not be a valid excuse that the Respondent believed that the person consented to the sexual activity under either of the following circumstances:
   • The Respondent’s belief in Affirmative Consent arose from the intoxication or recklessness of the Respondent;
   • The Respondent did not take reasonable steps, in the circumstances known to the Respondent at the time, to ascertain whether the person affirmatively consented.

1. Dating Violence and Domestic Violence
   Dating Violence means physical violence or threat of physical violence committed by a person—
   a. who is or has been in a social relationship of a romantic or intimate nature with the Complainant; and
   b. where the existence of such a relationship shall be determined based on a consideration of the following factors:
   I. The length of the relationship.
   II. The type of relationship.
   III. The frequency of interaction between the persons involved in the relationship.
   Domestic Violence means physical violence or threat of physical violence committed by a current or former spouse or intimate partner of the Complainant, by a person with whom the Complainant shares a child in common, by a person who is cohabitating with or has cohabitated with the Complainant as a spouse or intimate partner, or by a person similarly situated to a spouse of the Complainant.
   Physical violence means physical conduct that intentionally or recklessly threatens the health and safety of the recipient of the behavior, including assault.

2. Stalking
   Stalking means engaging in a Course of Conduct directed at a specific person that would cause a reasonable person to fear for the safety of self or others’ safety or to suffer Substantial Emotional Distress. For purposes of this definition:
   Course of Conduct means two or more acts, including but not limited to, acts in which one party directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors,
observes, surveils, threatens, or communicates to or about the other party, or interferes with the other party's property.

Substantial Emotional Distress means significant mental suffering or anguish that may but does not necessarily require medical or other professional treatment or counseling.

1. Prohibited Consensual Relationships
A Prohibited Consensual Relationship is a consensual sexual or romantic relationship between an Employee and any Student or Employee over whom they exercise direct or otherwise significant academic, administrative, supervisory, evaluative, counseling, or extracurricular authority.

2. Retaliation
Retaliation means that a substantial motivating reason for an Adverse Action taken against a person was because the person has or is believed to have:

a. Exercised their rights under this policy,
b. Reported or opposed conduct which was reasonably and in good faith believed to be in violation of this policy,
c. Assisted or participated in an investigation/proceeding under this policy, regardless of whether the Complaint was substantiated,
d. Assisted someone in reporting or opposing a violation of this policy or assisted someone in reporting or opposing Retaliation under this policy.

Adverse Action means an action engaged in by the Respondent that has a substantial and material adverse effect on the Complainant’s ability to participate in a university program, activity, or employment. Minor or trivial actions or conduct not reasonably likely to do more than anger or upset a Complainant does not constitute an Adverse Action.

Retaliation may occur whether or not there is a power or authority differential between the individuals involved.

Additional Prohibited Conduct Definitions

3. Sexual Harassment means conduct on the basis of Sex that satisfies one or more of the following:

a. An Employee conditioning the provision of an aid, benefit, or service of the University on an individual's participation in unwelcome sexual conduct;
b. Unwelcome conduct determined based on the reasonable person standard to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to an Education Program or Activity.
c. Sexual Assault includes the following:
   i. Rape is the penetration, or attempted penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the Affirmative Consent of the Complainant. Rape also includes the attempted penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the Affirmative Consent of the Complainant, with the present ability and the intent to commit Rape.
   ii. Fondling is the touching of the private body parts of another person for the purpose of sexual gratification, without the Affirmative Consent of the victim, including instances where the Complainant is incapable of giving Affirmative Consent because of their age or because of their temporary or permanent mental incapacity.
   iii. Incest is sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited by law.
   iv. Statutory Rape is sexual intercourse with a person who is under the age of 18 years, the California statutory age of consent.

The definition of Affirmative Consent is that under Article VII.A.3 above.

d. Dating Violence means physical violence or threat of physical violence committed by a person:
   i. who is or has been in a social relationship of a romantic or intimate nature with the Complainant; and
   ii. where the existence of such a relationship shall be determined based on a consideration of the following factors:
      1. The length of the relationship.
      2. The type of relationship.
      3. The frequency of interaction between the persons involved in the relationship.

e. Domestic Violence means physical violence or threat of physical violence committed by a current or former spouse or intimate partner of the Complainant, by a person with whom the Complainant shares a child in common, by a person who is cohabitating with or has cohabitated with the Complainant as a spouse or intimate partner, or by a person similarly situated to a spouse of the Complainant.

f. Stalking means engaging in a course of conduct directed at a specific person that would cause a reasonable person to:
   i. fear for their safety or the safety of others; or
   ii. suffer substantial emotional distress.

See further information in the California State University Sacramento sexual violence prevention and education statement, Title IX Notice of Nondiscrimination (which includes facts and myths about sexual violence), and Victim's Rights and Options Notice (https://www.csus.edu/title-ix/_internal/_documents/eo1095/rights-and-options.pdf).

Whom to Contact If You Have Complaints, Questions or Concerns

Title IX requires the university to designate a Title IX Coordinator to monitor and oversee overall Title IX compliance. The university Title IX Coordinator is available to explain and discuss the university’s complaint process, including the investigation and hearing process; the availability of reasonable supportive measures (both on and off campus regardless of whether the person chooses to report the conduct); the right to file a criminal complaint (for example, in cases of sexual misconduct); how confidentiality is handled; and other related matters. If you are in the midst of an emergency, please call the police immediately by dialing 9-1-1.

University Title IX Coordinator:
Skip Bishop
Director for Equal Opportunity
6000 J Street, Sacramento CA 95819-6139
(916) 278-5770
Monday—Friday, 8:00 am—5:00 pm

Deputy Title IX Coordinators:
Alison Nygard
Office for Equal Opportunity Investigator
alison.morgan@csus.edu
systemwide procedure for all complaints of discrimination, harassment or retaliation made against the CSU, a CSU employee or a third party.

Duty to Report

Except as provided below under confidentiality and sexual misconduct, dating violence, domestic violence, and stalking, any university employee who knows or has reason to know of allegations or acts that violate university policy shall promptly inform the Title IX Coordinator. These employees are required to disclose all information including the names of the parties, even where the person has requested that their name remain confidential. The Title IX Coordinator will determine whether confidentiality is appropriate given the circumstances of each such incident. (See confidential reporting options outlined below.)

Regardless of whether an alleged victim of gender discrimination ultimately files a complaint, if the university knows or has reason to know about possible sexual discrimination, harassment or misconduct, it must review the matter to determine if an investigation is warranted. The university must then take appropriate steps to eliminate any gender discrimination/harassment/misconduct, prevent its recurrence, and remedy its effects.

U.S. Department of Education, Office for Civil Rights:

(800) 421-3481 (main office), or (415) 486-5555 (California office), or (800) 877-8339 (TDD) or ocr@ed.gov (main office) or ocr.sanfrancisco@ed.gov (California office)

If you wish to fill out a complaint form online with the OCR, you may do so using the Electronic Complaint Form (http://www2.ed.gov/about/offices/list/ocr/complaintintro.html).

If you wish to fill out a complaint form online with the OCR, you may do so at: www2.ed.gov/about/offices/list/ocr/complaintintro.html (http://www2.ed.gov/about/offices/list/ocr/complaintintro.html).

Safety of the Campus Community is Primary

The university’s primary concern is the safety of its university community members. The use of alcohol or drugs never makes the victim at fault for gender discrimination, harassment or sexual misconduct; therefore, victims should not be deterred from reporting incidents of sexual misconduct out of a concern that they might be disciplined for related violations of drug, alcohol or other university policies. Except in extreme circumstances, victims of sexual misconduct shall not be subject to discipline for related violations of the Student Conduct Code.

Information Regarding University, Criminal and Civil Consequences of Committing Acts of Sexual Violence

Individuals alleged to have committed sexual misconduct may face criminal prosecution by law enforcement and may incur penalties as a result of civil litigation. In addition, students may face discipline at the university, up to including suspension or expulsion and withholding of their degrees. Employees may face sanctions up to and including suspension, demotion, or dismissal from employment, pursuant to established CSU policies and provisions of applicable collective bargaining unit agreements.

Students who are found responsible by the university with gender discrimination, harassment or sexual misconduct will be subject to discipline, pursuant to Interim Procedures for Complaints of Discrimination, Harassment, Sexual Misconduct, Sexual Exploitation, Dating Violence, Domestic Violence, Stalking and Retaliation Made Against a Student and the California State University and Student
Conduct Procedures (see the Student Conduct Procedures Policy [https://calstate.policystat.com/policy/6742449/latest/], revised August 14, 2020 (or any successor policy) and will be subject to appropriate sanctions. In addition, during any investigation, the university may implement interim measures in order to maintain a safe and non-discriminatory educational environment. Such measures may include, but not be limited to: immediate interim suspension from the university; a required move from university-owned or affiliated housing; adjustments to course schedule; and/or prohibition from contact with parties involved in the alleged incident.

Confidentiality and Sexual Misconduct, Dating Violence, Domestic Violence and Stalking

The University encourages victims of sexual misconduct, dating violence, domestic violence, or stalking (collectively sexual misconduct) to talk to someone about what happened – so they can get the support they need, and so the university can respond appropriately.

Privileged and Confidential Communications

Physicians, Psychotherapists, Professional Counselors, Licensed Clinical Social Workers, and Clergy – Physicians, psychotherapists, professional, licensed counselors, licensed clinical social workers, and clergy who work or volunteer on or off campus, acting solely in those roles or capacities as part of their employment, and who provide medical or mental health treatment or counseling (and those who act under their supervision, including all individuals who work or volunteer in their centers and offices) may not report any information about an incident of sexual misconduct to anyone else at the University, including the Title IX Coordinator, without the victim's consent. A victim can seek assistance and support from physicians, psychotherapists, professional, licensed counselors, licensed clinical social workers, and clergy without triggering a university investigation that could reveal the victim’s identity or the fact of the victim’s disclosure. However, see limited exceptions below regarding when health care practitioners must report to local law enforcement agencies. Health care practitioners should explain these limited exceptions to victims, if applicable.

Sexual Assault and Domestic Violence Counselors and Advocates – Sexual assault and domestic violence counselors and advocates who work or volunteer on or off campus in sexual assault centers, victim advocacy offices, women's centers, and health centers (including those who act in that role under their supervision, along with nonprofessional counselors or advocates who or volunteer in sexual assault centers, victim advocacy offices, women's centers, gender equity centers, or health centers) may talk to a victim without revealing any information about the victim and the incident of sexual misconduct to anyone else at the University, including the Title IX Coordinator, without the victim’s consent. A victim can seek assistance and support from these counselors and advocates without triggering a university investigation that could reveal his/her identity or that a victim disclosed an incident to them. However, see limited exceptions below regarding when sexual assault and domestic violence counselors and advocates must report to local law enforcement agencies. Counselors and advocates should explain these limited exceptions to victims, if applicable.

The university will be unable to conduct an investigation into a particular incident or pursue disciplinary action against a perpetrator if a victim chooses to:

1. Speak only to a physician, professional licensed counselor, licensed clinical social worker, clergy member, sexual assault counselor, domestic violence counselor or advocate;

2. Maintain complete confidentiality. Even so, these individuals will assist victims in receiving other necessary protection and support, such as victim advocacy, disability services, medical/health services, or legal services, and will advise victims regarding their right to file a Title IX complaint with the University and a separate complaint with local or campus police. If a victim insists on confidentiality, such professionals, counselors and advocates will likely not be able to assist the victim with: campus academic support or accommodations; changes to campus-based living or working schedules; or adjustments to course schedules. A victim who at first requests confidentiality may later decide to file a complaint with the university or report the incident to the police, and thus have the incident fully investigated. These counselors and advocates can provide victims with that assistance if requested by the victim. These counselors and advocates will also explain that Title IX includes protections against retaliation, and that the university will not only take steps to prevent retaliation when it knows or reasonably should know of possible retaliation, but will also take strong responsive action if it occurs.

Exceptions: Under California law, any health practitioner employed in a health facility, clinic, physician’s office, or local or state public health department or clinic is required to make a report to local law enforcement if the health practitioner provides medical services for a physical condition to a patient/victim who the health practitioner knows or reasonably suspects is suffering from:

1. A wound or physical injury inflicted by a firearm;
2. Any wound or other physical injury inflicted upon a victim where the injury is the result of assaultive or abusive conduct (including sexual misconduct, domestic violence, and dating violence). This exception does not apply to sexual assault and domestic violence counselors and advocates. Health care practitioners should explain this limited exception to victims, if applicable.

Additionally, under California law, all professionals described above (physicians, psychotherapists, professional counselors, licensed clinical social workers, clergy, and sexual assault and domestic violence counselors and advocates) are mandatory child abuse and neglect reporters, and are required to report incidents involving victims under 18 years of age to local law enforcement. These professionals will explain this limited exception to victims, if applicable.

Finally, some or all of these professionals may also have reporting obligations under California law to:

1. Local law enforcement in cases involving threats of immediate or imminent harm to self or others where disclosure of the information is necessary to prevent the threatened danger;
2. To the court if compelled by court order or subpoena in a criminal proceeding related to the sexual violence incident. If applicable, these professionals will explain this limited exception to victims.

Reporting to Campus Police or Local Police

If a victim reports to local or campus police about sexual misconduct crimes, the police are required to notify victims that their names will become a matter of public record unless confidentiality is requested. If a victim requests that their identity be kept confidential, their name will not become a matter of public record. However, even if the victim requests confidentiality of identity, campus police should specifically ask the victim if the victim’s name can be provided to the Title IX Office so that the Title IX Coordinator can contact the victim to discuss supportive measures that can be offered. If a victim gives consent to law
enforcement to provide their name to the Title IX Coordinator, their name will not become a matter of public record. Even if a victim does not give the police permission to provide their name to the Title IX Coordinator, campus police will report the facts of the incident itself to the Title IX Coordinator being sure not to reveal to the Title IX Coordinator victim names/identities or compromise their own criminal investigation. The university is required by the federal Clery Act to report certain types of crimes (including certain sex offenses) in statistical reports. However, while the university will report the type of incident in the annual crime statistics report known as the Annual Security Report, victim names/identities will not be revealed.

Reporting to the Title IX Coordinator and Other University Employees

Most university employees have a duty to report sexual misconduct incidents when they are on notice of it. When a victim tells the Title IX Coordinator or another University employee about a sexual misconduct incident, the victim has the right to expect the University to take immediate and appropriate steps to investigate what happened and to resolve the matter promptly and equitably. In all cases, the university strongly encourages victims to report incidents of sexual misconduct directly to the university Title IX Coordinator. As detailed above, in the "Privileged and Confidential Communications" section of this policy, all university employees except physicians, licensed professional counselors, licensed clinical social workers, sexual assault counselors and advocates, must report to the Title IX Coordinator all relevant details about any incidents of sexual misconduct of which they become aware. The university will need to determine what happened - and will need to know the names of the victim(s) and perpetrator(s), any witnesses, and any other relevant facts, including the date, time and specific location of the incident.

To the extent possible, information reported to the Title IX Coordinator or other University employees will be shared only with individuals responsible for handling the University's response to the incident. The University will protect the privacy of individuals involved in a sexual misconduct incident except as otherwise required by law or University policy. A sexual misconduct report may result in the gathering of extremely sensitive information about individuals in the campus community. While such information is considered confidential, University policy regarding access to public records and disclosure of personal information may require disclosure of certain information concerning a report of sexual misconduct. In such cases, efforts will be made to redact the records, as appropriate, in order to protect the victim's identity and privacy and the privacy of other involved individuals. Except as detailed in the section on Privileged and Confidential Communications above, no University employee, including the Title IX Coordinator, should disclose the victim's identity to the police without the victim's consent or unless the victim has also reported the incident to the police.

If a victim requests of the Title IX Coordinator or another University employee that their identity remain completely confidential, the Title IX Coordinator will explain that the University cannot always honor that request and guarantee complete confidentiality. If a victim wishes to remain confidential or request that no investigation be conducted or disciplinary action taken, the University must weigh that request against the University's obligation to provide a safe, non-discriminatory environment for all students, employees, and third parties, including the victim. Under those circumstances, the Title IX Coordinator will determine whether the victim's request for complete confidentiality and/or no investigation can be honored under the facts and circumstances of the particular case, including whether the University has a legal obligation to report the incident, conduct an investigation or take other appropriate steps. Without information about a victim's identity, the University's ability to meaningfully investigate the incident and pursue disciplinary action against the perpetrator may be severely limited. See Executive Order 1095 (https://calstate.policystat.com/policy/6741651/latest/) for further details around confidential reporting, and other related matters.

For Library hours visit http://library.csus.edu/hours/ or call (916) 278-6926.

Library Privileges
The Sacramento State OneCard serves as a library card. Students, faculty, and staff must present a valid OneCard each time an item is checked out or renewed. Library privileges are nontransferable and the OneCard may be used only by the person to whom it has been issued.

Loan Periods and Renewal Procedures
The basic loan period is 16 weeks, with automatic renewals of the same period. All items are subject to recall. All due date reminders and other notices are sent via Sac State email.

Overdue and Lost Item Fees
An item is overdue one day after the due date. Unless the item is recalled, no fees will accrue until 44 full days after the due date. After that date a bill listing a $90.00 item replacement fee will be sent. For more information regarding Suspensions and Fines, including information on Course Reserves, please visit: http://library.csus.edu (http://library.csus.edu/content2.asp?pageId=727.html)

To avoid overdue fees check your account at one of the following web locations:
My Library Account: http://library.csus.edu (http://library.csus.edu/content2.asp?pageId=727.html)

My Sac State, Library tab: http://my.csus.edu

Overdue Reminder, Bills, and Overdue Fee Notices
All notices are emailed to your Sac State email address. Notices include: loan receipts, borrowing activity summaries, courtesy, due date change, lost item replacement, and hold shelf notices.

Appendix H: Schedule of Tuition and Fees - 2022/23 & 2023/2024

The CSU makes every effort to keep student costs to a minimum. Tuition and fees listed in published schedules or student accounts may need to be increased when public funding is inadequate. Therefore, CSU reserves the right, even after tuition or fees are initially charged or initial payments are made, to increase or modify any listed tuition or fees. All listed fees, other than mandatory systemwide tuition, are subject to change without notice, until the date when instruction for a particular semester or quarter has begun. All CSU-listed tuition and fees should be regarded as estimates that are subject to change upon approval by the Board of Trustees, the chancellor or the presidents, as appropriate. Changes in mandatory systemwide tuition will be made in accordance with the requirements of the Working Families Student Fee Transparency and Accountability Act (Sections 66028 through 66028.6 of the California Education Code).

The following reflects applicable systemwide tuition and fees for both semester and quarter universities. These rates are subject to change.

All Students
Application fee (nonrefundable), payable online at the time of application via credit card, e-check or PayPal: $70

Accountability Act (Sections 66028 – 66028.6 of the Education Code). 

requirements of the Working Families Student Fee Transparency and in mandatory systemwide tuition will be made in accordance with the of Trustees, the chancellor or the presidents, as appropriate. Changes as estimates that are subject to change upon approval by the Board or quarter has begun. All CSU-listed tuition and fees should be regarded without notice, until the date when instruction for a particular semester are made, to increase or modify any listed tuition or fees. All listed can be increased when public funding is inadequate. Therefore, CSU reserves and fees listed in published schedules or student accounts may need to be increased when public funding is inadequate. Therefore, CSU reserves additional fees charged all students) for all CSUs:

### 2022/23 Graduate Business Professional Fee

Charge per Unit: Per Semester = $270, Per Quarter = $180

The Graduate Business Professional Fee is paid on a per unit basis, in addition to basic tuition and university fees, for the specific graduate business programs authorized to assess the fee. A list of academic programs authorized to assess the fee can be found on the CSU Tuition website (https://www.calstate.edu/attend/paying-for-college/csu-costs/tuition-and-fees/Pages/basic-tuition-and-fees.aspx).

2022/23 Nonresident Students (U.S. and Foreign)

Nonresident tuition (in addition to basic tuition and other systemwide fees charged all students) for all CSUs:

Charge Per Unit: Per Semester = $396, Per Quarter = $264.

The total nonresident tuition paid per term will be determined by the number of units taken.

Mandatory systemwide tuition is waived for those individuals who qualify for such exemption under the provisions of the California Education Code (see section on fee waivers).

Students are charged campus fees in addition to tuition and systemwide fees. Information on campus fees can be found by contacting the individual CSUs.

Credit Cards

Visa and MasterCard credit cards may be used for payment of student tuition and fees but may be subject to a non-refundable credit card processing fee.

### Schedule of Tuition and Fees, 2023/24

The CSU makes every effort to keep student costs to a minimum. Tuition and fees listed in published schedules or student accounts may need to be increased when public funding is inadequate. Therefore, CSU reserves the right, even after tuition or fees are initially charged or initial payments are made, to increase or modify any listed tuition or fees. All listed fees, other than mandatory systemwide tuition, are subject to change without notice, until the date when instruction for a particular semester or quarter has begun. 1 Applicable term tuition applies for campuses with special terms, as determined by the campus. Total college year tuition cannot exceed the academic year plus summer term tuition. The summer term tuition for the education doctorate at quarter campuses is equal to the per semester tuition listed in the table. Total tuition for the education doctorate over the college year equals the per academic year tuition plus the per semester tuition for the summer term at all CSU campuses.

### 2023/24 Graduate Business Professional Fee

Charge per Unit: Semester = $270, Quarter = $180.

The Graduate Business Professional Fee is paid on a per unit basis in addition to basic tuition fees and university fees for specific university graduate business programs authorized to assess the fee. A list of academic programs authorized to assess the fee can be found on the CSU Tuition website. (https://www.calstate.edu/attend/paying-for-college/csu-costs/tuition-and-fees/Pages/basic-tuition-and-fees.aspx)
2023/24 Nonresident Students (U.S. and Foreign)

Nonresident Tuition (in addition to basic tuition and other systemwide fees charged all students) for all CSUs:

Charge Per Unit: Semester = $396, Quarter = $264.

The total nonresident tuition paid per term will be determined by the number of units taken.

Mandatory systemwide tuition is waived for those individuals who qualify for such exemption under the provisions of the California Education Code (see section on fee waivers).

Students are charged campus fees in addition to tuition and systemwide fees. Information on campus fees can be found by contacting the individual campus(es).

Credit Cards

Visa, MasterCard, American Express and Discover credit cards may be used for payment of student tuition and fees but may be subject to a non-refundable credit card processing fee.

Appendix I: Availability of Institutional and Financial Assistance Information

The following information concerning student financial assistance may be obtained from the Financial Aid Office, Lassen Hall 1006, (916) 278-6554:

• A description of the federal, state, institutional, local, and private student financial assistance programs available to students who enroll at Sacramento State;
• For each aid program, a description of procedures and forms by which students apply for assistance, student eligibility requirements, criteria for selecting recipients from the group of eligible applicants, and criteria for determining the amount of a student's award;
• A description of the rights and responsibilities of students receiving financial assistance, including federal Title IV student assistance programs, and criteria for continued student eligibility under each program;
• The satisfactory academic progress standards that students must maintain for the purpose of receiving financial assistance and criteria by which a student who has failed to maintain satisfactory progress may reestablish eligibility for financial assistance;
• The method by which financial assistance disbursements will be made to students and the frequency of those disbursements;
• The way the school provides for Pell-eligible students to obtain or purchase required books and supplies by the seventh day of a payment period and how the student may opt out;
• The terms of any loan received as part of the student’s financial aid package, a sample loan repayment schedule, and the necessity for repaying loans;
• The general conditions and terms applicable to any employment provided as part of the student’s financial aid package;
• The terms and conditions of the loans students receive under the Direct Loan and Perkins Loan Programs;
• The exit counseling information the school provides and collects for student borrowers; and
• Contact information for university offices available for disputes concerning federal, institutional and private loans.

• Information concerning the cost of attending Sacramento State is available from the following and includes tuition and fees; the estimated costs of books and supplies; estimates of typical student room, board, and transportation costs; and, if requested, additional costs for specific programs.

Information concerning the refund policies of Sacramento State for the return of unearned tuition and fees or other refundable portions of institutional charges is available from:

Anita Kermes, Director of Financial Aid Office
California State University, Sacramento
6000 J Street
Sacramento, CA 95819-6032
(916) 278-6074.

Information concerning policies regarding the return of federal Title IV student assistance funds as required by regulation is available from:

Anita Kermes, Director of Financial Aid Office
California State University, Sacramento
6000 J Street
Sacramento, CA 95819-6032
(916) 278-6074.

Information regarding special facilities and services available to students with disabilities may be obtained from:

Rahsaan Ellison-Johnson, Interim Director, Office of Services to Students with Disabilities
California State University, Sacramento
6000 J Street
Sacramento, CA 95819-6032
(916) 278-6955.

Information concerning Sacramento State policies, procedures, and facilities for students and others to report criminal actions or other emergencies occurring on campus may be obtained from:

Chet Madison, Chief of Police
California State University, Sacramento
6000 J Street
Sacramento, CA 95819-6032
(916) 278-6000.

Information concerning Sacramento State annual campus security report and annual fire safety report may be obtained from:

Chet Madison, Chief of Police
California State University, Sacramento
6000 J Street
Sacramento, CA 95819-6032
(916) 278-6000.

Information concerning the prevention of drug and alcohol abuse and rehabilitation programs may be obtained from:

Reva Wittenberg, Associate Director of University Wellness
California State University, Sacramento
6000 J Street
Sacramento, CA 95819-6032
(916) 278-82036.
Information regarding student retention and graduation rates at Sacramento State and, if available, the number and percentage of students completing the program in which the student is enrolled or has expressed interest may be obtained from:

Yvonne Harris, Associate Vice President, Research Affairs, California State University, Sacramento 6000 J Street Sacramento, CA 95819-6032 (916) 278-6402.

Information concerning athletic opportunities available to male and female students and the financial resources and personnel that Sacramento State dedicates to its men’s and women’s teams may be obtained from:

Mark Or, Director of Athletics California State University, Sacramento 6000 J Street Sacramento, CA 95819-6032 (916) 278-6348.

Information concerning teacher preparation programs at Sacramento State, including the pass rate on teacher certification examinations, may be obtained from:

Elizabeth Christian, Credentials Analysts Office California State University, Sacramento 6000 J Street Sacramento, CA 95819-6032 (916) 278-4567.

Information concerning grievance procedures for students who feel aggrieved in their relationships with the University, its policies, practices, and procedures, or its faculty and staff may be obtained from:

Dr. Ed Mills, Vice President, Student Affairs California State University, Sacramento 6000 J Street Sacramento, CA 95819-6032 (916) 278-6060.

Information concerning student body diversity at Sacramento State, including the percentage of enrolled, full-time students who are (1) male, (2) female, (3) Pell Grant recipients, and (4) self-identified members of a specific racial or ethnic group, must be obtained from:

Yvonne Harris, Associate Vice President, Research Affairs California State University, Sacramento 6000 J Street Sacramento, CA 95819-6032 (916) 278-6402.

Information concerning student activities at California State University, Sacramento is available at http://www.csus.edu/soal/

The federal Military Selective Service Act (the "Act") requires most males residing in the United States to present themselves for registration with the Selective Service System within 30 days of their 18th birthday. Most males between the ages of 18 and 25 must be registered.

Selective Service registration forms are available at any U.S. Post Office, and many high schools have a staff member or teacher appointed as a Selective Service Registrar. For more information on the Selective Service System and to initiate the registration process, visit www.sss.gov (http://www.sss.gov).

Appendix J: Personal Safety and Protection of Property

Personal Safety and Protection of Public Property

Police Department Building

Police Emergency: (916) 278-6000 or dial 911 from any university phone www.csus.edu/police (http://www.csus.edu/police/)

www.twitter.com/sacstategopolice (https://twitter.com/sacstategopolice/)

The University and the Sacramento State Police Department (formerly known as the Department of Public Safety) encourage the prompt reporting of any incident that compromises the safety, health, or rights of Sacramento State community members. The Sacramento State Police Department is the primary respondent for university emergencies and reports of criminal activity on campus. Officers are fully certified by the State of California with full arrest powers and cooperate with State and local police agencies (Sacramento City Police and Sacramento County Sheriff’s Departments), resulting in the University’s awareness of criminal activity perpetrated beyond the university. Reports of criminal activity will be fully investigated, and appropriate referrals made to the courts, the University, or both.

University Buildings: Buildings on the Sacramento State campus remain open only through the completion of the last scheduled event. A daily schedule is provided to Facilities Management and buildings are electronically locked on the basis of that schedule. For those buildings that are not electronically controlled, Custodial Services and Community Service Specialists are responsible for the unlocking of buildings on a daily basis for scheduled classes. After buildings are locked, only employees with offices and personnel with maintenance responsibilities have access to buildings.

Personal Safety Training: The Sacramento State Police Department has full-time Police Officers who are available, on request, for personal safety presentations to increase awareness and personal responsibility of students, faculty, or staff. Please call (916) 278-6000 for an appointment. Presentations are offered consistently during the semester. Police Department personnel are available for seminars concerning personal safety for women through the Violence and Sexual Assault Support Services (916) 278-3799. In addition, students are employed through the Sacramento State Police Department as Community Service Officers (CSOs) with primary responsibility for providing patrols and community assistance on campus. The CSOs provide directed patrols in the Residential Life Complex, Academic Information Resource Center, and the Library.

Residence Halls: Sacramento State Residence Hall policy requires that exterior doors be locked at all times. All residents are issued a fob for personal access to the exterior doors and rest rooms. A resident must accompany all guests. Additional information is contained in the Guide to Residential Life available through the Office of Residential Life in Sierra Hall.

Publications: Brochures are available through the Sacramento State Police Department which provides additional information and training under the following titles: A Guide to Safe & Responsible Partying, Alcohol Alert, Alcohol - The Hard Facts, Apartment Safety Checklist, Bicycles on campus, Bicycle Safety Tips, CA Driver License & Identification Cards,
appends
collection from either graduates of the university or graduates of all universities in the California State University system.

Appendix M: Changes of Rules and Policies

Although every effort has been made to assure the accuracy of the information in this catalog, students and others who use this catalog should note that laws, rules, and policies change from time to time and that these changes may alter the information contained in this publication. Changes may come in the form of statutes enacted by the legislature, rules and policies adopted by the Board of Trustees of the California State University, by the Chancellor or designee of the California State University, or by the President or designee of the university. It is not possible in a publication of this size to include all of the rules, policies and other information that pertain to students, the institution, and the California State University. More current or complete information may be obtained from the appropriate department, school, or administrative office.

Appendix N: Credit Hour

On July 1, 2020, the United States Department of Education changed its definition of the student credit hour. Fundamentally, the change shifted responsibility for credit hour compliance to the accreditation agency and/or to the state.

As such, the CSU’s accreditor, the WASC Senior College and University Commission (WSCUC), has published its own updated definition of student credit hour and related accreditation processes. The new regulations no longer require an accrediting agency to review an institution’s credit hour policy and procedures. It does require the WSCUC to review the institution’s definition of credit hour and an institutions’ processes and policies for ensuring the credit hour policy is followed.

The CSU credit hour definition is consistent with federal law (600.2 and 600.4 revised July 1, 2020) and the requirements of the WSCUC. The CSU defines a credit hour as an amount of work represented in stated learning outcomes and verified by evidence of student achievement. Such evidence is an institutionally established equivalency that:

1. Approximates not less than:
   a. One hour of direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately 15 weeks for one semester or equivalent amount of work over a different amount of time; or
   b. At least an equivalent amount of work as required in paragraph 1.a. of this definition for other academic activities as established by the institution including laboratory work, internships, practica, studio work and other academic work leading to the award of credit hours; and

2. Permits an institution, in determining the amount of work associated with a credit hour, to take into account a variety of delivery methods, measurements of student work, academic calendars, disciplines and degree levels. Institutions have the flexibility to award a greater number of credits for courses that require more student work.

As in the past, a credit hour is assumed to be a 50-minute (not 60-minute) period. In some courses, such as those offered online, in which “seat time” does not apply, a credit hour may be measured by an equivalent amount of work, as demonstrated by student achievement.

Appendix K: Civil and Criminal Penalties for Violation of Federal Copyright Laws

Anyone who is found to be liable for copyright infringement may be liable for either the owner’s actual damages along with any profits of the infringer or statutory damages of up to $30,000 per work infringed. In the case of a willful infringement, a court may award up to $150,000 per work infringed. (See 17 U.S.C. §504.) Courts also have discretion to award costs and attorneys’ fees to the prevailing party. (See 17 U.S.C. §505.) Under certain circumstances, willful copyright infringement may also result in criminal penalties, including imprisonment and fines. (See 17 U.S.C. §506 and 18 U.S.C. §2319.)

Appendix L: Career Placement

The Office of Research Affairs or the Office of University Initiatives and Student Success may furnish, upon request, information about the employment of students who graduate from programs or courses of study preparing students for a particular career field. Any such data provided must be in a form that does not allow for the identification of any individual student. This information includes data concerning the average starting salary and the percentage of previously enrolled students who obtained employment. The information may include data.
For purposes of accreditation, all CSU universities are required to develop, communicate and implement procedures for regular, periodic review of this credit hour policy to ensure that credit hour assignments are accurate, reliable and consistently applied. WSCUC published new draft guidelines that took effect in June 2021. Universities are responsible for publishing a clearly stated practice or process that ensures they are in compliance with the student credit hour definition.
COURSES A-Z

Accountancy (ACCY)

ACCY 1. Accounting Fundamentals. 3 Units
Term Typically Offered: Fall, Spring
Prerequisite(s): Entry Level Math (ELM) test of at least 36 or a CR grade in LS 7A.
Accounting as the basis of an information system with emphasis on concepts and assumptions underlying data accumulation for financial reports. Includes the concepts of income determination and financial position, and the accounting for various types of ownership equities.

ACCY 2. Managerial Accounting. 3 Units
Term Typically Offered: Fall, Spring
Prerequisite(s): ACCY 1.
Use and reporting of accounting data for managerial planning, control, and decision making. Broad coverage of concepts, classification, and behavior of costs.

ACCY 111. Intermediate Accounting I. 3 Units
Term Typically Offered: Fall, Spring
Prerequisite(s): ACCY 111.
In-depth knowledge of how financial information provides information about a company’s: economic resources, obligations, and owner’s equity; income and its components; and cash flows. Topics include the development and application of basic assumptions, principles and constraints underlying financial statements; the use of information derived from financial statements and the limitations of the information; and the use of accounting information to evaluate a company’s return on investment, risk, financial, flexibility, liquidity, and operational capability. Students learn how to prepare financial statements.

ACCY 112. Intermediate Accounting II. 3 Units
Term Typically Offered: Fall, Spring
Prerequisite(s): ACCY 111.
Application of Generally Accepted Accounting Principles to the reporting of tangible and intangible assets, liabilities, and the capital section of the balance sheet. Other topics include the reporting of stock-based compensation and earnings-per-share.

ACCY 113. Intermediate Accounting III. 3 Units
Term Typically Offered: Fall, Spring
Prerequisite(s): ACCY 111.
Application of Generally Accepted Accounting Principles to revenue recognition and matching, pensions, leases, income taxes, accounting changes, interim financial statements, and segmental reporting. Students develop an in-depth knowledge of the preparation and the analysis of the cash flow statement.

ACCY 117. Advanced Accounting. 3 Units
Term Typically Offered: Fall, Spring
Prerequisite(s): ACCY 111 and ACCY 112.
Specialized topics in partnership accounting; consolidated statements; foreign currency translation and financial statements.

ACCY 121. Cost Accounting. 3 Units
Term Typically Offered: Fall, Spring
Importance of the allocation of costs; the cost allocation techniques available to accountants; the techniques used by management to maintain and create enterprise value, e.g., CVP analysis; the accountant’s responsibility for the management of inventory; and the ethical consideration in internal reporting.

ACCY 122. Advanced Management Accounting. 3 Units
Term Typically Offered: Fall, Spring
Prerequisite(s): ACCY 121.
Accountant’s responsibility to provide financial and no financial information to managers; the planning techniques available to accountants; managerial control techniques that enhance the maintenance and improvement of enterprise value, and short-run and long-run analyses.

ACCY 131. Survey of Auditing, Attest, and Assurance Topics. 3 Units
Term Typically Offered: Fall, Spring
Prerequisite(s): ACCY 111, ACCY 112.
Survey of topics in auditing as a control activity in society. Covers a variety of opportunities in the auditing profession including external auditing, internal auditing, compliance auditing, and operational auditing as well as fraud examinations. Topics include evidence and documentation, professional ethics, auditing computer systems, statistical sampling, and internal controls.

ACCY 132. Accountants’ Ethical and Professional Responsibilities. 3 Units
Prerequisite(s): ACCY 111, ACCY 112.
Corequisite(s): ACCY 131.
Term Typically Offered: Fall, Spring
This course addresses professional responsibilities for the accounting profession, including the development of ethical standards, ethical reasoning, AICPA and California Codes of Professional Conduct, financial reporting fraud, corporate governance, and other relevant topics.

ACCY 143. Accounting Data Analytics. 3 Units
Term Typically Offered: Fall, Spring
Prerequisite(s): ACCY 112
Examines the changing technological environment in accounting, and the role of data analytics in accounting. This course will help students to understand different structured and unstructured accounting data, and develop new analytic skills to make better accounting decisions. It will also improve students’ ability to conduct audit analytical procedures in accordance with financial reporting regulatory requirements.

ACCY 161. Government and Nonprofit Accounting. 3 Units
Term Typically Offered: Fall, Spring
Prerequisite(s): ACCY 111
Fundamentals of accounting and financial reporting for governmental units and institutions; accounting for various types of funds; accounting aspects of budgetary control.
ACCY 171. Federal Tax Procedures I. 3 Units
Term Typically Offered: Fall, Spring

Federal taxation concepts are used in effective decision making; a working knowledge of the concepts of gross income, deductions, tax rates, and property transactions as they pertain to C corporations, partnerships, S corporations, and individuals; and proficiency in the application of tax concepts as they pertain to business and individual taxpayers.

ACCY 172. Federal Tax Procedures II. 3 Units
Prerequisite(s): ACCY 171.
Term Typically Offered: Fall, Spring

Business entity formation, operation, and termination and business taxation principles and concepts used in effective decision-making. Students develop the ability to understand and apply business tax principles and the critical and analytical skills that are necessary in the study and application of taxation and tax law.

ACCY 190. International Accounting. 3 Units
Prerequisite(s): ACCY 111, Business Major
Term Typically Offered: Fall, Spring

Accounting concepts, principles, and methods applicable to multinational transactions and global corporations. Contents include the translation of financial statements, comparative accounting systems, financial reporting, currency risk management, international accounting standards and organizations, taxation problems, and the managerial aspects of multinational transactions.

ACCY 194. Cooperative Education Experience in Accountancy. 6 - 12 Units
Prerequisite(s): Minimum overall GPA of 2.75; instructor permission.
Term Typically Offered: Fall, Spring

In-depth supervised work experience in accounting for the purpose of exposing the student to comprehensive accountancy experience in business, governmental, or service agencies. Note: Open to upper division students, subject to permission of the Accountancy Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.

Credit/No Credit

ACCY 195. Internship in Accountancy. 3 Units
Prerequisite(s): Completion of 15 units of upper division business courses at Sacramento State; minimum overall GPA of 2.75; instructor permission.
Term Typically Offered: Fall, Spring

Supervised work experience in accountancy for the purpose of increasing student understanding of the nature and scope of the operations of business, governmental, or service agencies. Supervision is provided by the faculty and the cooperating agencies. Note: Open to declared business administration upper division majors only, subject to permission of the Accountancy Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.

Credit/No Credit

ACCY 196B. Exper Offer Accountancy. 3 Units
Prerequisite(s): AIS 141
Corequisite(s): ACCY 131
Term Typically Offered: Fall, Spring

A course in Accounting and Audit Analytics examines the changing technological environment in accounting and the role of data analytics in accounting. This course will help students to understand different structured and unstructured accounting data, and develop new analytic skills to make better accounting decisions. It will also improve student's ability to conduct audit analytical procedures, in accordance with financial reporting regulatory requirements.

ACCY 199. Special Problems in Accountancy. 1 - 3 Units
Prerequisite(s): Senior status or instructor permission.
Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work. Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030.

Note: Open to declared business administration majors only.

Credit/No Credit

ACCY 220. Accountancy Teaching Experience. 3 - 6 Units
Term Typically Offered: Fall, Spring

Supervised experience of teaching lower division accountancy courses. Students will teach one section of ACCY 1 or 2 for each three units of credit. They may teach no more than two classes (6 units of credit) during any semester and be under direct supervision of an appropriate coordinator. To be eligible, students must register for nine units in addition to ACCY 220 and must have approval of the Department Chair. May not be used to satisfy any requirements in the CBA graduate programs. No student may earn more than twelve (12) units cumulative.

Credit/No Credit

ACCY 240. Integrated Accounting Concepts. 3 Units
Term Typically Offered: Fall, Spring

Designed for students who enter the Master of Science Accountancy program without a Bachelor of Science in Accountancy or students who need to refresh their basic skills and understanding in record keeping, financial statement preparation and analysis, ethics in the practice of accounting, and internal controls through the use of comprehensive case study/practice set. Delivered via independent project work rather than lecture.

ACCY 250. Financial Reporting I. 3 Units
Term Typically Offered: Fall, Spring

Corporate financial reporting to external users in accordance with US Generally Accepted Accounting Principles (GAAP), including financial information about a company's economic resources, obligations, owners' equity, income, case flow, and use of information to evaluate a company's return on investment, risk, financial flexibility, liquidity, and operational capability.

</table>

The role of culture in accounting; comparative international financial and managerial accounting fundamentals; international financial statement analysis; international accounting standards and U.S. GAAP convergence; international business combinations; foreign exchange; international auditing; international taxation; and international capital flows.

Emphasis on the role of computer and information technology in the development, analysis, and operation of accounting information systems; may include advanced coverage of accounting transaction cycles, accounting systems planning and analysis, accounting system design, accounting systems implementation and operation, the accounting system internal control structure, data modeling and database design in accounting, computer fraud and security, and auditing of computer-based information systems.

Designed to provide understanding of knowledge and skills necessary for the general business environment and business operation. In addition, students are required to apply that knowledge in performing professional responsibilities. Topics include corporate governance, business cycles, global economic markets, business strategy, effect of financial management policies on accounting transactions, economic substance of transactions and their accounting implications, and budgeting/forecasting techniques.

Covers the required topics for tax form preparation for reporting individual incomes. Examines fundamental concepts in tax law and the underlying reasons for income identification, exemption, and deduction.

Tax reporting and collection procedure; administrative and judicial procedures governing tax controversies; the rights and obligations of the taxpayer. Intensive training in performing and communicating tax research. Includes use of current database programs. Lecture basis, followed by "hands-on" application of research methods.

Concepts and principles of the overall cash, accrual and hybrid methods of tax accounting. Applications of specific methods such as: inventory costing and capitalization rules, installment sales, long-term contracts, and original issue discount/time value of money will be examined. Lecture format to present the underlying rules and concepts. Case studies will then be analyzed and discussed by the students to examine the topics in a "real-world" context.

Discusses federal tax law as it applies to corporations, including the following topics: special deductions, formation, distributions, and complete liquidations. Incorporates problem sets, case analysis, a corporate tax return project, and a research project to enhance analytical and critical thinking skills and compliance experience.
ACCY 273. Taxation of Business Enterprises II - Partnerships. 3 Units
Prerequisite(s): ACCY 172 or ACCY 269.
Term Typically Offered: Fall, Spring

Discusses general concepts, acquisitions and basis of partnerships interests, operations, transfers of partnership interests, and distributions. Incorporates problem sets, a partnership tax return project, and research projects to enhance analytical and critical thinking skills and compliance experience and to develop students' technical proficiency in the application of partnership concepts.

ACCY 274. Estate, Gift and Trust Taxation. 3 Units
Prerequisite(s): ACCY 172 or ACCY 269.
Term Typically Offered: Fall, Spring

Taxation of decedent's estate and lifetime gifts; valuation of property subject to estate and gift taxes; income taxation of estates and trusts; estate planning. Uses a lecture format to present the underlying rules and concepts. Case studies will then be analyzed and discussed by the students to examine the topics in a "real-world" context.

ACCY 275. International Wealth and Asset Management. 3 Units
Term Typically Offered: Fall, Spring

Importance of global asset protection and wealth management; domestic Statutory and case law authorities of selected European, American and Asian countries as they relate to wealth protection and asset management; bi-lateral international agreements relating to wealth management and asset protection; Multilateral agreement affecting wealth management and asset protection; tax and legal liability minimizing models.

ACCY 276. U.S. Taxation of International Transactions. 3 Units
Prerequisite(s): ACCY 272, Advanced to Candidacy.
Term Typically Offered: Fall, Spring

U.S. tax jurisdiction; U.S. source of income rules and related expense allocation; U.S. taxation of foreign taxpayers; transfer pricing issues; U.S. taxation of the foreign income of U.S. citizens and residents; cross border transactions; foreign currency tax issues; and U.S. bilateral tax agreements. Successful completion will satisfy the culminating experience for the MSBA/Taxation program. Students may select topics for their Master's projects that are outside the discipline topic of the class subject to the approval of the instructor.

ACCY 277. Comparative International Tax Systems. 3 Units
Term Typically Offered: Fall, Spring

The similarities and differences between current global tax systems including jurisdiction and conflict of laws issues; the role of bilateral international tax treaties and other international tax related agreements in business operations; international tax planning for individuals and multinational enterprise including corporations, partnerships and estates and trusts.

ACCY 278. International and Multi-State Taxation. 3 Units
Term Typically Offered: Fall, Spring

Focuses on the taxation of cross-border transactions which encompasses discussion of the laws, rules, and regulations that affect transactions that cross both state and national borders. It covers various issues such as income sourcing and jurisdiction to tax. This course generally discusses these issues from the perspective of a U.S. person, but emphasizes and illustrates the general applicability of these rules for the tax regimes as established by other countries and states.

ACCY 280. Management Control Systems. 3 Units
Term Typically Offered: Fall, Spring

Development of the concepts and practice of management control systems. How alternative accounting-based planning, performance motivation and evaluation, and control systems fit and are used in varying strategic, management, and operative environments. How systems focus and motivate managers' decision behavior. How systems fit and are used in varying decision, competitive, and organization settings. Emphasis is on cases.

ACCY 295. Internship in Accountancy. 3 Units
Prerequisite(s): Classified graduate status; minimum Sacramento State GPA of 3.0 required.
Term Typically Offered: Fall, Spring

Supervised work experience in business, governmental service, or agencies for the purpose of increasing and enhancing student understanding of the nature and scope of the organization's accounting operations. Supervision is provided by the faculty and the cooperating agencies. Open to MS in Accountancy students. Petitions are obtained from Tahoe Hall 1035.
Credit/No Credit

ACCY 296. Experimental Offerings in Accountancy. 3 Units
Term Typically Offered: Fall, Spring

When a sufficient number of qualified students apply, a faculty member may conduct a seminar on a designated advanced topic in accountancy.

ACCY 299. Special Problems in Accountancy. 1 - 3 Units
Prerequisite(s): Classified graduate status.
Term Typically Offered: Fall, Spring

Completion of a thesis approved for the Master's degree.

ACCY 500A. Thesis. 1 - 3 Units
Prerequisite(s): Advanced to candidacy; completion of MGMT 210 is required for the MBA only.
Term Typically Offered: Fall, Spring

Completion of a project approved for the Master's degree.

ACCY 500B. Project. 1 - 3 Units
Prerequisite(s): Advanced to candidacy; completion of MGMT 210 is required for the MBA only.
Term Typically Offered: Fall, Spring

Completion of a thesis approved for the Master’s degree.

ACCY 500C. Comprehensive Examination for MS/Accountancy and MSBA/Taxation Degrees. 1 - 3 Units
Prerequisite(s): Advanced to candidacy. For comprehensive examination for MBA only (MGMT 500C, 1 unit), completion of Program Requirements (ACCY 240, MGMT 222, MGMT 223, MGMT 234, MGMT 280, MIS 221, OBE 252). For comprehensive examination for MS/Accountancy and MSBA/Taxation degrees, student must be in final semester of program.
Term Typically Offered: Fall, Spring

Note: MS Accountancy degree, student must be in final semester of program.
Accountancy Information System (AIS)

ACCY 501. Culminating Experience Project in Accounting and Ethics. 3 Units
Prerequisite(s): Advancement to Candidacy
Term Typically Offered: Fall, Spring

Each student conducts an individual project to fulfill the culminating experience graduation requirement of the MS in Accountancy program as required in Title V of the CA Educational Code. The course also covers the development of ethical standards, ethical reasoning, AICPA Code of Professional Conduct, accountants’ professional responsibilities, financial reporting fraud and responses, corporate governance, and other relevant topics.
Note: May be repeated for credit

AIS 141. Accounting Information Systems Development. 3 Units
Term Typically Offered: Fall, Spring

Design, analysis, and implementation of computer-based accounting information systems. Discussion of flow charting, data security, systems development, program architecture, and management of the implementation process. Development of computer applications and formulation of decision information for managerial uses. Use of the computer in projects.

AIS 142. Enterprise and E-Commerce Accounting Models. 3 Units
Prerequisite(s): AIS 141 or instructor permission.
Term Typically Offered: Fall, Spring

Survey of Enterprise Resource Planning (ERP) models, Business-to-Business (B2B) E-commerce models, and the effects of the changing business and technology landscape upon the accounting profession. Topics include internal control, auditing, and economics relating to these new business-process models.

AIS 194. Cooperative Education Experience in Accounting Information Systems Problems. 6 - 12 Units
Prerequisite(s): Minimum overall GPA of 2.75; instructor permission.
Term Typically Offered: Fall, Spring

In-depth supervised work experience in accounting information systems for the purpose of exposing the student to comprehensive Accounting Information Systems experience in business, governmental, or service agencies.
Note: Open to upper division students, subject to permission of the Accountancy Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.

AIS 195. Internship in Accounting Information Systems. 3 - 6 Units
Prerequisite(s): Completion of 15 units of upper division business courses at Sacramento State; minimum GPA of 2.75 required; instructor permission.
Term Typically Offered: Fall, Spring

Supervised work experience in accounting information systems for the purpose of increasing student understanding of the nature and scope of the operations of business, governmental, or service agencies. Supervision is provided by the faculty and cooperating agencies.
Note: Open to declared business administration upper division majors only, subject to permission of the Accountancy Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.

AIS 199. Special Problems in Accounting Information Systems. 1 - 3 Units
Prerequisite(s): Senior status or instructor permission.
Term Typically Offered: Fall, Spring

Individual accounting information systems projects or directed reading for students qualified to carry on independent work.
Note: Open to declared business administration majors only. Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030.

Anthropology (ANTH)

ANTH 1. Introduction to Biological Anthropology. 3 Units
General Education Area/Graduation Requirement: Life Forms (B2)
Term Typically Offered: Fall, Spring, Summer

Covers the concepts, methods of inquiry, and theory of biological evolution and their application to the human species. There is a specific focus on molecular, Mendelian and population genetics, mechanisms of evolution, primatology, paleoanthropology, biocultural adaptations, and human variation. The scientific method serves as the foundation to the course.

ANTH 1A. Biological Anthropology Laboratory. 1 Unit
Prerequisite(s): ANTH 1 (may be taken concurrently)
General Education Area/Graduation Requirement: Laboratory (B3), Life Forms (B2)
Term Typically Offered: Fall, Spring

Designed to familiarize the student with the materials and techniques of physical anthropology. Includes human and other primate osteology, anthropometric techniques, and allied methods in the gathering and analysis of physical anthropological data. Through working with the departmental collection of fossil casts and a wide variety of charts and models, the student also becomes familiar with the stages of human and primate evolution.
### ANTH 2. Introduction to Cultural Anthropology.
**General Education Area/Graduation Requirement:** GE AREA D  
**Term Typically Offered:** Fall, Spring

Introduction to anthropological approaches in the study of people and cultures. Using ethnographic case studies, the course contributes to a critical understanding of the continuity and diversity in peoples' lifestyles, social institutions, and cultural practices in different societies around the world. The course also examines the impact of political, economic, and social changes, such as colonization, decolonization, and globalization on people and cultures over the last century.

### ANTH 2H. Introduction to Cultural Anthropology - Honors.
**Term Typically Offered:** Fall only

Introduction to anthropological approaches in the study of people and cultures. Using ethnographic case studies, contributes to a critical understanding of the continuity and diversity in peoples' lifestyles, social institutions, and cultural practices in different societies around the world. Examines the impact of political, economic, and social changes, such as colonization, decolonization, globalization, etc., on people and cultures over the last century. Intended for students enrolled in the University’s GE Honors Program.  
**Note:** Students must be admitted to the GE Honors Program.

### ANTH 3. Introduction to Archaeology.
**General Education Area/Graduation Requirement:** GE AREA D  
**Term Typically Offered:** Fall, Spring

Introduces students to the methods and theories used by archaeologists to find, recover, and interpret such remains in an effort to reconstruct and understand the lives of earlier peoples. The class uses archaeological case studies, films, and hands-on examples of tools and other artifacts produced by simple stone age hunters and more complex civilizations that lived in California and other parts of the world.

### ANTH 4. Language, Culture, and Critical Thinking.
**General Education Area/Graduation Requirement:** Critical Thinking (A3)  
**Term Typically Offered:** Fall, Spring

Introduction to the abstract and formal structures of language and cultural dimensions of human communication via major linguistic anthropological concepts, theoretical assumptions, and methodologies. Addresses the logical, formal relationship between underlying rules of natural languages while critically analyzing how speakers from different cultures use language to convey complex social and cultural information. Course illuminates how language is used to create and reinforce relationships of power (race, class, gender); develops ability to recognize linguistic fallacies; and instructs in basic critical thinking skills.

### ANTH 16. Comparative Early Civilizations.
**General Education Area/Graduation Requirement:** Humanities (Area C2)  
**Term Typically Offered:** Fall, Spring

Examines the emergence and development of early civilizations. Studies state formation, urbanization, market system development, and other processes relevant to the evolution of early civilizations from the standpoints of cross-cultural comparison and modern anthropological theory. The goal is to identify cross-cultural regularities as well as critical differences that can explain the various evolutionary trajectories of these societies. The civilizations that will be contrasted include societies from Mesopotamia, Egypt, the Indus Valley, China, Mesoamerica, Andean South America, and other regions.

### ANTH 101. Cultural Diversity.
**Term Typically Offered:** Fall, Spring, Summer

Focuses on analyzing the historically conditioned political, economic and social factors that have contributed to cultural diversity in the U.S.; a critical anthropological approach is developed to explore the intersection of race, class, gender, ethnicity and sexuality; the political economy of institutions and ideas, such as racism, classism, sexual stereotyping, family, religion, state, color-blindness, multiculturalism, etc.; and, discourses of cultural diversity in the U.S.

### ANTH 102. The Nature of Culture.
**Term Typically Offered:** Fall, Spring

An upper division general introduction to cultural anthropology. Divided into two major parts: a survey of theories, methods and concepts of cultural anthropology, and an introduction to applied cultural anthropology.

### ANTH 103. Psychological Anthropology.
**Prerequisite(s):** ANTH 2 or ANTH 102.  
**Term Typically Offered:** Fall, Spring

Cross-cultural comparative approach to human cognition, child-training practices, personality development, deviant behavior, cultural psychiatry, and data gathering techniques.

### ANTH 104. The History of Anthropology.
**Prerequisite(s):** ANTH 146 or instructor permission.  
**Term Typically Offered:** Fall, Spring

Anthropological theory in historical perspective.

<th>Term Typically Offered</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH 105</td>
<td>Anthropology of War</td>
<td>3</td>
<td>ANTH 146 or instructor permission.</td>
<td>Fall, Spring</td>
<td>Examination of the nature of war, primarily as it occurs in pre-industrial societies, and a survey of the kinds of explanations of this phenomenon current in anthropology. Emphasis is on understanding the complexity, variability, and cultural imbeddedness of war as it occurs around the world.</td>
</tr>
<tr>
<td>ANTH 106</td>
<td>Culture and Personality of the Chicano Child</td>
<td>3</td>
<td></td>
<td>Fall, Spring</td>
<td>Study of child growth and development patterns universal to all children with focus on the pressures and effects of the Mexican and Anglo cultures on the development of the Chicano child.</td>
</tr>
<tr>
<td>ANTH 107</td>
<td>Anthropology of Hunters and Gatherers</td>
<td>3</td>
<td>ANTH 3</td>
<td>Fall, Spring</td>
<td>Survey of the rapidly disappearing life way which anthropologists call hunting and gathering, with economies based on the use of wild plant and animal resources. Using ethnographic examples from the Arctic, southern Africa, rainforests in South America, deserts of Australia, and western North America, explores variation in hunter-gatherer societies with respect to differences in environment, technology, social organization, and the historical effects of interaction with more complex cultural groups. Models that attempt to explain long-term changes in this life way are also explored.</td>
</tr>
<tr>
<td>ANTH 108</td>
<td>Economic Anthropology</td>
<td>3</td>
<td>ANTH 146 or instructor permission.</td>
<td>Fall, Spring</td>
<td>Examines the fundamentals of economic anthropology through a focus on production, exchange, and consumption in a range of historical and ethnographic contexts. Introduces different frameworks for theorizing the economy and explaining human behavior and decision-making. Addresses central questions and issues in cultural anthropology on the origins of value, wealth and social stratification, the meanings of work, gift exchange and reciprocity, property regimes, morality and debt, marketing and desire.</td>
</tr>
<tr>
<td>ANTH 109</td>
<td>Ecological and Evolutionary Approaches to Anthropology</td>
<td>3</td>
<td>ANTH 3</td>
<td>Fall, Spring</td>
<td>Survey of anthropological research regarding the relationships between human behavior, ecology, and evolution. Reviews historic development of research in this field, and contrasts approaches based in ecological and evolutionary theory. Reviews and evaluates of case studies. Topics include hunter-gatherer and hominid economy and social organization, foraging theory, work effort, population growth and regulation, origins of agriculture, warfare, ritual and resource conservation, and origins of complex society.</td>
</tr>
<tr>
<td>ANTH 110</td>
<td>Archaeological Method and Theory</td>
<td>3</td>
<td>ANTH 3</td>
<td>Fall, Spring</td>
<td>Traces the development of archaeology from its inception in the eighteenth century up to the present time. Readings, lectures, and class assignments follow the evolution of archaeological method and theory in relation to changing ideas about the role of culture, environment, and technology within the broader discipline of anthropology.</td>
</tr>
<tr>
<td>ANTH 111</td>
<td>California Archaeology</td>
<td>3</td>
<td>ANTH 3</td>
<td>Fall, Spring</td>
<td>Pre-contact California encompassed some of the most extensive environmental and cultural diversity ever to exist on the planet, containing widely divergent biota, many distinct languages and cultures, and among the densest hunter-gatherer populations ever recorded. Explores long-term trends in cultural development across the state, and examines models used to explain why semi-permanent settlements, intensive subsistence strategies, and complex social institutions arose in some times/places and not others.</td>
</tr>
<tr>
<td>ANTH 112</td>
<td>Great Basin Archaeology</td>
<td>3</td>
<td>ANTH 3</td>
<td>Fall, Spring</td>
<td>Explores the cultural and natural history of the Great Basin from the last glacial maximum into the historic era. Though largely arid, this region in fact manifests considerable environmental variability and has seen significant climatic alterations since the Pleistocene. Human occupation of the Great Basin witnessed major changes in demography, technology, subsistence practices, and sociopolitical organization over the last 10,000 years. The course looks to understand cultural and environmental variability across the region through examination of the long-term material record and consideration of anthropological and biological models.</td>
</tr>
<tr>
<td>ANTH 113</td>
<td>Prehistory of the Southwest</td>
<td>3</td>
<td>ANTH 3</td>
<td>Fall, Spring</td>
<td>Survey of the prehistory of the Arizona, New Mexico, Western Colorado, Utah, and adjacent regions of Nevada, Texas and northwestern Mexico. Major prehistoric cultures of the Southwest (Hohokam, Anasazi, Mogollon, Fremont) are covered in detail. Focus on major transitions in subsistence and social organization emphasizing current issues of archaeological research. Cultural influences from outside areas are also considered.</td>
</tr>
<tr>
<td>ANTH 114</td>
<td>North American Prehistory</td>
<td>3</td>
<td>ANTH 3</td>
<td>Fall, Spring</td>
<td>Familiarizes students with the archaeological record of North America, and provides an analytical framework through which it may be understood in anthropologically meaningful terms. This will be accomplished by considering some of the explanations that have been proposed to account for the prehistory of the continent, and by examining the archaeological remains and cultural sequences found in various areas, including the North and Southeast, Great Plains, Pacific Northwest, and arctic/subarctic regions.</td>
</tr>
</tbody>
</table>
SURVEY ON ENVIRONMENTAL ARCHAEOLOGY AND THE HUMAN PAST

ANTH 115. Origins of Agriculture. 3 Units
Prerequisite(s): ANTH 3
Term Typically Offered: Fall, Spring

Surveys and evaluates worldwide anthropological perspectives of the origins of agriculture and the rise of complex society. Traces the development of major archaeological theories for the inception and spread of agriculture and civilization, acquainting students with groundbreaking archaeological research associated with each theoretical perspective. Current archaeological research is reviewed in-depth, providing a context for critique of the theories. Examples from North America, Latin America, the Middle East, India and China are compared and contrasted using movies, readings, and lectures.

ANTH 116. Old World Prehistory: Paleolithic Archaeology. 3 Units
Term Typically Offered: Fall, Spring

Old World Paleolithic archaeology from the emergence of hominids until the development of agriculture and civilization. Cultural developments in Africa, Europe, and Australia are examined with the aim of highlighting similarities and differences in the process of technological, demographic, and sociopolitical change within each region. Explanatory models are offered to account for cultural evolution in various parts of the Old World are explored and assessed.

ANTH 117. World Prehistory and the Evolution of Modern Humanity. 3 Units
Prerequisite(s): Any lower-division Area B2 GE course
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring

Covers human prehistory, from the emergence of culture through the domestication of plants and animals, and the origins of complex societies. Included are major cultural developments on every continent, emphasizing similarities and differences in the nature and timing of key technological, cultural, and sociopolitical changes. Methodologies for learning about the past, major archaeological discoveries, important personalities, and contributions to the modern world are discussed in the context of understanding the strengths of a scientific approach to understanding the human past.

ANTH 118. The Anthropocene: Human Impacts on Ancient Environments. 3 Units
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring

Designed to challenge students to critically evaluate past human relationships with their environment at the local, regional, and global scale over the past 10,000 years. The diachronic perspective of the course provides students with a broader understanding of contemporary challenges, such as anthropogenic climate change and declining biodiversity, that is rooted in our prehistoric past.

ANTH 119. Analysis of Faunal Remains. 4 Units
Prerequisite(s): ANTH 3 and Anthropology (Archaeological and Biological Anthropology) concentration.

Seminar on techniques and methods employed in analysis of faunal remains from archaeological sites, coupled with a laboratory providing hands-on identification of mammalian remains from these settings. Large focus on quantitative methods used in zooarchaeology to infer behavioral patterns of the human past and their paleoenvironments.

ANTH 120. Introductory Statistics for Anthropologists. 3 Units
Prerequisite(s): Anthropology (Archaeological and Biological Anthropology) concentration.
Term Typically Offered: Fall, Spring

Covers the conceptual framework involved in quantitative methods of data analysis commonly employed in anthropology. The emphasis is primarily on understanding concepts and secondarily on learning techniques of data analysis. Topics include data description and distributions, estimation procedures, hypothesis testing, and model fitting. Illustration of concepts in lecture are made with data from archaeology, physical anthropology, and social/cultural anthropology.

ANTH 121. Archaeology of Mexico. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Provides an upper division introduction to the archeology of Mesoamerica for students not majoring in anthropology. Discusses the evolution of the ancient civilizations of Mesoamerica, including Mexico, Guatemala, Belize, Honduras, and El Salvador. Examines the development of societies from the earliest inhabitants to the growth of empires. Includes coverage of the Olmecs, Monte Alban, Teotihuacan, the Classic Maya, the Toltecs, and the Aztecs.
Note: Cannot be used to meet the requirements of the Anthropology major; interested majors should take ANTH 122.

ANTH 122. The Evolution of Early Mesoamerican States. 3 Units
Prerequisite(s): ANTH 3
Term Typically Offered: Fall, Spring

Traces the emergence of pre-hispanic state societies in Mesoamerica from the growth of the earliest settlements to the collapse of the Aztec empire. Analyzes how complex societies evolved in Mesoamerica, focusing on such evidence as household and village social organization, craft specialization and interregional exchange, religion and ideology, and the logistics of state management and imperial expansion.

ANTH 123. Ancient Technology. 3 Units
Term Typically Offered: Fall, Spring

Examines the importance of various preindustrial technologies, and the techniques and methods involved in their manufacture and use. Topics include stone, bone, wood, and hide working, ceramics, weaving, metallurgy, and other crafts essential to human survival in ancient and contemporary societies around the world.

ANTH 124. Environmental Archaeology. 3 Units
Prerequisite(s): ANTH 3 and Anthropology (Archaeological and Biological Anthropology) concentration.
Term Typically Offered: Fall, Spring

All human societies depend on their natural surroundings, and so the reconstruction of prehistoric environments is an essential part of archaeological interpretation. Three interrelated aspects of environmental archaeology are considered: (1) general approaches to paleoenvironmental reconstruction, employing various biological and geological indicators; (2) the analysis of human plant and animal food remains; and (3) the geological and other processes that are responsible for the formation of archaeological deposits.
ANTH 125. Historical Archaeology. 3 Units
Term Typically Offered: Fall, Spring
Written history only records a small portion of human activities that occurred in the recent past. Explores the numerous methods of investigation, analysis and interpretation that are available to aid the historical archaeologist in discovering missing information and in some cases correcting erroneous statements, assumptions and interpretations about the past.

ANTH 126. Techniques of Archaeological Analysis. 3 Units
Prerequisite(s): ANTH 3 and Anthropology (Archaeological and Biological Anthropology) concentration.
Term Typically Offered: Fall, Spring
Introduces students to various approaches to archaeological analysis, focusing on how different classes of data are collected, classified, and interpreted to resolve research issues. Includes such topics as the handling, treatment, and analysis of flaked and ground stone tools, plant and animal food remains, and other types of archaeological materials. Lecture one hour, laboratory six hours.
Note: May be repeated once for credit.

ANTH 127. Cultural Resource Management in Theory and Practice. 3 Units
Prerequisite(s): ANTH 3
Term Typically Offered: Fall, Spring
Takes a wide-ranging look at how cultural resources are managed and preserved in California, the greater U.S., and other parts of the world. More than just a review of applicable laws and regulations, it is designed to offer a history of historic preservation, examine its role in our society, and explore the prospects for its continued presence. Practical aspects of Cultural Resource Management (CRM) are reviewed with respect to designing, budgeting, and performing archaeological surveys, site evaluation studies, and data recovery or mitigation programs.

ANTH 128. Indians of California. 3 Units
Term Typically Offered: Fall, Spring
Provides a survey of the traditional cultures of California Native American groups as they existed immediately after Western contact. Exploration of the ecological linguistic, economic, social, political, and religious diversity of California Native American groups provides a background for analysis of current anthropological theories of hunter-gatherer adaptations, subsistence intensification, political economy, cultural complexity, and California prehistory.

ANTH 129. Social Justice in Interdisciplinary Perspective. 3 Units
Prerequisite(s): Sophomore standing or instructor permission.
Term Typically Offered: Fall, Spring
Examines the nature and forms of social justice and injustice. Addresses key philosophical and theoretical models and debates over the meaning of social justice, using historical and contemporary examples to highlight important concepts and controversies. Faculty from different departments within SSIS, and occasionally from other colleges, will address how their discipline understands and analyzes issues of social justice. Students will be encouraged to critically assess the assumptions of various perspectives on social justice, and to address the relationship of academe and social activism in achieving social justice.
Cross listed as ID 124, ENVS 124, ETHN 124, FACS 124 and SOC 124. Only one may be counted for credit.

ANTH 130. Indians of North America. 3 Units
Term Typically Offered: Fall, Spring
Provides a survey of traditional Native American societies and culture areas north of Mexico. Readings, lectures, and discussions emphasize primary ethnographic and historic data that provide the richest accounts of Amerindian cultures at the time of European contact and shortly thereafter.

ANTH 131. Europe in the Ethnographic Imagination. 3 Units
Prerequisite(s): ANTH 146 or instructor permission.
Term Typically Offered: Fall, Spring
More than a place or "continent," Europe is a social and ideological construction employed to unite diverse linguistic and cultural communities. Focuses on major themes in contemporary Europeanist anthropology, including transformations within and between local communities and regions (especially with regards to Northern Ireland, the former Society bloc, and Yugoslav federation), immigration, neo-nationalist extremism, the changing character of religious institutions, and the European Union as a framework for organizing identity and society.

ANTH 132. Health, Culture, Power: Topics in Medical Anthropology. 3 Units
General Education Area/Graduation Requirement: Upper Division Further Studies in Area B5
Term Typically Offered: Fall, Spring
Examines the relationship between health, culture, and power, from the perspective of critical medical anthropology. Students will develop cross-cultural, historical, and ethical perspectives on health and explore the socio-cultural factors that contribute to health inequity. We will explore various health-oriented social movements to understand how injustice is embodied, as health has become a key vernacular of justice in a biopolitical era.

ANTH 133. Life of Primates. 3 Units
Prerequisite(s): Any lower-division Area B2 GE course
General Education Area/Graduation Requirement: Upper Division Further Studies in Area B5
Term Typically Offered: Fall, Spring, Summer
Introduction to the biology of non-human primates-our closest living relatives with evolutionary histories that are simultaneously linked with and independent of our own, leading to a startling diversity of species and lifeways. Covers the living diversity of primates, their evolutionary origins and the relationships among living and fossil species, the social and ecological pressures selecting for anatomical/physiological and cognitive adaptations, the structures of their communities, and the existential threats faced by non-human primate species in a human-impacted world.

ANTH 134. Japanese Culture and Society. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
Culture of the Japanese: traditional and modern, rural and urban, cultural and social institutions; village and urban organization; and family structure. Aspects of social change in contemporary rural and urban Japan.

ANTH 135. Indians of North America. 3 Units
Term Typically Offered: Fall, Spring
Provides a survey of traditional Native American societies and culture areas north of Mexico. Readings, lectures, and discussions emphasize primary ethnographic and historic data that provide the richest accounts of Amerindian cultures at the time of European contact and shortly thereafter.
ANTH 138. Peopling of North America. 3 Units
Prerequisite(s): ANTH 3
Term Typically Offered: Fall, Spring
Introduction to the earliest evidence of human occupation of North America. Covered topics include the origins of the indigenous populations, the timing of the initial colonization, the number of migration events, paleoenvironment reconstruction, and causes for megafaunal extinctions. A variety of evidence will be discussed in detail, including chronology, paleoenvironmental data, the material culture, modern and ancient genetics, and linguistic prehistory. Political and social dimensions of conducting research on origins of Native Americans are also reviewed.

ANTH 140. Social Anthropology. 3 Units
Prerequisite(s): ANTH 146 or instructor permission.
Term Typically Offered: Fall, Spring
Cross-cultural comparisons of the structures and functions of non-literate and complex societies; the diversity of social and territorial units, their analysis and classification; and the study of social organization and control and social change in relation to kinship, marriage and family, lineage and clan, law, politics, economics and religion in diverse societies.

ANTH 141. Culture Theory. 3 Units
Prerequisite(s): ANTH 146 or instructor permission.
Term Typically Offered: Fall, Spring
Exploration of the concepts, dimensions and dynamics of culture theory, viewing culture as an adaptive, comparative, cognitive, structural and symbolic system.

ANTH 142. Political Anthropology. 3 Units
Prerequisite(s): ANTH 146 or instructor permission.
Term Typically Offered: Fall, Spring
Explores political anthropology as a specialized field of anthropological inquiry. Analyzes the articulation of power, authority, and legitimacy in non-state and state based societies. Contributes to an understanding of the transforming powers of modernity and resistance to it and develops a critical appreciation of how age, status, class, ethnicity, race, gender and religious ideologies shape political order within various societies around the world.

ANTH 143. Culture and Society in Mexico. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
Introduction to the cultural and social institutions of the Mexican people. The changing patterns of family, economic, political, religious, and educational systems in Mexico.

ANTH 144. Contemporary American Culture in Anthropological Perspective. 3 Units
Prerequisite(s): ANTH 146
Term Typically Offered: Fall, Spring
Anthropological analysis of contemporary American culture viewed from the perspective of both internal and external observers, with emphasis on such subjects as cultural myths and social realities, values, ideology and world view, family and cultural transmission, social institutions and structures, religious ceremonies and magical rituals, and other customs and practices that establish American culture as one of the more bizarre and exotic in the world ethnographic literature.

ANTH 145. Peoples and Cultures of Latin America. 3 Units
Prerequisite(s): ANTH 146 or instructor permission.
Term Typically Offered: Fall, Spring
Exploration of diversity of peoples and cultures in Latin America and the common experiences such as colonialism, ethnicity, and economy that shape their lives. Aspects of culture examined include: race and ethnicity, colonialism and its implications, the state and political institutions, religious systems, kinship and social organization, gender, economic processes, and issues pertaining to environment, urbanization, globalization, nationalism, and transnationalism.

ANTH 146. Ethnographic Analysis. 3 Units
Prerequisite(s): ANTH 2.
Term Typically Offered: Fall, Spring
Introduces students to current techniques, theories, and debates in ethnographic research and analysis through the use of ethnographies and related works. Critically examines the production of ethnographic knowledge in socio-cultural anthropology from historical and contemporary perspectives.

ANTH 147. Peoples of Southeast Asia. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring, Summer
Survey of the native peoples of Southeast Asia (Laos, Vietnam, Thailand, Philippines, Malaysia, Indonesia, Burma and Singapore). Emphasis is on examining the forms of social and cultural pluralism in contemporary Southeast Asian societies.

ANTH 148. Anthropology of Chinese Societies. 3 Units
Term Typically Offered: Fall, Spring
Exploration of the cultures of three Chinese societies (Taiwan, Hong Kong, and the People's Republic of China) in each of their unique historical contexts. A comparison and contrast of how these societies, though sharing a common cultural heritage, have had different paths of development in recent times. Aspects of culture examined include: the state and political institutions; religious systems; kinship and social organization; economic processes; and issues of regional integration, nationalism and transnationalism.

ANTH 149. Cultures of South Asia. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
Exploration of cultural practices in different South Asian societies. Analyzes the impact of colonialism, post-colonialism and discourses of modernity on South Asian societies. Examines the process of state formation, nation-building, communal conflict, economic transformations and the politics of caste, gender and class in contemporary South Asia.

ANTH 150. Human Osteology. 4 Units
Prerequisite(s): ANTH 1 and ANTH 1A, or BIO 22; and Anthropology (Archaeological and Biological Anthropology) concentration.
Term Typically Offered: Fall only
Provides students a hands-on, in-depth study of human osteology. Learn growth and development of the skeletal tissues and identification of the individual skeletal elements, and practice basic measurements, sexing and aging of skeletal material. A prerequisite for advanced techniques in forensic anthropology. Students will work with the department's osteological materials.
ANTH 151. Human Paleontology. 3 Units
Prerequisite(s): ANTH 1 and ANTH 1A.
Term Typically Offered: Fall, Spring
Survey of the field of human evolution from primate beginnings to modern humans. Emphasizes the interpretation of the fossil evidence and the major trends in hominid evolution, including the origins and relationships of the extinct forms of humans.

ANTH 152. Comparative Primate Morphology. 3 Units
Prerequisite(s): ANTH 1 & ANTH 1A
Term Typically Offered: Fall, Spring
Study of skeletal and soft-anatomical components of living non-human apes in the context of evolution and development. Covers evolutionary theory, embryology, growth and development, taxonomy, systematics, and basic functional morphology of the skeletal system in primates. Three-hour seminar, with some lecture and hands-on experience with skeletons and casts.
Note: BIO 1, BIO 2 or BIO 7 recommended, but not required.

ANTH 153. Evolutionary Medicine. 3 Units
Term Typically Offered: Fall, Spring
Introduction to the application of evolutionary theory to human health and disease. Evolutionary medicine is a rapidly growing interdisciplinary specialization utilizing insights from evolutionary theory and human evolutionary ecology to inform understandings of human health, development and disease; and also to critique existing biomedical theory about the human condition. Topics include reproduction, child birth, lactation, growth and development, infectious diseases, parasites, diet and nutrition, mental and behavioral disorders, and substance use and addiction.
Note: ANTH 1, BIO 10, BIO 11, or PSYC 2 recommended.

ANTH 154. Primate Behavior. 3 Units
Term Typically Offered: Fall, Spring
Provides an introduction to primate social systems and the factors that influence their maintenance and evolution, including foraging strategies, demographic processes, mating and rearing strategies, conflicts and coalitions, and communication. Discussion of the theory guiding primate behavioral research will be supplemented with readings emphasizing current research in the field, to provide an understanding of how behavioral research is conducted and the diversity of primate behavior.

ANTH 155. Fundamentals of Biological Anthropology. 3 Units
Prerequisite(s): ANTH 1 and ANTH 1A.
Term Typically Offered: Fall, Spring
Survey of the development of method and theory in physical anthropology from its origins in zoology, anatomy, and medicine, to the various approaches currently used in the study of human biology and evolution. Concepts considered include the scientific method; modern genetics, evolutionary theory, the race concept and other approaches to explaining human variation; taxonomy and systematics, and macro-evolutionary models. Critical reading and analytical skills will be emphasized.

ANTH 156. Evolution of Human Behavior. 3 Units
Prerequisite(s): ANTH 1, BIO 10, or PSYC 2 recommended.
Term Typically Offered: Fall, Spring
Introduction to the application of evolutionary theory to human behavior and psychology. Reviews and contrasts contemporary perspectives of human behavioral evolution with emphasis on insights from the emerging field of evolutionary psychology. Topics include human behavior and cognition as adaptations, "selfish genes," game theory; evolution of social behavior; evolution of altruism, human mating strategies, parenting, behavioral disorders, evolution of the life cycle, human behavioral ecology, Darwinian medicine, and evolutionary psychology.

ANTH 157. Human Variation. 3 Units
Prerequisite(s): ANTH 1, BIO 10, or instructor permission.
Term Typically Offered: Fall, Spring
Survey of the basic principles of human genetics with emphasis on the mechanisms that shape human evolution and the development of human races. Analyzes the laws of heredity as exhibited in modern human populations and human adaptability to climatic extremes. Historical development of concepts. Discussion of most current research.

ANTH 158. Human Skeletal Analysis. 4 Units
Prerequisite(s): ANTH 150. Paired Course
Term Typically Offered: Spring only
Provides advanced techniques in osteology and forensic anthropology essential for many practicing physical anthropologists. Discussion and survey of the primary literature, followed by intensive hands-on experience with human skeletal remains. Included: techniques for determining age, sex and ethnicity; measurement; pathology; and trauma. The role of the forensic anthropologist and archaeologist, ethical considerations, and human rights issues are also covered. Two-hour seminar, and a six-hour lab involving substantial hands-on experience with human skeletal remains.

ANTH 159. Forensic Anthropology. 3 Units
Prerequisite(s): Any lower-division GE Area B2 course.
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring
Overview of forensic anthropology - an applied field of biological anthropology that works with law enforcement, medical examiners, and human rights agencies. Forensic anthropologists answer questions of medico-legal significance by applying techniques designed for analysis of human skeletal remains. Includes determining time since death, the biological profile, trauma analysis and the role of the forensic anthropologist in human rights investigations.

ANTH 160. Linguistic Anthropology. 3 Units
Prerequisite(s): ANTH 4 or instructor permission.
Term Typically Offered: Fall, Spring
Introduction to language and linguistics for anthropologists with emphasis on the role of linguistic anthropology in the development of theory and method within the discipline; non-human communication systems, language acquisition, and culture theory; the fundamentals of descriptive and structural linguistics; types of human languages; the diversity and distribution of languages from prehistoric to modern times; fundamentals of historical linguistics and proto-cultural studies.
ANTH 161. African Cultures and Societies. 3 Units
Prerequisite(s): ANTH 146 or instructor approval
Term Typically Offered: Fall, Spring

Explores the cultural richness and regional variation of African societies. Engages students with central issues and debates pertaining to Africa in relation to the deepening global interconnectedness of the human socio-cultural worlds. Topical discussions include: colonial legacy; the postcolonial state and traditional authority; ethnic identity and cultural diversity; family, kinship and the African youth; masculinity, sexuality and women; Islam, Christianity and indigenous spirituality; health, poverty and development; migration and globalization; ecotourism and African cultures.

ANTH 162. Language and Culture. 3 Units
Prerequisite(s): ANTH 4 or instructor permission.
Term Typically Offered: Fall, Spring

Relationship between language and culture; historical relationships between languages; language families and major cultural traditions; cross-cultural studies of how the language influences perception and the organization of reality; the ways in which language is embedded in social life and practices, and the ways in which various cultural patterns and values are reflected in language.

ANTH 163. Urban Anthropology. 3 Units
Prerequisite(s): ANTH 146 or instructor permission.
Term Typically Offered: Fall, Spring

Overview of both anthropological method and theory applied to research of urban environments and a survey of significant anthropological studies that have been conducted in these settings. Examines such topics as the urbanization process, the culture of cities, urban sub-cultures, social problems in urban areas, social networks and adaptive kinship strategies in cities, and the concentration and exercise of power, wealth and influence in urban centers.

ANTH 164. Culture Change. 3 Units
Prerequisite(s): ANTH 146 or instructor permission.
Term Typically Offered: Fall, Spring

Anthropological study of mechanisms and process of social and cultural change; basic theories of ecological adaptation and cultural evolution; action chains and cultural patterns; technological innovation, migration, acculturation, cultural dissonance, conflict, and cultural revitalization; analysis of case studies emphasizing contemporary conditions and problems; rapid technological innovation, population control, immigration and acculturation, social diversification, ethnic conflict.

ANTH 165. Applied Anthropology. 3 Units
Prerequisite(s): ANTH 105 or ANTH 108 or ANTH 140 or ANTH 141 or ANTH 142 or ANTH 167 or ANTH 168 or ANTH 176; and Anthropology (Culture, Language, and Society) concentration.
Term Typically Offered: Fall, Spring

Provides tools for exploring the application of an anthropological paradigm to various aspects of culture change and conflict. Content is organized into a series of critical topical areas such as modernization, economic development, human services, and urbanization.

ANTH 166. Rise of Religious Cults. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring, Summer

Examination of cult movements, involving comparisons of the ideals, objectives and symbolic processes common to ecstatic religious movements throughout the world – from Melanesian cargo cults to the Peoples’ Temple. Anthropological perspectives are used to examine religious cults as conscious attempts to perpetuate traditional values and social goals or to radically change the status quo; millennial movements, crisis cults, nature communes, exotic religious importations, and cult characteristics of modern secular movements.

ANTH 167. Religion and Culture. 3 Units
Prerequisite(s): ANTH 146 or instructor permission.
Term Typically Offered: Fall, Spring

Examines ethnographic perspectives on the character and intersections of religion, ritual, and culture. Surveys the thought of “classical” social theorists (e.g., Durkheim, Tylor, Weber, and Evans-Pritchard), and concentrates on central topics in the anthropology of religion. Including the political nature of embodiment and trance, religion and nationalism, the significance of language and performance, the gendered character of many religious phenomena, and science and religion as competing epistemologies.

ANTH 168. Folklore in Anthropological Perspective. 3 Units
Prerequisite(s): ANTH 160 or ANTH 162 or instructor permission.
Term Typically Offered: Fall, Spring

Anthropological contributions to the study of folklore; survey of oral literature and other folklore forms, such as myth, folktale, legend, proverb, riddle, and games, in their social contexts; folklore as “autobiographical ethnography,” folklore in everyday life, survey and comparison of folklore traditions in several culture areas.

ANTH 169. Research Methods in Linguistic Anthropology. 3 Units
Prerequisite(s): ANTH 160 or ANTH 162, and Anthropology (Culture, Language, and Society) concentration.
Term Typically Offered: Fall, Spring

Consideration of language in its social context: language and power, language and gender, interethnic communication, language and race, pidgins and creoles, multilingualism, standardization, language ideology. Instruction in ethnographic and linguistic methods of data collection and analysis; identification of socially significant linguistic variables. Contributions of the study of contextualized speech to linguistic theory.

ANTH 170. The Religious Landscape of the Sacramento Valley. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Introduction to the field study of religious communities. Addresses the nature of religious pluralism in the U.S. today. The practice and belief systems of at least five different religious communities will be studied each semester. Students are required to do an in-depth term project based on research in one or more religious communities. Cross Listed: HRS 170; only one may be counted for credit.
ANTH 171. Bioarchaeology: Analyzing Human Remains from Archaeology Sites. 3 Units
Prerequisite(s): ANTH 1 and ANTH 1A or instructor permission
Term Typically Offered: Fall, Spring

An exploration of research conducted on human remains from archaeological sites, including historical and ethical perspectives. Examines the effects of funerary context and preservation on skeletal remains. Demonstrates relevance of human skeletal analysis to understanding demography, causes of human skeletal variation, dietary patterns, and relevant themes in paleopathological research. Special emphasis placed on infectious disease, growth and development, activity patterns, injury and trauma, craniofacial adaptations, and methods for identifying genetic relationships in human skeletal remains.

ANTH 172. Anthropologies of Music. 3 Units
Prerequisite(s): ANTH 146 or Instructor Permission.
Term Typically Offered: Fall, Spring

Introduces students to current anthropological research on social groups and cultural practices that orient around and draw inspiration from music, wherever and however it is conceived. Course focus is not on music theory or structure; rather, it critically examines anthropological and ethnomusicological works that focus on the relations among such social domains and features as visual and aural aesthetics, political belief, gender, ritual, religion, race, and ethnicity.

ANTH 173. Anthropology of Contemporary Asia. 3 Units
Prerequisite(s): ANTH 146 or instructor permission
Term Typically Offered: Fall, Spring

This course examines contemporary Asia as an articulation of intersecting historical, cultural, political and economic processes. The course will focus on postcolonial developments and critically explore the manner in which process of globalization and neoliberal strategies embed themselves within, and the responses they elicit from societies across Asia.

ANTH 174. Anthropology of Food. 3 Units
Prerequisite(s): ANTH 146 or instructor permission
Term Typically Offered: Fall, Spring

Examines food and eating from an anthropological perspective. Demonstrates how food communicates social messages about individual or group identity, creates social boundaries or forges belonging, and can reflect one’s politics, values, and ethics. Through ethnographic examples and attention to global processes, this course explores food production, circulation, and consumption.

ANTH 175. Anthropology of Globalization. 3 Units
Prerequisite(s): ANTH 146 or instructor permission
Term Typically Offered: Fall, Spring

The course introduces students to major themes that inform anthropological understanding of globalization. This course will explore theoretical perspectives, topics, and methods of analysis developed in anthropology to capture the effects of intermingling global/local cultural forces and the diverse relations of power that structure them and in which they are embedded.

ANTH 176. Museums, Culture, and Society. 3 Units
Prerequisite(s): ANTH 146 or instructor permission.
Term Typically Offered: Fall, Spring

Provides an introduction to museum anthropology. Surveys the emergence of modern anthropology from its origins in 17th century natural history to its late 19th century institutionalization in museums. Explores the role of collectors, curators and financial patrons in the development of museums and social theory. Examines the contemporary politics of museums and curatorial work in the development of museums and curatorial work in the development of museums and social theory. Examines the contemporary politics of museums and curatorial work in the development of museums and curatorial work in the development of museums and social theory. Examines the contemporary politics of museums and curatorial work in the development of museums and curatorial work in the development of museums and social theory. Examines the contemporary politics of museums and curatorial work in the development of museums and curatorial work in the development of museums and social theory. Examines the contemporary politics of museums and curatorial work in the development of museums and curatorial work in the development of museums and social theory. Examines the contemporary politics of museums and curatorial work in the development of museums and curatorial work in the development of museums and curatorial work in the development of museums and curatorial work in the development of museums and curatorial work in the development of museums and curatorial work in the development of museums and curatorial work in the development of museums and curatorial work in the development of museums. Examines multiple dimensions of human rights from an anthropological perspective. Explores the history and development of human rights ideas and legal conventions, and how these ideas and conventions are appropriated, adapted, contested or rejected in different cultural and political contexts. Using ethnographic case studies from around the world, addresses how the human rights discourse mediates the relationship between specific groups of people, their national states and international conventions and institutions.
ANTH 183. Women Cross-Culturally. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Position of women in various societies, preliteracy through contemporary industrial; the evolution of women’s roles and rights cross-culturally.

ANTH 186. Culture and Poverty. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Race & Ethnicity Graduation Requirement (RE), GE AREA D
Term Typically Offered: Fall, Spring

Analyzes poverty in American society: the cross-cultural context, social inequality in the U.S., theoretical perspectives and their influence on policy, present trends and implications for the future.

ANTH 187. Health Research in Biological Anthropology. 3 Units
Prerequisite(s): ANTH 1 and instructor permission.
Term Typically Offered: Spring only – even years

A laboratory-based introduction to health research methods in biological anthropology, with an emphasis on biological and behavioral health indicators in populations of living humans. The course will introduce students to health research design, measurement methods, and analysis. Lab topics will include biomarkers, survey methods, qualitative approaches, anatomical measurement, energetics and diet, vital statistics, and the use of behavioral health research instruments.

ANTH 188. Anthropology of the Body. 3 Units
Term Typically Offered: Fall, Spring

Study of the diverse ways that humans explain and attempt to alter the human body. Focus is on the meanings and implications of our own bodily experiences through objective comparison of the experiences, explanations and techniques found in our society with those in others.

ANTH 189. Critical Medical Anthropology. 3 Units
Prerequisite(s): ANTH 146
Term Typically Offered: Fall, Spring

Critical Medical Anthropology examines the interplay of cultural, environmental, and biological processes in diverse experiences of health and illness. Students will develop an understanding of the history of Medical Anthropology, its key themes and theoretical perspectives, and its present concerns. We will consider biomedicine as a cultural sphere, track the persistence of ‘alternative’ healing practices and the impact of social determinants on health, and analyze the formation of new demands on states and subjects in the name of suffering.

ANTH 190. Advanced Topics in Linguistic Anthropology. 3 Units
Prerequisite(s): ANTH 160 or ANTH 162 or instructor permission.
Term Typically Offered: Fall, Spring

Seminar examining contemporary developments in theories and methods of linguistic anthropology.
Note: May be repeated for credit providing the topic and instructor are not the same.

ANTH 191. Anthropology Practicum. 3 Units
Prerequisite(s): ANTH 165 or ANTH 169 or ANTH 177 or ANTH 192B; and senior level
Term Typically Offered: Fall, Spring

Students work 3-6 hours per week off campus in one of several research institutions under the supervision of institutional personnel. Students are required to become familiar with the scholarly literature relevant to their placement, to participate in on-campus meetings, and to write a research paper integrating the research and fieldwork aspects of the practicum. Permission of instructor and ANTH coordinator required prior to registration. Open to seniors only.

ANTH 192A. Laboratory Work in Archaeology. 1 Unit
Prerequisite(s): ANTH 3
Corequisite(s): ANTH 195A; may be waived with instructor permission.
Term Typically Offered: Fall, Spring

Introduces methods used in the basic laboratory preservation, cataloging, and initial analysis of various materials recovered through ANTH 195A survey and excavation projects; always offered in conjunction with ANTH 195A.
Note: May be repeated for credit.

ANTH 192B. Laboratory in Ethnographic Techniques. 1 Unit
Prerequisite(s): ANTH 105 or ANTH 108 or ANTH 140 or ANTH 141 or ANTH 142 or ANTH 167 or ANTH 168 or ANTH 176, and Anthropology (Culture, Language, and Society) concentration.
Corequisite(s): ANTH 195B.
Term Typically Offered: Fall, Spring

Design and discussion of research strategies, primary ethnographic techniques, the development of interviewing skills, and practice in the use of various recording technologies.

ANTH 195A. Fieldwork in Archaeology. 2 Units
Prerequisite(s): ANTH 3
Corequisite(s): ANTH 192B
Term Typically Offered: Fall, Spring

Introduction to archaeological field methods, covering practical aspects of how to identify and investigate isolated artifact finds, particular sites and features, and entire landscapes. Covering survey and excavation techniques, basic approaches to sampling, mapping and navigation, stratigraphic excavation, artifact and feature recording, and recovery methods.
Note: May be repeated for credit.

ANTH 195B. Fieldwork in Ethnology. 2 Units
Prerequisite(s): ANTH 105 or ANTH 108 or ANTH 140 or ANTH 141 or ANTH 142 or ANTH 167 or ANTH 168 or ANTH 176, and Anthropology (Culture, Language, and Society) concentration.
Corequisite(s): ANTH 192B
Term Typically Offered: Fall, Spring

Directed team fieldwork in ethnology.

ANTH 195C. Fieldwork in Physical Anthropology. 2 - 3 Units
Term Typically Offered: Fall, Spring

Individual or group fieldwork in various areas of physical anthropology, under the supervision of individual faculty members; may involve related supervised laboratory work.
ANTH 196S. Senior Seminar in Anthropology.  3 Units
Prerequisite(s): Anthropology majors with senior standing
Term Typically Offered: Fall, Spring

Anthropology approaches knowledge about the human condition from multidisciplinary perspectives. This senior seminar synthesizes fundamental themes from among the sub-disciplines. Students will engage with concepts and issues from different anthropological perspectives, and then work to identify common historical, methodological and theoretical anthropological themes. On completion of the course, students will have learned to seek and interpret anthropological knowledge in a holistic fashion.

ANTH 196T. Zooarchaeology.  3 Units
Prerequisite(s): ANTH 3
Term Typically Offered: Fall, Spring

An examination of past and recent research conducted on animal remains from archaeological sites. Discussion and survey of the primary literature in evaluating the role animal exploitation plays in human evolution and among small scale foraging, pastoralist, and complex societies. Emphasis on vertebrate taphonomy, reconstruction of diet from faunal remains, and ecological and evolutionary theory to understand human-animal relationships through time.

ANTH 196Z. Language, Digital Literacies, & the Self.  3 Units
Prerequisite(s): ANTH 4
Term Typically Offered: Fall, Spring

Explores ethnographic approaches to digitally-mediated language and the self, examining how social actors acquire the digital skills and communicative norms that make up “digital literacies” across cultural contexts and media ecologies. Topics include linguistic interaction in virtual worlds, media ideologies, technological constraints on digitally-mediated conversation, the role of language in the maintenance of digital communities and protest movements, new forms of meaning-making and affect enabled by the acquisition of digital literacies, and digital research methods.

ANTH 199. Special Problems.  1 - 3 Units
Prerequisite(s): Approval of the faculty member under whom the individual work is to be conducted and the Department chair.
Term Typically Offered: Fall, Spring

Individual projects or directed reading.
Note: Open only to students who appear competent to carry on individual work. May be repeated for credit.
Credit/No Credit

ANTH 200. General Methods in Anthropology.  3 Units
Term Typically Offered: Fall, Spring

Explores uses of scientific methodology in anthropology through the examination of specific case studies in the various specialties. Focus is on the relationship among techniques, methods, and methodology; hypothesis and theory; units of analysis and comparison; deductive and inductive reasoning; inferential processes; various types of comparison (casual, controlled, hogeistic); limitations of, and objections to, “the comparative method.”

ANTH 201. Anthropological Theory.  3 Units
Prerequisite(s): Graduate status in anthropology or instructor permission.
Term Typically Offered: Fall, Spring

Intensive reading and seminar discussion in topics on anthropological theory and research.
Note: May be repeated for credit provided topic is not repeated.

ANTH 202. Biological Anthropology Seminar.  3 Units
Term Typically Offered: Fall, Spring

Survey of contemporary issues in physical anthropology.

ANTH 203. Archaeology.  3 Units
Term Typically Offered: Fall, Spring

Explores the intellectual development of archaeological method and theory; examines the history of archaeological thought from its advent to the present day, looking in detail at pre-scientific, culture-historical, processual, and post-processual approaches to the discipline; emphasis is placed on the role of archaeology as a branch of anthropology and as a historical, humanistic, and/or scientific enterprise.

ANTH 204. Current Problems in Archaeological Method and Theory.  3 Units
Term Typically Offered: Fall, Spring

Explores recent methodological and theoretical developments within archaeology; focus is on contemporary debates within the discipline; topical coverage varies; examines conceptual and practical concerns, highlighting possibilities and limitations of new approaches to archaeological problems.
Note: May be repeated for credit provided topic and instructor are not repeated.

ANTH 205. Ethnology.  3 Units
Term Typically Offered: Fall, Spring

Seminar is designed for students to develop a working knowledge of anthropological approaches to a number of major issues in ethnology. The focus is on the analysis of case studies.
Note: May be repeated once for credit with different instructor.

ANTH 207. Language and Culture.  3 Units
Term Typically Offered: Fall, Spring

Critical examination of contemporary studies in the relationship between language and culture; nonhuman primate communication and the origin of speech; non-verbal communication; historical linguistics; comparative semiotics; ethnosemantics; applications of linguistic models of analysis in the study of culture.
Note: May be repeated for credit given that the instructor changes.
ANTH 211. Communicating Anthropology Graduate Colloquium. 1 Unit
Prerequisite(s): Graduate status in anthropology.
Term Typically Offered: Fall, Spring
Seminar for graduate students to develop oral and written communication skills within the discipline, to discuss current topics in the four fields of anthropology, and to introduce students to professional standards in the discipline. Specific topics covered in presentations and workshops will vary each semester.
Note: May be repeated for credit; no more than 3 units may count towards degree.

ANTH 219. Analysis of Faunal Remains. 4 Units
Prerequisite(s): Graduate status in Anthropology or instructor permission.
Term Typically Offered: Fall only – even years
Seminar on techniques and methods employed in analysis of faunal remains from archaeological sites, coupled with a laboratory providing hands-on identification of mammalian remains from these settings. Large focus on quantitative methods used in zooarchaeology to infer behavioral patterns of the human past and their paleoenvironments.

ANTH 222. Bioarchaeology Seminar. 3 Units
Prerequisite(s): Graduate status in anthropology.
Term Typically Offered: Fall, Spring
Provides an intensive, detailed discussion of method and theory in the skeletal biology of past human populations. Topics discussed include: demography, dietary analysis, mortuary dimensions, health and disease, biological distance and DNA analysis. Focuses on the interaction of biology and behavior, particularly the influence of culture and the environment on the skeletal and dental tissues.

ANTH 223. Areal Archaeology. 3 Units
Term Typically Offered: Fall, Spring
Provides an intensive examination of archaeological problems within a selected regional or topical area. Through general readings and case studies, students will critically assess how current perspectives regarding relevant issues have evolved and determine how contemporary viewpoints might be improved or expanded.
Note: May be repeated for credit provided topic and instructor are not repeated.

ANTH 226. Advanced Techniques of Archaeological Analysis. 3 Units
Prerequisite(s): ANTH 126 or instructor permission.
Term Typically Offered: Fall, Spring
Examines more refined approaches to archaeological analysis, focusing on how various classes of data are collected, classified, and interpreted to resolve directed research problems. Emphasis is on such topics as sampling procedures and statistical assessment of data rather than descriptive analysis and interpretation. Lecture one hour; laboratory six hours.

ANTH 251. Human Paleontology. 3 Units
Survey of the field of human evolution from primate beginnings to modern humans. Emphasizes the interpretation of the fossil evidence and the major trends in hominid evolution, including the origins and the relationships of the extinct forms of humans.

ANTH 254. Primate Behavioral Ecology. 3 Units
Prerequisite(s): Graduate status in Anthropology or instructor permission.
Term Typically Offered: Fall, Spring
Provides an intensive, detailed discussion of theoretical models and empirical studies of the behavior of non-human primates. Topics discussed include: grouping patterns, mating strategies, dominance, cooperation, and the adaptive values of social bonds. Focuses on the interaction of ecology and social behavior, particularly the influence of behavioral strategies that enhance reproductive success, and corresponding emergent group-level properties.

ANTH 258. Human Skeletal Analysis. 4 Units
Prerequisite(s): ANTH 150 or instructor permission. Paired course
Term Typically Offered: Spring only
Provides advanced techniques in osteology and forensic anthropology essential for many practicing physical anthropologists. Discussion and survey of the primary literature, followed by intensive hands-on experience with human skeletal remains. Included: techniques for determining age, sex and ancestry; measurement; pathology; and trauma. The role of the forensic anthropologist and archaeologist, ethical considerations, and human rights issues are also covered. Course format is a two-hour seminar, and a six-hour lab involving substantial hands-on experience with human skeletal remains.

ANTH 274. Environmental Anthropology. 3 Units
Term Typically Offered: Fall, Spring
Examines the mutual constitution of nature-culture, society-environment in diverse ethnographic settings. Demonstrates that ideas about nature and material engagements with it are shaped by the dynamics of social, political, and economic relations in historical contexts. Surveys a range of environmental issues and the cultural politics of environmental struggles through different conceptual, theoretical, analytical approaches in cultural anthropology.

ANTH 276. Museum Anthropology. 3 Units
Prerequisite(s): Graduate status in Anthropology or instructor permission.
Term Typically Offered: Fall, Spring
Surveys the practical, theoretical, and historical dimensions of museum anthropology and material culture studies, with particular emphasis on the U.S. and California. Situates contemporary issues related to the collection, exhibition, and repatriation of ethnographic and archaeological materials within the sociopolitical context of the globally based indigenous rights movement.
Note: Recommended for graduate students who plan to intern in the Anthropology Museum.

ANTH 278. Internship. 3 - 4 Units
Term Typically Offered: Fall, Spring
Practical graduate level experience in an approved professional environment. Student intern will work directly with professionals in public and private agencies where opportunities exist for anthropological work. Supervision and evaluation are provided by a faculty internship director and the on-site supervisor. Placements require from 15-20 hours per week.
Note: May be repeated for credit given that topic and instructor changes.
Credit/No Credit
ANTH 292A. Laboratory Work in Archaeology. 1 Unit
Prerequisite(s): ANTH 192A.
Corequisite(s): ANTH 295A.
Term Typically Offered: Fall, Spring

Laboratory preservation, cataloging and initial analysis of materials recovered through archaeological fieldwork. Graduate students are expected to help supervise undergraduate students and complete a self-directed project under the supervision of the instructor.
Note: Participant must have already completed ANTH 192A or its equivalent. May be repeated once for credit.

ANTH 295A. Fieldwork in Archaeology. 2 Units
Prerequisite(s): ANTH 195A or equivalent.
Corequisite(s): ANTH 292A.
Term Typically Offered: Fall, Spring

Students will assist the instructor in supervising undergraduate students or complete an assigned project in addition to the required fieldwork.
Note: May be repeated given that the topic and instructor changes.

ANTH 295B. Fieldwork in Ethnology. 2 - 3 Units
Term Typically Offered: Fall, Spring

Supervised graduate level fieldwork in ethnology and ethnography.

ANTH 295C. Fieldwork in Physical Anthropology. 2 - 3 Units
Term Typically Offered: Fall, Spring

Supervised graduate level fieldwork in physical anthropology. May include laboratory research.

ANTH 299. Special Problems. 1 - 3 Units
Prerequisite(s): Approval of faculty member under whom individual work is to be conducted and the Department chair.
Term Typically Offered: Fall, Spring

Individual projects or directed reading.
Note: Open only to students who appear competent to carry on individual work at the graduate level; May be repeated given that topic and instructor changes; May be taken twice in the same semester.
Credit/No Credit

ANTH 500. Master’s Thesis. 3 Units
Prerequisite(s): Advanced to Candidacy, successful completion of thesis research proposal, and chair permission of his/her thesis committee.
Term Typically Offered: Fall, Spring

Completion of a thesis approved for the master's degree. Number of units of credit is determined by the candidate's Master's degree advisory committee. Should be taken in final semester prior to the completion of all requirements for the degree.

Arabic (ARBC)

ARBC 1A. Elementary Arabic. 4 Units
Term Typically Offered: Fall, Spring

Introduction to standard Arabic, including Arabic letters and sounds, the essentials of Arabic grammar, and basic instruction in all four language skills: speaking, reading, listening and writing. In addition to getting a start in modern Arabic, students will also learn about social aspects of the use of Arabic.

ARBC 1B. Elementary Arabic. 4 Units
Prerequisite(s): ARBC 1A or instructor permission.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement
Term Typically Offered: Fall, Spring

Continuation of ARBC 1A.

ARBC 2A. Intermediate Arabic. 4 Units
Prerequisite(s): ARBC 1B or instructor permission.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement
Term Typically Offered: Fall, Spring

Continuation of ARBC 1B with an ongoing emphasis on communication skills and the rudiments of literacy, as well as continued integration of cultural and social components with the language learning experience.

ARBC 2B. Intermediate Arabic Conversation 2. 4 Units
Prerequisite(s): ARBC 2A or instructor permission.
Term Typically Offered: Fall, Spring

Continuation of ARBC 2A intermediate conversation with an ongoing emphasis on communication skills and the rudiments of literacy, as well as continued integration of cultural and social components with the language learning experience.

Arts (ART)

ART 1A. Art, Religions, and Power before 1400. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall only

An introduction to art and visual culture from across the ancient world, including Africa, the Americas, Asia, and Europe. Students will analyze and compare art from a variety of cultures, exploring themes such as Gender, Race, and The Body, Sacred Art/Sacred Space, and Art and Power.

ART 1B. Art, Empires, and Cross-Cultural Exchange, 1400-1800. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Spring only

An introduction to art and visual culture created from 1400 to 1800 across the globe, including Africa, Asia, the Americas, and Europe. Emphasis will be placed on the role of cross-cultural exchange in the visual and material culture of the early modern world. Students will analyze and compare art from a variety of cultures, exploring themes such as War/Conquest, Art, Religion, Reform, and Conversion, The Art of Empire: Rise and Fall, and Revolution! Upheaving Social Order in the Atlantic World."
ART 1C. Global Modern and Contemporary Art. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

A 3-unit lecture based survey of the history of world art from the late 18th century to the present, from the European Rococo, Enlightenment, age of science and revolution, through Neo-Classicism, Romanticism and the rise of the international avant-garde, Realism, Impression, Symbolism, photography and film. In the 20th century, Fauvism, Cubism, the Bauhaus, Expressionism, Pop, Minimal art, Postmodernism, conceptualism, performance, video and new media are considered from global perspectives and artistic production. Part of the art history foundation sequence.

Note: Recommended for freshman or sophomore years; It is also recommended that ART 1A and/or ART 1B be taken before ART 1C.

ART 2. History of Islamic Art. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall only

Introduces students to the art and architecture of major Islamic cultures and offers a background in the religion and philosophy of Islam. Works of art from Muslim countries and regions are studied in comparison to those of other major Asian and European cultures. Lecture. 3 units

ART 3A. Traditional Asian Art. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall only

Introduces students to the art and architecture of Asia from the pre-historic through pre-modern periods (approximately 1600). The styles, subjects, and significance of the art of India, Sri Lanka, Indonesia, Thailand, Burma, Cambodia, Tibet, China, Japan and Korea will be presented in a broad context including the history, geography, ethnic populations, languages, and religions of these countries (i.e., Buddhism, Hinduism, Jainism, Islam, Daoism, and Shinto).

ART 3B. Modern and Contemporary Asian Art. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Spring only

Covers the art and architecture of Asia from the modern period to the present day. Attention will be given to the impact of outside influences upon the development of art in several Asian countries, including India, Thailand, Vietnam, Indonesia, Philippines, China, Korea, and Japan. Contacts between those countries, their exposure to western visual culture through new or increased contact with the west, and the spread of Christianity all had an impact on Asian art during the period under consideration.

ART 4. European Visual Traditions. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall only

An introduction to European art and visual culture created from ca. 800 to 1800, from the age of Charlemagne to the French Revolution and the reign of Napoleon. This course will cover painting, architecture, sculpture, and the decorative arts and will analyze creative work in the context of religious, political, and social change.

ART 5. Art of the Americas. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Spring only

An introduction to art and visual culture from across the Americas, from ancient civilizations to the present, with an emphasis on indigenous cultural production. Students will analyze and compare creative work from a variety of cultures and time periods, exploring themes such as "Expressing Identities," "Humans in the Natural World," "Death, the Afterlife, and Living on," and "Colonization and Resistance."

ART 7. Introduction to Art and Visual Culture. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

For the general education student who wants to explore the world of art and visual culture. A wide range of multicultural, historical, and contemporary art works, art media, art history, art ideas, and art practices are presented through illustrated lectures, discussions, field trips, guest lectures, studio visits, and beginning-level art projects. Field trip(s) may be required.

ART 20A. Beginning Drawing. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring, Summer

Introduction to various techniques of and approaches to drawing, using still lifes, landscapes, and figures.

Note: fee course.

Fee course.

ART 20B. Intermediate Drawing. 3 Units
Prerequisite(s): ART 20A or equivalent.
Term Typically Offered: Fall, Spring

Extension of drawing experiences initiated in ART 20A, with emphasis on surveying materials and concepts pertinent to contemporary and historical drawing.

Note: fee course.

Fee course.

ART 22. Beginning Painting. 3 Units
Prerequisite(s): ART 20A or equivalent.
Term Typically Offered: Fall, Spring

Introduction to the methods and problems of painting in oil or acrylic medium.

Note: May be taken twice for credit. Fee course.

Fee course.

ART 24. Beginning Watercolor. 3 Units
Prerequisite(s): ART 20A or equivalent.
Term Typically Offered: Not offered

Introduction to both transparent and opaque watercolor.

Note: May be taken twice for credit. Fee course.

Fee course.
ART 27.  Beginning Color.  3 Units
Term Typically Offered: Fall, Spring

Investigation of the interactions of color based on the laws of perception, color composition, space, and design. An empirical study of the phenomena of color as developed by Josef Albers and Johannes Itten, and the use of color as a visual experience with acrylic paints.

ART 40.  Beginning Printmaking.  3 Units
Prerequisite(s): ART 20A or ART 60
Term Typically Offered: Fall, Spring

Introduction to printmaking processes, their history, and their contemporary applications. Students will learn a combination of basic relief, intaglio, lithography, monotype, and/or screen print techniques, along with their historical and contemporary context.
Note: Fee course. This course will carry a fee of $75 to cover ink, plates, and other supplies.

ART 40A.  Basic Printmaking: Etching.  3 Units
Term Typically Offered: Fall, Spring

Introduction to intaglio techniques, including etching, drypoint, and aquatint. Fee course.

ART 40B.  Basic Printmaking: Relief.  3 Units
Term Typically Offered: Fall, Spring

Introduction to wood and linoleum cutting and printing. Fee course.

ART 40E.  Basic Printmaking: Silkscreen.  3 Units
Term Typically Offered: Fall, Spring

Introduction to silkscreen processes and printing. Includes the construction of the equipment necessary to print direct drawing materials, and photo-established imagery. Fee course.

ART 50.  Beginning Ceramics.  3 Units
Term Typically Offered: Fall, Spring

Projects in basic techniques and approaches to the potter’s wheel. Fee course.
Note: May be taken twice for credit.

ART 53.  Beginning Hand-Built Ceramics.  3 Units
Term Typically Offered: Fall, Spring

Basic techniques and approaches to pottery through practice in hand-building methods, including coil, slab, pinch, and combinations thereof. Fee course.
Note: May be taken twice for credit.

ART 60.  Two-Dimensional Composition.  3 Units
Term Typically Offered: Fall, Spring

Structured exploration of principles used to organize two-dimensional images. Basic art elements and their properties are explored in a series of progressive projects.
Note: Recommended for freshman or sophomore years.

ART 70.  Form, Space Vision.  3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

Foundation in three-dimensional design primarily concerned with the visual dialogue between form and space. A heightened visual sensitivity for three-dimensional composition is a major objective of every project. Line, plane, and volume are utilized separately and in concert to construct three-dimensional forms. A variety of materials are employed in the activation of form and space: wire, cardboard, clay, wood, and plaster. Fee course.
Note: Recommended for freshman or sophomore years.

ART 74.  Beginning Jewelry.  3 Units
Term Typically Offered: Fall, Spring

Introduction to techniques and tools used in the design and fabrication of jewelry, such as lost wax casting, stone setting, and finishing processes. Emphasis is on compositional arrangement and finish. Fee course.

ART 75.  Beginning Metalsmithing.  3 Units
Term Typically Offered: Fall, Spring

Introduction to techniques and tools used in the fabrication of ferrous and non-ferrous metal, such as piercing, riveting, soldering, forging, and finishing processes. Emphasis is on composition and imagery. Fee course.

ART 80.  Materials Methods.  3 Units
Term Typically Offered: Fall, Spring

Develops students’ awareness of traditional and contemporary techniques used as the basis for fine and applied art. Devoted to materials and their methods of application, with most materials introduced via their traditional antecedents (for example, hide glue before modern epoxies). May be team taught. Lecture one hour; laboratory four hours. Fee course.
Note: Sophomore status and above recommended.

ART 84.  Clay Sculpture.  3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

Includes work with the various forms of hand-built sculpture in both low- and high-fire clay. Glazes are used sparingly to stress forms and their relationships. Fee course.

ART 88.  Beginning Sculpture.  3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

Introduction to traditional and non-traditional processes of sculpture and three-dimensional forms in space. Students can expect to use the following materials: cardboard, clay, metals, plastic, plastics, wire and wood to explore the making of three-dimensional imagery. Investigations will include the formulation of ideas relative to sculptural problem solving while discovering historical and contemporary examples of sculpture. Fee course.
ART 97. Beginning Electronic Art. 3 Units
Term Typically Offered: Fall, Spring
Explores the creative potential of imaging software used by visual artists. Familiarity with software, hardware and output devices will be established. The creation of digital art will be considered within the framework of current ideas in art and culture. No previous computer experience is necessary. Fee course. Fee course.

ART 100. Origins of American Indian Art. 3 Units
Term Typically Offered: Fall only
Survey of 19th and 20th century American Indian art. Emphasis is on the student's involvement with Indian art and includes discussion of Indian philosophy and art techniques.

ART 101. Photography, Inception to Mid-Century. 3 Units
Term Typically Offered: Fall only
Introduces students to the history of photography, from inception to Mid-20th Century. Practices of photographers and artists, working with photographic technologies, will be discussed. The course examines photographic vision and the impact of the medium through lectures and readings by art historians and photographers. Cross-listed: PHOT 101.

ART 102. Themes in World Art and Visual Culture. 3 Units
Prerequisite(s): GWAR certification before Fall 2009; or WPJ score of 80 or above; or 3-unit placement in ENGL 109M/W; or 4-unit placement in ENGL 109M/W + co-enrollment in ENGL 109X; or WPJ score 70/71 + co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Arts (Area C1), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring
A thematic exploration of world art and visual culture throughout human history. Throughout this course, students will be able to draw connections between works of art created in various time periods and from a diverse variety of cultural contexts.

ART 103. Art of the Ancient Mediterranean. 3 Units
Prerequisite(s): ART 1A
Term Typically Offered: Fall only
Architecture, crafts, and sculpture in the ancient Mediterranean world from ca. 700 BCE to ca. 500 CE.

ART 105. Medieval Art. 3 Units
Prerequisite(s): ART 1A or equivalent.
Term Typically Offered: Spring only
Architecture, crafts, painting, and sculpture of medieval Western Europe.

ART 106. Renaissance Art. 3 Units
Prerequisite(s): ART 1A or ART 1B, or equivalent.
Term Typically Offered: Fall only – even years
Architecture, painting, graphic arts, sculpture, and crafts principally of the 15th and 16th centuries. Emphasis is on the art of Europe in the historical context of an emerging global consciousness.

ART 107. Baroque and Rococo Art. 3 Units
Prerequisite(s): ART 1B or equivalent.
Term Typically Offered: Spring only – odd years
European architecture, painting, and sculpture of the 17th and 18th centuries.

ART 108. 19th Century Art. 3 Units
Prerequisite(s): ART 1C or equivalent.
Term Typically Offered: Fall, Spring
European architecture, painting, and sculpture of the 19th century.

ART 109. Modern Art. 3 Units
Prerequisite(s): Upper-division standing and ART 1C or equivalent with instructor approval.
Term Typically Offered: Fall only
Presented as the cultural episode that began with the emergence of the avant-garde in mid-nineteenth century Paris and ended in the middle of the twentieth century with WW II and the beginning of the postmodern era: from Realism, the birth of photography, and Impressionism through the high modernist movements associated with the international School of Paris, including Fauvism, Cubism, Constructivism, Dada, and Surrealism. It concludes with post-WW II expressions, including Abstract Expressionism.

ART 110. US and Caribbean Art: Race and Representation. 3 Units
Prerequisite(s): Any lower-division GE course in art history (ART 1A, 1B, 1C, 2, 3A, 3B, 4, 5, or 7).
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), Arts (Area C1)
Term Typically Offered: Spring only
Provides an overview of U.S. and Caribbean art from the colonial period to the present, with an emphasis on the role of race in constructing individual, community, and national visual identities. Considers artworks by African-American, Asian-American, Indigenous, Latinx, and White artists, underscoring the dynamic interactions between race, class, gender, and sexuality in the visual arts. Field trip. Field trip(s) may be required.

ART 111. Latin American and Latino Art History. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Arts (Area C1), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall only
Provides an overview of Latin American and Latino art from the independence movements of the 1820s to the present. After an introductory survey of pre-Columbian and Spanish colonial art, the art of Mexico, Central and South America, the Caribbean and the U.S. is studied within the contexts of contemporaneous cultural, intellectual, political and social history. The diverse visual cultures of Latin American and Latino art are thematically unified by an examination of common concerns and motivations.

ART 112. Contemporary Art. 3 Units
Prerequisite(s): ART 1C or ART 109 or instructor permission.
Term Typically Offered: Spring only
Beginning with international Pop art and Minimalism in the 1960s, surveys the history of contemporary art from the end of avant-garde modernism to the postmodernism and globalism of today. Lectures, discussions, readings and assignments offer insights into the contexts, attitudes, and ideas behind current art and visual culture. Note: Taught in conjunction with ART 212.
ART 113B. Asian Art and Mythology. 3 Units
Prerequisite(s): ART 3A or equivalent or instructor permission.
Term Typically Offered: Spring only – odd years
Survey and investigation of selected myths from Asian cultures and traditions.

ART 114. Topics in Early Modern Art. 3 Units
Prerequisite(s): ART 1A or ART 1B; an upper division art history course in a related subject area; upper division or post-baccalaureate status; and GWAR certification before Fall 2009; or WPJ score of 80 or above; or 3-unit placement in ENGL 109M/W; or 4-unit placement in ENGL 109M/W + co-enrollment in ENGL 109X; or WPJ score 70/71 + co-enrollment in ENGL 109X.
Term Typically Offered: Fall only – even years
Seminar on topics in early modern art history.
Note: Course may be taken twice for credit, if the topic is not the same.

ART 115. Topics in Asian Art. 3 Units
Prerequisite(s): Upper division or graduate status; completion of ART 3A (or equivalent); and an upper division Asian art history course such as ART 117A, ART 117B, ART 113B, or instructor permission; GWAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109M/W.
Term Typically Offered: Fall only
Seminar on topics in Asian art.

ART 116. Topics in Modern and Contemporary Art. 3 Units
Prerequisite(s): Upper division or graduate status; completion of ART 1C (or equivalent); and an upper division art history course in a related subject area (or instructor permission); GWAR certification before Fall 09, WPJ score of 70+, or at least a "C+" in ENGL 109M/W.
Term Typically Offered: Fall only
Seminar on topics in modern and contemporary art history.

ART 117A. Art of India and Southeast Asia. 3 Units
Prerequisite(s): ART 3A or equivalent, or instructor permission.
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall only
Provides a broad overview of the architectural remains and visual arts of India and Southeast Asia from prehistory to the present. Consideration will be given to the art styles, iconography, history, geography, ethnic populations, languages, and religions (i.e., Buddhism, Hinduism, Jainism, and Islam) of each region.

ART 117B. Art of China and Japan. 3 Units
Prerequisite(s): ART 3A or equivalent, or instructor permission.
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Spring only
Provides a broad overview of the architectural remains and visual arts of China and Japan from prehistory to the present. Consideration will be given to the art styles, iconography, history, geography, ethnic populations, languages, and religions (i.e., Buddhism, Taoism, and Shintoism) of each region.

ART 117C. Art of Korea. 3 Units
Term Typically Offered: Spring only – even years
Introduces students to the art and architecture of Korea from the pre-historic through contemporary periods. The styles, subjects, and significance of the art of Korea will be presented in a broad context including the history, geography, ethnic populations, languages, and religions of Korea (i.e., Buddhism, Daoism, Confucianism, and Christianity).

ART 118A. Modern Architecture. 3 Units
Prerequisite(s): ART 1C (or equivalent), or instructor permission.
Term Typically Offered: Not offered
A survey of modern architecture which covers the architectural theories and principles underlying certain significant structures. Special consideration is given to an analysis of the works of 20th century pioneers and their followers, such as Wright, Gropius, Le Corbusier, Van der Rohe, Aalto, and Johnson, among others, and to certain movements, such as the International Style, Brutalism, and Formalism.

ART 118B. California Architecture and Urban History. 3 Units
Term Typically Offered: Fall, Spring
Survey of the history of California architecture and its impact on the urban environment from Native Americans to the 20th century. Particular attention will be given to architecture as a symbol or statement of social, economic, and political empowerment. Cross listed as HIST 184; only one may be counted for credit.

ART 118C. Public Art in the Americas. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall only – odd years
Explores the major issues in the history of public art in the Americas, including monuments, memorials, murals, graffiti, and new media art. Particular attention will be given to public art in Sacramento. Field Trip. Field trip(s) may be required.

ART 119. Directed Research in Art History. 3 Units
Prerequisite(s): Instructor permission and Department chair via signed petition form.
Term Typically Offered: Fall, Spring
Open to upper division art majors or minors only who have completed 9 units in a specialized area.
Note: May be repeated as often as approved by advisor and Department chair.

ART 120. Advanced Drawing. 3 Units
Prerequisite(s): ART 20B or equivalent.
Term Typically Offered: Fall, Spring
Continuing investigation of drawing. Emphasis is on the development of individual style.
Note: May be taken twice for credit.
ART 121.  BFA Junior Studio.
Term Typically Offered: Fall, Spring

Junior-level studio art course designed to prepare students for the senior year of the BFA degree. Course builds dialog among an interdisciplinary cohort of BFA students while engaging them with contemporary professional practices in the arts. Emphasis placed on students’ ability to communicate about their work through critiques with faculty, peers, and visiting artists, preparation of professional documents and presentations. Fee course. Prerequisite: Completion of a minimum of 3 units upper division studio coursework, second semester Junior standing with 75 units minimum.

Fee course.

ART 122A.  Intermediate Painting.
Prerequisite(s): ART 22 or equivalent.
Term Typically Offered: Fall, Spring

Continuing investigation of the technical and conceptual issues of painting.
Note: May be taken twice for credit.

ART 122B.  Advanced Painting.
Prerequisite(s): ART 122A, or ART 124A, or ART 125A, or ART 126, or instructor permission.
Term Typically Offered: Fall, Spring

Continuing investigation of the technical and conceptual issues of painting, with an emphasis on intensive individual exploration.
Note: May be repeated four times for credit.

ART 122C.  Advanced Painting and Drawing, Experimental Studies.
Term Typically Offered: Spring only

Following students work in Art 122B Advanced Painting, or Art 120 Advanced Drawing, this course will focus on investigation of experimental methods. Students will put into practice a range of experimental methods to the purpose of discovering new approaches to their medium, and new avenues for the articulation of content. Work will focus on a medium and subject matter of the student’s choice. Pre-requisite: Art 120, Advanced Drawing; or Art 122B, Advanced Painting; or permission of the instructor.

ART 123.  Figure Drawing.
Prerequisite(s): ART 20A or equivalent.
Term Typically Offered: Fall, Spring

Concentrates on the development of drawing and visual skills with emphasis on the human figure. Strong emphasis is placed on anatomical knowledge of the body and its expression through drawing techniques. The effects of volume and movement in space as well as compositional possibilities with the figure are explored. Slides are used to inform students of the drawing techniques achieved in historic and contemporary images. Fee course.
Note: May be taken for credit three times.

Fee course.

ART 124A.  Intermediate Watercolor.
Prerequisite(s): ART 24 or equivalent.
Term Typically Offered: Spring only – odd years

Continuing investigation of the technical and conceptual issues of painting, using transparent water media.
Note: May be taken twice for credit.

ART 124B.  Advanced Watercolor.
Prerequisite(s): ART 124A or equivalent.
Term Typically Offered: Fall, Spring

Continuing investigation of the techniques and conceptual issues of painting using transparent water media, with emphasis on intensive individual exploration.
Note: May be taken four times for credit.

ART 125A.  Life Painting.
Prerequisite(s): ART 20A or equivalent.
Term Typically Offered: Fall only

Painting from professional models.
Note: May be taken for credit twice. Fee course.

Fee course.

ART 125B.  Life Studio.
Prerequisite(s): ART 20A or equivalent.
Term Typically Offered: Fall, Spring

Drawing and painting from professional models. Fee course.
Note: May be taken twice for credit.

Fee course.

ART 126.  Painting and Drawing in the Field.
Prerequisite(s): ART 22 or ART 24, or equivalent.
Term Typically Offered: Fall, Spring

Further development of painting and drawing skills with emphasis on direct observation and use of color to make form. Class will meet at specific landscape sites to work, with primary focus on painting. In addition, work will be developed in the classroom based on prior field study. Critiques will examine how one situation is variously interpreted.

ART 127.  Collage and Assemblage.
Prerequisite(s): ART 20A, ART 22 and either ART 70 or ART 88 (or equivalent), or instructor permission.
Term Typically Offered: Spring only

Use of found and readily available materials to make 2-dimensional collage and 3-dimensional assemblage. Most projects are conceptual, a few purely visual, and take from one to three class periods, including critique, and class discussions.
Note: May be taken twice for credit. Fee Course

Fee course.

ART 128.  Art and the Artist in the Marketplace.
Term Typically Offered: Spring only

Study of the thought processes and preparations for presenting one’s artwork in the marketplace. An overview of what it takes to begin showing and selling artworks, including the skills and procedures of presenting artwork to galleries. A study of contracts, loan agreements, invoicing, commissions, model releases, taxes, pricing of work, resumes, slide preparation/presentation, publicity skills, and record keeping. Lecture, field trips to galleries and museums.
Field trip(s) may be required.

### Notes
- Fee course unless otherwise noted.
- ART 141 may be taken twice for credit. Cross-listed as CSC 126.
- ART 139 may be repeated as often as approved by advisor and Department chair.
- ART 137 may be repeated as often as approved by advisor and Department chair.
- ART 139 may be repeated as often as approved by advisor and Department chair.
- ART 140 may be repeated as often as approved by advisor and Department chair.
- ART 141 may be taken for credit four times.
- ART 142 may be taken twice for credit. Cross-listed as CSC 126.
ART 143. 3D Computer Animation. 3 Units
Prerequisite(s): ART 142 or CSC 126.
Term Typically Offered: Fall, Spring

Creative skills and techniques for animating 3D computer-modeled objects/environments. Topics include animation techniques; keyframing and interpolation; deformation and morphing; path control; skeletal animation; model rigging and skinning; forward and inverse kinematics, constraints and IK solvers; particle systems; fluid, cloth, hair, and fur simulation; shape keys; and soft body animation. Emphasis on both skill development and creative application of modeling and animation techniques. Includes demos, in class and homework exercises, and self directed projects.

Cross-listed: CSC 127.

ART 144. Digital Printmaking. 3 Units
Prerequisite(s): ART 97 or equivalent.
Term Typically Offered: Fall, Spring

Through traditional and digital print media, the course explores the convergence of digital imaging (vector and raster processes) and printmaking techniques (such as monoprint, lithography, etching and silkscreen). Vector graphics use geometry: points, lines and fills, creating crisp re-scaleable images. Raster graphics use a rectangular grid of pixels to create continuous-tone effects. By exploring these approaches and their transference to printmaking processes, students gain deeper understanding of print technology and a more tactile awareness of image making. Fee course.

Note: May be taken twice for credit.

ART 145. Advanced Printmaking Studio. 3 Units
Term Typically Offered: Fall, Spring

Advanced exploration of printmaking media (etching, lithography, relief, and monoprinting techniques) within a historical framework. Students investigate the printmaking techniques of historically significant figures and apply them to their own imagery.

Note: Open to students with experience in upper division painting or photography, or lower division printmaking. May be taken twice for credit. Fee course.

Fee course.

ART 146. Creative Coding. 3 Units
Prerequisite(s): ART 97 Fee course
Term Typically Offered: Fall only

Introduces techniques and artistic perspectives on interactivity and computationally-generated visual composition for New Media Artists. Nonlinear, dynamic, and generative approaches to composition, animation, video, and data processing are covered.

Note: This course is recommended for students planning to take ART 143 and ART 198.

ART 147. Video Art. 3 Units
Prerequisite(s): ART 97 or COMS 27A/FILM 27A and COMS 27B/FILM 27B.
Term Typically Offered: Fall, Spring

The creation and analysis of video artwork; including techniques of video production, post-production manipulation and critique, within the context of art and communication. The techniques and theory of producing and editing video will serve as a foundation for the pursuit of individual, creative projects. Cross-listed as COMS 157; only one may be counted for credit.

ART 148. Barrio Art for Ethnic Groups. 3 Units
Term Typically Offered: Fall, Spring

Provides a cultural situation for students who expect to work with the Mexican American community. Involves personal contact with persons in that community. Uses poetry, music, slides, and film to understand art as a non-verbal language.

Note: May be taken twice for credit.

ART 149. Graphics/Printmaking Studio. 3 Units
Prerequisite(s): Instructor permission and Department chair via signed petition.
Term Typically Offered: Fall, Spring

Open only to upper division art majors/minors who have completed 9 units in a specialized area.

Note: May be repeated as often as approved by advisor and Department chair.

Fee course.

ART 150. Advanced Ceramics. 3 Units
Prerequisite(s): ART 50 or equivalent.
Term Typically Offered: Fall, Spring

Advanced study of ceramic techniques leading toward the development of an individual creative expression. Fee course.

Note: May be taken for credit four times.

Fee course.

ART 153. Hand-Built Ceramic Techniques. 3 Units
Prerequisite(s): ART 53 or equivalent.
Term Typically Offered: Fall, Spring

Specialization in hand-built clay forms. Methods of working include coil, slab, pinch, and combinations of techniques which might include some wheel-thrown parts, decoration, and glazing of forms. Fee course.

Note: May be taken for credit four times.

Fee course.

ART 159. Ceramics Studio. 3 Units
Prerequisite(s): Instructor permission and Department chair via signed petition form.
Term Typically Offered: Fall, Spring

Open to upper division art majors or minors only who have completed 9 units in a specialized area.

Note: May be repeated as often as approved by advisor and Department chair.
ART 160. Special Topics in Art Studio. 3 Units
Prerequisite(s): ART 121
Term Typically Offered: Fall only
A range of rotating exploratory investigations in studio art practice that consider and explore various topics of interest. A requirement for students in the BFA Program.
Note: This course may use materials that are hazardous and therefore both safety training and the use of personal protective equipment (PPE) will be required.

ART 161. Photography in the Field. 3 Units
Prerequisite(s): PHOT 141 or instructor permission.
Term Typically Offered: Fall, Spring
The class visits specific sites followed by a group critique of the resulting photographic work. The course objective is to examine how one situation can be interpreted by many varied sensibilities, broadening the artist's visual vocabulary. Students are required to create visually unified portfolio that demonstrates a sense of place.
Cross-listed: PHOT 161.

ART 162. Alternative Photographic Processes. 3 Units
Prerequisite(s): PHOT 141 or instructor permission.
Term Typically Offered: Fall, Spring
Studio course exploring alternative photographic processes that may include: printing-out paper, new cyanotype, argyrotype, and platinum-palladium. Slide discussions, individual and class critiques.
Cross-listed: PHOT 162.

ART 163. Pinhole Photography. 3 Units
Prerequisite(s): PHOT 40 or equivalent.
Term Typically Offered: Fall, Spring
Intermediate course investigating the theory, history, and practice of pinhole photography. Use of student-made pinhole cameras of varying focal lengths using black and white and color materials. Emphasis on creative approach in both camera making and image formation, supported by intermediate-level photographic technique. Individual final portfolios and group exhibition of cameras and prints at conclusion of course.
Cross-listed: PHOT 163.

ART 169. Photography Studio. 3 Units
Prerequisite(s): Instructor permission and Department chair via signed petition form.
Term Typically Offered: Fall, Spring
Open to upper division art majors or minors only who have completed successfully 9 units in a specialized area.
Note: May be repeated as often as approved by advisor and Department chair.

ART 174. Intermediate Jewelry. 3 Units
Prerequisite(s): ART 74 or equivalent, or instructor permission.
Term Typically Offered: Fall, Spring
Continued study of the techniques and tools used in metal fabrication, such as raising, tool making, chasing and repousse, and scoring/bending process. Emphasis is on development and individual style. Fee course.
Note: May be taken twice for credit.

Fee course.

ART 175. Intermediate Metalsmithing. 3 Units
Prerequisite(s): ART 75.
Term Typically Offered: Fall, Spring
Continued exploration of techniques, tools, and methods used in fabrication of ferrous and non-ferrous metal such as cold fastening, repousage, forging, and finishing processes. Emphasis is on composition and imagery. Fee course.

ART 176. Advanced Jewelry. 3 Units
Prerequisite(s): ART 174.
Term Typically Offered: Fall, Spring
Focus on the development of personal style in metal fabrication and casting techniques. Students learn to build mechanical devices such as clasp systems that enhance the overall appearance of their work.

ART 178A. Public Art Processes. 3 Units
Term Typically Offered: Fall only
Students will engage in the process of creating public art proposals. Along with community engagement the conception and design of a project will include historical, geographic and sociological research. Students will create professional presentations of their proposed project that consider all factors related to creating work in a public setting.

ART 178B. Public Art Studio. 3 Units
Term Typically Offered: Spring only
Following up on project proposals designed the previous term in ART 178A, students will engage in the process of creating public art works. The course will focus on the primary components of the project: budget, method or form, materials, dimension, transportation, engineering, permitting, installation and publicity. Students do not need to have taken 178A in order to benefit from and enroll in 178B. Field Trip(s) may be required. Fee course.
Note: May be taken twice for credit.

Fee course.
Field trip(s) may be required.

ART 179. Small Metals Studio. 3 Units
Prerequisite(s): ART 176.
Term Typically Offered: Fall, Spring
Open to upper division art majors or minors only who have completed 9 units in a specialized area.
Note: May be repeated as often as approved by advisor and Department chair.
ART 180.  Figure Sculpture.  3 Units  
Prerequisite(s): ART 20A or equivalent.  
Term Typically Offered: Fall only  

Work from live models in clay and plaster. Construction of armatures and waste mold demonstrated. Fee course.  
Note: May be taken for credit four times.  

Fee course.  

ART 182.  Intermediate Sculpture.  3 Units  
Prerequisite(s): ART 180 or equivalent.  
Term Typically Offered: Fall, Spring  

Intermediate explorations with traditional and non-traditional processes of sculpture, three-dimensional form and spatial relationships. Students will expect to explore concept based learning through visual problem solving while accumulating in depth techniques and skills in a variety of sculpture materials. Includes study of historical and contemporary examples of sculpture and other relevant forms of art.  
Note: May be taken twice for credit. Fee Course  

Fee course.  

ART 183.  Advanced Sculpture.  3 Units  
Prerequisite(s): ART 180 or 182 or instructor permission.  
Term Typically Offered: Fall, Spring  

Advanced explorations and study in sculpture, three-dimensional media and imagery and conceptual based art. Students can explore sculpture, advanced three-dimensional design, mixed media, installation art, site specificity, performance art, public art or other. Study will be both assignment based or self-directed. Fee course.  
Note: May be taken twice for credit.  

Fee course.  

ART 187.  Installation and Performance Art.  3 Units  
Prerequisite(s): ART 180 or either ART 70 or ART 88 or equivalent.  
Term Typically Offered: Spring only – even years  

Explores the practice, theory and history of making installation and performance art. Students will study contemporary artists of this genre while designing, modeling and creating installation projects. Performances are not mandatory. Students will exhibit their works in traditional campus galleries alternative spaces. Emphasizes individual investigation and discovery while remaining open to collaborative projects that may cross disciplines. Fee course.  
Note: may be taken twice for credit.  

Fee course.  

ART 189.  Sculpture Studio.  3 Units  
Prerequisite(s): Instructor permission and Department chair via signed petition form.  
Term Typically Offered: Fall, Spring  

Open to upper division art majors or minors only who have completed 9 units in a specialized area. Fee course.  
Note: May be repeated as often as approved by advisor and Department chair.  

Fee course.  

ART 191.  Film as an Art Form.  3 Units  
Term Typically Offered: Fall, Spring  

Wide range of theory and criticism of film, photography, and painting in the 20th century is presented from which the student may cultivate a coherent critical awareness. The development of realism in Western art, the photographic image, narrative in film, montage, and the development of cinematography will be included with special attention given to the films of D.W. Griffith, Sergei Eisenstein, Jean Renoir, Alfred Hitchcock, and Orsen Welles.  

Fee course.  

ART 192A.  Senior Seminar in Studio Art.  3 Units  
Prerequisite(s): Senior status (90 overall units), completion of 30 units of art studio courses, and (GWAR certification before Fall 09, or WPJ score of 70+ or at least a C- in ENGL 109M or ENGL 109W).  
Term Typically Offered: Fall, Spring  

Culminating studio art course designed to deepen experiences in diverse visual arts. Emphasis placed on independent studio practice with additional development in verbal and written skills in a variety of art disciplines. Participation in BA candidate exhibition required in the second enrolled semester for completion of the course.  
Note: Must be taken twice. Cannot be taken twice in the same semester.  

Fee course.  

ART 192B.  Senior Seminar in Art History.  3 Units  
Prerequisite(s): Senior status, completion of all lower-division major requirements, HIST 100, and GWAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109 M/W.  
Term Typically Offered: Fall, Spring  

Focuses on the research, writing, and oral presentation of a 25-35 page thesis in the student’s area of interest. Seminar readings, discussions, and weekly workshops support the thesis project and develop basic career skills. Explores how to employ traditional and new research technologies and develops writing skills. Career topics include how to locate appropriate jobs, professional schools, and graduate programs; how to write professional resumes, correspondence, including graduate school and grant applications.  

Fee course.  

ART 192C.  Senior Seminar in Art Education.  3 Units  
Prerequisite(s): Senior status, and ART 130, ART 133, ART 134, and ART 135.  
Term Typically Offered: Fall only  

Relates current art education theories to teaching practices in elementary and secondary classrooms, and museum/gallery settings. Teaching practices in a classroom or gallery/museum setting will connect to curriculum materials developed.  

Fee course.  

ART 193.  Curatorial Projects.  3 Units  
Term Typically Offered: Fall only  

Through this course, students will directly participate in the planning and execution of curatorial projects in the visual arts, including the creation of physical and/or virtual art exhibitions in museums, galleries, and/or public spaces. Career possibilities are presented through field trips and class visits by professionals in the field. The focus is on practical experience, as well as history and theory. Field trip(s) may be required.
ART 193B. Introduction to Curatorial Studies. 3 Units
Term Typically Offered: Spring only

This course provides the foundation needed for professionally managing and displaying objects held in art collections. Through readings, small group discussions, field trips, guest lectures, and the directed experience of creating an exhibition of artworks from the Sacramento State Art Department collection, students learn the basics of curatorial studies and art collection management. Field trip. Field trip(s) may be required.

ART 194. BFA Senior Project. 3 Units
Prerequisite(s): Second semester Senior standing in BFA program with a minimum 63 units in the major.
Term Typically Offered: Fall, Spring

Under the mentorship of a faculty advisor, students develop a body of work to be exhibited in the BFA exhibition. Emphasis placed on engagement with research, content, and the process to produce professional quality work in preparation for graduate study and/or careers in the arts.

ART 195. Fieldwork. 1 - 3 Units
Term Typically Offered: Fall, Spring

Directed observation and work experience with public agencies. Field work is offered for the purpose of giving students orientation in occupational specialties. Supervision is provided by both the instructional staff of the University and the cooperating agencies. Each student is required to maintain a record of activities and assignments, and to prepare periodic reports. The student must make arrangements with a faculty member for a work program prior to admittance to the course.

Credit/No Credit

ART 196. Experimental Offerings in Art. 1 Unit
Term Typically Offered: Fall, Spring

Undergraduate seminar in art, to be scheduled as needed.

ART 196W. Protest and Play: Northern California Art of the 1970s. 3 Units
Prerequisite(s): Upper-division standing, and Art 1B or Art 1C, or instructor permission
Term Typically Offered: Fall only – odd years

From the humor and wit of Funk through the politically engaged art of the Black Power, Chicano, Native Californian, and Feminist movements, this class surveys the history of Northern California art of the 1970s with a focus on the greater Sacramento region and art and artists emerging from the era’s defining protest movements. Lectures, discussions, readings, and assignments offer insights into the outstanding vitality and historical significance of this art world. Field Trip(s) Field trip(s) may be required.

ART 197. Intermediate Electronic Art. 3 Units
Prerequisite(s): ART 97, or equivalent experience, such as PHOT 11, Introduction to Digital Imaging.
Term Typically Offered: Fall, Spring

Explores the creative potential of digital imaging and multimedia art making techniques. Teaching methods will include hands on demonstrations, lab workshops, creative projects, reading assignments, seminars, discussion and critiques. The development of technical fluency will be stressed, and the creative potential of digital media within the framework of contemporary art, design and culture will be emphasized. Fee course.

Note: Proficiency in MAC-OS recommended. May be taken for credit three times.

Fee course.

ART 198. Advanced Electronic Art. 3 Units
Prerequisite(s): ART 197, or equivalent experience, evidenced in portfolio.
Term Typically Offered: Fall only

Utilizes the creative potential of electronic media to create art projects, working within the conceptual framework of developments in contemporary culture using a range of available software programs. An experimental and exploratory approach to the digital medium in concept, process and execution of work is encouraged. Fee course.

Note: Proficiency in MAC-OS recommended. May be taken for credit three times.

Fee course.

ART 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading. Open only to students who are competent to carry on individual work.

Note: Departmental petition required.

Credit/No Credit

ART 201A. Mentored Individual Studio Practice 1. 3 Units
Prerequisite(s): Graduate Art Student Status or Instructor Permission
Term Typically Offered: Fall only

Individual studio guidance and instruction, semester 1 of 3. Students establish their individual studio practice and the research that informs it. Students work independently, meeting with an advisor regularly to evaluate their progress and work through problems. In 201A, students establish a graduate-level studio practice and the research and habits that surround it. Students take an exploratory approach, experimenting with content and methods to create a breadth of work for evaluation and discussion at the first-semester review. Supervisory Course.

ART 201B. Mentored Individual Studio Practice 2. 3 Units
Prerequisite(s): Graduate Art Student Status or Instructor permission, and ART 201A
Term Typically Offered: Spring only

Individual studio guidance and instruction, semester 2 of 3. Students maintain their individual studio practice and the research that informs it. Students work independently, meeting with an advisor regularly to evaluate their progress and work through problems. In the second semester, emphasis is placed on focusing students2 studio practice and research to create a body of work for presentation at the first-year review. Supervisory Course.
ART 201C. Mentored Individual Studio Practice 3. 3 Units
Prerequisite(s): Graduate Art Student Status or Instructor permission, and ART 201A and ART 201B
Term Typically Offered: Fall only

Individual studio guidance and instruction, semester 3 of 3. Students expand upon their individual studio practice and the research that informs it. Students work independently, meeting with an advisor regularly to evaluate their progress and work through problems. In the third semester, emphasis is placed on preparing a cohesive body of work for the advancement to candidacy exhibition and review. Supervisory Course.

ART 206. Art Theory and Criticism. 3 Units
Term Typically Offered: Fall only

Seminark discussions of essential readings in Western aesthetic philosophy and contemporary art theory and criticism. Stress is placed on the conceptualization of the student's own graduate production. Note: Required for students in art graduate program; Graduate Writing Intensive (GWI) course.

ART 207. Graduate Studio and Critique. 3 Units
Term Typically Offered: Fall, Spring

Graduate Studio and Critique focuses on the development of students' individual studio practice, while bringing that practice into dialog with others. Class time is divided between group critiques and individual studio work time.

ART 208. Intensive Graduate Studio and Critique. 6 Units
Prerequisite(s): Graduate Art Student Status or Instructor permission
Term Typically Offered: Fall, Spring

Intensive Graduate Studio and Critique focuses on the development of students' individual studio practice, while bringing that practice into dialog with others. Class time is divided between group critiques and individual studio work time. In ART 208, students increase the depth and focus of their work, as well as their engagement in critiques. Note: May be taken twice for credit

ART 212. Contemporary Art. 3 Units
Prerequisite(s): Modern Art History: Art 1B or ART 109 or equivalent or instructor permission.
Term Typically Offered: Spring only

Beginning with international Pop art and Minimalism in the 1960s, surveys the history of contemporary art from the end of avant-garde modernism to the postmodernism and globalization of today. Lectures, discussions, readings and assignments, offer insights into the contexts, attitudes and ideas behind current art and visual culture. Note: Students who earned a grade of B or higher in ART 112 can fulfill the requirements for ART 212 by taking a one-unit supplemental ART 299 to satisfy graduate level criteria.

ART 219. Directed Research in Art History. 3 Units
Prerequisite(s): Instructor permission and Department chair via signed petition form.
Term Typically Offered: Fall, Spring

Open to classified and unclassified art graduate students only. Note: May be repeated as often as approved by advisor and Department chair.

ART 220. Advanced Problems in Painting and Drawing. 3 Units
Prerequisite(s): ART 122B, graduate art student status, or instructor permission.
Term Typically Offered: Fall, Spring

Special problems in painting and drawing. Note: May be taken twice for credit.

ART 222. Studio Critique Seminar. 3 Units
Term Typically Offered: Fall, Spring

Critique seminar taught by one or more instructors representing different creative experiences. Note: Required for students in the art studio graduate program, every semester until the final review has been passed. Only 6 units may be applied toward the degree program. Open only to classified graduate students.

ART 222A. Graduate Seminar 1. 3 Units
Prerequisite(s): Graduate Art Student Status or Instructor permission
Term Typically Offered: Fall only

This course builds dialogue among an interdisciplinary cohort of MFA students while engaging them with contemporary issues and professional practices in the arts. Students discuss readings, attend lectures, prepare for program milestones, and produce and discuss professional documents and presentations. The first-semester graduate students focus is on beginning to develop their professional documents in preparation for the first-semester review while contextualizing their current studio practice. First three weeks of class are dedicated to first-year orientation. Seminar. Seminar 1 of 4.

ART 222B. Graduate Seminar 2. 3 Units
Prerequisite(s): Graduate Art Student Status or Instructor permission, and ART 222A
Term Typically Offered: Spring only

This course builds dialogue among an interdisciplinary cohort of MFA students while engaging them with contemporary issues and professional practices in the arts. Students discuss readings, attend lectures, prepare for program milestones, and produce and discuss professional documents and presentations. The second-semester graduate students focus is on further developing their professional documents in preparation for the first-year review while contextualizing their current studio practice. Seminar. Seminar 2 of 4.

ART 222C. Graduate Seminar 3. 3 Units
Prerequisite(s): Graduate Art Student Status or Instructor permission, and ART 222A and ART 222B
Term Typically Offered: Fall only

This course builds dialogue among an interdisciplinary cohort of MFA students while engaging them with contemporary issues and professional practices in the arts. Students discuss readings, attend lectures, prepare for program milestones, and produce and discuss professional documents and presentations. The third semester graduate students focus is on further developing their professional documents in preparation for the advancement to candidacy exhibition and review while continuing to contextualize their current studio practice. Seminar. Seminar 3 of 4.
ART 222D. Graduate Seminar 4. 3 Units
Prerequisite(s): Graduate Art Student Status or Instructor permission, and ART 222A, ART 222B, and ART 222C
Term Typically Offered: Spring only

This course builds dialogue among an interdisciplinary cohort of MFA students while engaging them with contemporary issues and professional practices in the arts. Students discuss readings, attend lectures, prepare for program milestones, and produce and discuss professional documents and presentations. The fourth semester graduate student's focus is on further developing their professional documents in preparation for the final MFA exhibition and review while continuing to contextualize their current studio practice. Seminar. Semester 4 of 4.

ART 229. Painting/Drawing Studio. 3 Units
Prerequisite(s): Instructor permission and Department chair via signed petition form.
Term Typically Offered: Fall, Spring

Open to classified and unclassified art graduate students only.
Note: May be repeated as often as approved by advisor and Department chair; only 6 units may be applied toward the degree program.

ART 231. Teaching Practicum. 3 Units
Prerequisite(s): Graduate Art Student Status or Instructor permission
Term Typically Offered: Fall, Spring

Instruction on the methods and procedure of running a studio art course. Practical experience working with and instructing undergraduate students. Applying skills in the student's expertise to the art of teaching in tandem with supervisory instructor. Supervisory course.

ART 239. Directed Research in Art Education. 3 Units
Prerequisite(s): Instructor permission and Department chair via signed petition form.
Term Typically Offered: Fall, Spring

Open to classified and unclassified art graduate students only.
Note: May be repeated as often as approved by advisor and Department chair; only 6 units may be applied toward the degree program.

ART 249. Graphics/Printmaking Studio. 3 Units
Prerequisite(s): Instructor permission and Department chair via signed petition form.
Term Typically Offered: Fall, Spring

Open to classified and unclassified art graduate students only.
Note: May be repeated as often as approved by advisor and Department chair; only 6 units may be applied toward the degree program.

ART 259. Ceramics Studio. 3 Units
Prerequisite(s): Instructor permission and Department chair via signed petition form.
Term Typically Offered: Fall, Spring

Open to classified and unclassified art graduate students only.
Note: May be repeated as often as approved by advisor and Department chair; only 6 units may be applied toward the degree program.

ART 269. Photography Studio. 3 Units
Prerequisite(s): Instructor permission and Department chair via signed petition form.
Term Typically Offered: Fall, Spring

Open to classified and unclassified art graduate students only.
Note: May be repeated as often as approved by advisor and Department chair; only 6 units may be applied toward the degree program.

ART 279. Crafts/Art Metal Studio. 3 Units
Prerequisite(s): Instructor permission and Department chair via signed petition form.
Term Typically Offered: Fall, Spring

Open to classified and unclassified art graduate students only.
Note: May be repeated as often as approved by advisor and Department chair; only 6 units may be applied toward the degree program.

ART 283. Graduate Sculpture. 3 Units
Prerequisite(s): Graduate Art Student Status, or instructor permission.
Term Typically Offered: Fall, Spring

Special problems in sculpture, mixed media, installation art, site specific art, performance art, public art or other. Students will engage in self-directed projects while participating in sculpture studio forum and critiques.
Note: may be taken twice for credit

ART 289. Sculpture Studio. 3 Units
Prerequisite(s): Instructor permission and Department chair via signed petition form.
Term Typically Offered: Fall, Spring

Open to classified and unclassified graduate students only. Fee course.
Note: May be repeated as often as approved by advisor and Department chair; only 6 units may be applied toward the degree program.

Fee course.

ART 297. New Media 1. 3 Units
Term Typically Offered: Spring only

Students will work on self-directed new media projects with the supervision of the instructor. The work will focus on projects that are either entirely based on digital image and/or animation, or on works that also utilize other media or processes combined with digital image or animation, such as intermedia, mixed media and installation work. This course also includes reading assignments, critique and discussion.
Note: May be repeated twice for credit

ART 298. New Media 2. 3 Units
Term Typically Offered: Fall only

Students will work on self-directed video and new media with the supervision of the instructor. The work will focus on projects that are either entirely based in new media and video, or on works that also utilize other media or processes combined with video and/or interactive processes, such as intermedia, mixed media and installation work. The course also includes reading assignments, critique and discussion.
Note: May be taken twice for credit.
ART 299. Special Problems. 1 - 3 Units
Prerequisite(s): Open only to graduate art students competent to carry on individual work. Admission requires approval of the faculty member who will direct the work and of the Department chair via signed petition form.
Term Typically Offered: Fall, Spring

Individual projects or directed reading.
Note: Only 6 units may be applied toward the degree program.

Credit/No Credit

ART 305. Art in the Public School. 3 Units
Prerequisite(s): Enrollment in the art teaching credential program.
Term Typically Offered: Fall, Spring

Art teaching methods and programs for public school grades K-12. Must be taken during Phase I or II of student teaching.

ART 500. Culminating Experience. 3 Units
Prerequisite(s): Advanced to candidacy and chair permission of student’s project committee.
Term Typically Offered: Fall, Spring

Culminating exhibition of student work.

ART 500A. Culminating Experience Thesis. 3 Units
Prerequisite(s): Graduate Art Student Status and Instructor Permission.
Corequisite(s): ART 500B.
Term Typically Offered: Spring only

Guidance with written thesis as it pertains to the final body of work. Students will work with individual faculty to develop and complete thesis objective(s), outline and organize imagery as it pertains to the final body of work and create a final written document for digital publication. Supervisory course.

ART 500B. Culminating Experience Exhibition. 3 Units
Prerequisite(s): Graduate Art Student Status and Instructor Permission.
Corequisite(s): ART 500A.
Term Typically Offered: Spring only

Graduating cohort instruction for final MFA Exhibition including final proposal, exhibition catalogue, curatorial studio visit and selection, MFA exhibition catalogue and promotional material.

Arts and Letters (ALS)

ALS 21. First Year Seminar: Becoming an Educated Person. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Introduction to the nature and possible meanings of higher education, and the functions and resources of the University. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills. Exploring majors in Arts and Letters and the careers they can lead to for freshmen considering a major in one of these disciplines. Provides students with the opportunity to interact with fellow students and the seminar leader and to build a community of academic and personal support.

ALS 39A. Special Problems for EOP Students. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individually directed projects or tutorial instruction in a skill development area or in any subject matter to develop a specific academic skill (i.e., essay writing).
Credit/No Credit

ALS 52A. Acad Strategies-ALS: History 6. 1 Unit
Term Typically Offered: Fall, Spring

Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 52B. Academic Strategies-ALS: History 17A. 1 Unit
Term Typically Offered: Fall, Spring

Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 52C. Academic Strategies-ALS: History 17B. 1 Unit
Term Typically Offered: Fall, Spring

Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 52D. Academic Strategies-ALS: History 50. 1 Unit
Term Typically Offered: Fall, Spring

Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 52E. Academic Strategies-ALS: History 51. 1 Unit
Term Typically Offered: Fall, Spring

Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 52F. Academic Strategies-ALS: Philosophy 4. 1 Unit
Term Typically Offered: Fall, Spring

Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit
ALS 52G.  Academic Strategies - ALS: English 40A.  1 Unit
Study skills supplemental instruction for selected General Education
courses. Effective learning strategies for the academic course in which
the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 52H.  Academic Strategies - ALS: History 7.  1 Unit
Study skills supplemental instruction for selected General Education
courses. Effective learning strategies for the academic course in which
the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 52J.  Academic Strategies - ALS: English 40B.  1 Unit
Study skills supplemental instruction for selected General Education
courses. Effective learning strategies for the academic course in which
the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 52K.  Academic Strategies - ALS: English 50A.  1 Unit
Study skills supplemental instruction for selected General Education
courses. Effective learning strategies for the academic course in which
the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 52L.  Academic Strategies - ALS: English 50B.  1 Unit
Study skills supplemental instruction for selected General Education
courses. Effective learning strategies for the academic course in which
the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 52M.  Academic Strategies - ALS: COMS 4.  1 Unit
Study skills supplemental instruction for selected General Education
courses. Effective learning strategies for the academic course in which
the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 53A.  Academic Strategies-CBA: Accountancy 1.  1 Unit
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education
courses. Effective learning strategies for the academic course in which
the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 53B.  Academic Strategies-CBA: Accountancy 2.  1 Unit
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education
courses. Effective learning strategies for the academic course in which
the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 53C.  Academic Strategies-CBA: Decision Science 101.  1 Unit
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education
courses. Effective learning strategies for the academic course in which
the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 54A.  Academic Strategies-ECS: Computer Science 15.  1 Unit
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education
courses. Effective learning strategies for the academic course in which
the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 54B.  Academic Strategies-ECS: Computer Science 20.  1 Unit
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education
courses. Effective learning strategies for the academic course in which
the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 55A.  Academic Strategies-HHS: Criminal Justice 1.  1 Unit
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education
courses. Effective learning strategies for the academic course in which
the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 56A.  Academic Strategies-NSM: ASTR 4B.  1 Unit
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education
courses. Effective learning strategies for the academic course in which
the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 56B.  Academic Strategies-NSM: Biology 22.  1 Unit
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education
courses. Effective learning strategies for the academic course in which
the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 56C.  Academic Strategies-NSM: Chemistry 4.  1 Unit
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education
courses. Effective learning strategies for the academic course in which
the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit
ALS 56D. Academic Strategies-NSM: Chemistry 1A.
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 56E. Academic Strategies-NSM: Chemistry 1B.
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 56F. Academic Strategies-NSM: Chemistry 24.
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

1 Unit
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 56K. Academic Strategies-NSM: Geology 7.
1 Unit
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 56L. Academic Strategies-NSM: Geology 8.
1 Unit
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 56M. Academic Strategies-NSM: Physics 5A.
1 Unit
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 56N. Academic Strategies-NSM: Physics 5B.
1 Unit
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 56P. Academic Strategies - NSM: Biology 1.
1 Unit
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 56Q. Academic Strategies - NSM: Biology 10.
1 Unit
Corequisite(s): BIO 10
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

1 Unit
Corequisite(s): BIO 20
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 56S. Academic Strategies - NSM: Geography 1.
1 Unit
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit
ALS 57A. Academic Strategies-SSIS: Economics 1A. 1 Unit
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 57B. Academic Strategies-SSIS: Economics 1B. 1 Unit
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 57C. Academic Strategies-SSIS: Government 1. 1 Unit
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 57D. Academic Strategies-SSIS: Psychology 2. 1 Unit
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 57E. Academic Strategies-SSIS: FACS 10. 1 Unit
Corequisite(s): FACS 10
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 57F. Academic Strategies-SSIS: PSYC 101. 1 Unit
Term Typically Offered: Fall, Spring
Study skills adjuncts/SI classes for selected General Education courses. Effective learning strategies for the academic course (PSYC 101) in which the student is concurrently enrolled.
Note: May be repeated for credit; Instructor approval required.
Credit/No Credit

ALS 57G. Academic Strategies-SSIS: Anthropology 2. 1 Unit
Corequisite(s): ANTH 2
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 57H. Academic Strategies - SSIS: Economics 100A. 1 Unit
Term Typically Offered: Fall, Spring
Study skills supplemental instruction for selected General Education courses. Effective learning strategies for the academic course in which the student is concurrently enrolled.
Note: May be repeated for credit.
Credit/No Credit

ALS 70A. Strategies of Learning for EOP Students. 1 Unit
Term Typically Offered: Fall, Spring
This course is designed to provide individual approaches to self knowledge, motivation, educational philosophy and skills necessary to give the student a firm foundation for a productive educational program during his/her college and post-college career. The basic intent is to help the student perceive his/her position in the educational process, understand the necessity for succeeding, and learn how to succeed in college.
Credit/No Credit

ALS 79A. Developing Student Leadership EOP. 1 - 3 Units
Term Typically Offered: Fall, Spring
The course is designed to provide students an opportunity to develop leadership skills that will serve them throughout their college career. They will become familiar with the opportunities for leadership and growth at Sacramento State. Skills developed will include public speaking, team building, delegation, communication, and others.
Credit/No Credit

ALS 96. Academic Strategies: Experimental. 1 Unit
Term Typically Offered: Summer only
ALS 96 is a 1-unit, 1-week early start course for baccalaureate credit designed to prepare students for fall GE area A2. Working independently and collaboratively, students will use an inquiry-based approach to learning through research, reflection, and engagement with real world scenarios. Students will develop various academic literacies in order to understand the conventions of written communication required for success in a college setting.
Note: May be repeated for credit. Cross listed: MATH 96E.
Credit/No Credit

ALS 101. Texts Over Time. 3 Units
Term Typically Offered: Fall, Spring
Drawing on selected texts from across at least two historical periods or cultural settings, students will refine their skills of textual appreciation and analysis with an eye toward enhanced understanding of the texts in their historical and cultural contexts.
ALS 102. Individual, Community, and Citizenship. 3 Units
Term Typically Offered: Fall, Spring
This course examines the relationship between the individual and the community across at least two historical periods or cultural settings. Students will examine how perceptions of this relationship contribute to an understanding of belonging to or exclusion from political and social life.

ALS 103. Creativity, Meaning, and Criticism. 3 Units
Term Typically Offered: Fall, Spring
This course examines the theoretical and practical bases that sustain the creative process, especially as it is engaged in the production and interpretation of meaning in the arts and literatures, as well as the foundation for their criticism.

ALS 104. Happiness, Well-Being and the Good Life. 3 Units
Term Typically Offered: Fall, Spring
This course will examine the conditions and characteristics of living a good life, how happiness and well-being contribute to it, and its value as expressed in a range of human activities. Students will examine happiness, well-being and the good life in at least two historical periods or cultural settings.

ALS 151. The Studio: Explorations in Arts and Letters. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring
This course provides students with an opportunity to become informed and engaged participants in the cultural, artistic and literary dimensions of their communities. Students will explore the ways our experience of and appreciation for cultural products is informed by exposure to theory and practice in each of the Arts and Letters disciplines.

ALS 160. Arts Organizational Management and Communication. 3 Units
Term Typically Offered: Fall, Spring
This course provides a foundation in the management of arts organizations, creative enterprises, and other endeavors. Students will examine the administrative aspects of arts organizations to understand how these organizations are structured and operate. Students will gain experience with professional communication practices including intra-organizational communication and communication with external partners and clients. Students will also explore how communication practices simultaneously shape and are shaped by organizations.

ALS 195. Internship in Arts and Letters. 1 - 3 Units
Prerequisite(s): Faculty approval required; Upper division status; Overall Sacramento GPA 2.3
Term Typically Offered: Fall, Spring
Directed work experience in the internship program. Instructional staff and the cooperating agency provide supervision.
Credit/No Credit

ALS 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed study.
Note: Petition and faculty approval required; may be repeated for credit.
Credit/No Credit

Asian Studies (ASIA)

ASIA 1. Asia in the World Today. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall only
This course provides a foundation in the area studies discipline of Asian Studies as a distinct thematic and geographic area of inquiry. Offers a brief introduction to trending issues in East, Southeast, and South Asia, such as migration, human rights, religion, development, food, film, music, etc. through the lens of art, geography, history, culture, economics, society, religion, and politics.

ASIA 96. The Way of Chanoyu: An Interdisciplinary Approach to the Japanese Tea Gathering. 3 Units
Term Typically Offered: Fall, Spring
This course traces the development of a multifaceted cultural practice integrating architecture, garden design, art, painting, and calligraphy into a carefully constructed hospitality ritual. Students explore multiple aspects of Japanese Chado via hands-on learning including aesthetic, economic, scientific, socio-political and cultural dimensions associated with tea. The course is taught in the Nakatani Tea Room, including weekly classroom lectures and discussions, demonstrations, on-line learning modules, a group project, and typically, a day field trip to San Francisco. Field trip(s) may be required.

ASIA 110. Anthropology of Contemporary Asia. 3 Units
Prerequisite(s): ANTH 146 or instructor permission
Term Typically Offered: Fall only
This course examines contemporary Asia as an articulation of intersecting historical, cultural, political and economic processes. The course will focus on postcolonial developments and critically explore the manner in which process of globalization and neoliberal strategies embed themselves within, and the responses they elicit from societies across Asia.

ASIA 111. Asian Diaspora and Migration. 3 Units
General Education Area/Graduation Requirement: GE AREA D, Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall only
Survey of the social, political, cultural, and economic factors surrounding contemporary transnational migration across and beyond Asia. Presents a comparative analysis of the impact of colonialism and the Cold War on Asian diaspora and engages with theoretical debates in migration studies. Examines the intersectionality of class, gender, and ethnicity upon immigrant communities in the U.S. and around the world.

ASIA 134. History of Modern Korea. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only
Traces the historical development of modern Korea since the colonial era of the late 19th century. Explores historiographies, theoretical debates, and films dealing with the following themes: national ideology and national bodies, economic and political contentions, modern education and scientific management, class and gender formation, capitalism and urbanization, colonial migration and cosmopolitanism, anti-colonialism, and socialist/revolutionary thought.
ASIA 135. Contemporary Korean Culture. 3 Units
Term Typically Offered: Spring only

This course provides a comprehensive understanding of Korean culture and society through the analysis of contemporary Korean popular media. By critically examining the particular cultural phenomenon of the Korean Wave, this course upholds various Korean popular media (film drama, documentaries, and music) as significant forms of visual culture, which reflect as well as shape the reality of people's everyday lives both within and outside Korea.

ASIA 136. Korean Development and Behavior. 3 Units
This course examines critical issues in Korean human development and behavior with particular attention given to current theoretical perspectives within a fast developing society. Topics include identity, cognitive development, mental health, tiger parenting, gender roles, socio-emotional development, body image, and transracial adoptions. This course integrates an interdisciplinary approach and includes indigenous discourse on Confucianism and Eastern and Western thought to understand the underlying processes of the Korean heritage person as an individual and as a member of a larger society.

ASIA 137. North Korean Politics and Society. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall only

Examines the unique type of North Korean socialism, nationhood, and 'peoplehood', and provides a new historical and theoretical understanding of militarization, socialist transition in a global economy, social hierarchy, political leadership, and foreign policy. Explores theories of state and socialism, historical narratives, ethnographies, firsthand witness stories, journalistic analysis, documentaries, and films made in and beyond North Korea.

ASIA 138. Modern East Asian Cinema. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Arts (Area C1)
Term Typically Offered: Fall, Spring, Summer

Survey of the development of cinema in Asia, focusing primarily on cinematic masterpieces from China, Hong Kong, and Japan. Focuses on directors, actors, and studios that left a lasting mark on cinema history. Also focuses on how the Asian aesthetic sense differs from the Hollywood norm.
Cross-Listed: HIST 140; only one may be counted for credit.

ASIA 140. US-China Relations. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring, Summer

This course explores the historical foundation of US-China relations, tracing from 19th century encounters through world wars, ideological confrontation, rapprochement, and into the contemporary era. Focus on international and political dimension of diplomatic and strategic interests, also explores cultural and social connections through trade, investment, migration, and tourism.
Cross-listed: POLS 146.

ASIA 151. Genocide in Southeast Asia. 3 Units
Term Typically Offered: Fall, Spring

Survey of human rights abuses and genocides that have occurred in post-colonial Southeast Asia. Focuses on mass killings in Indonesia and Cambodia and communal riots often targeting the ethnic Chinese community, religious minorities, or highland peoples like the Hmong. Topics include cultural genocide, ideological pressure, and ethnic intolerance. An interdisciplinary literature will interpret the causes and conditions while introducing students to the diverse societies and cultures of Southeast Asia.

ASIA 190. Travel Study in Asia. 1 - 6 Units
Term Typically Offered: Fall, Spring, Summer

A faculty-led study abroad course to Asia. Students will learn about one or more Asian countries through living and traveling in the country(ies), classroom instruction, and field trips to various sites. Fee course. Fee course.
Field trip(s) may be required.

ASIA 195. Internship: Asian Studies. 1 - 3 Units
Term Typically Offered: Fall, Spring

Supervised work experience on topics related to the study of Asia's art, culture, economics, geography, environment, politics, and government and social issues.
Credit/No Credit

ASIA 198. Modernity and Globalization in Asia. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Humanities (Area C2)
Term Typically Offered: Spring only

Survey of the history, politics, culture, and economy across Asia. Engages with key topics that have shaped Asia as of today and introduces the rise of the modern, building of nation-states, and globalization. Examines the impact of colonialism, imperialism, cold war politics, developmentalism, and global concerns across and beyond Asian countries.

ASIA 151. Genocide in Southeast Asia. 3 Units
Term Typically Offered: Fall, Spring

Survey of human rights abuses and genocides that have occurred in post-colonial Southeast Asia. Focuses on mass killings in Indonesia and Cambodia and communal riots often targeting the ethnic Chinese community, religious minorities, or highland peoples like the Hmong. Topics include cultural genocide, ideological pressure, and ethnic intolerance. An interdisciplinary literature will interpret the causes and conditions while introducing students to the diverse societies and cultures of Southeast Asia.

ASIA 190. Travel Study in Asia. 1 - 6 Units
Term Typically Offered: Fall, Spring, Summer

A faculty-led study abroad course to Asia. Students will learn about one or more Asian countries through living and traveling in the country(ies), classroom instruction, and field trips to various sites. Fee course. Fee course.
Field trip(s) may be required.

ASIA 195. Internship: Asian Studies. 1 - 3 Units
Term Typically Offered: Fall, Spring

Supervised work experience on topics related to the study of Asia's art, culture, economics, geography, environment, politics, and government and social issues.
Credit/No Credit

ASIA 198. Modernity and Globalization in Asia. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Humanities (Area C2)
Term Typically Offered: Spring only

Survey of the history, politics, culture, and economy across Asia. Engages with key topics that have shaped Asia as of today and introduces the rise of the modern, building of nation-states, and globalization. Examines the impact of colonialism, imperialism, cold war politics, developmentalism, and global concerns across and beyond Asian countries.

ASIA 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual research projects, including directed readings, under the direction of an Asian Studies faculty person.
Credit/No Credit

Astronomy (ASTR)

ASTR 4A. Introduction to the Solar System. 3 Units
Prerequisite(s): One year of high school geometry or instructor permission.
General Education Area/Graduation Requirement: Physical Science (B1)
Term Typically Offered: Spring only

ASTR 4B. Introduction to Stars, Galaxies, and Cosmology. 3 Units
Prerequisite(s): One year high school geometry or instructor permission.
General Education Area/Graduation Requirement: Physical Science (B1)
Term Typically Offered: Fall, Spring

Description and explanations of astronomical phenomena related to stars, galaxies, and cosmology. Structure and evolution of stellar and galactic systems. Occasional observation periods.

ASTR 4C. Introduction to Astrobiology. 3 Units
Prerequisite(s): One year high school geometry or instructor permission.
General Education Area/Graduation Requirement: Physical Science (B1)
Term Typically Offered: Fall only

ASTR 6. Astronomical Observation Laboratory. 1 Unit
Prerequisite(s): ASTR 4A, ASTR 4B, or ASTR 4C with C- or better; may be taken concurrently.
General Education Area/Graduation Requirement: Physical Science (B1), Laboratory (B5)
Term Typically Offered: Fall, Spring, Summer

Study and use of various telescopes; field observation of planets, stars, meteors, asteroids, the moon and sun; laboratory activities relevant to astronomy. Lab three hours.

ASTR 131. The Solar System and Space Exploration. 3 Units
Prerequisite(s): ASTR 4A or ASTR 4B or ASTR 4C or PHYS 11A or CHEM 1A and GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Further Studies in Area B (B5)
Term Typically Offered: Fall only

Planets and satellites, including their composition, structure, and atmospheres, with emphasis on modern techniques and observations. Solar surface phenomena and their influence on planets through the solar wind. Comets, meteorites, and their implications for the origin and evolution of planets. Physical effects governing feasible forms of space exploration and colonization.

Note: This course is approved as a Writing Intensive course.

ASTR 132. Stars, Galaxies and Cosmology. 3 Units
Prerequisite(s): ASTR 4A or ASTR 4B or ASTR 4C or PHYS 11A or CHEM 1A and GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Further Studies in Area B (B5)
Term Typically Offered: Spring only

Types and evolution of stars; structure and evolution of galaxies; overall structure of the universe; current developments in astronomy.

Note: This course is approved as a Writing Intensive course.

ASTR 150. Dark Matter and Dark Energy. 3 Units
Prerequisite(s): PHYS 106
Corequisite(s): PHYS 110
Term Typically Offered: Spring only – odd years

Introduction to historical, observational and theoretical principles of dark matter and dark energy in the Universe. Topics will include dark matter in galaxies (rotation curves, stellar motions), dark matter in clusters (virial theorem, x-ray observations), MACHOs and WIMPs as dark matter candidates, as well as the discovery of dark energy through supernovae observations, and additional probes of dark energy. Dark matter and dark energy will be discussed in the cosmological context of the Big Bang theory.

ASTR 180. Through Space and Time in the Planetarium. 3 Units
Prerequisite(s): Completion of GE Area B1 and B4.
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring

An exploration of the heavens through space and time using the planetarium as an investigative tool. This course covers the historical, observational and theoretical principles of astronomy. Topics include the nature of science, structure of the universe, the sky view, orbital motions, precession, constellations, lunar phases and eclipses. The course will also explore the observational evidence for modern and ancient world views.

ASTR 199. Special Problems. 1 - 2 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading.
Note: Open only to students competent to assume individual work on approval of the instructor. Up to 2 units may be taken for a grade.

Credit/No Credit

Athletics (ATIC)

ATIC 61. Men's Cross Country. 2 Units
Prerequisite(s): Intercollegiate Student Athletes only
Term Typically Offered: Fall, Spring

Practice begins mid-August and the season ends in mid-November.
Credit/No Credit

ATIC 62. Men's Tennis. 2 Units
Prerequisite(s): Intercollegiate Student Athletes only
Term Typically Offered: Fall, Spring

Practice begins the first day of the fall semester and the spring schedule ends the last of May.
Credit/No Credit

ATIC 63. Men's Track and Field. 2 Units
Prerequisite(s): Intercollegiate Student Athletes only
Term Typically Offered: Fall, Spring

Indoor Track and Field practice begins in the fall. The competitive season is in the winter. Outdoor Track and Field practice begins the first day of spring semester and the season ends the last week of May.
Credit/No Credit

</table>
### ATIC 88. Women's Cross Country.  
**2 Units**  
**Prerequisite(s):** Intercollegiate Student Athletes only  
**Term Typically Offered:** Fall, Spring  
Practice begins mid-August and the season ends in mid-November. Credit/No Credit

### ATIC 89. Women's Track and Field.  
**2 Units**  
**Prerequisite(s):** Intercollegiate Student Athletes only  
**Term Typically Offered:** Fall, Spring  
Indoor Track and Field practice begins in the fall. The competitive season is in the Winter. Outdoor Track and Field practice begins the first day of spring semester and the season ends the last week of May. Credit/No Credit

### ATIC 167. Coaching of Football.  
**3 Units**  
**Term Typically Offered:** Fall, Spring  
Examines all phases of the game, including offense, defense and special teams. Other topics covered are public/media relations, budget management, academic rules, marketing strategies, officiating, equipment and many other aspects. Lecture two hours, activity two hours.

### ATIC 175. Sports Information Fieldwork.  
**1 - 3 Units**  
**Prerequisite(s):** JOUR 123 or instructor permission.  
**Term Typically Offered:** Fall, Spring  
Directed observations and work experience with intercollegiate athletics sports information support services. Field work is offered to give students orientation in the profession of sports information services. Supervision is provided by the instructional staff of the university. Each student is required to maintain a record of activities and assignments and to prepare periodic reports.  
**Note:** May be repeated once for credit. Credit/No Credit

### ATIC 195. Field Experience in Intercollegiate Athletics.  
**1 - 3 Units**  
**Term Typically Offered:** Fall, Spring  
Directed experience in athletics. Student interns keep records of daily experiences and prepare periodic progress reports. Succeeding enrollments should be in different sports.  
**Note:** Registration requires prior approval of Director of Athletics. Credit/No Credit

### ATIC 199. Directed Individual Study.  
**1 - 3 Units**  
**Term Typically Offered:** Fall, Spring  
Individual research, project or directed reading.  
**Note:** Registration requires approval of the faculty under whom the individual work is to be conducted and the Director of Athletics. Credit/No Credit

### Biological Sciences (BIO)

**5 Units**  
**General Education Area/Graduation Requirement:** Life Forms (B2), Laboratory (B3)  
**Term Typically Offered:** Fall, Spring, Summer  
Introduction to properties of life and cells leading to genetic and biological diversity. Survey of biological diversity emphasizing variation leading to natural selection; introduction to ecological concepts within an evolutionary framework; a survey of ecosystems and global climate change. Development of scientific skills will be emphasized. Designed for science majors. Lecture three hours; laboratory three hours; activity two hours; fee course.  
**Note:** Field trips may be required. Fee course. Field trip(s) may be required.

#### BIO 2. Cells, Molecules and Genes.  
**5 Units**  
**Prerequisite(s):** BIO 1 and CHEM 1A.  
**Term Typically Offered:** Fall, Spring  
Introduction to molecular and cellular biology and genetics. Topics include biomolecules, cell structure and function, cellular energetics, molecular flow of information, cell division, and genetic inheritance. Development of scientific skills and a scientific mindset will be emphasized throughout the course, particularly in lab exercises and activities. Designed for science majors. Lecture three hours; laboratory three hours; activity two hours.

**4 Units**  
**General Education Area/Graduation Requirement:** Laboratory (B3), Life Forms (B2)  
**Term Typically Offered:** Fall, Spring  
Introduction to major concepts of biology, including properties of living things, cells and their molecular constituents, the unity and diversity of organisms, genetics, ecology, evolution, and the scientific methods of investigation employed by biologists. Satisfies requirements in biology for students planning to obtain the Multiple Subject Teaching Credential. Lecture three hours; laboratory three hours. Fee course. Fee course.

**3 Units**  
**General Education Area/Graduation Requirement:** Life Forms (B2)  
**Term Typically Offered:** Fall, Spring  
Designed for non-majors, this course is an introduction to the biological science behind important issues that face us today, such as those surrounding evolution, endangered species, conservation of ecosystems, and the behavior of organisms. By gaining an understanding of the scientific approach and the principles of evolution, ecology and behavior, students will be equipped to evaluate scientific developments and arguments in these and other issues as informed citizens. Lecture three hours.  
**Note:** Not open to Biological Sciences majors or students who have received credit for BIO 1 or BIO 2.
BIO 10.  Basic Biological Concepts. 3 Units
General Education Area/Graduation Requirement: Life Forms (B2)
Term Typically Offered: Fall, Spring

An intensive introductory course for non-majors who will take additional course work in biology or related disciplines, including the allied health sciences. Introduction to the biological sciences with strong emphasis on cellular structure and metabolism, molecular biology and genetics, as well as concepts and principles common to all living systems including ecology and evolution. Lecture three hours. Fee course.

Note: Not open to Biological Sciences majors or students who have received credit for BIO 1 or BIO 2.

BIO 15L.  Laboratory Investigations in Biology. 1 Unit
Prerequisite(s): BIO 9, BIO 10 or BIO 20.
Corequisite(s): BIO 9, BIO 10 or BIO 20.
General Education Area/Graduation Requirement: Laboratory (B3)
Term Typically Offered: Fall, Spring

Introductory laboratory investigation of the major principles of biology, including properties of all living things, the unity and diversity of organisms, structure and function of cells, energy and metabolism, genetics, ecology, evolution, and the scientific methods of investigation employed by biologists. Laboratory three hours.

Note: Not open to Biological Sciences majors or students who have received credit for BIO 1 or BIO 2.

BIO 20.  Biology: A Human Perspective. 3 Units
General Education Area/Graduation Requirement: Life Forms (B2)
Term Typically Offered: Fall, Spring

Introduction to biological concepts with emphasis on their application to humans. Topics include: Evidenced-based decision making with respect to food, nutritional supplements, drugs, pathogens, and biotechnology. How heredity and evolution contribute to our understanding of personality, sex, behavior, addiction, disease, and aging is also discussed. Lecture three hours.

Note: Not open to majors in biological sciences and/or students who have received credit for BIO 10.

BIO 22.  Introductory Human Anatomy. 4 Units
Prerequisite(s): BIO 1, BIO 2 or BIO 10
Term Typically Offered: Fall, Spring

Introduction to the study of the gross and microscopic structure of the human body using a systemic approach. Lecture three hours; laboratory three hours. Fee course.

BIO 25.  Human Anatomy and Physiology I. 4 Units
Term Typically Offered: Fall, Spring

BIO 25/26 series provides an introduction to the structure and function of the major organ systems of the human body. BIO 25 offers basic terminology and concepts pertaining to the disciplines of anatomy and physiology, including structure/function relationships, homeostasis, and organizational levels; and provides an introduction to the structure and function of the muscular and nervous systems.

Note: Not open to students who have successfully completed BIO 22 and BIO 131, or an equivalent combination of separate anatomy and physiology courses. Lecture three hours; laboratory three hours. Fee course.

BIO 26.  Human Anatomy and Physiology II. 4 Units
Prerequisite(s): BIO 25 or instructor permission.
Term Typically Offered: Fall, Spring

BIO 25/26 series provides an introduction to the structure and function of the major organ systems of the human body. BIO 26 provides an introduction to the structure and function of the cardiovascular, respiratory, renal and digestive systems, and emphasizes homeostatic control mechanisms.

Note: Not open to students who have successfully completed BIO 22 and BIO 131, or an equivalent combination of separate anatomy and physiology courses. Lecture three hours; laboratory three hours. Fee course.

BIO 30.  Anatomy & Physiology - Brief Course. 4 Units
Prerequisite(s): Physical Education majors only
Term Typically Offered: Fall, Spring

An overview of the basic anatomy and physiology of all systems. Designed to meet the standards for the Physical Education Subject Matter Program, but may also may prepare students for study in other health-related fields.

BIO 39.  Microbiology for Allied Health Students. 4 Units
Prerequisite(s): BIO 10; CHEM 5 or CHEM 6A and CHEM 6B or equivalent.
Term Typically Offered: Fall, Spring

Introduction to micro-organisms, particularly bacteria and viruses, with emphasis on health care-related applications of microbiology using case studies. Laboratory work includes aseptic techniques, methods of cultivating and identifying bacteria, demonstration of microbial properties and will provide practice with basic microbiological skills. Lecture three hours; laboratory three hours. Fee Course.

Note: Does not satisfy microbiology requirement for Biological Sciences majors.

BIO 100.  Introduction to Scientific Analysis. 3 Units
Prerequisite(s): BIO 1, BIO 2, and STAT 1; declared Biological Sciences majors only or instructor consent.
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring

Prepares students for upper division Biology coursework and careers in science using a curriculum centered on critical thinking and evidence-based instruction and activities. Covers core competencies required for the practice of science: 1) evaluative reading, 2) written and oral communication, 3) analysis/quantitative reasoning, and 4) experimental design. Online lecture two hours. In-person laboratory three hours.

Note: Course cannot be taken concurrently with or after taking BIO 167.
BIO 102. The Natural History of Plants. 3 Units
Prerequisite(s): A college course in biology or instructor permission.
Term Typically Offered: Fall, Spring

Major plant communities of California provide a framework for understanding the interrelationships of natural environments and the dominant trees and shrubs of these areas. Identification of these species and the wildflowers of the communities are emphasized in the lab and field trips. Designed for minors in biology or for those with an interest in their natural surroundings, but is acceptable for majors who have not completed BIO 112. Lecture one hour; laboratory six hours. Fee course. Fee course. Field trip(s) may be required.

BIO 103. Plants and Civilization. 3 Units
Prerequisite(s): BIO 10 or equivalent.
Term Typically Offered: Fall only

Study of the significance of plants in the development of human civilization. Emphasis will be placed on the botanical, sociological and economic aspects of plants useful to humans. Lecture three hours.

BIO 104. Physiology of Human Reproduction. 3 Units
Prerequisite(s): BIO 1, BIO 2 or BIO 10.
Term Typically Offered: Fall only

Study of the physiology of human reproduction. Topics to be covered include: gametogenesis, the basis of fertility, conception, prenatal development, parturition, lactation and the physiology of contraception. Lecture three hours.

BIO 105. Life in the Ocean. 3 Units
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Study of marine life and ocean ecosystems. Exploration of the unique adaptations of marine life, how marine organisms interact with their environment, diversity of marine habitats from coral reefs to deep sea, and conservation. Does not count toward the Biological Sciences Major. Lecture three hours.

BIO 106. Genetics: From Mendel to Molecules. 3 Units
Term Typically Offered: Fall, Spring

Introduction to the principles of genetics and scientific approaches used to define those principles. The physical basis of heredity, the impact of selective breeding and genetic engineering will be discussed. Lecture two hours; discussion one hour.
Note: BIO 10 recommended.

BIO 109. Biology of Dinosaurs. 3 Units
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Introduction to the biology of the dinosaurs. Dinosaurs came in a vast array of shapes and sizes and exemplify biodiversity. This course will examine the dinosaurs in an evolutionary framework, discussing their origin, the major lineages, phylogeny and what they look like today. The course will take advantage of the recent surge in scientific investigations into the biology of dinosaurs, such as parental care, sexual selection, group living, flight and feathers. Does not count toward the Biological Sciences Major.

BIO 110. Plant Taxonomy. 4 Units
Prerequisite(s): BIO 1 and BIO 2.
Term Typically Offered: Spring only

Spring flora of central California is used as the focus of study in the classification and identification of native vascular plants. Lecture two hours; laboratory six hours. Field trips may be required. Fee course. Fee course. Field trip(s) may be required.

BIO 112. Evolution and Speciation in Flowering Plants. 3 Units
Prerequisite(s): BIO 1 and BIO 2 or equivalent.
Term Typically Offered: Fall only – even years

A survey of the important tools and mechanisms used to study speciation in plants. Topics include the molecular basis of evolutionary change, intraspecific genetic variation at both the local and landscape levels, theory regarding mechanisms of speciation, and the importance of polyploidy. Readings will be from both a text and from the primary literature, and will include in-depth discussions of historical and modern studies in plant evolution. Lecture three hours.

BIO 115. Introduction to Neuroscience. 4 Units
Prerequisite(s): PSYC 2 and PSYC 9; PSYC or BIO majors only. PSYC 9 recommended.
Term Typically Offered: Fall, Spring

Investigation of the structure and function of the central nervous system including neuroanatomy and neuropsychology, sensorimotor integration. The lectures and readings emphasize the empirical questions, techniques and methods used in neuroscience research. Laboratory exercises focus on gross- and micro- neuroanatomy, models of membrane electrophysiology and motor system function. Lecture/discussion three hours; laboratory three hours.
Cross Listed: PSYC 115; only one may be counted for credit.

BIO 116. Natural Resource Conservation. 3 Units
Prerequisite(s): BIO 1 and BIO 2.
Term Typically Offered: Fall only

Introduction to the principles and practices of biological conservation. Historical development of conservation philosophy; current issues in conservation of renewable natural resources; conservation administration. Lecture three hours.

BIO 120. Biology of Aging. 3 Units
Prerequisite(s): BIO 1, BIO 2, BIO 10 or BIO 20.
Term Typically Offered: Fall, Spring

Theories of aging, cellular aging and aging effects on the various human body systems. Lecture three hours.
Note: Not open for credit to students who have previously taken BIO 131.

BIO 121. Molecular Cell Biology. 3 Units
Prerequisite(s): BIO 184
Term Typically Offered: Fall, Spring

Comparison of the cellular and molecular biology of prokaryotic and eukaryotic cells. Emphasis will be placed on membrane structures, transport phenomena, cell to cell communication, cellular reproduction, genetic architecture, gene expression and metabolism, as well as the eukaryotic endomembrane, cytoskeleton and extracellular matrix systems. Lecture three hours.
### BIO 122. Advanced Human Anatomy
**Prerequisite(s):** BIO 22  
**Term Typically Offered:** Spring only

Gross structure of the human body using a regional approach. Lecture three hours; laboratory three hours. Fee course.

### BIO 123. Neuroanatomy
**Prerequisite(s):** BIO 22  
**Term Typically Offered:** Fall only

Gross and microscopic structures of the central, peripheral and autonomic nervous systems. The lectures are correlated with laboratory exercises and demonstrations using human prosected cadaver specimens, audio-visual slide projected materials, charts and models. Lecture two hours; laboratory three hours. Fee course.

### BIO 124. Comparative Vertebrate Morphology
**Prerequisite(s):** BIO 1 and BIO 2  
**Term Typically Offered:** Spring only

Study of the anatomical systems of vertebrates in an evolutionary and functional context. Covers vertebrate form, function, development and phylogeny, overviews of organ systems, and how their modification founded the major events of vertebrate evolution including metamorphosis, water-to-land transition, tetrapodal locomotion, feeding and reproduction. Labs complement lectures with dissections of three representative species (shark, salamander, cat), and surveys of specializations in other forms. Lecture two hours; laboratory three hours. Fee course.

### BIO 125. Body Fluid Analysis
**Prerequisite(s):** CHEM 161 or instructor permission  
**Term Typically Offered:** Fall only

Production of body fluids (e.g., urine, cerebrospinal, pleural, peritoneal, pericardial, and synovial fluids); their normal characteristics and pathological changes will be discussed. A description of the laboratory tests used in the clinical evaluation of body fluids will also be presented.

### BIO 126. Plant Anatomy and Physiology
**Term Typically Offered:** Spring, Fall

An integrative examination of our current understanding of plant structure and function. Students will apply fundamental principles of cell and molecular biology, evolution, and ecology to understand the relationships between plant anatomy and plant physiology that have enabled plants to achieve such a high level of success as primary producers on our planet. Lecture three hours, laboratory three hours. Fee course.

### BIO 127. Developmental Biology
**Prerequisite(s):** BIO 2 AND BIO 184  
**Term Typically Offered:** Fall only

This course examines the progression of fertilized eggs of vertebrate organisms through embryonic development. This progression will be studied at biochemical, molecular, genetic, morphological and physiological levels, with an emphasis on the progressive changes that occur within cells, tissues and organs in the embryo. We will use a comparative approach between a variety of model organisms to understand similarities and differences among vertebrate and selected invertebrate species. Fee course.
BIO 134. Medical Mycology. 3 Units
Prerequisite(s): BIO 139.
Term Typically Offered: Spring only – even years

Study of the morphology, cultural characteristics and classification of fungi which are pathogenic for humans, as well as fungi which appear as common contaminants. Lecture two hours; laboratory three hours. Fee course.

BIO 135. Endocrinology. 3 Units
Prerequisite(s): BIO 121.
Term Typically Offered: Fall only

Advanced consideration of the principles of endocrinology with special emphasis on the role of hormones in growth, metabolism, stress (including the hormonal interactions during exercise) and disease. Various endocrine disorders, will serve as the model for case studies, current literature analysis and advanced problem-solving activities. Lecture three hours.

BIO 139. General Microbiology. 4 Units
Prerequisite(s): BIO 184; CHEM 20 or CHEM 24
Term Typically Offered: Fall, Spring

Introduction to microorganisms, particularly bacteria and viruses, their physiology and metabolism. Laboratory work includes aseptic techniques, methods of cultivating and identifying bacteria, and demonstration of microbial properties. Lecture three hours; laboratory three hours. Fee course.

BIO 140. Medical Microbiology and Emerging Infectious Diseases. 3 Units
Prerequisite(s): BIO 39 or BIO 139.
Term Typically Offered: Spring only

Lectures, discussions, and readings regarding infectious viruses, bacteria, fungi, and parasites, with an emphasis on highly relevant pathogens including emerging infectious agents and microbes that are regionally endemic. The clinical syndrome, along with the molecular and cellular aspects of the course of infection of each pathogen will be discussed. Additionally, the history of microbiology and medicine as well as a brief overview of laboratory methods used for diagnosis will also be covered. Lecture three hours.

Note: BIO 140 cannot substitute for BIO 144 in the CLS concentration in Biological Sciences.

BIO 143. General Virology. 3 Units
Prerequisite(s): BIO 121 and BIO 139
Term Typically Offered: Spring only

Lectures and demonstrations on the fundamental characteristics and properties of plant, animal and bacterial viruses. Lecture three hours.

BIO 144. Pathogenic Bacteriology. 4 Units
Prerequisite(s): BIO 139.
Term Typically Offered: Fall only

Morphological, physiological and immunological characteristics of pathogenic bacteria. In the laboratory, pure culture studies are emphasized. Lecture two hours; laboratory six hours. Fee course.

BIO 145. The Diversity of Microorganisms. 4 Units
Prerequisite(s): BIO 139.
Term Typically Offered: Spring only

Isolation, cultivation and characterization of a wide variety of soil and water microbes from natural habitats using a variety of culture and non-culture based techniques; natural habitats also will be examined directly for the numbers and varieties of microbes which are present using bioinformatic and statistical tools. Lecture two hours; laboratory six hours.

BIO 149A. Immunology. 3 Units
Prerequisite(s): BIO 121 and BIO 139
Term Typically Offered: Fall only

Nature of antigens, antibodies and their reactions. The development of the immune response and its role in immunity and pathology. Lecture two hours.

BIO 149B. Immunology and Serology Laboratory. 1 Unit
Prerequisite(s): BIO 139, BIO 149A.
Term Typically Offered: Not offered

Laboratory exercises designed to provide familiarity with common clinical laboratory procedures in serology. Laboratory three hours. Fee course.

BIO 149C. Advanced Problems in Immunology. 1 Unit
Prerequisite(s): BIO 139 and CHEM 161.
Corequisite(s): BIO 149A.
Term Typically Offered: Fall only

Advanced problem-solving in immunology designed for students concurrently enrolled in BIO 149A. Discussions and problem sets are focused on the medical, clinical, and biotechnology applications of immunology. Discussion one hour.

Credit/No Credit

BIO 150. Forensic Biology. 3 Units
Prerequisite(s): BIO 1, BIO 2 and BIO 184.
Term Typically Offered: Spring only

Principles governing the application of biology and biological statistics to solve crimes. Topics include evidence examination and preservation, presumptive and confirmatory serological tests, hair comparison, generation and statistical analysis of mitochondrial and nuclear DNA profiles, structure and administration of the modern crime laboratory, and the role of the criminalist in the U.S. court system. Lecture two hours; laboratory three hours.

Note: Not offered every semester

BIO 151. Advanced Laboratory Techniques in Forensic Biology. 2 Units
Prerequisite(s): BIO 150 or instructor permission.
Term Typically Offered: Fall only

Laboratory exercises focusing on current research problems and skills in forensic serology, DNA typing, and court testimony. Topics will include DNA mixture and low copy number interpretation, advanced techniques in serological testing, research ethics, as well as skills for effective communication in the courtroom. Topics may also include Y-STR typing, animal and plant DNA identification and typing, microbial forensics, somatic mosaicism, ELISA specificity and sensitivity testing, and other current areas of active inquiry. Designed to prepare students for entry level positions as DNA analysts in federal, state, and local crime laboratories. Laboratory six hours. Fee course.

Fee course.
BIO 152. Human Parasitology. 3 Units
Prerequisite(s): BIO 1 and BIO 2.
Term Typically Offered: Spring only

Examines, in detail, the most important species of protozoans, flukes, tapeworms and roundworms that infect humans. Life cycles, pathology and prophylaxis constitute the principal topics in lectures. Morphology, physiology, taxonomy and diagnosis constitute the principal topics in the laboratory. Lecture two hours; laboratory three hours. Fee course. Fee course.

BIO 156. Food Microbiology. 3 Units
Prerequisite(s): BIO 139.
Term Typically Offered: Fall, Spring

Microbiology of food fermentations, food preservation and spoilage. Lecture two hours; laboratory three hours. Fee course. Fee course.

BIO 157. General Entomology. 4 Units
Prerequisite(s): BIO 1 and BIO 2.
Term Typically Offered: Fall only

Biology of insects and a brief consideration of other terrestrial arthropods. Includes structure, physiology, ecology, classification, economic importance, collection and preservation of insects. Lecture three hours; laboratory three hours. Fee course. Fee course.

BIO 160. General Ecology. 3 Units
Prerequisite(s): BIO 1 and BIO 2 or BIO 1 and BIO 10; BIO 100 or ENVS 120. Fee course.
Term Typically Offered: Fall, Spring

Examination of the interrelationships among organisms and their environments. Designed for the major in Biological Sciences or related fields. Topics include the structure and function of terrestrial and aquatic ecosystems, population and community dynamics and human effects on ecosystems. Projects and field trips required. Lecture two hours; laboratory three hours. Fee course. Fee course.

Field trip(s) may be required.

BIO 162. Ichthyology: The Study of Fishes. 3 Units
Prerequisite(s): BIO 1 and BIO 2.
Term Typically Offered: Fall only – even years

Biology of fishes: structure, physiology, ecology, economic importance, propagation and classification. Methods of identification, life history study, propagation, collection and preservation. Lecture two hours; laboratory three hours. Field trips may be required. Fee course. Fee course.

Field trip(s) may be required.

BIO 164. Amphibians and Reptiles: An Introduction to Herpetology. 3 Units
Prerequisite(s): BIO 1 and BIO 2.
Term Typically Offered: Spring only – even years

Taxonomy, natural history, ecology and distribution of amphibians and reptiles with emphasis on local forms. Lecture two hours; laboratory three hours. Field trips may be required. Fee course. Fee course.

Field trip(s) may be required.

BIO 165. Vertebrate Zoology. 3 Units
Prerequisite(s): BIO 1, BIO 2, or BIO 10, or permission of instructor.
Term Typically Offered: Summer only

Study of vertebrate life and structure-function relationships. Exploration of the unique and diverse vertebrates of North America. Integrating multiple disciplines (ecology, biology, evolution, and biomechanics) to explore the biology and evolutionary history of vertebrates. Survey and critically test important theories and hypotheses about vertebrate zoology through literature reviews, field experiments, analyses, and presentations. Field trip(s) may be required.

Field trip(s) may be required.

BIO 166. Ornithology. 3 Units
Prerequisite(s): BIO 1 and BIO 2.
Term Typically Offered: Spring only – odd years

Biology of birds: structure, physiology, ecology, behavior, and classification. Methods of life history study, ecological studies, laboratory and field identification. Lecture two hours; laboratory three hours. Field trips required. Fee course. Fee course.

Field trip(s) may be required.

BIO 167. Quantitative Methods in Biology. 3 Units
Prerequisite(s): STAT 1 and BIO 100 or graduate status
Term Typically Offered: Spring only

Focuses on statistical hypothesis testing and experimental design in the biological sciences. Topics include the development of a hypothesis, study design and implementation, management and presentation of data, identification of data types, and appropriate use of statistical procedures. General application to a wide range of biological disciplines and will emphasize the scientific process, critical thinking skills, and the interpretation of statistical results, which will include a project culminating a scientific paper and presentation. Lecture two hours; laboratory three hours.

BIO 168. Mammalogy. 4 Units
Prerequisite(s): BIO 1 and BIO 2.
Term Typically Offered: Fall only

Biology of mammals: structure, physiology, ecology, behavior, and classification. Methods of life history study, laboratory and field identification. Lecture two hours; laboratory three hours. Field trips required. Fee course.

Fee course.

Field trip(s) may be required.

BIO 169. Animal Behavior. 3 Units
Prerequisite(s): BIO 1 and BIO 2.
Term Typically Offered: Spring only

Introduction to the fascinating world of why animals do the things that they do. Focus is on the evolution and function of animal behavior through understanding the costs and benefits of different behavior including foraging, fighting and reproduction. Lecture two hours; laboratory three hours. Fee course. Fee course.
BIO 170. Advanced Nutrition and Metabolism. 3 Units
Prerequisite(s): CHEM 161, FACS 113; or instructor permission.
Term Typically Offered: Spring only – odd years
Study of the physiologic function of carbohydrates, lipids, protein and micronutrients including integrated metabolism, transport, regulation and relation to inborn errors/chronic disease. Introduction to gene-nutrient interaction. Cross Listed: FACS 170; only one may be counted for credit.

BIO 173. Principles of Fisheries Biology. 3 Units
Prerequisite(s): BIO 160, STAT 1.
Term Typically Offered: Fall only – odd years
Introduction to the biological principles basic to fisheries science, including enumeration, recruitment, growth, abundance and mortality. Mathematics, computer modeling, and field methods will be used to understand natural populations and the impact of fishing on those populations in keeping with modern approaches to fisheries science which are grounded in population ecology and conservation biology. Lecture two hours; laboratory three hours. Fee course.
Fee course.

BIO 178. Molecular Ecology. 4 Units
Prerequisite(s): BIO 184
Corequisite(s): BIO 188
Term Typically Offered: Fall, Spring
A survey of the use of molecular tools to understand ecological questions. Lecture will focus on the background and history of the use of molecular tools in ecological settings, including application of molecular tools to conservation of natural resources. Laboratory will include techniques for both wet lab and analysis of molecular data, including interpretation of results. Students will complete a capstone-style project that will culminate in the production of a research proposal.

BIO 179. Conservation Biology & Wildlife Management. 3 Units
Prerequisite(s): BIO 100. BIO 160 recommended. Or instructor permission. Paired
Term Typically Offered: Spring only
Study of human effects and management of ecological systems, including populations, communities, and ecosystems. Topics include population and biodiversity responses to human activities, endangered species management, reserve design, and restoration. Paired course with Bio 279.
Note: Lecture two hours; laboratory and fieldwork three hours; meets in the same location with the same instructor as Bio 279; course cannot be taken concurrently with or after taking Bio 279; Bio 279 cannot be taken in the graduate program after completing Bio 179.

BIO 180. Advanced Molecular Biology. 4 Units
Prerequisite(s): BIO 121 and BIO 184.
Term Typically Offered: Fall, Spring
Examination of the structure of genes and genomes, the mechanisms by which they change, and the use of evolutionary relationships to understand function. Mechanisms of the regulation of gene expression from gene to phenotype and the tools used to study these processes. Applications of molecular tools in medicine and biotechnology and the ethics around these approaches. Lecture two hours, laboratory six hours.

BIO 183. Cancer Biology. 3 Units
Prerequisite(s): BIO 121 and BIO 184.
Term Typically Offered: Fall only
Study of cancer from the molecular level to the effect on whole tissues and organs. Topics to be covered include the classification and nomenclature of cancers, the process leading up to the formation of a cancer, the possible causes of cancer, and possible treatment. Lecture two hours.

BIO 183A. Advanced Problems in Cancer Biology. 1 Unit
Prerequisite(s): BIO 121 and BIO 184 and BIO 183 or instructor permission; BIO 183 may be taken concurrently
Term Typically Offered: Fall, Spring
Literature searches and discussions are focused on medical, clinical, and biotechnological applications of Cancer Biology.

BIO 184. General Genetics. 4 Units
Prerequisite(s): BIO 1 and BIO 2; declared major in Biological Sciences, Biochemistry, Chemistry or instructor consent
Term Typically Offered: Fall, Spring, Summer
Principles of inheritance as they relate to microorganisms, plants, animals and humans. Genetic mechanisms are analyzed according to evidence derived from both classical and current research. The nature, structure, and function of the genome are considered at the molecular level. Lecture three hours; laboratory three hours. Fee course. Fee course.

BIO 185. Topics in Biology. 3 Units
Prerequisite(s): BIO 10 or both BIO 1 and BIO 2; CHEM 20.
Term Typically Offered: Fall, Spring
Current topics in cellular, developmental and/or molecular biology. Topics will vary. May be taken more than once provided that topics are different. Lecture three hours.

BIO 186A. Cell and Molecular Biology Seminar. 1 Unit
Prerequisite(s): BIO 10 or both BIO 1 and BIO 2.
Term Typically Offered: Fall, Spring
Series of at least 10 seminars in cell and molecular biology. Topics within each seminar will vary each semester.
Note: May be repeated for credit. No more than one unit of BIO 186 may be counted toward the upper division major requirement.
Credit/No Credit

BIO 186B. Ecological and Environmental Issues Seminar. 1 Unit
Prerequisite(s): BIO 10 or both BIO 1 and BIO 2.
Term Typically Offered: Fall only
Series of at least 10 seminars in ecological and environmental issues. Topics within each seminar will vary each semester.
Note: May be repeated for credit. No more than one unit of BIO 186 may be counted toward the upper division major requirement. Cross Listed: ENVS 186B; only one may be counted for credit.
Credit/No Credit
BIO 186C. Introduction to Health Careers Seminar.  1 Unit
Term Typically Offered: Fall, Spring

Designed for pre-health professional students who are in the process of researching traditional and non-traditional health professions and careers. This course consists of at least 10 seminars presented by various practicing health professionals, health professional students, and health professional school admissions officers. Topics vary each semester. One hour per week.
Credit/No Credit

BIO 187. Advanced Cell Biology.  4 Units
Prerequisite(s): BIO 121 and BIO 184.
Term Typically Offered: Spring only

Advanced cellular and molecular biology of eukaryotic cells. Comparison to prokaryotic organism will be made as needed to illustrate key concepts. Emphasis will be placed on cellular functions and utilize two or more cellular systems; including cell to cell communication, regulation of gene expression, uptake and secretion, regulation of cytoskeletal configuration, cell migration and cellular reproduction. Lecture two hours, laboratory six hours.

BIO 188. Evolution.  3 Units
Prerequisite(s): BIO 184 or instructor permission.
Term Typically Offered: Fall, Spring

General survey of evolutionary processes: mechanisms of evolutionary change, adaptation and history of life. Designed for biological sciences majors. Lecture three hours.

BIO 194. Biology-Related Work Experience.  6 - 12 Units
Term Typically Offered: Fall, Spring

Supervised employment in a biology or biology-related company or agency arranged through the Department of Biological Sciences and the Cooperative Education Program office. Requires preparation of application packet, completion of a three to six month, full-time or part-time work assignment, and a written report.

Note: Open only to upper division or graduate students with appropriate preparation. Consent of Department Cooperative Education Committee required, and Committee will determine the number of units to be granted. Students may enroll for no more than 12 total units, and units may not be used to meet biology major or graduate course work requirements.
Credit/No Credit

BIO 195. Biological Internship.  1 - 2 Units
Prerequisite(s): Department chair and instructor (representing the appropriate preprofessional discipline) permission.
Term Typically Offered: Fall, Spring

Supervised work-learn experience in biology with a public or private organization. Up to 4 units may be taken. No more than 2 units from BIO 195, BIO 197 and BIO 199 combined can be applied to the biological sciences upper division major requirement.
Credit/No Credit

BIO 195D. Dental Internship.  1 - 2 Units
Prerequisite(s): Department chair and Instructor (representing the appropriate preprofessional discipline) permission.
Term Typically Offered: Fall, Spring

Supervised non-paid internship experience in the medical-related and business-related aspects of dentistry. Includes a volunteer experience in the community. No more than 2 units from BIO 195, BIO 197 and BIO 199 combined can be applied to the biological sciences upper division major requirement.
Note: 1 unit = 40 hours of participation/semester and 2 units = 80 hours of participation/semester; May be repeated for up to 4 units of credit.
Credit/No Credit

BIO 195M. Medical Internship.  2 Units
Prerequisite(s): Department Chair, Instructor and Placement Agency’s permission required.
Term Typically Offered: Fall, Spring

Supervised non-paid internship experience in multiple aspects of health care. Includes a volunteer experience in the community, supplemental readings, and a presentation on current issues in medicine and health education. No more than 2 units of BIO 195, BIO 197 and BIO 199 combined may be applied to the Biological Sciences upper division major requirement.
Note: 80 hours of participation/semester
Credit/No Credit

BIO 195P. Pharmacy Internship.  1 - 2 Units
Prerequisite(s): Department Chair, Instructor, and Placement Agency permission required.
Term Typically Offered: Fall, Spring

Supervised non-paid internship experience in pharmacy. Includes a volunteer experience in the community. No more than 2 units from BIO 195, BIO 197 and Bio 199 combined can be applied to the biological sciences upper division major requirement. May be repeated for up to 4 units of credit. 1.0-2.0 units (40-80 hours of participation/semester).
Credit/No Credit

BIO 195T. Teaching Internship.  1 - 2 Units
Prerequisite(s): Department chair and instructor permission.
Term Typically Offered: Fall, Spring

Supervised non-paid internship experience in K-12 teaching. Includes regular meetings with supervising teacher and submission of a field experience journal. May be repeated for credit.
Note: No more than 2 units from BIO 195, BIO 197 and BIO 199 combined can be applied to the biological sciences upper division major requirement.
Credit/No Credit

BIO 197A. Laboratory Teaching Assistant.  1 - 2 Units
Prerequisite(s): Department Chair and instructor permission.
Term Typically Offered: Fall, Spring

Supervised experiences will include aspects of laboratory preparation and aspects of teaching biology laboratory courses. Conferences and laboratory experiences four to eight hours weekly. Admission requires approval of professor and Department Chair.
Note: May be taken more than once, but no more than 2 units from BIO 195, BIO 197 and BIO 199 combined can be applied to the Biological Sciences upper division major requirement.
BIO 197B. Laboratory Techniques. 1 - 2 Units
Prerequisite(s): Department Chair and instructor permission.
Term Typically Offered: Fall, Spring

Supervised laboratory experiences for advanced students in the organization and techniques for operation of a basic sciences laboratory. Conferences and laboratory experiences four to eight hours weekly. Admission requires approval of professor and Department Chair. 
Note: May be taken more than once, but no more than 2 units from BIO 195, BIO 197 and BIO 199 combined can be applied to the Biological Sciences upper division major requirement.

Credit/No Credit

BIO 197C. Co-curricular Activities in Biology. 1 - 2 Units
Term Typically Offered: Fall, Spring

Students may earn BIO 197C credit by participating as tutors and/or section or discussion leaders for biological sciences classes or teaching as voluntary instructors or tutors in K-12 courses or programs offered by other community organizations. Participation requires four to eight hours weekly. Admission requires approval of professor and Department Chair.
Note: May be taken more than once, but no more than 2 units from BIO 195, BIO 197 and BIO 199 combined can be applied to the Biological Sciences upper division major requirement.

Credit/No Credit

BIO 197D. Advanced Laboratory Exploration. 1 - 2 Units
Prerequisite(s): BIO 197A and instructor permission.
Term Typically Offered: Fall, Spring

Advanced, supervised experiences that explore the science behind laboratory experiences and discussion regarding aspects of specific laboratories that promote understanding of scientific content. Conferences and laboratory experiences four to eight hours weekly; written assignments and/or oral presentations required. Admission requires approval of professor and Department Chair.
Note: No more than 2 units from BIO 195, BIO 197, BIO 199 combined may be applied to the Biological Sciences upper division major requirement.

BIO 197E. Intermediate Lab Techniques. 1 - 2 Units
Prerequisite(s): BIO 197B and instructor or Department Chair permission
Term Typically Offered: Fall, Spring

Supervised laboratory experiences for skilled students in the organization and techniques for operation of a basic sciences laboratory. Conferences and laboratory experiences four to eight hours weekly. Admission requires approval of instructor and Department Chair.
Note: May be taken more than once, but no more than 2 units from BIO 195, BIO 197 and BIO 199 combined may be applied to the Biological Sciences upper division major requirement.

Credit/No Credit

BIO 197F. Advanced Lab Techniques. 1 - 2 Units
Prerequisite(s): BIO 197B and instructor permission.
Term Typically Offered: Fall, Spring

Advanced supervised laboratory experiences for skilled students in the organization and techniques for operation of a basic sciences laboratory. Conferences and laboratory experiences four to eight hours weekly. Admission requires approval of instructor and Department Chair.
Note: May be taken more than once; no more than 2 units from BIO 195, BIO 197 and BIO 199 combined may be applied to the Biological Sciences upper division major requirement.

Credit/No Credit

BIO 198A. Honors Proseminar and Research. 2 Units
Prerequisite(s): Open only to honors students in biological sciences who have an overall GPA of 3.25 and a minimum of 3.0 GPA in biology courses (at least six units of upper division biology excluding BIO 106, BIO 108, BIO 194, BIO 195, BIO 197 and BIO 199).
Term Typically Offered: Fall, Spring

Contemporary topics in biology selected by students in the course will form the basis for an introduction to scientific journals, the scientific method, and research as a professional pursuit. Each student develops a refined research proposal and prepares a seminar summarizing the proposal and the current state of knowledge in the topic area. Students will develop and refine their methodology under the direction of a faculty sponsor.

BIO 198B. Honors Research and Seminar. 2 Units
Prerequisite(s): BIO 198A.
Term Typically Offered: Fall, Spring

Directed research involving completion of an independently conducted research project for which a proposal and methodology was developed in BIO 198A. Data collection, summary and analysis, and formulation of conclusions based on the data will be discussed periodically with a faculty sponsor. Culmination will consist of preparation of an undergraduate thesis, poster and presentation of a seminar summarizing results and conclusions.
Note: Open only to honors students in Biological Sciences. Fee course.

Fee course.

BIO 199A. Introductory Undergraduate Research. 1 - 2 Units
Prerequisite(s): Department Chair and instructor permission.
Term Typically Offered: Fall, Spring

Student conducts introductory, independent laboratory or field research on an original question. Research must culminate in a formal report. Weekly meetings may be required. Students must have a research prospectus approved by faculty mentor and Department Chair.
Note: May be taken more than once, no more than 2 units from BIO 195, BIO 197 and BIO 199 combined may be applied to the Biological Sciences upper division major requirement.
BIO 199B. Directed Readings. 1 - 2 Units
Prerequisite(s): Department Chair and instructor permission.
Term Typically Offered: Fall, Spring

Directed Readings on a topic in Biology culminating in a research paper. Admission requires submission of a prospectus approved by the faculty member under whom the work is to be conducted and the Department Chair.

Note: May be taken more than once, but no more than 2 units from BIO 195, BIO 197 and BIO 199 combined may be applied to the Biological Sciences upper division major requirement.

BIO 199C. Intermediate Undergraduate Research. 1 - 2 Units
Prerequisite(s): Department Chair and instructor permission.
Term Typically Offered: Fall, Spring

Student conducts independent laboratory or field research on an original question. Research must culminate in a formal report. Weekly meetings may be required. Students must have a research prospectus approved by faculty mentor and Department Chair.

Note: May be taken more than once; no more than 2 units from BIO 195, BIO 197 and BIO 199 combined may be applied to the Biological Sciences upper division major requirement.

BIO 199D. Advanced Undergraduate Research. 1 - 2 Units
Prerequisite(s): Department Chair and instructor permission.
Term Typically Offered: Fall, Spring

Advanced laboratory or field research on an original question. The research must culminate in a formal report. Weekly meetings may be required. Students must have a prospectus approved by the faculty member and the Department Chair.

Note: May be taken more than once; no more than 2 units from BIO 195, BIO 197 and BIO 199 combined may be applied to the Biological Sciences upper division major requirement.

BIO 214. Advanced Plant Ecology. 3 Units
Prerequisite(s): BIO 160.
Term Typically Offered: Fall, Spring

Fundamental properties of plant populations; population regulation; community productivity and structure; a study of ecotypic and ecoclinal variation in plant populations. Lecture one hour; laboratory and field six hours.

BIO 220. Introduction to Scientific Inquiry. 2 Units
Term Typically Offered: Fall, Spring

Graduate level introduction to scientific inquiry in the biological sciences. Students learn to apply the scientific method, critically evaluate the scientific literature, initiate their graduate project, and develop written and oral scientific presentation skills. Lecture two hours.

Note: Graduate Writing Intensive (GWI).

BIO 220A. Foundations in Scientific Inquiry. 3 Units
Term Typically Offered: Fall only

Introduces the foundations of scientific inquiry at the graduate level. Students learn how to apply the scientific method, obtain and critically evaluate the scientific literature, design experiments, interpret and present scientific data, and initiate their thesis research or project. Lecture three hours.

BIO 220B. Scientific Writing and Communication. 3 Units
Prerequisite(s): BIO 220A or instructor permission
Term Typically Offered: Spring only

Graduate level written and oral scientific presentation skills aimed at preparing students for the creation and delivery of their thesis/project proposal in the Biological Sciences. Topics include proper structure, organization, and tone in scientific writing, writing concisely, effective peer review and self-editing, and communicating complex scientific information in different forms. Lecture three hours.

BIO 221A. Cell and Molecular Methods and Techniques. 2 Units
Prerequisite(s): BIO 220 (may be taken concurrently).
Term Typically Offered: Spring only

Introduction to research methods in molecular and cellular biology. Students learn both cell and molecular techniques in the context of hypothesis-driven research to answer questions relating to a specific gene and cellular system. Experimental design and commonly used laboratory techniques will be explored. Two three hour laboratory periods. Fee course.

BIO 221B. Methods in Ecology, Evolution and Conservation. 2 Units
Prerequisite(s): BIO 167, BIO 229 (may be taken concurrently).
Term Typically Offered: Spring only

Introduction to research methods in ecology, evolution and conservation biology. Students learn field and laboratory techniques with a variety to taxa in a range of local ecosystems. Students will work with several faculty conducting research projects. Topics will include developing hypotheses, experimental design, study implementation, and statistical analyses. Students will be expected to present findings in oral and written form. Two three hour laboratory periods. Fee course.

BIO 221C. Exploration of Biological Methodology. 3 Units
Term Typically Offered: Fall, Spring

Intended for students in the MA grant proposal track, this course explores a selected topic from multiple scientific perspectives. A discovery-based laboratory project using cell and molecular techniques complimented with lectures, discussions and field trips that investigate the ecological, environmental, and evolutionary aspects of the same topic. The laboratory project will focus on a current biological topic (such as genetically modified organisms) in accordance with the instructor's interests and expertise. One hour lecture, six hours lab per week.

Note: Not open to students in the Master of Science in Molecular and Cellular Biology Concentration.

Field trip(s) may be required.

BIO 222. Molecular Biology. 3 Units
Prerequisite(s): BIO 184, CHEM 161.
Term Typically Offered: Fall, Spring

Processes and control of DNA replication, transcription, and translation developed from a consideration of the current literature. Lecture three hours.
BIO 223. Human Molecular Genetics.  3 Units
Prerequisite(s): BIO 184 and CHEM 161.
Term Typically Offered: Fall, Spring

In-depth study of the molecular basis of human disease, emphasizing current experimental approaches and technologies. Topics include the isolation and analysis of disease genes, the influence of teratogens and random environmental events on human embryonic development, the molecular and biochemical consequences of mutagenesis, and ethical issues that currently surround the field. Lecture 3 hours.

BIO 224. Genomics, Proteomics, and Bioinformatics.  3 Units
Prerequisite(s): BIO 184, BIO 222 and graduate status or instructor permission.
Term Typically Offered: Fall, Spring

Examination of current approaches in structural genomics, functional genomics and proteomics, and the bioinformatics tools utilized to understand genome organization, the regulation of gene expression, gene function and the evolutionary relationships within and between genomes. Lecture two hours; laboratory 3 hours.

BIO 225. Stem Cell Biology and Manufacturing Practices.  1 Unit
Prerequisite(s): Graduate status and instructor permission.
Term Typically Offered: Fall, Spring

Graduate level introductory course in human stem cell biology with specific emphasis on adult, embryonic, and induced pluripotent stem cells. Topics will include how stem cells are isolated or generated, how they are cultured, and how they are used for regenerative therapies. In addition, students will learn about Good Manufacturing Practice (GMP) and how to manufacture human stem cells.

BIO 227. Development and Regenerative Medicine.  3 Units
Prerequisite(s): Graduate status and instructor permission.
Term Typically Offered: Fall, Spring

Examines the processes of cellular development in the embryo and adult with a focus on stem cells. Stem cells will be studied at the biochemical, molecular, genetic, epigenetic, cellular and physiological level, with an emphasis on their roles in promoting organismal health and disease. Current research and clinical applications will be examined, along with the bioethics, policies and politics of their use.

BIO 245. Host/Pathogen Interactions.  3 Units
Prerequisite(s): BIO 121, BIO 139, BIO 184. Courses recommended but not required: BIO 144, BIO 149, BIO 180.
Term Typically Offered: Fall, Spring

Critical reading and discussion of current literature on host/pathogen interactions. Topics to be covered include: alteration of host intracellular trafficking, subversion of cell cytoskeleton for invasion, intracellular survival mechanisms, pathogen-induced cell killing, and evasion and subversion of the host immune system.

BIO 247. Contemporary Topics in Immunology.  2 Units
Prerequisite(s): BIO 149A or instructor permission.
Term Typically Offered: Fall, Spring

Readings and discussions of current literature emphasizing new field developments and controversies. Lecture two hours.

BIO 260. Advanced Ecology.  3 Units
Prerequisite(s): BIO 160 or equivalent.
Term Typically Offered: Fall, Spring

Principles and applications of theoretical and field ecology as they apply to populations, communities and ecosystems.

BIO 269. Behavioral Ecology.  3 Units
Prerequisite(s): BIO 160 or instructor permission.
Term Typically Offered: Fall, Spring

Advanced study of animal behavior focusing on the life history consequences of social organization, spacing systems, sexual behavior, reproductive ecology, feeding ecology, competitive interactions and predator-prey interactions.

BIO 273. Advanced Fishery Biology and Management.  3 Units
Prerequisite(s): BIO 173 or instructor permission.
Term Typically Offered: Fall, Spring

Critical review and evaluation of current techniques and concepts relating to the management, protection, and improvement of fishery resources. Lecture three hours.

BIO 279. Conservation Biology and Wildlife Management.  3 Units
Prerequisite(s): BIO 160, or instructor permission.
Term Typically Offered: Spring only

Advanced study of human effects and management of ecological systems, including populations, communities, and ecosystems. Topics include population and biodiversity responses to human activities, endangered species management, reserve design, and restoration. Emphasis on the critical evaluation, review, and presentation of conservation literature and issues. Paired course with Bio 179. Note: Lecture two hours; laboratory and fieldwork three hours; meets in the same location with the same instructor as Bio 179; course cannot be taken concurrently with or after taking BIO 179; Bio 279 cannot be taken in the graduate program after completing Bio 179. Field Trip(s) may be required.

BIO 280. Advanced Molecular Biology.  4 Units
Term Typically Offered: Fall, Spring

Advanced examination of the structure of genes and genomes, the mechanisms by which they change, and the laboratory tools used to study and understand gene function. Analysis of the molecular mechanisms of gene expression, their regulation, phenotypes, and the tools used to study these processes. Application of molecular tools in medicine and biotechnology and the ethics of these approaches. Emphasis on the critical evaluation, review, and presentation of molecular biology research literature. Paired with Bio 180. Fee course. Note: Lecture two hours, laboratory six hours. Course requires Personal Protective Equipment.

Fee course.

BIO 282. Evolution.  3 Units
Prerequisite(s): Classified graduate standing in Biological Sciences
 Term Typically Offered: Fall only

Introduction to evolutionary concepts and perspectives and their application to a variety of topics outside of evolutionary biology through discussion of peer-reviewed literature. Students will develop skills through group discussion, writing and presentation.
BIO 283. Biogeography. 3 Units
Term Typically Offered: Fall, Spring

Study of the past and present plant and animal distributions, and the geologic, climatic and ecologic factors involved in their migration, establishment and extinction. Lecture/discussions three hours.

BIO 285. Topics in Biology. 3 Units
Prerequisite(s): Graduate status or instructor permission.
Term Typically Offered: Fall, Spring

Readings and discussions of current literature emphasizing new developments and controversies in a comparatively narrow range of biological topics. Topics will vary with each offering, encompassing one recognized specialty in biology. May be repeated for credit when the topics vary.

BIO 293. Research Conference. 2 Units
Prerequisite(s): Department Chair and instructor permission.
Term Typically Offered: Fall, Spring

Presentation and discussion of graduate student and faculty research and current literature with emphasis on critical evaluation of research design, data analysis and presentation techniques.

Note: Discussion two hours. May be taken twice for credit. Only two units may be applied to the University's requirement for 200-level courses; May be repeated for up to 4 units of credit.

Credit/No Credit

BIO 294A. Seminar in Molecular and Cellular Biology. 1 Unit
Prerequisite(s): Student must be a Biology major at the master's level to enroll in this class and/or have instructor permission.
Term Typically Offered: Fall, Spring

Review and discussion of scientific literature in cell and molecular biology. Seminar topics will vary by semester.

Note: May be repeated for up to 4 units of credit.

Credit/No Credit

BIO 294B. Seminar in Ecology, Evolution and Conservation. 1 Unit
Prerequisite(s): Student must be a Biology major at the master's level to enroll in this class and/or have instructor permission.
Term Typically Offered: Fall, Spring

Review and discussion of scientific literature in ecology, evolution, and conservation biology. Seminar topics will vary by semester.

Note: May be repeated for up to 4 units of credit.

Credit/No Credit

BIO 294C. Seminar in Scientific Communication. 1 Unit
Prerequisite(s): Student must be a Biology major at the master's level to enroll in this class and/or have instructor permission. Graded: Credit / No Credit. Units: 1.0.
Term Typically Offered: Fall, Spring

Review, discussion, and evaluation of scientific communication skills and techniques, with emphasis on oral presentation of the thesis or project proposal and delivery of the graduate exit seminar. Prerequisite: Student must be a Biology major at the master's level to enroll in this class and/or have instructor permission.

Credit/No Credit

BIO 297A. Teaching Biology Seminar. 1 Unit
Prerequisite(s): Acceptance in the GTA Program or instructor permission.
Term Typically Offered: Fall only

Highly recommended training for graduate students who wish to participate in the Department's Graduate Teaching Associate (GTA) Program and others interested in teaching biology. Weekly seminar/discussion session covers educational theory, practical instructional strategies, and faculty policies and regulations for teaching biology courses, with a focus on laboratories. Lecture/discussion.

Credit/No Credit

BIO 297B. Laboratory Teaching. 1 Unit
Prerequisite(s): Acceptance in the GTA Program or instructor permission.
Term Typically Offered: Fall, Spring

Training for graduate students admitted to the Graduate Teaching Associate (GTA) Program. Students assist in teaching three hours of biology laboratory weekly under the supervision of a laboratory instructor. Laboratory three hours. Not applicable toward 18 unit 200-level coursework requirement.

Credit/No Credit

BIO 299. Problems in Biological Sciences. 1 - 4 Units
Term Typically Offered: Fall, Spring

Library research, short-term original research, technique development, or thesis research site selection and preliminary field observations. Culminating experience will be in the format of a scientific paper, annotated bibliography, demonstration of technique mastery, or oral presentation. Enrollment requires classified graduate status and approval of the project by a faculty supervisor and the Department Chair.

Credit/No Credit

BIO 500. Master's Thesis. 6 Units
Term Typically Offered: Fall, Spring

Completion of a thesis approved for the Master's degree. Should be taken in final semester prior to the completion of all requirements for the degree. Pre-requisite: Advanced to candidacy and chair permission of his/her thesis committee.

BIO 502. Master's Project. 3 Units
Term Typically Offered: Fall, Spring

Completion of a written project based on a research problem in biology approved for the MA in Biological Sciences. Should be taken in final semester prior to the completion of all requirements for the degree.

BIO 633. Human Gross Anatomy for Physical Therapists. 3 Units
Prerequisite(s): BIO 22 or instructor permission.
Corequisite(s): PT 600, PT 602, PT 608, PT 630.
Term Typically Offered: Fall, Spring

Study of the gross anatomy of selected regions of the human body. Emphasis will be placed on musculoskeletal, neurovascular and anatomy of the joints of the back, thoracic wall, abdominal wall, upper limb and lower limb. Anatomical relationships will be reinforced through study of cross-sectional anatomy. Lecture two hours; lab three hours.

Note: Course designed for students enrolled in the Doctor of Physical Therapy Program.
Business Administration (BUS)

BUS 162. Project Management. 3 Units
Prerequisite(s): MGMT 102.
Term Typically Offered: Fall, Spring

Processes, methodologies, tools, techniques, software, economic analysis, and life-cycle costing for managing different phases of projects. Emphasis on effective management of projects to achieve operational, managerial, and strategic goals of organizations.

Business Honors (BHON)

BHON 102. Business Communication. 2 Units
Prerequisite(s): Admitted into Business Honors Program.
Term Typically Offered: Fall, Spring

Provides basic concepts for the understanding and practice of communication for managers and professionals. Examines the use of language and conversations in business settings and their role in coordinating actions, resolving breakdowns in work performance, and providing customer satisfaction. Topics include professional styles and formats of business writing and development of competence in business conversation skills (written, electronic and oral).

BHON 103. Business Legal Environment. 2 Units
Prerequisite(s): Admitted into Business Honors Program.
Term Typically Offered: Fall, Spring

Investigates substantive law and stresses critical thinking and analytical evaluation of contemporary business legal issues. Identifies ethical concerns and addresses potential legal problems. Topics include an introduction to the legal system, court procedures, contracts and sales, real and personal property, labor and employment law, product liability, and the government regulation of business.

BHON 104. Fundamentals of Organizational Behavior. 2 Units
Prerequisite(s): Admitted into Business Honors Program.
Term Typically Offered: Fall, Spring

The course provides students frameworks to deal and work with members of work organizations, and focuses on how individual, group and organization-level factors influence employee attitudes and behaviors. The course further discusses challenges people face in today's dynamic work environment and global settings.

BHON 105. Introduction to Management Information Systems. 2 Units
Prerequisite(s): Admitted into Business Honors Program.
Term Typically Offered: Fall, Spring

Explores the application of information technology in the organizational environment to assist in managerial decision making. Examines the alignment of IT and business strategy.

BHON 106. Business Data Analysis. 2 Units
Prerequisite(s): Admitted into Business Honors Program.
Term Typically Offered: Fall, Spring

Applies statistical methods to solve business problems and inform managerial decision making. Topics include data analysis, statistical reasoning, model building and communication of statistical results. A statistical computer package is used in this course.

BHON 107. Business Finance. 2 Units
Prerequisite(s): Admitted into Business Honors Program.
Term Typically Offered: Fall, Spring

Study of principles of finance and their application to typical financial problems of business enterprises. Topics include financial analysis, management of working capital, capital budgeting, long-term financing, dividend policy, internal financing, and time value of money.

BHON 108. Fundamentals in Marketing. 2 Units
Prerequisite(s): Admitted into Business Honors Program.
Term Typically Offered: Fall, Spring

An introduction to marketing concepts and principals. Examines the marketing function, its relationships with other business functions, and its role in the US and global economies.

BHON 109. Operations Management. 2 Units
Prerequisite(s): Admitted into Business Honors Program.
Term Typically Offered: Fall, Spring

Introduces the basic concepts and methods used to analyze and improve operation performance in manufacturing and service organizations. Topics include operations strategy, process design and capacity management, inventory management, supply chain management, and operations planning and control.

BHON 120. Business Intelligence. 3 Units
Prerequisite(s): BHON 102, BHON 104, BHON 105, BHON 106, BHON 107, BHON 108, BHON 109
Term Typically Offered: Fall, Spring

Focuses on enterprise problem solving and decision making using information technology, and data and financial analyses for mission critical and integral applications in planning and control. Alternative solutions are examined and evaluated for their effectiveness in achieving results.

BHON 130. Value Chain and Supply Chain Management. 3 Units
Prerequisite(s): BHON 102, BHON 104, BHON 105, BHON 106, BHON 107, BHON 108, BHON 109
Term Typically Offered: Fall, Spring

Methods used for developing effective organizational value chains that integrate strategic planning, procurement, R&D, production, warehousing, distribution, and customer service to support business strategy. Includes critical decisions surrounding various organizational stakeholders, such as customer and supplier management, and the movement of goods and information throughout a supply chain network.

BHON 140. Enterprise Resource Planning and Infrastructure. 3 Units
Prerequisite(s): BHON 102, BHON 104, BHON 105, BHON 106, BHON 107, BHON 108, BHON 109
Term Typically Offered: Fall, Spring

Examines the design, planning, implementation and impact of enterprise-wide systems on the organization and infrastructure. Focuses on the integration and coordination of all facets of business, including production, accounting, finance, human resources, and marketing to improve the organization’s resource planning, and management and operational control.
CHEM 1E. General Chemistry for Engineering. 4 Units
Prerequisite(s): High school chemistry and college algebra; sufficient performance on the college algebra diagnostic test, or equivalent; passing score on a standardized Chemistry diagnostic exam given prior to each semester, or a minimum grade of "C" in CHEM 4.
Term Typically Offered: Fall, Spring, Summer

A one-semester chemistry course for engineering students covering the fundamental principles and concepts of chemistry important to engineering applications. Lecture topics include atomic and molecular structure, solution chemistry, equilibrium, oxidation-reduction, thermochemistry; intermolecular forces; electrochemistry; radiochemistry; polymers; metallic bonding and alloys; chemical diffusion and kinetics. Lecture three hours, Lab three hours.
Note: Enrollment in this course is restricted to engineering majors.

CHEM 4. Chemical Calculations. 3 Units
Prerequisite(s): High school algebra and college algebra; sufficient performance on the college algebra diagnostic test, or equivalent.
Term Typically Offered: Fall, Spring, Summer

Introductory chemistry for students who plan to major in a scientific field. Appropriate for students desiring to prepare themselves for Chemistry 1A. Emphasizes chemical nomenclature and techniques of chemical problem solving. Topics covered include: dimensional analysis; conversions between measuring units; weight, mole and chemical equations; density; elementary gas laws; heat and temperature; elementary acid and base chemistry; oxidation and reduction; solutions. Three hours lecture.

CHEM 6A. Introduction to General Chemistry. 5 Units
Prerequisite(s): One year high school algebra; high school chemistry recommended.
General Education Area/Graduation Requirement: Physical Science (B1), Laboratory (B3)
Term Typically Offered: Fall, Spring

Structure of atoms, molecules and ions; their interactions including stoichiometry, equilibria, and oxidation-reduction. Does not fulfill the requirements for more advanced study in chemistry and cannot be counted toward a major or minor in chemistry. Lecture three hours, discussion one hour, laboratory three hours.
CHEM 6B. Introduction to Organic and Biological Chemistry. 5 Units
Prerequisite(s): CHEM 1A or CHEM 6A, or a high school chemistry course and passing a qualifying exam given in the first laboratory period.
Term Typically Offered: Fall, Spring
Introduction to structure and chemical and physical properties of the major classes of organic compounds; introduction to the structure, property and roles of biological polymers such as polysaccharides, proteins (including enzymes) and nucleic acids; introduction to the fundamental metabolic pathways of energy metabolism. Does not fulfill the requirement for more advanced study in chemistry and cannot be counted toward a major or minor in chemistry. Lecture three hours; discussion one hour; laboratory three hours.
Note: This course requires personal protective equipment (PPE) and safety training as part of the course occurs in a laboratory.

CHEM 20. Organic Chemistry Lecture--Brief Course. 3 Units
Prerequisite(s): CHEM 1B.
Term Typically Offered: Fall, Spring, Summer
Basic principles of organic chemistry. Recommended for students majoring in life-sciences, but not recommended for preprofessional students.

CHEM 20L. Introductory Organic Chemistry Laboratory. 1 Unit
Prerequisite(s): CHEM 20; CHEM 20 may be taken concurrently.
Term Typically Offered: Fall, Spring
Basic organic experimental techniques. Experimental topics include: melting points, purification of solids, distillation, chromatography, extraction, and functional group qualitative analysis. Specifically designed for Biological Sciences majors and others who want to meet the Chemistry minor requirements for a lower division organic laboratory. Laboratory three hours.

CHEM 24. Organic Chemistry Lecture I. 3 Units
Prerequisite(s): CHEM 1B.
Term Typically Offered: Fall, Spring, Summer
Introduction to the basic principals of organic chemistry, including nomenclature, properties and reactions of various classes of organic compounds. Reaction mechanisms will be emphasized.
Note: Required for chemistry majors and recommended for preprofessional students.

CHEM 25. Organic Chemistry Laboratory. 3 Units
Prerequisite(s): CHEM 24, CHEM 124; CHEM 124 may be taken concurrently.
Term Typically Offered: Fall, Spring, Summer
Basic organic experimental techniques including the preparation, separation, purification and identification of organic compounds. Discussion one hour, laboratory six hours.

CHEM 31. Quantitative Analysis. 4 Units
Prerequisite(s): CHEM 1B.
Term Typically Offered: Fall, Spring
Chemical measurements including associated statistics, chemical equilibrium in aqueous solutions, volumetric analysis, and an introduction to spectrophotometry and chromatography. Lecture two hours, laboratory six hours.

CHEM 89. Introduction to Undergraduate Research. 1 - 3 Units
Term Typically Offered: Fall, Spring
Introduction to undergraduate research which requires students to become familiar lab safety policies, SDSs, and SOPs in the research lab (if applicable), attend group meetings (if applicable) and learn methods of experimental, educational and/or computational design. Students must show proficiency in these requirements in order to receive a final grade.
Credit/No Credit

CHEM 101. Science in the Public Debate. 3 Units
Prerequisite(s): ENGL 20
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring
This course provides students with an introduction to the history, philosophy and practice of modern science, and examines how the social environment influences scientific analysis. Students apply this understanding to the critical evaluation of scientific sources in current social debates surrounding scientific topics.
Note: Does not fulfill credit requirements for the major or minor in chemistry.

CHEM 106. Chemical Concepts. 3 Units
Prerequisite(s): GEOL 8 or BIO 7 and ENGL 20 or an equivalent second semester composition course. Fee course.
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring
Principles and concepts of chemistry with applications in the home and environment. Satisfies the upper division chemistry requirement for the multiple-subject teaching credential. Lecture one hour, discussion and activity four hours. Does not fulfill credit requirements for the major or minor in chemistry.
Fee course.

CHEM 110. Inorganic Chemistry Lecture. 3 Units
Prerequisite(s): CHEM 125, CHEM 140B or CHEM 142 instructor permission; CHEM 140B may be taken concurrently, however, students are encouraged to complete CHEM 140B and CHEM 141 first.
Corequisite(s): CHEM 110L.
Term Typically Offered: Fall only
Application of atomic structure, the periodic law, molecular structure and bonding principles, electrochemical principles and other selected models and concepts to theoretical and descriptive inorganic chemistry. Physical and chemical properties of selected elements and inorganic compounds are studied.

CHEM 110L. Advanced Inorganic Chemistry Laboratory. 2 Units
Prerequisite(s): CHEM 125, ENGL 20 or an equivalent second semester composition course.
Corequisite(s): CHEM 110.
Term Typically Offered: Fall only
Preparation, purification and instrumental studies of inorganic compounds. Instrumental and experimental techniques will include EPR, magnetic susceptibility, FTIR, UV-VIS spectroscopy and inert atmosphere techniques.
CHEM 124. Organic Chemistry Lecture II. 3 Units
Prerequisite(s): CHEM 24 or instructor permission; concurrent enrollment in CHEM 25 recommended.
Term Typically Offered: Fall, Spring, Summer

Continued discussion of the principals of organic chemistry, including nomenclature, properties, and reactions of various classes of organic compounds and spectroscopic analysis. Reaction mechanisms will be emphasized.

CHEM 125. Advanced Organic Chemistry Laboratory. 3 Units
Prerequisite(s): CHEM 25, CHEM 124, ENGL 20 or an equivalent second semester composition course.
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring

Focuses on advanced organic laboratory techniques and instrumental methods of analysis. Not intended for pre-health professional majors. Discussion one hour, laboratory six hours.

CHEM 126. Physical Organic Chemistry. 3 Units
Prerequisite(s): CHEM 124, and CHEM 140B or CHEM 142, or instructor permission.
Corequisite(s): CHEM 140B or CHEM 142 may be taken concurrently.
Term Typically Offered: Fall, Spring

Study of mechanistic organic chemistry, the physical tools used to study reaction mechanisms, and the relationship between structure and reactivity. Topics include bonding theories, stereoelectronic effects, transition state theory, thermodynamics, kinetic analysis, isotope effects, linear free energy relationships, and application of frontier molecular orbital theory to examine reactions including pericyclic reactions.
Note: Students who have taken CHEM 126 at Sacramento State cannot take CHEM 226 for credit.

CHEM 128. Organic Synthesis. 3 Units
Prerequisite(s): CHEM 124.
Term Typically Offered: Spring only

Application of functional group reactions to multistep syntheses. Recently developed synthetic methods and literature searching will be emphasized.

CHEM 133. Chemical Instrumentation. 4 Units
Prerequisite(s): CHEM 31, concurrent enrollment in CHEM 140B or completion of CHEM 142: ENGL 20 or an equivalent second semester composition course. Graded: Graded Student. Units: 4.0
Term Typically Offered: Fall, Spring

Modern instrumentation and methods for chemical analysis. Function of electronics and computers in instruments. Theory and use of instruments in the areas of electrochemistry, spectroscopy, mass spectrometry and chromatography. Lecture two hours, laboratory six hours.

CHEM 140A. Physical Chemistry Lecture I. 3 Units
Prerequisite(s): CHEM 1B, CHEM 24, CHEM 31, MATH 32, PHYS 5A, PHYS 5B, or PHYS 11A, PHYS 11B, PHYS 11C; PHYS 11B may be taken concurrently.
Term Typically Offered: Fall only

Introduction to chemical thermodynamics and kinetics.

CHEM 140B. Physical Chemistry Lecture II. 3 Units
Prerequisite(s): CHEM 140A.
Term Typically Offered: Spring only

Introduction to molecular quantum chemistry, structure of matter, molecular spectroscopy, and statistical thermodynamics.

CHEM 141. Physical Chemistry Laboratory. 3 Units
Prerequisite(s): ENGL 20 or an equivalent second semester composition course; CHEM 140A, CHEM 140B or CHEM 142, instructor permission; CHEM 140B may be taken concurrently.
Term Typically Offered: Fall, Spring

Selected exercises in the practice of physio-chemical laboratory methods. Lecture one hour, laboratory six hours.

CHEM 142. Introduction to Physical Chemistry. 4 Units
Prerequisite(s): CHEM 1B, CHEM 24, PHYS 5A, PHYS 5B, MATH 31.
Term Typically Offered: Fall, Spring

Introductory presentation of the theoretical and practical aspects of thermodynamics, quantum chemistry, spectroscopy, and kinetics. As time permits, other topics will be: solution chemistry, hydrodynamics, electrochemistry, and crystallography.
Note: Not acceptable for the BS or the BA without concentration.

CHEM 145. Applications of Computational Chemistry. 3 Units
Prerequisite(s): CHEM 140A and CHEM 140B or CHEM 142, or instructor permission.
Term Typically Offered: Fall only – odd years

Brief introduction/background in computational theory, with emphasis on chemical/biochemical applications. Demonstration/instruction of widely used modeling/computational software. Covering techniques including molecular mechanics, semi-empirical methods and "ab initio" methods. Application of computational methods to thermodynamics, kinetics, spectra, electrochemistry, molecular properties. Lecture three hours.
Note: 1) CHEM 245 students will complete an additional research project beyond that expected of students in CHEM 145; 2) Students who have taken CHEM 145 at Sacramento State cannot take CHEM 245 for credit.

CHEM 160A. Structure and Function of Biological Molecules. 3 Units
Prerequisite(s): CHEM 124; MATH 26A or MATH 30 is recommended. Fall only.
Term Typically Offered: Fall only

The chemistry and biochemistry of amino acids, proteins, nucleic acids, lipids and carbohydrates. Also includes enzyme kinetics, the structure and function of biological membranes and discussion of some common laboratory methods. Lecture three hours.

CHEM 160B. Metabolism and Regulation of Biological Systems. 3 Units
Prerequisite(s): CHEM 160A or equivalent course; one year of organic chemistry. Spring only.
Term Typically Offered: Spring only

The bioenergetics and regulation of anaerobic and aerobic metabolic pathways. Major topics include glycolysis, Kreb's cycle, fatty acid and amino acid oxidation, lipid biosynthesis and photosynthesis. Particular emphasis is given to pathway regulation and integration. Lecture three hours.
CHEM 161. General Biochemistry. 3 Units
Prerequisite(s): CHEM 20 or CHEM 124; one year of biological science is recommended.
Term Typically Offered: Fall, Spring, Summer

Introduction to the structure and function of biological molecules (carbohydrates, lipids, proteins, nucleic acids, enzymes and hormones), enzyme kinetics, the structure and function of membranes, and the bioenergetics and regulation of major anaerobic and aerobic metabolic pathways.

CHEM 162. General Biochemistry Laboratory. 3 Units
Prerequisite(s): CHEM 31; CHEM 160A or CHEM 161 (either CHEM 160A or CHEM 161 may be taken concurrently); ENGL 20 or an equivalent second semester composition course.
Term Typically Offered: Fall, Spring

Introduction to fundamental laboratory techniques for the purification and analysis of biological molecules, including chromatographic separation of amino acids and proteins, electrophoretic separation of proteins and nucleic acids, enzyme kinetics, and basic bioinformatics. Discussion one hour, laboratory six hours.

CHEM 164. Advanced Biochemistry Laboratory. 3 Units
Prerequisite(s): CHEM 162 or equivalent; ENGL 20 or an equivalent second semester composition course.
Term Typically Offered: Fall, Spring

Capstone course which emphasizes biochemical laboratory experimental design and trouble-shooting skills. Common biochemistry laboratory techniques are applied in semester-long individual student projects. Discussion one hour, laboratory six hours.

CHEM 189A. Undergraduate Research. 1 - 3 Units
Prerequisite(s): ENGL 20 or equivalent
Term Typically Offered: Fall, Spring

Directed undergraduate research involving a project that requires use of chemical literature and experimental design. A comprehensive written report and/or scientific poster must be submitted to receive a final grade. Note: Only three units of CHEM 189A-C may be applied toward the major requirement in chemistry for the BA or BS degrees.

CHEM 189B. Intermediate Undergraduate Research. 1 - 3 Units
Prerequisite(s): ENGL 20 or equivalent and CHEM 189A
Term Typically Offered: Fall, Spring

Continuing directed undergraduate research involving a project with emphasis on experimentation and data analysis. A comprehensive written report and/or scientific poster must be submitted to receive a final grade. Note: Only three units of CHEM 189A-C may be applied toward the major requirement in chemistry for the BA or BS degrees.

CHEM 189C. Advanced Undergraduate Research. 1 - 3 Units
Prerequisite(s): ENGL 20 and CHEM 189B
Term Typically Offered: Fall, Spring

Culminating directed undergraduate research with emphasis on comprehensive data analysis and formulation of conclusions. A comprehensive written report and/or scientific poster must be submitted to receive a final grade. Note: Only three units of CHEM 189A-C may be applied toward the major requirement in chemistry for the BA or BS degrees.

CHEM 189D. Culminating Advanced Undergraduate Research. 1 - 3 Units
Prerequisite(s): ENGL 20 and CHEM 189C
Term Typically Offered: Fall, Spring

Extension of culminating undergraduate research with emphasis on finalizing data analysis and writing experimental methods for potential publication. A comprehensive written report (if a scientific poster was completed in 189C) and/or scientific poster (if a written report was completed in 189C) must be submitted to receive a final grade. Credit/No Credit

CHEM 194. Chemistry-Related Work Experience. 6 - 12 Units
Prerequisite(s): Open only to upper division students and consent of Department Chair. Units may not be applied toward a major in Chemistry or Biochemistry.
Term Typically Offered: Fall, Spring

Supervised employment in a Chemistry related company or agency. Placement is arranged through the Department and the Cooperative Education Program office. Requires completion of a 3-6 month work assignment and a written report. Credit/No Credit

CHEM 196B. Biochemistry of SARS-CoV-2. 3 Units
Prerequisite(s): CHEM 161 or CHEM 160A
Term Typically Offered: Spring only

This course will survey of the macromolecules of the coronavirus SARS-CoV-2, explore their function in relation to the viral life cycle, and examine the biochemistry of established and emerging Covid-19 therapeutics and vaccines. Learning activities will involve a significant amount of primary literature analysis, bioinformatics exercises and brief lectures.

CHEM 198. Senior Research. 3 Units
Prerequisite(s): One upper division chemistry laboratory class, ENGL 20 or an equivalent second semester composition course and instructor and department chair permission.
Term Typically Offered: Fall, Spring

The student will conduct an independent study of a chemical research topic that is based on experimental techniques or advanced computer modeling. Significant use of chemical literature and information retrieval is required. A well-written, comprehensive, and well-documented final report must be submitted to receive a final grade. A weekly seminar is required. Seminar one hour, laboratory activities are a minimum of six hours per week.

CHEM 198H. Chemistry Honors Thesis. 3 Units
Prerequisite(s): Open only to students who meet the Chemistry Honors Program criteria; CHEM 198 may be taken concurrently.
Term Typically Offered: Spring only

Completion of an undergraduate honors thesis and attendance at chemistry seminars. Students will develop a written thesis containing background, methodology, results, and discussion of an experimental or computational research project involving their own original data.
CHEM 200. Research Methods in Chemistry. 3 Units  
Prerequisite(s): Must be a Chemistry graduate student or have instructor permission.  
Term Typically Offered: Fall, Spring  
This course is designed to improve the ability of graduate students to research and interpret the chemical literature. Students work through a series of exercises in preparation for a major writing project such as a thesis proposal or a thesis chapter/section. Exercises include analysis of primary research articles, peer review of student writing samples, and presentation of scientific information. These activities will improve students' understanding of how scientific questions are developed and posed through proposals and dissemination of research results.

CHEM 220. Spectrometric Identification of Compounds. 3 Units  
Term Typically Offered: Fall only  
Theory, interpretation, and application of ultraviolet, infrared, nuclear magnetic resonance and mass spectra for the elucidation of organic compounds.

CHEM 226. Physical Organic Chemistry. 3 Units  
Prerequisite(s): Enrollment in Chemistry master's degree program or instructor permission.  
Term Typically Offered: Fall, Spring  
Study of mechanistic organic chemistry, the physical tools used to study reaction mechanisms, and the relationship between structure and reactivity. Topics include bonding theories, stereoelectronic effects, transition state theory, thermodynamics, kinetic analysis, isotope effects, linear free energy relationships, and application of frontier molecular orbital theory to examine reactions including pericyclic reactions.  
Note: Students who have taken CHEM 126 at Sacramento State cannot take CHEM 226 for credit.

CHEM 228. Applications of Computational Chemistry. 3 Units  
Term Typically Offered: Fall only – odd years  
Brief introduction/background in computational theory, with emphasis on chemical/biochemical applications. Demonstration/instruction of widely used modeling/instruction of software. Covering techniques including molecular mechanics, semi-imperical methods and "ab initio" methods. Application of computational methods to thermodynamics, kinetics, spectra, electrochemistry, molecular properties. Lecture three hours.  
Note: 1) CHEM 245 students will complete an additional research project beyond that expected of students in CHEM 145; 2) Students who have taken CHEM 145 at Sacramento State cannot take CHEM 245 for credit.

CHEM 250. Selected Topics in Chemistry. 3 Units  
Prerequisite(s): Enrollment in MS Chemistry graduate program or instructor permission.  
Term Typically Offered: Fall, Spring  
Intensive coverage of one or more advanced topics in chemistry. A variety of learning/teaching methodologies may be employed including lecture, team projects, computer modeling, oral presentations and poster projects. May be team-taught.  
Note: May be team-taught. May be repeated once for credit if topics are different.

CHEM 251. Topics in Interdisciplinary Chemistry. 3 Units  
Prerequisite(s): enrollment in Chemistry master's degree program or permission of instructor.  
Term Typically Offered: Fall, Spring  
Lecture course focusing on interdisciplinary topics in chemistry and related fields. Course activities may include literature review, individual and/or group oral presentations, independent research project. May be team-taught.

CHEM 252. Topics in Synthetic Chemistry. 3 Units  
Prerequisite(s): enrollment in Chemistry master's degree program or permission of instructor.  
Term Typically Offered: Fall, Spring  
Lecture course focusing on synthetic chemistry. Focus may be on biochemical, inorganic, or organic synthetic chemistry. Course activities may include literature review, individual and/or group oral presentations, independent research project. May be team-taught.

CHEM 253. Topics in Applied Chemistry. 3 Units  
Prerequisite(s): enrollment in Chemistry master's degree program or permission of instructor.  
Term Typically Offered: Fall, Spring  
Lecture course focusing on applications of chemistry to a variety of fields. Areas of focus may include biological, environmental, materials, and pharmaceutical applications. Course activities may include literature review, individual and/or group oral presentations, independent research project. May be team-taught.

CHEM 254. Topics in Physical Chemistry. 3 Units  
Prerequisite(s): enrollment in Chemistry master's degree program or permission of instructor.  
Term Typically Offered: Fall, Spring  
Lecture course focusing on topics in physical chemistry. Areas of focus may include content areas such as quantum mechanics, physical/organic or biophysical chemistry, an/or in-depth treatment of structure analysis and determination. Course activities may include literature review, individual and/or group oral presentations, independent research project. May be team-taught.

CHEM 255. Topics in Chemistry Education. 3 Units  
Prerequisite(s): enrollment in Chemistry master's degree program or permission of instructor.  
Term Typically Offered: Fall, Spring  
Intensive coverage of one or more advanced topics in chemistry. A variety of learning/teaching methodologies may be employed, including lecture, team projects, computer modeling, oral presentations and poster projects. May be team-taught.
CHAD 30. Human Development. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Interdisciplinary study of human development with practical observations. Addresses physical, socio-cultural, intellectual and emotional aspects of growth and development from conception to death. A variety of field experiences will be required.

CHAD 30C. Human Development and Fieldwork in Community and Social Contexts. 3 Units
Prerequisite(s): CHAD 30 or CHAD 35, or the equivalent; CHAD 30 may be taken concurrently.
Term Typically Offered: Fall, Spring

This course aims to prepare students to become familiar with the operations of organizations serving children and adolescents in the community and identify professional opportunities in the field of child and adolescent development through class activities and 40 hours of fieldwork. Students will engage in directed field experiences in community and social settings and attend an on campus seminar. Students will translate theory into practice and reflect on experiences. Issues on equity and diversity within human development will be discussed.

Note: Fieldwork includes 40 hours of service-learning at approved sites that are primarily off campus; students must complete clearance process (fingerprinting, TB tests) prior to placement; Service Learning may be required.

CHAD 31. Adult Supervision and Mentoring In Early Childhood Programs. 2 Units
Prerequisite(s): CHAD 30 or CHAD 35 or equivalent.
Term Typically Offered: Spring only

Study of research and exemplary practices in the supervision of early childhood teachers, other program staff, parents and volunteers. Content emphasizes adult learning.

CHAD 32. Administration and Supervision of Early Childhood Programs. 3 Units
Prerequisite(s): CHDV 30 or CHDV 35 or equivalent.
Term Typically Offered: Fall only

Basic issues, procedures and practices in the administration and supervision of public and private schools. Requires administrative supervisory fieldwork in an early childhood program.
CHAD 35. Child and Adolescent Development. 3 Units

General Education Area/Graduation Requirement: Understanding Personal Development (E)

Term Typically Offered: Fall, Spring

This course examines development from conception through adolescence. Content will include development in physical, cognitive, social, linguistic, and emotional domains. Through activities such as observation and reflection, students will explore interactions among developmental pathways, individual differences, and contextual factors such as culture, family, race, gender, ability, and socioeconomic status.

CHAD 35E. Early Childhood Field Experience. 3 Units

Prerequisite(s): CHAD 35 or CHAD 30 or the equivalent. CHAD 35 may be taken concurrently.

Term Typically Offered: Fall, Spring

This course examines theory and research in human development as it applies to early childhood education settings (0-5 years). Concepts related to cognitive, social-emotional, linguistic, and physical development, establishing and maintaining high quality programming (e.g., optimal learning environments, observation, etc.), and influences on development (e.g., family, race, cultural perspectives) within these settings will be discussed. Fieldwork includes 40 hours of service-learning at approved sites that are primarily off campus; students must complete clearance process (fingerprinting, TB tests) prior to placement.

Note: Fieldwork requirements include 40 hours of service-learning at approved sites that are primarily off campus; students must complete clearance process (fingerprinting, TB tests) prior to placement; Service Learning may be required.

CHAD 35F. Human Development and Elementary Field Experience. 3 Units

Prerequisite(s): CHAD 35 or the equivalent; CHAD 35 may be taken concurrently.

Term Typically Offered: Fall, Spring

The purpose of this course is to examine theory and research in human development as it applies to the elementary classroom. Discussion topics include cognitive, social-emotional, physical and language development, multiple intelligence, special needs, characteristics of play and the impact on social and cognitive development. Influences integral to development (e.g., family, race, cultural perspectives) are also included. This class requires 40 hours of field experience at a designated elementary school site. Students must complete fingerprinting and TB prior to placement.

Note: Service Learning may be required.

CHAD 44. Community Service Learning in Developmental and Educational Settings. 1 - 3 Units

Term Typically Offered: Fall, Spring

Designed to provide a range of service learning experiences where students apply their academic knowledge and skills in community-based settings. The community-based experiences will be combined with classroom activities designed to develop student understanding of topics related to their service activities such as tutoring reading and math, mentoring students from disadvantaged backgrounds, working with special populations of children.

Note: May be taken up to four times for credit (maximum 12 units of credit).

Credit/No Credit

CHAD 101. Career and Major Exploration in Child and Adolescent Development. 2 Units

Term Typically Offered: Fall, Spring

This course builds on lower-division major coursework and fieldwork to promote balanced scholarship and professionalism in the field of Child and Adolescent Development. Students will: 1) investigate their major and explore reading and writing in the discipline; 2) survey the breadth of professional opportunities, refine professional interests, and begin developing their professional portfolio; 3) engage in personal reflection to develop an individualized plan to guide their trajectory within the major in preparation for their future academic and/or professional goals. Pre-requisite: CHAD 30 or CHAD 35) and (CHAD 35F or CHAD 35E or CHAD 30C). CHAD 35F, CHAD 35E, or CHAD 30C may be taken concurrently. Must have 45 units completed.

Credit/No Credit

CHAD 123. Qualitative Methods in Human Development. 4 Units

Prerequisite(s): CHAD 30 or CHAD 35, or equivalent; CHAD 101. CHAD 101 may be taken concurrently.

Term Typically Offered: Fall, Spring

Introduction to qualitative research methods, their philosophical underpinnings, and their implications for understanding human development. The focus will be on identifying, interpreting, and designing qualitative research to study developmental processes. Attention will be given to methodological strategies used to document and analyze development in context, including participant observation field notes, interviews, documents, and artifacts, with implications for theory and practice. Activities include interpreting qualitative research, qualitative data collection and analysis, and communicating findings utilizing APA style.

Note: For CHAD majors, must be taken prior to completion of 90 units; completion of 45 total units credit

CHAD 128. Combined Research Methods in Human Development. 3 Units

Prerequisite(s): CHDV 30 or CHDV 35 or equivalent.

Term Typically Offered: Fall, Spring, Summer

Introduction to qualitative and quantitative research methods and their philosophical underpinnings. Consider theoretical, methodological, and ethical issues in studying learning and developmental processes from interpretive and social constructivist perspectives. Think critically about the generation of research questions and hypotheses and design and conduct of research inquiry, with implications for theory, policy, and practice. Students learn to locate, understand, critique, conduct, and report research findings from multiple approaches and be introduced to APA style writing as a tool for scholarly communication.

CHAD 130. Parent Education. 3 Units

Term Typically Offered: Fall, Spring

Ways parent education may be conducted in Child Development programs to meet legislated requirements as well as parent needs. Attention will be given to parent education programs which serve children of different ages, diverse language and cultural backgrounds, and children with special needs. The rights and responsibilities of children, parents and teachers will be discussed. Discussion and participation in such classroom activities as panels, presentations, demonstrations and cooperative learning assignments.
CHAD 131. Language Development. 3 Units
Prerequisite(s): CHAD 133. CHAD 133 may be taken concurrently.
Term Typically Offered: Fall, Spring

This course examines current views on language development and the interrelations between the cognitive, socio-cultural, and linguistic components of this process. Emphasis will be on early language development (0-6 years) with some attention paid to the school years and adolescence.

CHAD 133. Quantitative Methods in Human Development. 4 Units
Prerequisite(s): CHAD 30, or CHAD 35, or equivalent; CHAD 101; CHAD 101 may be taken concurrently.
Term Typically Offered: Fall, Spring

Introduction to quantitative research methods in human development and their philosophical underpinnings. Major topics include structures, design, and conduct of research inquiry; the generation of research questions and hypotheses; and collection and analysis of data. Students will be challenged to think critically about methodological issues, engage in quantitative research and conduct analyses, and increase their ability to locate, understand, critique, apply, and report research findings. APA style will be introduced to support the development of scholarly communication and writing.
Note: For CHAD majors, must be taken prior to completion of 90 units; completion of 45 total units credit

CHAD 134. Development of Young Children as Mathematical and Scientific Thinkers. 3 Units
Term Typically Offered: Fall, Spring

This course offers an introduction to theory, research and practice related to the development of mathematical and scientific reasoning in young children. The course will focus on effective assessment, teaching and learning strategies for young children. This course introduces concepts aligned with the California Preschool Learning Foundations in Mathematics and Scientific Reasoning.

CHAD 135. Culture and Human Development. 3 Units
Prerequisite(s): CHAD 123. CHAD 123 may be taken concurrently.
Term Typically Offered: Fall, Spring

This course examines the relationship between culture and human development. Comparisons will be made between the epistemological principles of cross-cultural and cultural approaches to human development in order to explore their implications for developmental theory and research. Research studies will serve as a foundation for learning and reflecting about diversity in human experience, and the ways that diverse cultural contexts shape how individuals think, act, and engage with others in local and global settings.

CHAD 136. Developmental Experiences, Methods and Curriculum. 3 Units
Prerequisite(s): CHAD 123 (may be taken concurrently).
Term Typically Offered: Fall, Spring

This course examines theory, research, and exemplary curriculum and practices for children in preschool through the elementary grades, including content-specific connections between and among a variety of disciplines, (i.e., literacy, social studies, the arts, science and mathematics). A developmental perspective will frame discussions about fundamental curricular concepts, values, and principles of the subject matter disciplines. This course introduces concepts aligned with the California Preschool Learning Foundations or Common Core.

CHAD 137. Cognitive Development. 3 Units
Prerequisite(s): CHAD 133.
Term Typically Offered: Fall, Spring

This course overviews cognitive development from conception through adolescence with consideration of biological and sociocultural influences. Emphasis will be placed on evaluating the major theories of cognitive growth. The course will include lectures, discussions, and participation in classroom activities such as research presentations, demonstrations, and cooperative learning assignments.

CHAD 138. Social and Emotional Development. 3 Units
Prerequisite(s): CHAD 133.
Term Typically Offered: Fall, Spring

This course overviews social and emotional development from conception through adolescence with consideration of biological and sociocultural influences. Emphasis will be placed on evaluating the major theories of social and emotional growth. The course will include lectures, discussions, and participation in such classroom activities such as research presentations, demonstrations, and cooperative learning assignments.

CHAD 139. Educational Play: Theory and Practice. 3 Units
Term Typically Offered: Fall, Spring

This course examines the role of play in childrens development and learning with an emphasis on early childhood. It discusses theories, research, and applied perspectives to play, as well as principles for designing inclusive and developmentally appropriate play environments and activities that are also culturally and linguistically sustaining for all children. Students will explore how play helps children develop physically, socially, emotionally, cognitively and creatively through a variety of playful modes. Activities include discussions, presentations, demonstrations and cooperative learning assignments.

CHAD 140. Coordination of Early Childhood Programs. 3 Units
Prerequisite(s): CHAD 30 or CHAD 35 or equivalent
Term Typically Offered: Fall, Spring

Advanced methodology of coordinating early childhood programs, to include organization, staff development and community relations. Includes the functions of parents, aides, volunteers and varied early childhood organizational patterns.

CHAD 141. History of Childhood: International and Interdisciplinary Perspectives. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Examination of what it means to be a child in today's world by comparing social constructions of childhood across the broad historical periods and in contrasting parts of the world. Exploration of cultural beliefs, values and practices of childhood in different historical, social, and economic contexts. Comparative approach provides a critical framework from which to analyze scholarly inquiry about how children develop in families, schools, and broader society. Course content will interest students from a broad array of majors.
CHAD 142. Development of Learning and Memory. 3 Units
Prerequisite(s): CHAD 30 or CHAD 35 or the equivalent
Term Typically Offered: Fall, Spring

This course provides an empirical and theoretical examination of the processes of learning and memory across developmental phases. Topics include the neuroscience of learning and memory, the origin and history of concepts and theories in learning and memory (e.g., behaviorist approaches), and applications of research on memory development to a variety of contexts (e.g., law, education, counseling).

CHAD 143. Mind and Brain in Developmental Context. 3 Units
Prerequisite(s): CHAD 30 or CHAD 35; Introductory Biology.
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring, Summer

Investigation of the biological processes underlying child development, from conception through adolescence. Emphasis will be on the genetic, neurological, and endocrine processes related to cognition, social, and emotional development. Students will explore the bidirectional nature of psychobiological processes, with specific emphasis on the psychobiological mechanisms underlying the transaction between cultural, educational, and social-emotional related to educational, and mental and physical health functioning.

CHAD 144. Community Service Learning in Developmental and Educational Settings. 1 - 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Designed to provide a range of service learning experiences where students apply their academic knowledge and skills in community-based settings. The community-based experiences will be combined with classroom activities designed to develop student understanding of topics related to their service activities such as tutoring reading and math, mentoring students from disadvantaged backgrounds, working with special populations of children.

Note: May be taken up to four times for credit (maximum 12 units of credit).

Credit/No Credit

CHAD 145. Controversial Issues in Childhood Development, Education, and Social Policy. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: GE AREA D, Race & Ethnicity Graduation Requirement (RE), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Discussion-based examination of controversial issues linking development, education, and cultural practice in which scholarly inquiry has substantial implications for social policy. Specific topics vary by semester and include topics of both historical relevance and contemporary debates. Content relevant to multiple disciplines including issues such as adolescent risk behavior, bilingual education, brain-based pedagogy, child care, children and the law, cultural diversity, developmental theory and educational practice, gender, literacy practices, motivation, parenting styles, school violence, special education, standardized testing, and technological change.

CHAD 146. Fostering Healthy Youth Development. 3 Units
Prerequisite(s): CHAD 30 or CHAD 35 equivalent
Term Typically Offered: Fall, Spring

This course will examine theory, research, and practice related to youth development, including developmental assets, well-being, civic engagement, resilience, empowerment, and positive youth development from middle childhood to emerging adulthood. Students will gain an understanding of how communities can support youth in developing towards their full potential. Identification of strategies and tools that promote youth development in a variety of contexts and cultures will be discussed. Activities include lecture, discussions, presentations, and cooperative learning assignments.

CHAD 147. Influences of Public Policy on Children & Adolescents. 3 Units
Prerequisite(s): CHAD 133 or CHAD 123. CHAD 133 or CHAD 123 may be taken concurrently.
Term Typically Offered: Fall, Spring

This course will provide students with an overview of US social policy and programs as they relate to children and adolescents. The policy process will be explored with attention paid to the role of empirical research, advocacy, and engagement of individuals and groups. Topics will include policies and programs that address poverty, education, families, ability, immigration, and criminal justice, among others. Students will analyze how policy integrates empirical research, meets their stated goals, and supports the development of diverse children.

CHAD 150. Literacy Development for Monolingual and Multilingual Children. 3 Units
Prerequisite(s): CHAD 123
Term Typically Offered: Fall, Spring

Students will investigate emergent literacy and literacy development of monolingual and multilingual young children from birth to eight, including developmental progressions and the science-based evidence related to foundational language and literacy knowledge. Other focal points will include associations with literacy and home-school connections, cultural influences (socioeconomic status, linguistic, etc.), social and linguistic justice, observation and assessment, theory to practice, and developmental strategies for supporting and understanding literacy development.

CHAD 153. Apprenticeship in Advanced Child Development. 3 Units
Prerequisite(s): Instructor permission
Term Typically Offered: Fall, Spring

Faculty mentors will meet with graduate and undergraduate apprentices individually or in small groups for guided discussions of assigned readings and/or research data analysis/collection endeavors. Prerequisite: Instructor permission.

Note: Readings will depend on the specific mentor’s research or scholarly interest; May be repeated up to four times for 12 units of credit, with a limit of 6 units applied towards the CHAD major requirements.
CHAD 156. Child and Adolescent Development in Context. 3 Units
Prerequisite(s): CHAD 35 or CHAD 30 (or equivalent)
Term Typically Offered: Fall, Spring

Investigation of the dynamic nature of child and adolescent development in the context of families, schools, and community. Students will gain an understanding of how issues in these contexts influence development and explore the dynamic relationships between contexts in promoting development. Attention will be paid to socioeconomic status as a context as well as the role of gender, race and ethnicity within contexts as they relate to development. Students will examine practices that strengthen collaboration between families, schools, and communities.

CHAD 157. Infant and Toddler Development and Care. 3 Units
Prerequisite(s): One of the following: CHAD 30 or CHAD 35, FACS 50, PSYC 148, or SWRK 125A.
Term Typically Offered: Fall, Spring

Research theory and practice are examined in relation to each area of infant and toddler development (conception through 24 months): Physical, social, emotional, cognitive, and perceptual. Individual differences and needs are stressed. Issues pertinent to individual and group care will be covered. Activities include lecture, discussion, and observations.

CHAD 172. Identity Development. 3 Units
Prerequisite(s): CHAD 30 or CHAD 35; CHAD 123 or CHAD 133; CHAD 123 or CHAD 133 may be taken concurrently
Term Typically Offered: Fall, Summer

This course will examine theory and research related to identity development among children, adolescents, and emerging adults. Students will gain an understanding of how identity varies as a function of gender, sexual orientation, income, education, race and ethnicity, abilities, and other factors and how these identities intersect and shape social interactions. In addition, focus will be on how identity shapes experiences of oppression, marginalization, privilege, and power. Methodologies used to understand identity development will also be explored.

CHAD 190. Capstone in Child and Adolescent Development. 3 Units
Prerequisite(s): CHAD 123, CHAD 133; CHAD 137 OR CHAD 138.
Term Typically Offered: Fall, Spring

As a culminating experience for the major, students blend professional and academic knowledge and experience. Students prepare for next professional steps, synthesize scientific knowledge of human development on a relevant topic of their choosing, and complete a related project with application in a community setting. Students complete 40 hours of fieldwork. Projects will be original, evidence-based, and address identified needs in the fieldwork setting. Course culminates in a community-invited senior presentation forum. Recommended to be taken in the final semester.

Note: Fieldwork includes 40 hours of service-learning at approved sites that are primarily off campus; students must complete clearance process (fingerprinting, TB tests) prior to placement; Service Learning may be required.

CHAD 191. Early Childhood Education Practicum. 3 Units
Prerequisite(s): CHAD 123 and CHAD 133.
Term Typically Offered: Fall, Spring

Students will utilize classroom experiences to make connections between theory and practice and develop professional behaviors. Students will plan, organize, implement and evaluate classroom activities under the supervision of a CHAD faculty and a qualified early education professional. Reflective practice will be emphasized as students design, implement, and evaluate approaches, strategies, and techniques that promote development and learning. Completion of 120 hours of supervised practicum is required.

CHAD 194. Cooperative Education Experience. 3 Units
Prerequisite(s): Completion of 60 units total credit and instructor permission. May be taken four times for a maximum of 12 units credit.
Term Typically Offered: Fall, Spring

Cooperative Education (Co-op) relates academic theory to professional practice by providing paid work experience in the student’s major field of study and academic credit. Students receive supervised employment in school districts, state and community agencies, companies and other appropriate settings. Requires regular meetings with faculty supervisor, completion of field study assignment, evaluation by field-based supervisor, and a written final report.

Credit/No Credit

CHAD 195. Internship in Child & Adolescent Development. 3 Units
Prerequisite(s): CHAD 30E, 35F, or 30C or equivalent. Completion of 60 units total credit and instructor permission.
Term Typically Offered: Fall, Spring

Designed to provide a range internship experiences where students apply academic knowledge to educational or community settings. Students receive supervised employment in school districts, state and community agencies, companies and other appropriate settings. The field experiences will be combined with class activities designed to develop students’ understanding of topics related to their service. Requires regular meetings with faculty supervisor, completion of field study assignment, evaluation by field-based supervisor, and a written final report. The internships can be paid or unpaid.

Credit/No Credit

CHAD 196A. Approaches to Research Methods in Child Development A. 3 Units
Prerequisite(s): CHAD 30 or CHAD 35 or equivalent; completion of 45 total units; Must be taken prior to completion of 90 units.
Term Typically Offered: Fall, Spring

This course examines methodological issues involved in assessment, observation, analysis, and design in the field of child development. Topics include the research process. APA style writing, ethics, design and methods, use assessment tools, qualitative and quantitative data analysis and interpretation. The focus will be on becoming critical consumers of research and developing the skills of scientific inquiry.

Note: First course in a series. 196B must be taken in the semester immediately following completion of CHAD 196A.
CHAD 199. Special Problems. 1 - 3 Units  
Term Typically Offered: Fall, Spring  
Individual projects designed especially for students capable of independent study. Admission by written approval of the instructor and Department Chair.  
Credit/No Credit

CHAD 200. Proseminar in Human Development. 3 Units  
Prerequisite(s): Admission to MA Child Development program or instructor permission.  
Term Typically Offered: Fall only  
Introduction to graduate education in the Child and Adolescent Development Program. Orientation to advanced scholarship in human development with a focus on understanding and evaluating current directions in developmental research. Students will explore interrelations among theory, research, and practice as applied to human development. Students will critically evaluate developmental research as it applies to diverse populations, including issues of antiracism, equity, individual differences, contexts, and historical time. Students will employ writing conventions specific to the discipline.

CHAD 210. Seminar in Social Development. 3 Units  
Term Typically Offered: Spring only  
Advanced developmental seminar focusing on theoretical and empirical research covering topics in socio-emotional development. Specific topics will be related to socio-emotional development of children from conception through emerging adulthood with consideration of biological, environmental, and sociocultural influences. Students will critically evaluate socio-emotional developmental theories as they apply to diverse populations, individual differences, contexts, and historical time. Students will also reflect on how to use that knowledge to work towards antiracism, equity, and inclusion in the study of socio-emotional development.

CHAD 211. Seminar in Cognitive Development. 3 Units  
Prerequisite(s): Admission to MA program or instructor permission.  
Term Typically Offered: Fall, Spring  
Advanced developmental seminar focusing on theoretical and empirical research covering topics in cognitive development. Specific topics will be related to cognitive development of children from conception through emerging adulthood with consideration of biological, environmental, and sociocultural influences. Students will critically evaluate cognitive developmental theories as they apply to diverse populations, individual differences, contexts, and historical time. Students will also reflect on how to use that knowledge to work towards antiracism, equity, and inclusion in the study of cognitive development.

CHAD 242. Theoretical Approaches to Development. 3 Units  
Prerequisite(s): CHAD 137 or CHAD 138. Graduate standing or instructor permission.  
Term Typically Offered: Fall only  
An in-depth examination of theoretical approaches to various domains of human development. Content includes current and historical developmental theory and application of theory to developmental research. Critical thinking skills and scholarly writing will be emphasized.  
Note: Graduate Writing Intensive course
CHAD 244. Community Service Learning in Developmental and Educational Settings. 1 - 3 Units
Term Typically Offered: Fall, Spring

Designed to provide a range of service learning experiences where students apply their academic knowledge and skills in community-based settings. The community-based experiences will be combined with classroom activities designed to develop student understanding of topics related to their service activities such as tutoring reading and math, mentoring students from disadvantaged backgrounds, working with special populations of children.

Note: May be taken up to four times for credit (maximum 12 units of credit).

CHAD 245. Selected Topics in Developmental Theory. 3 Units
Prerequisite(s): Admission to MA program or instructor permission.
Term Typically Offered: Fall, Spring

In-depth study of a selected topic in human development. Topic varies with each offering by rotating instructors. This course explores contemporary advancements in theory and research in the selected subdiscipline or topical area within human development.

Note: May be taken twice as long as topics and instructors differ.

CHAD 246. Motivation and Learning in Children. 3 Units
Prerequisite(s): Graduate standing, or instructor permission.
Term Typically Offered: Fall, Spring

Sources of and developmental changes in motivation, including biological predispositions, critical life events, individual differences, and social, cultural and educational experiences will be examined. Students will participate in a group research effort on motivation and educational practice.

CHAD 247. Seminar in Culture and Human Development. 3 Units
Prerequisite(s): CHDV 200 or instructor permission. CHDV 200 may be taken concurrently.
Term Typically Offered: Fall, Spring

In-depth examination of the relationship between culture and human development. Opportunities will be provided to evaluate how different theoretical and methodological approaches are used in the study of human development across cultures, including their epistemological principles, scope, and limitations. Developmental research will be used as the foundation to evaluate how diversity in human experiences shape how individuals think, act, and engage with others in local and global settings.

CHAD 248. Curriculum and Instruction. 3 Units
Prerequisite(s): Graduate standing or instructor permission.
Term Typically Offered: Fall, Spring

Advanced study of the sociocultural influences on curriculum development. Research, theory, and curricular practices will be analyzed, evaluated and applied to a variety of preschool and primary grade settings.

CHAD 249. Language Processes in Development. 3 Units
Prerequisite(s): Admission to MA program or instructor permission.
Term Typically Offered: Fall, Spring

Language is an important cognitive and communicative tool that promotes learning. Through an integrative approach to language and cognitive development, students will examine how children learn through language. Students will have practical experience in collecting and analyzing children's language learning in educational settings.

CHAD 250. Advanced Quantitative Research Methods in Human Development. 3 Units
Prerequisite(s): CHAD 133; admission to the MA program or instructor permission.
Term Typically Offered: Fall, Spring

Critical analysis of quantitative research methods used in the study of human development and their philosophical underpinnings. Major topics include design; ethical conduct of research inquiry; the generation of research questions and hypotheses; and data collection, analysis, and interpretation. Critical thinking and disciplinary style writing skills will be emphasized.

CHAD 253. Apprenticeship in Advanced Child Development. 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Faculty mentors will meet with graduate and undergraduate apprentices individually or in small groups for guided discussions of assigned readings and/or research data analysis/collection endeavors.

Note: Readings will depend on the specific mentor's research or scholarly interest; May be repeated up to 4 times for credit.

CHAD 258. Advanced Qualitative Research Methods in Human Development. 3 Units
Term Typically Offered: Fall, Spring

Critical analysis of qualitative research methods used in for the study of human development and their philosophical underpinnings. Major topics include design; ethical conduct of research inquiry; the generation of research questions; and data collection, analysis, and interpretation. Critical thinking and disciplinary style writing skills will be emphasized.

CHAD 290. Writing a Proposal. 3 Units
Prerequisite(s): CHAD 200 and CHAD 242 or instructor permission.
Corequisite(s): CHAD 250 or CHAD 258
Term Typically Offered: Fall, Spring

Seminar to focus on creating a proposal for the culminating experience (thesis/project). Students will be required to review various source materials related to their topic in human development, and synthesize the extant knowledge to justify their study or project. Course culminates with the completion of the research proposal.

Credit/No Credit
CHAD 292. Culminating Seminar for Exam Option. 3 Units
Prerequisite(s): Completion of all foundation course requirements for MA program (CHAD 200A, CHAD 200B, CHAD 242, CHAD 247, CHAD 250) advancement to candidacy, or instructor permission.
Term Typically Offered: Fall, Spring
Seminar to focus on topics/elements/expectations for the exam option culminating experience: test preparation and tips, exam writing, practice exam questions, time management, and community building with other students. Students will complete reading and writing assignments related to each exam area and prepare for an exam question related to an approved elective topic of their choice. Students will submit an exam petition to be reviewed and approved by the departmental exam committee.
Credit/No Credit

CHAD 295. Practicum in Child Development. 1 - 3 Units
Prerequisite(s): Graduate standing, or instructor permission.
Term Typically Offered: Fall, Spring
Directed field based experience in preschool, elementary or other community based settings serving children from infancy through adolescence and their families. Designed to provide students the opportunity to develop professional skills and understandings in applied settings or explore career development opportunities with particular emphasis on leadership or administrative skills and knowledge.
Note: Students are required to work at an instructor-approved field site consistent with their career goals and interests and attend an on campus seminar.

CHAD 299. Special Problems. 1 - 3 Units
Prerequisite(s): Open only to upper division and graduate students with consent of faculty advisor and Department Chair.
Term Typically Offered: Fall, Spring
Individual projects at graduate level designed especially for students capable of independent study. Departmental petition, signed by instructor with whom student will be working and department chair, required. Credit/No Credit

CHAD 504. Culminating Experience in Child Development: Thesis or Project. 3 Units
Prerequisite(s): Advancement to candidacy within the MA Child and Adolescent Development Program.
Term Typically Offered: Fall, Spring
Guidance toward completion of the culminating experience for the MA Child and Adolescent Development program. Credit is given upon successful completion of an approved culminating experience. Open only to graduate students who have 1) advanced to candidacy for the Master's degree, and 2) secured the permission of their faculty advisor and the Department Chair one full semester prior to registration.

CHAD 505. Culminating Experience in Child Development: Exam Option. 3 Units
Prerequisite(s): Admission to and completion of all course requirements for the MA, Child Development program, CHAD 292 or instructor permission.
Term Typically Offered: Fall, Spring
Guidance in ongoing preparation for the examination option for the MA, Child Development program. Credit is given upon successful completion of the examination option for the culminating experience. Open only to the graduate student who has completed all other course requirements, has been advanced to candidacy for the Master's degree, and has secured the permission of the Department Chair one full semester prior to registration.
Credit/No Credit

Chinese (CHIN)

CHIN 1A. Elementary Mandarin. 5 Units
Term Typically Offered: Fall only
Beginning Mandarin with emphasis on listening comprehension, speaking, grammar structure and character writing. The relationship between language and culture will also be emphasized. Includes an introduction to elements of Chinese culture that pertain to language, such as mode of thinking, inter-human relations, and aesthetic expressions.

CHIN 1B. Elementary Mandarin. 5 Units
Prerequisite(s): CHIN 1A or instructor permission.
General Education Area/Graduation Requirement: Humanities (Area C2), Foreign Language Graduation Requirement
Term Typically Offered: Spring only
Continuation of CHIN 1A, with growing emphasis on reading, writing, and listening. Chinese cultural patterns as reflected in the language, such as societal values and views of the world, will continue to be emphasized.

CHIN 2A. Intermediate Mandarin. 4 Units
Prerequisite(s): CHIN 1B or instructor permission.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement
Term Typically Offered: Fall only
Intermediate Mandarin on the further development of reading, speaking, and writing skills. Emphasis will be placed on the shift from romanized script to Chinese characters. Introduction will also be made to simple prose reading. Meets the Foreign Language Graduation Proficiency Requirement.

CHIN 2B. Intermediate Mandarin. 4 Units
Prerequisite(s): CHIN 2A or instructor permission.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement
Term Typically Offered: Spring only
Continuation of CHIN 2A designed to further the development of reading, speaking and writing skills at the intermediate to intermediate-high level.
CHIN 110. Advanced Mandarin. 3 Units
Prerequisite(s): CHIN 28 or instructor permission.
Term Typically Offered: Fall only

Offered to third-year Mandarin learners, this course is designed to further develop language and communication skills with a focus on reading and discussing selected topics pertaining to a variety of contemporary China. Students will also study strategies for reading both simplified and traditional Chinese characters.

CHIN 120. Chinese Civilization. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Presentation of formative cultural achievements of China through language and literature with a view to understanding present-day popular Chinese culture. A general survey conducted in English for students who are taking Chinese language courses and others who want a deeper appreciation of this important non-Western culture.

CHIN 130. Introduction to Classical and Literary Chinese. 3 Units
Prerequisite(s): CHIN 2A or equivalent

The classical Chinese language, also known as literary Chinese, is the doorway into the fascinating world of Chinese culture. It has been the primary form of communication for at least three thousand years. Although Classical Chinese uses many of the same characters as modern Mandarin Chinese, the syntax and diction are quite different. In this course, we will study the language through readings in early philosophical, historical, and poetic texts.

CHIN 150. Survey of Chinese Literature. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only

Introduction to Chinese literature from classical times to the present. The various forms of Chinese prose, drama, poetry, and novel will be surveyed through the selective reading of representative works (in English translation). Class is conducted in English.

CHIN 195. Fieldwork-Tutoring. 1 - 3 Units
Prerequisite(s): Advanced level fluency and instructor permission.
Term Typically Offered: Fall, Spring

Tutoring of lower division students in Mandarin or Cantonese. 3 hours of tutoring per week for each unit. May be taken for credit more than once. Credit/No Credit

CHIN 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading. Open only to students who appear competent to carry on independent study. Admission requires the approval of the instructor by whom the work is to be supervised. Credit/No Credit

Civil Engineering (CE)

CE 1. Civil Engineering Seminar. 1 Unit
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Introduces students to civil engineering as a profession. Topics include the technical disciplines (environmental, geotechnical, structural, transportation, and water resources), the role of civil engineers in planning, constructing and operating infrastructure, and professional responsibilities such as licensure and ethics. Case studies are used to explore both technical and nontechnical aspects of civil engineering projects such as design and environmental constraints, constructability, and social and political issues.

CE 4. Engineering Graphics and CAD. 2 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

In-depth graphic analysis and solution of typical three dimensional space problems by applying the principles of orthogonal projection. Fundamentals of interactive computer aided design and drafting. Lecture one hour; laboratory three hours.

CE 9. Plane and Topographic Surveying. 2 Units
Prerequisite(s): MATH 30 and CE 9L. CE 9L may be taken concurrently. MATH 30 may be taken concurrently. Not currently enrolled in CE 9.
Term Typically Offered: Fall, Spring

Methods for the measurement of distance, direction, angles and elevations. Computational methods for locating points, closing traverses and determining areas and earthwork volumes. Horizontal and vertical curves. Introduction to legal aspects of surveying, geodetic surveys, maps, boundary surveys and new technologies used in surveying. Lecture two hours.

CE 9L. Plane and Topographic Surveying Laboratory. 1 Unit
Prerequisite(s): MATH 30 and CE 9. CE 9 may be taken concurrently. MATH 30 may be taken concurrently. Not currently enrolled in CE 9L.
Term Typically Offered: Fall, Spring

Laboratory course that supports CE 9. Use of surveying instruments and measurement techniques in field setting. Laboratory three hours.

Note: This course requires safety training and personal protective equipment (PPE).

CE 100. Engineering Geology. 2 Units
Prerequisite(s): ENGR 112; may be taken concurrently.
Term Typically Offered: Fall, Spring

Soil and rock mechanics and their relations to geological features influencing design, construction and maintenance of engineering projects. Lectures and field problems.

CE 101. Computer Applications in Civil Engineering. 3 Units
Prerequisite(s): ENGR 30 and CE 4; CE 4 may be taken concurrently.
Term Typically Offered: Fall, Spring

Development of programming- and algorithm-based problem-solving skills in civil engineering using modern programming and scripting languages and scientific computing programs. Application to numerical methods, data science, and visualization.
CE 130. Water Resources Engineering. 3 Units
Prerequisite(s): CE 1, CE 101, ENGR 115, ENGR 132, CE 130L. CE 130L may be taken concurrently. CE 101 may be taken concurrently. Not currently enrolled in CE 130.
Term Typically Offered: Fall, Spring

Hydrologic and hydraulic fundamentals which are common to water resources projects; introduction to reservoirs, dams, pipelines, channels, hydraulic machinery, ground water, water rights, statistical analysis, engineering economy applications, and water resources planning.

CE 130L. Hydraulics Laboratory. 1 Unit
Prerequisite(s): CE 101 and CE 130. CE 130 may be taken concurrently. CE 101 may be taken concurrently. WPJ Score of 70+ or equivalent. Not currently enrolled in CE 130L.
Term Typically Offered: Fall, Spring

Laboratory experiments relating the principles of fluid mechanics to real fluid flow. Laboratory three hours.

CE 131. Hydrology. 3 Units
Prerequisite(s): CE 130 and CE 130L. Not currently enrolled in CE 131.
Term Typically Offered: Fall only

Introduction to surface water hydrology for engineering. Evapotranspiration and infiltration prediction. Precipitation analysis, hydrograph and flood routing applications for civil engineering. Statistical applications in hydrology.

CE 132. Groundwater Engineering. 3 Units
Prerequisite(s): CE 130 and CE 130L. Not currently enrolled in CE 132.
Term Typically Offered: Spring only

CE 133. Design of Urban Water and Sewer Systems. 3 Units
Prerequisite(s): CE 130 and CE 130L. Not currently enrolled in CE 133.
Term Typically Offered: Fall only

Hydraulic design of water distribution and sewerage systems. Computer-assisted pipe network analysis. Analysis of pump systems. Pump station design. Other selected topics.

CE 134. Open Channel Hydraulics. 3 Units
Prerequisite(s): CE 130 and CE 130L. Not currently enrolled in CE 134.
Term Typically Offered: Spring only

Civil engineering design problems in steady, uniform, gradually and rapidly varied open channel flow. Hydraulic analysis in structures, transitions, culverts, weirs and spillways. Channel design including roughness for subcritical and supercritical flow. Prediction of water surface profiles via simulation software.

CE 140. Transportation Engineering. 3 Units
Prerequisite(s): CE 1, CE 9, CE 9L, CE 101, ENGR 115, and CE 140L. CE 140L may be taken concurrently. CE 101 may be taken concurrently. Not currently enrolled in CE 140.
Term Typically Offered: Fall, Spring

Introduction to the fundamental topics in Transportation Engineering. Focus on roadway geometric design, layout considerations, pavement materials and design, traffic operations and analysis.
CE 150L. Environmental Engineering Laboratory. 1 Unit
Prerequisite(s): CHEM 1E or CHEM 1A, ENGR 115, CE 1, CE 101, and CE 150. CE 150 may be taken concurrently. CE 101 may be taken concurrently. WPJ Score of 70+ or equivalent. Not currently enrolled in CE 150L.
Term Typically Offered: Fall, Spring

This is the laboratory course that supports CE 150. Activities include water quality testing and computer modeling. Laboratory three hours.
Note: This course requires safety training and personal protective equipment (PPE).

CE 151. Environmental Engineering Practice. 2 Units
Prerequisite(s): CE 150. Not currently enrolled in CE 151.
Term Typically Offered: Fall, Spring

CE 153. Design of Water Quality Control Processes. 3 Units
Prerequisite(s): CE 150B and ENGR 132. Not currently enrolled in CE 153.
Term Typically Offered: Spring only

Analysis and design of selected physical, chemical, and biological facilities for water purification and wastewater treatment. Emphasis is on design based on loading factors and integration of unit processes into treatment systems.

CE 155. Geoenvironmental Engineering. 3 Units
Prerequisite(s): CE 150B and CE 170; CE 150B may be taken concurrently. Not currently enrolled in CE 156.
Term Typically Offered: Not offered

Equilibrium distribution of contaminants among air, water and solid phases of soil systems; analysis and modeling of soil vapor extraction (SVE), pump and treat, and soil washing systems; movement of gasses in landfills; infiltration through landfill cover; geosynthetic liner systems; hazardous waste containment systems.

CE 160. Introduction to Structural Analysis. 3 Units
Prerequisite(s): CE 1, CE 101, ENGR 112, and (MATH 35 or MATH 100). Not currently enrolled in CE 160.
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring

Analysis of statically determinate and indeterminate beams, frames, and trusses. Includes energy principles, flexibility and stiffness analyses, and influence lines. Computers are used to aid in the solution of complex structural problems.

CE 160L. Structural Laboratory. 1 Unit
Prerequisite(s): CE 101 and ENGR 112. WPJ score of 70+ or equivalent. Not currently enrolled in CE 160L.
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring

Introduction to the principles of structural analysis and design by testing of structural elements. Experimental verification of the assumptions of strength of materials. Introduction to laboratory techniques. Laboratory three hours.
Note: This course requires safety training. This course requires personal protective equipment (PPE).

CE 163. Structural Steel Design. 3 Units
Prerequisite(s): CE 160. Not currently enrolled in CE 163.
Term Typically Offered: Fall, Spring

Theory and practice in design of structural steel members and connections using current design specifications. Design of tension and compression members, laterally supported and unsupported beams, beam-columns, and bolted and welded connections.

CE 164. Reinforced Concrete Design. 3 Units
Prerequisite(s): CE 160 and CE 160L. CE 160L may be taken concurrently. Not currently enrolled in CE 164.
Term Typically Offered: Fall, Spring

Introduction to reinforced concrete design according to American Concrete Institute (ACI) 318 Building Code, including: design and safety concepts; loads and load path; structural systems; material properties; flexural analysis and design of reinforced concrete beams and one-way slabs; development of reinforcement; serviceability; shear; columns; and other topics.

CE 165. Masonry Design. 3 Units
Prerequisite(s): CE 160. Not currently enrolled in CE 165
Term Typically Offered: Spring only

History of masonry. Masonry materials. Masonry as a structural material. Design of masonry beams, concentrically and eccentrically loaded columns, walls for vertical and lateral loading including effects of wind and seismic forces. Design of a small building for wind and seismic loading including torsional effects.

CE 166. Seismic Behavior of Structures. 3 Units
Prerequisite(s): CE 101, CE 160, and ENGR 110. Not currently enrolled in CE 166
Term Typically Offered: Fall, Spring

Analyzes simple structures’ response to dynamic loads with emphasis on response to earthquake ground motion. Introduction to multi-story buildings dynamics. Modal and approximate analyses of earthquake response. Dynamic analysis and building code procedures.

CE 168. Prestressed Concrete Design. 3 Units
Prerequisite(s): CE 160 and CE 164. CE 164 may be taken concurrently. Not currently enrolled in CE 168.
Term Typically Offered: Fall only – even years

Introduction to prestressed concrete design, focusing on bridges and buildings. Topics include: basic concepts; technology for fabrication and construction; material properties; flexural analysis and design for non-composite and composite beams; development of strands; prestress losses; camber and deflections; shear; and other topics. Design conforming to American Concrete Institute (ACI) 318 Building Code or AASHTO LRFD Bridge Design Specifications is emphasized, as appropriate.

CE 169. Timber Design. 3 Units
Prerequisite(s): CE 160. Not currently enrolled in CE 169.
Term Typically Offered: Fall only

Wood as a structural material. Design of sawn and glulam beams, concentrically and eccentrically loaded columns, shear walls, flexible diaphragms and connections for vertical and lateral loading including effects of wind and seismic forces.
CE 170. Soil Mechanics. 3 Units  
**Prerequisite(s):** CE 1, CE 100, CE 101, ENGR 112, and CE 170L. CE 170L may be taken concurrently. CE 101 may be taken concurrently. Not currently enrolled in CE 170.  
**Term Typically Offered:** Fall, Spring

Composition and properties of soils; soil classification; soil compaction; soil-water interaction, including permeability and seepage analyses; soil stresses; soil compressibility, consolidation, and settlement analysis; soil shear strength.

**CE 170L. Soil Mechanics Laboratory.** 1 Unit  
**Prerequisite(s):** Complete CE 1, CE 100, CE 101, ENGR 112, CE 170. CE 170 may be taken concurrently. CE 101 may be taken concurrently. WPJ Score of 70+ or equivalent. Not currently enrolled in CE 170L.  
**Term Typically Offered:** Fall, Spring

Laboratory course that supports CE 170. Activities include soil testing and analysis of geotechnical site investigation data. Laboratory three hours.  
**Note:** This course requires safety training and personal protective equipment (PPE).

CE 171. Soil Mechanics and Foundation Engineering. 3 Units  
**Prerequisite(s):** CE 170 and CE 170L. Not currently enrolled in CE 171.  
**Term Typically Offered:** Spring only

Lateral earth pressures and principles of retaining wall design; slope stability analysis and principles of slope stabilization design; ultimate bearing capacity of soils, allowable bearing pressures and settlement of structures; principles of foundation design including shallow foundations and deep foundations.

CE 175. Geotechnical Earthquake Engineering. 3 Units  
**Prerequisite(s):** CE 170 and CE 170L. Not currently enrolled in CE 175.  
**Term Typically Offered:** Fall only

Introduction to seismology and seismic hazard analysis; determination of building code design loads; prediction of soil-site effects; evaluation of liquefaction triggering, cyclic softening and associated consequences; introduction to mitigation techniques for liquefaction and ground failure hazards.

CE 182. Introduction to GIS in Civil Engineering. 3 Units  
**Prerequisite(s):** ENGR 115, CE 9, CE 9L, and (CE 130 or CE 140 or CE 150 or CE 170). Not currently enrolled in CE 182.  
**Term Typically Offered:** Fall only

Fundamental geographic information system (GIS) concepts; GIS data acquisition and analysis; GIS analytical methods. Lab exercises with GIS software used to introduce students to typical uses of GIS in civil engineering. This course may be paired with the graduate-level course GIS Applications in Civil Engineering. Lecture two hours; laboratory three hours.

CE 183. Concrete Technology. 3 Units  
**Prerequisite(s):** ENGR 112.  
**Term Typically Offered:** Spring only

History of portland cement, production, hydration, aggregates, supplementary cementitious materials, chemical admixtures, fresh and hardened concrete properties, concrete mixture design, and concrete construction. Introduction to concrete durability, concrete repair, and advances in concrete technology.

CE 190. Civil Engineering Project Skills. 3 Units  
**Prerequisite(s):** CE 130 or CE 140 or CE 150 or CE 160 or CE 170. WPJ Score of 70+ or equivalent. Not currently enrolled in CE 190.  
**General Education Area/Graduation Requirement:** GE AREA D  
**Term Typically Offered:** Fall, Spring

Introduction to professional engineering practice through case studies of existing projects, including estimating, scheduling, and specifications. Evaluation of design alternatives for engineering projects using principles of engineering economy and cost benefit analysis. Engineering ethics and professional responsibilities.  
**Note:** This course is intended to be taken in the final year of study before taking CE 191.

CE 191. Senior Project. 3 Units  
**Prerequisite(s):** CE 190  
**Term Typically Offered:** Fall, Spring

Culminating degree requirement. Completion of a conceptual design and evaluation of alternatives under realistic constraints for proposed infrastructure projects. Students work in teams with practicing professionals providing mentoring. Draws upon full educational experience to date. Lecture two hours. Laboratory three hours.  
**Note:** This course must be taken in the final semester.

CE 194. Career Development in Civil Engineering. 1 Unit  
**Prerequisite(s):** Instructor permission.  
**Term Typically Offered:** Fall, Spring

Designed for Civil Engineering students making career decisions. Instruction will include effective career planning strategies and techniques including skill assessments, employment search strategy, goal setting, time management, interview techniques and resume writing. Lecture one hour.  
**Note:** Units earned cannot be used to satisfy major requirements. Cross Listed: ENGR 194, EEE194

Credit/No Credit

CE 195. Fieldwork in Civil Engineering. 1 - 3 Units  
**Prerequisite(s):** Petition approval by supervising faculty member and Department chair.  
**Term Typically Offered:** Fall, Spring

Supervised work experience in civil engineering with public agencies or firms in the industry.  
**Note:** May be repeated for credit.

Credit/No Credit

CE 195A. Professional Practice. 1 - 12 Units  
**Prerequisite(s):** Instructor permission.  
**Term Typically Offered:** Fall, Spring

Supervised employment in a professional engineering or computer science environment. Placement arranged through the College of Engineering and Computer Science.  
**Note:** Requires satisfactory completion of the work assignment and a written report.

Credit/No Credit
CE 196B. Stormwater Management. 3 Units
Prerequisite(s): CE 150, CE 150L, CE 130, CE 130L
Term Typically Offered: Spring only

CE 196I. Geometric Design of Highways. 3 Units
Prerequisite(s): CE140, CE 140L
Term Typically Offered: Fall, Spring

Theory and practice of the principles of geometric design of highways and roads focusing on designing visual aspects of highways, highway classification, design controls and criteria, design elements, safety, vertical and horizontal alignment, cross section, intersections, and interchanges. Emphasis on the latest Federal and California design standards and tools, methods, and practices.

CE 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading.

Note: Open to students judged capable of carrying out individual work. Admission requires departmental approval and sponsorship of a supervising faculty member. Cannot be used as a technical elective in the major. Consult the CE Department for admission procedures and other requirements. May be repeated.

CE 199E. Independent Study Technical Elective. 3 Units
Prerequisite(s): GPA of 2.5 or greater in the upper division courses of the major; grade of "B" or better in the required major course associated with the proposed area of study (CE 130 or CE 140 or CE 150 or CE 160 or CE 170).
Term Typically Offered: Fall, Spring

Individual project, research, or directed reading on an advanced topic.

Note: Open to only those students prepared and capable of carrying out independent work.

CE 200. Civil Engineering Professional Writing. 3 Units
Term Typically Offered: Fall, Spring

Writing workshop course designed to immerse graduate students in the discourse of civil engineering. Instruction and practice in the writing process, professional writing styles used in the discipline, and editing. Multiple writing assignments totaling a minimum of 5000 words will be required.

CE 230. Water Resources Planning. 3 Units
Prerequisite(s): CE 281 or instructor permission.
Term Typically Offered: Fall only – odd years

Application of single and multi-objective planning to the design and operation of water resources projects. Objectives and constraints for water projects, criteria and procedures for evaluation, planning under uncertainty. Application in water development and water quality planning, with case studies.

CE 231. Hydrometeorology. 3 Units
Prerequisite(s): CE 130 or CE 131 and ENGR 115.
Term Typically Offered: Spring only – odd years

Analyses of hydrologic processes closely linked to the atmosphere: evaporation, evapotranspiration, precipitation, and snowmelt. Penman and Penman-Montieth evaporation models, the eddy covariance method for land-atmosphere vapor and energy fluxes, atmospheric rivers and their impact on California water resources.

CE 232. Groundwater Hydrology. 3 Units
Prerequisite(s): CE 130 or instructor permission.
Term Typically Offered: Fall only – even years

Occurrence and movement of groundwater; physical characteristics of aquifers; analysis of steady-state groundwater flow problems by mathematical, digital computer, electrical analog and graphical methods; analysis of unsteady-state problems in confined and unconfined, aquifers; multiple well systems.

CE 234. Advanced Engineering Hydrodynamics. 3 Units
Prerequisite(s): CE 130 or equivalent, or instructor approval.
Term Typically Offered: Spring only – even years

Steady uniform and non-uniform open channel flows including gradually, rapid and spatially varied flows; analysis of supercritical flow in transition; basic principles of unsteady flows; long wave theory; Saint-Venant Equations and their solutions including method of characteristics, explicit and implicit finite difference numerical methods.

CE 235. Hydrologic Modeling. 3 Units
Prerequisite(s): CE 234 or equivalent.
Term Typically Offered: Spring only – odd years

Theories and structure of hydraulic model components; application of HEC-RAS (River Analysis System) and HEC-HMS (Hydrologic Modeling System) computer programs; emphasis on flood routing methods; dam safety analysis methodology including dam break and dam overtopping cases; application of microcomputers in hydraulics computations.

CE 241. Analysis and Control of Traffic Systems. 3 Units
Prerequisite(s): CE 140 or CE 142; CE 243 or instructor permission.
Term Typically Offered: Spring only – odd years

Traffic data collection and analysis, practical application of theoretical methods of analysis such as capacity, level of service, and queuing theory. Investigation of traffic control techniques such as actuated signals and signal systems, and study of management techniques for traffic congestion.

CE 242. Transportation Planning. 3 Units
Prerequisite(s): CE 142 or instructor permission.
Term Typically Offered: Fall only – odd years

Introduction to the complexities of comprehensive intermodal transportation planning. Study of transportation problems, system operating characteristics, alternative modes, and the planning process. Analyzes factors affecting travel behavior and methods of forecasting demand for travel by various modes.
CE 243.  Traffic Flow Theory.  3 Units
Prerequisite(s): CE 140 or CE 142; ENGR 203 or instructor permission.
Term Typically Offered: Fall only – even years

Study of traffic flow characteristics including flow rate, speed, and
density, at both the microscopic and macroscopic levels. Traffic flow
analysis using the theoretical methods including capacity analysis, traffic
stream models, shockwave analysis, and queuing analysis. Emphasis is
on theory with demonstration of practical applications.

CE 244.  Advanced Transportation Facility Design.  3 Units
Prerequisite(s): CE 140 or instructor permission.
Term Typically Offered: Fall only – even years

Advanced study of current topics in highway and mass transportation
facility design including safety, curve design, pavement design and
drainage facility design. Focuses on current design practice and recent or
impending changes in design practice.

CE 245.  Pavement Design.  3 Units
Prerequisite(s): CE 140 and CE 170.
Term Typically Offered: Spring only – even years

Fundamental principles of pavement analysis, design, and evaluation.
Topics include pavement materials, mechanics, traffic and environmental
loadings, pavement performance, design methods, construction and
economic evaluation.

CE 251.  Environmental Quality Processes I.  3 Units
Prerequisite(s): CE 150, 150L, and CE 151; or equivalent.
Term Typically Offered: Fall, Spring

Theory and practice of chemical processes affecting water quality.
Chemical equilibrium, stoichiometry and kinetics of aqueous chemistry.
Acid-base, precipitation-dissolution, oxidation-reduction, and coordination
chemistry. Adsorption.

CE 252.  Environmental Quality Processes II.  3 Units
Prerequisite(s): CE 150, 150L, and 151.
Term Typically Offered: Fall, Spring

Theory and practice of biological processes for controlling water.
Stoichiometry and kinetics of microbial growth. Aerobic and anaerobic
metabolism. Engineered suspended and attached growth systems.
Introduction to sludge treatment.
Note: CE 251 recommended.

CE 253.  Environmental Quality Processes III.  3 Units
Prerequisite(s): CE 150, 150L, and 151; or equivalent.
Term Typically Offered: Fall, Spring

Theory and practice of physical and chemical processes used in
engineered water and wastewater systems. Adsorption, ion exchange,
gas transfer, membrane processes, coagulation, flocculation,
sedimentation, filtration, precipitation, disinfection, and stripping.
Physical/chemical reactors.
Note: CE 251 recommended.

CE 254.  Water Quality Management.  3 Units
Prerequisite(s): CE 170 or equivalent, CE 252A recommended, or
instructor permission.
Term Typically Offered: Fall, Spring

Examination of pollution sources and effects on water bodies, and the
management issues and tools used to protect environmental quality.
Topics include point and nonpoint pollution sources, interactions in
the environment, Federal and State laws, water quality objectives,
beneficial uses, and regulatory mechanisms such as basin plans and
total maximum daily loads (TMDLs). Emphasis is on surface water.

CE 255.  Transport of Chemicals in Soil Systems.  3 Units
Prerequisite(s): MATH 45. Graduate status.
Term Typically Offered: Fall, Spring

Study of the mechanics of movement of chemicals in soil, including
equilibrium and partition models, development of mass transport
equations in porous media, analytical solution for one-dimensional
transport, lumped parameter transport model (linear reservoir model),
transport of reactive and conservative chemicals numerical solutions of
transport models, transport in the unsaturated zone and coupled models
for saturated and unsaturated zone.

CE 260.  Matrix Structural Analysis.  3 Units
Prerequisite(s): CE 160.
Term Typically Offered: Fall only – even years

Flexibility and stiffness methods of structural analysis are applied to two-
and three-dimensional framed structures. Use of computer software to
perform analysis is discussed in detail. Techniques of computer modeling
are discussed.

CE 261.  Finite Element Analysis.  3 Units
Prerequisite(s): CE 260 or instructor permission.
Term Typically Offered: Spring only – odd years

Continuation of CE 260 with extension of theory to allow for the analysis
of a wider variety of structures. Structural analysis software is used for
the analysis of three-dimensional structures. Fundamentals of the finite
element method and computer modeling with applications to structural
problems.

CE 262.  Nonlinear Structural Analysis.  3 Units
Prerequisite(s): CE 260
Term Typically Offered: Spring only – odd years

Theory and applications of nonlinear structural analysis including
geometric and material nonlinear effects. Stability issues and second-
order analysis methods are discussed in the context of moment
amplification effects, member buckling, and the behavior of structural
elements and frames undergoing large deformations. Inelastic material
behavior and stress resultant plasticity concepts within a line-type
element framework. Computer implementation of geometric nonlinear
behavior.

CE 263.  Advanced Steel Design.  3 Units
Prerequisite(s): CE 163 or instructor permission
Term Typically Offered: Spring only – even years

Advanced design methodology of steel structures using Load and
Resistance Factor Design (LRFD). System level behavior, especially from
a seismic loading perspective, is integrated into the design of
steel components and connections. Other topics include plate girder
design, plastic design of indeterminate systems, design of moment frame
systems, and design of braced-frame systems.
CE 264. Advanced Design in Reinforced Concrete. 3 Units
Prerequisite(s): CE 160, CE 163, CE 164.
Term Typically Offered: Spring only – even years
Advanced topics in behavior and design in reinforced concrete. Detailing for seismic response.

CE 266. Dynamics and Earthquake Response of Structures. 3 Units
Prerequisite(s): CE 160, or equivalent.
Term Typically Offered: Fall only – odd years
Response of structures modeled as single-degree systems to harmonic, periodic, and arbitrary excitation and earthquake ground motion; effects of damping and material nonlinearity; numerical methods using spreadsheets; response spectra. Response of structures modeled as multi-degree systems: modeling of structure mass, damping and elastic stiffness; solution by modal superposition; time-history and response spectrum analysis; implications for codes for earthquake-resistant design. Microcomputer software is extensively used.

CE 267. Structural Systems for Buildings. 3 Units
Prerequisite(s): CE 163, CE 164, and CE 166; or equivalent
Term Typically Offered: Spring only – even years
Analysis and design of structural systems for buildings including frames, shear walls, and tubes; interaction between structural systems; secondary effects including geometric and material nonlinearities.

CE 268. Pre-stressed Concrete Bridge Design. 3 Units
Prerequisite(s): CE 164 or instructor approval.
Term Typically Offered: Fall only – even years
Behavior and design of short and medium-span prestressed concrete bridges using American Association of State Highway and Transportation Officials (AASHTO) Load Resistance Factor Design (LRFD) specifications. Topics include: bridge types, aesthetics; design process; superstructure load types and live load analysis; limit states and load combinations; prestressed concrete materials; flexural analysis and design; shear analysis and design; and introduction to substructure analysis and design, including seismic design criteria. A team project is required.

CE 270. Advanced Soil Mechanics and Foundation Engineering I. 3 Units
Prerequisite(s): CE 170 and CE 170L or equivalent.
Term Typically Offered: Fall only – even years
Advanced analyses in soil mechanics and their practical applications in foundation engineering; compressibility of soils, settlement analysis, and tolerable settlement; lateral earth pressures and design of earth retaining structures; bearing capacity of shallow foundations; in-situ soil testing for foundation design; design of deep foundations, including driven piles, drilled shaft foundations, and laterally loaded piles.

CE 271. Advanced Soil Mechanics and Foundation Engineering II. 3 Units
Prerequisite(s): CE 170 and CE 170L or equivalent.
Term Typically Offered: Fall only – odd years
Advanced analyses in shear strength of cohesionless and cohesive soils, including stress-strain characteristics of soils, total and effective stress analyses; slope stability analyses for natural slopes, fill slopes, earth dams, levees, and methods of slope stabilization; analysis and design of anchored bulkheads, cellular cofferdams, soil nail walls, tieback walls, mechanically stabilized earth walls, and segmental retaining walls.

CE 272. Geotechnical Modeling. 3 Units
Prerequisite(s): CE 170 and CE 170L or equivalent.
Term Typically Offered: Spring only – even years
Advanced analysis principles and procedures for calculating monotonic and cyclic soil element response effective stress and pore water pressure distributions, dynamic site response, and soil deformations; application to analysis of complex geotechnical engineering systems such as levees, dams, and wharfs. Laboratory time devoted to numerical analysis software and physical element and small scale tests. Lecture two hours. Laboratory three hours.

CE 273. Ground Modification Engineering. 3 Units
Prerequisite(s): CE 170 and CE 170L or equivalent.
Term Typically Offered: Fall, Spring
Principles of soil stabilization and earth reinforcement; mechanical compaction and treatment of difficult soils, including expansive soils, collapsible soils, oversize materials, and compressible fill; prefabricated vertical drains and preloading; dynamic deep compaction; vibro compaction; vibro-replacement; rammed aggregate pier; compaction grouting; jet grouting; slurry grouting; chemical grouting; deep soil mixing; slurry trench walls.

CE 274. Soil Dynamics and Earthquake Engineering. 3 Units
Prerequisite(s): CE 170 and CE 170L.
Term Typically Offered: Spring only – odd years
Introduction to vibration theory; wave propagation in soils and dynamic behavior of soils and foundations; dynamic tests; analysis of dynamically loaded foundations; causes of earthquakes; earthquake magnitude and zones; ground motions induced by earthquakes; earthquake-resistant design of foundations and earth dams.

CE 275. Geosynthetics. 3 Units
Prerequisite(s): CE 170 and CE 170L or equivalent.
Term Typically Offered: Fall only – even years
Overview of geotextiles, geogrids and geonets; geosynthetic properties and test methods; geosynthetic functions and mechanisms as in separation, roadway and soil reinforcement, filtration, and drainage; applications and design methods; construction, fabrication and installation.

CE 289. Project Management for Civil Engineers. 3 Units
Prerequisite(s): Graduate standing or instructor permission.
Term Typically Offered: Spring only
Theory and practice of project management in civil engineering. Interrelationship of planning, design, and construction. New technologies and techniques used in both US and international architectural/engineering/construction (A/E/C) markets. Topics: Project initiation, early estimates, project budgeting, work plans, design proposals, scheduling, tracking, design coordination, construction, project close-out, team and personal management skills, and quality control.
### Communication Sciences and Disorders (CSAD)

#### CE 296D. Stormwater Management. 3 Units
**Prerequisite(s):** CE 137 and CE 170  
**Term Typically Offered:** Fall, Spring

#### CE 296H. GIS Applications in Civil Engineering. 3 Units
**Prerequisite(s):** ENGR 115, CE 9 and CE 137 or CE 147 or CE 171A.  
**Term Typically Offered:** Fall, Spring

Introduction to fundamental concepts of geographic information systems (GIS), methods, and applications in civil engineering. Design and develop GIS-based analytical methods and solutions for civil engineering problems. Lab exercises are used to design and practice GIS applications in civil engineering. This course may be paired with CE 196H.

#### CE 299. Special Problems. 1 - 3 Units
**Term Typically Offered:** Fall, Spring

Special problems in graduate research.  
**Note:** Approval of a petition must be obtained from the faculty supervising the work and the Department Graduate Program Coordinator. Letter grade or Credit/No Credit.

#### CE 500. Culminating Experience. 3 - 6 Units
**Prerequisite(s):** Advanced to candidacy and permission of the faculty advisor and Department Chair.  
**Term Typically Offered:** Fall, Spring

Successful completion of either: A. Thesis (3-6 units), or B. Project (3-6 units) or C. Directed Study and Examination (3 units). Plan A requires a thesis and is primarily research-oriented. Plan B requires a project report that is primarily application-oriented. Plan C requires a detailed literature review or experimental data analysis resulting in a written report plus an examination by three faculty. A public presentation is required for all three plans.

### Communication Sciences and Disorders (CSAD)

#### CSAD 101. Introduction to Communication Sciences and Disorders. 3 Units
**Term Typically Offered:** Fall, Spring

This survey course serves as an introduction to the field of communication sciences and disorders (CSAD; speech-language pathology and audiology) and serves three general groups of students: (1) undergraduate majors in CSAD, (2) undergraduate students considering a major in CSAD, and (3) students from related fields, such as education, nursing, health sciences, etc. Through the course, students will gain a broad understanding of clinical work and research in the field of communication sciences and disorders.

#### CSAD 110. Physics of Sound and Phonetics. 4 Units
**Prerequisite(s):** CHDV 30, DEAF 51, PSYC 2, and STAT 1  
**Corequisite(s):** CSAD 111  
**Term Typically Offered:** Fall only

Physical production, acoustic characteristics of sounds of speech. International Phonetic Alphabet as applied to speech sounds; practice in phonetic transcription of dialects and deviant speech; applications in speech education, speech and hearing therapy. Introduction to physiological acoustics, psychoacoustics, and acoustic phonetics. Perception of speech including voice, resonance, individual speech segments; instrumentation for acoustic and perceptual analysis of speech.

#### CSAD 111. Anatomy and Physiology of the Speech Mechanism. 3 Units
**Prerequisite(s):** CHDV 30, DEAF 51, PSYC 2, and STAT 1  
**Corequisite(s):** CSAD 110  
**Term Typically Offered:** Fall only

Anatomical, physiological and neurological bases of speech. Covers development, normal structure and function. A general course in human anatomy is recommended as background.

#### CSAD 112. Language Science and Development. 3 Units
**Prerequisite(s):** CHDV 30, DEAF 51, PSYC 2, and STAT 1  
**Corequisite(s):** CSAD 110 and CSAD 111  
**Term Typically Offered:** Fall only

Overview and comparison of normal and abnormal child language development from infancy through upper elementary school. Establishes a framework for understanding language disorders including autism and pervasive developmental delay. Includes theories of language acquisition, basic principles of language sampling, systems of language, elements of grammar, and preparation for informal and standardized assessment of language disorders. Introduces students to the impact of variables such as attention deficit disorder, poverty, bilingualism on developing language skills.

#### CSAD 123. Voice and Fluency. 3 Units
**Prerequisite(s):** CSAD 125, CSAD 126, CSAD 148, PSYC 2, STAT 1, CHDV 30, and DEAF 51.  
**Term Typically Offered:** Fall, Spring

#### CSAD 125. Developmental and Acquired Neurogenic Language Disorders Across the Lifespan. 3 Units
**Prerequisite(s):** CSAD 112, CHDV 30, PSYC 2, STAT 1, and DEAF 51.  
**Term Typically Offered:** Spring only

Language disorders and the dynamic, reciprocal relationships between the disability, the client, his/her family, and the environment. Developmental and acquired neurogenic language disorders from infancy through adulthood will be covered including neurophysiology and neuropathology.
CSAD 111. Introduction to Audiology. 3 Units
Prerequisite(s): CHDV 30, PSYC 2, STAT 1, and DEAF 51.
Term Typically Offered: Fall, Spring

Current concepts regarding anatomy and physiology, etiology, assessment, and treatment of craniofacial disorders, laryngectomy, tracheostomy and dysphagia.

CSAD 121. Introduction to Speech-Language Pathology. 3 Units
Prerequisite(s): CSAD 110, CHDV 30, PSYC 2, STAT 1, and DEAF 51.
Term Typically Offered: Spring only

CSAD 127. Introduction to Medical Speech Pathology. 3 Units
Prerequisite(s): CSAD 123, CSAD 125, CSAD 126, PSYC 2, STAT 1, CHDV 30, and DEAF 51.
Term Typically Offered: Fall, Spring

Prerequisite: CSAD 122

Current concepts regarding psychosocial aspects of hearing impairment, communication strategies, physiological measures of auditory function, disorders of the auditory system, sound variation and assessment approaches.

CSAD 123. Introduction to Aural Rehabilitation. 3 Units
Prerequisite(s): CSAD 125, CSAD 126, CSAD 130, CSAD 148, PSYC 2, STAT 1, CHDV 30, and DEAF 51.
Term Typically Offered: Spring only

Principles of aural (re)habilitation across the lifespan. Topics include psychosocial aspects of hearing impairment, communication strategies, amplification, and intervention approaches for children and adults with hearing loss.

CSAD 124. Speech Sound Development and Disorders in Children: Aspects of Articulation and Phonology. 3 Units
Prerequisite(s): CSAD 110, CHDV 30, PSYC 2, STAT 1, and DEAF 51.
Term Typically Offered: Spring only

CSAD 125. Introduction to Medical Speech Pathology. 3 Units
Prerequisite(s): CSAD 123, CSAD 125, CSAD 126, PSYC 2, STAT 1, CHDV 30, and DEAF 51.
Term Typically Offered: Fall, Spring

Prerequisite: CSAD 122

Current concepts regarding psychosocial aspects of hearing impairment, communication strategies, physiological measures of auditory function, disorders of the auditory system, sound variation and assessment approaches.

CSAD 126. Speech Sound Development and Disorders in Children: Aspects of Articulation and Phonology. 3 Units
Prerequisite(s): CSAD 110, CHDV 30, PSYC 2, STAT 1, and DEAF 51.
Term Typically Offered: Spring only

CSAD 127. Introduction to Medical Speech Pathology. 3 Units
Prerequisite(s): CSAD 123, CSAD 125, CSAD 126, PSYC 2, STAT 1, CHDV 30, and DEAF 51.
Term Typically Offered: Fall, Spring

Prerequisite: CSAD 122

Current concepts regarding psychosocial aspects of hearing impairment, communication strategies, physiological measures of auditory function, disorders of the auditory system, sound variation and assessment approaches.

CSAD 128. Introduction to Aural Rehabilitation. 3 Units
Prerequisite(s): CSAD 125, CSAD 126, CSAD 130, CSAD 148, PSYC 2, STAT 1, CHDV 30, and DEAF 51.
Term Typically Offered: Spring only

Principles of aural (re)habilitation across the lifespan. Topics include psychosocial aspects of hearing impairment, communication strategies, amplification, and intervention approaches for children and adults with hearing loss.

CSAD 140. SLPA Methods. 3 Units
Prerequisite(s): CSAD 145 and instructor permission.
Corequisite(s): CSAD 140L
Term Typically Offered: Fall, Spring

Taken by students as one of their senior level courses when they wish to pursue a Speech-Language Pathology Assistant (SLPA) licensure. Graduate students who have not had a similar course and wish to obtain this licensure will also need to enroll prior to pursuing the licensure.

CSAD 141. SLPA Practicum, Ethical and Legal Parameters. 3 Units
Prerequisite(s): CSAD 145 and instructor permission.
Corequisite(s): CSAD 140
Term Typically Offered: Fall, Spring

Taken by students as one of their senior level courses when they wish to pursue a Speech-Language Pathology Assistant (SLPA) licensure. Graduate students who have not had a similar course and wish to obtain this licensure will also need to enroll prior to pursuing the licensure.

CSAD 142. Topics in Autism Spectrum Disorders. 2 Units
Prerequisite(s): CSAD 112, CSAD 125, CSAD 148, PSYC 2, STAT 1, CHAD 30, and DEAF 51.
Term Typically Offered: Fall, Spring

Detailed look at characteristics of autism spectrum disorders (including Asperger's Syndrome, PDD-NOS and Autism). Issues related to diagnosis/assessment, early intervention, school-based intervention, functional therapeutic techniques and theories, and current "hot topics" in Autism (Theory of Mind, joint attention, biomedical issues, dietary restrictions, sensory regulation and intervention paradigms) will be a part of this course.

CSAD 143. Communication Disorders in Multicultural Populations. 3 Units
Prerequisite(s): CHAD 30, PSYC 2, STAT 1, CSAD 110, CSAD 125, CSAD 126 and CSAD 148.
Term Typically Offered: Fall, Spring

Identification, evaluation, and treatment of multicultural, multilingual clients with communication disorders. Discussion of normal second language acquisition, bilingual development, and cultural values related to effective service delivery for multicultural clients.

CSAD 144. Supervised Field Observations. 1 Unit
Prerequisite(s): CHAD 30, CHDV 30, PSYC 2, STAT 1, CSAD 110, and DEAF 51.
Corequisite(s): CSAD 125, CSAD 126, CSAD 130 and CSAD 148.
Term Typically Offered: Spring only

Directed observations of speech and hearing testing (screening and diagnostic); therapy and case staffing in schools, service clinics and hospitals.

CSAD 145. Introduction to Clinical Issues and Methods. 3 Units
Prerequisite(s): CHDV 30, PSYC 2, STAT 1, CSAD 110, CSAD 111, CSAD 112, PSYC 2, CSAD 110, CHDV 30, and DEAF 51.
Term Typically Offered: Spring only

Directed observations of speech and hearing testing (screening and diagnostic); therapy and case staffing in schools, service clinics and hospitals.

CSAD 146. Introduction to Clinical Issues and Methods. 3 Units
Prerequisite(s): CHDV 30, PSYC 2, STAT 1, CSAD 110, CSAD 111, CSAD 112, CSAD 125, CSAD 126, CSAD 130, and CSAD 145. Minimum major GPA of 3.2 with no CSAD course below a grade of "C."
Term Typically Offered: Fall, Spring

Work with graduate students and clients. Introduction to clinical procedures, ASHA Code of Ethics, legal issues, funding sources, supervision and scope of practice. Survey of professional settings for speech and language services, including multidisciplinary settings. Required for applicants of the CSAD Master's program. Recommended for students who plan to apply to graduate programs at other universities. Optional for students who do not plan to attend graduate school. Background check, immunizations, and HIPPA training required prior to enrollment (see Department webpage).

CSAD 147. Assessment Procedures. 3 Units
Prerequisite(s): CSAD 125, CSAD 126, CSAD 145, CSAD 148, PSYC 2, STAT 1, CHAD 30, and DEAF 51.
Term Typically Offered: Fall, Spring

Current principles, methods and materials used by the speech-language pathologist to assess communication disorders are presented. Issues related to a model of assessment, informal and formal testing, dynamic assessment, interview techniques, administration, scoring and interpretation of test results, report writing and related issues will be discussed.
CSAD 148. Research in Speech-Language Pathology and Audiology. 3 Units
Prerequisite(s): CHDV 30, DEAF 51, PSYC 2, STAT 1, CSAD 110, CSAD 111, CSAD 112.
Term Typically Offered: Fall, Spring
Survey of research strategies and methods in Speech-Language Pathology and Audiology. Statistical procedures and single-subject designs. Emphasis on interpreting research reports in the literature and on developing research projects. Writing research proposals and reports.

CSAD 177. Appreciation of Diversity in Communication Sciences and Disorders. 1 Unit
Prerequisite(s): CSAD Major.
Term Typically Offered: Fall, Spring
This peer-led course is designed to partner students enrolled within and outside of the department of Communication Sciences and Disorders (CSAD) for a mutual exchange opportunity. Information obtained in CSAD coursework will be used by CSAD students to provide them with hands-on learning experiences relating to the topics covered in those courses. Topics for discussion include concepts relating to intercultural sensitivity and diversity as they apply to communication sciences and disorders.

CSAD 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading. Open only to students competent to carry on individual work.
Note: Departmental petition required.
Credit/No Credit

CSAD 217. AAC and Assistive Technologies. 2 Units
Term Typically Offered: Spring only
Biological, acoustic, psychological, development, linguistic, and cultural bases for motor speech disorders, focusing on augmentative and alternative communication an assistive technologies as well as their assessment and treatment techniques.

CSAD 218. Motor Speech Disorders. 3 Units
Prerequisite(s): Classified graduate status.
Term Typically Offered: Fall only
Background pertinent to understanding neurophysiology associated with congenital and acquired dysarthria and dyspraxia. Descriptions and classifications of disorders and their causes, methods of assessment and treatment.

CSAD 219. Counseling Techniques for Speech Pathologists and Audiologists. 3 Units
Term Typically Offered: Fall only
Development of strategies for counseling and interviewing clients with communication disorders and their families. Development of specific skills such as effective listening, dealing constructively with emotions, working with families, and leading support groups. Students will learn to deal effectively with the affective side of communication disorders to help clients benefit maximally from assessment and treatment.

CSAD 221. Neurogenic Language Disorders. 4 Units
Term Typically Offered: Spring only
In-depth study of language and cognitive disorders in adult, secondary to cerebrovascular accident, dementia, and/or traumatic brain injury. Assessment and intervention strategies are covered with particular emphasis on functional outcomes.

CSAD 222. Curriculum in Relation to Language -- Learning Disabilities in School-age Children. 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Spring only
Language acquisition as a continuum from oral language to reading and writing, the role of the speech-language specialist in working with reading disabilities; the interactions among speech-language intervention and curricula areas including mathematics, spelling, handwriting, social studies and language arts; and various service delivery models, including collaborative consultation and learning centers.

CSAD 223. Advanced Seminar in Child Language Disorders. 3 Units
Prerequisite(s): CSAD 125 or equivalent
Term Typically Offered: Fall only
In-depth study of childhood language disorders emphasizing the use of critical thinking to integrate evidence-based practice into discussion of current assessment and intervention practices for children with primary and secondary language impairment. Specific topics include language sampling, early intervention, connecting intervention with Common Core State Standards, and team-based service delivery. Populations addressed include bilingual learners, those with working memory deficits, and autism spectrum disorder. The impact of the digital era and screen exposure on children with language impairment is discussed.

CSAD 227. Dysphagia and the Medical Setting. 3 Units
Prerequisite(s): CSAD 218, CSAD 221, instructor permission.
Term Typically Offered: Fall, Spring
Swallowing problems from infancy through old age; growth patterns and failures in younger populations; feeding and swallowing problems related to normal aging processes and those associated with neurogenic disorders. Assessment and treatment. Includes theoretical and experiential components. Overview of the role of Speech-Language Pathologist in the hospital setting including learning how to read medical charts, basic insurance information, understanding other disciplines and how they affect the job and career of an SLP in the hospital, and medical terms/abbreviations.

CSAD 228A. Speech Sound Disorders: Concepts and Methods. 2 Units
Prerequisite(s): Admission to the graduate program. CSAD 125, CSAD 126, CSAD 143, CSAD 145, CSAD 146, CSAD 148.
Corequisite(s): CSAD 229A.
Term Typically Offered: Fall, Spring
Speech sound disorders for graduate students in speech-language pathology. Foundations of speech sound disorders, as well as techniques and materials for assessing and treating speech sound differences and disorders of varying etiologies and presentations. Weekly content will be integrated with practical experiences to promote learning.
CSAD 228B. Voice and Fluency: Concepts and Methods. 3 Units
Prerequisite(s): CSAD 123, CSAD 127, CSAD 228A, instructor permission.
Corequisite(s): CSAD 229B.
Term Typically Offered: Fall, Spring

Foundations of fluency, voice and resonance, as well as techniques and materials for assessing and treating speech disorders, emphasizing fluency and voice. Staffings and discussion of cases on the current caseload. Weekly content integrated with practical experiences to promote learning.

CSAD 228C. Methods: Speech Disorders III. 1 Unit
Prerequisite(s): CSAD 218, CSAD 228B; CSAD 221 may be concurrent; instructor permission.
Corequisite(s): CSAD 229C.
Term Typically Offered: Fall, Spring

Techniques and materials for assessing and treating clients with disordered speech secondary to developmental disabilities and syndromes, degenerative diseases or complex problems associated with English as a second language (ESL). Discussions of cases in the current caseload.

CSAD 229A. Practice: Speech Disorders I. 2 Units
Prerequisite(s): Instructor permission
Corequisite(s): CSAD 228A.
Term Typically Offered: Fall, Spring

Supervised clinical practice emphasizing articulation and phonological disorders, and phonological difficulties associated with English as a second language (ESL). Clients may include both children and adults.

CSAD 229B. Practice: Speech Disorders II. 2 Units
Prerequisite(s): Instructor permission.
Corequisite(s): CSAD 228B.
Term Typically Offered: Fall, Spring

Supervised clinical practice emphasizing clients whose speech is disrupted by abnormal rhythm and rate (e.g. stuttering and cluttering) or abnormal vocal pitch, loudness, and/or quality.

CSAD 229C. Practice: Speech Disorders III. 2 Units
Prerequisite(s): Instructor permission
Corequisite(s): CSAD 228C
Term Typically Offered: Fall, Spring

Supervised clinical practice emphasizing children and adults whose speech is disrupted secondary to developmental disorders and syndromes, degenerative disorders or complex problems.

CSAD 241S. Practice: Hearing Screenings. 1 Unit
Prerequisite(s): CSAD 130
Term Typically Offered: Fall, Spring

Supervised clinical practice in the administration of hearing screening tests. The student must furnish his/her own transportation. Fifteen to twenty hours for one unit.

Credit/No Credit

CSAD 242A. Methods: Language Disorders I & Professional Writing-Field of Speech-Language Pathology & Audiology. 2 Units
Prerequisite(s): Admission to Graduate Program
Corequisite(s): CSAD 243A
Term Typically Offered: Fall, Spring

Methods, materials and procedures in language disorders with emphasis on working with children and adults with peripheral hearing loss or central auditory processing disorders (CAPD). Includes staffing and discussion of cases in the current caseload. Focus on professional writing in the field of Speech-Language Pathology through the development of treatment plan proposals, critical responses, and clinic reports.

CSAD 242B. Methods: Language Disorders II. 1 Unit
Prerequisite(s): CSAD 223, CSAD 242A; instructor permission.
Corequisite(s): CSAD 243B.
Term Typically Offered: Fall, Spring

Techniques and materials for assessing and treating children with disordered language secondary to a myriad of contributing factors including delayed development, neurological problems and various genetic conditions. Discussion of cases in the current caseload.

CSAD 242C. Methods: Language Disorders III. 1 Unit
Prerequisite(s): CSAD 218, CSAD 242B; CSAD 221 may be taken concurrently; instructor permission.
Corequisite(s): CSAD 243C.
Term Typically Offered: Fall, Spring

Techniques and materials for assessing and treating speech and language disorders emphasizing disorders secondary to cerebral vascular accidents, traumatic brain injury, or other neurological disorders. Discussion of cases in the current caseload.

Note: May be repeated.

CSAD 243A. Practice: Language Disorders I. 2 Units
Prerequisite(s): Instructor permission
Corequisite(s): CSAD 242A.
Term Typically Offered: Fall, Spring

Supervised clinical practice in language disorders emphasizing children and adults with peripheral hearing loss or central auditory processing disorders (CAPD).

CSAD 243B. Practice: Language Disorders II. 2 Units
Prerequisite(s): Instructor permission
Corequisite(s): CSAD 242B.
Term Typically Offered: Fall, Spring

Supervised clinical practice with children demonstrating language disorders secondary to a myriad of contributing factors including delayed development, neurological problems, and various genetic conditions.

CSAD 243C. Practice: Language Disorders III. 2 Units
Prerequisite(s): CSAD 243B; instructor permission
Corequisite(s): CSAD 242C.
Term Typically Offered: Fall, Spring

Supervised clinical practice emphasizing adult clients whose speech and language are disordered secondary to neurogenically related problems such as cerebrovascular accident, traumatic brain injury, or other neurological disorders.
CSAD 244.  Methods: Speech -- Language Assessment.  1 Unit  1 Credit/No Credit
Prerequisite(s): CSAD 147 or equivalent; CSAD 228B, CSAD 242B; instructor permission.
Corequisite(s): CSAD 245.
Term Typically Offered: Fall, Spring
Methods and materials for initial assessment in Speech-Language Pathology.

CSAD 245.  Practice: Speech -- Language Assessment.  1 Unit  1 Credit/No Credit
Prerequisite(s): Instructor permission
Corequisite(s): CSAD 244
Term Typically Offered: Fall, Spring
Supervised clinical practice in assessment with a variety of communication disorders in children and adults. Experience with interdisciplinary teams.

CSAD 250.  Speech/Language Internships Seminar.  2 Units  4 Units
Corequisite(s): CSAD 295I, or CSAD 295M, or CSAD 295P, or CSAD 295S.
Term Typically Offered: Fall, Spring
Assessment, scheduling and conducting language speech and hearing programs in schools. Related issues including scope of practice, managed care, interagency cooperation and transdisciplinary approaches.

CSAD 295I.  Internship: Speech-Language and Hearing Services in Schools (SLHS).  4 Units  2 Units
Prerequisite(s): All previous semester’s clinical practica and coursework must be completed, achievement of a passing score on the CBEST.
Corequisite(s): CSAD 230. Graded: Credit/No Credit Units: 4
Term Typically Offered: Fall, Spring
Supervised clinical practice in the school setting. Students are expected to conform to the schedules of the placement(s) to which they are assigned. The student must furnish his/her own transportation.

CSAD 295M.  Internship: Speech-Language Pathology in a Medical Setting.  4 Units  2 Units
Prerequisite(s): All previous semester’s clinical practica and coursework must be completed, achievement of a passing score on the CBEST.
Corequisite(s): CSAD 250. Graded: Credit/No Credit Units: 4
Term Typically Offered: Fall, Spring
Supervised clinical practice in a medical setting. Students are expected to conform to the schedules of the placement(s) to which they are assigned. The student must furnish his/her own transportation.

CSAD 295P.  Internship: Speech-Language Pathology in Private Practice.  4 Units  2 Units
Prerequisite(s): CSAD 250. All previous semester’s clinical practica and coursework must be completed, achievement of a passing score on the CBEST. Graded: Credit/No Credit.
Term Typically Offered: Fall, Spring
Supervised clinical practice in a private practice setting. Students are expected to conform to the schedules of the placement(s) to which they are assigned. The student must furnish his/her own transportation.

CSAD 295S.  Internship: Special Class Authorization Eligibility.  4 Units  1 Unit
Prerequisite(s): CSAD 250. All previous semester’s clinical practica and coursework must be completed, achievement of a passing score on the CBEST. Graded: Credit/No Credit Units: 4
Term Typically Offered: Fall, Spring
Supervised clinical practice in a medical setting. Students are expected to conform to the schedules of the placement(s) to which they are assigned. The student must furnish his/her own transportation.

CSAD 299.  Special Problems.  1 - 3 Units  1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading. Open only to students who appear competent to carry on individual work.

Note: Departmental petition required.

Credit/No Credit

CSAD 500C.  Culminating Experience: Comprehensive Exam.  2 Units  2 Units
Prerequisite(s): Advanced to Candidacy Graded: Credit/No Credit Units: 2.0
Term Typically Offered: Fall, Spring
Written exam comprised of eight questions. Examinees are given one and a half hours to complete each question.

CSAD 500P.  Culminating Experience: Project.  2 Units  2 Units
Prerequisite(s): Advancement to Candidacy. Graded: Credit/No Credit.
Units: 2.0 - 4.0
Term Typically Offered: Fall, Spring
Independent work conducted under the supervision of faculty members. A project is a significant undertaking appropriate to the professional fields of Speech-Language Pathology or Audiology. It must evidence originality, independent thinking, appropriate form and organization, and a rationale. It must be described and summarized in a written document that includes the project’s significance, objectives, methodology, and a conclusion or recommendation. Students must follow all department and university project guidelines.

CSAD 500T.  Culminating Experience: Thesis.  2 Units  2 Units
Prerequisite(s): Advanced to Candidacy. Graded: Credit/No Credit.
Term Typically Offered: Fall, Spring
Independent research study, conducted under the supervision of faculty members. Thesis must involve a research question or hypothesis, review of pertinent literature, collection and analysis of data. It is the student’s responsibility to locate and recruit subjects, to collect data, and to write the thesis. Students must follow all department and university thesis guidelines.

CSAD 501.  Audiology Doctoral Project I.  1 Unit  1 Unit
Prerequisite(s): CSAD 510
Term Typically Offered: Fall only
Independent research conducted under the supervision of audiology faculty members. Must include research question, literature review, hypotheses, data collection, and analysis. Students are responsible for identifying and recruiting participants, collecting data, and developing a plan for analysis. Case studies and systematic reviews should follow program guidelines.

Credit/No Credit
CSAD 502. Audiology Doctoral Project II. 1 Unit
Prerequisite(s): CSAD 501
Term Typically Offered: Spring only

Independent research conducted under the supervision of audiology faculty members. Must include research question, literature review, hypotheses, data collection, and analysis. Students are responsible for identifying and recruiting participants, collecting data, and developing a plan for analysis. Case studies and systematic reviews should follow program guidelines.
Credit/No Credit

CSAD 503. Audiology Doctoral Project III. 1 Unit
Prerequisite(s): CSAD 502
Term Typically Offered: Summer only

Independent research conducted under the supervision of audiology faculty members. Must include research question, literature review, hypotheses, data collection, and analysis. Students are responsible for identifying and recruiting participants, collecting data, and developing a plan for analysis. Case studies and systematic reviews should follow program guidelines.
Credit/No Credit

CSAD 504. Audiology Doctoral Project IV. 1 Unit
Prerequisite(s): CSAD 503
Term Typically Offered: Fall only

Independent research conducted under the supervision of audiology faculty members. Must include research question, literature review, hypotheses, data collection, and analysis. Students are responsible for identifying and recruiting participants, collecting data, and developing a plan for analysis. Case studies and systematic reviews should follow program guidelines.
Credit/No Credit

CSAD 505. Audiology Doctoral Project V. 1 Unit
Prerequisite(s): CSAD 504
Term Typically Offered: Spring only

Dissemination, written and oral, of capstone research.
Credit/No Credit

CSAD 510. Audiology Progress Exam. 1 Unit
Prerequisite(s): Admission to Doctor of Audiology program; CSAD 611, CSAD 612, CSAD 613, CSAD 614, CSAD 620, CSAD 620C, CSAD 621, CSAD 622, CSAD 622L, CSAD 623, CSAD 624, CSAD 630, CSAD 630C, CSAD 631, CSAD 632.
Term Typically Offered: Summer only

Formative written and practical exam based on coursework and clinical experiences from the first year of the Doctor of Audiology program.
Credit/No Credit

CSAD 520. Audiology Comprehensive Exam. 1 Unit
Prerequisite(s): Admission to Doctor of Audiology program: CSAD 610, CSAD 611, CSAD 612, CSAD 613, CSAD 614, CSAD 620, CSAD 620C, CSAD 621, CSAD 622, CSAD 622L, CSAD 623, CSAD 624, CSAD 630, CSAD 630C, CSAD 631, CSAD 632, CSAD 634, CSAD 640C, CSAD 641, CSAD 642, CSAD 643, CSAD 850, CSAD 650C, CSAD 651, CSAD 652, CSAD 653, CSAD 660, CSAD 660C, CSAD 661, CSAD 662, CSAD 663, CSAD 670, CSAD 670C, CSAD 671, CSAD 672, CSAD 673
Term Typically Offered: Spring only

Summative written and practical exam based on coursework and clinical experiences from the first three years of the Doctor of Audiology program.
Credit/No Credit

CSAD 610. Introduction to Clinic. 1 Unit
Prerequisite(s): Admission to doctorate program in audiology.
Term Typically Offered: Fall only

Introduction to on-campus clinic operations, including electronic documentation procedures, clinic policies, and documentation.

CSAD 611. Anatomy and Physiology of the Auditory and Vestibular Systems. 3 Units
Prerequisite(s): Admission to doctorate program in audiology.
Term Typically Offered: Fall only

Anatomical, physiological, and neurological bases of the auditory system and central nervous system. Covers embryologic development, including genetic factors, and normal structure and function.

CSAD 612. Acoustics and Psychoacoustics. 3 Units
Prerequisite(s): Admission to Doctorate program in Audiology.
Term Typically Offered: Fall only

Basic properties of the acoustics of simple and complex sounds. Psychophysical aspects of frequency and pitch, intensity and loudness, and temporal processes will be discussed. Speech perception for listeners with normal hearing and those with hearing loss.

CSAD 613. Instrumentation in audiology. 3 Units
Prerequisite(s): Admission to doctorate program in audiology.
Term Typically Offered: Fall only

Basic principals of electrical systems, calibration, signal processing, and analysis. Review of national standards related to calibration and instrumentation used in audiology.

CSAD 614. Audiologic Evaluation. 3 Units
Prerequisite(s): Admission to doctorate program in audiology.
Term Typically Offered: Fall only

Introduction to the purpose, diagnostic use, and procedures for basic clinical tests of auditory function in children and adults. Assessments including pure-tone audiometry, speech audiometry, masking, and immittance measures are discussed. Supervised, hands-on experiences will accompany lecture topics.
CSAD 620. Clinical Methods: Communicating with Patients. 1 Unit
Prerequisite(s): Admission to doctorate program in audiology; CSAD 610.
Corequisite(s): CSAD 620C.
Term Typically Offered: Spring only

Communicating with patients. The nature of health communication among providers, patients, families, and caregivers. Topics related to multicultural issues will also be presented.

CSAD 620C. Audiology Clinic II. 1 Unit
Prerequisite(s): Admission to Doctor of Audiology program; CSAD 610
Corequisite(s): CSAD 620
Term Typically Offered: Spring only

Supervised clinical practice in audiology with an emphasis on developing second-semester clinical skills for audiologic evaluations, amplification, and aural rehabilitation.

CSAD 621. Research Methods in Audiology. 3 Units
Prerequisite(s): Admission to Doctor of Audiology program; CSAD 611, CSAD 612, CSAD 613, CSAD 614
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Spring only

Treatment of human subjects and research methods. Overview of the research process, including research designs, development of data collection instruments, and data collection, and introduction to basic statistical concepts for the Au.D. doctoral project. Ethical considerations of research are also discussed.

CSAD 622. Amplification I. 3 Units
Prerequisite(s): Admission to the Doctor of Audiology program; CSAD 611, CSAD 612, CSAD 613, and CSAD 614.
Corequisite(s): CSAD 622L
Term Typically Offered: Spring only

Introduction to electroacoustic analysis and characteristics of hearing aids. Includes components of hearing aids, hearing aid gain and fitting formulae, and basic signal processing.

CSAD 622L. Amplification I Lab. 1 Unit
Prerequisite(s): Admission to Doctor of Audiology program; CSAD 611, CSAD 612, CSAD 613, and CSAD 614.
Corequisite(s): CSAD 622.
Term Typically Offered: Spring only

Laboratory component of CSAD 622: Amplification I. Hands-on experience with concepts presented in CSAD 622.

CSAD 623. Disorders of the Auditory System. 3 Units
Prerequisite(s): Admission to Doctor of Audiology program; CSAD 611, CSAD 612, CSAD 613, and CSAD 614.
Term Typically Offered: Spring only

Pathologies of the auditory system, including diagnosis, management, and treatment.

CSAD 624. Genetics for Audiology. 1 Unit
Prerequisite(s): Admission to Doctor of Audiology program; CSAD 611, CSAD 612, CSAD 613, CSAD 614.
Term Typically Offered: Spring only

Introduction to genetics, inheritance, and causes of hearing loss and balance disorders.

CSAD 630. Clinical Methods: Report writing. 1 Unit
Prerequisite(s): Admission to Doctor of Audiology program; CSAD 610, CSAD 620.
Corequisite(s): CSAD 630C.
Term Typically Offered: Summer only

Principles of clinical report writing. Foundations of professional writing and recordkeeping for the diagnostic and rehabilitative processes. Writing requirements for practicum experiences will be discussed.

CSAD 630C. Audiology Clinic III. 2 Units
Prerequisite(s): Admission to Doctor of Audiology program; CSAD 610, CSAD 620C.
Corequisite(s): CSAD 630.
Term Typically Offered: Summer only

Supervised clinical practice in audiology with an emphasis on developing first-year clinical skills for audiologic evaluations, amplification, and aural rehabilitation.

CSAD 631. Amplification II. 3 Units
Prerequisite(s): Admission to Doctor of Audiology program; CSAD 611, CSAD 612, CSAD 613, CSAD 614, CSAD 621, CSAD 622, CSAD 622L, CSAD 623, CSAD 624.
Term Typically Offered: Summer only

Advance study of digital amplification systems, including hearing aids and assistive listening devices. Practical approaches to the fitting of devices are discussed.

CSAD 632. Pediatric and Educational Audiology. 3 Units
Prerequisite(s): Admission to Doctor of Audiology program; CSAD 611, CSAD 612, CSAD 613, CSAD 614, CSAD 621, CSAD 622, CSAD 622L, CSAD 623, CSAD 624.
Term Typically Offered: Summer only

Introduction to etiologies of childhood hearing impairment, including genetics, syndromic and non-syndromic causes of hearing loss, and risk factors. Objective and behavioral measures of assessing auditory function and hearing in newborns, infants, toddlers, and children. Review of screening procedures.

CSAD 640. Clinical Methods: Current Topics in Audiology. 1 Unit
Prerequisite(s): Admission to Doctor of Audiology program; CSAD 610, CSAD 620, CSAD 630
Corequisite(s): CSAD 640C.
Term Typically Offered: Fall only

Review and discussion of current topics in audiology such as hidden hearing loss, cerumen management, tinnitus, speech perception in noise, central auditory processing, or technological advancements in amplification.

CSAD 640C. Audiology Clinic IV. 1 Unit
Prerequisite(s): Admission to Doctor of Audiology program; CSAD 610, CSAD 620C, CSAD 630C
Corequisite(s): CSAD 640.
Term Typically Offered: Fall only

Supervised clinical practice in audiology with an emphasis on developing fourth-semester clinical skills for audiologic evaluations, amplification, and aural rehabilitation.
CSAD 641. Auditory Evoked Potentials. 3 Units
**Prerequisite(s):** Admission to Doctor of Audiology program; CSAD 611, CSAD 612, CSAD 613, CSAD 614, CSAD 621, CSAD 622, CSAD 622L, CSAD 623, CSAD 624, CSAD 631, CSAD 632
**Corequisite(s):** CSAD 641L
**Term Typically Offered:** Fall only

Physiological measures for evaluating the integrity of the auditory system. Emphasis on the administration and interpretation of the auditory brainstem response.

CSAD 641L. Auditory Evoked Potentials Lab. 1 Unit
**Prerequisite(s):** Admission to Doctor of Audiology program; CSAD 611, CSAD 612, CSAD 613, CSAD 614, CSAD 621, CSAD 622, CSAD 622L, CSAD 623, CSAD 624, CSAD 631, CSAD 632
**Corequisite(s):** CSAD 641
**Term Typically Offered:** Fall only

Lab component includes administration and reporting of physiological assessments presented in CSAD 641: Auditory Evoked Potentials.

CSAD 642. Industrial Audiology and Hearing Conservation. 3 Units
**Prerequisite(s):** Admission to Doctor of Audiology program; CSAD 611, CSAD 612, CSAD 613, CSAD 614, CSAD 621, CSAD 622, CSAD 622L, CSAD 623, CSAD 624, CSAD 631, CSAD 632
**Term Typically Offered:** Fall only

Study of the effects of noise on the auditory system and measurement of noise levels. Theories and resources for the implementation of hearing conservation programs for recreational/leisure noise exposure, industrial settings, and schools.

CSAD 643. Tinnitus. 3 Units
**Prerequisite(s):** Admission to Doctor of Audiology program; CSAD611, CSAD612, CSAD 613, CSAD 614, CSAD 621, CSAD 622, CSAD 622L, CSAD 623, CSAD 624, CSAD 631, CSAD 632
**Term Typically Offered:** Fall only

Psychological and physiological models of tinnitus and hyperacusis, diagnostic methods, and management.

CSAD 650. Clinical Methods: Billing and Coding. 1 Unit
**Prerequisite(s):** Admission to Doctor of Audiology program; CSAD 610, CSAD 620, CSAD 630, CSAD 640
**Corequisite(s):** CSAD 650C
**Term Typically Offered:** Spring only

Overview of coding, billing, and reimbursement for audiology services and devices. Students will learn current federal regulations and laws that affect audiology practice.

CSAD 650C. Audiology Clinic V. 1 Unit
**Prerequisite(s):** Admission to Doctor of Audiology program; CSAD 610, CSAD 620C, CSAD 630C, CSAD 640C
**Corequisite(s):** CSAD 650
**Term Typically Offered:** Spring only

Supervised clinical practice in audiology with an emphasis on refining second-year clinical skills and working independently. Credit/No Credit

CSAD 651. Objective Measures. 3 Units
**Prerequisite(s):** Admission to Doctor of Audiology program; CSAD 611, CSAD 612, CSAD 613, CSAD 614, CSAD 621, CSAD 622, CSAD 622L, CSAD 623, CSAD 624, CSAD 631, CSAD 632, CSAD 641, CSAD 641L, CSAD 642, CSAD 643.
**Term Typically Offered:** Spring only

Fundamentals of otoacoustic emissions, and advanced study of immittance testing and the auditory brainstem response with some practical exercises.

CSAD 652. Pediatric Habilitation. 3 Units
**Prerequisite(s):** Admission to Doctor of Audiology program; CSAD 611, CSAD 612, CSAD 613, CSAD 614, CSAD 621, CSAD 622, CSAD 622L, CSAD 623, CSAD 624, CSAD 631 CSAD 632, CSAD 641, CSAD 641L, CSAD 642, CSAD 643.
**Term Typically Offered:** Spring only

Early identification, assessment, and rehabilitation for infants and children with hearing loss. Focus on speech and language outcomes, communication strategies, technology, and counseling of families.

CSAD 653. Diagnosis and Management of Vestibular Disorders. 3 Units
**Prerequisite(s):** Admission to Doctor of Audiology program; CSAD 611, CSAD 612, CSAD 613, CSAD 614, CSAD 621, CSAD 622, CSAD 622L, CSAD 623, CSAD 624, CSAD 631, CSAD 632, CSAD 641, CSAD 641L, CSAD 642, CSAD 643.
**Term Typically Offered:** Spring only

Anatomical and physiological bases of the vestibular system, including congenital, peripheral, and central, and neurologic factors will also be introduced. Physiological measures of the vestibular system, clinical assessment, and management and rehabilitation.

CSAD 660. Clinical Methods: Legal and Ethical Issues. 1 Unit
**Prerequisite(s):** Admission to Doctor of Audiology program; CSAD 610, CSAD 620, CSAD 630, CSAD 640, CSAD 650
**Corequisite(s):** CSAD 660C
**Term Typically Offered:** Summer only

Ethics for clinical practice and research and legal issues for audiologists. Focuses on local and national issues that influence service delivery.

CSAD 660C. Audiology Clinic VI. 2 Units
**Prerequisite(s):** Admission to Doctor of Audiology program; CSAD 610, CSAD 620C, CSAD 630C, CSAD 640C, CSAD 650C.
**Corequisite(s):** CSAD 660
**Term Typically Offered:** Summer only

Supervised clinical practice in audiology with an emphasis on refining advanced clinical skills and working independently. Credit/No Credit

CSAD 661. Aural Rehabilitation. 3 Units
**Term Typically Offered:** Summer only

Rehabilitative techniques and communication needs for adults and the aging population. Focus on minimizing communication difficulties and managing psychosocial aspects of hearing loss. Prerequisite: Admission to Doctor of Audiology program; CSAD 611, CSAD 612, CSAD 613, CSAD 614, CSAD 621, CSAD 622, CSAD 622L, CSAD 623, CSAD 624, CSAD 631, CSAD 632, CSAD 641, CSAD 641L, CSAD 642, CSAD 643, CSAD 651, CSAD 652, CSAD 653.
CSAD 673. Pharmacology and Ototoxicity. 1 Unit
Prerequisite(s): Admission to Doctor of Audiology program; CSAD 611, CSAD 612, CSAD 613, CSAD 614, CSAD 621, CSAD 622, CSAD 622L, CSAD 623, CSAD 624, CSAD 631, CSAD 632, CSAD 641, CSAD 641L, CSAD 642, CSAD 643, CSAD 651, CSAD 652, CSAD 653, CSAD 661, CSAD 662.
Term Typically Offered: Fall only

Introduction to the basic concepts of pharmacology, including pharmacokinetics, polypharmacy, and ototoxicity (cochleotoxicity, vestibulotoxicity, and neurotoxicity), for audiologists. Overview of drug classifications, interactions, and regulations.

CSAD 662. Implantable Devices and Technology. 2 Units
Prerequisite(s): Admission to Doctor of Audiology program; CSAD 611, CSAD 612, CSAD 613, CSAD6614, CSAD 621, CSAD 622, CSAD 622L, CSAD 623, CSAD 624, CSAD 631, CSAD 632, CSAD 641, CSAD 641L, CSAD 642, CSAD 643, CSAD 651, CSAD 652, CSAD 653
Term Typically Offered: Summer only

Pre-operative assessment and post-operative management of cochlear implants and other implantable devices. Includes patient counseling for expectations, introduction to surgical procedures, mapping, use of assistive devices, and current developments in research.

CSAD 670. Clinical Methods: Professional Issues. 1 Unit
Prerequisite(s): Admission to Doctor of Audiology program; CSAD 610, CSAD 620, CSAD 630, CSAD 640, CSAD 650, CSAD 660
Corequisite(s): CSAD 670C
Term Typically Offered: Fall only

Professional issues for audiologists. Topics covered include licensure, certification, and professional involvement at the local, state, and national levels.

CSAD 670C. Audiology Clinic VII. 2 Units
Prerequisite(s): Student must be admitted to Doctor of Audiology program; complete CSAD 610, CSAD 620C, CSAD 630C, CSAD 640C, CSAD 650C and CSAD 660C to enroll in this course.
Corequisite(s): CSAD 670C
Term Typically Offered: Fall, Spring

Supervised clinical practice in audiology with an emphasis on refining third-year clinical skills and working independently.

CSAD 671. Counseling in Audiology. 3 Units
Prerequisite(s): Admission to Doctor of Audiology program; CSAD 611, CSAD 612, CSAD 613, CSAD 614, CSAD 621, CSAD 622, CSAD 622L, CSAD 623, CSAD 624, CSAD 631, CSAD 632, CSAD 641, CSAD 641L, CSAD 642, CSAD 643, CSAD 651, CSAD 652, CSAD 653, CSAD 661, CSAD 662.
Term Typically Offered: Fall only

Introduction to the principles and theories of counseling. Emphasis on communication skills and applied techniques. Considerations for assessing multicultural populations. Influences of cultural background on attitudes, beliefs, disabilities, utilization of health care services, and deafness.

CSAD 672. Central Auditory Processing Disorders. 3 Units
Prerequisite(s): Admission to Doctor of Audiology program; CSAD 311, CSAD 312, CSAD 613, CSAD 614, CSAD 621, CSAD 622, CSAD 622L, CSAD 623, CSAD 624, CSAD 331, CSAD S32, CSAD 641, CSAD 641L, CSAD 642, CSAD 643, CSAD 651, CSAD 652, CSAD 653, CSAD 661, CSAD 362.
Term Typically Offered: Fall only

Definition and role of audiologists in the assessment, diagnosis, and management of children, adults, and older adults with auditory processing disorder.

CSAD 672C. Audiology Clinic VIII. 2 Units
Corequisite(s): CSAD 670C
Term Typically Offered: Spring only

Supervised clinical practice in audiology with an emphasis on refining clinical skills and working independently in preparation for the externship.
CSAD 683. Speech-Language Pathology for Audiologists. 1 Unit
Prerequisite(s): Admission to Doctor of Audiology program; CSAD 611, CSAD 612, CSAD 613, CSAD 614, CSAD 621, CSAD 622, CSAD 622L, CSAD 623, CSAD 624, CSAD 331, CSAD 332, CSAD 641, CSAD 641L, CSAD 642, CSAD 643, CSAD 651, CSAD 652, CSAD 653, CSAD 661, CSAD 662, CSAD 671, CSAD 672, CSAD 673
Term Typically Offered: Spring only
Overview of speech and language development, including screening for speech and language disorders and risk factors for speech and language delay, from the perspective of audiology. Principles of auditory-verbal therapy.

CSAD 710. Clinical Methods: Externship I. 2 Units
Prerequisite(s): CSAD 520
Corequisite(s): CSAD 710E
Term Typically Offered: Summer only
Seminar and discussion of cases from externship placements.

CSAD 710E. Audiology Externship 1. 7 Units
Prerequisite(s): CSAD 520
Corequisite(s): CSAD 710
Term Typically Offered: Summer only
First full-time externship in audiology I.
Credit/No Credit

CSAD 720. Clinical Methods: Externship II. 2 Units
Prerequisite(s): CSAD 710
Corequisite(s): CSAD 720E
Term Typically Offered: Fall only
Seminar and discussion of cases from externship placements.

CSAD 720E. Audiology Externship 2. 7 Units
Prerequisite(s): CSAD 710E
Corequisite(s): CSAD 720
Term Typically Offered: Fall only
Second full-time externship in audiology II.
Credit/No Credit

CSAD 730. Clinical Methods: Externship III. 2 Units
Prerequisite(s): CSAD 720
Corequisite(s): CSAD 730E
Term Typically Offered: Spring only
Seminar and discussion of cases from externship placements.

CSAD 730E. Audiology Externship 3. 7 Units
Prerequisite(s): CSAD 720E
Corequisite(s): CSAD 730
Term Typically Offered: Spring only
Third full-time externship in audiology III.
Credit/No Credit

Communication Studies (COMS)

COMS 2. Argumentation. 3 Units
General Education Area/Graduation Requirement: Critical Thinking (A3)
Term Typically Offered: Fall, Spring
Practice in argumentation, critical evaluation, evidence, and reasoning. Basic principles are applied in a variety of formal and informal advocacy situations. Concepts of argument structure and context are discussed and applied.
Note: Majors must complete with a grade of "C-" or better.

COMS 4. Introduction to Public Speaking. 3 Units
General Education Area/Graduation Requirement: Oral Communication (A1)
Term Typically Offered: Fall, Spring
Theory and technique of public speaking. Emphasis on organizing, supporting, and clearly stating ideas. Practice in informative and persuasive speaking.

COMS 4H. Honors Public Speaking. 3 Units
Prerequisite(s): Open only to Honors students.
General Education Area/Graduation Requirement: Oral Communication (A1)
Term Typically Offered: Fall, Spring
Provides both theoretical and practical training in the art of public discourse. Students learn both to recognize and to demonstrate the strategic processes of organizing and delivering speeches, especially within the context of global citizenship issues. Students are also introduced to the basic idea of forming reasonable challenges to speech in the public square.

COMS 5. The Communication Experience. 3 Units
General Education Area/Graduation Requirement: Oral Communication (A1)
Term Typically Offered: Fall, Spring
Basic skills and introductory concepts necessary for effective communication in a variety of settings. Special emphasis on practical experiences within groups, facilitation of interpersonal relationships, and methods of conflict resolution.
Note: Not recommended for COMS majors in General, Organizational or Public Relations concentrations.

COMS 8. Interpersonal Communication Skills. 3 Units
Term Typically Offered: Fall, Spring
Basic skills and introductory concepts for examining and altering interpersonal communication. In addition to lectures and discussions, students engage in structured interpersonal exercises and simulations to practice interpersonal communication skills such as listening, paraphrasing, describing feelings and intentions, and giving and receiving criticism.
Note: Majors must complete with a grade "C-" or better.

COMS 20A. Audio Production. 2 Units
Corequisite(s): COMS 20B.
Term Typically Offered: Fall, Spring
Introduction to the theory and practice of audio production in radio, television, film and recording applications.
Cross listed: FILM 20A.
COMS 20B. Audio Production Laboratory. 1 Unit
Corequisite(s): COMS 20A.
Term Typically Offered: Fall, Spring
Experience in audio console operation, microphone selection and use, and audio recording in radio, television, film and recording applications. Cross listed: FILM 20B.

COMS 21. First Year Seminar: Becoming an Educated Person. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring
Introduction to the nature and possible meanings of higher education, and the functions and resources of the University. Helps students to develop and exercise fundamental academic success strategies and to improve their basic learning skills. Students interact with fellow students and the seminar leader to build a community of academic and personal support.

COMS 26. Introduction to Capturing and Editing Digital Media. 2 Units
Corequisite(s): COMS 27B.
Term Typically Offered: Fall, Spring
Addresses the theory and practice of film/video production. Students will be expected to understand: camera operation, audio control, basic directing, lighting, and editing. Students will also be expected to learn the terminology of video production/post-production and use this terminology competently. Students enrolled in COMS 27A must be concurrently enrolled in COMS 27B. There are no exceptions to this requirement.
Cross-listed: FILM 27A

COMS 27A. Digital Film/Video Production. 3 Units
Corequisite(s): COMS 27B.
Term Typically Offered: Fall, Spring
Developing skills in producing photographic, graphic and animated materials used for the World Wide Web and multimedia.

COMS 27B. Digital Film/Video Production Laboratory. 1 Unit
Corequisite(s): COMS 27A.
Term Typically Offered: Fall, Spring
Provides practical, hands-on experience in video production. Students will be expected to become proficient in all production roles: camera operation, audio control, basic directing, lighting, and editing. Students enrolled in COMS 27B must be concurrently enrolled in COMS 27A.
Cross listed: FILM 27B.

COMS 55. Media Communication and Society. 3 Units
Term Typically Offered: Fall, Spring
Introduction to the basic concepts of mass communication, including the effects, uses, and functions associated with the goods and services of mass media. Examination of the ways mass media combine with other institutions to affect the organization, design, and comprehension of messages, as well as political thought, cultural beliefs, and economic behavior.
Note: Majors must complete with a grade of "C-" or better. Cross Listed: JOUR 55; only one may be counted for credit.

COMS 100A. Survey of Communication Studies. 3 Units
Term Typically Offered: Fall, Spring, Summer
Survey of various theories of communication. Attention given to such topics as verbal and nonverbal coding, information processing, interpersonal and small group communication, organizational communication, the structure and effects of mediated communication, rhetorical criticism, and research in communication.
Note: Majors and minors must complete with a grade of "C-" or better.

COMS 100B. Rhetoric and Social Influence. 3 Units
Prerequisite(s): COMS Studies Majors only. COMS 2, COMS 4, (COMS 5 is accepted for COMS 4 for MCOM majors) or transfer equivalents and (GWAR Certification before Fall 09, or WPJ score of 80+, or at least a C- in ENGL 109M or ENGL 109W).
Corequisite(s): COMS 100A
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring, Summer
Detailed examination of texts on controversial issues in order to illustrate the varied forms of rhetorical action and the diverse modes of rhetorical analysis. Examples drawn from the literature of classical/contemporary rhetors.
Note: Majors must complete with a grade of "C-" or better; Writing Intensive

COMS 100C. Introduction to Scientific Methods in Communication Research. 3 Units
Prerequisite(s): COMS 100A; may be taken concurrently.
Term Typically Offered: Fall, Spring, Summer
Empirical methods commonly applied during communication research. An introduction to the concepts fundamental to the scientific study of communication, including conceptual and operational definitions, sampling, measurement, experimental design, independent and dependent variables, and quantitative data analysis.
Note: Majors must complete with a grade of "C-" or better.

COMS 101. Information Management and Privacy. 3 Units
Term Typically Offered: Fall, Spring
Students develop skills to use information proficiently in digital environments. In order to cope with information overload, students learn how to define and limit informational needs, how to access and evaluate information critically, and how to analyze and integrate information purposefully. The course teaches students evolving strategies and techniques for maintaining personal information spaces and security.

COMS 103. Presentational Speaking in the Organization. 3 Units
Prerequisite(s): A general education oral communication course.
Term Typically Offered: Fall, Spring, Summer
Contemporary communication techniques for use in business and industry. Principles and practice of oral reporting, persuasive speaking, conference participation, and interpersonal interaction.
Note: COMS majors are urged to take COMS 104 instead of COMS 103.

COMS 104. Persuasive Public Speaking. 3 Units
Prerequisite(s): COMS 2, COMS 4, or instructor permission.
Term Typically Offered: Fall, Spring
Advanced public speaking focusing upon persuasive strategies, principles and techniques.
COMS 105. Communication in Small Groups. 3 Units
Term Typically Offered: Fall, Spring, Summer

Theory and practice in small group communication. Topics include leadership, meeting management, evolution of group norms, phases of group development, communication networks, good communication techniques, conflict management, and problem solving in a variety of contexts.

COMS 106. Digital Media Creation - An Introduction. 3 Units
Term Typically Offered: Fall, Spring

Students learn multimedia authoring through the manipulation of digital media download legally from online repositories. Students learn how to digitally edit pixel-based images, vector images, audio, video and 3D models, while learning the principles that govern all digital media. The course uses Open Source and specialized software.

COMS 107. Children And Television. 3 Units
Term Typically Offered: Fall, Spring

Cognitive, affective, and behavioral effects of television on children. Explores in detail issues such as televised violence, stereotyping, advertising and cognitive development. Discusses relationship between television and education.

COMS 108. Family Communication. 3 Units
Prerequisite(s): COMS 8 or FACS 50 or SOC 166, or instructor permission.
Term Typically Offered: Fall, Spring

Family as a small group with emphasis on understanding and interpreting the dynamics of family communication and socio-psychological theories. Cross Listed: FACS 108; only one may be counted for credit.

COMS 109. Advanced Debate Workshop. 1 Unit
Term Typically Offered: Fall, Spring

Participation in intercollegiate debate competition. Credit/No Credit

COMS 110. Debate Research Practicum. 3 Units
Term Typically Offered: Fall only

Directed research in the current intercollegiate debate topic; identification of issues, compilation of evidence, and case building.
Note: May be taken four times for credit with instructor permission.

COMS 111. Communication and American Culture. 3 Units
Term Typically Offered: Fall, Spring, Summer

Critical analysis of the ways modern American media interact with the conduct of American life; emphasizes the role of commercialism and other aspects of contemporary American capitalism; examines the problem of personal development and relationships in the context of a commercially dominated media system.

COMS 112. Media Aesthetics. 3 Units
Term Typically Offered: Fall, Spring

Overview and analysis of the primary aesthetic tools used to create messages in video and film. The basic properties of light, color, area, space, shape, sound, time and motion are defined and discussed as they relate to media production. Introduces students to the concepts and vocabulary necessary for effectively conceiving, producing or criticizing mediated messages. Designed primarily for students with interest in digital media. Provides a foundation for students working in media criticism. Cross listed: FILM 121.

COMS 113. Public Relations. 3 Units
Prerequisite(s): COMS 55 or JOUR 55 or equivalent; may be taken concurrently.
Term Typically Offered: Fall, Spring

Introduction to the PR subprocesses of task identification, task analysis, and task performance.

COMS 114. Nonverbal Communication. 3 Units
Term Typically Offered: Fall, Spring

Nonverbal communication will focus on the nonverbal aspects of human communication. Students will learn the vocabulary of nonverbal communication (NVC) as we examine the nature of NVC, NVC Codes, and the effects of NVC on messages we receive and send. In addition, we will consider nonverbal behaviors in interpersonal relationships, intercultural communication and research in nonverbal.

COMS 115. Intercultural Communication. 3 Units
Term Typically Offered: Fall, Spring

Analysis of factors which influence communication between individuals of different cultures and cocultures. Discussion and practical application.

COMS 116. Survey of Public Relations. 3 Units
Prerequisite(s): At least one college writing course in ENGL or JOUR with a grade of "C-" or better.
Term Typically Offered: Fall, Spring

Introduces the student to publics, organization-environment relationships, structures, practices, and processes from a communication theory and research perspective. Specifically, the student is introduced to the multi-phased approach to public relations, an approach that highlights the PR subprocesses of task identification, task analysis, and task performance.

COMS 117. Multimedia Communication. 3 Units
Prerequisite(s): COMS 106
Term Typically Offered: Fall, Spring

Students create and integrate information and digital media with the purpose of informing or persuading an audience. By identifying communication needs, students learn to prepare multimedia presentational aids and standalone multimedia presentations for distribution in online environments. This course features topics in visual communication, story-boarding, presentation and delivery.

COMS 118. Conflict Resolution Through Communication. 3 Units
Term Typically Offered: Fall, Spring

Ways to identify, clarify, and resolve conflicts in dyads, groups, and organizations. Conflict is contrasted with disagreement, aggression, incompatible values, etc. The costs and benefits of conflict are explored.

COMS 119. History of the Media. 3 Units
Prerequisite(s): COMS 55 or JOUR 55 or equivalent; may be taken concurrently.
Term Typically Offered: Fall, Spring

Examination of development of major mass communication media in the U.S. and of how the economics, content, regulation and audience use of the media have been affected by the way the media have evolved. Current issues and trends are discussed, as well as possible future development. Cross Listed: JOUR 120; only one may be counted for credit.

COMS 120. Communication in Small Groups. 3 Units
Term Typically Offered: Fall, Spring, Summer

Theory and practice in small group communication. Topics include leadership, meeting management, evolution of group norms, phases of group development, communication networks, good communication techniques, conflict management, and problem solving in a variety of contexts.

COMS 121. Multicultural Communication. 3 Units
Term Typically Offered: Fall, Spring

Nonverbal communication will focus on the nonverbal aspects of human communication. Students will learn the vocabulary of nonverbal communication (NVC) as we examine the nature of NVC, NVC Codes, and the effects of NVC on messages we receive and send. In addition, we will consider nonverbal behaviors in interpersonal relationships, intercultural communication and research in nonverbal.
COMS 122. Writing for Interactive Media. 3 Units
Prerequisite(s): ENGL 1A and ENGL 20 or (GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.)
Term Typically Offered: Fall, Spring
Writing and editing for visual, audio, and interactive media. How to choose appropriate format and delivery mechanisms for news, web sites, kiosks, and CD/DVD. Topics include copyright law and information ethics.

COMS 123. Writing for Public Relations. 3 Units
Prerequisite(s): JOUR 30; GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
Term Typically Offered: Fall, Spring
Organization and operation of communication media; practice in publicity and public relations techniques. Emphasis on clear writing and correct public relations formats such as releases, PSAs, articles, and speeches. Cross listed: JOUR 123

COMS 124. Writing Scripts for Film/Video. 3 Units
Prerequisite(s): ENGL 1A and ENGL 20.
Term Typically Offered: Fall, Spring
Developing narratives, documentaries, educational, promotional, and experimental short screenplays. Students are expected to develop a writing style and master screenwriting and audio/virtual scripting formats. Scripts will be developed to be produced in advanced production courses: COMS/FILM 128 and COMS/FILM 185. Cross listed: FILM 124.

COMS 126. Motion Graphics in Film and Video. 3 Units
Prerequisite(s): COMS 20A, COMS 20B and COMS 26 or both COMS 27A and COMS 27B each with a grade of "B-" or better or instructor permission.
Term Typically Offered: Fall, Spring
Artistic and technical skills employed when capturing and editing photographic, audio, and video data files. Data files are prepared for export into multimedia authoring applications. Mastery of appropriate hardware and software.

COMS 127. Producing and Directing for Television. 3 Units
Prerequisite(s): COMS 20A, COMS 20B, COMS 27A, COMS 27B, each with a grade of "B-" or better.
Term Typically Offered: Fall, Spring
Theory and practice of producing and directing television programs with emphasis on studio and control room techniques.

COMS 128. Intermediate Production. 3 Units
Prerequisite(s): FILM/COMS 20AB with a grade of "C" or better. FILM/COMS 27AB with a grade of "C" or better.
Term Typically Offered: Fall, Spring
Continued exploration of the digital filmmaking process through lecture, lab, and practical application. Project-based learning emphasizes working as a crew and the three distinct stages of production: prep, production, and post. Students write, produce, direct and edit original content to bring projects to fruition. Cross-listed: FILM 128.

COMS 129. Film and Video Production Management. 3 Units
Term Typically Offered: Fall, Spring
Management and administration of the preproduction and production process. Course to include script breakdown, budgeting, scheduling and other preproduction and production management skills needed for film or video production. Special attention on the history, development and current practices of the Production Manager. Cross listed: FILM 129.

COMS 130. Staging and Lighting Digital Video. 3 Units
Prerequisite(s): COMS 20A, COMS 20B, COMS 27A, COMS 27B, each with a grade of B- or better.
Term Typically Offered: Fall, Spring
Introduction to the aesthetics, concepts and techniques used to control lighting in digital video productions. Aspects of staging, blocking and composition in the context of studio and location lighting. Note: Students enrolled are required to work on productions outside of scheduled class time (1-3 hours/week). Cross listed: FILM 130.

COMS 132. Film As Communication. 3 Units
Term Typically Offered: Fall, Spring
Study of history and theory of film and video editing. Many films are viewed and discussed, examining how editing theory is put into practice. Cross listed: FILM 132.

COMS 133. The Documentary Film. 3 Units
Term Typically Offered: Fall, Spring
Examines the historical, development, and present state of documentary film. Emphasis is on both understanding and critically analyzing the significance of various genres of the documentary and its uses as a tool for information, proselytizing, education, and propaganda.

COMS 136. Introduction to Electronic Publishing. 3 Units
Prerequisite(s): COMS 26 or instructor permission.
Term Typically Offered: Fall, Spring
Design and production of information sites for the World Wide Web. Concepts covered include market analysis, cognitive design, layout, navigation, interactive strategies, site management, and multimedia components for electronic distribution systems. Introduction to object oriented programs and XHTML text editors.

COMS 140. Online Collaboration. 3 Units
Term Typically Offered: Fall, Spring
Students learn to communicate in virtual environments in real-time and asynchronously. Students survey current technologies for collaboration, explore psychological and cultural aspects of individuals working and communicating in teams across computer networks, and identify strategies to foster cooperatives in distributed work.

COMS 141. Theory of Film and Video Editing. 3 Units
Prerequisite(s): COMS/FILM 27A and COMS/FILM 27B with final posted grade of C or better.
Term Typically Offered: Fall, Spring
Study of history and theory of film and video editing. Many films are viewed and discussed, examining how editing theory is put into practice. Cross listed: FILM 141.

COMS 142. Film As Communication. 3 Units
Term Typically Offered: Fall only
Explores the uses of film as a tool of communication.
COMS 143. Theories of Interpersonal Communication. 3 Units
Prerequisite(s): COMS 8 or equivalent; COMS 100A may be taken concurrently.
Term Typically Offered: Fall, Spring, Summer

One-to-one communication between individuals in both social and task settings. Theories of communication during the growth and decay of relationships, as well as research on the forces behind relational dynamics. Topics include nonverbal communication, self concept, communication of self, theories of conflict resolution, communication competence and the rhetoric of disconfirmation.

COMS 144. Developing Rich Media Websites. 3 Units
Prerequisite(s): COMS 27A, and COMS 27B.
Term Typically Offered: Fall, Spring

An introduction to the creation of multimedia websites using current multimedia development software such as Flash. Emphasis will be placed on creating interactive video and formatting video programs for delivery over the WWW, extranets, or intranet.

COMS 145. Organizational Communication. 3 Units
Prerequisite(s): COMS 100A.
Term Typically Offered: Fall, Spring, Summer

Basic concepts of interpersonal and inter-group communication within formal and informal social organizations. Current techniques of auditing and evaluating organizational communication.

COMS 149. Multimedia Authoring. 3 Units
Prerequisite(s): COMS 106, COMS 126.
Term Typically Offered: Fall, Spring

Basic multimedia authoring theory and skills. Text, graphics, audio, and video are synchronized into interactive media. Topics include 2D animation, interface design, and fundamentals of scripting language.

COMS 150. Mass Communication Theories and Effects. 3 Units
Prerequisite(s): COMS 55 or JOUR 55 or equivalent; and COMS 100A which may be taken concurrently.
Term Typically Offered: Fall, Spring, Summer

Survey of the major theories dealing with the relationship between the mass media and human communication behavior. Examination of research into the social, political, economic and cultural effects of mass communication.

COMS 152. Freedom Of Speech. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Thorough introduction to issues related to freedom of speech and censorship, sections of the historical origins of free speech, seditious speech, libel and slander, pornography and obscenity, commercial speech and advertising, symbolic speech and hate speech. The class brings a communication focus to addressing issues related to the First Amendment.

COMS 153. Journalism Law and Ethics. 3 Units
Term Typically Offered: Fall, Spring

Laws and regulations that govern print, broadcast, and the electronic mass media in the U.S. Discusses the process by which laws and regulations are enacted and interpreted as well as legal and regulatory issues concerned with the content, control, political role and responsibilities of media practitioners, regulators, Congress, and the public.
Cross listed: JOUR 153

COMS 154. Instructional Design and Training. 3 Units
Term Typically Offered: Fall, Spring

Communication theory and practice in organizational training. Surveys instructional communication theory and the instructional design process. Focus on effective communication in training contexts. Topics include needs assessment, training design, training evaluation and training delivery via electronic media.

COMS 155. Survey of World Cinema. 3 Units
Term Typically Offered: Fall, Spring

A historical review of the development of major international film styles and themes. Concepts derived from this study of international film are then used as a basis to analyze contemporary films of India, Asia, and Africa. Emphasis is on both the development of formal film technique and a comparison of the unique cultural values that shape the film narrative and style.

COMS 157. Video Art. 3 Units
Prerequisite(s): ART 97 or COMS 27A/Film 27A and COMS 27B/Film 27B.
Term Typically Offered: Fall, Spring

The creation and analysis of video artwork; including techniques of video production, post-production manipulation and critique, within the context of art and communication. The techniques and theory of producing and editing video will serve as a foundation for the pursuit of individual, creative projects.
Cross-listed as ART 147; only one may be counted for credit.

COMS 158. Public Relations Planning and Management. 3 Units
Prerequisite(s): COMS 118 and COMS 123 or JOUR 123 with grade of "C-" or better.
Term Typically Offered: Fall, Spring

Theoretical concepts to the solution of problems for pre-selected non-profit and campus clients by forming small group PR agencies; completing needs assessments; profiling target and secondary audiences; developing and implementing a strategic public relations plan; producing targeted messages for media kits and other uses; developing and evaluating formative and summative evaluation plans; and making formal in-class presentations to peers, clients and invited PR professionals. Students will also learn how to negotiate contracts, maintain client relations, track work on projects and develop timelines and budgets.
Cross Listed: JOUR 158; only one may be counted for credit.

COMS 160. Political Communication. 3 Units
Term Typically Offered: Fall only

Analyzes the relationship between mass media and political decision-making, including a structural analysis of political and media institutions. Particular attention on the formation of public opinion through messages and strategies, and the impact of public opinion on public policy.
COMS 161. Health Communication. 3 Units
Term Typically Offered: Fall, Spring
Communication principles and techniques as they apply to the many facets of health care, health education and promotion, and research in health communication. Emphasis on understanding and improving communication among health professionals, and between health professionals and clients. Explores the rapidly emerging field of health communication. Selected concepts and theories of human communication are directly applied to communication problems and situations in health care settings through the use of case studies. In addition, pertinent research that helps explain human interaction in health care is incorporated through readings and discussions.

COMS 162. Gender Ideology and Communication. 3 Units
Prerequisite(s): COMS 100A
Term Typically Offered: Fall, Spring
Scholarly, theoretical and critical writings on the production and circulation of gender roles, images, and gender-types attributes through communication, with a special focus on mass-mediated communication such as television, video, and film.

COMS 163. Propaganda, Power, & Manipulation. 3 Units
Term Typically Offered: Fall, Spring
This course will map major moments in the development of power and propaganda as a communication apparatus, identify the discursive and media presentations of ideologies, and engage in struggles for control and resistance. Twentieth century propaganda sought to advance nationalism, advertise consumer society, and enact war. The 21st century clash of civilizations couples media and events into circulation of acts of terror. With post-modern social media, novel interactions among communication apparatus, norms, and global entities generate new threats and opportunities.

COMS 164. Visual Communication. 3 Units
Prerequisite(s): COMS 100A and 100B or equivalent, with a grade of C- or better.
Term Typically Offered: Fall, Spring, Summer
Comprehensive overview of the theoretical concepts and communication methodologies appropriate for analysis of contemporary visual messages. Focuses on rhetorical analysis of visual messages. Significant research and critical writing required.

COMS 165. Communication and Religion. 3 Units
Term Typically Offered: Fall, Spring, Summer
Examines the history, development and present state of religious communication. Discussion of the limits and challenges communication theories face when confronted with situations requiring them to describe the indescribable. Emphasis upon the communication methods in a religious context as well as the communication strategies, limits, and possibilities that are revealed in what is arguably the most extreme of communication situations: the intersection of religion and words.

COMS 166. Theories of Persuasion and Attitude Change. 3 Units
Term Typically Offered: Fall, Spring
Various theories of persuasion and attitude change, both classical and empirical, in terms of their effectiveness and social impact. Includes units on production and consumption of persuasive messages.

COMS 167. Systems and Theories of Rhetoric. 3 Units
Prerequisite(s): COMS 100B or equivalent with a grade of "C-" or better.
Term Typically Offered: Fall, Spring, Summer
Historical survey of theories of rhetoric. Comparison/contrast of scope and value of rhetorical theories. Practice in critical writing.

COMS 168. Approaches to Rhetorical Criticism. 3 Units
Prerequisite(s): COMS 100B or equivalent with a grade of "C-" or better.
Term Typically Offered: Fall, Spring, Summer
Analyzes rhetorical events, using a variety of critical perspectives. Current issues on criticism's function and the critic's role. Practice in critical writing.

COMS 169. Television Criticism. 3 Units
Prerequisite(s): COMS 100B with a grade of "C-" or better; completion of 12 units of upper division COMS courses; or unclassified graduate student status; or instructor permission.
Term Typically Offered: Fall, Spring, Summer
Introduction to television criticism theory and to various critical methods with which television program texts may be analyzed. Current theoretical and critical issues in the function of criticism and the role of the critic are addressed through readings, writing assignments, screenings and discussion.

COMS 170. Data Analysis in Communication Research. 3 Units
Prerequisite(s): COMS 100C or equivalent with a grade of "C-" or better; or instructor permission.
Term Typically Offered: Fall, Spring, Summer
Introduction to the application of data analysis to the study of communication processes.

COMS 171. Survey Methods in Communication Research. 3 Units
Prerequisite(s): COMS 100C or equivalent with a grade of "C-" or better; or instructor permission.
Term Typically Offered: Fall, Spring, Summer
Techniques of survey research in communication, including sampling, questionnaire construction, interviewing, data analysis, and report writing. Each student designs and executes a research project.

COMS 172. Content Analysis. 3 Units
Prerequisite(s): COMS 100C or equivalent with a grade of "C-" or better; or instructor permission.
Term Typically Offered: Fall, Spring, Summer
Content analysis as a research technique in communication. Emphasizes design and execution of content analysis studies in a wide range of communication situations. Each student completes several short studies and a major project.

COMS 172A. Qualitative Research Methods in Communication. 3 Units
Prerequisite(s): COMS 100B, or instructor permission.
Term Typically Offered: Fall, Spring
Focuses on qualitative research methods as one methodological option to use in scholarly research. Emphasizes the design and execution of a qualitative research project using tools such as interviewing, focus groups, and observational methods. Each student designs and completes a research project.
COMS 173. Communication, Language and Culture. 3 Units
Prerequisite(s): COMS 100A.
Term Typically Offered: Spring only
Cross-cultural exploration of communication and social interaction; relationship between language and society; cross-cultural implications of values embedded in message production, transmission, and interpretation; studies of how language influences perception and organization of social reality; linguistics, information and message transmission.
Note: Restricted to junior and above or instructor permission.

COMS 174. International Communication. 3 Units
Prerequisite(s): COMS 100A.
Term Typically Offered: Fall, Spring, Summer
Movement of mediated messages across and between national boundaries. Topics include news and entertainment flow, media systems and philosophies, cultural dependency and imperialism, the new world information order and communication development.

COMS 175. Creative Problem Solving. 3 Units
Term Typically Offered: Fall, Spring
Creative problem solving techniques for use by individuals and groups. Topics include the nature of creative problem solving, barriers to creativity, clear problem definition, idea generation, decision making, group dynamics in creative situations, implementation of changes, and overcoming resistance to change.

COMS 176. Communication and Terrorism. 3 Units
Prerequisite(s): COMS 100A or instructor permission
Term Typically Offered: Spring only
This course addresses the communication aspects of terrorism, including both the ways terrorism has been used to make political and religious statements worldwide; how the media cover those messages; and how we talk about those messages and the coverage they receive. The course draws on the cutting-edge communication research from international/intercultural, political, mass communication, and computer-mediated communication sources. This is a course in the communication of terrorism. It is neither a course in the political science of terrorism nor in the criminal justice enforcement of counter-terrorism.

COMS 177. Virtual Communities on the Internet. 3 Units
Term Typically Offered: Fall, Spring
The nature of communication in virtual communities on the Internet and the impact that these communities have on traditional communication media. Topics include: the interaction of real and cyber communities, self-publishing, educational uses of virtual communities, virtual self-governance, artificial intelligent agents, and the issues of security, privacy, and anonymity. Students will participate in structured on-line activities.

COMS 178. Media, Sports, and Society. 3 Units
Term Typically Offered: Spring only
Examines and critiques the relationship between the mass media and sports. Reviews theoretical approaches for studying media and sports (including historical, sociological, psychological, political, and cultural studies perspectives), then examines how sport is mediated through literature, print journalism, radio, and television.

COMS 179. Social Media and Public Relations. 3 Units
Prerequisite(s): COMS 118 Survey of Public Relations
Term Typically Offered: Fall, Spring
Examine and apply public relations principles and strategies to research, plan, execute, and evaluate social media management on different platforms. Through discussion, simulation projects, and certificate education, students explore brand communication strategies with different social media tools, social media policy, influencer marketing, employee advocacy, crisis social media, and social media measurement.

COMS 180. Senior Seminar in Organizational Communication. 3 Units
Prerequisite(s): COMS 145; completion of 12 units of upper division COMS courses including COMS 100A.
Term Typically Offered: Fall, Spring, Summer
Seminar on communication theories, techniques and research methodologies in the field of social and governmental organizational systems.

COMS 181. Senior Seminar in Small Group Communication. 3 Units
Prerequisite(s): COMS 105; completion of 12 units of upper division COMS courses including COMS 100A.
Term Typically Offered: Fall, Spring, Summer
Seminar on the ways theories of group communication are realized in actual social settings.

COMS 182. Senior Seminar in Interpersonal Communication. 3 Units
Prerequisite(s): COMS 8, COMS 143, and completion of 12 units of upper division COMS courses including COMS100A.
Term Typically Offered: Fall, Spring, Summer
Seminar on advanced theories of interpersonal communication. Sample topics include relational development, relational termination, communication and interpersonal attraction, and communication competence. Students present one in-class report and complete a major research paper.

COMS 183. Senior Seminar in Media Issues and Ethics. 3 Units
Prerequisite(s): COMS 55 or JOUR 55; COMS 150; completion of 12 units of upper division COMS courses including COMS 100A.
Term Typically Offered: Fall, Spring
Seminar on the functions and roles of communication media in contemporary society. Includes issues and ethical considerations associated with freedom, responsibility and control examined from the points of view of the media, the government and the public. Specific topics will vary.

COMS 184. Senior Seminar in Organizational Communication. 3 Units
Prerequisite(s): COMS 145; completion of 12 units of upper division COMS courses including COMS 100A.
Term Typically Offered: Fall, Spring
Examine and apply public relations principles and strategies to research, plan, execute, and evaluate social media management on different platforms. Through discussion, simulation projects, and certificate education, students explore brand communication strategies with different social media tools, social media policy, influencer marketing, employee advocacy, crisis social media, and social media measurement.

COMS 184A. Multimedia Project Completion. 3 Units
Prerequisite(s): Instructor permission.
Corequisite(s): COMS 184A.
Term Typically Offered: Fall, Spring
Second of a two-semester senior project sequence. Students complete the project designed in COMS 184A. Projects are completed with assistance and feedback from the instructor, client, and working professionals.
COMS 185. Senior Practicum in Video Production. 3 Units
Prerequisite(s): COMS/FILM 124 with a final posted grade of C or better; COMS/FILM 128 with a final posted grade of C or better.
Term Typically Offered: Fall, Spring
Assignments in various phases of video production including creative use of camera, sound and lighting, editing, production design, production planning and management, and directing and producing. Students in first semester function as crew members for productions.
Note: May be repeated once for credit. Repeating students are expected to produce and direct a major student project. Cross listed: FILM 185.

COMS 186. Seminar in Health Communication. 3 Units
Term Typically Offered: Fall, Spring
Examines how health messages impact individuals, communities, and mass audiences. Critiques health communication research, raises awareness about health-related messages in our daily lives, applies theories of health communication, and critically analyzes how the creation, sending, and reception of health messages impacts society. Sample topics include doctor-patient communication, cross-cultural communication about health, and mass media effects of health-related images in media.

COMS 187. Issue Management and Case Studies in Public Relations. 3 Units
Prerequisite(s): COMS 118; completion of 12 units of upper division COMS courses.
Term Typically Offered: Fall, Spring
Examines the management of issues in the public and private sectors including knowledge and skills in the communication activities and thinking processes that affect an issue's development. Uses case studies of organizations—governmental agencies, businesses, and not-for-profit entities to assess issue development and management by examining the fundamental questions confronting organizations: What should the particular organization do and how should it do it? Examines criteria for selecting among alternative options, and the relation of the organization to its environment. Explores the broader social, legal, and ethical implications of the organization's activities.

COMS 188. Senior Seminar in Intercultural Communication. 3 Units
Prerequisite(s): COMS 116; completion of 12 units of upper division COMS courses including COMS 100A.
Term Typically Offered: Fall, Spring, Summer
Critically examines and analyzes complex dynamics and concepts in communication and culture in a pluralistic society. Also relates various perspectives on intercultural communication theories and methods to an analysis of social interaction processes among culturally diverse groups. An interactive dimension includes problem-solving strategies.

COMS 189. Practicum in Communication Training. 3 Units
Prerequisite(s): COMS 145 and COMS 154 or instructor permission.
Term Typically Offered: Spring only
Students work in groups to complete organizational training projects within community organizations. After assessing the organization's needs, students design, conduct and evaluate training. Advanced readings and professional competencies are emphasized.

COMS 190. Human Communication on the Internet. 3 Units
Term Typically Offered: Fall only
Provides an in-depth study of communication models that summarize and explain the interaction of humans in electronic environments, especially the Internet. Students locate, organize, analyze, and synthesize the latest research in online communication and make connection between theoretical models and their own experiences.

COMS 191. New Media and Society. 3 Units
Term Typically Offered: Fall, Spring, Summer
The course examines contemporary social, cultural, political and economic topics regarding the adoption of digital media and the Internet. Students understand their role as citizens of a global knowledge-based society and the ethical dimensions brought by the new computer-enabled media environment.

COMS 192. Senior Seminar in Film. 3 Units
Prerequisite(s): Completion of the Film Studies upper and lower division core or COMS 142, and (GWAR Certification before Fall 09, or WPJ score of 80+, or at least a C- in ENGL 109M or ENGL 109W).
Term Typically Offered: Spring only
Research seminar that provides an in-depth investigation of film as an art form, a medium of mass communication and a means of personal expression. Subject will vary according to instructor. Cross listed: FILM 192.

COMS 194. Communication Studies - Related Work Experience. 3 - 6 Units
Prerequisite(s): Open only to upper division or graduate students with appropriate course preparation. Units may not be used to meet COMS major, minor or graduate course work requirements. Consent of Communication Studies Department faculty advisor required. No more than 12 units may be counted toward the degree.
Term Typically Offered: Fall, Spring
Supervised employment in a company or agency working on communication studies-related assignments, arranged through the Department of Communication Studies and the Cooperative Education Program office. Requires preparation of application packet, completion of a 6 month full-time or part-time work assignment, and a written report. Credit/No Credit

COMS 195. Internship in Communication Studies. 1 - 6 Units
Prerequisite(s): COMS 100A, minimum 2.3 overall GPA.
Corequisite(s): COMS 100A.
Term Typically Offered: Summer only
Directed work experience in the internship program. Supervision is provided by both instructional staff and the cooperating agency. Faculty approval required. Credit/No Credit
COMS 196R. Latin American Rhetoric. 3 Units
Prerequisite(s): COMS 100B
Term Typically Offered: Fall, Spring

This course combines historical and rhetorical perspectives to examine the development of Latin American public culture. Studying different types of public discourse that combine intellectual sophistication with literary merit (including speeches, essays, poetry, and art), will illuminate how a unique public culture developed in Latin America, born from the roots of European and indigenous traditions. As we analyze these texts, we will examine what contributions their authors make to the field of rhetoric and rhetorical theory.

COMS 199. Special Problems. 1 - 3 Units
Prerequisite(s): COMS 100A.
Term Typically Offered: Fall, Spring

Individual projects or directed reading open to students who wish to attempt independent work. Faculty approval required.
Credit/No Credit

COMS 200A. Intro To Graduate Studies--Disciplinary History and Conventions. 1 Unit
Term Typically Offered: Fall only

This course introduces students to graduate-level research in Communication Studies, acquainting students with the discipline generally, and the CSUS Department of Communication Studies specifically. During this course, students will learn the: culture and expectations of graduate study, areas of inquiry in the discipline, sources for advanced research (including journals and databases, etc.), and conventions such as academic writing. Students will also learn about disciplinary structures, requirements for various degrees, types of academic/scholarly organizations, and venues for showcasing research.
Note: Required; COMS 200A and 200B can be taken in any order, and
must be completed in the first two semesters of graduate study.

COMS 200B. Intro To Graduate Studies--Paradigm and Methods. 1 Unit
Term Typically Offered: Spring only

This course is an introduction and orientation to advanced research in Communication Studies, specifically focused on disciplinary paradigms and research methods. During this course, students will gain familiarity with the: culture and expectations of graduate study, various paradigms that underpin communication research, and the numerous methods used to research communication across various contexts, including quantitative, qualitative, critical. Students consider ways to successfully integrate into the communication discipline through a variety of class discussions, readings, and activities.
Note: Required; COMS 200A and 200B can be taken in any order, and
must be completed in the first two semesters of graduate study.

COMS 201. Communication Theory. 3 Units
Term Typically Offered: Fall, Spring

This course critically examines the theoretical and paradigmatic foundations of the communication discipline. Students will learn the role of theory in research, and analyze general theories of communication and specific theories of rhetoric, symbolic interaction, information processing, interpersonal communication, small group communication, persuasion, organizational communication, and mass communication. Students practice analyzing, synthesizing, and contrasting relevant bodies of literature and theory. Must be taken within first two semesters of graduate enrollment.
Note: Graduate standing or instructor permission required; Graduate Writing Intensive

COMS 202. Quantitative Research Methods in Communication Studies. 3 Units
Prerequisite(s): Graduate student status or instructor permission.
Term Typically Offered: Fall, Spring

Introduction to advanced quantitative research methods. Students will demonstrate their ability to apply at least one research perspective to a significant topic of interest in the discipline. Students are expected to produce a well-crafted research proposal as part of a culminating experience.

COMS 203. Qualitative Research Methods in Communication Studies. 3 Units
Term Typically Offered: Fall, Spring

Introduction to advanced qualitative research methods. Students will critically review and analyze qualitative research, learn how to collect and analyze qualitative data, complete a qualitative research project about communication phenomena, and respond to the research projects of peers.

COMS 204. Rhetorical Criticism. 3 Units
Term Typically Offered: Fall, Spring

Intensive examination of the methods used by rhetorical critics to define, explicate, and understand both how meaning occurs in texts as well as the scope and mechanisms of meaning that influence public life. A major critical paper is prepared by each student.

COMS 206. Organizational Communication. 3 Units
Term Typically Offered: Fall, Spring

This course explores the foundations, research, and theories of organizational communication. Students examine and critique foundational theories and concepts in organizational research, and explore contemporary research topics. Students are expected to produce a well-crafted research project as part of a culminating experience.

COMS 207. Relational Communication. 3 Units
Term Typically Offered: Fall, Spring

This seminar explores communication concepts, theories, and methods used to understand a broad array of relationship types. Relational communication within interpersonal, professional, romantic, family, and friendship interactions will be investigated. Includes an exploration of germinial and current quantitative, qualitative, and critical research regarding relational communication. As a part of the culminating experience, students will develop a research project examining a relational communication topic of their choice (e.g., relationship stages, support, conflict, social networks, and competence).
COMS 208. International Communication. 3 Units
Term Typically Offered: Fall, Spring
This course uses qualitative (hermeneutic, ethnographic, discourse analysis) and quantitative methods to critically explore the infrastructure that allows for the movement of mediated messages across national boundaries, and the cultural, sociopolitical, and geopolitical effects of that transmission. Topics include news and entertainment flow, media systems and philosophies, cultural dependency and imperialism, the new world information order, communication development, and the role of racial, ethnic, gender, and national identity in an increasingly globalized mediasphere.

COMS 209. Social Movements. 3 Units
Term Typically Offered: Fall, Spring
This course is devoted to the rhetorical study of genre and social movements. Students will use a historical lens to examine how genre develops into societal change. Students will develop papers to explicate the rhetorical dimensions of areas of social change.

COMS 210. Media Effects. 3 Units
Term Typically Offered: Fall, Spring
Concentrated survey of mass media and an analysis of theories of media uses and effects. Students are required to conduct library research on a specific media-related topic and to present their findings orally.

COMS 211. Media and Culture. 3 Units
Term Typically Offered: Fall, Spring
Introduction to the major approaches and concepts that are central to the study of the intersection(s) between media and culture. Students investigate the social structures of media industries (technological, philosophical, aesthetic, economic, political, etc.) and their cultural products (media artifacts, created of image and sound), while also considering the historical and theoretical framework necessary for understanding this critical space.

COMS 212. Communication and Leadership. 3 Units
Term Typically Offered: Fall, Spring
This seminar explores the concept of leadership including current theory and research on the communicative aspects of leadership in a variety of contexts. Students will review a wide array of multidisciplinary scholarship using various methodologies through which leadership has been viewed. Leadership communication within organizations, small groups, and interpersonal settings will be explored. Students will develop a research project on a leadership topic of their choosing.

COMS 213. Rhetorical Theory. 3 Units
Term Typically Offered: Fall, Spring
Intensive examination of the development and current state of a variety of theoretical outlooks that inform rhetorical criticism. Relationship of theory and method is discussed.

COMS 214. Health Communication. 3 Units
Term Typically Offered: Fall, Spring
Rigorous survey of how health messages impact individuals, communities, and mass audiences. The course includes an analysis of health communication theories, an overview of how health communication plays a role in individual, social, and macro-levels of society, and an evaluation of intentional and unintentional media effects on health beliefs, attitudes, and behaviors.

COMS 215. Political Communication. 3 Units
Term Typically Offered: Fall, Spring
Examines the intersection of politics and mass communication in the United States. Topics will include normative theory of journalism; agenda-setting, framing, and priming; advertising; the sociology of news; war (including terrorism) and media; infotainment; media bias; hegemony theory; and the internet and politics.

COMS 216. Intercultural Communication. 3 Units
Term Typically Offered: Fall, Spring
This course introduces various theories, perspectives, and approaches to the study of intercultural communication to help understand the complex nature of intercultural communication research. The course considers intercultural communication in various contexts, such as a workplace, healthcare, media, tourism, and education.

COMS 217. Applied Organizational Communication. 3 Units
Term Typically Offered: Fall, Spring
This course asks students to consider the relationship between theory and practice in organizational communication research. Students will critically review relevant literature regarding applied organizational communication research. Students will apply organizational communication concepts, theories, and methods to their analysis of communication in organizations to craft a theoretically grounded, practically relevant study.

COMS 218. Conflict Management. 3 Units
Term Typically Offered: Fall, Spring
Review of theory and research regarding the role of communication in conflict management. The course considers conflict at interpersonal, group, organizational, and cultural levels.

COMS 219. Instructional Communication Theory. 3 Units
Term Typically Offered: Fall, Spring
Survey of dominant theories of instructional communication. Students read, study, and critique prevailing bodies of literature which have a bearing on the study and practice of instructional communication. Theories are used to help students reflect on their own experiences as teachers and students and to generate new ideas for research in instructional communication.

COMS 220. Instructional Communication Practicum. 3 Units
Term Typically Offered: Fall, Spring
Examination of communication theory and research in instructional or training contexts. Designed for beginning teachers or organizational trainers. Centers on those communication principles which contribute to greater student/client learning and satisfaction. Emphasis on the development and implementation of instructional communication packages for adult learners.
COMS 228. Corporate Advocacy and Public Policy. 3 Units
Term Typically Offered: Fall, Spring
Explores "corporate advocacy" as a kind of rhetorical, persuasive transaction between Corporate America and those in its environment. Seeks to understand corporate America's role in the "policy process" (broadly defined), by analyzing the constituted authority for policy formation, the actual institutions involved in such formation, the interaction between/among these centers of power, the difference between authority and influence between/among these centers of power and influence, and how corporate America uses rhetorical messages to enhance various goals.

COMS 230. Computer-Mediated Communication. 3 Units
Term Typically Offered: Fall, Spring
Instruction and analysis of human and social Computer-Mediated Communications. Covers from how digital media affects representation and narrative to research on current uses of the Internet and the theoretical frameworks applied to summarize it. Includes a component of Computer Literacy that will help students understand Computer-Mediated Communication and use online collaborative tools efficiently. No previous computer knowledge is required.

COMS 285. Colloquium for Teaching Communication Studies. 1 Unit
Term Typically Offered: Fall, Spring
This colloquium is designed to facilitate the development, refinement, and maintenance of effective pedagogical methods and strategies for teaching communication studies courses. Strongly encouraged for student teachers across all disciplines.

Note: May be repeated up to three times with permission of instructor.

COMS 295. Apprenticeship in Communication Studies. 1 - 3 Units
Term Typically Offered: Fall, Spring
Directed experience in research or teaching using an apprenticeship model. Students will work with faculty members to assist with teaching or research. Faculty and Graduate Committee approval required prior to enrollment.

Note: Faculty and Graduate Committee approval required prior to enrollment

Credit/No Credit

COMS 296A. Communication Research Methods. 1 Unit
Term Typically Offered: Fall, Spring
This one-unit module provides an in-depth look at a particular communication research method or data analysis technique. Content varies.

Note: 1 unit, repeatable.

COMS 296B. Communication Topics. 1 Unit
Term Typically Offered: Fall, Spring
This one-unit module provides an in-depth look at a particular communication research topic or theory. Content varies.

Note: Course may be repeated so long as the topic is different.

COMS 297. Directed Study and Comprehensive Examination. 1 - 3 Units
Prerequisite(s): Must be advanced to candidacy.
Term Typically Offered: Fall, Spring
Structured and supervised reading program for MA candidates preparing for comprehensive examinations. Should be taken after completion of all other requirements for the degree. Credit given upon successful completion of comprehensive examinations. Examining committee determines the number of units to be credited.

Note: Open to students who have been advanced to candidacy and have secured permission of the chair of their examining committee and the Graduate Coordinator.

COMS 298. Colloquium In Communication. 3 Units
Term Typically Offered: Fall, Spring
A seminar on a communication topic of contemporary concern. Topic may change from semester to semester. May be taken for credit more than once, provided topic is not repeated.

COMS 299. Independent Study. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading open to students wishing to attempt independent work and research. Faculty and Graduate Committee approval required the semester prior to enrollment.

Credit/No Credit

COMS 500. Culminating Experience. 3 - 6 Units
Prerequisite(s): Advanced to candidacy and chair permission of his/her thesis or project committee.
Term Typically Offered: Fall, Spring
Completion of a thesis or project approved for the Master's degree. Thesis or project prospectus committees determine the number of units to be credited.

Computer Engineering (CPE)

CPE 64. Introduction to Logic Design. 4 Units
Prerequisite(s): CSC 15 or CSC 25 or ENGR 50.
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring, Summer

Covers the following topics: logic gates, binary number system, conversion between number systems, Boolean algebra, Karnaugh maps, combinational logic, digital logic design, flip-flops, programmable logic devices (PLDs), counters, registers, memories, state machines, designing combinational logic and state machines into PLDs, and basic computer architecture. Lab emphasizes the use of software equation entry design tools, the use of a schematic entry, and the use of a logic simulation design tool. Lab assignments are design-oriented. Lecture three hours; laboratory three hours.

Cross listed: EEE 64
CPE 64P. Peer-Assisted Learning CPE 64. 1 Unit
Corequisite(s): CPE 64
Term Typically Offered: Fall, Spring

Students concurrently enrolled in CPE 64 work through faculty-designed problems sets under the guidance of a trained student facilitator to improve their understanding of CPE 64 content. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success.
Credit/No Credit

CPE 64W. Introduction to Logic Design Workshop. 1 Unit
Corequisite(s): CPE 64.
Term Typically Offered: Fall, Spring

Designated to assist students in developing a more thorough understanding of logic simulation and logic design. Focus is on problem solving and design. Activity two hours.
Cross Listed: EEE 64W; only one may be counted for credit.
Credit/No Credit

CPE 138. Computer Networking Fundamentals. 3 Units
Prerequisite(s): CSC 35, CSC 60, CSC 130. Not currently enrolled in CSC/ CPE 138.
Term Typically Offered: Fall, Spring

Cross Listed: CSC 138; only one may be counted for credit.

CPE 142. Advanced Computer Organization. 3 Units
Prerequisite(s): CSC 137 or CPE 166 and CPE 185.
Term Typically Offered: Fall, Spring

Design and performance issues of computers. Instruction set architecture, computer arithmetic, processor design, survey of contemporary architectures, interfacing I/O devices, hierarchal memory design and analysis, parallelism and multiprocessing, distributed systems, techniques for enhancing performance, and an introduction to EDA tools for design and verification of computers. Design and simulation of a microcomputer in an HDL.
Note: Open to students with full CSC or CPE major standing only. Cross Listed: CPE 142; only one may be counted for credit.

CPE 144. Dsp Architecture Design. 3 Units
Prerequisite(s): CPE 142.
Term Typically Offered: Fall, Spring

CPE 151. CMOS and Digital VLSI Design. 3 Units
Prerequisite(s): CPE 64 and EEE 108.
Term Typically Offered: Fall, Spring

Introduction to CMOS logic gates and the design of CMOS combinational and sequential functions at the gate level, including CMOS memory. CMOS transistor theory is covered including: DC equations, threshold voltage, body effect, subthreshold region, channel length modulation, tunneling, and punch through. A basic exposure to VLSI includes: CMOS processing technology, layout, and CMOS logic design including power, delay and timing considerations. Students will use industry standard Computer Aided Design tools to verify designs and layouts.

CPE 153. Vlsi Design. 3 Units
Prerequisite(s): CPE 151.
Term Typically Offered: Fall, Spring

Review basic CMOS VLSI technology, circuit characterization and performance estimation, and provides detailed information on synthesis, placing and routing, clocking strategies, quality and reliability, and I/O structures. Design examples, design techniques, and testing techniques will be presented via current EDA design tools. Students assigned one project from concept design through validation.

CPE 159. Operating System Pragmatics. 3 Units
Prerequisite(s): CSC 139.
Term Typically Offered: Fall, Spring

Application of operating system principles to the design and implementation of a multi-tasking operating system. Students will write an operating system for a computer system. Topics include scheduling of processes, control and allocation of computer resources and user interfacing.
Cross Listed: CSC 159; only one may be counted for credit.

CPE 166. Advanced Logic Design. 4 Units
Prerequisite(s): CPE 64, ENGR 17.
Term Typically Offered: Fall, Spring

VHDL and Verilog Hardware Description Languages are studied and used on the following advanced level logic design topics: synchronous state machines, asynchronous state machines, metastability, hazards, races, testability, boundary scan, scan chains, and built-in self-tests. Commercial Electronic Design Automation (EDA) toolssets are used to synthesize lab projects containing a hierarchy of modules into Field Programmable Gate Arrays (FPGAs). Post synthesis simulations by these same tools verify the design before implementation on rapid prototyping boards in the lab.

CPE 185. Computer Interfacing. 4 Units
Prerequisite(s): CPE 64, CSC 35 and CSC 60.
Term Typically Offered: Fall, Spring

Design of microcomputer systems including memory systems, parallel and serial input/output, timer modules, and interrupt structures; designing "C" language code, in laboratory, to exercise interface modules of parallel and serial input/output, timer modules, and interrupts; extensive study of interrupt handlers, assemblers, linkers, and loaders. Practical features of interfaces, handshaking techniques, displays, keypads, and trackballs are included.
CPE 186. Computer Hardware System Design. 3 Units
Prerequisite(s): CPE 185 or EEE 174.
Term Typically Offered: Fall, Spring

Study of Intel and Motorola architectures, bus structures, interrupts, memory interface and controllers, bus arbitration, DMA controllers, I/O interface, bridges and microcontroller. Electromagnetic compatibility and regulations, cabling and shielding, grounding, digital circuit noise and layout.

CPE 187. Embedded Systems Design. 3 Units
Prerequisite(s): CPE 185 or EEE 174.
Term Typically Offered: Fall, Spring

Introduction to embedded systems with applied projects. The ISA, memory map, register architecture and configuration for one processor are studied in depth. Topics include: Overview of embedded systems; hardware, firmware, and software design; interrupt programming; application of contemporary interfacing protocols like USB and Bluetooth; use of an integrated development environment (IDE) for development; functional debugging; Real Time Operating Systems (RTOS) considerations and scheduling. One two hour lecture and one three hour lab per week.

CPE 190. Senior Design Project I. 2 Units
Prerequisite(s): CPE 166, CPE 187, EEE 108
Corequisite(s): CPE 142
Term Typically Offered: Fall, Spring

Centers on developing hardware and software project planning and engineering design skills. Emphasis is placed on design philosophies, problem definition, project planning and budgeting, written and oral communication skills, working with others in a team arrangement, development of specifications and effective utilization of available resources. Lecture one hour per week, laboratory three hours per week.

CPE 191. Senior Design Project II. 2 Units
Prerequisite(s): CPE 190, and (GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W).
Term Typically Offered: Fall, Spring

Continuation of CPE 190. Students are expected to continue the project started by design teams in CPE 190. The hardware will be completed, tested and redesigned if necessary. At the same time, software for the project will be finished and debugged. The final results of the team project will be presented to the CPE faculty and students at a prearranged seminar. Lecture one hour, laboratory three hours.

CPE 195. Fieldwork in Computer Engineering. 1 - 15 Units
Prerequisite(s): Petition approval by Program Coordinator.
Term Typically Offered: Fall, Spring

Directed observations and work experience in computer engineering with firms in the industry or public agencies. Supervision is provided by the instructional staff and the cooperating agencies. Faculty approval required.

Note: May be repeated for credit.

Credit/No Credit

CPE 195A. Professional Practice. 1 - 12 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Supervised employment in a professional engineering or computer science environment. Placement arranged through the College of Engineering and Computer Science. Requires satisfactory completion of the work assignment and a written report.

Credit/No Credit

CPE 195B. Professional Practice. 1 - 12 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Supervised employment in a professional engineering or computer science environment. Placement arranged through the College of Engineering and Computer Science. Requires satisfactory completion of the work assignment and a written report.

Credit/No Credit

CPE 195C. Professional Practice. 1 - 12 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Supervised employment in a professional engineering or computer science environment. Placement arranged through the College of Engineering and Computer Science. Requires satisfactory completion of the work assignment and a written report.

Credit/No Credit

CPE 199. Special Problems. 1 - 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Individual projects or directed reading.

Note: Open only to those students who appear competent to carry on individual work. Admission to this course requires approval of the faculty member under whom the individual work is to be conducted, in addition to the approval of the advisor. May be repeated for credit.

CPE 201. Research Methodology. 2 Units
Prerequisite(s): Graduate standing or instructor permission.
Term Typically Offered: Fall, Summer

Immersion in the discourse of Computer Engineering: genres, literacies, stylistic conventions, research methodology. Collective and individual study of selected issues and problems relating to fields of study in the Computer Engineering. Orientation to the requirements for the master’s degree culminating experience.

Note: Must be taken in the first semester of the graduate program.

Credit/No Credit

CPE 273. Hierarchical Digital Design Methodology. 3 Units
Prerequisite(s): CSC 205, EEE 285 or their equivalents.
Term Typically Offered: Fall, Spring

Advanced logic modeling, simulation, and synthesis techniques. Topics include modeling, simulation, and synthesis techniques, using Hardware Description Language (HDL's), Register Transfer Level (RTL) representation, high level functional partitioning, functional verification and testing, computer-aided logic synthesis, logical verification and testing, timing and delay analysis, automated place and route process’, and design with Application Specific Integrated Circuits (ASICs) and programmable logic.
CPE 274. Advanced Timing Analysis.  3 Units
Prerequisite(s): EEE 273, CSC 273, CPE 273 or instructor permission.
Term Typically Offered: Fall, Spring
Timing analysis of Application Specific Integrated Circuit (ASIC) designs: Topics include ASIC design methodology, static timing analysis, timing design constraints, design reports, clock timing issues, timing exceptions, operating conditions, hierarchical analysis, analyzing designs with asynchronous logic, performance measurement and power issues. Cross-listed: EEE 274; only one may be counted for credit.

CPE 280. Advanced Computer Architecture.  3 Units
Prerequisite(s): CSC 205, fully classified graduate status.
Term Typically Offered: Fall, Spring
Introduction to parallel architecture covering computer classification schemes, fine and coarse grain parallelism, processor interconnections, and performance issues of multiprocessor systems. Includes parallel and pipelined instruction execution, structure of multiprocessor systems, memory hierarchy and coherency in shared memory systems, programming issues of multiprocessor systems, arithmetic pipeline design, and design for testability.

CPE 296T. Digital Speech Processing.  3 Units
Prerequisite(s): EEE 181 or instructor permission.
Term Typically Offered: Fall, Spring
The objective of this course is to cover the digital processing of speech signals. Topics include speech production and perception, speech processing in the time frequency domains. Short-time energy and Short-time Fourier analysis, homomorphic and linear predictive coding methods. Also covered are speech coding, basic introduction of text-to-speech synthesis and speech recognition. Cross listed: EEE 296T.

CPE 299. Special Problems.  1-3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring
Open to qualified students who wish to pursue problems of their own choice. Projects must have approval and supervision of a faculty advisor.

CPE 500. Culminating Experience.  5 Units
Prerequisite(s): Advanced to candidacy and graduate coordinator’s permission.
Term Typically Offered: Fall, Spring
Completion of a thesis or project approved for the master's degree. Note: May be repeated for credit.

CSC 1A. Introduction to Computer Science for Advanced Students.  3 Units
Term Typically Offered: Fall, Spring
Same material as covered in CSC 1 but intended for students who already have significant knowledge of the fundamental concepts of computers and/or computer programming. Students must attend the orientation session during the first class meeting. Two placement tests, one on programming and one on concepts, will be scheduled and used to determine student’s prior preparation. Note: May be taken by those wishing to obtain credit by examination. Please refer to examination credit guidelines in the University catalog. Not open to students who have received credit for CSC 1 or MIS 5.
Credit/No Credit

CSC 5. Personal Computing.  3 Units
Term Typically Offered: Fall, Spring
Introduction to the role and use of personal computers, emphasizing the use and relevancy of common software for word processing, database, spreadsheet analysis, graphics, and communications. Examination of the personal computing milieu and the applications environment. Lecture two hours, technical activity and laboratory two hours.

CSC 8. Introduction to Internet Technologies.  3 Units
Prerequisite(s): Basic computer literacy recommended.
Term Typically Offered: Summer only
Internet applications such as email, instant messaging, file transfer, secure communications, the web, and related tools and protocols. Basics of the web-publishing process and methods used to locate authoritative information on the internet. Webpage design, internet security and emerging technologies on the internet.

CSC 8S. Self-Paced Introduction to Internet Technologies.  3 Units
Prerequisite(s): Basic computer literacy recommended.
Term Typically Offered: Fall, Spring
Covers the same material as CSC 8. Introduction to Internet Technologies. Provided by electronic means in addition to meetings for orientation, laboratory demonstrations, and tests. Internet applications such as Email, instant messaging, file transfer, secure communications, the Web, and related tools and protocols. Basics of the Web-publishing process and methods used to locate authoritative information on the internet. Webpage design, Internet security and emerging/declining technologies on the internet.
Credit/No Credit

CSC 10. Introduction to Programming Logic.  3 Units
Prerequisite(s): Math 11 or equivalent
Term Typically Offered: Fall, Spring
Introduction to computer science with an emphasis on programming concepts and methodology. Intended to assist students with little or no programming experience to understand the basic principles of programming logic. Topics include computer hardware and software, problem solving and algorithm development, flow of control, modular design using techniques that can be applied to common programming languages. Lecture two hours, technical activity and laboratory two hours.
CSC 10A.  Accelerated Introduction to Programming Logic.  3 Units  
Term Typically Offered: Fall, Spring  

Introduction to computer science with an emphasis on programming concepts, logic, and methodology, computer hardware and software, problem solving and algorithm development, flow of control, and modular design. Accelerated and more in-depth study of programming concepts than CSC 10. Intended for computer science and computer engineering majors who have little or no programming experience. Lecture two house, technical activity and laboratory, two hours. Not open to students who have received credit for CSC 10. Prerequisite: Math 11  

CSC 15.  Programming Concepts and Methodology I.  3 Units  
Prerequisite(s): CSC 10, or programming experience in a high-level programming language. Not currently enrolled in CSC 15.  
Term Typically Offered: Fall, Spring, Summer  

Programming concepts using an object-oriented programming language. Introduction to methodologies for program design, development, testing, and documentation. Topics include program design, algorithm design, number systems, classes and objects, methods (functions), control structures, arrays, and interactive input/output. Lecture two hours, technical activity and laboratory two hours.  

CSC 15P.  Peer-Assisted Learning CSC 15.  1 Unit  
Corequisite(s): CSC 15  
Term Typically Offered: Fall, Spring  

Students concurrently enrolled in CSC 15 work through faculty-designed problem sets under the guidance of a trained student facilitator to improve their understanding of CSC 15 content. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success. Discussion, 2 hours. Credit/No Credit  

CSC 15W.  Programming Methodology I Workshop.  1 Unit  
Corequisite(s): CSC 15  
Term Typically Offered: Fall, Spring, Summer  

Designed to assist students in developing a more thorough understanding of programming methodology and problem solving techniques. Activity two hours. Credit/No Credit  

CSC 20.  Programming Concepts and Methodology II.  3 Units  
Prerequisite(s): CSC 15  
Term Typically Offered: Fall, Spring  

Application of object-oriented techniques for systematic problem analysis and specification, design, coding, testing, and documentation. Semester-long project approach emphasizing larger programs. Managing program complexity using abstraction. Introduction to algorithm analysis and Big-O notation. Advanced language features. Basic sorting and searching algorithms. Recursion. Lecture two hours, technical activity and laboratory two hours.  

CSC 20P.  Peer-Assisted Learning CSC 20.  1 Unit  
Corequisite(s): CSC 20  
Term Typically Offered: Fall, Spring  

Students concurrently enrolled in CSC 20 work through faculty-designed problem sets under the guidance of a trained student facilitator to improve their understanding of CSC 20 content. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success. Discussion, 2 hours. Credit/No Credit  

CSC 21.  First Year Seminar: Becoming an Educated Person.  3 Units  
General Education Area/Graduation Requirement: Understanding Personal Development (E)  
Term Typically Offered: Fall only  

Introduction to the nature and possible meanings of higher education, and the functions and resources of the University. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills. Development of information competence and computer literacy. Students interact with fellow students and the seminar leader to build a community of academic and personal support.  

CSC 22.  Visual Programming in BASIC.  3 Units  
Prerequisite(s): Intermediate Algebra.  
Term Typically Offered: Fall, Spring  

Computer Programming using Visual Basic. Topics include the Visual Basic Integrated Development Environment, visual user interface development, concepts of object-oriented programming, variables, control structures, arrays, functions, subroutines, strings, files, and database access. Applications will be created in areas such as business, games, and multimedia. Lecture two hours, technical activity and laboratory two hours.  

CSC 25.  Introduction to C Programming.  3 Units  
Term Typically Offered: Fall only  

Topics include: types, operators, control structures, input/output, arithmetic operations, the C library and preprocessor, functions and parameters, arrays, strings, pointers, and structures. Program design and style will be emphasized. Students will use a compiler.  

Note: Students with significant programming experience should take CSC 60 rather than CSC 25. Lecture two hours, technical activity and laboratory two hours.  

CSC 28.  Discrete Structures for Computer Science.  3 Units  
Prerequisite(s): Score of 76 or higher on ALEKS PPL exam or MATH 26A or MATH 29 or MATH 29B or MATH 30; and CSC 20. CSC 20 and MATH 30 may be taken concurrently.  
Term Typically Offered: Fall, Spring  

Introduction to the essential discrete structures used in Computer Science, with emphasis on their applications. Topics include: counting methods, elementary formal logic and set theory, recursive programming, digital logic and combinational circuits, real number representation, regular expressions, finite automata.  

CSC 35.  Introduction to Computer Architecture.  3 Units  
Prerequisite(s): CSC 15.  
Term Typically Offered: Fall, Spring  

Internal representation of numeric and non-numeric data, assembly level machine architecture, addressing modes, subroutine linkage, polled input/output, interrupts, high-level language interfacing, macros and pseudo operations. Lecture two hours, technical activity and laboratory two hours.
CSC 60. Introduction to Systems Programming in UNIX. 3 Units
Prerequisite(s): CSC 20, CSC 35.
Term Typically Offered: Fall, Spring
Features of the C language commonly used in systems programming, application to systems programming in a UNIX environment. Topics include C preprocessor macros, I/O, bit-manipulation facilities, timesharing system concepts, file permissions, shell script programming, make files and source code control, basic system calls like fork and exec, pointers and dynamic memory allocation, libraries and relocation and linking concepts including assembler handling of symbol tables. Prior knowledge of a C like programming language is presumed.

CSC 80. Web Development with HTML/XHTML and Tools. 3 Units
Prerequisite(s): CSC 8 or equivalent computer and Internet experience.
Term Typically Offered: Fall, Spring
Hands-on course covering the processes and guidelines for creating and customizing interactive webpages. Emphasis on use of HTML/XHTML, CSS, and tools to create webpages. HTML/XHTML syntax to create, format, and link documents. Use of tables, graphics, styles, forms, multimedia, and other features in webpages. Effective webpage design and website organization. Lecture two hours and technical activity and laboratory two hours.

CSC 110. Introduction to Programming Logic for Teachers. 3 Units
Term Typically Offered: Fall, Spring, Summer
An introduction to computer science with an emphasis on programming concepts and methodology. Intended to assist students with no programming experience to understand the basic principles of programming logic for computational thinking. Programming language is block-style. Topics include: computer devices and software, programming concepts and methodology, block-style programming, K-12 computer science curriculum development for introduction to computational thinking.

CSC 111. Programming Concepts and Methodology for Teachers. 4 Units
Prerequisite(s): CSC 110
Term Typically Offered: Fall, Spring, Summer
Computer science teacher professional development based on equity, curriculum development, and computer science. Programming languages including blocky-style, web, and an object-oriented programming language. Introduction to computer science methodologies for program design, development, testing, and documentation. Computer science content includes program design, algorithm design, number systems, classes and objects, methods, control structures, arrays, and simple interactive input/output. Pedagogical content includes strategies for teaching and retaining students by developing engaging learning experiences and designing student assessment in computer science.

CSC 112. Data Structures, Algorithms, and Software Engineering for Teachers. 3 Units
Prerequisite(s): CSC 111
Term Typically Offered: Fall, Spring, Summer
Introduction of data structures, algorithms, and software engineering to give teachers the background to lead instruction in computer science curriculum. Topics include linked lists, queues, sets, algorithm analysis, recursion, basic searching, and sorting. Software Engineering topics include the methodologies and techniques in planning, engineering and implementing a software system to solve a problem, and social, ethical, and legal impacts of computing. Pedagogical content includes strategies for teaching students by developing engaging learning experiences in computer science.

CSC 113. Computer Networking and Cyber Security for Teachers. 3 Units
Prerequisite(s): CSC 110 and CSC 111. Not currently enrolled in CSC 113.
Term Typically Offered: Fall, Spring, Summer
Introduction to basic components of digital devices and computing systems. Overview, structure, and types of computer networks. The layered model of networks and common protocols in each layer, such as HTTP and IP. Introduction to common network applications such as web, email, and videos. Common cyber security problems and solutions. Cyber safety. Pedagogical content includes strategies for teaching and retaining students by developing engaging learning experiences and designing student assessment in computer science.

CSC 114. Digital Evidence and Computer Crime. 3 Units
Prerequisite(s): CSC 1 and CSC 8 or CSC 8S or CSC 80; or instructor permission.
Term Typically Offered: Fall, Spring
Topics include technology and law, computer basics for digital investigations, network basics for digital investigations, investigation of computer crime, and the handling of digital evidence.

CSC 115. Internet Security. 3 Units
Prerequisite(s): CSC 1 and CSC 8 or CSC 8S or CSC 80; or instructor permission.
Term Typically Offered: Summer only
Internet security problems and discussion of potential solutions: network vulnerabilities and attacks, secure communication and use of cryptography, Internet security protocols and tools to defend against network attacks, network intrusion detection, and wireless network security. Survey and use of software tools for network security.

CSC 116. Cyber Forensics. 3 Units
Prerequisite(s): CSC 1 and CSC 8 or CSC 8S or CSC 80; or instructor permission.
Term Typically Offered: Summer only
Fundamentals of computer forensics and cyber-crime scene analysis including laws, regulations, and international standards; formal methodology for conducting security incident investigations; categories of electronic evidence. Projects involving digital forensic tools.
CSC 120. Web Server Administration. 3 Units
Prerequisite(s): CSC 80.
Term Typically Offered: Fall, Spring
Managing and maintaining Web servers. Administering open source and commercial Web servers, Web hosting alternatives, professional standards and practices of website hosting, Web server installation, configuration, management, and security. Selecting and using technologies to support professional quality websites. Lecture two hours; technical activity and laboratory two hours.

CSC 121. Client-Side Web Programming. 3 Units
Prerequisite(s): CSC 22, CSC 80 or equivalents; OR PCSC/CSC Major, CSC 60, CSC 130.
Term Typically Offered: Fall, Spring

CSC 122. Web Database Applications. 3 Units
Prerequisite(s): CSC 10 or CSC 22; and CSC 80 or equivalent.
Term Typically Offered: Fall, Spring
Fundamentals of building effective database-driven web applications. Particular emphasis on database access via web interfaces. Introduction to database management systems, their structure and usage, SQL, integrating web applications with databases, design and implementation of dynamic web database applications.

CSC 123. Web Application Development. 3 Units
Prerequisite(s): CSC 22, CSC 121, CSC 122, or equivalent experience; OR PCSC/CSC Major, CSC 60, CSC 134.
Term Typically Offered: Fall, Spring
Developing multi-tiered enterprise-level Web applications. Standards of Web services and other current Web technologies, including XML, AJAX, and server-side programming such as Java EE, .NET, or PHP. Development of Web applications such as those used for e-commerce, e-business, and content management. Format consists of two 1.5 hour lecture/lab sessions per week.

CSC 126. 3D Computer Modeling. 3 Units
Prerequisite(s): CSC 10 or ART 97 or equivalent.
Term Typically Offered: Fall only
Techniques and processes to create 3D computer models and environments. Exercises, assignments and projects designed to build skill levels with 3D computer modeling tools. Demonstrations and workshops in the use of 3D computer modeling software. Critiques, discussion and presentations to develop students' conceptual grasp of 3D computer modeling and virtual reality environments. Example applications in art/new media and computer gaming.

Note: May be taken twice for credit. Cross-listed as ART 142.

CSC 127. 3D Computer Animation. 3 Units
Prerequisite(s): ART 142 or CSC 126.
Term Typically Offered: Spring only
Creative skills and techniques for animating 3D computer-modeled objects/environments. Topics include animation techniques; keyframing and interpolation; deformation and morphing; path control; skeletal animation; model rigging and skinning; forward and inverse kinematics, constraints and IK solvers; particle systems; fluid, cloth, hair, and fur simulation; shape keys; and soft body animation. Emphasis on both skill development and creative application of modeling and animation techniques. Includes demos, in class and homework exercises, and self-directed projects. Cross-listed: ART 143.

CSC 130. Data Structures and Algorithm Analysis. 3 Units
Prerequisite(s): CSC 20, CSC 28, CSC 28 may be taken concurrently. Not currently enrolled in CSC 130.
Term Typically Offered: Fall, Spring
Specification, implementation, and manipulation of abstract data types and their structures: balanced trees, priority queues, sets, hash tables, and graphs; recursion; searching and sorting algorithms; asymptotic analysis; NP completeness; fundamental graph algorithms including graph search, shortest path, and minimum spanning trees.

CSC 131. Computer Software Engineering. 3 Units
Prerequisite(s): CSC 130; may be taken concurrently. Not currently enrolled in CSC 131.
Term Typically Offered: Fall, Spring
Principles of Software Engineering covering the software development life cycle, including software requirements engineering (elicitation, modeling, analysis and specification), software design, software implementation and testing. Main topics include various software development process models, method and techniques for specifying requirements, architectural and detailed design specification, prototyping, top-down and bottom-up software implementation and testing. Topics also include project management, project documentation and the development of communication skills through written documentation and oral presentation.

CSC 132. Computing Theory. 3 Units
Prerequisite(s): CSC 28, CSC 130; CSC 130 may be taken concurrently.
Term Typically Offered: Fall, Spring
Introduction to computing theory with examples and applications. Automata and formal languages; language recognition and generation; language hierarchy; deterministic and non-deterministic automata; regular expressions; pushdown automata and context-free grammars; properties of regular and context-free languages; Turing machines; computable and noncomputable functions; decidability.

CSC 133. Object-Oriented Computer Graphics Programming. 3 Units
Prerequisite(s): CSC 130, CSC 131, not currently enrolled in CSC 133.
Term Typically Offered: Fall, Spring
Introduction to computer graphics and to advanced topics in object-oriented programming. Mobile application development; implementation of event-driven systems; advanced object-oriented concepts such as inheritance and polymorphism; implementation of software design patterns; graphical user interface development; fundamentals of 2D graphics systems. Application of these topics to mobile programming.
### CSC 134. Database Management Systems. 3 Units

**Prerequisite(s):** CSC 130, and not currently enrolled in CSC 134  
**Term Typically Offered:** Fall, Spring

Entity-Relationship (ER) model; relational model; relational database design by ER-to-relational mapping; design of applications using database technology; SQL; schema definition, constraints, and queries; relational algebra; data normalization; access methods such as indexing and hash structures; introduction to transaction processing.

### CSC 135. Computability and Formal Languages. 3 Units

**Prerequisite(s):** CSC 28, CSC 35, CSC 130, and not currently enrolled in CSC 135.  
**Term Typically Offered:** Fall, Spring

Introduction to limits of computation and techniques for specifying and processing formal languages. Regular languages, regular expressions, finite automata, properties and limitations. Context-free languages, grammars, pushdown automata, properties and limitations. Applications in lexical and syntax analyses, including recursive-descent or table-driven parsing. Turing machines, halting problem, reductions. Introduction to functional programming and related programming language features.

### CSC 136. Programming Languages. 3 Units

**Prerequisite(s):** CSC 35, CSC 132.  
**Term Typically Offered:** Fall, Spring

Evolution and characteristics of programming languages. Scripting, procedural, object-oriented, functional and logic paradigms. Language specification; interpreters and compilers; virtual machines; parsing techniques. Design and implementation of selected features of programming languages. Programming languages used in the development of intelligent systems, with introduction to Artificial Intelligence. Trends in programming languages.

### CSC 137. Computer Organization. 3 Units

**Prerequisite(s):** CSC 28, CSC 60, CSC 130, not currently enrolled in CSC 137.  
**Term Typically Offered:** Fall, Spring

Introduction to computer organization and architecture. Combinational devices, sequential and synchronized circuits, memory organization, CPU architecture and organization, bus structures, input/output, interrupts, DMA, memory hierarchy, introduction to instruction level parallelism, multithreading, and multiprocessing.

### CSC 138. Computer Networking Fundamentals. 3 Units

**Prerequisite(s):** CSC 60, CSC 130. Not currently enrolled in CSC/CPE 138.  
**Term Typically Offered:** Fall, Spring

### CSC 139. Operating System Principles. 3 Units

**Prerequisite(s):** CSC 60 and CSC 130 and either CSC 137 or CPE 185. Not currently enrolled in CSC 139.  
**Term Typically Offered:** Fall, Spring

Concepts, principles, fundamental issues, organization and structure of contemporary operating systems. Topics include processes, threads, concurrency, parallelism on multi-processor and multi-core systems, CPU scheduling, inter- process communication and synchronization, deadlocks, real and virtual memory management, device management, file systems, security, and protection. Lecture three hours.

### CSC 140. Advanced Algorithm Design and Analysis. 3 Units

**Prerequisite(s):** CSC 130.  
**Term Typically Offered:** Spring only

### CSC 142. Advanced Computer Organization. 3 Units

**Prerequisite(s):** CSC 137 or CPE 166 and CPE 185.  
**Term Typically Offered:** Fall, Spring

Design and performance issues of computers. Instruction set architecture, computer arithmetic, processor design, survey of contemporary architectures, interfacing I/O devices, hierarchical memory design and analysis, parallelism and multiprocessing, distributed systems, techniques for enhancing performance, and an introduction to EDA tools for design and verification of computers. Design and simulation of a microcomputer in an HDL.  
**Note:** Open to students with full CSC or CPE major standing only. Cross Listed: CPE 142; only one may be counted for credit.

### CSC 148. Modeling and Experimental Design. 3 Units

**Prerequisite(s):** MATH 26B or MATH 31, STAT 50 or ENGR 115, and proficiency in a programming language.  
**Term Typically Offered:** Not offered

Modeling and simulation techniques; Monte Carlo methods; queuing theory; model formulation, data collection and analysis, experimental design; model verification and validation.

### CSC 151. Compiler Construction. 3 Units

**Prerequisite(s):** CSC 135  
**Term Typically Offered:** Fall only

Practical approach to compiler design and implementation. Organization of a compiler, algorithms for lexical, syntactic and semantic analysis, recursive descent and/or LALR parsing, organization of symbol tables, error detection and recovery, object code generation. Modular design will be emphasized.

### CSC 152. Cryptography. 3 Units

**Prerequisite(s):** CSC 60, CSC 130; and STAT 50 or ENGR 115  
**Term Typically Offered:** Fall only

Introduction to design and analysis of cryptographic systems. Symmetric cryptography: Block ciphers and secure hash functions. Asymmetric cryptography: Key exchange and public-key systems. Authentication and encryption in an adversarial model. Simple cryptanalysis. Protocol design and analysis.
CSC 153. Computer Forensics Principles and Practices. 3 Units  
Prerequisite(s): CSC 138 or CPE 138.  
Term Typically Offered: Spring only  
Fundamentals of computer forensics, cyber-crime scene analysis and electronic discovery. Technical and formal methodology for conducting security incident investigations; file systems and storage analysis, data hiding techniques, network forensics; projects involving using, understanding, and designing digital forensics tools; anti-forensics; legal issues and standards.

CSC 154. Computer System Attacks and Countermeasures. 3 Units  
Prerequisite(s): CSC 138 or CPE 138.  
Term Typically Offered: Fall only  
Introduction to network and computer security with a focus on how intruders gain access to systems, how they escalate privileges, and what steps can be taken to secure a system against such attacks. Topics include: Perimeter defenses, intrusion detection systems, social engineering, distributed denial of service attacks, buffer overflows, race conditions, trojans, and viruses.

CSC 155. Advanced Computer Graphics. 3 Units  
Prerequisite(s): CSC 133.  
Term Typically Offered: Fall only  
Modeling, viewing, and rendering techniques in 3D computer graphics systems. Topics include modeling systems and data structures; polygonal and parametric surface representation; transformations, windowing, clipping and projections in 3D; hidden surface removal algorithms; techniques for realism such as shading, shadows, highlights, and texture; fractals and procedural models; introduction to animation; hardware support for computer graphics; and the application of graphics principles to virtual reality systems and 3D games.

CSC 159. Operating System Pragmatics. 3 Units  
Prerequisite(s): CSC 139.  
Term Typically Offered: Fall, Spring  
Application of operating system principles to the design and implementation of a multitasking operating system. Students will write an operating system for a computer platform. Topics include: scheduling of processes, control and allocation of computer resources, and user interfacing. Cross Listed: CPE 159; only one may be counted for credit.

CSC 163. Parallel Programming with GPUs. 3 Units  
Prerequisite(s): CSC 60, CSC 130, CSC 137; and either MATH 30 or MATH 26A.  
Term Typically Offered: Fall, Spring  
Parallel programming with emphasis on developing GPU computing applications. Topics include the GPU architecture and programming model, mapping computations to parallel hardware, parallel computation patterns, parallel programming optimization techniques, and application case studies.

CSC 165. Computer Game Architecture and Implementation. 3 Units  
Prerequisite(s): CSC 130; CSC 133; MATH 26A or MATH 30; PHYS 5A or PHYS 11A.  
Term Typically Offered: Spring only  
Architecture and implementation of computer game systems. Topics include game engine architecture; screen management and rendering control; geometric models; algorithms and data structures for spatial partitioning, occlusion, and collision detection; real-time interactive 3D graphics and animation techniques; behavioral control for autonomous characters; simulation of physical phenomena; sound and music in games; optimization techniques; multi-player games and networking; game development tools and environments. Substantial programming and project work.

CSC 170. Software Requirements and Specification. 3 Units  
Prerequisite(s): CSC 131.  
Term Typically Offered: Spring only – odd years  
Analysis and specification of functional and non-functional requirements for real-time and non-real-time software systems in the context of a software development lifecycle. Determining customer and user software requirements and ensuring that specifications are correct, complete, and testable. Includes modeling techniques, methods for representing real-time requirements, and the use of Computer-Aided Software Engineering (CASE) tools to illustrate analysis concepts.

CSC 171. Software Engineering Project Management. 3 Units  
Prerequisite(s): CSC 131.  
Term Typically Offered: Spring only – even years  
Fundamental issues in the management and economics of a software engineering project in the context of the software development lifecycle. Topics include: techniques for project planning (budgeting and scheduling), controlling (including quality assurance and configuration management), organizing, staffing, and directing a software project (leadership and motivation), and contemporary issues in management.

CSC 173. Data Visualization. 3 Units  
Prerequisite(s): CSC 130, CSC 134, and STAT 50 or ENGR 115.  
Term Typically Offered: Fall, Spring  
Design principles and concepts for visualizing data; current visualization systems and languages, exploratory data analysis, interaction techniques, high-dimensional data, network visualization, and text visualization.

CSC 174. Advanced Database Management Systems. 3 Units  
Prerequisite(s): CSC 131, CSC 134.  
Term Typically Offered: Fall only  
Enhanced Entity-Relationship (EER) modeling; relational database design based on EER; SQL views; integrity constraints and triggers; stored procedures and functions; database programming techniques; query processing and optimization; transactions concurrency and recovery techniques; relational decomposition and normalization algorithms; database schema and data security.
CSC 176. Database Architecture and Optimization. 3 Units  
Prerequisite(s): CSC 174.  
Term Typically Offered: Spring only

Advanced object-relational systems, advanced catalog systems, security mechanisms, distributed database processing, advanced schema design-partitioning, introduction to data warehousing and data mining, materialized views, Internet technologies, parallel query processing, system utilities, database tuning, DBA tools and techniques.

CSC 177. Data Analytics and Mining. 3 Units  
Prerequisite(s): CSC 134 and STAT 50 or ENGR 115.  
Term Typically Offered: Spring only

Theory and implementation of techniques for data analytics and mining with emphasis on big data. Topics include data cleaning, exploratory data analysis, data visualization, feature engineering, classification, clustering, association rule mining, predictive model evaluation, parameter tuning, natural language processing, and selected advanced data mining topics. Design and implementation of systems using contemporary data analysis and mining programming libraries for automatic discovery of patterns and knowledge.

CSC 179. Software Testing and Quality Assurance. 3 Units  
Prerequisite(s): CSC 131.  
Term Typically Offered: Spring only – even years

Testing, verification, validation, and control of real-time and non-real-time software systems in the context of a software development lifecycle. Topics include: unit, integration and system testing; verification and validation (V&V), quality assurance, metrics, and configuration management.

CSC 180. Intelligent Systems. 3 Units  
Prerequisite(s): MATH 26B or MATH 31; STAT 50 or ENGR 115; CSC 130 and CSC 135.  
Term Typically Offered: Spring only

Theory and implementation of a variety of techniques used to simulate intelligent behavior. Expert systems, fuzzy logic, neural networks, evolutionary computation, and two-player game-tree search will be covered in depth. Knowledge representation, pattern recognition, hybrid approaches, and handling uncertainty will also be discussed.

CSC 190. Senior Project - Part I. 2 Units  
Prerequisite(s): Senior status, WPJ score of 70+ or at least a C- in ENGL 109M/W, completed CSC 130, CSC 131, and four additional 3-unit upper-division CSC courses that fulfill the major requirements (excluding CSC 192-195, 198, and 199), not currently enrolled in CSC190.  
Term Typically Offered: Fall, Spring

The first of a two-course sequence in which student teams undertake an industry-grade a project to develop and deliver a software product. Teams apply software engineering principles in the preparation of a software proposal, a project management plan, a software product backlog, and a high-fidelity prototype. All technical work is published using guidelines modeled after IEEE documentation standards. Oral and written reports are required. Lecture one hour, laboratory three hours.

CSC 191. Senior Project - Part II. 2 Units  
Prerequisite(s): CSC 190, not currently enrolled in CSC191.  
Term Typically Offered: Fall, Spring

Continuation of the team group project begun in CSC 190. Teams apply software engineering principles to the design, implementation, testing, and deployment of their software product. All technical work is published using guidelines modeled after IEEE documentation standards. Oral and written reports are required. Senior project is completed with the successful delivery, installation and demonstration of the software along with all approved documentation. Lecture one hour, laboratory three hours.

CSC 192. Career Planning. 1 Unit  
Prerequisite(s): CSC 130 and three additional upper-division courses that fulfill major requirements with a C- grade or better (excluding CSC 190-195, CSC 198, and CSC 199).  
Term Typically Offered: Fall, Spring

Designed to help students learn more about the labor market and opportunities in the Computer Science field. Students will examine their interests, consider their goals, and learn how to conduct an effective proactive job search. Strategies for long term career growth will be identified.

Credit/No Credit

CSC 193A. Web Programming. 1 Unit  
Prerequisite(s): CSC 130 and not currently enrolled in CSC 193A

Term Typically Offered: Fall, Spring

Introduction to the World Wide Web; relationship between clients and servers, how web pages are created using several technologies: HyperText Markup Language (HTML), Cascading Style Sheets (CSS), JavaScript, Asynchronous JavaScript and XML (Ajax), server-side web services, integrate web applications with databases.

CSC 194. Computer Science Seminar. 1 Unit  
Prerequisite(s): Upper division or graduate status in CSC.  
Term Typically Offered: Spring only

Series of weekly seminars on Computer Science topics. These topics cover subjects not normally taught in the course of a school year and they range from the very theoretical in Computer Science through applications to presentations by industry on working conditions, real world environment and job opportunities.

Note: May be repeated for credit.

CSC 195. Fieldwork in Computer Science. 1 - 4 Units  
Prerequisite(s): Instructor permission.  
Term Typically Offered: Fall, Spring

Directed observations and work experience in computer science with firms in the industry or public agencies. Supervision is provided by the instructional staff and the cooperating agencies.

Note: Faculty approval required. May be repeated for credit.

Credit/No Credit
CSC 195A. Professional Practice. 1 - 12 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Supervised employment in a professional engineering or computer science environment. Placement arranged through the Career Center.
Note: Requires satisfactory completion of the work assignment and a written report.

Credit/No Credit

CSC 195B. Professional Practice. 1 - 12 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Supervised employment in a professional engineering or computer science environment. Placement arranged through the Career Center.
Note: Requires satisfactory completion of the work assignment and a written report.

Credit/No Credit

CSC 196P. Cloud and Mobile Computing Pragmatics. 3 Units
Prerequisite(s): CSC 134, CSC 138, and CSC 139
Introduction to cloud computing. Cloud services. Deployment options. The installation, configuration, and deployment of a cloud infrastructure based upon industrial standards. Step-by-step cloud setup as well as the development of scripts for automated deployment. The installation, building, deployment, testing, and provisioning of a multi-tier cloud based mobile application as a cloud service.

CSC 196W. Web Programming. 1 Unit
Prerequisite(s): CSC 130
Term Typically Offered: Fall, Spring

Introduction to the World Wide Web: relationship between clients and servers, how web pages are created using several technologies: HyperText Markup Language (HTML), Cascading Style Sheets (CSS), JavaScript, Asynchronous JavaScript and XML (Ajax), server-side web services, integrate web applications with databases.

Note: Offered Online

CSC 198. Co-Curricular Activities in Computer Science. 1 - 3 Units
Term Typically Offered: Fall, Spring

Students will serve in leadership roles in computer science activities, provide tutoring or technical assistance in labs, assist instructors in grading coursework, or assist in other activities related to the subject matter and concerns of the department.

Credit/No Credit

CSC 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading in specified topics in computer science.
Note: Open only to students who appear competent to carry on individual work; approval of faculty supervisor and advisor required. May be repeated for credit.

Credit/No Credit

CSC 200. Professional Writing in Computer Science. 3 Units
Prerequisite(s): Graduate standing in Computer Science or Software Engineering
Term Typically Offered: Fall, Spring

Immersion in the discourse of Computer Science: genres, literacies, stylistic conventions. Writing process, academic writing in various academic genres, revising, and editing. Tools for technical writing. Ethical issues in connection with scientific writing.

CSC 201. Programming Language Principles. 3 Units
Prerequisite(s): Fully classified graduate status in Computer Science or Software Engineering.
Term Typically Offered: Fall, Spring

Notations for the specification of programming language syntax and semantics; attribute, translational, operational, axiomatic, algebraic, denotational, and action semantics. Applications of programming language syntax and programming language semantics. Use of meta languages to generate executable language definitions for language implementation, program transformation, program property analysis, and rapid software prototyping. Principles of logic, functional, and object-oriented programming languages.

CSC 204. Data Models for Database Management Systems. 3 Units
Prerequisite(s): Fully classified graduate status in Computer Science or Software Engineering.
Term Typically Offered: Fall, Spring

Database management system (DBMS) architecture; database file organizations and access methods; the relational model and relational algebra; SQL query language; introduction to query optimization; concurrent transaction processing and backup and recovery; applications using embedded SQL, object types, and stored procedures; database analysis and design notations: EER, UML, and XML; web database environments; database security and administration throughout course.
Note: Not intended for students who have completed CSC 174.

CSC 205. Computer Systems Structure. 3 Units
Prerequisite(s): Fully classified graduate status in Computer Science, Software Engineering or Computer Engineering.
Term Typically Offered: Fall, Spring

Overview of computer systems organization and design. Concepts of instruction set architecture, interactions of hardware-software interface, principles of performance analysis, processor design, instruction level parallelism, survey of contemporary architectures, hierarchical memory design and analysis, interfacing I/O devices, parallel processing and multiprocessing, and introduction to EDA tools and methodologies for computer systems design and verification.

CSC 206. Algorithms And Paradigms. 3 Units
Prerequisite(s): Fully classified graduate status in Computer Science or Software Engineering.
Term Typically Offered: Fall, Spring

Design and analysis of algorithms. Classical design paradigms including greedy, divide-and-conquer, dynamic programming, and backtracking algorithmic methods. Alternative paradigms of computing including parallel and numerical approaches. Theoretical limits of computation. Selected additional topics such as genetic, approximation, and probabilistic algorithms.
CSC 209. Research Methodology. 1 Unit
Prerequisite(s): Enrolled in at least 3 units of 200-level courses in Computer Science.
Term Typically Offered: Fall, Spring

Research methodology, problem formulation, and problem solving. Orientation to the requirements for Master’s Thesis or Project. Presentations on various research topics.
Credit/No Credit

CSC 212. Bioinformatics: Data Integration and Algorithms. 3 Units
Prerequisite(s): CSC 130, STAT 50, and graduate status; BIO 10 recommended.
Term Typically Offered: Fall, Spring

The application of information technology and computer science to biological problems, in particular to biomedical science issues involving genetic sequences. Algorithms and their applications to DNA sequencing and protein database search; tools and techniques for data integration to transform genetic sequencing data into comprehensible information to study biological processes.

CSC 214. Knowledge-Based Systems. 3 Units
Prerequisite(s): Fully classified graduate status in Computer Science or Software Engineering.
Term Typically Offered: Fall, Spring

Historical perspective of knowledge-based systems and their relationship to artificial intelligence. Concepts of knowledge representation and automated reasoning. Survey of expert systems in a variety of applications in engineering and other fields. Implementation of expert systems and expert system shells.

CSC 215. Artificial Intelligence. 3 Units
Prerequisite(s): Fully classified graduate status in Computer Science, Software Engineering or Computer Engineering.
Term Typically Offered: Fall, Spring

Nature of intelligence and possibility of its realization on digital computers via algorithmic and heuristic programming methods. Informed and uninformed search, adversarial search, stochastic search, machine learning, regular and deep neural networks, and knowledge representation and inference over uncertainty. Computer vision topics. Natural language processing. Design and implementation of systems using contemporary programming libraries to solve a variety of artificial intelligence problems.

CSC 219. Machine Learning. 3 Units
Prerequisite(s): Fully classified graduate status in Computer Science, Software Engineering or Computer Engineering.
Term Typically Offered: Fall, Spring

Introduction to major paradigms and methods of machine learning. Inductive learning, explanation-based learning, classifier systems and genetic algorithms, analogical reasoning, case-based learning, connectionist learning, data driven approaches to empirical discovery, and basis of learning theory. Focus is on representative systems that have been built.

CSC 230. Software System Engineering. 3 Units
Prerequisite(s): Fully classified graduate status in Computer Science or Software Engineering; or Computer Engineering and CSC 131.
Term Typically Offered: Fall, Spring

Integration of managerial and technical activities in system engineering that control the cost, schedule, and technical achievement of the developing software system. Application of the principles, activities, tasks and procedures of system engineering and software engineering to the development of a software system.

CSC 231. Software Engineering Metrics. 3 Units
Prerequisite(s): Fully classified graduate status in Computer Science or Software Engineering.
Term Typically Offered: Fall, Spring

Software quality and quantity metrics in software engineering. Measurement theory and metrics. Metrics include management metrics, indirect and direct metrics and predictive metrics. Uses of metrics include software cost and schedule estimates, model calibration, and software productivity measurements. Metrics techniques include the Goal-Question-Metric approach, COCOMO, and function point analysis.

CSC 232. Software Requirements Analysis and Design. 3 Units
Prerequisite(s): Fully classified graduate status in Computer Science or Software Engineering.
Term Typically Offered: Fall, Spring

Software engineering requirements including elicitation, analysis, specification, verification and management. Emphasizes IEEE software engineering requirements and standards and the concept of operations (ConOps) document. Techniques include structured analysis, use cases and object-oriented analysis.

CSC 233. Advanced Software Engineering Project Management. 3 Units
Prerequisite(s): Fully classified graduate status in Computer Science or Software Engineering.
Term Typically Offered: Fall, Spring

Advanced methods and procedures for managing a software development project. Includes project planning, scheduling, and cost estimation, project organizational types, staffing and training considerations, leading and motivating computer personnel, and methods for measuring and controlling a project. Emphasizes IEEE software engineering management standards and keys to project success.

CSC 234. Software Verification and Validation. 3 Units
Prerequisite(s): Fully classified graduate status in Computer Science or Software Engineering; or Computer Engineering and CSC 131.
Term Typically Offered: Fall, Spring

Verification and validation (V & V) techniques to identify and resolve software problems and high-risk issues early in the software lifecycle. Application of V & V to all phases of the lifecycle process. Includes planning and reporting on the V & V effort. Topics also include software quality assurance and software testing.
CSC 235. Software Architecture. 3 Units
Prerequisite(s): Fully classified graduate status in Computer Science or Software Engineering.
Term Typically Offered: Fall, Spring

CSC 236. Formal Methods in Secure Software Engineering. 3 Units
Prerequisite(s): Fully classified graduate status in Computer Science or Software Engineering.
Term Typically Offered: Fall, Spring

Basic concepts of formal methods in secure software engineering; formal methods based software development models and methodologies; formal methods for software system specification, modeling, analysis, verification, information assurance and security; systems and tools for the application of formal methods in secure software engineering; advances of formal methods in secure software engineering.

CSC 237. Microprocessor Systems Architecture. 3 Units
Prerequisite(s): CSC 205.
Term Typically Offered: Fall, Spring

Microprocessor/microcomputer architecture and hardware/software interfacing design. RISC v. CISC architecture in-depth, case studies of several popular commercial advanced 32-bit microprocessors. Microcomputer firmware architecture is discussed and illustrated with detailed examples. Term project in which students specify, design and build the hardware and firmware of a computer system.

CSC 238. Human-Computer Interface Design. 3 Units
Prerequisite(s): Fully classified graduate status in Computer Science or Software Engineering.
Term Typically Offered: Fall, Spring

Issues involved in design of interaction between people and computers. Insight and experience in key issues of HCI design. Emphasis on identifying issues and tradeoffs in interaction design. Development and evaluation of alternative solutions to design problems.

CSC 239. Advanced Operating Systems Principles and Design. 3 Units
Prerequisite(s): Fully classified graduate status in Computer Science, Software Engineering, or Computer Engineering.
Term Typically Offered: Fall, Spring

Advanced concepts of concurrent processes, concurrent programming and operating systems. Virtual memory management systems, deadlock, file systems, operating system performance measurement and evaluation, device driver development.

CSC 242. Computer-Aided Systems Design and Verification. 3 Units
Prerequisite(s): CSC 205 or CSC/EEE 273.
Term Typically Offered: Fall, Spring

Design and verification methodology using hardware description and verification languages (HDVLs). Advances in IC chip design; introduction to HDVLs such as SystemVerilog; HDVL language basics including data types, arrays, structures, unions, procedural blocks, tasks, functions, and interface concepts; design hierarchy; verification planning and productivity; verification infrastructure; guidelines for efficient verification of large designs; assertion-based verification; comprehensive computer-related design projects.

CSC 244. Database System Design. 3 Units
Prerequisite(s): Fully classified graduate status in Computer Science or Software Engineering.
Term Typically Offered: Fall, Spring

SQL views, integrity constraints and triggers, stored procedures and functions. Advanced topics in database system design: an algebra for queries, query processing algorithms, query compiler, query optimization, transaction management, recovery, concurrency control. Special topics on data management.

CSC 245. Performance Modeling and Evaluation. 3 Units
Prerequisite(s): Fully classified graduate status in Computer Science or Software Engineering.
Term Typically Offered: Fall, Spring

Performance and cost measures; software and hardware performance monitors; data reduction and evaluation; analytic and simulation models of hardware and program behavior; performance-cost trade-offs and resource allocation.

CSC 250. Computer Security. 3 Units
Prerequisite(s): Fully classified graduate standing in Computer Science, Computer Engineering, or Software Engineering.
Term Typically Offered: Fall, Spring

Principles and technologies behind computer security. Introduction to encryption and decryption; security mechanisms in computer programs, operating systems, databases, and networks; administration of computer security, and legal and ethical issues.

CSC 251. Principles of Compiler Design. 3 Units
Prerequisite(s): CSC 151 or CSC 201.
Term Typically Offered: Fall, Spring

CSC 252. Cryptography Theory and Practice. 3 Units
Prerequisite(s): Fully classified graduate status in Computer Science, Computer Engineering, or Software Engineering.
Term Typically Offered: Fall, Spring

CSC 253. Computer Forensics. 3 Units
Prerequisite(s): Fully classified graduate status in Computer Science, Computer Engineering, or Software Engineering.
Term Typically Offered: Fall, Spring

Structured security incident investigations internal and external; emphasis on analysis of electronic evidence and proper audit; utilization of scientific aids in obtaining information from computing devices; legal electronic evidence.

CSC 254. Network Security. 3 Units
Prerequisite(s): Fully classified graduate status in Computer Science, Computer Engineering, or Software Engineering.
Term Typically Offered: Fall, Spring

In-depth study of network security problems and discussion of potential solutions. Topics include: network vulnerabilities and attacks, secure communication, Internet security protocols and tools to defend against network attacks, network intrusion detection, and wireless network security. Survey and demonstration of software tools used for network security.

CSC 255. Computer Networks. 3 Units
Prerequisite(s): Fully classified graduate status in Computer Science, Software Engineering, or a Computer Engineering.
Term Typically Offered: Fall, Spring

Computer networking fundamentals with emphasis on higher level protocols and functions. Network design considerations, software design and layering concepts, interface design, routing and congestion control algorithms, internetworking, transport protocol design, and end-to-end communication, session and application protocols. Specific examples of commercial and international standards.

CSC 258. Distributed Systems. 3 Units
Prerequisite(s): Fully classified graduate status in Computer Science, Software Engineering, or Computer Engineering.
Term Typically Offered: Fall, Spring

Distributed system architectures, distributed object model, component-based design, time and global states, coordination and agreement, distributed transactions and concurrency control, replication, security, distributed multimedia systems, message passing and distributed shared memory, Web services and Service-Oriented Architecture (SOA), Cloud and Ubiquitous computing. Emphasis on scalability, manageability, security, and dependability of distributed systems.

CSC 273. Hierarchical Digital Design Methodology. 3 Units
Prerequisite(s): CSC 205, CPE 64, or equivalent.
Term Typically Offered: Fall, Spring

Advanced logic modeling, simulation, and synthesis techniques. Topics include modeling, simulation, and synthesis techniques, using Hardware Description Language (HDLs), Register Transfer Level (RTL) representation, high-level functional partitioning, functional verification and testing, computer-aided logic synthesis, logical verification and testing, timing and delay analysis, automated place and route process, and design with Application Specific Integrated Circuits (ASICs) and programmable logic.
Cross Listed: EEE 273; only one may be counted for credit.

CSC 275. Advanced Data Communication Systems. 3 Units
Prerequisite(s): Fully classified graduate status in Computer Science, Software Engineering, or Computer Engineering.
Term Typically Offered: Fall, Spring

Fundamental concepts, principles and issues of data communication systems. The ISO/OSI reference model is used as a vehicle for discussion and emphasizes the lower layer of the model. Specific topics include: motivation and objectives, layered architectures, physical layer principles and protocols, data link and medium access control principles and protocols, circuit, packet and cell switching, local area network design principles and performance comparisons, high speed networking, introduction to wide area network architectures. Typical examples and standards are cited for point-to-point, satellite, packet radio and local area networks.

CSC 280. Advanced Computer Architecture. 3 Units
Prerequisite(s): CSC 205 and fully classified graduate status in Computer Science or Software Engineering.
Term Typically Offered: Fall, Spring

Introduction to parallel architecture covering computer classification schemes, finite and coarse grain parallelism, processor interconnections, and performance issues of multiprocessor systems. Includes parallel and pipelined instruction execution, structure of multiprocessor systems, memory hierarchy and coherency in shared memory systems, programming issues of multiprocessor systems, arithmetic pipeline design, and design for testability.
Cross Listed: EEE 280; only one may be counted for credit.

CSC 288. Special Topics in Computer Science - Software Engineering. 3 Units
Term Typically Offered: Fall, Spring

Contemporary topics in computer science will be offered as needed. Topics offered:

CSC 295. Fieldwork. 1 - 3 Units
Term Typically Offered: Fall, Spring

Directed observations and work experience in computer science with firms in the industry or public agencies. Supervision is provided by the instructional staff and the cooperating agencies.
Note: Faculty approval required. May be repeated for credit.
Credit/No Credit

CSC 296R. Computer Vision. 3 Units
Prerequisite(s): CSC 206, and Math 35 or Math 100; not currently enrolled in CSC 296R
Term Typically Offered: Fall, Spring

Topics in computer vision including fundamentals of image formation, image transformations and rotation, Fourier transform and frequencies, lighting and optics, filtering, edge and line detection and Hough transform, feature detection and matching, a brief introduction to machine learning and classifiers, recognition, large-scale retrieval, object detection, and face recognition. Mathematical fundamentals and methods, design and implementation of various computer vision applications.
CSC 296T. Fundamentals in Cybersecurity for Teachers. 3 Units

Prerequisite(s): Education, teaching, and/or professional experience qualified for admission into the National Cybersecurity Teaching Academy program at Sacramento State.

Term Typically Offered: Fall, Spring, Summer

Introduction to network and computer security with a focus on how intruders gain access to systems, how they escalate privileges, and what steps can be taken to secure a system against such attacks. Topics include: computer networking basics, operating system basics, vulnerability and attacks, intrusion penetration, cyber defenses, network hardening, system hardening, security administration. This course is designed for K-12 teachers, and does not meet regular degree requirements in Computer Science, Software Engineering, or Computer Engineering.

CSC 296U. Introduction to Digital Forensics for Teachers. 3 Units

Prerequisite(s): Education, teaching, and/or professional experience qualified for admission into the National Cybersecurity Teaching Academy program at Sacramento State.

Term Typically Offered: Fall, Spring, Summer

Introduction to computer forensics, cybercrime scene analysis and electronic discovery. Digital forensics related legal issues, procedures and standards. Technical methodologies for setting up forensic workstations; data acquisition; file systems and storage analysis for Linux, Mac and Windows systems; data hiding techniques; graphics file recovery; network forensics; and mobile forensics. Hands-on activities for using and understanding digital forensic tools. This course is designed for K-12 teachers, and does not meet regular degree requirements in Computer Science, Software Engineering, or Computer Engineering.

CSC 296V. Cybersecurity Teaching Methods for Teachers. 3 Units

Prerequisite(s): Education, teaching, and/or professional experience qualified for admission into the National Cybersecurity Teaching Academy program at Sacramento State, and CSC 296T.

Term Typically Offered: Fall, Spring, Summer

Introduction to existing generally accepted guidelines and frameworks (such as HSCGG, CSEC, CAE Knowledge Units, NCWF) in the discipline of cybersecurity. Methods for teaching cybersecurity to transform cybersecurity subject matter, with pedagogical content knowledge, into student learning. Topics include: culturally-relevant methods, scaffolding knowledge, differentiation, assessment, and cybersecurity instructional technologies (ranges, CTFs, competitions, and unplugged activities). This course is designed for K-12 teachers, and does not meet regular degree requirements in Computer Science, Software Engineering, or Computer Engineering.

CSC 296W. Cybersecurity Practicum for Teachers. 3 Units

Prerequisite(s): Education, teaching, and/or professional experience qualified for admission into the National Cybersecurity Teaching Academy program at Sacramento State, CSC 296T and CSC 296U.

Term Typically Offered: Fall, Spring, Summer

Exposure to cybersecurity operations through service projects, research, or industry experience. This course is designed for students to work with industry or the community in a cybersecurity operations environment to apply knowledge in the development, implementation, testing and documentation of security controls. This course is designed for K-12 teachers, and does not meet regular degree requirements in Computer Science, Software Engineering, or Computer Engineering.

CSC 299. Special Problems. 1 - 3 Units

Term Typically Offered: Fall, Spring

Any properly qualified student who wishes to pursue a problem of his own choice may do so if the proposed subject is acceptable to the member of the staff with whom he/she works and to his/her advisor.

Note: May be repeated for credit.

Credit/No Credit

CSC 500. Master's Thesis. 1 - 5 Units

Prerequisite(s): CSC 209; advanced to candidacy.

Term Typically Offered: Fall, Spring

Completion of a thesis approved for the Master's degree.

Note: May be repeated for credit.

Credit/No Credit

CSC 500C. Master's Thesis Continuous Enrollment. 1 Unit

Prerequisite(s): CSC 500

Term Typically Offered: Fall, Spring

Continuation of a thesis approved for the Master's degree.

Note: May be repeated for credit

Credit/No Credit

CSC 502. Master's Project. 1 - 2 Units

Prerequisite(s): CSC 209; advanced to candidacy.

Term Typically Offered: Fall, Spring

Completion of a project approved for the Master's degree.

Credit/No Credit

CSC 502C. Master's Project Continuous Enrollment. 1 Unit

Prerequisite(s): CSC 502

Term Typically Offered: Fall, Spring

Continuation of a project approved for the Master's degree.

Note: May be repeated for credit

Credit/No Credit

Construction Management (CM)

CM 9. Construction Surveying and Layout. 3 Units

Prerequisite(s): CM 10, CM 20, CM 21 and either Math 26A or MATH 30; CM 21 and Math 26A or MATH 30 may be taken concurrently.

Corequisite(s): CM 21.

Term Typically Offered: Fall, Spring

Geomatics and the principles of surveying measurements for distance, direction, and elevation. Special emphasis on the application of surveying skills relevant to the field of construction, including building, bridge, and sitework layout techniques and procedures, establishment of reference line and grade, topographic mapping, and earthwork computations. Lecture two hours. Laboratory 3 hours.

CM 10. The Construction Industry. 1 Unit

Term Typically Offered: Fall, Spring

Introduction to the Construction Management program and the many facets of the construction industry and to the various career opportunities. The unique products of construction, the organizations involved, and the people that make it happen. Guest speakers. Lecture one hour.

Credit/No Credit
CM 15. Fundamentals of Construction Management. 3 Units  
Prerequisite(s): CM 10. CM 10 may be taken concurrently.  
Term Typically Offered: Fall, Spring  
Introduction to the Construction Management program and industry.  
Critical reading, thinking and writing for the construction profession.  

CM 20. Construction Materials and Processes. 3 Units  
Prerequisite(s): CM 10, ENGL 1A; CM 10 may be taken concurrently.  
Term Typically Offered: Spring only  
Introduction to construction materials; to their properties in-place in completed projects, and to their characteristics that affect construction processes. The organizations, methods, equipment and safety considerations that are common to projects of all types and to all segments of the industry. Field trips. Lecture two hours; laboratory three hours.  
Field trip(s) may be required.  

CM 21. Construction Graphics. 3 Units  
Prerequisite(s): ENGL 1A and CM 10; CM 10 may be taken concurrently.  
Term Typically Offered: Fall only  
Instruction and exercises in graphic techniques and procedures applicable to construction. Analysis of drawings in the civil, architectural, structural, mechanical, and electrical fields and how drawings affect construction planning. Freehand sketching. Isometric and oblique projections. Material quantity surveying. Lecture two hours; laboratory three hours.  

CM 22. Construction Documents. 3 Units  
Prerequisite(s): ENGL 1A, CM 20, and CM 21; CM 20 may be taken concurrently.  
Term Typically Offered: Spring only  
Analyzes construction contract documents. Technical and legal interpretations and implications to managers of the construction process. Quantity surveying. Lecture two hours; laboratory three hours.  

CM 30. Engineering Mechanics--Statics. 3 Units  
Prerequisite(s): MATH 26A or MATH 30; and PHYS 5A or PHYS 11A.  
Term Typically Offered: Spring only  
Introduction to the solution of engineering design problems. Concepts of units, vectors, equilibrium, forces, force systems, shear and moment diagrams. Lecture three hours.  

CM 40. Properties of Construction Materials. 3 Units  
Prerequisite(s): PHYS 5A.  
Term Typically Offered: Fall only  
Study of the engineering performance characteristics of materials. Covers testing concepts and procedures. Includes basic properties of metals, aggregates, cements, concrete, timber, asphalt, masonry and plastics with emphasis on construction applications. Lecture two hours; laboratory three hours.  

CM 110. Legal Aspects of Construction. 3 Units  
Prerequisite(s): Senior class standing, MGMT 101, CM 22.  
Corequisite(s): CM 126  
Term Typically Offered: Fall only  
Application of advanced legal concepts to the construction process. Analyzes problems relating to contract formation, administration, and interpretation. Includes bidding and contract enforcement; litigation of disputes vs. arbitration; liability for negligence, warranty, and strict liability; safety; license law requirements; mechanics' liens and stop notices; bond rights and obligations. Lecture three hours.  

CM 120. Construction Operations and Methods Analysis. 3 Units  
Prerequisite(s): CM 20.  
Corequisite(s): CM 121.  
Term Typically Offered: Fall only  
Introduction to the analysis and management of construction projects in terms of the work that must be performed in the construction process. Analyzes operations and methods using concepts and techniques, including video, that are applicable to all types of projects in all segments of the industry, variables affecting productivity. Safety as an integral part of project and operations management. Field trips. Lecture two hours; laboratory three hours.  
Field trip(s) may be required.  

CM 121. Fundamentals of Construction Estimating. 3 Units  
Prerequisite(s): CM 20.  
Corequisite(s): CM 120.  
Term Typically Offered: Fall only  
Study of the basic approaches to estimating the cost of construction projects from a managerial viewpoint. Types of estimates and methods; elements of cost, variables and costing concepts; analysis procedures for detailed estimates. Lecture two hours; laboratory three hours.  

CM 124. Engineering Construction. 3 Units  
Prerequisite(s): CM 125, CM 135.  
Term Typically Offered: Fall only  
Study of engineering construction projects with emphasis on equipment-paced operations including safety aspects. Engineering fundamentals and other factors that affect equipment selection and production. Amplification of recording and analysis techniques. Unit price contracts. Field trips. Lecture two hours; laboratory three hours.  
Field trip(s) may be required.  

CM 125. Advanced Estimating and Bidding. 3 Units  
Prerequisite(s): CM 120, CM 121.  
Term Typically Offered: Spring only  
Study of the concepts and practices involved in the total estimating and bidding process in construction, from initial project selection to submission of final bids. Covers considerations in project selection, sub-bid analysis, contingency and risk analysis, pricing concepts, bidding models, and an introduction to computer applications. A complete project estimate and bid is prepared by each student. Lecture two hours; laboratory three hours.
CM 126. Construction Project Management. 3 Units
Prerequisite(s): CM 125, CM 127.
Corequisite(s): CM 110.
Term Typically Offered: Fall only

Introduction to the study of Project Management as it is used on the larger construction project. Students study how construction contractors manage cost, time, scope, and quality. The theory of Project Management is developed and compared to management of the on-going business enterprise. Matrix and functional organizations are examined within the context of the industrial, commercial and heavy contract construction industries using the principles of the management process. Lecture three hours.

CM 127. Planning, Scheduling and Control. 3 Units
Prerequisite(s): CM 120.
Term Typically Offered: Spring only

Study of the concepts used in planning and controlling construction projects. Arrow, PERT, precedence, and linear scheduling methods; resource leveling; time-cost analysis; bar charts; and time-scaled diagrams. Manual procedures followed by computer applications. Lecture three hours.

CM 129. Senior Project. 3 Units
Prerequisite(s): CM 110, CM 111, CM 124, CM 126, HROB 101.
Term Typically Offered: Spring only

Consideration of technical, legal, business and human factors (including safety) in applying the functional approach to the management of construction organizations, projects, and operations. The individual construction professional in a competitive industry: personal and professional development, ethics, stress, physical and mental health. The industry and the construction professional in relation to the social and physical environments. Lecture three hours.

CM 130. Structures I -- Design Principles and Structural Steel Design. 3 Units
Prerequisite(s): CM 30, CM 40; CM 40 may be taken concurrently.
Term Typically Offered: Fall only

Introduction to structural design. Consideration of load conditions, stresses, strain, beam deflection and column action. Basic design of structural steel members with emphasis on systems used in practical situations. Beams, trusses, and columns are designed using the Uniform Building Code as a reference and the results are shown on detailed drawings and sketches. The theory of Project Management is developed and compared to management of the on-going business enterprise. Matrix and functional organizations are examined within the context of the industrial, commercial and heavy contract construction industries using the principles of the management process. Lecture three hours.

CM 135. Soils and Foundations. 3 Units
Prerequisite(s): CM 130.
General Education Area/Graduation Requirement: Upper Division Further Studies in Area B5
Term Typically Offered: Fall only

Quantitative analysis of the properties and behaviors of soils used as materials in construction. Index and physical properties of soils including compaction; permeability, compressibility, and shear strength. Methods of laboratory and field tests. Principles of foundation design, pavements, embankments and temporary soil support systems for trenches and cuts. Lecture two hours; laboratory three hours.

Note: This course requires safety training this; course requires personal protective equipment (PPE).

CM 136. Principles of Mechanical and Electrical Engineering. 3 Units
Prerequisite(s): PHYS 5B, CM 30.
Term Typically Offered: Fall only

Basic principles of thermodynamics with application to heating, ventilating and air conditioning systems. Introduction to electrical circuits and circuit analysis with construction applications. Lecture three hours.

CM 140. Structures II -- Timber and Formwork Design. 3 Units
Prerequisite(s): CM 130.
Term Typically Offered: Spring only

Basic design of structural timber members with emphasis on systems used in practical situations. Beams, trusses, and columns are designed using the Uniform Building Code as a reference and the results are shown on detailed drawings and sketches. Application of engineering principles to satisfy construction requirements that are not designed or shown in typical construction documents. Includes analysis and design of concrete form systems, shoring, and falsework, and construction dewatering. Lecture three hours.

CM 150. Structures III -- Reinforced Concrete and Reinforced Masonry. 3 Units
Prerequisite(s): CM 130.
Term Typically Offered: Fall only

Basic design concepts of reinforced concrete and reinforced masonry design. Topics and examples include design of beams, slabs, columns and walls. Students are required to demonstrate drafting ability. Assignments include design and drawings of various structural systems. Lecture three hours.

CM 156D. Virtual Design and Construction. 3 Units
Prerequisite(s): CM 125 & CM127
Term Typically Offered: Fall, Spring

This course consists of instructions and exercises in virtual design applications in construction. Students will learn to develop 2D CAD drawings, 3D building information models (BIM), 4D BIM models to link the 3D model with construction schedules, and 5D models to link the 4D model with construction cost. Students will also learn to visualize an augmented reality BIM model for construction using 3D goggles (Microsoft HoloLens 2), and to utilize 3D laser scanning in capturing the details of an existing.

CM 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading.

Note: Open only to students competent to carry on individual work. Admission to this course requires approval of an instructor and the program coordinator.

Credit/No Credit

CM 296A. Sustainable Design and Construction. 3 Units
Prerequisite(s): Graduate standing or instructor permission.
Term Typically Offered: Fall only – even years

Provides a foundation in sustainable building concepts and design principles while giving students the opportunity to practice applying these principles to actual projects. Prepare the new generation of engineers to address complex societal problems and develop the vocabulary and skills to become proactive contributors to sustainable design and construction project teams. This course will be offered experimentally.
Criminal Justice (CRJ)

CRJ 1. Introduction to Criminal Justice and Society.  3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Reviews the problem of crime and the societal response to criminals. Institutions discussed are those intended to discover the crime and the criminal and those designed to deal with the criminal, the victim, and society, once the criminal has been labeled. Finally, the bureaucracy of crime and its measurement as a social phenomenon are discussed.

CRJ 2. Law of Crimes.  3 Units
Term Typically Offered: Fall, Spring

Introduction to the case method of studying criminal law. Understanding and correlating the common law crimes and statutes. Study and emphasis on the classification and nature of crimes, the requisite elements of the major common law felonies and criminal responsibility of various persons involved in crime.

CRJ 4. General Investigative Techniques.  3 Units
Term Typically Offered: Fall, Spring

Techniques involved in the investigation of crimes; interview of victims and witnesses; questioning of suspects; organization and procedure in the investigation of crimes; crime scene searches; surveillance; use of scientific aids; and sources of information.

CRJ 5. The Community and the Justice System.  3 Units
Term Typically Offered: Fall, Spring

Examines complex, dynamic relationships between communities and the justice system in addressing crime and conflict with emphasis on the challenges and prospects of administering justice within a diverse, multicultural population and the roles played by race, ethnicity, gender, religion, sexual orientation, age, social class, culture, and justice professionals in shaping relationships within the justice system. Special topics include crime prevention, restorative justice, and conflict resolution and pure justice.

CRJ 21. First Year Seminar: Becoming an Educated Person.  3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Introduction to the nature and possible meanings of higher education and the functions and resources of the University. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills. Also provide students with an opportunity to interact with fellow students and the seminar leader and to build a community of academic and personal support.

CRJ 101. Introduction to Criminal Justice Research Methods.  3 Units
Prerequisite(s): Restricted to Criminal Justice majors
Term Typically Offered: Fall, Spring

Introduction to research methodologies used in the social sciences, with a special emphasis on those methods most often used in the study of crime and criminal behavior, police/court systems, and correctional institutions, policies, and programs. Students will acquire the knowledge and skills necessary to understand, critically analyze and assess descriptive and quantitative research studies. Topics include the roles of theory and ethics in research, hypothesis testing, and research design.

CRJ 102. Crime And Punishment.  3 Units
Prerequisite(s): Criminal Justice major
Term Typically Offered: Fall, Spring

This course provides an overview of the causes, consequences and responses to crime in society, with special emphasis on the use of theory and research to guide criminal justice policy and practice. The course surveys major theories of crime causation, examines consequences of crime on individuals and societies, and explores various perspectives on the appropriate role of criminal sanctions and offender treatment in modern day systems of justice.

CRJ 103. Cases and Issues in Corrections.  3 Units
Prerequisite(s): CRJ 101 and CRJ 102; restricted to declared majors or chair permission.
Term Typically Offered: Fall only

This course provides an opportunity to interact with fellow students and the seminar leader and to improve their basic learning skills. Also provide students with an opportunity to interact with fellow students and the seminar leader and to improve their basic learning skills. Also provide students with an opportunity to interact with fellow students and the seminar leader and to improve their basic learning skills.

CRJ 105. Delinquency, Prevention and Control.  3 Units
Prerequisite(s): CRJ 101 and CRJ 102; restricted to declared majors or chair permission.
Term Typically Offered: Fall only

This course provides an overview of the causes, consequences and responses to crime in society, with special emphasis on the use of theory and research to guide criminal justice policy and practice. The course surveys major theories of crime causation, examines consequences of crime on individuals and societies, and explores various perspectives on the appropriate role of criminal sanctions and offender treatment in modern day systems of justice.

CRJ 108. Domestic Crime and Violence.  3 Units
Prerequisite(s): CRJ 101 and CRJ 102; restricted to declared majors or chair permission.
Term Typically Offered: Fall, Spring

This course provides an overview of the causes, consequences and responses to crime in society, with special emphasis on the use of theory and research to guide criminal justice policy and practice. The course surveys major theories of crime causation, examines consequences of crime on individuals and societies, and explores various perspectives on the appropriate role of criminal sanctions and offender treatment in modern day systems of justice.

CRJ 109. Media, Crime, and Criminal Justice.  3 Units
Prerequisite(s): CRJ 101 and CRJ 102; restricted to declared majors or chair permission.
Term Typically Offered: Fall only

This course provides an overview of the causes, consequences and responses to crime in society, with special emphasis on the use of theory and research to guide criminal justice policy and practice. The course surveys major theories of crime causation, examines consequences of crime on individuals and societies, and explores various perspectives on the appropriate role of criminal sanctions and offender treatment in modern day systems of justice.

CRJ 111. Social Research Methods.  3 Units
Prerequisite(s): CRJ 101 and CRJ 102; restricted to declared majors or chair permission.
Term Typically Offered: Fall, Spring

This course provides an overview of the causes, consequences and responses to crime in society, with special emphasis on the use of theory and research to guide criminal justice policy and practice. The course surveys major theories of crime causation, examines consequences of crime on individuals and societies, and explores various perspectives on the appropriate role of criminal sanctions and offender treatment in modern day systems of justice.

CRJ 112. The Community and the Justice System.  3 Units
Term Typically Offered: Fall, Spring

This course provides an overview of the causes, consequences and responses to crime in society, with special emphasis on the use of theory and research to guide criminal justice policy and practice. The course surveys major theories of crime causation, examines consequences of crime on individuals and societies, and explores various perspectives on the appropriate role of criminal sanctions and offender treatment in modern day systems of justice.

CRJ 113. Analysis of Career Criminals.  3 Units
Prerequisite(s): CRJ 101 and CRJ 102; restricted to declared majors or chair permission.
Term Typically Offered: Fall, Spring

This course provides an overview of the causes, consequences and responses to crime in society, with special emphasis on the use of theory and research to guide criminal justice policy and practice. The course surveys major theories of crime causation, examines consequences of crime on individuals and societies, and explores various perspectives on the appropriate role of criminal sanctions and offender treatment in modern day systems of justice.

CRJ 114. Media, Crime, and Criminal Justice.  3 Units
Prerequisite(s): CRJ 101 and CRJ 102; restricted to declared majors or chair permission.
Term Typically Offered: Fall, Spring

This course provides an overview of the causes, consequences and responses to crime in society, with special emphasis on the use of theory and research to guide criminal justice policy and practice. The course surveys major theories of crime causation, examines consequences of crime on individuals and societies, and explores various perspectives on the appropriate role of criminal sanctions and offender treatment in modern day systems of justice.
CRJ 111. Women and the Criminal Justice System. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall only

Survey of the roles of women as offenders, victims and employees in the criminal justice system. Examines statistics, research and the literature as it relates to female crime. Evaluates current patterns and practices of law enforcement, criminal courts and corrections relative to women as offenders, victims, and employees.

CRJ 112. Gangs and Threat Groups in America. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Examination of criminal organizations in America. The problems posed by "anti-social groups," their structure and their history in contemporary American society. The spectrum of social sciences is employed in an examination of "illegal groups" and such issues as aggression and group dynamics. Styles such as street gangs, prison gangs and traditional organized crime are defined and studied.

CRJ 114. Sexual Offenses and Offenders. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Exploration of relevant factors and dimensions of sexual offenses and offenders related to the Criminal Justice system, its cliental and practitioners.

CRJ 115. Violence and Terrorism. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Systemically examines political violence, responses by government institutions to that violence and implications of both for the administration of justice. Content is structured along a continuum, ranging from small scale violence to mass violence - assassinations, terrorism by sub-national and transnational organizations, state terror and genocide. In recent years political violence has progressively drawn the American governmental institutions, particularly justice agencies, into the global picture of violence committed by both domestic and international terrorists.

CRJ 116. Restorative Justice and Conflict Resolution. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Examines concepts, principles, techniques of conflict resolution and restorative justice in contemporary US legal system, global peacebuilding, across cultures, and comparative justice practices. The centerpiece is a classroom simulation that introduces students to theoretic analysis and practical knowledge on resolution of conflicts and crime. Addresses nonviolent responses to inter/intra state and community conflicts. Topics include negotiation, mediation, victim offender reconciliation, alternative dispute resolution (ADR), circle sentencing, transitional justice, peace treaty, transformative justice, intergroup dialogues, etc.

CRJ 117. American Criminal Justice and Minority Groups. 3 Units
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), GE AREA D
Term Typically Offered: Fall, Spring

Course examines the origins of racial/ethnic/gender/sex discrimination and disparities in the US justice system. Additionally, course provides a critical examination of the processes and outcomes of the justice system by reviewing the major theories of crime and number of minorities reported in crime data. Using discussions about various criminal justice policies and their impact on minority groups, the course assesses the changing dynamic of race relations and diversity in society and their influences on justice administration.

CRJ 118. Drug Abuse and Criminal Behavior. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Sociogenic review of the case histories and life styles of selected juvenile and adult offenders with a history of drug abuse. An inquiry into the drug scene, "street" drugs, an examination of people who have abused drugs and have been guilty of delinquent or criminal acts for the purpose of determining the known and identified relationships between drug abuse and crime, and probing the many unknown relationships. A sustained and disciplined examination of the main issues and problems by the use of case studies, discussion groups, and student involvement.

CRJ 121. The Structure and Function of the American Courts. 3 Units
Prerequisite(s): declared majors or minors or chair permission.
Term Typically Offered: Fall, Spring

Overview of the Federal and State court structures including jurisdiction, venue, roles of court participants, due process and post arrest procedures employed in adjudication, trial process, appellate review. Constitutional issues such as discretion, indigent rights, right to counsel, discovery, pleas, bail and preventive detention, competency, evidence suppression, double jeopardy, and speedy trial will also be addressed.

CRJ 123. Law of Arrest, Search and Seizure. 3 Units
Prerequisite(s): Restricted to declared majors or minors or department chair permission.
Term Typically Offered: Fall, Spring

Current and recent developments relating to arrest, searches, and seizures; study of constitutional rights predominately associated with the Fourth, Fifth, Sixth and Fourteenth Amendments as related to criminal justice and its administration – warrants, warrantless seizures, exclusionary rule, confession, eye-witness identification, electronic surveillance, entrapment, and state variance with federal rules. Case study method law course.

CRJ 125. Law of Responsibility. 3 Units
Prerequisite(s): Restricted to declared majors or chair permission.
Term Typically Offered: Spring only

Substantive criminal law of responsibility and culpability. Topics include legal cause, mens rea, negligence, intent and its equivalents, motive, immaturity, mental incapacitates, mistake, and affirmative defenses including authority and privilege as found in American statute and case law. A case method law course.
CRJ 126. Law of Evidence. 3 Units
Prerequisite(s): CRJ 121 and CRJ 123; restricted to declared majors or chair permission.
Term Typically Offered: Fall only

Law of evidence as codified and its complimentary interpretations by the courts. Topics include the admission and exclusion of evidence, relevance, the hearsay rule and its exceptions, the use of writings and demonstrative evidence, judicial notice, order of proof and presumptions, and issues relating to witness competency and privileges. Constitutional exclusions and their impacts are not covered.

CRJ 127. Juvenile Law. 3 Units
Prerequisite(s): CRJ 102 and CRJ 121; restricted to CRJ majors or chair permission.
Term Typically Offered: Fall, Spring

Overview of legal concepts and principles affecting the adjudication of delinquent children in juvenile and adult court systems, develops the ability to read and analyze difficult legal issues relating to juvenile law, and provides the information required to evaluate the effectiveness of the juvenile court system in the context of its stated rehabilitative goals and the potential impact of a shift in focus to a more retribution-oriented structure.

CRJ 128. Administrative Law for Public Safety Personnel. 3 Units
Prerequisite(s): CRJ 121 and CRJ 123; restricted to CRJ majors or chair permission.
Term Typically Offered: Spring only

Administrative law is the study of the adjudicatory and law making processes that take place within administrative agencies of the executive branches of government. Further, it is a study of the legal relationship between those agencies and the legislature, the courts, and private parties. Particular attention will be paid to the Federal Administrative Procedures Act, and the California Administrative Procedure Act.

CRJ 130. Fundamentals of Corrections. 3 Units
Prerequisite(s): Restricted to declared CRJ majors or minors or department chair permission.
Term Typically Offered: Fall, Spring

Overview and critical analysis of contemporary correctional theory and practice. Comparison of mainline American corrections with historical, cross-cultural, philosophical and non-traditional views of corrections. Controversial issues in contemporary corrections, including prisoner rights, victimization, the death penalty, unions, institutional corrections, community corrections, future of corrections, correctional careers, and administration and staffing of correctional programs.

CRJ 131. Correctional Institutions. 3 Units
Prerequisite(s): CRJ 101, CRJ 102 and CRJ 130; restricted to declared majors or chair permission.
Term Typically Offered: Fall, Spring

Role and function of the correctional institution in the administration of criminal justice. A review of institutional procedures: reception, classification, program assignment, mass custody, treatment programs, and release, including parole and discharge. The inmate social system and its relationship to the official world that contains it. The following topics will receive special attention: the determinate sentence; the confinement of repetitively violent offenders; the death penalty and its impact on prison management, inmate social services; prison reform; and the stresses experienced by institutional personnel.

CRJ 134. Community Based Corrections. 3 Units
Prerequisite(s): CRJ 101, CRJ 102 and CRJ 130; restricted to declared majors or chair permission.
Term Typically Offered: Fall only

Role of local and state government in the development of community-based correctional programs; regional detention facilities; recent trends in jail organization and management; ex-offenders and employment; the impact of community corrections on the criminal justice system.

CRJ 136. Corrections Administration. 3 Units
Prerequisite(s): CRJ 101, CRJ 130 and CRJ 160; restricted to declared majors or chair permission.
Term Typically Offered: Fall, Spring

Concepts of administration; corrections as a component of criminal justice; organization and management of correctional services and correctional institutions for delinquent youth and adult offenders; probation and parole; and the legal and political contexts of corrections.

CRJ 141. Police and Society. 3 Units
Prerequisite(s): Restricted to declared CRJ majors or minors or department chair permission.
Term Typically Offered: Fall, Spring

Examination of the origins, philosophy, objectives and priorities of the police service in the U.S. A. holistic analysis of political, social, economic, legal and other factors impacting the relationship between the police and the society they serve. Police use of discretion, police roles, police and minority groups, police and protest groups, police brutality, and police ethics are also studied.

CRJ 142. Police Administration. 3 Units
Prerequisite(s): CRJ 101, CRJ 141 and CRJ 160; restricted to declared majors or chair permission.
Term Typically Offered: Fall only

Concepts of organization and management; relationships between police agencies and the public, other criminal justice agencies, and other agencies of government; organization for delivery of police services: first response, crime investigation, youth services, vice, communications, and information management.

CRJ 144. Contemporary Issues in Police Administration. 3 Units
Prerequisite(s): CRJ 101 and CRJ 141; restricted to declared CRJ majors or chair permission.
Term Typically Offered: Fall, Spring

Roles of police in a democratic society; analysis of public disobedience to law; racial and ethnic group relationships with police; public, official, and police corruption; police discretion; professionalism; development of criminal intelligence.

CRJ 151. White Collar Crime. 3 Units
Prerequisite(s): Junior/Senior status, Criminal Justice or Fire Service Management major or chair permission.
Term Typically Offered: Fall, Spring

Introduces students to a variety of white collar crime issues, including definitional complexities, the causes, frequency and impact of economic crime, and victim and offender profiles. Governmental corruption, organizational fraud, consumer and environmental offenses, anti-trust violations and international schemes will be covered. Students will also become familiar with methods used to investigate, prosecute and sentence white collar offenders. Policy considerations will be discussed for controlling national and international white collar crime.
CRJ 152. Interviewing and Detection of Deception. 3 Units
Prerequisite(s): CRJ 102; restricted to declared CRJ majors or chair permission.
Term Typically Offered: Fall, Spring
Principles and techniques of interviewing and detection of deception studied from communication, physiological and psycho-social points of view. Introduction to the use of the polygraph; laws pertaining to confessions and admissions.

CRJ 153. Advanced Criminal Investigation. 3 Units
Prerequisite(s): CRJ 102; restricted to declared CRJ majors or declared Forensic minor or have chair permission.
Term Typically Offered: Fall, Spring
Principles involved in the investigation of crimes; utilization of scientific aids in obtaining information from physical objects; concepts in obtaining information from and about people; concept of reconstruction of crime and profile of suspect; development of leads; investigative problems in major crimes; special problems in crime investigation.

CRJ 154. Introduction to Physical Evidence. 3 Units
Prerequisite(s): CRJ 102; restricted to declared CRJ majors or Forensic Investigation minor or chair permission.
Term Typically Offered: Fall, Spring
Provides an overview of the role of science in collecting and evaluating physical evidence as a component of the criminal investigation and legal processes. Various operations in the examination and interpretation of physical evidence are examined with emphasis on the role of science in supporting the investigator and in the litigation process. Suitable for both science and non-science majors.

CRJ 156. Introduction to Crime and Intelligence Analysis. 3 Units
Prerequisite(s): CRJ 101; must be a declared CRJ major or have chair permission.
Term Typically Offered: Fall, Spring
Introduction to crime and intelligence analysis with a special emphasis on those methods most often used in the study of crime and criminal behavior patterns. Students will acquire the knowledge and skills necessary toward understanding crime analysis, intelligence analysis and mapping geospatial data. Topics include theory, the history of crime analysis, crime analysis technologies, intelligence analysis, and types/ functions of crime analysis.

CRJ 160. Justice and Public Safety Administration. 3 Units
Prerequisite(s): restricted to declared CRJ majors or minors or department chair permission.
Term Typically Offered: Fall, Spring
Examines the nature and development of public safety and criminal justice organizations in American society with attention to how the unique functions performed by these agencies has shaped and developed their nature. Particular emphasis is placed on understanding the unique problems generated by administration of bureaucratic, public agencies in a highly politized environment. Examines the influence of social and political factors on justice and public safety organizations.

CRJ 162. Intergovernmental Relations, Finance and Budgeting for Public Safety Personnel. 3 Units
Prerequisite(s): CRJ 160 or PPA 100; Junior or Senior standing; must be a Criminal Justice or Fire Service Management Major.
Term Typically Offered: Fall only
An examination of the structure, organization and management of state and local government with particular attention to the interplay between governmental agencies that is focused on the operations and management of public safety agencies. Government leadership models, such as mayor and city manager will be examined. Finance, the state and local budgets, taxation, revenue and spending will be addressed.

CRJ 163. Leadership in Criminal Justice and Public Safety. 3 Units
Prerequisite(s): CRJ 160; restricted to declared CRJ majors or chair permission.
Term Typically Offered: Fall, Spring
Addresses role of leadership in shaping and directing complex justice and public safety organizations. Leadership styles, roles, communication, group dynamics and organizational culture are examined and applied to organizational maintenance, adaptation, and change. Also addresses the role of employee organizations and personal practices in shaping leadership options and styles in public agencies. Particular attention is focused on implementing leadership in the bureaucratic and public agencies typical to the fields of criminal justice and public safety administration.

CRJ 165. Planning for Justice and Public Safety. 3 Units
Prerequisite(s): CRJ 101, CRJ 102 and CRJ 160; restricted to declared CRJ majors or chair permission.
Term Typically Offered: Spring only
Addresses planning in complex justice and public safety organizations. Focuses on the role of planning in preparing for change, maximizing utilization of resources and addressing crime and public safety. Emphasis is placed on the use of planning to unify fragmented public agencies at multiple levels of government in preparing for disaster, controlling crime, and assuring public safety.

CRJ 166. Personnel Administration in Criminal Justice and Public Safety Organizations. 3 Units
Prerequisite(s): CRJ 160; declared CRJ major or chair permission.
Term Typically Offered: Fall, Spring
This course provides an understanding of history, theories, laws, and practices related to contemporary as well as future criminal justice/public safety personnel administration and practice.

CRJ 167. Collective Bargaining and Arbitration Issues in Public Safety. 3 Units
Prerequisite(s): Must be a declared CRJ major or chair permission.
Term Typically Offered: Fall, Spring
This course is designed to provide the public safety student and/or criminal justice student, practitioner and/or administrator with an understanding of public safety personnel practices in the area of collective bargaining. Labor-management relations, dispute resolution, arbitration, and the various laws that govern labor-management relations, at all levels of government, will be covered.
CRJ 168. Justice and Public Safety Information Systems. 3 Units
Prerequisite(s): Restricted to declared majors or chair permission.
Term Typically Offered: Fall, Spring

Introduction to criminal justice and public safety information systems. Provides a framework for understanding the needs, types, capabilities and applications of information systems to the field. Current uses are surveyed and future potential applications are examined.

CRJ 169. Emergency Management. 3 Units
Prerequisite(s): CRJ 164; Criminal Justice or Fire Service Management major, or instructor permission.
Term Typically Offered: Fall, Spring

Course reviews the history of emergency management, the current systems in place to manage mitigation, preparedness, response and recovery and the coordination and communication required to do so. Diverse responses to various emergencies will be presented with detailed examination of the roles of various levels of government and integration required. The formal declaration of emergencies and federal aid procedures, agencies involved and their administration will be covered.

CRJ 170. Human Trafficking and Slavery. 3 Units
Prerequisite(s): Junior/Senior level and CRJ majors only, or department chair permission.
Term Typically Offered: Fall, Spring

The course explores the international and domestic legal framework that defines human trafficking and slavery and analyzes the major theories and current research on related causes and risk factors. The role of involvement of transnational organized criminal groups and vulnerability of social groups are discussed. Lastly, the course provides a critical analysis of effective strategies in victim identification, protection, prosecution, and prevention as instrumental components in assessment of crime control policy.

CRJ 172. Comparative Criminal Justice Systems. 3 Units
Prerequisite(s): Junior status; restricted to declared CRJ majors or chair permission
Term Typically Offered: Fall, Spring

Examines representative criminal justice systems from a variety of nations with emphasis on the role of history, culture, social and political values and economic institutions in shaping institutions of justice including law, police, courts, corrections, and juvenile justice systems and practice. Attention is paid to conflict and cooperation between criminal justice systems and ideologies that occur when peoples of different cultures and systems are in close proximity.

CRJ 174. Criminal Justice Systems of the Future. 3 Units
Term Typically Offered: Fall, Spring

Societal structures, definitions of deviance and criminal behavior, social problems related to criminality, the nature of systems for handling criminals and sanctions in future societies.

CRJ 176. Security Systems. 3 Units
Prerequisite(s): CRJ 101 and CRJ 102; restricted to declared CRJ majors or chair permission.
Term Typically Offered: Fall, Spring

Purposes, functions and historical development of industrial security in the U.S. Co-responsibilities of security personnel and line supervisors; principles of physical security; document protection; pilferage prevention and employee programs for plant and inventory protection. Survey of related laws and cooperating agencies of government.

CRJ 181. Topics in Criminal Justice. 3 Units
Prerequisite(s): CRJ 100 and CRJ 110; must be a CRJ major.
Term Typically Offered: Fall, Spring

Topics of interest to criminal justice students and faculty will be offered as the need arises.
Note: May be repeated provided the topic is different.

CRJ 190. Contemporary Issues in Criminal Justice. 3 Units
Prerequisite(s): CRJ 101, CRJ 102, CRJ 121, CRJ 123, CRJ 130, CRJ 141, CRJ 160; restricted to declared CRJ majors or chair permission with senior status, and GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Examination of current issues in criminal justice with an emphasis on the application of law, management, practice and ethics to analysis of contemporary criminal justice policy. The culminating event for criminal justice majors with an emphasis upon written and oral communication, research and analytical thinking.

CRJ 191. Topics in Criminal Justice Administration. 3 Units
Prerequisite(s): CRJ 101 and CRJ 102; restricted to declared CRJ majors or chair permission.
Term Typically Offered: Fall, Spring

CRJ 195. Internship. 1 - 6 Units
Prerequisite(s): Restricted to declared majors or chair permission and senior status
Term Typically Offered: Fall, Spring

Supervised work and experience in justice or public safety related agencies designed to expand the student's understanding of techniques, procedures and problems that occur in these agencies. Supervision provided by both faculty and agency personnel.
Note: may be repeated for credit

CRJ 196. Experimental Offerings in Criminal Justice. 2 - 4 Units
Prerequisite(s): Restricted to declared majors and minors or instructor permission.
Term Typically Offered: Fall, Spring

To be offered in the various fields of Criminal Justice in response to student needs.
CRJ 196A. The Mentally Ill Individual in the Criminal Justice System. 3 Units

Term Typically Offered: Fall, Spring

Overview and analysis of how mentally ill individuals interface with the criminal justice system, from first contacts with the police, to their entry into the jails, courts, and prisons, and then reentry into the community via parole and probation. The history of how the mentally ill became so embedded in the criminal justice system, whether mental illness has become criminalized, evidence-based mental health programs, and treatment for this population will be covered.

CRJ 196B. Law of Homeland Security and Emergency Management. 3 Units

Term Typically Offered: Fall, Spring

Current and historical developments relating to the laws surrounding homeland security and emergency management. Topics include the legal framework for the U.S. domestic preparedness and national incident management system, the role of the military in emergency response and homeland security, and the legal jurisdiction and authority of federal, state, and local public safety, as well as private sector institutions, in terrorism prevention and response. Course utilizes cases, statutes, executive orders, government reports, and scholarly research.

CRJ 196S. Ethics and the Criminal Justice System. 3 Units

Prerequisite(s): CRJ Majors or department chair permission

Term Typically Offered: Fall, Spring

Purpose of course is to learn various ethical considerations within the criminal justice system. Course will briefly explore the classical, philosophical foundations of ethics and proceed into surveying modern, ethical decision-making among the various criminal justice components. Criminal justice system ethics and decision-making of the police, prosecution, courts, corrections, and probation/parole from a managerial standpoint and a line perspective will be examined and critiqued. Emphasis will be placed on viable, practical solutions to ethical conundrums.

CRJ 198. Co-Curricular Activities. 1 - 3 Units

Prerequisite(s): Permission of the sponsoring professor and the Division Chair.

Term Typically Offered: Fall, Spring

Co-Curricular activities related to the subject matters and intellectual concerns of the Division of Criminal Justice, including service learning, related community service assignments, and service on University and community policy making bodies.

CRJ 199. Special Problems. 1 - 3 Units

Prerequisite(s): Restricted to declared CRJ majors or chair permission and senior status.

Term Typically Offered: Fall, Spring

Individual projects or directed reading, open only to those students who appear competent to carry on individual work.

CRJ 200. Research Methods in Criminal Justice. 3 Units

Prerequisite(s): Classified graduate status, satisfactory completion of a basic statistics course.

Term Typically Offered: Fall, Spring

Research theory and methodology in Criminal Justice; research designs; conceptual models; design and preparation of Master's thesis prospectus.

Note: Graduate Writing Intensive (GWI) course.

CRJ 201. Advanced Research Design and Data in Criminal Justice. 3 Units

Prerequisite(s): CRJ 200

This course provides applied explanations of advanced research designing, use of data development strategies, and techniques for effective data analysis using statistical software. Topics generally covered include: (1) issues and techniques in advanced research design with emphasis on theory testing and hypothesis formulation; (2) measurement, data collection strategies, reliability and validity of measures and results, sampling, surveys; and, (3) examination of qualitative versus quantitative research techniques, working with observational data, field research issues, and triangulation.

Note: Required core course

CRJ 205. Criminal Justice Policy Analysis. 3 Units

Prerequisite(s): Classified Graduate status, CRJ 200, CRJ 201, CRJ 255, and CRJ 260.

Term Typically Offered: Fall, Spring

Examination of responses of the criminal justice system to major current issues with attention to factors influencing their effects; review of uses and limitations of various responses; appraisal of the consequences of various criminal justice policy alternatives.

CRJ 207. Criminal Justice Research and Program Evaluation. 3 Units

Prerequisite(s): CRJ 200, CRJ 201, CRJ 255 and CRJ 260

Term Typically Offered: Fall, Spring

Systematic review of selected evaluations of major criminal justice programs, demonstration projects, experiments, and innovations; introduction to basic techniques of interpretation and analysis of research findings to determine outcomes.

CRJ 210. Critical Examination of Law and Justice. 3 Units

Prerequisite(s): CRJ 200, CRJ 201, CRJ 255 and CRJ 260

Term Typically Offered: Fall, Spring

Examines the historical, theoretical, and practical developments that gave rise to the dominance of legal formalism in the American legal tradition. Examines the multiple challenges to that model, including legal realism, the sociology of law, critical legal studies, and critical race theory. Will critically examine the intersection of the American legal tradition with issues concerning the possibility and implementation of social justice strategies in diverse, and increasingly global contexts.
CRJ 220. Politics of Crime Legislation. 3 Units
Prerequisite(s): Classified Graduate status, CRJ 200, CRJ 201, CRJ 255, and CRJ 260.
Term Typically Offered: Fall, Spring

Familiarizes students with the legislative process, the performance of the legislature as it relates to the handling of crime bills and the role of interest groups and politics in the process of initiating and passing laws. Topics include: theoretical models of lawmaking, factors in legislative decision-making, the politics of crime legislation, ethics in politics, and how people influence and use the legislative process.

CRJ 230. The Prison. 3 Units
Prerequisite(s): CRJ 200, CRJ 201, CRJ 255 and CRJ 260
Term Typically Offered: Fall, Spring

Contemporary penal institutions will be studied using the literature in the social sciences, the biographies of prisoners, and the writings of prison critics.

CRJ 231. Graduate Seminar in Corrections. 3 Units
Prerequisite(s): CRJ 200, CRJ 201, CRJ 255 and CRJ 260
Term Typically Offered: Fall, Spring

Provides a historical analysis and discussion of the current state of corrections and correctional management. Theories of punishment will be addressed and management techniques will be covered. Goes beyond concepts of institutionalized corrections to explore modern correctional alternatives, correctional policy and special topics relevant to corrections.

CRJ 233. Psychodynamics of Confinement. 3 Units
Prerequisite(s): CRJ 200, CRJ 201, CRJ 255 and CRJ 260
Term Typically Offered: Fall, Spring

Examination of current conditions of confinement; review of confinement related factors common to populations in penal institutions, military installations, mental hospitals, prisoner of war camps, and concentration camps; investigation into the broader implications of conditions of confinement for society; survey of practical strategies for developing and implementing standards for confined populations.

CRJ 240. Contemporary Issues in Policing. 3 Units
Prerequisite(s): CRJ 200, CRJ 201, CRJ 255 and CRJ 260
Term Typically Offered: Fall, Spring

In-depth study of contemporary issues in policing in the U.S., including management, organization and issues confronting law enforcement at federal, state and local levels.

CRJ 250. Comparative Analysis of the Criminal Justice System. 3 Units
Prerequisite(s): CRJ 200, CRJ 201, CRJ 255 and CRJ 260
Term Typically Offered: Fall, Spring

Examination of alternative systems for criminal justice provides a basis for improved understanding of organizational and functional components within given sociopolitical environments. Through comparison of formal and operational levels, decision-making processes are made explicit with reference to historical, legal, social, and economic parameters in the administration of justice.

CRJ 251. White-Collar Crime. 3 Units
Prerequisite(s): CRJ 200, CRJ 201, CRJ 255 and CRJ 260
Term Typically Offered: Fall, Spring

Examines the underlying theories and the diverse nature of white-collar crime. Studies offenses associated with corporations, occupations, governments, enterprises and individuals. Examines the offenders and the organizational culture that facilitates criminal action. Topics include embezzlement, political corruption, employee theft, fraud, computer crime, and environmental crime. Study consequences for victims, offender characteristics and the theoretical explanations for the decisions by criminals to commit white-collar crimes.

CRJ 252. Violence and Victims. 3 Units
Prerequisite(s): CRJ 200, CRJ 201, CRJ 255 and CRJ 260
Term Typically Offered: Fall, Spring

Comprehensive survey of the literature on violence emphasizing high-fear crimes; the repetitively violent criminal; the emerging field of victimology; improved delivery of social services to victims; juvenile gangs; and the response of criminal justice agencies to urban violence.

CRJ 255. Crime, Criminology and Criminal Justice. 3 Units
Prerequisite(s): Classified graduate status.
Term Typically Offered: Fall, Spring

Study of major criminological theories, their ideological premises and basic assumptions, interrelationships, and the shifts in emphasis and focal points in the study of criminality. Analyzes post and current applications of theory to the intervention strategies of crime control.

CRJ 256. Historical Analysis of the American Criminal Justice System. 3 Units
Prerequisite(s): Classified graduate status; CRJ 200, CRJ 201, CRJ 255 and CRJ 260
Term Typically Offered: Fall, Spring

Evolution and historical foundations of American patterns of crime and violence, criminological theories, law enforcement structures and philosophies, the adult criminal justice system, and the juvenile system will be traced through three distinct historical periods: Colonial and Early American Roots, 1609-1814; Creating the American Criminal Justice System, 1815-1900; and Reforming the Criminal Justice System, 1900 to present.

CRJ 257. The Nature Of Terrorism. 3 Units
Prerequisite(s): CRJ 200, CRJ 201, CRJ 255 and CRJ 260
Term Typically Offered: Fall, Spring

Theoretical approaches to the study of terrorism and analysis of terrorist theory and strategies. Topics include operational definitions of terrorism, typologies of terrorism, threat analysis of terrorism in the U.S., and responses of the criminal justice system to acts of hostage-taking, bombing, political murder, and narco-terrorism.

CRJ 260. Management of Complex Justice Organizations. 3 Units
Prerequisite(s): Classified graduate status.
Term Typically Offered: Fall, Spring

Description, analysis, solution, and synthesis of contemporary management problems in criminal justice organizations; presentation and exemplary implementation of management concepts significant to criminal justice organizations; review of case studies for management problem recognition; and the study of operational systems.
CRJ 262. Administration of Juvenile Justice. 3 Units
Prerequisite(s): CRJ 200, CRJ 201, CRJ 255 and CRJ 260
Term Typically Offered: Fall, Spring

Theoretical and empirical study of the cause and control of delinquent behavior. Assessment of policies and practices of agencies involved in juvenile justice including the impact of recent federal and state legislation.

CRJ 266. Personnel Administration in Justice Organizations. 3 Units
Prerequisite(s): CRJ 200, CRJ 201, CRJ 255 and CRJ 260
Term Typically Offered: Fall, Spring

Provides an in-depth understanding of the history, theories, laws, processes, issues and unique environment shaping contemporary personnel administration in a variety of criminal justice agencies.

CRJ 267. Criminal Justice Issues in Collective Bargaining and Arbitration. 3 Units
Prerequisite(s): Classified graduate status; CRJ 200, CRJ 201, CRJ 255 and CRJ 260
Term Typically Offered: Fall, Spring

Designed to provide the criminal justice practitioner and administrator with an understanding of criminal justice labor-management relations and collective bargaining and difference resolution, along with conflict resolution practices as applied to inmate-custody and control situations.

CRJ 281. Special Topics in Criminal Justice. 3 Units
Prerequisite(s): CRJ 200 & CRJ 255, or equivalent.
Term Typically Offered: Fall

Introduces students to a variety of pressing issues as special topics that impact Criminal Justice and provides an opportunity to explore those special topics in greater depth. Students conduct research using multiple sources on a variety of topics, participate in seminar discussions, and present findings in presentations and reports.

Note: May be repeated for credit with permission of the Graduate Coordinator when the special topic is different.

CRJ 289. Criminal Justice Systems of the Future. 3 Units
Prerequisite(s): CRJ 200, CRJ 201, CRJ 255 and CRJ 260
Term Typically Offered: Fall

Societal structures, definitions of deviance and criminal behavior, social problems related to criminality, the nature of systems for handling criminal and sanctions in future societies.

CRJ 295. Internship. 3 Units
Prerequisite(s): Classified graduate status
Term Typically Offered: Fall

Supervised graduate student placement in selected criminal justice agencies with emphasis on research and evaluation project assignments. Credit/No Credit

CRJ 296A. The Mentally Ill Individual in the Criminal Justice System. 3 Units
Prerequisite(s): Graduate student status
Term Typically Offered: Fall, Spring

A critical analysis of how mentally ill individuals interface with the criminal justice system, from first contacts with the police, to their entry into the jails, courts, prisons, and then reentry into the community via parole and probation. Current and historical topics about the mentally ill will be explored via an in-depth analysis of the current literature regarding the mentally ill in the criminal justice system, which will be reviewed and critiqued.

CRJ 296K. Emergency Management. 3 Units
Prerequisite(s): Graduate status; CRJ 200, CRJ 255, CRJ 256 and CRJ 260 or chair permission.
Term Typically Offered: Fall, Spring

Introduction to the authority, organization, responsibilities, challenges, and issues related to emergency management in California and the U.S., examines the implications of citizen involvement in preparation for and management of natural and man-made disasters. Graduate students will consider impact of terrorism on democratic governance issues and potential future trends and issues.

CRJ 299. Special Problems. 1 - 3 Units
Prerequisite(s): CRJ 200, CRJ 201, CRJ 255 and CRJ 260
Term Typically Offered: Fall, Spring

Individual projects or directed reading. Open only to students who are competent to carry on individual work. Credit/No Credit

CRJ 500. Culminating Experience. 3 Units
Prerequisite(s): Advancement to candidacy.
Term Typically Offered: Fall, Spring

Completion of a thesis or project approved for the Master’s degree. A thesis requires an original contribution to knowledge in a traditional research format. A project is a significant undertaking of a pursuit appropriate to the profession. It must evidence originality and independent thinking, appropriate form and organization and a rationale.

CRJ 501. Culminating Experience: Thesis/Project Development. 3 Units
Prerequisite(s): Advancement to candidacy.
Term Typically Offered: Fall, Spring

Provides students with an opportunity to develop a foundation for their culminating experience. Students will complete the initial components of their project or thesis including the Statement of the Problem, Literature Review, and Human Subjects application. Students are expected to read assigned materials and engage in weekly discussions about their progress and experience with other students, the instructor, and their advisor (as needed). Credit/No Credit
CRJ 502. Culminating Experience: Thesis or Project. 3 Units
Prerequisite(s): Advanced to candidacy; satisfactory completion of CRJ 501.
Term Typically Offered: Fall, Spring
Completion of a thesis or project approved for the Master's degree. A thesis requires an original contribution to knowledge in a traditional research format. A project is a significant undertaking of a pursuit appropriate to the profession. It must evidence originality and independent thinking, appropriate form and organization and a rationale.
Credit/No Credit

Dance (DNCE)

DNCE 1A. Jazz Dance Level IA. 2 Units
Term Typically Offered: Fall, Spring
Theory and practice of basic beginning jazz techniques.
Note: May be repeated for up to 4 units of credit.

DNCE 1B. Jazz Dance Level IB. 2 Units
Term Typically Offered: Fall, Spring
Continued theory and practice of beginning jazz techniques.
Note: Does not satisfy degree requirements for major, all students welcome. May be repeated for up to 4 units of credit.

DNCE 1C. Jazz Dance Level IC. 2 Units
Term Typically Offered: Fall, Spring
Further theory and practice of beginning jazz techniques.
Note: May be repeated for up to 4 units of credit.

DNCE 2A. Contemporary Dance Level IA. 2 Units
Term Typically Offered: Fall, Spring
Introduction to the history and techniques of the contemporary dance and modern dance tradition through basic dance principles and aesthetics including the introduction to contemporary movement to develop and improve strength, flexibility, balance, coordination and creative expression.
Note: Does not satisfy degree requirements for major, all students welcome.

DNCE 2B. Contemporary Dance Level IB. 2 Units
Term Typically Offered: Fall, Spring
Continues the introduction of the history and techniques of contemporary dance and the modern dance tradition through a deepened study of basic dance principles and aesthetics including the continued practice of contemporary movement to continue the development and improvement of strength, flexibility, balance, coordination and creative expression.
Note: Does not satisfy degree requirements for major, all students welcome.

DNCE 2C. Contemporary Dance Level IC. 2 Units
Term Typically Offered: Fall, Spring
Further introduction to the history and techniques of the contemporary dance and modern dance tradition through a further study of basic contemporary dance principles and aesthetics including the further practice of contemporary movement for the deepened development and improvement of strength, flexibility, balance, coordination and creative expression.
Note: Does not satisfy degree requirements for major, all students welcome.

DNCE 3A. Ballet Level IA. 2 Units
Term Typically Offered: Fall, Spring
Introduction to the history and development of traditional ballet techniques. Students will study ballet principles and aesthetics and continue to learn basic ballet movement, vocabulary, and skills.
Note: Does not satisfy degree requirements for major, all students welcome.

DNCE 3B. Ballet Level IB. 2 Units
Term Typically Offered: Fall, Spring
This course provides a continued introduction to the history and development of traditional ballet techniques. Students will study ballet principles and aesthetics and continue to learn basic ballet movement, vocabulary, and skills.
Note: Does not satisfy degree requirements for major, all students welcome.

DNCE 3C. Ballet Level IC. 2 Units
Term Typically Offered: Fall, Spring
This course provides a further introduction to the history and development of traditional ballet techniques. Students will expand upon their earlier study of ballet principles and aesthetics and continue to learn basic ballet movement, vocabulary, and skills.
Note: Does not satisfy degree requirements for major, all students welcome.

DNCE 4A. Tap Dance Level IA. 2 Units
Term Typically Offered: Fall, Spring
Introduction to fundamental tap dance skills including basic steps, history and vocabulary, and style development.
Note: May be repeated for up to 4 units of credit. Satisfies degree requirement, all students welcome.

DNCE 4B. Tap Dance Level IB. 2 Units
Term Typically Offered: Fall, Spring
Continued introduction to fundamental tap dance skills including a deepened study of basic steps, history and vocabulary, and continued style development.
Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome.
DNCE 4C.     Tap Dance Level IC.  
Term Typically Offered: Fall, Spring  
2 Units

Further introduction to fundamental tap dance skills including an expanded study of basic steps, history and vocabulary, and further style development  
Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome.

DNCE 5A.     Mexican Folklorico Level IA.  
Term Typically Offered: Fall, Spring  
2 Units

Introduction to dances typically and traditionally performed by Mexican and Latin Americans exploring the interrelationship of dance culture to historical events, holidays, and people throughout the Americas and with opportunities to learn folk dances representative of specific regions of Mexico and Latin America.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome.

DNCE 5B.     Mexican Folklorico Level IB.  
Term Typically Offered: Fall, Spring  
2 Units

Continued introduction to dances typically and traditionally performed by Mexican and Latin Americans with deepened exploration of the interrelationship of dance culture to historical events, holidays, and people throughout the Americas and with further study of folk dances representative of specific regions of Mexico and Latin America.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirement, all students welcome.

DNCE 5C.     Mexican Folklorico Dance Level IC.  
Term Typically Offered: Fall, Spring  
2 Units

Further introduction to dances typically and traditionally performed by Mexican and Latin Americans with expanded exploration of the interrelationship of dance culture to historical events, holidays, and people throughout the Americas and with further study of folk dances representative of specific regions of Mexico and Latin America.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirement, all students welcome.

DNCE 6A.     Hip Hop Level IA.  
Term Typically Offered: Fall, Spring  
2 Units

Introduction to the fundamentals of Hip Hop and Urban dance skills, including basic steps, history, and vocabulary.

Note: May be repeated for up to 4 units of credit. Does not satisfy degree requirement, all students welcome.

DNCE 6B.     Hip Hop Level IB.  
Term Typically Offered: Fall, Spring  
2 Units

Continues the introduction of the fundamentals of Hip Hop and Urban dance skills, with a deepened study of basic steps, history, and vocabulary.

Note: May be repeated for up to 4 units of credit, does not satisfy degree requirement, all students are welcome.

DNCE 6C.     Hip Hop Level IC.  
Term Typically Offered: Fall, Spring  
2 Units

Further introduction of the fundamentals of Hip Hop and Urban dance skills, with an expanded study of basic steps, history, and vocabulary.

Note: May be repeated for up to 4 units of credit, does not satisfy degree requirement, all students are welcome.

DNCE 11A.     Jazz Dance Level IIA.  
Term Typically Offered: Fall, Spring  
2 Units

Theory and practice of current jazz techniques including continued study of movement vocabulary with an emphasis on the different jazz styles. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 11B.     Jazz Dance Level IIB.  
Term Typically Offered: Fall, Spring  
2 Units

Continued theory and practice of current jazz techniques including the continued study of movement vocabulary with an emphasis on the different jazz styles. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during the first week of classes, all students welcome.

DNCE 11C.     Jazz Dance Level IIC.  
Term Typically Offered: Fall, Spring  
2 Units

Further expanded theory and practice of current jazz techniques including the deepened study of movement vocabulary with an emphasis on the different jazz styles. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during the first week of classes, all students welcome.

DNCE 12A.     Contemporary Dance Level IIA.  
Term Typically Offered: Fall, Spring  
2 Units

Examination of theories of the contemporary dance and modern dance tradition that develops proficiency in performing intermediate level contemporary dance techniques from an intellectual and kinesthetic understanding. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 12B.     Contemporary Dance Level IIB.  
Term Typically Offered: Fall, Spring  
2 Units

Continued examination of theories of the contemporary dance and modern dance tradition that continues the proficiency in performing intermediate level contemporary dance techniques with a deepened intellectual and kinesthetic understanding. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.
DNCE 12C. Contemporary Dance Level IIC. 2 Units
Term Typically Offered: Fall, Spring

Further examination of theories of the contemporary dance and modern dance tradition that further expand the proficiency in performing intermediate level contemporary dance techniques from a deeper intellectual and kinesthetic understanding. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 13A. Ballet Level IIA. 2 Units
Term Typically Offered: Fall, Spring

Understand and demonstrate proficiency of Ballet movement and vocabulary including different styles while learning the importance of proper anatomical alignment, collaboration of foot and arm positions, and appreciation of classical musical accompaniment. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 13B. Ballet Level IIB. 2 Units
Term Typically Offered: Fall, Spring

Continued understanding and deepened demonstration of proficiency of Ballet movement and vocabulary including different styles while learning the importance of proper anatomical alignment, collaboration of foot and arm positions, and appreciation of classical musical accompaniment. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 13C. Ballet Level IIC. 2 Units
Term Typically Offered: Fall, Spring

Further understanding and expanded demonstration of proficiency of Ballet aesthetics through Ballet movement and vocabulary including different styles while learning the importance of proper anatomical alignment, collaboration of foot and arm positions, and appreciation of classical musical accompaniment. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 14A. Tap Dance Level IIA. 2 Units
Term Typically Offered: Fall, Spring

Development and refinement of intermediate tap skills and vocabulary through the study of historical and current tap styles. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 14B. Tap Dance Level IIB. 2 Units
Term Typically Offered: Fall, Spring

Continued development and refinement of intermediate tap skills and vocabulary through the deepened study of historical and current tap styles. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 14C. Tap Dance Level IIC. 2 Units
Term Typically Offered: Fall, Spring

Further development and refinement of intermediate tap skills and vocabulary through the expanded study of historical and current tap styles. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 21. First Year Seminar: Becoming an Educated Person. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Introduction to the meaning of higher education, resources of the University, and skills for lifelong learning. Designed to help students develop academic success strategies and to improve information literacy, intercultural competence, and integrative thinking. Provides students with the opportunity to interact with fellow students and seminar faculty to build a community of academic and personal support.

DNCE 22. Music for Dance. 2 Units
Prerequisite(s): DNCE 1A or DNCE 1B or DNCE 1C or DNCE 2A or DNCE 2B or DNCE 2C or instructor permission.
Term Typically Offered: Fall only

Experiential course exploring the musical elements utilized by the dancer, choreographer, and teacher of dance including a survey of music history and vocabulary; rhythms and theory; musical and dance phrasing; and dance performance musicality. This course fulfills requirements for the Dance Major and Dance Minor, non-dance major or minor students welcome.

DNCE 96A. Hip Hop Level IIA. 2 Units
Term Typically Offered: Fall, Spring

Theory and practice of Hip Hop and Urban dance skills, including continued study of steps/movement, history, and vocabulary with an emphasis on multiple styles. May be counted for Dance Major with advisor approval, all students are welcome. Instructor permission through course audition required.

Note: May be repeated for up to 4 units of credit

DNCE 111A. Jazz Dance Level IIIA. 2 Units
Term Typically Offered: Fall, Spring

Advanced training in the theory and practice of jazz techniques. Instructor with dance faculty representatives will audition students during first week of class for proper placement.

Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.
DNCE 111B. Jazz Dance Level III B.
Term Typically Offered: Fall, Spring

Continued training at the advanced level in the theory and practice of Jazz Dance techniques. Instructor with dance faculty representatives will audition students during first week of class for proper placement.
Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 111C. Jazz Dance Level III C.
Term Typically Offered: Fall, Spring

Further advanced training at a deepened level for the theory and practice of jazz techniques. Instructor with dance faculty representatives will audition students during first week of class for proper placement.
Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 112A. Contemporary Dance Level III A.
Term Typically Offered: Fall, Spring

Advanced training in the theory and practice of Contemporary Dance techniques and Modern Dance Traditions. Instructor with dance faculty representatives will audition students during first week of class for proper placement.
Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 112B. Contemporary Dance Level III B.
Term Typically Offered: Fall, Spring

Continued training at the advanced level in the theory and practice of Contemporary Dance techniques and Modern Dance Traditions. Instructor with dance faculty representatives will audition students during first week of class for proper placement.
Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 112C. Contemporary Dance Level III C.
Term Typically Offered: Fall, Spring

Further advanced training at a deepened level for the theory and practice of Contemporary Dance techniques and Modern Dance Traditions. Instructor with dance faculty representatives will audition students during first week of class for proper placement.
Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 113A. Ballet Level III A.
Term Typically Offered: Fall, Spring

Advanced training in the theory and practice of Ballet including proper alignment, collaboration of foot and arm positions, and appreciation of classical musical accompaniment. Instructor with dance faculty representatives will audition students during first week of class for proper placement.
Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 113B. Ballet Level III B.
Term Typically Offered: Fall, Spring

Continued training at the advanced level in the theory and practice of Ballet including proper alignment, collaboration of foot and arm positions, and appreciation of classical musical accompaniment. Instructor with dance faculty representatives will audition students during first week of class for proper placement.
Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 113C. Ballet Level III C.
Prerequisite(s): Instructor permission
Term Typically Offered: Fall, Spring

Further refinement within the proficiency of performing Ballet techniques while expanded intellectual and kinesthetic understanding of different Ballet styles which will be attained through the further emphasis of anatomy and the expanded building of the bodily strength and endurance through barre and center work.
Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome. Audition during first week of classes, all students welcome.

DNCE 118. Dance Improvisation.
Term Typically Offered: Spring only

Exploration of the creation of movement through improvisation. Students will simultaneously explore and create, while spontaneously performing inner-directed movement without intellectual censorship.
Note: May be repeated for up to 4 units of credit. Satisfies degree requirements, all students welcome.

DNCE 120. Dance Composition I.
Prerequisite(s): DNCE 118 or instructor approval
Term Typically Offered: Fall only

An exploration of the principle elements and processes utilized in the choreographic process.
Note: Satisfies degree requirements, all students welcome

DNCE 122. Dance Composition II.
Prerequisite(s): DNCE 120 or Instructor permission.
Term Typically Offered: Fall, Spring

An in-depth exploration of the concepts, approaches, and processes used to further develop a stylistic approach to Dance Composition.
Note: Satisfies degree requirements, all students welcome.

DNCE 130. Appreciation and History of Dance.
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

Survey in the appreciation and history of dance and the relationship of dance to the fine and liberal arts in Western Civilization. Emphasis upon the history of ballet; American modes of expression: modern and jazz forms.
Note: Non-activity.
DNCE 131. Dance Cultures Of America. 3 Units
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), Arts (Area C1)
Term Typically Offered: Fall, Spring

Survey course in the appreciation and understanding of dance cultures in America. The relationship of dance to the identity and expression of different cultural groups in the U.S. will be examined. Jazz, modern, and ballet from a multicultural perspective will be the focus of the class.
Note: Non-activity.

DNCE 132. African-Caribbean Dance. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1), Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring

Introduction to the rich dance cultures of the Caribbean. Students will learn the different dances of Haiti, Cuba, Jamaica and Trinidad as they relate to their function in secular and religious culture, including the study of the Dunham Dance Technique.
Note: May be repeated for up to 6 units of credit.

DNCE 142. Dance Science and Somatics. 3 Units
Prerequisite(s): Upper division standing, or instructor permission.
Term Typically Offered: Fall, Spring

The study of skeletal structure, joint and muscle function, and the mechanics of movement geared specifically for dancers and movement practitioners. Incorporated into the course will be the study of embodied awareness practices - Somatics. The structural and energetic connections of the body will be explored within a context of both ease and efficiency of movement as well as creative expression.
Note: May be repeated for up to 6 units of credit. Satisfies degree requirement, all students welcome.

DNCE 143. University Dance Company. 1 Unit
Term Typically Offered: Fall, Spring

Participation in the University Dance Company includes pre-professional dance conditioning and performance skill acquisition. Fulfills requirement for Dance Major and elective for Dance Minor; all students welcome to audition.
Note: Admission by audition only, this course is approximately 30 hours of participation in mandatory weekly class.

DNCE 150. Dance Theory and Criticism. 3 Units
Prerequisite(s): DNCE 122, DNCE 130, DNCE 131, instructor permission.
Term Typically Offered: Fall, Spring

Exploration of the contemporary theories and philosophies of movement, specifically in the dance genres of modern and jazz. Also explores personal aesthetics and how to look at dance from a critical writing and oral presentation perspective. The role of the audience as well as the critic will be assessed and students will learn to evaluate content of movement in relation to its intention, motivation, and delivery.

DNCE 160. Creative Dance for Children. 3 Units
Term Typically Offered: Spring only

Exploration of creative dance as it applies to young children; including exploration of non-locomotor and locomotor movement patterns through problem solving and guided discovery techniques.
DEAF 57. ASL Classifiers. 2 Units
Prerequisite(s): DEAF 53; may be taken concurrently
Term Typically Offered: Spring only

Students will develop increased understanding of the types and uses of classifiers in ASL and develop further abilities to utilize this component of ASL in their expressive and receptive signing abilities through in-class practice, viewing of videotaped narratives, and individual practice outside of class.

DEAF 60. Introduction to Deaf Studies. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Course introduces students to topics central to the deaf and deaf community, including audiology, education, culture, and history. Utilizing readings, lectures and group discussion, students will learn about the anatomy and causes of deafness, early intervention and education of deaf children, communication strategies and their effectiveness, the deaf as a cultural group and deaf/hearing relationships. Upon course completion, students will understand deaf individuals and their community in a holistic perspective and apply this knowledge toward further studies into the deaf culture and community.

DEAF 154. American Sign Language 4. 4 Units
Prerequisite(s): DEAF 53
Term Typically Offered: Fall, Spring

Principles, methods and techniques of manual communication with deaf people using American Sign Language. Emphasis on the continuation of developing advanced manual communication skills with a focus on techniques for informing others of factual information and instruction about rules and methods for students who will work or interact with adult deaf persons. Continuation of the analysis of the culture of deafness with emphasis on participation in the community.

Note: Taught in ASL without voice.

DEAF 155. American Sign Language 5. 4 Units
Prerequisite(s): DEAF 154 or instructor permission.
Term Typically Offered: Fall, Spring, Summer

Students will build upon communicative skills developed in EDS 154 to develop and expand on their abilities to discuss parts of the body and health conditions, tell a personal narrative about themselves and moments in their and others’ lives, as well as to retell and translate simple stories into ASL.

DEAF 161. Deaf History. 3 Units
Prerequisite(s): DEAF 60, DEAF 154
Term Typically Offered: Fall, Spring

An overview of the education of the deaf from prehistoric times to the present will be provided. Roots of current trends and events in deaf education will be explored, with projections for the future. Current issues such as mainstreaming, cochlear implants, communication modalities for instruction and others are discussed in both a historical context and from a deaf perspective.

DEAF 162. Deaf Culture and Community. 3 Units
Prerequisite(s): DEAF 60, DEAF 154
Term Typically Offered: Fall, Spring

Course introduces students to deaf people as a cultural and linguistic minority in America through coverage of sociolinguistic, anthropological, and historic issues in the development of deaf culture and community in America and worldwide. Utilizing readings, lectures and group discussion, topics will include: theories of culture; language use; cross-cultural interaction and intercultural processes, and deaf literature and art. Upon course completion, students will understand current and past educational, legal and medical policies and their impact on deaf and hard-of-hearing people.

DEAF 163. ASL Literature. 3 Units
Prerequisite(s): DEAF 154
Term Typically Offered: Spring only

Students will learn several different forms of ASL literature. Aspects of both form and content will be analyzed as well as their role in the preservation and circulation of Deaf cultural forms. Students will also learn to perform narratives and/or poems in ASL. They will understand the effects of genre, style, perspective, and other artistic techniques on ASL signed art performances, and utilize similar techniques in their developed performances. Students may perform their stories for a general audience.

Note: Course taught in ASL with No Voice.

DEAF 164. Sign Language Structure and Usage. 3 Units
Prerequisite(s): DEAF 154 or instructor permission.
Term Typically Offered: Fall only

Examines origins and linguistic structure of American Sign Language (ASL). Cross-linguistic comparisons with spoken and signed languages of other countries will be made. Students will learn aspects of ASL phonology, morphology and syntax. Sociolinguistic aspects of ASL usage in regard to gender, ethnicity, geographical region and educational status will be discussed. Conducted entirely in American Sign Language.

DEAF 165. Seminar: Current Issues in the Deaf World. 3 Units
Prerequisite(s): DEAF 154 or instructor approval.
Term Typically Offered: Fall, Spring

This course will explore a specific theme of interest to faculty and students within the program, with course content changed each semester. Selected topics will touch upon issues of special concern and interest to the Deaf community such as genetics, multicultural issues, media representations of deafness, theatre and performance art, visual arts, and other subjects which may arise in the future. Course will consist of readings, discussion, independent research, and viewing of various media as appropriate.

Note: 1) May be repeated when different topic is offered with a different instructor of record 2) Course taught in ASL with No Voice.

DEAF 165A. Spec. topic: English/ASL Translation. 3 Units
Prerequisite(s): DEAF 154
Term Typically Offered: Fall only – even years

This course will focus on translation from written English to ASL. Texts will be examined at the lexical, phrasal, sentential, and extended text levels. Idiomatic and metaphorical language will also be explored. The aim of this course is to develop an understanding of the lexical and syntactical relationships between ASL and English, with the end goal being the students’ ability to produce grammatically and conceptually correct signed translations of printed English texts.
DEAF 165B. Spec. Topic: Deaf Education - Power & Politics. 3 Units
Prerequisite(s): DEAF 60, DEAF 154, DEAF 161, DEAF 162
Term Typically Offered: Spring only – even years

This course will explore issues of special concern and interest to the Deaf community. More specifically, this course will explore power dynamics and politics of Deaf education through four different dimensions: Language deprivation, audism, educational leadership, and parents of d/Deaf children. The course will consist of readings, discussion, independent research, and viewing of various media as appropriate.

DEAF 165C. Technology and The Deaf Community. 3 Units
Prerequisite(s): DEAF 154 or instructor permission.
Term Typically Offered: Fall only – odd years

This course will focus on technology for communication and sound access and its use within the Deaf Community. The history of this technology and its development will be examined for what makes it useful and acceptable to Deaf/HOH individuals. This overview will include analysis of the processes of development and marketing of these devices. The hidden burden of device development and usage will be examined using need and usability analysis.

Note: Conducted entirely in American Sign Language.

DEAF 165D. Spec. Topic: Global Deaf Languages & Cultures. 3 Units
Prerequisite(s): DEAF 60, DEAF 154, DEAF 162
Term Typically Offered: Spring only – odd years

This course explores the phenomenon of International Sign, centering around three themes: (1) Sociolinguistics – How languages emerge and change; (2) International Sign – What it is, what it isn’t, and how meaning is constructed; and (3) Deaf Communities around the globe.

DEAF 165E. Deaf Representation in Media. 3 Units
Prerequisite(s): DEAF 60, DEAF 154, DEAF 162
Term Typically Offered: Spring only – odd years

This course will explore issues of special concern and interest to the Deaf community, specifically relating to Deafness and mass media representation. Examples from journalism, TV, film, advertising, photography, documentaries, comic art, and the Internet will be provided and analyzed. The course will consist of readings, discussion, independent research, and viewing of various media as appropriate.

DEAF 166. Experiences in the Deaf Community - Dynamics of Oppression and Building Allyship. 3 Units
Prerequisite(s): DEAF 155, DEAF 161, DEAF 162.
Term Typically Offered: Fall, Spring, Summer

This course links active participation in the Deaf community to the content of previous Deaf Studies courses. In particular this course examines how to be a good ally within the Deaf community in the midst of a context of power, privilege and difference. Following a Service Learning model, students will collaborate on various service projects contributing to the Deaf community. Field trip.

Note: Course taught in ASL with No Voice.

Field trip(s) may be required.

DEAF 199. Independent Study in Deaf Studies. 1 - 3 Units
Prerequisite(s): DEAF 154
Term Typically Offered: Fall, Spring

Individual projects designed especially for students capable of independent study.

Note: Departmental petition required.
DSGN 101.  World Design and Visual Culture.  3 Units
Term Typically Offered: Fall only

A history of western and non-western design with an emphasis on how design influences, and in turn influenced by, cultural, political, economic, and technologic forces. The course will look at design practice (architecture, urbanism, products, graphics, etc.) through two distinct lenses: one focusing on visual and physical qualities, the other on how design effects the lives of the many diverse groups that interact with the products of this practice.

Economics (ECON)

ECON 1A.  Introduction to Macroeconomic Analysis.  3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Introductory inquiry into the workings and interrelationships of the aggregate economic system. The primary focus is on total production and its distribution, employment and price levels, and the forces influencing them. Other considerations are the roles of government, the monetary sector, and related areas.

ECON 1B.  Introduction to Microeconomic Analysis.  3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Introductory microeconomic analysis of the workings of supply and demand in the determination of price, resource allocation, and distribution. Markets are analyzed as they affect economic efficiency and income distribution.

ECON 21.  First Year Seminar: Becoming an Educated Person.  3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Introduction to higher education for an economics major or student interested in social sciences, to the resources of the University, and to the skills for lifelong learning. Designed to help students develop academic success strategies, time management, and to improve information literacy, intercultural competence, and integrative thinking. Special attention to how economists view the world and an understanding of current events and social issues. Provides students with the opportunity to interact with peers and faculty, building a community of support.

ECON 100A.  Intermediate Macroeconomic Theory.  3 Units
Prerequisite(s): ECON 1A, ECON 1B, and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.
Term Typically Offered: Fall, Spring

Analysis of the determinants of the aggregate level of output, income, employment and prices.

ECON 100B.  Intermediate Microeconomic Theory.  3 Units
Prerequisite(s): ECON 1B and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.
Term Typically Offered: Fall, Spring

Analysis of household and firm behavior as the foundation of supply and demand.

ECON 101.  History of Economic Thought.  3 Units
Prerequisite(s): ECON 1A, ECON 1B.
Term Typically Offered: Fall, Spring

Analysis of the development of economic theory from the predecessors of Adam Smith through John Maynard Keynes. The contributions made to the discipline by its principal figures are compared and evaluated.

ECON 104.  Introduction to the United States Economy.  3 Units
Term Typically Offered: Fall, Spring

One semester survey of the principles of economics, basic methods of economic analysis, and their application to public policy and current events.

Note: Not open to students who have had ECON 1A or ECON 1B or those majoring in economics.

ECON 110.  Cost Benefit Analysis.  3 Units
Prerequisite(s): ECON 1B and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.
Term Typically Offered: Fall, Spring

Examines the rationale for government provision of goods and services and presents cost-benefit analysis as a method to evaluate public participation in a market economy.

ECON 112.  European Economic History.  3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Analysis and evaluation of the economic forces and institutions shaping European economic development through the present period. Attention will be paid to the relationship between changes in the economic environment and attendant cultural, political, and ideological developments in the stages of tribalism, slavery, feudalism, capitalism, and socialism.

ECON 113.  Economic History of the United States.  3 Units
Prerequisite(s): ECON 1A or ECON 104.
Term Typically Offered: Fall, Spring

Consideration of the economic growth and development of the U.S. with emphasis on a theoretical analysis of the economic factors shaping the national destiny.

ECON 114.  The California Economy.  3 Units
Prerequisite(s): ECON 1A and ECON 1B, or ECON 104.
Term Typically Offered: Fall only

Examination of the process of the development of the State's economy as well as analysis of the various public economic issues that are of contemporary concern to Californians.

ECON 120.  Economics and Environmental Degradation.  3 Units
Term Typically Offered: Fall, Spring

Analyzes environmental issues as economic issues. Economics as both a cause and cure for environmental destruction.

ECON 123.  Resource Economics.  3 Units
Prerequisite(s): ECON 1B and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.
Term Typically Offered: Fall, Spring

Analyzes the economic based problem of exhaustion in both renewable and non-renewable resources. Emphasis is given to the optimal use of these resources over time and the effects that various market and non-market factors have on their future availability.
ECON 130. Public Finance. 3 Units
Prerequisite(s): ECON 1A, ECON 1B, and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade; ECON 100B recommended.
Term Typically Offered: Fall, Spring
Economic analysis of the public sector and its impact on the allocation of resources and the distribution of income. Emphasis given to the economics of government expenditure and taxation.

ECON 132. State and Local Government Finance. 3 Units
Prerequisite(s): ECON 1A, ECON 1B, and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.
Term Typically Offered: Fall only
Analysis of the economics of state and local government finance, with an emphasis on California's fiscal system.

ECON 135. Money and Banking. 3 Units
Prerequisite(s): ECON 1A and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.
Term Typically Offered: Fall, Spring
Examines the role of financial markets, the banking system, and the Federal Reserve System in the economy. Included are an introduction to present value and the behavior of interest rates, analysis of money creation, and evaluation of monetary policy.

ECON 138. Monetary and Fiscal Policy. 3 Units
Prerequisite(s): ECON 100A and ECON 140 with a minimum "C" grade.
Term Typically Offered: Fall, Spring
Analyzes the policies of central banks and fiscal authorities as they relate to the stability and growth of the macroeconomy. Examines the theoretical and empirical literature regarding the conduct of monetary and fiscal policy and applies the tools of economic analysis to understand macroeconomic policy debates.

ECON 140. Quantitative Economic Analysis. 3 Units
Prerequisite(s): ECON 1A, ECON 1B, STAT 1, and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.
Term Typically Offered: Fall, Spring
Examination of the basics of conducting quantitative economic analysis. Included are basic concepts and methods of data analysis and research. Students will examine economic data using spreadsheets, will develop presentation skills, and be introduced to career opportunities.

ECON 141. Introduction to Econometrics. 3 Units
Prerequisite(s): ECON 1A, ECON 1B, ECON 140, and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade; ECON 100A or ECON 100B recommended.
Term Typically Offered: Fall, Spring
Covers the basics of regression analysis, estimation, and forecasting.

ECON 145. Economic Research Methods. 3 Units
Prerequisite(s): ECON 100A, ECON 100B, ECON 140 with a minimum "C" grade; GWAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109 M/W.
Term Typically Offered: Fall, Spring
Covers the basics of conducting applied economic research: the selection of topic, literature survey, choice of research method, formulation of hypothesis, testing of hypothesis using empirical analysis, and summary and conclusions. Designed to enhance the students ability to integrate economic theory, quantitative research skills, and research.

ECON 150. Labor Economics. 3 Units
Prerequisite(s): ECON 1A, ECON 1B, and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.
Term Typically Offered: Spring only
Economic analysis of labor markets, with special reference to employment, wage determination, and the role of government.

ECON 152. Economics of Education. 3 Units
Prerequisite(s): ECON 1B and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.
Term Typically Offered: Fall only
Introduction to the various aspects of the economics of education. Applies the tools of economic analysis to education policy and problem solving. Topics include cost-benefit analysis of education, the signaling vs. human capital debate, race and gender issues in education, education production functions, and financing education at the elementary, secondary, and post-secondary levels. Emphasis placed on individual and social choice in education.

ECON 153. Health Economics. 3 Units
Prerequisite(s): ECON 1B and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.
Term Typically Offered: Fall only
Introduction to the field of health economics. Applies the tools of economics to the production of health and health care. Special emphasis on health care institutions, the role of industry, health care reform, and the role of government, in addition to the public provision of care to the disadvantaged.

ECON 150. Labor Economics. 3 Units
Prerequisite(s): ECON 1A, ECON 1B, and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.
Term Typically Offered: Spring only
Economic analysis of labor markets, with special reference to employment, wage determination, and the role of government.

ECON 162. Energy Economics. 3 Units
Prerequisite(s): ECON 1B and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.
Term Typically Offered: Fall, Spring
Analyzes the structure, conduct, and consequences of domestic and international energy markets. Particular emphasis on regulated industries including petroleum, electrical, and other power sources. The economic impact on energy markets of emerging technology is examined.
ECON 163. Behavioral and Experimental Economics. 3 Units
Prerequisite(s): ECON 100B
Term Typically Offered: Fall only

Introduction to the fields of behavioral and experimental economics. Applies tools of microeconomic theory to the decisions made by individuals. Special emphasis on the utility maximization hypothesis, decision making in the face of risk and uncertainty, intertemporal choice, other regarding preferences, game theory, and neuroeconomics.

ECON 170. Public Economics and Regulation. 3 Units
Prerequisite(s): ECON 1B and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.
Term Typically Offered: Spring only

Examination of government regulation of industry in the North American context: transportation, communication, energy, and other industries. Issues include deregulation, public ownership, pricing, and investment.

ECON 180. Urban Economics. 3 Units
Prerequisite(s): ECON 1B and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.
Term Typically Offered: Spring only

Economic analysis and appraisal of models of urban development. Includes consideration of the rise of cities, land use, unemployment, poverty, housing, urban renewal, transportation, and the local public sector.

ECON 181. Economics of Racism. 3 Units
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), GE AREA D
Term Typically Offered: Spring only

Economic analysis of the origins and development of racism, focusing mainly on its impact in the U.S. Differing theoretical explanations surrounding racism will be compared and evaluated.

ECON 184. Women and the Economy. 3 Units
Term Typically Offered: Fall only

Investigation of the current economic status of women in the U.S., of past and present economic discrimination experienced by women in the labor market, of the historical reasons for that discrimination and of the means and methods of ending that discrimination.

ECON 186. Sports Economics. 3 Units
Prerequisite(s): ECON 1B and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.
Term Typically Offered: Fall, Spring

Applies the essential economic concepts and develops them with examples and applications from the sports industry. Covers basic economic concepts: economic principles, supply and demand, perfect competition, and monopoly behavior. It also applies these concepts to a variety of topics: the public finance of sports franchises, the costs/benefits of a sports franchise to a city, labor markets and labor relations, discrimination, and amateurism and college sports.

ECON 189. Economics at the Movies. 3 Units
Term Typically Offered: Fall only

Analysis of the use and treatment of economic theory and history in popular American films. Emphasis is placed on the topics of game theory, industrial organization, entrepreneurship, law and economics, labor economics, the stock market, and American economic history. The entertainment industry will also be examined from an economic perspective.

ECON 190. International Trade. 3 Units
Prerequisite(s): ECON 1A, ECON 1B and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.
Term Typically Offered: Fall, Spring

Analysis of the causes and results of trade among nations. Introduction to modern trade theory is combined with examination of trade instruments and policy analysis.

ECON 192. International Finance. 3 Units
Prerequisite(s): ECON 1A, ECON 1B and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.
Term Typically Offered: Fall, Spring

Critical examination of the theories and practices of financing trade among nations. International financial and monetary theories focus on how the world and financial system works, given globalization and international economic integration.

ECON 193. Development Economics. 3 Units
Prerequisite(s): ECON 1A, ECON 1B, and MATH 24 or MATH 26A or MATH 30 with a minimum "C" grade.
Term Typically Offered: Fall, Spring

An analysis of the factors involved in the growth of economies. The focus is on the application of development economics and growth theory to the process of economic growth in developing countries. Particular attention is given to variables that explain growth, namely, technological progress, population growth, saving, trade, human capital and education, and the role of institutions.

ECON 195. Economic Internship. 1 - 3 Units
Term Typically Offered: Fall, Spring

Supervised economic-related work experience, research, or teaching assistance to provide an opportunity for the student to apply principles and theories learned in the classroom to the "real world." Credit/No Credit

ECON 196P. Economics of Personal Finance. 3 Units
Prerequisite(s): ECON 1A or ECON 1B
Term Typically Offered: Fall, Spring

Applies economic tools and models to evaluate personal financial decisions including investment in higher education, housing, retirement accounts, and traditional and emerging financial markets with a focus on risk and return. Assessment of personal decision-making including career choice, marriage, divorce, and retirement timing to maximize utility and smooth consumption throughout the lifecycle.
ECON 196R. Economic Programming and Data Analysis. 3 Units
Prerequisite(s): Econ 1A, Econ 1B, and Econ 140
Term Typically Offered: Fall, Spring
Inquiry into the basic principles of data analysis and computer programming. The primary focus is on data management and the associated visual optimization and statistical inference in economics using programming languages, such as R and Python. More advanced topics include the use of cross validation, algorithms, and theoretical modeling for data analysis and problem-solving.

ECON 196S. Economics of Financial Markets. 3 Units
Prerequisite(s): STAT 1, Econ 1A, Econ 100B
Term Typically Offered: Fall, Spring
Study and critical analysis of economic theories of financial markets to include rational expectations, the efficient markets hypothesis, roles of time, uncertainty and information in economic transactions, risk aversion in the context of utility maximization and portfolio choice theory, the Capital Asset Pricing Model and multi-factor asset pricing models, an introduction to behavioral finance, and an examination of financial instability and distributional effects of increasing financialization. Includes rigorous development of relevant theories and study of published empirical literature.

ECON 198. Tutoring in Economics. 1 - 3 Units
Term Typically Offered: Fall, Spring
Supervised tutorials at educational institutions including Sacramento State where and when appropriate arrangements can be made. Prior approval for tutoring must be obtained from the Economics Department. Emphasis is on the development of effectiveness in the teaching of economics.
Credit/No Credit

ECON 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading. Admission requires approval of the faculty sponsor and the Department Chair.
Credit/No Credit

ECON 200A. Advanced Macroeconomic Theory. 3 Units
Prerequisite(s): Econ 141 and Econ 200M.
Term Typically Offered: Fall, Spring
Theories of the determinants of aggregate income, employment and prices. May be taken independently of Econ 200B.

ECON 200B. Advanced Microeconomic Theory. 3 Units
Prerequisite(s): Econ 200M.
Term Typically Offered: Fall, Spring
Theories of the consumer, producer, and market structure. May be taken independently of Econ 200A.

ECON 200C. Advanced Applied Economics. 3 Units
Prerequisite(s): Econ 200A, Econ 200B, and Econ 241.
Term Typically Offered: Fall, Spring
Applies empirical analysis to topics in microeconomics and macroeconomics. Topics may include stationarity, vector autoregression, vector error correction models, calibration, fixed effects, instrumental variables, multinomial logit, and duration models. Students implement these models using econometric software. Students will write an empirical paper intended to become a prospectus for the master's thesis.

ECON 200M. Mathematics for Economists. 3 Units
Prerequisite(s): Econ 100A, Econ 100B, Math 26A.
Term Typically Offered: Fall, Spring
Equips students with the mathematical techniques necessary for the study of economics and econometrics at the graduate level. Covers linear algebra, derivatives, comparative static analysis, optimization, integrals, and differential equations, with specific applications from economic and econometric theory.

ECON 204. Business Economics. 3 Units
Term Typically Offered: Fall, Spring
Intensive one-semester course covering both macroeconomics and microeconomics. Emphasis is on economic analysis and policy. Designed for graduate students who have not taken Econ 1A and Econ 1B or their equivalents.

ECON 213. U.S. Economic Development in Historical Perspective. 3 Units
Prerequisite(s): Admission to MA program in Economics.
Term Typically Offered: Fall, Spring
Introduction and analysis of American economic development from a historical perspective, focusing on the trajectory of American economic development from recent advances in theoretical and empirical economics literature. Cover topics on long-term economic growth, technological change, business cycles and fluctuations, financial markets, labor markets, and economic impacts of social change.

ECON 230. Public Finance. 3 Units
Prerequisite(s): Econ 200B.
Term Typically Offered: Fall, Spring
An analysis of the allocation and distribution effects of government expenditures and taxation.
ECON 238. Monetary and Fiscal Policy. 3 Units
Prerequisite(s): ECON 200A.
Term Typically Offered: Fall, Spring
Analyzes the policies of central bank and fiscal authorities as they relate to full employment and stability of the national economy.

ECON 241. Applied Econometric Analysis. 3 Units
Prerequisite(s): ECON 141
Corequisite(s): ECON 200M
Term Typically Offered: Fall only
Applied econometric analysis emphasizes the use of econometric techniques in actual economic research settings and expressing economic theory in the form of econometric models, data collection, estimation, and interpretation of results. Students will develop an understanding of the econometric tools used to analyze empirical economic questions by working individually on a research project developed in consultation with the instructor.

ECON 251. Urban Problems, Economics and Public Policy. 3 Units
Term Typically Offered: Fall, Spring
Historical development, economics and possible policy solutions of the most pressing problems facing central cities and urban areas in the U.S. are presented. Problems discussed include poverty, crime, urban abandonment/suburban sprawl, edge cities, deteriorating infrastructures, and fiscal stress. Cross Listed: PPA 251; only one may be counted for credit.

ECON 260. Industrial Organization and Performance. 3 Units
Prerequisite(s): Classified graduate status in Economics or instructor permission.
Term Typically Offered: Fall, Spring
A modern analysis of industry structure, conduct, and performance. Emphasis is placed on the use of game theory to address firm behavior, including price and output decisions, entry and exit, horizontal mergers, technological change, and marketing issues.

ECON 263. Food Economics. 3 Units
Prerequisite(s): Graduate standing or instructor permission.
Term Typically Offered: Fall, Spring
Introduction to advanced economic theory and econometric methods applied to the economics of food with emphasis on food consumption and the complexity of individual food choices. Utilizing cost-benefit analyses and concepts like constrained utility maximization, household production, opportunity costs of time, and information search, implications for a global food system will be derived. We will apply learned concepts to health and environmental concerns by discussing the recent applied economics and policy evaluation literature.

ECON 265. Cost Benefit Analysis. 3 Units
Term Typically Offered: Fall, Spring
Examination of the theories, foundations, and philosophies of economic welfare. Specifically, the basic techniques of cost-benefit analysis will be presented and applied to various policy issues.

ECON 290. International Trade. 3 Units
Prerequisite(s): Classified graduate status in Economics or instructor permission.
Term Typically Offered: Fall, Spring
Analysis of modern trade theories, their empirical relevance, and the role of multinational firms in the evolution of international trade patterns. Discussion focuses on theoretical and empirical evaluation of trade policy instruments. Various trade agreements are also discussed in the context of economic integration and globalization. Attention is also given to foreign direct investment as a vehicle of globalization and the challenges it poses to both multinational firms and host countries.

ECON 295. Economic Internship. 1 - 3 Units
Term Typically Offered: Fall, Spring
Supervised work experience or research on economic topics in government, financial, business, charitable or other kinds of institutions to provide an opportunity for the student to apply principles and theories learned in the classroom to the "real world." Partial supervision may be supplied by persons in the institution under study. Credit/No Credit

ECON 298. Tutoring In Economics. 1 - 3 Units
Term Typically Offered: Fall, Spring
Supervised tutorials at educational institutions including Sacramento State where and when appropriate arrangements can be made. Prior approval for tutoring must be obtained from the Economics Department. Emphasis is on the development of effectiveness in the teaching of economics. Credit/No Credit

ECON 299. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading. Admission requires approval of the faculty sponsor and the Department Chair. Credit/No Credit

ECON 500. Master's Thesis. 3 Units
Prerequisite(s): Advanced to candidacy and chair permission of his/her thesis committee.
Term Typically Offered: Fall, Spring
Completion of a thesis approved for the Master's degree. Should be taken in final semester prior to the completion of all requirements for the degree.

Ed.D. in Educational Leadership (EDD)

EDD 600. Transformational Leadership. 3 Units
Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission.
Term Typically Offered: Fall, Spring
Designed to engage students in understanding, implementing, and evaluating strategic leadership practices based on various theories, models, and approaches for achieving organizational transformation. Students will become skilled facilitators of the organizational transformation process by initiating, implementing, sustaining, and evaluating transformation/change efforts. Students will build a solid foundation through the integration of theory and practice in order to implement a planned change process in their home institution.
EDD 601. Organizational Leadership. 3 Units
**Prerequisite(s):** Admission into the Ed.D. in Educational Leadership Program and instructor permission.
**Term Typically Offered:** Fall, Spring

Builds and expands on candidates’ knowledge of systems thinking, personal and organizational behaviors, and leadership approaches to the change process. Candidates will demonstrate ethical thinking and action in organizational settings by re-conceptualizing leadership roles and organizational structures. In coursework and related fieldwork components students will apply concepts and theories to improving their respective educational institutions. Among the interactive pedagogies used are: case studies, experiential exercises, dialogue and group activities.

EDD 602. Policy and Practice for Educational Leaders I. 3 Units
**Prerequisite(s):** Admission into the Ed.D. in Educational Leadership Program and instructor permission.
**Term Typically Offered:** Fall, Spring

Develops in students the skills for informed analysis of educational policy in order to positively influence the educational policy in the K-12 or community college setting. In addition to studying the historical perspectives pertaining to educational policy, practice, and reform, students will investigate the mission of public education. Students will also study governance and inter-governmental relations through contemporary policy development with particular reference to current law, local board policy, shared governance, and working with a variety of constituencies.

EDD 603. Policy and Practice for Educational Leaders II. 3 Units
**Prerequisite(s):** Admission into the Ed.D. in Educational Leadership Program and instructor permission.
**Term Typically Offered:** Fall, Spring

Designed to engage students in critical analyses of policy at the local, state, national, and international levels. Specific California and federal policy environment structures and processes will be examined. Students will learn about how public policy is generated, potential consequences, ethical dilemmas, social justice, and equity issues.

EDD 604. Introduction to Educational Research. 3 Units
**Prerequisite(s):** Admission into the Ed.D. in Educational Leadership Program.
**Term Typically Offered:** Fall only

This course introduces students educational research design, methodologies, findings, and audience. Students will learn the overall design uses of education research, including problem statements, research questions, hypotheses, and conceptual frameworks. They will study qualitative, quantitative, and mixed-methods research designs in preparation for conducting independent research. Students will analyze how educational researchers and leaders use qualitative and quantitative data in policy and practice, enabling them to understand and critique different research tools across educational areas and issues.

EDD 605. Qualitative Research Methods. 3 Units
**Prerequisite(s):** Admission into the Ed.D. in Educational Leadership Program.
**Term Typically Offered:** Spring only

This course is designed to provide doctoral students with instruction in qualitative research approaches as applied to questions of educational leadership and policy. The course will emphasize individual and group interviewing as techniques for qualitative study data collection as well as coding and analysis of qualitative data. This course is particularly useful for doctoral students who plan to conduct a qualitative or mixed method dissertation related to an educational leadership and/or policy topic.

EDD 606. Quantitative Research Methods. 3 Units
**Prerequisite(s):** Admission into the Ed.D. in Educational Leadership Program.
**Term Typically Offered:** Fall only

This course will introduce educational leaders to concepts in quantitative research in preparation for conducting independent research. This course will enable students to critically understand, critique, and develop quantitative research methodology and apply it appropriately to various educational issues.

EDD 607. Community and Communication in Educational Leadership. 3 Units
**Prerequisite(s):** Admission into the Ed.D. in Educational Leadership Program and instructor permission.
**Term Typically Offered:** Fall, Spring

Presents theories and frameworks concerning organizational, interpersonal, and cross-cultural communication in educational and community contexts. Includes developing written and verbal skills for specific contexts, including strategic planning, evaluation, presentations, formal and informal texts, technology, crisis management, and public relations. Through research and practical application, enhances communication skills needed for creating inclusive systems and positive results for all stakeholders.

EDD 608. Diversity and Equity in Complex Organizations. 3 Units
**Prerequisite(s):** Admission into the Ed.D. in Educational Leadership Program and instructor permission.
**Term Typically Offered:** Fall, Spring

Designed to engage students in self introspection of awareness and advocacy in applying theoretical frameworks and research to promote equitable, excellence in schooling. Students will demonstrate the ability to develop cross-cultural relationships across multiple constituents for the purpose of improving students performance and promoting social justice. Students will develop the capacity to be courageous change agents in assuring academic excellence for all students.
EDD 609. Human Resource Management for Educational Leaders. 3 Units

Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission.

Term Typically Offered: Fall, Spring

Examines how to manage human resources effectively in the dynamic legal, social, and economic environment currently impacting educational institutions. Among the topics included are: formulation and implementation of human resource strategy, job analysis, methods of recruitment and selection, techniques for training and development, performance appraisal, compensation and benefits, and the evaluation of the effectiveness of human resource management frameworks and practices. Class participants will be expected to demonstrate understanding of Human Resource Management (HRM) competencies through assignments, exercises and case analyses.

EDD 610. Curriculum and Instruction Issues for Educational Leaders. 3 Units

Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission.

Term Typically Offered: Fall, Spring

Presents curriculum and instruction from a leadership perspective within the contexts of K-12 schools and community colleges. Students examine contemporary issues in school curriculum, including policy initiatives and reform efforts affecting curricular decision-making. Prepares students to analyze and design appropriate strategies for implementing and evaluating district and school curricula and to investigate the implications of curricula for educational programming. Students also learn specific foundations and procedures for professional development that have well-documented effects on student achievement.

EDD 611. Legal Issues for Educational Leaders. 2 Units

Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission.

Term Typically Offered: Fall, Spring

Examines key legal issues that govern daily and long-range decisions of educational leaders. Focuses on understanding California and federal codes, case law, policies, and significant precedent and will emphasize analysis of key legal concepts and application of law to major areas including finance, personnel, risk management, curriculum, student services, teacher rights, torts, students rights, and access. Examines trends in law and the initiation and influence of educational law to positively influence educational institutions.

EDD 612. Student Services in Education. 2 Units

Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission.

Term Typically Offered: Fall, Spring

Provides a comprehensive insight into the student services. It addresses both practical and theoretical perspectives intended to build a sense of vision and passion to transform the profession of student affairs and leadership. In particular, examines four distinct arenas: 1) historical and philosophical foundations of student affairs and leadership 2) management and organizational issues, 3) essential skills and professional development in building an equitable organization, and 4) the synthesis of practice and theory.

EDD 613. Finance and Budget for Educational Leaders. 3 Units

Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission.

Term Typically Offered: Fall, Spring

Analyzes two related topics with respect to public educational institutions: funding and internal budget management. Provides a state and national overview of the economics and finance of K-12 and higher education, including private and public benefits of education, methods of financing public education, and contemporary policy issues regarding school and college finances. Focuses on how educational leaders can most effectively manage resources to further the vision, goals, and philosophy of the organization.

EDD 614. Issues in Educational Leadership: Synthesis and Application. 2 - 3 Units

Prerequisite(s): Successful completion of all previous courses in the EDD program (EDD 600-EDD 613) with a grade of B or higher and no incompletes.

Term Typically Offered: Spring only

This seminar integrates the principal three themes of the program: leadership, policy, methods, and equity. Students will take a qualifying exam to demonstrate their mastery of key program skills, concepts, and theories and their readiness to undertake dissertation research.

EDD 615. Dissertation Proposal Seminar. 6 Units

Prerequisite(s): Passed Ed.D. Qualifying Examination and instructor permission.

Term Typically Offered: Fall, Spring

Provides faculty and peer guidance in preparation of material to develop the dissertation proposal. Students will be guided in the clarification of dissertation topic, familiarization with relevant literature, and the development of a sound methodology. Students will learn how to critically analyze and provide constructive criticism to key research components proposed by others. At the end students are expected to complete the first three chapters of their dissertation in anticipation of their dissertation defense.

EDD 616. Dissertation I. 6 Units

Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission.

Term Typically Offered: Fall, Spring

Each candidate will work with a dissertation advisor (dissertation committee chair) to conduct independent research leading to the completion of a dissertation. Twelve units of dissertation study will be required for completion of the program.

Note: Students must have passed their qualifying examination and successfully defended their dissertation proposal.

Credit/No Credit
EDD 616A. Dissertation I - Seminar. 3 Units
Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission.
Corequisite(s): EDD 616B.
Term Typically Offered: Fall, Spring

Each candidate will work with a dissertation advisor (dissertation committee chair) to conduct independent research leading to the completion of a dissertation. Twelve units of dissertation study will be required for completion of the program. This course provides a 3 unit seminar in support of the first phase of the dissertation.
Note: Students must have passed their qualifying examination and successfully defended their dissertation proposal.

Credit/No Credit

EDD 616B. Dissertation I - Research and Writing. 3 Units
Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission.
Corequisite(s): EDD 616A.
Term Typically Offered: Fall, Spring

Each candidate will work with a dissertation advisor (dissertation committee chair) to conduct independent research leading to the completion of a dissertation. Twelve units of dissertation study will be required for completion of the program. This course provides a 3 unit seminar in support of the second phase of the dissertation.
Note: Students must have passed their qualifying examination and successfully defended their dissertation proposal.

Credit/No Credit

EDD 617. Dissertation II. 6 Units
Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and completion of EDD 616 and instructor permission.
Term Typically Offered: Fall, Spring

Each candidate will work with a dissertation advisor (dissertation committee chair) to conduct independent research leading to the completion of a dissertation. Twelve units of dissertation study will be required for completion of the program.

EDD 617A. Dissertation II - Seminar. 3 Units
Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission. EDD 616A.
Corequisite(s): EDD 617B.
Term Typically Offered: Fall, Spring

Each candidate will work with a dissertation advisor (dissertation committee chair) to conduct independent research leading to the completion of a dissertation. Twelve units of dissertation study will be required for completion of the program. This course provides a 3 unit seminar in support of the second phase of the dissertation.
Note: Students must have passed their qualifying examination and successfully defended their dissertation proposal.

Credit/No Credit

EDD 617B. Dissertation II - Research and Writing. 3 Units
Prerequisite(s): Admission into the Ed.D. in Educational Leadership Program and instructor permission. EDD 616B.
Corequisite(s): EDD 617A.
Term Typically Offered: Fall, Spring

Each candidate will work with a dissertation advisor (dissertation committee chair) to conduct independent research leading to the completion of a dissertation. Twelve units of dissertation study will be required for completion of the program.
Note: Students must have passed their qualifying examination and successfully defended their dissertation proposal.

Credit/No Credit

EDD 623. Educational Foundations. 3 Units
Term Typically Offered: Fall only

This course introduces major sociological theories, key education history and policy, current and reoccurring equity debates in education—concepts fundamental to educational leadership, policy, and doctoral research. It includes a survey of seminal theorists, social theory, and its application; key historical events, facts, policies, and decisions that influence and situate contemporary educational practice; and important equity debates, such as segregation and tracking, access and quality, public and private roles, testing and accountability, and others.

Education (ED)

ED 300B. Teaching Performance Assessment-Multiple Subject Literacy. 1 Unit
Term Typically Offered: Fall, Spring

Candidates in the Teacher Preparation Program must complete the Teaching Event for the Performance Assessment for California Teachers. The Teaching Event requires candidates to plan and teach an instructional sequence in their student teaching placement. They must also assess student learning during this lesson sequence and submit a videotape with material recorded during the lesson sequence. The Teaching Event is a summative assessment and one of several requirements that must be completed in order to receive a recommendation for a teaching credential.

Credit/No Credit

Education (EDUC)

EDUC 1. Education, Equity, & American Society. 3 Units
General Education Area/Graduation Requirement: GE AREA D, Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring, Summer

This introductory course provides an overview of the broad landscape of public education in the United States. The course includes three units: 1) Historical Moments in Education, 2) Contemporary Issues in Education, and 3) Social Justice Approaches in Education. Each unit introduces students to ways in which race, ethnicity, and intersectional identities have shaped students’ experiences in schools. The goal of the course is to acquaint students with historical practices and systems that inform present school conditions, and socially just reforms.
EDUC 10. Critical Thinking and the Educated Person. 3 Units
General Education Area/Graduation Requirement: Critical Thinking (A3)
Term Typically Offered: Fall, Spring

Examines thinking process patterns and dispositions for self, children, parents and educators. Familiarizes students with critical thinking, provides a systematic approach to its process and components. Students will learn about problem solving, decision-making, logical and creative thinking. The study of critical thinking will be supplemented with readings, discussions, and written assignments. Implements critical thinking applications used both in student's academic and personal lives.

EDUC 10H. Critical Thinking and the Educated Person: Honors. 3 Units
Prerequisite(s): Open only to Honors students.
General Education Area/Graduation Requirement: Critical Thinking (A3)
Term Typically Offered: Fall, Spring

This introductory course will examine the thinking process patterns and dispositions for self, children, parents and educators. The purpose of this course is to familiarize students with critical thinking, and to provide a systematic approach to its process and components. Students will learn about problem solving, decision-making, logical and creative thinking. The study of critical thinking will be supplemented with readings, discussions, and written assignments. The course will implement critical thinking applications used both in student's academic and personal lives.

EDUC 18. Mathematical Practices Across Cultures. 3 Units
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Fall, Spring

Introduction to diverse mathematical thought, action and practices across cultures. Mathematics will be seen from a diversity of contexts. Learners will consider how diverse contexts and traditions both reflect a culture's heritage and world view and influence the mathematics learned and used. Topics covered include: ethnomathematics, mathematical modeling, and cultural connections in relation to diverse forms of quantitative reasoning, problem solving, number systems, organization, perceptions of time and space as experienced by diverse traditions and peoples.

EDUC 21. First Year Seminar: Becoming an Educated Person. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Introduction to the meaning of higher education, resources of the University, and skills for lifelong learning. Designed to help students develop academic success strategies and to improve information literacy, intercultural competence, and integrative thinking. Provides students with the opportunity to interact with fellow students and seminar faculty to build a community of academic and personal support.

EDUC 77. Career Vision Seminar. 1 Unit
Term Typically Offered: Fall, Spring

Through meetings with 10-15 peers, in this 1 unit seminar students will do the following: clarify core values, interests and strengths; identify and apply for a volunteer, internship or part-time entry-level position related to careers of interest to students; and create a publicly viewable online skills portfolio showcasing what students are learning in college and how that learning relates to the world of work.

EDUC 99. Special Problems. 1 - 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Individual projects designed especially for lower division students capable of independent study. Focus is on issues and topics involving exceptional populations.

Note: may be repeated for up to 12 units of credit
Credit/No Credit

EDUC 100A. Educating Students with Disabilities in Inclusive Settings. 2 Units
Corequisite(s): EDUC 100B.
Term Typically Offered: Fall, Spring

This course provides an overview of current knowledge about individuals with disabilities within the context of inclusive educational and community-based settings, with substantial focus on the role of the educator in the education of students who have disabilities in diverse communities. Content includes historical factors, legislation, causes and characteristics, educational needs, educational strategies, including educational technologies, assessment, collaboration, and support services for individuals with disabilities ranging across mild, moderate, severe, and profound disability levels.

EDUC 100B. Educating Students with Disabilities in Inclusive Settings Lab. 1 Unit
Corequisite(s): EDUC 100A.
Term Typically Offered: Fall, Spring

Field-based 30-hour experience. Lab is a synthesis and application of EDUC 100A course content in educational settings for students birth to age 22 who receive special education services. Students will verify multiple experiences across the age-span and in inclusive educational settings, agencies, and community environments.

Credit/No Credit

EDUC 101A. Consultation Strategies for Educators of Students with Disabilities. 2 Units
Corequisite(s): EDUC 101B.
Term Typically Offered: Fall, Spring

Basic skills for effective collaboration and teaming are practiced through simulations, reflective case study analyses, and interviews with families, paraprofessionals, and related service providers. Cultural, socioeconomic and organizational implications are analyzed.

EDUC 101B. Consultation Strategies for Educators of Students with Disabilities - Lab. 1 Unit
Corequisite(s): EDUC 101A.
Term Typically Offered: Fall, Spring

Field-based practice lab (30 hours). Lab will be a synthesis and application of course content (EDUC 101A) in the development of basic collaboration strategies for individuals with mild/moderate disabilities. Students are required to participate in class visitations, interviews, and other field assignments.

Credit/No Credit
EDUC 102. Foundations in Career and Technical Studies. 3 Units
Prerequisite(s): Students need to be admitted to the BSCTS program.
Term Typically Offered: Fall, Spring, Summer

This course will introduce students to Career & Technical Studies with a focus on college and career readiness by developing a foundation for careers as teachers, trainers, and facilitators in the public and private sector. Students will also explore brain based learning, historical and legislative developments in CTE and Adult Education, lesson plan development, as well as different teaching and learning strategies for participation in a 21st century workforce.

EDUC 103. Assessment and Instruction in Adult and Organizational Training. 3 Units
Prerequisite(s): Students must be admitted to the BSCTS program.
Term Typically Offered: Fall, Spring, Summer

Demonstrates how to develop performance criteria, continuously assess learner performance levels and evaluate student achievement. Students develop a standard-based course outline and prepare training modules and units of instruction of use for individual, small group and whole class delivery systems.

EDUC 104. Teaching Issues of Diversity in Schools and Workplace. 3 Units
Prerequisite(s): Students must be admitted to the BSCTS program.
Term Typically Offered: Fall, Spring, Summer

Demonstrates how to encourage excellence among and design instruction from different gender, ethnic, sexual orientation, language, and ability groups. This course aims to include research and discussion on education and employment law in regards to sensitivity towards cultural heritages, principles of language acquisition, bias free instructional/workplace materials and inclusive practices.

EDUC 105. Advanced Instructional Design, Program Evaluation and Leadership in Career Technical Studies. 3 Units
Prerequisite(s): Students must be admitted to the BSCTS program.
Term Typically Offered: Fall, Spring, Summer

Explores aspects of CTS program design and management. Investigates aspects of organizing a program following guidelines detailed in the California Career Technical framework. Considers methods of program evaluation following the model set forth by the Western Association of Schools and Colleges (WASC). Examines leadership qualities and values, analyzing potential benefits and liabilities of various leadership styles.

EDUC 106. Individual Growth Through the Examination of Personal Assets, Philosophies and Life Experiences. 3 Units
Prerequisite(s): Students must be admitted to the BSCTS program.
Term Typically Offered: Fall, Spring, Summer

This course is designed as a primer for EDUC 107 by introducing concepts, exercises, and research that focus on the personal elements associated with leadership and self-growth. Participants will develop greater self-awareness and understanding of key personal assets/issues that impact leadership development and enhance organizational communication and growth. The impact of life experiences and personal philosophies will be discussed as they relate to effective leadership development. An inter-disciplinary approach to personal growth and development will be emphasized.

EDUC 107. Designing Solutions. 3 Units
Prerequisite(s): Students must be admitted to the BSCTS program.
Term Typically Offered: Fall, Spring, Summer

Offers student participation in innovative solutions to organization, team, and individual needs. Using design thinking’s iterative process, students will be able to identify needs and develop potential solutions to meet those needs to improve performance.

EDUC 109. Career Guidance in Career Technical Studies. 1 Unit
Prerequisite(s): Application for Review of Work Experience. Students must be admitted to the BSCTS program.
Term Typically Offered: Fall, Spring, Summer

Examines the professional history of students and assists them in gathering documentation to support their Experimental Learning Portfolio for submission to the CSU Reviewing Committee. Assists students in identifying goals for professional accomplishment. Credit/No Credit

EDUC 110. Current Issues in Workforce Development. 3 Units
Prerequisite(s): Students must be admitted to the BSCTS program.
Term Typically Offered: Fall, Spring, Summer

Course provides an in-depth investigation of various challenges and issues facing workforce development professionals in the public and private sectors. Students will utilize Design Thinking tools in order to identify and study critical workforce development issues, and develop solutions that benefit the individual and organization.

EDUC 111. Education for Career Technical Students with Special Needs. 3 Units
Term Typically Offered: Fall, Spring

Introduces concepts and practices of inclusion of special needs students as provided for under federal legislation and case law. Methods of adapting instruction and devising positive behavioral supports for students of diverse abilities are studied. Methods of assessing the progress of students with diverse abilities are examined.

EDUC 112. Organizational Policies, Finance and Legislation. 3 Units
Prerequisite(s): Students must be admitted to the BSCTS program.
Term Typically Offered: Fall, Spring, Summer

This course aims to provide students with information which will enhance their understanding of organizational finance, legislation and policies. Critical to this course is the understanding that Career and Technical Education (CTE) organizations rely on local, state and national policy, finance and legislation to function.

EDUC 113. Implement Digital Technologies with Ethical Knowledge. 3 Units
Prerequisite(s): Students must be admitted to the BSCTS program.
Term Typically Offered: Fall, Spring, Summer

Develop professional competencies in digital and emerging technologies, defined by the National Association of Colleges and Employers (NACE) taskforce. Cultivate a keen awareness about digital technologies when blending fundamental ethical principles and foresight to make quality decisions. Identify and implement effective pathways to learn and ethically adapt emerging technologies strategically. Solve problems effectively to attain sustainable goals.
EDUC 114. Theories and Practices of Multiculturalism in Schools and Organizations. 3 Units
Prerequisite(s): Students must be admitted to the BSCTES program.
Term Typically Offered: Fall, Spring, Summer

An introduction to the study of multiculturalism and its impact on schools and the workplace. The primary objective is to provide a learning environment which is conducive to the development of knowledge, understanding, and skills consistent with multicultural training and pluralistic philosophies. Students will examine the work of adult education theorists and business scholars that impact schools and the workforce. The course examines social institutions, beliefs, customs, and social trends affecting adult education, organizations, and the workforce.

EDUC 115. Improvement Science for Organizational Effectiveness. 3 Units
Prerequisite(s): Student must be admitted to the BSCTES program.
Term Typically Offered: Fall, Spring, Summer

Course explores improvement science methods for disciplined inquiry to solve specific problems of practice. Using assessment tools, strategic planning, systems thinking and organizational development, this course focuses on creating innovative solutions to business and marketplace challenges.

EDUC 116. Methods of Inquiry in Career Technical Studies. 3 Units
Prerequisite(s): Student must be admitted to the BSCTES program.
Term Typically Offered: Fall, Spring

This course provides students with a broad overview of methods and models of academic research. Students will evaluate sources and prioritize those with the highest quality according to key identifying factors. Students will gain understanding of how research models are matched to specific issues and problems within the domain of Career Technical Studies, and relate these to their own individual growth and career development based upon their particular interests, goals and strengths.

EDUC 117. Field Experience in Career Technical Education. 1 - 6 Units
Prerequisite(s): Student must be admitted to the BSCTES program.
Term Typically Offered: Fall, Spring

Individualized field experience designed collaboratively by the student and instructor.
Note: Department consent required

Credit/No Credit

EDUC 118. Integrative Perspectives in Leadership. 3 Units
Prerequisite(s): Students must be admitted to BSCTES program.
Term Typically Offered: Fall, Spring, Summer

This course explores methods of integrative thinking, holistic leadership practices, cultural perspectives, and mindful communication techniques for current and future leaders. This course defines leadership styles and gives students the opportunity to apply integrative thinking models across multiple disciplines.

EDUC 120. Literature For Children. 3 Units
Prerequisite(s): Must have Junior or higher standing to enroll in this course
Term Typically Offered: Fall, Spring

Historical and modern children’s literature; standards of selection and acquaintance with the leading authors and illustrators; procedures and practices in methodology.

EDUC 121. Multicultural Children’s Literature. 3 Units
Prerequisite(s): GWAR certification before Fall ’09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Race & Ethnicity Graduation Requirement (RE), Humanities (Area C2)
Term Typically Offered: Fall, Spring, Summer

Survey of historical and modern multicultural children’s literature examining standards of selection and acquaintance with the leading authors, illustrators and book awards; procedures and practice in methodology. Focus on children’s literature which represents the diversity in America and fosters an understanding of the cultural values, identity, and heritage of those populations.

EDUC 124A. Tutoring Children in Mathematics. 2 Units
Corequisite(s): EDUC 124B.
Term Typically Offered: Fall, Spring

Orientation to concept and practice of tutoring basic mathematics skills including developing conceptual understanding and the ability to scaffold instruction of addition, subtraction, multiplication and division of whole numbers, fractions, and decimals. After completing on-campus training, students are placed in nearby school districts. May be taken by all undergraduate students and is strongly recommended for students considering careers in education, criminal justice, psychology, and social work. It may also be used as an elective in the Blended Teacher Education Program.
Note: May be taken twice for credit.

Credit/No Credit

EDUC 124B. Tutoring Children in Mathematics: Practicum. 1 Unit
Corequisite(s): EDUC 124A.
Term Typically Offered: Fall, Spring

Practicum of tutoring basic mathematics skills and scaffolding instruction of addition, subtraction, multiplication and division of whole numbers, fractions, and decimals. After completing on-campus training, students are placed in nearby school districts. May be taken by all undergraduate students and is strongly recommended for students considering careers in education, criminal justice, psychology, and social work. It may also be used as an elective in the Blended Teacher Education Program.
Note: May be taken twice for credit.

Credit/No Credit

EDUC 125A. Tutoring Children in Reading. 2 Units
Corequisite(s): EDUC 125B.
Term Typically Offered: Fall, Spring

Orientation to concept and practice of tutoring basic reading skills including sight word recognition, word analysis skills, oral fluency, and comprehension. After completing on-campus training, students are placed in nearby school districts.
Note: Strongly recommended for students considering careers in education, criminal justice, psychology and social work. May be repeated once for credit. May also be used as an elective in the Blended Teacher Education Program.

Credit/No Credit

</thead>
<tbody>
<tr>
<td>EDUC 125B</td>
<td>Tutoring Children in Reading Practicum.</td>
<td>1 Unit</td>
<td>Fall, Spring</td>
<td></td>
<td></td>
<td>Field-based course provides a synthesis and application of course content learned in EDUC 125B. Students are placed in a primary level setting for at-risk students who read approximately two grade levels below their peers. The twice-weekly practicum focuses on comprehension questioning strategies, learning styles and differences, multicultural and ESL strategies, Reader's theater and poetry, and motivating students to achieve greater academic success.</td>
</tr>
<tr>
<td>EDUC 126</td>
<td>Assisting the Elementary Classroom Teacher</td>
<td>3 Units</td>
<td>Fall, Spring</td>
<td></td>
<td></td>
<td>Directly connected to hands-on classroom experiences. Students will be intensively trained in workshops, and will work as teacher assistants in public schools (4 hours per week). Students will learn strategies for working with diverse groups of students at all grade levels; keep weekly tutoring logs; and write a case study on a student and present their findings to the class. Students will reflect on their own growth and development.</td>
</tr>
<tr>
<td>EDUC 127A</td>
<td>Field Experience in After School STEM Programs.</td>
<td>2 Units</td>
<td>Fall, Spring</td>
<td></td>
<td></td>
<td>Orientation to high quality Science, Technology, Engineering, and Mathematics (STEM) instruction. On-campus training includes skills to develop conceptual understanding and ability to scaffold instruction for elementary and middle school aged students in STEM after school programs. After completing on-campus training, students assist with instruction in nearby school STEM programs.</td>
</tr>
<tr>
<td>EDUC 127B</td>
<td>Field Experience in After School STEM Programs: Practicum.</td>
<td>1 Unit</td>
<td>Fall, Spring</td>
<td></td>
<td></td>
<td>This course is designed to connect students with local public school partners in after school programs that support inquiry based STEM activities with K-8 children. After completing on-campus training, students then complete the practicum.</td>
</tr>
<tr>
<td>EDUC 128</td>
<td>Education and Communication in Korean Society</td>
<td>3 Units</td>
<td>Fall, Spring</td>
<td></td>
<td></td>
<td>This course is designed to explore various dimensions of the education and the communication in Korea. It will focus on (a) the Korean educational philosophy, system, and practices of all levels - preschool to higher education; (b) the Korean language in a variety of communicative contexts; and (c) how education and communication shape and interface. The similarities and differences in education and communication between South Korea and the United States will be also investigated.</td>
</tr>
<tr>
<td>EDUC 129</td>
<td>Teaching Science in Outdoor Settings.</td>
<td>3 Units</td>
<td>Fall, Spring</td>
<td></td>
<td></td>
<td>This course provides students with experiential learning in an outdoor setting with the aim of developing and implementing outdoor education activities for children grades 4-7. By engaging in the practices of mindfulness and ecotherapy, students will gain awareness and appreciation for the outdoors. Students will also gain knowledge on how to implement science-focused activities that incorporate the Next Generation Science Standards and California's Environmental Principles and Concepts while incorporating Social Emotional Learning Principles and Standards.</td>
</tr>
<tr>
<td>EDUC 130A</td>
<td>Typical &amp; Atypical Developmental Characteristics and Outcomes for Young Children with Disabilities.</td>
<td>2 Units</td>
<td>Fall, Spring</td>
<td></td>
<td>CHDV 30 or approved equivalent.</td>
<td>Examination of disabilities and risk factors and their influence on developmental competencies and outcomes for infants, toddlers, and young children. Content will include typical developmental patterns of young children, atypical development due to prenatal, perinatal and early childhood developmental risk factors including low incidence disabilities, and an introduction to interventions in a range of community settings to address the unique needs of these children and their families. Lecture.</td>
</tr>
<tr>
<td>EDUC 130B</td>
<td>Typical &amp; Atypical Developmental Characteristics and Outcomes for Young Children with Disabilities Lab.</td>
<td>1 Unit</td>
<td>Fall, Spring</td>
<td></td>
<td>CHDV 30 or approved equivalent.</td>
<td>Field-based practice lab (30 hours). Lab will be a synthesis and application of lecture/discussion course content in home based, center based, and community settings serving infants, toddlers, and young children with disabilities and their families.</td>
</tr>

</table>
EDUC 131A. Introduction to Family Centered Service Delivery in Early Childhood Special Education. 2 Units
Prerequisite(s): EDUC 130A and EDUC 130B or its equivalent.
Corequisite(s): EDUC 131B.
Term Typically Offered: Fall, Spring

Designed to enable participants to gain knowledge and develop skills necessary to provide culturally responsive, family-centered approaches to assessment and intervention for infants and young children with disabilities. Focus will be on the historical, theoretical, and philosophical bases for family-centered service delivery, including an emphasis on understanding family systems and family life stages, respect for cultural diversity, the IFSP process, collaborative parent-professional relationships, parent advocacy, and transition planning. Lecture.

EDUC 131B. Introduction to Family Centered Service Delivery in Early Childhood Special Education Laboratory. 1 Unit
Prerequisite(s): EDUC 130A and EDUC 130B or its equivalent.
Corequisite(s): EDUC 131A.
Term Typically Offered: Fall, Spring

Field-based practice lab (30 hours). Lab will be a synthesis and application of lecture course content (EDUC 131A) in home-based, center-based and/or community settings serving infants and young children with disabilities and their families. Credit/No Credit

EDUC 155. Introduction to Counseling. 3 Units
Term Typically Offered: Fall, Spring

Introduction to the profession of counseling, including differences between professional counseling and other professions, counseling theories, consultation skills and an introduction to basic counseling skills. Lecture three hours. Requirement for the Counseling minor, not included in 200-series 60 unit program for master’s degree.

EDUC 156. Power, Privilege and Self Identity in Counseling. 3 Units
Term Typically Offered: Fall, Spring

Focuses on understanding how one’s values, attitudes, belief systems impact perception of differences related to race, ethnicity, culture, etc. Experiential activities promote self awareness while developing capacity in becoming a culturally responsive/skilled counselor. Historical processes that created inter and intra group constructs are explored. Required for the Counseling Minor, not included in 200-series 60 unit master’s degree.

EDUC 157. Child and Family Psychopathology. 3 Units
Prerequisite(s): Students minoring in counseling must take CHDV 30 or CHDV 35 or PSYC 2.
Term Typically Offered: Fall, Spring

Examines the etiology of development and mental health issues in children, youth and caregivers, including genetic and socio-cultural factors. The classification and treatment of abnormal behavior within family contexts will also be explored. Recommended for human services majors such as child development, education, psychology, counseling, social work and criminal justice.

EDUC 158. Latinas/os/x in Education. 3 Units
General Education Area/Graduation Requirement: GE AREA D, Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring, Summer

This course provides an overview of Latinas/os/x educational experiences within the United States. Students will analyze how historical, contemporary, social, political, and economic forces have shaped Latinas/os/x educational access and attainment. The course will examine how identity markers such as race, ethnicity, language, immigration status, gender, and sexuality inform Latinas/os/x educational pathways. While the course centers on Latinas/os/x, students will compare and contrast Latinas/os/x educational experiences with other Students of Color.

EDUC 160. Urban Education. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X, or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), Writing Intensive Graduation Requirement (WI), GE AREA D
Term Typically Offered: Fall, Spring

Designed to enhance students’ knowledge of urban schooling, especially related to dynamics of race, class, and culture. Along with a Service Learning component in urban schools, provides analysis of the following: historical, socioeconomic, and political factors influencing urban education; the distribution of opportunity in cities and their schools; and effective instructional organizational practices that close the achievement gap, including the development of positive school cultures and the use of community services and resources.

EDUC 165. Power, Privilege and Self Identity in Counseling. 3 Units
Term Typically Offered: Fall, Spring

Focuses on understanding how one’s values, attitudes, belief systems impact perception of differences related to race, ethnicity, culture, etc. Experiential activities promote self awareness while developing capacity in becoming a culturally responsive/skilled counselor. Historical processes that created inter and intra group constructs are explored. Required for the Counseling Minor, not included in 200-series 60 unit master’s degree.

EDUC 160. Urban Education. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X, or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), Writing Intensive Graduation Requirement (WI), GE AREA D
Term Typically Offered: Fall, Spring

This course provides an overview of Latinas/os/x educational experiences within the United States. Students will analyze how historical, contemporary, social, political, and economic forces have shaped Latinas/os/x educational access and attainment. The course will examine how identity markers such as race, ethnicity, language, immigration status, gender, and sexuality inform Latinas/os/x educational pathways. While the course centers on Latinas/os/x, students will compare and contrast Latinas/os/x educational experiences with other Students of Color.
EDUC 168. Foundational Issues for a Multicultural, Pluralistic Society, B. 3 Units
Prerequisite(s): Admission and enrollment in BMED multiple subject credential program; EDBM 117.
Corequisite(s): EDBM 402B.
Term Typically Offered: Fall, Spring

Critical examination of the socio-political relationship between California’s public schools and its major population subgroups (as defined by culture, gender, social class, language, race/ethnicity, and ability). Candidates critically reflect on the philosophy and practices of schooling in relation to students’ culture, family and community; analyze institutional and instructional practices for educational equity; and develop alternative instructional activities based on the principles of multicultural education and English language learning in a democratic society. Lectures, discussions, small group work, simulations, field tasks.

EDUC 169. Cross-Cultural Bridges: A Humanist Approach to Education. 3 Units

General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring, Summer

This course is designed to expand students’ knowledge of how history informs present day dynamics of race, culture, and socioeconomic status in education. Students will examine how humanists in history navigated cultural differences. A critical discourse that centers on humanist pedagogy will be used to show how future educators, leaders, and students can evolve in their own identities to understand cultural differences and how they can create change.

EDUC 170. Introduction to Bilingual Education: Policies, Principles, Programs, and Practices. 3 Units
Term Typically Offered: Fall, Spring

Introductory study and exploration of important themes regarding the education of emergent bi/multilingual students in the context of race, language and power. Covers the history of bilingual education; relevant legal mandates and court rulings; first and second language acquisition; linguistic development; theory and practice of effective programs; and beginning methods, materials and strategies responsive to the students’ primary language and assessed levels of English proficiency. A fieldwork component involving the mentorship of an emergent bilingual student is required.

EDUC 171. Bilingualism in the Classroom. 3 Units
Term Typically Offered: Fall, Spring

Provides an overview of the language factors that impact first and second language acquisitions in the K-12 classrooms and will provide opportunities through which they will build a palette of strategies that can be utilized to enhance language development within the realms of listening, speaking, reading, writing, and thinking. A combination of theory and practice will provide the base as students read, discuss, listen to lectures, view videos, conduct in class and field-based tasks, and synthesize their thoughts in writing.

EDUC 172. Introduction to Hmong Literacy. 3 Units
Prerequisite(s): Fluent in Hmong
Term Typically Offered: Fall, Spring

This course covers fundamental literacy components of the Hmong language. It examines the historical development and maintenance of the Hmong oral and written language and related issues based on lectures, class discussions, group work, writing assignments, and a research paper. It fulfills one of the requirements for teaching credential students pursuing the Bilingual Cross Cultural Authorization (BCLAD).

EDUC 173. Hmong History and Culture. 3 Units
Term Typically Offered: Fall, Spring

This course covers history of the Hmong dated 5,000 years ago to the present. It examines Hmong history and culture as it evolves through living in various Asian countries and in the United States through lectures, class discussions, group work, writing assignments, and a research paper.

EDUC 175A. Pedagogy and Academic Language Skills in Spanish for Bilingual Educators (Multiple Subjects). 3 Units
Prerequisite(s): Spanish fluency/literacy required.
Term Typically Offered: Fall only

This course provides opportunities to improve Spanish language for academic and instructional purposes. Students will explore topics in bilingual/biliteracy development, research, and program models, language varieties in Spanish, issues of power and language, advocacy for bilingual students, and engagement with bilingual families, specifically for TK-8th grade dual language contexts. Students also will examine theoretical and pedagogical issues in bilingual education, learn to apply bilingual teaching and assessment methods, analyze TK-8th grade language use, and evaluate Spanish curricular materials.

EDUC 175B. Pedagogy and Academic Language Skills in Spanish for Bilingual Educators (Single Subject). 3 Units
Prerequisite(s): Spanish fluency/literacy required.
Term Typically Offered: Fall only

This course provides opportunities to improve Spanish language for academic and instructional purposes. Students will explore topics in bilingual/biliteracy development, research, and program models, language varieties in Spanish, issues of power and language, advocacy for bilingual students, and engagement with bilingual families, specifically for secondary bilingual contexts. Students also will examine theoretical and pedagogical issues in bilingual education, learn to apply bilingual teaching and assessment methods, analyze 7th-12th grade language use, and evaluate Spanish curricular materials. Includes field component.

EDUC 190A. Becoming an Educator I. 2 Units
Prerequisite(s): All of the following: CHDV 30 or CHDV 35; and CHDV 35F, or equivalents.
Term Typically Offered: Fall, Spring

This is the first in a 2-course series on education as an academic area and profession, designed for students enrolled in teaching credential courses prior to bachelor’s completion. Examines personal and academic attributes and achievements necessary for becoming an educator in the general or special education context. This course focuses on fostering personal attributes and fulfilling requirements for entering the profession. Students will complete academic and biographical readings and 30 hours of elementary (TK-8th) classroom observation. Credit/No Credit
EDUC 190B. Becoming an Educator II. 1 Unit
Prerequisite(s): EDUC 190A.
Term Typically Offered: Spring only

This is the second in a 2-course series on education as an academic area and profession, designed for students enrolled in teaching credential courses prior to bachelor’s completion. Examines personal and academic attributes and achievements necessary for becoming an educator in the general or special education context. This course focuses on gaining experience in the diverse classroom setting and engaging in reflective teaching practices. Students will complete biographical readings and at least 20 hours of elementary (TK-8th) classroom observation.
Credit/No Credit

EDUC 194. Cooperative Education Experience. 3 Units
Prerequisite(s): Approval of Department Chair.
Term Typically Offered: Fall, Spring

Cooperative Education (Co-op) relates academic theory to professional practice by providing paid work experience in the student’s major field of study and academic credit. Students receive employment in school districts, state and community agencies, companies, and other appropriate settings. Requires attendance at weekly meetings, preparation of application packet, completion of field study assignment and a written final report.
Note: Units may not be used to meet course work requirements.
Credit/No Credit

EDUC 196J. Teaching Science in Outdoor Settings. 3 Units
Term Typically Offered: Spring only

This course provides students with experiential learning in an outdoor setting with the aim of developing and implementing outdoor education activities for children grades 4-7. By engaging in the practices of mindfulness and ecotherapy, students will gain awareness and appreciation for the outdoors. Students will also gain knowledge on how to implement science-focused activities that incorporate the Next Generation Science Standards and California’s Environmental Principles and Concepts while incorporating Social Emotional Learning Principles and Standards.
Note: Students will be required to attend the field site during scheduled class meeting times and complete fieldwork clearance paperwork.
Credit/No Credit

EDUC 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects designed especially for students capable of independent study. Admission by written approval of the instructor with whom the student will be working and Department Chair.
Credit/No Credit

Education - Bilingual/Multicultural (EDBM)

EDBM 128. Foundations for Multicultural Secondary Education, B. 3 Units
Prerequisite(s): Admission to Single Subject Credential Program; Successful completion of EDBM 127.
Corequisite(s): EDBM 400B.
Term Typically Offered: Fall, Spring

Critical examination of the socio-political relationship between California’s public schools and its major population subgroups (as defined by culture, gender, social class, language, race/ethnicity, and ability). Candidates critically reflect on the philosophy and practices of schooling in relation to students’ culture, family and community; analyze institutional and instructional practices for educational equity, and develop alternative instructional activities based on the principles of multicultural education and English language learning in a democratic society. Lectures, discussions, small group work, simulations, and field tasks.

EDBM 205. Education for a Democratic, Pluralistic Society. 3 Units
Term Typically Offered: Fall, Spring

Advanced study of social, cultural, historical, philosophical and psychological issues related to the teaching and learning of culturally and linguistically diverse students. In-depth consideration of the implications of theories and research related to the history of educational reform, the history and culture of the teaching profession, the nature of learning for linguistically and culturally diverse students, the relationship between schooling and democratic society, and the barriers to all of the above.

EDBM 220. Multicultural Curriculum, Advocacy, and Community. 3 Units
Term Typically Offered: Fall, Spring

This seminar is a philosophical and pedagogical exploration of the historic, legal and socciocultural foundations of American education with emphasis on issues of power, identity, representation, and change. It examines how history, political and economic agendas, and discrimination shape schooling access and curriculum practices; and, considers ways to transform education to strengthen student-family-community-school involvement. This course is applied in that it mandates that students develop an action research plan for implementing or strengthening student-family-community-school involvement in schools and/or community settings.

EDBM 228. The Academic and Social Value of Ethnic Studies. 3 Units
Term Typically Offered: Fall, Spring

Introduces Ethnic Studies history, research, policy, and classroom practice. The primary focus is on Ethnic Studies education in grades 9-12. Readings for this course include current research on the academic and social value of particular approaches to teaching Ethnic Studies; new and developing California school district policy; recent California laws and resolutions regarding the establishment of Ethnic Studies as a high school graduation requirement; and Memorandums of Decision from Federal Court cases related to Ethnic Studies.
EDBM 235. Research Seminar on Bilingualism and Language Varieties in Education. 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Designed for graduate students who already have some preparation in the area of Bilingualism and language varieties as they relate to the schools. Uses a seminar format to explore the latest research in the areas of first and second language acquisition of bilinguals, acquisition of standard and nonstandard dialects, and related sociolinguistic issues. Special attention will be given to research about language varieties used in the U.S. (Black English, Chicano English, Chicano Spanish, Hawaiian English and so on.)

EDBM 245. Advocacy, Change and Community. 3 Units
Term Typically Offered: Fall, Spring

Focus on learning theories behind and the methods for creating social change. Development of skills needed to differentiate social problems from their symptoms, and to coalesce key community members and agencies toward effecting social change. Additional study of strategies needed to assess the success of change efforts, and how to learn from challenges.

EDBM 250. Education Research. 3 Units
Term Typically Offered: Fall, Spring

Studies qualitative and quantitative methods in the development of reliable knowledge in the field of education. Includes identification and formulation of research problems, research designs and presentation of reports representative of different research strategies. Provides support for students’ culminating projects/thesis.

EDBM 265. Thesis/Project Writing. 3 Units
Prerequisite(s): EDBM 250 or equivalent, advanced to candidacy.
Term Typically Offered: Fall, Spring

Seminar to focus on the process of completing the required culminating experience including refining the research problem, completing the literature review, finalizing and implementing the research design, and completing required university protocol (e.g., Human Subjects Review and format requirements).
Note: May be taken twice for credit.

EDBM 299. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects at graduate level especially for students capable of independent study. Admission by written approval of the instructor with whom the student will be working and Department Chair.
Credit/No Credit

EDBM 342. Fundamentals for the Secondary Multilingual, Multicultural Classroom. 2 Units
Prerequisite(s): Admission to Single Subject Credential Program.
Term Typically Offered: Fall, Spring

Introduces the relationship between elements of teaching, instructional organization, and classroom management to effectively teach in culturally and linguistically diverse secondary classrooms. Focus is grounded in a Social Reconstructionist approach. Emphasis includes students’ development as a teacher specific, teaching strategies for culturally and linguistically diverse students, curriculum development, and theories and practices for establishing and maintaining an effective learning environment in multicultural/multilingual classrooms. Provides an introduction to E-Portfolio development, integration of technology, and familiarization of content standards.

EDBM 401. Observation and Participation in Multilingual/Multicultural Schools. 2 Units
Prerequisite(s): EDBM 250, advanced to candidacy, and completion of the Thesis/Project Petition and Advisor Reservation Form and the approval by the Department's Graduate Coordinator one semester prior to registration of this course.
Term Typically Offered: Fall, Spring

Completion of a thesis or project approved for the Master's Degree.
Note: May be taken twice for credit.

Education - Counselor Education (EDC)

EDC 205. Advanced Counseling Theory and Multicultural Systems Abroad. 3 Units
Prerequisite(s): EDC 216, EDC 280, EDC 210, EDUC 155, and EDUC 156
Term Typically Offered: Summer only

This course is designed to provide students with a foundation in the philosophy and practice of contemporary theories of counseling and psychotherapy. Course material is aimed at helping students develop basic skills necessary for effective counseling and communicating with clients. Students will engage in: (1) personal growth in counselor identity development, (2) counseling skills development utilizing multiple approaches, and (3) theory integration and multicultural systems. Students will be actively involved in their learning and invited to share knowledge.
Note: This course is a study abroad experience.
EDC 210. Advocacy, Social Justice, and Cultural Foundations in Counseling. 3 Units
Prerequisite(s): Classified and/or admitted student in MS Counseling program
Term Typically Offered: Fall only

Exploration of ethnic and cultural differences to develop or expand awareness, techniques, skills, theories, concepts, and to acquire information necessary to counsel effectively with clients of various cultural groups. Students examine their own attitudes, behaviors, perceptions, and biases, and are encouraged to develop their own multicultural approach to counseling.

EDC 212. Gender and Sexuality in Counseling. 3 Units
Term Typically Offered: Fall, Spring
An examination of various gender roles within society, including their impact on the individual, couple and family. An overview of information and methods for working in the field of human sexuality education and counseling. Addressing problems involving sexual disorders, sexually transmitted infection & HIV/AIDS. Preventing, assessing, reporting, and intervening in family violence. Obtaining and developing accurate information and awareness about current sources and methods to competently assist clients in their struggle toward a more meaningful and satisfying sense of self.

EDC 214. Dynamics of Human Development. 3 Units
Prerequisite(s): Classified or Admitted Student in MS Counseling program
Term Typically Offered: Spring only
Overview of theories and research pertaining to the dynamics of human development, including cultural, biological, social, and psychological factors. Particular emphasis will be placed on the relationship of these factors to the field of counseling. Lifespan coverage includes conception, pregnancy, birth, infancy-toddlerhood, early/middle childhood, adolescence, early/middle/late adulthood, as well as dying, death, and bereavement.

EDC 215. Foundations of Professional School Counseling. 3 Units
Term Typically Offered: Fall, Spring
Understanding the roles, responsibilities, and functions of a professional school counselor is necessary to student and counselor success alike. Topics on school counseling services, practices, basic concepts related to the organization and operation of school counseling programs and socio-cultural, economic, and other societal influences on the educational process in TK-12 settings will be explored.

EDC 216. Counseling Theory. 3 Units
Prerequisite(s): Classified, or Admitted Student, in MS Counseling program
Corequisite(s): EDC 280. Please sign up for the same section of 216 and 280 as they are paired by section.
Term Typically Offered: Fall only
Examination of ten counseling philosophies, with emphasis on knowledge and practice. Requires the refinement of one’s own counseling orientation. Designed to provide students with a foundation in the basic philosophy and practice of contemporary theories of counseling/psychotherapy. The requirements support three components of multiple measures of learning and outcomes: 1) personal growth, 2) counseling skills building utilizing multiple approaches, 3) professional development.

EDC 218. Assessment In Counseling. 3 Units
Prerequisite(s): Classified, or Admitted, Student in MS Counseling program
Term Typically Offered: Fall, Spring
Intended to acquaint the prospective counselor with an array of assessment instruments and appraisal techniques. Includes practical experience with tests as well as foundations of test development. Lecture three hours.

EDC 219. Group Processes in Counseling. 3 Units
Prerequisite(s): EDC 216 and EDC 280, classified student in the Counselor Education Program.
Term Typically Offered: Fall, Spring
Group Processes in Counseling is a course that introduces students to group process and theory, including group counseling skills and facilitation. Participation in a group experience is required as well as a leading a group under supervision. The experience and material in this course are aimed at helping students develop group counseling skills necessary for effectively leading counseling and psychoeducational groups while integrating theory into practice.

EDC 220. The Spiritual Dimension in Counseling and Psychotherapy. 3 Units
Prerequisite(s): EDU 155, EDU 156, EDC 216, EDC 280; or instructor permission.
Term Typically Offered: Fall, Spring
Investigation into concerns and issues, modes, and methodologies surrounding exploration of the spiritual dimension in the counseling/therapy relationship. Experiential activities are included.

EDC 222. Clinical Stress Reduction. 3 Units
Term Typically Offered: Fall, Spring
Major concepts, theories, and approaches to effective stress reduction. Includes stress level assessment, planning and implementation of a stress reduction program. Practice of beneficial stress reduction techniques and application in clinical practice. Note: Open to unclassified students with instructor permission.

EDC 230. Law and Ethics for Marriage, Family, and Child Counseling. 3 Units
Prerequisite(s): EDU 155, EDU 156, EDC 216, EDC 280 or instructor permission.
Term Typically Offered: Fall, Spring
Legal and ethical considerations in the practice of marriage, family, and child counseling. Current laws, responsibilities, restrictions, rights and privileges, licensing regulations, and ethical standards of major professional groups. Child abuse assessment and reporting requirements. Organization, administration, and management of independent practice. Lecture three hours.
EDC 231. Diagnosis and Treatment Planning. 3 Units
Prerequisite(s): EDC 216, EDC 218, EDC 280; classified student in the Counselor Education Program.
Term Typically Offered: Fall, Spring
This graduate level course provides students with an overview of adult and child psychopathology presented as a manifestation of multiple biological, psychological, sociocultural and other factors. It offers an advanced discussion of psychopathology with an emphasis on biopsychosocial assessment, differential diagnosis, use of the Diagnostic and Statistical Manual of Mental Disorders, and development of treatment plans. Lecture three hours.

EDC 232. Family Violence. 3 Units
Prerequisite(s): EDC 212, EDC 230, EDC 234; or instructor permission.
Term Typically Offered: Fall, Spring
Violence in the family includes spouse abuse, child abuse, incest, and sexual abuse. Myths about these areas will be replaced by empirically-based facts. There will be an emphasis on effective treatment methods; research findings on family violence, including etiology and family patterns; overlap with alcohol and other drugs, and maintenance factors. Students will gain techniques and skills in interviewing, assessment, and counseling when violence is a presenting issue.

EDC 233. Substance Use and Addiction Counseling. 3 Units
Prerequisite(s): EDC 231, classified student in the Counselor Education Program.
Term Typically Offered: Fall, Spring
Provides an overview of substance use disorders, addiction, and co-occurring disorders. Students will develop an understanding of Substance Use Disorders (SUD’s); the physiological, psychological, behavioral, and social consequences on the user and family members; to facilitate the development of addiction counseling competencies that are associated with positive treatment outcomes, and to increase the student’s level of confidence relative to providing substance use evaluation, education, and treatment services. Emphasis will be placed on developing and practicing substance use counseling skills.

EDC 234. Seminar: Marriage and Family Counseling. 3 Units
Prerequisite(s): EDC 216, EDC 280; classified student in the Counselor Education Program.
Term Typically Offered: Fall, Spring
Introduction to the basic concepts and principles of family therapy. Provides and lays the foundation on which all theories/schools of family therapy are based and covers the basic theories of family therapy. Issues include evaluation of families, diagnosis in a family context, interviewing strategies, redefining problems in a family systems context, and treatment principles. Lecture three hours.

EDC 236. Couples Counseling. 2 Units
Prerequisite(s): EDC 212; EDC 234.
Term Typically Offered: Fall, Spring
Focuses on applying major schools of couples and sex therapy to actual practice. Issues include evaluation of couples, interviewing strategies, power, diversity, ethical and legal considerations, treatment principles and practice, as well as outcome research in couples therapy. Lecture/discussion/practice.

EDC 238. Professional Issues in Marriage Couple and Family Counseling. 2 Units
Term Typically Offered: Fall, Spring
This course will provide MCFC students an advanced overview of current evidence-based practices, intervention techniques, and treatment strategies for diverse populations. This class will challenge students to conceptualize through a diverse therapeutic lens. Topics will include domestic violence, death and dying, substance use disorder, patients with HIV or AIDS, relational trauma, the foster care system, infidelity in marriage and couples counseling, caring for caregivers, family law, and practice/management considerations including HIPAA and third party reimbursement.

EDC 239. Foundations in Rehabilitation Counseling. 3 Units
Prerequisite(s): Classified student in the MS Counseling program
Term Typically Offered: Spring only
This foundation course is designed to introduce and orient students to the profession of rehabilitation counseling, the various setting in which services are performed, and federal laws that dictate delivery of rehabilitation services. Students will learn about the history and development of rehabilitation counseling and the current issues relevant to this specialization including historical and contemporary perspectives on disability, societal attitudes towards disability and its influence on individuals with disabilities.

EDC 240A. Medical Aspects of Disability. 3 Units
Prerequisite(s): Classified or Admitted Student in the MS Counseling program
Term Typically Offered: Fall, Spring
This course focuses on the medical aspects of various congenital, hereditary, and trauma-induced disabilities. The etiology, pathology, treatment, symptoms, prognosis, and limitations caused by various disabling medical conditions are covered. Implications of medical disabilities are explored inclusive of its relationship to vocational adjustment. Areas of exploration include motivation, self-concept, and personal and societal attitudes toward disability. This course will include a survey of psychosocial aspects of disability as it pertains to medical aspects of disability.

EDC 240B. Psychosocial Aspects of Disability. 3 Units
Prerequisite(s): Classified or Admitted Student in MS Counseling program
Term Typically Offered: Fall, Spring
The primary focus of this course will be on the psychosocial aspects of disability including the psychological genesis of and social implications affecting individuals with disabilities. Various psychological disabilities will be explored in concert with treatment considerations. This course builds on knowledge gained in the EDC 240A: Medical Aspects of Disability. The course will explore rehabilitation philosophy and processes from a holistic standpoint to enhance coping and skill development to aid in vocational adjustment.

EDC 241. Developmental Stages and Art Therapy Techniques. 3 Units
Prerequisite(s): EDUC 155 and EDUC 156.
Term Typically Offered: Fall, Spring
In-depth study of normal stages of development in art with special emphasis on the developmental stages as both diagnostic indicators and aids in devising art therapy treatment. Includes hands-on experience with a variety of art therapy techniques and discussion of their applicability to different client populations. Purchase of some basic art supplies is required. Lecture, discussion, three hours.
EDC 242. Play and Art in Therapy with Children. 3 Units
Prerequisite(s): EDC 216, EDC 280, classified student in the School Counseling Specialization. Other Counselor Education students may be permitted to enroll when space is available.
Term Typically Offered: Fall, Spring

Explores the ways children use fantasy, play, and art as means for communication, growth and healing. Emphasis is placed on clinical skills, therapeutic limit setting, counseling theory and developmentally appropriate interventions. Purchase of some basic art supplies is required.

EDC 244. Trauma and Crisis Counseling. 3 Units
Term Typically Offered: Fall, Spring

This course provides opportunities for both theory and skill development by examining crisis and trauma counseling, including crisis theory; multidisciplinary responses to crises, emergencies, or disasters; cognitive, affective, behavioral, and neurological effects associated with trauma; brief, intermediate and long-term approaches; assessment strategies for clients in crisis and principles of intervention for individuals with mental or emotional disorders during times of crisis, emergency, or disaster.

EDC 250. Education Research. 3 Units
Prerequisite(s): Graduate status
Term Typically Offered: Fall, Spring

EDC 250 will provide the study of qualitative and quantitative methods used in the development of reliable knowledge in the field of education. It includes identification and formulation of research problems, research designs, and the presentation of reports representative of different research strategies. Scholars will be immersed in counseling discourse and a wide range of writing assignments in various genres. It is anticipated that this course will facilitate skills important to the evaluation of educational and psychological programs.

EDC 252. Legal and Ethical Issues in Professional Counseling. 3 Units
Term Typically Offered: Fall, Spring

Designed to provide students with basic knowledge and skills necessary to be legally and ethically competent in practice of counseling. Examines ethical and legal considerations pursuant to practice of counseling. Topics to be covered are ethics (CAMFT, AAMFT, ACA, ASCA, NCDA) related to counseling practice in private and public sectors, as well as laws regarding mandatory child and elder abuse assessment and reporting, confidentiality, privilege, liability, marriage, family, child and school ethics and law. Required for graduation with a degree in Counseling.

EDC 254. Counseling and Psychotropic Medicine. 3 Units
Prerequisite(s): EDC 231 and Classified or Admitted Student in the MS Counseling program
Term Typically Offered: Fall, Spring

Provides an introduction to psychopharmacology; the biological bases of behavior; basic classifications, indications, and contraindications of commonly prescribed psychopharmacological medications; and effective approaches to collaborating with clients, their families and other professionals so that appropriate referrals can be made for medication evaluations and so that the side effects of those medications can be identified. Meets the BBS licensure requirements for Professional Clinical Counselors and Marriage and Family Therapists.

EDC 260. Career Development. 3 Units
Prerequisite(s): Classified or Admitted Student in MS Counseling program
Term Typically Offered: Fall, Spring

Provides a basic introduction to career development and career counseling. Identification and assessment of issues common in career counseling settings are examined. Group and individual models of career development and counseling in schools, community agencies or private industry are also investigated and discussed. Lecture three hours.

EDC 261. Seminar in Counseling: Job Placement. 3 Units
Term Typically Offered: Fall, Spring

Analyzes and practice of job-seeking skills, employer information base, and job placement of the handicapped.

EDC 262. Career Counseling Process. 3 Units
Prerequisite(s): EDC 260; classified student in the Counselor Education Program.
Term Typically Offered: Fall, Spring

On-going learning of the processes needed to deliver career counseling services to a variety of clientele. Students will extend their theoretical knowledge base and will more clearly focus on the relationship between a person’s life and the process of career development. Elements to be studied in more depth include career development theory, assessment techniques and strategies, goal setting, decision making, and integration of multicultural aspects and strategies. A practical experience in administering and interpreting selected test instruments extensively used in career counseling will be included. Lecture three hours; practical experience one hour.

EDC 263. Advanced Case Conceptualization in Clinical Rehabilitation. 3 Units
Prerequisite(s): EDC 239 and Classified or Admitted Student in the MS Counseling program
Term Typically Offered: Fall, Spring

This course provides an in-depth review and study of the clinical rehabilitation processes and continuum of care. This course will address effective clinical rehabilitation counseling assessments, interventions, and documentation. Students will apply principles, models, and use documentation formats of biopsychosocial case conceptualization and treatment planning. This course will review strategies for interfacing with medical and allied health professionals, including interdisciplinary treatment teams culminating in a case management and clinical file addressing a holistic intervention for clients and consumers.

EDC 264. Seminar in Counseling: Career Systems Development. 3 Units
Prerequisite(s): EDC 260; classified student in the Counselor Education Program.
Term Typically Offered: Fall, Spring

Specific emphasis is at the implementation level, with students learning the necessary skills for implementing, maintaining, and stimulating career development in schools, community agencies or private industry. Lecture three hours.
EDC 266. Seminar in Counseling: Career Program Development. 3 Units
Prerequisite(s): EDC 260; classified student in the Counselor Education Program.
Term Typically Offered: Fall, Spring
Specific emphasis is at the program development level, with students learning the necessary components for developing a career counseling program in schools, community agencies, or private industry. Lecture three hours.

EDC 268. Career and Job Search. 3 Units
Prerequisite(s): EDC 260 or instructor permission.
Term Typically Offered: Fall, Spring
Work is undergoing change with the advent of new technologies, an increasingly diverse workforce, and corporate restructuring. These conditions have led to more frequent occupational shifts and the loss of previously secure jobs, self-reliance replacing loyalty in relations between employers and employees, and fragmented careers becoming more common as family responsibilities and work opportunities became increasingly interwoven. Examines traditional and emerging approaches for assisting clients in a changing and evolving job market.

EDC 270. Organization and Administration of School Counseling Programs. 3 Units
Term Typically Offered: Fall, Spring
Principles and practices necessary to plan, initiate, administer, and evaluate school counseling programs, including related laws. Lecture, discussion three hours.

EDC 272. Counseling Children and Youth. 3 Units
Prerequisite(s): EDC 216, EDC 280, classified student in Counselor Education Program. School specialization: EDC 242.
Corequisite(s): School Counseling Specialization: EDC 475.
Term Typically Offered: Fall, Spring
Provides students with a theoretical foundation and working knowledge of contemporary issues and interventions for children and youth. A variety of presenting problems and treatment strategies are explored.

EDC 274. Advocacy and Systemic Change in School Counseling. 3 Units
Prerequisite(s): EDC 216, EDC 280, EDC 270; classified student in the Counselor Education Program.
Term Typically Offered: Fall, Spring
This course provides an overview of consultation, leadership, and advocacy models with emphasis on their use and application in school settings. The effective counselor must be able to employ consultation, advocacy, and leadership skills in order to meet the needs of students. Methods for analyzing data to design intentional and developmental school counseling interventions will be explored.

EDC 280. Counseling Skills Lab. 2 Units
Prerequisite(s): Classified Student in MS Counseling program
Corequisite(s): EDC 216 is taken the same semester
Term Typically Offered: Fall only
Supervised practice in acquiring and developing counseling micro-skills including the basic styles of communication, verbal and nonverbal, with additional focus on developing and practicing counseling micro-skills under supervision and observation. The material in this course is aimed at helping students develop basic counseling skills necessary for effectively counseling and communicating with clients while integrating theory into practice.

Note: Recommended to be taken within the first 6 units of study in the Counselor Education Program

Credit/No Credit

EDC 282. Practicum in Group Counseling. 2 Units
Prerequisite(s): EDC 219; classified student in the Counselor Education Program.
Term Typically Offered: Fall, Spring
Supervised practice in leadership of group counseling. Lecture one hour; laboratory three hours.

Credit/No Credit

EDC 294. Cooperative Education Experience. 2 Units
Prerequisite(s): Open only to upper division and graduate students; consent of Department Chair.
Term Typically Offered: Fall, Spring
Cooperative Education (Co-op) relates academic theory to professional practice by providing paid work experience in the student's major field of study and academic credit. Students receive supervised employment in school districts, state and community agencies, companies, and other appropriate settings. Requires attendance at weekly meetings, preparation of application packet, completion of field study assignment, and a written final report.

Note: Units may not be used to meet course work requirements. May be repeated once for credit.

Credit/No Credit

EDC 296P. Current Issues in Counseling: Meditation. 1 Unit
Term Typically Offered: Fall, Spring
An introductory experimental class in meditation which provides a basic foundation of basic meditative theories, the experience of meditative practices, and a basic knowledge of meditative techniques of benefit both personally and with clients. Research has demonstrated that meditation is helpful in a number of stress-related conditions and recent research indicates it is often more effective than psychotherapy in treatment of some problems.

Note: Instructor approval required. May be taken twice for credit.

Credit/No Credit

EDC 299. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects at graduate level designed especially for students capable of independent study.

Note: Admission by approval of the instructor with whom the student will be working directly and the Department Chair.

Credit/No Credit
### EDC 475. Counseling Practicum.  
3 Units  
**Prerequisite(s):** EDC 219 and classified student in MS Counseling. Additional prerequisites by specialization: Career - EDC 260; MCFC - EDC 476; School - EDC 270; Rehabilitation - EDC 239.  
**Term Typically Offered:** Fall, Spring  
Supervised counseling practice in Center for Counseling and Diagnostic Services (CCDS) and/or school settings. Emphasis on application of counseling theories and the integration of one's own counseling philosophy into practical applications. Basic requirements: 100 clock hours with at least 40 client contact hours, 1 hour per week of individual/triadic supervision, and one and half hours per week of group supervision.  
**Note:** Department petition is required the semester prior to enrollment. Must receive Credit for EDC 475 in order to move into EDC 480.  
Credit/No Credit

### EDC 476. Advanced Skills in Marriage and Family Counseling.  
1 Unit  
**Prerequisite(s):** Classified student in the MS Counseling program and marriage, couple, family counseling concentration  
**Term Typically Offered:** Fall, Spring  
Structured observation and supervised practice in marriage, couple, and family counseling. Application of material learned in EDC 234 to build on practice and use of systems theories and techniques. Emphasis on establishing relationships, interviewing techniques as designated with multiple clients, assessment techniques, setting goals, developing theory based treatment plans using systems theories, and learning to think systemically. Laboratory two hours.  
Credit/No Credit

### EDC 480. Field Study In Counseling.  
3 Units  
**Prerequisite(s):** EDC 475 and department approval.  
**Term Typically Offered:** Fall, Spring  
Supervised counseling and field experiences arranged in community-based settings such schools, colleges and/or agencies. Students are to collect between 600-800 hours of field work experience in the form of direct and indirect counseling experiences as designated by specialty and aligned with CACREP, CTC, and BBS requirements. This course is designed to be taken third year in both fall and spring, collecting approximately 300 hours each semester and totaling 6 units.  
**Note:** EDC 480 must be taken twice, over two separate semesters, in order to meet accreditation requirements. Department approval is required the semester prior to enrollment.  
Credit/No Credit

### EDC 500. Master's Culminating Experience.  
1 Unit  
**Prerequisite(s):** Advancement to Candidacy for the master's degree must be filed prior to enrollment in EDC 500: Culminating Experience which is taken in the last semester of course work; Classified student in the Counselor Education Program; Department petition, and Advancement to Candidacy, are required the semester prior to enrollment.  
**Term Typically Offered:** Fall, Spring  
Focuses on reviewing and synthesizing of student's knowledge of theory and practice. A review and examination of previous learning in the areas of: Professional Counseling Orientation & Ethical Practice; Social & Cultural Diversity; Human Growth & Development; Career Development; Counseling & Helping Relationships; Group Counseling & Group Work; Assessment & Testing; and Research & Program Evaluation, through the Counselor Preparation Comprehensive Examination (CPCE) comprehensive final exam. Students must pass the CPCE to demonstrate understanding of the 8 core content areas.  
**Note:** Taken in preparation for the comprehensive examination  
Credit/No Credit

### Education - Curriculum and Instruction (EDCI)

3 Units  
**Term Typically Offered:** Fall, Spring  
This course will explore the ways in which K-12 schools are influenced by the economic, social and political environment. It will examine how educators can respond to the conditions and issues that exist, in particular, how the individual teacher's study and practice is shaped by and can transform public education.

#### EDCI 251. Power in Education.  
3 Units  
**Term Typically Offered:** Fall, Spring  
Advanced study of critical pedagogy as a vision for shifting the power in education through a consideration of the sociocultural and sociopolitical issues in schooling. Course readings focus on the experiences of students in schools; school organization; and relationships between communities and schools. The emphasis is on American public school systems through an exploration of educational inequities, from theoretical and practical viewpoints.

#### EDCI 252A. Inquiry & Practice in Education.  
3 Units  
**Corequisite(s):** EDBM 250 and EDCI 252B.  
**Term Typically Offered:** Fall, Spring  
Students will develop a research proposal for classroom-based inquiry designed to address the needs of a specific classroom context. Students will determine a mixed methods research design and identify methods for data collection and analysis. While enrolled in this course, and EDCI 252B, students must have IRB approval for data collection in K-12 classrooms.  
**Note:** Concurrent enrollment in EDBM 250 and EDCI 252B is required; Open to Graduate MA students only.
EDCI 252B. Inquiry & Practice Field Experience in Education. 3 Units
Corequisite(s): EDCI 252A and EDBM 250
Term Typically Offered: Fall, Spring

Requires concurrent enrollment in EDCI 252A seminar. This course begins the inquiry process by engaging in the field. Candidates will choose an educational context in which to plan the focused inquiry. Students must have IRB approval for conducting this research and have clearance that meets the requirements of participation in the educational setting (fingerprints, background check, etc.). Engagement in a student’s chosen setting must be approved and proof of approval must be provided before engaging in the setting.

Note: Concurrent enrollment in EDCI 252A is required.

EDCI 253A. Action & Analysis in Education. 3 Units
Prerequisite(s): EDBM 250, EDCI 252A, EDCI 252B.
Corequisite(s): EDCI 253B.
Term Typically Offered: Fall, Spring

Candidates will continue participating in the field experience to conduct the focused inquiry. Students must have IRB approval for conducting this research and have clearance that meets the requirements of participation in the educational setting (fingerprints, background check, etc.). Engagement in a student’s chosen setting must be approved and proof of approval must be provided before engaging in the setting.

Note: Concurrent enrollment in EDCI 253B is required. Open to Graduate MA students only.

EDCI 253B. Action & Analysis Field Experience in Education. 3 Units
Prerequisite(s): EDBM 250, EDCI 252A, EDCI 252B
Corequisite(s): 253A
Term Typically Offered: Fall, Spring

Requires concurrent enrollment in EDCI 253A seminar. Candidates will continue participating in the field experience to conduct the focused inquiry. Students must have IRB approval for conducting this research and have clearance that meets the requirements of participation in the educational setting (fingerprints, background check, etc.). Engagement in a student’s chosen setting must be approved and proof of approval must be provided before engaging in the setting.

Note: Open to Graduate MA students only.

EDCI 505. Culminating Experience: Curriculum and Instruction. 3 Units
Prerequisite(s): EDCI 252A/B. Advanced to candidacy and permission of his/her faculty advisor and the department chair one full semester prior to registration.
Term Typically Offered: Fall, Spring

This is the culmination of a series of methods courses toward completion of the MA in Curriculum and Instruction. In this course, MA students will complete the process they began in EDCI 252A and 253A with a culminating experience that consists of a written exam and oral defense. Credit/No Credit

EDGR 210. Contemporary Issues in Education: Curriculum and Social Emotional Well Being of Students. 3 Units
Term Typically Offered: Fall, Spring

This course examines contemporary issues in education, with special attention to the social, cultural, political, economic, and institutional dynamics of educational processes and the impacts on students, schools, and communities. Fulfilling the mission of the Masters programs and the College of Education vision, the course focuses on preparing students to become social change agents in schools and communities. Topics covered will fit into the two threads of (a) curriculum and (b) social emotional well-being of students.

EDGR 211. Contemporary Issues in Education: Context of Schooling and Leadership. 3 Units
Term Typically Offered: Fall, Spring

This course examines contemporary issues in education, with special attention to the social, cultural, political, economic, and institutional dynamics of educational processes and the impacts on students, schools, and communities. Fulfilling the mission of the Masters programs and the College of Education vision, the course focuses on preparing students to become social change agents in schools and communities. Topics covered will fit into the two threads of (a) context of schooling and (b) leadership.

EDGR 220. Issues in New Literacies throughout the Lifespan. 3 Units
Term Typically Offered: Fall, Spring

This course examines contemporary issues in literacy. The course introduces students to pedagogies and politics of new literacies within a variety of contexts: academic, new literacy studies, technology literacy, cultural, family, community, and workplace literacy. From a frame of literacy/illiteracy, students examine its connections with economic, political, social, occupational, education, governmental, and cultural change. Students will study how literacy programs are organized and implemented, examine research on the rationale for literacy, including the connection between literacy and healthy, livelihoods, empowerment, community development and cognitive skills.

EDGR 251. Principles of Universal Design for Learning. 3 Units
Term Typically Offered: Fall only

Provides an introduction to the UDL educational framework to explore strategies for educators and course designers to build UDL into lessons and assessments so all participants have equal opportunities to learn. A range of topics in UDL explore ways for practitioners to use the framework as a guide to design flexible curriculum in a variety of disciplines.

EDGR 252. Instructional Design and eLearning Practicum I. 3 Units
Term Typically Offered: Fall only

Provides an opportunity to demonstrate competence in applying concepts from instructional design, project management, and educational technology based on the results of a needs analysis in a field-based setting. Students will design an inclusive instructional intervention and present a model for an online or hybrid eLearning modality. Program project plan provides support for students’ culminating projects/thesis.
EDGR 253. Instructional Design and eLearning. 3 Units
Term Typically Offered: Spring only
This course provides students with experiences to develop the knowledge, skills, and dispositions essential in the design of instruction that involves uses of inclusive technology for learning. Students will develop teaching and learning activities that may include webinars, parts of a course or workshop, online learning, or others with the instructor’s approval. Students will explore and apply instructional design processes, the UDL framework, and theories for analysis, planning, and evaluation of equitable and inclusive learning experiences for diverse audiences.

EDGR 254. Instructional Design and eLearning Practicum II. 3 Units
Term Typically Offered: Spring only
Provides a continued opportunity to demonstrate competence incorporating concepts from instructional design, project management, and educational technology in the field-based program project. Students will develop, incorporate, and evaluate the effectiveness of applying the UDL principles to an instructional intervention. Project plan provides support for students’ culminating projects/thesis.

EDGR 255. Multimedia and Advanced Applications for Inclusive Course Design. 3 Units
Term Typically Offered: Spring only
Examines technology and multimedia as the foundation for inclusive education strategies. Includes the necessity for accessible technology applications, web design, and learning materials. Explore strategies in which technology can be utilized in the development of inclusive learning materials.

EDGR 256. Aligning Culturally Responsive Education and UDL. 3 Units
Term Typically Offered: Summer only
Advanced study of effective and inclusive education design. Examine curriculum design through a culturally responsive lens in digital spaces where a diversity of voices are affirmed. Studies theories of learning, assessment, individual differences, cultural, historical, philosophical, and social/political influences. Students will utilize the UDL framework to anticipate barriers to learning for historically underrepresented communities.

EDGR 257. Culminating Experience in MA in UDEL. 3 Units
Term Typically Offered: Summer only
Student will evaluate the implementation of Program project. Culminating Exam will consist of an ePortfolio organized with program coursework artifacts. Student reflections of educational experiences through various program courses will be included.

EDGR 260. Writing and Research Across the Disciplines. 3 Units
Prerequisite(s): Admission to graduate program in the College of Education or instructor permission
Term Typically Offered: Fall, Spring
Orientation to graduate study design to introduce students to research within their field of study and across disciplines in the College of Education. Overview of qualitative and quantitative methods and basic statistical concepts. Focus on writing to communicate evidence-based knowledge in a professional manner using APA style. Includes research presentations, active discussion, critical reading, and analytical writing with some activities.
Note: This course serves as a foundation for further study and must be taken prior to 250. This course satisfies the GWI requirement.

EDGR 270. Makerspaces. 3 Units
Term Typically Offered: Fall, Spring, Summer
This course examines makerspaces as locales, which are central to "maker" culture. Students will explore the role of makerspaces in local, national and international communities. Specifically, students will conduct critical analysis of the concepts surrounding the rise of "third spaces" in American society to understand the proliferation of makerspaces throughout the United States. Students will also investigate the integration of makerspaces into schooling and vocational practices as they explore ways that makerspaces function to develop 21st century learning and innovation.

EDGR 272. Project-Based Learning and Assessment for Maker Educators. 3 Units
Prerequisite(s): EDGR 270, EDGR 273
Corequisite(s): Practicum
Term Typically Offered: Spring, Summer
In this hybrid course that includes equal parts theory and practical application students will experience what it is to both complete skill and performance based tasks using a Makers approach and also assess those same tasks through the lens of 21st Century Skills: communication, collaboration, critical thinking, problem solving, creativity and innovation.

EDGR 273. Maker Theory and Practice. 3 Units
Term Typically Offered: Fall, Spring, Summer
This course is an overview of theoretical frameworks that undergird making, the maker movement, and Maker Education. We will examine the ideas and practices associated with educational reforms that emphasize do-it-yourself (DIY) learning and 21st century skill development in high-tech and low-tech environments. Students will critically investigate the connections between theoretical perspectives and applied practices including STEM/STEAM Initiatives, design thinking, critical making, project-based learning, and universal design for learning. Theories that students will explore include: constructivism, constructionism, culturally sustaining pedagogy.

EDGR 274. Practicum for Maker Educators. 3 Units
Term Typically Offered: Spring, Summer
Supervised maker practice in community and/or school setting to be approved by instructor. Practicum emphasizes the function of maker theories in the development and implementation of maker programming. Basic requirements: 200 clock hours with at least 100 hours devoted to practical application of theoretical frameworks in programming and assessment, two hours per week of skill building with maker tools, and one hour bi-weekly of mentoring with practicum supervisor. Prerequisite: EDGR 270, EDGR 272, and EDGR 273. Credit/No Credit

EDGR 287A. Seminar in Culminating Experience Exploration and Design. 1 Unit
Term Typically Offered: Fall only
Explore and identify potential Culminating Experience project topics in instructional design and/or educational technology trends and issues through surveys of published research, discussions, and presentations with peers and professionals. Compare and contrast existing literature and research, identify trends, recognize real-world best practices, and explore underlying factors contributing or relating to your Culminating Experience topic of interest. Credit/No Credit
EDGR 287B. Seminar in Culminating Experience Development and Proposal. 2 Units
Prerequisite(s): EDGR 287A
Term Typically Offered: Spring only

Discuss, develop and propose a Culminating Experience project in instructional design and/or educational technology based on prior exploration and identification of topics and issues. Develop program ePortfolio.

EDGR 557. Culminating Experience in MA in UDEL. 3 Units
Term Typically Offered: Summer only

Student will evaluate the implementation of Program project. Culminating Exam will consist of an ePortfolio organized with program coursework artifacts. Student reflections of educational experiences through various program courses will be included.

Education - Language and Literacy (EDLL)

EDLL 200. Practicum in Decoding and Fluency: Assessment and Instruction. 3 Units
Prerequisite(s): Graduate standing, admission to the program, and current preservice reading course or equivalent. Paired: EDLL 201
Term Typically Offered: Fall, Spring

Research, practice, and issues related to decoding, spelling, and fluency instruction from preschool through adult with applications to classroom teaching. Includes a practicum for assessing and tutoring students having difficulty in decoding.

EDLL 201. Practicum in Comprehension: Assessment and Instruction. 3 Units
Corequisite(s): EDLL 200 Paired: EDLL 200
Term Typically Offered: Fall, Spring

Research, practice, and issues related to comprehension such as vocabulary, background knowledge, and reading strategies from preschool through adult with applications for classroom teaching. Topics include motivation, metacognition, and strategic reading. Analysis of formal and informal assessment measures with a focus on utility, reliability, and validity. In the practicum portion, teachers assess and tutor students with reading difficulties.

EDLL 202. Language and Literacy Development in Multicultural Settings. 3 Units
Prerequisite(s): Admissions into the M.A. Program in Language and Literacy. Permission from the department with graduate standing.
Term Typically Offered: Fall, Spring

Research and theory related to the nature of culture, first and second language acquisition, schooling and literacy development. A specific focus on English Learners will be taken. Implications of the research and theory for working with pre-K children through adults in group contexts.

EDLL 203. Teaching and Assessing Writing in the Pre-K through 12 Classroom. 3 Units
Term Typically Offered: Spring, Summer

Writing assessment and instruction in pre-K through 12 classrooms and other settings is the dominant focus. Topics include research and theoretical models of composition, classroom-based instructional approaches to process writing instruction, writing assessment and writing strategies to improve reading comprehension and writing instruction in a social context.

EDLL 205. Psychology and Sociology of Literacy Instruction. 3 Units
Term Typically Offered: Fall, Spring

This course examines contemporary and historical issues in literacy, including the pedagogies and politics within various contexts: academic, new literacy studies, technology literacy, cultural, family, community, and workplace literacy. Incorporates technological literacies, family, community, and workplace literacies, cultural literacies, and multiliteracies. A major focus is the investigation and understanding of the reading process, various theories that attempt to explain the process, and the implications of those theories for language and literacy development. A literature review will be initiated.

EDLL 206. Leadership In Literacy. 3 Units
Prerequisite(s): Admissions into the M.A. Program in Language and Literacy. Permission from the department with graduate standing.
Term Typically Offered: Fall, Spring

Students will examine a school's reading and language arts practices in context and write a response. They will engage in field experiences and applying them to their theoretical understandings about contemporary schooling policies. Provides candidates with opportunities to incorporate understandings about literacy and the context of literacy cultures to field actions related to their professional development. Students will apply strategies useful in assessing, evaluating, and making recommendations for sustaining or improving literacy teaching, learning, and assessment at a school.

EDLL 207. Advanced Practicum in Reading Difficulties: Assessment and Intervention. 3 Units
Term Typically Offered: Fall, Spring

Evaluation and use of materials and techniques for assessing and teaching decoding, spelling, and comprehension across ages, languages, developmental levels, and diverse backgrounds. Examination of models of reading disability and of intervention programs for students and adults with varying degrees of disability. Application through assessment, instruction, and compilation of a case study of a student or adult with reading and/or spelling difficulties. Permission of instructor required for those wishing to take the course as an elective.

EDLL 208. Issues, Models and Strategies. 3 Units
Term Typically Offered: Fall, Spring, Summer

Analyze state and national issues related to the use of young adult literature in schools. Evaluate models and strategies for employing quality literature (fiction and non-fiction) effectively in the Pre-K through 12 multicultural classroom. Building upon research and genre overview, each participant will develop instructional materials and strategies such as booklists, storytelling, textsets, read-alouds, and web-based literature activities for students and support materials for parents.
EDLL 250. Education Research. 3 Units
Term Typically Offered: Fall, Spring, Summer

Studies qualitative and quantitative research methods in the field of education. Includes identification and formulation of research problems, research designs and presentation of reports representative of different research strategies.

EDLL 503. Culminating Experience: Language and Literacy. 3 Units
Prerequisite(s): EDLL 250; Advanced to candidacy and permission of his/her faculty advisor and the department chair one full semester prior to registration.
Term Typically Offered: Fall, Spring, Summer

Completion of a thesis or project approved for the Master's degree.

Education - Multiple Subject (EDMS)

EDMS 213. Strategies for Inclusive Classrooms: Multiple Subject. 3 Units
Prerequisite(s): Admission into a teacher preparation program.
Term Typically Offered: Fall, Spring

This course provides multiple subject and special education candidates with dispositions, knowledge, and skills needed to serve students with disabilities in general education classrooms. Strategies specific to students in their least restrictive environment will be covered emphasizing Universal Design for Learning, Multi-Tiered Systems of Support, social-emotional learning, co-teaching, differentiated instruction, roles and responsibilities of special/general education teachers, peer mediated learning strategies, modifications of standards and learning outcomes for students with disabilities, and assistive technology (low and high tech adaptations).
Cross listed: EDSS 282/EDSP 293/EDMS 213

EDMS 232. Assessment Center Laboratory for Multiple Subject Candidates. 2 Units
Corequisite(s): EDMS 430B or EDMS 434B or EDSP 420B.
Term Typically Offered: Fall, Spring

Individualized support to guide multiple subject candidates through the process of completing and submitting the culminating Teaching Performance Assessment (TPA) mandated by the program’s accrediting body and completion of their electronic program portfolio. The signature assignments, formative TPA assessments and summative TPA Teaching Event represent an electronic portfolio embedded throughout the program. In addition, the candidates will complete an annotated bibliography for readings across the credential program. Credit/No Credit

EDMS 234A. Foundations of Teaching in a Diverse K-8 Classroom - A. 1 Unit
Prerequisite(s): Admission to the Multiple Subject Teacher Credential Program or the Master of Arts in Teaching with Multiple Subject Teaching Credential Program.
Corequisite(s): EDMS 234B
Term Typically Offered: Fall, Spring

Introduction to critical analysis of purpose and process of elementary level public schooling in the U.S. Examination of sociopolitical contexts of public schools and society; educational theories, philosophies, notions of culture and social justice, community and educational practice. Engagement with sociocultural, historical, and philosophical foundations of education, multicultural education, learning theories, and theories of cognitive and social development. Candidates examine own biases and work to mitigate negative impact on student learning. This lecture course paired with breakout discussion (EDMS 234B).

EDMS 234B. Foundations of Teaching in a Diverse K-8 Classroom - B. 2 Units
Prerequisite(s): Admission to the Multiple Subject Teacher Credential Program or the MA in Teaching with Multiple Subject Credential Program.
Corequisite(s): EDMS 234A
Term Typically Offered: Fall, Spring

Introduction to critical analysis of purpose and process of elementary level public schooling in the U.S. Examination of sociopolitical contexts of public schools and society; educational theories, philosophies, notions of culture and social justice, community and educational practice. Engagement with sociocultural, historical, and philosophical foundations of education, multicultural education, learning theories, and theories of cognitive and social development. Candidates examine own biases and work to mitigate negative impact on student learning. This discussion course paired with lecture (EDMS 234A).

EDMS 235A. Advanced Principles of Teaching in a Diverse K-8 Classroom - A. 1 Unit
Corequisite(s): EDMS 235B
Term Typically Offered: Fall, Spring

This course is the lecture portion of a two-course series. It deepens candidates’ knowledge of theories and practices necessary to execute the Plan-Instruction-Assess-Reflect cycle of mindful teaching for diverse students. Candidates will expand their understandings of how theoretical frameworks for teaching (learning theory, human development theory, multicultural education, inclusive and differentiated education, assessment frameworks, and models of teaching and curriculum planning) are applied in varied public school classrooms and contexts.

EDMS 235B. Advanced Principles of Teaching in a Diverse K-8 Classroom - B. 1 Unit
Corequisite(s): EDMS 235A
Term Typically Offered: Fall, Spring

This course is the discussion portion in a two-course series. In this course, candidates translate theories, concepts and frameworks presented in Advanced Principles of Teaching A into strategies and practices for instruction, assessment, and curriculum development in the K-8 classroom. Candidates will create activities, develop lesson and unit plans that integrate and apply various theories and frameworks for instruction. Candidates will design, lead and engage in simulations, peer teaching, and workshops.
EDMS 241. Action Research in Multicultural Settings. 5 Units
Prerequisite(s): Admission to the Master of Arts in Teaching with Multiple/Single Subject Teaching Credential program; Completion of EDMS 434B or EDSS 474B.
Term Typically Offered: Summer only

This course focuses on an introduction to Action Research in multicultural educational settings. It includes an overview of various research paradigms, with emphasis on Action Research and Teacher Action Research. Additional topics covered in this course include: critical pedagogy, forms of multicultural education, and issues related to educational equity and providing access of opportunity to students from underserved populations.

Cross listed: EDSS 244

EDMS 242. Critical Perspectives in Classroom Inquiry. 3 Units
Prerequisite(s): EDMS 241 or EDSS 241.
Term Typically Offered: Fall only

This course is part of the Master of Arts in Teaching with Multiple Subject Teaching Credential Program and builds on the knowledge that students gain in EDMS/EDSS 241. During this course students will complete a literature review of research related to their critical inquiry question. Students will additionally explore the historical and current trends in critical classroom inquiry and consider the implications for schools in diverse settings. Further course activities include developing a Classroom Inquiry Project and submitting the IRB.

Cross listed: EDSS 242.

EDMS 243. Data Collection for Action Research in Multicultural Settings. 3 Units
Prerequisite(s): EDMS 241 or EDSS 241.
Term Typically Offered: Fall only

This course builds students understanding of appropriate types and uses of data in Action Research in multicultural education settings. During this course students will be presented with the sociopolitical contexts for data collection and its subsequent use in educational policy. Students will apply theoretical knowledge by practicing to collect and initially interpreting multiple types of data. These experiences will lay the groundwork for student development and implementation of the data collection plan for their own Classroom Inquiry Projects.

Cross listed: EDSS 243.

EDMS 244. Sociocultural & Sociopolitical Contexts of Data Analysis. 3 Units
Prerequisite(s): EDMS 242 or EDSS 242 and EDMS 243 or EDSS 243
Term Typically Offered: Spring only

This course builds students understanding of appropriate methods of data analysis in Teacher Action Research in multicultural education settings. Students will learn how data analysis has been used to interpret research in diverse school settings. Students will apply theoretical knowledge by analyzing multiple types of data sets form both qualitative and quantitative sources. These experiences will lay the groundwork for student implementation of analysis of their own data for their Action Research inquiry projects.

Cross listed: EDSS 244

EDMS 247. Research Inquiry Projects. 3 Units
Prerequisite(s): Admission to the Master of Arts in Teaching with Multiple/Single Subject Teaching Credential program; Completion of EDMS 434B or EDSS 474B.
Term Typically Offered: Summer only

This course focuses on an introduction to Action Research in multicultural educational settings. It includes an overview of various research paradigms, with emphasis on Action Research and Teacher Action Research. Additional topics covered in this course include: critical pedagogy, forms of multicultural education, and issues related to educational equity and providing access of opportunity to students from underserved populations.

Cross listed: EDSS 244

EDMS 242 or EDSS 242 and EDMS 243 or EDSS 243
Term Typically Offered: Spring only

This course builds students understanding of appropriate methods of data analysis in Teacher Action Research in multicultural education settings. Students will learn how data analysis has been used to interpret research in diverse school settings. Students will apply theoretical knowledge by analyzing multiple types of data sets form both qualitative and quantitative sources. These experiences will lay the groundwork for student implementation of analysis of their own data for their Action Research inquiry projects.

Cross listed: EDSS 244

EDMS 272. Methods for Teaching Second Language Learners, Multiple Subject (ELD and SDAIE). 3 Units
Prerequisite(s): EDUC 170
Term Typically Offered: Fall, Spring

Focus on teaching candidates the methods, techniques and strategies needed to make content accessible for second language learners. Candidates will learn to use the state ELD standards to create ELD lessons and SDAIE lessons within multicultural framework. Candidates will also learn how to interpret and implement formative and summative assessments. Lecture, demonstration, modeling, group work, discussions, field experience.

EDMS 299. Special Problems: Multiple Subject. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects for Multiple Subject credential candidates at graduate/credential level especially for students capable of independent study. Admission by written approval of the instructor with whom the student will be working and the Department Chair.

Note: This course may be repeated for up to 9 units of credit.

Credit/No Credit

EDMS 310C. Pedagogy C: Classroom Instruction and Positive Management for Diverse Classrooms. 1 Unit
Prerequisite(s): Admission to Multiple Subject Credential Program.
Successful completion of EDMS 310B.
Term Typically Offered: Fall, Spring

Reinforces the cycle of teaching: lesson planning, implementing, reflection and application at a deeper developmental level. Intensive support for classroom management and discipline; disruptive behaviors; problem-solving communication with district administrators, parents at community level as child advocates. Emphasis on differentiating instruction to individual needs of diverse learners. Scaffolding to support growth and developmental stages of the learning-to-teach process and professional responsibilities. Infusion of e-portfolio development and the integration of technology.

Credit/No Credit

EDMS 314. Mathematics Curriculum and Instruction for the Diverse K-8 Classroom. 3 Units
Term Typically Offered: Fall, Spring

Focusing on a "meaning approach" to mathematics which prepares candidates to teach mathematics content standards for California public schools to all students, including English Learners and special needs; to use analytical and critical thinking skills in mathematics; and to infuse mathematics topics, themes, and concepts into other subject areas. Discussion, field visits, microteaching, demonstrations, presentations, and technological applications for mathematics will be included.

EDMS 315. History-Social Science Curriculum and Instruction for the Diverse K-8 Classroom. 3 Units
Term Typically Offered: Fall, Spring

Prepares teacher candidates in multiple subjects to teach the history-social science content standards for California public schools to all students, including English Learners and special needs; to use analytical and critical thinking skills in history and social science; and to integrate history-social science topics, themes, and concepts with other subject areas. Pedagogical topics include the use of timelines, maps, artifacts, case studies, simulations, literature, art, multiple perspectives, SDAIE, cooperative projects, and research activities.
EDMS 316. Science Curriculum and Instruction for the Diverse K-8 Classroom. 3 Units
Term Typically Offered: Fall, Spring

Knowledge of basic principles and strategies related to science education, incorporating an expanded treatment of science pedagogy, manipulatives, technological supports, accommodations, adaptive instructional techniques, and other strategies specially suited to the instruction of diverse student populations.

EDMS 317. Visual and Performing Arts Methods for the Diverse K-8 Classroom. 1 Unit
Prerequisite(s): Admission to Multiple Subject Teacher Credential Program.
Term Typically Offered: Fall, Spring

Prepares candidates in a Multiple Subjects credential program to teach the visual and performing arts content standards for California public schools to all students, including English Learners, and special needs students. Preparation is through interrelated activities with involvement in specific teaching strategies which are effective in achieving the goals of developing artistic perception and creative expression, understanding the cultural and historical origins of the arts, making informed judgments about the arts, and understanding the arts connections and relationships across curriculum.

Credit/No Credit

EDMS 319A. Language and Literacy I for the Diverse K-8 Classroom. 3 Units
Prerequisite(s): Admission to the MAT with Multiple Subject teaching credential program
Corequisite(s): EDMS 401 or EDMS 434A
Term Typically Offered: Fall, Spring

Develops understandings, attitudes, and competencies needed for effective instruction of language and literacy for mainstream populations, English Learners/Emergent Bilinguals, and students with special needs. Instructional strategies for teaching concepts about print, phonemic awareness, phonics, fluency, vocabulary, and comprehension of narrative informational/argument texts with an emphasis on meaning making. Instructional planning aligned with current content standards and the Social Justice Standards. Informal and formal assessment strategies that inform planning and instruction foundational skills and reading comprehension. Lecture and discussion.

EDMS 319B. Language and Literacy II for the Diverse K-8 Classroom. 2 Units
Prerequisite(s): EDMS 319A
Corequisite(s): EDMS 434A or EDMS 434B or EDMS 434C
Term Typically Offered: Fall, Spring

Extends understandings, attitudes, and competencies needed for effective instruction of language and literacy related to writing instruction for mainstream populations, English Learners/Emergent Bilinguals, and students with special needs. Instructional strategies for teaching writing in various genres (narrative, informational, argument), formal and informal writing, conventions, writing to learn, response to reading, writing process, and writing across the curriculum. Instructional planning aligned with content standards and social justice teaching. Assessment strategies that inform planning and instruction of writing. Lecture and Discussion.

EDMS 330A. Educational Technology Lab I. 1 Unit
Prerequisite(s): Admission to Multiple Subject Teacher Credential Program.
Term Typically Offered: Fall only

Educational technology lab course will prepare the candidates use technology for three areas: coursework in the teaching credential program, enhancing teaching and learning and eportfolio development. Students are introduced to an array of digital technologies for teaching relevant for K-12 student learning. Among the topics include digital literacy, copyright, fair use, Internet safety, Creative Commons, presentation tools, ISTE standards, technology and Teaching Performance Expectations, presentation tools, interactive whiteboards, and many others. The focus is on students learning about technology use in teaching and learning in K-12 schools. Candidates are prepared to use technology in the Teaching Credential Program and for the development of an electronic portfolio.

Credit/No Credit

EDMS 330B. Educational Technology Lab II. 1 Unit
Prerequisite(s): EDMS 330A
Term Typically Offered: Spring only

In this course, candidates will learn to create, use, and manage appropriate and relevant educational technological processes and resources. The candidates will deepen their knowledge of technology in the K-12 public school environment and apply their understanding to improve student engagement and student learning outcomes. The candidates will also learn to use technology associated with the Teaching Credential Program and finalize their electronic portfolio for the program.

Credit/No Credit

EDMS 334C. Fundamentals of Teaching in a Diverse K-8 Classroom. 2 Units
Prerequisite(s): Admission into the Multiple Subject Credential Program or the MA in Teaching with Multiple Subject Teaching Credential program.
Term Typically Offered: Fall, Spring

This course introduces the relationship between elements of teaching and instructional organization to effectively teach in culturally and linguistically diverse and inclusive elementary classrooms through the use of backwards design, Universal Design for Learning, and differentiated instruction. The focus will be grounded in a Social Justice/Multicultural paradigm. Emphasis will include students' development as a teacher, curriculum development, long and short-term planning, and specific theories for instructional practice.

EDMS 401. Observation and Participation in Elementary Schools. 2 Units
Prerequisite(s): Admission to Teacher Preparation Program
Term Typically Offered: Fall, Spring

Observations in classes in several situations and grade levels; service as an assistant in at least one classroom. Visits to community agencies which serve the school population.

Credit/No Credit
EDMS 420A.  Field Experience: Multiple Subject.  4 Units
Prerequisite(s): Admission to Teacher Preparation Program.
Term Typically Offered: Fall, Spring

Two semesters of student teaching multiple subjects in public school classrooms providing experiences at two grade levels and with different cultural groups. Intensive, realistic experiences with continuous and varied responsibilities. This first semester student teaching with integrated methods course work requires half-day participation. Experiences in classroom teaching and participation in many of the out-of-class duties of a teacher.
Credit/No Credit

EDMS 420B.  Student Teaching: Multiple Subject.  10 Units
Prerequisite(s): Admission to Teacher Preparation Program.
Term Typically Offered: Fall, Spring

Second semester student teaching with integrated methods course work requires full-day participation of the student. Emphasis on classroom teaching and further experience with community services.
Credit/No Credit

EDMS 430A.  Student Teaching I Basic.  5 Units
Prerequisite(s): Admission to Teacher Preparation Program.
Term Typically Offered: Fall, Spring

One semester of teaching multiple subjects in a public school setting with diverse learners. This first semester of student teaching is completed concurrently with integrated coursework.
Credit/No Credit

EDMS 430B.  Student Teaching II: Basic.  7 Units
Prerequisite(s): Admission to Teacher Preparation Program.
Term Typically Offered: Fall, Spring

One semester of teaching multiple subjects in a public school setting with diverse learners. This second semester of student teaching is completed concurrently with integrated coursework and focuses primarily on planning, implementing, and assessing instruction for whole classes of students.
Credit/No Credit

EDMS 434A.  Field Experience for Elementary Teachers.  6 Units
Prerequisite(s): Admission to the Multiple Subject Credential program.
Term Typically Offered: Fall, Spring

Candidates complete field experience in public school classrooms concurrently with integrated coursework. Field experiences focus primarily on observing model lessons and activities and on collaborative planning, implementing and assessing instruction for small groups of students.
Credit/No Credit

EDMS 434B.  Student Teaching for Elementary Teachers.  8 Units
Prerequisite(s): EDMS 434A.
Term Typically Offered: Fall, Spring

One semester of teaching multiple subjects in a public school setting with diverse learners. This final semester of student teaching is completed concurrently with integrated coursework and focuses primarily on planning, implementing and assessing instruction for whole classes of students.
Credit/No Credit

EDMS 434C.  Intern Teaching for Elementary Teachers.  8 Units
Prerequisite(s): EDMS 434A and department approval.
Term Typically Offered: Fall, Spring

One semester of multiple subjects intern teaching in a public school setting with diverse learners. This semester of intern teaching is completed concurrently with integrated coursework and focuses primarily on planning, implementing, and assessing instruction for a whole class of students while employed as teacher of record.
Credit/No Credit

EDMS 500.  Classroom Inquiry Project: Culminating Experience.  3 Units
Prerequisite(s): EDMS 242 or EDSS 242 and EDMS 243 or EDSS 243.
Term Typically Offered: Spring only

Course establishes that master candidates have acquired the essential knowledge and skills covered in each of the courses leading to the Master of Arts in Teaching with Multiple Subject Teaching Credential. Proficiency is demonstrated through a comprehensive examination of essential content of each course in the master’s degree program. Candidates will produce a written portfolio, accompanying executive summary, and oral presentation of the body of work completed during the Master of Arts in Teaching with Multiple Subject Teaching Credential Program.
Cross listed: EDSS 500
Credit/No Credit

EDMS 599.  Continuous Master of Arts in Teaching Enrollment.  0 Units
Prerequisite(s): Student has completed all MAT coursework prior to EDMS 500 and earned an RP in EDMS 500 or EDSS 500.
Term Typically Offered: Fall, Spring

This is a zero-unit course for students in the Master of Arts in Teaching (MAT) program who earn an RP in their culminating experience course, EDMS/EDSS 500. The purpose of this course is to allow MAT students to maintain their continuous enrollment status while they complete the culminating experience requirements for the MAT program.
Credit/No Credit

Education - School Psychology (EPSY)

EPSY 201.  Legal Aspects of Special Education.  3 Units
Term Typically Offered: Fall only

Legislative provisions related to implementation of special education programs and procedures will be a primary focus. Additional emphasis will be given to pertinent judicial decisions and to law as it relates to special education in a multicultural context, as well as to ethical practices.
Note: The course meets the Graduate Writing Intensive requirement.
EPSY 221. Equity Considerations for School Psychologists. 3 Units
Term Typically Offered: Fall only
To practice in a culturally responsive manner, school psychologists must understand the myriad ways in which racism and social stigma influence public schooling in the United States. This course covers the historical context of education in the United States for individuals who hold marginalized racial, ethnic, gender, sexual orientation, and/or disability-related identities. The course also addresses considerations for working with underrepresented individuals across all domains of school psychologists; practice (e.g., counseling, assessment, consultation). Evidence-based policies, practices, and programs are emphasized.

EPSY 231. Group Process in School Psychology. 3 Units
Term Typically Offered: Fall, Spring
Designed to equip students with the group process skills and understanding essential to the practice of school psychology. Focus on both developing counseling groups within the schools and on the understanding of group process necessary to being an effective agent in the school setting. Topics include the logistics of working within a school system, balancing groups, soliciting referrals, sharing information, participating in staff meeting, and facilitating parent teacher and other school level meetings such as Individualized Education Program Planning meetings.

EPSY 239. Education Specialist Seminar. 3 Units
Prerequisite(s): Approval as a candidate in the Education Specialist program, completion of courses required for the School Psychology Internship credential, approval of advisor, and department petition.
Term Typically Offered: Fall, Spring
Explores leadership roles of school psychologists.
Credit/No Credit

EPSY 240. Functional Assessment of Behavior. 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring
Assessment of behaviors using the techniques of applied behavior analysis. Students will learn how to do functional assessments of behavior. Methods appropriate for assessment of children in the school setting are emphasized.

EPSY 241. Counseling and Psychotherapy for School Psychologists. 3 Units
Corequisite(s): EDS 440.
Term Typically Offered: Fall, Spring
Examination of basic theories of counseling and therapy used by school psychologists, with emphasis on children and youths in an educational setting and their families. Refinement of one’s own counseling orientation is required.

EPSY 242A. Cognitive Assessment. 3 Units
Corequisite(s): EDS 242B.
Term Typically Offered: Fall, Spring
Designed to introduce prospective school psychologists to both theory and practice in the assessment of cognitive abilities. Students will be exposed to various approaches to cognitive assessment including information processing, CBA, dynamic, and psychometric. Students will learn to administer and interpret major standardized cognitive assessment instruments including the WISC-R, WAIS-R, Stanford-Binet FE, KABC, and others. Lecture.

EPSY 242B. Cognitive Assessment Lab. 4 Units
Corequisite(s): EDS 242A.
Term Typically Offered: Fall, Spring
Clinic based practice lab. Lab will be a synthesis and application of course content in the assessment of cognitive function. Students will be assigned clients for purposes of administering, scoring, evaluating and reporting assessment data.

EPSY 243. Assessment Practicum. 3 Units
Term Typically Offered: Fall, Spring
Administration, scoring, and interpretation of tests taught in EDS 242A-B, EDS 244, or EDS 247. Students will be assigned five to seven cases. They will assess the children, meet with the families to gather history, and render interpretation.
Note: Must be taken concurrently with EDS 242A, EDS 242B, EDS 244, and EDS 247. May be taken twice for credit.

EPSY 243A. Assessment Practicum A. 3 Units
Term Typically Offered: Fall, Spring
Administration, scoring, and interpretation of tests taught in EDS 242A and B and EDS 244. Students will be assigned five cases. They will assess the children, meet with the families to gather history, and render interpretation.
Note: Taken concurrently with EDS 244, unless granted special permission of faculty.

EPSY 243B. Assessment Practicum. 3 Units
Prerequisite(s): EDS 243A
Corequisite(s): EDS 247
Term Typically Offered: Fall, Spring
Advanced practice in administration, scoring, and interpretation of tests taught in EDS 242A-B, EDS 243A, EDS 244, and EDS 247. Students will be assigned five to seven cases (with some cases in Fieldwork placements). Development of skills in assessment, analysis of data, intervention planning and conveying results orally and in writing.
Note: Taken concurrently with EDS 247, unless granted special permission of faculty.

EPSY 243C. Assessment Practicum. 3 Units
Prerequisite(s): EDS 243B
Term Typically Offered: Fall, Spring
Continued training in development of advanced skills in administration, scoring, and interpretation of tests taught in EDS 242 A-B, EDS 243A, EDS 243B, EDS 244, or EDS 247. Students will be assigned cases by the practicum supervisor as appropriate. Students are expected to successfully engage in all stages of assessment process with clients.
Note: Taken with permission of faculty after completion of EDS 243A and EDS 243B.
EPSY 244. Social, Emotional and Behavioral Assessment. 3 Units
Prerequisite(s): EDS 242A and EDS 242B.
Corequisite(s): EDS 243.
Term Typically Offered: Fall, Spring
Examines social/emotional assessment strategies and instruments appropriate for working with students in schools. Topics include clinical interviewing, social-emotional functioning, conduct disorder, and effective report writing. Students use course information during concurrent enrollment in EDS 243: Assessment Practicum.
Note: Must be admitted to School Psychology Program.

EPSY 245. Psychology In The Schools. 3 Units
Prerequisite(s): Must be admitted to School Psychology Program.
Term Typically Offered: Fall, Spring
Overview of psychology in the schools. Topics include school systems, program development, service delivery models and the role of the school psychologist. Students will engage in systematic school observations.

EPSY 246A. Preventive Academic Interventions. 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring
Study and application of various primary, secondary, and tertiary academic interventions designed to prevent school failure and/or learning challenges. Examines techniques of identifying pupils who are experiencing academic difficulties that interfere with school functioning, and intervention techniques designed to remediate or ameliorate these problems.

EPSY 246B. Preventive Mental Health Interventions. 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring
Study and application of various primary, secondary, and tertiary psychological interventions designed to prevent school failure and/or emotional challenges. Examines techniques of identifying pupils who are experiencing mental health difficulties that interfere with school functioning, and intervention techniques designed to address these problems.

EPSY 247. Assessment of Special Needs. 3 Units
Term Typically Offered: Fall, Spring
Assessment of client behavior using formal and non-formal methods based on neuropsychological principles. Students will learn to use interview techniques, standardized cognitive and projective tests, and neuropsychological screening procedures to assess students with special needs. Report writing, parent conferences, and consultation strategies will be stressed.

EPSY 248. Human Development and Learning. 3 Units
Term Typically Offered: Fall, Spring
Cognitive, socio-emotional and personality development through the lifespan (with emphasis on birth through early adulthood) as influences on the learning process. Includes analysis of theories, empirical research and current issues in human development and learning as applied to school learning.

EPSY 249. Special Seminar: School Psychology. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading.
Note: Departmental petition required.
Credit/No Credit

EPSY 250. Educational Research. 3 Units
Prerequisite(s): Graduate status
Term Typically Offered: Spring only
Studies qualitative and quantitative methods in the development of reliable knowledge in the field of education. Includes identification and formulation of research problems, research designs and presentation of reports representative of different research strategies. Classified students are encouraged to take this course early in their graduate programs.

EPSY 299. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading.
Note: Departmental petition required.
Credit/No Credit

EPSY 439. Early Fieldwork in School Psychology. 1 - 10 Units
Prerequisite(s): Satisfactory completion of first year coursework.
Term Typically Offered: Fall, Spring
Fieldwork experience is designed to allow students to explore roles in public schools and to gain experience in the organization and operation of schools, classrooms, and special services. The field placement allows students to work with pupils in public school settings that offer individual and group counseling; consultation with teachers, parents, and other school staff, and special accommodations for students with special needs. Students will work under the supervision of a credentialed school psychologist or school counselor at local school sites. A faculty supervisor from the School Psychology Training Program will work closely with students and field supervisor.
Note: May be repeated for credit.
Credit/No Credit

EPSY 439A. Early Fieldwork in School Psychology. 1 - 10 Units
Prerequisite(s): Satisfactory completion of first year coursework. Graded: Credit / No Credit Units: 1.0 - 10.0
Term Typically Offered: Fall, Spring
Fieldwork experience is designed to allow students to explore roles in public schools and to gain experience in the organization and operation of schools, classrooms, and special services. The field placement allows students to work with pupils in public school settings that offer individual and group counseling; consultation with teachers, parents, and other school staff, and special accommodations for students with special needs. Students will work under the supervision of a credentialed school psychologist or school counselor at local school sites. A faculty supervisor from the School Psychology Training Program will work closely with students and field supervisor.
Note: May be repeated for credit.
Credit/No Credit
EPSY 439B. Early Fieldwork in School Psychology. 1 - 10 Units
Prerequisite(s): Satisfactory completion of first year course work and EDS 439A.
Term Typically Offered: Fall, Spring
Advanced fieldwork experience providing the opportunity for students to engage in the following activities: individual and group counseling; consultation with teachers, parents, and other school staff, and assessment students. Students will work under the supervision of a credentialed school psychologist. A faculty supervisor from the School Psychology Training Program will work with students and field supervisor. Credit/No Credit

EPSY 439C. Early Fieldwork in School Psychology. 1 - 10 Units
Prerequisite(s): Satisfactory completion of first year course work and EDS 439B Graded: Credit / No Credit Units: 1.0 -10.0
Term Typically Offered: Fall, Spring
Ongoing fieldwork experience providing the opportunity for students to more fully develop their skills in: individual and group counseling; consultation with teachers, parents, and other school staff, and assessment of students. Students will work under the supervision of a credentialed school psychologist and a faculty supervisor from the School Psychology Training Program. Credit/No Credit

EPSY 440. Practicum in Individual Counseling/School Psychology. 3 Units
Prerequisite(s): Approval as a candidate in School Psychology program, approval of advisor, and department petition.
Term Typically Offered: Fall, Spring
Supervised practice in individual counseling. Credit/No Credit

EPSY 441. Internship in School Psychology. 3 - 15 Units
Prerequisite(s): Approval as a candidate in the School Psychology program, completion of courses required for the School Psychology Internship credential, approval of advisor, and department petition. May be repeated for credit.
Term Typically Offered: Fall, Spring
Directed field study for school psychologists. Supervised experiences are arranged in school psychology. Credit/No Credit

EPSY 441A. Internship in School Psychology. 3 - 15 Units
Prerequisite(s): Approval as a candidate in the School Psychology program, completion of courses required for the School Psychology Internship credential, approval of advisor, and department petition. Graded: Credit / No Credit Units: 3.0 - 15.0
Term Typically Offered: Fall, Spring
Directed field study for school psychologists. Supervised experiences are arranged in school psychology. Credit/No Credit

EPSY 441B. Internship in School Psychology. 3 - 15 Units
Prerequisite(s): EDS 441A Graded: Credit / No Credit Units: 3.0 -15.0
Term Typically Offered: Fall, Spring
Advanced field study for school psychologists interns. Supervised experiences are arranged in school psychology. Credit/No Credit

EPSY 441C. Internship in School Psychology. 3 - 15 Units
Prerequisite(s): EDS 441B Graded: Credit / No Credit Units: 3.0 - 15.0
Term Typically Offered: Fall, Spring
Third semester of advanced field study for school psychologist interns. Supervised experiences are arranged in school psychology. Credit/No Credit

EPSY 441D. Internship in School Psychology. 3 - 15 Units
Prerequisite(s): EDS 441C Graded: Credit / No Credit Units: 3.0 - 15.0
Term Typically Offered: Fall, Spring
Fourth semester of advanced field study for school psychologists interns. Final semester in which candidates may accrue hours. Supervised experiences are arranged in school psychology. Credit/No Credit

EPSY 540. Education Specialist Thesis: School Psychology. 4 - 6 Units
Term Typically Offered: Fall, Spring
Credit given upon successful completion of a thesis approved for the education specialist degree.
Note: Open only to the graduate students who have been advanced to candidacy for the education specialist degree. Number of units of credit is determined by the candidate’s education specialist advisory committee.

Credit/No Credit

EPSY 541. Master's Project: Education/School Psychology (Plan B). 4 - 6 Units
Prerequisite(s): Advanced to candidacy.
Term Typically Offered: Fall, Spring
Credit given upon successful completion of a project approved for the M.A. in Education/School Psychology option.

EPSY 542. Education Specialist Project: School Psychology. 4 - 6 Units
Term Typically Offered: Fall, Spring
Credit given upon successful completion of a project approved for the Education Specialist degree.
Note: Open only to the graduate student who has been advanced to candidacy. Department petition is required. Number of units of credit is determined by the candidate’s advisor.

Credit/No Credit

Education - Single Subject (EDSS)

EDSS 241. Action Research in Multicultural Settings. 5 Units
Prerequisite(s): Admission to the Master of Arts in Teaching with Multiple/Single Subject Teaching Credential program; Completion of EDMS 434B or EDMS 474B.
Term Typically Offered: Summer only
This course focuses on an introduction to Action Research in multicultural educational settings. It includes an overview of various research paradigms, with emphasis on Action Research and Teacher Action Research. Additional topics covered in this course include: critical pedagogy, forms of multicultural education, and issues related to educational equity and providing access of opportunity to students from underserved populations. Cross listed: EDMS 241
EDSS 242. Critical Perspectives in Classroom Inquiry. 3 Units
Prerequisite(s): EDMS 241 or EDSS 241
Term Typically Offered: Fall only

This course is part of the Master of Arts in Teaching with Single Subject Teaching Credential Program and builds on the knowledge that students gain in EDMS/EDSS 241. During this course students will complete a literature review of research related to their critical inquiry question. Students will additionally explore the historical and current trends in critical classroom inquiry and consider the implications for schools in diverse settings. Further course activities include developing a Classroom Inquiry Project and submitting the IRB. Cross listed: EDMS 242

EDSS 243. Data Collection for Action Research in Multicultural Settings. 3 Units
Prerequisite(s): EDMS 241 or EDSS 241.
Term Typically Offered: Fall only

This course builds students understanding of appropriate types and uses of data in Action Research in multicultural education settings. During this course students will be presented with the sociopolitical contexts for data collection and its subsequent use in educational policy. Students will apply theoretical knowledge by practicing to collect and initially interpreting multiple types of data. These experiences will lay the groundwork for students development and implementation of the data collection plan for their own Classroom Inquiry Projects. Cross listed: EDMS 243.

EDSS 244. Sociocultural & Sociopolitical Contexts of Data Analysis. 3 Units
Prerequisite(s): EDMS 242 or EDSS 242 and EDMS 243 or EDSS 243
Term Typically Offered: Spring only

This course builds students understanding of appropriate methods of data analysis in Teacher Action Research in multicultural education settings. Students will learn how data analysis has been used to interpret research in diverse school settings. Students will apply theoretical knowledge by analyzing multiple types of data sets form both qualitative and quantitative sources. These experiences will lay the groundwork for students implementation of analysis of their own data for their Action Research inquiry projects. Cross listed: EDMS 244

EDSS 264. Critical Multiculturalism for Racial/Social Justice Education-Secondary. 3 Units
Prerequisite(s): Admission to the MA in Teaching with Single Subject Teaching Credential Program.
Term Typically Offered: Fall, Spring

This course serves as an introduction to Critical Multiculturalism, Racial/Social Justice pedagogy, and Anti-Bias education. The course will provide a critical perspective for analyzing the purposes and processes of U.S. public schooling. Students will examine the socio-historical political contexts of public schools and society, educational/learning theories, philosophical educational foundations, notions of culture, community, and educational practice. Teaching modalities will include lectures, whole group discussions, small group work and presentations, and on-line fieldwork assignments.

Prerequisite(s): Admission to MA in Teaching with Single Subject Teaching Credential program.
Term Typically Offered: Fall, Spring

This course serves as an introduction to Critical Multiculturalism, Racial/Social Justice pedagogy, and Anti-Bias education. The course will provide critical perspective for analyzing the purposes and processes of U.S. public schooling in a Linked Learning context. Students will examine the socio-historical political contexts of public schools and society, educational/learning theories, philosophical educational foundations, notions of culture, community, and educational practice. Teaching modalities will include lectures, whole group discussions, small group work and presentations, and on-line fieldwork assignments.

EDSS 265. Advanced Fundamentals of Teaching. 2 Units
Prerequisite(s): EDSS 365

Term Typically Offered: Fall, Spring

Extends learning from EDSS 365 with deeper examination of the relationship between elements of teaching and instructional organization needed to effectively teach in culturally and linguistically diverse and inclusive secondary classrooms through the use of backward design, Universal Design for Learning, differentiated instruction and assessment. The focus will be grounded in a Social Justice/Multicultural paradigm. Emphasis will include students' development as teachers through exploration of curriculum development frameworks, long-and short-term planning approaches, and specific theories for instructional practice.

EDSS 265A, B, C, D. Advanced Fundamentals of Teaching, Workshop. 1 Unit
Prerequisite(s): EDSS 365A and EDSS 365B
Corequisite(s): EDSS 265C
Term Typically Offered: Fall, Spring

Extends learning in EDSS 365A, B and EDSS 265C by deepening knowledge about the relationship between elements of teaching and instructional organization. Focus on effective teaching for culturally and linguistically diverse and inclusive secondary classrooms through the use of backward design, Universal Design for Learning, differentiated instruction and assessment. Instructional framework will be grounded in a Social Justice/Multicultural paradigm. Emphasis will include students' development as a teacher including application of curriculum development theories, long-and short-term planning frameworks and specific theories.

EDSS 265L. Advanced Fundamentals of Teaching-Linked Learning. 2 Units
Prerequisite(s): EDSS 365L
Term Typically Offered: Fall, Spring

Extends learning from EDSS 365 with deeper examination of the relationship between elements of teaching and instructional organization needed to effectively teach in culturally and linguistically diverse and inclusive secondary classrooms through the use of backward design, Universal Design for Learning, differentiated instruction and assessment. The focus will be grounded in a Social Justice/Multicultural paradigm. Emphasis will include students' development as teachers through exploration of Linked Learning curriculum development frameworks, long-and short-term planning approaches, specific theories for instructional practice.
EDSS 266. Advanced Single Subject Seminar. 2 Units
Prerequisite(s): EDSS 366
Term Typically Offered: Fall, Spring

Second of two-course series. Provide structured opportunities for candidates to discuss, analyze, reflect upon data gathered from field; support completion of TPA. Further study of policies, school law, resources, strategies, routines, and activities needed for productive environments in classrooms as locations for student engagement/learning. Special emphasis on English Language Development, students with special needs, and specific management/implementation of activities. Course assignments/activities integrated with other core courses. Credit/No Credit

EDSS 266L. Advanced Single Subject Seminar, L. 2 Units
Prerequisite(s): EDSS 366L
Term Typically Offered: Fall, Spring

Second of two-course series. Provide structured opportunities for candidates to discuss, analyze, reflect upon data gathered from field; support completion of TPA. Further study of policies, school law, resources, strategies, routines, and activities needed for productive environments in classrooms as locations for student engagement/learning. Special emphasis on English Language Development, students with special needs, and specific management/implementation of Linked Learning activities (e.g. multidisciplinary integrated units of study). Course assignments/activities integrated with other core courses. Credit/No Credit

EDSS 279A. Method and Materials for Teaching Secondary English Learners, A. 1.5 Units
Prerequisite(s): EDUC 170; Admission to the Single Subject Credential program
Term Typically Offered: Fall, Spring

This course is the first of a two-course series. Introduces candidates to a repertoire of theory-based methods needed to facilitate and measure their own students’ growth in English language development (ELD) as well as create learning environments which promote content area learning through the use of Specially Designed Academic Instruction in English (SDAIE). Candidates acquire knowledge and skills in methods of teaching a second language through readings, fieldwork, discussion, group interaction, lesson presentation, hands-on experience of methods, and materials exploration.

EDSS 279B. Methods and Materials for Teaching Secondary English Learners, B. 1.5 Units
Prerequisite(s): EDSS 279A
Term Typically Offered: Fall, Spring

Second course in a two-course series. Candidates expand their repertoire of theory-based methods to facilitate and measure their own students’ growth in English language development (ELD) as well as create learning environments which promote content area learning through the use of Specially Designed Academic Instruction in English (SDAIE). Candidates deepen knowledge and skills related to methods of teaching a second language through readings, fieldwork, discussion, group interaction, lesson presentation, hands-on experience of methods, and materials exploration.

EDSS 279C. Method and Materials for Teaching Secondary English Learners, C. 1.5 Units
Prerequisite(s): EDUC 170; Admission to the Single Subject Credential Program
Term Typically Offered: Fall, Spring

The first of two-course series. Introduces candidates to theory-based methods to facilitate/measure their own students’ growth in English language development and create learning environments which promote content area learning through Specially Designed Academic Instruction in English (SDAIE). Specific instruction given to develop skills in Linked Learning settings and learning activities therein. Candidates acquire knowledge/skills in methods of teaching a second language through readings, fieldwork, discussion, group interaction, lesson presentation, hands-on experience of methods, and materials exploration.

EDSS 279D. Method and Materials for Teaching Secondary English Learners, D. 1.5 Units
Prerequisite(s): EDSS 279C
Term Typically Offered: Fall, Spring

Second in two-course series. Candidates expand repertoire of theory-based methods to facilitate/measure students’ growth in English language development and create learning environments which promote content area learning through Specially Designed Academic Instruction in English (SDAIE). Specific instruction given to develop skills in Linked Learning settings and learning activities therein. Candidates deepen knowledge and skills related to methods of teaching a second language through readings, fieldwork, discussion, group interaction, lesson presentation, hands-on experience of methods, and materials exploration.

EDSS 282. Strategies for Inclusive Classrooms: Single Subject. 3 Units
Prerequisite(s): Admission into a teacher preparation program or an MA in Teaching with Multiple/Single Subject Teaching Credential program
Term Typically Offered: Fall, Spring

This course provides single subject and special education candidates with dispositions, knowledge, and skills needed to serve students with disabilities in general education classrooms. Strategies specific to students in their least restrictive environment will be covered emphasizing Universal Design for Learning, Multi-Tiered Systems of Support, social-emotional learning, co-teaching, differentiated instruction, roles and responsibilities of special/general education teachers, peer mediated learning strategies, modifications of standards and learning outcomes for students with disabilities, and assistive technology (low and high tech adaptations). Cross listed: EDSP 293

EDSS 291. Foundations in Career Technical Education: Bridging Industry to the Classroom. 3 Units
Term Typically Offered: Fall, Spring

This course includes identification of current Career Technical Education practices, building an understanding of industry sectors, career pathways and standards, development of advisory committees, and exploration of Career Technical Student Organizations (CTSOs). Candidates will prepare standards-based lesson plans, units of instruction in career exploration, develop recruitment tools, and identify and teach 21st Century Skills. Candidates will identify funding sources, necessary equipment, and plans for safe storage. They will develop plans to incorporate work based learning into their program.

| EDSS 299.   | Special Problems: Single Subject | 1 - 3 | Fall, Spring           |                | Individual projects for Single Subject credential candidates at graduate/credential level especially for students capable of independent study. Admission by written approval of the instructor with whom the student will be working and the Department Chair.  

**Note:** This course may be repeated for up to 9 units of credit. Credit/No Credit |
| EDSS 364.   | Advanced Critical Multiculturalism for Racial/Social Justice Education- Secondary | 2 | Fall, Spring           | Admission into the Single Subject Credential Program; EDSS 264. | This course continues a critical analysis of the purposes and processes of public schooling, including Critical Multiculturalism, Racial/Social Justice pedagogy, and Anti-Bias education. Students will examine the sociopolitical intersection of public and society, educational theories, philosophies, notions of culture, community, and educational practice through self-examination of dispositions related to gender, sexuality, race, social class, language, religion/spirituality and ability. Term Typically Offered: Fall, Spring |
| EDSS 364D.  | Advanced Theoretical Foundations of Teaching in a Multicultural Democratic Society, Workshop | 1 | Fall, Spring           | Admission into the Single Subject Credential Program; EDSS 264A. | Further study of the purposes and processes of public schooling. Candidates develop a philosophy of education for teaching in a multicultural, multilingual, and democratic society through self-examination of dispositions related to gender, sexuality, race, social class, language, religion/spirituality and ability. Modalities include discussions, small group tasks, group projects and simulations. Term Typically Offered: Fall, Spring |
| EDSS 364L.  | Advanced Critical Multiculturalism for Racial/Social Justice Education- Secondary Linked Learning | 2 | Fall, Spring           | EDSS 264L      | This course continues a critical analysis of the purposes and processes of public schooling in Linked Learning settings, including Critical Multiculturalism, Racial/Social Justice pedagogy, and Anti-Bias education. Students will examine the sociopolitical intersection of public schools and society, educational theories, philosophies, notions of culture, community, and educational practice through self-examination of dispositions related to gender, sexuality, race, social class, language, religion/spirituality and ability. Term Typically Offered: Fall, Spring |
| EDSS 365.   | Fundamentals of Teaching | 3 | Fall, Spring           | Admission into the Master of Arts in Teaching with a Single Subject Credential program | This course introduces the relationship between elements of teaching and instructional organization to effectively teach in culturally and linguistically diverse and inclusive secondary classrooms through the use of backwards design, Universal Design for Learning, and differentiated instruction. The focus will be grounded in a Anti-Racist/Social Justice paradigm. Emphasis will be on application of theories and frameworks learned in EDSS 365A, with a focus on students' development as a teacher, curriculum development, long and short-term planning, and assessing student learning. Discussion, small group work and simulations. |
| EDSS 365A.  | Theoretical Foundations of Teaching in a Multicultural Democratic Society, Workshop | 1.5 | Fall, Spring           | Admission into Single Subject Teacher Preparation Program | This course introduces the relationship between elements of teaching and instructional organization to effectively teach in culturally and linguistically diverse and inclusive secondary classrooms through the use of backwards design, Universal Design for Learning, and differentiated instruction. The focus will be grounded in a Social Justice/Multicultural paradigm. Emphasis will be on application of theories and frameworks learned in EDSS 365A, with a focus on students' development as a teacher, curriculum development, long and short-term planning, and assessing student learning. Discussion, small group work and simulations. |
| EDSS 365L.  | Fundamentals of Teaching- Linked Learning | 3 | Fall, Spring           | Admission to the Master of Arts in Teaching with a Single Subject Credential program | This course introduces the relationship between elements of teaching and instructional organization to effectively teach in culturally and linguistically diverse and inclusive Linked Learning secondary classrooms through the use of backwards design, Universal Design for Learning, and differentiated instruction. The focus will be grounded in an Anti-Racist/Social Justice paradigm. Emphasis will include students' development as a teacher, curriculum development, long and short-term planning, and specific theories for instructional practice in Linked Learning settings. Term Typically Offered: Fall, Spring |
| EDSS 366.   | Single Subject Seminar | 3 | Fall, Spring           | Admission to the MA in Teaching with Single Subject Teaching Credential Program | First part of a 2-course sequence that provides structured opportunities for student teachers to discuss, analyze, and reflect upon data gathered from their field placements. Attention given to policies, school law, resources, strategies, routines, and activities that contribute to the productive management of the school and classroom as locations for student engagement and learning. Special emphasis will be on English Language Development and students with special needs. Course assignments and activities are integrated with other core courses. Credit/No Credit |
| EDSS 366L.  | Single Subject Seminar, L. | 3 | Fall, Spring           | Admission to the MA in Teaching with Single Subject Teaching Credential program | First part of a 2-course sequence that provides structured opportunities for student teachers to discuss, analyze, and reflect upon data gathered from their field placements in Linked Learning settings. Attention given to policies, school law, resources, strategies, routines, and activities that contribute to the productive management of the Linked Learning school and classroom as locations for student engagement and learning. Special emphasis will be on English Language Development and students with special needs. Credit/No Credit |
EDSS 378. Secondary Science Methods for In-Service Teachers. 3 Units
Prerequisite(s): California Teaching Credential (Multiple Subjects or Single Subject)
Term Typically Offered: Fall, Spring, Summer
This course provides instruction to organize instructional materials, techniques of presentation and methods of evaluation for secondary school mathematics. It will be based on the research of the National Council of Teachers of Mathematics (NCTM) and Mathematics Framework for California Teachers. The participants will learn how to apply current research to their practice through development of lessons and assessment tools. They will investigate a variety of instructional strategies that develop conceptual understanding, procedural fluency, and problem-solving and reasoning skills.

EDSS 378B. Secondary Science Methods for In-Service Teachers. 3 Units
Prerequisite(s): California Teaching Credential (Multiple Subjects or Single Subject)
Term Typically Offered: Fall, Spring, Summer
This course is for teachers who hold a teaching credential and are pursuing an additional California Single Subject Credential in an area of science. It will introduce theoretical bases and practical applications of science pedagogy in secondary classrooms. Participants will investigate and apply instructional strategies aligned with the state-adopted K-12 academic content standards (Next Generation Science Standards) to ensure equitable access for all students to science, and engage students to reflect the intellectual rigor of scientific inquiry.

EDSS 383A. Methods in English Education, A. 1.5 Units
Prerequisite(s): Admission to the teacher preparation program Corequisite(s): EDSS 474A
Term Typically Offered: Fall, Spring
A critical course for English teaching preparation, educational experiences will promote understandings, attitudes and competencies necessary for effective instruction in English Language Arts and literacy in grades 7-12. Candidates acquire skills related to literacy assessment, text selection, and lesson/unit planning designed to meet the needs of all learners, including mainstream populations, English learners and students with special needs. Students are provided with opportunities to acquire skills, knowledge, practice, and experience planning for and teaching secondary English language arts and literacy. Lecture and discussion.

EDSS 383B. Methods in English Education, B. 1.5 Units
Prerequisite(s): EDSS 383A
Corequisite(s): EDSS 474B
Term Typically Offered: Fall, Spring
A critical course for English teaching preparation, educational experiences will promote understandings, attitudes and competencies necessary for effective instruction in English Language Arts and literacy in grades 7-12. Candidates acquire skills related to literacy assessment, text selection, and lesson/unit planning designed to meet the needs of all learners, including mainstream populations, English learners and students with special needs. Students are provided with opportunities to acquire skills, knowledge, practice, and experience planning for and teaching secondary English language arts and literacy. Lecture and discussion.

Note: This course is the second in a two course series
EDSS 384A. Instruction and Assessment of Academic Literacy, A.  1.5 Units
Prerequisite(s): Admission to the Single Subject Teacher Credential Program
Corequisite(s): EDSS 474A
Term Typically Offered: Fall, Spring

Introduction to foundational understandings, attitudes and competencies necessary for effective instruction of academic language and literacy in 7-12 content area classrooms. Candidates acquire skills related to literacy assessment, text selection, and lesson planning designed to meet the needs of all learners, including mainstream population, English learners and students with special needs. Candidates develop an awareness of what constitutes effective content literacy instruction and a beginning repertoire of strategies to help students meet the demands of content reading, writing and discussion. Lecture and discussion.

EDSS 384B. Instruction and Assessment of Academic Literacy, B.  1.5 Units
Prerequisite(s): EDSS 384A
Corequisite(s): EDSS 474B
Term Typically Offered: Fall, Spring

Second course in a two course series on understanding effective instruction of academic language and literacy in 7-12 content area classrooms. Candidates hone skills in literacy assessment, text selection, and lesson planning to meet the needs of all learners, including mainstream populations, English learners and students with special needs. Application of content literacy instruction (pre, during and post reading and writing strategies). Enhanced knowledge of strategies to support students’ attainment of the demands of content reading, writing and discussion. Lecture, discussion.

EDSS 385A. Methods in World Language Education, A.  1.5 Units
Prerequisite(s): Admission into the Single Subject Teacher Credential Program
Corequisite(s): EDSS 474A
Term Typically Offered: Fall, Spring

This course is designed for candidates who are preparing to teach world languages in secondary school settings in California public schools. Candidates will learn about current theoretical bases for second-language acquisition and how such theories inform classrooms practice. Candidates have introductory opportunities to practice principles of learning from which teachers can draw as they make decisions about instruction. Lecture, discussion and simulation. Cross Listed: WLL 385A; only one may be counted for credit.

EDSS 385B. Methods in World Language Education, B.  1.5 Units
Prerequisite(s): EDSS 385A or WLL 385A
Corequisite(s): EDSS 474B
Term Typically Offered: Fall, Spring

This course continues learning initiated in EDSS 385A and is designed for candidates who are preparing to teach world languages in secondary school settings in California public schools. Candidates will learn additional methodologies for planning and delivering instruction in world languages. Candidates will practice instructional strategies and will design lessons. Candidates will implement assessments that capture student learning of key world language outcomes, including oral language and written language development and reading fluency. Strategies for teaching cultural appreciation are also embedded. Lecture, discussion and simulation. Cross Listed: WLL 385B; only one may be counted for credit.

EDSS 386A. Methods in Mathematics Education, A.  1.5 Units
Prerequisite(s): Admission to Single Subject Teacher Credential Program
Corequisite(s): EDSS 474A
Term Typically Offered: Fall, Spring

First part of a two-course sequence that provides instruction to organize instructional materials, techniques of presentation and methods of evaluation for secondary school mathematics. Articulated with student teaching and should be taken the same semester. Activities include discussions, presentations and demonstrations.

EDSS 386B. Methods in Mathematics Education, B.  1.5 Units
Prerequisite(s): EDSS 386A
Corequisite(s): EDSS 474B
Term Typically Offered: Fall, Spring

Second part of a two-course sequence that provides continuation of organization of instructional materials, techniques of presentation and methods of evaluation for secondary school mathematics. Articulated with student teaching and should be taken the same semester.

EDSS 387A. Methods in History/Social Science Education, A.  1.5 Units
Prerequisite(s): Admission into the Single Subject Teacher Credential Program
Corequisite(s): EDSS 474A
Term Typically Offered: Fall, Spring

First of a two-part field and lecture-based course which will prepare candidates to teach history-social science content and analysis skills to secondary students, particularly those who are culturally and linguistically diverse, have special needs, or are English learners. Focus on identifying and evaluating curricular resources and instructional strategies that emphasize the active use of critical thinking skills and the development of civic values for informed participation in a democratic society.

EDSS 387B. Methods in History/Social Science Education, B.  1.5 Units
Prerequisite(s): EDSS 387A
Corequisite(s): EDSS 474B
Term Typically Offered: Fall, Spring

Second of a two-part field and lecture-based course which will prepare candidates to teach history-social science content and analysis skills to secondary students, particularly those who are culturally and linguistically diverse, have special needs, or are English learners. Focus on implementing curriculum and instructional strategies and assessing student mastery of grade-level content and skills that are central to history-social science disciplines.

EDSS 388A. Methods in Science Education, A.  1.5 Units
Prerequisite(s): Admission to Single Subject Teacher Credential Program
Corequisite(s): EDSS 474A
Term Typically Offered: Fall, Spring

First part of a two-course sequence that provides introduction to organization of instructional materials, techniques of presentation, and methods of evaluation for secondary school science. Articulated with student teaching and should be taken the same semester. Activities include discussion, presentations and demonstrations.
EDSS 388B.  Methods in Science Education, B.  1.5 Units
Prerequisite(s): EDSS 388A
Corequisite(s): EDSS 474B
Term Typically Offered: Fall, Spring

Second part of a two-course sequence that provides introduction to organization of instructional materials, techniques of presentation, and methods of evaluation for secondary school science. Articulated with student teaching and should be taken the same semester. Activities include discussion, presentations and demonstrations.

EDSS 392.  Teaching Strategies for the CTE Classroom: Supporting All Students.  3 Units
Term Typically Offered: Fall, Spring

This course merges the professional world of industry and the profession of teaching, in an effort to support an industry professional to transition into an education professional. It does this by examining teaching strategies in general and specifically how to apply those strategies to a classroom filled with diverse learners, including students with special needs and English language learners. This is accomplished through reflections, discussions, interviews, observations, readings, and field-based assignments.

EDSS 393.  Assessment for Instruction in the CTE Classroom.  0 Units
Term Typically Offered: Fall, Spring

In this course, candidates identify student prior knowledge and use assessments to adapt instruction. They use differentiated instructional strategies to make content accessible to neurodiverse learners and English learners. Candidates reflect on and evaluate the overall effectiveness of their curriculum plan. They understand and honor legal and professional obligations and appropriately use computer-based technology. In the capstone assignment, candidates plan for and teach a unit in the classroom, using assessment data to reflect upon the effectiveness of their instruction.

EDSS 401.  Observation and Participation in Secondary Classrooms.  2 Units
Prerequisite(s): Admission to Teacher Preparation Program
Teacher candidates will observe and participate as teaching assistants in public school secondary classrooms.
Credit/No Credit

EDSS 440.  Work-Based Learning Field Experience.  2 Units
Prerequisite(s): Admission to the Single Subject Credential program
This fieldwork course focuses on the work-based learning core component of Linked Learning/Career Pathways. After an orientation to work-based learning, its function in Linked Learning/Career pathways, and how it can be integrated into core curriculum, candidates will experience a non-paid, one-week internship at a worksite associated with one of the 15 major CA industries. Candidates develop work-based knowledge and experiences to be applied when they create a subject-specific curricular unit incorporating their work-based learning. Fieldwork, discussion.

EDSS 470A.  Field Experience: Secondary.  6 Units
Prerequisite(s): Acceptance into the Sacramento State Single Subject Teaching Credential Program.
Term Typically Offered: Fall, Spring

Provides candidates with field experiences of increasing complexity and responsibility as they engage in cycles of teaching. Public school assignment in a secondary school serving culturally and linguistically diverse community for one university semester with three periods of responsibility: English learner class, single subject content class, and an observation/consultation period. Observations and supervised teaching experiences will be systematic and structured.
Credit/No Credit

EDSS 470B.  Student Teaching: Secondary.  12 Units
Term Typically Offered: Fall, Spring

Provides candidates with field experiences of increasing complexity and responsibility as they engage in cycles of teaching. Experiences will be systematic and structured. Student teachers will be placed for the public school's semester at a school serving linguistically and culturally diverse students. Candidates become more independent with primary responsibility for cycle of teaching with equivalent of three periods supervised teaching and one consultation period.
Credit/No Credit

EDSS 471A.  Elementary Physical Education Student Teaching.  5 Units
Prerequisite(s): Acceptance into the Sacramento State Single Subject Teaching Credential Program.
Term Typically Offered: Fall, Spring

The elementary physical education teacher will be placed in a setting where he/she is able to plan, implement, promote and assess a developmentally appropriate physical education program that meets the diverse needs, interests and abilities of elementary school children, K-6.
Credit/No Credit

EDSS 471B.  Secondary Physical Education Student Teaching.  4 Units
Prerequisite(s): The successful completion of EDTE 471A.
Term Typically Offered: Fall, Spring

The secondary physical education student teacher will be placed in a setting where he/she is able to plan, implement, promote and assess a developmentally appropriate physical education program that meets the diverse needs, interests and abilities of secondary school children, 6-12.
Credit/No Credit

EDSS 474A.  Field Experiences in Secondary Schools.  6 Units
Prerequisite(s): Admission into the Single Subject Teaching Credential Program
Term Typically Offered: Fall, Spring

Provides candidates with field experiences of increasing complexity and responsibility as they engage in cycles of teaching. Public school assignment in a secondary school serving culturally and linguistically diverse community for one university semester with three periods of responsibility: English learner class, single subject content class and an observation/consultation period. Observations and supervised teaching experiences will be systematic and structured.
Credit/No Credit
The course introduces undergraduate students to a career working with children and youth with disabilities and their families. Students will explore the different career opportunities in the field of special education, the skills of an education specialist teacher, and credential requirements for becoming an educator working with students with disabilities including advocacy, reflection, organization, empathy, and credential program pre-requisites. Students will complete biographical readings, a career plan, and at least 30 hours of fieldwork with an education specialist teacher.

This course provides analysis of historical, philosophical, legal, and ethical foundations of special education and emerging issues in the disability rights/social justice movement to provide free and appropriate education (FAPE) for children and youth with diverse linguistic, cultural, socio-economic, physical, mental, social, emotional characteristics in the least restrictive environment (LRE). Legislation (e.g., IDEA 2004, ESSA, Section 504, ADA) and current legal requirements and best practices in identification, eligibility, assessment, IFSP/IEP/ITP development and implementation, and inclusive educational service delivery are examined.

This seminar introduces Early Childhood Special Education (ECSE) candidates to their fieldwork experiences, technology, and development as an ECSE teacher. Candidates will examine their own teacher identity; identify anti-bias educational practices; analyze and reflect upon models of effective teaching and assessment; and develop technology, reflection, and critical thinking skills to engage in the teaching profession.

Overview of ECSE historical, philosophical, theoretical/empirical, and legal bases for family centered, relationship based special education services. Emphasis is on developing cross-cultural competence and a strengths-based, student-centered approach to empowering families and advocating for students with disabilities. Students will develop skills required to build and maintain collaborative relationships through effective communication and teaming with families, students, professional colleagues, and community members. These skills will be applied in the context of school-family-community partnerships, professional partnerships, person-centered planning/future planning and IFSP/IEP development.
EDSP 205. Methods in Access and Inclusion in the GE Curriculum: Students with Extensive Support Needs. 3 Units
Prerequisite(s): EDSP 119, EDSP 206, EDSP 235, EDSP 220
Term Typically Offered: Fall, Spring

The focus of this course will be on the following three areas: 1) the processes for developing modified IEP goals which are based on the general education standards for all core curriculum as well as other individual information; 2) collaboration with general education teachers in the development of participation and support plans for inclusion in the general education classroom; and, 3) instructional strategies and adaptations which will enhance success across curricular areas for students with extensive support needs.

EDSP 206. Collaborative Program Planning with Families, Professionals, and Communities. 3 Units
Prerequisite(s): Admittance to Mild/Moderate or Moderate/Severe Credential program or advisor approval
Term Typically Offered: Fall, Spring

Students will develop skills in the areas of: family collaboration; school and community collaboration in the context of IEP development and school partnerships; cross-cultural competence; communication; person-centered planning/future planning, partnering with families; transdisciplinary teaming to develop the IEP and the ITP; and facilitating social relationships and friendships as part of the school experience.

EDSP 207. Secondary/Post-secondary methods and transition planning for Students with Extensive Support Needs. 2 Units
Prerequisite(s): EDSP 119
Corequisite(s): EDSP 413 or EDSP 414
Term Typically Offered: Fall, Spring

Students will develop knowledge and skills related to strategies for including students within the middle and high school environment. Students will develop skills in community-based instruction transition planning, in addition to designing outcomes and supports within the general education curriculum. Students will also gain knowledge and skills related to vocational and supported employment, and preparation for work after high school, and how to facilitate a successful transition to post-secondary education, supported living, and supported employment.

EDSP 208. Positive Behavioral Supports and Evidence-Based Practices for Youth with Autism and Related Issues. 3 Units
Prerequisite(s): EDSP 119
Term Typically Offered: Fall, Spring

Students will develop competencies in evidence-based and promising practices in assessment, interventions and instructional strategies for children and youth with autism spectrum disorder (ASD) and those with mental health concerns and/or dual diagnosis (severe behavior or emotional challenges and developmental, intellectual, sensory, and/or motor disabilities) in the natural contexts of general education classrooms, other school settings, home and community. Students will conduct a functional behavioral assessment and develop and implement a positive behavior support for a student with challenging behaviors.

EDSP 209. Developing Augmentative & Alternative Communication Systems: Assessment and Intervention. 3 Units
Prerequisite(s): Admission to the MAT plus Education Specialist Credential Program.
Term Typically Offered: Fall, Spring

Participants will learn: a) how to assess communicative forms from nonsymbolic to symbolic and unintentional to sophisticated in students with disabilities; b) how to collaborate with audiologists, vision specialists, physical, occupational, and speech therapists related to communication; c) to select from the range of light tech to high tech augmentative communication systems and related assistive technology, based on assessment; d) how to develop communication instructional plans; and, e) how to implement instruction embedded across multiple environments and with multiple partners.

EDSP 210. Assessment and Evaluation in Early Childhood Special Education. 3 Units
Prerequisite(s): Admission to the MA in Special Education Teaching (Early Childhood Special Education)
Term Typically Offered: Fall, Spring

This course integrates family-centered and strengths-based approaches in early childhood special education into the assessment and evaluation process. Content will focus on developing quality practices in early childhood assessment including using a range of culturally, linguistically, and ability appropriate tools and techniques; parent–professional collaboration; transdisciplinary team assessment; assessment reporting; and translating results into intervention planning. Students will demonstrate skills in the assessment process including planning, collecting, interpreting, and communicating assessment information about infants, and young children with disabilities.

EDSP 211. Curriculum, Intervention Strategies, and Environments in ECSE I: Infants & Toddlers. 3 Units
Prerequisite(s): Admittance to the Master of Arts in Special Education Teaching (Early Childhood Special Education)
Term Typically Offered: Fall, Spring

The focus of this course is acquisition of knowledge and skills to support families and other caregivers in facilitating development for infants and toddlers at risk or with disabilities. Students will collaboratively plan and implement curriculum and intervention strategies for infants, toddlers and families. These strategies may be utilized in a range of natural learning environments including home, childcare, and community programs.

EDSP 212. Inclusive Curriculum, Intervention Strategies, and Environments in ECSE II: Preschool & Kindergarten. 3 Units
Prerequisite(s): Admittance to the Education Specialist Credential Program: Early Childhood Special Education
Term Typically Offered: Fall only

Candidates develop the skills and mindsets necessary to design and implement developmentally appropriate play-based environments and instruction for young children with disabilities in school-based learning environments including inclusive preschools and kindergarten programs. Using a tiered approach, candidates plan and implement universally designed lessons and create embedded instruction plans that require intentionally planning supports, assessments, and evidence-based interventions within daily routines and activities to ensure all students learn and belong.
EDSP 213. Early Language and Literacy Development, Instruction, and Intervention in ECSE. 3 Units
Prerequisite(s): Admission to the Master of Arts in Teaching with Early Childhood Special Education credential program
Term Typically Offered: Fall, Spring
Course examines theories and historical context of language and literacy development and instruction in young children from infancy through kindergarten with an emphasis on English Learners and children with disabilities. Candidates will learn to create and implement integrated instructional units and lesson plans that teach early literacy through play-based centers, math, science, and the arts while supporting individual students with accommodations and embedded instruction. Candidates examine the role of technology, assistive technology, and authentic assessment to enhance and guide instruction.

EDSP 216. Understanding the Implications of Developmental Diversity in Children and Youth. 2 Units
Prerequisite(s): Admission to an Education Specialist Credential Program.
Term Typically Offered: Fall, Spring
Using a critical disability theory perspective, this course explores: 1) atypical development across areas (e.g., cognitive, social, physical, linguistic) due to prenatal, perinatal, and early childhood developmental risk factors; 2) childhood development theories and how they support educators' understanding of children, families, and developmentally appropriate practices; and 3) service delivery models and key transitions across the lifespan.

EDSP 217. Foundations of Positive Behavioral Supports: Creating Safe and Engaging Learning Environments. 3 Units
Prerequisite(s): Admission to the MA in Special Education Teaching
Term Typically Offered: Fall, Spring, Summer
Students will learn the foundations of positive behavioral supports as a multi-tiered systems of supports for children and youth with mild to extensive support needs in preschool, elementary and secondary schools with an emphasis on class-wide and school-/program-wide interventions to create safe and engaging learning environments. The course also examines collaboration with families and other professionals (e.g., paraprofessionals, general education teachers) to effectively support students' behavior and learning and provides an overview of functional behavior assessment and individual behavioral supports.

EDSP 218. Advanced program planning/instruction: Students with Extensive Support Needs/Multiple Disabilities. 3 Units
Prerequisite(s): EDSP 209, EDSP 216.
Term Typically Offered: Fall, Spring
This course focuses on 3 primary areas: 1) evidence-based practices for developing high-quality individualized educational plans for children and youth, from early childhood to young adulthood, with extensive support needs (ESN) - including students with multiple disabilities, severe intellectual disabilities, deaf-blindness, sensory and orthopedic disabilities; 2) collaboration with family members, related service professionals, general education teachers, and other community services; and, 3) strategies, adaptations, and technologies, for increasing positive outcomes for students with ESN in inclusive classrooms.

EDSP 220. Language and Literacy in Inclusive Classrooms I. 3 Units
Term Typically Offered: Fall, Spring
This course provides candidates with the evidence based principles and systematic and explicit techniques to develop phonological awareness, phonics, concepts about print, oral and written language, and word recognition strategies. Candidates will learn techniques specific to assessing a student in reading and applying the information to assist the student with reading difficulties. Accommodations and modifications for students with mild, moderate, and severe disabilities will be emphasized.

EDSP 221. Language and Literacy in Inclusive Classrooms II. 3 Units
Prerequisite(s): EDSP 220
Term Typically Offered: Fall, Spring
Course provides candidates with evidence based principles, systematic and explicit techniques, procedures in reading fluency, comprehension, and vocabulary development. Candidates will learn literal and higher level comprehension strategies that assist students in understanding narrative and expository text. Candidates will receive instruction on the principles, techniques, and procedures for teaching spelling, handwriting, and critical study skills. Accommodations and modifications for students with mild, moderate and severe disabilities will be emphasized.

EDSP 225. Assessment and Evaluation for Students with Mild to Moderate Support Needs. 3 Units
Prerequisite(s): EDSP 220, EDSP 221, EDSP 229
Term Typically Offered: Fall, Spring
Course examines relationship between assessment, curriculum, and instruction through application of formal and informal assessments to support curriculum and instructional development. Candidates administer and interpret norm-referenced, criterion-referenced, and curriculum-based instruments that assess academic achievement, social behavior, and emotional functioning. Candidates learn principles and strategies when collecting and interpreting qualitative and quantitative data from multiple sources. Authentic assessment strategies, specifically designed to support and inform instruction, are emphasized. Field based component included for administering, scoring, and analyzing results from assessments.

EDSP 225A. Assessment and Evaluation for Students with Mild/Moderate Disabilities. 2 Units
Prerequisite(s): Admittance to Mild/Moderate/Severe Credential program or permission of respective special education coordinator.
Corequisite(s): EDSP 225B
Term Typically Offered: Fall, Spring
Candidates examine relationships between assessment, curriculum, and instruction through application of a variety of formal and informal assessments and curricula. Candidates administer and interpret norm-referenced, criterion-referenced, and curriculum-based instruments that assess academic achievement, social behavior, and emotional functioning. Candidates learn basic principles and strategies related to using and communicating results of a variety of assessment and evaluation approaches. Authentic assessment strategies, specifically designed to support and inform instruction, will be emphasized.
EDSP 225B. Assessment and Evaluation for Students with Mild/Moderate Disabilities Lab. 1 Unit
Corequisite(s): EDSP 225A
Term Typically Offered: Fall, Spring

Field-based practice lab (30 hours). Lab will be a synthesis and application of course content (EDSP 225A) in a setting serving students with mild/moderate disabilities.
Credit/No Credit

EDSP 229. Curriculum and Instruction Strategies for Students with Mild/Moderate Disabilities. 3 Units
Prerequisite(s): Admittance to Mild/Moderate, Moderate/Severe, Multiple Subjects, and Single Subject Credential programs or permission of respective special education advisors.
Term Typically Offered: Fall, Spring

Methods for designing and implementing instruction for students with mild/moderate disabilities. Topics include typical/atypical human development, resilience and protective factors, evidenced-based instructional strategies, designing and managing environments and materials, differentiated instruction, collaborative teams in designing and evaluating integrated services, technology (including assistive technology) to support access to general education curriculum, implementation of UDL, modifications and adaptations of state standards, components of IDEA and their implication for a multidisciplinary approach developing IEPs for special needs students included in general education classrooms.

EDSP 229B. Curriculum and Instruction Strategies for Students with Mild/Moderate Disabilities Lab. 1 Unit
Corequisite(s): EDSP 229
Term Typically Offered: Fall, Spring

Field-based practice lab (30 hours). Lab will be a synthesis and application of course content (EDSP 229) in a setting for students with mild/moderate disabilities who receive special education services. Students will verify multiple experiences across the age-span and in inclusive settings, agencies, and other natural environments.
Credit/No Credit

EDSP 230. Positive Behavior and Social-Emotional Supports for Students with Mild to Moderate Support Needs. 3 Units
Prerequisite(s): EDSP 217
Term Typically Offered: Fall, Spring

This course helps teacher candidates understand and support students who experience social, emotional, and behavior problems that negatively impact their school success and well-being. Teacher candidates will learn (a) how to address behavior challenges in classrooms; (b) how to identify and assess support needs from the function-based and trauma-informed perspective; (c) how to design and implement positive intervention and support that are evidence-supported and compliant with federal IDEA law; and (d) how to provide social emotional learning opportunities.

EDSP 230B. Positive Behavior Supports for Students with Mild, Moderate, and Severe Behavioral Challenges Lab. 1 Unit
Prerequisite(s): Admittance into Mild/Moderate or Moderate/Severe Credential program, APE program, or permission of respective special education coordinator.
Corequisite(s): EDSP 230
Term Typically Offered: Fall, Spring

Comprehensive study and application of intervention strategies that enhance the quality of life for students with mild/moderate disabilities. Students will learn (a) how to design learning environments that prevent and reduce problem behaviors, (b) learn how to identify and assess problem behavior using functional behavioral methods, (c) learn how to design and implement positive behavioral support interventions which are in compliance with federal IDEA law, and (d) apply behavioral procedures on a systemic, school wide basis.

EDSP 231. Assistive and Instructional Technologies for Students with Mild to Moderate Support Needs. 2 Units
Prerequisite(s): Admission to the MAT with Education Specialist Mild to Moderate Support Needs Credential Program.
Term Typically Offered: Fall, Spring

Candidates design and enact technology-enhanced instruction by purposefully using three different types of educational technologies: assistive technologies, general instructional technologies, and content-specific instructional technologies. Technology-enhanced instruction and individualized educational programs involve teachers developing technological pedagogical content knowledge that weaves technology, pedagogy, and content expertise. This course provides learning opportunities for an array of applications, tools, and instructional practices.
Credit/No Credit

EDSP 232. Initial Seminar: Reflective Teaching Practice, Collaboration, & Communicative Competence. 1 Unit
Term Typically Offered: Fall, Spring

This initial seminar focuses on the critical practice of reflection as the heart of teaching. A highly effective special education teacher practices deliberate, purposeful, and metacognitive thinking to address the education of students with mild to moderate support needs in an inclusive environment. To prepare special education teachers for a changing world, teacher candidates need to understand theories of learning and their roles in teaching, develop curricular vision, communication skills, and respond to the diverse learning needs of students.

EDSP 233. Final Seminar: Mild to Moderate Support Needs. 1 Unit
Prerequisite(s): EDSP 232.
Corequisite(s): EDSP 472 or EDSP 473 (in the last time that either of these two courses is taken).
Term Typically Offered: Fall, Spring

Designed to allow the education specialist candidate teacher or intern to focus upon three overall areas: 1) problems and resolutions particular and general to their teaching assignment, 2) development of their Individual Development Plan by identifying their strengths and areas of growth for further study during the candidates Induction Program and 3) create a Personal Reflection Model to support the development of the Individual Development Plan.
Credit/No Credit
EDSP 234. Seminar II: Early Childhood Special Education. 1 Unit
Prerequisite(s): EDSP 200
Corequisite(s): EDSP 475 or EDSP 476 or EDSP 478
Term Typically Offered: Fall, Spring, Summer

This seminar provides Early Childhood Special Education (ECSE) candidates with opportunities to engage in reflective conversations about their early fieldwork experience and development as a teacher with regard to program competencies. With support of their colleagues and instructor, candidates will analyze their own teaching practice and pedagogy, complete critical teaching tasks relevant to their fieldwork, and critically analyze issues in the field.
Credit/No Credit

EDSP 235. Curriculum and Instructional Methods for students with Extensive Support Needs. 3 Units
Prerequisite(s): Admittance into the MAT in Special Education (Extensive Support Needs)
Term Typically Offered: Fall, Spring

This is the first instructional methods course in the masters and specialist credential program for students with extensive support needs (ESN). Teacher candidates will learn to use the concepts of universal design for learning (UDL) and understanding by design (UbD) to create units of instruction in the core curriculum; various methods of progress monitoring; and, how to embed individualized participation plans and systematic instructional plans unique to individual learners with extensive support needs within general education and special education classrooms.

EDSP 236. Pro-Seminar in Teaching Students with Extensive Support Needs. 1 Unit
Corequisite(s): Any Mild-Moderate Support Needs field experience or intern teaching course
Term Typically Offered: Fall, Spring

This course addresses the following competencies: evaluating ethical principles and standards of special education practice; conducting effective meetings and collaborative problem-solving with families and colleagues; creating and carrying out an individualized positive behavioral support plan with the support of the school team and family; analyzing a school’s current behavioral support system and developing a recommended plan for more effective school-wide positive behavioral support; and, effective strategies for coaching and providing training to paraprofessional staff.
Credit/No Credit

EDSP 237. Transition Strategies for Students with Mild to Moderate Support Needs. 3 Units
Term Typically Offered: Fall, Spring

Candidates will examine legal mandates specific to transition planning and implementation, and evaluate transitional life experiences for students with mild/moderate disabilities across the lifespan. Candidates will explore and implement social skills, and career and vocational program planning for secondary students with Mild/Moderate disabilities. Planning will include the student, community services, and other community resources such as parents and various professionals that will lead to increased student learning with career goals and objectives to support their transition to post-school settings.

EDSP 237B. Transition Strategies for Students with Mild/Moderate Disabilities Lab. 1 Unit
Corequisite(s): EDSP 237.
Term Typically Offered: Fall, Spring

Field-based practice lab (30 hours). Lab will be a synthesis and application of course content (EDSP 237) in inclusive setting for students with mild/moderate disabilities.
Credit/No Credit

EDSP 238. Culminating Seminar for Education Specialist Candidates. 3 Units
Term Typically Offered: Fall, Spring

Provides structured opportunities for Education Specialist teaching candidates who are in their culminating student/intern teaching experience to discuss, analyze, and reflect on their students’ learning to support completion of Special Education Teaching Performance Assessment (TPA). Candidates will interpret, analyze, and complete prompts for all TPA tasks in preparation for the submission of their TPA teaching event. Additionally, candidates will implement their final fieldwork tasks to demonstrate critical skills of an education specialist. Pre-requisite: EDSP 200 or final semester in the MMSN or ESN credential program Co-Requisite: EDSP 477 or EDSP 478 or EDSP 415 or EDSP 422 or EDSP 472 or EDSP 473 or approval of program coordinator.
Credit/No Credit

EDSP 250. Education Research. 3 Units
Prerequisite(s): Advancement to Candidacy for Special Education concentration; passing WPG exam for all other concentrations.
Term Typically Offered: Fall, Spring

Studies qualitative and quantitative methods in the development of reliable knowledge in the field of education. Includes identification and formulation of research problems, research designs and presentation of reports representative of different research strategies. Classified students are encouraged to take this course early in their graduation programs.

EDSP 251. Education in a Democratic, Pluralistic Society. 3 Units
Prerequisite(s): Passing WPG exam
Term Typically Offered: Fall, Spring

Advanced study of social and psychological issues which need to be considered in education relating to the client, the educator, the community and society. Addresses implications of theories of learning, assessment, individual differences and social/political influences.

EDSP 276A. Education of Students with Emotional and Behavioral Disorders. 2 Units
Prerequisite(s): Admittance into Mild/Moderate or Moderate/Severe Credential or M.A. in Education programs and EDSP 230 or equivalent
Corequisite(s): EDSP 276B
Term Typically Offered: Fall, Spring

Concentrate on the assessment, characteristics, interventions and classroom strategies, which uniquely address the educational needs of students with emotional and behavioral disorders. Students will review current laws, policies and selected literature specific to students identified as EBD and their families. Strategies to create and promote collaborative partnerships with parents, mental health representatives and/or other service providers will be presented.
EDSP 276B. Education of Students with Emotional and Behavioral Disorders - Lab. 1 Unit
Prerequisite(s): Admittance into Mild/Moderate or Moderate/Severe Credential or M.A. in Education programs and EDSP 230 or equivalent
Corequisite(s): EDSP 276A
Term Typically Offered: Fall, Spring

Field-based practice lab (30 hours). Lab will be a synthesis and application of course content (EDSP 276A) in serving students with emotional and behavioral disorders. Students are required to participate in class visitations, agency visitations, and interviews.

EDSP 281. Critical Issues in Special Education Research and Practice. 6 Units
Prerequisite(s): Successful completion of Education Specialist Credential coursework and student teaching—Mild/Moderate Disabilities Credential, Moderate/Severe Disabilities Credential or Early Childhood Special Education Credential program
Term Typically Offered: Summer only

This course provides an introduction to Action Research in the field of special education. The overall goal is to improve teacher effectiveness in the classroom through research and develop teacher-researchers, producers and consumers of empirical knowledge. Students will develop research writing skills to understand problems of practice, critical issues, and policy in special education. The course is designed to facilitate connections between methodological paradigm and teaching practices related to doing action research and covers qualitative, quantitative, and mixed-methods research approaches.

EDSP 282. Methods in Research Design and Practice with Diverse Children, Youth, and Families. 3 Units
Prerequisite(s): EDSP 281
Term Typically Offered: Fall only

This course is the second course in the final research sequence taken by the candidates in the Masters of Arts in Teaching for all three special education fields. The focus of this course is four-fold: 1) deepening candidates’ knowledge of methods in both qualitative and quantitative research design intended for action research; 2) development of each candidate’s action research proposal; 3) preparing for Institutional Review Board (IRB); and 4) completing a draft of chapters 1, 2, and 3.

EDSP 283. Critical Analysis and Interpretation of Data within Diverse School and Community Contexts. 3 Units
Prerequisite(s): EDSP 281, EDSP 282
Corequisite(s): EDSP 500
Term Typically Offered: Spring only

This course focuses on students’ understanding and use of appropriate data analysis methods for teacher action research in diverse schools/communities. Students will learn to critically analyze and interpret data from qualitative, quantitative and mixed-methods sources by using theoretical knowledge or conceptual frameworks, and to present findings to inform teacher practices and support systems change/reform efforts to improve the lives of individuals with disabilities. Students also will analyze, write and present findings from their thesis research in written and oral/visual formats.

EDSP 290. Seminar for Culminating Experiences. 3 Units
Prerequisite(s): Approval of Culminating Experience Proposal or instructor permission.
Seminar to focus on topics/elements/expectations to be included in the culminating experiences (thesis, project, or comprehensive exam). Successful completion of the course requires completion of Chapters 1 and 2 of the thesis/project and the beginning of Chapter 3 for the MA thesis/project option or an exam petition to be approved by the departmental exam committee, including annotated bibliographies and position papers on the focal topics for the MA comprehensive exam option.

EDSP 292. Teaching English Learners with Disabilities. 3 Units
Term Typically Offered: Fall, Spring
Candidates will learn basic principles, strategies and procedures for teaching English Learners with disabilities. Compliance and legal issues related to English Learners identified with disabilities, including writing linguistically appropriate goals and objectives, and implementing culturally responsive strategies will be addressed. Systematic and explicit strategies for accommodating and modifying curricular materials for English Learners with disabilities in inclusive classrooms will be emphasized.

EDSP 292B. Teaching English Learners with Disabilities Lab. 1 Unit
Corequisite(s): EDSP 292
Term Typically Offered: Fall, Spring

Field-based practice lab will be a synthesis and application of course content (EDSP 292) in the implementation of culturally responsive, systematic and explicit strategies, and curricular material involved in teaching English Learners with disabilities in inclusive classrooms. Credit/No Credit

EDSP 293. Strategies for Inclusive Classrooms. 3 Units
Prerequisite(s): Admission into a teacher preparation program.
Term Typically Offered: Fall, Spring

Knowledge and skills of teaching students with learning differences in inclusive classrooms require effective use of specific integrated pedagogical moves from an asset-based approach. In addition, professional judgment and contexts matter when modifying these pedagogical moves to successfully address the needs of all students, including those with extensive support needs. This course prepares all teacher candidates in teaching students with most complex learning and behavioral challenges four high-leverage practices in inclusive education: collaboration, assessment, social/emotional/behavior, and instruction. Cross listed: EDSS 282/EDSP 293/EDMS 213

EDSP 297. Current Issues in Special Education. 3 Units
Prerequisite(s): Passing WPG exam
Term Typically Offered: Fall, Spring

Examines current issues in special education through review of selected journal articles, presentations by guest lecturers and class discussion. Students will be required to write a series of brief position papers in professional style on selected topics.
To receive a recommendation for their credential: professionalism, IEP development, curriculum, modifications and adaptations, systematic instruction, non-classroom/community instruction, facilitating friendships, augmentative and alternative communication, positive behavioral supports, teaching students with the most complex disabilities, and program management.
Credit/No Credit

EDSP 415. Student Teaching: Students with Extensive Support Needs. 8 Units
Prerequisite(s): EDSP 414 or EDSP 420
Term Typically Offered: Fall, Spring
This final semester Student Teaching placement is designed for credential candidates in the MA in Special Education Teaching Emphasis in Students with Extensive Support Needs. Candidates must demonstrate that they are at a proficient level in 11 identified areas, including: professionalism, IEP development, curriculum, modifications and adaptations, systematic instruction, non-classroom/community instruction, facilitating friendships, augmentative and alternative communication, positive behavioral supports, teaching students with the most complex disabilities, and program management.
Credit/No Credit

EDSP 420A. Multiple Subject Field Experience. 6 Units
Term Typically Offered: Fall, Spring
Initial Multiple Subject credential field experience, with integrated methods coursework, is a M-Th, half-day fieldwork requirement. Effective instruction and classroom management are the focus of the Initial Multiple Subject field experience. Candidates complete field experience in public school classrooms concurrently with integrated coursework. Field experiences focus primarily on observing model lessons and activities and on collaborative planning, implementing and assessing instruction for small groups of students.
Note: This is a full semester field experience in general ed. classrooms.
Credit/No Credit

EDSP 420B. Multiple Subject Student Teaching. 8 Units
Term Typically Offered: Fall, Spring
Final semester of a Multiple Subject credential student teaching with integrated methods coursework requires M-Th, full-day participation of the student. Emphasis on classroom teaching and further experience with community services. Candidates must meet the criteria for student teaching to be accepted to this course.
Credit/No Credit
EDSP 421. Intern Teaching I: Students with Extensive Support Needs. 9 Units

Prerequisite(s): EDSP 413
Term Typically Offered: Fall, Spring

This Intern Teaching placement is designed for credential candidates in the MA in Special Education Teaching ¿ Emphasis in Students with Extensive Support Needs. Candidates must demonstrate that they are at a developing proficiency level in 11 areas in order to move into the final semester of Advanced Intern Teaching: professionalism, IEP development, curriculum, modifications and adaptations, systematic instruction, non-classroom/community instruction, facilitating friendships, augmentative and alternative communication, positive behavioral supports, teaching students with the most complex disabilities, and program management.

Credit/No Credit

EDSP 422. Advanced Intern Teaching: Students with Extensive Support Needs. 9 Units

Prerequisite(s): EDSP 421
Term Typically Offered: Fall, Spring

This final semester Internship is designed for credential candidates in the MA in Special Education Teaching ¿ Emphasis in Students with Extensive Support Needs. Candidates must demonstrate that they are at a proficient level in 11 areas in order to receive a recommendation for their credential: professionalism, IEP development, curriculum, modifications and adaptations, systematic instruction, non-classroom/community instruction, facilitating friendships, augmentative and alternative communication, positive behavioral supports, teaching students with the most complex disabilities, and program management.

Credit/No Credit

EDSP 471. Mild to Moderate Support Needs Field Experience. 4 Units

Prerequisite(s): Admission to the MAT with Education Specialist Mild to Moderate Support Needs Credential Program.
Term Typically Offered: Fall, Spring

The first phase of fieldwork typically occurs in the second semester (M-Th, half day) in the credential program. This semester is designed for candidates who are prepared, educationally and emotionally, for a rigorous schedule of classes and student teaching in coming semesters.

Credit/No Credit

EDSP 472. Mild to Moderate Support Needs Student Teaching. 7 Units

Prerequisite(s): EDSP 471 or equivalent.
Term Typically Offered: Fall, Spring

Student teaching full day, M-Th, for the semester in a cooperating LEA District providing services for students with mild to moderate support needs. Cooperating teachers work with the University supervisor to support the candidate in completing the required assignments and competencies. An evaluation will be completed at the mid point and end of the semester.

Note: Application for student teaching is required prior to course enrollment.

Credit/No Credit

EDSP 473. Mild to Moderate Support Needs Intern Teaching. 9 Units

Prerequisite(s): All criteria related to recommendation for the intern credential and instructor approval.
Term Typically Offered: Fall, Spring

A credit/no credit directed internship in a district, county office of education, or program serving students with mild to moderate support needs. Candidates must meet the criteria for an internship to be accepted into to this course. A University supervisor will support the candidate in completing all required competencies. An evaluation will be completed at mid point and end of the semester.

Note: Application for Student Teaching and Intern Teaching Permit is required prior to course enrollment.

Credit/No Credit

EDSP 474. ECSE Early Fieldwork Experience I. 3 Units

Prerequisite(s): EDSP 474
Term Typically Offered: Fall, Spring

Candidates in the early childhood special education (ECSE) program complete early fieldwork activities at a site or program serving families and children with disabilities birth to kindergarten. Fieldwork is completed concurrently with integrated coursework. In this first early field experience, candidates focus primarily on observing evidence-based environments, instruction, and interventions as well as practicing skills including collaborating with a young child's family and team, engaging in data-based decision making, and creating and implementing intervention plans.

Credit/No Credit

EDSP 475. ECSE Early Fieldwork Experience II. 3 Units

Prerequisite(s): EDSP 474
Term Typically Offered: Fall only

Candidates in the early childhood special education (ECSE) program complete more advanced early fieldwork activities at a site or program serving families and children with disabilities birth to kindergarten. Fieldwork is completed concurrently with integrated coursework. In this second early field experience, candidates build on their skills by collaboratively analyzing their teaching and assessment practices, reflecting on their experiences, and practicing with support more advanced pedagogy.

Credit/No Credit

EDSP 476. ECSE Student Teaching: Infants & Toddlers. 4 Units

Prerequisite(s): EDSP 211
Term Typically Offered: Fall, Spring, Summer

One of two culminating experiences, candidates complete the student teaching experience with a cooperating teacher in their school district, county office of education or appropriate privately operated program providing early intervention services for infants and toddlers with disabilities and their families. Completed concurrently with integrated coursework and focuses on candidates gradually taking the lead on assessing, planning, and coaching families raising infants and toddlers with disabilities or delays within their natural routines, environments, and activities.

Note: Candidates may take EDSP 478 as a course equivalent.

Credit/No Credit
EDSP 477. ECSE Student Teaching: Preschool/Kindergarten. 6 Units
Prerequisite(s): EDSP 212, and EDSP 475 or EDSP 478
Corequisite(s): EDSP 238
Term Typically Offered: Spring only

One of two culminating experiences, candidates complete the student teaching experience with a cooperating teacher in their public school setting with preschoolers or kindergarteners with disabilities. Completed concurrently with integrated coursework and focuses on candidates gradually taking the lead on planning, implementing, and assessing instruction of all students in a school-based program while providing tiered levels of support and embedded instruction to target the needs of students with disabilities.

EDSP 478. ECSE Intern Teaching. 9 Units
Prerequisite(s): EDSP 219, EDSP 201, and EDSP 211 or EDSP 212, or permission from program coordinator
Term Typically Offered: Fall, Spring, Summer

Internship in a cooperating District or County Office of Education providing services for young children birth to kindergarten with disabilities receiving special education services and their families. Candidates must complete the intern application process in order to register. Intern serves as the teacher of record and is employed by the district. As the classroom teacher, develop and teach developmentally and accessible units and lesson plans, embed instruction and supports, collaborate with colleagues, support paraprofessionals, and lead the IFSP/IEP process.

EDSP 479. Field Experience II: Early Childhood Special Education. 3 Units
Prerequisite(s): Admission to MA in Teaching with Education Specialist Early Childhood Special Education Teaching Credential program
Corequisite(s): EDSP 210, EDSP 212, and EDSP 293 or approval of ECSE program coordinator
Term Typically Offered: Fall, Spring

The second phase of field-based experience for ECSE candidates is a supervised practicum. Candidates will spend a minimum of two days per week with a community-based program or school where preschoolers with disabilities are being served. They will be assigned a cooperating education specialist and University supervisor who they will work with to complete assignments. An evaluation of program competencies will be completed at the end of the semester.

EDSP 500. Classroom Inquiry/Action Research Portfolio-Culminating Experience. 3 Units
Prerequisite(s): EDSP 282
Corequisite(s): EDSP 283, Advancement to Candidacy
Term Typically Offered: Spring, Summer

The course establishes that the candidate has acquired the essential knowledge and skills covered in each of the courses leading to the Master of Arts in Teaching with Special Education Teaching credential. Proficiency is demonstrated through a comprehensive examination of essential content of each course in the MAT degree program. Each candidate will produce a written portfolio, accompanying executive summary, and oral poster presentation of the body of work completed during the MAT Special education program.

EDSP 501. Master of Arts Project: Special Education. 3 Units
Prerequisite(s): Approval of Culminating Experience Proposal or instructor permission
Term Typically Offered: Fall, Spring

Completion of a project that integrates research with development of a product related to instruction of persons with disabilities.

EDSP 599. Continuous Master of Arts in Special Education Teaching Enrollment. 0 Units
Prerequisite(s): Student has completed all MASET coursework prior to EDSP 500 and earned a RP in EDSP 500.
Term Typically Offered: Fall, Spring

This is a zero unit course for students in the Master of Arts in Special Education Teaching program who earn a RP in their culminating experience course, EDSP 500. The purpose of this course is to allow them to maintain their continuous enrollment status while they complete the culminating experience requirements for the MASET program.

Note: There is no grade associated with this course.

Credit/No Credit

EDLP 200. Diversity and Equity in Educational Leadership. 3 Units
Term Typically Offered: Fall, Spring

Students will engage in reflection regarding equity focused practices and policy throughout educational systems. Students will develop an understanding of how, and ability to lead for a just, equitable, and inclusive educational system.

EDLP 201. Foundations of Educational Leadership. 3 Units
Term Typically Offered: Fall, Spring

Designed to introduce students to leadership theories and their direct connection to practice in the field of educational leadership. Develops in students the ability to examine various leadership theories, frames, techniques, and lenses that can be used to effectively lead schools and other educational settings.

EDLP 202. School Law and Ethics of Educational Leadership. 3 Units
Term Typically Offered: Fall, Spring

The study of school law and ethical decision making as it applies to school leadership including federal and state decisions affecting the educational setting.

EDLP 203. Foundations of Educational Leadership. 3 Units
Term Typically Offered: Fall, Spring

School finance with focus on the State of California school system.

EDLP 205. Instructional Leadership. 3 Units
Term Typically Offered: Fall, Spring

Instructional leadership that focuses on the diverse needs of students through the collection and analysis of data, state standards, accountability systems and culturally relevant pedagogy. Theory and practice will be explored on the best practice of supervisory techniques, classroom observation, and teacher improvement.
EDLP 209. Organizational Systems and Human Resources. 3 Units
Term Typically Offered: Fall, Spring

Students will engage in examination, synthesis, and application of human resources and management practices necessary to effectively serve as school leader in P-12 educational setting.

EDLP 221. Foundations in Higher Education Leadership. 3 Units
Prerequisite(s): Admission to the Master of Education: Higher Education Leadership Option.
Term Typically Offered: Fall, Spring

Analyzes higher education including its historical, political, philosophical and social aspects with emphasis upon the implications of crucial issues for leaders in higher education. An examination of the historical origins of contemporary practices and discourse and an analysis of the complex relationships between society and institutions of higher education: patterns of governance and coordination; diversity; overview of organizational and administrative structure; faculty; curriculum; student affairs, policy, and demographic trends.

EDLP 222. Diversity in Higher Education. 3 Units
Prerequisite(s): Admission to the Master of Education: Higher Education Leadership Option.
Term Typically Offered: Fall, Spring

Engages participants in a process of inquiry and reflection through self-critique, peer critique, and the dialogical examination of our assumptions, ideas, and understandings that promote intellectual growth. Participants will examine and discuss the literature, research, and discourse concerning theory, policy, and practice about diversity and its relation to higher education.

EDLP 223. Workforce Development Resource Planning, Implementation, and Evaluation. 3 Units
Term Typically Offered: Fall, Spring

Builds on the foundational competencies for workforce education and development professionals. Emphasis is on workforce development planning, analysis, design, implementation, management, and measurement and evaluation processes. Introduces several program planning models and frameworks used in the field of workforce development.

EDLP 224. Advanced Seminar: Dynamics of Organizational Change. 3 Units
Term Typically Offered: Fall, Spring

Students will engage in examination, synthesis, and application of theories of change, organizational problem solving, planning and evaluation and change management. An exploration of administrative roles and responsibilities.

EDLP 225. Advanced Seminar: Ethical Decision Making. 3 Units
Prerequisite(s): Admission to the Master of Education: Higher Education Leadership Option.
Term Typically Offered: Fall, Spring

Links analysis with action through a survey of the ethical, legal, and professional issues facing the public or private education administrator. Underlying decision making is to understand the basic nature of the academic enterprise and apply social and moral values to the management of higher education and ethical decision making.

EDLP 226. Workforce Development Professional Competencies. 3 Units
Term Typically Offered: Fall, Spring

Explores the foundational and professional competencies of workforce education and development in the context of educational institutions, business and industry, government, NGOs, and economic development at the national and local/regional level. Examines the research literature pertaining to identification of those competencies that are demonstrated to be critical for professional success as a Workforce Development Professional.

EDLP 227. Leading the Way for Student Success: Student and Instructional Services. 3 Units
Term Typically Offered: Fall, Spring

Participants will explore changing demographics, accountability regarding statewide mandates, reporting regulations, and accreditation, new technology and other factors impacting California's community college student services programs and professionals. Gain an understanding of the philosophy and mission of student services initiatives and programs and student development theory. Examine the role of faculty as leaders in curriculum, instruction and assessment and student success. Understand the purposes and uses of research and technology to address student outcomes, teaching and learning, institutional effectiveness, and decision-making.

EDLP 228. Innovative Leadership: Strengthening Organizational Capacity. 3 Units
Term Typically Offered: Fall, Spring

California higher education leaders are presented with increased legislative and public pressure for accountability while in an era of chronic and disparate under-funding of the system. Understand the relationship between higher education finance and the overall fiscal operations of California's higher education systems.

EDLP 229. Adult Education and Learning. 3 Units
Term Typically Offered: Fall, Spring

Explores the historical and philosophical foundations of the field of adult education and learning. Contemporary applications of adult learning theories and practices are explored to provide a broad understanding of andragogy (the art and science of teaching adults) and how it relates to workforce development and other related fields (e.g., career and technical education, human resource development).

EDLP 230. Master of Arts Thesis/Project Seminar. 3 Units
Prerequisite(s): EDLP 250 and advancement to candidacy.
Term Typically Offered: Fall, Spring

This individualized seminar is designed to extend research knowledge and provide direction in the use of library/professional education resources, as well as exposure to sample theses and projects using APA style. Reviews research methods and a review of the literature and provides instruction in the appropriate academic writing style and format for academic presentation.

Credit/No Credit
EDLP 250. Education Research. 3 Units
Prerequisite(s): Admission into the EDLP Program.
Term Typically Offered: Fall, Spring

Studies qualitative and quantitative methods in the development of reliable knowledge in the field of education. Includes identification and formulation of research problems, research designs and presentation of reports representative of different research strategies. Establishes and improves students’ professional and academic writing skills in preparation for leadership duties. Classified students are encouraged to take this course early in their graduate programs.

Note: Graduate Writing Intensive (GWI) course.

EDLP 255. Field Experience Seminar. 3 Units
Prerequisite(s): Completion of 12 units including EDLP 200, EDLP 201, and either EDLP 205 or EDLP 206A for Preliminary Administrative Services Internship Credential students only.
Corequisite(s): EDLP 401 and/or EDLP 402 for Administrative Services Credential students only.
Term Typically Offered: Fall, Spring

Experience and practice in observation and analysis of school environment, including disaggregated student achievement data.

Note: Intern Students are allowed to take class twice and can take course concurrently with EDLP 401 and EDLP 402.

Credit/No Credit

EDLP 270. Advanced Seminar: Applied Leadership and Staff Teambuilding. 3 Units
Prerequisite(s): Graduate level status within the School of Education and instructor permission.
Term Typically Offered: Fall, Spring

Develop a comprehensive theoretical/conceptual framework from which to view current research surrounding Organizational Leadership and Staff Teambuilding. Special emphasis will be on providing students with experiential learning activities beyond the classroom and incorporate challenging outdoor components. Students will develop a resource portfolio relevant to their unique work situations.

EDLP 273. Advanced Seminar: Grants, Proposals and Systematic Planning. 3 Units
Term Typically Offered: Fall, Spring

Systematic planning theory and skills with particular attention to use of these skills in the development of grant proposals. Students will use funding agency regulations and guidelines relative to program development and implementation, and will develop a proposal which may be submitted to a funding agency.

Credit/No Credit

EDLP 277. Advanced Seminar: Assessment. 2 Units
Prerequisite(s): Admitted into the Professional Administrative Credential.
Term Typically Offered: Fall, Spring

Engage participants in a process of ongoing assessment of their administrative practice as school leaders. Such ongoing assessment uses multiple points of data, multiple sources of information, and multiple feedback sources such as colleagues and mentors.

Credit/No Credit

EDLP 286. Advanced Seminar: Supervision and Leadership. 3 Units
Prerequisite(s): Admission to the Educational Leadership Program, EDLP 206A, instructor permission.
Term Typically Offered: Fall, Spring

Through lecture and discussion, philosophical and practical problems of supervision of instruction will be explored. Current research on effective teaching, staff development, supervisory techniques, and theories of learning for both students and adults will be examined as a basis for sound supervision practices.

EDLP 292. Advanced Seminar: Current Topics in Educational Leadership and Policy Studies. 3 Units
Term Typically Offered: Fall, Spring

Selected current topics of concern to those involved with the administration of schools and other educational systems.

Credit/No Credit

EDLP 293. Induction Seminar. 2 Units
Term Typically Offered: Fall, Spring

Induction Seminar leads to the training experience of the Professional Administrative Services Credential candidate. Facilitates the interaction among candidate, district mentor, and university advisor, per standards of the Commission on Teaching Credentialing. Through guided practice, candidates are prompted and supported in developing an individualized induction plan. This induction plan includes mentoring, academic program at the university and non-campus components.

Credit/No Credit

EDLP 296A. Capstone Research Project. 3 Units
Prerequisite(s): Advancement to Candidacy

Each student conducts an individual project to fulfill the culminating experience graduation requirement. The course covers application of research in education to the professional practice of educational leadership, and integrates the accumulated knowledge, skills and strategies delivered in the program. This course is the culmination of the MA in Educational Leadership/Higher Education Leadership, leading to completion of the final project and the 4-semester degree.

Credit/No Credit

EDLP 296D. Leading with Technology in Institutions of Higher Education. 3 Units
Prerequisite(s): Admissions to the Master’s of Education: Higher Education Leadership Option.
Term Typically Offered: Fall, Spring

Geared specifically to meet the needs of those leaders in higher education. Those new to technology or those who want to learn more about using technology to lead programs and institutions of higher education. Participants will be provided with an array of appropriate educational technology resources to drive decision making practices. They will also learn various programs and software used to address enrollment management, admissions, records, fiscal matters, etc.

EDLP 299. Special Problems Educational Leadership. 1 - 4 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading.

Note: Departmental petition required. Professional Credential Students only may take up to 8 units.

Credit/No Credit
EDLP 299C. Special Problems-Preliminary Administrative Services Credential. 1 Unit
Term Typically Offered: Fall, Spring

Individual projects for Preliminary Administrative Services Credential candidates at graduate/credential level especially for students capable of independent study. Admission with written approval by the instructor with which the student will be working and the program pathway coordinator. Note: Students must have failed a CalAPA cycle(s) to take this course. This course may be repeated for up to 3 units of credit.

Credit/No Credit

EDLP 299T. Special Problems - Educational Leadership. 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading - for students working on their culminating MA requirements. Note: Departmental petition required.

Credit/No Credit

EDLP 401. Internship On-the-Job Experience. 8 Units
Term Typically Offered: Fall, Spring

First semester of the on-the-job internship experience. Interns are supervised in the administrative roles by sponsoring employing agency, as well as by university faculty. Limited to, and required of, internship candidates for the Preliminary Administrative Services Internship Credential.

Credit/No Credit

EDLP 402. Internship On-the-Job Experience. 8 Units
Term Typically Offered: Fall, Spring

Second semester of the on-the-job internship experience. Interns are supervised by sponsoring employing agency, as well as by university sponsors. Limited to, and required of, candidates for the Preliminary Administrative Services Internship Credential.

Credit/No Credit

EDLP 403. Internship On-the-Job Experience. 8 Units
Corequisite(s): EDLP 413.
Term Typically Offered: Fall, Spring

Third semester of the on-the-job experience for candidates who have not completed their credential requirements during the first year of internship. (Refer to EDLP 401.) Limited to, and required of, candidates for the Preliminary Administrative Services Internship Credential.

Credit/No Credit

EDLP 404. Internship On-the-Job Experience. 8 Units
Corequisite(s): EDLP 414.
Term Typically Offered: Fall, Spring

Fourth semester of the on-the-job internship experience. (Refer to EDLP 403.)

Credit/No Credit

EDLP 413. Supplemental Internship Experience. 6 Units
Corequisite(s): EDLP 403.
Term Typically Offered: Fall, Spring

Third semester of the supplemental internship experience. Provides first-hand visitations and experiences in various educational and community agencies at state, county, district, and local school levels; additional supervised experience for candidates; and seminar experiences in observation and analysis of school environments for candidates for the Preliminary Administrative Services Internship Credential.

Credit/No Credit

EDLP 414. Supplemental Internship Experience. 6 Units
Corequisite(s): EDLP 404.
Term Typically Offered: Fall, Spring

Fourth semester of the supplemental internship experience. Provides first-hand visitations and experiences in various educational and community agencies at state, county, district, and local school levels; additional supervised experience for candidates; and seminar experiences in observation and analysis of school environments for candidates for the Preliminary Administrative Services Internship Credential.

Credit/No Credit

EDLP 415A. Field Study in Educational Leadership. 3 Units
Term Typically Offered: Fall only

On-the-job experience in which the candidate assumes responsibility for observation and analysis of school environments including leadership responsibilities, supervision of instructional program, and overall school climate.

Credit/No Credit

EDLP 415B. Field Study in Educational Leadership. 3 Units
Term Typically Offered: Spring only

Students will participate in leadership driven field experience at a TK-12 educational setting. The leadership activities will be purposefully planned to ensure the student engages in work that supports their learning as a future/current leader while simultaneously supporting the educational setting with their initiatives.

Credit/No Credit

EDLP 495A. Advanced Administrative Field Experience. 8 Units
Prerequisite(s): Admission to Professional Administrative Services Credential Program and full-time employment as a school administrator.
Term Typically Offered: Fall, Spring

Candidates for the Professional Administrative Services Credential are supervised in full-time administrative roles by sponsoring employment agency and university faculty.

Credit/No Credit

EDLP 500A. Master of Arts Thesis/Project. 3 Units
Prerequisite(s): Advanced to candidacy and chair permission of his/her thesis or project committee.
Term Typically Offered: Fall, Spring

Completion of a thesis or project approved for the Master's degree.

EDLP 500B. Master of Arts Thesis/Project. 3 Units
Prerequisite(s): Advanced to candidacy and chair permission of his/her thesis or project committee.
Term Typically Offered: Fall, Spring

Completion of a thesis or project approved for the Master's degree.
Electrical and Electronic Engineering (EEE)

EEE 64. Introduction to Logic Design. 4 Units
Prerequisite(s): CSC 15 or CSC 25 or ENGR 50
General Education Area/Graduation Requirement: Understanding
Personal Development (E)
Term Typically Offered: Fall, Spring, Summer

Covers the following topics: logic gates, binary number system, conversion between number systems, Boolean algebra, Karnaugh maps, combinational logic, digital logic design, flip-flops, programmable logic devices (PLDs), counters, registers, memories, state machines, designing combinational logic and state machines into PLDs, and basic computer architecture. Lab emphasizes the use of software equation entry design tools, the use of a schematic entry, and the use of a logic simulation design tool. Lab assignments are design-oriented.
Cross Listed: CPE 64; only one may be counted for credit.

EEE 64P. Peer-Assisted Learning EEE 64. 1 Unit
Corequisite(s): EEE 64
Term Typically Offered: Fall, Spring

Students concurrently enrolled in EEE 64 work through faculty-designed problems sets under the guidance of a trained student facilitator to improve their understanding of EEE 64 content. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success. Discussion, 2 hours.
Credit/No Credit

EEE 64W. Introduction to Logic Design Workshop. 1 Unit
Corequisite(s): EEE 64.
Term Typically Offered: Fall, Spring

Assists students in developing a more thorough understanding of logic simulation and logic design. Focus is on problem solving and design. Activity two hours. Lecture three hours; laboratory three hours.
Cross Listed: CPE 64W; only one may be counted for credit.

EEE 64P. Peer-Assisted Learning EEE 64. 1 Unit
Corequisite(s): EEE 64
Term Typically Offered: Fall, Spring

EEE 64W. Introduction to Logic Design Workshop. 1 Unit
Corequisite(s): EEE 64.
Term Typically Offered: Fall, Spring

EEE 108. Electronics I. 3 Units
Prerequisite(s): EEE 108L.
Term Typically Offered: Fall, Spring

Introduction to electronics, ideal OP-AMPS, BJTs, FETs, DC biasing, VI characteristics, single stage amplifiers, low frequency small signal models, power supplies and voltage regulation. PSPICE required.

EEE 108L. Electronics I Laboratory. 1 Unit
Prerequisite(s): EEE 117, EEE 117L
Corequisite(s): EEE 108
Term Typically Offered: Fall, Spring

Characteristics and applications of semiconductor devices including diodes, BJTs and FETs, and analog integrated circuits including opamps. Introduction to circuit simulation using professional computer-aided design (CAD) software. Laboratory three hours.

EEE 109. Electronics II. 4 Units
Prerequisite(s): EEE 108, EEE 108L, EEE 117, EEE 117L; and GAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.
Term Typically Offered: Fall, Spring

Differential and multistage amplifiers, high frequency models (BJTs and FETs), feedback and sensitivity, power amplifiers, oscillators and waveform shaping circuits. Advanced use of PSPICE. Lecture three hours; laboratory three hours.

EEE 110. Advanced Analog Integrated Circuits. 3 Units
Prerequisite(s): EEE 109 or consent of instructor.
Term Typically Offered: Fall only

The use of operational amplifiers in circuit designs for applications such as filtering, switched capacitor design, sample and hold design, instrumentation amplifiers, and voltage reference circuitry will be explored, as well as topics in Feedback Theory.

EEE 111. Advanced Analog Integrated Circuits Laboratory. 1 Unit
Prerequisite(s): EEE 109; either EEE 110 or EEE 230. EEE 110 or EEE 230 may be taken concurrently.
Term Typically Offered: Fall only

Circuit design, mask design, and simulation of integrated circuitry. Use of CAD software to prepare design for fabrication. Individual and group design projects. Laboratory three hours.

EEE 117. Network Analysis. 3 Units
Prerequisite(s): ENGR 17, MATH 45, and PHYS 11C
Corequisite(s): EEE 117L.
Term Typically Offered: Fall, Spring

Review of sinusoidal steady state, phasors, complex power, three phase power, mutual inductance, series and parallel resonance. Introduction to application of Laplace transforms in network analysis, transfer functions, Bode plots, Fourier series, two-port circuits.

EEE 117L. Networks Analysis Laboratory. 1 Unit
Corequisite(s): EEE 117.
Term Typically Offered: Fall, Spring

Introduces fundamental laboratory techniques while demonstrating the concepts introduced in the EEE 117 lecture. The computer simulation language PSPICE is introduced and applied. Laboratory three hours.

EEE 120. Electronic Instrumentation. 4 Units
Prerequisite(s): EEE 108, EEE 117; EEE 108 may be taken concurrently.
Term Typically Offered: Fall, Spring

Fundamental principles of sensors and instrumentation systems, together with their electrical implementation, such as biasing and signal conditioning circuits. Temperature, force, pressure, and mechanical sensors. Optical sensors, including a brief introduction to light sources and detectors. Applications to biomedical engineering and industrial control. Lecture three hours; laboratory three hours.
EEE 122. Applied Digital Signal Processing. 3 Units
Prerequisite(s): EEE 117, EEE 180.
Term Typically Offered: Fall only

Application of digital signal processing to biomedical signals. Origin and
characteristics of biomedical signals and contaminations. Preparation
of biomedical signals for processing, including sensors, amplification,
filtering, sampling, and quantization. Time-domain processing, including
peak and zero-crossing detection, time interval measurement, peak
height, and moving average estimates of mean and root mean square
value. Frequency domain processing, including filtering to separate
biomedical signal components and spectrum estimation. Joint time-
frequency analysis.

EEE 130. Electromechanical Conversion. 3 Units
Prerequisite(s): EEE 117 and EEE 161
Term Typically Offered: Fall, Spring

Magnetic circuits and principles of electromechanical energy conversion,
Transformers, Rotating Magnetic Fields, Asynchronous AC machines,
Synchronous AC machines, DC machines, Introduction to special
machines, Introduction to power electronic drives.

EEE 131. Electromechanics Laboratory. 1 Unit
Prerequisite(s): EEE 117, EEE 130 (EEE 130 may be taken concurrently),
and (GWAR Certification before Fall 09, or WPJ score of 70+, or at least a
C- in ENGL 109M or ENGL 109W).
Term Typically Offered: Fall, Spring

Direct current motor and generator characteristics, three phase
synchronous motor and synchronous generator characteristics, single
phase power transformer short circuit and no-load tests, frequency
changer tests and tests on DC and AC machine models, potential and
current transformers.

EEE 135. Renewable Electrical Energy Sources and Grid Integration. 3 Units
Prerequisite(s): EEE 141 or EEE 130.
Term Typically Offered: Spring only

The study of existing sources of renewable electric energy such
as wind, solar, geothermal, hydro, tidal, wave power, and biomass.
Emphasis on wind and solar energy sources and their integration into the
electric power grid. Various energy storage methods to accommodate
the intermittent nature of these resources. Economic constraints,
environmental benefits and institutional regulations.

EEE 136. Smart Electric Power Grid. 3 Units
Prerequisite(s): EEE 141
Term Typically Offered: Spring only

Smart grid to enhance reliability, security, robustness and efficiency of
transmission and distribution systems. Integration of renewable energy
sources and distributed generation. Energy storage systems. Advanced
metering infrastructure, home-area networks, micro-grids, real-time
pricing, plug-in hybrid vehicles, demand response, load curve sharing.
Control, monitoring and protection grid; SCADA systems. Voltage and
load frequency control to ensure balance. Enabling active participation
of consumer. Anticipating and responding to system disturbance in self
healing manner. Providing power quality for digital systems needs.

EEE 137. Applications of Power Electronics in Power Systems. 3 Units
Prerequisite(s): EEE 141
Term Typically Offered: Spring only

Analysis methods for power electronics. Power electronic devices and
their control methodologies. Electric machinery drives and flexible
alternating current transmission systems (FACTS) devices simulation of
cases relevant to applications of power electronics in power systems.

EEE 141. Power System Analysis I. 3 Units
Prerequisite(s): EEE 117
Term Typically Offered: Fall, Spring

Introduction to modern electric power systems, fundamentals of AC
and DC systems, power definitions, per-unit analysis, steady-state
analysis of power systems, models of power system components such as
transformers, generators, motors, power electronic converters and loads.

EEE 142. Power System Analysis II. 3 Units
Prerequisite(s): EEE 141, EEE 161, and EEE 184 (EEE 184 may be taken
concurrently).
Term Typically Offered: Fall, Spring

Transmission line parameters and modeling, power flow analysis,
analysis of power systems under faulted conditions, introduction to
economic operation of power systems, introduction to power system
stability and control.

EEE 143. Power System Laboratory. 1 Unit
Prerequisite(s): EEE 142 (EEE 142 maybe taken concurrently), received
WPJ score
Term Typically Offered: Fall, Spring

Simulation and measurements on single-phase and three phase circuits,
power generation, paralleling, and integration of multiple generation
systems, transmission line operations including voltage regulation and
line compensation.

EEE 144. Electric Power Distribution. 3 Units
Prerequisite(s): EEE 141.
Term Typically Offered: Fall only

Operation and design of utility and industrial distribution systems
including distribution system planning; load characteristics; application
of distribution transformers; design of subtransmission lines, distribution
substations, primary systems, secondary systems; application of
capacitors; voltage regulation and reliability.

EEE 145. Power System Relay Protection and Laboratory. 4 Units
Prerequisite(s): EEE 141
Term Typically Offered: Fall only

Principles of protective relaying (classical and modern), current and
voltage transformers, setting and testing or relaying elements, including
differential, impedance, over/under current, voltage, and frequency relay
types and/or elements, and their applications in protection of power
system elements, including lines, generators, transformers, motors, and
buses. Lecture 3 hours; laboratory 3 hours.

</table>
EEE 180. Signals & Systems. 3 Units
Prerequisite(s): ENGR 17, MATH 45, EEE 117; EEE 117 may be taken concurrently.
Term Typically Offered: Fall, Spring

Rigorous development of the fundamental relationships governing time-domain and frequency-domain analysis of linear continuous-time and discrete-time systems. Topics include Fourier, Laplace and z-transforms, sampling theorem, modulation, system stability, and digital filters.

EEE 181. Introduction to Digital Signal Processing. 3 Units
Prerequisite(s): EEE 64, EEE 180.
Term Typically Offered: Spring only

Focuses on the application of linear systems theory to design and analysis of digital signal processing systems. Discrete systems, the z transform, and discrete Fourier transform are reviewed. Design of infinite impulse response filters, finite impulse response filters, and digital spectral analysis systems is presented. Computer simulation is used to study the performance of filters and spectral analysis systems. Signal processing architectures are introduced.

EEE 182. Digital Signal Processing Lab. 1 Unit
Prerequisite(s): EEE 180, EEE 181; EEE 181 may be taken concurrently.
Term Typically Offered: Spring only

Provides senior level undergraduate students with experience in the software/hardware design of discrete-time systems, and modern DSP techniques. Laboratory projects will include the following: spectral analysis of analog and digital signals, design of sampling and quantizer circuits, design and realization of IIR and FIR Digital Filters. Hardware projects will include acquisition, analysis, and filtering of speech, biomedical and video signals using Digital Signal Processors (DSPs).

EEE 183. Digital and Wireless Communication System Design. 3 Units
Prerequisite(s): EEE 161, EEE 180; EEE 185 may be taken concurrently.
Term Typically Offered: Fall only

Review of fundamentals, probability, information, distortion by channel, sampling, pulse code modulation, companding, link power calculation, noise figure, pseudo noise. Matched filter detection of binary signals, bit error rate, inter-symbol interference, zero-forcing equalizers. Effects of additive white Gaussian noise in pulse code modulation, spread spectrum in multiple access, cellular radio and other wireless applications. Procedure for making design trade offs will be discussed.

EEE 184. Introduction to Feedback Systems. 3 Units
Prerequisite(s): EEE 180.
Term Typically Offered: Fall, Spring

Dynamic system modeling by transfer function and state-space methods using differential equation, time-response and frequency-response methods. Determination of steady-state errors due to step, ramp and parabolic inputs and disturbances for closed-loop systems. Mapping of block diagrams and state-space representations to signal flow graphs (SFG) as well as finding the transfer function of the system represented by the SFG by Mason’s Rule. Closed-loop system stability is examined via poles and eigenvalues and by using the Routh-Hurwitz criterion. Introduction to observability and controllability of systems. Design of compensators for feedback systems using root-locus, frequency response and state-space methods. Introduction to digital control. Computer simulation methods such as MATLAB and SIMULINK are used to support the above subjects.

EEE 185. Modern Communication Systems. 3 Units
Prerequisite(s): EEE 180, ENGR 120; ENGR 120 may be taken concurrently.
Term Typically Offered: Fall, Spring

Review of signal and system analysis, sampling theorem and Nyquist’s criteria for pulse shaping, signal distortion over a channel, study of digital and analog communication systems, line coding, signal to noise ratios, performance comparison of various communication systems.

EEE 186. Communication Systems Laboratory. 1 Unit
Prerequisite(s): EEE 185 (EEE 185 may be taken concurrently), and (GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W).
Term Typically Offered: Fall, Spring

Experimental study of modulation and demodulation in AM, FM, and digital communication systems, A/D and D/A conversion, measurement of power spectra, noise characterization in frequency domain.

EEE 187. Robotics. 4 Units
Prerequisite(s): EEE 180 or equivalent, or instructor permission.
Term Typically Offered: Fall only

Lecture introduces principles of robotics and design of robot systems. Includes robot architectures, sensing position/velocity, digital circuit noise, actuator and path control, robot coordinate systems, kinematics, differential motion, computer vision/architectures, and artificial intelligence. Laboratory will apply lecture theory in design experiments utilizing five degree-of-freedom robots, an industrial robot, and vision systems.

EEE 188. Digital Control System. 3 Units
Prerequisite(s): EEE 180, WPJ score of 70+, or at least a C- in ENGL 109 M/W.
Term Typically Offered: Spring only

EEE 189. Controls Laboratory. 1 Unit
Prerequisite(s): EEE 184 (EEE 184 may be taken concurrently), and (WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W).
Term Typically Offered: Spring only

Study, simulation and design of linear feedback control systems using digital control methods such as MATLAB and SIMULINK. Practical examples of analysis and compensation for closed loop systems.
EEE 192A.  Electrical Power Design Project I.  2 Units
Prerequisite(s): EEE 141, EEE 142, EEE 143; (EEE 142 and EEE 143 may be
taken concurrently). WPJ score of 70+, or at least a C- in ENGL 109M or
ENGL 109W.
General Education Area/Graduation Requirement: Upper Division Further
Studies in Area B5
Term Typically Offered: Fall, Spring
Concentrates on the planning, research and design aspects of electric
power systems, including generation, transmission and distribution
systems. Emphasis is placed on design philosophies, problem definition,
research, project planning, written and oral communication skills,
teamwork, development of specifications and effective utilization of
available resources. Lecture one hour; laboratory three hours.

EEE 192B.  Electrical Power Design Project II.  2 Units
Prerequisite(s): EEE 142, EEE 143, and EEE 192A.
General Education Area/Graduation Requirement: Upper Division Further
Studies in Area B5
Term Typically Offered: Fall, Spring
Continuation of EEE 192A. Students are expected to continue the power
electrical engineering design project begun the previous semester in EEE 192A.
Final results of the project report will be presented orally to the class and
invited faculty in a publicized seminar. Lecture one hour; laboratory three
hours.

EEE 193A.  Product Design Project I.  2 Units
Prerequisite(s): EEE 108, EEE 109, EEE 161, EEE 174, EEE 180 (EEE 109
may be taken concurrently), GE Area A and (WPJ score of 70+, or at least
a C- in ENGL 109M or ENGL 109W).
General Education Area/Graduation Requirement: Upper Division Further
Studies in Area B5
Term Typically Offered: Fall, Spring
Concentrates on the planning of design projects begun by the previous semester design
teams in EEE 193A. The hardware will be completed, tested for the
meeting of specifications and other requirements, and redesigned if
necessary. Required software will be written, debugged and incorporated
in a written report. The final results of the team project will be presented
orally to the class and invited faculty in a publicized seminar. Lecture one
hour; laboratory three hours.

EEE 193B.  Product Design Project II.  2 Units
Prerequisite(s): EEE 193A.
General Education Area/Graduation Requirement: Upper Division Further
Studies in Area B5
Term Typically Offered: Fall, Spring
EEE 194.  Career Development in Electrical and Electronic Engineering.  1 Unit
Prerequisite(s): EEE 192A or EEE 193A, may be taken concurrently.
Term Typically Offered: Fall, Spring
Designed for Electrical and Electronic Engineering students making
career decisions. Instruction will include effective career planning
strategies and techniques including skill assessments, employment
search strategy, goal setting, time management, interview techniques and
resume writing. Lecture one hour.
Note: Units earned cannot be used to satisfy major requirements.
Credit/No Credit
EEE 195.  Fieldwork in Electrical and Electronic Engineering.  1 - 3 Units
Term Typically Offered: Fall, Spring
Supervised work experience in Electrical and Electronic Engineering with
public agencies or firms in the industry. Requires approval of a petition by
the supervising faculty member and Department Chair.
Note: May be repeated for credit.
Credit/No Credit
EEE 195D. Professional Practice. 1 - 12 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Supervised employment in a professional engineering or computer science environment. Placement arranged through the College of Engineering and Computer Science. Requires satisfactory completion of the work assignment and a written report.

Note: Units earned cannot be used to satisfy major requirements.

Credit/No Credit

EEE 196A. PCB Design Fundamentals. 1 Unit
Prerequisite(s): EEE 102, CPE 102 or EEE 108.
Term Typically Offered: Fall, Spring

Printed circuit board (PCB) design fundamentals including library component creation, schematic capture, layout, routing, signal integrity and transmission line analysis, IEEE/IPC rules and standards, materials, manufacturing processes, and other physical properties of a PCB.

EEE 199. Special Problems. 1 - 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Individual projects or directed reading.

Note: Open only to students who appear qualified for independent work. Approval of the faculty sponsor and the academic advisor must be obtained before registering. May be repeated for credit.

EEE 201. Research Methodology. 2 Units
Prerequisite(s): Graduate standing or instructor permission
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Immersion in the discourse of Electrical and Electronic Engineering: genres, literacies, stylistic conventions, research methodology. Collective and individual study of selected issues and problems relating to fields of study in Electrical and Electronic Engineering. Orientation to the requirements for the master’s degree culminating experience.

Note: Must be taken in the first semester of the graduate program.

Credit/No Credit

EEE 211. Microwave Engineering. 3 Units
Prerequisite(s): EEE 161; EEE 108 or instructor permission.
Term Typically Offered: Fall, Spring

High-frequency passive electronic circuit design, specifically S-parameters, impedance matching, microstrip lines, filters, couplers and antennas.

EEE 212. Modern Antenna Design. 3 Units
Prerequisite(s): EEE 161.
Term Typically Offered: Fall, Spring

EEE 213. Microwave Devices and Circuits. 3 Units
Prerequisite(s): EEE 162.
Term Typically Offered: Fall, Spring

Theory and application of electromagnetic radiation at microwave frequencies; study of microwave impedance and power measurement and characteristics of microwave circuit components, and electronic devices.

EEE 214. Computer Aided Design for Microwave Circuits. 3 Units
Prerequisite(s): EEE 211 or instructor permission.
Term Typically Offered: Fall, Spring

Introduction to design methodology of the basic building blocks of communication systems. Use of solid state devices in communications and microwave technology. Implementation of transmitter and receiver architectures. Impedance matching, S-parameters and small-signal, large-signal device operation. Design of transmitter and receiver components using a professional software tool. Design and simulations of gain and low noise amplifiers, detectors, mixers, power amplifiers and oscillators. Tradeoffs involved in the design of a complete transmitter and a receiver.

EEE 215. Lasers. 3 Units
Prerequisite(s): EEE 180 and EEE 161 or instructor permission.
Term Typically Offered: Fall, Spring

Review of electromagnetic theory. Ray tracing in an optical system, Gaussian beam propagation. Resonant optical cavities, study of excitation and lasing mechanisms in gas and semiconductor lasers. General characteristics and design of CW, Q switched and traveling wave lasers.

EEE 221. Machine Vision. 3 Units
Term Typically Offered: Spring only

Introduces the student to fundamental digital imaging processing concepts and their application to the fields of robotics, automation, and signal processing. Topics include: digital image filters, two dimensional transforms, boundary descriptors, Hough transform, automated visual inspection techniques, vision for robot control, 3-D vision, and hardware architectures to support vision.

EEE 222. Electronic Neural Networks. 3 Units
Term Typically Offered: Spring only – even years

Current neural network architectures and electronic implementation of neural networks are presented. Basics of fuzzy logic is covered. Application software will be used to simulate training. Testing of various neural net architectures. Learning strategies such as back-propagation, Kohonen, Hopfield and Hamming algorithms will be explored. A final project requires the student to design, train and test a neural network for electronic implementation that solves a specific practical problem.

EEE 225. Advanced Robot Control. 3 Units
Prerequisite(s): EEE 184 or equivalent.
Term Typically Offered: Fall only

Introduction to robot kinematics and dynamics followed by a comprehensive treatment of robot control. Topics include: independent joint control, multivariable control, force control, feedback linearization, real-time parameter estimation, and model-reference adaptive control.
EEE 230. Analog and Mixed Signal Integrated Circuit Design. 3 Units
Prerequisite(s): EEE 109 or instructor permission.
Term Typically Offered: Fall, Spring
Covers core topics and circuits important for analog and mixed-signal integrated circuits. Topics include: device structures and models, single-stage and differential amplifiers, current mirrors and active loads, operational amplifier design, stability and compensation, fully-differential circuits and common-mode feedback, noise in integrated circuits and the impact of IC processes on analog performance.

EEE 231. Advanced Analog and Mixed Signal Integrated Circuit Design. 3 Units
Prerequisite(s): EEE 230 or consent of the instructor.
Term Typically Offered: Fall only
A companion course to EEE 230, covers additional topics important in analog and mixed-signal integrated circuit design. Topics include traditional issues such as device matching and analog layout techniques, as well as important building blocks such as bandgap references and bias circuits. Also included are current-mode techniques such as high-speed current-mode logic (CML), and an introduction to noise in integrated circuits. Circuit and layout projects are assigned using CAD software.

EEE 232. Key Mixed-Signal Integrated Circuit Building Blocks. 3 Units
Prerequisite(s): EEE 230 or consent of instructor.
Term Typically Offered: Spring only
Covers key mixed-signal integrated circuit building blocks most often used in modern ICs. Topics covered include data converter fundamentals, comparators, and important circuit architectures for Analog-to-Digital Converters (ADCs), Digital-to-Analog Converters (DACs), and Phase-Locked Loops (PLLs).

EEE 234. Digital Integrated Circuit Design. 3 Units
Prerequisite(s): EEE 230 or instructor permission.
Term Typically Offered: Fall, Spring
The background and techniques needed to design and layout digital circuits at the transistor level for mixed-signal integrated circuits are covered. Topics include the design, layout and characterization of digital logic gates at the transistor level, typical CMOS process flows, device models and physics, and chip level considerations.

EEE 235. Mixed-Signal IC Design Laboratory. 1 Unit
Prerequisite(s): EEE 230 or consent of the instructor.
Term Typically Offered: Fall only
Methods to develop successful mixed-signal integrated circuits using an industrial design methodology and computer-aided design tools. Proven design techniques presented; hands-on experience gained through each student designing their own integrated circuit. Communications skills developed through periodic presentations, including reviews for the circuit architecture, design and layout.

EEE 236. Advanced Semiconductor Devices. 3 Units
Term Typically Offered: Spring only
Semiconductor device modeling, including the application of the continuity equation and Poisson's equation to abrupt and graded p/n junctions, semiconductor/metal contacts, junction field effect transistors (JFET), metal-oxide-semiconductor transistors (MOSFET), and bipolar junction transistors (BJT). Special topics include compound semiconductor devices and heterostructures.

EEE 238. Advanced VLSI Design-For-Test I. 3 Units
Prerequisite(s): CPE 151 and CPE 166.
Term Typically Offered: Fall only
Focus on integrated circuit design-for-test-techniques; semiconductor reliability factors and screening; semiconductor fabrication processes, device physics and related performance limitations; quantifying cost/quality tradeoffs; IC manufacturing flows and high-accuracy parametric test methods.

EEE 239. Advanced VLSI Design-For-Test II. 3 Units
Prerequisite(s): EEE 238.
Term Typically Offered: Fall, Spring
Advanced topics in VLSI testing and Design-For-Test applications. Memory-specific test methodology and special features of memory designs employed in high volume manufacturing for improved testability, yield, and reliability. VLSI failure modes, their detection and prevention. Application of trim, redundancy, wear-leveling, and error correction.

EEE 241. Linear Systems Analysis. 3 Units
Prerequisite(s): EEE 180 or equivalent.
Term Typically Offered: Spring only – odd years
Analyzes linear systems in the state-space. System realization and modeling, solutions of linear systems, stability including the method of Lyapunov, controllability and observability, state feedback and observers for both continuous and discrete-time systems. Familiarity with MATLAB is required.

EEE 242. Statistical Signal Processing. 3 Units
Prerequisite(s): ENGR 120, EEE 180
Term Typically Offered: Fall, Spring
Introduces the student to modern statistical approaches for solving electronic system noise problems. A few of the topics covered are: Stochastic processes, Wiener and Kalman filters, linear prediction, lattice predictors and singular-value decomposition.
Note: The knowledge of ENGR 120 and EEE 180 or equivalent courses is recommended to take this course.

EEE 243. Applied Stochastic Processes. 3 Units
Prerequisite(s): ENGR 120.
Term Typically Offered: Fall, Spring
Introduction to sequence of random variables and multivariable distributions; models of stochastic processes; stationary stochastic processes and their applications; Markov processes, Markov chains, continuous Markov chains; renewal processes; birth-death processes; time-series applications in stochastic processes in filtering, reliability and forecasting, prediction and control.

EEE 244. Electrical Engineering Computational Methods and Applications. 3 Units
Prerequisite(s): EEE 180.
Term Typically Offered: Fall, Spring
Computational methods for solving problems in engineering analysis. Topics include variational methods, finite-difference analysis, optimization methods, and matrix methods. Focuses predominantly on applications of the methods, and students are required to solve real-world, engineering problems on the computer.
EEE 245. Advanced Digital Signal Processing. 3 Units
Prerequisite(s): ENGR 50, ENGR 120, EEE 181; or instructor permission
Term Typically Offered: Fall only

Advanced signal processing topics include: multirate signal processing, adaptive filter design and analysis, spatial filtering and the application of FIR filter theory to beamforming. Applications of digital signal processing in communication systems, radar systems, and imaging systems are covered.

EEE 246. Advanced Digital Control. 3 Units
Prerequisite(s): EEE 241.
Term Typically Offered: Spring only – even years

EEE 249. Advanced Topics in Control and Systems. 3 Units
Term Typically Offered: Spring only – even years

Topics from recent advances in control, systems and robotics control selected from IEEE Journals and related professional publications. May be taken twice for credit.

EEE 250. Modern Power Transmission Systems. 3 Units
Prerequisite(s): EEE 142 or equivalent.
Term Typically Offered: Spring only

Characteristics of modern power transmission systems, Transmission line parameters, Steady-state, Dynamic and Transient behavior of AC/DC transmission systems, Flexible AC Transmission Systems (FACTS), High-Voltage Direct Current (HVDC) systems, Analysis of faulted transmission systems and AC/DC hybrid grids.

EEE 251. Power System Economics and Dispatch. 3 Units
Prerequisite(s): EEE 141 or equivalent.
Term Typically Offered: Fall only

Study of a number of engineering and economic matters involved in planning, operating, and controlling power generation and transmission systems in electric utilities. Effects of hydro and nuclear plants on system economics. Economic and environmental constraints. Theoretical developments and computer methods in determining economic operation of interconnected power systems with emphasis on digital computers.

EEE 252. Power System Reliability and Planning. 3 Units
Prerequisite(s): EEE 142 or equivalent.
Term Typically Offered: Spring only

Power system economics, generation, transmission and distribution reliability. Production costing and generation planning, transmission planning.

EEE 253. Control and Stability of Power Systems. 3 Units
Prerequisite(s): EEE graduate standing.
Term Typically Offered: Fall only

The fundamental concepts of control and stability in power systems. Topics include: power systems dynamics and linearized models, small and large disturbances, voltage and frequency stability. Introduction to power systems dynamic simulation for stability studies using CAD tools.

EEE 254. Large Interconnected Power Systems. 3 Units
Prerequisite(s): EEE 142.
Term Typically Offered: Spring only

Computer control, optimization and organization of large power systems. Loan and frequency control, voltage control, large load flow and contingency studies. Introduction to state estimation and load forecasting.

EEE 255. Future Power Systems and Smart Grids. 3 Units
Prerequisite(s): EEE 141, EEE 146, EEE 180, and EEE 250 or instructor permission.
Term Typically Offered: Spring only

Future power systems from component and system perspectives. Smart grids, micro-grids, and interactive power systems using renewable resources and energy storage elements. National standards for certification of distributed generation involving machine-based and inverter-based technologies. Essential elements of advanced sensing, communications and information technology and their roles in adaptive automation, control, protection, and security.

EEE 256. Advanced Power Systems Protection. 3 Units
Prerequisite(s): EEE 141; EEE 145 or instructor permission.
Term Typically Offered: Fall, Spring

Advanced concepts and schemes used in power system protection including the various protective schemes used for transmission lines, transformers, machines, and other elements of a large interconnected power system. Concepts in digital and microprocessor based relay design and analysis of typical protection subsystems, in conjunction with the protection of the power system as a whole.

EEE 257. Wind Energy Electrical Conversion Systems. 3 Units
Prerequisite(s): Fully classified graduate standing in EEE or instructor permission
Term Typically Offered: Fall only

Fundamentals of current technologies and methods in wind energy conversion systems, including turbines, generators and converters as well as control and integration of these devices in power grids. Topics include: power conversion, grid converters for wind systems, system integration, methods for power, voltage and frequency control, and wind farms simulation and aggregation methods.

EEE 259. Advanced Topics in Power Systems. 3 Units
Prerequisite(s): EEE 142.
Term Typically Offered: Spring only

Topics from recent advances in Electrical Power Engineering selected from IEEE Journal on "Power Systems" and "Power Systems Delivery." May be taken twice for credit.

EEE 260. Digital Communications. 3 Units
Prerequisite(s): EEE 185, or instructor permission.
Term Typically Offered: Fall only

This course introduces the fundamental principles and design of digital communication systems. Main topics to be covered include representation of digitally modulated signals, signal spectral characteristics, optimum demodulation and detection methods in AWGN channels, and evaluation of the error-rate performance in AWGN channels.
EEE 261. Information Theory, Coding, and Detection. 3 Units
Prerequisite(s): ENGR 120 and EEE 185; or instructor permission.
Term Typically Offered: Spring only

EEE 262. Wireless Communications Systems. 3 Units
Prerequisite(s): EEE 185 or instructor permission.
Term Typically Offered: Fall only

Wireless communication techniques, systems and standards. Topics include cellular systems, RF transmission and analog/digital modulation techniques. Modern techniques such as multiple access and spread spectrum systems. Channel coding and diversity will also be included.

EEE 264. Advanced Topics in Wireless Communications. 3 Units
Prerequisite(s): EEE 262 or instructor permission.
Term Typically Offered: Fall only

Advanced theoretical and practical aspects of modern wireless communications. Specific topics include: advanced cellular concepts, modern small-scale and large-scale propagation models, complex equalization and diversity system design, 3G (third generation) wireless networks, Bluetooth and Personal Area Networks (PANs), GPRS (General Packet Radio Service) and wireless measurement techniques.

EEE 265. Optoelectronic Engineering. 4 Units
Prerequisite(s): Graduate standing or instructor permission.
Term Typically Offered: Fall, Spring

Generation, propagation and detection of light. Fresnel equations, Snell’s law, diffraction, polarization, and interference. Operating principles of LEDs, lasers, photodiodes, optical fibers, photovoltaic devices. Introduction to optical communications systems and optical instrumentation.
Note: EEE 265 and EEE 165 may not be both taken for graduate credit.

EEE 266. Modern Digital Communication Systems. 3 Units
Prerequisite(s): EEE 260 or instructor permission
Term Typically Offered: Spring only

This course introduces the fundamentals of digital communications over band-limited channels. Topics covered include inter-symbol interference, performance analysis of digital transmission schemes over fading channels, and diversity techniques. Other topics include overview of MIMO communication systems and diversity multiplexing trade-offs in multi-antenna systems.

EEE 267. Fiber Optic Communications. 3 Units
Prerequisite(s): EEE 185 or instructor permission.
Term Typically Offered: Fall, Spring

EEE 268. Telecommunication Networks. 3 Units
Prerequisite(s): EEE 185 or instructor permission.
Term Typically Offered: Spring only

This course discusses the architecture of current and next generation telecommunication networks. Main topics to be covered include introduction to modern telecommunication networks, multi-access channels, media access control, resource allocation, performance analysis of transmission techniques, and ad-hoc wireless networks. Emphasis will be on the datalink and physical layers of the communication network.

EEE 270. Advanced Topics in Logic Design. 4 Units
Prerequisite(s): EEE Graduate Student Standing.
Term Typically Offered: Fall, Spring

Synchronous and asynchronous state machines. Timing issues in high-speed digital design. Design of a complex system using VHDL and Verilog Hardware Description Languages in a CAD environment. Automation toolsets to synthesize projects containing a hierarchy of modules into Field Programmable Gate Arrays (FPGAs). Simulations using CAD tools to verify the design before implementation on rapid prototyping boards in the lab. Lecture 3 hours; laboratory 3 hours.

EEE 272. High Speed Digital System Design. 3 Units
Prerequisite(s): EEE 161, fully classified graduate standing and instructor permission.
Term Typically Offered: Fall, Spring

Theoretical topics and practical applications relating to high speed digital systems. Review of basic transmission line theory, crosstalk, impact of PCB traces, vias, and connectors on signal integrity, return current paths, simultaneous switching noise, high frequency power delivery, high speed timing budgets, high speed bus design methodologies, radiated emissions, and system noise.

EEE 273. Hierarchical Digital Design Methodology. 3 Units
Prerequisite(s): EEE 64 or equivalent.
Term Typically Offered: Spring only

Hierarchical digital design course that includes: State machine design, Programmable Logic Devices, digital simulation techniques, digital interface, design with ASIC (Application Specific Integrated Circuits), programmable Gate Arrays, and designing with Gas high speed logic devices. Problems with EMI, RFI and EMC will be presented along with design guidelines. Lecture three hours. Cross Listed: CSC 273; only one may be counted for credit.

EEE 274. Advanced Timing Analysis. 3 Units
Prerequisite(s): EEE 273, CSC 273, CPE 273 or instructor permission.
Term Typically Offered: Fall, Spring

Timing analysis of Application Specific Integrated Circuit (ASIC) designs: Topics include ASIC design methodology, static timing analysis, timing design constraints, design reports, clock timing issues, timing exceptions, operating conditions, hierarchical analysis, analyzing designs with asynchronous logic, performance measurement and power issues. Cross-listed: CPE 274; only one may be counted for credit.
EEE 280. Advanced Computer Architecture. 3 Units
Prerequisite(s): ECE 174 or CPE 185.
Term Typically Offered: Fall, Spring
Introduces computer classification schemes, structures of uniprocessor and multiprocessor systems, parallelism in uniprocessor systems, design and performance analysis of pipelined and array processors. Survey and analysis of interconnection networks and parallel memory organizations, programming issues of multiprocessor systems and fault tolerant computing and design for testability. Cross Listed: CSC 280; only one may be counted for credit.

EEE 285. Micro-Computer System Design I. 3 Units
Prerequisite(s): EEE 299. Special Problems.
Term Typically Offered: Fall, Spring
Open to qualified students who wish to pursue problems of their own choice. Projects must have approval and supervision of a faculty advisor.

EEE 286. Microcomputer System Design II. 3 Units
Prerequisite(s): EEE 285 or CPE 186.
Term Typically Offered: Fall, Spring
Includes PCI and PCI express bus specifications/architecture, PCI bridges transaction ordering, PCI express transactions and handshake protocols, electromagnetic interference, methods of eliminating interference, shielding grounding, balancing, filtering, isolation, separation, orientation, cancellation techniques and cable design. Involves design projects and research presentations on PCI and PCI Express Bridge.

EEE 296C. Transients in Power Systems. 3 Units
Prerequisite(s): EEE 130 and EEE 141
Term Typically Offered: Fall, Spring
Transients in electric power systems due to shunt capacitor switching, voltage flicker and nonlinear loads such as electric arc furnaces. Lightning surges and their effect on the power system health and operation. Transformer inrush currents and motor starting. The knowledge of EEE 130 and EEE 141 or equivalent courses is required for taking this course.

EEE 296T. Digital Speech Processing. 3 Units
Prerequisite(s): EEE 181 or instructor permission.
Term Typically Offered: Fall, Spring
The objective of this course is to cover the digital processing of speech signals. Topics include speech production and perception, speech processing in the time frequency domains. Short-time energy and short-time Fourier analysis, homomorphic and linear predictive coding methods. Also covered are speech coding, basic introduction of text-to-speech synthesis and speech recognition. Cross listed: CPE 296T.

EEE 299. Special Problems. 1 - 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring
Open to qualified students who wish to pursue problems of their own choice. Projects must have approval and supervision of a faculty advisor.

EEE 500. Culminating Experience. 5 Units
Prerequisite(s): Advanced to candidacy and approval of the graduate coordinator.
Term Typically Offered: Fall, Spring
Completion of a thesis, project or comprehensive examination. Credit given upon successful completion of one of the following plans: Plan A: Master's Thesis, 5 units; Plan B: Master's Project, 2 units; or Plan C: Comprehensive Examination, 0 units.

Engineering (ENGR)

ENGR 1. Introduction to Engineering. 1 Unit
Prerequisite(s): Engineering major status or instructor permission
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring
Engineering study skills, fundamentals of the engineering design process and problem solving, current engineering challenges. Distinctions and similarities of different engineering disciplines. The engineering profession, ethics, teamwork, communication skills. Course helps students make an informed choice of their engineering majors. Credit/No Credit

ENGR 1A. Fundamentals of Engineering. 3 Units
Prerequisite(s): Algebra and trigonometry or instructor permission.
Term Typically Offered: Fall, Spring
Problem solving skills needed in all areas of engineering offered at Sacramento State. Exposure to the different areas of engineering, and understanding of the relationship between them. Students will work in teams and complete hands-on engineering laboratory experiments and projects. Development of effective communication skills by presenting periodic oral and written reports. Computers will be used throughout. Lecture two hours, laboratory three hours.
Note: Not for degree credit.
Credit/No Credit

ENGR 2. Robotics Explorations. 3 Units
Prerequisite(s): Algebra and Trigonometry.
Term Typically Offered: Fall, Spring
Introduction to robotics. History of robotics, recent advances in the field, common devices such as sensors and actuators. Use of modular robotic kits. Students will be assigned competition based projects.

ENGR 6. Engineering Graphics and CADD (Computer Aided Drafting and Design). 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring, Summer
In-depth graphical analysis and solution of typical three-dimensional space problems by applying the principles of orthogonal projection. Fundamentals of interactive computer aided design and drafting. Preparation of engineering drawings utilizing the CAD system. Lecture two hours; laboratory three hours.
ENGR 6W.  Engineering Graphics and CADD Workshop.  1 Unit
Corequisite(s): ENGR 6.
Term Typically Offered: Fall, Spring, Summer

Problem solving and discussion of topics in Engineering Graphics and CADD (Computer Aided Drafting and Design) to enhance students’ understanding of subject matter. Not for degree credit. Technical activity and laboratory, two hours.
Credit/No Credit

ENGR 7.  3-D CAD Solid Modeling.  3 Units
Prerequisite(s): ENGR 4 or ENGR 6.
Term Typically Offered: Fall, Spring

Applications of three-dimensional representation techniques as used in a typical CAD (computer aided drafting) software package (AutoCAD). Fundamentals employed in creating, modifying, analyzing and filing engineering drawings. This course will have a mechanical emphasis. Lecture two hours; laboratory three hours.

ENGR 17.  Introductory Circuit Analysis.  3 Units
Prerequisite(s): PHYS 11C; MATH 45; either the math or physics may be taken concurrently, but not both.
Term Typically Offered: Fall, Spring, Summer

Writing of mesh and node equations. DC and transient circuit analysis by linear differential equation techniques. Application of laws and theorems of Kirchoff, Ohm, Thevenin, Norton and maximum power transfer. Sinusoidal analysis using phasors, average power.

ENGR 17P.  Peer-Assisted Learning ENGR 17.  1 Unit
Corequisite(s): ENGR 17
Term Typically Offered: Fall, Spring

Students concurrently enrolled in ENGR 17P work through faculty-designed problems sets under the guidance of a trained student facilitator to improve their understanding of ENGR 17 content. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success. Discussion, 2 hours.
Credit/No Credit

ENGR 17W.  Circuits Workshop.  1 Unit
Corequisite(s): ENGR 17.
Term Typically Offered: Fall, Spring, Summer

Elaborates on fundamentals and enhances students’ understanding of circuits.
Note: Not for degree credit.
Credit/No Credit

ENGR 30.  Analytic Mechanics: Statics.  3 Units
Prerequisite(s): PHYS 11A and MATH 31.
Term Typically Offered: Fall, Spring, Summer

ENGR 30P.  Peer-Assisted Learning ENGR 30.  1 Unit
Corequisite(s): ENGR 30
Term Typically Offered: Fall, Spring

Students concurrently enrolled in ENGR 30 work through faculty-designed problems sets under the guidance of a trained student facilitator to improve their understanding of ENGR 30 content. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success. Discussion, 2 hours.
Credit/No Credit

ENGR 45.  Engineering Materials.  3 Units
Prerequisite(s): CHEM 1E and MATH 30. CHEM 1E may be taken concurrently.
Term Typically Offered: Fall, Spring, Summer

Basic principles of mechanical, electrical and chemical behavior of metals, polymers and ceramics in engineering applications; topics include bonding, crystalline structure and imperfections, phase diagrams, corrosion, and electrical properties. Laboratory experiments demonstrate actual behavior of materials; topics include metallography, mechanical properties of metals and heat treatment. Lecture two hours; laboratory three hours.
Note: Fee course.

ENGR 45P.  Peer-Assisted Learning ENGR 45.  1 Unit
Corequisite(s): ENGR 45
Term Typically Offered: Fall, Spring

Students concurrently enrolled in ENGR 45 work through faculty-designed problems sets under the guidance of a trained student facilitator to improve their understanding of ENGR 45 content. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success. Discussion, 2 hours.
Credit/No Credit

ENGR 45W.  Engineering Materials Workshop.  1 Unit
Term Typically Offered: Fall, Spring, Summer

Problem solving and discussion of topics in materials science to enhance students’ understanding of subject matter. Activity two hours.
Note: Can not be used for the degree requirement.
Credit/No Credit

ENGR 50.  Computational Methods and Applications.  3 Units
Prerequisite(s): Math 30 and PHYS 11A; Physics 11A may be taken concurrently
Term Typically Offered: Fall, Spring

Computational methods for solving problems in analysis and design. Introduces lower division students to the use of computer technology for the computations required to solve real world problems in science and engineering. Includes introduction to numerical techniques, introduction to structured programming, and graphic visualization. Practical applications of analysis and design using tools such as MATLAB and C++. Emphasis is on developing confidence and skill in finding computational solutions to practical science and engineering problems. Portable computer recommended. Lecture three hours.
ENGR 50P. Peer-Assisted Learning ENGR 50. 1 Unit
Corequisite(s): ENGR 50
Term Typically Offered: Fall, Spring

Students concurrently enrolled in ENGR 50 work through faculty-designed problems sets under the guidance of a trained student facilitator to improve their understanding of ENGR 50 content. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success. Discussion, 2 hours.
Credit/No Credit

ENGR 60. MEP Orientation and Problem Solving. 2 Units
Term Typically Offered: Fall, Spring

Mandatory class for MEP freshman students on orientation to the University, its resources, facilities and faculty. Students will be encouraged to form a group atmosphere where they can freely interact with each other and value each other as resources. Students will be provided with instruction and materials on study skills, note taking, time management, preparing for tests and dealing with stress. Presentation by working engineers and field trips to engineering firms will be taken. Personal and professional development will also be part of the freshman orientations with leadership, public speaking and career planning being topics of discussion. Lecture one hour; activity two hours.

Note: Not for use as an engineering major technical elective and is not applicable to the baccalaureate degree.

Field trip(s) may be required.

ENGR 70. Engineering Mechanics. 3 Units
Prerequisite(s): PHYS 11A
Term Typically Offered: Fall, Spring

ENGR 96A. Interdisciplinary Topics in Engineering. 1 Unit
Term Typically Offered: Fall, Spring

Course will enable students to make an informed choice of their engineering majors, engage on interdisciplinary discussions between engineering fields, and equip them with relevant study skills. An introduction to engineering and the fundamentals of problem solving. Distinctions between different disciplines within engineering as well as other similarities. The engineering profession and ethics. Study skills for an engineering education.
Credit/No Credit

ENGR 105. Sustainable Design and Construction. 3 Units
Prerequisite(s): Upper division standing or instructor permission.
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Strategies, analysis methods, and processes of environmentally conscious planning, design, construction, operation, deconstruction, and assessment of engineered facilities. Presents a systematic framework for problem solving, decision making, design, and construction using the principles of sustainability as guiding objectives. Tools, and techniques for gathering information, generating, analyzing, and evaluation alternatives, and developing implementation strategies are presented and demonstrated.

ENGR 106. Energy and Modern Life. 3 Units
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring, Summer

Our modern life is intimately and increasingly intertwined with energy utilization. This course deals with where energy comes from, how it is converted to desirable forms, where it is consumed, and what the consequences of this consumption are. In each case, historical prospective, current status, and future projections will be discussed. The ultimate objective of this course is to help students to make informed decisions on energy-related issues in their personal life and as responsible citizens of the society.

ENGR 110. Analytic Mechanics - Dynamics. 3 Units
Prerequisite(s): Student must pass ENGR 30, MATH 45, and MATH 32 or MATH 35 or MATH 100 with a minimum grade of C- or better.
Term Typically Offered: Fall, Spring, Summer

Fundamental principles of kinematics and kinetics, study of motion and force analysis of particles and rigid bodies, application to idealized structures and physical systems, introduction to free and forced vibrations.

ENGR 110W. Analytic Mechanics-Dynamics Workshop. 1 Unit
Corequisite(s): ENGR 110.
Term Typically Offered: Fall, Spring, Summer

Problem solving and discussion of topics in dynamics to enhance students' understanding of subject matter. Activity two hours.

Note: Can not be used for degree requirement.
Credit/No Credit

ENGR 112. Mechanics Of Materials. 3 Units
Prerequisite(s): ENGR 30, ENGR 45; MATH 45; and either CE 4 or ENGR 6 (CE 4 or ENGR 6 may be taken concurrently).
Term Typically Offered: Fall, Spring, Summer

Stresses, strains and deformations in elastic behavior of axial force, torsion and bending members, and design applications. Statically indeterminate problems. Strain energy. Column stability.

ENGR 112P. Peer-Assisted Learning ENGR 112. 1 Unit
Corequisite(s): ENGR 112
Term Typically Offered: Fall, Spring

Students concurrently enrolled in ENGR 112 work through faculty-designed problems sets under the guidance of a trained student facilitator to improve their understanding of ENGR 112 content. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success. Discussion, 2 hours.
Credit/No Credit

ENGR 115. Statistics For Engineers. 3 Units
Prerequisite(s): MATH 31, may be taken concurrently.
Term Typically Offered: Fall, Spring

Application of statistical methods to the analysis of engineering and physical systems. Data collection, characteristics of distributions, probability, uses of normal distribution, linear and nonlinear regression analysis, hypothesis testing, and decision-making under uncertainty.
ENGR 17W. Networks Workshop. 1 Unit
Corequisite(s): EEE 117.
Term Typically Offered: Fall, Spring
Elaborates on fundamentals and enhances students' understanding of network basics.
Note: Not for degree credit.

Credit/No Credit
ENGR 120. Probability and Random Signals. 3 Units
Prerequisite(s): EEE 180; may be taken concurrently.
Term Typically Offered: Fall, Spring
Probability and random signals and their application in engineering systems. Topics include the random sample space model, concept of axiomatic probability, conditional probability, discrete and continuous random variables, probability density and distribution functions, functions and statistics of random variables, random vectors multivariate distributions, and correlation and covariance of random vectors. Applications include estimation, risk, signal detection, random signals and noise in linear systems, reliability, and estimation.

ENGR 124. Thermodynamics. 3 Units
Prerequisite(s): CHEM 1E, PHYS 11A, and MATH 32 or MATH 35 or MATH 100.
Term Typically Offered: Fall, Spring, Summer
Study of thermodynamic principles and their applications to engineering problems. Includes a study of the first and second laws, the properties of pure substances and ideal gas, gas/vapor mixtures, and an introduction to thermodynamic cycles.

ENGR 124W. Thermodynamics Workshop. 1 Unit
Corequisite(s): ENGR 124.
Term Typically Offered: Fall, Spring, Summer
Problem solving and discussion of topics in thermodynamics to enhance students' understanding of subject matter. Activity two hours.
Credit/No Credit
ENGR 132. Fluid Mechanics. 3 Units
Prerequisite(s): ENGR 110 (may be taken concurrently)
Term Typically Offered: Fall, Spring, Summer
Lectures and problems in the fundamental principles of incompressible and compressible fluid flow.

ENGR 140. Engineering Economics. 2 Units
Prerequisite(s): ENGR 17 or ENGR 30
Evaluation of economic consequences of engineering design proposals on projects. Emphasis on marginal or incremental economic analysis using Net Present Value, Annual Equivalence, Rate of Return and Benefit-Cost methods including multiple alternatives, taxes, uncertainty, inflation, organizational constraints and money market factors.

ENGR 150. Technical Communication. 3 Units
Prerequisite(s): Recommendation based on the results of the WPG or instructor permission
Term Typically Offered: Fall, Spring
Practical technical communication for engineers and computer scientists. Topics covered include practical technical writing, improving technical writing style, development of strategies to improve writing, oral presentations, running effective meetings, and the use of visual aids. The use of appropriate communication technology is emphasized throughout the course.

ENGR 181. Electronic Materials. 3 Units
Prerequisite(s): CHEM 1A, PHYS 11A, MATH 45.
Term Typically Offered: Fall, Spring
Basic principles of materials behavior pertaining to electronics applications. Topics include electrical conductivity, bonding, crystal structures, optical properties, magnetic properties, energy transfer, and the fundamentals of some simple electronic devices. Lecture 3 hours.

ENGR 193. Emerging Leaders in STEM. 1 Unit
Prerequisite(s): Sophomore standing (must have completed 30 units prior to registration).
Term Typically Offered: Fall, Spring
This course focuses on in-depth leadership training for professional STEM success. Students will explore aspects of effective leadership, uncover their own leadership capacity and skills, and enhance their leadership prowess by studying and applying recognized best practices. Topics include setting personal and professional goals, becoming a productive team member, how to step into a leadership role, how to motivate team members, and how to develop productive work-flow processes. Cross listed: NSM 193.

ENGR 194. Career Development Seminar. 1 Unit
Term Typically Offered: Fall, Spring
This course is designed for all ECS majors making career decisions and developing a job search strategy. Instruction will include: effective career planning strategies and techniques including skill assessment, interests, values, job search organization and strategies, goal setting, and time management as well as professional image development including interview techniques, resume writing, employment related correspondence and portfolio construction. Guest speakers from industry will be featured.
Credit/No Credit
ENGR 196B. Energy and Modern Life. 3 Units
Term Typically Offered: Fall, Spring
Our "modern life" is intimately and increasingly intertwined with energy utilization. This course deals with where energy comes from, how it is converted to desirable forms, where it is consumed, and what the consequences of this consumption are. In each case, historical prospective, current status, and future projections will be discussed. The ultimate objective of this course is to help students to make informed decisions on energy-related issues in their personal life and as responsible citizens of the society.

ENGR 196G. Advancing Leaders in STEM. 1 Unit
Prerequisite(s): ENGR 193 or NSM 193.
Term Typically Offered: Fall, Spring
This course continues the in-depth leadership training for professional STEM success introduced in ENGR/NSM 193. Students will apply and evaluate various strategies for effective leadership. Students will increase their capacity to recognize various situations and best leadership practices for each. Topics include setting personal and professional goals, becoming a productive team member, stepping into a leadership role, motivating team members, and developing productive work-flow processes.
ENGR 197. Seminar in Peer-Assisted Learning. 2 Units
Prerequisite(s): Instructor Permission
Corequisite(s): Acceptance as PAL Facilitator
Term Typically Offered: Fall, Spring
Classroom training and support for students concurrently serving as ECS Peer-Assisted Learning (PAL) facilitators. Classroom training will focus on facilitating problem-solving within groups, communicating effectively, and mentoring peers from diverse backgrounds. Action research on learning theory as applied to a classroom setting with culminating research presentation.

ENGR 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring, Summer
Individual projects or directed study.
Credit/No Credit

ENGR 201. Engineering Analysis I. 3 Units
Prerequisite(s): MATH 45.
Term Typically Offered: Fall, Spring
Mathematical methods for the solution of advanced engineering problems. Vector analysis, tensors and matrix algebra, complex variable techniques. The applications of these methods to practical engineering problems are demonstrated.

ENGR 202. Engineering Analysis II. 3 Units
Prerequisite(s): MATH 45.
Term Typically Offered: Fall, Spring
Mathematical methods for the solution of advanced engineering problems. Solutions of ordinary and partial differential equations, Fourier series and Laplace transforms and operational calculus. The applications of these methods to practical engineering problems are demonstrated.

ENGR 203. Engineering Statistics. 3 Units
Prerequisite(s): ENGR 115 or equivalent.
Term Typically Offered: Fall, Spring
Applications of statistics to engineering problems. Collection and analysis of data, sampling methods, design of experiments, probability theory, decision theory, analysis of variance, regression analysis, and mathematical curve fitting.

ENGR 206. Experimental Methods for Fluids. 3 Units
Prerequisite(s): ENGR 132, and either MATH 32 or ENGR 202
Term Typically Offered: Spring only
Experimental methods for flow and transport phenomena are studied in the lecture and applied in the lab/field. Topics include planar laser induced fluorescence, acoustic velocimetry, and sediment transport.

ENGR 296A. Quality Management Systems for Engineers. 3 Units
Prerequisite(s): Graduate Standing
Term Typically Offered: Fall, Spring
Designed to equip students with understanding of basic terms and definitions related to quality, a brief history and basic quality concepts, understanding measurement systems and tools, understanding differences of quality control (QC), quality assurance (QA) and quality management (QM), getting familiar with the applications of different tools, systems and standards and how to select proper tools for different quality requirements. Understanding basic inspection, auditing, assessment and evaluation techniques.
## ENGL 3M. Introduction to Academic Discourse for Multilingual Students

Term Typically Offered: Fall, Spring

Offers multilingual students a rigorous introduction to academic discourse at the college level in the areas of critical reading, critical thinking, academic discussion, and the use of academic research. Concentrates on using expository texts as a foundation for analyzing the rhetorical strategies and effectiveness of an argument. Promotes academic discussion and fosters intellectual curiosity and collaboration.

**Note:** Receives baccalaureate credit.

### Prerequisite(s) and Notes

- **ENGL 10:** Prerequisite(s): Score of 120-141 on the English Placement Test.
- **ENGL 15:** Prerequisite(s): Score of 120-141 on the English Placement Test.
- **ENGL 10M:** Prerequisite(s): ENGL 10.
- **ENGL 11M:** Prerequisite(s): ENGL 10M.
- **ENGL 11:** Prerequisite(s): ENGL 10.
- **ENGL 11:** Writing requirement
- **ENGL 15:** Utilizes computers.
ENGL 16. Structure Of English. 3 Units
Prerequisite(s): ENGL 5 or equivalent.
Term Typically Offered: Fall, Spring

Introduction to the terminology and structure of traditional grammar; analysis of the standard rules for agreement, punctuation, pronoun reference, etc.; introduction to social variance with respect to usage-standard vs. non-standard; and a description of the English sound system (vowels and consonants) and its relationship to standard orthography (sound/letter correspondences) spelling rules.

ENGL 20. College Composition II. 3 Units
Prerequisite(s): Completion of ENGL 5 or ENGL 5M OR ENGL 11 or ENGL 11M or equivalent with a C- or better; sophomore standing (must have completed 30 units prior to registration).
Term Typically Offered: Fall, Spring

Advanced writing that builds upon the critical thinking, reading, and writing processes introduced in ENGL 5 and ENGL 5M. Emphasizes rhetorical awareness by exploring reading and writing within diverse academic contexts with a focus on the situational nature of the standards, values, habits, conventions, and products of composition. Students will research and analyze different disciplinary genres, purposes, and audiences with the goals of understanding how to appropriately shape their writing for different readers and demonstrating this understanding through various written products.

Note: Writing requirement

ENGL 20M. College Composition II for Multilingual Students. 3 Units
Prerequisite(s): ENGL 5 or ENGL 5M or equivalent; sophomore standing
Term Typically Offered: Fall, Spring

Advanced writing for multilingual that builds upon the critical thinking, reading, and writing processes introduced in English 5 and 5M. Emphasizes rhetorical awareness by exploring reading and writing within diverse academic contexts focusing on the situational nature of the standards, values, habits, conventions, and products of composition. Students will research and analyze different disciplinary genres, purposes, and audiences with the goals of understanding how to appropriately shape their writing for different readers and demonstrating this understanding through various written products.

Note: Writing requirement

ENGL 21. First Year Seminar: Becoming an Educated Person. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall only

Introduction to the meaning of higher education, resources of the University, and skills for lifelong learning. Designed to help students develop academic success strategies and to improve information literacy, intercultural competence, and integrative thinking. Provides students with the opportunity to interact with fellow students and seminar faculty to build a community of academic and personal support, as well as explore gerontological concepts needed to respond to demographic changes in today's world.

ENGL 30A. Introduction to Creative Writing. 4 Units
Term Typically Offered: Fall, Spring

Workshop for students who have had little or no experience writing fiction or poetry and who are trying to decide if they are interested in becoming writers. Over the course of the semester, students write and polish several poems and short stories which they present for critique and commentary. In addition, they study the basic elements of fiction and poetry and learn how to use these effectively in their own work.

ENGL 30B. Introduction to Writing Fiction. 4 Units
Term Typically Offered: Fall, Spring

Workshop for students who have had little or no experience writing fiction. Students write and polish several short stories which they present for critique and commentary. In addition, they study the basic elements of plot, character, description, and dialogue and learn how to use these effectively in their own fiction.

ENGL 30C. Introduction to Poetry Writing. 4 Units
Term Typically Offered: Fall, Spring

Designed for lower division students who have little or no experience writing poetry. Students will write approximately twelve poems in a variety of forms and receive instruction and practice in the workshop method. In addition, they study the basic elements of poetic craft: rhythm, enjambment, basic figures of speech, etc., and how to use them effectively in their own poetry.

ENGL 40A. Introduction to British Literature I. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only

Major developments in the literature of England from Chaucer through the close of the Augustan Age.

ENGL 40B. Introduction to British Literature II. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only

Major developments in the literature of England from the Pre-Romantics and Romantics through the 20th century.

ENGL 50A. Introduction to American Literature I. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only

Major developments in the literature of America from the beginnings through the Civil War.

ENGL 50B. Introduction to American Literature II. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only

Major developments in American Literature from the end of the Civil War to the present.

ENGL 60. Active Reading Across the Curriculum. 2 Units
Term Typically Offered: Fall, Spring

Students will learn strategies and techniques to promote the social, personal, cognitive, and knowledge-building dimensions of reading. Students will learn new approaches to improve their engagement, comprehension, and analytical skills with a variety of genres in order to practice reading in more skillful ways.

Note: May be repeated for credit.

Credit/No Credit
ENGL 60M. READING FOR SPEED AND EFFICIENCY FOR MULTILINGUAL STUDENTS. 
2 UNITS
TERM TYPICALLY OFFERED: FALL, SPRING

Strategies and techniques to promote greater reading efficiency and flexibility as well as to increase reading speed for college-level multilingual readers. Classroom instruction includes drills to develop rate and comprehension as well as supplementary practice in the LSC reading lab.

NOTE: UTILIZES COMPUTERS; MAY BE REPEATED FOR CREDIT.

ENGL 65. INTRODUCTION TO WORLD LITERATURES IN ENGLISH. 
3 UNITS
GENERAL EDUCATION AREA/GRADUATION REQUIREMENT: HUMANITIES (AREA C2)
TERM TYPICALLY OFFERED: FALL, SPRING

An introduction to world literature written in English that places writers and their works within colonial, post-colonial, and literary contexts. Texts may come from Africa, India, Southeast Asia, the Middle East, the Caribbean, Canada, and non-English Britain.

ENGL 85. GRAMMAR FOR MULTILINGUAL WRITERS. 
2 UNITS
TERM TYPICALLY OFFERED: SPRING ONLY

COVERS THE MAJOR SYSTEMS OF ENGLISH GRAMMAR IN THE CONTEXT OF READING PASSAGES AND THE STUDENTS' OWN WRITING. PRACTICE IN EDITING AUTHENTIC WRITING.

NOTE: MAY BE REPEATED FOR CREDIT.

ENGL 86. COLLEGE LANGUAGE SKILLS FOR MULTILINGUAL STUDENTS. 
4 UNITS
PREREQUISITE(S): SCORE OF 120-141 ON THE ENGLISH PLACEMENT TEST OR SCORE OF 2 OR 3 ON THE ENGLISH DIAGNOSTIC TEST.
TERM TYPICALLY OFFERED: FALL, SPRING

FOCUS ON THE INTERRELATIONSHIPS OF READING AND WRITING, WITH EMPHASIS ON DEVELOPMENT, ORGANIZATION, GRAMMAR, AND CLARITY OF COMMUNICATION. LECTURE THREE HOURS; LAB TWO HOURS.

NOTE: UTILIZES COMPUTERS.

ENGL 87. BASIC WRITING SKILLS FOR MULTILINGUAL STUDENTS. 
3 UNITS
PREREQUISITE(S): SCORE OF 142-145 ON ENGLISH PLACEMENT TEST OR SCORE OF 4 ON ENGLISH DIAGNOSTIC TEST, OR CREDIT IN ENGL 86.
TERM TYPICALLY OFFERED: FALL, SPRING

EMPHASIZES WRITING AND LANGUAGE DEVELOPMENT. INSTRUCTION IN READING AND ESSAY WRITING, FROM IDEA GENERATION TO REVISION AND EDITING.

CREDIT/NO CREDIT

ENGL 90A. MODERN SHORT PLAYS. 
3 UNITS
GENERAL EDUCATION AREA/GRADUATION REQUIREMENT: HUMANITIES (AREA C2)
TERM TYPICALLY OFFERED: FALL, SPRING

ENGL 97. INTRODUCTION TO FILM STUDIES. 
3 UNITS
TERM TYPICALLY OFFERED: FALL, SPRING

EXAMINES CINEMATIC TECHNIQUES, STYLES, VOCABULARY, AND DISCOURSES. INTRODUCES DIFFERENT WAYS FOR WRITING ABOUT FILMS AND FOR WORKING WITH A VARIETY OF CINEMATIC TERMS. FILM FORM AND STYLE WILL BE STUDIED BY EXAMINING SPECIFIC SCENES IN FILMS FROM DIFFERENT GENRES, NATIONS, AND DIRECTORS. FILMS USED THROUGHOUT THE COURSE WILL BE SELECTED FROM DIFFERENT HISTORICAL PERIODS.

CROSS-LISTED: FILM 97.

ENGL 98. INTRODUCTION TO FILM DISCOURSE AND ANALYSIS. 
4 UNITS
TERM TYPICALLY OFFERED: FALL, SPRING

AN INTRODUCTION TO CINEMATIC VOCABULARY, FILM HISTORY, AND FILM ANALYSIS. THROUGH THIS INTRODUCTION, STUDENTS WILL LEARN HOW TO WRITE ABOUT AND ANALYZE FILM. THE COURSE PREPARES STUDENTS FOR UPPER DIVISION WORK IN FILM STUDIES AND CULTURAL ANALYSIS. THE COURSE INCLUDES A SIGNIFICANT RESEARCH AND/OR CREATIVE PROJECT.

ENGL 100B. LITERARY THEORY. 
4 UNITS
TERM TYPICALLY OFFERED: FALL, SPRING

DESIGNED TO ENGAGE STUDENTS IN A PRODUCTIVE CONVERSATION ABOUT THE VARIOUS THEORIES OF LITERATURE AND READING THAT CURRENTLY INFORM LITERARY STUDIES. PROVIDES A HISTORICAL OVERVIEW OF MODERN THEORY INCLUDING, BUT NOT LIMITED TO, FORMALISM, STRUCTURALISM, PSYCHOANALYSIS, MARXISM, DECONSTRUCTION, AND FEMINISM. STUDENTS ARE ENCOURAGED TO APPLY THESE THEORIES TO THEIR PRACTICE OF LITERARY CRITICISM AND TO ASSESS THE STRENGTHS AND WEAKNESSES OF EACH PARADIGM.

ENGL 100Z. TOPICS IN LITERARY THEORY AND CRITICISM. 
4 UNITS
PREREQUISITE(S): GWAR CERTIFICATION BEFORE FALL 09; OR WPJ SCORE OF 80+; OR 3-UNIT PLACEMENT IN ENGL 109M OR ENGL 109W; OR 4-UNIT PLACEMENT IN ENGL 109M OR ENGL 109W AND CO-ENROLLMENT IN ENGL 109X; OR WPJ SCORE 70 OR 71 AND CO-ENROLLMENT IN ENGL 109X.
GENERAL EDUCATION AREA/GRADUATION REQUIREMENT: WRITING INTENSIVE GRADUATION REQUIREMENT (WI)
TERM TYPICALLY OFFERED: FALL, SPRING

INVESTIGATES ONE OR MORE SCHOOLS OF LITERARY THEORY OR CRITICISM AND THEIR APPLICATION TO WORKS OF LITERATURE AND/OR FILM.

NOTE: MAY BE REPEATED TWICE FOR CREDIT AS LONG AS TOPICS VARY; WRITING INTENSIVE

ENGL 105. FILM THEORY AND CRITICISM. 
4 UNITS
TERM TYPICALLY OFFERED: FALL, SPRING

SURVEY OF FILM THEORY FOCUSING ON AUTEURISM, CLASS, EXPRESSIONISM, FORMALISM, GENRE, GENDER, NARRATOLOGY, NEOREALISM, PHENOMENOLOGY, POST STRUCTURALISM, PSYCHOANALYSIS, REALISM, SEMIOLOGY, STRUCTURALISM AND THIRD CINEMA.
ENGL 109M. Preparing to Write in the Disciplines - Multilingual. 3 Units
Prerequisite(s): ENGL 20 with at least a C- grade or better.
Term Typically Offered: Fall, Spring

Provides intensive practice for multilingual writers in prewriting, drafting, revising, and editing academic writing. Students work with a TESOL-trained instructor to research, analyze, reflect on, and write about the kinds of writing produced in academic disciplines. Students produce a considerable amount of writing such as informal reading responses, rhetorical analyses, and an extended academic research project. Students will submit their writing late in the semester in a Portfolio, from which they will receive a Writing Placement for Juniors.

Note: This course has the same learning outcomes as English 109W Preparing to Write in the Disciplines, but it is taught by an instructor trained to work with multilingual writers.

ENGL 109W. Preparing to Write in the Disciplines. 3 Units
Prerequisite(s): English 20 with a C- grade or better.
Term Typically Offered: Fall, Spring

Provides intensive practice in prewriting, drafting, revising, and editing academic writing. Students research, analyze, reflect on, and write about the kinds of writing produced in academic disciplines. Students produce a considerable amount of writing such as informal reading responses, rhetorical analyses, and an extended academic research project. Students will submit their writing late in the semester in a Portfolio, from which they will receive a Writing Placement for Juniors.

ENGL 109X. Writing-Intensive Workshop. 1 Unit
Prerequisite(s): Completion of Writing Placement for Juniors.
Corequisite(s): Writing-intensive upper-division course.
Term Typically Offered: Fall, Spring

Student-centered group tutorial which offers supplemental instruction in elements of academic writing taught in writing-intensive upper-division courses. It provides support to students concurrently enrolled in writing-intensive upper-division courses throughout the writing process, including drafting, revising, and editing.

Credit/No Credit

ENGL 110A. Linguistics and the English Language. 3 Units
Term Typically Offered: Fall, Spring

Survey of modern English and the basic concepts of modern linguistics. Students will learn how linguists view regularity in language, as exemplified by data from English. Students will also learn how English spelling is an imperfect representation of sounds, how the sound system of English operates, how words and sentences are formed and may be analyzed, how the language changes over time, space, and social setting, and how the language is learned by children and adults.

ENGL 110B. History of the English Language. 3 Units
Term Typically Offered: Fall, Spring

Survey of the linguistic and social history of the English language, tracing its growth from a minor dialect of the Germanic family to one of the most widely spoken languages of the world. Topics include structural change in the language, vocabulary growth, and variation in English around the world.

ENGL 110C. Technology in Second Language Teaching. 3 Units
Term Typically Offered: Summer only

Prepares language teachers to effectively integrate technology into classrooms. Examines theoretical rationales for using computer-assisted language learning, the range of uses of technology in classrooms, and best practice. Develops students' technological literacy and ability to critically evaluate computer-assisted language teaching materials. Cross Listed: ENGL 210C; only one may be counted for credit.

ENGL 110J. Traditional Grammar and Standard Usage. 3 Units
Term Typically Offered: Fall, Spring

Develops a thorough understanding of basic issues in traditional English grammar and usage. It emphasizes knowledge of traditional grammar needed by single-subject credential students expecting to teach high school English. Topics include parts of speech, functions of words in sentences, phrases and clauses, and punctuation. Students will learn to apply their knowledge of grammar in composition instruction and marking essays. Students will also study use of specific grammatical features in developing rhetorical styles.

ENGL 110P. Second Language Learning and Teaching. 3 Units
Term Typically Offered: Fall, Spring

Surveys the major issues involved in the acquisition of second languages and in teaching second language (L2) students. Topics covered include differences between first and second language acquisition, including age, biology, cognitive styles, personality, sociocultural factors, and linguistic variables; in addition, various models, techniques and approaches to L2 teaching are covered. Special attention is given to the unique demographics and characteristics of language minority students in California’s public schools.

ENGL 110Q. English Grammar for ESL Teachers. 3 Units
Term Typically Offered: Fall, Spring

A survey of those aspects of English grammar that are relevant to teaching second language learners of English. The emphasis is on elements of simple and complex sentences, particularly the structure of noun phrases, the meanings of verb forms, and the expression of adverbial meanings.

ENGL 1106A. Studies in Applied Linguistics. 3 Units
Prerequisite(s): GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.
Term Typically Offered: Fall, Spring

Students learn the basics of the English system of phonology and morphology. Takes an integrated approach synthesizing the issues of phonics, schema-building, and whole language strategies in teaching reading and writing to young learners. Students will also learn the importance of first and second language acquisition for elementary school students. Evaluation includes classroom examinations, and students will undertake a detailed case study of one child learning to read and write.
ENGL 116B. Children's Literary Classics.  3 Units
Prerequisite(s): Successful completion of at least 60 units (junior standing).
Term Typically Offered: Fall, Spring

Introduction to the rich profusion of children's literature from a variety of cultures and countries and provides the opportunity to respond to this literature creatively and personally. Students will become familiar with the basic terminology of literary analysis -- themes, irony, point-of-view, etc.-- in order to deepen and enrich their experiences with the fiction, drama, and poetry available to young people. The readings are balanced for gender, culture, and ethnic concerns.

ENGL 120A. Advanced Composition.  4 Units
Prerequisite(s): GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.
Term Typically Offered: Fall, Spring

Intensive writing workshop in which student writing is the focus. Students will engage in a writing process that will include feedback from peers and the instructor throughout the process. This writing process may occur in a variety of rhetorical situations and genres. Through reflection on their writing products and processes, students will gain an awareness of themselves as writers. By the end of the course students will complete an extensive research project and a guided project focused on academic inquiry.

Note: ENGL 120A is a requirement for English majors.

ENGL 120C. Topics in Composition.  4 Units
Prerequisite(s): ENGL 20 or ENGL 120A. GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Offers a rotating series of topics relevant to composition studies, such as technology-based writing, writing across the curriculum, critical literacy, etc. Introduces students to the theory and practice of the field under consideration. Regardless of the topics, students will explore the major scholarly works of the field and produce writing that analyzes and utilizes the concepts in the area under consideration.

Note: May be repeated for credit as long as topic differs.

ENGL 120E. Digital Writing and Rhetoric.  4 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall only – even years

Serves as an introduction to theories about and forms of digital writing while also providing students with opportunities to make digital arguments that reflect on digital media themselves. Introduces students to basic skills in interface and narrative design including typography, layout, color, imagery, and media integration. The course focuses on teaching students how to develop what they already know about rhetoric and writing while also helping them apply those rhetorical skills within digital spaces.

ENGL 120L. Community Literacy and Public Rhetorics.  4 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Examines how writers navigate the intersections and tensions between academic, professional, and community writing to engage local publics through a variety of literacy practices. Students will be introduced to theories and methods from community writing studies to construct a framework for analyzing and composing rhetoric that enacts change in diverse publics. Students will inquire, discover, and act beyond the classroom through a structured service learning project.

ENGL 120P. Professional Writing.  4 Units
Prerequisite(s): ENGL 20 or ENGL 120A. GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Teaches students the most common professional writing genres used in career fields ranging from business to public relations to nonprofit management. Focuses on how business or technical communication is different from academic styles and introduces students to the current writing challenges and practices in these fields. Students will gain instruction and practice composing various essential writing formats, such as memos, reports, and feasibility studies.

ENGL 120R. Topics in Rhetoric.  4 Units
Prerequisite(s): Complete ENGL 20 or ENGL 120A; GWAR certification before Fall 09; or WPJ score of 80+ or above; or 3-unit placement in ENGL 109M/W; or 4-unit placement in ENGL 109M/W + co-enrollment in ENGL 109X; or WPJ score 70/71 + co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Offers a rotating series of topics relevant to rhetorical studies, such as digital rhetoric, cultural rhetorics, contemporary rhetorical theories, etc. Introduces students to the theory and practice of the field under consideration. Regardless of the topic, students will explore the major scholarly works of the field and produce writing that analyzes and utilizes the concepts in the area under consideration.

Note: May be repeated for credit as long as topic differs.

ENGL 120S. Writing in the Social Sciences.  3 Units
Prerequisite(s): GWAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109 M/W.
Term Typically Offered: Fall, Spring

Introduces principles of analyzing and composing texts appropriate for various social science disciplines. Provides practice in analyzing texts in social science journals and in writing abstracts, summaries, and literature reviews. Appropriate for upper-division undergraduate students and beginning graduate students in TESOL and in other social science programs (e.g., psychology, sociology, anthropology, etc.)
ENGL 120T. Technical Writing. 4 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Teaches students the skills of a technical communicator capable of translating information created by technical experts for non-expert readers, whether those are business decision makers or members of the public. Focuses on how technical communication is different from academic styles and introduces students to the current writing challenges and practices. Prepares students to craft messages using ever-changing and increasingly powerful, integrated media. 4 units

ENGL 120X. MLA and APA Style Guides. 1 Unit
Corequisite(s): ENGL 120A, ENGL 198T, a Writing Intensive course, or instructor permission.
Term Typically Offered: Fall, Spring

Students will learn how to format papers, cite sources, and integrate in-text citations into their work according to MLA and APA formatting and style guides.

ENGL 121. Writing Center Tutoring. 1 Unit
Term Typically Offered: Fall, Spring

One-on-one tutoring in reading and writing at the University Writing Center. Student writers will meet with assigned tutor an hour a week. Topics could include understanding assignments, prewriting, revising, reading strategies, editing strategies, integrating research, etc. Students must sign up for a regular tutoring session time during week two of the semester at the University Writing Center.
Note: May be repeated for credit.

ENGL 125A. Literature and Film for Adolescents. 4 Units
Prerequisite(s): ENGL 20 or ENGL 120A and COMS 104 or COMS 4
Term Typically Offered: Fall, Spring

Provides prospective secondary school English teachers with an opportunity to think through important issues related to the planning and implementation of literature programs for adolescents. Equal emphasis will be given to the study of poetry, fiction, non-fiction, drama, and film. The focus will embrace literature from a variety of cultures and periods.

ENGL 125B. Writing and the Young Writer. 3 Units
Prerequisite(s): ENGL 20 or ENGL 120A; and ENGL 110J or ENGL 110Q or ENGL 16
Term Typically Offered: Fall, Spring

Provides an introduction to teaching writing in high school and operates on the assumption that the need for and impact of writing competence for students is interdisciplinary and pervasive. The class has a workshop format, and students will practice many of the strategies studied. The texts will cover theoretical issues in teaching composition and practical methods of implementing theory in public school classrooms.

ENGL 125E. Academic Reading and Writing for Second Language Students. 3 Units
Term Typically Offered: Fall, Spring

Helps prospective teachers to better understand the unique needs of second language students. Covers second language acquisition theory with particular emphasis on the teaching of reading and writing for academic purposes. Practical skills covered will all focus on the particular needs of second language readers and writers, for instance, how to help them to read more efficiently and with greater comprehension, how to write more fluently and accurately in ways that meet the needs and expectations of the academic discourse community.

ENGL 125F. Teaching Oral Skills. 3 Units
Term Typically Offered: Fall, Spring

Provides students with both the necessary background knowledge as well as the specific pedagogical tools for promoting proficiency in spoken interaction, listening skills, and pronunciation in second language/foreign language contexts, specifically, English as a Second Language (ESL) and English as a Foreign Language (EFL).

ENGL 130A. Intermediate Fiction Writing. 4 Units
Prerequisite(s): ENGL 30A or ENGL 30B
Term Typically Offered: Fall, Spring

Workshop for students who already have some experience writing short stories. Students write and polish several stories which they present for critique and commentary. They also take an in-depth look at the theory and craft of fiction-writing, analyze the stories of contemporary writers from diverse ethnic and cultural backgrounds, and learn how to apply what they have learned to their own writing.

ENGL 130B. Intermediate Poetry Writing. 4 Units
Prerequisite(s): ENGL 30A or ENGL 30C.
Term Typically Offered: Fall, Spring

Designed for students interested in developing their poetic expression beyond the basics covered in ENGL 30A and ENGL 30C. Emphasizes practice and experimentation with meters, verse forms, and figures of speech. Focal points for analysis and discussion will be poems and essays by contemporary poets of various aesthetic orientations, as well as work produced by members of the class.

ENGL 130C. Special Topics in Poetry Writing. 4 Units
Prerequisite(s): ENGL 30A or ENGL 30C.
Term Typically Offered: Fall, Spring

Offers an in-depth study of prosody including the principles of meter (line measurement) and scansion (the marking of stressed syllables to determine meter and rhythm), as well as examining the relationship of these principles to verse in English. Examines a variety of poetic schemes, tropes, and forms. Three hours, lecture and guided practice.

</table>
ENGL 140C. The English Renaissance. 4 Units
Term Typically Offered: Fall, Spring

The early modern period was a time of exploration, experimentation, and creativity during the sixteenth and early seventeenth centuries in England. The writers of the age include Queen Elizabeth I, Lady Mary Wroth, Sir Thomas Wyatt, Sir Philip Sidney, William Shakespeare, Christopher Marlowe, Edmund Spenser, John Donne, Amelia Lanyer, and John Milton. In this course, students will explore and analyze representative works by these writers and others, making connections between the writers and the cultural context in which they lived.

ENGL 140D. The English Renaissance Drama. 4 Units
Term Typically Offered: Fall, Spring

In-depth examination of the drama of late 17th and 18th-century England. Course includes the study of the age itself, the social and political issues of the time as well as its dramatic art, including many of its comedies, which the course it examines in their historical and cultural contexts.

ENGL 140E. Restoration & Eighteenth-Century Drama. 4 Units
Term Typically Offered: Fall, Spring

A period survey of British literature from the Restoration of King Charles II in 1660 through the stirrings of British Romanticism in the last decades of the eighteenth century. Authors to be covered will likely include Dryden, Behn, Rochester, Finch, Swift, Pope, Gay, Montagu, Addison & Steele, Gray, Johnson, Equiano, Goldsmith, and Sheridan.

ENGL 140F. British Literature, 1660-1780. 4 Units
Term Typically Offered: Fall, Spring

The novel as we know it today was invented in the 18th century. Students study the cultural origins of the novel and read several major works by of 18th-century novelists such as Daniel Defoe, Samuel Richardson, Henry Fielding, Fanny Burney, Ann Radcliffe, Laurence Sterne, and Jane Austen, among others.

ENGL 140G. The Eighteenth-Century British Novel. 4 Units
Term Typically Offered: Fall, Spring

Devoted to exploring the fiction of nineteenth-century British novelists from Jane Austen through Thomas Hardy. Particular attention is paid to prevalent genres, especially the mixing of romance and realism, narrative and plot structures, imagery patterns, character types and anti-types, and thematic concerns, which usually involve some sort of conflict between the self and society, the individual and institutions (or the environment).

ENGL 140H. Nineteenth-Century Novel. 4 Units
Term Typically Offered: Fall, Spring

Readings in and analysis of English drama written in the period, roughly, from 1500-1660. Provides a survey of playwrights and genres from the entire period or a focus on a particular theme or a grouping of authors. Students will study texts as well as the historical, political, cultural, social, sexual, and religious contexts in which the playwrights of the era composed their works.

ENGL 140J. The Victorian Imagination. 4 Units
Term Typically Offered: Fall, Spring

Explores themes and forms of the Victorian period, stressing the evolving role of the artist and the growth of self-consciousness in verse and prose. Victorian themes like the divided self, the love-duty conflict, and the inevitable crises of faith are recurring problems in the obsessive Victorian debate between flesh and spirit. Analyzes this dialectic in the poetry of Browning, Tennyson, the Pre-Raphaelites and Decadents, in a representative novel, and in the prose of Ruskin, Mill, and Pater.

ENGL 140K. Modern British Literature, 1900-Present. 3 Units
Term Typically Offered: Fall, Spring

In-depth examination of some of the important British texts in fiction, poetry, and drama from 1900 to the present. The works dramatize the important historical, social and aesthetic changes in a century which saw the collapse of the British Empire, the spread of democracy, the rise of Modernism and the Absurd in the arts, and the continuing struggle of the personal statement in an impersonal world.

ENGL 140L. Modern British Fiction, 1900-Present. 4 Units
Term Typically Offered: Fall, Spring

Survey of British fiction from 1900 to the present which covers the struggle between traditional Realism and Modernism in the novel, the decline and fall of the British Empire and the rise of the former colonies as purveyors of fictions in English in their own right, and the development of new experimental forms in the last decades of the 20th century.

ENGL 140M. Modern British Drama, 1889-Present. 4 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

In-depth examination of British drama from the arrival of Ibsen's A Doll's House on the British stage (and Shaw's publication of his influential treatise 'The Quintessence of Ibsenism), both laying to rest for serious artists the moralistic, bourgeois theater of the late 19th century. Includes study of various dramatic movements in Britain, including realism, absurdist, kitchen-sink naturalism, surrealism, epic theater, expressionism.

ENGL 140N. Modern British Drama, 1889-Present. 4 Units
Term Typically Offered: Fall, Spring

Documents the way the British have written about themselves and the world to which they belong in the 20th century. Includes the plays of Shaw, Coward, Brecht, Lessing, and others, as well as important work in the theatre of the absurd, the kitchen-sink, the lyric theatre, and the musical as purveyors of narratives in English in their own right, and the development of new experimental forms in the last decades of the 20th century.

ENGL 140O. Renaissance Drama. 4 Units
Term Typically Offered: Fall, Spring

Examines British literature and culture during the late sixteenth and early seventeenth centuries. Topics may include war and revolution, tourism and the picturesque, genius and imagination, the Gothic, Romantic orientalism and literature and the environment. Writers covered may include Smith, Blake, Wollstonecraft, the Wordsworths, Scott, Coleridge, Austen, de Quincey, Byron, the Shelleys, Hemans and Keats.

ENGL 140P. Renaissance Drama. 4 Units
Term Typically Offered: Fall, Spring

Topics in periods and movements in the literature of Britain. Course may focus on a limited period (e.g. The Edwardian Age), a single author (e.g. Anthony Trollope or Margery Kempe), an authorial dialogue (e.g. Shakespeare and Wilde or G.M. Hopkins and Christina Rossetti), or a unique literary feature, theme, or structure (e.g. the Sonnet or Literature and the Law).
ENGL 141A. The Essential Shakespeare. 4 Units
General Education Area/Graduation Requirement: Writing Intensive
Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Exploration of Shakespeare's most representative works. The course syllabus usually includes his sonnets and non-dramatic poetry as well as plays from both early and later periods of his career. Class discussions will include Shakespeare's typical themes, conventions, and techniques, his development of character and situation, and his relationship to the culture and values of both his own and subsequent ages.

ENGL 141B. Shakespop: Shakespeare and Popular Culture. 3 Units
Term Typically Offered: Fall, Spring

The works of William Shakespeare circulate in our culture in a wide variety of ways - in music, art, dance, film, television, advertising, management manuals, self-help books, etc. sometimes staying close to the original texts and at other times barly skimming the surface for cultural capital. This course will examine the dynamic relationships between Shakespeare in its diverse forms and popular culture by examining various instances of Shakespearean appropriation and adaptation. Themes include Shakespeare in Love, War, Business, and Youth Culture.

ENGL 145A. Chaucer - Canterbury Tales. 4 Units
Term Typically Offered: Fall, Spring

Reading of The Canterbury Tales in Middle English. Chaucer's great unfinished poem will be investigated as the pinnacle of literary achievement in the English Middle Ages, a work that attempts, like Dante's Divine Comedy, to account for all the issues and problems of human life as medieval thinkers had come to regard them.

ENGL 145B. Shakespeare - Early Plays, 1592-1600. 3 Units
Term Typically Offered: Fall, Spring

Exploration of representative plays from roughly the first half of Shakespeare's career as a dramatist, including early and middle comedies (e.g., A Midsummer Night's Dream, As You Like It), early and middle tragedies (e.g., Richard II, Henry IV, Part One), while situating the plays within their cultural and historical context.

ENGL 145C. Shakespeare - Later Plays, 1600-1612. 4 Units
Term Typically Offered: Fall, Spring

Exploration of representative plays from roughly the second half of Shakespeare's career as a dramatist, with emphasis on the major tragedies (Hamlet, Othello, King Lear, and Macbeth), but also including the middle comedies (e.g., Twelfth Night, Measure for Measure) and the later romances (e.g., The Winter's Tale, The Tempest), while situating the plays within their cultural and historic contexts.

ENGL 145I. John Milton. 3 Units
Term Typically Offered: Fall, Spring

Students study the major poems of Milton-among them Comus, "Lycidas," Paradise Lost, Paradise Regained, and Samson Agonistes-giving special attention to Paradise Lost. Students will also consider such prose works as Of Education, the divorce tracts, and Areopagitica, Milton's famous argument against censorship. Finally, it includes lectures on the Puritan Revolution of 1640-60 and Milton's role in it.

ENGL 150A. Early American Literature. 4 Units
Term Typically Offered: Fall, Spring

Focusing on the literature of early American settlement, the literature that first defined our nation. Students analyze such works as oral literature of Native America, earliest writings of Spanish explorers, Puritan settlement literature, Captivity Narratives of the 17th through 19th centuries, Witchcraft Narratives, and Slave Narratives. Students might also study connections to later works (e.g., Puritan literature and Hawthorne's Scarlet Letter, Witchcraft narratives and Miller's The Crucible).

ENGL 150B. American Romanticism. 4 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Focuses on one of the great periods in the history of literature. It has appropriately been called the American Renaissance. Writers covered might include but not be limited to Poe, Hawthorne, Emerson, Thoreau, Fuller, Melville, Whitman, Dickinson.

ENGL 150C. American Realism. 3 Units
Term Typically Offered: Fall, Spring

Examines American literature written during the period after the Civil War, a time of unprecedented change that transformed America from rural, agricultural, and homogeneous culture into its urban, industrial, heterogeneous counterpart. It investigates how the literature of this period reflected these changes and simultaneously tried to reconcile them with the values of an earlier America. The magnitude of this endeavor produced a remarkable literary heritage for the 20th century.

ENGL 150D. American Modernist Fiction, 1910-1950. 4 Units
Term Typically Offered: Fall, Spring

Survey of the important historical movements and conflicts in American literature, including the development of Realism and Naturalism, the experimental Modernist movement of the twenties, the populist literature of the thirties and the development of psychological realism in the forties.

ENGL 150E. American Poetry, 1910-1950. 4 Units
Term Typically Offered: Fall, Spring

Many scholars argue that American literature's greatest achievement in the twentieth century literature is in the genre of poetry. Offers a survey of such movements as the "New Poetry," Modernism, Imagism, Primitivism, and Postmodernism. Major figures will include, but not be limited to, Robinson, Frost, Eliot, Pound, Millay, Cummings, Stevens, W.C. Williams, Jeffers, Moore, and Hughes.

ENGL 150F. Contemporary American Fiction, 1950-Present. 3 Units
Term Typically Offered: Fall, Spring

Surveys American fiction in the decades immediately following World War II. These novels deal with themes such as exhaustion, social unrest, historical conspiracy, and political coercion. Representative figures include, but are not limited to, Ralph Ellison, John Barth, Philip Roth, Joan Didion, Thomas Berger, Vladimir Nabokov, Marilynne Robinson, Thomas Pynchon.
Exams the richness of American poetry since World War II giving some consideration to the impact of recent world poetry brought to us by our skillful poet/translator.

**ENGL 150H. Recent American Fiction, 1980-Present.** 4 Units
*Term Typically Offered: Fall, Spring*

Introduction to the remarkable flowering of American fiction in the late decades of the twentieth century. The primary focus is to scrutinize a collection of novels for which there is no firmly established critical opinion but which are nonetheless distinguished fictional accomplishments. Emphasis is placed on revealing the diversity of voices and the ways in which these writers demonstrate the continuing possibilities for artistic variety and experimentation.

**ENGL 150I. Modern American Short Story.** 4 Units
*Term Typically Offered: Fall, Spring*

Since the publication of Washington Irving’s “Legend of Sleepy Hollow,” Americans have excelled at the genre of the short story. Offers a survey of traditional “masters” and recent innovators. Provides an opportunity to read a wide variety of writers (such as Wharton, Chopin, Crane, Gilman, James, Anderson, Hemingway, Faulkner, Ellison, O’Connor, Barth, Oates, Proulx, Roth, Carvey, and Welty), and examine a range of forms, themes and experiences that reflect and shape American culture.

**ENGL 150J. Twentieth-Century American Drama.** 4 Units
*Term Typically Offered: Fall, Spring*

In-depth examination of American drama, starting with Eugene O'Neil. Traces American drama from the early decades of the 20th century to the present, examining the plays themselves, their themes, dramatic idioms, stage craft and European influences in their social, historical and artistic contexts.

**ENGL 150L. Lost Generation Writers.** 4 Units
*Term Typically Offered: Fall, Spring*

Examines one of the most remarkable flowerings of literary achievement in American letters, the writing of “The Lost Generation,” authors born between 1885 and 1900. Unified by a profound disillusionment with American culture after World War I, writers such as T.S. Eliot, Eugene O'Neill, William Faulkner, and Ernest Hemingway produced enduring modern masterpieces. In the process they demonstrated that their generation might find in art what had been lost on the battlefield.

**ENGL 150M. California Literature.** 4 Units
*Term Typically Offered: Fall, Spring*

Focuses on the California phenomenon of the place where the American Dream strives to reach fulfillment “because here” according to Sacramento-native Joan Didion, “beneath that immense bleached sky, is where we run out of continent” and how this phenomenon has captivated writers for centuries. Presents a cross-section of literary works (fiction, poetry, essays, etc.) while examining and interrogating various literary manifestations of California golden myths and grayer realities.

**ENGL 150P. The American Gothic.** 4 Units
*Term Typically Offered: Fall, Spring*

Explores American works written in the Gothic mode. In novels, captivity narratives, short stories, and poetry, we will investigate representations of terrifying, uncanny, and supernatural phenomena. As we trace the development of the Gothic mode in American literature, we will examine how narratives and poetic depictions of horror rehearse our individual and cultural fears about sexuality, race, violation, rebellion, madness, and death, and we will inquire into that thrill of macabre pleasure that attends the exploration of the darker side.

**ENGL 150R. American Regionalism.** 4 Units
*Term Typically Offered: Fall, Spring*

Examines literature by American regionalist writers during the late-nineteenth century. Topics may include nationalism, sectional divides, local color, dialect fiction, conditions of publication, and emerging women writers and writers of color. Students will investigate the role that regionalism plays in relation to literary representations that depict the conflicting and complex social, cultural, and historical formation of racialized and gendered identities. Independent-online project required.

**ENGL 155E. Hemingway and Fitzgerald.** 4 Units
*Term Typically Offered: Fall, Spring*

Intensive study of two of the most important American writers of the 20th century: Ernest Hemingway and F. Scott Fitzgerald. This focus on two authors allows students to read them in-depth, to examine the dynamics of their friendship, and to explore the similarities and differences in their responses to World War I and the Great Depression.

**ENGL 156A. A Survey of Irish Literature.** 3 Units
*Term Typically Offered: Fall, Spring*

Survey of Irish literature, beginning with various myths, moving through the bardic period and eighteenth and nineteenth centuries, and then centering upon the “Irish Renaissance” (1885-1940). Covers the genres of poetry, drama, and fiction, and representative figures include W.B. Yeats, Patrick Kavanagh, James Joyce, Flann O’Brien, John Synge, Lady Gregory, Sean O’Casey, Sean O’Faolain, and Frank O’Connor.

**ENGL 156D. Postcolonial Literature.** 4 Units
*Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X; or WPJ score of 80+.*

**General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (W)**

**Term Typically Offered: Fall, Spring**

Deals with the considerable body of Postcolonial literature written in English. Many of the writers come from countries of the former British Commonwealth, including Achebe, Desai, Emcheta, Naipaul, and Rushdie. It focuses on the literary, cultural and political environments in which the texts are situated and on their relationship to the wider tradition of literature in English.
ENGL 165F. Caribbean Literature. 4 Units
Term Typically Offered: Fall, Spring

Focuses on the literature—novels, short stories, poetry, and plays—by a wide range of Caribbean authors, among whom are two recent Nobel Prize winners, Derek Walcott and V. S. Naipaul. Students will learn to appreciate the cultural diversity of this post-colonial literature and will become familiar with its important themes and stylistic techniques. Students will also experience the multi-dialectal richness and flavor of the Anglophone Caribbean as expressed by authors from linguistically diverse islands.

ENGL 170A. Fantasy. 4 Units
Term Typically Offered: Fall, Spring

Helps students develop their own working definition of fantasy by examining its central narrative and dramatic structures, image patterns, and thematic preoccupations. At the same time, encourages students to compare these motifs with those of so-called "realist" fiction so they may understand how blurred conventional distinctions between "fantasy" and "reality" actually are.

ENGL 170D. Drama. 4 Units
Term Typically Offered: Fall, Spring

Offers a survey of dramatic literature—tragedy, comedy, tragicomedy—with plays both modern and classical. Focus is on analysis of genre, theme, structure, and interpretation of the plays. Since plays are meant to be seen as well as read, we will screen selections from our plays to deepen our understanding and enjoyment.

ENGL 170E. Short Fiction. 4 Units
Term Typically Offered: Fall, Spring

Survey of the art of short fiction through readings of a variety of world writers. Representative figures include, but are not limited to, Melville, James, Chopin, Maupassant, Chekhov, Saki, Cather, Joyce, Kafka, Dinesen, Hemingway, Borges, O'Connor, Munro, Carver, Everett, Lahiri, etc.

ENGL 170G. Modern Poetry. 4 Units
Term Typically Offered: Fall, Spring

General course in English language poetry written in the late 19th and early 20th century, a period of great innovation in poetry. It focuses on approach: what is the modern poem and how does one read it? Emphasis is placed on the function of image, voice, line break, rhythm, etc. Writers might include Whitman, Dickinson, Yeats, Pound, Eliot, Hardy, and Hopkins.

ENGL 170H. Introduction To Comedy. 4 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Focuses on various comic genres and theories—from 4th century BC to the present. It examines romantic comedy, tragicomedy, comedies of manners, of humors, of menace; farce, satire, slapstick. Students also read widely in comic theory, examining aspects psychological, phenomenological, aesthetic—in drama, fiction, poetry and prose.

ENGL 170I. Introduction To Tragedy. 4 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Focuses on the literatures and theories of tragedy—from 5th century BC to the present—from Sophocles to Mamet, from Flaubert to Stoppard. It examines the “tragic vision” in light of individual genres, times, social mores, religious beliefs and expectations, using Aristotle for both its touchstone and lodestar.

ENGL 170K. Masters of the Short Story. 4 Units
Term Typically Offered: Fall, Spring

Concentrates on the works of a few distinguished writers of short fiction. In each case the writer is one with a widely acknowledged reputation. Emphasis is upon exploring how writers shape and manipulate the genre to produce lasting, individual, distinctive works. Representative figures include, but are not limited to, James Joyce, Nathaniel Hawthorne, Sherwood Anderson, Ernest Hemingway, Frank O'Connor, Flannery O'Connor, John Barth, D.H. Lawrence, and Eudora Welty.

ENGL 170L. Literature Of Sexuality. 4 Units
Term Typically Offered: Fall, Spring

Examines the relation between sexuality and literature, exploring different conceptions of sexuality over time and across cultures and the rhetorical strategies employed in representations of sexuality in literary texts. Topics may include the modern connection between sexuality and identity, the links between nation, race, and sexuality; and the treatment of homosexuality and women's sexuality. Throughout, careful attention will be paid to the literary forms and discursive strategies (e.g., the confessional mode, modern scientific discourses) used to represent sexuality.

ENGL 170M. Narrative Poetry. 4 Units
Term Typically Offered: Fall, Spring

Provides an introduction to the genre of narrative poetry, a historical survey of the vicissitudes of its reception from the nineteenth century to the present, and a close study of representative narrative poems by poets who have excelled in this mode.

ENGL 170N. Twentieth-Century Fiction. 4 Units
Term Typically Offered: Fall, Spring

Study of twentieth-century fiction from a variety of ethnic and social backgrounds, including and moving beyond British Modernism. Readings explore English as a literary language used across the globe, ranging from Paris to Mazatlán, Calcutta to San Francisco.

ENGL 170Z. Forms Of African-American Poetry. 4 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Focuses on four or more African-American poets, representing a historical succession of literary periods.
ENGL 180B. Forms of African-American Fiction. 4 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Focuses on four or more African-American writers of fiction, surveying texts representing a historical succession of literary periods.

ENGL 180F. Major African-American Authors. 4 Units
Term Typically Offered: Fall, Spring

Employing a lecture-discussion format, involves studies in a single literary genre or a combination of literary genres emphasizing the work of three or fewer African-American authors.

ENGL 180H. American Identities: In the Intersection of Race, Gender, and Ethnicity. 4 Units
Term Typically Offered: Fall, Spring

Uses a team-teaching approach to sample a range of diverse American literatures. Texts are selected by the team to represent both mainstream and marginalized groups and to reflect the individual professors’ interests and expertise. Examines the commonalities that cross ethnic, racial, class, and gender boundaries as well as the differences that enrich our cultural identity. Independent, online project required.

ENGL 180J. Jewish American Literature. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Students will examine a rich tradition of Jewish American literature in the context of a complex American multicultural narrative. Topics include the immigrant experience, assimilation, alienation, responses to the Holocaust and other forms of anti-Semitism, the place of Israel in the Jewish American imagination, and a contemporary rediscovery of reconstruction of Jewishness and Judaism. Students will interrogate what constitutes Jewish American identity and defines its literature in a culture that is itself conflicted about its secular/religious ethos and the degree to which subjectivity is determined by "consent and/or descent."

ENGL 180K. Chicano Literature. 4 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Gives students an overview of Chicano Literature. Students examine both contemporary Chicano poetry and fiction.

ENGL 180M. Asian American Literature. 4 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Designed to help students gain an understanding of the diversity as well as the similarities among various Asian American writers. How do the categories of race, gender, and class affect the way different characters construct their cultural experiences and fashion their personal identities? By studying the variety of processes through which different protagonists "become American"—through assimilation, appropriation, or "translation"—students should arrive at a better understanding of how we all construct our own identities.

ENGL 180Z. Topics in Multi-Ethnic Literatures. 4 Units
Term Typically Offered: Fall, Spring

Comparative analysis of two or more ethnic literary and cultural productions with an emphasis on relationships among history, politics, and culture in American, British, or World literatures.
Note: May be repeated twice for credit as topics vary.

ENGL 185B. Twentieth Century Fiction by Women. 4 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Covers short stories and novels spanning the century and including women writers from a variety of nationalities, class, cultural and ethnic groups. Emphasizes what Virginia Woolf calls "the delicate transaction between a writer and the spirit of the age" and works with the writers presented so as to elicit the developing strands of influence and critique that bring these disparate writers into a common dialogue.

ENGL 185C. British Women Novelists. 4 Units
Term Typically Offered: Fall, Spring

Focuses on the ways in which women writers of the 19th and 20th centuries concern themselves with questions of the differences in male and female experience and how those differences affect their writing. Students will study the portrayal in fiction of the evolution of the "modern woman"—with the conflicts between self and other, dependence and independence, love and power that are part of that process.

ENGL 185D. American Women Writers. 4 Units
Term Typically Offered: Fall, Spring

Focuses on women writers primarily from the early 20th century with an emphasis on how gender expectations affect people, society, novels, poems. Students study the theme of awakening, the roles that families, friends, class, social expectations and conditions play in the development of individuality and self-awareness. Examines implications of power relationships and certain areas of conflict, such as those between self and other, repression and expression, inner and outer, dependence and independence, love and power.

**ENGL 185E: Chicana/Latina Women Writers.**
Focuses on major Chicana and Latina writers of the 19th, 20th, or 21st centuries. Includes an analysis of Chicana and Latina novels, short stories, theater and/or poetry. Students develop analytical skills through class lectures, discussions, written assignments and readings.

**ENGL 190D: Detective Fiction.**
Readings in and analysis of crime and detective fictions (novels, short stories, plays, etc.). Crime fiction continually asks us what do we know about people and events and how do we know it. Investigates a variety of texts that address this desire to know and its connections to the mysterious and the criminal. Discussions of this popular genre will address the ways in which an obsession with crime and punishment manifests itself in various cultures and cultural moments.

**ENGL 190H: The Supernatural in Literature.**
Approaches supernatural literature from the perspective that, regardless of how bizarre or fantastical a literary work may seem, it deserves serious scholarly study because it represents the realism of apparent human experiences and provides readers with access to the inner workings of the human mind. Readings include Ambrose Bierce, H.P. Lovecraft, Edgar Allan Poe, Lord Dunsany, Fitz-James O’Brien, and contemporary writers from around the world.

**ENGL 190J: Tolkien: Lord Of The Rings.**
Helps students understand the primary structures, images, and themes informing Tolkien’s Middle Earth and the ways these link the medieval worldview with modern, and even postmodern, wish-and fear-fulfillments. Students will read Tolkien’s criticism, poetry, short tales, The Hobbit, The Lord of the Rings trilogy, and selections from The Silmarillion.

**ENGL 190P: Popular Literature and Culture.**
The study of popular texts through the various lenses of literary analysis. Students will work with a variety of texts, which might include genre fiction, graphic novels and comics, film and television, and other digital media, to consider the ways and whys of their popularity, as well as their impact, both historical and contemporaneous, on literature, audience, and culture.

**ENGL 190Q: LGBTQ Literature.**
Readings in and analysis of literature by and about lesbian, gay, bisexual, transgender, and queer creators. Students will work with a variety of texts (fiction, poetry, film, nonfiction) about LGBTQ identities; students will also come to understand the historical contexts and shifting theoretical paradigms that have shaped and reshaped conceptions of sexuality.

**ENGL 190R: Romance Fiction.**
Readings in and analysis of romance fictions (primarily novels). Romances continually promise emotional (and sexual) fulfillment, but what do readers of romance novels get from this reading experience? Discussions of this popular genre will address the ways in which the pursuit of love and companionship and the indulgence in lust and passion manifest themselves in various cultural moments; critical materials will help theorize the appeals, dangers, and uses of romance fiction.

**ENGL 190V: Great Drama on Video.**
Studies and evaluates a selection of dramas on videos (such as but not limited to A Streetcar Named Desire, Death of a Salesman, Doll’s House, Hamlet, Oedipus, Pygmalion, and Rosencrantz and Guildenstern) and core texts (Sculpting in Time: Tarkovsky The Great Russian Filmaker Discusses His Art, Truffaut by Truffaut, and Staring Point by Hayao Miyazaki).

**ENGL 191A: Masterpieces of the Cinema.**
Conducted by lecture and discussion. Students see a selection of the best, most enduring, most influential films made during the last hundred years and explore the historic, aesthetic, and philosophical reasons these films have generally been acknowledged as masterpieces.

**ENGL 195A: Writing Center Theory and Practice: Internships.**
Provides interns with an opportunity to apply tutoring principles while working at tutors in the writing center. **Note:** ENGL 195A is a paired course with ENGL 410A, which meets at the same time in the same room. The graduate level class has a significantly increased reading, writing, and research component. May be repeated for up to 8 units of credit.

**ENGL 195C: Internship In Field Work.**
Work experience in an area related to the English major. Credit/No Credit

**ENGL 195W: Writing Programs Internship.**
This course is paired with an internship with the University Writing Programs or a Community Engagement Center partner organization during which students apply knowledge of writing, editing, design, copy editing, and production in the professional workplace. Students define the learning goals and objectives specific to their internships by writing a learning agreement, and in a portfolio presented to the class they examine the extent to which they met the learning objectives outlined in the learning agreement. **Note:** May be repeated for credit if topic of internship differs.
ENGL 197A. Film -- Horror, Comedy, Science-Fiction. 4 Units
Term Typically Offered: Fall, Spring

Major genres of the cinema conducted by lecture and discussion. Students see a selection of films from the major genres including (but not limited to) horror, science fiction, and comedy, learn about the history and development of each genre; and explore the commercial, aesthetic, social, and philosophical forces that have shaped the major film genres.

ENGL 197G. Films of Great Directors. 4 Units
Term Typically Offered: Fall, Spring

Focuses on the role of the director in the creation of excellent films. Students will view, analyze, and discuss memorable films by great directors, concentrating on their personal styles, cinematic strategies, and typical themes. Representative examples will include such filmmakers as Chaplin, Keaton, Renoir, Welles, Ford, Truffaut, Bunuel, Kurosawa, Hitchcock, Bergman, and others.

ENGL 197L. Film - Depression Giggles. 4 Units
Term Typically Offered: Fall, Spring

A semester of films, readings, and discussions focused on what is often called the Golden Age of Hollywood, the 1930s and early 1940s. Class will study as well the studio era, the star system, the development of cinematic genres, and censorship under the Production Code both when it was more strictly enforced [1934-after] and when it was not [1930-1934].

ENGL 197K. Fiction Into Film. 4 Units
Term Typically Offered: Fall, Spring

Students see a selection of films adapted from novels, short stories, or other literary works; read the original work from which the film was adapted; and explore the history, aesthetics, and craft of adapting fiction to film.

ENGL 197L. The American Film. 4 Units
Term Typically Offered: Fall, Spring

Focus on American films. Topics may cover a range of periods, movements, genres, styles and issues.

ENGL 197M. Recent American Films. 4 Units
Term Typically Offered: Fall, Spring

Emphasizes the trends, themes, forms, and cinematic techniques, technological advances, and "revisionist" genres of recent American films of approximately the last twenty years, partly as a way of analyzing the American film conventions, partly as a means of examining our contemporary culture, but primarily as a means of analyzing and understanding the films themselves.

ENGL 197P. British Film. 4 Units
Term Typically Offered: Fall, Spring

Screenings and analysis of films produced in Great Britain. Students will view a variety of British films, starting possibly with silents and early Hitchcock and ending with films from the contemporary moment. Students will come to understand the historical and artistic contexts of the films and encounter the shifting definitions of what represents "British" on the screens of the cinema and in the minds of viewers. May provide a survey of films or focus on particular themes, studios, or directors.

ENGL 197R. Films Of Alfred Hitchcock. 4 Units
Term Typically Offered: Fall, Spring

Traces Hitchcock's "game with the audience" from its beginnings in silent films, through its British period, to its American conclusion. It closely examines important sequences, shots, images, character types, and themes. Students will view several of Hitchcock's classic films in their entirety.

ENGL 197T. Senior Seminar In English. 2 Units
Term Typically Offered: Fall, Spring

Features specialized topics taught by a variety of instructors depending upon the semester. Topics can include subject matter from literature, linguistics, English education, creative writing, composition/rhetoric, and film. Tend to the production of a significant research paper, a paper which will emphasize the student's ability to: evaluate, assess, and interpret multiple texts; integrate primary and secondary sources; construct a sustained, coherent, and rhetorically sophisticated piece of writing.

ENGL 198X. Senior Portfolio. 2 Units
Term Typically Offered: Fall, Spring

In this course, students, as one element of their capstone experience, will reflect on their work in their classes and portfolio projects; the English major, its structure, curriculum, and values; their career goals and life-long learning; and the meanings of education and literacies in the academy and popular cultures. Students will edit and finalize their senior portfolio.

Note: On-line course

Credit/No Credit

ENGL 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading.

Note: Departmental petition required.

Credit/No Credit

ENGL 200. Methods and Materials of English Studies. 3 Units
Term Typically Offered: Fall, Spring

Required for all MA candidates in English.
ENGL 200A. Methods and Materials of Literary Research. 4 Units
Term Typically Offered: Fall, Spring

Required of all MA candidates in English under Plans A and C and Creative Writing Plan B, acquaints students with principal sources and techniques of literary research. It also introduces students to contemporary critical approaches to literature. Students should take this course as early as possible in their graduate careers, preferably in the first semester. Students prepare an annotated bibliography and a paper employing a particular critical approach to one of a selection of anchor texts.

Note: Graduate Writing Intensive (GWI) course.

ENGL 200D. Materials and Methods of TESOL Research. 3 Units
Term Typically Offered: Fall, Spring

Explores research design and testing methods for quantitative and qualitative research in second language acquisition (SLA). Students develop the ability to read second language acquisition research critically; study a variety of theoretical perspectives represented in current SLA research; and review the history of the current "burning issues" in SLA.

Note: Graduate Writing Intensive (GWI) course.

ENGL 200E. Curriculum and Assessment Design for Language Classrooms. 3 Units
Term Typically Offered: Fall, Spring

Examine the interplay between curriculum design and classroom assessment. The goals are 1) to familiarize prospective teachers with the terminology and practices underlying curriculum design and classroom assessment; 2) to develop the ability to analyze student needs and propose appropriate changes to curricula; and 3) to construct and implement language tests that reflect curricula.

Note: May be counted as an elective for the M.A. TESOL program.

ENGL 201D. Contemporary Theory. 4 Units
Term Typically Offered: Fall, Spring

Introduces students to the place of theoretical texts in literary studies and engages with theory through a survey of approaches and/or a thematic inquiry; examples of thematic approaches might include but are not limited to formalism and new formalism, critical race studies, theories of poetics, and the linguistic turn.

ENGL 210B. Sociolinguistics and TESOL. 3 Units
Term Typically Offered: Fall, Spring

ENGL 210C. Technology in Second Language Teaching. 3 Units
Term Typically Offered: Summer only

ENGL 210G. Second Language Acquisition. 3 Units
Prerequisite(s): ENGL 200D.
Term Typically Offered: Fall, Spring

Examines the factors affecting the acquisition of a second language, focusing on research in this area since 1970. Topics covered are: transfer and the role of the first language; developmental sequences; the role of input, interaction and output; cognitive and personality variables, including age; and the role of formal instruction and error correction.

ENGL 215A. Reading/Vocabulary Acquisition. 3 Units
Term Typically Offered: Fall, Spring

Preparation of teachers of English to speakers of other languages. Examines the psycholinguistic bases of the reading process in ESL, provides opportunities for seminars to test reading practices in peer demonstrations, and explores the fundamentals of testing, evaluation, and syllabus design in the ESL curriculum. Particular attention for reading and vocabulary will be given to miscue analysis and acquisition theory.

ENGL 215B. ESL Writing/Composition. 3 Units
Term Typically Offered: Fall, Spring

Provides the groundwork to prepare teachers of English to speakers of other languages for composition instruction. An examination of the theoretical bases of language acquisition, composing process, and correction/revision strategies that will enable students to plan and demonstrate writing lessons to their peers. Consideration of traditional tests of writing, such as the TOEFL, the WPJ, and innovative forms of evaluation are integrated with syllabus design and text evaluation.

ENGL 215C. Pedagogical Grammar for TESOL. 3 Units
Term Typically Offered: Fall, Spring

Examines those areas of English grammar that are typically taught to non-native speakers. The goals are 1) to familiarize prospective ESL teachers with terminology and analyses that can be used in the classroom; 2) to develop the ability to explain and exemplify grammatical phenomena in terms accessible to ESL students; 3) to review sample materials and techniques for teaching English grammar to non-native speakers.

ENGL 215D. Pedagogy of Spoken English. 3 Units
Term Typically Offered: Fall, Spring

Examines aspects of spoken English that are typically taught to non-native speakers. The goals are 1) to familiarize prospective ESL teachers with terminology and analyses that can be used in the classroom; 2) to develop the ability to analyze student difficulties and provide appropriate help; 3) to review sample materials and techniques for teaching spoken English to non-native speakers.

ENGL 220A. Teaching College Composition. 4 Units
Term Typically Offered: Fall, Spring

Designed for prospective community college and university writing instructors. It focuses on theory and research in rhetoric, composition, and cognitive development and on practical, pedagogical classroom strategies. Students discuss a variety of theories and research studies and then apply writing theory to classroom strategies, design lessons, assignments, and syllabi, and practice analyzing and responding to student writing; and prepare a teacher portfolio.

Note: Graduate Writing Intensive (GWI) course.
ENGL 220C. Topics in Composition Studies. 4 Units
Prerequisite(s): ENGL 220A
Term Typically Offered: Fall, Spring

Rotating series of topics relevant to composition studies. Regardless of the topic, students will explore the history of the field, the theory and practice of the field, the major scholarly works of the field, and the relationship of the field of study to the broader field of composition and rhetoric.

ENGL 220D. Teaching and Composition Research. 4 Units
Term Typically Offered: Fall, Spring

Examines the history and current status of research methods and methodologies in Composition Studies. It explores both producing and consuming research—studying how and why research has been conducted and how it has been understood and put to practical use by readers of composition research.

ENGL 220P. Professional Writing. 4 Units
Term Typically Offered: Fall, Spring

Examines theories that inform the practices of professional writers and applies theoretical principles to some common professional writing genres used in career fields ranging from business to public relations to nonprofit management. Focuses on how business or technical communication is different from academic styles and introduces students to the current writing challenges and practices in these fields.

ENGL 220R. Topics in Rhetorical Theory and Practice. 4 Units
Term Typically Offered: Fall, Spring

Designed to help students learn about and apply rhetorical theory. Its goal is to introduce graduate students to the history and theory of rhetorical movements after—or outside of—the rhetorics of Western antiquity. Evaluation will be based on weekly journal responses to readings, a major paper on rhetorical theories, and a course portfolio.

ENGL 220W. Writing in Your Discipline. 3 Units
Prerequisite(s): Graduate GWAR placement Score of 40 or a GWI course grade of "B-" or lower
Term Typically Offered: Fall, Spring

Writing workshop course designed to immerse graduate students in the discourse of their disciplines; required for graduate students who have received a 3 unit placement on the Writing Placement for Graduate Students (WPG). Focuses on the writing process, text-based academic writing in various academic genres, revising, and editing. Students will produce 5000 words. Includes assessment via Course Portfolio.

ENGL 222. Understanding Multidisciplinarity in Writing Studies. 1 Unit
Term Typically Offered: Fall, Spring

The discipline of Writing Studies has roots in a number of areas of scholarly inquiry. Some disciplines that have contributed to the development of the field include Literary Studies, Linguistics, Communications, Information Technology, Philosophy, Library Science, Psychology, and Education. In this course, students will evaluate a theory or concept presented in a discipline outside of Writing. Required for students in the MA in Composition, Rhetoric, and Professional writing who are taking a ENGL 215B or another three-unit elective.

ENGL 225A. Theories of Teaching Literature. 3 Units
Term Typically Offered: Fall, Spring

Introduction to theories of teaching literature so students who intend to teach at the college level have examined their assumptions and options before they develop their teaching practices. Organized around three questions: Why do we teach literature? What do we teach? How do we teach?

ENGL 225C. Theoretical Issues in Adult Literacies. 3 Units
Term Typically Offered: Fall, Spring

Introduces students to current theories surrounding the pedagogies and politics of adult literacies within a wide variety of contexts, including community colleges, prisons, and community projects. Incorporates information on technological literacies, information literacies, cultural literacies, and multiliteracies. In addition, students will be partnered with community literacy experts and required to complete formal observations of adult reading classrooms throughout the semester, fostering collaboration between the local community and the university.

Cross-listed: EDTE 225C; only one may be counted for credit.

ENGL 230A. Writing Fiction. 4 Units
Term Typically Offered: Fall, Spring

Seminar in the workshop format designed for experienced writers of fiction. It is designed to provide intensive instruction in the theory and craft of writing short stories, novels, and screenplays.

ENGL 230B. Advanced Poetry Writing. 4 Units
Term Typically Offered: Fall, Spring

Theory and practice in the writing of poetry. Consists primarily of the preparation and evaluation of student work. Students are also be assigned supplemental readings designed to help them determine their affinity (or lack of affinity) with current poetic theory and practice.

ENGL 230D. Meter and Rhythm. 4 Units
Term Typically Offered: Fall, Spring

In-depth study of prosody including the principles of meter (line measurement) and scansion (the marking of stressed and unstressed syllables to determine meter and rhythm), as well as examining the relationship of these principles to verse in English. Examines a variety of poetic schemes, tropes, and forms. Lecture and guided practice.

ENGL 230E. Writing and Theorizing Memoir. 4 Units
Term Typically Offered: Fall, Spring

Examines the craft of writing memoir and creative nonfiction as well as the theory and history of contemporary memoir writing. Students will write and workshop their own memoirs and creative nonfiction. Introduces students to literary and philosophical theories of memory and writing as well as look at contemporary memoirs written in a variety of styles.

ENGL 230G. Between Genres: Flash Fiction/Prose Poetry. 4 Units
Term Typically Offered: Fall, Spring

English 230G offers graduate poets and fiction writers the opportunity to explore/experiment with the long-standing anti-genre of the poetry/fiction hybrid. For 200 years writers around the world have noted the symbiosis between the genres of poetry and prose. Currently, some of America’s most exciting writers are currently exploring the margins between prose poetry, flash fiction, and related evolving forms.
ENGL 230X. Master Class in Writing Fiction. 4 Units
Prerequisite(s): ENGL 130A, or ENGL 130M, or ENGL 130N, or ENGL 230A or instructor permission.
Term Typically Offered: Fall, Spring
Workshop provides intensive instruction in the theory and craft of writing fiction designed for students who are already writing at a professional or near-professional level, and for those who have proven themselves ready to take advanced study with careful, individualized direction of the instructor.
Note: May be repeated once for credit.

ENGL 230Y. Master Class in Writing Poetry. 4 Units
Prerequisite(s): ENGL 130B or ENGL 230B or instructor permission.
Term Typically Offered: Fall, Spring
Designed to provide intensive practice in the techniques and problems of writing poetry. It is aimed at students interested in creative writing, those who have already done significant work and who have proven themselves ready to take advanced study with careful individualized direction of the instructor.

ENGL 240. British Literature. 3 Units
Term Typically Offered: Fall, Spring
Seminars in British literature.

ENGL 240A. Chaucer. 4 Units
Term Typically Offered: Fall, Spring
Investigation of the body of Chaucer's poetry, seen against the backdrop of the late 14th century.

ENGL 240B. The World and the Flesh: Victorian Fiction. 4 Units
Term Typically Offered: Fall, Spring
Explores the Divided-Self of Victorian fiction, a consciousness split between word and flesh, duty and love, society and the self, or most generally between one's public role and one's private needs. Such polar themes affect several fictional genres such as the Pastoral, Gothic, Bildungsroman, Historical Novel and Naturalism. The word and flesh dialectic also informs the narrative structure of Victorian fiction.

ENGL 240E. 18th-Century Novelists. 4 Units
Term Typically Offered: Fall, Spring
Focuses on individual novelists, pairs of novelists, or thematic groupings. Might include works of fiction by authors such as Behn, Defoe, Richardson, Fielding, Sterne, Goldsmith, Bumey.

ENGL 240F. Dickens-Thackeray. 4 Units
Term Typically Offered: Fall, Spring
Dickens and Thackeray dominated the popular mind as the novelists of the age; no other novelists are more representative of their age and yet can claim to have risen above it. Concentrates on just a few of their novels. Students study the writers and their novels in the context of English society in the 19th century.

ENGL 240G. Yeats, Kavanagh and Heaney: Ireland's Modern Irish Poets. 3 Units
Term Typically Offered: Fall, Spring
Yeats, often considered a modernist and a poet in the British tradition, saw himself primarily as an Irish poet working within distinctly Irish literary traditions. Focuses on Yeats' conception of a national, ethnic poetry and the effect that mission had on Ireland's other two major 20th century poets—Kavanagh and Heaney. Students analyze Yeats' most influential work; Kavanagh and Heaney are studied in terms of their debt to Yeats and their individual expressions of national consciousness.

ENGL 240H. DH Lawrence.
Term Typically Offered: Fall, Spring
Lawrence was immensely original. Like Tolstoy and Dostoevsky, Lawrence is a prophetic visionary intensely concerned to articulate and embody an all-embracing, profoundly existential, vision of life. Examines Lawrence's work closely after a brief exploration of modernism and Lawrence's relation to it and an examination of how conditions in post-Victorian England and events in Europe in the early 20th century contributed to the making of Lawrence's world view and his role as a controversial outsider.

ENGL 240I. Jane Austen.
Term Typically Offered: Fall, Spring
Focuses on Jane Austen, perhaps England's greatest novelist. Students read almost all of her work and trace the development of her art from her teenage years until her death in 1817, noting how each new book is a distinct departure from previous ones.

ENGL 240J. James Joyce.
Term Typically Offered: Fall, Spring
James Joyce is a monument among twentieth century writers. His masterful Ulysses and other intricate works have kept generations of critics in business. Examines his major fictions, studying them in relationship to the life out of which they grew.

ENGL 240K. English Renaissance Drama.
Term Typically Offered: Fall, Spring
Sense of exploration, discovery, experimentation, creativity, and moral complexity of the Renaissance era in England (roughly 1550 to 1660) is reflected in the variety and number of plays written by Shakespeare's predecessors, contemporaries, and successors. Following introductory material on the development of the drama in England, students analyze Elizabethan and Jacobean playwrights, exclusive of Shakespeare. Emphasis is on the forms and themes of the plays, with application of "New Historicism" and attention to Renaissance backgrounds.

ENGL 240L. Conrad and Greene.
Term Typically Offered: Fall, Spring
When English critic F.R. Leavis declared that the great English novelists were Austen, Eliot, James, and Conrad, he emphasized these writers' intensely moral pre-occupation. No modern novelist has been more influenced by Conrad than Graham Greene, whose work has the same romantic subject matter and concerns with ethical judgments. Both writers are concerned with the question: to act or not to act, for either choice has inescapable ethical consequences.
ENGL 240M. The Gothic Novel. 4 Units
Term Typically Offered: Fall, Spring
Examines the origins and development of the Gothic Novel in England. Attention is paid to recurring structures and themes such as architecture, the use of a narrative frame, reader identification figure, the divided self, the relationships between sex, violence, and death, the wasteland motif, and existential concerns. Special attention is given to the role of the reader and his or her response to the novels.

ENGL 240N. Arthurian Literature. 4 Units
Term Typically Offered: Fall, Spring
Study of Arthurian literature in the Middle Ages from its origins to Thomas Malory, as well as some coverage of reception history.

ENGL 240O. Satire In Age Swift+Pope. 3 Units
Term Typically Offered: Fall, Spring
Focuses on works of fiction deemed written after 1979. Although the choice of authors and works might vary from one semester to another, focuses on works of fiction deemed significant and valuable by literary scholars and critics.

ENGL 240R. Charles Dickens. 4 Units
Term Typically Offered: Fall, Spring
Examines the major narrative, plot, and genre structures, image patterns, and thematic preoccupations in Dickens' novels, like the interrelationships between homes, prisons, factories and schools. The influences of Dickens' life, periodical publishing of illustrated magazines, and of Victorian society also receives attention. Introduces students to relevant insights of several "post-structural" critical schools, including those of deconstruction, the carnivalesque, liminality, and Lacanian psychology.

ENGL 240S. Modern Irish Fiction. 3 Units
Term Typically Offered: Fall, Spring
Examines in detail one aspect of the Irish Renaissance (approximately 1880-1940)—Ireland's contribution to fiction in the twentieth century. Also examines not only individual writers and works but the development of the genres of the novel and short story and movements such as realism, naturalism, modernism, and post-modernism. Writers might include Joyce, O'Brien, O'Flaherty, O'Faolain, and others.

ENGL 240T. Renaissance Literature. 4 Units
Term Typically Offered: Fall, Spring
Students will explore the poetry, prose, and drama produced in England during the 16th and 17th centuries. Contemporary criticism and theory will provide a context for reading these primary works.

ENGL 240U. Nineteenth-Century Texts and Sex. 4 Units
Term Typically Offered: Fall, Spring
Examines a range of sexual identities through which nineteenth-century Britons imagined their lives. Such identities were influenced by ideas about race, class, status, ethnicity, gender, and age that often differed markedly from our own. Moves beyond the literary to look at texts from a variety of genres (medical, literary, erotic, and autobiographical) and cover both well-treated and more obscure texts.

ENGL 240X. Contemporary British Fiction—1980 to Present. 4 Units
Term Typically Offered: Fall, Spring
Students read and study British works of fiction—novels and short stories—written after 1979. Although the choice of authors and works might vary from one semester to another, focuses on works of fiction deemed significant and valuable by literary scholars and critics.

ENGL 240Z. Special Topics in British Literature. 4 Units
Term Typically Offered: Fall, Spring
Open to the investigation of either a limited period (e.g. World War I poets or Victorian Children's literature), a single author (e.g. Hanif Kureishi or Aphra Behn), an authorial dialogue (e.g. Chaucer & Spenser, Stoppard and Shakespeare, Sidney & Wroth), or a unique literary feature, theme, or structure (e.g. Pastoral & Georgic or Empire & Race).

ENGL 245A. Shakespearean Romance. 3 Units
Term Typically Offered: Fall, Spring
Examines the major narrative, plot, and genre structures, image patterns, and thematic preoccupations in the works of Shakespeare, Sidney & Wroth, or a unique literary feature, theme, or structure (e.g. Pastoral & Georgic or Empire & Race).

ENGL 250A. Wharton and Cather. 3 Units
Term Typically Offered: Fall, Spring
Focuses on the writing of Edith Wharton and Willa Cather, two of our most accomplished early American writers. Shows how these writers, poised on the threshold of the twentieth century, and pulled simultaneously forward and back, explored similar themes, and how, as two of the few revered women writers of this time, they focused particularly on shifting gender roles; Wharton with her eye on interior space and Cather with her eye on exterior space.

ENGL 250D. Hawthorne and Melville. 3 Units
Term Typically Offered: Fall, Spring
Readings and discussion of major works by Hawthorne and Melville.

ENGL 250F. Whitman and Dickinson. 4 Units
Term Typically Offered: Fall, Spring
This seminar on two of America's greatest poets, Whitman and Dickinson, focuses primarily on the poetry, but also on letters and prose pieces. Students read and discuss criticism on each writer, and study cultural and historical contexts of these two contemporaneous but antithetical poets. Study includes traditional and feminist studies of Dickinson and Cultural Studies of Whitman. Forms a dialogue between these two remarkable and remarkably different poets; students join in that dialogue.

ENGL 250H. American Realism. 4 Units
Term Typically Offered: Fall, Spring
Between the end of the Civil War and the outbreak of World War I, there was an unprecedented and transforming social and cultural change in American life. During this time, literature also radically contributed to ideas about the nature of fiction, the reality it represented, and its effects on readers. Students will study the historical development of realism in literature and the current status of theories of literary realism.

ENGL 250J. Henry James. 4 Units
Term Typically Offered: Fall, Spring
James' innovations in narrative technique paved the way for the emergence of the modern novel; his development of a theory of fiction helped establish an American literary tradition and bring the American novel into the mainstream of British and European literature. Students read James' major works of fiction and criticism with an eye to understanding and enjoying them and to assessing the nature of the writer's contribution to the novel as a serious art form.

Studying contemporary fiction involves challenges and pleasures. Unlike studies in most areas of literature where the best writers have been clearly established, studying contemporary fiction means risking one's own critical skills to identify what new texts and writers are significant without the help of earlier generations of scholars and critics.

Focuses on the contributions of women writers to American literature. Begins with a brief overview of feminist critical approaches and of the history of women writing in America. Close critical analysis of texts focuses on four or five writers from various centuries, regions, and ethnic groups. Covers such writers as Toni Morrison, Sarah Jewett, Marilynne Robinson, Eudora Welty, Lee Smith, Leslie Silko, and others. Students work collaboratively to present background information and critical approaches to the writers.

Growth of a feminine perspective in literary theory has resulted in a radical reconsideration of the American literary canon, producing new readings of texts, patterns in literature and culture, and connections between texts. Wharton and Chopin are two writers taking a place of importance in the development of the realistic novel in America and in the creation of a distinctive tradition of women's literature. Focuses on the heuristic possibilities of a distinctly different literature by women, the role of gender, and the contributions of Wharton and Chopin to the novel.

Examines the theme of immigration and that of assimilation in a particular ethnic group: Irish-Americans. Through an examination of the literary, we find an ethnicity that is uneasily part of the American fabric and one defined to a large degree by the culture they either abandoned or were forced to abandon. Representative writers include Eugene O'Neill, Alice McDermott, William Kenney, Mary Gordon, John Gregory Dunne.

Focus on literature dramatizing the roaring, irrepressible twenties, a decade of unprecedented change following the "Great War to end all wars." Highlighting Fitzgerald, whose life mirrors the times, also includes other "expatriate" writers such as Wharton, Dos Passos, Stein, Eliot, and Hemingway, who looked at America from an overseas perspective and reflected on the changes in communication, sensibility, and values resulting from the new freedom of this revolutionary, liminal period.

Focuses on the poetry of T.S. Eliot, one of the dominating figures of English and American literature for a substantial part of the twentieth century. In 1948 he received the Nobel Prize for Literature, and by 1950 his authority had reached a level that seemed comparable in English writing to that of figures like Johnson and Coleridge. Offers students the opportunity to analyze and discuss Eliot's poems. We will trace his poetic/aesthetic development from his early poems ("Prufrock" et al.)

The investigation of either a limited period (e.g. The Transcendental period or the Novel of the 1960s), a single author (e.g., Philip Roth or Toni Morrison), or a unique literary feature or structure (e.g. Literary Naturalism or the Experimental Novel).

Introduces and traces through several literary works and genres the fundamental topics in myth criticism; significance of ritual, fairy tales, and archetypal romance forms; contributions of Freudian, Lacanian, and Jungian psychology and their relation to Joseph Campbell's notion of the monomyth; relevance of Victor Turner's "liminal" theories of rites of passage in anthropology; importance of recent discoveries with the bicameral and "triune" brain in biological sciences; kinds of myth (hero, heroine, American, love, wasteland, artist, time); and relationships between myth criticism and post-structuralism.

Focuses on contemporary literary works from postcolonial locations such as Africa, Australia, South Asia, Canada and the Caribbean. Explores the relationships between literary texts and the historical and social contexts from which they arise; especially European colonialism.

Literary history designed to introduce the graduate student to bibliographical materials necessary to the successful pursuit of advanced study in English. It will deal with the major historical periods of English and American literature, and looks briefly at the major European traditions.

This course examines African American literature and film. Focusing on the emergence of a distinctly black modernist and post-modernist literary discourse, we will also study how neo-slave narratives illuminate the difficulties of comparative freedom and the legacies of Caribbean and American slaveries and oppression.
ENGL 280B. The Ethics of Black Verbal Aesthetics. Term Typically Offered: Fall, Spring

This course introduces the advanced study of black verbal aesthetics in the novels of Ralph Ellison (the dozens), Toni Morrison (folktales), Colson Whitehead (call and response), the poetry of Harryette Mullen (diasporic blues/jazz improvisation), and others. Exploring black verbal aesthetics and sonic technologies, we will investigate how these authors above (as well as James Baldwin and Amiri Baraka) treat verbal expressive arts as sites of hidden knowledge, subversion, and everyday politics that centralizes black life and culture.

ENGL 280J. Jewish American Literature. Term Typically Offered: Fall, Spring

Students will examine a rich tradition of Jewish American literature in the context of a complex American multicultural narrative. Topics include the immigrant experience, assimilation, alienation, responses to the Holocaust and other forms of anti-Semitism, the place of Israel in the Jewish American imagination, and a contemporary rediscovery or reconstruction of Jewishness and Judaism. Students will interrogate what constitutes Jewish American identity and defines its literature in a culture that is itself conflicted about its secular/religious ethos and the degree to which subjectivity is determined by "consent and/or descent.

ENGL 297A. Prose Style In Literature. Term Typically Offered: Fall, Spring

ENGL 299. Special Problems: English Tutorial. Term Typically Offered: Fall, Spring
Prerequisite(s): ENGL 200.

ENGL 410A. Writing Center Theory and Practice: Internships. Term Typically Offered: Fall, Spring
Provides interns with an opportunity to apply tutoring principles while working at tutors in the writing center.
Note: ENGL 410A is paired course with ENGL 195A, which meets at the same time in the same room. The graduate class, 410A, has a significantly increased reading, writing, and research component. May be repeated for up to 8 units of credit.

ENGL 410B. Internship-ESL Teaching. Term Typically Offered: Fall, Spring
Provides interns with an opportunity to experience the day-to-day life of an ESL class. Tutors will observe an ESL class, will assist the teacher in conducting various aspects of the class, and will be responsible for planning and teaching at least one class session. Seminar meetings will provide an overview of ESL teaching methodology.

ENGL 410C. Internships. Term Typically Offered: Fall, Spring

ENGL 410E. Internship in Teaching Writing. Term Typically Offered: Fall, Spring

Students considering a teaching career intern in a composition class at an area community college. They work with a mentor teacher on site and meet periodically at CSUS. The internship provides students with an opportunity to experience the day-to-day life of a composition class and hands-on opportunity to design assignments, respond to student writing, conduct class discussions, etc. Students read composition and rhetorical theory with an eye toward day-to-day application in the classroom.
Credit/No Credit

ENGL 410F. Internship in Teaching Literature. Term Typically Offered: Fall, Spring
Prerequisite(s): Recommended ENGL 225 or ENGL 22A or instructor permission
Corequisite(s): Instructor Permission

ENGL 410W. Writing Programs Internship. Term Typically Offered: Fall, Spring
Provides interns with an opportunity to gain teaching experience in a literature classroom. Students will work closely with an instructor-of-record in a large (60+) lecture literature course and in small group discussion sessions under the supervision of the mentor professor. Interns will also meet regularly with their peers to discuss pedagogical issues and readings as they pertain to their experiences in the classroom.
Credit/No Credit

ENGL 410L. Internship in Teaching Adult Reading. Term Typically Offered: Fall, Spring

ENGL 500. Culminating Experience. Term Typically Offered: Fall, Spring

ENGL 598T. Culminating Experience - TESOL. Term Typically Offered: Fall, Spring

Completion of a thesis, project, comprehensive examination. In addition, students will be asked to edit and reflect on their portfolio projects from coursework.

ENGL 598T. Culminating Experience - TESOL. Term Typically Offered: Fall, Spring

Completion of a thesis, project, or TESOL comprehensive exam. Requires advancement to candidacy and permission of graduate coordinator. Project and thesis options require GPA of 3.7.
Entrepreneurship (ENTR)

**ENTR 185.** Venture Growth Strategies. 3 Units
Prerequisite(s): Upper-division standing; ENTR 187 or ENTR 189.
Term Typically Offered: Fall, Spring

Focuses on the opportunities and challenges involved in the management of a business venture and its growth opportunities. Growth is the ultimate resource constrainer, stretching all the resources of a company to the limit and often beyond. Develops a venture spanning approach that examines the business venture and the challenges that tasks venture management to the limit. Provides students with a series of frameworks, analytical skills and techniques, heuristics, and decision-making tools that can be used in growing entrepreneurial businesses.

Note: Only students with an Entrepreneurship Concentration will be admitted.

**ENTR 187.** Entrepreneurship. 3 Units
Term Typically Offered: Fall, Spring

Objective is to lead students through all steps necessary in starting a business: analyzing personal and business goals, researching the market, developing a marketing plan, determining land, building, equipment, supplies, inventory, people needed, determining cash flow and pro forma financial statements, and money needed. The output of all this will be a professional business plan and financial package ready to submit to prospective investors.

**ENTR 189.** Corporate Entrepreneurship. 3 Units
Prerequisite(s): Upper-division standing.
Term Typically Offered: Fall, Spring

Offers a multidisciplinary framework for studying and developing corporate entrepreneurship. Covers the climate and culture of an entrepreneurial organization, strategies for developing new business ventures within an organization, and strategies for transforming firms toward a more entrepreneurially driven organization. As a result, students will increase their understanding of environment, processes and strategies that will create value and build competence through entrepreneurial activities within organizations.

Environmental Studies (ENVS)

**ENVS 10.** Introduction to Environmental Science. 3 Units
General Education Area/Graduation Requirement: Life Forms (B2)
Term Typically Offered: Fall, Spring, Winter

Course looks at the earth as an ecosystem composed of biological, chemical, and physical systems. Focus is on the interaction of these systems with each other and with human population, technology, and production. Students should acquire the fundamentals of a scientific understanding of the ecological implications of human activities. Specific topics treated within the context of ecosystem analysis include energy flows, nutrient cycles, pollution, resource use, climate changes, species diversity, and population dynamics.

ENVS 10H. Honors Environmental Science. 3 Units
General Education Area/Graduation Requirement: Life Forms (B2)
Term Typically Offered: Fall, Spring, Summer

The earth as an ecosystem composed of biological, chemical, and physical systems. Focus is on the interaction of these systems with each other and with human population, technology, and production. Students should acquire the fundamentals of a scientific understanding of the ecological implications of human activities. Specific topics treated within the context of the ecosystem analysis include energy flows, nutrient cycles, pollution, resource use, climate change, species diversity, and population dynamics. Students read important original research on topics. All students participate in a semester long project that applies the principles of the course to a real environmental issue.

**ENVS 11.** Environmental Issues and Critical Thinking. 3 Units
General Education Area/Graduation Requirement: Critical Thinking (A3)
Term Typically Offered: Fall, Spring

Examines Western cultural values and personal beliefs toward the environment. Teaches critical thinking skills to analyze issues to make informed choices that may impact the earth, its resources and their management as consumers, leaders, professionals and moral agents.

**ENVS 21.** First Year Seminar: Becoming an Educated Person. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Introduction to the nature and possible meanings of higher education, and the functions and resources of the University. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills. Provides students with the opportunity to interact with fellow classmates and the seminar leader to build a community of academic and personal support.

**ENVS 110.** Contemporary Environmental Issues. 3 Units
Term Typically Offered: Fall, Spring

Examination of a variety of environmental issues with emphasis on the social aspects of the problems and solutions. The class is conducted primarily through discussion, with an unusually high degree of student responsibility. Group and individual projects are designed to involve students in community affairs as well as to give them an opportunity to develop a personal perspective on environmental issues.

**ENVS 111.** Environmental Ethics. 3 Units
Prerequisite(s): ENVS 10 or ENVS 10H or ENVS 11 or permission from instructor.
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Consideration of the ethical dimensions of human interactions with the natural world and with each other in the context of complex societal needs. Students will employ critical thinking skills to integrate insights from the biological sciences, social sciences, and humanities to make ethical decisions about controversial environmental topics. Students are encouraged to examine multiple perspectives on these issues through debate, discussion and personal reflection. No prior experience with philosophy is required.
ENVS 112. International Environmental Problems. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X. Environmental Studies majors only.

General Education Area/Graduation Requirement: Writing Intensive
Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Global perspective on current problems of environmental protection and resource use. Population growth, food production, industrialization, technology and cultural change are considered, with heavy emphasis on the social dynamics of environmental problems. A variety of political views is studied, and an attempt is made to develop a perspective useful to students in personal and political decisions.

Note: PCR/IR students are encouraged to contact the department regarding enrollment into this course.

ENVS 120. Quantitative Methods for Environmental Science. 3 Units
Prerequisite(s): Must be an ENVS major or minor; STAT 1 or instructor permission.
Term Typically Offered: Fall, Spring

Research tools and methods used by environmental professionals including selected statistical procedures, data sources and presentation and interpretation of results. Students will become familiar with the wide range of equipment available to fit their special needs including the computer time-sharing system.

ENVS 121. Field Methods in Environmental Science. 2 Units
Prerequisite(s): Must be an ENVS major or minor
Term Typically Offered: Fall, Spring, Summer

This field course includes the direct observation of human impact on specific environments and examples of mitigation strategies. Students will learn information gathering and data presentation methodologies useful in environmental impact assessment. Lecture three hours per week; one-day and weekend field trips will be arranged.

Note: Course also substitutes for ENVS 175.

Field trip(s) may be required.

ENVS 122. Environmental Impact Analysis: CEQA and NEPA. 3 Units
Term Typically Offered: Fall only

Review of legislative and judicial requirements for environmental impact analysis. Students will be asked to review actual project environmental impact reports, analyze the methods employed, understand the relationship of the report to the planning process, and prepare such a document.

Note: It is recommended that students complete ENVS 128 or have some actual experience with environmental impact documentation before taking this course.

ENVS 124. Social Justice in Interdisciplinary Perspective. 3 Units
Prerequisite(s): Sophomore standing or instructor permission.
Term Typically Offered: Fall, Spring

Examines the nature and forms of social justice and injustice. Addresses key philosophical and theoretical models and debates over the meaning of social justice, using historical and contemporary examples to highlight important concepts and controversies. Faculty from different departments within SSIS, and occasionally from other colleges, will address how their discipline understands and analyzes issues of social justice. Students will be encouraged to critically assess the assumptions of various perspectives on social justice, and to address the relationship of academic and social activism in achieving social justice. Cross listed as ANTH 130, ID 124, ETHN 124, FACS 124 and SOC 124. Only one may be counted for credit.

ENVS 128. Environment and the Law. 3 Units
Term Typically Offered: Spring only

Introduction to environmental law, including: the evolution of environmental legislation, environmental issues in the court system, environmental regulation and administrative law, and environmental torts. Emphasis is on understanding legal process and the special challenges environmental problems present to the legal system. Cross Listed: POLS 128; only one may be counted for credit.

ENVS 130. Environmental Toxicology. 3 Units
Prerequisite(s): CHEM 1A or CHEM 6A or instructor permission.
Term Typically Offered: Spring only

Students will study the source and occurrence of contaminants in the environment; their fate and transport; and their adverse effects on humans and non-human species, populations and ecosystems. The course focuses on studying environmental issues concerning human and ecosystem health, the impact of human activity since World War II in contributing to human disease and ecosystem disruption. Risk perception and communication as it concerns environmental toxicology will also be discussed.

ENVS 135. California Water and Society. 3 Units
Term Typically Offered: Fall, Spring

This course provides the historical, scientific, legal, institutional, and economic background needed to understand the social and ecological challenges of providing water for California’s growing population, agricultural economy, and other uses- all of which are made more complex by climate change. We will look at past and current debates around cases ranging from local issues on the American River to statewide issues that converge in the Sacramento-San Joaquin Delta. Both physical and social science research skills will be developed.

ENVS 137. Conservation and Society. 3 Units
Prerequisite(s): ENVS 10 or ENVS 10H, and BIO 1
Term Typically Offered: Fall, Spring, Summer

Course will introduce students to the interdisciplinary field of conservation biology through the lens of modern society. Students will acquire a basic understanding of the history of the field of conservation, and the values that drive our desire to preserve species and natural systems. Students will learn about conservation challenges, will analyze the scientific and social factors that contribute to addressing those challenges, and will learn to appreciate the diverse perspectives that are vital in modern conservation.
ENVS 138. Introduction to Environmental Sociology. 3 Units
Term Typically Offered: Fall, Spring

The study of human society, the natural environment, and their mutual interactions. Examines environmental sociology at several levels, from the micro level of individual communities to the meso level of government policies to macro theoretical considerations. Analyzes environmental issues in a global context also included. Cross Listed: SOC 138.

ENVS 140. Energy, Society, and the Environment. 3 Units
Prerequisite(s): Upper division standing
Term Typically Offered: Fall, Spring

This course covers the concepts and tools necessary to understand society's diverse technology and policy choices around energy production and use. Students will apply both quantitative and qualitative methods to analyze opportunities and impacts of energy systems with consideration for environmental sustainability, international development, and social equity. We will consider a range of energy technologies, their historical trajectories, current drivers, and prospects for addressing energy challenges at different scales, from households to the global climate.

ENVS 144. Sustainability Science & Policy. 3 Units
Prerequisite(s): ENVS 10, BIO 1, or instructor permission
Term Typically Offered: Fall, Spring

Examines issues of environmental, social, and economic sustainability in domestic and international contexts. Students will study the science, policy, and implementation of sustainable practices regarding water, food, and energy resources. Students will learn the history of sustainability, definitions of sustainability, how sustainability is measured, and how sustainability applies to urban and rural landscapes.

ENVS 147. Urban Agriculture and Aquaponics. 3 Units
Term Typically Offered: Fall, Spring

This course uses campus initiatives in food and bio-waste recycling, combined with vermiculture and aquaponics, to address larger topics in urban food production. This subject has significance for addressing concerns about food access, security, quality, and even local economic development. The course will include hands-on activities on campus, projects with local urban agriculture organizations, and reports connecting the specifics of the course with core questions in environmental science and policy.

ENVS 149. Agroecology. 3 Units
Term Typically Offered: Fall, Spring

Ecological aspects of the production of food and fiber, with emphasis on the sustainability and adequacy of the global food supply to meet the needs of a growing, urbanized population. Covers topics basic to all agricultural systems - soil development, fertility, irrigation, nutrient cycles, crop selection - while contrasting methods developed for large-scale industrial food production with traditional and/or organic farming methods.

ENVS 151. Restoration Ecology. 3 Units
Term Typically Offered: Spring only

Overview of concepts and practices in restoration ecology, emphasizing the application of ecological principles to restoration design, implementation, and monitoring. Major course topics will include historical ecology, soils and hydrology, plant and animal ecology, exotic species, endangered species concerns, mitigation, monitoring, planning, and assessment as they apply in a restoration context. Students will work in local restoration projects; field trips required. Field trip(s) may be required.

ENVS 155. Environmental Management and Decision-Making. 3 Units
Prerequisite(s): ENVS 10 or the equivalent, or instructor permission
Term Typically Offered: Fall only

Course investigates the motivations and barriers to engaging in pro-environmental behaviors. Focus on theories from multiple social and behavioral sciences to understand how individuals form judgments and decisions regarding natural resource and ecosystem management. Specific topics may include principal-agent theory, dual-process theory, multi-criteria decision-making, theory of planned behavior, norm-value-belief, community-based social marketing, and structured decision-making. Students will build skills in stakeholder engagement and science communication.

ENVS 158. Wetlands Ecology. 3 Units
Term Typically Offered: Fall only

Introduces and discusses characteristics of wetland systems; principles of wetland ecology; functions of wetlands; and regulations and permitting process regarding development near and within wetlands. Appropriate for students planning careers in natural resource management. Though not a substitute for professional training in wetlands delineation and functional assessment, students will gain a basis for such assessments. Familiarity with basic principles of chemistry, physics, and biology recommended.

ENVS 163. Ethnecology. 3 Units
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall only

Evaluates sustainable management of ecosystems by local indigenous people, using traditional resource management, traditional ecological knowledge and Western science. Familiarizes students with the fields of ethnobiology, ethnecology, and historical ecology. Students learn about the relationship between people and plants, with a focus on how traditional plant knowledge reflects and is reflected by environmental perceptions.

ENVS 10, BIO 1, or instructor permission.

Notes:
- Field trip(s) may be required.
- Fee course. Fee Course. $15 per student.
ENVS 165. American Environmental History. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Traces the development of the changing relationship between human society and the natural environment. Focuses on changing attitudes and behaviors toward the environment from the pre-colonial era through the present. Also examines the relationship between industrialization and the technological revolution and nature and examine past and present conservation and environmental movements.
Cross Listed: HIST 165; only one may be counted for credit.

ENVS 171. Environmental Politics and Policy. 3 Units
Prerequisite(s): instructor permission.
Term Typically Offered: Spring only

Politics of human interaction with land, air and water. Political analysis of agenda setting, policy formation and administration (national, state and local) of environmental programs. Focus on contemporary issues such as energy alternatives, management of toxics, land development, and pollution control. Course also substitutes for ENVS 128.
Cross Listed: POLS 171; only one may be counted for credit.

ENVS 175. Aquatic Pollution Assessment. 3 Units
Prerequisite(s): BIO 160, CHEM 1A or concurrent enrollment; or instructor permission.
Term Typically Offered: Fall, Spring

Examines both the negative and positive impacts that anthropogenic effects have on groundwater, streams, and lakes by utilizing the application of field sampling techniques and laboratory analysis currently used to assess pollution impacts. Introduces the interrelationships among plants, animals and environmental factors within polluted aquatic ecosystems. Emphasizes laboratory and field procedures used in strategies taken to assess and manage these impacts.
Note: Course also substitutes for ENVS 121.

ENVS 186B. Ecological and Environmental Issues Seminar. 1 Unit
Prerequisite(s): BIO 10 or both BIO 1 and BIO 2.
Term Typically Offered: Fall, Spring

Series of at least 10 seminars in ecological and environmental issues. Topics with each seminar will vary each semester.
Note: May be repeated for credit. No more than one unit of ENVS 186B may be counted toward the upper division major requirement. Cross Listed: BIO 186B; only one may be counted for credit.
Credit/No Credit

ENVS 187. Environmental Studies Seminar. 1 Unit
Term Typically Offered: Fall, Spring

Students will participate in the semester-long University seminar and will be exposed to a variety of environmental issues and topics presented by speakers from CSUS, the USGS, government and professional organizations, among many others. Topics include issues such as climate change, water use and conservation, environmental sustainability, environmental policy and decision-making, and many important regional issues.
Credit/No Credit

ENVS 190. Senior Thesis. 3 Units
Prerequisite(s): ENVS 112 (International Environmental Problems, writing intensive), or instructor permission.
Term Typically Offered: Fall, Spring

Explores an environmental problem or issue in great depth. It includes a detailed review of the scientific literature, synthesis, and integration of information from the literature, and evaluation of the information leading to conclusions and recommendations that address the problem or issue. Thesis subjects are chosen by the student and can be from a myriad perspectives addressed in the Environmental Studies curriculum including scientific, social, political, economic, and cultural issues. Enrollment ordinarily occurs in a senior’s final semester.
Note: The course is usually taken in a student’s final semester but might be taken in the penultimate semester with the instructor’s permission.
Credit/No Credit

ENVS 195. Environmental Studies Internship. 3 Units
Term Typically Offered: Fall, Spring

Supervised work experience in an approved legislative or administrative office at some level of local, state or federal government, or in a public or private organization that is concerned with the environment. Supervision is provided by the faculty instructor and responsible officials in the work situation.
Note: Open to majors only, subject to instructor permission.
Credit/No Credit

ENVS 195M. Mini Internship. 1 Unit
Term Typically Offered: Fall, Spring

This introductory work experience is designed for sophomores and juniors. The student must complete 45 hours of environmentally related work in a volunteer position with an environmental organization or participation in an environmentally focused event. Supervision is provided by the faculty instructor and responsible officials in the work situation.
Note: Open to majors only, subject to instructor permission.
Credit/No Credit

ENVS 196G. Youth Recreation in Camp Settings. 3 Units
This course examines camp programs in a wide variety of settings, for a variety of populations. Topics cover camp theories, camp management, risk-management, activity planning, inclusive programming, and staff training. Includes an emphasis on leadership, supervision, and organizational development of camp programs. Course uses lecture, field experiences, guest speakers, and service learning.

ENVS 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall

Individual projects or directed reading.
Note: Open only to students who are competent to carry on individual work. Admission requires permission of the Director and the faculty member who will direct the work.
Credit/No Credit
ENVS 295. Practicum.  2 - 6 Units
Prerequisite(s): Permission of faculty advisor and director.
Term Typically Offered: Fall, Spring

Graduate internship experiences in practical setting.
Note: Open only to graduate students specializing in environmental studies.
Credit/No Credit

ENVS 296. Experimental Offerings in Environmental Studies.  1 - 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Courses offered on an experimental basis.

ENVS 299. Special Problems: Individual Study.  1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading.
Note: Departmental petition required.
Credit/No Credit

Ethnic Studies (ETHN)

ETHN 1A. Elementary Swahili.  3 Units
Term Typically Offered: Fall, Spring

Introduction to the language of Swahili speaking people. Emphasis is on developing vocabulary and writing skills. Attention will be given to understanding the relationship of language to culture.

ETHN 1B. Elementary Swahili.  3 Units
Prerequisite(s): ETHN 1A or its equivalent; or instructor permission.
Term Typically Offered: Fall, Spring

Continuation of ETHN 1A with more emphasis on developing reading and listening skills along with further developing writing abilities. Provides deeper knowledge of the customs, traditions and experiences of Swahili speaking people.

ETHN 10. Africa: Myths and Realities.  3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Introduction to African Studies. Examines the most common myths found in both popular and academic literature about Africa and its people.

ETHN 11. Introduction to Ethnic Studies.  3 Units
Term Typically Offered: Fall, Spring

This course introduces foundational concepts and themes of the discipline of Ethnic Studies. The course focuses on the four historically defined racialized core groups: Native Americans, African Americans, Asian Americans, and Chicanxs/Latinxs.

ETHN 11H. Introduction to Ethnic Studies (Honors).  3 Units
Term Typically Offered: Fall, Spring

This course introduces foundational concepts and themes of the discipline of Ethnic Studies. The course focuses on the four historically defined racialized core group: Native Americans, African Americans, Asian Black Americans, and Chicanxs/Latinxs.

ETHN 14. Introduction to Asian American Studies.  3 Units
Term Typically Offered: Fall, Spring

Introduction to the discipline of Asian American Studies, including the history, purpose, and development of the field. Fundamental concepts and approaches in Asian American Studies will be discussed. Course also explores contemporary challenges and opportunities of Asian American Studies.

ETHN 21. First Year Seminar: Becoming an Educated Person.  3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Introduction to the nature and possible meanings of higher education, and the functions and resources of the University. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills.
Note: Only open to students admitted to EOP Learning Communities Program.

ETHN 22. Contemporary Issues and Social Change.  3 Units
Prerequisite(s): ETHN 21
Term Typically Offered: Spring only

Generation after generation, university students have been key constituents in movements for social change. From public demonstrations to research studies, colleges and universities afford countless opportunities for students to advocate for a better world. This course explores how students can utilize university resources to explore interests and concerns, hone academic skills, and contribute to social change.

ETHN 23. Introduction to Chicano/Latino Studies.  3 Units
Term Typically Offered: Fall, Spring

Introduction to exploring the Chicanx/Latinx experience in the U.S. An overview of the diverse and multiple experiences of people of Mexico, Cuba, Puerto Rico, Dominican Republic, Central and South America. From a socio-historical perspective, the intersections of class, race/ethnicity, and gender will be explored.

ETHN 30. Introduction to Chicano/Latino Studies.  3 Units
Term Typically Offered: Fall, Spring

Introduction to exploring the Chicanx/Latinx experience in the U.S. An overview of the diverse and multiple experiences of people of Mexico, Cuba, Puerto Rico, Dominican Republic, Central and South America. From a socio-historical perspective, the intersections of class, race/ethnicity, and gender will be explored.

ETHN 30. Introduction to Chicano/Latino Studies.  3 Units
Term Typically Offered: Fall, Spring

Introduction to exploring the Chicanx/Latino experience in the U.S. An overview of the diverse and multiple experiences of people of Mexico, Cuba, Puerto Rico, Dominican Republic, Central and South America. From a socio-historical perspective, the intersections of class, race/ethnicity, and gender will be explored.

ETHN 50. Native American Religion and Philosophy.  3 Units
Term Typically Offered: Spring only

In-depth study into the principles of Native American religion and philosophical thought and the resulting impact of European culture upon the Native American societies.

ETHN 53. Introduction to Native American Studies.  3 Units
Term Typically Offered: Fall, Spring

Broad overview to the field of Native American Studies, including history, sovereignty, popular imagery, economic development, literature, philosophy, religion, urbanization, gender, social issues, and cultures of native peoples. Introduction to Native American Studies; recognizes intra-tribal, trans-national, and various historical, cultural, and political relationships, and issues through an interdisciplinary approach. The primary focus will be post 1900.
ETHN 70. Introduction to Pan African Studies. 3 Units
Term Typically Offered: Fall, Spring

Introduction to Pan African Studies. It is intended to introduce students to the context from which Pan African Studies arose as an academic discipline. It provides an overview of the academic, cultural, economic, and political inclusion of the pre/post colonial experience contributions of peoples of African descent. It is intended to show the interdisciplinary character of the study of Pan Africanism.

ETHN 71. Leadership in the African Diaspora. 3 Units
Term Typically Offered: Spring only

Provides students with an understanding of the unique contours of leadership throughout the African Diaspora through an interdisciplinary approach to understanding particular problems, necessities and styles of leadership. Examines leaders and leadership roles within the African Diaspora with an emphasis on a variety of positions and contexts in the areas of politics, religion, art, and education, including the international, national, and local community (grassroots) arenas.

ETHN 72. Black Images in Popular Culture. 3 Units
Term Typically Offered: Fall, Spring

This course is designed as a survey of the Black image within popular culture. Students will interrogate the roots of African American stereotypes within North American culture. Through an understanding of this history, we will assess how these stereotypes have evolved over time and the role they have played in constructing and positioning African Americans in American society. Students examine the ways in which African Americans actively construct images of themselves for a variety of political and social purposes.

ETHN 94. CAMP Transition and Problem Solving. 3 Units
Term Typically Offered: Fall, Spring

Designed for CAMP students new to University life, form and functions. The three-hour lecture/discussions per week are focused on assisting students with making a successful transition to the University.

Note: May be repeated once for credit.

Credit/No Credit

ETHN 96B. Contemporary Issues and Social Change. 3 Units
Term Typically Offered: Fall, Spring

Generation after generation, university students have been key constituents in movements for social change. From public demonstrations to research studies, colleges and universities afford countless opportunities for students to advocate for a better world. This course explores how students can utilize university resources to explore interests and concerns, hone academic skills and contribute to social change.

ETHN 98. Co-Curricular Activities. 1 - 3 Units
Term Typically Offered: Fall, Spring

Co-curricular activities related to the subject matter and intellectual concerns in Ethnic Studies.

Note: Recommended for students new to the university experience and students having completed fewer than 45 units of course work. May be repeated twice for total credits not to exceed 6 units.

Credit/No Credit

ETHN 100. Ethnic America. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: GE AREA D, Race & Ethnicity Graduation Requirement (RE), Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Fall, Spring, Summer

Through an interdisciplinary approach, introduces the four major American ethnic groups - Black, American Indian, Chicano, Asian American. Focuses on themes common to all four groups (racism, economic and political oppression) and demonstrates the varied contributions of each culture to American social and economic life.

ETHN 101. The Asian American Experience. 3 Units
General Education Area/Graduation Requirement: GE AREA D

Term Typically Offered: Fall, Spring

Survey of the experiences of various Asian groups in the U.S. from the mid-nineteenth century to present. The historical forces affecting the immigration and settlement patterns of Chinese, Japanese, Filipinos, Koreans, Asian Indians and Southeast Asians (Vietnamese, Cambodians, Laotians) will be compared and contrasted. Students will analyze the problems resulting from limited access to the social, political, and economic institutions of U.S. society.

ETHN 111. Southeast Asians in the U.S. 3 Units

Term Typically Offered: Spring only

Examine several issues and factors shaping the experiences of recent immigrant groups (Vietnamese, Mien, Hmong, Cambodians, Laotians) from Southeast Asia to the U.S. Focuses on the dynamic relationship between ethnicity, minority assignment and social integration as these effect the experiences of these immigrant groups.

ETHN 112. Contemporary Asian American Issues. 3 Units
General Education Area/Graduation Requirement: GE AREA D

Term Typically Offered: Fall, Spring

Examines several important social issues such as emerging communities, education, employment and occupations, anti-Asian violence, media images and stereotypes, families and identities, and political empowerment shaping the contemporary experiences of diverse Asian American groups.

ETHN 113. Asian American Communities. 3 Units
General Education Area/Graduation Requirement: GE AREA D

Term Typically Offered: Fall, Spring

Examination of the historical and contemporary experiences of various Asian American communities through active investigation. The concepts, methods, and theories commonly utilized in community research will be covered.

ETHN 114. Asian Americans and Globalization. 3 Units
General Education Area/Graduation Requirement: GE AREA D

Term Typically Offered: Fall, Spring

Examination of the Asian American immigration within the context of the larger Asian global migration. Emphasis will be placed on the period from the 16th century to the contemporary Asian global migration. A critical examination of the perspectives on the Pacific region and how the economic, social, political and historical forces affected migration and the formation of Asian global communities.
ETHN 115.   Biracial and Multiracial Identity in the US.  
Term Typically Offered: Fall, Spring  
3 Units

Examination of biracial/multiracial populations, their social histories,  
social experiences and social identities within various sociological  
and social psychological theoretical frameworks. An exploration of  
the relationship biracial/multiracial groups have had, and continue to have,  
with the larger white majority and monoracially identified minorities.

General Education Area/Graduation Requirement: GE AREA D  
Term Typically Offered: Fall, Spring  
3 Units

Critical examination of the historical and contemporary political  
experiences of Asian Americans and their pursuits of immigration rights,  
citizenship, political identity, equality, freedom, and incorporation into the  
U.S. political system.

ETHN 117.   Black Political Thought.  
Term Typically Offered: Spring only  
3 Units

To systematically and analytically introduce the predominant political  
trends and concepts presently entertained and harbored in the Black  
Community. A necessary adjunct to this dialogue is the racist theme in  
American society since on balance this is the matrix out of which the  
political alternatives and concepts grew.  
Cross Listed: GOVT 117; only one may be counted for credit.

ETHN 118.   Asian American Women.  
General Education Area/Graduation Requirement: Humanities (Area C2)  
Term Typically Offered: Fall, Spring  
3 Units

Using an interdisciplinary approach, course offers a broad introduction to  
the principle values and traditions shaping Asian American women’s lives in the U.S. 
Examines cultural diversity, gender inequality and conflicts between traditions and social practices through critical analysis of  
literature, film and cultural theories as expressions of identity. Topics covered include: cultural heritage and philosophies, intergenerational conflict, transnationalism, gender roles and socio-economic practices. 
Provides comprehensive understanding of principle factors governing Asian American women’s lives at the nexus of Asian and American cultures.  
Cross-listed: WOMS 118.

ETHN 119.   The Filipino American Experience.  
Term Typically Offered: Fall, Spring  
3 Units

Overview of the Filipino American experience from the 16th century to the present. Immigration and settlement of Filipinos in the U.S. will be critically examined within the context of historical, social, economic, and political forces in American society. How the Filipino labor market status, race, class, and sex/gender relations affected the evolution and formation of Asian American communities will be critically examined.

ETHN 120.   Hmong American Experiences.  
General Education Area/Graduation Requirement: GE AREA D  
Term Typically Offered: Fall only  
3 Units

Explores the multi-generational and multi-faceted experiences of Hmong Americans. Focusing on the historical and contemporary experiences of Hmong populations in the U.S., the course addresses important topics such as U.S. empire and militarism, war, community development, generational differences, health, gender, sexuality, media and representation, race relations, violence, and community engagement and empowerment.

ETHN 121.   Sikh Americans and Globalization.  
General Education Area/Graduation Requirement: GE AREA D  
Term Typically Offered: Spring only  
3 Units

Examines the history and migration of Sikhs throughout the world, including the United States. Topics include the origin of Sikhism, Sikh history/religion/culture/social institutions and social relations, direct and secondary migration, race and ethnic relations, second-generation identity issues, and global diaspora/transnationalism.

ETHN 122.   Asian Americans in Media and Popular Culture.  
General Education Area/Graduation Requirement: Humanities (Area C2)  
Term Typically Offered: Spring only  
3 Units

A critique of dominant representations of Asian Americans in media and popular culture. The ways in which media and art are used by Asian Americans for social change will also be explored. Students create their own forms of media and art to accurately represent Asian Americans.

ETHN 123.   Advanced Topics Race & Intersectionality in Film.  
General Education Area/Graduation Requirement: Arts (Area C1)  
Term Typically Offered: Spring only  
3 Units

This course examines the social and material stakes in American cinematic representations of race, gender, and sexuality. Utilizing an intersectional framework that sees these social categories as always defined by one another we discuss film as an artistic medium that is integral to the construction and contestation of ideas of social difference. In the process, we move beyond debates about positive or negative cinematic representations and instead discuss the ways that the art of film shapes and reflects social structures.

ETHN 124.   Sikh Americans and Globalization.  
General Education Area/Graduation Requirement: GE AREA D  
Term Typically Offered: Spring only  
3 Units

Examines the history and migration of Sikhs throughout the world, including the United States. Topics include the origin of Sikhism, Sikh history/religion/culture/social institutions and social relations, direct and secondary migration, race and ethnic relations, second-generation identity issues, and global diaspora/transnationalism.

ETHN 125.   Asian Americans in Media and Popular Culture.  
General Education Area/Graduation Requirement: Humanities (Area C2)  
Term Typically Offered: Spring only  
3 Units

A critique of dominant representations of Asian Americans in media and popular culture. The ways in which media and art are used by Asian Americans for social change will also be explored. Students create their own forms of media and art to accurately represent Asian Americans.

ETHN 126.   Advanced Topics Race & Intersectionality in Film.  
General Education Area/Graduation Requirement: Arts (Area C1)  
Term Typically Offered: Spring only  
3 Units

This course examines the social and material stakes in American cinematic representations of race, gender, and sexuality. Utilizing an intersectional framework that sees these social categories as always defined by one another we discuss film as an artistic medium that is integral to the construction and contestation of ideas of social difference. In the process, we move beyond debates about positive or negative cinematic representations and instead discuss the ways that the art of film shapes and reflects social structures.

ETHN 130.   Chicano/Mexican-American Experience.  
General Education Area/Graduation Requirement: GE AREA D  
Term Typically Offered: Fall, Spring, Summer  
3 Units

Transmits knowledge and understanding of how racism confronts and divides American society. Attention will be given to the effects of racism on the experiences of Chicanos/Mexican Americans in American society.

ETHN 131.   La Raza Studies.  
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), GE AREA D  
Term Typically Offered: Fall, Spring  
3 Units

Ethnohistorical analysis of La Raza Cosmica designed to convey crosscultural knowledge and understanding of peoples from Mexico, Cuba, Puerto Rico and Central America. Includes a comparative analysis of ethnic identity and a survey of socio-cultural, political and economic changes which have influenced U.S./Latin American policy and immigration patterns of Latinos to the U.S.

ETHN 132.   La Mujer Chicana.  
Term Typically Offered: Fall, Spring  
3 Units

Critical analysis of the cultural influence that the family, community, religion, economic status and peers play upon the decisions, the values and roles held by Chicanas. An examination of the processes which have resulted in the change of attitudes, values and roles of the contemporary Chicana.
Examines the regulatory powers that American Indian tribes possess over their peoples and territories. Students will acquire an understanding of tribal governmental history, internal affairs, jurisdictional conflicts, government relations, federal Indian public policy and economic development. The political aspects of tribal government administration and the emergence of self-governance as a foundation for self-determination, development and sustainability will be explored.

ETHN 143. American Indians, Film and Popular Culture. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only
Students will examine various ways American Indians are imagined by popular culture through film, including drama, comedy and documentary. Beyond identifying and analyzing images of Indians as well as myths about their historical and contemporary circumstances, students will be challenged to investigate and understand the tenuous relationship between fact and fiction in popular culture.

ETHN 144. Native Voice, Memory, and Biography. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Humanities (Area C2)
Term Typically Offered: Fall, Spring
Through the genre of biography and autobiography, students will examine the relevance of Native voice and memory in reference to the development of identity, cultural transformation, indigenous knowledge, political activism, and historical consciousness. Students will analyze the political, economic and cultural contexts in which Native voices and memories emerge.

ETHN 145. Native American Tribal Governments. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
Examines the political, economic and social relationships on both sides of the border will be examined.

ETHN 146. California Indian Studies. 3 Units
Term Typically Offered: Fall, Spring
This upper division course surveys California Indian Studies. The course is a place-based approach to anti-racist and anti-colonial movements through community centered learning and is a foundational overview of contemporary political, social, economic, and environmental representations through California Indian perspectives and epistemologies. Topics can include but are not limited to: tribal citizenship, self-determination, decolonization, sovereignty, cultural revitalization, and settler colonialism.

ETHN 147. Native American Experience. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring, Summer
Advanced course in American Indian history, political and social relations, with emphasis upon current movements and problems of Native American life.

ETHN 148. Native American Women. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
Examines the traditional, non-traditional, and contemporary roles of Native American women. The relationship of these roles to both Indian and non-Indian societies. An exploration of Native women’s issues through histories, literatures, and oral traditions, focusing on Native American women’s perspectives. Colonization has drastically impacted native women and the lives of their families, nations and communities. Resistance and de-colonization efforts by Native women will be illuminated and analyzed.
ETHN 152. American Indians, Sovereignty and US Laws. 3 Units
Term Typically Offered: Spring only

Examines the legal history developed between American Indians and Euro-Americans. Includes an introduction to events, circumstances, and relationships that developed social and legal concepts. There will be an examination of constitutional principles, laws and United State’s policies from the early 1800’s to the present and the impacts of these doctrines on American Indian sovereign powers. The students will acquire a basic understanding of the sources of political conflict in contemporary American Indian communities and American society.

ETHN 155. Genocide and Holocaust Studies. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring, Summer

Examines genocide cases, such as the Armenian genocide, the Jewish Holocaust, the genocide of Roma, the Cambodian "Killing Fields" genocide in East Timor, ethnic cleansing in Bosnia, the genocide of the Tutsi in Rwanda and genocide in the Darfur region of Sudan, as well as the genocide of Native Americans, and other indigenous peoples. Addresses causes of, and responses to, genocide around the world, especially in Africa, Asia and Latin America. This phenomenon is examined historically, descriptively, comparatively and theoretically.

ETHN 156. Indigenous People. 3 Units
Term Typically Offered: Fall, Spring

Common existential experiences of indigenous people all over the world namely the Batwa and Pygmies in Central Africa, the Khoisan of Southern Africa, the Berber in Northern Africa, the Smai in Northern Europe, the Basque in France and Spain, the Hawaiians in the Pacific, the Ainu of Japan, the Aborigines in Australia, and Native Americans in the Americas.

ETHN 151. Chicano/Latino Politics and Public Policy. 3 Units
Term Typically Offered: Fall, Spring

Explores the historical and contemporary development of Chicano/Latino political activity in the United States. Will review essential components of the U.S. political system and examines relevant theories and concepts that have impacted public policy debate related to education, employment, health, housing, immigration, and income inequity. Primarily focuses on the political history and present day circumstances of the three largest Latino groups, Mexican Americans, Puerto Ricans, and Cuban Americans.

ETHN 156. American Indigenous Families: Issues and Perspectives. 3 Units
Term Typically Offered: Fall, Spring

Application of research and theory specific to Latino/Chicano and American Indian families; strategies for applying this knowledge to areas of service, therapy, policy, and education. Lecture/discussion, internet enhancement. Cross Listed: FACS 166A; only one may be counted for credit.

ETHN 167. Asian American Families: Issues and Perspectives. 3 Units
Term Typically Offered: Fall, Spring

Family is an adaptable and changing institution of society. Research and theory on Asian American families will be highlighted with an emphasis on applying the information to areas of service, therapy, policy, and education. Experiences of various Asian groups in the U.S. will be compared. Cross Listed: FACS 166B; only one may be counted for credit.
ETHN 180A. Forms of African-American Poetry. 4 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring
Focuses on four or more African-American poets, representing a historical succession of literary periods.

ETHN 180B. Forms African-Am Fiction. 4 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring
Focuses on four or more African-American writers of fiction, surveying texts representing a historical succession of literary periods.

ETHN 181. Cinematic Representations of Pan African Identities. 3 Units
This course is designed as an intensive survey of African American cinema that engages questions of history, culture, politics and the overall function of race and representation in American society. Our focus in this class is to understand Pan African filmmakers and their respective films. We will focus on cultural factors intrinsic to Pan African societies and how cinema fits into this context, as well as how issues of gender, sexuality and class impact the films.

ETHN 182. Protest in Hip Hop. 3 Units
This course is designed to be an intensive survey of the evolution of hip hop as a form of social protest that developed into a global cultural movement. The course draws parallels from hip hop's historical function with past and present U.S. social movements advocating for social justice, including the recent #BlackLivesMatter movement. Students will also examine cultural studies theoretical concepts analyzing mainstream’s exploitation and marginalization of race, class, gender and sexuality representations in hip hop.

ETHN 183. Research in Ethnic Studies. 3 Units
Prerequisite(s): One upper-division Ethnic Studies course.
Term Typically Offered: Fall, Spring
Designed to provide students with contemporary theoretical knowledge and practical skills for conducting research in the African American, Asian American, Chicano/Latino, and Native American communities. Methodology which addresses issues and research perspectives distinctly germane to researching a targeted community is examined.

ETHN 184. Ethnic Studies Fieldwork. 1 Unit
Prerequisite(s): Ethnic Studies majors only
Corequisite(s): ETHN 183
Term Typically Offered: Fall, Spring
Allow students, with faculty supervision, to work closely with the ethnic minority communities. Students may work with a community agency, community organization, or other site with instructor approval.
Credit/No Credit

ETHN 185. Ethnic Studies Seminar. 2 Units
Prerequisite(s): Ethnic Studies majors only
Corequisite(s): ETHN 184
Term Typically Offered: Fall, Spring
Seminar discussions designed to synthesize and assess knowledge in Ethnic Studies courses applied to fieldwork experiences.

ETHN 186. Co-Curricular Activities. 1 - 3 Units
Term Typically Offered: Fall, Spring
Co-curricular activities related to the subject matter and intellectual concerns in Ethnic Studies. For example, students may earn ETHN 198 credits by participating in Ethnic Studies classes as tutors and/or section or discussion leaders; teaching as voluntary instructors or tutors in courses offered by community organizations.
Note: May be repeated twice for total credits not to exceed 6 units.
Credit/No Credit

ETHN 189. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading. Admission requires approval of the faculty member under whom the individual work is to be conducted, the appropriate program director and the Chair of Ethnic Studies.
Credit/No Credit

ETHN 203. Contemporary Ethnic Studies Issues. 3 Units
Prerequisite(s): MA Education (Multicultural Education) Students only.
Term Typically Offered: Fall only
Examines important social issues that shape the contemporary experience of African Americans, Asian Americans, Latinx/Chicanx, and Native Americans. Social issues such as: 1) Discrimination and violence, 2) Economic inequality (employment, income, wealth, retirement), 3) Educational challenges, and 4) Global context of race and class inequality.

ETHN 204. Foundations & Theories. 3 Units
Prerequisite(s): MA in Education (Multicultural Education) students only.
Term Typically Offered: Spring only
Foundations and theories in Ethnic Studies, identifies, analyzes, and critically examines the experience of African Americans, Asian Americans, Latinx/Chicanx, and Native Americans.
Note: This course is a lecture/discussion that is 45 hours, 3-unit course offered in eight weeks (including several Saturdays).

ETHN 299. Special Problems/Individual Study. 3 Units
Term Typically Offered: Fall, Spring
Open to classified and unclassified graduate students. Allow qualified students to explore topics, issues, and subjects pertinent to ethnic groups in the U.S.
Credit/No Credit
Executive Masters in Business Administration (EMBA)

EMBA 210.  EMBA Orientation.  1 Unit
Prerequisite(s): Acceptance to the EMBA Program.
Term Typically Offered: Fall, Spring

Includes individual introductions, program overview (content and administrative policies and practices), overviews, critical thinking seminar, seminar on academic research methods and tools, introduction of on-line technologies for instructional-related activities, and team building activities.

Credit/No Credit

EMBA 222.  Managerial Accounting for Executives.  3 Units
Prerequisite(s): EMBA 210.
Term Typically Offered: Fall, Spring

Consistent emphasis on managerial accounting and reporting is cost identification, allocation and control. Expands the traditional view of accounting to include an examination of the integration of the historic three tools with cost elements. Expanded view would include environmental and political costs, compliance with multinational reporting standards, tax compliance and treaty cost.

EMBA 223.  Quantitative Methods for Decision Making.  3 Units
Prerequisite(s): Completion of EMBA 210.
Term Typically Offered: Fall, Spring

Presents how business decisions are now made in an increasingly competitive and complex business environment. The emphasis will be on how to better respond to this challenge by using quantitative methods to forecast, extrapolate, analyze, and simulate a business situation for effective decision-making. Cases studies will be used to develop those capabilities.

EMBA 224.  Managerial Finance for Executives.  3 Units
Prerequisite(s): Completion of EMBA 210.
Term Typically Offered: Fall, Spring

Provides students a well-rounded understanding of the language and financial expectations/performance of organizations. Candidates will learn how to evaluate decisions from the perspective of shareholder and stakeholders. With this perspective they will be better equipped to make better business decisions and also understand the financial impact of those decisions.

EMBA 225.  Organizational Design and Management.  3 Units
Prerequisite(s): Completion of EMBA 210.
Term Typically Offered: Fall, Spring

Review the organization theory from a macro perspective (structure, process, technology, people, and culture). Special attention will be paid to organization structure, human resources, design, control, culture and inter-organizational relationship.

EMBA 226.  Technology Management for Executives.  3 Units
Prerequisite(s): Completion of EMBA 210.
Term Typically Offered: Fall, Spring

Covers the major challenges organizations deal with today as they attempt to manage their key technological resources as well as with implementing technological innovations. Addresses the digital opportunities and threats organizations face from senior management perspectives.

EMBA 227.  Strategic Marketing Management.  3 Units
Prerequisite(s): Completion of EMBA 210.
Term Typically Offered: Fall, Spring

Presents how modern marketing principles can be applied to real-world situations. The emphasis will be on studying strategies used by organizations in today's highly competitive and evolving marketplace. Case studies will be utilized to fully develop techniques for creating marketing programs given varying levels of resources and information available under diverse market conditions.

EMBA 228.  Strategic Analysis for Executives.  3 Units
Prerequisite(s): Completion of EMBA 210.
Term Typically Offered: Fall, Spring

Focuses on the competitive strategy of the firm and examines issues central to its long-term competitive position by utilizing the cutting-edge strategic approaches. Develops frameworks that are useful in analyzing a firm's competitive environment and developing firm-specific capabilities that contribute to its competitive advantage. Addresses the economic logic and administrative challenges associated with horizontal diversification, vertical integration and global expansion.

EMBA 229.  Leadership and Change Management.  3 Units
Prerequisite(s): Completion of EMBA 210.
Term Typically Offered: Fall, Spring

Introduce the concept of leadership in business organizations. Key themes: leading teams and leading during times of change. An integral part is to study current business leaders and analyze their leadership practices.

EMBA 241.  Strategic Supply Chain Management.  3 Units
Prerequisite(s): EMBA 210, EMBA Orientation.
Term Typically Offered: Fall, Spring, Summer

Explores key issues in designing and managing sustainable production and service supply chains with an overview of effective supply chain strategies and decision processes in a globally changing business environment. This course provides a set of strategic frameworks and analytical tools to help executives identify, evaluate, improve and optimize the financial outcomes and sustainability of supply chains.

EMBA 242.  Product and Brand Management.  3 Units
Prerequisite(s): Completion of EMBA 210.
Term Typically Offered: Fall, Spring

An organization's products and services are among the most important determinants of its ultimate survival and success since organizations rely on repeat business. No organization can survive over the long term if its products and services do not serve the needs of its customers, whether they are external or internal to the entity. Focuses on developing successful products and services as an on-going and iterative process. It explores customer needs and expectations change, the dynamics of the marketplace make, and the need to continually refine and improve the product and service offerings. Attention is given to how and when products must be modified over time to achieve their maximum potential, and eventually eliminated so resources can be directed to new products and services with greater long-term value.
EMBA 243. Legal Issues in Business Environment. 3 Units
Prerequisite(s): Completion of EMBA 210.
Term Typically Offered: Fall, Spring
Addresses sales contracts, employment law, alternative dispute resolution, intellectual property, and antitrust matters. Covers the interaction between a client and an attorney, how to use and communicate with a lawyer, and how to make legal-executive decisions. In all components, the course stresses ethical standards and the responsible roles of businesses in society.

EMBA 244. Corporate Performance Measurements. 3 Units
Prerequisite(s): Completion of EMBA 210.
Term Typically Offered: Fall, Spring
Introduces models to evaluate uncertain project outcomes, financial methods to estimate the intrinsic worth of the firm, metrics to evaluate firm performance in terms of shareholder value created, tools to analyze shareholder wealth consequences of corporate restructuring activities, and discusses the ethical implications of corporate restructuring activities. An additional dimension of metrics will include human based metrics such as performance reviews and human development.

EMBA 245. Competing in the Global Marketplace. 3 Units
Prerequisite(s): Completion of orientation course.
Term Typically Offered: Fall, Spring
Presents the principles of effective international management in a complex global environment of interactive socio-cultural, economic, and political forces. Covers competitive strategies in the rapidly growing globalization and addresses what today's networked economy offers.

EMBA 246. Managing Creativity and Innovation. 3 Units
Prerequisite(s): Completion of EMBA 210.
Term Typically Offered: Fall, Spring
Provides students with a strong theoretical foundation and a set of practical tools for the management of creativity and innovation. It will help students understand the innovation process and rethink an organization's human resources strategy and transform it into a system that will promote growth and effectiveness at all levels of the organization. Provides a framework for a learning organization to recognize failures, disruptive technologies, and strategies to overcome them.

EMBA 247. Executive Decision Making. 3 Units
Prerequisite(s): Completion of EMBA Program.
Term Typically Offered: Fall, Spring
Provides a framework for analyzing and identifying key management issues as well as developing plans for action. Focuses on identifying what managers do, what distinguishes effective management, how managers make decisions, and what makes a company excellent.

EMBA 248. Project Management for Executives. 3 Units
Prerequisite(s): Completion of EMBA 210.
Term Typically Offered: Fall, Spring
Covers the knowledge and skills as well as the principles and practices required to organize, plan and control projects of all sizes. Topics covered: a review of project characteristics and vulnerabilities, development of managerial philosophy and execution objectives, organization structure and interfaces, and management and control techniques.

EMBA 249. Management in the Public Sector. 3 Units
Prerequisite(s): Completion of EMBA 210.
Term Typically Offered: Fall, Spring
Managing public sector organizations requires unique skill sets. Governmental entities serve multiple constituencies, some of which may have differing and competing objectives and needs. Their customers include those who utilize the entity's products and services, taxpayers who fund the organization, publicly elected officials who set new directions with every change in administration, oversight groups which monitor governmental activities, and the ever-watchful media. Accordingly, managers in the public sector need to function effectively in highly volatile and political environments. Traditional and innovative management practices have to be tempered by political realities and the public's emphasis on service with accountability. Managers have to perform their traditional roles while also being public relations specialists in dealing with the various constituencies of the public sector entity.

EMBA 260. EMBA Individual Project. 4 Units
Term Typically Offered: Fall, Spring

EMBA 269. Experimental Offerings in Executive Management. 3 Units
Term Typically Offered: Fall, Spring

EMBA 299. Special Problems in Executive Management. 1 - 3 Units
Prerequisite(s): Classified graduate status or instructor approval.
Term Typically Offered: Fall, Spring
Individual projects or directed reading with examination for students qualified to carry on independent work.

Family and Consumer Sciences (FACS)

FACS 100. Research: Methods and Application in Family and Consumer Sciences. 3 Units
Prerequisite(s): 6 FACS units completed. FACS majors only
Term Typically Offered: Fall, Spring, Summer
Study of methods and application of research in the field of Family and Consumer Sciences. Focus on scientific inquiry, methodology, evidenced-based practice, interpretation of research results, program and project evaluation, and professional communication. Includes the examination of ethical practices, professional presentation skills, and technical writing skills.

FACS 140. Family Resource Management. 3 Units
Term Typically Offered: Fall, Spring
Management of resources in family systems. Interaction of families with other societal and environmental systems in acquiring and using resources to meet goals and other demands.
FACS 141. Family Finance. 3 Units
Term Typically Offered: Fall, Spring

Economic problems of and financial management by the individual and family. Topics include: income patterns, inflation, credit, contracts, housing, financial services, insurance, taxes, investments, retirement income planning.

FACS 168. Senior Seminar. 3 Units
Prerequisite(s): 21 FACS units.
Term Typically Offered: Fall, Spring

Designed to synthesize knowledge in Family and Consumer Sciences. Examination of the concentration in the major and career exploration. Analysis of public policy and ethical issues, professionalism and leadership strategies. Includes personal and professional competency assessment and development of an academic and professional portfolio.

FACS 195A. Field Study: Selected Areas in Family and Consumer Sciences. 1 - 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Guided study and experience in some area within Family and Consumer Sciences in which the student needs orientation or greater depth of study in a specialized field.

Credit/No Credit

FACS 195C. Internship. 1 - 3 Units
Prerequisite(s): Upper division status; instructor permission obtained in the preceeding semester; 2.5 GPA or above.
Term Typically Offered: Fall, Spring

Directed observation and supervised work experience in an approved business, government, or service agency. Internships are offered for the purpose of increasing student understanding of the nature and scope of agency operations and giving students orientation in occupational specialties. Supervision is provided by authorized persons in the cooperating agencies and collaborative supervision is provided by the Family and Consumer Sciences faculty. Each student is required to maintain a record of activities and assignments and to prepare periodic reports.

Note: Student must make arrangements with a faculty member for a work program one semester prior to admittance to the course. A minimum of three hours per week per unit of credit is required.

Credit/No Credit

FACS 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading.

Note: Departmental petition required.

Credit/No Credit

Family Studies and Human Development (FSHD)

FSHD 50. The Family and Social Issues. 3 Units
General Education Area/Graduation Requirement: GE AREA D, Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring

Family structure, systems and functioning in marriage and other partnerships, parenting, work issues, domestic violence, divorce, and remarriage. Focus on social issues including gender, race, ethnicity, and class. Historical and theoretical perspectives on families in America. Introduction to research in family sciences and public policy implications. Lecture, discussion.

Note: Not open for credit to students who have taken SOC 5.

FSHD 52. The Child In The Family. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Physical, social, emotional and cognitive development of the child, conception through adolescence, in relation to the family. Strong theoretical emphasis. Introduction to methods of study, including observation and interview. Lecture, discussion, fieldwork.

Note: Not open for credit to students who have taken CHDV 137, CHDV 138, or PSYC 148.

FSHD 108. Family Communication. 3 Units
Prerequisite(s): COMS 8, FACS 50, SOC 166, or instructor permission.
Term Typically Offered: Fall, Spring

Study of the family as a small group with emphasis on understanding and interpreting the dynamics of family communication using various communication and social-psychological theories. Opportunity to develop an analytical framework.

Cross Listed: COMS 108; only one may be counted for credit.

FSHD 150. Family Stress and Coping: Multicultural Focus. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: GE AREA D, Race & Ethnicity Graduation Requirement (RE), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring, Summer

Study of multicultural families and diverse family forms, with a focus on how families function under stress. Family theory and research are applied to the interpretation and analysis of selected literary work, both in print and film formats.
FSHD 152. Adolescent Development. 3 Units
Prerequisite(s): CHDV 30, or CHDV 35, or FACS 52, or instructor permission.
Term Typically Offered: Fall, Spring

In-depth study of the achievements and challenges associated with the adolescent stage of development. Focus on understanding the needs and motivations of adolescents and the challenges they face within their socio-cultural environment. Lecture, discussion.
Note: Not open to students who have taken PSYC 149. Previous or concurrent enrollment in CHDV 133 strongly recommended.

FSHD 154. Issues in Parenting. 3 Units
Prerequisite(s): CHDV 30, or CHDV 35, or FACS 52, or instructor permission
Term Typically Offered: Fall, Spring

Survey of historical and contemporary attitudes toward parenting. Review of research on child-rearing and parent-child relationships. Use of case studies to explore the influence of personality, developmental stage, family structure, ethnic and cultural factors on parenting. Lecture, Case Study.
Note: Previous or concurrent enrollment in CHDV 133 strongly recommended. Cross-listed: CHDV 154; only one may be counted for credit.

FSHD 155. Family Life Education. 3 Units
Prerequisite(s): FACS 50; and FACS 100 or CHDV 133; and senior standing.
Term Typically Offered: Fall, Spring

Historical and philosophical perspective on family life education across the lifespan. Practice in curriculum development including content, objectives, and teaching strategies.

FSHD 156. Child Life and Family-Centered Care. 3 Units
Prerequisite(s): FACS 52 or CHDV 30 or CHDV 35 or a course in child development/human development, covering at least birth through adolescence with instructor permission.
Term Typically Offered: Summer only

Overview of the Child Life profession and child life practices. Focus on family-centered care for children in the healthcare environment and their families. Major course topics include: scope of practice in child life; ethical and professional practice; impact of illness, injury and health on patients and family; techniques and outcomes of preparation; therapeutic play; grief and bereavement.
Note: This course is designed to meet the specifications set forth by the Association of Child Life Professionals (ACLP) for the child life course required for certification as a Certified Child Life Specialist (CCLS)

FSHD 159. Adulthood and Aging in Human Development. 3 Units
Term Typically Offered: Fall, Spring

Analyzes the interrelation between physical, psychological, and social development in the middle and later years of adulthood with attention to personal, family and community challenges and opportunities in their cultural context.

FSHD 162. Family Support Services. 3 Units
Prerequisite(s): A minimum of 12 units in FACS and/or FSHD upper division family area courses.
Term Typically Offered: Fall, Spring

Application of family science to the development, implementation, and evaluation of family support services. Implications of research for practice with diverse families. Focus on developing skills in family-centered services, family-professional collaboration, and resource-based and asset-based intervention. Lecture two hours; fieldwork in the community three hours.

FSHD 195F. Practicum in Family Life Education. 1 - 3 Units
Prerequisite(s): senior status; GPA of 2.75 or above; NURS 160 or PSYC 134 or HLSC 134; and FACS 155.
Corequisite(s): If not taken as a prerequisite, FACS 155 may be taken concurrently with instructor's approval.
Term Typically Offered: Fall, Spring

Directed observation and supervised work experience in an approved educational setting, service agency, business or government agency that provides family life education. Students will move from observing and assisting to developing, delivering and assessing lessons and programs in family life education. Students will gain experience applying educational and developmental theories, curriculum development, and teaching methods to delivering evidence-based and culturally sensitive lessons in the content areas of family life education: parent education, strengthening relationships, and/or sexuality education.
Note: Students must make arrangements with the supervising faculty member one semester prior to admittance to the course.

Credit/No Credit

Fashion Merchandising and Management (FASH)

FASH 30. Fashion and Human Environment. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring, Summer

This course serves as an introduction to the study of fashion and human environment and how fashion is perceived, marketed, and internalized within individuals across Western and non-Western cultures. A focus on both internal factors such as psychological, aesthetic and self-image, and external factors such as social, economic, cultural and political experiences will be addressed.

FASH 31. Science of Textile. 3 Units
General Education Area/Graduation Requirement: Physical Science (B1)
Term Typically Offered: Fall, Spring, Summer

Introduction to textile science fundamentals to guide daily textile product selection, use, and care. Overview of physical and chemical properties of textile composition and its impact on textile product performance. Emphasis of textile as a unique medium for studying physical science through an approachable and real-life applicable lens. Discussion of environmental impact of the textile industry as well as scientific innovations in sustainable textile production.
FASH 32.  Fundamentals of Apparel Production.  3 Units
Prerequisite(s): You must be a FACS major or FASH major to enroll in this course.
Term Typically Offered: Fall, Spring

Principles of fit and design. Applied basic construction with emphasis on standards and custom techniques. Characteristics of fabrics used; individual pattern adjustment. Lecture, discussion, demonstration one hour; laboratory four hours.

FASH 33.  Fashion Sustainability, Global Impact, and Critical Thinking.  3 Units
General Education Area/Graduation Requirement: Critical Thinking (A3)
Term Typically Offered: Fall, Spring

Introduction to critical reasoning, evaluating, and thinking skills through the social, environmental, and economic issues in fashion sustainability. Students will use research, reflection, acquisition of information, structuring arguments, and other critical thinking processes to analyze individual decision making as consumers, and gain an understanding of the greater global impact in fashion sustainability.

FASH 130.  History Of Western Fashion.  3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring, Summer

An overview of dress and fashion in western civilization from antiquity to the present. An interdisciplinary approach is used to examine how western fashion has evolved over time and functions as a reflection of trends in technology, political events, social ideals, and cultural developments such as art and music. Emphasis on the contributions and perspectives of women, as well as the differing roles in the production, dissemination, and consumption of clothing in relation to socioeconomic groups. Lecture, discussion.

FASH 131.  Quality Analysis: Apparel.  3 Units
Prerequisite(s): FACS 31, FACS 32.
Term Typically Offered: Spring only

Analysis of apparel construction and production; current industrial and technological developments. Discussion of sizing and quality standards with emphasis on identification of fabrics, garment styles, finding and trims. Lecture, discussion, demonstration, field trips. Field trip(s) may be required.

FASH 133.  Creative Principles of Apparel Design.  3 Units
Prerequisite(s): FACS 30 and FACS 31
Term Typically Offered: Fall only

Study of the functional and aesthetic elements of apparel design. The creative process and development of illustrative techniques. Development of creative approaches through projects of experimental, contemporary and traditional techniques with emphasis on elements of design, and selection and organization of colors, forms, materials and accessories for apparel production. Studio-activity six hours.

FASH 134.  Introduction to Fashion Industry.  3 Units
Term Typically Offered: Fall, Spring

Designed to develop an awareness and understanding of the total fashion industry including past, present and future directions of costume design, manufacturing, textiles, retailers' publications, buying offices, advertising and the consumer.

FASH 135.  Merchandise Buying.  3 Units
Prerequisite(s): FASH 134.
Term Typically Offered: Fall only

Detailed study of merchandising mix, purchasing plan, inventory plan, assortment plan, pricing, markdown, markup, and reports. Review of planning and control processes and the buyer's role in merchandise management and decision-making. Lecture, discussion.

FASH 136.  Fashion Retailing.  3 Units
Prerequisite(s): FASH 134.
Term Typically Offered: Spring only

A in-depth exploration of fashion retailing from different perspectives, including organizational structure, store location and image with a focus on visual merchandising techniques, and fashion advertising and promotion strategies.

FASH 137.  Clothing, Society, and Culture.  3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Study of the relationship of humans and clothing within their cultural and social environment. Introduction to the fundamentals of social psychology in the examination of clothing and appearance. Clothing and appearance are studied as forms of nonverbal communication and as devices for expressing cultural and social values.

FASH 139.  Textiles and Apparel in the Global Economy.  3 Units
Prerequisite(s): FASH 134 or MKTG 101.
Term Typically Offered: Spring only

Overview of global factors affecting the textiles and apparel industries and trade, the impact of textiles and apparel industries on the economy and consumers, the US textiles and apparel in the global economy, and strategies for balancing conflicting interest.

FASH 146.  Fashion Entrepreneurship.  3 Units
Prerequisite(s): FASH 134.
Term Typically Offered: Fall, Spring

This is a Service Learning course addressing the essentials of entrepreneurship in the fashion industry, enabling students to learn effective entrepreneurial and general management practice through service learning. Emphasis is placed on the essentials of planning that are vital to entrepreneurial success, step by step guide for starting a fashion business and effective business models, which focus on problems, solutions, key metrics and competitive advantages that will assist in pitching the business. Students complete 45 hours of fieldwork.

FASH 148.  Fashion Law.  3 Units
Term Typically Offered: Fall only

This course provides an overview of legal issues affecting the fashion industry and its professionals with an emphasis on fashion entrepreneurship, design, advertising and promotion, production, sourcing, marketing and retailing. Students will also learn about fashion regulatory and policy issues; intellectual property (copyright, trademarks, patents), contractual agreements, leasing, commercial operations and expansion, and the international development of a fashion business.

</table>
Prior to taking the real estate salesperson's examination.

Note: This course is required by the California Department of Real Estate prior to taking the real estate salesperson's examination.

FIN 130. Staging and Lighting Digital Video. 3 Units
Prerequisite(s): FILM 20A, FILM 20B, FILM 27A and FILM 27B each with a grade of "B" or better.
Term Typically Offered: Fall, Spring

Introduction to the aesthetics, concepts and techniques used to control lighting in digital video productions. Aspects of staging, blocking and composition in the context of studio and location lighting.

Cross-listed: COMS 130.

FIN 141. Theory of Film/Video Editing. 3 Units
Prerequisite(s): COMS/FILM 27A and COMS/FILM 27B with final posted grade of C or better.
Term Typically Offered: Fall, Spring

Study of history and theory of film and video editing. Many films are viewed and discussed, examining how editing theory is put into practice.

Cross-listed: COMS 141.

FIN 155. Contemporary World Cinema. 3 Units
Term Typically Offered: Fall, Spring

A historical review of the development of major international film styles and themes. Theoretical and critical concepts derived from this study of international film and then used as the basis to analyze contemporary films of South America, Europe, India, East Asia, Africa and the Middle East. Emphasis is on both the development of formal film techniques and a comparison of the unique cultural values that shape the film narrative style.

Cross Listed: THEA 155; only one may be counted for credit.

FIN 185. Senior Practicum in Video Production. 3 Units
Prerequisite(s): COMS/FILM 124 with a final posted grade of C or better; COMS/FILM 128 with a final posted grade of C or better.
Term Typically Offered: Fall, Spring

Assignments in various phases of video production including creative use of camera, sound and lighting, editing, production design, production planning/management, and directing.

Cross-listed: COMS 185.

FIN 192. Senior Seminar in Film. 3 Units
Prerequisite(s): Completion of the Film Studies upper and lower division core or COMS 142, and (GWAR Certification before Fall 09, or WPJ score of 80+, or at least a C- in ENGL 109M or ENGL 109W).
Term Typically Offered: Spring only

Research seminar that provides an in-depth investigation of film as an art form, a medium of mass communication and a means of personal expression. Subject will vary according to instructor.

Cross-listed: COMS 192.

Finance (FIN)

FIN 19. Real Estate Principles. 3 Units
Term Typically Offered: Fall, Spring

Examination of real estate principles and practices necessary for the acquisition, financing, management, and disposition of real estate.

Note: This course is required by the California Department of Real Estate prior to taking the real estate salesperson's examination.

FIN 101. Business Finance. 3 Units
Term Typically Offered: Fall, Spring

Study of principles of finance and their application to typical financial problems of business enterprises. Special emphasis on financial analysis, management of working capital, cost of capital, capital budgeting, long-term financing, dividend policy, and internal financing.

FIN 134. Financial Management. 3 Units
Prerequisite(s): FIN 101.
Term Typically Offered: Fall, Spring

Trends in the development of financial policy are analyzed and reports on specific aspects are presented in class. The student is placed in the position of the financial manager who must make decisions and implement them.

FIN 135. Investments. 3 Units
Prerequisite(s): FIN 101.
Term Typically Offered: Fall, Spring

Significant characteristics of numerous types of investments; securities markets and financial institutions; principles of investment analysis; investment management.

FIN 136. Modern Portfolio Management. 3 Units
Prerequisite(s): FIN 101.
Term Typically Offered: Fall, Spring

Asset management utilizing the major aspects of modern portfolio theory, portfolio construction and selection, portfolio performance evaluation, capital asset pricing models, and recent theoretical developments in asset pricing behavior.

FIN 137. Financial Institutions and Markets. 3 Units
Prerequisite(s): FIN 101.
Term Typically Offered: Fall, Spring

Designed to broaden understanding of the financial system to include the network of institutions which bring into existence the increasingly important substitutes for money in the traditional sense. Emphasis is given to flow of funds analysis within the context of emerging financial theories.

FIN 138. Principles of Risk Management and Insurance. 3 Units
Prerequisite(s): Must be a business major (any concentration) or Public Health major (Occupational Health & Safety concentration) or Real Estate & Land Use Affairs minor or a Risk Mgmt & Insurance minor.
Term Typically Offered: Fall, Spring

Study of the concept of pure risk and its implications for decision making. Provides business students the basics of risk theory and its application to risk management or insurance purchasing using a personal consumer's viewpoint. Practical personalized examples and cases will be used to illustrate risk decision making, primarily on a personal basis, but also in selected business decisions. Topics include risk theory and applications, life insurance, medical coverage, property insurance, and liability insurance.
FIN 139. Business Property and Liability Insurance. 3 Units
Prerequisite(s): FIN 138 or instructor permission.
Term Typically Offered: Fall, Spring

Concentrated and analytical approach to the study of property and liability loss exposures for the business enterprise. While the emphasis is on the different types of business insurance coverage's, a risk management approach and examples are used. Topics include business property insurances; liability, especially workers compensation, the SMP and CGL contracts; business auto, crime coverage's; bonds; transportation insurance; consequential coverage's; and capacity and other related marketplace problems. Case studies and problems, as well as a computer analysis are used. The course is an excellent supplement for insurance, finance, real estate and pre-law majors, small business owners, and anyone who will be making business financial decisions, or providing insurance products in the insurance industry. Successfully completing FIN 138 and 139 substitutes for the one-year experience requirement for those interested in taking the Insurance Broker’s Licensing Exam.

FIN 140. Employee Benefits. 3 Units
Prerequisite(s): FIN 138 or instructor permission.
Term Typically Offered: Fall, Spring

Intensive and analytical examination of the employee benefit planning environment and its risk exposures. Using a risk management approach, the topical areas studied include mandatory programs, especially OASDHI and ERISA; health care; group life and disability; retirement income and capital accumulation plans; paid time off; family-centered benefits; flexible benefits and cafeteria plans; and benefit cost information. Case studies and extensive contact with the business community as well as team projects are required. This is an important class for specialists in human resources management, especially personnel, pre-law, and health care or those who will be providing insurance products to fulfill employment benefit needs.

FIN 141. Managerial Real Estate Law. 3 Units
Prerequisite(s): FIN 19
Term Typically Offered: Fall, Spring

Examination of the decision making process in land utilization transactions relative to the minimization of risks of legal confrontation. Traditional conflicts underlying real estate transactions are examined and principles of preventive law are derived. The management of litigation and transaction attorneys is considered. Court remedies that are pertinent to land utilization transactions are analyzed and compared to nonjudicial alternatives.

FIN 142. Real Estate Finance. 3 Units
Prerequisite(s): FIN 19 or ACCY 121 or FIN 101 or ENGR 140; Buisness Majors only
Term Typically Offered: Fall, Spring

Examination of the mechanisms of real estate finance, sources of funds, loan contracts, principles of mortgage risk analysis, and the role of group equity investment. The evolution of secondary mortgage markets, government policy, and market interference will be investigated from a risk management standpoint.

FIN 143. Real Estate Investment. 3 Units
Prerequisite(s): FIN 19 or ACCY 121 or FIN 101 or ENGR 140; business majors only
Term Typically Offered: Fall, Spring

Analyzes non-financial and financial factors influencing investment decision making in income producing property. Topics include: location and its linkages; methods of estimating demand for real estate; methods for evaluating competing supply; use of market analysis in decision making; development of cash flow statements, alternative investment criteria, risk, legal, financing, and tax analysis, operating, financing investment and reversion decisions.

FIN 144. Real Estate Market Analysis. 3 Units
Prerequisite(s): FIN 19 or FIN 101; must be Business Major (any concentration) or Real Estate and Land Use Minor.
Term Typically Offered: Fall, Spring

Introduction to real estate markets, economic analysis of property markets, and impact of local governments on real estate markets. Topics include space and asset markets; location, land use and competitive bidding; land markets, housing markets, and site selection; economic growth and real estate markets, office, retail, and industrial markets; impact of local governments on real estate markets; tools of market analysis, computer applications and geographic information systems.

FIN 145. Real Estate Development and Land Use. 3 Units
Prerequisite(s): FIN 19 or FIN 101; must be Business Major (any concentration) or Real Estate and Land Use Minor.
Term Typically Offered: Fall, Spring

Process of real estate development and the federal and state laws that regulate development. Topics may include creating industrial real estate, office space, shopping centers, and hotel/recreation facilities, strategy, market and feasibility analysis; site planning/design; capital cost analysis; construction; financial structuring; federal and state laws that regulate environment impact; land use and real estate development. Emphasis on case studies and a project analysis.

FIN 149. Real Estate Analytics. 3 Units
Prerequisite(s): FIN 19 or FIN 101; must be Business Major (any concentration) or Real Estate and Land Use Minor.
Term Typically Offered: Fall, Spring

Examines contemporary and emerging issues in real estate trends, space and asset market equilibrium, land use controls and regulation, market analysis, mortgage markets, property markets, real estate cycles, real estate development, real estate finance and investments, real estate securities, and/or real estate taxation. Use of computer software and applications are emphasized to understand real estate analytics and geographic information systems applications to real estate data.

FIN 150. Capstone in Professional Financial Planning. 3 Units
Prerequisite(s): ACCY 171, FIN 135, FIN 136, FIN 138 and FIN 140; FIN 136 and/or FIN 140 may be taken concurrently.
Term Typically Offered: Spring only

This course will engage the student in critical thinking and decision-making about personal financial management topics in the context of the financial planning process. The purpose of this course is to refine and develop skills needed for personal financial planners when working with individuals, families, and business owners in meeting financial needs and objectives.
FIN 160. Student Investment Fund Management. 3 Units
Prerequisite(s): FIN 134, FIN 135, or FIN 136 with a final posted grade of B- or higher or FIN 101 with a final posted grade of A- or higher; must be in Bachelor of Science in Business Administration major or minor.
Term Typically Offered: Fall, Spring

Students will manage a real investment portfolio by applying theories of investment analysis and portfolio management. Topics include economic analysis, valuation theories, risk measurement and management, performance measurement, and benchmarking.

FIN 190. Multinational Business Finance. 3 Units
Prerequisite(s): FIN 101 or instructor permission. Prior additional course in finance or international business recommended but not required.
Term Typically Offered: Fall, Spring

Principles of international financial management. Issues covered include the international environment of financial management, uses of foreign exchange spot, forward, futures, options, and swap markets, foreign exchange risk management, international investment and financing decisions.

FIN 194. Cooperative Education Experiences in Real Estate. 6 - 12 Units
Prerequisite(s): FIN 19, FIN 142 and a minimum overall GPA of 2.5; Business major only.
Term Typically Offered: Fall, Spring

In-depth supervised work experience in Real Estate and Land Use Affairs. This supervised work experience allows the student to become familiar with the practices of the real estate industry and/or governmental agencies.
Note: Open to all upper division students subject to permission. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.
Credit/No Credit

FIN 195. Internship In Finance. 3 Units
Prerequisite(s): Minimum Sacramento State GPA of 2.5.
Term Typically Offered: Fall, Spring

Supervised work experience in business, governmental or service agencies for the purpose of increasing student understanding of the nature and scope of their operations. Supervision is provided by the faculty and the cooperating agencies.
Note: Open to upper division students, subject to permission of the Finance Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065. Open to declared business administration majors only.
Credit/No Credit

FIN 195A. Internship in Real Estate and Land Use Affairs. 3 - 6 Units
Prerequisite(s): FIN 19 and FIN 142. Minimum Sacramento State GPA of 2.5 required; open to declared business administration majors only.
Term Typically Offered: Fall, Spring

Supervised work experience in business, governmental or service agencies for the purpose of increasing student understanding of the nature and scope of their operations. Supervision is provided by the faculty and the cooperating agencies. Open to upper division students, subject to permission. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.
Credit/No Credit

FIN 196A. Exper Offer Finance. 3 Units
Prerequisite(s): FIN 135 with a final posted grade of B- or higher and instructor's consent.
Term Typically Offered: Fall, Spring

Students will manage a real investment portfolio by applying theories of investment analysis and portfolio management. Topics include economic analysis, valuation theories, risk measurement and management, performance measurement, and benchmarking.

FIN 199. Special Problems in Finance. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.
Note: Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030.
Credit/No Credit

FIN 200. Financial Reporting and Analysis. 3 Units
Term Typically Offered: Fall, Spring

Designed for business students with prior knowledge of accounting who intend to use corporate financial statements intensively in valuation, credit or equity analysis, or strategic competitor analysis. Topics include inventory, pensions, business combination, income tax and other current issues for their impacts on financial statement. Emphasis on financial statement analysis and interpretation of financial disclosures for improving risk assessment, forecasting, and decision-making.

FIN 210. Financial Institution Management. 3 Units
Term Typically Offered: Fall, Spring

Develop an understanding of the theory and practice of the management of financial institutions. Emphasis is placed on risk measurement and management. Financial institutions include commercial banks, investment banks, savings banks, credit unions insurance companies and financial companies such as mutual funds.

FIN 220. Corporate Finance. 3 Units
Term Typically Offered: Fall, Spring

Investigate the principles that corporations use in their investing, financing, and day-to-day management decisions. Topics include financial statement analysis, capital investment decision, capital structure, dividend policy, mergers and acquisitions, corporate governance and its impact on valuation.

FIN 230. Equity Analyses. 3 Units
Term Typically Offered: Fall, Spring

Covers advanced concepts and techniques essential to asset valuation. Key topics include, but not limited to, free cash flow, price multiples, asset-based and contingent claim valuations. Applications of various valuation techniques are emphasized. Provides a framework for selecting the most appropriate model for specific circumstances.

FIN 240. Fixed Income. 3 Units
Term Typically Offered: Fall, Spring

Discuss a wide range of fixed income products. Topics include trading concepts and mechanics, pricing, duration, convexity, term structure of interest rates, and options embedded fixed income securities.
FIN 250. Derivatives. 3 Units
Term Typically Offered: Fall, Spring

Discuss major types of financial derivatives and derivative markets. Topics include forward contracts, futures, options, SWAPs and credit derivatives. Emphasis on characteristics, trading process, pricing, parity conditions, risk involved, and investment strategies for different financial derivatives.

FIN 260. Alternative Investments. 3 Units
Term Typically Offered: Fall, Spring

Discuss major types of alternative investments including real estate, hedge funds, commodities, private equity, and venture capital. Emphasis on the technical aspects and the performance analyses of alternative investments, their advantages and disadvantages, role of alternative investments, and strategies of selection.

FIN 270. Portfolio Management. 3 Units
Term Typically Offered: Fall, Spring

Cover topics of asset management utilizing the major aspects of Markowitz portfolio theory, Capital ASSET Pricing Model, and Arbitrage Pricing theory. Discuss the comprehensive approach, starting with portfolio construction and asset selection, following with portfolio performance evaluation, and concluding with rebalancing strategies. Introduce and utilize worksheet modeling techniques which are useful for portfolio management.

FIN 280. Global Financial Markets. 3 Units
Term Typically Offered: Fall, Spring

Cover advanced concepts and applied techniques essential to understand the mechanism of the global financial markets. Key topics include global capital allocation, international tax management, foreign exchange markets, derivatives, parity relationships, and others. Focuses on the core concepts and techniques are applied in the global financial markets using different case studies. Integrate the key principles of finance and extends them to a multinational setting. Topics follow the Chartered Financial Analyst (CFA) Level 1 and 2 Exam on equity valuation.

FIN 299. Special Problems in Finance. 3 Units
Prerequisite(s): Classified graduate status or instructor approval
Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.
Note: Enrollment requires approval of faculty member supervising work in addition to the approval of the Associate Dean for Graduate and External Programs; 6 units maximum; May be repeated for credit.

FIN 500. Culminating Experience Project in Finance and Ethics. 3 Units
Prerequisite(s): Advancement to candidacy; 12 units of any combination of the following courses: FIN 200, FIN 210, FIN 220, FIN 230, FIN 240, FIN 250, FIN 260, FIN 270 and FIN 280.
Term Typically Offered: Fall, Spring

Each student conducts an individual project to fulfill the culminating experience graduation requirement of the MS in Finance program as required in Title V of the CA Educational Code. The course also covers the ethical conducts and professional standards as outlined in CFA institute standards.
Note: May be repeated for credit

French (FREN)

FREN 1A. Elementary French. 4 Units
Term Typically Offered: Fall, Spring

Focuses on the development of elementary linguistic skills, with emphasis on the spoken language. The relationship of the language to French civilization and culture is given special attention.

FREN 1B. Elementary French. 4 Units
Prerequisite(s): FREN 1A and a suitable score on placement exam; or instructor permission.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement, Humanities (Area C2)
Term Typically Offered: Fall, Spring

Continuation of FREN 1A, with emphasis on reading, writing, listening and speaking. French culture and its relationship to language is given continued attention.
Note: Meets the Foreign Language Graduation Proficiency Requirement.

FREN 2A. Intermediate French. 4 Units
Prerequisite(s): One year of college French, suitable score on placement exam; or instructor permission.
General Education Area/Graduation Requirement: Humanities (Area C2), Foreign Language Graduation Requirement
Term Typically Offered: Fall, Spring

Emphasis on speaking, reading and writing ability. Dialogues, discussions and compositions in French.
Note: Meets the Foreign Language Graduation Proficiency Requirement.

FREN 2B. Intermediate French. 4 Units
Prerequisite(s): FREN 2A, suitable score on the placement exam; or instructor permission.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement
Term Typically Offered: Fall, Spring

Continuation of FREN 2A.
Note: Meets the Foreign Language Graduation Proficiency Requirement.

FREN 100. Phonetics and Pronunciation. 3 Units
Prerequisite(s): Four semesters of French or equivalent.
Term Typically Offered: Fall, Spring

Review and practice all the main phonetic features of the spoken French language. Complete familiarization with the international phonetic alphabet. Practice in written transcription and oral pronunciation of all vowel and consonant sounds in French. Review and practice characteristics of diction, articulation, intonation, the musical movement of the sentence and rhythm. Orthographic problems and the phenomena of spelling and pronunciation are integrated with all written and oral exercises. Elimination of specific pronunciation problems for English speakers (r/l, mute, e, nasals, final consonants, etc.).

FREN 101. Advanced Grammar. 3 Units
Prerequisite(s): FREN 2B or equivalent.
Term Typically Offered: Fall, Spring

Classified graduate status or instructor approval
Four semesters of French or equivalent.
Four semesters of French or equivalent.
FREN 102. Advanced Conversation. 3 Units
Prerequisite(s): Four semesters of French or equivalent.
Term Typically Offered: Fall, Spring
Mastery of spoken French language through discussion of personal
readings to develop vocabulary and syntactical skills. Conducted in
French. May be taken for credit twice.

FREN 103. Advanced Composition. 3 Units
Prerequisite(s): FREN 101 or instructor permission.
Term Typically Offered: Fall, Spring
Special attention to help students learn the dynamics of good writing,
become sensitive to style and develop ability to express their thoughts
coherently, in essentially correct and well structured French prose.
Conducted in French.

FREN 104A. French Translation (French-English). 3 Units
Prerequisite(s): Upper division status in French.
Term Typically Offered: Fall, Spring
Development of translating techniques applicable to texts in areas such
as literature, sciences, journalism, history, art. Review and comparative
study of French and English grammars and styles. Conducted in French.

FREN 104B. French Translation (English-French). 3 Units
Prerequisite(s): FREN 101 and upper division status in French.
Term Typically Offered: Fall, Spring
Development of translating techniques from English to French applicable
to texts in such areas as business, culture and/or literature. Continued
comparative study of French and English grammars and styles. Conducted in French.

FREN 107. Business French. 3 Units
Prerequisite(s): Second year college level proficiency or equivalent; or
instructor permission.
Term Typically Offered: Fall, Spring
Designed to create awareness of linguistic and crosscultural differences
affecting effective communication between American and Francophone
speakers in the world of business, and to provide added confidence in
transactions and negotiations. Explores how to do business in
France, how different business structures work and interact, and how
to participate in everyday business activities. Particularly helpful
to International Business Students to enhance understanding of
Francophone and European markets and to develop business oriented
French language skills. Prepares student to obtain two different Business
French Certificates offered by the Chamber of Commerce and Industries
of Paris and the French Ministry of Education. Conducted in French.

FREN 109. French Language Practice. 3 Units
Prerequisite(s): FREN 2B.
Term Typically Offered: Fall, Spring
Practice with French conversation, reading, and vocabulary development;
supervised individual and small-group instruction designed to develop
French vocabulary, including the conversation, listening and reading skills
necessary for advanced study in French. May be taken for credit three
times.

FREN 110. Survey of French Literature. 3 Units
Prerequisite(s): FREN 101, FREN 103, FREN 109 or instructor permission.
Term Typically Offered: Fall, Spring
An introduction to French literature through texts of varied length from
different time periods and genres with a focus on the use of language.
Conducted in French.

FREN 111. Topics in Francophone Literature. 3 Units
Prerequisite(s): FREN 110, or equivalent; or instructor permission.
Term Typically Offered: Fall, Spring
Study of literary texts by Francophone writers with an emphasis placed
on textual analysis and the relationship between text and context.
Conducted in French.
Note: Meets the Foreign Language Graduation Proficiency Requirement.

FREN 120. French Civilization. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
Presentation of formative cultural achievements of the French world
from its origins to the present, i.e., the origin of the French language.
Contributions to European Renaissance, Baroque and Classicism, the
Revolutionary and Romantic eras, and modern western culture.
Note: Open to non-majors. Course taught in English.

FREN 125. Quebec and French North America. 3 Units
Term Typically Offered: Fall, Spring
Development and significance of francophone culture in North America,
notably Quebec, French Canada and Louisiana, are explored through
historical events, social changes and artistic achievements. Introduces
major cultural trends and traditions from the 17th century to the present
through non-fiction, literary works and audio-visual presentations in art
and music. French majors and minors are required to do all reading,
research and papers in French.
Note: Upper division status required.

FREN 130. Culture Wars: From Knighthood to Revolution. 3 Units
Prerequisite(s): GWAR Certification before Fall 09, or WPJ score of 70+, or
at least a C- in ENGL 109M or ENGL 109W.
Term Typically Offered: Fall, Spring
Study of the profound influence of culture wars through the interpretation
of major French writers, philosophers and scientists ranging from the
Middle Ages to the 18th century. All readings and lectures in English.
Note: Open to non-majors.

FREN 170. Seminar Conducted in French. 3 Units
Prerequisite(s): FREN 110.
Term Typically Offered: Fall, Spring
Seminar in French will be offered as needed.
FREN 194. Field Experience/Internship. 1 - 3 Units
Prerequisite(s): Intermediate competency in French and instructor permission.
Term Typically Offered: Fall, Spring
Directed fieldwork in a project which uses language skills developed through previous study of French. Projects may include interpreting and translating for public and/or private agencies in Sacramento or other projects approved by the faculty supervisor. All work will be monitored by Sacramento State faculty. The student must submit written reports to his/her supervisor. May be taken more than once for credit. Does not apply to major.
Credit/No Credit

FREN 195. Fieldwork - Tutoring. 1 - 3 Units
Prerequisite(s): Native or near-native fluency in French, upper division status; or instructor permission.
Term Typically Offered: Fall, Spring
Tutoring of lower division French students under supervision of an instructor. Three hours of tutoring per week for each unit. Does not apply to major.
Credit/No Credit

FREN 196. Experimental Offerings in French. 3 Units
Term Typically Offered: Fall, Spring
Special courses will be scheduled as needed.

FREN 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading.
Note: Departmental petition required.
Credit/No Credit

FREN 210. Studies in French Literature. 3 Units
Term Typically Offered: Fall, Spring
Studies of authors, periods, movements, genres, criticism or literary history.
Note: May be repeated for credit if subject matter is not repeated.

FREN 220. Studies in French Civilization. 3 Units
Term Typically Offered: Fall, Spring
Studies in French language and linguistics problems, e.g., history of the language, semiotics, stylistics, translating, interpreting and oral expression.
Note: May be repeated for credit three times if subject matter is not repeated.

FREN 230. Studies in the French Language. 3 Units
Term Typically Offered: Fall, Spring
Studies in French language and linguistics problems, e.g., history of the language, semiotics, stylistics, translating, interpreting and oral expression.
Note: May be repeated for credit if subject matter is not repeated.

FREN 299. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading.
Note: Departmental petition required.
Credit/No Credit

FREN 500. Culminating Experience. 1 - 4 Units
Prerequisite(s): Advanced to candidacy and permission of the graduate advisor.
Term Typically Offered: Fall, Spring
Completion of a thesis, project or comprehensive examination.

General Management (GM)

GM 105. Strategic Management. 3 Units
Prerequisite(s): Completion of all other upper-division core courses, except MIS 101.
Term Typically Offered: Fall, Spring, Summer
This capstone course focuses on the integration of functional areas of a business and requires students to determine strategies/policies at the general-management level. Students address problems and issues faced by companies from a general management perspective which integrates accounting, financial, marketing, human resources, and operations in relation to the environment within a framework of balance between profit or cost-effectiveness and social responsibility.

GM 170. Fundamentals of Business Strategy. 3 Units
Prerequisite(s): HRM 101, MKTG 101, FIN 101, and OPM 101.
Term Typically Offered: Fall, Spring
Basics of business-level strategy and how they are applied in modern organizations. Underlying primary principles, theories and practices are examined and discussed. Cases presenting actual, real-world situations will be analyzed to derive solutions to the business-level opportunities and problems facing strategic managers.
Note: General Management students must complete all functional core courses before taking GM 170.

GM 194. Cooperative Education Experience in Management. 6 - 12 Units
Prerequisite(s): Minimum overall GPA of 2.5.
Term Typically Offered: Fall, Spring
In-depth supervised work experience in management for the purpose of exposing the student to comprehensive management experience in business, governmental, or service agencies.
Note: Open to all upper division students, subject to permission of the Management Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.
Credit/No Credit
GM 195. Internship in Strategic Management. 3 Units
Prerequisite(s): Minimum Sacramento State GPA of 2.5.
Term Typically Offered: Fall, Spring

Supervised work experience in business, governmental or service agencies for the purpose of increasing student understanding of the nature and scope of their operations. Supervision is provided by the faculty and the cooperating agencies.

Note: Open to upper division students, subject to permission of the Management Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065. Open to declared business administration majors only.

Credit/No Credit

GM 199. Special Problems in Strategic Management. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.

Note: Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030.

Credit/No Credit

General Studies (GNST)

GNST 21. First Year Seminar: Becoming an Educated Person. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

A first-year seminar intended to provide students with an introduction to the meaning of higher education, resources of the University, and skills for lifelong learning. This course is designed to help students develop academic success strategies and to improve information literacy, intercultural competence, and integrative thinking. The seminar also provides students with the opportunity to interact with fellow students, and seminar faculty to build a community of academic and personal support.

GNST 296. University 200. 1 Unit
Prerequisite(s): Graduate Standing
Term Typically Offered: Fall, Spring

A University 200 seminar is intended to provide students with an introduction to the meaning of graduate education, resources of the University, techniques for developing a sound scholarly argument, and the use of evidence and resources to conduct and present academic research at the graduate and professional level, and skills for lifelong learning. This course is designed to help students develop academic success strategies, increase information literacy skills and abilities, and to improve intercultural and inclusive awareness, and integrative thinking.

Credit/No Credit

Geography (GEOG)

GEOG 1. Physical Geography: The Distribution of Natural Phenomena. 3 Units
General Education Area/Graduation Requirement: Physical Science (B1)
Term Typically Offered: Fall, Spring, Summer

This course provides an overview of Earth’s physical systems, including the atmosphere, biosphere, hydrosphere, and lithosphere. Topics covered include weather and climate, biological systems, plate tectonics, volcanoes and earthquakes, and weathering and erosion. Emphasis is placed on the role of humans in influencing Earth’s physical systems.

GEOG 2. Cultural Geography. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Consideration of the diversity of patterns of land use, settlement and movement established and evolved by humans as a result of the interaction of cultural and physical factors; emphasis on student use of maps and other tools of geographic presentation for analyzing the nature, variation and distribution of cultural features of the earth’s surface.

GEOG 2H. Cultural Geography - Honors. 3 Units
Prerequisite(s): Open to Honors students only.
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring, Summer

Consideration of the diversity of patterns of land use, settlement and movement established and evolved by humans as a result of the interaction of cultural and physical factors; emphasis on student use of maps and other tools of geographic presentation for analyzing the nature, variation and distribution of cultural features of the earth’s surface.

Note: This is a special offering designed as part of the G.E. Honors program.

GEOG 3. Introduction to Maps and Geographic Technologies. 3 Units
Term Typically Offered: Spring only

Introduction to maps, map concepts, and geographic technologies. Maps are the most effective way to communicate spatial data, and introduces students to the quickly changing world of maps (both hard-copy and digital) and geographic technologies including map and aerial photograph interpretation, spreadsheet operations, introductory statistics, global positioning systems (GPS), Internet mapping, satellite and aerial images, and geographic information systems (GIS) that aid in data collection, analysis, and presentation. Lecture two hours; laboratory two hours.

GEOG 5. Violent Weather/Changing Atmosphere. 3 Units
General Education Area/Graduation Requirement: Physical Science (B1)
Term Typically Offered: Fall, Spring

Introduction to meteorological and climatological principles and concepts. These principles will be used to examine severe atmospheric phenomena, including hurricanes, tornadoes, thunderstorms, lightning, destructive winds, severe storms, heat waves, droughts and floods, particularly in relation to human-caused climate change and the effects of these phenomena on humanity.
GEOG 11. Laboratory in Physical Geography. 1 Unit
Prerequisite(s): GEOG 1; may be taken concurrently.
General Education Area/Graduation Requirement: Physical Science (B1), Laboratory (B3)
Term Typically Offered: Fall, Spring, Summer

Makes the ideas and relationships of introductory physical geography more clear by observation and experiment. Use is made of maps, globes, models, meteorological instruments and records, satellite photos and observations of the local scene. Laboratory, three hours.

GEOG 100. Themes In World Geography. 3 Units
Prerequisite(s): Junior or Senior class standing or instructor permission.
Term Typically Offered: Fall, Spring

Study of the content of geography with a consideration of basic concepts and methods. Emphasis is on patterns and relationships of the elements and manifestations of physical and cultural geography, including both topical and regional discussions.

GEOG 105. Cartography. 3 Units
Term Typically Offered: Spring only

Introduction to principles map design for the digital era. Use of illustration software for the production of printed and electronic maps, and other visualizations of spatial information. Theory and history of cartography, including color theory, map projections, visual variables and cartographic scale. Lecture two hours; laboratory three hours.

GEOG 107. Remote Sensing. 3 Units
Term Typically Offered: Spring only

Aerial photographs and scanned satellite images, emphasis on the former. Topics include the electromagnetic spectrum, cameras, films, image geometry as related to planimetric and topographic mapping, multispectral techniques, and interpretation of imagery, emphasizing land use and landforms. Lecture two hours; laboratory three hours.

GEOG 109. Geographic Information Systems. 3 Units
Term Typically Offered: Fall, Spring, Summer

Introduction to GIS, including history and overview of current applications; the nature of spatial data; geographic data structures, acquisition, analysis, and display of geographic data. Lab exercises use various computers and include both raster- and vector-based GIS systems. Lecture two hours; laboratory three hours.

GEOG 110. Advanced Geographic Information Systems. 3 Units
Prerequisite(s): GEOG 109 or instructor permission.
Term Typically Offered: Fall only

Builds on the introduction to the hardware, software and operations of GIS offered with the previous courses, providing the essentials required by a beginning GIS analyst or applications support specialist. Emphasis will be placed on problem solving strategies in the context of GIS projects.

GEOG 111. Elements Of Meteorology. 3 Units
Prerequisite(s): GEOG 1 or instructor permission.
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring

Basic concepts of weather and weather elements: structure and general circulation of the atmosphere, earth's heat and water balance, precipitation, air masses and fronts, air pollution meteorology. Some micrometeorological concepts with application to air pollution, agriculture, and similar problems.

GEOG 113. Climate. 3 Units
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall only

Study of the distribution of heat and moisture over the earth's surface. Basic processes by which heat and moisture acquire unequal distributions in space and time. Classification of climate. Climatic change. Climate models.

GEOG 115. Biogeography. 3 Units
Prerequisite(s): GEOG 1 or instructor permission
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall only

Introduction to the geographic distribution of life. Communities and biomes, changing continents and climates, dispersal, colonization, extinction, life on islands, and past and present human impacts are examined.

Note: Field trip required.
Field trip(s) may be required.

GEOG 116. Global Climate Change. 3 Units
Prerequisite(s): GEOG 1 or instructor permission
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Spring only

Study of past climate change and the techniques with which they are reconstructed. Focus on the various temporal scales at which climate change operates. Spatial variability of past, present and future climate changes. Anthropogenic climate change in the context of natural climate variability.

GEOG 117. Landforms. 3 Units
Prerequisite(s): GEOG 1 or instructor permission.
Term Typically Offered: Fall only

Study of the surface forms of the land with particular attention to their distribution and to the accompanying distribution of natural forces and processes which have brought the landforms into being. Study of landforms in the context of Quaternary environmental change. Identification and analysis of landforms using maps and other spatial data. Lecture three hours.
GEOG 118. Earth Transformed. 3 Units
Term Typically Offered: Fall, Spring

Explores the evolving human role in transforming Earth’s physical environments. Topics range from prehistoric extinctions to modern environmental problems in select regions. Emphasis is placed on wide-ranging effects of resource use and disposal, with particular reference to atmosphere and biological problems and sustainable solutions.

GEOG 119. Visualizing Global Environments. 3 Units
Term Typically Offered: Fall, Spring

General Education Area/Graduation Requirement: Further Studies in Area B (B5)

Using current geospatial technologies, such as remote sensing and GIS, the course provides an introduction to the distributions of climate, plant cover, soils, and landforms over the face of the earth. While examining processes and conditions that cause these distributions, students will also explore the methods and techniques that let us visualize these distributions, and use maps as communicative devices in our explorations of these topics.

GEOG 121. United States and Canada. 3 Units
Term Typically Offered: Fall, Spring

Present distribution and historical development of population, land use and industry in the U.S. and Canada in relation to regional variations in the physical environment and cultural heritage.

GEOG 125. Geography Of East Asia. 3 Units
Term Typically Offered: Fall, Spring

Geographic setting and nature of Far Eastern civilization; origins, development and present outlines of settlement; cultures, resource use, economic structures, population, levels of technological achievement, and land use in China, Japan and Korea.

GEOG 127. Geography Of Africa. 3 Units
Term Typically Offered: Spring only – odd years

Emphasis is on sub-Saharan Africa with consideration given to selected topics such as population problems, industrialization, regional groupings, transportation, and internal and external relationships.

GEOG 128. Geography Of Europe. 3 Units
Term Typically Offered: Spring only – even years

Survey of Europe with emphasis on its physical environment, contemporary demographic, economic, and ethnic patterns, and the changing political landscape. Consideration will also be given to Europe’s historic and present-day links with other world regions, and to the geographic basis for many of the social, political, economic, and environmental challenges facing contemporary Europe.

GEOG 129A. Special Topics in Regional Geography A. 3 Units
Term Typically Offered: Fall only

Geographic survey of a selected region with emphasis on its physical environment and selected economic, demographic, political, and cultural patterns. Consideration may include its connection to other world regions and its role in current events. The specific region is identified by the Geography Department at scheduling. This course and GEOG 129B and GEOG 129C may be taken for up to 9 units.

GEOG 129B. Special Topics in Regional Geography B. 3 Units
Term Typically Offered: Fall, Spring

Geographic survey of a selected region with emphasis on its physical and human geography. Topics may include climate, landforms, vegetation, economics, demographics, culture, and the region’s connection to other world regions and its role in current events. The specific region is identified by the Geography Department at scheduling. This course and GEOG 129A and GEOG 129C may be taken for up to 9 units.

GEOG 129C. Special Topics in Regional Geography C. 3 Units
Term Typically Offered: Fall, Spring

A selected world region is the focus of this course that geographically surveys the region’s physical and human environment. Potential topics include climate, landforms, vegetation, economics, demographics, culture, and more. The specific region is identified by the Geography Department at scheduling. This course and GEOG 129A and GEOG 129B may be taken for up to 9 units.

GEOG 131. California. 3 Units
Term Typically Offered: Fall only

Study of landforms, climate, vegetation, population distribution and change, industry, transportation, water, energy, and agriculture in California.

GEOG 133. Geography of the Middle East. 3 Units
Term Typically Offered: Fall only

This course will help students to develop a nuanced understanding of the complexity and diversity of the Middle East. Focusing on the human geography of the Middle East, we will examine the politics and cultures of the region. Particular focus will be on post-World War I geopolitics, when contemporary nation-states came to existence and several different conflicts evolved.

GEOG 141. Geography of Economic Activity. 3 Units
Term Typically Offered: Fall only – even years

Spatial organization of man’s activities related to production, exchange and consumption. Attention is given to resource development and the areal variations of factors affecting it, to concepts of spatial interaction and to spatial aspects of agricultural, industrial and urban land use. An examination of problems related to regional economic development. Changing perceptions of spatial organization of economic activities is also considered. Emphasis is on both theoretical framework and case study applications.

GEOG 142. Feminist Geography. 3 Units
Term Typically Offered: Fall, Spring

Feminist geography has long aimed to unbind geography, asking challenging questions about who geographers are, and what counts as geographic theory and practice, which spaces geographers study, and whose spaces inform theory. In this course we bring the feminist project into the classroom by exploring the work of feminist geographers who seek to challenge the embedded whiteness in our field. We also aim to incorporate the decolonial practices to transform the geographic scholarship in an international and multi-disciplinary context.

GEOG 143. Environmental Hazards and Society. 3 Units
Term Typically Offered: Spring only – odd years

Focuses on how a place’s social systems and physical systems intersect to create hazards. Considers the development of various theoretical approaches to hazards; risk perception and societal responses to hazard events; the history of U.S. disaster response; and approaches to risk/vulnerability assessment.
GEOG 141. Programming for GIS.
3 Units
This course is an introduction to programming and scripting for intermediate GIS users, using an object-oriented programming approach. You will develop well-documented and structured geoprocessing programs using the Python programming language and ArcPy, a site package (library) for ArcGIS geoprocessing tools.

GEOG 142. Advanced Programming for GIS.
3 Units
This is an advanced course in programming and scripting for intermediate to advanced GIS users, using an object-oriented programming approach. You will develop well-documented and structured geoprocessing programs for data management, processing, and automation in the Python programming language, leveraging libraries such as ArcPy and GDAL.

GEOG 143. GIS Data Acquisition and Management.
3 Units
This course focuses on acquisition and management of geospatial datasets and addresses the interpretation of a variety of data formats available in global information systems (GIS). It explores concepts of geospatial data management strategies, primary GIS data creation, secondary data acquisitions, and leveraging leading-edge geospatial data deployments.

GEOG 144. Transforming the City.
3 Units
Examination of dynamic urban social, spatial, and political forces related to housing, gentrification, and public space. Attention is given to the roles of class, race, gender, and ethnicity in shaping the spaces and processes of urban transformation in cities across the world. Guest speakers, written assignments, and discussions complement weekly lectures.

GEOG 145. Population Geography.
3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Spring only
Spatial patterns of population numbers and characteristics; migration and spread of ideas; potential for economic and cultural developments.

GEOG 146. Urban Geography.
3 Units
Term Typically Offered: Spring only – odd years
Consideration of cities as centers of human activity from the rise of urban life in the Old and New Worlds to the present day patterns of metropolis and megalopolis. The functions and interactions of cities in Earth’s limited space and on Earth’s limited resources are studied historically and crossculturally. Also examined are changing perceptions of the urban phenomenon and attempts to enhance the quality of urban life.

GEOG 147. Urban and Regional Planning.
3 Units
Term Typically Offered: Fall, Spring
Introduction to the theory and practice of urban and regional planning. Topics include the history of planning, the development of comprehensive and land use plans, growth management, and transportation and environmental planning. Includes guest speakers from the planning community as well as the opportunity to work on a project with a community organization or government agency to put into practice what is discussed in class.

GEOG 148. Transportation Geography.
3 Units
Prerequisite(s): GEOG 141, GEOG 147, or GEOG 148 or instructor permission.
Term Typically Offered: Spring only – odd years
Explores the geography of transportation using both theory and applications, quantitative and qualitative methods. Topics include the history and economic importance of transportation systems for all major modes; their political, social, and environmental aspects; and basic analytical methods, including accessibility dynamics, network analysis, and spatial interaction models. Focus will be on the U.S., with frequent reference to local issues, though material will be drawn on from around the world.

GEOG 149. Applied GIS.
3 Units
Term Typically Offered: Fall only
GIS-based research methods and project management. Development of project proposals, data collection plans, and other research techniques in a group and/or individual setting. Readings and lab exercises build on previous GIS skills. Lecture 2 hours; Laboratory 3 hours.

GEOG 150. Programming for GIS II.
3 Units
Prerequisite(s): GEOG 150 or instructor approval.
Term Typically Offered: Fall, Spring
This is an advanced course in programming and scripting for intermediate to advanced GIS users, using an object-oriented programming approach. You will develop well-documented and structured geoprocessing programs for data management, processing, and automation in the Python programming language, leveraging libraries such as ArcPy and GDAL.

GEOG 151. GIS Data Acquisition and Management.
3 Units
Prerequisite(s): GEOG 109
Term Typically Offered: Fall, Spring
This course focuses on acquisition and management of geospatial datasets and addresses the interpretation of a variety of data formats available in global information systems (GIS). It explores concepts of geospatial data management strategies, primary GIS data creation, secondary data acquisitions, and leveraging leading-edge geospatial data deployments.

GEOG 152. California’s Water Resources.
3 Units
Term Typically Offered: Spring only
Study of the location and nature of the state’s surface and underground water, including development by government agencies, water needs of cities, farms, recreation and wildlife, implications of water rights, water marketing and conservation, and management of floods, droughts and pollution.

GEOG 154. Food Geography.
3 Units
Prerequisite(s): GEOG 109
Term Typically Offered: Fall
This course explores the geography of food, the global food system, and human nutrition. Students will examine the production, consumption, and distribution of food and its environmental impact. Topics include agriculture, food systems, and sustainability.

GEOG 155. Urban Geography.
3 Units
Term Typically Offered: Spring only
Introduction to the study of cities and urban areas. Topics include urbanization, urban form, urban processes, and urban policies. Students will engage with case studies and current issues in urban geography.

GEOG 156. Urban and Regional Planning.
3 Units
Term Typically Offered: Fall
Introduction to the theory and practice of urban and regional planning. Topics include the history of planning, the development of comprehensive and land use plans, growth management, and transportation and environmental planning. Includes guest speakers from the planning community as well as the opportunity to work on a project with a community organization or government agency to put into practice what is discussed in class.

GEOG 157. Urban Geography.
3 Units
Term Typically Offered: Spring
Examination of the geography of urban areas and the processes that shape them. Topics include urbanization, urban form, urban processes, and urban policies. Students will engage with case studies and current issues in urban geography.

GEOG 158. Urban and Regional Planning.
3 Units
Term Typically Offered: Fall
Introduction to the theory and practice of urban and regional planning. Topics include the history of planning, the development of comprehensive and land use plans, growth management, and transportation and environmental planning. Includes guest speakers from the planning community as well as the opportunity to work on a project with a community organization or government agency to put into practice what is discussed in class.

GEOG 159. Urban Geography.
3 Units
Term Typically Offered: Spring
Examination of the geography of urban areas and the processes that shape them. Topics include urbanization, urban form, urban processes, and urban policies. Students will engage with case studies and current issues in urban geography.

GEOG 160. Urban and Regional Planning.
3 Units
Term Typically Offered: Fall
Introduction to the theory and practice of urban and regional planning. Topics include the history of planning, the development of comprehensive and land use plans, growth management, and transportation and environmental planning. Includes guest speakers from the planning community as well as the opportunity to work on a project with a community organization or government agency to put into practice what is discussed in class.

GEOG 161. California’s Water Resources.
3 Units
Term Typically Offered: Spring only
Study of the location and nature of the state’s surface and underground water, including development by government agencies, water needs of cities, farms, recreation and wildlife, implications of water rights, water marketing and conservation, and management of floods, droughts and pollution.

GEOG 162. Applied GIS.
3 Units
Term Typically Offered: Fall only
GIS-based research methods and project management. Development of project proposals, data collection plans, and other research techniques in a group and/or individual setting. Readings and lab exercises build on previous GIS skills. Lecture 2 hours; Laboratory 3 hours.

GEOG 163. Quantitative Methods in Geography.
3 Units
Term Typically Offered: Spring only
Introduction to techniques useful in the analysis of spatial distributions and other geographic phenomena: basic aspatial descriptive and inferential techniques, correlation, regression, and spatial inferential techniques.

GEOG 164. Qualitative Methods in Geography.
3 Units
Prerequisite(s): GEOG 102
Students learn and conduct an array of observational and qualitative research techniques used in human geography, including landscape observation, participant observation, interviews, surveys and questionnaires, group discussions (focus groups, charrettes, etc.), visual methods, archival research, and analyzing some of the writing styles commonly used in qualitative research. One learns the relative strengths and weaknesses of these techniques, their appropriate applications, ways to combine them in mixed-methods research, and how to analyze and represent the data.
GEOG 190. Senior Research Seminar in Geography. 3 Units
Prerequisite(s): GEOG 1, GEOG 2, GEOG 3, GEOG 102; senior standing, and GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X; instructor permission.
General Education Area/Graduation Requirement: Writing Intensive
Graduation Requirement (W)
Term Typically Offered: Spring only
Writing-intensive capstone course requiring students to complete independent research projects displaying their mastery of geography’s content and methods. Projects undertaken in a given semester share a common thematic and/or regional focus. Students use bibliographic, field, spatial analytic, graphic, and verbal skills. Context for projects is provided by a review of the recent history of the discipline. Lecture/discussion three hours.

GEOG 192A. Geography Field Experience A. 1 - 2 Units
Prerequisite(s): one geography course or instructor permission.
Term Typically Offered: Fall, Spring
A particular geographical area is explored and studied via beginning-level field observation. Emphasis may be placed on physical features, cultural features, or both.
Credit/No Credit

GEOG 192B. Geography Field Experience B. 1 - 2 Units
Prerequisite(s): one geography course or instructor permission.
Term Typically Offered: Fall, Spring
A particular geographical area is explored and studied via intermediate-level field observation. Emphasis may be placed on physical features, cultural features, or both.
Credit/No Credit

GEOG 192C. Geography Field Experience C. 1 - 2 Units
Prerequisite(s): one geography course or instructor permission.
Term Typically Offered: Fall, Spring
A particular geographical area is explored and studied via advanced-level field observation. Emphasis may be placed on physical features, cultural features, or both.
Credit/No Credit

GEOG 193A. Field Geography: Urban-Metropolitan. 3 Units
Prerequisite(s): Instructor permission
Term Typically Offered: Spring only – odd years
Examines the internal structure and external relations of Sacramento as a metropolitan center and of nearby urban communities through field observation and exercises. Emphasis is placed on mapping and interviewing as ways of gaining useful information on urban patterns.

GEOG 193B. Field Geography: Suburban-Rural. 3 Units
Prerequisite(s): Instructor permission.
Examines competition for land use in suburban Sacramento as urban sprawl overruns less intensive uses. Small towns in the lower Sacramento Valley also examined. Group field trips, interviews, field mapping and discussions. Field trip(s) may be required.

GEOG 193C. Field Geography: Physical. 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall only
Survey of selected areas with systematic examination of elements of the natural landscape. Group field trips and individual preparation of reports and consultation with instructor. Field trip(s) may be required.

GEOG 194. Geography - Related Work Experience. 6 - 12 Units
Prerequisite(s): Consent of supervising faculty and Department Chair.
Term Typically Offered: Fall, Spring
Supervised employment in a company or agency doing geography-related work, arranged through the Department of Geography and the Cooperative Education Program office. Requires preparation of application packet, completion of a 3-6 month full- or part-time work assignment, and a written report. Units not applicable to the Geography major.
Credit/No Credit

GEOG 195A. Geography Internship A. 1 - 3 Units
Term Typically Offered: Fall, Spring
Supervised work experience at the beginning level in an approved professional environment, working with professionals in public or private organizations. Supervision supplied by a geography faculty member and on-site supervisor. Placements require 4-12 hours per week, depending on units.
Note: Open to all Geography majors and minors with permission of supervising faculty member and Department Chair. GEOG 195A, GEOG 195B, and GEOG 195C may be taken for up to 6 total units.
Credit/No Credit

GEOG 195B. Geography Internship B. 1 - 3 Units
Term Typically Offered: Fall, Spring
Supervised work experience at an intermediate level in an approved professional environment, working with professionals in public or private organizations. Supervision supplied by a geography faculty member and on-site supervisor. Placements require 4-12 hours per week, depending on units.
Note: Open to all Geography majors and minors with permission of supervising faculty member and Department Chair. GEOG 195A, GEOG 195B, and GEOG 195C may be taken for up to 6 total units.
Credit/No Credit

GEOG 195C. Geography Internship C. 1 - 3 Units
Term Typically Offered: Fall, Spring
Supervised work experience at an advanced level in an approved professional environment, working with professionals in public or private organizations. Supervision supplied by a geography faculty member and on-site supervisor. Placements require 4-12 hours per week, depending on units.
Note: Open to all Geography majors and minors with permission of supervising faculty member and Department Chair. GEOG 195A, GEOG 195B, and GEOG 195C may be taken for up to 6 total units.
Credit/No Credit
GEOG 196F. Feminist Geography. 3 Units
Term Typically Offered: Fall, Spring, Summer

In this course we bring the feminist project in to the classroom by exploring the work of feminist geographers who seek to challenge the embedded whiteness in our field. We also aim to incorporate the decolonial practices to transform the geographic scholarship in an international and multi-disciplinary context.

GEOG 196G. Programming for GIS II. 3 Units
Prerequisite(s): GEOG 150 or instructor approval.
Term Typically Offered: Spring only

This is an advanced course in programming and scripting for intermediate to advanced GIS users, using an object-oriented programming approach. You will develop well documented and structured geoprocessing programs for data management, processing, and automation in the Python programming language, leveraging libraries such as ArcPy and GDAL.

GEOG 196W. Political Ecology, Nature, and Justice. 3 Units
Term Typically Offered: Fall only – odd years

This course will provide an overview of political ecology, a growing subfield in geography that examines the unequal political and socioeconomic power relations embedded in human-environment interactions. Students will develop advanced critical thinking skills related to real-world socio-environmental issues. The course will introduce major debates, scholarly intersections, and particular themes in contemporary political ecological research, including a discussion of urban issues, gender, race, water, and food justice.

GEOG 198. Co-Curricular Activities. 1 - 6 Units
Prerequisite(s): Consent of faculty Sponsor and department chair.
Term Typically Offered: Fall, Spring

Co-curricular activities related to subject matter and concerns of the Geography Department, e.g. students may qualify for credit by providing special tutorial assistance to EOP students or others in introductory courses.
Note: May be repeated for up to 6 units of credit.

Credit/No Credit

GEOG 199. Special Problems. 1 - 3 Units
Prerequisite(s): Approval of the faculty sponsor and Department Chair.
Term Typically Offered: Fall, Spring, Summer

Individual projects or directed reading.
Note: Open only to students competent to carry on individual work.

Credit/No Credit

GEOG 199A. Geography Special Problems A. 1 - 3 Units
Prerequisite(s): Approval of the faculty sponsor and department chair.
Term Typically Offered: Fall, Spring

Individual projects or directed reading at a beginning level. Graded (CR/NC Available) Units: 1.0 - 3.0
Note: Open only to students competent to carry on individual work.

Credit/No Credit

GEOG 199B. Geography Special Problems B. 1 - 3 Units
Prerequisite(s): Approval of the faculty sponsor and department chair.
Term Typically Offered: Fall, Spring

Individual projects or directed reading at an intermediate level, ordinarily taken following completion of GEOG 199A. Graded (CR/NC Available) Units: 1.0 - 3.0
Note: Open only to students competent to carry on individual work.

Credit/No Credit

GEOG 199C. Geography Special Problems C. 1 - 3 Units
Prerequisite(s): Approval of the faculty sponsor and department chair.
Term Typically Offered: Fall, Spring

Individual projects or directed reading.
Note: Open only to students competent to carry on individual work.

Credit/No Credit

GEOG 299. Special Problems. 1 - 3 Units
Prerequisite(s): Approval of the faculty sponsor and Department Chair.
Term Typically Offered: Fall, Spring

Individual projects or directed reading.
Note: Open only to students competent to carry on individual work.

Credit/No Credit

Geology (GEOL)

GEOL 5. Geology Of Mexico. 4 Units
General Education Area/Graduation Requirement: Laboratory (B3), Physical Science (B1)
Term Typically Offered: Fall, Spring

Introduction to Geology through examination of aspects of the geology of Mexico. Emphasizes problem-based approach to learning Geology and the process of scientific investigation. Topics include a wide range of geological concepts including plate tectonic setting of Mexico, living with volcanoes: the Mexican volcanic belt, the Mexico City earthquake, issues of water supply, flooding and atmospheric pollution in Mexico City, the Chicxulub crater and geologic time, ore deposits of Mexico. Lecture three hours; laboratory three hours.

GEOL 5A. Geology of Mexico Field Trip. 2 Units
Prerequisite(s): GEOL 5
Term Typically Offered: Fall, Spring

Focuses on fundamental geologic concepts as seen from real world examples in Mexico that will be visited during several strategic field stops. Field stops will emphasize a problem-based approach to learning geology and the process of scientific investigation. Topics include a wide range of geological concepts including plate tectonic setting of Mexico, living with volcanoes, the Mexico City earthquake, issues of water supply, flooding, climate change and atmospheric pollution in Mexico City, the Chicxulub meteor impact crater, geologic time, ore deposits of Mexico, and natural hazards. Field trip ten days. Field trip(s) may be required.
GEOL 7. Natural Disasters. 3 Units
General Education Area/Graduation Requirement: Physical Science (B1)
Term Typically Offered: Fall, Spring

Examination of earth materials and earth processes through the study of natural disasters. Topics include earthquakes, volcanoes, landslides, floods, tsunamis, hurricanes, tornadoes and meteorite impacts. Examination of causes, effects and mitigation of natural disasters.

GEOL 8. Earth Science. 3 Units
General Education Area/Graduation Requirement: Physical Science (B1)
Term Typically Offered: Fall, Spring, Summer

Earth and its neighbors in space. Scientific method and discovery in the study of stars, planets, weather, rivers, glaciers, oceans, rocks, volcanoes, earthquakes, landslides, mountains, drifting continents, the earth in time. Note: Students contemplating a geology major or minor in geology should enroll in GEOL 10, not in GEOL 8. No credit for those who have taken GEOL 10 or equivalent.

GEOL 8L. Earth Science Lab. 1 Unit
Prerequisite(s): GEOL 8; may be taken concurrently.
General Education Area/Graduation Requirement: Laboratory (B3), Physical Science (B1)
Term Typically Offered: Fall, Spring

Emphasizes scientific methods and systematic laboratory procedures. Includes weather analysis, rock and mineral identification, study of geologic concepts by means of topographic maps, and exercises in astronomy and oceanography. Laboratory three hours.

GEOL 8T. Earth Science Lab for Teachers. 1 Unit
Prerequisite(s): GEOL 8; may be taken concurrently.
Term Typically Offered: Fall, Spring

Exploration of the solid Earth, its atmosphere and oceans, and the Earth's place in the solar system. Emphasizes learning Earth science through investigation, and uses Earth science to understand the processes of science. Laboratory three hours.

GEOL 10. Physical Geology. 3 Units
General Education Area/Graduation Requirement: Physical Science (B1)
Term Typically Offered: Fall, Spring

Rocks and their mineral constituents, geological processes such as weathering, erosion, glaciation, mountain building, etc., volcanoes, earthquakes, folds, faults, the earth's interior, plate tectonics and earth resources. Field trip. Fee course. Fee course. Field trip(s) may be required.

GEOL 10L. Physical Geology Lab. 1 Unit
Prerequisite(s): GEOL 10; may be taken concurrently.
General Education Area/Graduation Requirement: Physical Science (B1), Laboratory (B3)
Term Typically Offered: Fall, Spring

Laboratory supplement to GEOL 10. Emphasizes scientific method and systematic laboratory procedures. Identification of common minerals and rocks. Introduction to and analysis of topographic and geologic maps. Field trip. Laboratory three hours. Fee course. Fee course. Field trip(s) may be required.

GEOL 11. Digital Methods in Geoscience. 1 Unit
Prerequisite(s): GEOL 5 or GEOL 10/10L. GEOL 10L can be taken concurrently.
Term Typically Offered: Fall, Spring

Introductory course to the basic computing needs to be successful in the geosciences. Topics include Microsoft Office, Adobe Suite and reference software.

GEOL 12. Historical Geology. 3 Units
Prerequisite(s): GEOL 5 or GEOL 10 and GEOL 10L.
Term Typically Offered: Fall, Spring

Origin and geological history of the earth and the evolution of its animal and plant inhabitants. Fee course.

Note: Lecture 3 hours.

GEOL 12L. Historical Geology Lab. 1 Unit
Prerequisite(s): GEOL 12; and GEOL 5 or GEOL 10 and GEOL 10L. GEOL 12 may be taken concurrently.
Term Typically Offered: Fall, Spring

Supplements GEOL 12. Use of sedimentary rocks, fossils, geologic maps, and structural sections in interpreting ancient environments, tectonic settings, and geologic history. Age relations and correlation of rock and time-rock units. Introduction to fossil identification and biostratigraphy. Laboratory three hours.

GEOL 100. Earth Materials - Rocks and Minerals. 4 Units
Prerequisite(s): CHEM 1A, GEOL 5 or GEOL 10/10L, and GEOL 12 (GEOL 12 can be taken concurrently) Field Trip.
Term Typically Offered: Fall, Spring

Properties and identification of minerals and rocks; rock formation and the rock cycle. Lecture three hours; laboratory three hours; field trip. Field trip(s) may be required.

GEOL 101. Optical Mineralogy. 2 Units
Prerequisite(s): CHEM 1A, GEOL 5 or GEOL 10/10L, and GEOL 100 (GEOL 100 can be taken concurrently)
Term Typically Offered: Fall, Spring

Introduction to advanced mineral identification by physical and optical properties. Techniques and theory of optical mineral analysis and crystallography. Lecture 1 hour; laboratory 3 hours.

GEOL 102. Igneous and Metamorphic Petrology. 4 Units
Prerequisite(s): GEOL 100 and GEOL 103
Term Typically Offered: Fall, Spring

Study of the origin, evolution, occurrence, geochemistry, dynamics and physical characteristics of igneous and metamorphic systems. The laboratory will focus on both hand-specimen and petrographic-microscope studies. Lecture three hours, laboratory three hours. Fee course. Fee course.
GEOL 103. Sedimentology/Stratigraphy. 4 Units
Prerequisite(s): GEOL 12, GEOL 12L, and GEOL 100
Term Typically Offered: Spring only
Compositions, textures, classification, origins and structures of sediments and sedimentary rocks. Hand specimen observation and interpretation. Facies models, classification and correlation of stratigraphic units, subsurface techniques. Lab emphasizes hand specimen and microscope identification and subsurface techniques. Field trip. Lecture three hours, laboratory three hours. Fee course.

GEOL 105. Paleontology. 4 Units
Prerequisite(s): GEOL 5 or GEOL 10 and GEOL 10L, GEOL 12 and GEOL 12L.
Term Typically Offered: Spring only
Biological, evolutions, classification and paleoecology of important groups of fossil organisms. Uses of fossils in solving geologic problems.

GEOL 110A. Structural Geology and Tectonics. 4 Units
Prerequisite(s): GEOL 111A and GEOL 111B, PHYS 5A or PHYS 11A, MATH 26A or MATH 30.
Term Typically Offered: Fall, Spring
Description, analysis and interpretation of geologic structures and tectonic settings. Theory of stress and strain as it pertains to the origin of folds, faults, joints, cleavage, and other structural elements. Laboratory includes techniques of structural analysis such as orthographic projections, stereonets, structure contours, Mohr diagrams, interpretation of maps and cross sections. Lecture three hours, laboratory three hours.

GEOL 110B. Structural Geology Field. 1 Unit
Prerequisite(s): GEOL 103, GEOL 111A, GEOL 111B, and GEOL 110A. It is recommended that GEOL 110A be taken concurrently.
Term Typically Offered: Fall, Spring
Field description, mapping and interpretation of geologic structures. Includes techniques of taking detailed field notes, field photography measurement of structures using a pocket transit, geologic map and cross section construction, stereonet analysis, and report writing. Consists of off-campus fieldwork. Fee course.

GEOL 111A. Field Geology. 2 Units
Prerequisite(s): GEOL 12L and GEOL 100
Corequisite(s): GEOL 111B
Term Typically Offered: Spring only
Science and art of recognizing, describing and interpreting geologic features in the field. Lecture and laboratory course on the preparation and use of topographic and geologic maps, stratigraphic and cross sections, compass and GPS instrument. Lecture one hour; laboratory three hours.

GEOL 111B. Field Techniques. 2 Units
Prerequisite(s): GEOL 100 and GEOL 103. GEOL 103 may be taken concurrently.
Corequisite(s): GEOL 111A
Term Typically Offered: Spring only
Introduction to geologic field methods including descriptions of rocks, geologic mapping, observation, interpretation and geologic report writing. Detailed mapping techniques will also be covered; these may include the use of plane table, total station theodolite and global position systems. Consists of off-campus fieldwork. Fee course.

GEOL 112. Geophysics For Geologists. 3 Units
Prerequisite(s): GEOL 5 or GEOL 10 and GEOL 10L, PHYS 5A, PHYS 5B which may be taken concurrently.
Term Typically Offered: Fall, Spring
Introduction to the principal geophysical concepts and techniques useful to geologists in the study of tectonics, the Earth’s interior and resource exploration. Includes the study of seismology, heat flow, gravity, borehole geophysics, electromagnetism and geodynamics. Fee Course/Field Trip.

GEOL 114. Volcanology. 3 Units
Prerequisite(s): GEOL 100; May be taken concurrently.
Term Typically Offered: Fall, Spring
An advanced exploration of physical volcanic processes, chemistry of magmas, interpretation of volcanic deposits, historic eruptions and volcanic hazard assessment.

GEOL 115. Volcanoes: An Introduction. 3 Units
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring
An introductory to volcanoes including volcanic landforms, eruption styles, properties of magma, and volcanic hazards/ mitigation.

GEOL 120. Surficial Processes. 4 Units
Prerequisite(s): GEOL 5 or GEOL 10 and GEOL 10L; GEOL 12, GEOL 12L.
Term Typically Offered: Fall, Spring
Focused study on the basic forces that drive surficial processes such as wind water and gravity and the role of weathering, sediment transport and deposition on landform and landscape development. A laboratory component will enhance student understanding by solving applied problems as well as develop proficiencies with various geologic tools.

Note: 150 minutes Lecture = 3 units, 150 minutes Lab = 1 unit. Fee Course.

GEOL 12L and GEOL 100
GEOL 121. Geology of California. 3 Units
Prerequisite(s): GEOL 5 or GEOL 10.
Term Typically Offered: Fall, Spring
Regional study of California and certain surrounding areas with regard to geologic development, plate tectonics, economic resources and geologic hazards. Lecture and field trip(s). Fee course. Fee course.
Field trip(s) may be required.

GEOL 122. Hydrology Research Experience. 3 Units
Hydrology research and professional development experience. Students will learn hypothesis development and testing, data interpretation, and science communication skills focusing on data collected during a summer Hydrology field experience. Students will also learn about Hydrology career paths, apply for internships, and present research findings. Students must participate in the summer Hydrology field experience prior to taking this class.

GEOL 123. Geochemistry. 3 Units
Prerequisite(s): GEOL 5 or GEOL 10 and GEOL 10L, CHEM 1A.
Term Typically Offered: Fall, Spring
Fundamentals of the geochemistry of Earth materials. Thermodynamics and kinetics of geological environments, silicates and carbonates, major element geochemistry, trace and rare earth element geochemistry, stable and radiogenic isotopes. Applications to studies of aqueous, pedogenic, igneous, sedimentary, and metamorphic environments. Analysis of geochemical aspects of contemporary resource, environmental, and paleoenvironmental problems.

GEOL 125. Metallic Ore Deposits. 3 Units
Prerequisite(s): GEOL 100, CHEM 1A.
Term Typically Offered: Fall, Spring
Fee course.
Field trip(s) may be required.

GEOL 126. Environmental Field Methods. 3 Units
Prerequisite(s): GEOL 10 or GEOL 10L or instructor permission.
Field analysis of the local environment, including soil and water systems. Students will learn monitoring design, sample collections, sample analysis, data interpretation, and presentation methodologies for environmental geology applications.

GEOL 127. Hydrogeology. 4 Units
Prerequisite(s): CHEM 1A, GEOL 10, GEOL 10L, PHYS 5A, and MATH 26A or MATH 30, or instructor permission.
Term Typically Offered: Spring only
Presents fundamentals of groundwater flow, as influenced by topography and geology; geological aspects of groundwater supply, contamination, remediation, and protection of hydrogeological regions of the U.S. and their critical groundwater issues. Lecture three hours; laboratory three hours. Lecture three hours.

GEOL 130. Oceanography. 3 Units
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring, Summer
Survey of geological, physical, chemical and biological oceanography including the sea floor; waves, tides, currents; the physical and chemical properties of seawater and their distribution in the sea; planktonic life and its relation to nutrients.

GEOL 132. Marine Geology. 3 Units
Prerequisite(s): GEOL 10 and GEOL 10L or GEOL 12 and GEOL 12L
Term Typically Offered: Spring only
Origin, structure and evolution of the ocean basins and their margins. Topics covered will include marine sediments, seafloor bathymetry, seismic stratigraphy, sea level history, and marine micropaleontology. Fee course. Field trip: Weekend trip to Moss Landing, California to collect marine samples.
Fee course.
Field trip(s) may be required.

GEOL 140. Geology and the Environment. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: GE AREA D, Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring
Applies geologic data and principles to situations affecting our environment. The geologic study of earthquakes, volcanoes, floods, landslides, groundwater and similar topics supplies the background data for lectures on land use and other social choices. Topics such as geopolitics and mineral supply provide a basis for understanding international politics, social costs, and world economics. Fee course.
Fee course.

GEOL 150. Computer Mapping in Geology. 3 Units
Prerequisite(s): GEOG 109 or instructor permission
Term Typically Offered: Fall, Spring
This course is designed to enhance the mapping skills of geology majors by providing them an opportunity to learn modern computer aided mapping techniques - methods and tools widely used across industry, government, and academe. The course is designed to teach students how to effectively use various tools and mapping software by applying their developing skills in solving a variety of geological problems. This course strategy will help develop both student technical map making and innovative problem solving skills.

GEOL 170. Age of Dinosaurs. 3 Units
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring
Applies to the fundamental principles of geology, biology, and ecology to understanding the evolution of the Mesozoic world. Emphasis is placed on the nature and evolution of dinosaurs in the context of global regional changes in the Mesozoic ecosystem. Included are considerations of the data, methods, and uncertainties in paleontology and other historical sciences.

GEOL 171. Petroleum Geology. 3 Units
Prerequisite(s): PHYS 5A & GEOL 103. GEOL 103 may be taken concurrently.
Term Typically Offered: Fall, Spring
Introduction to the origin, migration, and accumulation of hydrocarbons in the context of stratigraphic and structural systems. Exploration and production of both conventional and unconventional resources. Lecture three hours. Field trip. Fee Course.
Fee course.
Field trip(s) may be required.
GEOL 177. Hawaii Volcanic Field Trip. 2 Units
Prerequisite(s): Geology 10 or another physical geology course approved by instructor; Field Trip, 2 units. Fee course.
Term Typically Offered: Fall, Spring

An investigation and visit to the many interesting volcanic features and eruption activities of Hawaiian volcanism. Topics include tectonics, physical volcanology, and volcanic monitoring techniques. Credit/No Credit
Fee course.

GEOL 180. Water Planet. 3 Units
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring

Investigating the physical processes that control water movement and supply across the planet. Subjects include the hydrological cycle, oceans, waves and tides, fisheries, water in the atmosphere, water and wildfire, landslides, river systems, groundwater and water quality, water management, and the future of water resources on a changing planet.

GEOL 184. Geological Field Trip. 2 Units
Term Typically Offered: Fall only

10-day field trip to a region of outstanding geology. Attendance at preliminary meetings is required. Analyzes and interpretation of geologic features is emphasized. Fee course.
Note: Student should consult the Geology Department during the semester before planning to take the course. May be taken more than once for credit.
Credit/No Credit
Fee course.
Field trip(s) may be required.

GEOL 188. Advanced Geologic Mapping. 6 Units
Prerequisite(s): GEOL 102, GEOL 103, GEOL 110A, GEOL 110B, GEOL 111A, GEOL 111B and instructor permission.
Term Typically Offered: Fall, Spring

Advanced principles/methods of geologic mapping, interpretation and geologic report writing for selected field areas in the western United States. Mapping techniques include the use of aerial photographs and global position systems. Consists of on-campus field preparation and off-campus fieldwork. Fee course.
Fee course.

GEOL 189. Geology Colloquium. 1 Unit
Term Typically Offered: Fall, Spring

Students will attend and participate in the joint Geology, Environmental Studies, Ecology weekly colloquium series and will be exposed to a variety of geologic and environmental topics. Speakers include those from CSUS, the USGS, government and professional organizations, and other academic institutions. Topics and speakers vary each semester.
Note: This course must be taken twice.
Credit/No Credit

GEOL 190A. Geology and Tectonic Development of California Seminar. 3 Units
Prerequisite(s): GEOL 5 or GEOL 10, GEOL 12; GEOL 110A recommended.
Term Typically Offered: Fall, Spring

Seminar in the geologic and tectonic development of California.

GEOL 193C. Engineering Geology. 3 Units
Prerequisite(s): GEOL 5 or GEOL 10 and GEOL 10L, GEOL 12, PHYS 5A or PHYS 11A, MATH 29 or high school trigonometry.
Term Typically Offered: Fall, Spring

Investigates the engineering properties of earth materials, the engineering considerations required to build safe and durable structures on and within the Earth, and problems associated with structures designed and built neglecting physical environmental conditions. Designed to introduce engineering concepts to students who have a competent grasp of general geologic principles and processes. Lecture 3 hours.
Credit/No Credit

GEOL 195. Geology Internship. 1 - 3 Units
Term Typically Offered: Fall, Spring

Supervised unpaid work experience in government or industry. Supervision is provided by the faculty instructor and responsible officials in the work situations.
Note: Open to all upper division Geology majors with instructor permission. Number of units earned depends on number of hours worked.
Credit/No Credit

GEOL 196C. Introduction to Volcanoes Field Trip. 1 Unit
Prerequisite(s): GEOL 115 (can be taken concurrently).
Term Typically Offered: Fall, Summer

3-day field trip to regional volcanic sites such as Lassen Volcanic National Park. Course emphasizes analysis and interpretation of volcanic features as well as the impact of volcanic hazards on humans and society. Attendance at preliminary meetings is required. Fee course.
Prerequisite: GEOL 115, can be taken concurrently
Credit/No Credit
Fee course.
Field trip(s) may be required.

GEOL 197. Advanced Laboratory Techniques for Geology. 1 - 3 Units
Prerequisite(s): Appropriate upper division courses and instructor permission.
Term Typically Offered: Fall, Spring

Supervised individual instruction on techniques applied in geology laboratories for advanced research in mineralogy, petrology, geochemistry, geophysics, and paleontology. Fee course.
Credit/No Credit

GEOL 198A. Senior Research Preparation. 1 Unit
Prerequisite(s): Senior status and appropriate courses as determined by a Departmental faculty committee. The proposed project must be approved by a Department committee; instructor permission.
Term Typically Offered: Fall, Spring

Selection and design of an independent research project. A final written report is required and includes: research proposal, bibliography, and results of preliminary review of the literature. Student must choose a supervising instructor.
GEOL 198B. Senior Research Project. 2 Units
Possible topics include paleomagnetism, hydrology, chronological techniques, surface geology, rock surface structure, or other topics.
Prerequisite(s): Senior status and appropriate courses as determined by a Departmental faculty committee. The proposed project must be approved by the Department committee; instructor permission.
Term Typically Offered: Fall, Spring
Completion of an independent research project. A final written report is required. Progress reports may be required by the supervision instructor. Presentation of an oral report on the research project during the same semester is required.

GEOL 199A. Beginning Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or special studies at a beginning level, including fieldwork, lab work, library study, or other learning activities.
Note: Open only to students judged competent to carry on individual work. Credit/noncredit grading also available.

GEOL 199B. Intermediate Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or special studies at an intermediate level, including fieldwork, lab work, library study, or other learning activities.
Note: Open only to students judged competent to carry on individual work. Credit/noncredit grading also available.

GEOL 199C. Advanced Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or special studies at an advanced level, including fieldwork, lab work, library study, or other learning activities.
Note: Open only to students judged competent to carry on individual work. Credit/noncredit grading also available.

GEOL 200. Graduate Research Methods Seminar. 3 Units
Term Typically Offered: Fall
Developing a research proposal, library and internet searches, seeking external funding, presentation graphics, and publication formats. Students will develop a research project in preparation for thesis requirement. Seminar three hours.
Note: Graduate Writing Intensive (GWI).

GEOL 201. Seminar in Petrology. 3 Units
Prerequisite(s): GEOL 102, GEOL 103, graduate-level status in Geology, or instructor permission.
Term Typically Offered: Fall, Spring
Advanced study of petrology. Topics may include the origin and evolution of igneous/metamorphic/sedimentary rocks in different tectonic settings; application of advanced petrologic tools to explore current research questions including rock and mineral chemistry, optical analysis, geochronology, thermochronology.
Note: This course requires one or more field trips. May be taken for credit multiple times if covering different topics.
Field trip(s) may be required.

GEOL 202. Aqueous Geochemistry. 3 Units
Prerequisite(s): CHEM 1B; instructor permission.
Term Typically Offered: Fall, Spring

GEOL 204. Contaminant Hydrogeology. 3 Units
Prerequisite(s): CHEM 1B and CHEM 6B or CHEM 20, GEOL 202.
Term Typically Offered: Fall, Spring
Contaminants and contaminant transport in near-surface environments. Fluid-sediment interaction, fluid partitioning, common geochemical reactions, stability and mobility of groundwater contaminants, multi-phase systems, sampling considerations and overview of analytical techniques.

GEOL 208. Groundwater Modeling. 3 Units
Prerequisite(s): GEOL 127, MATH 45.
Term Typically Offered: Fall, Spring
Computer modeling of groundwater systems using 2 and 3 dimensional numerical solutions and common software packages. Topics will include data acquisition, constructing a numerical model, model calibration, flow paths, particle tracking and model output.

GEOL 212. Geologic Remote Imaging. 3 Units
Prerequisite(s): PHYS 5B or PHYS 11B; GEOL 102, GEOL 110A; and proficiency using a personal computer.
Term Typically Offered: Fall, Spring
Use of remote imaging in geologic applications. Types of imagery, acquisition, production, processing, and interpretation are covered.

GEOL 213. Seminar in Structural Geology and Tectonics. 3 Units
Prerequisite(s): GEOL 110A, MATH 30, graduate-level status in geology, or instructor permission.
Term Typically Offered: Fall, Spring
Advanced treatment of deformation of the lithosphere of the Earth over short and long timescales. Topics may include structural analysis, tectonic geochemistry, field studies, geochronology, use of technical analytical software, and interpretation of geologic mapping; review of published literature, collection and analysis of data, and preparation of technical manuscript.
Note: This course requires one or more field trips. May be repeated for credit if covering different topics.
Field trip(s) may be required.

GEOL 214. Advanced Volcanology. 3 Units
Term Typically Offered: Fall, Spring
Analyzes volcanic eruption processes. Interpretation of volcanic deposits in the evaluation of volcanic hazards, risk, eruption processes, and geologic history. Field trip. Field trip(s) may be required.

GEOL 218. Seminar in Geophysics. 3 Units
Prerequisite(s): PHYS 5B or PHYS 11C, GEOL 112, graduate-level status in geology, or instructor permission.
Term Typically Offered: Fall, Spring
Advanced study of geophysics. The focus of this course is the quantitative analysis of physical processes and the physical properties of the Earth at both local and global scale. Course may include field measurements in addition to analytical and numerical modeling. Topics covered in the course may include heat flow, seismology, gravity, magnetics, geodesy, plate tectonics, borehole techniques, and near surface exploration.
Note: This course requires one or more field trips. May be taken for credit multiple times if covering different topics.
Field trip(s) may be required.
GEOL 220. Seminar in Surficial Processes. 3 Units
Prerequisite(s): GEOL 120 or equivalent, graduate status in Geology, or instructor permission.
Term Typically Offered: Fall, Spring
Course explores the dynamics of geological and hydrologic processes operating at the earth's surface and the landscapes in which they interact. Topics may include hydrologic and geologic surface processes, system thresholds and responses, process linkages, problem solving, data generation and evaluation that characterize processes and the landscapes with which they interact.
Note: May be taken for credit multiple times if covering different topics.

GEOL 223. Seminar in Advanced Geochemistry. 3 Units
Prerequisite(s): CHEM 1A or equivalent, graduate-level status in Geology, or instructor permission.
Term Typically Offered: Fall, Spring
Advanced topics covering the geochemistry on Earth and of Earth materials. Topics may include: thermodynamics and kinetics of geological environments, silicate and carbonate systems, major element geochemistry, trace and rare earth element geochemistry, stable and radiogenic isotopes; applications to studies of aqueous, pedogenic, marine, igneous, sedimentary, or metamorphic environments; analysis of geochemical aspects of contemporary resource, environmental, and paleoenvironmental problems.
Note: May be taken for credit multiple times if covering different topics.

GEOL 227. Seminar in Advanced Hydrogeology. 3 Units
Prerequisite(s): GEOL 127, graduate-level status in geology, or instructor permission.
Term Typically Offered: Fall, Spring
Advanced study of hydrogeology. Topics may include: water budgets, groundwater flow to wells, aquifer testing, fracture flow, dewatering, salt water intrusion, groundwater chemistry and dating, tracers, and contaminant transport and remediation.
Note: May be taken for credit multiple times if covering different topics.

GEOL 230. Seminar in Geology. 3 Units
Term Typically Offered: Fall, Spring
Reading, analysis and discussion of the geologic literature on selected topics in geology. Student presentations and reports are required.
Note: May be taken twice for credit.

GEOL 240. Advanced Special Topics in Geology. 3 Units
Prerequisite(s): Graduate-level status in geology and/or instructor permission.
Term Typically Offered: Fall, Spring
Advanced special topics in Geology that may include structural geology, volcanology, hydrogeology, engineering geology or other specialized topics selected to meet student demand or respond to industry trends in geology.
Note: May be taken for credit multiple times if covering different topics.

GEOL 275. Quantitative and Numerical Research Methods. 3 Units
Prerequisite(s): MATH 31
Term Typically Offered: Fall, Spring
Introduction to quantitative and numerical methods of solving geologic problems using high level programming.

GEOL 280. Seminar in Earth's Climate History. 3 Units
Prerequisite(s): Graduate-level status in geology and/or instructor permission.
Term Typically Offered: Fall, Spring
Seminar course on global climate change through Earth's geologic history. Topics may include the mechanisms of climate change, climate archives (how we determine Earth's climate history), the snow-ball earth hypothesis, Paleocene-Eocene Thermal Maximum, glacial/interglacial climate change, humans and climate change, and mitigation and adaptation to climate change.
Note: May be taken for credit multiple times if covering different topics.

GEOL 290. Regional Geology of the Western US. 3 Units
Prerequisite(s): GEOL 100, GEOL 102, GEOL 103 and GEOL 110A.
Term Typically Offered: Fall, Spring
Application of advanced geological concepts in tectonics, stratigraphy, sedimentology, petrology, and volcanism to the geologic evolution of the Western United States from Precambrian to present. Field trip. Course Fee. Field trip(s) may be required.

GEOL 293. Engineering Geology. 3 Units
Prerequisite(s): GEOL 193C.
Term Typically Offered: Fall, Spring
Takes a geological approach to evaluating engineering issues associated with building with or on natural earthen materials. Rock and soil mechanics, slope stability, geophysical investigation of rock and soil properties.
Note: 150 minutes Lecture = 3 units.

GEOL 299. Special Problems in Geology. 1 - 4 Units
Prerequisite(s): Graduate-level status in geology, approval of project by a faculty sponsor and Department Chair; instructor permission.
Term Typically Offered: Fall, Spring
Graduate research. Independent research in geology that may include library research, short-term original research, technique development, fieldwork, or laboratory research. May include research toward thesis proposal. Culminating experience will be in the form of a written report, oral presentation, or scientific paper.

GEOL 500. Master's Thesis. 6 Units
Prerequisite(s): Advanced to candidacy and chair permission of his/her thesis committee.
Term Typically Offered: Fall, Spring
Completion of a thesis approved for the Master's degree. Should be taken in the final semester prior to the completion of all requirements for the degree.

GEOL 596. Comprehensive Examination. 0 Units
Term Typically Offered: Fall, Spring
A written comprehensive examination administered by a committee of three faculty members. Assesses the student's ability to integrate knowledge from core and elective courses, show critical and independent thinking, and demonstrate mastery of the subject matter. Required for the non-thesis option. Graded: CR/NC. May be retaken one time after 4 calendar months. Units: 0.
Credit/No Credit
German (GERM)

GERM 1A. Elementary German.  4 Units
Term Typically Offered: Fall only
Focuses on the development of listening, speaking, and reading skills. Special attention will be given to the relationship of the language to the civilization and culture of the German-speaking countries.

GERM 1B. Elementary German.  4 Units
Prerequisite(s): GERM 1A or instructor permission.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement, Humanities (Area C2)
Term Typically Offered: Fall, Spring
Continuation of GERM 1A. Speaking, listening, and reading skills are practiced and more emphasis is placed on the development of writing skills than in GERM 1A. Cultural introduction to the German-speaking countries is continued.

GERM 2A. Intermediate German.  4 Units
Prerequisite(s): GERM 1B or instructor permission.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement
Term Typically Offered: Fall, Spring
Continuation of GERM 1B with review of grammar and with further development of reading ability but with a greater emphasis on active skills in speaking and writing.
Note: Meets the Foreign Language Graduation Proficiency Requirement.

GERM 2B. Intermediate German.  4 Units
Prerequisite(s): GERM 2A or instructor permission.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement
Term Typically Offered: Spring only
Continuation of GERM 2A with greater emphasis on skills in writing.
Note: Meets the Foreign Language Graduation Proficiency Requirement.

GERM 5A. German Language Practice.  3 Units
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement
Term Typically Offered: Fall, Spring
Practice with German conversation and vocabulary; supervised individual and small-group instruction designed to develop German vocabulary, including conversation and listening skills at an intermediate level.
Note: Meets the Foreign Language Graduation Proficiency Requirement. May be taken for credit four times.

GERM 100. Advanced German Grammar.  3 Units
Term Typically Offered: Fall, Spring
Study of grammar and style and their practical application in writing and speaking.

GERM 105. Advanced German Language Practice.  3 Units
Term Typically Offered: Spring only
Supervised individual and small-group practice for upper-division students desiring to improve their German language skills, especially conversation, listening and vocabulary. Some written work may be assigned. May be taken for credit three times, but may count only once for major or minor credit.

GERM 140. Heroes, Dragons and Quests.  3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only
Exploration of the heroic adventures of the medieval knights in their quests for fame and love, with special attention to the bridal quest and the roles of their "ladies": their social, political, and economic position, and their impact on life in the Middle Ages. Discussions will be based on the reading of selected Middle High German works in English translation.
Note: No German language requirement.

GERM 141. German Mythology and Legend.  3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only
Exploration of Germanic myth and legend and their impact on art and literature. Readings in English.
Note: No German language requirement.

GERM 142. German Folk Literature, Legend, and Lore.  3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only
Study of the traditional folk literature; fairy tales, folk tales, legends, ballads and folk songs; of the German-speaking people, their holiday traditions, festivals and social customs. Readings in English.
Note: No German language requirement.

GERM 143. King Arthur and the Knights of the Round Table in Germany.  3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only
Study of King Arthur and the knights of the Round Table in the German medieval romances read in English translation.
Note: No German language requirement. Course will be offered every two years.

GERM 150. German Civilization: Beginning to 16th Century.  3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only
Historical, social, and artistic forces in German civilization from the time of the Great Migrations to the Reformation. All readings and lectures in English.

GERM 151. German Civilization: 17th Century to Present.  3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only
Historical, social, and artistic forces in German civilization from the Reformation through the 20th century. All readings and lectures in English.

GERM 194. Field Experience/Internship.  1 - 3 Units
Prerequisite(s): Intermediate competency in German and instructor permission.
Term Typically Offered: Fall, Spring
Directed fieldwork in a project which uses the language skills developed through previous study of German. The projects may include interpreting and translating for public and/or private agencies in Sacramento or other projects approved by the faculty supervisor. All work will be monitored by Sacramento State faculty. The student must submit written reports to his/her supervisor. May be taken more than once for credit. Credit/No Credit
GERM 195. Fieldwork: Tutoring. 1 - 3 Units
Prerequisite(s): Native/near-native fluency in German; upper division status; instructor permission.
Term Typically Offered: Fall, Spring

Tutoring of lower division students of German under supervision of instructor. May be taken for credit more than once.
Credit/No Credit

GERM 199. Special Problems. 1 - 3 Units
Prerequisite(s): Approval of instructor supervising the work.
Term Typically Offered: Fall, Spring

Individual projects or directed reading.
Note: Open only to students who appear competent to carry on independent study.
Credit/No Credit

Gerontology (GERO)

GERO 21. First Year Seminar: Becoming an Educated Person. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Introduction to the nature and possible meanings of higher education, and the functions and resources of the University. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills. Provide students with the opportunity to interact with fellow students and the seminar leader and to build a community of academic and personal support, as well as explore gerontological concepts needed to respond to demographic changes in today's world.

GERO 100. Aging Issues in Contemporary America. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring, Summer

Introduction to the field of Gerontology and how the discipline addresses society's aging needs. An examination of current issues in gerontology using a life span perspective focusing on older adults' needs/concerns along life's continuum in various environments. Major topics include implications of the demographic imperative, common aging changes/conditions, myths and stereotypes, effects of health/illness on individual and family roles, basic social issues and policies arising from the graying of America, and media, cultural and gender influences.

GERO 101. Older Adult Services and Strategies. 3 Units
Term Typically Offered: Fall, Spring

Exploration and analysis of the older adult service continuum within the context of changing diverse societal needs, service availability and accessibility, current public policy, and administrative and management issues facing care providers. A multidisciplinary examination of the spectrum of services and programs targeted for older adults and their families. Includes information and referral processes and agencies, recreational and social options, housing alternatives, in-home, residential and skilled care options, including health care eligibility criteria, funding sources, and adult protective services.
Note: This is a service learning course.

GERO 102. Social Policy for an Aging Society. 3 Units
Term Typically Offered: Fall, Spring

Explores context and process for policy making by national and California state governments including ethical dimensions. Applications are developed from students' and instructor's areas of interest including K-12 and higher education, land-use policy, and aging issues such as elder advocacy, Social Security, and Medicare/Medicaid. Provides background and skills for entry level positions in public or non-profit organizations. Cross Listed: PPA 100; only one may be counted for credit.

GERO 103. Applied Care Management in Gerontological Practice. 3 Units
Term Typically Offered: Fall, Spring

Students will analyze issues, services, methods, and interventions related to practice for older adult care, their families, and caregivers. Outcomes include understanding the of unique characteristics/needs of older adults; systems approach to working with older adults; issues affecting service delivery (diversity, gender, ethics, special health, mental health needs); basic practice skills for effective service delivery to older adults and families/caregivers, attitudes and roles when working with older adults, and the business practices of geriatric care management.
Note: This is a service learning course.

GERO 121. Strategies for Optimal Aging. 3 Units
Term Typically Offered: Fall, Spring

This course is an in-depth, interdisciplinary, and holistic exploration of health promotion and adaptation paradigms that facilitate optimal and productive longevity. Hardiness and self-efficacy theories along with expectations and experiences enhancing quality of life are explored. Interactions among such variables as activity, diet, exercise, work/leisure, attitudes/beliefs, humor, living environments, spirituality, and social networks are investigated within the contexts of gender, economic, and cultural perspectives.
Cross listed: GERO 221

GERO 122. Interprofessional Approaches to Health Care in Older Adults. 3 Units
Term Typically Offered: Fall, Spring

Offers in-depth study/analysis of prevalent pathophysiological-based diseases and psychological disorders commonly experienced by older adults and frail elder populations. Disease/disorder causes and the effects of chronic illness on individuals' activities of daily living, sexuality, relationships, and coping abilities with changing lifestyles are examined using a life course framework and evidenced-based research. Assessment tools, lab value changes, medication needs, and skills for entry level positions in public or non-profit organizations. Paired Course: GERO 222

GERO 199. Special Problems. 1 - 3 Units
Prerequisite(s): Approval of instructor supervising the work.
Term Typically Offered: Fall, Spring

Individual projects or directed reading.
Note: Open only to students who appear competent to carry on independent study.
Credit/No Credit

GERO 100. Aging Issues in Contemporary America. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring, Summer

Introduction to the field of Gerontology and how the discipline addresses society's aging needs. An examination of current issues in gerontology using a life span perspective focusing on older adults' needs/concerns along life's continuum in various environments. Major topics include implications of the demographic imperative, common aging changes/conditions, myths and stereotypes, effects of health/illness on individual and family roles, basic social issues and policies arising from the graying of America, and media, cultural and gender influences.

GERO 101. Older Adult Services and Strategies. 3 Units
Term Typically Offered: Fall, Spring

Exploration and analysis of the older adult service continuum within the context of changing diverse societal needs, service availability and accessibility, current public policy, and administrative and management issues facing care providers. A multidisciplinary examination of the spectrum of services and programs targeted for older adults and their families. Includes information and referral processes and agencies, recreational and social options, housing alternatives, in-home, residential and skilled care options, including health care eligibility criteria, funding sources, and adult protective services.
Note: This is a service learning course.
GERO 123.  Research on Aging & the Life Course.  3 Units  
General Education Area/Graduation Requirement: Upper Division Further Studies in Area B5  
Term Typically Offered: Fall, Spring  
Analysis, evaluation, and application of existent gerontological research. Hands-on practice carrying out aging-related research projects, including defining the research question, selecting data collection tools, collecting and analyzing quantitative and qualitative data, and presenting results in narrative and visual formats. Special emphasis on connecting gerontological theory, research, and interdisciplinary practice, accommodating participants with sensory, physical, or cognitive limitations, and ethical issues.

GERO 124.  Perspectives on Death and Dying.  3 Units  
Prerequisite(s): Student's academic level must be Junior of higher to enroll in this class.  
Term Typically Offered: Fall, Spring  
Examination of the beliefs, attitudes, and behaviors associated with death and dying. Topics covered include children’s and adult’s concepts of dying and death; causes and types of death; self-destructive behavior; grief and mourning in the dying person and their survivors; physicians’ aid in dying and other legal and ethical issues; and cross-cultural and historical perspectives on death.

Cross listed: PSYC 151

GERO 125.  Moving Toward Equity in California Aging Policy and Practice.  3 Units  
Term Typically Offered: Fall, Spring, Summer  
This course examines California’s state programs, services, and funding streams that support low-income older adults and persons with disabilities. It is focused on addressing equity, parity, funding and access. Students will be introduced to California’s innovative Master Plan for Aging. Through studying past shortfalls and new approaches, this course will inform a new and diverse workforce in order to serve historically underserved communities, including BIPOC, Latinx, API, and LGBTQ+.

GERO 130.  Gerontology Practicum.  3 Units  
Prerequisite(s): 24 Major units including GERO 101, GERO 102, GERO 103, GERO 121, GERO 122 and instructor permission.  
Term Typically Offered: Fall, Spring  
Supervised practicum experience in a community agency planning for or delivering professional services to older adults. This practicum experience is part of two culminating courses for the major and focuses on application of the interdisciplinary nature of the discipline while affording students direct, hands on experiences. Includes a field seminar. Seminar discussions focus on the application of gerontological concepts derived from all gerontology courses and are applied to each student’s specific practicum area.

Note: This is a service learning course.

Credit/No Credit

GERO 131.  Gerontology Capstone Practicum.  3 Units  
Prerequisite(s): 36 Major units including GERO 101, GERO 102, GERO 103, GERO 121, GERO 122, GERO 130 and instructor permission.  
Term Typically Offered: Fall, Spring  
Supervised internship experience in a community agency planning for or delivering professional services to older adults. This capstone practicum experience builds on the first internship course and is the final culminating course for the major and focuses on advanced application of the interdisciplinary nature of the discipline while affording students direct, hands on experiences. Includes a field seminar. Seminar discussions focus on the application of gerontologic concepts derived from all gerontology courses and are applied to each student’s specific practicum area.

Note: This is a service learning course. Minors may take this course without taking GERO 130

Credit/No Credit

GERO 199.  Special Problems.  1 - 3 Units  
Prerequisite(s): Advanced approval of project goal and objectives by program director.  
Term Typically Offered: Fall, Spring  
Independent research, project, or directed reading.

Note: Open to students who are capable of independent work. A maximum of 3 units may count toward elective major requirements.

Credit/No Credit

GERO 200.  Adaptation To Age Related Changes, Illnesses and Caregiving.  3 Units  
Term Typically Offered: Fall, Spring  
Exposure to and analysis of positive and negative functional consequences arising from age related changes and illnesses in elders. Content elucidates changes and their effects on elders’ levels of wellness using interdisciplinary research and holistic, life course frameworks. Screening assessments, interventions, community resources and services, and ethical issues are addressed for each topic. Caregiving issues and solutions are explored within life span and problem solving frameworks.

GERO 221.  Strategies for Optimal Aging.  3 Units  
Term Typically Offered: Fall, Spring  
This course is an in-depth, interdisciplinary, and holistic exploration of health promotion and adaptation paradigms that facilitate optimal and productive longevity. Hardiness and self-efficacy theories along with expectations and experiences enhancing quality of life are explored. Interactions among such variables as activity, diet, exercise, work/leisure, attitudes/beliefs, humor, living environments, spirituality, and social networks are investigated within the contexts of gender, economic, and cultural perspectives.

Cross listed: GERO 121
GERO 222. Interprofessional Approaches to Health Care in Older Adults. 3 Units
Term Typically Offered: Fall, Spring

This course examines prevalent health issues commonly experienced by older adults. The course utilizes an interprofessional evidence-based approach to address the impact of chronic illness and related issues on older adults, their families, and caregivers. The focus of this course is on health promotion and includes holistic therapies and ethical issues that arise in late-life care.

GERO 225. Moving Toward Equity in California Aging Policy & Practice. 3 Units
Term Typically Offered: Fall, Spring, Summer

This course examines California’s programs, services, and funding streams that support low-income older adults and persons with disabilities. Students will be introduced to California’s innovative Master Plan for Aging with its focus on equity, parity, and access. Using analytical, evaluative and leadership skills, students mentor GERO 125 students to address policy and program needs of vulnerable constituencies. This course will inform a new and diverse workforce prepared to engage underserved communities, including BIPOC, Latinx, API, and LGBTQ+.

GERO 295. Internship/Project. 3 Units
Prerequisite(s): GERO 200, GERO 221, GERO 222.
Term Typically Offered: Fall, Spring

Supervised fieldwork internship or project that is a culminating experience and applies learned gerontological theories and concepts in a community setting where planning, developing, or delivering services to older adults or their families occurs. Students choose an area of practice and negotiate their learning experiences or project with their faculty advisor and field supervisor. Advanced approval of project goal and objectives by program director are required.
Credit/No Credit

GERO 299. Special Problems. 1 - 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Independent research, project, or directed reading. Open to students who are capable of independent work. A maximum of 3 units may count toward elective major requirements. Advanced approval of project goal and objectives by program director.
Credit/No Credit

Graphic Design (GPHD)

GPHD 5. Introduction to Graphic Design. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall only

Introduction to the field of Graphic Design. Subjects include career possibilities, current trends, issues and practices in the industry. The basic theory, techniques and practices involved in solving a visual communication problem will also be introduced.

GPHD 10. Introduction to Digital Design. 3 Units
Term Typically Offered: Spring only

Designed to familiarize students with basic understanding of the digital hardware, software, and vocabulary utilized by visual artists from a variety of disciplines. Discussions and activities will cover both creative and efficient application of digital tools and techniques. Students will complete assignments utilizing a variety of applications which may include page layout, illustration, digital image processing, and 3-D rendering software.

GPHD 20. History Of Graphic Design. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

Overview of the history of graphic design. Emphasis on symbol, type, and image development, from early pictographs to modern communication design.

GPHD 25. Visual Basics. 3 Units
Prerequisite(s): ART 20A or Pre - Interior Design Major.
Term Typically Offered: Fall, Spring

Provides a basic understanding of how visual structures are created and interpreted. Students study the main components of visual structures, become familiar with basic laws of color, and learn the basics of the gestalt principles of visual organization.

GPHD 30. Visual Basics II. 5 Units
Prerequisite(s): GPHD 25
Term Typically Offered: Fall, Spring

Introduction to the tools, materials and methodologies of the creative process in graphic design. Students study the main components of visual structures, become familiar with basic laws of color, and learn the basic principles of visual organization. The skill of rapid prototyping, through the processes of idea development, thumbnailing, sketching, and mockup, will be covered. Basic concepts in visual systems and graphic message making will be introduced. A special emphasis will be placed on craftsmanship in this course.

GPHD 120. Typography I. 5 Units
Prerequisite(s): DSGN 4, INTD 20, INTD 25, PHOT 20, PHOT 11, GPHD 5, GPHD 20, GPHD 25, GPHD 30, and acceptance into the major via supplemental application.
Corequisite(s): GPHD 125 Fee course.
Term Typically Offered: Fall, Spring

Explores the history and perceptual development of typography and its application in design solutions. Theoretical constructs of typography as they relate to legibility, clarity, composition and output will be addressed. Techniques using compositional layout applications will be covered with an emphasis in typographic accuracy and efficiency as well as preparation of digital files for proper output in a variety of digital and analog formats.
Fee course.
GPHD 122. Design Production and Management. 3 Units
Prerequisite(s): GPHD 5 or GPHD 20, and ART 20A, PHOT 40, GPHD 10, GPHD 20, GPHD 25, GPHD 30, and be a declared GPHD major.
Corequisite(s): GPHD 120, GPHD 125.
Term Typically Offered: Fall only

Introduction to project management techniques specific to the creative business and technical processes for graphic design. Orchestration of image editing, vector and compositing software will be covered with an emphasis in accuracy and efficiency. Various codes and regulations related to graphic design will be reviewed.

GPHD 125. Graphic Design Systems I. 5 Units
Prerequisite(s): DSGN 4, GPHD 5, GPHD 20, GPHD 25, GPHD 30, INTD 20, INTD 25, PHOT 11, PHOT 20, and acceptance into the major via supplemental application.
Corequisite(s): GPHD 120 Fee course.
Term Typically Offered: Fall, Spring

Introduction to the language and perception of design as it is applied to systems. Complex visual structures are created, used in composition and interpreted. Techniques on ideation, design thinking, storyboarding and presentation are covered. Color theory as an integral component of message is addressed. Introduction to project management techniques specific to the creative business and technical processes for graphic design.
Fee course.

GPHD 130. Typography II. 5 Units
Prerequisite(s): GPHD 120, GPHD 125.
Corequisite(s): GPHD 135. Fee course.
Term Typically Offered: Fall, Spring

Advanced typography and its relationship with message. Application of typographic principles to a diverse series of graphic design problems utilizing type and image. Techniques in using a range of digital tools to execute solutions are reviewed.
Fee course.

GPHD 135. User Interface Design. 5 Units
Prerequisite(s): GPHD 120, GPHD 125
Corequisite(s): GPHD 130
Term Typically Offered: Spring only

Emphasis is on design of a user-centered experience in an interactive environment. Enables the students to understand the characteristics of relevant technology and select appropriate forms and functions to create specific experience for users. Introduction to formative research techniques to establish context and audience and summative research to determine success of screen based design solutions.

GPHD 140. User Experience Design. 5 Units
Prerequisite(s): GPHD 130, GPHD 135
Corequisite(s): GPHD 145
Term Typically Offered: Fall, Spring

Emphasis on the development of conceptual themes, formal exploration, and user-centered interaction in time-based design. Enables the students to create vital experiences using text, sound, image, motion, and interactivity. The ability to compile, use, and defend relevant formative and summative research in creation of an appropriate design solution will be covered.

GPHD 142. Advanced Graphic Design I. 3 Units
Prerequisite(s): GPHD 130, GPHD 135.
Corequisite(s): GPHD 140, GPHD 145.
Term Typically Offered: Fall, Spring

Builds on established research, process and project management techniques and provides students with the opportunity to focus on a practical investigation in design. Theoretical, professional, and historical issues facing the design profession will be reviewed. Development of both visual and written research material will culminate in an oral presentation and then be applied to an appropriate project.

GPHD 145. Typography II. 5 Units
Prerequisite(s): GPHD 130, GPHD 135.
Corequisite(s): GPHD 140 Fee course.
Term Typically Offered: Fall, Spring

Builds on established research, process, and project management techniques and provides students with the opportunity to focus on a practical investigation in design. Development of both visual and written research material will culminate in an oral presentation and then be applied to an appropriate project. Semiotics as applied to advanced design problems will be discussed. Image making will be stressed in this course as students experiment with techniques and media including, but not limited to, photography and illustration.
Fee course.

GPHD 150. Professional Practice. 5 Units
Prerequisite(s): GPHD 140, GPHD 145.
Corequisite(s): GPHD 155.
Term Typically Offered: Fall, Spring

Introduction to the concepts and tools used to present credentials for entry into practice or advanced study. Development of the graphic design portfolio and communications package. Discussions will cover such topics as networking, interview tips, employment issues, and presentation skills. Projects refine the student’s individual design process and advance their understanding of professional practice. Professional, business, and ethical issues facing the design profession will be reviewed. Development of visual presentations, written material, and oral presentations will be required.

GPHD 152. Advanced Graphic Design II. 3 Units
Prerequisite(s): GPHD 140, GPHD 142, GPHD 145.
Corequisite(s): GPHD 150, GPHD 155.
Term Typically Offered: Fall, Spring

Advanced course in graphic design that requires students to provide solutions to real world design problems. Helps refine the students individual design process and advance their understanding of professional practice. Professional, business, and ethical issues facing the design profession will be reviewed. Development of both visual and written material will be required in a group environment as well as oral and visual presentations of this material.
GPHD 155. Graphic Design Systems II. 5 Units
Prerequisite(s): GPHD 140, GPHD 145.
Corequisite(s): GPHD 150 Fee course.
Term Typically Offered: Fall, Spring

Advanced study of visual systems as applied to branding and wayfinding. Construction of visual systems for an expansive multi-dimensional design solutions will be covered. Introduction to methods, techniques, and approaches of emotion-driven brand development. Application of syntactic, semantic, and pragmatic aspects of pictorial design systems to wayfinding system development. Exploration of the interplay between environmental conditions and human culture impact decisions in wayfinding system development.

Fee course.

GPHD 195. Fieldwork in Graphic Design. 3 Units
Prerequisite(s): Upper division status; GPA of 2.5 or above; GPHD 130, GPHD 135; instructor permission.
Term Typically Offered: Fall, Spring

Directed observation and supervised work experience in an approved business, government, or service agency. Internships are offered to increase student understanding of the nature and scope of agency operations and giving students orientation in occupational specialties. Supervision is provided by authorized persons in the cooperating agencies and collaborative supervision is provided by the Graphic Design faculty. Minimum of three hours per week per unit of credit is required. Each student maintains a record of activities and assignments and prepares periodic reports.

Note: Students must make arrangements with a faculty member for a work program prior to admittance. No more than 6 units of GPHD 195 may be counted toward the major.

Credit/No Credit

GPHD 196. Introduction to Human Centered Design. 3 Units
Term Typically Offered: Summer only

Introduction to the planning, development, and implementation of innovative tools and services informed by the human perspective. Emphasis on design thinking frameworks and tools used to develop solutions by including participatory action research. Techniques on empathizing with users, defining problems, ideating and prototyping solutions, testing, and iterating are covered. Importance of product accessibility and usability is addressed.

GPHD 196B. Techniques in Visual Production and Translation. 3 Units
Prerequisite(s): GPHD 125
Term Typically Offered: Fall, Spring, Summer

Teaches students analog and digital techniques and tools to enable them to apply existing drawing skills to create professional quality visuals and graphics. Students will learn how to create and convert analog visuals (drawings, paintings, etc.) to digital mediums, while exploring ways for applying traditional techniques to new digital interfaces (styluses, tablets, etc.). Class outcomes will enable them to apply a full range of graphic techniques to their existing work as designers.

GPHD 196C. Advanced Graphic Systems Design. 3 Units
Prerequisite(s): GPHD 125
Term Typically Offered: Fall, Spring

This course teaches students to analyze, critique, and create complex visual systems. Each semester the class will design a pair of complex visual systems and analyze the relationship between the characteristics of their constituent parts. Possible subjects for the course include, but are not limited to the design of: typefaces, books, and playing cards. Class outcomes will include a greater understanding and visual sensitivity to the properties that influence the creation of graphic systems.

GPHD 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed projects open to students who wish to attempt independent work.

Note: Faculty approval is required. No more than 6 units of GPHD 199 may be counted toward a Graphic Design degree.

Credit/No Credit

Greek (GREK)

GREK 1A. Elementary Ancient Greek. 4 Units
Term Typically Offered: Fall, Spring

GREK 1B. Elementary Ancient Greek. 4 Units
Term Typically Offered: Fall, Spring

GREK 6A. Elementary Modern Greek. 4 Units
Term Typically Offered: Fall, Spring

Designed to prepare students to read, speak, and understand Modern Greek. Focuses on the study of grammar and vocabulary, as well as the reading of adapted passages. Classroom time will be spent on drills and on elementary dialogues among the students and between the students and the instructor. These drills simulate everyday life situations. No previous exposure to the language is required.

GREK 6B. Elementary Modern Greek. 4 Units
Prerequisite(s): GREK 6A.

General Education Area/Graduation Requirement: Foreign Language Graduation Requirement
Term Typically Offered: Fall, Spring

A continuation of GREK 6A, emphasizing the further development of skills in reading, speaking, and understanding Modern Greek. Reading selections from newspapers and other contemporary sources. Further classroom dialogues among students and between students and the teacher.

GREK 199. Special Problems in Greek. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed readings.

Note: Open only to students who appear competent to carry on independent study; admission requires the approval of the instructor by whom the work is to be supervised.

Credit/No Credit
Health and Human Services (HHS)

HHS 21. First Year Seminar for Health and Human Services Careers: "Becoming an Educated Person." 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

New students are faced with many challenges - making new social connections, maintaining high GPAs, and learning independence. HHS 21 provides insight to the wide range of careers in the health and human service fields, and introduces students to the meaning of higher education, the resources of the University, and skills for lifelong learning. Students will develop academic success strategies, and improve information literacy, intercultural competence, and integrative thinking. The seminar is a foundation for academic and personal support.

HHS 100. Introduction to Health Science. 3 Units
Prerequisite(s): Health Science Majors or Instructor Permission
Term Typically Offered: Fall, Spring, Summer

HHS 100 is an introduction to health science, an exploration of theoretical and practical issues, exposure to professional organizations and resources, and pathways to a variety of career options. It is also designed to engage students in critical thinking, problem solving, and discourse relevant to emerging trends in the health care industry as well as applications of the latest research.

HHS 101. Interprofessional Education: A Collaborative Team-Based Learning Approach. 3 Units
Term Typically Offered: Fall, Spring

This course introduces the foundations of interprofessional collaborative practice. Students will engage in self-directed learning with other disciplines through the exploration of values and ethics for interprofessional practice, roles and responsibilities of health care providers, interprofessional communication strategies, and the development of high functioning teams in health care. The course includes a clinical/practicum component; it teaches students to support clients with chronic conditions while working with an interprofessional teams at the CHHS on-campus Interprofessional Stroke Recovery Resource and Community Center.

HHS 160. Senior Seminar: Health Science Careers, Policy, and Research. 3 Units
Prerequisite(s): PUBH 114, PUBH 122 and Health Science major or instructor permission.
Term Typically Offered: Fall, Spring

This capstone course provides an overview of professional opportunities in health science. The course will explore the types of roles and opportunities in health professions, broader public and private health systems, and why it is important to have a comprehensive and interdisciplinary understanding of health science. As a capstone experience, the course must be taken during the final semester of the student's plan of study.

HHS 196A. Law+The Human Services. 3 Units
Term Typically Offered: Fall, Spring

HHS 196N. Pop-Up History. 1 Unit
Term Typically Offered: Fall, Spring, Summer

Exploration of a pre-determined special historical topic using multidisciplinary approaches in an abbreviated 5-week mini-seminar format. Topics will vary.

HHS 196Y. Youth Recreation in Camp Settings. 1 - 3 Units
Term Typically Offered: Summer only

This course examines camp programs in a wide variety of settings, for a variety of populations. Topics cover camp theories, camp management, risk-management, activity planning, inclusive programming, and staff training. Includes an emphasis on leadership, supervision, and organizational development of camp programs. Course uses lecture, field experiences, guest speakers, and service learning.

Note: Students should be aware that Camp Nej, which is the associated camp for this course, is in a remote, wilderness setting; students will stay on-site while the camp is in session.

HHS 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring, Summer

Individual projects or directed study related to Health and Human Services.

Note: Open to students judged capable of carrying out individual work. Approval and sponsorship of a supervising faculty member required for admission. May be repeated.

Credit/No Credit

Health Science (HLSC)

HLSC 222. Health Communication Strategies. 3 Units
Prerequisite(s): Master of Public Health major or instructor permission.
Term Typically Offered: Fall only

Provides students with knowledge and understanding of health communication theory and research. Students will examine the effects of media, including mass media, social media, and participatory media, in promoting or impeding public health goals and achievements. This course emphasizes the importance of public engagement and the development of effective communication with public health stakeholders including consumers, community goals, policy makers, health care providers, news media, and the general public.

HLSC 224. Program Planning. 3 Units
Prerequisite(s): Master of Public Health majors or instructor permission and HLSC 201
Term Typically Offered: Fall only

Covers the elements needed for successfully planning and implementing a health promotion program including the application of health behavior theory and program planning models. Students will apply concepts of social and physical determinants of health, community structure on health status, social/health policies of communities and personal health behaviors in program planning design and implementation.
HLSC 295. Seminar and Practicum Experience. 3 Units
Prerequisite(s): Master of Public Health or instructor permission
Term Typically Offered: Spring only

Provides students with in-depth supervised experience in an approved organization during their graduating semester. The practicum will require students to complete an applied practice experience related to a public health issue that is a focus within the organization. Seminars will discuss and review the integration of core public health concepts with the practicum. Students will create materials that demonstrate the analysis, synthesis, and intersection of course work and practicum work, while demonstrating mastery of the broad field of public health. Field Trip. Credit/No Credit
Field trip(s) may be required.

History (HIST)

HIST 4. Survey of Early Western Civilization. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Survey of the earliest civilizations with emphasis on the contributions of the Hellenic, Roman and the Medieval eras to the West. Continues to the close of the Middle Ages. Stress is placed on social, economic, as well as political factors.

HIST 5. Survey of Modern Western Civilization. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Survey of the development of western civilization from the Renaissance to the present day. Stress is placed on social and economic, as well as political, factors.

Note: Not open for credit to students receiving prior credit in HIST 105.

HIST 6. Asian Civilizations. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Introduction to major developments in the histories and cultures of China, Japan, and India – origins of civilizations, great empires, religions, growth and spread of cultures, alien invasions, Western impact, nationalist movements, modernization, and characteristics of contemporary society.

HIST 7. History of African Civilizations. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Introductory survey of the history of Africa from earliest times to the present. Major topics include: origins of humanity and society, civilizations of the Nile Valley, the peopling of Sub-Saharan Africa, African societies to 1500, pre-colonial Saharan and Sub-Saharan Africa, Colonial Africa and the emergence of modern states in Africa.

HIST 8. Islam and the West. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Introductory survey of basic events, themes, issues, and concepts in Islamic history from the rise of Islam to the present, with emphasis on the encounters and exchanges between the Islamic world and the "West" (Europe and the United States). Topics include: The similarities between Islam, Judaism and Christianity; the religious, political, social, and cultural developments in the Islamic world and their impact on western civilization; colonialism; nationalism; religious revivalism; and revolutionary movements.

HIST 9. What We Ate: A Global History of Food. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

A historical examination of the political, economic, and cultural transformations involved in food production and consumption since 1500. Emphasis on important food networks between South Asia and the Middle East, the role of addictive products in the rise of European trade empires, the emergence of national cuisines across the Atlantic and Pacific rims, and the varied responses to modern scientific and industrial farming.

HIST 10. History's Mysteries: Thinking Critically about the Past. 3 Units
General Education Area/Graduation Requirement: Critical Thinking (A3)
Term Typically Offered: Fall, Spring

From the builders of the Pyramids to the cause of the Holocaust: unlock mysteries of the past; apply historical thinking skills to answer compelling historical questions; sharpen reasoning and argumentative skills; evaluate historical evidence; learn to recognize scientific standards of historical investigation; hone college level writing skills. Topics vary based on instructor's expertise.

HIST 15H. Major Problems in U.S. History. 3 Units
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), United States History
Term Typically Offered: Fall, Spring

A survey of topics in American history from the colonial period to the end of the twentieth century. Subjects may include reform movements, immigration, racial problems, religion, politics and the role of women.

Note: Fulfills graduation requirement for U.S. History and Race and Ethnicity.

HIST 17A. United States History, 1607-1877. 3 Units
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), GE AREA D, United States History
Term Typically Offered: Fall, Spring

Basic historical survey of the rise of American civilization from colonial beginnings through the rebuilding of the union during Reconstruction.

Note: Fulfills state graduation requirement for U.S. History.

HIST 17B. United States History, 1877-Present. 3 Units
General Education Area/Graduation Requirement: GE AREA D, United States History, Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring

Basic historical survey of the growth of urban-industrial American civilization and its rise to world power, 1877-present.

Note: Fulfills state graduation requirement for U.S. History.
HIST 17D. United States History Discussion Section. 1 Unit
Corequisite(s): Enrollment in a section of HIST 17A or HIST 17B
Term Typically Offered: Fall, Spring
A weekly discussion section to accompany enrollment in HIST 17A or 17B. Text discussions and presentations, reading and note-taking strategies, historical writing, primary source investigations.
Credit/No Credit

HIST 18. Health, Medicine, and Science in America, 1600-Present. 3 Units
General Education Area/Graduation Requirement: GE AREA D, United States History, Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring
An examination of American medicine and science from the colonial era through the present from the perspective of people of color, immigrants, women, and LGBTQ+ people. This course investigates how different groups of Americans understood and experienced disease, illness, and disability; explores how diseases were racialized and gendered, how science was used to establish and reinforce racial inequalities, and how access to healthcare has been based upon race, class, gender, sexuality, and disability; and identifies health activism in social movements.

HIST 18B. Becoming America: Immigrants in American History, 1877-Present. 3 Units
General Education Area/Graduation Requirement: GE AREA D, United States History
Term Typically Offered: Fall, Spring
Survey of the growth of modern American society and its rise to world power, 1877-present, with emphases on the significant contributions and experiences of immigrants to American history.

HIST 21. First Year Seminar: Becoming an Educated Person. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring
Introduction to the nature of higher education, and the functions and resources of the University. Designed to help students develop academic success strategies and to improve learning skills. Students will interact with fellow students to build a community of academic and personal support. Introduces history as an academic discipline by requiring students to interpret historical information about issues such as academic freedom and the development of racism.

HIST 50. World History I: to 1500. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall
A comparative history of the world’s major civilizations that highlights human community’s increased level of connection. Explores the diverse global cultural, political, and economic patterns from the origins of complex societies to the birth of modern capitalism.

HIST 50H. World History I: to 1500. 3 Units
Prerequisite(s): Open only to Honors students.
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only
Intensive comparative history of the world's major civilizations that highlights human community's increased level of connection. Explores the diverse global culture, political, and economic patterns from the origins of complex societies to the birth of modern capitalism.

HIST 51. World History from 1500 to the Present.. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
A survey of the increased inter-connections of the world's civilizations from the conquest of the Americas to the dawn of the 21st century. Explores the history of the human community's political development, culture diversity, and economic globalization.

HIST 51H. World History from 1500 to the Present. 3 Units
Prerequisite(s): Open only to Honors students.
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only
An intensive survey of the increased inter-connections of the world's civilizations from the conquest of the Americas to the dawn of the 21st century. Explores the history of the human community's political development, cultural diversity, and economic globalization.

HIST 100. Introduction to Historical Skills.. 3 Units
Prerequisite(s): HIST 100
Term Typically Offered: Fall, Spring
Introduction to the skills of secondary and primary source research, critical analysis of documentary sources, historical reasoning and the preparation of written reports. Attention to research procedures, record-keeping, citation, and bibliography.
Note: Open to History majors who have completed at least 6 units of required lower division coursework. Recommended for second semester of sophomore year.

HIST 100R. Developing Historical Skills.. 3 Units
Prerequisite(s): HIST 100
Term Typically Offered: Fall, Spring
Further development of skills from HIST 100 in the areas of secondary and primary source research, critical analysis of documentary sources, and historical reasoning, ethics, and inquiry needed for the completion of an original research paper. Attention to research procedures and disciplinary writing and citation. Topic varies with instructor.

HIST 101A. Language and written culture in Ancient Greece. 3 Units
Term Typically Offered: Fall, Spring
This is part of the two-semester hybrid course on Ancient Greek language and written culture. The language component of the course is taught online through interactive language-teaching website, while the weekly meetings are mainly discussions on Ancient Greek texts in translation. The focus in this first part is on basic grammatical rules, the reading and construction of simple sentences, and the study of Greek written culture from its beginnings to the Classical Period.
Cross Listed: WLL 120A; only one may be counted for credit.

HIST 101B. Language and written culture in Ancient Greece. 3 Units
Prerequisite(s): HIST 101A
Term Typically Offered: Spring only
This is the second part of a two-semester hybrid course on Ancient Greek language and written culture. The language component of the course is taught online through an interactive language-teaching website, while the weekly meetings are mainly discussions on Ancient Greek texts in translation. The focus in this second part is on advanced grammar, the reading and understanding of long passages, and the study of Greek written culture from the Classical Period to the Roman era.
Cross Listed: WLL 120B; only one may be counted for credit.
HIST 102A. Culture and Language in Modern Greece, 1821-1909.  3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall only

This is the first part of a two-semester hybrid course on modern Greek language, history, and culture. This course is an introduction to the main cultural forces in history and literature that shape modern Greek society. It explores the historical development of modern Greek culture from the period of the Greek War of Independence to the present. Students will also obtain a basic level of modern Greek grammatical rules, the reading and writing of simple sentences, and basic everyday conversation skills.

HIST 102B. Culture and Language in Modern Greece, 1909-Present.  3 Units
Prerequisite(s): Student must complete HIST 102A with a minimum "C-" grade or better.
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Spring only

This is the second part of a two-semester hybrid course on modern Greek language, history, and culture. This course is an introduction to the main cultural forces in history and literature that shape modern Greek society. It explores the historical development of modern Greek culture from the period of the Greek War of Independence to the present. Students will also obtain a basic level of modern Greek grammatical rules, the reading and writing of simple sentences, and basic everyday conversation skills.

HIST 103. Mediterranean Europe: From the Renaissance to the European Union.  3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Traces the development of Southern European countries from the Renaissance to European Union membership. These two "rebirths" for Europe had a unique impact on Portugal, Spain, Italy and Greece. Focuses on the political, economics, and cultural aspects of these Mediterranean countries.

HIST 104A. Ancient Science.  3 Units
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring

An examination of the theories, experiments, and calculations of Greek and Roman scientists as well as the work of major contributors to astronomy, natural philosophy, medicine, and technology in the ancient period.

HIST 105. Great Ages and Issues in Modern European History.  3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Advanced analysis of topics in modern European history from the Renaissance to the present. Emphasis is placed upon primary sources and contemporary as well as historical interpretations of the sources.
Note: Not open for credit to students receiving prior credit in HIST 5.

HIST 106. Everyday Life and Society in Antiquity.  3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

An overview of social beliefs and practices in a variety of ancient cultures, including Ancient Greece, Rome, and the Near East chronologically ranging from Late Prehistory to the rise of Christianity. All the examined themes are approached comparatively and on the basis of ancient historical evidence, consisting of both texts and archaeological materials.

HIST 107. History of the Physical Sciences.  3 Units
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring

Study of the development of the major physical laws presently used in describing our physical world. Some considerations of the influences of these developments on other areas of knowledge and on society in general.
Cross Listed: PHSC 107; only one may be counted for credit.

HIST 108. Ancient Egypt: History & Culture.  3 Units
Term Typically Offered: Fall, Spring

Overview of the history of ancient Egypt from prehistory to the Roman conquest, combined with a study of cultural development in areas of ancient Egyptian religion, art, and literature.

HIST 109. History of Modern Greece.  3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Introduces the fundamental events and figures that shaped modern Greek history and politics. Topics will include: the Greek War of Independence, the Megali Idea, the Asia Minor Catastrophe, and Greece's entry into the European Union. No prior knowledge of Greece or Greek language assumed.

HIST 110. The Ancient Near East: A Cultural History.  3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Growth and development of Ancient Near Eastern civilization with emphasis on Mesopotamia and Egypt as the foundation of ancient Mediterranean civilization. Religion, literature, art and social institutions will all be stressed as integral elements in an historical process.

HIST 111. Ancient Greece.  3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Political, social, and cultural development of Greece from the Mycenaean to the post-Alexandrian world with emphasis on Fifth Century Athens and on a reading of Thucydides.

HIST 112. Ancient Rome.  3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Rome from its foundation to Justinian with emphasis on its political institutions, their strengths and weaknesses, social structure, the ancient economy, paganism and Christianity, and the end of ancient civilization.
HIST 113. Early Medieval Europe. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

The transformation of Mediterranean civilization from Late Antiquity to its three heirs: Western Europe, Byzantium and Islamic Civilization. Topics include: Late Antique Christianity, monasticism, economic and trade structures, Islamic conquests, Carolingian civilization, medieval archaeology and technology, and the origins of manorialism and feudalism.

HIST 114. Europe in the High Middle Ages. 3 Units
Term Typically Offered: Fall, Spring

Flourishing of European civilization from the Gregorian reform (11th century) until the end of the Middle Ages. Emphasizes the development of Latin Christianity, the formation of national communities in France and England, and the multi-faceted crisis of the 14th and 15th centuries.

HIST 115. The Renaissance and Reformation in Europe. 3 Units
Term Typically Offered: Fall, Spring

Survey of the development of Italian City States and their relation to Northern Europe; an examination of the relationship among commerce, capitalism and secular culture; a survey of Reformation and Counter-Reformation.

HIST 116. Europe, 1648-1815, The Age of Revolution. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Political and social survey of Europe with emphasis on (a) the scientific revolution and the Enlightenment, (b) absolute monarchs and enlightened despots, (c) the American and French Revolutions, (d) Napoleon I, and (e) art, society and popular culture.

HIST 117. Europe, 1815-1914. 3 Units
Term Typically Offered: Fall, Spring

Consideration of historical trends in 19th Century Europe. Emphasis on Germany and France. Attention is devoted to liberalism, conservatism and nationalism; the industrial revolution, national unification, nationalism, imperialism and the rise of socialism.

HIST 118A. World War I: Causes, Conduct, Consequences. 3 Units
Term Typically Offered: Fall, Spring

Political and social development of Europe from the beginning of the 20th Century to the accession of Hitler to power in 1933 with emphasis on relations among the Great Powers.

HIST 118B. World War II: Causes, Conduct, Consequences. 3 Units
Term Typically Offered: Fall, Spring

Critical examination of political, military, social, and cultural transformations in the era of the Second World War. Particular emphasis will be placed on diplomatic relations between the Great Powers, military conduct during the war, the experience of fascism, the causes and ramifications of the Holocaust, and the war's cultural and political legacy in Europe.

HIST 119. Europe Since 1945. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Examination of major developments in Europe since the end of World War II. Topics include: the basic intellectual structures of the 20th century; the origins of the Cold War; the rise of the EEC; decolonization; the political and social upheaval of the 1960's; détente; and the new preoccupation with nationalism and ethnic identity.

HIST 120A. History of Medicine, Ancient and Medieval. 3 Units
Term Typically Offered: Fall only

History of ancient-medicinal medicine, the role of medicine in society, and attitudes toward illness and the body. Also covers alternative remedies such as magic and folk medicine. Primary focus on Greco-Roman medicine but also Sumerian, Egyptian, Christian and Islamic traditions.

HIST 121. Democracy and Human Rights in the Era of the French Revolution and Napoleon. 3 Units
Term Typically Offered: Fall, Spring

Explores the crucial social, cultural, intellectual, and political legacies of the Revolutionary and Napoleonic years (1789-1815) in France and across the globe. In particular, examines ideas and policies regarding religious toleration, democratic participation, slavery, gender, and nationalism.

HIST 122A. History of Women in Western Civilization, Prehistory-Present. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Humanities (Area C2)
Term Typically Offered: Fall, Spring

Emphasis on the lives and experiences of women as they relate to the fundamental characteristics of Western culture. Topics include women and religion, production and economic institutions, reproduction and family structures, power and politics, women's self-definition.

HIST 122B. History of Women in Western Civilization, Renaissance-Present. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Humanities (Area C2)
Term Typically Offered: Fall, Spring

Emphasis on the lives and experiences of women as they relate to fundamental characteristics of Western culture. Topics include women and industrialization, the modern state, the development of feminism, feminism and socialism, revolutionary and reactionary movements.

HIST 122C. Women's Global Activism in the 20th Century. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Examines the development of women's movements for sexual equality and social justice across the world during the twentieth century. Emphasis placed on women from the Global South and on transnational feminist organization.
HIST 123. The Crusades.  
Term Typically Offered: Fall only

The Crusading movement from the eleventh through the thirteenth centuries. Explores the eight "official" Crusades, and explores the concept of "crusading" as Christian Holy War. Extensively covers the intersection of Byzantine, Islamic, Catholic, and Jewish cultures in the Middle Ages, and incorporates religious, social, military, and political, history.

HIST 124A. Warfare: Alexander to Napoleon.  
Term Typically Offered: Fall, Spring

Conduct of war from 336 B.C. to 1815. Social and political consequences; development of weaponry, strategy and tactics; Great Captains.

HIST 124B. European Warfare from the French Revolution to the Present.  
Term Typically Offered: Fall, Spring

Study of the inception, conduct and impact of European warfare from the French Revolution to the present. Students will be required to complete one or more projects designed to increase their understanding of modern warfare and its implications.

HIST 125. Modern Germany, 1806-Present.  
Term Typically Offered: Fall, Spring

History of Germany from the fall of the Holy Roman Empire to the present. Topics will include the rise of German nationalism, the formation of the German nation-state, the Nazi era and the Holocaust, and postwar Germany's development.

HIST 126. Evolution of Christianity to the Reformation.  
General Education Area/Graduation Requirement: Humanities (Area C2)  
Term Typically Offered: Fall, Spring

Christianity from Jesus to Martin Luther. Emphasis on the evolution of Christian thought and institutions and the relationship of the Church to popular culture and secular powers. Cross Listed: HRS 126; only one may be counted for credit.

HIST 127. Evolution of Christianity Since the Reformation.  
General Education Area/Graduation Requirement: Humanities (Area C2)  
Term Typically Offered: Spring only

European Christianity from the Reformation to the present. Emphasis on the evolution of Christian thought, the co-existence of the Catholic and Protestant traditions, and the relationship of religious and secular values in European society. Cross Listed: HRS 127; only one may be counted for credit.

HIST 128A. Medieval England To 1485.  
Term Typically Offered: Fall only

Examines the developments of English history from the Celtic Bronze Age to the fifteenth century. Issues of race and ethnicity, gender, social classes, political ideology, religious toleration, economic developments, and artistic achievements will be examined in particular detail.

Term Typically Offered: Fall, Spring

History of England from the consolidation of royal power under Henry VII to the Hanoverian succession. Emphasis on the Tudor Renaissance and Reformation, the growth of England's international status under Elizabethan, Stuart rule, the Civil Wars, the dictatorship of Oliver Cromwell and the Restoration.

HIST 128C. British History, 1714-Present.  
Term Typically Offered: Fall, Spring

History of the British Isles from Hanoverians to the Present. Emphasis upon the rise of Parliament, industrialization, reform, rise of labor, the two World Wars, the Welfare State and contemporary Britain.

HIST 129A. Medieval Russia.  
General Education Area/Graduation Requirement: Humanities (Area C2)  
Term Typically Offered: Fall, Spring

Emergence of modern Russia from the principalities of medieval Russia. Emphasis on Eastern European, Byzantine, and Eurasian contributions to Russian history.

HIST 129B. Imperial Russia.  
Term Typically Offered: Fall, Spring

Emergence and collapse of imperial Russia as a continental world power from 1600 to 1917. Emphasis on the role of monarchy, a changing society and economy, and the growth of the educated public in the development of a distinctive imperial Russian culture and its final destruction in revolution.

HIST 129C. Twentieth Century Russia.  
Term Typically Offered: Fall, Spring

Revolutionary origins of the Soviet Union, its rise as a global superpower, and its sudden dissolution. Emphasis on the major political, economic, social, and cultural trends that defined Soviet civilization, as well as the Soviet legacy for contemporary Russia and the world.

HIST 129D. A Cultural History of Russia.  
General Education Area/Graduation Requirement: Arts (Area C1)  
Term Typically Offered: Fall, Spring

A historical survey of cultural expression in Russia. Emphasis on the changing role of elite and popular institutions as patrons and audiences, the definition of Russian culture through the canonization of content and form, and the relationship between politics and society as expressed in a variety of genres and media such as the visual arts, literature, music, and film.

HIST 130. The Fall Of Communism.  
General Education Area/Graduation Requirement: GE AREA D  
Term Typically Offered: Fall, Spring

Causes and consequences of the dramatic transformations in the political, economic, and cultural life of the Soviet Union, eastern Europe, and China after 1970. Topics include "real-existing" socialism, Gorbachev and the revolutions of 1989, the emergence of China, impact on the non-socialist world, and implications for the future.

HIST 131. History of Sexuality in Comparative Perspective.  
General Education Area/Graduation Requirement: Humanities (Area C2)  
Term Typically Offered: Fall, Spring

Survey of the comparative history of sexuality in the pre-modern and modern world (including the United States and Europe). Topics include the intersections of gender, sexuality, race, and social status across societies and time periods; religion and sexual norms; sex, sexuality and the rise of the nation-state; sex and imperialism; and sexuality and the law.
HIST 132. Topics In World History. 3 Units
Prerequisite(s): HIST 50.
Term Typically Offered: Fall, Spring

Designed for students who want to acquire multiple subject teaching credentials. Examines world history from a topical perspective, focusing on large themes and trends. Builds upon the detailed history taught in the HIST 50.

HIST 133. Twentieth-Century World History. 3 Units
Prerequisite(s): HIST 51 or HIST 51H
Term Typically Offered: Spring only

A survey of the major international themes and historical processes that shaped the twentieth century. Designed for History majors and present or prospective teachers of history.

HIST 134. The Rise and Fall of European Colonial Empires. 3 Units
Term Typically Offered: Fall, Spring

This course covers the origins of European colonialism in the Iberian expansion, the development of English and Dutch empires, the role of spices, slaves, sugar, and opium in the making of the modern global economy, the "New Imperialism" of the 19th Century, the anti-colonialist and nationalist movements, and the final collapse of the empires after World War II.

HIST 135A. History Of Mexico To 1910. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Emphasizes Meso-American culture, the creation and flourishing of Spanish colonial culture, the independence movements, and the trials and tribulations of nationhood in the 19th century.

HIST 135B. Revolutionary and Modern Mexico. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Political, social, economic and cultural history of the Mexican upheaval, from 1910 to 1920, and the development of Modern Mexico since 1920.

HIST 136. Spanish Civil War. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

In-depth examination of the Spanish Civil War (1936-1939) focusing on its social, political, and cultural contexts. The course also examines the war's historical origins, immediate aftermath and implications for understanding modern Spain. Cross listed: SPAN 129.

HIST 137A. Latin American Revolutions in the Twentieth Century. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall only

Comparative analysis of twentieth-century Latin American revolutions. Considers economic and political causes, revolutionary aims, and historical outcomes.

HIST 137B. Latin American History in Film. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Spring only

An analysis of films representing Latin American history from conquest through present.

HIST 138A. Colonial Latin America. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Survey course in the history of Latin America from the late fifteenth century to the early nineteenth century.

HIST 138B. Modern and Contemporary Latin America. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Survey course in the history of Latin America from the early nineteenth century to the present.

HIST 139A. Global Environmental History in the Age of Imperialism, 1450-Present Day. 3 Units
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall only

Study of global environmental history, from before the Columbian Exchange to the present-day. Focus on world patterns in environmental history, including imperial expansion, economic growth, exploitation of natural resources, and epidemics, among other topics. Also consideration of how humans around the world constructed their environments both physically and socially.

HIST 140. Modern East Asian Cinema. 3 Units
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Arts (Area C1)
Term Typically Offered: Fall, Spring

Survey of the development of cinema in Asia, focusing primarily on cinematic masterpieces from China, Hong Kong, and Japan. Focuses on directors, actors, and studios that left a lasting mark on cinema history. Also focuses on how Asian aesthetic sense differs from the Hollywood norm. Prerequisite: GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X. Cross listed: ASIA 140; only one may count for credit.

HIST 141. History of Africa Since 1800. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

European control in Africa, African primary resistance and proto-nationalist movements, decolonization and post-independence, nation-building to present.
Examine the role of African women in politics, religion, the economy, and the arts from ancient times to the present. Considers the varying status of women in different regions of the continent. Also looks at the impact of kinship structures on women, development issues, and African responses to feminist discourse.

HIST 143A. Middle Eastern History to 1800. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only
Surveys the history of the Muslim Middle East from the age of the Prophet Mohammed to the late Ottoman Empire. Topics include: the Islamic religious revolution; the splintering of the Islamic community into Sunnis, Shias and other Islamic minorities; the impact of Islam upon the European West; the Crusades; and Western influence at the end of the 18th century.

HIST 143B. The Modern Middle East. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Spring only
Surveys Middle Eastern history from 1800 to the present. Topics include: the late Ottoman Empire; World War I and state creation; western imperialism; Arab nationalism; Zionism; state building; modern economies and traditional societies; Islam and the modern state; and the Arab-Israeli conflict.

HIST 143C. Ottoman State and Society. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
Overview of the history of the Ottoman Empire from its rise in the 13th century to its demise in the early 20th century. Topics include Ottoman state structure, military, economy, legal system, society, culture, and legacy.

HIST 143D. The Arab-Israeli Conflict. 3 Units
General Education Area/Graduation Requirement: GE AREA D, Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Spring only
Overview of the origins, evolution, and implications of the ongoing Arab-Israeli conflict. Focus will be on the role of external and internal factors in the emergence and escalation of the conflict, the opposing claims over Palestine, and the impact of the conflict on different groups in the region. Topics include colonialism, transition from empire to nation state, Jewish and Arab nationalism, secularism, the Cold War, religious revivalism, and identity.

HIST 144. Indonesia, 1965: Context, Causes, and Consequences of Cold War Mass Murder. 3 Units
Term Typically Offered: Fall, Spring
Examines the domestic and international political, social, and economic context of the overthrow of Indonesian President Sukarno, the mass murder of perhaps a million individuals associated with the Indonesian Communist Party, and subsequent US-backed military dictatorship of General Suharto.

HIST 145. South Asian History & Civilization. 3 Units
Term Typically Offered: Fall, Spring
South Asian history from the Indus Valley Civilization to the 1947 partition of British India into the nation-states of India and Pakistan. Topics include: development of Hinduism, Buddhism, Jainism, and Sikhism; rise and fall of the Mauryan, Mughal, and British empires; Indian philosophy, art, literature; South Asian expressions of Islam, Judaism, and Christianity; elite and popular religious syncretism; gender and sexuality in South Asia; Portuguese and British colonialism; South Asian nationalism; and the life and thought of Mahatma Gandhi.

HIST 146A. Cultural History of Japan to 1800. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only
History of traditional Japan stressing developments in literature, drama, art, religion and philosophy in the context of political, social and economic development. Movies, slides and readings in Japanese literature will be used.

HIST 146B. Modern Japan, 1800-present. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Spring only
Roots of modernization in late feudal Japan; Western impact; political, economic and social modernization; the growth and decline of democratic institutions; militarism and World War II; U.S. occupation; and Japan’s impressive “success story” 1950-present.

HIST 146C. The History of Manga. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
A survey of the history of manga (Japanese graphic novels) that will trace the historical antecedents of manga from ancient Japan to today. The course will focus on major artists, genres, and works of manga produced in Japan and translated into English.

HIST 146D. A History of Anime. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Spring only
A survey of the history of anime (Japanese animation) that will trace the historical antecedents of anime from the birth of cinema to today, with a focus on major artists, genres, and works of animation produced in Japan.

HIST 147. History of Buddhism. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
Examines in cultural and historical perspective, drawing from ancient and contemporary sources, the key practices and ideas of Buddhist traditions in India, China, Southeast Asia, Tibet, Japan and other surrounding regions; as well as the most recent spread of these practices and ideas to Europe, North America, and Australia. Cross listed: HRS 147
HIST 148A. China: Antiquity to 1600 AD. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only

Historical development of China from the Neolithic period to the end of the 16th Century. In addition to texts and records, other sources such as archaeology, literature, and art will be examined to gain understanding of and appreciation for the longevity of China as a culture and a polity. Traditionally neglected groups such as women and the lower classes will be emphasized.

HIST 148B. China, 1600 to Present. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Spring only

The transformation of China since the 17th Century. Examines the internal tensions of population growth and social unrest, as well as external pressures of encroaching imperialism and modern values of freedom and democracy. Revolution, communism, modernization, and nationalism will be addressed.

HIST 149. The Making of Modern Southeast Asia. 3 Units
Term Typically Offered: Fall, Spring

Examines the historical formation of Southeast Asia, how European colonization integrated Southeast Asia into the global economic order, and how the region became a critical strategic zone in the Second World War and the Cold War. Traces the centuries long formation of nations of Southeast Asia, the second half will focus on political and economics developments of the 20th Century.

HIST 150. Colonial America. 3 Units
Term Typically Offered: Fall, Spring

Development of the British mainland colonies from exploration, contact, and settlement to the age of the American Revolution. Topics include: background to colonization; mercantilism, the emergence of a multicultural society; regional variation; Native Americans, slavery, women and family, community formation, religion, education, Enlightenment in America, European rivalries, imperialism.

HIST 150B. Early American Book History. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

A history of authorship, reading, and publishing in colonial American life; this course explores seventeenth and eighteenth century British North America where the spoken and printed word played an important part in the development of America before 1800.

HIST 151. The Age of the American Revolution. 3 Units
Term Typically Offered: Fall, Spring

Causes and consequences of the American Revolution. Topics include: Whig ideology, popular politics, loyalism, economic concerns, the western frontier, Native Americans, African-Americans, and women during the era, the course of the war with Great Britain, the Confederation and Constitution, social consequences of the Revolution.

HIST 151B. Founding Documents: American Democracy before 1800. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Explores the history behind the words of the Declaration of Independence and the Constitution of the United States of America. Topics include early American history, the American Revolution, and the Constitutional Convention of 1787.

HIST 152. Young Republic, 1790-1840. 3 Units
Term Typically Offered: Fall, Spring

Beginnings of government under the Constitution; the U.S. in a warring world; Thomas Jefferson and Andrew Jackson; market economy, canals and factories; nationalism, the debate over slavery, and emerging sectionalism.

HIST 153. Civil War and Reconstruction, 1840-1890. 3 Units
Term Typically Offered: Fall, Spring

Political history of the Civil War and Reconstruction. Topics include sectionalism; slavery, westward expansion, secession, the conduct of the war, industrialization, and the changing status of African Americans.

HIST 154. 20th Century United States, 1890-1940. 3 Units
Term Typically Offered: Fall, Spring

U.S. response to urban, industrial growth from the origin of the Spanish-American War to Franklin D. Roosevelt. Progressivism, Imperialism, World War I, the decade of the 1920's; Depression and the New Deal.

HIST 155. 20th Century United States, 1941-Present. 3 Units
Term Typically Offered: Fall, Spring

Social, economic, and cultural challenges and achievements in U.S. life as they are reflected in political history. Emphasis upon domestic affairs, supplemented by foreign concerns that have presented fundamental choices to the American people.

HIST 156. The Sixties: Years of Hope, Days of Rage. 3 Units
Prerequisite(s): HIST17B
Term Typically Offered: Fall, Spring

Examines the key events and ideas that helped shape American politics and culture in the 1960s. Special emphasis placed on political power, race and racism, the role of dissent and social activism, and nonviolent civil disobedience. Covers the Vietnam War, the African-American Civil Rights movement, the Chicano movement, the women's movement, the counterculture, as well as social conflict and its resolution.

HIST 157. History of International Relations in the 20th Century. 3 Units
Term Typically Offered: Fall, Spring

Survey of the history of international relations (political, military, economic, cultural, and environmental) in the 20th century. Covers Europe, Asia, the Middle East, Africa, and the Americas, with emphasis on global events and issues from non-U.S. perspectives.

HIST 158. Military History of the United States. 3 Units
Term Typically Offered: Fall, Spring

Survey from the colonial militia to the present, including all military branches, with emphasis on the U.S. Army. In addition to doctrine, operations, weapons and warfare, focuses on the interrelationship of the military with the economic, social and political concerns of the American nation.
HIST 159. History of US Foreign Relations. 3 Units
General Education Area/Graduation Requirement: United States History, GE AREA D
Term Typically Offered: Fall, Spring
Diplomatic, military, economic, and cultural relations between the U.S. and the world from 1789 to the present, with emphasis on the 20th Century; focus on transformation of U.S. into a global power.

HIST 160. The United States in Vietnam, 1940-1975. 3 Units
Term Typically Offered: Fall, Spring
Case study of the making of foreign policy through seven presidencies. Identifies the causes of an American war in Vietnam and examines that involvement as a representative example of post-World War II U.S. globalism. Consideration of the domestic impact of the War and a critical examination of the "lessons" learned from it.

HIST 161. The American Vision. 3 Units
General Education Area/Graduation Requirement: United States History, GE AREA D
Term Typically Offered: Fall, Spring
Media survey of American life from the beginnings to the present. Integrates slides of American art, architecture, popular culture, and technology with history, literature and contemporary music.

HIST 162. Social History of the United States. 3 Units
General Education Area/Graduation Requirement: GE AREA D, United States History
Term Typically Offered: Fall, Spring
Survey of topics in American social history from the colonial period to the middle of the Twentieth Century. Subjects may include reform movements, immigration, racial problems, religion, medicine, and the role of women.

HIST 163. The City in US History. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
Role of the city in the American experience, with emphasis on the rapid urbanization of the 19th and 20th centuries. Attention given to the attractions and problems of urban life and to proposals for reforming the cities.

HIST 164. History of American Capitalism. 3 Units
Term Typically Offered: Fall, Spring
Survey of U.S. business from the colonial era to the present that places U.S. business in a global context. Examines how individual entrepreneurs and regulators have contributed to the development of the modern American political economy.

HIST 165. American Environmental History. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
Traces the changing relationship between human society and the natural environment from pre-colonial era to the present. Focuses on the interplay between industrialization and nature, and examines past and present environmental movements.

HIST 166. Popular Culture. 3 Units
Term Typically Offered: Fall, Spring
Focuses on entertainment and everyday life in America from the beginnings to the present. Enhances the students’ understanding of how popular culture reflects and shapes the larger issues and institutions of American life.

HIST 167. History of American Women. 3 Units
General Education Area/Graduation Requirement: United States History, GE AREA D
Term Typically Offered: Fall, Spring
Study of the role of women throughout American history with emphasis on the suffrage movement, abolitionism, and birth control. Considers the emancipation of women and their role in contemporary society.

HIST 168. Images Of America. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Race & Ethnicity Graduation Requirement (RE), Humanities (Area C2)
Term Typically Offered: Fall, Spring
Interdisciplinary survey of major events, trends and figures in American history viewed through American literature, visual arts, music and architecture. The arts in America are studied in relation to major ideas, significant personalities and important historical events from the period of the early republic to the present.

HIST 169. Hollywood and America. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
Chronological survey of American films and their cultural significance from the 1890’s to the present. Focus on films produced in Hollywood, the contexts in which they were created, and the impact of Hollywood as a mythical place in the development of American culture.

HIST 170A. Sports in American History. 3 Units
Explores the significance of sports in American history from the colonial era to the present. Examines how the social, cultural, and economic role of sports in the American experience intersects with race, class, gender, immigration, citizenship, and nationality. Considers the wide-ranging articulations of popular sports in the public imaginary throughout the 20th century.
HIST 171A. American Indian History to 1840. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

History of North American native people from before the European invasion to 1840. Particular attention given to the formation of indigenous societies before and during European colonization of the Americas and to the experience of Indian cultures, societies, and nations in the early U.S.

HIST 171B. American Indian History since 1840. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Spring only

History of North American native people from 1840 to the present. Particular attention given to Indian nations' engagement with the Indian policies of the United States and the persistence and adaptation of American Indian cultures, societies, and identities in the modern U.S.

HIST 172A. LGBTQ Histories. 3 Units
Term Typically Offered: Spring only

This course provides an introduction to the study of lesbian, gay, bisexual, transgender, and queer (LGBTQ) histories. Uses an interdisciplinary and comparative approach to explore the historical emergence and development of LGBTQ identities, communities, and political movements. Includes theoretical analysis of the history of gender and sexuality and the practice of historical analysis.

HIST 172B. Queer Black Histories. 3 Units
Term Typically Offered: Fall, Spring

This course explores central themes at the intersection of African American history and queer history to learn about the experiences of same sex loving and gender transgressing African Americans. Uses an interdisciplinary approach to explore historical and contemporary emergence of queer black identities, movements, and communities.

HIST 173. The History of the Civil Rights Movement: From Reconstruction to Deconstruction, 1865-Present. 3 Units
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), GE AREA D
Term Typically Offered: Fall, Spring

Examines the campaign for civil rights waged by African Americans from the Reconstruction era through the present. Treats the movement's roots, goals, main organizations, and its relationship with African American culture in this period. Includes a comparison with the experiences of Mexican Americans and Native Americans.

HIST 174. History of Disability in the United States. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall

Study of mental and physical disability in United States history from colonial times to the present. Emphasizes disability as a social and cultural construction and examines how disability intersects with historical constructions of race, class, gender, and sexuality. Includes lived experiences of disabled Americans, changing cultural perceptions of disabled Americans, and disability activism and legislative action, including the passage of the Americans with Disabilities Act and its aftermath.

HIST 174A. History of Disability in the United States. 3 Units
General Education Area/Graduation Requirement: Upper Division Further Studies in Area B5
Term Typically Offered: Fall, Spring

Study of psychiatric and intellectual disability and its diagnosis and treatment in United States history from colonial times to the present. Emphasizes "madness" as a social and cultural construction and explores how conceptions of madness intersect with historical constructions of race, class, gender, and sexuality. Examines the evolution of psychiatry and therapeutic practices for the treatment of patients, the lived experiences of disabled individuals, disability activism, portrayals of madness in popular culture, and the incarceration of disabled individuals in prisons.

HIST 174B. History of Madness in the United States. 3 Units
General Education Area/Graduation Requirement: Upper Division Further Studies in Area B5
Term Typically Offered: Fall, Spring

Study of psychiatric and intellectual disability and its diagnosis and treatment in United States history from colonial times to the present. Emphasizes "madness" as a social and cultural construction and explores how conceptions of madness intersect with historical constructions of race, class, gender, and sexuality. Examines the evolution of psychiatry and therapeutic practices for the treatment of patients, the lived experiences of disabled individuals, disability activism, portrayals of madness in popular culture, and the incarceration of disabled individuals in prisons.

HIST 175A. Sex, Population, and Birth Control in America. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Spring only – odd years

Explores efforts to control reproduction in America in the nineteenth and twentieth centuries. It examines the medical and legal institutions that shaped public policy and the general public's response to efforts to regulate citizens' reproduction, sexuality, and healthcare. It also investigates how race, ethnicity, class, and gender determined the types of reproductive choices available to Americans.

HIST 175B. Health, Death and Disease in America. 3 Units
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), GE AREA D
Term Typically Offered: Spring only – even years

An examination of American medicine from the colonial era through the present from a multi-cultural perspective, including how measures of health determined the monetary value of enslaved Americans in the colonial and ante-bellum eras and how Americans ability to access healthcare has been based upon their race, class, gender, and (dis)ability. Also addresses challenges to established medical practices launched by the women's health movement, civil rights activists, the Black Panther Party, and the right-to-die movement.

HIST 176. African Cultural Heritage in the Americas. 3 Units
General Education Area/Graduation Requirement: GE AREA D, Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring

Focuses on the legacies of African cultural and social systems among the diasporic Africans in the Americas in the 19th and 20th centuries. Primary focus is on the U.S., but also examines African retentions in Jamaica, Haiti, Cuba, and South America.
HIST 177. The African-American Experience, 1603-Present. 3 Units
General Education Area/Graduation Requirement: GE AREA D, Race & Ethnicity Graduation Requirement (RE), United States History
Term Typically Offered: Fall, Spring

Gives students an understanding of African-American history from the colonial period to the present. Focuses on African-Americans as active agents in shaping U.S. History, and analyzes the issues, ideas and strategies they have developed and used in their struggle for justice and equality.

Note: Fulfills the state graduation requirements for U.S. History.

HIST 178. Mexican-American History. 3 Units
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), GE AREA D
Term Typically Offered: Fall, Spring

Explores the contours of Mexican American history from the Spanish colonial experience through the present. Examines the roots of the Chicano community in the U.S. conquest of the Southwest, the twentieth-century immigration experience, the development of diverse Chicano communities after 1900, and the struggles for full civil rights in American society. Compared with the experiences of African Americans and Native Americans.

HIST 179. American Immigration History. 3 Units
Term Typically Offered: Fall, Spring

Study of immigration in American life. Particular attention given to the shifting causes and patterns of immigration, similarities and differences among the experiences of immigrants in the U.S., nativism, the development of immigration restrictions, and the effects of immigration on the life of the nation over time.

HIST 180. American Legal History. 3 Units
Term Typically Offered: Fall only

Examines the interaction of law, society, and politics in America from the colonial period to the present, with special emphasis on law as an arena of social and cultural conflict. Major topics include the development of the common law in early America; the law of slavery and its impact on constitutional development; the role of the law in defining controversies over race and gender; legal thought and education; and the role of the Supreme Court in 20th Century America.

HIST 181. Anarchists and Revolutionaries: Transnational Radicalism in America. 3 Units
Term Typically Offered: Fall, Spring

This course explores the intersection of anti-authoritarian ideologies, transnational migration and anarchist movements in the United States. It will focus on the time period of 1871 through 1940 and the ways in which concepts of "liberty" informed radical movements. Topics may include: European and Caribbean origins of anti-authoritarianism, immigrant enclaves, radical labor, anarchism, anarchist periodicals, and selected liberation movements.

HIST 182. American West. 3 Units
Term Typically Offered: Fall, Spring

Study of the Spanish and Indian frontiers, the advance of the Anglo-American settlers, and the emergence of the modern West.

HIST 183A. California History, 1542-1860. 3 Units
Term Typically Offered: Fall, Spring

Study of the people, institutions and cultural influence of Spanish-Mexican California and the changes brought by U.S. conquest and the Gold Rush.

HIST 183B. California History, 1860-1970. 3 Units
Term Typically Offered: Fall, Spring

Study of the social, political and economic evolution of California from construction of the first continental railroad link to the present, focusing on issues which are still significant in the state.

HIST 184. California Architecture and Urban History. 3 Units
Term Typically Offered: Fall, Spring

A survey of the history of California architecture and its impact on the urban environment from Native Americans to the 20th Century. Particular attention will be given to architecture as a statement of social, economic, and political empowerment.

Cross Listed: ART 118B; only one may be counted for credit.

HIST 185. California Indian History. 3 Units
Term Typically Offered: Fall, Spring

Historical study of California's native people and Indian-white relations from the Spanish colonial era to the present.

HIST 186A. The California Gold Rush. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), GE AREA D
Term Typically Offered: Fall only

Study of the social, cultural, economic, political, and environmental influences of the California Gold Rush in the contexts of state, national, and world history.

HIST 186B. History of California Water. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
Term Typically Offered: Fall, Spring

Study of the history of water in California, including its social, cultural, legal, economic, political, land use, and environmental significance.

HIST 186C. Sacramento History. 3 Units
Term Typically Offered: Fall only

Surveys the history of Sacramento and the lower Sacramento Valley through the nineteenth, twentieth, and early twenty-first centuries. Using local history methodologies, explores landscape change and patterns of community development in Sacramento and situates the city and region within national and global historical contexts.
HIST 187. Topics in United States History 1600-1900. 3 Units
Prerequisite(s): HIST 17A.
Term Typically Offered: Fall, Spring

Designed for students who want to acquire multiple subject teaching credentials. Examines United States history between 1600 and 1900 from a topical perspective, focusing on large themes and trends. Builds upon HIST 17A.

HIST 188. American Labor History. 3 Units
Term Typically Offered: Fall, Spring

Survey of the history of working people in the United States from the colonial period to the present. Topics include labor systems from slavery to wage work, strategies of labor organizations, race and labor, radicalism and reform, immigration and labor, labor and leisure, women and work, and globalization.

HIST 189. California Dreamin': A Cultural History of California since 1840. 3 Units
Term Typically Offered: Fall, Spring

Study of the cultural history of California as reflected in the humanities - art, music, literature, and film - from early American settlement and conquest to the present.

HIST 190. Clio: Editing and Publishing in History. 3 Units
Prerequisite(s): HIST 100
Term Typically Offered: Spring only

Seminar devoted to learning the editing and publishing side of the history profession. Students will produce the student history journal Clio.

HIST 191. Seminar in Historical Interpretation and Analysis. 3 Units
Prerequisite(s): HIST 100 and (GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W).
Term Typically Offered: Fall, Spring

Reading seminar in philosophy of history, historical methodology, and historical reasoning. Special focus on the instructor’s field of expertise. Designed for History majors and present and prospective teachers of history.
Note: Not open to lower division students.

HIST 192A. Seminar in Recent Interpretations of United States History. 3 Units
Prerequisite(s): GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.
Term Typically Offered: Fall, Spring

Reading seminar in recent scholarship and current trends in the interpretation of United States history. Designed especially for History majors and present and prospective teachers of history.
Note: Not open to lower division students.

HIST 192B. Seminar in Recent Interpretations of European History. 3 Units
Prerequisite(s): GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.
Term Typically Offered: Fall, Spring

Reading seminar in recent scholarship and current trends in the interpretation of European history. Designed especially for History majors and present and prospective teachers of history.
Note: Not open to lower division students.

HIST 192C. Seminar in Recent Interpretations of Asian History. 3 Units
Prerequisite(s): GWAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109 M/W.
Term Typically Offered: Fall, Spring

Reading seminar in recent scholarship and current trends in the interpretation of Asian history. Designed especially for History majors and present and prospective history teachers.
Note: Not open to lower division students.

HIST 192D. Seminar in Recent Interpretations of Latin American History. 3 Units
Prerequisite(s): GWAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109 M/W.
Term Typically Offered: Fall, Spring

Reading seminar in recent scholarship and current trends in the interpretation of Latin American history. Designed especially for History majors and present and prospective history teachers.
Note: Not open to lower division students.

HIST 192E. Seminar in Recent Interpretations of African History. 3 Units
Prerequisite(s): GWAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109 M/W.
Term Typically Offered: Fall, Spring

Reading seminar in recent scholarship and current trends in the interpretation of African history. Designed especially for History majors and present and prospective history teachers.
Note: Not open to lower division students.

HIST 192F. Seminar in Recent Interpretations of a Special Topic. 3 Units
Prerequisite(s): GWAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109 M/W.
Term Typically Offered: Fall, Spring

Reading seminar in recent scholarship and current trends in the interpretation of a special topic. Designed especially for History majors and present and prospective history teachers.
Note: Not open to lower division students.

HIST 193. Public History. 3 Units
Prerequisite(s): HIST 100
Term Typically Offered: Fall, Spring

Note: Field trip. Students will be required to attend field trips to public history institutions both on and off campus.
Field trip(s) may be required.
HIST 194. Oral History: Theory and Practice. 3 Units
Prerequisite(s): GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M/W and HIST 100.
Term Typically Offered: Fall, Spring
Introduces students to the theory and practice of oral history. Examines ethical and legal issues as well as problems of accuracy in memory. Students will also learn how to conduct, transcribe, and edit oral histories and develop oral history projects.

HIST 195A. History Internship. 3 Units
Prerequisite(s): Permission of the faculty internship director.
Term Typically Offered: Fall, Spring, Summer
Supervised work and project experience with history-related agencies and organizations, developing entry level skills. May not be repeated for credit.

HIST 195B. Advanced History Internship. 3 Units
Prerequisite(s): HIST 195A and permission of the faculty internship director.
Term Typically Offered: Fall, Spring, Summer
Supervised work and project experience with history-related agencies and organizations, developing more advanced entry level skills and practice in communicating history to public audiences. May not be repeated for credit.

HIST 195T. History Pre-credential Internship. 3 Units
Prerequisite(s): HIST 17A, HIST 17B, HIST 50, HIST 51, and HIST 100; permission of instructor.
Term Typically Offered: Fall, Spring
Supervised classroom observations and historical research to assist with curriculum development in secondary grade level history classrooms, with accredited schools, teaching related agencies and organizations. Students improve historical research skills, content mastery, and develop knowledge of using primary sources in history teaching. Students are exposed to secondary grade level history classrooms and observe instructional methods.
Note: Limited to upper division majors in the pre-credential program and students who have an interest in teaching history at the secondary level.
Credit/No Credit

HIST 196M. Japanese History in Japan. 3 Units
Term Typically Offered: Winter
A three-week course, with a two week Study-Abroad portion to Matsuyama Japan. Students will learn about Japanese history in both a classroom setting and through field trips to local sites in Ehime and Hiroshima prefectures. Field trip. Field trip(s) may be required.

Term Typically Offered: Fall, Spring
Examination of religion in the African Diaspora from the colonial period to the present. An introduction to Vodou, Santería, Candomblé, and Hoodoo (Conjure). Exploration of how African religious ideas, practices, and tradition have shaped religious cultures and communities in the Americas.

HIST 197A. Senior Research Seminar: United States History. 3 Units
Prerequisite(s): GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.
Term Typically Offered: Fall, Spring
Research seminar in historical writing in which students will complete a research paper in United States History based on primary sources. Subject will vary according to instructor. Recommended for the second semester of the senior year.
Note: Not open to lower division students.

HIST 197B. Senior Research Seminar: World History. 3 Units
Prerequisite(s): GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.
Term Typically Offered: Fall, Spring
Research seminar in historical writing in which students will complete a research paper in world history based on primary sources. Subject will vary according to instructor. Recommended for the second semester of the senior year.
Note: Not open to lower division students.

HIST 197C. Senior Research Seminar: Public History. 3 Units
Prerequisite(s): GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.
Term Typically Offered: Fall, Spring
Introduction to bibliographic and research skills in secondary and primary sources, and the development of expertise in writing historical reports. Particular attention to regional research libraries, manuscript repositories and archival facilities.
Note: Not open to lower division students.

HIST 198. Summative Assessment for Teachers. 3 Units
Corequisite(s): HIST 100.
Term Typically Offered: Fall, Spring
Capstone seminar that serves as a bridge between academic preparation and entry into a professional teacher credential program. Students will examine social science-history in the State curriculum framework, reflect on subject matter preparation, focus on middle and high school social science teaching and learning, investigate and evaluate resources pertinent to instruction, and explore current issues in education.

HIST 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading. Open only to students who appear competent to carry on individual work.
Credit/No Credit

HIST 200. History and Theory. 3 Units
Prerequisite(s): Classified standing in History or instructor permission.
Term Typically Offered: Fall, Spring
Study of the theoretical schools and debates that have most influenced historical research and writing in the modern era. Introduces students to both important theoretical texts and their applied use. It is designed to provide an intellectual foundation for subsequent graduate-level history seminars.
Note: Graduate Writing Intensive (GWI) course.
HIST 201. Interpreting World History. 3 Units
Prerequisite(s): Classified graduate status in History or instructor permission.
Term Typically Offered: Fall, Spring

Study of historical interpretations of major issues and problems in world history. Helps students to define world history as a field and to consider different approaches to teaching and/or researching world history topics.

Note: May be repeated for credit provided the period or the topic is different.

HIST 202. Interpreting U.S. History. 3 Units
Prerequisite(s): Classified graduate status in History or instructor permission.
Term Typically Offered: Fall, Spring

Study of historical interpretations of major issues and problems in US history. Helps students to define US history as a field and to consider different approaches to teaching and/or researching US history topics.

Note: May be repeated for credit provided the period or the topic is different.

HIST 203. Public History Principles and Techniques. 3 Units
Prerequisite(s): Graduate status or instructor permission.
Term Typically Offered: Fall, Spring

Provides an introduction to public history by surveying the major topics in the field through readings, discussion, and guest lectures. Students will learn about the history of public history, employment opportunities for public historians, and public historical issues.

Note: Graduate Writing Intensive (GWI) course.

HIST 209A. Research and Writing in US History. 3 Units
Prerequisite(s): Classified standing in History or instructor permission.
Term Typically Offered: Fall, Spring

Research seminar in fields of special interest. Topics will be announced each semester.

Note: May be repeated for credit provided the period or the topic is different.

HIST 209B. Research and Writing in the History of the American West. 3 Units
Prerequisite(s): Classified status in History or instructor permission.
Term Typically Offered: Fall, Spring

Research seminar in fields of special interest in the history of the American West. Topics will be announced each semester.

Note: May be repeated for credit provided the period or the topic is different.

HIST 209C. Research and Writing in World History. 3 Units
Prerequisite(s): Classified status in History or instructor permission.
Term Typically Offered: Fall, Spring

Research seminar in fields of special interest in the history of regions outside the U.S. Topics will be announced each semester.

Note: May be repeated for credit provided the period or the topic is different.

HIST 280A. Reading Seminar in African or Asian History. 3 Units
Prerequisite(s): Classified status in History or instructor permission.
Term Typically Offered: Fall, Spring

Extensive reading and analysis of the significant historical literature on a topic in African or Asian history. The area or topic to be studied will change from term to term.

Note: May be repeated for credit provided the period or the topic is different.

HIST 280B. Reading Seminar in Ancient or Medieval European History. 3 Units
Prerequisite(s): Classified status in History or instructor permission.
Term Typically Offered: Fall, Spring

Extensive reading and analysis of the significant historical literature on a topic in ancient or medieval European history. The area or topic to be studied will change from term to term.

Note: May be repeated for credit provided the period or the topic is different.

HIST 280C. Reading Seminar in Modern European History. 3 Units
Prerequisite(s): Classified status in History or instructor permission.
Term Typically Offered: Fall, Spring

Extensive reading and analysis of the significant historical literature on a topic in early modern or modern European history. The area or topic to be studied will change from term to term.

Note: May be repeated for credit provided the period or the topic is different.

HIST 280Z. Reading Seminar: Topics in World History. 3 Units
Prerequisite(s): Classified status in History or instructor permission.
Term Typically Offered: Fall, Spring

Extensive reading and analysis of the significant historical literature in world history. The area of topic to be studied will change from term to term.

Note: May be repeated for credit provided the period or the topic is different.

HIST 281A. Reading Seminar in Colonial or Early US History. 3 Units
Prerequisite(s): Classified status in History or instructor permission.
Term Typically Offered: Fall, Spring

Extensive reading and analysis of the significant historical literature of a particular period or topic in colonial North American or early U.S. history; the era or topic to be studied will vary from semester to semester.

Note: May be repeated for credit provided the period or the topic is different.

HIST 281B. Reading Seminar in Nineteenth Century US History. 3 Units
Prerequisite(s): Classified status in History or instructor permission.
Term Typically Offered: Fall, Spring

Extensive reading and analysis of the significant historical literature of a particular period or topic in nineteenth century U.S. history; the era or topic to be studied will vary from semester to semester.

Note: May be repeated for credit provided the period or the topic is different.

HIST 281C. Reading Seminar in Modern US History. 3 Units
Prerequisite(s): Classified status in History or instructor permission.
Term Typically Offered: Fall, Spring

Extensive reading and analysis of the significant historical literature of a particular period or topic in U.S. history after 1900; the era or topic to be studied will vary from semester to semester.

Note: May be repeated for credit provided the period or the topic is different.
HIST 281Z. Reading Seminar: Topics in United States History. 3 Units
Prerequisite(s): Classified status in History or instructor permission.
Term Typically Offered: Fall, Spring
Extensive reading and analysis of significant historical literature of a particular period or topic in U.S. history; the era or topic to be studied will vary from semester to semester.
Note: May be repeated for credit provided the period or the topic is different.

HIST 282A. Research Seminar in Public History. 3 Units
Prerequisite(s): Graduate status or instructor permission.
Term Typically Offered: Fall, Spring
Professional training in the research and analysis of cartographic, archival, architectural, and artifactual sources related to public history. Attention to such research areas as cultural resources management, environmental impact, and historic sites and structures.

HIST 282B. Archives and Manuscripts. 3 Units
Prerequisite(s): Graduate status or instructor permission.
Term Typically Offered: Fall, Spring
Professional training in archives and manuscripts administration. Historical development of archives and manuscripts administration, theoretical concepts that underlie the discipline, integration of these concepts into practice, and various uses of archival resources.

HIST 282C. Oral History: Theory and Practice. 3 Units
Prerequisite(s): Graduate status or instructor permission.
Term Typically Offered: Fall, Spring
Professional training in oral history, with attention to the field’s historical and theoretical development. Emphasis is placed on the methodology of oral history in the context of selected public history topics. Students learn to prepare for, conduct, transcribe, and edit oral history interviews.

HIST 282D. Museum Studies. 3 Units
Prerequisite(s): Graduate status or instructor permission.
Term Typically Offered: Fall, Spring
Intensive introduction to museum theory, practice, and management. Concentrates on providing an understanding of museums including museum exhibitions, collections, and acquisition policy. Students will have opportunities for practical museum experience and for meeting museum professionals.

HIST 282E. Historic Preservation. 3 Units
Prerequisite(s): Graduate status or instructor permission.
Term Typically Offered: Fall, Spring
Overview of the different aspects of historic preservation, including downtown revitalization, neighborhood organization, historic site management, preservation legislation, preservation education and historic architecture. The history of historic preservation in the U.S. Students will engage in on-site visits to historic sites.

HIST 282F. History and Memory. 3 Units
Prerequisite(s): Classified standing in Public History, History or instructor permission.
Term Typically Offered: Fall, Spring
Study of theoretical schools and debates regarding the formation, transformation, and transmission of collective memory. Draws upon theoretical literature on group memories from the social sciences and humanities, and it examines the importance of this literature for public and academic historians.

HIST 282G. Cultural and Heritage Tourism. 3 Units
Term Typically Offered: Fall, Spring
Seminar course that explores the theory and methods of cultural and heritage tourism as it pertains to experiences locally and globally. Topics include interpretation, audience interaction, and the economic, social, and political implications of heritage travel. Field trips and collaborative course project are required. Field trip(s) may be required.

HIST 282Z. Special Topics in Public History. 3 Units
Prerequisite(s): HIST 203 or instructor permission.
Term Typically Offered: Fall, Spring
Intensive seminar in a particular topic related to public history studies. Topics may vary and may include exhibit design, digital production, world heritage, cultural landscape, or other specialized knowledge in the field.

HIST 290. Clio: Editing and Publishing in History. 3 Units
Term Typically Offered: Spring only
Seminar devoted to learning the editing and publishing side of the history profession. Students will produce the student history journal Clio.

HIST 295. History Internship. 3 Units
Prerequisite(s): Graduate status and permission of faculty internship director.
Term Typically Offered: Fall, Spring
Supervised work and project experience with history-related agencies and organizations, developing entry-level professional skills.
Note: May be repeated for credit
Credit/No Credit

HIST 297. Advanced Internship. 3 Units
Prerequisite(s): HIST 295 and permission of the faculty internship director.
Term Typically Offered: Fall, Spring
Professional work experience in a specialized field of public history, with training and supervision as part of the Capital Campus Graduate Program in Public History.
Credit/No Credit

HIST 299. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading.
Note: Open only to students who appear competent to carry on individual work; May be repeated for credit.
Credit/No Credit

HIST 400. The Teaching of History in College. 3 Units
Term Typically Offered: Fall, Spring
Seminar devoted to the teaching of college history. Students will intern in lower division courses.
HIST 500. Culminating Experience. 3 Units
Prerequisite(s): Advanced to candidacy.
Term Typically Offered: Fall, Spring

Credit given upon successful completion of one of the following: A.) Thesis. An original contribution to historical knowledge, which includes the statement of a problem, a review of pertinent literature, the collection and presentation of relevant material, a conclusion, and a formal bibliography, all presented with appropriate documentation; OR B.) Project. A significant undertaking appropriate to public history, based upon the relevant literature, research skills, and applied expertise in areas of professional concern. Available for MA, Public History Option students only; OR C.) Comprehensive Examination. Structured and supervised reading programs for MA candidates preparing for the History Comprehensive Examination.

Honors Program (HONR)

HONR 1. First Year Seminar: Education, Self-Examination, and Living. 3 Units
Prerequisite(s): Open only to Honors students.
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Introduction to comparative ideas of education and self-development. In writings from around the world, examines works on education, autobiographical accounts, and short stories to explore concepts of teaching, learning, human growth and development, and the role of the school and university in the realization of human potential.

HONR 2. Great Books and World Civilization I. 3 Units
Prerequisite(s): HONR 1 and instructor permission.
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Students read, discuss, and explore some of the most influential works of literature, philosophy, history, and religion from cultures around the world prior to the 15th century. Students will gain knowledge of different cultural traditions, explore ways to criticize and to learn from different genres of literature, examine their own concepts and ideas, and practice skills of critical thinking in dialogue with challenging works. Readings will be drawn from a broad array of sources, including Greek, Chinese, and Indian traditions, different religious faiths, and works of literature representing a variety of outlooks and views.

HONR 3. Great Books and World Civilization II. 3 Units
Prerequisite(s): HONR 2 and instructor permission.
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Students read, discuss, and explore some of the most influential works of literature, philosophy, history, and religion from cultures around the world from the 15th century to the present. Students will gain knowledge of different cultural traditions, explore ways to criticize and to learn from different genres of literature, examine their own concepts and ideas, and practice skills of critical thinking in dialogue with challenging works. Readings will be drawn from a broad array of sources, including Greek, Chinese, and Indian traditions, different religious faiths, and works of literature representing a variety of outlooks and views.

HONR 101. Science and the Public Good. 3 Units
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring

This course examines how scientists employ information derived through the scientific method and statistical analyses to form conclusions. The methodology of science is applied to public policy debates relating to climate change, the use of DNA, Creationist/evolutionist issues, water conservation, land use zoning, energy, mineral resources, and other topics.

HONR 102. The Public Good Through the Visual and Performing Arts. 3 Units
Prerequisite(s): Upper division status in Honors Program; GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

This course explores the role of the visual and performing arts as a catalyzing and infinitely variable means of pursuing the public good. Students will engage with the artistic process as well as learn how works of art have successfully challenged ideological conventions and helped change social and political systems. Strategies of making art will be examined in the form of specific visual and performativity methodologies, the context of the artist, and the public perception of various art forms.

HONR 103. Civic Engagement, Service Learning: Pursuing the Public Good. 3 Units
Prerequisite(s): Must be admitted to Honors Program
Term Typically Offered: Fall, Spring

Students to be an active participant in his/her own learning process through a service learning experience and participation in a corresponding seminar. Students are offered a reciprocal opportunity to acquire knowledge and develop skills while providing service and assistance to the community. Students will have the opportunity to assess the circumstances of an organization and provide feedback on their situation. The student will evaluate and assess his/her service learning from three perspectives: the physical universe and its life forms, social issues and social science research, and the arts.

Note: An international experience can be substituted for a local service learning experience. See Honors Program Director for more information.

HONR 120. Honors One World Seminar. 3 Units
Prerequisite(s): Open to students in the Honors program and permission of the program director.
Seminar dedicated to exploring the One World theme for the university. Topic changes annually.

HONR 150. Leadership Seminar. 3 Units
Prerequisite(s): Open only to Honors students.
Term Typically Offered: Fall, Spring

Seminar dedicated to exploring the principles of effective leadership.
HONR 195. Community Fieldwork and Internship. 3 Units  
**Prerequisite(s):** Open to students in the Honors Program with permission of the program director and advanced approval of project goal and objective.  
**Term Typically Offered:** Fall, Spring

Supervised service-learning experience with a community partner. This experience focuses on application of the interdisciplinary approach of the General Education Honors Program while affording students direct, hands-on experiences.  
Credit/No Credit

HONR 196. Honors Senior Thesis. 3 Units  
**Prerequisite(s):** Open only to students enrolled in the GE Honors program with permission of the program director.  
**Term Typically Offered:** Fall, Spring

Honors research seminar in which students will complete a research paper in the discipline of their choice based on original research. Recommended for the student’s final semester of study.

HONR 199. Special Problems. 1 - 3 Units  
**Term Typically Offered:** Fall, Spring

Open to students enrolled in the General Education Honors Program. Individual projects and directed reading for students who are competent to assume independent work. Requires approval of the Honors Program Director and Honors faculty member under whom the independent work is to be conducted.

**How to Read Course Descriptions**

The **bolded** first line begins with a capitalized abbreviation that designates the subject area followed by the course number and title. The unit value is also displayed. Icons, if displayed, designate courses which satisfy Writing Intensive # and Race & Ethnicity # requirements.

**Prerequisite(s):** Coursework to be completed and/or requirements required before taking the course.

**Corequisite(s):** Course(s) that must be taken in the same term.

**General Education Area:**

Indicates the graduation requirement area, if listed, which the course fulfills.

- American Institutions:
  - United States History
  - U.S. Constitution
  - California Government
- Race and Ethnicity
- Foreign Language
- Writing Intensive

Indicates the General Education (GE) area, if listed, which the course fulfills.

- A – Basic Subjects
  - A1 – Oral Communication
  - A2 – Written Communication
  - A3 – Critical Thinking
  - B – Physical Universe and Its Life Forms
- B1 – Physical Science
- B2 – Life Forms
- B3 – Lab
- B4 – Mathematical Concepts and Quantitative Reasoning
- B5 – Further Studies in Physical Science, Life Forms, and Quantitative Reasoning
- C – Arts and Humanities
  - C1 – Arts
  - C2 – Humanities
- D – The Individual and Society
- E – Understanding Personal Development
- F – Ethnic Studies

The **course description** outlines what topics are covered in the course. If included, **cross-listed** indicates the same course is offered in a different department/subject.

The **Note** indicates additional information regarding the course.

**Credit/No Credit:** Indicates if the course grading basis is not a letter grade.

**Graded (CR/NC Available)** indicates a course with a grading basis that is a letter grade where the student may choose a Credit/No Credit grading basis.

**Human Resources/Organizational Behavior (HROB)**

HROB 101. The Management of Contemporary Organizations. 3 Units  
**Term Typically Offered:** Fall, Spring

Overview of managerial and organizational theory and practice, including a discussion of the contingencies that influence an organization’s effectiveness and efficiency. Focus is on the decision making and problem-solving processes that affect managerial performance in planning, implementing, and controlling the work of contemporary organizations.

HROB 151. Management of Human Resources. 3 Units  
**Prerequisite(s):** BSBA major (any concentration), Real Est and Land Use minor, HROB minor, or Public Health major  
**Term Typically Offered:** Fall, Spring

Seminar covering contemporary processes and practices pertaining to the organization and management of personnel including employee selection, development, motivation, evaluation and remuneration, and union relations. Emphasis on the management of human resources in task oriented organizations. Instructional method provides for case method, laboratory exercises, and small group discussion.

HROB 152. Management Skills Seminar. 3 Units  
**Prerequisite(s):** HROB 101; HROB 151 recommended.  
**Term Typically Offered:** Fall, Spring

Development of management awareness of the dynamics of organizational behavior. Emphasis on case discussions, small group action and role playing for the acquisition of knowledge and skills for effective managing and changing in an organization.
HROB 151. Employment Law.
Term Typically Offered: Fall, Spring

Provides students with an overview of the employment laws that impact and influence the workplace including laws regarding employment discrimination, disability discrimination and accommodation, employment leaves of absence, workplace harassment, employment torts and contracts, wage/hour regulations, employee privacy, intellectual property in the employment setting, and other emerging issues in employment law and personnel management. The impact of law on the management of human resources will be the focus of this class.

HROB 154. Strategic Human Resources Management.
Prerequisite(s): HROB 151, HROB 152, HROB 153.
Term Typically Offered: Fall, Spring

The objective of this capstone course is to identify contemporary strategies to improve individual and organizational performance. Utilizes a strategic human resource management perspective and incorporate Human Resource Management and Organizational Behavior theories for practical implementation in organizations. Links such concepts as compensation, performance management, law, conflict management, communication, diversity, ethics, and managerial skill building towards preparing for the future of managing individuals in organizations.

Term Typically Offered: Fall, Spring

Analyzes conflict in organizations, and strategies and processes for effective settlement or resolution of that conflict. Emphasis on the practical aspects of institutional and extra-institutional processes outside the conventional legal system. These dispute resolution methods include negotiation, mediation, arbitration and fair hearing. Students participate in a variety of exercises including simulated negotiations. Through these exercises students explore the basic theoretical models of bargaining and test and improve individual negotiation skills. Class format includes lecture, class discussion, simulation/role-play, expert guests and video demonstrations.

HROB 156. Current Trends and Emerging Issues.
Term Typically Offered: Fall, Spring

Designed to provide an in-depth examination of current trends and emerging issues in human resources management and/or organizational behavior. Provides students the opportunity to better understand the latest people-related challenges organizations face. Instructional method provides for case method, group discussion, industry guest speakers, and classroom exercises.

HROB 157. Labor Relations.
Term Typically Offered: Fall, Spring

Employer-employee relations in historical and contemporary contexts, with emphasis on the development of labor and management institutions and philosophies, public policies, collective bargaining, and contract administration in the private and public sectors.

HROB 158. Special Topics in Human Resource Management.
Term Typically Offered: Fall, Spring

Designed to provide an in-depth examination of a current human resource management topic(s), from both a theoretical and practitioner perspective. Possible topics include, but are not limited to, outsourcing and staffing trends, merit-based performance and compensation plans, technology-based recruiting and selection practices, and innovations in training and career development. Instructional method provides for case method, group discussion, industry guest speakers, and classroom exercises.

HROB 159. Special Topics in Organizational Behavior.
Term Typically Offered: Fall, Spring

Designed to provide an in-depth examination of a current organizational behavior topic(s), from both a theoretical and practitioner perspective. Topics include, but are not limited to, family-work relations, stress and burnout, workplace aggression, leadership and motivation, organizational politics and culture, attitudes and change, and organizational learning. Instructional method provides for case method, group discussion, industry guest speakers, and classroom exercises.

HROB 160. Cooperative Education Experiences in Human Resources Management.
Term Typically Offered: Fall, Spring

In-depth supervised work experience in human resources management. This supervised work experience allows the student to become familiar with the practice of human resources management in businesses or governmental agencies.

Note: Open to all upper division students subject to permission of the Management Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.

Credit/No Credit

HROB 194. Internship in Human Resources Management.
Prerequisite(s): Minimum Sacramento State GPA of 2.5 required.
Term Typically Offered: Fall, Spring

Supervised work experience in business, governmental or service agencies for the purpose of increasing student understanding of the nature and scope of their operations. Supervision is provided by the faculty and the cooperating agencies. Open to upper division students, subject to permission of the Management Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.

Note: Open to declared business administration majors only.

Credit/No Credit

HROB 195. Internship in Human Resources Management.
Prerequisite(s): HROB 151 and a minimum overall GPA of 2.5.
Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work. Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030.

Credit/No Credit
Humanities and Religious Studies (HRS)

HRS 4. Exploring World Religions. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring, Summer

Comparative inquiry into the nature of global religions, including Hinduism, Buddhism, Confucianism, Daoism, Judaism, Christianity, and Islam. Experiential, social, and material aspects of religions will be considered as well as beliefs and practices.

HRS 10. Arts and Ideas of the West: Ancient to Medieval. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Introduction to the literature, art, architecture, philosophy and history of the ancient and medieval West, with emphasis on classical Greece and Rome and the European Middle Ages.

HRS 11. Arts and Ideas of the West: Renaissance to Modern. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Introduction to the literature, art, architecture, music, philosophy, and history of the West from the Renaissance to the present.

HRS 21. First Year Seminar: Becoming an Educated Person. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall only

Introduction to the nature and possible meanings of higher education, and the functions and resources of the University. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills.

HRS 60. Popular Culture: Thinking Critically About the World Around Us. 3 Units
General Education Area/Graduation Requirement: Critical Thinking (A3)
Term Typically Offered: Fall, Spring

Focus on thinking critically and building arguments about popular culture in its various forms, including television, film, music, art, and literature. Enhances understanding of popular culture, including definitions of key analytical terms, sociocultural history, generic structures, and aesthetic appreciation.

HRS 70. Arts and Ideas of Asia: Ancient to Medieval. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only

Introduction to the cultural history of ancient and early medieval Asia incorporating examples of art, literature, philosophy, and religion, providing a survey of China, India, and several other distinct cultures of the areas surrounding them--especially Japan.

HRS 71. Arts and Ideas of Asia: Medieval to Modern. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only

Introduction to the cultural history of late medieval and modern Asia incorporating examples of art, literature, philosophy, and religion, providing a survey of China, India, and several other distinct cultures of the areas surrounding them--especially Japan.

HRS 80. Introduction to Film. 3 Units
Term Typically Offered: Fall, Spring

Introduction to the aesthetics of cinema, including understanding of how lighting, editing, angles, shot length, and framing create meaning in film. Discussion of aesthetic movements such as German Expressionism, Nouvelle Vague, and auteurism.

HRS 105. Approaches to the Humanities. 3 Units
Prerequisite(s): HRS 10 and HRS 11 or instructor permission.
Term Typically Offered: Fall only

Advanced study of interdisciplinary methods applied to the arts, including literature, music and other modes of humanistic expression.

HRS 108. Approaches to Religious Studies. 3 Units
Term Typically Offered: Fall only

Exploration of the history and methodology of Religious Studies, including the analysis of several significant theories of the origin and function of religion. Methods and theories drawn from the disciplines of psychology, sociology, history, anthropology, philosophy and feminist studies.

HRS 113. The Culture of Classical Greece. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only

Examination of the Golden Age of Athens and the birth of Western humanism; studies in the classical ideals, tragedy, comedy, poetry, history, philosophy, art and architecture.

HRS 114. The Culture of Classical Rome. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only

Study of Roman culture and its influence. Emphasis on art, architecture, literature, history, philosophy and religion of Rome from the early Republic to the end of the Western Empire.

HRS 115. Material Culture of Ancient Rome. 3 Units
Term Typically Offered: Fall, Spring

A focused study of ancient Roman culture as understood through investigation of materials artifacts, especially as found in archaeological sites and museum exhibits. The majority of course time will be spent in Rome and in Pompeii and other locations near Bay of Naples. Visits to archaeological sites and museums will be supplemented by readings of relevant texts and by ongoing discussion.

HRS 117. Paganism in the Roman World. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Survey of ancient Roman paganism, the wide variety of religious beliefs, practices, and institutions found throughout the Roman world. Topics include Greek influences, traditional religion, state and ruler cults, healing cults, oracles, astrology, mystery religions, priests and priestesses, prayer, sacrifice, and religious philosophies.

HRS 119. Classical Mythology. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring, Summer

Study of Greek and Roman myths and hero tales and their place in the arts and literature of Western civilization. Also provides an introduction to the general nature and function of myth.
HRS 120. Reason and Revelation: The Origins of Western Culture. 3 Units

Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Humanities (Area C2)

Term Typically Offered: Fall, Spring

Study of the conflicting cultures that have shaped the social, religious and ethical perspectives of Western Culture. Readings in the Bible, Plato, Greek drama, the New Testament, and church fathers.

HRS 121. Introduction to the Hebrew Bible/Old Testament. 3 Units

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Fall only

Survey of the historical narratives and other literature of the Bible, analysis of archeological evidence and introduction to the basic problems of textual criticism. Topics of study will include the origins and development of early Judaism and its interaction with surrounding cultures.

HRS 122. Introduction to the New Testament. 3 Units

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Spring only

Study of the New Testament literature in its historical and cultural setting. Topics covered include the literary relationships of the four Gospels, the historical Jesus, the evolution of early Christianity, and the diverse theologies represented in the letters of Paul and other canonical and non-canonical writings.

HRS 126. History of Christianity to the Reformation. 3 Units

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Fall only

Christianity from Jesus to Martin Luther. Emphasis on the evolution of Christian thought and institutions and the relationship of the Church to popular culture and secular powers. Cross Listed: HIST 126; only one may be counted for credit.

HRS 127. History of Christianity Since the Reformation. 3 Units

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Spring only

European Christianity from the Reformation to the present. Emphasis on the evolution of Christian thought, the co-existence of the Catholic and Protestant traditions and the relationship of religious and secular values in European society. Cross Listed: HIST 127; only one may be counted for credit.

HRS 131. Medieval Culture. 3 Units

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Fall only

Decline of Rome to the Renaissance. Emphasis on the cultural development of the West from the Germanic invasions until the advent of Humanism with attention to theology, art, architecture and literature to illustrate the dynamics of these diverse years.

HRS 132. Renaissance. 3 Units

Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Spring only

Investigates the nature and implications of Renaissance Humanism in Italy (14th and 15th centuries) as well as its impact in Northern Europe in the 16th century. Includes the literary works of such writers as Petrarch, Pico, Machiavelli, Erasmus and Cervantes, along with the art of Giotto, Botticelli, Michelangelo, Brunelleschi, Cellini, Dufay, da Vinci, and the music of Palestrina.

HRS 133. Baroque and the Enlightenment. 3 Units

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Fall, Spring

Multi-faceted survey of the culture of Europe and North America in the Age of the Baroque and Enlightenment (1600-1792). Emphasizes literature, music, painting, architecture and ideas in France, Britain, Germany and Italy.

HRS 135. Romanticism and Revolution. 3 Units

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Fall, Spring

Interdisciplinary survey of the cultures of Europe and North America in the 19th century. Building on the Romantic aesthetic developed late in the 18th century. Considers the literature, music, painting and ideas of northern Europe and America until the 1900s.

HRS 136. Birth Of The Modern. 3 Units

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Fall, Spring

Investigation of those crises in art and society underlying the development of modernism and post-modernism.

HRS 137. Global Crossings: Art and Culture 1945 to Present. 3 Units

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Fall, Spring

Exploration of concepts and expressions of postmodernism and its emphasis on irony, citation, and the interconnectedness of politics, aesthetics, and philosophy across the disciplines (art, literature, architecture, film) and the continents (Europe, Asia, Africa, America and Latin America).

HRS 141. Introduction To Judaism. 3 Units

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Fall only

Survey and analysis of the fundamental tenets of Judaism set within the context of the historical and intellectual development of the Jewish People.

HRS 142. Introduction to Christianity. 3 Units

General Education Area/Graduation Requirement: Humanities (Area C2)

Term Typically Offered: Spring only

Study of the beliefs, practices, institutions and history of the Christian religion. Emphasis on the Orthodox, Roman Catholic, and Protestant traditions and the relationship of Christianity to global cultures.
HRS 144. Introduction To Islam. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring, Summer
Survey of the Islamic way of life: its beliefs, traditions and practices from Quranic origins and the Sunna of the Prophet Muhammad. The historical development of Islamic law, religious sects, mysticism, and intellectual thought of the global Muslim community from medieval to contemporary times.

HRS 145. Introduction to Islamic Cultures. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only
Survey of the expression of Islamic values in religious practice, philosophy, theology, art, architecture, music, and literature in different geographic locations and historical periods.

HRS 146. Islam in America. 3 Units
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), Humanities (Area C2)
Term Typically Offered: Fall, Spring
An inquiry into the history and development of Islam in United States. Special emphasis will be placed on issues related to race, ethnicity, gender, ritual practice, and the politics of being Muslim in America.

HRS 147. History of Buddhism. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
Examines in cultural and historical perspective, drawing on both ancient and contemporary sources, the key practices and ideas of Buddhist traditions in India, China, Southeast Asia, Tibet, Japan, and other surrounding regions; as well as the more recent spread of these practices and ideas to Europe, North America, and Australia.
Cross listed: HIST 147

HRS 148. African Arts and Cultures. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
Survey of African cultural and artistic forms which explores the intersection of culture and the humanities in different African contexts past and present. Emphasizes the cultural diversity of the African continent, and surveys how different cultural, ethical, aesthetic, and religious values are expressed in literature, visual art, music, architecture, and ritual. Focuses primarily on sub-Saharan Africa.

HRS 151. World Mythology. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
Introduction to the nature and function of myth. The specific literature studied will be exclusive of classical mythology and because of the breadth of subject matter will vary in content. The mythology of at least four cultures will be covered each term.

HRS 152. Great Mystics of the World. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
Examination of the meaning of mysticism as a “direct experience of ultimate reality” in the world’s religions. The history, teachings, belief systems and scriptures of Hinduism, Buddhism, Daoism, Confucianism, Judaism, Christianity and Islam will be studied to illuminate the lives and works of each religion’s great mystical thinkers.

HRS 154. Food, Farming, and the Sacred. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
Examination of primary sources dealing with the sacred dimensions of food and farming in pre-modern and modern world cultures. Attention paid to sustainable, small-scale farming, and spiritual perspectives that promote and reinforce sustainable food practices. Interested students may receive one additional unit of credit for 20 hours of work with a local organization involved in farming and/or local food distribution through the Community Engagement Center and reflection assignments relating this work to course materials.

HRS 155. Spirit and Nature. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
Comparative inquiry into the critical connection between religion and nature. Traditional views of selfhood, the sacred, morality and specific ecological issues, such as energy consumption will be examined through representative sources in world religions.

HRS 161. Multicultural America. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2), Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring
Topically structured, interdisciplinary introduction to the cultural experiences of historically under-represented groups. Historical and contemporary events, as well as values and beliefs in American culture, are examined through various artistic expressions, such as music, painting and literature.

HRS 162. American Space and Identity. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
Examination of the ways in which physical spaces within America contribute to the formation of American identities and vice versa. Interdisciplinary and topically organized, analyzes both exterior and interior spaces: city, suburb, regions, body, mind, and the borderlands, to name a few. Also studies the interaction of race, class, gender, and sexuality with space and identity.

HRS 165. Images Of America. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X, or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Race & Ethnicity Graduation Requirement (RE), Humanities (Area C2)
Term Typically Offered: Fall, Spring
Interdisciplinary survey of major events, trends and figures in American history viewed through the lenses of American literature, visual arts, music and architecture. The arts in America are studied in relation to major ideas, significant personalities and important historical events from the period of the early republic to the present.
Cross Listed: HIST 168; only one may be counted for credit.
HRS 169. Hollywood and America. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Chronological survey of American films and their cultural significance from the 1890s to the present. Focus on films produced in Hollywood, the contexts in which they were created and the impact of Hollywood as a geographical and mythical place in the development of American culture. Cross Listed: HIST 169; only one may be counted for credit.

HRS 170. The Religious Landscape of the Sacramento Valley. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Humanities (Area C2).
Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Introduction to the field study of religious communities. Addresses the nature of religious pluralism in the U.S. today. The practice and belief systems of at least five different religious communities will be studied each semester. Students are required to do an in-depth term project based on research in one or more religious communities Cross Listed: ANTH 170; only one may be counted for credit.

HRS 171. Introduction to the East Asian World. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Comparative study of the cultural heritages of China and Japan through literature, art, religion, philosophy and history. East Asian modes of thinking and humanistic expressions will be identified and contrasted with those of the West.

HRS 172. The Classical Culture of China. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Introduction to classical Chinese culture through a survey of history, philosophy, religion, literature and art. The course identifies the uniqueness of Chinese culture as well as the common concerns it shares with other high cultures.

HRS 173. Chinese Philosophy and Religion. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Study of Chinese philosophic and religious ideas through representative works in English. The traditional Chinese views on human nature, society, politics, morality, and spirituality are examined. The Chinese transformation of Buddhism will also be discussed. The inner dynamics of traditional Chinese thought and its contemporary implications are explored.

HRS 174. Modern Japanese Literature and Culture. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Study of representative Japanese literature (in English translation) from the late Tokugawa through the modern period. Traditional Japanese values will be identified and Japan’s journey toward modernity examined. Both the uniqueness of Japanese culture and common concerns among cultures will be explored.

HRS 175. Zen Buddhism and Daoism. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Mystical nature of Daoist and Zen teachings will be emphasized. The organic linkage between Daoism in China and Buddhism in India will be explored. The emergence of Zen as a quintessential representative of East Asian cultural and aesthetic values will be discussed.

HRS 176. The Confucian Tradition. 3 Units
Term Typically Offered: Fall, Spring

Study of the Confucian tradition as it unfolded in China and influenced China’s East Asian Neighbors. Philosophical and religious dimensions, as well as the evolution and transformation of this uniquely Chinese tradition over time, will be studied. The Confucian influence on Chinese culture, philosophy, religion, literature, political structure and social organization will be identified and analyzed.

HRS 178. Religions of India. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

An introduction to the bewildering diversity of Indian religions, relating religious practices & ideas to broader cultural developments, including visual arts and literature. Focuses on the way Hindu, Buddhist, Jain and Sikh traditions address the concept of karma in distinctive ways, paying special attention to the way words and intentions are said to influence the consequences of a person’s deeds.

HRS 178A. Religions of India I: The Formative Period. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Introduction to religious life on the Indian subcontinent during its ancient period, relating religious practices and ideas to broader cultural developments, including visual arts and literature.

HRS 178B. India’s Religions: Jains & Sikhs. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall only – odd years

Introduction to India’s stunningly diverse religious landscape, exploring perspectives and practices in the development of the lesser known but widely influential Jain and Sikh traditions that lend special insight into India’s modern cultural practice and worldview. Focuses on Jain and Sikh notions of heroism and non-violence, paying special attention to the ideals of iconoclasm, religious pluralism and devotion.

HRS 179A. The Hindu Year. Fall. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

A survey of Hindu religious teachings, stories, and history, as expressed through the holy days and festivals celebrated each fall by Hindus throughout India and abroad, during which ideas, stories, and values are transmitted from one generation to the next. Examines the little understood and rarely discussed historical development behind each celebration, based on both ancient and contemporary sources, thereby revealing why Hindu ideas and history have remained compelling to Hindus for thousands of years.
HRS 179B. The Hindu Year: Spring. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
A Survey of Hindu religious teachings, stories, and history, as expressed through the holy days and festivals celebrated each spring and summer by Hindus throughout India and abroad, during which ideas, stories, and values are transmitted from one generation to the next. Examines the little understood and rarely discussed historical development behind each celebration, based on both ancient and contemporary sources, thereby revealing why Hindu ideas and history have remained compelling to Hindus for thousands of years.

HRS 180. The Film. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring
Introduction to the aesthetics of cinema with special attention to the evolution of critical theories of cinema within the framework of twentieth century arts and ideas.

HRS 181. Contemporary Issues in Film. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring
Examination of contemporary film and film criticism from an interdisciplinary perspective, stressing the links between film, literature, the visual arts and society.

HRS 183. World Religions and Cultures in Cinema. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Summer only
Examination of the religious and spiritual dimensions of selected films from around the world. The cinematic arts are examined in relationship to religious and spiritual concerns, concepts, and values.

HRS 185. Women in Film and American Culture. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
Study of major social issues confronting American women, examined through their images in film and other visual and literary arts.

HRS 188. Fantasy and Romance. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
Exploration of the aesthetic of fantasy. Approaches may include emphasis on the historical development of the quest-romance or the use of the fantastic as social commentary. Particular genres, such as science fiction, may be explored.

HRS 190B. Seminar in HRS: The Body. 3 Units
Prerequisite(s): Completion of 9 units of lower division core courses and eligibility for WI classes based on WPJ placement score or passage of the appropriate prerequisite; HRS major or minors only
Term Typically Offered: Fall, Spring
Seminar for Humanities and Religious Studies majors. Examines cultural constructions of the body through analysis of art and literature and through the insights of media studies, cultural studies, sociological, psychology, and anthropology.
Cross listed: HRS 290B

HRS 190C. Seminar in HRS: Many Realities of Consciousness. 3 Units
Prerequisite(s): Completion of 9 units of lower division core courses and eligibility for WI classes based on WPJ placement score or passage of the appropriate prerequisite; HRS major or minors only
Term Typically Offered: Fall, Spring
Seminar for Humanities and Religious Studies majors. Examines philosophies and theories of perception as applied to cultures, religious traditions, nature, film and literature. Investigates consciousness through examination of the subjectivity of human perception.
Cross listed: HRS 290C

HRS 190D. Seminar in HRS: The Hero. 3 Units
Prerequisite(s): Must be HRS major or minor; Completion of 9 units of HRS lower division courses; Completion of the GWAR.
Term Typically Offered: Fall, Spring
Seminar for Humanities and Religious Studies majors. Examines the hero in cross-cultural and historical perspective through analysis of literature, the visual arts, and music.
Cross listed: HRS 290D

HRS 190H. Seminar in HRS: Death and Afterlife. 3 Units
Prerequisite(s): Completion of 9 units of lower division core courses and eligibility for WI classes based on WPJ placement score or passage of the appropriate prerequisite; HRS major or minors only
Term Typically Offered: Fall, Spring
Seminar for Humanities and Religious Studies majors. Examines myths, theories, and perceptions of death and afterlife in cross-cultural and historical perspective through analysis of literature, the visual arts, and music.
Cross listed: HRS 290H

HRS 190M. Saints, Relics, and Miracles in Late Antique and Medieval Europe. 3 Units
Prerequisite(s): Student must complete 9 units of lower division core courses and be eligible for WI classes based on WPJ placement score or passage of the appropriate prerequisite
Term Typically Offered: Fall, Spring
Seminar for Humanities and Religious Studies majors. Examines the role of the body in the creation of saints' cults in medieval Europe through analysis of literature and art. Considers how the idea of martyrdom set the terms for an ideal Christian life and explores the role relics, pilgrimage and miracle stories played in medieval society.
Cross Listed: HRS 290M

HRS 190P. Seminar in HRS: Popular Culture in America. 3 Units
Prerequisite(s): For HRS majors and minors; completion of 9 units of HRS lower division core courses and eligibility for WI classes based on WPJ placement score or passage of the appropriate prerequisite.
Term Typically Offered: Fall, Spring
Seminar for undergraduate students studying in the Department of Humanities and Religious Studies. Examines the issues, theories, and methods associated with popular and material culture studies using an interdisciplinary perspective.
HRS 195. Seminar in Humanities. 3 Units
Prerequisite(s): Completion of 12 units of HRS lower division core courses, HRS 105, senior status; or instructor permission.
Term Typically Offered: Spring only

Senior seminar for Humanities and Religious Studies majors with Humanities Concentration; focuses on the perspectives and methods of the academic study of the humanities. Topics chosen by the instructor.
Note: May be repeated once for credit.

HRS 196. Experimental Offerings in Humanities and Religious Studies. 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Special experimental course on specific themes, figures, or topic areas.
Note: May be taken twice for credit if topic differs.
Credit/No Credit

HRS 196E. Seminar in HRS: Envisioning the Divine. 3 Units
Prerequisite(s): Must be HRS major or minor; Completion of 9 units of HRS lower division courses; Completion of the GWAR.
Term Typically Offered: Fall, Spring

Seminar for Humanities and Religious Studies majors and minors. Cross-cultural and trans-historical analysis of depictions of the divine in the visual, musical, and literary arts. Employs a modified seminar format, emphasizing analysis of primary and secondary material mainly by way of discussion.

HRS 196S. Storytelling & Myth in World Cultures. 3 Units
Prerequisite(s): Must be HRS major or minor; completion of 9 units of HRS lower division courses; eligibility for WI classes based on WPJ placement score or passage of appropriate prerequisite; or instructor permission. Paired with 296S.
Term Typically Offered: Spring only – odd years

Seminar for Humanities and Religious Studies majors and minors. Cross-cultural and trans-historical analysis of the way storytelling, along with the rituals associated with it, supports the development and spread of myth. Emphasis on analysis of primary and secondary material mainly by way of discussion.

HRS 198. Seminar in Religious Studies. 3 Units
Prerequisite(s): Completion of 9 units of HRS lower division core courses, HRS 108, senior status; or instructor permission.
Term Typically Offered: Spring only

Senior seminar for Humanities and Religious Studies majors with Religious Studies Concentration; focuses on the perspectives and methods of the academic study of religion. Topics chosen by the instructor.
Note: May be repeated once for credit.

HRS 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Tutorial-reading course involving independent research. Topic and research method to be decided upon jointly by student and instructor.
Note: May be repeated for credit.

HRS 200A. Culture and Expression: Prehistory to the Middle Ages. 3 Units
Prerequisite(s): Must be a HRS major or minor
Term Typically Offered: Fall, Spring

Interdisciplinary seminar on cultural movements, figures, and art forms of eras from prehistory to the European Middle Ages. Focus on the West with some global comparison. Emphasis on theoretical perspectives, methods, and research techniques germane to the humanities.

HRS 200B. Culture and Expression: Renaissance to the Present. 3 Units
Prerequisite(s): Must be a HRS major or minor
Term Typically Offered: Fall, Spring

Interdisciplinary seminar on cultural movements, figures and art forms of eras from the Renaissance to the present. Focus on the West with some global comparison. Emphasis on theoretical perspectives, methods and research techniques germane to the liberal arts.

HRS 202. Western Aesthetics: Traditions and Revision. 3 Units
Prerequisite(s): Graduate standing.
Term Typically Offered: Fall, Spring

Introduction to critical methodologies in the Humanities and to techniques of formal analysis as applied to specific eras and artworks in Western cultural history.

HRS 205. Space and Time. 3 Units
Prerequisite(s): 6 units in philosophy or instructor permission.
Term Typically Offered: Fall, Spring

Introduction to significant philosophical issues involving space and time. An investigation into the current state of these issues.
Note: No background or work in mathematics or physics is required.
Cross-listed: PHIL 192D; only one may be counted for credit.

HRS 209. Versions of the Self in Western Literature and the Arts. 3 Units
Term Typically Offered: Fall, Spring
Traces the stages through which the concept of the “self” emerges in Western literature, philosophy and the arts, from Antiquity to the 20th Century. Focus is on the transformation of moral identity as the West moves from a divinely ordered cosmos to a relativized universe.

HRS 210. Gender and Religion in Cross-Cultural Perspective. 3 Units
Term Typically Offered: Fall, Spring
Exploration of the relationships and roles of women and men in the context of religious life. May focus extensively on one or more particular religious traditions cross-culturally, or draw on a wider spectrum of examples. Special attention paid to the complementary nature of men’s and women’s roles in many religious traditions; and also the way that male perspectives have dominated many areas of formal religious discourse, noting the dissenting voices of women often hidden in more informal types of expression.
Cross-listed: LIBA 210; only one may be counted for credit.

HRS 213. Ancient Greek Culture. 3 Units
Term Typically Offered: Fall, Spring
A graduate-level survey of ancient Greek culture. Emphasis on social and private life, religion, historiography, literature, philosophy, drama, art, and architecture.
HRS 214. Ancient Roman Culture.  3 Units
Term Typically Offered: Fall, Spring
A graduate-level survey of Roman culture. Emphasis on social and private life, religion, historiography, literature, philosophy, drama, art, and architecture.

HRS 216. Historical Reflections on the American Dream.  3 Units
Term Typically Offered: Fall, Spring
Multicultural exploration of how our nation's history has been constructed, experienced, told and valued from varying ethno-cultural points of view, including each student's personal history.

HRS 217. Ordinary America.  3 Units
Term Typically Offered: Fall, Spring
Inquiry into the issues, theories, and methods associated with popular and material culture studies in order to provide students with insights into the past and present nature of American experience. Intended to be an exploration of the ways in which popular and material culture both reflect and contribute to the search for meaning in everyday life.

HRS 220. Seminar in Religious Studies.  3 Units
Term Typically Offered: Fall, Spring
Designed to offer a variety of topics in the study of religion. Seminar presents a rotating series of subjects ranging from ancient religious literature to contemporary religious problems.

HRS 222. Evolving Concepts of God: Portrait of Deity in Monotheistic Religions.  3 Units
Term Typically Offered: Fall, Spring
Seminar traces the historical origin and cultural evolution of the God concept in monotheistic religions. Topics include the archaeological record of humanity's earliest religious artifacts, evidence for the prehistoric worship of the "Great Goddess" figure, an examination of the polytheistic religions of the ancient Near East and their influence on the development of monotheism. Analyzes the evolving portrait of the Deity in the Hebrew Bible (Old Testament), the New Testament, and the Koran.

HRS 224. Religions of the Roman Empire.  3 Units
Term Typically Offered: Fall, Spring
Survey of the major religious beliefs and practices in the Greco-Roman world from 100B.C.E. -- 400C.E. Topics include traditional Greek and Roman religions, healing cults, philosophical religion and Gnosticism.

HRS 226. Wisdom and Apocalyptic Literature.  3 Units
Prerequisite(s): LIBA 200A or graduate status in History or instructor permission.
Term Typically Offered: Fall, Spring
Examines two of the more creative literary genres that make up the canonical and deuterocanonical literature of the Jewish and Christian bibles. Both the historical and theological underpinnings of wisdom and apocalyptic writing will be explored in-depth, with some consideration given to literary analogues in Egyptian, Mesopotamian and Greek culture. Significant research into wisdom and apocalyptic writings outside of the testamental framework required.
Cross Listed: LIBA 226; only one may be counted for credit.

HRS 228. Early Christian Literature.  3 Units
Term Typically Offered: Fall, Spring
Survey of the major genres of Christian literature in the first three centuries CE and their relationship to the development of Christian thought and institutions. Topics include the New Testament; Jewish-Christian literature; Gnostic Christian literature; apocryphal gospels, acts, epistles, and apocalypses; polemical literature; lives of saints; and canons and creeds produced by early church councils.

HRS 234. The Gothic Spirit.  3 Units
Term Typically Offered: Fall, Spring
Arts and ideas of the twelfth and thirteenth centuries in Western Europe, structured according to the principle of the "reconciliation of opposites." The Gothic period sees such opposites as faith and reason, vertical and horizontal (in architecture), counterpoint brought into harmony (in music). The period culminates in Dante's masterpiece, the Divine Comedy, which exhibits the reconciliation of opposites in such sets as female/male, faith/reason, human/divine, beauty/horror, and chaos/harmony.

HRS 235. Transcendence & Transgression in the Romantic Period.  3 Units
Term Typically Offered: Fall, Spring
Interdisciplinary study of Romanticism and other literary, philosophical, and artistic movements of the 18th and 19th centuries. Topics will vary from term to term.

HRS 236. Modernism: Contingent Realities of Self and World.  3 Units
Prerequisite(s): Contingent Realities of Self and World.
Term Typically Offered: Fall, Spring
Interdisciplinary studies in the arts of the modern era.

HRS 237. Global Citizenship and Culture.  3 Units
Term Typically Offered: Fall, Spring
This seminar is an exploration of how "the global" is conceptualized in an age with competing notions of the individual and the community. Special emphasis will be placed on race, class, ethnicity & gender to elucidate the many paths that thought, language, and identity take when traversing borders.

HRS 290B. Seminar in HRS: The Body.  3 Units
Prerequisite(s): Must be an HRS major or minor; Completion of 9 units of HRS lower division core courses and eligibility for WI classes based on WPJ placement score or passage of the appropriate prerequisite
Term Typically Offered: Fall, Spring
Seminar for graduate students studying in the Department of Humanities and Religious Studies. Examines cultural constructions of the body through analysis of art and literature and through the insights of media studies, cultural studies, sociology, psychology, and anthropology. Cross listed: HRS 190B

**HRS 290C. Seminar in HRS: The Many Realities of Consciousness.**  
3 Units  
**Prerequisite(s):** Must be an HRS major or minor; Completion of 9 units of lower division core courses and eligibility for WI classes based on WPJ placement score or passage of the appropriate prerequisite.  
**Term Typically Offered:** Fall, Spring  
Seminar for graduate students studying in the Department of Humanities and Religious Studies. Examines philosophies and theories of perception as applied to cultures, religious traditions, nature, film and literature. Investigates consciousness through examination of the subjectivity of human perception.  
Cross listed: HRS 190C

**HRS 290D. Seminar in HRS: Death & Afterlife.**  
3 Units  
**Prerequisite(s):** Must be HRS major or minor; Completion of 9 units of lower division core courses; Completion of the WPJ.  
**Term Typically Offered:** Fall, Spring  
Seminar for graduate students studying in the Department of Humanities and Religious Studies. Examines myths, theories, and perceptions of death and afterlife in cross-cultural and historical perspective through analysis of literature, the visual arts, and music.  
Cross listed: HRS 190D

**HRS 290H. Seminar in HRS: The Hero.**  
3 Units  
**Prerequisite(s):** Completion of 9 units of HRS lower division core courses and eligibility for WI classes based on the WPJ placement score or passage of the appropriate prerequisite.  
**Term Typically Offered:** Fall, Spring  
Seminar for graduate students studying in the Department of Humanities and Religious Studies. Examines the hero in cross-cultural and historical perspective through analysis of visual artifacts, literature, history, philosophy, music and film.  
Cross listed: HRS 190H

**HRS 290M. Saints, Relics, and Miracles in Late Antique and Medieval Europe.**  
3 Units  
**Prerequisite(s):** Completion of 9 units of lower division core courses and eligibility for WI classes based on WPJ placement score or passage of the appropriate prerequisite; HRS majors or minors only.  
Seminar for graduate students in Department of Humanities and Religious Studies. Examines the role of the body in the creation of saints' cults in medieval Europe through analysis of literature and art. Considers how the idea of martyrdom set the terms for an ideal Christian life and explores the role relics, pilgrimage and miracle stories played in medieval society.  
Cross Listed: HRS 190M

**HRS 296. Experimental Offerings in Humanities & Religious Studies.**  
3 Units  
**Prerequisite(s):** Instructor permission.  
**Term Typically Offered:** Fall, Spring  
Special graduate-level experimental course on specific themes, figures or topic areas. Scheduled as needed.  
**Note:** May be taken twice for credit if topic differs.

**HRS 296E. Seminar in HRS: Envisioning the Divine.**  
3 Units  
**Term Typically Offered:** Fall, Spring  
Seminar for graduate students studying in the Department of Humanities and Religious Studies. Cross-cultural and trans-historical analysis of depictions of the divine in the visual, musical, and literary arts. Employs a modified seminar format, emphasizing analysis of primary and secondary material mainly by way of discussion.

**HRS 296S. Seminar in HRS: Storytelling & Myth in World Cultures.**  
3 Units  
**Term Typically Offered:** Spring only

Introduction to the nature and possible meanings of higher education, and the functions and resources of the university. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills. Provides students with the opportunity to interact with fellow classmates and the seminar leader to build community of academic support and personal support.

**ID 21. First Year Seminar: Becoming an Educated Person.**  
3 Units  
**General Education Area/Graduation Requirement:** Understanding Personal Development (E)  
**Term Typically Offered:** Fall, Spring  
Introduction to the nature and possible meanings of higher education, and the functions and resources of the university. Designed to help students develop and exercise fundamental academic success strategies and to improve their basic learning skills. Provides students with the opportunity to interact with fellow classmates and the seminar leader to build community of academic support and personal support.

**ID 96I. Experimental Offerings in Interdisciplinary Studies.**  
1 - 3 Units  
**Prerequisite(s):** Instructor permission.  
**Term Typically Offered:** Fall, Spring  
Opportunity for consideration of topics that cross disciplinary boundaries. Content will vary depending on the needs of students and interests of faculty.
ID 99. Special Problems. 1 - 4 Units
Term Typically Offered: Fall, Spring

Individualized directed projects or reading. Open to lower division students who present an adequately supervised plan of study. The course study should be interdisciplinary in nature and requires the approval of the faculty member under whom the individual work is to be conducted and of the Dean of the College of Social Sciences and Interdisciplinary Studies.
Credit/No Credit

ID 124. Social Justice in Interdisciplinary Perspective. 3 Units
Prerequisite(s): Sophomore standing or instructor permission.
Term Typically Offered: Fall, Spring

Examines the nature and forms of social justice and injustice. Addresses key philosophical and theoretical models and debates over the meaning of social justice, using historical and contemporary examples to highlight important concepts and controversies. Faculty from different departments within SSIS, and occasionally from other colleges, will address how their discipline understands and analyzes issues of social justice. Students will be encouraged to critically assess the assumptions of various perspectives on social justice, and to address the relationship of academic and social activism in achieving social justice.
Cross-listed: ANTH 130, ENVS 124, ETHN 124, FACS 124 and SOC 124.
Only one may be counted for credit.

ID 194. Experiential Learning. 1 - 6 Units
Term Typically Offered: Fall, Spring

Re-entry students may earn 1-6 units by documenting their interdisciplinary life/work experiences that meet the objectives of upper division university course work for an appropriate faculty member to evaluate. Approval of credit is granted by the Dean of the College of Social Sciences and Interdisciplinary Studies. Students must attend a workshop scheduled through the Academic Advising Center during the semester prior to registering for the course. Credit must be awarded prior to applying for graduation.
Credit/No Credit

ID 195. Field Experience. 1 - 6 Units
Term Typically Offered: Fall, Spring

Supervised work experience of an interdisciplinary nature in an approved business, education, government or service agency. Students are required to engage in a minimum of three hours of supervised work per week for each semester unit of credit granted.
Note: May be repeated for credit up to a total of 6 units.
Credit/No Credit

ID 195A. Introductory Field Experience in Peer Health Education. 2 - 3 Units
Term Typically Offered: Fall, Spring

Hands-on experience working in Student Health and Counseling Services’ Health and Wellness Promotion department. Instruction covers basic theory and practice of peer health education. Under supervision, students function as Peer Health Educators, providing peer outreach and education on key college health issues. Students complete 2-3 units per semester. Participants are expected to commit to both ID 195A and ID 195B, for up to 6 units of total credit.
Credit/No Credit

ID 195B. Intermediate Field Experience in Peer Health Education. 2 - 3 Units
Prerequisite(s): ID 195A and instructor permission.
Term Typically Offered: Fall, Spring

Continued hands-on experience working in Student Health and Counseling Services’ Health and Wellness Promotion department. Instruction covers intermediate theory and practice of peer health education. Under supervision, students function as Peer Health Educators, providing peer outreach and education on key college health issues. Students complete 2-3 units per semester. Participants are expected to commit to both ID 195A and ID 195B, for up to 6 units of total credit.
Credit/No Credit

ID 195C. Advanced Field Experience in Peer Health Education. 1 - 2 Units
Prerequisite(s): ID 195A, ID 195B, and instructor permission.
Term Typically Offered: Fall, Spring

Further explores the theory and practice of peer education while building advanced leadership skills. Includes both academic and experiential aspects, allowing students to develop a deeper understanding of key college health issues, presentation skills, and program planning. Students serve as mentors and assistant trainers to Peer Health Educators, plan and implement campus events, and present classes to peer groups on campus.
Credit/No Credit

ID 196. Advanced Experimental Offerings in Interdisciplinary Studies. 1 - 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Opportunity for in-depth consideration of topics that cross disciplinary boundaries. Content will vary on the needs of the students and interests of faculty.

ID 197. Training and Leadership for Orientation Leaders. 3 Units
Term Typically Offered: Fall, Spring

Introduce participants to concepts in peer advising and orientation at Sacramento State. Students will learn about the philosophy and purpose of orientation, academic policies, student services and campus facilities. Class activities are planned to help develop the leadership, interpersonal and communication skills necessary to be an effective peer adviser and campus representative.
Note: May be repeated for credit up to 6 units.
Credit/No Credit

ID 199. Special Problems. 1 - 6 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading. Open only to students who appear competent to carry on individual work. Generally will involve two or more of the major academic administrative units of the university. Admission requires the approval of the faculty member under whom the individual work is to be conducted and of the Dean of the College of Social Sciences and Interdisciplinary Studies.
Credit/No Credit
**Interior Design (INTD)**

**INTD 15. Introduction to Interior Design.**

General Education Area/Graduation Requirement: Arts (Area C1)

Term Typically Offered: Fall, Spring

Introduction to the field of interior design. Consideration of human factors, aesthetics, design process, furnishings, surface treatments, and current issues. Lecture, discussions, field trips, two hours.

Field trips may be required.

**INTD 20. Design.**

General Education Area/Graduation Requirement: Arts (Area C1)

Term Typically Offered: Spring only

Examination of the visual arts as expressed in architecture and interiors, community planning, painting and sculpture, furniture, ceramics, graphics, photography, clothing, and industrial design. Lecture, discussion.

**INTD 25. Design Fundamentals.**

Term Typically Offered: Fall, Spring

**INTD 27. Introduction to Interior Architecture Studio.**

Term Typically Offered: Fall, Spring

Prerequisite(s): INTD 25, INTD 30 Fee course.

Exploration of design and space planning fundamentals and their use in creating architectural interiors. Students will communicate designs through two- and three-dimensional drawings and models.

**INTD 30. Introduction to Computer Aided Design.**

Term Typically Offered: Fall, Spring

Prerequisite(s): INTD 25 or concurrent registration in INTD 25 is permissible if student has completed either GPHD 25 or PHOT 11.

Introduction to the principles and techniques of architectural drafting. Through a series of exercises, students will learn digital drafting techniques commonly used to generate floor plans, sections, elevations, and axonometrics. Through a series of design problems, students will also be introduced to basic space planning concepts and vocabulary. Emphasis will be on CAD drawing skills and conventions, CAD vocabulary, and CAD document management procedures.

**INTD 96. Introduction to Interior Architecture Studio and CAD.**

Term Typically Offered: Fall, Spring

Exploration of design and space planning fundamentals and their use in creating architectural interiors, as well as an introduction to the principles and techniques of architectural drafting. Through a series of design problems students will engage with basic space planning concepts and vocabulary as well as CAD drawing skills and conventions.

**INTD 123. Survey of Western Architecture and Interiors.**

Term Typically Offered: Fall only

Survey of European and American buildings, interiors, furniture and decorative arts from the stone age through the twentieth century. We will look at individual works as representative of trends in design history and as reflections of broad cultural forces: economic, political, etc.

**INTD 124A. American Design.**

Term Typically Offered: Fall, Spring

Survey of high-style and vernacular buildings, interiors, and decorative arts from the 17th century to the beginning of World War I. Analyzes European, Asian, Hispanic/Latino/Chicano and other background sources of inspiration and influence. Lecture-discussion.

**INTD 124D. Principles of House Design.**

Term Typically Offered: Fall, Spring

Introduction to some of the major architectural movements of the 20th Century; discussion of environmental concerns as they relate to house design; study of basic principles in planning a house. Lecture, discussion, field trip.

Field trips may be required.

**INTD 124E. Film/Design.**

Term Typically Offered: Fall, Spring

Students will explore design approaches that give films a feeling of suspense, create a sense of place, or establish a period in time. This course will increase student awareness of space in filmmaking, and demonstrate that spatial organization plays a key role in the aesthetic success of a motion picture.
INTD 124F. Avant Garde Cinema. 3 Units
Prerequisite(s): ENGL 97 or PHOT 102.
Term Typically Offered: Spring only
Survey of experimental film from the beginning of the cinema in the 1890s through today’s avant garde. Emphasis filmmaking as a means of personal, artistic expression, and will pay particular attention to those aspects of cinema that are typically ignored or marginalized in mainstream Hollywood movies. Films studied include those by: Melies, Porter, Richter, Leger, Cornell, Deren, Brakhage, Jacobs and Gehr.
Cross listed: FILM 124F.

INTD 125. Urban Design and Society. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
A history of urban design from Ancient Greece through today. The course will look at the conceptualizing, planning and development of cities through two distinct lenses: one focusing on visual and physical qualities, the other on how urban planning has been used to promote social/economic policy, political ideologies and institutions. Lecture, discussion.
3 units . GE Area D.

INTD 151. Interior Architecture Graphics I. 3 Units
Prerequisite(s): Grade "C" or better in each of the following courses:
INTD 15, INTD 20, INTD 25, INTD 30, GPHD 20, GPHD 25, PHOT 11, PHOT 20, DSGN 4 AND average G.P.A. 3.0 or better in the following classes: INTD 25, INTD 27, INTD 30
Corequisite(s): INTD 153 and either INTD 155 or INTD 165
Term Typically Offered: Fall, Spring
Emphasis will be on developing perspective and rendering capabilities, as well as on developing techniques for the execution of furniture, fabric, and color boards. Studio activity six hours.

INTD 153. Interior Design Studio I. 3 Units
Prerequisite(s): Grade "C" or better in each of the following courses:
INTD 15, INTD 20, INTD 25, INTD 30, GPHD 20, GPHD 25, PHOT 11
Corequisite(s): INTD 151 and either INTD 155 or INTD 165
Term Typically Offered: Fall, Spring
Introductory studio course with emphasis on understanding functional and formal elements of architectural interiors. Students will communicate designs through two- and three-dimensional drawings and models. Studio activity six hours.

INTD 155. Professional Practice I. 3 Units
Prerequisite(s): INTD 15 and INTD 30.
Term Typically Offered: Fall only
Study of the concepts and the analysis of technical and aesthetic applications of lighting design in both residential and commercial interiors. Lecture, discussion, field trips. Field trip(s) may be required.

INTD 157. Professional Practice II. 3 Units
Prerequisite(s): INTD 15 and INTD 30.
Term Typically Offered: Spring only
Continuation of the principles and techniques used in INTD 30. Students will be introduced to three different modeling techniques - wireframe, surface and solid. Emphasis will be on the construction of 3D CAD models as a means for quickly generating design alternatives. Topics include 3D modeling concepts and techniques, the behavior of materials with light, material characteristics and textures, and computer rendering output methods. Studio activity six hours.

INTD 161. Interior Design Graphics II. 3 Units
Prerequisite(s): Grade "C" or better in each of the following courses:
INTD 151, INTD 153 and either INTD 155 or INTD 165.
Corequisite(s): INTD 163 and either INTD 155 or INTD 165.
Term Typically Offered: Fall, Spring
Continuation of the principles and techniques used in INTD 30. Students will be introduced to the different presentation types that are utilized including CAD as a 2D rendering and presentation tool. Emphasis will be on file setup, composition and layout of projects within the schematic design, design development, and construction document phases of design. Assignments will demonstrate typical design applications commonly used in the interior design/architecture professions including systems furniture planning and tenant improvement. Studio activity six hours.

INTD 163. Interior Architecture Studio II. 5 Units
Prerequisite(s): INTD 151, INTD 153 and either INTD 155 or INTD 165.
Corequisite(s): INTD 161 and either INTD 155 or INTD 165. Fee course.
Term Typically Offered: Fall, Spring
Prerequisite: An intermediate studio course where students continue to develop their understanding of functional and formal elements of architectural interiors. Students will communicate designs through two- and three-dimensional drawings and models. Studio activity six hours.
Note: $22 for printing and miscellaneous materials
Fee course.

INTD 165. Professional Practice II. 3 Units
Prerequisite(s): INTD 15 and INTD 30.
Term Typically Offered: Spring only
Development of selection criteria for interior finishes based on material properties, cost and availability. An introduction to non-structural interior construction including wood and light gauge steel systems will be studied. Additional topics will include MEP systems, ceiling systems, and casework. Lecture/field trips.
Field trip(s) may be required.

INTD 171. Interior Design Graphics III. 3 Units
Prerequisite(s): Grade "C" or better in each of the following courses:
INTD 161, INTD 163 and either INTD 155 or INTD 165.
Corequisite(s): INTD 173 and either INTD 175 or INTD 195.
Term Typically Offered: Fall, Spring
Continuation of the principals and techniques used in INTD 30 and INTD 161. Students will become familiar with the basic vocabulary and concepts of three-dimensional modeling. Students will be introduced to three different modeling techniques - wireframe, surface and solid. Emphasis will be on the construction of 3D CAD models as a means for quickly generating design alternatives. Topics include 3D modeling concepts and techniques, the behavior of materials with light, material characteristics and textures, and computer rendering output methods. Studio activity six hours.
INTD 173. Interior Architecture Studio III. 5 Units
Prerequisite(s): INTD 161, INTD 163 and INTD 165.
Corequisite(s): INTD 171 and either INTD 175 or INTD 195. Fee course.
Term Typically Offered: Fall, Spring

Advanced studio course where students continue to develop their understanding of functional and formal elements of architectural interiors. Students will communicate designs through two- and three-dimensional drawings and models. Studio activity six hours.

Note: $50.00 for three-dimensional printing of physical models and misc.

Fee course.

INTD 175. Professional Practice III. 3 Units
Prerequisite(s): Grade "C" or better in each of the following courses: INTD 161, INTD 163 and INTD 165.
Term Typically Offered: Fall only

Study of the professional role of the interior designer in relation to that of the client, contractor and consultants. Legal and ethical issues are explored. Building codes, life-safety codes and ADA requirements are studied with emphasis on permit and plan-check requirements. Preparation for the NCIDQ exam and certification procedures are covered.

INTD 181. Interior Design Graphics IV. 3 Units
Prerequisite(s): Grade "C" or better in each of the following courses: INTD 171, INTD 173 and either INTD 175 or INTD 195.
Corequisite(s): INTD 183 and either INTD 175 or INTD 195.
Term Typically Offered: Fall, Spring

Interdisciplinary approach to prepare students for professional practice in the field of Interior Design. Student will be expected to complete a comprehensive portfolio of work.

INTD 183. Interior Architecture Studio IV. 5 Units
Prerequisite(s): INTD 171, INTD 173 and either INTD 175 or INTD 195.
Corequisite(s): INTD 181 and either INTD 175 or INTD 195. Fee course.
Term Typically Offered: Fall, Spring

Thesis studio in which students research and develop individual design projects. Students will draw upon knowledge and skills from previous coursework to create solutions to complex design problems. Projects are completed with assistance from instructor, client and working professionals. Students are required to submit a design proposal for instructor approval in the Fall. Studio activity six hours.

Note: $22 for printing and miscellaneous materials

INTD 185. Pro Practice - Career Preparation. 3 Units
Term Typically Offered: Fall, Spring

Professional practice course supporting students in the development of their professional architectural portfolio, resume, and self-marketing tools. Required guest lectures, professional networking, and career guidance events with oral, written, and verbal self-reflection activities. Open to Interior Architecture majors only.

INTD 195. Professional Practice IV-Internship. 3 Units
Prerequisite(s): Grade "C" or better in each of the following courses: INTD 161, INTD 163, INTD 165.
Term Typically Offered: Fall, Spring

Direct work experience in approved architecture, design, corporate, private or government office. Supervision is provided by both the instructional staff and the cooperating agency.

Credit/No Credit

INTD 196. INTD 196- Professional Preparation. 3 Units
Prerequisite(s): Grade "C" or better in INTD 161, INTD 163.
Term Typically Offered: Fall, Spring

resume, and self-marketing tools. Required guest lectures, professional networking, and career guidance events with written and verbal self-reflection activities. Open to Interior Architecture majors only.

INTD 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading.

Note: Departmental petition required.

Credit/No Credit

International Business (IBUS)

IBUS 180. Sustainability Business in Global Economy. 3 Units
Term Typically Offered: Fall

Introduces students to the emerging field of sustainability in business and the growing focus on the social, environmental, and economic performance of businesses in global economy. The course presents scientific, moral, and business cases for adopting sustainability.

IBUS 190. International Business. 3 Units
Term Typically Offered: Fall, Spring, Summer

Analyzes international business: foreign markets; export-import trade; licensing agreements; foreign exchange problems; role of the multinational firm; intergovernmental trade agreements; balance of payments; decision making in foreign environments.

IBUS 195. Internship in International Business. 3 Units
Prerequisite(s): Minimum Sacramento State GPA of 2.5.
Term Typically Offered: Fall, Spring

Supervised work experience in business, governmental or service agencies for the purpose of increasing student understanding of the nature and scope of their operations. Supervision is provided by the faculty and the cooperating agencies.

Note: Open to upper division students, subject to permission of the Management Area. Open to declared business administration majors only. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.

Credit/No Credit
IBUS 199. Special Problems in International Business. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.

Note: Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Center, Tahoe 1030.

Credit/No Credit

International Masters in Business Administration (IMBA)

IMBA 210. Managerial Accounting. 3 Units
Term Typically Offered: Fall, Spring

A consistent emphasis on managerial accounting and reporting is cost identification, allocation and control. This course expands the traditional view of accounting to include an examination of the integration of the historic three tools with cost elements. This expanded view would include environmental and political costs, compliance with multinational reporting standards, tax compliance and treaty costs.

IMBA 211. Global Corporate Finance. 3 Units
Term Typically Offered: Fall, Spring

Provides students a well-rounded understanding of the language and financial expectations/performance of organizations. Candidates will learn how to evaluate decisions from the perspective of shareholder and stakeholders. With this perspective they will be better equipped to make better business decisions and also understand the financial impact of those decisions.

IMBA 213. Marketing Management. 3 Units
Term Typically Offered: Fall, Spring

Presents how modern marketing principles can be applied to real-world situations. The emphasis will be on studying strategies used by organizations in today's highly competitive and evolving marketplace. Case studies will be utilized to fully develop techniques for creating marketing programs given varying levels of resources and information available under diverse market conditions.

IMBA 214. Statistical Decision Making. 3 Units
Term Typically Offered: Fall, Spring

Presents how business decisions are now made in an increasingly competitive and complex business environment. The emphasis will be on how to better respond to this challenge by using quantitative methods to forecast, extrapolate, analyze, and simulate a business situation for effective decision-making. Case studies will be used to develop those capabilities.

IMBA 215. Information Technology Management. 3 Units
Term Typically Offered: Fall, Spring

Covers the major challenges organizations deal with today as they attempt to manage their key technological resources as well as with implementing technological innovations. Addresses the digital opportunities and threats organizations face from senior management perspectives.

IMBA 216. Human Resource Management in Intl Perspective. 3 Units
Term Typically Offered: Fall, Spring

Reviews the organization theory from a macro perspective (structure, process, technology, people, and culture). Special attention will be paid to organization structure, human resources, design, control, culture and inter-organizational relationship.

IMBA 217. Business Law and Legal Environment. 3 Units
Term Typically Offered: Fall, Spring

Addresses such topics as comparative legal environments in international business, dispute settlement, foreign investment, money and banking, trade in goods, services and labor, intellectual property, sales, transportation, financing and taxation, multinational enterprise, and ethical standards and the responsible roles of business in international society.

IMBA 220. Legal Environment of International Business. 3 Units
Term Typically Offered: Fall, Spring

Examines in detail the global business operations within the context of today's international trade. International trade has an era typified by unprecedented worldwide production and distribution. Provides students with and understanding of these changes, and their impact on international trade. The primary objective is to prepare students to identify and respond to new opportunities and challenges in international trade.

IMBA 231. Global Financial Institutions and Markets. 3 Units
Prerequisite(s): IMBA 211.
Term Typically Offered: Fall, Spring

Introduces students to the principles and dynamics of international financial markets and institutions. Addresses the operational aspects of global financial institutions with the emphasis on foreign exchange risk management problem. The major objective is to have students develop an operational understanding of the financial problems faced by nations as well as the local and multinational corporation.

IMBA 232. International Trade. 3 Units
Prerequisite(s): IMBA 231.
Term Typically Offered: Fall, Spring

Examines in detail the global business operations within the context of today's international trade. International trade has an era typified by unprecedented worldwide production and distribution. Provides students with and understanding of these changes, and their impact on international trade. The primary objective is to prepare students to identify and respond to new opportunities and challenges in international trade.

IMBA 233. International Investments. 3 Units
Prerequisite(s): IMBA 231.
Term Typically Offered: Fall, Spring

The main objective is to provide students with a framework for making financial decisions in the international business arena. To this end, relevant features of exchange rate instruments and their determination, international equity markets, international investments will be covered. Also addressed is the issue of exposure to foreign exchange rate risk and associated hedging strategies.

IMBA 234. Contemporary Issues in International Finance. 3 Units
Prerequisite(s): IMBA 231.
Term Typically Offered: Fall, Spring

Focuses on exploring contemporary issues in international finance. Emphasis is placed on exploring and discussing: new financial investment instruments and consideration of the risk and return of the Venture Capital firms as an investment vehicle; the U.S. based Private Equity Funds around the world and the tools and techniques for managing foreign exchange risk; and the process of Initial Public Offerings (IPO) in different economies.
IMBA 241. Comparative International Management. 3 Units
Prerequisite(s): IMBA 216.
Term Typically Offered: Fall, Spring

Takes a global perspective in dealing with management issues in both foreign and diverse host environments. Communication and cross-cultural management issues are addressed in the context of changing global environments, especially in rapidly growing regions and countries.

IMBA 242. Multinational Corporate Management. 3 Units
Prerequisite(s): IMBA 216.
Term Typically Offered: Fall, Spring

Focuses on managerial challenges associated with developing strategies and managing operations of multinational corporations (MNCs) where activities stretch across national boundaries. A cross-cultural and functional perspective is adopted in investigating MNCs’ operating environments and competitive strategies through the analysis and discussion of selected case materials.

IMBA 243. Global Supply Chain Management. 3 Units
Prerequisite(s): IMBA 216.
Term Typically Offered: Fall, Spring

Introduces the major concepts and tools for the delivery of enhanced customer and economic value through global synchronized management of the flow of physical goods and associated information from sourcing to consumption. Includes key topics in purchasing, supply chain management, and distribution and logistics management.

IMBA 244. Project Management. 3 Units
Prerequisite(s): IMBA 216.
Term Typically Offered: Fall, Spring

Covers all phases of managing projects, from project selection to project termination. Specific topics include project life cycle, project selection methods, planning and scheduling techniques, accounting and budgeting methods, resource allocation, procurement and contract negotiation, organizational and ethical issues, and project termination. Current issues and cases will also be discussed, and software systems, such as MS Project and Internet-based file sharing systems will be incorporated into relevant portions of the course.

IMBA 251. Information Technology Resource Management. 3 Units
Prerequisite(s): IMBA 215.
Term Typically Offered: Fall, Spring

Examines the management of information technology as a vital resource to an organization. As a vital resource, the business must effectively and efficiently manage and secure its IT resources.

IMBA 252. Enterprise Information Technology Planning. 3 Units
Prerequisite(s): IMBA 215.
Term Typically Offered: Fall, Spring

As an organizational integrator, IT presents many new opportunities at the enterprise level to design and implement new organizational structures and business processes. Enterprise IT primarily involves enterprise resource planning (ERP), supply chain management (SCM), knowledge management (KM) and customer relationship management (CRM) to support and seamlessly coordinate business activities.

IMBA 253. Strategic Information Technology Planning. 3 Units
Prerequisite(s): IMBA 215.
Term Typically Offered: Fall, Spring

Strategic IT planning defines the direction a business chooses to direct its IT resources. It encompasses a vision, mission, strategy and objectives that closely align to the business’ vision, mission, strategy and objectives. Planning involves examining how IT will support the achievement of the business’ goals and objectives, and how IT can open new opportunities to create new business goals.

IMBA 254. Information Technology Project Management. 3 Units
Prerequisite(s): IMBA 215.
Term Typically Offered: Fall, Spring

Implementing IT initiatives requires a business to not only carefully evaluate their alignment to the business’ goals and objectives, but to identify and assess risks that they present. Selecting projects requires a comparison of their feasibility, complexity, scalability and impact. A project portfolio provides a means to direct the right resources to the right projects to ensure their completion at the right time. Plans must be developed and key performance measures identified and tracked.

IMBA 255. Information Technology Leadership. 3 Units
Prerequisite(s): IMBA 215.
Term Typically Offered: Fall, Spring

Leadership plays an important role in determining a business’ success with IT. It requires recognizing and leveraging the business’ competencies and core values, and championing initiatives and projects that work in the best interest of the business and create value. Examines the various elements that comprise IT leadership.

IMBA 256. Experimental Offerings in Executive Management. 3 Units
Term Typically Offered: Fall, Spring

When a sufficient number of qualified students apply, a faculty member may conduct a seminar on a designated advanced topic in executive management.

Note: May be repeated for credit

IMBA 299. Special Problems in Business. 1 - 3 Units
Prerequisite(s): Classified graduate standing or instructor approval
Term Typically Offered: Fall, Spring

Individual projects or directed readings for students qualified to carry on in independent work.

Note: Enrollment requires approval of faculty member supervising work in addition to the approval of the Associate Dean for Graduate and External Programs. Petitions to be obtained from the Graduate Business Advising Center (GBAC).
IMBA 500. Leadership and Change Management. 3 Units
Prerequisite(s): Must complete five of the following: IMBA 210, IMBA 211, IMBA 213, IMBA 214, IMBA 215, IMBA 216 and IMBA 217
Corequisite(s): May be concurrently enrolled in two of the following: IMBA 210, IMBA 211, IMBA 213, IMBA 214, IMBA 215, IMBA 216 and IMBA 217
Term Typically Offered: Fall, Spring

Advanced studies of leadership in business organizations. The key themes of the course are leading teams and leading during times of change. An integral part of the course is to study current business leaders and analyze their leadership practices. Leadership is studied in an integrated fashion based on different business functions and industrial experiences. Successful completion of this course satisfies the culminating experience for the IMBA program.

Italian (ITAL)

ITAL 1A. Elementary Italian. 4 Units
Term Typically Offered: Fall only
Focuses on the development of the four basic skills (understanding, speaking, reading, writing) through the presentation of many cultural components (two per week) which illustrate the Italian “modus vivendi;” social issues, family, food, sports, etc.

ITAL 1B. Elementary Italian. 4 Units
Prerequisite(s): ITAL 1A or instructor permission.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement, Humanities (Area C2)
Term Typically Offered: Fall, Spring
Continuation of ITAL 1A with greater emphasis on reading, writing. Addition of one reader which contains more cultural material (geography, political issues, government, fashion, etc.).

ITAL 2A. Intermediate Italian. 4 Units
Prerequisite(s): One year college Italian or suitable score on placement exam.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement
Term Typically Offered: Fall only
Intermediate course in the Italian language with emphasis on speaking, reading and writing ability; review of grammar; discussions and compositions in Italian. Meets the Foreign Language Graduation Proficiency Requirement.

ITAL 2B. Intermediate Italian. 4 Units
Prerequisite(s): ITAL 2A or suitable score on placement exam.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement
Term Typically Offered: Fall, Spring
Continuation of ITAL 2A. Meets the Foreign Language Graduation Proficiency Requirement.

ITAL 102. Italian Advanced Conversation. 3 Units
Prerequisite(s): ITAL 2B or instructor permission.
Term Typically Offered: Fall, Spring
Designed to develop oral fluency through free discussion on prepared topics, and supervised practice to develop audio-lingual skills at the advanced level. Course conducted in Italian. May be taken for credit twice.

ITAL 103. Advanced Grammar and Composition. 3 Units
Prerequisite(s): ITAL 2B or equivalent.
Term Typically Offered: Fall, Spring
Study of grammar and style and their application in oral and written exercises, in translations and in compositions.

ITAL 104A. Introduction to Italian Cinema I. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring
Italian Cinema from the 1940’s to its Golden Period in the 1960’s through the 1970’s. Films will be viewed in their cultural, aesthetic and/or historical context. Readings and guiding questionnaires will help students develop appropriate viewing skills. Films will be shown in Italian with English subtitles.

ITAL 104B. Introduction to Italian Cinema II. 3 Units
Term Typically Offered: Fall, Spring
Focuses on Italian Cinema from the 1980’s and the 1990’s. The “New Generation” of Italian Directors will be considered (Nanni Moretti, Gabriele Salvatores, Maurizio Nichetti, Giuseppe Tornatore, Roberto Benigni, Lilian Cavani, Fiorenza Infascelli, Francesca Archibugi, etc.) as well as current productions. Films will be shown in Italian with English subtitles.

ITAL 110. Introduction to Italian Literature I. 3 Units
Prerequisite(s): Upper division status and instructor permission.
Term Typically Offered: Fall only
Beginning and major developments of the literature of Italy from the Middle Ages through the Baroque period of the 17th Century. Analyzes the literary movements with emphasis on their leading figures, discussion of literary subjects, instruction in the preparation of reports on literary, biographical and cultural topics. Taught in Italian.

ITAL 111. Introduction to Italian Literature II. 3 Units
Prerequisite(s): Upper division standing and instructor permission.
Term Typically Offered: Fall, Spring
Major developments in the literature of Italy from the Enlightenment movement of the 18th Century through the 20th Century. Analysis of the literary movements with emphasis on their leading figures, discussion of literary subjects, instruction in the preparation of reports on literary, biographical, and cultural topics. Taught in Italian.

ITAL 130. Italian Civilization: The Dialogue Form It's Origins and European Context. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
Focus on Italian civilization in a Mediterranean context. Allows students to develop a critical understanding of the dialogue in the context of Italian and Western Civilization, from its origins in Ancient Egypt and Greece, to its flowering in the Renaissance and its return during the Enlightenment, to its endurance in modern times. Issues emphasized are philosophical and literary movements in their historical contexts. Socratic dialogue and other related genres, the dialogue as a typical Renaissance form with a variety of perspectives (feminine, poetic, satirical, etc.) the Enlightenment thinkers in Italy and France and their modern heritage are studied. Taught in English.
ITAL 131. The Italian Renaissance and Its Influence on Western Civilization. 3 Units
Term Typically Offered: Fall, Spring

Taught in English, explores the phenomenon of the Italian Renaissance in its literary, artistic, religious, social, historical, scientific, and economic aspects through the analysis of the period's major works, and through films, slides, lectures and discussions. The issues to be emphasized are the uniqueness of the Italian contribution to new ideas and values, and their influence on Western Civilization. The students will learn to recognize the sources and the effects of the Italian Renaissance within the integrated context of Western culture and various fields of knowledge.

ITAL 194. Field Experience/Internship. 1 - 3 Units
Prerequisite(s): Intermediate competency in Italian and instructor permission.
Term Typically Offered: Fall, Spring

Directed fieldwork in a project which uses the language skills developed through previous study of Italian. The projects may include interpreting and translating for public and/or private agencies in Sacramento or other projects approved by the faculty supervisor. All work will be monitored by Sacramento State faculty. The student must submit written reports to his/her supervisor. Can be taken more than once for credit.

ITAL 195. Fieldwork - Tutoring. 1 - 3 Units
Prerequisite(s): Student with native or near-native fluency in Italian and upper division status; or instructor permission.
Term Typically Offered: Fall, Spring

Tutoring of lower division Italian students, under the supervision of an instructor. Three hours of tutoring per week for each unit.
Note: May be repeated until a maximum of 6 units is reached.

ITAL 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading.
Note: Departmental petition required.

Japanese (JAPN)

JAPN 1A. Elementary Japanese. 5 Units
Term Typically Offered: Fall only

Develops elementary spoken Japanese, reading and writing in Kana and Kanji, and the practical skills required to effectively use the modern language. Emphasis on the culture, customs, and traditions of Japan.

JAPN 1B. Elementary Japanese. 5 Units
Prerequisite(s): JAPN 1A or instructor permission.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement, Humanities (Area C2)
Term Typically Offered: Spring only

Continuation of JAPN 1A, with emphasis on speaking, vocabulary, reading, grammar, speech patterns, and cultural knowledge. The Kana and Kanji writing systems, geography, and aspects of Japanese customs and manners are included.

JAPN 1C. Accelerated Elementary Japanese. 8 Units

This is an intensive introductory Japanese language course equivalent to one year of first-year Japanese (JAPN 1A and JAPN 1B) concentrated in one semester. Class meets four times a week for two hours a period and progresses at an accelerated pace. The course provides a solid foundation in the four language skills—listening, speaking, reading, and writing. In addition, students will acquire cultural knowledge necessary for appropriate communication and smooth functioning in Japanese society. Students enrolling in JAPN 1C must be able to read and write hiragana and katakana, the two basic phonetic syllabaries.

JAPN 2A. Intermediate Japanese. 4 Units
Prerequisite(s): JAPN 1A, JAPN 1B; or equivalent.

General Education Area/Graduation Requirement: Foreign Language Graduation Requirement
Term Typically Offered: Fall only

Emphasis on speaking, reading, and grammatical skills through dialogues, discussions, and reading. Meets the Foreign Language Graduation Proficiency Requirement.

JAPN 2B. Intermediate Japanese. 4 Units
Prerequisite(s): JAPN 2A or equivalent.

General Education Area/Graduation Requirement: Foreign Language Graduation Requirement
Term Typically Offered: Spring only

Continuation of JAPN 2A. Further development of speaking, reading, grammar, and composition skills. Meets the Foreign Language Graduation Proficiency Requirement.

JAPN 110. Introduction to Japanese Literature. 3 Units
Prerequisite(s): JAPN 2B or instructor permission.
Term Typically Offered: Spring only

Introduction to Japanese literature from the 10th century to the present. The various forms of Japanese classic and contemporary literature will be surveyed through the selective reading of representative works. Class will be conducted in both Japanese and English.

JAPN 116A. Third Year Japanese 1 - Language and Culture of Japan. 4 Units
Prerequisite(s): JAPN 2B or equivalent.
Term Typically Offered: Fall only

This course is the first in a two-semester series in advanced (third-year) Japanese. It is designed to expose students to the practical use of advanced structures and to further develop the four language skills—listening, speaking, reading and writing. Students will also acquire cultural knowledge necessary for appropriate communication at the advanced level. Taught in Japanese. This course counts towards the Japanese Minor.

JAPN 116B. Third Year Japanese 2 - Language and Culture of Japan. 4 Units
Prerequisite(s): JAPN 116A or the equivalent.
Term Typically Offered: Spring only

This course is a continuation of JAPN116A. JAPN116B is the second in a two-semester series in advanced (third-year) Japanese. It is designed to expose students to the practical use of advanced structures and to further develop the four language skills—listening, speaking, reading and writing. Students will also acquire cultural knowledge necessary for appropriate communication at the advanced level. Taught in Japanese. This course counts towards the Japanese Minor.
JAPN 120. Japanese Civilization. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring only

A broad survey of Japanese civilization from ancient to contemporary times, focusing on the overarching themes of continuity and change. Exploration includes Japanese geography, traditional aesthetics, warrior ethos, rapid modernization, postwar culture, popular culture, among others. Materials drawn predominantly from the fields of literature, film, and history.

JAPN 128. Introduction to Japanese Popular Culture. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

A survey of major forms of Japanese popular culture from the postwar period to the present with a focus on genre and narrative. Genres include anime, shojo manga, Jpop, popular fiction, and fandom. Emphasis on close reading and analysis of the texts/films. No knowledge of Japanese language or culture is required.

JAPN 150. Advanced Japanese Grammar, Conversation. 3 Units
Prerequisite(s): JAPN 2B or instructor permission.
Term Typically Offered: Fall only

Review of general principles of Japanese grammar and study of advanced grammar and their application in oral and written exercises and projects such as speeches, presentations, and translations.

JAPN 194. Field Experience/Internship. 1 - 3 Units
Prerequisite(s): Intermediate competency in Japanese and instructor permission.
Term Typically Offered: Fall, Spring

Directed fieldwork in a project which uses the language skills developed through previous study of Japanese. The projects may include interpreting and translating for public and/or private agencies in Sacramento or other projects approved by the faculty supervisor. All work will be monitored by Sacramento State faculty. The student must submit written reports to his/her supervisor. Can be taken more than once for credit. Credit/No Credit

JAPN 195. Fieldwork -- Tutoring. 1 - 3 Units
Prerequisite(s): Advanced students who have native or near native fluency or upper division status, or instructor permission.
Term Typically Offered: Fall, Spring

Tutoring of lower division Japanese students, under the supervision of an instructor. 3 hours of tutoring per week for each unit. Credit/No Credit

JAPN 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects, or directed reading. Open only to students competent to carry on independent study.
Note: Departmental petition required.
Credit/No Credit
JOUR 123. Writing for Public Relations. 3 Units
Prerequisite(s): JOUR 30; GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENG 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
Term Typically Offered: Fall, Spring, Summer
Organization and operation of communication media; practice in publicity and public relations techniques. Emphasis on clear writing and correct public relations formats such as releases, PSAs, articles, and speeches.
Note: Computer familiarity (MAC-OS) recommended. Cross listed: COMS 123

JOUR 125. Multimedia Storytelling. 3 Units
Prerequisite(s): JOUR 30
Term Typically Offered: Fall, Spring
Principles and techniques of reporting and writing news for radio, television, podcasts, social media, and other emerging media platforms. Field and laboratory experience, including basic multimedia story production.

JOUR 128. News Editing. 3 Units
Prerequisite(s): JOUR 20, JOUR 30.
Term Typically Offered: Fall, Spring
Introduction to the role of the editor in contemporary news production. Instruction in story assigning and digital editing, headline/caption writing, photo/visual selection, identifying story treatments, and web tools including search engine optimization and audience analytics. Lab sessions include story/copy editing, fact-checking exercises, headline/caption writing, photo/visual selection, analysis and application of audience metrics in story assignments, and other editorial work.

JOUR 130A. News Reporting I. 3 Units
Prerequisite(s): JOUR 20, JOUR 30.
Corequisite(s): JOUR 130B.
Term Typically Offered: Fall, Spring
Instruction and practice in journalistic research, interviewing, and reporting skills.
Note: Computer familiarity (MAC-OS) recommended.

JOUR 130B. News Reporting II. 3 Units
Prerequisite(s): JOUR 30.
Corequisite(s): JOUR 130A.
Term Typically Offered: Fall, Spring
Practice in covering a news beat, producing news and feature stories on a weekly basis. Instruction includes reporting on local government.

JOUR 131. Data Journalism. 3 Units
Prerequisite(s): JOUR 30; may be taken concurrently.
Term Typically Offered: Fall, Spring
Instruction and practice in finding, analyzing, visualizing and using data for journalism.

JOUR 132. Digital Magazine. 3 Units
Prerequisite(s): JOUR 30 or instructor permission.
Term Typically Offered: Fall, Spring
Conceiving, reporting, and writing feature articles for magazines in print and online. In addition to improving writing skills, students will learn how to identify freelance opportunities, pitch stories, analyze published work, and produce articles for a digital magazine published by the class.

JOUR 134. War, Peace and the Mass Media. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Spring, Summer
Concerned with the relationship of mass media to war and the possibilities for peace, with emphasis on recent concepts of political communication.
Cross Listed: GOVT 134; only one may be counted for credit.

JOUR 153. Journalism Law and Ethics. 3 Units
Term Typically Offered: Fall, Spring
Examines the laws, regulations, and ethical principles that govern print, broadcast, and electronic journalism in the U.S. The process by which laws and regulation are enacted and interpreted and the development of socially responsible journalistic practice are discussed.
Cross Listed: COMS 153; only one may be counted for credit

JOUR 158. Public Relations Planning and Management. 3 Units
Prerequisite(s): COMS 118 and JOUR 123 or COMS 123 with grade of "C-" or better.
Term Typically Offered: Fall, Spring
Application of theoretical concepts to the solution of problems for pre-selected non-profit and campus clients by forming small group PR agencies; completing needs assessments; profiling target and secondary audiences; developing and implementing a strategic public relations plan; producing targeted messages for media kits and other uses; and making formal in-class presentations to peers, clients and invited PR professionals. Students will also learn how to negotiate contracts, maintain client relations, track work on projects and develop timelines and budgets.
Cross Listed: COMS 158; only one may be counted for credit.

JOUR 172. Women in the Mass Media. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Spring only
Examination of women's role in the mass media, with particular emphasis on news reporting and advertising. Includes discussion of women's role in media industries. Culminates in a final project.

JOUR 175. Minorities, Social Change and the Press. 3 Units
Term Typically Offered: Fall only
Examination of the relationship between historically underrepresented groups and the news media. Provides a critical analysis and discussion of the role played by the news media in racial, cultural, and social change in the U.S. and explores how the news media can create a more pluralistic society.
JOUR 193. The Media Business. 3 Units
Term Typically Offered: Fall, Spring

Examination of business models and concepts influencing the contemporary news media industry. Study the traditional financial structures of media publications, evaluate opportunities in media entrepreneurship and develop business plans for publications.

JOUR 194. Journalism Related Work Experience. 3 - 6 Units
Term Typically Offered: Fall, Spring

Supervised employment in a company or agency working on journalism-related assignments, arranged through the Department of Communication Studies and the Cooperative Education Program office. Requires preparation of application packet, completion of a 6 month full-time or part-time work assignment, and a written report.

Note: Open only to upper division or graduate students with appropriate course preparation. Units MAY NOT be used to meet the Journalism major or minor. Consent of Communication Studies Department advisor required. No more than 12 units will count toward the degree.

Credit/No Credit

JOUR 195. Internship In Journalism. 1 - 6 Units
Prerequisite(s): JOUR 130A, JOUR 130B and minimum 2.3 overall GPA.
Term Typically Offered: Fall, Spring

Directed work experience through the internship program with public agencies or with journalistic publications, organizations or agencies. Supervision is provided by both the instructional staff and the cooperating agency.

Note: Student must make arrangements with the internship coordinator upon admittance to the course. Limited to Journalism majors and minors and Government-Journalism majors. No more than six units of JOUR 195 may be counted toward the Journalism major.

Credit/No Credit

JOUR 196. Experimental Offerings in Journalism. 3 Units
Term Typically Offered: Fall, Spring

One time and new classes in journalism will be scheduled as needed. 2.0 - 3.0 units

JOUR 196S. Writing for Sports Media. 3 Units
Prerequisite(s): JOUR 30.
Term Typically Offered: Fall, Spring

Fundamentals of gathering, organizing, evaluating and writing sports information in accepted professional style across news media and media relations platforms.

JOUR 197. Journalism Laboratory. 3 Units
Term Typically Offered: Fall, Spring

Working as a staff member of the State Hornet news organization. Roles and responsibilities may include writing, reporting, photography, audio/video production, web layout and design, promotions, marketing, distribution, and/or media business management.

Note: Journalism majors are required to take either JOUR 197A, JOUR 197B, or JOUR 195 Pre-requisite

JOUR 197A. The State Hornet-Introduction. 3 Units
Prerequisite(s): JOUR 30.
Term Typically Offered: Fall, Spring

Working as a staff member of the State Hornet news organization. Roles and responsibilities may include writing, reporting, photography, audio/video production, web layout and design, promotions and marketing.

Note: Journalism majors are required to take either JOUR 197A or JOUR 195.

JOUR 197B. The State Hornet-Continuing. 3 Units
Prerequisite(s): JOUR 197A
Term Typically Offered: Fall, Spring

Working as an editor, senior reporter or manager of the State Hornet. Responsibilities may include editing, staff management and in-depth reporting.

Note: Journalism majors may take this course only once for credit toward the major but up to three times for credit toward graduation.

JOUR 199. Special Problems. 1 - 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Individual projects or directed reading open to students who wish to attempt independent work. Faculty approval required.

Note: Journalism majors or minors may submit no more than 6 units of JOUR 199 and JOUR 299 toward their degrees.

Credit/No Credit

JOUR 299. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading. Open only to students who are competent to carry on individual work.

Note: Departmental petition required. Journalism majors or minors may submit no more than 6 units of JOUR 199 and 299 toward their degrees.

Credit/No Credit

Kinesiology (KINS)

KINS 4. Beginning Swimming. 1 Unit
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Development of physical and mental adjustment to the water. Basic instruction in front crawl, back crawl, elementary backstroke, breast and side strokes and survival is stressed.

Note: May be repeated for credit.

KINS 5. Intermediate Swimming. 1 Unit
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Development of physical skills involving strokes, turns, safety and survival techniques.

Note: May be repeated for credit.
Prerequisite(s): 50 yards swimming ability.
Term Typically Offered: Fall, Spring

Instruction in the fundamentals of sailing including safety and a
discussion of terminology and technology of sailing. Additional charge
for off-campus services.
Note: May be repeated for credit.

KINS 10.  Intermediate Sailing.
Term Typically Offered: Fall, Spring

Continuation of KINS 25, using our fleet of C-15s, Laser and Hobie Turbo
14s. Covers rigging, boating safety, sailing, theory and racing tactics.
Note: May be repeated for credit.

KINS 11.  Basic Windsurfing.
Term Typically Offered: Fall, Spring

Introduces the student to the basic fundamentals of windsurfing. Covers
rigging, terminology, balance, stance, sail adjustment, safety, rescue skills,
and tricks.
Note: May be repeated for credit.

Prerequisite(s): 50 yards swimming ability.
Term Typically Offered: Fall, Spring

Basic water skiing, boat and boating safety and in the fundamental skills
in water skiing. Additional charge for off-campus services.
Note: May be repeated for credit.

Term Typically Offered: Fall, Spring

Teaches the novice rower oar control, basic commands, and correct style.
Students will begin rowing on a modern eight-oared racing shell and be
introduced to the one person rowing single.
Note: May be repeated for credit.

KINS 15.  Introduction to Fly Fishing.
Term Typically Offered: Fall, Spring

KINS 15 is a course designed for Sacramento State students of all
experience levels to develop proficiency in the sport of fly fishing while
promoting an appreciation of the sport as a socio-cultural and lifetime
recreational pursuit. Instruction/participation will include, but is not
limited to the following topics: conditioning, conservation techniques,
equipment use/care/selection, fly casting, aquatic entomology, stream
hydrology, interpretation of fly fishing opportunities, fly fishing tactics,
basic knots, and field trips to local streams.
Field trip(s) may be required.

KINS 21.  First Year Seminar: Becoming an Educated Person.  3 Units
General Education Area/Graduation Requirement: Understanding
Personal Development (E)
Term Typically Offered: Fall, Spring

Introduction to the nature and possible meanings of higher education,
and the functions and resources of the University. Designed to help
students develop and exercise fundamental academic success strategies
and to improve their basic learning skills. Provides students with the
opportunity to interact with fellow classmates and the seminar leader to
build a community of academic and personal support.

KINS 22.  Creative Aerobic Fitness I.  1 Unit
General Education Area/Graduation Requirement: Understanding
Personal Development (E)
Term Typically Offered: Fall, Spring

Provides student with a wide range of flexibility, strength, muscular
endurance and creative cardiovascular endurance (aerobic) exercises
that promote physical fitness, positive changes in body composition and
stress reduction when performed regularly.
Note: May be repeated for credit.

Term Typically Offered: Fall, Spring

Using the unique buoyancy and resistance properties of water, the course
includes aquatic exercises for flexibility, strength, and cardiovascular
endurance to promote general fitness, body conditioning, and stress
reduction. As the course will take place in shallow water, swimming
proficiency is not required.
Note: May be repeated for credit.

KINS 26.  Exercise For Fitness.
General Education Area/Graduation Requirement: Understanding
Personal Development (E)
Term Typically Offered: Fall, Spring

Designed to encourage self-improvement through posture evaluation,
biomechanic analysis of exercises performed and through participation
in varied exercise forms. Students will develop a personalized repertoire
of strength, suppleness and stamina exercises calculated to improve
possible deficiencies in posture or movement to optimize enjoyment of
living.
Note: May be repeated for credit.

General Education Area/Graduation Requirement: Understanding
Personal Development (E)
Term Typically Offered: Fall, Spring

Jogging will expose the student to the fundamentals of jogging/running,
its potential physiological and sociological benefits as a lifetime activity,
fitness testing and individualized conditioning programs.
Note: May be repeated for credit.

KINS 30.  Bicycling.
General Education Area/Graduation Requirement: Understanding
Personal Development (E)
Term Typically Offered: Fall, Spring

Cycling as a lifetime sport; physiological benefits derived from bicycle
riding; individual functional evaluation and conditioning, cycle touring.
Lecture one hour; activity two hours.
Note: May be repeated for credit.

KINS 33.  Intermediate Weight Training.
General Education Area/Graduation Requirement: Understanding
Personal Development (E)
Term Typically Offered: Fall, Spring

Weight training as a lifetime fitness activity; emphasis on going beyond
the beginning level through development of an individualized program
designed to meet the needs of each individual.
Note: May be repeated for credit.
KINS 36.  Beginning Olympic Weight Lifting.  1 Unit

Prerequisite(s): KINS 33 or equivalent.
Term Typically Offered: Fall, Spring

Introduces the lifter to the sport of weight lifting which consists of the two lifts (two hands snatch and the two hands clean and jerk) used in Olympic competition. It includes the complete breakdown of the two lifts, the assistive lifts necessary to learn the parts of the two lifts, and the proper training sequence. The students will also be introduced to training cycles, proper diet, and the use of assistive equipment.

Note: May be repeated for credit.

KINS 40.  Tai Chi.  1 Unit

General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Examines the historical, philosophical, psychological and physiological aspects of Tai Chi. Students will be provided the opportunity to experience a wide range of movement patterns that focus on the integration of mind and body. The form and structure of technique as well as breathing exercises will be included.

Note: May be repeated for credit.

KINS 43.  Beginning Tae Kwon Do.  1 Unit

General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Primary emphasis on throwing, blocking, punching and kicking. The philosophy of Truism and Confucianism is explored.

Note: May be repeated for credit.

KINS 46.  Beginning Judo.  1 Unit

Term Typically Offered: Fall, Spring

Instruction in beginning judo tactics including throws and falls, conditioning, and protective devices for self-defense.

Note: May be repeated for credit.

KINS 50.  Uechi-Ryu Karate.  1 Unit

Term Typically Offered: Fall, Spring

Examines the historical, philosophical, and physical aspects of Uechi-Ryu Karate. Students will be asked to learn the basic techniques and skills used in this Okinawan system as well as to develop and improve in body strength, flexibility and coordination.

Note: May be repeated for credit.

KINS 56.  Beginning Self-Defense for Women.  1 Unit

General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Prepares women to deal psychologically, sociologically and physically with rape and violent assault. The physical tactics taught are based on the use of hands and feet as weapons. They are simple yet an effective use of one’s strength and mental attitude.

Note: May be repeated for credit.

KINS 59.  Self Defense and Conditioning.  1 Unit

Term Typically Offered: Fall, Spring

Multifaceted conditioning course that utilizes self defense techniques to develop self discipline, confidence and respect for physical capabilities and limitations of others.

Note: May be repeated for credit.

KINS 63.  Beginning Ballroom Dance.  1 Unit

Term Typically Offered: Fall, Spring

Development of proficiency in ballroom dance, including history, vocabulary, ballroom dance etiquette and basic steps for foxtrot, waltz, hustle, cha cha, tango, rhumba, salsa, and merengue.

Note: May be taken for credit more than once for credit.

KINS 72.  Beginning Basketball.  1 Unit

Term Typically Offered: Fall, Spring

Development of fundamental skills and tactics of the game, knowledge of basic strategy and rules. Emphasis given to individual and team concepts as they relate to performance and competition.

Note: May be repeated for credit.

KINS 73.  Intermediate Basketball.  1 Unit

Term Typically Offered: Fall, Spring

Advancement of basketball skills and strategy. Emphasis is given to individual and team concepts as they relate to performance competition and officiating basketball.

Note: May be repeated for credit.

KINS 75.  Beginning Volleyball.  1 Unit

Term Typically Offered: Fall, Spring

Development of basic skills, basic offensive and defensive systems of team play, basic strategies and rules. Emphasis on team work and developing supportive attitudes and behavior which encourages continued involvement in volleyball as a physical activity.

Note: May be repeated for credit.

KINS 79.  Beginning Soccer.  1 Unit

Term Typically Offered: Fall, Spring

Development of basic skills of ball handling, passing, dribbling, trapping, tackling, individual and team tactics and strategies; rules interpretation and officiating; promotion of bio-psychosocial well being.

Note: May be repeated for credit.

KINS 83.  Beginning Golf.  1 Unit

General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Development of sufficient basic proficiency in golf to recognize and enjoy it as a lifetime activity; including U.S.G.A. rules, etiquette and the fundamental mechanics involved in the use of irons and woods.

Note: May be repeated for credit.

<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Units</th>
<th>Term Typically Offered</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>KINS 86</td>
<td>Beginning Tennis.</td>
<td>1 Unit</td>
<td>Fall, Spring</td>
<td>Development toward proficiency in tennis, including basic court skills, knowledge, and elementary strategies. Development of enjoyable and appropriate cooperative and competitive modes of behavior; including etiquette and self-awareness. Attention is given to healthful approaches to vigorous lifetime physical activity. Note: May be repeated for credit.</td>
</tr>
<tr>
<td>KINS 87</td>
<td>Intermediate Tennis.</td>
<td>1 Unit</td>
<td>Fall, Spring</td>
<td>Development and refinement of skills at the intermediate level in all strokes. Development and refinement of playing techniques and strategies. Learning how to enjoy competitive situations and to relate well to others in competition. Adjustment to stressful competitive conditions and improvement of personal responses under stress. Note: May be repeated for credit.</td>
</tr>
<tr>
<td>KINS 88</td>
<td>Beginning Badminton.</td>
<td>1 Unit</td>
<td>Fall, Spring</td>
<td>Development of fundamentals in badminton including beginning skills, offensive and defensive tactics and strategy; singles, doubles and mixed doubles tournament play. Note: May be repeated for credit.</td>
</tr>
<tr>
<td>KINS 89</td>
<td>Intermediate Badminton.</td>
<td>1 Unit</td>
<td>Fall, Spring</td>
<td>Development of movement skills, strokes, tactics in singles and doubles at a more advanced level. Emphasis on &quot;cut&quot; or deceptive strokes, rotation or diagonal system of doubles play, increased ability to move on the court, application of laws to move difficult playing situations. Singles, doubles and mixed doubles play in tournaments. Note: May be repeated for credit.</td>
</tr>
<tr>
<td>KINS 90</td>
<td>Alpine Skiing and Snowboarding.</td>
<td>1 Unit</td>
<td>Fall, Spring</td>
<td>Designed to develop proficiency at all skill levels of alpine skiing, beginner through expert, while promoting appreciation of the sport as socio cultural phenomena and lifetime pursuits. Sessions will take place at a scheduled Sierra ski area as well as on campus. Additional fee. Note: May be repeated for credit.</td>
</tr>
<tr>
<td>KINS 91</td>
<td>Beginning Racquetball.</td>
<td>1 Unit</td>
<td>Fall, Spring</td>
<td>Fundamental theory and practice of the game of racquetball including service, receiving the service, back wall play, basic shots, variations, court positioning and general tactics; history rules, and safety precautions.</td>
</tr>
<tr>
<td>KINS 92</td>
<td>Intermediate Racquetball.</td>
<td>1 Unit</td>
<td>Fall, Spring</td>
<td>Development of proficiency at the intermediate level. Includes service and return, backwall play, offensive and defensive shots with emphasis on techniques, strategy and tactics of competition. Note: May be repeated for credit.</td>
</tr>
<tr>
<td>KINS 93</td>
<td>Exercise for Healthy Living.</td>
<td>2 Units</td>
<td>Fall, Spring</td>
<td>Exposes students to a broad range of information related to the understanding and development of personal fitness and health, including healthful approaches to vigorous lifetime physical activity. Note: May be repeated for credit.</td>
</tr>
<tr>
<td>KINS 94</td>
<td>Women and Sport.</td>
<td>3 Units</td>
<td>Fall, Spring</td>
<td>Role of women in sport; an inquiry into traditional and contemporary attitudes and practices regarding the woman's role in the sporting world.</td>
</tr>
<tr>
<td>KINS 95</td>
<td>Martial Arts: Karate.</td>
<td>3 Units</td>
<td>Fall, Spring</td>
<td>Explores the ancient tradition of the Asian martial arts in conjunction with actual participation in a selected martial arts course. Asks the student to critically examine the cultural contributions of specific Asian communities such as Japan, China, and Korea, to the Martial Arts as practiced in the U.S.</td>
</tr>
<tr>
<td>KINS 96</td>
<td>Martial Arts: Tae Kwon Do.</td>
<td>3 Units</td>
<td>Fall, Spring</td>
<td>Explores the ancient tradition of the Asian martial arts in conjunction with actual participation in a selected martial arts course. Asks the student to critically examine the cultural contributions of specific Asian communities such as Japan, China, and Korea, to the Martial Arts as practiced in the U.S.</td>
</tr>
<tr>
<td>KINS 97</td>
<td>Martial Arts: Tai Chi.</td>
<td>3 Units</td>
<td>Fall, Spring</td>
<td>Explores the ancient tradition of the Asian martial arts in conjunction with actual participation in a selected martial arts course. Asks the student to critically examine the cultural contributions of specific Asian communities such as Japan, China, and Korea, to the Martial Arts as practiced in the U.S.</td>
</tr>
<tr>
<td>KINS 98</td>
<td>Kinesiology: Research and Practice.</td>
<td>2 Units</td>
<td>Fall, Spring</td>
<td>Explores the ancient tradition of the Asian martial arts in conjunction with actual participation in a selected martial arts course. Asks the student to critically examine the cultural contributions of specific Asian communities such as Japan, China, and Korea, to the Martial Arts as practiced in the U.S.</td>

</tbody>
</table>

**General Education Area/Graduation Requirement:**
- Understanding
- Personal Development (E)
- Corequisite(s): One unit skill or fitness class; may be taken concurrently.
The course is designed to introduce students, persons interested in the personal training field, strength & conditioning and/or prospective coaches at the high school, college, or professional level, public, private settings to what are commonly referred to as training units. These training units are part of the total training program an individual/student/athlete would use to prepare for participation in fitness activity or sport. Included are practical hands-on participatory experiences, program design strategy and practical field tests.

KINS 121.  Peak Performance Through Psychological Skills.  3 Units

Term Typically Offered: Fall only

Examination of, and practical experience in, techniques for maximizing sport and creative performance through the development of mental skills and strategies for stress control, imagery, goal setting, and concentration.

KINS 122B.  Cardiopulmonary Resuscitation.  1 Unit

Term Typically Offered: Fall, Spring

Designed to meet American Red Cross or American Heart Association Certification in CPR.

Note: May be repeated for credit.

Credit/No Credit

KINS 130.  Elementary Physical Education Curriculum and Content.  3 Units

Prerequisite(s): KINS 138; Restricted to junior or senior Kinesiology majors-Physical Education concentration.

Term Typically Offered: Spring only

Overview of the total elementary physical education curriculum. Designed specifically for physical education concentration students. The primary focus will be placed on cooperative activities, movement education, development of locomotor, non-locomotor, manipulative skills, perceptual motor activities, fitness, games, and the correlation of classroom subjects with physical education. Introduces students to developmentally and instructionally appropriate physical education for children. Students will be able to develop a scope and sequence for an elementary physical education curriculum.

KINS 131.  Secondary Physical Education Curriculum.  2 Units

Prerequisite(s): KINS 138; Kinesiology major - Physical Education concentration students only.

Term Typically Offered: Fall only

Designed for senior level students in the Kinesiology major, Physical Education Option, Credential Concentration who wish to deliver an effective, meaningful physical education curriculum to diverse students. Covers curriculum components that include content, content organization, distinctive curriculum models and aspects of curriculum application. Students will learn how to sustain a positive learning experience, conceive and plan meaningful curricula for school based instruction, and to link the school program to opportunities for adolescents outside of school.

KINS 132.  Planning, Designing and Managing a Fitness Center.  3 Units

Term Typically Offered: Fall, Spring

Designed to provide students with the basic guidelines for starting and managing multiple health and fitness centers in the private setting; focus on initial start-up of a health and fitness center and operating procedures with emphasis on equipment selection and arrangement, employee training, program planning for safe and optimally beneficial health and fitness results.

KINS 133.  Integration of Concepts.  3 Units

Prerequisite(s): KINS PETE or PACC majors only; and GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.

General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)

Term Typically Offered: Fall, Spring

Critical perspective of how theoretical concepts and integrated knowledge can be applied to various aspects of physical education, sport, and physical activity. Emphasis is on a coherent understanding of the interrelationships that exist in the subdisciplines of kinesiology and other related subject areas. Capstone experience for students in the Physical Education Concentration; must be taken during the final semester of the student’s plan of study.

KINS 134.  History and Philosophy of Physical Education and Sport.  3 Units

Prerequisite(s): KINS 101. KINS 101 may be taken concurrently.

Term Typically Offered: Fall, Spring

Examination of historical events in physical education and sport; examination of how these historical events have influenced the varying philosophies of physical education, sport, and physical activity, past and present; identification of societal forces in cultures which lead to philosophical beliefs and concepts relative to the structure of the disciplines of physical education, sport, and physical activity.

KINS 135.  Assessment Strategies in Physical Education.  3 Units

Term Typically Offered: Fall, Spring

Selection, analysis, construction and administration of norm-referenced and criterion-referenced tests used for formative and summative evaluation in the physical education public school setting. Includes both traditional and alternative assessment strategies. Computers are used for data collection, development of assessment instruments, development of grading programs, and for descriptive statistical analysis.

KINS 136.  Sport And Aging.  3 Units

Term Typically Offered: Fall, Spring

Considers the positive and negative aspects of vigorous exercise and/or sport activity throughout the aging process. Included will be inquiry into the opportunities for activity among adults over the age of thirty, through the active career years, and beyond.
KINS 137. Sociology Of Sport. 3 Units
Prerequisite(s): KINS 101. KINS 101 may be taken concurrently.
Term Typically Offered: Fall, Spring
Analyze sport as a social institution and the interrelations between sport and societal subsystems. Consideration of the attitudes, values, and behaviors associated with sport. Analyzes contemporary problems associated with sport: race relations, the traditional and emerging role of women, leisure behavior, aggression and violence, and political and economic concerns. Analyzes a sociological problem within the context of sport.

KINS 138. Sport Pedagogy. 3 Units
Prerequisite(s): Kinesiology Majors, Minors and Liberal Studies PE Concentration.
Term Typically Offered: Fall, Spring
Sport pedagogy examines learning, teaching and instruction in sport, physical education and related areas of physical activity. Content is focused on differentiated instructional strategies, effective teaching and learning skills, designing instructional plans, managerial behaviors, organizational arrangements, communication skills, and professionalism.

KINS 139. Leadership and Communication. 3 Units
Term Typically Offered: Fall, Spring
Social actions and behavioral patterns as influenced by the communication process; experiential approaches to techniques of interpersonal and small group relationships and leadership; the constantly evolving communication media as instruments of behavioral change.

KINS 141. PRO ACT I - Dual Sports. 3 Units
Prerequisite(s): KINS 138
Corequisite(s): KINS 138
Term Typically Offered: Fall only
Design a program to prepare physical education students to analyze and teach developmentally appropriate activities designed for dual participation in the public school setting. Student will be given opportunity to learn and apply the basic techniques of tennis, badminton and pickleball as well as the offensive and defensive net strategies for game play. Emphasis will be given to skill acquisition analysis.

KINS 142. Professional Activities II - Creative Movement and Dance. 3 Units
Prerequisite(s): KINS 138
Term Typically Offered: Spring only
Students will develop an understanding of the content specific to the design and delivery of educational gymnastics and rhythm/dance activities in a K-12 setting. Gymnastics components include: skills, appropriate progressions, spotting techniques, safety and methods of organization. Rhythm and dance will include basic locomotive skill development; basic rhythm activities; and contemporary, line, square, round, contra, folk, country and Western and social/ballroom dance. Historical and multicultural concepts related to dance are also included.

KINS 144. Analysis of Weight Training & Muscular Fitness. 2 Units
Prerequisite(s): Restricted to Kinesiology, Pre-Exercise Science, Coaching Minor or instructor approval
Term Typically Offered: Fall, Spring
The course is designed to prepare students to teach, design, and implement strength/conditioning for various fitness/athletic populations. Included are skill techniques, skill analysis, class/group organization, equipment analysis, muscular fitness related to athletics, fitness, rehabilitation, and other factors related to effective teaching of muscular fitness in high school, college, private, public and corporate settings. Emphasis is on kinesiology/biomechanics principles, human anatomy, and physiological adaptations to the various strength/conditioning for fitness/athletic training covered in the course.

KINS 145. Pro Act III - Team Sports. 3 Units
Prerequisite(s): KINS 138
Corequisite(s): KINS 138
Term Typically Offered: Fall only
This is an introductory course designed for students within the Kinesiology Major Physical Education Concentration to analyze the teaching of field sports in secondary school settings. This course provides the student the opportunity to learn basic techniques, strategies, and rules of flag football, volleyball, softball, soccer and basketball. Emphasis will be given to skill performance, skill development, teaching methodology, skill analysis, lead-up activities, and sport participation.

KINS 146. PRO ACT IV Individual Sports. 3 Units
Prerequisite(s): KINS 138
Corequisite(s): KINS 138
Term Typically Offered: Spring only
Designed to prepare physical education students to analyze and teach developmentally appropriate activities designed for individual participation in the public school setting. Student will be given the opportunity to learn and apply the basic techniques of golf, track and field and aquatics as well as the strategies necessary for effective participation. Emphasis will be given to skill acquisition and analysis.

KINS 148. ProAct V - Nontraditional Games and Sports. 3 Units
Prerequisite(s): KINS 138
Corequisite(s): KINS 138
Term Typically Offered: Fall only
Students will develop an understanding of the content specific to the design and delivery of non-traditional games and sports. Instruction will focus on performance, skill analysis, methods of teaching, strategies for instruction, and evaluation of skills in K-12 settings. The students will be introduced to a variety of nontraditional games and outdoor activities, as well non-traditional team sports including Lacrosse, Ultimate Frisbee, Speedball, Team Handball, and Field Hockey.
KINS 149. Professional Activities of Health and Skill Related Fitness. 3 Units
Prerequisite(s): KINS 138
Corequisite(s): KINS 138
Term Typically Offered: Spring only

Students will develop an understanding of the content specific to the design/delivery of a variety of innovative fitness/wellness learning experiences for individuals in K-12 settings. Emphasis will be placed on movement and its relationship to the components of health fitness when pursuing and promoting a physically active lifestyle. Students will develop skills in assessing fitness levels and implementing strategies for supporting positive behaviors and attitudes toward fitness/wellness for individuals from diverse populations.

KINS 150. Exercise and Sport Physiology. 3 Units
Prerequisite(s): BIO 26 or equivalent, with grade of C or better
General Education Area/Graduation Requirement: Laboratory (B3), Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring
Sports physiology with special emphasis on studying the various systems in the body that are involved in work, exercise and sport. Training programs to improve these systems and their responses will be discussed in a wide variety of settings including exercise for health, fitness, recreation, and sports competition. Lecture two hours; laboratory 2.5 hours.
Note: Does not satisfy exercise physiology requirement for Exercise Science majors.

KINS 151. Kinesiology. 3 Units
Prerequisite(s): BIO 22 or equivalent.
Term Typically Offered: Fall, Spring

Anatomical concepts and physical laws as applied to human movement emphasizing the effects of individual and environmental variables. Includes analysis of normal and pathological gait. Lecture two hours; laboratory three hours.

KINS 151A. Biomechanics. 3 Units
Prerequisite(s): KINS 151.
Term Typically Offered: Fall, Spring

Introduction to fundamental mechanical concepts as they apply to human movement. A broad range of human movement will be explored including activities from sport, industrial settings, normal and pathological locomotory skills, and movements involved in manipulating the environment in which we live. Laws of physics, mechanical principles and mathematical concepts will be integrated in studying man as a biological entity. Lecture two hours; laboratory three hours.

KINS 151B. Biomechanics II. 3 Units
Prerequisite(s): BIO 10, BIO 22, KINS 151, and KINS 151A
Term Typically Offered: Fall, Spring

The study of biomechanical theory in regards to quantifying and analyzing human movement. Human movement will be examined from an advanced perspective, including tissue mechanics, the pathomechanics of chronic disease, and exercise and sport performance.

KINS 151C. Dance Kinesiology. 3 Units
Prerequisite(s): BIO 22 or equivalent.
Term Typically Offered: Fall, Spring

Human musculoskeletal and neurological systems, energy production, and biomechanical interrelationships of human motion applied to dance. Emphasis on the nervous, muscular and tendinous structures and the mechanical function of levers and force application and injury prevention for the dancer.

KINS 151D. Applied Kinesiology and Biomechanics. 3 Units
Prerequisite(s): BIO 26 with a grade of C or better.
Term Typically Offered: Fall, Spring
Fundamentals of human movement patterns with an emphasis on applied anatomy, movement principles, movement sequences, applied biomechanics, developmental motor stages and basic movement analysis.
Note: Does not satisfy kinesiology or biomechanics requirements for Exercise Science majors.

KINS 152. Physiology Of Exercise. 3 Units
Prerequisite(s): CHEM 1B or CHEM 6B and BIO 131
Term Typically Offered: Fall, Spring

Study of circulatory, respiratory and metabolic response to exercise in humans under various physiological and ambient conditions. Lecture 2 hours; laboratory 2.5 hours.

KINS 152A. Fundamentals of Exercise Programs. 3 Units
Prerequisite(s): KINS 152.
Term Typically Offered: Fall, Spring
Study of current training programs used in different types of activity. Emphasis will be placed on specific training techniques, nutritional needs, methods of testing/evaluating, and special considerations needed for various populations.

KINS 152B. Exercise Physiology of Women. 3 Units
Prerequisite(s): BIO 22 or 26
Term Typically Offered: Fall, Spring

Examines the general physiology of women, how physical activity affects women’s physiological functions, and how physiological functions affect women in sport and exercise performance. A comprehensive review of scientific literature is included.

KINS 152C. Prolonged Exercise. 2 Units
Prerequisite(s): An introductory college biology or zoology course.
Term Typically Offered: Fall, Spring

Extensive review of the energy metabolism, cardiovascular and pulmonary function, endocrine response, nutritional need, training effect, and biochemical response to prolonged exercise of 1-6 hours in duration.

KINS 152D. Blood Lactate and Exercise. 2 Units
Prerequisite(s): KINS 152.
Term Typically Offered: Fall, Spring

Reviews the basic aspects of lactate formation, release, and uptake by skeletal muscle and blood during exercise and training. Presents recent clinical and research findings related to physical performance.
KINS 152S. Energy Production & Sports Performance. 3 Units
Prerequisite(s): KINS 152 and co-enrollment in KINS 153 or Instructor Permission Recommended: FACS 10 & FACS 113
Term Typically Offered: Fall, Spring

Study of ergogenic aids, exercise nutrition and exercise performance enhancing drugs/supplements and their physiological effects on energy production and exercise performance. Lecture: 3 hours

KINS 153. Cardiovascular Testing and Exercise Prescription. 3 Units
Prerequisite(s): KINS 152 or instructor permission.
Term Typically Offered: Fall, Spring

Designed to train exercise leaders, exercise test technologists, and exercise program directors. Focus is upon development of basic skills, both administrative and technical, needed to develop a program of graded exercise testing and exercise prescription for asymptomatic and symptomatic populations. Lecture two hours; laboratory three hours.

KINS 153C. Cardiac Rehabilitation & Exercise Electrocardiography. 3 Units
Prerequisite(s): KINS 153 or Instructor Permission
Term Typically Offered: Fall, Spring

Study of cardiac rehabilitation and exercise electrocardiography, reviews clinical pathophysiology and ECG abnormalities during rest, exercise stress testing and cardiac rehabilitation. Lecture 3 hours.

KINS 154A. Principles and Techniques in a Clinical Setting. 3 Units
Prerequisite(s): Athletic Training or Kinesiology majors only; instructor permission
Term Typically Offered: Fall, Spring

Introduction to professional ethics and attire, the allied health care system, patient transfers, wheelchair and ambulation aids, medical terminology and record keeping. Fundamental principles and concepts underlying the therapeutic application of modalities, including methods of administering heat, cold, electricity, sound, light and water are covered.

KINS 154B. Management and Health Care Administration in Athletic Training. 3 Units
Prerequisite(s): Instructor permission only
Term Typically Offered: Fall, Spring

Organization, management and health care administration of athletic training programs. Includes communication skills, budget, facility design and management, legal aspects, drug testing, education, computer use, insurance and record keeping, personnel development (job search, CEUs, licensure), professional and governing organizations, athletic training reporting systems, emergency action plans, blood borne pathogen procedures, preparticipation exam management, health care issues and fundraising.

KINS 154C. Therapeutic Modalities Laboratory. 1 Unit
Prerequisite(s): BIO 22 or BIO 26, and KINS 154A, and KINS 156, and instructor permission.
Term Typically Offered: Fall, Spring

Techniques and clinical skills in the treatment of injuries using therapeutic modalities. Hands-on experience in the clinical application of contemporary therapeutic modalities (electrotherapeutic modalities, hydrotherapeutic modalities, cryotherapy, radiant energy, paraffin, intermittent compression units, traction units, massage) including patient preparation, set-up, dosage determination and operational procedures. Lab two hours.

KINS 155A. Clinical Evaluation of the Upper Extremity. 2 Units
Prerequisite(s): BIO 22 or BIO 26 or Equivalent and KINS 156.
Term Typically Offered: Fall, Spring

Analyzes and performance of evaluation procedures of the upper extremity, head and spine. Includes the development of skills in a patient interviewing, palpation methods, manual muscle testing, neurological and orthopedic assessments and special tests.

KINS 155B. Clinical Evaluation of the Lower Extremity. 2 Units
Prerequisite(s): BIO 22 or BIO 26, KINS 154A, KINS 156.
Term Typically Offered: Fall, Spring

Analyzes and performance of evaluation procedures of the lower extremity, trunk and low back. Includes the development of skills in patient interviewing, palpation methods, manual muscle testing, neurological and orthopedic assessments and special tests.

KINS 156. Care Of Athletic Injuries. 3 Units
Term Typically Offered: Fall, Spring

Application and methods of caring for and preventing athletic injuries through strapping, padding, conditioning, etc.; practical application of first aid and a basic introduction to treatment and rehabilitation of common athletic injuries.

KINS 156A. Emergency Response. 2 Units
Term Typically Offered: Fall, Spring

Underlying principles and applied techniques of first aid. Meets the requirements for the Emergency Response and CPR for the Professional Rescuer certificates of the American Red Cross. Lecture one hour, laboratory two hours.

KINS 157. Therapeutic Exercise. 3 Units
Prerequisite(s): BIO 22 or BIO 26, KINS 155A or KINS 155B, and KINS 156. KINS 155A or KINS 155B can be taken concurrently with KINS 157
Term Typically Offered: Fall, Spring

Biomechanical principles in the prescription of musculoskeletal rehabilitation exercises. Topics include passive, active and resistive range of motion, manual muscle testing, and exercises for strength, stamina and suppleness for every part of the body.

KINS 157B. Therapeutic Exercise for Chronic Conditions. 3 Units
Prerequisite(s): BIO 22 & BIO 131, or BIO 26, or instructor permission
Term Typically Offered: Fall, Spring

This course is designed to develop knowledge of fundamental disease processes in common chronic conditions and related exercise management. The general concepts of common chronic disease, including etiology, basic pathogenesis, co-morbidities and basic exercise prescription will be investigated. Evidence will be investigated and presented about the role of exercise in the prevention and management of disease, disability and lifestyle.

KINS 158. Motor Learning and Control. 3 Units
Prerequisite(s): BIO 26 or BIO 131 or equivalent
Term Typically Offered: Fall, Spring

Study of the motor and cognitive characteristics of individuals involved in learning and controlling motion skills and the conditions that can influence that learning and control. Lecture two hours; laboratory three hours.
KINS 160. Sport and Exercise Psychology. 3 Units  
Term Typically Offered: Fall, Spring  
Application of research findings as they apply to psychological performance factors in sport, physical education and exercise settings, such as motivation/adherence, stress management, personality and psychological skills training.

KINS 161. Theory of Sport and Fitness Management. 3 Units  
Term Typically Offered: Fall only  
This course is designed to introduce students to the basic theory underlying the multiple components of the sport and fitness industry. Fundamental concepts and theories of sports and fitness management will be applied to various segments of the sports industry: professional sports, collegiate sports, community sports and recreation, intramural sports and corporate fitness.

KINS 165. Theory of Coaching. 3 Units  
Term Typically Offered: Spring only  
Students will be introduced to coaching theory as it relates to developing leadership skills to work with athletes, and teams in the context of organized sport. Topics will include motivation, self-esteem, leadership, communication, competition and cooperation, team management, and optimal performance skills (goal setting, concentration, composure, recovery from mistakes/loss, consistency, and stress management).

KINS 166. Ethics, Inclusion and Equity in Coaching. 3 Units  
Term Typically Offered: Fall only  
This course educates future coaches on the moral and ethical dilemmas typically encountered in competitive athletics. Students will also develop strategies to address various forms of exclusion and inequity in sports and athletics.

KINS 167. The African American Sport Experience. 3 Units  
Term Typically Offered: Fall, Spring  
Examination of the experiences of the African American athlete in sport and society, from the period of enslavement to the contemporary era. Topics include gender experiences, intercollegiate experiences, professional sport, and the Olympic games, as well as the interconnections between African American communities and the role of sport. The experiences of African Americans will be compared to those of other ethnic and cultural groups.

KINS 168. Sport and Film. 3 Units  
Term Typically Offered: Fall, Spring  
This course uses sport films to examine relationships of power in society and the way those relationships are contested and often reinforced. Particular attention will be paid to cultural tensions and negotiations around issues related to race, gender, class, and sexuality. This course utilizes films, with accompanying readings, to understand the institution of sport in American culture, as well to understand how sport is setting where issues of race, class, gender, religion, ability/disability, and sexuality are contested and reinforced.

KINS 169. The Modern Olympic Games. 3 Units  
Term Typically Offered: Fall, Spring  
A study of the historical development of the modern Olympic Games. Areas covered include politics, nationalism, commercialism, marketing and amateurism. The contribution of athletes and administrators who have helped shape the Olympic tradition will be assessed.

KINS 171. Adapted Physical Education: Basic Skill/Fitness Activities and Assessment. 3 Units  
Prerequisite(s): KINS 177.  
Term Typically Offered: Fall, Spring  
Development of competencies for planning, developing, and evaluating effective skill and fitness activities for students with disabilities. Emphasis will be placed on basic skill development, fitness and traditional and alternative assessment strategies and postures assessment and programming for students with disabilities. Information regarding the application of specific standardized assessment instruments for placement decisions will be examined. Students will be required to participate in 15 hours of service learning. Class meets for 2 hours lecture and 2 hours activity.

KINS 172. Movement Education. 3 Units  
Prerequisite(s): Liberal Studies or Child Development majors only, or instructor permission  
Term Typically Offered: Fall, Spring  
Examination of activities and theoretical concepts that relate to the physical, social, emotional and intellectual development of the individual. Content includes: health-related physical fitness, movement concepts, stability, locomotor and manipulative skills, rhythms and dance, gymnastics, games and sport activities.

KINS 176. Perceptual Motor Development. 3 Units  
Term Typically Offered: Fall, Spring  
Study of the genetic, prenatal, perinatal and postnatal factors affecting the sequential perceptual motor development of children. Inquiry is made into reflexes, sensory motor testing and stimulation, perceptual motor testing and remedial activities in motor development.

KINS 177. Introduction to Adapted Physical Education. 3 Units  
Term Typically Offered: Spring only  
Historical and philosophical bases for adapted physical education, including the development and management of programs with emphasis on the psychomotor, affective and cognitive domains. The impact of federal and state legislation, legal liability and special health and safety problems will be studied in relationship to the role of the adapted physical education teacher, the interdisciplinary team, the parent and the pupil.

KINS 179. Adapted Physical Education: Program Planning. 3 Units  
Prerequisite(s): KINS 171 and KINS 177.  
Term Typically Offered: Fall, Spring  
Study of the variables in physical education curriculum and program planning - assessment, goals and objectives, development of program content, and evaluation - as related to individuals with disabilities.

KINS 188. The Effects of Physical Activity on the Brain and Neurological Disorders. 3 Units  
Prerequisite(s): KINS 158 or instructor permission  
Term Typically Offered: Fall, Spring, Summer  
This course will provide an in-depth evaluation of the molecular and systems-level neurophysiological changes as well as behavioral (movement, cognitive, affective/emotional) changes that manifest from physical activity and exercise. The changes resulting from acute vs. chronic exercise as well as different exercise modalities, intensities, frequencies, and durations will be explored. Pathophysiology of common neurological disorders, such as Parkinson’s disease, Stroke, Multiple Sclerosis and dementia, and the role of physical activity/exercise in the development and treatment will be examined.
KINS 194A. Assigned Field Experience in Kinesiology. 1 - 2 Units
Term Typically Offered: Fall, Spring

Assigned experience in Kinesiology. Students keep records of daily experiences and prepare periodic progress reports. Students receive one unit of credit for three hours per week for one semester of field experience.

Note: Registration requires prior approval of the department coordinator. May be repeated for a total of five units.

Credit/No Credit

KINS 194B. Assigned Internship in Exercise Science. 1 - 3 Units
Prerequisite(s): KINS 151 and/or KINS 152; or instructor permission.
Term Typically Offered: Fall, Spring

Assigned internship other than in the Human Performance Lab. The student will assist in laboratory experiments and other special procedures; will learn the operation of equipment and sequentially will be expected to administer tests and interpret the results. Interns will be expected to attend monthly conferences.

Note: May be repeated for a total of 3 units.

Credit/No Credit

KINS 194C. Assigned Field Experiences in Pre-Physical Therapy. 1 - 2 Units
Term Typically Offered: Fall, Spring

Assigned experience under the direction of a physical therapist. Students keep records of their experiences. Registration requires prior approval of the pre-physical therapy coordinator.

Note: May be repeated up to a total of 6 units. Open to Physical Education majors in the pre-physical therapy option.

Credit/No Credit

KINS 194D. Assigned Field Experience in Coaching. 1 - 2 Units
Term Typically Offered: Fall, Spring

Assigned experience in coaching (two hours daily for the full schedule of the sport for two units of credit). Students keep records of daily experiences and prepare periodic progress reports. Succeeding enrollments should be in different sports.

Note: May be repeated for a total of 6 units.

Credit/No Credit

KINS 194E. Assigned Internship in Adapted Physical Education. 1 - 3 Units
Prerequisite(s): Any two of the following: KINS 171, KINS 176, KINS 177, or KINS 179; permission of adapted credential advisor.
Term Typically Offered: Fall, Spring

Assigned experience in the conduct of Adapted Physical Education Programs. Students will keep records of their experiences. Three clock hours per week per unit of credit. Credential candidates may not use in lieu of Phase III requirements.

Note: May be repeated up to six times for credit for a maximum of 6 units.

Credit/No Credit

KINS 194F. Assigned Field Experience in Allied Health. 1 - 3 Units
Term Typically Offered: Fall, Spring

Practical experience in Occupational Therapy, Chiropractic or other allied health professions. Students keep records of their experiences while working under the direct supervision of a licensed clinician. Registration requires prior approval of a Pre-Physical Therapy advisor.

Note: May be repeated up to a total of 6 units.

Credit/No Credit

KINS 194G. Assigned Professional Experience. 1 - 2 Units
Term Typically Offered: Fall, Spring

Assigned professional experience in organization and evaluation of physical education, athletic training, exercise or pre-therapy. Students work closely with a Sacramento State faculty member and receive one unit of credit for three hours of work per week for one semester.

Note: May be repeated for a total of 3 units toward graduation. These units may not be applied to the major.

Credit/No Credit

KINS 194H. Assigned Field Experience in Athletic Training. 1 - 3 Units
Prerequisite(s): Instructor's permission only
Term Typically Offered: Fall, Spring

Practical experience in athletic training under the direct supervision of an NATA Certified Athletic Trainer in one of the following settings: professional athletics, high school, clinic, industrial or private business.

Note: Registration requires prior approval of the program director. May be repeated up to a total of 3 units.

Credit/No Credit

KINS 195A. Directed Field Experience in Kinesiology. 1 - 2 Units
Term Typically Offered: Fall, Spring

Directed experience in the conduct of physical education. Students keep records of daily experiences and prepare periodic progress reports. Students receive one unit of credit three hours per week for one semester of field experience.

Note: Registration requires prior approval of the department coordinator. May be repeated for a total of 5 units.

Credit/No Credit

KINS 195B. Directed Internship in Exercise Science. 1 - 3 Units
Prerequisite(s): KINS 151 and/or KINS 152; or instructor permission.
Term Typically Offered: Fall, Spring

Directed internship in the Human Performance Laboratory under the supervision of one or more members of the faculty. The student will assist in laboratory experiments and other special procedures; will learn the operation of equipment and sequentially will be expected to administer tests and interpret the results. Interns will be expected to attend monthly conferences.

Note: May be repeated for a total of 3 units.

Credit/No Credit
KINS 195C. Directed Observation in Athletic Training. 1 - 2 Units
Prerequisite(s): Requires prior approval of Program Director
Term Typically Offered: Fall, Spring

Planned student observation of the health care practices of the Athletic Trainer and other sports medicine personnel in a clinical setting. Selected NATA competencies may be completed on site. 60 hours per unit.
Note: May be repeated for up to 4 units total credit.

Credit/No Credit

KINS 195D. Practicum in Athletic Training. 4 Units
Prerequisite(s): Instructor’s permission only
Term Typically Offered: Fall, Spring

Supervised athletic training experience in the athletic training room under the direct supervision of a Certified Athletic Trainer. Included are a series of guest lectures from the medical and paramedical field presenting lectures and demonstrations on topics in sports medicine. 300 hours plus all lectures are 4 units.
Note: Can be taken a minimum of four times and maximum of five times for credit, with the total units not to exceed 20 units.

Credit/No Credit

KINS 196. Experimental Offerings in Kinesiology. 2 - 3 Units
Term Typically Offered: Fall, Spring

Guided study and discussion of problems and topics in kinesiology. Supplemental readings, reports, and term projects are included. Proseminars dealing with specific topics or problems will be scheduled when the need exists.
Note: May be repeated for credit up to three times for credit.

KINS 196G. Sleep, Health and Athletic Performance. 3 Units
Term Typically Offered: Fall, Spring

This course is designed to introduce concepts related to sleep, circadian rhythm, human physiology, and behavior as they impact physical function, health and athletic performance. Concepts related to sleep, sleep deprivation, cognitive function, and learning outcomes in college students will be investigated. Students will have an opportunity to learn about devices used to collect data and analyze individual sleep patterns.

KINS 198A. Seminar in Physical Education - Elementary. 2 Units
Prerequisite(s): KINS 381 and EDTE 474A.
Corequisite(s): KINS 380 and EDTE 474B.
Term Typically Offered: Fall, Spring

Open to physical education single subject credential candidates this course accompanies an eight-week elementary student teaching experience. The focus is twofold: a) engage student teachers in the planning, instruction and assessment of an elementary physical education program aligned with state standards b) support student teachers with the Performance Assessment for California Teachers (PACT). Candidates will be expected to create a class environment that ensures the safe and productive participation in developmentally appropriate elementary physical education.

KINS 198B. Seminar in Physical Education - Secondary. 1 Unit
Prerequisite(s): KINS 198A.
Corequisite(s): EDTE 474B.
Term Typically Offered: Fall, Spring

Open to physical education single subject credential candidates this eight-week course accompanies an eight-week secondary student teaching experience. The focus is twofold: a) engage student teachers in the planning, instruction and assessment of a secondary physical education program aligned with state standards b) support student teachers with the Performance Assessment for California Teachers (PACT). Candidates will be expected to create a class environment that ensures the safe and productive participation in developmentally appropriate secondary physical education.

KINS 199. Directed Individual Study. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual research, project or directed reading. Open only to majors who appear competent to carry on individual work. Approval of the faculty under whom the individual work is to be conducted, and approval of the Department Chair required. Formal written report required.
Note: May be repeated for credit.

Credit/No Credit

KINS 203. Specificity of Conditioning. 3 Units
Term Typically Offered: Fall, Spring

Survey of current research in training regimen of conditioning programs designed to optimize physical conditioning in preparation for specific athletic competitions.

KINS 209. Graduate Studies in Kinesiology. 3 Units
Term Typically Offered: Fall, Spring

An overview of the varied subdisciplines, such as sport pedagogy, motor learning, strength and conditioning, sport psychology, cultural studies of sport, exercise physiology, and biomechanics. Students will read research from each subdiscipline and be able to make interdisciplinary connections.

KINS 210. Research Methods in Kinesiology. 3 Units
Term Typically Offered: Fall, Spring

Various methods and techniques of educational research as they are commonly applied in the field of Kinesiology; study of examples of their use in published research; practice in applying them to problems of interest to the student; analyzing data and writing research reports.

KINS 211. Research Seminar. 1 Unit
Term Typically Offered: Fall, Spring

Students develop and defend research proposals. Students registering for KINS 500 for the first time must register for KINS 211 concurrently.
Note: Student must re-enroll if proposal is not completed and accepted during the first registration

Credit/No Credit
KINS 236. Sport and Society. 3 Units
Term Typically Offered: Fall, Spring

Society and the institution of sport interact in a variety of ways. Students are given the opportunity to investigate and discuss in-depth a wide range of topics linking sport and society. Among these topics are violence and aggression, politics, racism, sexism, counter-cultures, mass media and the future of sport. The application of research to the real world is an integral part of the course.

KINS 245. Administration of Physical Education and Athletics. 3 Units
Term Typically Offered: Fall, Spring

The organization and administration of physical education and athletic programs and the functional considerations involved. Primary areas include: personnel, curriculum, budgeting, contract management, public relations, liability and safety, critical issues, and procedures essential to quality programs.

KINS 250. Advanced Exercise Physiology Laboratory. 3 Units
Prerequisite(s): KINS 152 or instructor permission.
Term Typically Offered: Fall, Spring

Describes, explains, and practices the application of selected measurement techniques in the laboratory as they relate to pertinent research in the areas of exercise physiology. Emphasis will be placed on the use and calibration of equipment as well as adaptation of equipment to different research settings. Lecture two hours; laboratory three hours.

KINS 252. Advanced Exercise Physiology. 3 Units
Prerequisite(s): 1 year of General Chemistry, BIO 131 or equivalent, KINS 152 or equivalent, and KINS 153 or equivalent.
Term Typically Offered: Fall, Spring

Human physiological responses, from the cellular level to organ system level, to both acute and chronic exercise will be studied in detail with an emphasis on integrative physiological responses to exercise. The course will emphasize a complex regulatory systems approach to the changes and adaptations that occur with exercise. Specifically, how the regulatory systems dictate these changes. The course will aid in the understanding of both theoretical and integrative concepts in the area of exercise physiology. The course will provide a solid foundation that is needed to review and understand complex research in exercise physiology.

KINS 254. Advanced Biomechanics. 3 Units
Prerequisite(s): KINS 151, KINS 210; or instructor permission.
Term Typically Offered: Fall, Spring

Study human movement from a mechanical perspective utilizing laws of physics and relevant functional anatomical principles. Human movement will be looked at from a broad perspective, including basic movements to more complex skills. Students will use a variety of techniques to study the biomechanical principles of movement production including laboratory work, library research and examination of the appropriate theoretical constructs. Lecture two hours; laboratory three hours.

KINS 258. Research in Motor Learning. 3 Units
Prerequisite(s): KINS 158, KINS 210; or instructor permission.
Term Typically Offered: Fall, Spring

Designed to provide students with a solid foundation experience in motor learning; focus is on an intensive examination of a selected topic in motor learning; directed individual pilot study and the nature of original laboratory research.

KINS 259. Research in Exercise Physiology. 3 Units
Prerequisite(s): KINS 152, KINS 210, or instructor permission.
Term Typically Offered: Fall, Spring

Provides students with a solid foundation experience in human performance research. Primary focus is on intensive examination of selected advanced topics in exercise physiology.

KINS 260. Psychology Of Sport. 3 Units
Term Typically Offered: Fall, Spring

The in-depth study of parameters of human behavior as specifically related to sport including personality factors, motivational techniques, expectancy effects, group dynamics, leadership issues, aggression, arousal, concentration, and goal setting.

KINS 262. Psychological Aspects of Peak Performance. 3 Units
Term Typically Offered: Fall, Spring

In-depth examination of current research relating to theories of and techniques for performance enhancement in sport and dance through psychological skills strategies.

KINS 270. Instructional Strategies for Physical Activity and Sport. 3 Units
Term Typically Offered: Fall, Spring

Study of theoretical concepts, models and research that relates to organizational and instructional strategies for physical activity and sport. Along with developing problem solving and critical thinking skills, provides the student with the opportunity to partake in self-directed and cooperative learning experiences, and develops communications skills that will enhance staff development and teaching of individuals and groups in a variety of physical activity and sport environments.

KINS 276. Teaching and Coaching Effectiveness. 3 Units
Term Typically Offered: Fall, Spring

Study of the research methodology, systematic observation, and findings that relate to effective teaching and coaching in the school environment. Provides an analytical approach to the investigation of teaching and coaching behaviors by examining models and critical variables involved in describing, analyzing, and interpreting the instructional process.

KINS 294A. Contemporary Topics in Sport Performance. 1 - 3 Units
Prerequisite(s): KINS 210.
Term Typically Offered: Fall, Spring

Advanced research seminars on topics of contemporary interest. Specific topics will vary. Note: May be taken more than once for credit, provided topic is not repeated.

KINS 294B. Contemporary Topics in Exercise Physiology. 1 - 3 Units
Prerequisite(s): KINS 210.
Term Typically Offered: Fall, Spring

Advanced research seminars on topics of contemporary interest. Specific topics will vary. Note: May be taken more than once for credit, provided topic is not repeated.
KINS 294C. Special Topics in Biomechanics. 1 - 3 Units
Prerequisite(s): KINS 254.
Term Typically Offered: Fall, Spring
Advanced research seminars on varied topics of contemporary interest.
Note: May be taken more than once for credit, provided topic is not repeated.

KINS 295. Practicum. 1 - 3 Units
Prerequisite(s): Approval of graduate faculty advisor and graduate coordinator.
Term Typically Offered: Fall, Spring
Graduate experiences in a practical setting.
Note: Open only to graduate students within the Physical Education Department.
Credit/No Credit

KINS 296A. Experimental Elementary Physical Education Workshop. 1 Unit
Term Typically Offered: Fall, Spring
Overview of the total elementary physical education curriculum. Major focus will be on appropriate practices, national content standards, establishing a learning environment, movement concepts, skill themes, and health-related physical fitness. Designed to meet the physical education component for graduate students seeking a multiple subject credential.
Note: Not open to undergraduate students, and it does not substitute for KINS 172.
Credit/No Credit

KINS 299. Directed Individual Study. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual research, project, or directed reading.
Note: Open only to majors who appear competent to carry on individual work. Admission to this course requires approval of the graduate advisor and the graduate coordinator. Formal written report required. May be repeated for credit.
Credit/No Credit

KINS 380. Methods of Teaching Elementary Physical Education. 1.5 Units
Prerequisite(s): KINS 130, KINS 198A
Corequisite(s): KINS 198B
Term Typically Offered: Fall, Spring
KINS 380 is an 8 week course designed for the future physical educator who wishes to deliver an effective, meaningful elementary physical education curriculum to a diverse population of students. Emphasis is on physical education pedagogy - the skills and techniques that successful teachers use to ensure student learning.

KINS 381. Methods of Teaching Secondary Physical Education. 1.5 Units
Corequisite(s): EDTE 366A
Term Typically Offered: Fall, Spring
An 8 week course, KINS 381 is designed for the future physical educator who wishes to deliver an effective meaningful physical education curriculum to a diverse population of students. Emphasis is on physical education pedagogy - the skills and techniques that successful teachers use to ensure student learning.

KINS 500. Culminating Experience. 1 - 4 Units
Prerequisite(s): Advanced to candidacy. Completion of KINS 211 or concurrent enrollment.
Term Typically Offered: Fall, Spring
Completion of a thesis or project under the direction of a department committee.

Korean (KORN)

KORN 1A. Elementary Korean 1A. 5 Units
Term Typically Offered: Fall only
Develops elementary spoken Korean language, reading and writing in Hangul, and the practical skills required to effectively use the modern language. The relationship between language and culture will also be emphasized. Includes an emphasis on the culture, customs, and traditions of Korea.

KORN 1B. Elementary Korean 1B. 5 Units
Prerequisite(s): KORN 1A
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement, Humanities (Area C2)
Term Typically Offered: Spring only
Continuation of KORN 1A. Develops elementary spoken Korean language, reading and writing in Hangul, and the practical skills required to effectively use the modern language. The relationship between language and culture will also be emphasized. Includes an emphasis on the culture, customs, and traditions of Korea.

KORN 2A. Intermediate Korean 2A. 4 Units
Prerequisite(s): KORN 1B
Term Typically Offered: Fall only
Intermediate Korean on the further development of speaking, reading, and grammatical skills through dialogues, discussions, and reading.
Note: Meets the Foreign Language Graduation Proficiency Requirement.

KORN 2B. Intermediate Korean 2B. 4 Units
Prerequisite(s): KORN 2A
Term Typically Offered: Fall, Spring
Continuation of KORN 2A. Further development of speaking, reading, grammar, and composition skills at the intermediate to intermediate-high level.
Note: Meets the Foreign Language Graduation Proficiency Requirement.

KORN 920S. Overseas Study - Lower Division. 0.5 - 99 Units
Term Typically Offered: Fall, Spring

KORN 1920S. Overseas Study - Upper Division. 0.5 - 99 Units
Term Typically Offered: Fall, Spring
Labor Studies (LBRS)

LBRS 100. Labor and the American Social Structure. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: GE AREA D, Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring
Introduction to the study of labor in the U.S., including the nature of work, characteristics of the work force, and an overview of contemporary labor and industrial relations systems within the framework of current U.S. economic and political developments.
Cross Listed: SOC 176; only one may be counted for credit.

LBRS 195. Labor Studies Internship. 1 - 3 Units
Term Typically Offered: Fall, Spring
Supervised work experience or research in relevant institutions providing an opportunity to apply classroom theories and principles to the "real world." Partial supervision may be supplied by host institution. Requires approval of the Labor Studies Coordinator.
Credit/No Credit

LBRS 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading open to students competent to carry on individual work under the direction of a faculty sponsor. Admission requires approval of the faculty sponsor and the Labor Studies Coordinator.
Credit/No Credit

Learning Communities (LCOM)

LCOM 99. Learning Communities. 1 - 15 Units
Term Typically Offered: Fall, Spring

Learning Skills (LS)

LS 101. ELM Self-Paced Course. 3 Units
Prerequisite(s): Score of 44-48 on the ELM.
Term Typically Offered: Fall, Spring
Review of elementary algebra and measurement geometry through a program of independent study.

Liberal Arts (LIBA)

LIBA 200C. Culture and Expression: The Modern Period. 3 Units
Prerequisite(s): LIBA 200A and LIBA 200B; Graduate Standing
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring
Interdisciplinary seminar on cultural movements, figures, and art forms of the modern period from the Baroque to the present. Focus on the West with some global comparison. Emphasis on theoretical perspectives, methods, and research techniques germane to the liberal arts.
Note: Writing Intensive

LIBA 204. Performance Of Culture. 3 Units
Term Typically Offered: Fall, Spring
Study of the relationship between discourses of culture, politics, aesthetics, and live performance. Critical theories drawn from new methodology and ideologies will be applied to theatrical representations, both classical and contemporary.
Cross Listed: THEA 204; only one may be counted for credit.

LIBA 208. Politics in the Age of Antichrist: Prophecy and Society, 1500-1800. 3 Units
Term Typically Offered: Fall, Spring
Examination of the role of the Judeo-Christian apocalypse in the creation of modern realms of discourse, including political thought, modern science, and secular values generally.

LIBA 210. Gender and Religion in Cross-Cultural Perspective. 3 Units
Term Typically Offered: Fall, Spring
Exploration of the relationships and roles of women and men in the context of religious life. May focus extensively on one or more particular religious traditions cross-culturally, or draw on a wider spectrum of examples. Special attention paid to the complementary nature of men's and women's roles in many religious traditions; and also the way that male perspectives have dominated many areas of formal religious discourse, noting the dissenting voices of women often hidden in more informal types of expression.
Cross Listed: HRS 210; only one may be counted for credit.

LIBA 211. Psychological Issues in Films. 3 Units
Term Typically Offered: Fall, Spring
Examines the presentation of psychological themes in contemporary feature films. It will consider such topics as: Adolescence, Adulthood and Aging, Homosexuality, Drug Addiction, and Physical Disability as they are portrayed in films created for a mass market.
Cross Listed: PSYC 296M; only one may be counted for credit.

LIBA 215. Images of America at Home and Abroad. 3 Units
Term Typically Offered: Fall, Spring
Study and analysis of uniquely American cultural patterns, social institutions, and core values, and how they are perceived both in America and abroad.

LIBA 226. Wisdom and Apocalyptic Literature. 3 Units
Prerequisite(s): LIBA 200A or graduate status in History or instructor permission.
Term Typically Offered: Fall, Spring
Examines two of the more creative literary genres that make up the canonical and deuterocanonical literature of the Jewish and Christian Bibles. Both the historical and theological underpinnings of wisdom and apocalyptic writing will be explored in-depth, with some consideration given to literary analogues in Egyptian, Mesopotamian and Greek cultures. Significant research into wisdom and apocalyptic writings outside of the testament framework required.
Cross Listed: HRS 226; only one may be counted for credit.

LIBA 232. Moral Dilemmas in Modern Medicine. 3 Units
Term Typically Offered: Fall, Spring
Philosophic investigation of moral problems in the medical world, including decision making, rights and values pertaining to human life, and the principles of justice applied to the health care field.
LIBA 243. The Holocaust. 3 Units
Term Typically Offered: Fall, Spring

Analytical study of the Nazi extermination of European Jewry, with particular emphasis given to the roots of exterminationist anti-Semitism, and to the cultural response of Jews and non-Jews to the tragedy of mass-murder.

LIBA 299. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading.
Note: Open only to students who have demonstrated competence in undertaking individual work. Enrollment requires approval of the supervising faculty member and the Program Coordinator. No more than 6 units total of LIBA 299 may be counted toward the major.

Credit/No Credit

LIBA 500. Culminating Experience. 3 Units
Prerequisite(s): Advanced to candidacy and permission of the Program Coordinator.
Term Typically Offered: Fall, Spring

Completion of a thesis, project or comprehensive examination.

Management (MGMT)

MGMT 10. Introduction to Business Law. 3 Units
Term Typically Offered: Fall, Spring

Study of business law for the future business professional. Introduces students to basic business problems that have legal consequences. Encourages the identification of ethical concerns along with the ability to anticipate potential legal problems with the goal of preventing them. Covers introduction to the legal system; court procedures; contracts and sales; business organizations; real and personal property; labor and employment law; product liability, and the government regulation of business.

MGMT 20. Introduction To Business. 3 Units
Term Typically Offered: Fall, Spring

Provides an overview of the various basic functions of business and how they interface. Topics will include accounting, finance, marketing, human resources management, management information systems, operations management, real estate, and international business.

MGMT 21. First Year Seminar: Becoming an Educated Person. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Introduction to the meaning of higher education, resources of the University, and skills for lifelong learning. Designed to help students develop academic success strategies and to improve information literacy, intercultural competence, and integrative thinking. Provides students with the opportunity to interact with fellow students and seminar faculty to build a community of academic and personal support.

MGMT 101. Legal Environment of Business. 3 Units
Prerequisite(s): Must be a Business pre-major, Business major (any concentration), a business minor, a Construction Mgmt major, a Mech Engr Tech major, or a Music (Music Mgmt) major to enroll in this course.
Term Typically Offered: Fall, Spring

Study of business law for the business professional. Aside from investigating substantive law, the course stresses critical thinking and analytical evaluation of contemporary business problems. Encourages the identification of ethical concerns along with the ability to anticipate potential legal problems with the goal of preventing them. Covers introduction to the legal system; court procedures; contracts and sales; business organizations; real and personal property; labor and employment law; product liability, and the government regulation of business. OBE 16 or the equivalent is recommended.

MGMT 102. Business Communications. 3 Units
Prerequisite(s): Completion of Area A in General Education and ENGL 20. Recommend COMS 2 and COMS 4.
Term Typically Offered: Fall, Spring

Provides basic concepts for understanding and practice of communication in the changing world of business for managers and professionals. It examines the use of language and conversations in business settings and their role in coordinating actions, resolving breakdowns in work performance, and providing customer satisfaction. Topics include: Practice in professional styles of business writing and formats, preparation of a formal report, development of competence in business conversation skills (written, electronic, and oral), and other selected topics. International, technical, and linguistic developments are integrated into the various applications of business communication.

LIBA 299. Special Problems in Linguistics. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual problems in any area of linguistics: theoretical, descriptive, applied, historical or comparative.
Credit/No Credit

LING 199. Special Problems in Linguistics. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading.
Note: Open only to students who have demonstrated competence in undertaking individual work. Enrollment requires approval of the supervising faculty member and the Program Coordinator. No more than 6 units total of LING 199 may be counted toward the major.

Credit/No Credit

LING 199. Special Problems in Linguistics. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual problems in any area of linguistics: theoretical, descriptive, applied, historical or comparative.
Credit/No Credit

LING 299. Special Problems in Linguistics. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading.
Note: Open only to students who have demonstrated competence in undertaking individual work. Enrollment requires approval of the supervising faculty member and the Program Coordinator. No more than 6 units total of LING 299 may be counted toward the major.

LIB 110. California Studies. 3 Units
Prerequisite(s): GOVT 1 or equivalent.
Term Typically Offered: Fall, Spring

Multidisciplinary, analytical view of California that identifies its ethnic and racial diversity within the political, economic and social development of the state. Examines the environmental and geographic dimensions of the state as well as the demographic and land-use trends that have contributed to California's uniqueness.

LIB 194. Liberal Studies Cooperative Education Experience. 3 Units
Prerequisite(s): Upper division status, and instructor permission.
Term Typically Offered: Fall, Spring

Cooperative Education (Co-op) relates academic theory to professional practice by providing paid work experience in schools or related settings. Students gain field experience through supervised employment in school districts and other education-related settings.
Note: May be repeated once for credit.

Credit/No Credit

LIB 500. Culminating Experience. 3 Units
Prerequisite(s): Advanced to candidacy and permission of the Program Coordinator.
Term Typically Offered: Fall, Spring

Completion of a thesis, project or comprehensive examination.

LING 199. Special Problems in Linguistics. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual problems in any area of linguistics: theoretical, descriptive, applied, historical or comparative.
Credit/No Credit
Investigation of contemporary business issues and management dilemmas in relation to broad social concerns. Focus is upon public and private decision making in the business environment and how business practices, ethics, and social concerns interrelate. Topics such as the nature of property and profits, efficiency and human values, the balancing of claims of owners, employees, customers, and others in community, corporate responsibility, corporate governance, government regulation and international dimensions of public policy will be covered.

Management Information Systems (MIS)

MIS 1. Word Processing. 1 Unit
Term Typically Offered: Fall, Spring

The course teaches Microsoft Office Word that establishes a student's fundamental computer skills required to perform business related tasks. Topics include developing and refining a document; identifying and correcting errors; formatting, modifying and printing documents; working with pictures, graphics, tables and charts; creating reports, forms, references and mailings; securing content and sharing documents, exploring advanced document features and macros, etc.

MIS 2. Spreadsheets. 1 Unit
Term Typically Offered: Fall, Spring

The course teaches Microsoft Office Excel that establishes a student's fundamental computer skills required to perform business related tasks. Topics include creating and formatting a worksheet; summarizing and analyzing data; using decision making tools; working with logical, statistical, database and financial functions, sharing data with other applications, etc.

MIS 3. Presentation Graphics. 1 Unit
Term Typically Offered: Fall, Spring

The course teaches Microsoft Power Point that establishes a student's fundamental computer skills required to perform business related tasks. Topics include creating, refining and delivering presentations; working with graphics, tables and charts; inserting and enhancing pictures, shapes, sound and video; using templates, slide masters and text boxes, printing, securing and sharing presentations, etc.

MIS 4. Database Applications. 3 Units
Term Typically Offered: Fall, Spring

Use of database management systems (DBMS) to provide students with fundamental information retrieval skills required to perform business related tasks. Topics include basic DBMS operations, working with tables, queries, forms, reports and data analysis.

MIS 5. Introduction to Business Programming. 3 Units
Term Typically Offered: Fall, Spring

Introduction to object oriented programming language. Topics include use of simple data structures and data types, arrays, strings, input-output functions, file processing, and flow control.

MIS 10. Business Applications. 2 Units
Term Typically Offered: Fall, Spring

The course teaches the use of spreadsheets to establish a students' fundamental computer skills required to perform business related tasks. Topics include basic spreadsheet operations, working with charts and graphics, application of formulas and spreadsheet presentation formatting.

MIS 12. Object-Oriented Programming for Business in Java. 3 Units
Term Typically Offered: Fall, Spring

Advanced course in programming principles using an Object Oriented (OO) programming language. Topics will focus on object-oriented (OO) programming including the design and development of OO applications, object classes, inheritance, polymorphism and encapsulation, and graphical user interface (GUI) application development including contrasting event-driven and procedural programming.
MIS 124. Web Development for Business Applications.  3 Units
**Prerequisite(s):** MIS 120.
**Term Typically Offered:** Fall, Spring

Examines the technologies and principles of modern Web development in the creation of Web-based business applications. Emphasis will be given to client-side and server-side technologies and include the topics of basic Web technologies, forms, database access, frameworks, and Web services. Topics are accompanied by design principles, tools, and techniques for Web application development.

MIS 125. Mobile Business Application Development.  3 Units
**Prerequisite(s):** MIS 15
**Term Typically Offered:** Fall, Spring

Provides an introduction to the art and practice of mobile business application development on the Android or iOS platform. Topics will include, but are not limited to, business opportunities, challenges, and cost presented by mobile devices, user-driven design, personas, screen layouts, and use case diagramming. Students will design and build a variety of business applications throughout the course to reinforce learning and to develop real world competency.

MIS 140. Business Data Communication.  3 Units
**Prerequisite(s):** Business majors only
**Term Typically Offered:** Fall, Spring

Examines the basic terminology, hardware/software components, and issues with the establishment, configuration, and management of data communication networks in and across organizations. Topics include wired and wireless local area networks, wide area networks, the internet, and cloud infrastructure.

MIS 150. Database Systems for Business.  3 Units
**Term Typically Offered:** Fall, Spring

Involves the study of generalized database management systems. The study will include logical data base models and physical base models based primarily on the relational and object-relational models. The student will create and manipulate a database utilizing an established database management system. The importance of data administration and other database related topics such as independence, integrity, privacy, query, backup, and recovery will be covered.

MIS 151. End-User Database Application Development for Business.  3 Units
**Prerequisite(s):** MIS 1, MIS 2, MIS 3 or approved equivalent.
**Term Typically Offered:** Fall, Spring

Introduction to end-user database application development in the business environment. Topics will focus on issues in the development of business database applications and include database concepts, organization, storage and retrieval of data, query and analysis with interactive software tools, informative and performance management reporting.

**Note:** Not open to MIS students.

MIS 160. Systems Development Life Cycle.  3 Units
**Prerequisite(s):** MIS 101 and MGMT 102
**Term Typically Offered:** Fall, Spring

Analyze, design, and develop business information systems to solve information needs of businesses and organizations. Topics include various systems analysis and design techniques, tools and methods for building new and/or integrated information systems.

MIS 161. Information Systems Practicum.  3 Units
**Prerequisite(s):** MIS 15, MIS 150, MIS 160, and Business major or minor.
**Term Typically Offered:** Fall, Spring

This course provides a comprehensive integration of MIS coursework through the completion of an information systems project. Topics include information systems development life cycle, project management, application development, database management, and security.

MIS 163. Business Process Engineering and ERP Configuration.  3 Units
**Term Typically Offered:** Fall, Spring

This course focuses on identifying and understanding business requirements, modeling business processes that incorporate the business requirements, and configuring the processes for their implementation in an enterprise resource planning (ERP) system. Students will gain insights to implementation issues and propose alternative solutions to overcome them. A project team environment further develops individual student’s communication and team skills.

MIS 170. Information Systems Security.  3 Units
**Prerequisite(s):** MIS 140
**Term Typically Offered:** Fall, Spring

This course provides a comprehensive study of IT security principles and of information systems. Emphasis will be placed on understanding the framework of IT security in enterprise IT infrastructure. Topics include information security concepts, security risks and vulnerabilities, common attacking techniques, technical and administrative countermeasures for modern enterprise IT infrastructure, such as encryption, authentication, access control, security policies and standards, and IT risk management and audit.

MIS 171. Enterprise Resource Planning Systems.  3 Units
**Prerequisite(s):** MIS 101
**Term Typically Offered:** Fall, Spring

Foundation, business functions, processes, data requirements, development, and management of ERP systems for sales, marketing, accounting, finance, production, supply chain and customer relationship management. Emphasis on re-engineering, integration, standardization, and methodologies of ERP systems.

MIS 173. Microcomputers for Managers.  3 Units
**Term Typically Offered:** Fall, Spring

For students who want to have more than the minimum required personal computer literacy knowledge. The topics covered are: hardware, system software, utility software, spreadsheet modeling, the Internet, and presentation graphics.

**Note:** Not open to MIS students.

MIS 181. Machine Learning Applications in Business.  3 Units
**Prerequisite(s):** DS 101 and MIS 150
**Term Typically Offered:** Fall, Spring

Applies modern machine learning applications in business to data analysis and problem solving. Topics are presented in the context of decision support and may include knowledge representation, neural networks, genetic algorithms, rule induction, fuzzy logic, case-based reasoning and intelligent agents.
MIS 182. Topics In MIS. 3 Units
Prerequisite(s): MIS 150, MIS 160.
Term Typically Offered: Fall, Spring

Current topics will be presented regarding the technical, managerial, and organization considerations affecting computer-based information systems. Topics may include programming languages and techniques, emerging technologies, and MIS development and implementation issues. Readings, topical research, case presentations, and/or projects will be required.

MIS 183. Business Intelligence Applications. 3 Units
Prerequisite(s): Business major and minor
Term Typically Offered: Fall, Spring

Advanced information technologies that extract non-trivial, actionable, and novel knowledge from data to achieve strategic goals of organizations. Emphasis on multidimensional data modeling, online analytic processing, data warehouse, and data mining.

MIS 191. Culminating Experience. 1 Unit
Prerequisite(s): Completion of all coursework in minor.
Term Typically Offered: Fall, Spring

Students demonstrate their knowledge and apply their skill sets from the minor to a working project, and conduct an executive-level, management-oriented presentation.

Note: Students must be in their final semester of the minor’s program.

Credit/No Credit

MIS 194. Cooperative Education Experience in Management Information Systems. 6 - 12 Units
Prerequisite(s): MIS 160, minimum Sacramento State overall GPA of 2.75.
Term Typically Offered: Fall, Spring

In-depth supervised work experience in management information systems for the purpose of exposing the student to comprehensive MIS experience in business, governmental, or service agencies. Open to all upper division students, subject to permission of the MIS Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.

Credit/No Credit

MIS 195. Internship in Management Information Systems. 3 - 6 Units
Prerequisite(s): MIS 160, minimum Sacramento State overall GPA of 2.75.
Term Typically Offered: Fall, Spring

Supervised work experience in management information systems for the purpose of increasing student understanding of the nature and scope of the operations of business, governmental, or service agencies. Supervision is provided by the faculty and the cooperating agencies. Open to upper division students, subject to permission of the MIS Area. Petitions can be obtained from the Student Affairs Office, Tahoe 2065.

Note: Open to declared business administration majors only.

Credit/No Credit

MIS 199. Special Problems in Management Information Systems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.

Note: Admission requires approval of the instructor and the Associate Dean. Petitions may be obtained from the Undergraduate Business Advising Center, Tahoe 1030.

Credit/No Credit

MIS 210. Information Systems I. 3 Units
Term Typically Offered: Fall, Spring

Introduction to business information systems planning and systems development methodologies. Various methodologies are explored and information systems development project planning is emphasized.

MIS 211. Information Systems II. 3 Units
Term Typically Offered: Fall, Spring

Introduction to basic and object-oriented programming concepts, data structures for information representation, and database management systems.

MIS 232. Management Science. 3 Units
Term Typically Offered: Fall, Spring

Introduction to deterministic and stochastic models in operations research. Topics that may be included are: mathematical programming, inventory theory, analysis of waiting lines, Markov processes, game theory, decision theory and simulation. Various computer programs such as LINDO are used to assist in solution and analysis of management problems.

Note: Not open to students with credit for MIS 132.

MIS 240. Communications Technologies for Business. 3 Units
Prerequisite(s): Graduate MIS status or instructor permission.
Term Typically Offered: Fall, Spring

Focuses on the concepts, technology, applications, and management of data and voice communication with an emphasis on building, supporting, securing, and administering the requirements of network infrastructure and architecture to support businesses.

Note: May be taken twice for credit.

MIS 250. Data Management. 3 Units
Prerequisite(s): Graduate MIS status or instructor permission, and MIS 15 or equivalent.
Term Typically Offered: Fall, Spring

Focuses on database concepts, design and implementation in business. Topics include database design techniques, such as extended entity-relationship and unified modeling language, logical and physical data models for objection-relational database, object oriented database and relational databases, database implementation and administration issues, and the discussion of distributed database, web database, and database security.

Note: May be taken twice for credit.
MIS 251. Strategic Applications of Information Resources. 3 Units
Prerequisite(s): MSBA/MIS students: MIS 210 and 211, or their equivalents. MBA students: MBA 260 and instructor permission.
Term Typically Offered: Fall, Spring
Discussion of the techniques and methodologies to utilize information resource to improve an organization's strategic performance measures. Topics include data warehouse, data mining, online analytical transaction processing, and multidimensional database.

MIS 260. Systems Design. 3 Units
Prerequisite(s): Graduate MIS status or instructor permission.
Term Typically Offered: Fall, Spring
Involves the study of various methods used to analyze and design a computer-based information systems and emphasizes object-oriented systems development (OOSD) techniques.
Note: May be taken twice for credit.

MIS 261. Information Technology Integration for the Enterprise. 3 Units
Prerequisite(s): MSBA/MIS students: MIS 260 or MIS 270; MBA students: MBA 260 or permission of instructor.
Term Typically Offered: Fall, Spring
IT presents many new opportunities at the enterprise level for the design and implementation of integrated organizational structures and business processes that better align the business to meeting its market demands and allow it to pursue new strategic relationships with other organizations. Enterprise IT primarily involves enterprise resource planning (ERP), supply chain management (SCM), knowledge management (KM), and customer relationship management (CRM) to support and coordinate business activities.
Note: May be taken twice for credit.

MIS 262. Business Project Management. 3 Units
Prerequisite(s): MSBA/MIS students: MIS 260; MBA students: MBA 260 or instructor permission.
Term Typically Offered: Fall, Spring
Examines various aspects of IT project management, including project selection involving feasibility, complexity, scalability and impact comparisons, project portfolio to direct the right resources to the right projects to ensure its timely completion, risk assessment, key performance measures, and others.
Note: May be taken twice for credit.

MIS 270. Information Technology Operations. 3 Units
Prerequisite(s): Graduate MIS status or instructor permission.
Term Typically Offered: Fall, Spring
Examines the management of information technology as a vital resource to an organization. It can enable businesses to seize opportunities, gain competitive advantages and establish close relationships with other businesses and their customers. Thus, the business must effectively and efficiently manage and secure its IT resources.
Note: May be taken twice for credit.

MIS 272. Strategic Information Technology Planning. 3 Units
Prerequisite(s): MSBA/MIS students: MIS 270; MBA students: MBA 260 or instructor permission.
Term Typically Offered: Fall, Spring
Strategic IT planning defines the direction a business chooses for its IT resources. It encompasses a vision, mission, strategy, and objectives that closely align to the business’ vision, mission, strategy, and objectives. Planning involves examining how IT will support the achievement of the business’ goals and objectives, and how to open new opportunities to create new business goals.
Note: May be taken twice for credit.

MIS 279. Information Technology Leadership. 3 Units
Prerequisite(s): MSBA/MIS students: MIS 261 or MIS 262, MIS 272; MBA students: MBA 260 and instructor permission.
Term Typically Offered: Fall, Spring
Leadership plays an important role in determining a business’ success with IT. It requires recognizing and leveraging the business’ competencies and core values, and championing initiatives and projects that work in the best interest of the business and create value. Because IT opens opportunities and enables the organization, IT leadership extends to both market (external) and organizational (internal) environments.
Note: May be taken twice for credit.

MIS 280. Decision and Knowledge-Based Systems. 3 Units
Prerequisite(s): MIS 211 or equivalent.
Term Typically Offered: Fall, Spring
Organizational use of information generated from transaction processing systems, management information systems, and decision support systems. The uses of information by managers for planning, control, and decision-making purposes will be discussed. The types of information systems implemented in various kinds of organizations will be covered.

MIS 281. Topics in the Management of Information Systems. 3 Units
Prerequisite(s): Open to non-MSBA/MIS majors with credit in MBA 260 or equivalent; and to those who have completed MSBA/MIS Program Prerequisites.
Term Typically Offered: Fall, Spring
Current topics will be presented regarding the managerial, behavioral, and organizational considerations affecting computer-based information systems. Includes topics such as project selection and justification techniques, system controls, security and privacy issues, strategic planning, and use/data processing department relations. Readings, topical research, and case presentations will be required.

MIS 295. Internship in Management Information Systems. 3 Units
Prerequisite(s): Completion of two of the following: MIS 240, MIS 250, MIS 260, or MIS 270; minimum Sacramento State GPA of 3.0.
Term Typically Offered: Fall, Spring
Supervised work experience in management information systems for the purpose of increasing and enhancing student understanding of the nature and scope of the organization’s operations of business, governmental, or service agencies. Supervision is provided by the faculty and the cooperating agencies.
Note: Open to second year MBA and MSBA/MIS students. Petitions to be obtained from Tahoe Hall 1037.
Credit/No Credit
MIS 299. Special Problems in Management Information Systems. 1 - 3 Units
Prerequisite(s): Classified graduate status.
Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.
Note: Admission requires approval of faculty member under whom the individual work is to be conducted in addition to the approval of the Graduate Programs Office. Petitions to be obtained from Tahoe Hall 1035.

Credit/No Credit
MIS 500A. Thesis. 1 - 3 Units
Prerequisite(s): Advanced to candidacy. Completion of MBA 244.
Term Typically Offered: Fall, Spring

Completion of a thesis approved for the Master's degree.

MIS 500B. Project. 1 - 3 Units
Prerequisite(s): Advanced to candidacy. Completion of MBA 244.
Term Typically Offered: Fall, Spring

Completion of a project approved for the Master's degree.

MIS 500C. Comprehensive Examination. 1 - 3 Units
Prerequisite(s): Advanced to candidacy; for comprehensive examination for MBA only (MGMT 500C, 1 unit), completion of program requirements (ACCY 240, MBA 230, MBA 240, MBA 241, MBA 270, MBA 280; for comprehensive examination for MSBA/MIS Degree, student must be in final semester of program.
Term Typically Offered: Fall, Spring

For MSBA/MIS.

Marine Sciences (MSCI)

MSCI 103. Marine Ecology. 4 Units
Prerequisite(s): Ecology, statistics; or concurrent registration in MSCI 104.
Term Typically Offered: Fall, Spring

Field-oriented introduction to the interrelationships between marine and estuarine organisms and their environment with emphasis on quantitative data collection and analysis. Lecture two hours; laboratory six hours.

MSCI 104. Quantitative Marine Science. 4 Units
Prerequisite(s): College mathematics.
Term Typically Offered: Fall, Spring

Mathematical methods for the analysis of biological, chemical and physical data from the marine environment; experimental design, parametric and nonparametric statistics. Lecture three hours; laboratory three hours.
Note: Not for major credit.

MSCI 105. Marine Science Diving. 3 Units
Prerequisite(s): Upper division science major status, thorough physical examination, ability to pass swimming test.
Term Typically Offered: Fall, Spring

Skin SCUBA diving course, pool-training culminates in ten ocean dives. Topics covered included diving physics, physiology, diving environments, night diving and research diving. Successful completion gives NAUI and MLML certification. Lecture one hour; laboratory six hours.
Note: Not for major credit.

MSCI 112. Marine Birds and Mammals. 4 Units
Prerequisite(s): Upper division college vertebrate zoology or instructor permission; MSCI 103 recommended.
Term Typically Offered: Fall, Spring

Systematic, morphology, ecology and biology of marine birds and mammals. Lecture two hours; laboratory six hours.

MSCI 113. Marine Ichthyology. 4 Units
Prerequisite(s): College zoology or equivalent or instructor permission; MSCI 103 recommended.
Term Typically Offered: Fall, Spring

Description of the taxonomy, morphology, and ecology of marine fishes. Both field and laboratory work concentrate on the structure, function and habits of marine fishes and the ecological interactions of these fishes with their biotic and abiotic surroundings. Lecture two hours; laboratory six hours.

MSCI 124. Marine Invertebrate Zoology I. 4 Units
Prerequisite(s): College zoology or instructor permission; MSCI 103 recommended.
Term Typically Offered: Fall, Spring

Field oriented introduction to the structure, systematics, evolution, and life histories of the major and minor marine phyla. Lecture two hours; laboratory and six hours.

MSCI 125. Marine Invertebrate Zoology II. 3 Units
Prerequisite(s): College zoology or instructor permission; MSCI 103 and MSCI 124 recommended.
Term Typically Offered: Fall, Spring

Field oriented introduction to the structure, systematics, evolution and life histories of the minor marine invertebrate phyla. Lecture one hour; laboratory and field six hours.

MSCI 131. Marine Botany. 4 Units
Prerequisite(s): MSCI 103 recommended.
Term Typically Offered: Fall, Spring

Introduction to the plants of the sea, marshes, and dunes, with emphasis on the morphology, taxonomy and natural history of seaweeds and vascular plants. Lecture two hours; laboratory six hours.

MSCI 135. Physiology of Marine Algae. 4 Units
Prerequisite(s): MSCI 103, MSCI 131, and MSCI 144. Lecture two hours; laboratory six hours.
Term Typically Offered: Fall, Spring

Physiological basis for understanding the adaptation of marine algae to their environment. Topics include respiration, enzyme activity, and biochemical composition. Hands-on experience in basic electronic instrumentation, chemical separations, optical measurements, culturing methods, and radioisotope techniques.
MSCI 141. Geological Oceanography. 4 Units
Prerequisite(s): MSCI 142, MSCI 143; may be taken concurrently.
Term Typically Offered: Fall, Spring

Study of the structures, physiography and sediments of the sea bottom and shoreline. Lecture two hours; laboratory and field six hours.

MSCI 142. Physical Oceanography. 4 Units
Prerequisite(s): College algebra, college physics recommended.
Term Typically Offered: Fall, Spring

Introduction to the nature and causes of various oceanic motions including currents, waves, tides, and mixing and the physical properties of seawater. Limited use of calculus. Lecture three hours; laboratory three hours.

MSCI 143. Chemical Oceanography. 4 Units
Prerequisite(s): One year of college chemistry.
Term Typically Offered: Fall, Spring

Introduction to the theoretical and practical aspects of the chemistry of the oceans, including major salts, dissolved gases, nutrient ions, carbonate system, transient tracers, and shipboard sampling techniques. Lecture two hours; laboratory six hours.

MSCI 144. Biological Oceanography. 4 Units
Prerequisite(s): General biology, general chemistry.
Term Typically Offered: Fall, Spring

Ocean as an ecological system. Emphasis will be on the complexity of organismal-environmental interaction of the plankton, the transfer of organic matter between trophic levels and nutrient cycles. Laboratory sessions will include methods in sampling, shipboard techniques, identification of the plankton, and current analytical techniques. Lecture two hours; laboratory six hours.

MSCI 175A. Coastal Geol Processes. 1 Unit
Term Typically Offered: Fall, Spring

MSCI 175B. Intro To Marine Science. 1 Unit
Term Typically Offered: Fall, Spring

MSCI 180. Independent Study. 1 - 4 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Faculty-directed study of selected research problems; open to undergraduate students with adequate preparation. Three hours work per unit.

MSCI 201. Library Research Methods. 1 Unit
Prerequisite(s): Graduate standing in the Marine Science M.S. program and instructor permission.
Term Typically Offered: Fall, Spring

Students will gain advanced understanding of the nature of scientific information. Provides the framework for using and evaluating a variety of information sources in marine and ocean sciences. Strong emphasis will be placed on developing critical skills to interweave knowledge of the history of science into the context of bibliographic tools including the digital realm. Lecture: three hours.

MSCI 202. Oceanographic Instrumentation. 4 Units
Prerequisite(s): MSCI 141, MSCI 142 and instructor permission.
Term Typically Offered: Fall, Spring

Principles of instruments used in oceanographic research, introduction to electronics, and applications of instrument measurements. Emphasis will vary from CTD profilers, current meters, radiometry and chemical measurement. Lecture two hours; laboratory six hours.

MSCI 204. Sampling and Experimental Design. 4 Units
Prerequisite(s): MSCI 103, MSCI 104.
Term Typically Offered: Fall, Spring

Discussion of random sampling, systematic sampling, subsampling, survey techniques, and design of single and multifactorial experiments using randomized and block experimental designs: basic design of experiments and field sampling will be covered. Biases and problems of sampling marine biota will be presented and discussed by critiquing relevant literature. Lecture four hours.

MSCI 208. Molecular Ecology: Concepts and Methods. 4 Units
Prerequisite(s): Basic cellular/molecular biology course; consent of instructor.
Term Typically Offered: Fall, Spring

Use of genetic information affecting interactions of organisms with environment. Lectures on molecular markers used to assess diversity in communities, characterize spatial/temporal variation in species composition, assess genetic variability in populations, discriminate/reveal kinship among individuals, and detect/quantify gene expression important in organismal responses to environmental fluctuation. Basic molecular methods (DNA and RNA isolation/amplification/cloning/sequencing) taught. Students projects as budget permits. Enrollment limited. Lecture 2 hours; laboratory 6 hours.

MSCI 211. Ecology of Marine Birds and Mammals. 4 Units
Prerequisite(s): MSCI 103, MSCI 104, MSCI 112.
Term Typically Offered: Fall, Spring

Community approach to the ecology of marine birds and mammals using experimental and sampling methodology; examine the distribution, abundance, trophic ecology, and behaviors of birds and mammals in Elkhorn Slough and Monterey Bay. Lecture two hours; laboratory six hours.

MSCI 212. Advanced Topics in Marine Vertebrates. 4 Units
Prerequisite(s): MSCI 112 or MSCI 113 and instructor permission.
Term Typically Offered: Fall, Spring

Advanced consideration of the ecology, physiology and phylogeny of fishes, birds, reptiles or mammals, emphasizing current literature and research. Topics and emphasis will vary with term and instructor. Lecture two hours; laboratory six hours.

Note: May be repeated once for credit.

MSCI 212A. Adv Ichthyology. 4 Units
Term Typically Offered: Fall, Spring

MSCI 212B. Ichthyoplankton. 4 Units
Term Typically Offered: Fall, Spring

MSCI 212C. Marine Bird+Mammal Ecology. 4 Units
Term Typically Offered: Fall, Spring

MSCI 212D. Sampling+Experimental Design. 4 Units
Term Typically Offered: Fall, Spring
MSCI 221. Advanced Topics in Marine Invertebrates.  4 Units
Prerequisite(s): MSCI 124 and instructor permission.
Term Typically Offered: Fall, Spring

Advanced considerations of the ecology, physiology and phylogeny of the various invertebrate phyla emphasizing current literature and research. Topics will vary from term to term. Lecture two hours; laboratory six hours.

MCSI 221A. Marine Symbioses.  4 Units
Term Typically Offered: Fall, Spring

MCSI 231. Biology Of Seaweeds.  4 Units
Prerequisite(s): MSCI 131 or instructor permission.
Term Typically Offered: Fall, Spring

Lecture-discussions in algal development, reproduction, and ecology. Extensive reading of original literature. Ecologically oriented individual research projects involving laboratory culture and field experimentation. Lecture two hours; laboratory six hours.

MCSI 233A. Adv Marine Ecology.  4 Units
Term Typically Offered: Fall, Spring

MCSI 233B. Sampling+Expermntl Design.  4 Units
Term Typically Offered: Fall, Spring

MCSI 233C. Coastal Ecology-Gulf of California.  3 Units
Prerequisite(s): MSCI 103, MSCI 104, MLML SCUBA certified, graduate status, instructor permission.
Term Typically Offered: Fall, Spring

Field-oriented examination of the interrelationships between intertidal and shallow subtidal organisms and their environment in the Gulf of California, Mexico. Information from lectures and review of primary literature on the ecology of the region will be used to write a research proposal. 1 hour lecture, 6 hours laboratory.

MCSI 233D. Immune Respn Marine Orgns.  2 Units
Term Typically Offered: Fall, Spring

MCSI 234. Advanced Biological Oceanography.  4 Units
Prerequisite(s): MSCI 144.
Term Typically Offered: Fall, Spring

Experimental techniques in biological oceanography with emphasis on problems important to plankton ecology. Includes lectures, labs, and discussions of current research problems. An individual research project involving analytical tools will be required. Lecture two hours; laboratory six hours.

MCSI 242. Plate Tectonics.  3 Units
Prerequisite(s): MSCI 141 or instructor permission.
Term Typically Offered: Fall, Spring

Historical background, modern theory, and geo-physical evidence of continental drift sea floor spreading and plate tectonics. Examinations of the impact of the recent revolution in historical geology. Lecture three hours.

MSCI 248. Marine Benthic Habitat Techniques.  4 Units
Prerequisite(s): Graduate standing and instructor permission.
Term Typically Offered: Fall, Spring

Collection and interpretation of geophysical data used to characterize marine benthic habitats. Basic geophysical principles will be reviewed. Application of techniques to identify and characterize marine benthic habitats, including echosounders, multibeam bathymetry and backscatter, sidescan sonar, seismic profiling, and GIS. Lecture two hours; laboratory six hours.

MSCI 251. Marine Geochemistry.  4 Units
Prerequisite(s): MSCI 143, quantitative analysis, one year calculus or instructor permission.
Term Typically Offered: Fall, Spring

Geochemical processes in the oceans; thermodynamics of low temperature aqueous reactions, processes occurring at the sea floor and air-sea interface. Lecture two hours; laboratory six hours.

MSCI 261. Ocean Circulation and Mixing.  4 Units
Prerequisite(s): MSCI 142; college physics strongly recommended or instructor permission.
Term Typically Offered: Fall, Spring

Mathematical description of the distribution of properties (salinity, density, etc.) in the oceans relating to physical and biochemical processes. Equations of motion, geotropic method, and theory of distribution of variables. Lecture two hours; laboratory six hours.

MSCI 262. Satellite Oceanography.  4 Units
Prerequisite(s): MSCI 142, MSCI 144, or instructor permission. MSCI 263 strongly recommended.
Term Typically Offered: Fall, Spring

Physical principles of remote sensing with application to the oceans including satellite image processing methods. Labs involve use of PC and Unix workstation. Lecture two hours; laboratory six hours.

MSCI 263. Application of Computers in Oceanography.  4 Units
Prerequisite(s): College math and instructor permission.
Term Typically Offered: Fall, Spring

Lecture, discussion and technical programming with MATLAB for computation and visualization with applications in marine sciences. Use of existing program libraries for data I/O and analysis. Semester project required. Lecture two hours; laboratory six hours.

MSCI 271. Population Biology.  3 Units
Prerequisite(s): MSCI 103, MSCI 104; or instructor permission.
Term Typically Offered: Fall, Spring

Principles of the interaction among marine organisms that result in the alteration of population structures. Techniques for assessment and management of populations. Lecture two hours; laboratory three hours.

MSCI 272. Subtidal Ecology.  4 Units
Prerequisite(s): MLML diver certification and marine ecology (knowledge of marine algae, invertebrates, and statistics recommended).
Term Typically Offered: Fall, Spring

Ecology of nearshore rocky subtidal populations and communities with emphasis on kelp forests. Lectures and discussions of original literature. Field work with SCUBA including group projects on underwater research techniques and community analysis, and individual research on ecological questions chosen by the student. Lecture two hours; laboratory six hours.
MSCI 274A. Electron Micros+Microanal. 3 Units
Term Typically Offered: Fall, Spring

MSCI 274B. Geol Central Ca Margin. 4 Units
Term Typically Offered: Fall, Spring

MSCI 274C. Chem Of Marine Pollution. 4 Units
Term Typically Offered: Fall, Spring

MSCI 274D. Global Change. 3 Units
Term Typically Offered: Fall, Spring

MSCI 280. Scientific Writing. 3 Units
Prerequisite(s): Graduate status and instructor permission.
Term Typically Offered: Fall, Spring

Techniques and strategies of scientific writing used for proposals, journal submissions, and abstracts for meetings. Students will develop their writing skills by preparing, editing, and rewriting manuscripts. Lecture three hours.

MSCI 281. Coastal Dynamics. 4 Units
Prerequisite(s): Graduate standing and MSCI 141 or MSCI 142.
Term Typically Offered: Fall, Spring

Addresses the oceanographic dynamics of coastal environments, within an emphasis on eastern boundary current systems influenced by coastal upwelling. Focuses on how physical and geological oceanography interact with each other and how both affect coastal ecosystem dynamics.

MSCI 285. Seminar in Marine Biology. 2 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Seminar will be held on topics changing each semester. Each student will be required to give at least one seminar. Lecture two hours.

Note: May be repeated once for credit.

MSCI 285A. Social Biology. 2 Units
Term Typically Offered: Fall, Spring

MSCI 285B. Repro+Dev Marine Organism. 2 Units
Term Typically Offered: Fall, Spring

MSCI 285C. Recent Adv Deep-Sea Bio. 2 Units
Term Typically Offered: Fall, Spring

MSCI 285D. Controversies Modern Biol. 2 Units
Term Typically Offered: Fall, Spring

MSCI 285E. Paradigms In Commun Ecol. 2 Units
Term Typically Offered: Fall, Spring

MSCI 285F. Appl Molecr Tech Mar Bio. 2 Units
Term Typically Offered: Fall, Spring

MSCI 285G. Aspects Of Deep-Sea Biol. 2 Units
Term Typically Offered: Fall, Spring

MSCI 286. Seminar in Marine Geology. 2 Units
Term Typically Offered: Fall, Spring

Seminar will be held on topics changing each semester. Each student will be required to give at least one seminar.

Note: May be repeated once for credit.

MSCI 287. Seminar In Oceanography. 2 Units
Term Typically Offered: Fall, Spring

Seminar will be held on topics changing each semester. Each student will be required to give at least one seminar.

Note: May be repeated once for credit.

MSCI 298. Research in the Marine Sciences. 1 - 4 Units
Prerequisite(s): Graduate standing and instructor permission.
Term Typically Offered: Fall, Spring

Independent investigations of an advanced character for the graduate student with adequate preparation.

Note: CSUH students must file a petition with their home campus department before admission to this class. CSU Stanislaus students must file Individual Study forms. CSUF students must file Research Approval forms.

MSCI 299. Master's Thesis. 1 - 4 Units
Term Typically Offered: Fall, Spring

Marketing (MKTG)

MKTG 101. Principles Of Marketing. 3 Units
Prerequisite(s): You must be a Business major (any concentration), a business minor or in one of the following majors: Coms/Pub Relations, CM, MET, FACS (Apparel Mktg/Design), FACS (Cons Sci), FASH, GPHD, INTD (Mktg), Rec & Park Mgmt, Photography to enroll in this course.
Term Typically Offered: Fall, Spring

The purpose of this course is to help students develop a working knowledge of marketing. Students will learn about the role marketing plays in an organization, as well as how to plan, implement and evaluate marketing activities. This course builds a foundation for further study in marketing and related fields.

MKTG 115. Marketing Analytics. 3 Units
Prerequisite(s): MKTG 101; and either DS 101 or MKTG 121; or instructor permission
Term Typically Offered: Fall, Spring

The course covers current developments in marketing analytics. Topics include methodologies for market forecasting, estimating market size, and demand; evaluating marketing ROI and customer lifetime value; modeling of segmentation, positioning, competitive analysis, conjoint analysis, distribution channel analytics, and sales analytics. Students will also learn the latest datamining tools to collect, analyze, and visualize data for decision making and communicating to senior executives.

MKTG 121. Marketing Research and Information. 3 Units
Prerequisite(s): MKTG 101.
Corequisite(s): DS 101
Term Typically Offered: Fall, Spring

Examines the acquisition of information for marketing management decision making, including methods of collection and analysis applicable to secondary and primary data, as this process relates to the management information system. Seminar.
MKTG 122. Buyer Behavior. 3 Units  
**Prerequisite(s):** MKTG 101.  
**Term Typically Offered:** Fall, Spring  
Understanding buying as a process in order to develop more effective solutions to marketing problems; an interdisciplinary approach drawing on insights from the behavioral sciences; applications to practical marketing situations. Seminar.

MKTG 123. Public Relations and Ethics in Business. 3 Units  
**Term Typically Offered:** Fall, Spring  
Managerial function of evaluating public attitudes toward business firms and other organizations and institutions, and of adjusting policies and executing programs to earn public acceptance and support. Media and method of communicating with the various publics, and problems in responsible leadership.

MKTG 124. Retail Management. 3 Units  
**Prerequisite(s):** MKTG 101  
**Term Typically Offered:** Fall, Spring  
Development, trends, and institutions of retailing; organization and management of retail establishments; principles and policies of retail store operations including location and layout, planning and control of budgets, personnel, pricing and customer services.

MKTG 125. Advertising. 3 Units  
**Prerequisite(s):** MKTG 101  
**Term Typically Offered:** Fall, Spring  
Examination of advertising as a marketing communications tool in profit and nonprofit organizations. Emphasis will be placed on creative methods, alternative media, measurements of effectiveness, and coordination with other aspects of the marketing program through class discussion and written projects. Seminar.

MKTG 126. Salesmanship. 3 Units  
**Term Typically Offered:** Fall, Spring  
Principles of the sales process including prospecting, structuring a sales presentation, handling objections, closing and customer relationship management. Application of sales techniques in product and service situations, integration of technology as a sales tool. Includes lectures, role playing, and practice in sales presentations.

MKTG 127. Sales Management. 3 Units  
**Prerequisite(s):** MKTG 101  
**Term Typically Offered:** Fall, Spring  
Individual problems of manufacturer or wholesaler in merchandising; intensive development of the "selling" function of marketing; duties of the sales manager.

MKTG 128. Marketing Management. 3 Units  
**Prerequisite(s):** MKTG 101 and senior status.  
**Term Typically Offered:** Fall, Spring  
Application of marketing principles to the solution of a wide variety of problems and cases including target markets, product selection, channels of distribution, promotion and pricing.  
**Note:** It is a capstone course. It is recommended that students take MKTG 121 and MKTG 122 prior to taking MKTG 128. Seminar.

MKTG 129. Marketing Management. 3 Units  
**Prerequisite(s):** MKTG 101 and senior status.  
**Term Typically Offered:** Fall, Spring  
Application of marketing principles to the solution of a wide variety of problems and cases including target markets, product selection, channels of distribution, promotion and pricing.  
**Note:** It is a capstone course. It is recommended that students take MKTG 121 and MKTG 122 prior to taking MKTG 129. Seminar.

MKTG 130. Digital Marketing. 3 Units  
**Prerequisite(s):** MKTG 101 and Business majors or Marketing minors only.  
**Term Typically Offered:** Fall, Spring  
The purpose of this course is to help students learn and apply emerging marketing techniques to become efficient and effective marketers in the 21st century. Topics covered center on effective marketing in an online environment to help students refine their strategic marketing skills, ability to work effectively in diverse teams, and understanding of the local marketing environment.

MKTG 140. Sports Marketing. 3 Units  
**Prerequisite(s):** MKTG 101  
**Term Typically Offered:** Fall, Spring  
The purpose of this course is to help students integrate principles of marketing and sports industry management. It examines the marketing of sports, teams, athletes, sport arenas, as well as the use of sports related marketing tools (such as sponsorships, celebrity athlete endorsements, promotional licensing) for promoting non-sport consumer and industrial products.

MKTG 150. Management. 3 Units  
**Prerequisite(s):** MKTG 101  
**Term Typically Offered:** Fall, Spring  
Managerial function of evaluating public attitudes toward business firms and other organizations and institutions, and of adjusting policies and executing programs to earn public acceptance and support. Media and method of communicating with the various publics, and problems in responsible leadership.

MKTG 160. Principles of Quality Management. 3 Units  
**Term Typically Offered:** Fall, Spring  
Study of the major principles of quality management: customer focus, continuous improvement, employee involvement, and process improvement. Use of case studies and a project to gain knowledge in implementing quality management principles. Seminar.

MKTG 181. Supply Chain Logistics Management. 3 Units  
**Prerequisite(s):** OPM 101  
**Term Typically Offered:** Fall, Spring  
Delivery of enhanced customer and economic value through synchronized management of the flow of physical goods and associated information from sourcing through consumption. Examines the management of those activities that facilitate the movement, control and direction of goods and services to create time, place, form and ownership utilities in the global market. Topics include transportation, warehousing, information systems, sourcing, strategic alliances, modeling, purchasing and international operations.

MKTG 185. Advanced Operations Planning and Control. 3 Units  
**Prerequisite(s):** OPM 101  
**Term Typically Offered:** Fall, Spring  
Focuses on effective operations strategies for companies that operate in a dynamic business environment, with an emphasis on in-depth treatments of the decision situations facing managers in charge of related to the planning and control of the flow of goods and services in supply chain systems.

MKTG 186. Supply Chain Modeling and Analysis. 3 Units  
**Prerequisite(s):** OPM 101  
**Term Typically Offered:** Fall, Spring  
Covers modeling and analytics for designing, managing and improving supply chain systems in order to achieve competitive advantages: cost, quality, service, flexibility, adaptability, and sustainability which support business level strategies of cost leadership and differentiation.
MKTG 190. Multinational Marketing. 3 Units
Prerequisite(s): MKTG 101 or instructor permission.
Term Typically Offered: Fall, Spring, Summer

Environmental factors affecting international trade, such as culture and business customs, political factors and constraints, economic development and legal differences, are integrated with the marketing management functions of market potential, analysis marketing research, international organization, channels and distribution, sales promotion, prices, credit, and financing.

MKTG 195. Internship in Marketing. 3 Units
Prerequisite(s): Minimum Sacramento State GPA of 2.5.
Term Typically Offered: Fall, Spring

Supervised work experience in business, governmental or service agencies for the purpose of increasing student understanding of the nature and scope of their operations. Supervision is provided by the faculty and the cooperating agencies.

Note: Open to upper division students, subject to permission of the Marketing Area. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030. Open to declared business administration majors only.

Credit/No Credit

MKTG 199. Special Problems in Marketing. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.

Note: Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030.

Credit/No Credit

MKTG 199A. Special Problems in Supply Chain Management. 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.

Note: Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030.

Credit/No Credit

Masters Business Admin (MBA)

MBA 201. Accounting. 2 Units
Term Typically Offered: Fall, Spring

Concepts and models of financial accounting are introduced. Included are the analysis, interpretation and reporting of financial events.

MBA 202. Business Communication. 2 Units
Term Typically Offered: Fall, Spring

Stresses fundamental communication principles and techniques for effective business writing in diverse managerial situations. Participants complete a variety of writing activities, including responding to management communication cases and evaluating written communications using holistic and analytic tools. Within this context, participants are provided an opportunity to achieve an understanding of syntactical and grammatical patterns while improving analytical and logical business writing skills.

Note: This requirement will be waived for students who achieve a score of 4.5 or higher on the Analytical Writing Assessment (AWA) exam. Graduate Writing Intensive (GWI) course.

MBA 203. Legal Environment of Management. 2 Units
Term Typically Offered: Fall, Spring

Intensive study of important aspects of law for managers, including law as an instrument of social and political control. Analyzes selected problems in areas of private law such as contract, tort, business organizations, and agency. In addition, selected issues of administrative law and government regulation of business will be investigated.

MBA 204. Management and Organization Concepts. 2 Units
Term Typically Offered: Fall, Spring

Evolution of management and organization thought; examination of behavioral science variables influencing working relationships among managers, individuals and groups; the study of political and social behavior in organizations; identification, analysis, and synthesis of contemporary concepts and administrative practices; investigation of organization structure, function, and properties leading to an understanding of administration and organization.

MBA 205. Introduction to Managerial Issues in Information Technology. 2 Units
Term Typically Offered: Fall, Spring

Explores from a management perspective, the impact of IT on individuals, organizations, and society. Focuses on how organizations use information systems to solve strategic and operational problems. Topics may include functional information systems, decision support systems, enterprise systems, interorganizational information systems, e-commerce, and business analytics. The relationship between managers and IT personnel will be defined. May include case studies and appropriate software packages.

MBA 206. Managerial Statistics Analysis. 2 Units
Term Typically Offered: Fall, Spring

Computer-based course in data analysis. Business case studies are used to differentiate between common and specific sources of statistical variation and to construct statistical models such as multiple regression, times series, and statistical quality control. Emphasis is placed on intuitive statistical thinking and communication of results.

MBA 207. Finance. 2 Units
Prerequisite(s): ECON 204, MBA 201, MBA 206.
Term Typically Offered: Fall, Spring

Theory and practice in determining the need for, the acquisition of, and the use of funds by organizations. Topics include time value of money, financial analysis, management of working capital, cost of capital, capital budgeting, long-term financing, dividend policy, and internal financing.
MBA 208. Marketing.
Prerequisite(s): ECON 204, MBA 201, MBA 203.
Term Typically Offered: Fall, Spring
Application of decision making in solving marketing problems; such as product, place, promotion and price decisions with reference to consumers and users.

MBA 209. Production and Operations Analysis.
Prerequisite(s): ECON 204, MBA 201, MBA 206.
Term Typically Offered: Fall, Spring
Study of operational systems; fundamental concepts, tools, and methodologies required to analyze and solve problems of the operations manager. Topics include: work design, facilities design, scheduling, quality control, and inventory management.

MBA 210. Managerial Accounting.
Term Typically Offered: Fall, Spring
Management accounting data characteristics and application to internal decisions made by managers. Topics cover management accounting as a tool of business management. Topics generally include product costing, managers’ use of accounting data in specific decision frameworks, performance evaluation, and relevant versus strategic analysis. Class participation is encouraged.

MBA 220. Financial Management.
Term Typically Offered: Fall, Spring
Financing of corporations and management of corporate resources, short-term and long-term, stressing maximizing shareholder wealth. The case method is used extensively. Both oral and written communication skills are stressed.

MBA 221. Financial Markets.
Prerequisite(s): MBA 220 or instructor permission.
Term Typically Offered: Fall, Spring
Behavior of equity, debt, currency, and derivatives markets and the linkages between these markets. Presents the principles of valuations of instruments traded in these markets and the use of these instruments to investors, speculators, hedgers and arbitrageurs.

MBA 222. Security Analysis and Portfolio Management.
Prerequisite(s): MBA 220 or instructor permission.
Term Typically Offered: Fall, Spring
Evaluation of stocks and bonds from the investor’s viewpoint. Interpretation of issuers’ financial statements to estimate potential future earnings and dividends; and evaluation of the securities’ risks and expected returns through analysis of economic, industry and market environment in order to develop conclusions as to the securities’ suitability for inclusion in various types of portfolios. Ethical issues faced by practicing security analysts and portfolio managers.

MBA 223. Asset Valuation.
Prerequisite(s): MBA 220 or instructor permission.
Term Typically Offered: Fall, Spring
Advanced concepts and techniques essential to asset valuation. Key topics include, but not limited to, free cash flow, price multiples, asset-based and contingent claim valuations. Applications of various valuation techniques are emphasized.

MBA 224. Advanced Investment Strategies.
Prerequisite(s): MBA 222 (may be taken concurrently) or permission of instructor.
Term Typically Offered: Fall, Spring
Theoretical and empirical applications of fund formation models. Emphasis is placed on model development strategies based on analyzing secondary sources of financial data. The quality of models is assessed in terms of their logical consistency, robustness of underlying theoretical assumptions, and predicative power. Development, analysis and predicative assessment are conducted within the Excel environment.

Term Typically Offered: Fall, Spring
Financing in health care institutions will be studied; including planning and control features involving budgets, funds flow, funding sources, and factors affecting finance in the health care industry. Analyzes will be made of the relationships and effects on health care finance of such factors as labor, business, government, insurance, research, and demography.

MBA 230. Behavior Science Applications in Management.
Term Typically Offered: Fall, Spring
Behavioral science theories, concepts, and practices in current use in private and public organizations. Critical evaluation of research supporting those practices.

MBA 231. Managing in High Performance Work Organizations.
Term Typically Offered: Fall, Spring
This course focuses on contemporary problems, issues, and objectives relating to the value of collaboration with control in maximizing human capital effectiveness in high performance work organizations. Course work will include research projects, experiential case studies and in-class simulations to help students better understand human capital effectiveness and learn how to serve multiple stakeholders’ interests across different sectors such as private, public, healthcare and information technology.

MBA 232. Negotiation and Relationship Management.
Term Typically Offered: Fall, Spring
Investigation of the formal and informal methods of dispute resolution including negotiating, litigation, administrative hearings, arbitration, mediation, ombudsperson, summary jury trial, private judging, and fact finding. Emphasizes the application of these methods to organization, business, and public sector disputes.

MBA 233. Seminar in Organization Development.
Prerequisite(s): MBA 230 or equivalent.
Term Typically Offered: Fall, Spring
Seminar focusing on individual and organization responses to a changing environment. Includes assumptions and values of organization development; action research; personal, team and intergroup interventions; consultant-client relationships and instrumentation. Cases, laboratory experience, workshop and field analysis techniques are utilized.
MBA 234. Industrial Relations. 3 Units
Term Typically Offered: Fall, Spring

Dual approach emphasizing in-depth analysis of both the philosophical and the practical aspects of industrial relations. The impact of social, economic, and political forces, and their interaction with union and management institutions and public policies. Analyzes relationships between organized employees and employers, the bargaining process, strategies and issues, contract administration, and impasse resolution processes.

MBA 235. Management Of Innovation. 3 Units
Term Typically Offered: Fall, Spring

Synthesis of specialized problems relating to the acquisition, introduction, and utilization of innovations and technological advances by managers in business, industry, government, profit or nonprofit organizations. Current research, thinking methodology dealing with the economics and social impact, sources, barriers, and transfer mechanisms of innovations and technological advances will be investigated.

MBA 240. Marketing Management. 3 Units
Term Typically Offered: Fall, Spring

Marketing policy for channels of distribution, pricing brands, advertising, and sales as interrelated at the executive level. Designed to develop capacity for sound decision making by marketing managers.

MBA 241. Marketing and Its Environments. 3 Units
Term Typically Offered: Fall, Spring

Analyzes the firm's or public agency's external environments, forces of change within them, and their influence on the organization's strategies and actions.

MBA 242. Marketing Problems. 3 Units
Term Typically Offered: Fall, Spring

Consideration of current problems and issues in marketing from the perspective of the individual firm or public agency.

MBA 243. Global Marketing Environment. 3 Units
Term Typically Offered: Fall, Spring

An in-depth coverage of a marketing functions in global environment. Explores traditional and contemporary theories, strategies, practices, and issues of international marketing, develops skills required for entry and maintaining presence on the foreign markets.

MBA 244. Research Methodology. 3 Units
Term Typically Offered: Fall, Spring

MBA 251. Real Estate Finance and Investment. 3 Units
Term Typically Offered: Fall, Spring

Concept and methods used to analyze equity investment in income-producing properties such as apartments, office buildings, and retail. Topics include market analysis, leasing and property income streams, financial structuring, taxation of real estate operations and transactions, the theory and methods used to assess the performance of individual real estate projects, alternative ownership structures, recent innovations in real estate capital markets, material on regulatory restrictions, taxation, and mixed assets portfolio analysis. Use of computer models for investment decision-making.

MBA 252. Mortgage Markets: Institutions, Securities, and Strategies. 3 Units
Term Typically Offered: Fall, Spring

Provides an understanding of mortgage markets and the knowledge required to make financing and lending decisions. Topics include sources of funds, mortgage design and analysis of financing alternatives; mortgage origination, risks in real estate loans, forecasting loan performance, loan modifications and workout strategies, foreclosure, bankruptcy and REOs; secondary mortgage markets and mortgage-backed securities; development and construction financing, risks in construction performance and project management; and management of interest rate risk. Use of computer models for decision-making.

MBA 253. Seminar in Real Estate Development. 3 Units
Prerequisite(s): MBA 251, PPA 250, advanced to candidacy, and instructor permission.
Term Typically Offered: Fall, Spring

Capstone course in urban land development. Case problems and theoretical issues in such areas as debt and equity financing, feasibility analysis, land use regulation, market analysis, risk management, site selection, and taxation of income-producing properties.

MBA 260. Management of Technology Intensive Enterprises. 3 Units
Prerequisite(s): Classified graduate status.
Term Typically Offered: Fall, Spring

Use of information technology (IT) as management resource. Focus is on management decision-making related to telecommunications, data-bases, system development, and decision support systems. Use of technology to reengineer the business organization.
MBA 261. Integrated Business Process Management. 3 Units
Term Typically Offered: Fall, Spring

Study the concept of integrated business process management using ERP tools and software to enhance growth and productivity as the diverse functions of an organization are combined into one comprehensive, interrelated, and optimized system. Demonstrate how enterprise level information systems can achieve organizational goals by providing decision makers with accurate, consistent, current, timely, and relevant information and knowledge. Understand the techniques and skills for successful implementation of ERP systems. Explore the latest trends and development in ERP technologies.

MBA 262. Integrated IT in Healthcare. 3 Units
Term Typically Offered: Fall, Spring

This course examines methodologies, tools and applications used for developing and managing information to improve service and make decisions in healthcare. Topics include design, implementation and management of enterprise information systems, health information systems, and electronic medical records, along with other managerial issues such as information privacy and security.

MBA 263. Project and Outsourcing Management. 3 Units
Term Typically Offered: Fall, Spring

Cover the knowledge, skills, and principles required to organize, plan, and control projects and outsourcing activities. Topics include a review of project characteristics and risks, development executive objectives, organization structure and interfaces, information management, and control techniques.

MBA 264. Business Intelligence. 3 Units
Term Typically Offered: Fall, Spring

Cover the processes, methodologies, infrastructure, framework, and current practices used to transform business data into useful information and knowledge for IT-enabled managerial decision support and performance improvement. Data-oriented techniques for corporate performance management and decision making, as well as methodologies for business process improvement, are emphasized. Foundation knowledge in data storage and retrieval, logical data models for database management systems and data warehouses, and security-related issues are discussed.

MBA 270. Global Business Management. 3 Units
Term Typically Offered: Fall, Spring

Provides graduate students an understanding of the management approaches of multinational corporations in dealing with operational differences in various countries. Topics include such areas as: foreign investment decisions, relations with host governments, and organizational planning.

MBA 271. Integrated Entrepreneurship Management. 3 Units
Term Typically Offered: Fall, Spring

Explore multi-dimensions of entrepreneurship including the entrepreneurial initiatives in a corporate context. As a nascent entrepreneur, students are to evaluate new venture opportunities and to understand the entire process of a new venture creation. In corporate settings, students are to understand the innovation and change management of established firms to accomplish their sustainable competitive advantages.

MBA 272. Entrepreneurial Resources Management. 3 Units
Term Typically Offered: Fall, Spring

Study the concepts of identifying and managing talent in entrepreneurial ventures. Demonstrate through theories, empirical evidence, case studies and simulations, the value of sustainable human resource management in new and established enterprises.

MBA 280. Value Chain Integration. 3 Units
Prerequisite(s): classified or conditionally classified graduate student in the College of Bus Admin
Term Typically Offered: Fall, Spring

Study the current state of enterprise value chains from an operation management perspective. Discuss contemporary issues regarding supply and operations management of organizations including profit and nonprofit, service and manufacturing organizations. Integrative topics will be selected among issues affecting an organization's value chain at operational, strategic, and economic levels.

MBA 281. Quality and Process Improvement in Healthcare. 3 Units
Prerequisite(s): classified or conditionally classified graduate student in the College of Bus Admin
Term Typically Offered: Fall, Spring

Discuss contemporary developments and methods in managing quality and process improvement in the healthcare industry. Topics include: Healthcare quality, leadership, teambuilding and project management; quality management processes and tools; quality measurement and management; human participation and organizational design in healthcare quality management; quality and process improvement initiatives; Lean and Six Sigma methodologies for continuous process improvement; process and systems integration; and emerging trends in healthcare quality management.

MBA 282. Global Supply Chain Management. 3 Units
Prerequisite(s): classified or conditionally classified graduate student in the College of Bus Admin
Term Typically Offered: Fall, Spring

A comprehensive study of the basic concepts, methods, processes, and strategies used in the design, development and management of global supply chains. Topics include: defining the supply chain on a global scale, designing global supply chain networks, global procurement, strategic alliances, global logistics, supply chain-oriented product design, quantitative and qualitative tools for supply chain management and current industry initiatives.

MBA 294. Cooperative Education Experience in Management. 6 - 12 Units
Prerequisite(s): Minimum overall GPA of 3.0.
Term Typically Offered: Fall, Spring

In-depth supervised work experience in management for the purpose of exposing the students to comprehensive management experience in business, government, or service agencies.

Note: Open to all classified graduate students, subject to permission of the Associate Dean for Graduate and External Programs. Units do not apply toward degree.

Credit/No Credit
MBA 295A. Internship In Finance. 3 Units
Prerequisite(s): Classified graduate status; minimum Sacramento State GPA of 3.0 required.
Term Typically Offered: Fall, Spring

Supervised work experience in business, governmental service, or agencies for the purpose of increasing and enhancing student understanding of the nature and scope of the organization’s operations. Supervision is provided by the faculty and the cooperating agencies.
Note: Open to second year MBA and MSBA/MIS students. Petitions are obtained from Tahoe Hall 2065.
Credit/No Credit

MBA 295B. Internship In Marketing. 3 Units
Prerequisite(s): Classified graduate status; minimum Sacramento State GPA of 3.0 required.
Term Typically Offered: Fall, Spring

Supervised work experience in business, governmental service, or agencies for the purpose of increasing and enhancing student understanding of the nature and scope of the organization’s operations. Supervision is provided by the faculty and the cooperating agencies.
Note: Open to second year MBA and MSBA/MIS students. Petitions are obtained from Tahoe Hall 2065.
Credit/No Credit

MBA 295C. Internship In Operations Management. 3 Units
Prerequisite(s): Classified graduate status; minimum Sacramento State GPA of 3.0 required.
Term Typically Offered: Fall, Spring

Supervised work experience in business, governmental service, or agencies for the purpose of increasing and enhancing student understanding of the nature and scope of the organization’s operations. Supervision is provided by the faculty and the cooperating agencies.
Note: Open to second year MBA and MSBA/MIS students. Petitions are obtained from Tahoe Hall 2065.
Credit/No Credit

MBA 295D. Internship In Organizational Behavior and Management. 3 Units
Prerequisite(s): Classified graduate status; completion of graduate foundation courses plus 6 units of the second year requirement, minimum Sacramento State GPA of 3.0 required.
Term Typically Offered: Fall, Spring

Supervised work experience in business, governmental service, or agencies for the purpose of increasing and enhancing student understanding of the nature and scope of the organization’s operations. Supervision is provided by the faculty and the cooperating agencies.
Note: Open to second year MBA and MSBA/MIS students. Petitions are obtained from Tahoe Hall 2065.
Credit/No Credit

MBA 295E. Internship in Urban Land Development. 3 Units
Prerequisite(s): Classified graduate status; completion of graduate foundation courses plus 6 units of the second year requirement, minimum Sacramento State GPA of 3.0 required.
Term Typically Offered: Fall, Spring

Supervised work experience in business, governmental service, or agencies for the purpose of increasing and enhancing student understanding of the nature and scope of the organization’s operations. Supervision is provided by the faculty and the cooperating agencies.
Note: Open to second year MBA and MSBA/MIS students. Petitions are obtained from Tahoe Hall 2065.
Credit/No Credit

MBA 296. Experimental Offerings in MBA. 3 Units
Term Typically Offered: Fall, Spring

When a sufficient number of qualified students apply, a faculty member may conduct a seminar on a designated advanced topic in the MBA program.
Note: May be repeated for credit

MBA 299A. Special Problems in Finance. 1 - 3 Units
Prerequisite(s): Classified graduate status.
Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.
Note: Admission requires approval of faculty member supervising work in addition to the approval of the Associate Dean for Graduate and External Programs. Petitions are obtained from Tahoe Hall 1035.
Credit/No Credit

MBA 299B. Special Problems in Marketing. 1 - 3 Units
Prerequisite(s): Classified graduate status.
Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.
Note: Admission requires approval of faculty member supervising work in addition to the approval of the Associate Dean for Graduate and External Programs. Petitions are obtained from Tahoe Hall 1035.
Credit/No Credit

MBA 299C. Special Problems in Operations Management. 1 - 3 Units
Prerequisite(s): Classified graduate status
Term Typically Offered: Fall, Spring

Individual projects or directed reading for students qualified to carry on independent work.
Note: Admission requires approval of faculty member supervising work in addition to the approval of the Associate Dean for Graduate and External Programs. Petitions are obtained from Tahoe Hall 1035.
Credit/No Credit
Math Learning Skills (MLSK)

MLSK 7A. Making Sense Of Algebra. 4 Units
Prerequisite(s): Score of 34 or below on the ELM Test.
Term Typically Offered: Fall, Spring

Review of fundamental mathematics concepts, measurement geometry, and beginning algebra.

MLSK 7B. Making Sense Of Algebra. 4 Units
Prerequisite(s): LS 7A or MLSK 7A.
Term Typically Offered: Fall, Spring

Review of beginning algebra, algebra topics, and measurement geometry.

MLSK 8A. Individualized Algebra. 2 Units
Prerequisite(s): Instructor permission and pre-algebra competency.
Term Typically Offered: Fall, Spring

First in a three course sequence to prepare students for Math 1. Delivered at a slower pace than other preparatory math courses. Upon completion of the three course sequence, students must enroll in MATH 1.

MLSK 8B. Individualized Algebra. 2 Units
Prerequisite(s): Instructor permission and pre-algebra competency.
Term Typically Offered: Fall, Spring

Second in a three course sequence to prepare students for Math 1. A continuation of topics in MLSK 8A. Delivered at a slower pace than other preparatory math courses. Upon completion of the three course sequence, students must enroll in MATH 1.

MLSK 8C. Individualized Algebra. 2 Units
Prerequisite(s): Instructor permission and pre-algebra competency.
Term Typically Offered: Fall, Spring

Last in a three course sequence designed to prepare students for Math 1. A continuation of topics addressed in MLSK 8B. Delivered at a slower pace than other preparatory math courses. Upon completion of the three course sequence, students must enroll in MATH 1.

MLSK 10A. Elementary Algebra with Geometry. 4 Units
Prerequisite(s): Score of 36-48 on the ELM Test.
Term Typically Offered: Fall, Spring

Review of fundamental mathematical concepts, basic measurement geometry and beginning algebra. Instruction provided through lecture or structured tutorial format.
Note: May utilize computers.

MLSK 10X. Geometry Adjunct to Math 9. 1 Unit
Prerequisite(s): Score of 44-48 on the ELM.
Corequisite(s): MATH 9.
Term Typically Offered: Fall, Spring

Review of measurement geometry and tutorial support for students concurrently enrolled in Math 9.

MLSK 195A. Learning Skills Tutoring Internship. 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Practical application of learning through the tutoring of students.
Note: May be repeated for credit.

Credit/No Credit
Mathematics (MATH)

MATH 1. Mathematical Reasoning. 3 Units
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Fall, Spring
Recommended for students whose majors do not include a specific mathematics requirement. Objectives are to show some of the essence and quality of mathematics, and to enhance precision in the evaluation and expression of ideas, thereby developing a student's quantitative reasoning skills. Designed to give students an understanding of some of the vocabulary, methods, and reasoning of mathematics with a focus on ideas.

MATH 10. Essentials of Algebra. 3 Units
Term Typically Offered: Fall, Spring, Summer
Prepares students for courses requiring fundamental algebra skills. Topics include: review of basic algebra; scientific notation, rounding, and percents; factoring; exponents; linear equations and inequalities with applications; quadratic equations with applications; graphing with applications; absolute value equations and inequalities; systems of linear equations and inequalities; and an introduction to exponential and logarithmic expressions.

MATH 12. Algebra for STEM Courses. 4 Units
Term Typically Offered: Fall, Spring
Prepares students for Precalculus and other higher math courses requiring intermediate algebra. Topics include: linear equations and inequalities, absolute value equations and inequalities, systems of linear equations, quadratic equations, polynomial expressions and equations, rational expressions and equations, roots and radicals, and exponential & logarithmic properties and equations.
Note: Students who have received a C- or higher in a college level precalculus or calculus course are not eligible to enroll for credit without the permission of the instructor.

MATH 15H. Honors Mathematical Reasoning. 3 Units
Prerequisite(s): Open only to Honors students.
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Fall, Spring
Introduction to the composition and interpretation of mathematical ideas and to the mathematical reasoning necessary to derive results in a variety of mathematical topics. Emphasis on developing concepts and analyzing results.

MATH 17. An Introduction to Exploration, Conjecture, and Proof in Mathematics. 3 Units
Prerequisite(s): Score of 46 or higher on ALEKS PPL exam or MATH 10
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Fall, Spring
Prepares students for MATH 107A and MATH 107B. Students will explore mathematical patterns and relations, formulate conjectures, and prove their conjectures. Topics from number theory, probability and statistics, and geometry.

MATH 24. Modern Business Mathematics. 3 Units
Prerequisite(s): Score of 51 or higher on ALEKS PPL exam or MATH 10
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Fall, Spring, Summer
Mathematics for business world, including functions, math of finance, linear programming and rates of change. Applications to economics and business will be emphasized throughout.

MATH 26A. Calculus I for the Social and Life Sciences. 3 Units
Prerequisite(s): Score of 61 or higher on ALEKS PPL exam or MATH 12
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Fall, Spring, Summer
Limits, differentiation with applications, integration and applications in the Social Sciences and Life Sciences.

MATH 26B. Calculus II for the Social and Life Sciences. 3 Units
Prerequisite(s): MATH 26A or appropriate high school based AP credit.
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Fall, Spring
Continuation of MATH 26A, integration and applications to the Social Sciences and Life Sciences. Multi-variate analysis including partial differentiation and maximization subject to constraints; elementary differential equations; sequences and series. Calculus of the trigonometric functions as time allows.
Note: Not open to students already having credit for MATH 31 or equivalent.

MATH 29. Pre-Calculus Mathematics. 4 Units
Prerequisite(s): Score of 61 or higher on ALEKS PPL exam or MATH 12
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Fall, Spring, Summer
Designed to prepare students for calculus. Topics: trigonometry, points and lines in the Cartesian plane; lines and planes in space; transformation of coordinates; the conics; graphs of algebraic relations; the elementary transcendental functions.

MATH 29A. Pre-Calculus Mathematics A. 2 Units
Prerequisite(s): MATH 12
Term Typically Offered: Fall, Spring, Summer
First semester of a two semester course that is designed to prepare students for calculus. Topics: functions and graphs, polynomial functions, rational functions and applications. Lecture two hours.
MATH 29B. Pre-Calculus Mathematics B. 2 Units
Prerequisite(s): MATH 29A.
Corequisite(s): MATH 29M.
Term Typically Offered: Fall, Spring, Summer

Second semester of a two semester course that is designed to prepare students for calculus. Topics: exponential and logarithmic functions, trigonometric functions, analytic geometry, and applications. Lecture two hours.

MATH 29M. Lab for Pre-Calculus Math B. 1 Unit
Corequisite(s): MATH 29B.
Term Typically Offered: Fall, Spring

Workshop designed to deepen the understanding of pre-calculus developed in MATH 29A.
Note: May be taken for workload credit toward establishing full-time enrollment status, but is not applicable to the baccalaureate degree. Laboratory

MATH 30. Calculus I. 4 Units
Prerequisite(s): Score of 76 or higher on ALEKS PPL exam or MATH 29 or MATH 29B
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Fall, Spring, Summer

Functions and their graphs; limits; the derivative and some of its applications; trigonometric and hyperbolic functions and their inverses; the integral; the fundamental theorem; some applications of the integral. Laboratory

MATH 30L. Laboratory for First Semester Calculus. 1 Unit
Corequisite(s): Enrollment in a designated section of MATH 30.
Term Typically Offered: Fall, Spring

Workshop designed to deepen the understanding of calculus developed in MATH 30.
Note: May be taken for workload credit toward establishing full-time enrollment status, but is not applicable to the baccalaureate degree. Laboratory

Credit/No Credit

MATH 31. Calculus II. 4 Units
Prerequisite(s): MATH 30 or appropriate high school based AP credit.
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Fall, Spring, Summer

MATH 30 continuation. Methods of integration; improper integrals; analytic geometry; infinite sequences and series.
MATH 96E. Elem Math Content Adv Viewpoin. 1 Unit
Term Typically Offered: Fall, Spring, Summer
MATH96E is a 1-unit, 1-week early start course for baccalaureate credit designed to prepare students for fall GE area B4. Working independently and collaboratively, students will use an inquiry-based approach to learning through research, reflection, and engagement with real world scenarios. Students will develop various academic literacies in order to understand the conventions of quantitative reasoning required for success in a college setting.
Cross listed: ALS 96
Credit/No Credit

MATH 96F. Mathematical Programming. 3 Units
Prerequisite(s): MATH 30 or appropriate high school based AP credit
Term Typically Offered: Fall, Spring
Computational strategies in mathematical problem solving; implementation of mathematical algorithms; programming concepts including variables, control flow, data structures, and functions; data visualization, typesetting, and report generation.

MATH 99. Special Problems. 1 - 6 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading. Permits a student to pursue study and research in an area not otherwise available through the regular curriculum.
Note: Open only to students who appear competent to carry on individual work; admission requires the approval of the faculty member under whom individual work is to be conducted, and approval of the advisor and the Department Chair.
Credit/No Credit

MATH 100. Applied Linear Algebra. 3 Units
Prerequisite(s): MATH 26B or MATH 31.
Term Typically Offered: Fall, Spring
Linear algebra and its elementary applications. Topics: Matrix algebra; simultaneous linear equations; linear dependence and vector spaces; rank and inverses; determinants; numerical solution of simultaneous linear equations; linear transformations; eigenvalues and eigenvectors; unitary and similarity transformations; quadratic forms.
Note: May not be taken for credit toward a mathematics major.

MATH 101. Combinatorics. 3 Units
Prerequisite(s): MATH 31
Term Typically Offered: Spring only
Introduction to the art of counting. The focus will be on actually listing the objects being counted in small cases and using the knowledge gained in working with small cases to build toward general principles. Sum and product principles, models of counting, permutations and combinations, equivalence relations and partitions, inclusion-exclusion principle, recurrence relations, and generating functions.

MATH 102. Number Theory. 3 Units
Prerequisite(s): MATH 31.
Term Typically Offered: Fall, Spring
Theory of divisibility; some number theoretical functions; congruencies (linear and quadratic); some Diophantine equations. Simple continued fractions.
MATH 108. Introduction to Formal Mathematics.
Prerequisite(s): MATH 31, MATH 35.
Term Typically Offered: Fall, Spring
Logic of mathematical proof, set theory, relations, functions. Examples and applications from set cardinality, algebra, and analysis.

MATH 110A. Modern Algebra.
Prerequisite(s): MATH 108.
Term Typically Offered: Fall, Spring
First half of a one-year introductory course in algebraic concepts. Topics include: groups, subgroups, properties of groups, permutation groups, factor groups, homomorphism theorems.

MATH 110B. Modern Algebra.
Prerequisite(s): MATH 110A.
Term Typically Offered: Fall, Spring
Continuation of MATH 110A.
Note: Topics include

MATH 117. Linear Algebra.
Prerequisite(s): MATH 110A.
Term Typically Offered: Fall, Spring
Abstract linear spaces and linear transformations; invariant subspaces; canonical forms.

MATH 121. College Geometry.
Prerequisite(s): MATH 31; MATH 32 or MATH 35.
Term Typically Offered: Fall, Spring
Study of the axioms and theorems of Euclidean geometry. A comparison of several geometry axiom systems and their theorems, including those of some non-Euclidean and finite geometries.

MATH 130A. Functions of a Real Variable.
Prerequisite(s): MATH 32 and MATH 108.
Term Typically Offered: Fall, Spring
First half of a one-year upper division course in functions of a real variable. The first semester will consist of a rigorous development of the theory of real-valued sequences and continuity and differentiation for functions of one real variable.

MATH 130B. Functions of a Real Variable.
Prerequisite(s): MATH 130A.
Term Typically Offered: Fall, Spring
Continuation of MATH 130A. This semester will be devoted to a rigorous development of the theory of Riemann integration, infinite series, and sequences and series of functions.

MATH 134. Functions of a Complex Variable and Applications.
Prerequisite(s): MATH 32.
Term Typically Offered: Spring only
Complex plane; analytic functions; integration and Cauchy’s Theorem; sequences and series; residue calculus; applications to potential theory; Fourier and Laplace transforms.

MATH 150. Introduction to Numerical Analysis.
Prerequisite(s): MATH 31
Term Typically Offered: Spring only
Numerical solutions of algebraic and transcendental equations; interpolation, inverse interpolation, finite differences, cubic splines, and applications; numerical differentiation and integration; direct and iterative numerical solutions of linear systems; discrete and continuous least squares approximation.

MATH 161. Mathematical Logic.
Prerequisite(s): MATH 108.
Term Typically Offered: Fall, Spring
Advanced study of logic with special application to mathematics.

MATH 162. Set Theory.
Prerequisite(s): MATH 108.
Term Typically Offered: Fall only
Axiomatic study of set theory. Topics usually considered include: relations and functions; set theoretical equivalence; finite and infinite sets; cardinal arithmetic; ordinal numbers and transfinite induction; variants of the Axiom of Choice.

MATH 170. Linear Programming.
Prerequisite(s): MATH 31; MATH 35 or MATH 100.
Term Typically Offered: Fall only
Theory of linear programming, duality, simplex method, integer programming, applications.

MATH 190. History Of Mathematics.
Term Typically Offered: Fall, Spring
Study of the development of mathematical ideas and techniques and their impact on the general course of the history of western civilization.

MATH 193. Capstone Course for the Teaching Credential Candidate.
Term Typically Offered: Fall, Spring
Successful completion of at least five of the following:
MATH 102, MATH 110A, MATH 110B, MATH 121, MATH 130A, MATH 130B or MATH 190; MATH 110A or MATH 130A may be taken concurrently.

MATH 196K. Introduction to Differential Geometry.
Prerequisite(s): MATH 31, and MATH 35 or instructor’s permission
Term Typically Offered: Spring only
Reviews the major themes presented in the upper division program in Mathematics, and relates the themes to junior high school and high school curriculum. Required for all subject matter students.
Note: Not accepted for credit for non-Teaching Credential students.

MATH 199. Introduction to Numerical Analysis.
Term Typically Offered: Spring only
Numerical solutions of algebraic and transcendental equations; interpolation, inverse interpolation, finite differences, cubic splines, and applications; numerical differentiation and integration; direct and iterative numerical solutions of linear systems; discrete and continuous least squares approximation.

MATH 31. Functions of One and Several Variables.
Term Typically Offered: Fall, Spring
Continuation of MATH 130A. This semester will be devoted to a rigorous development of the theory of Riemann integration, infinite series, and sequences and series of functions.

MATH 32. Functions of One and Several Variables.
Term Typically Offered: Fall, Spring
Continuation of MATH 130A. This semester will be devoted to a rigorous development of the theory of Riemann integration, infinite series, and sequences and series of functions.

MATH 35. Functions of One and Several Variables.
Term Typically Offered: Spring only
Continuation of MATH 130A. This semester will be devoted to a rigorous development of the theory of Riemann integration, infinite series, and sequences and series of functions.

MATH 102. Introduction to Linear Algebra.
Term Typically Offered: Fall
Systems of linear equations; matrix algebra; vector spaces; linear transformations; standard canonical forms.

MATH 107. Introduction to Numerical Analysis.
Term Typically Offered: Fall, Spring
Numerical solutions of algebraic and transcendental equations; interpolation, inverse interpolation, finite differences, cubic splines, and applications; numerical differentiation and integration; direct and iterative numerical solutions of linear systems; discrete and continuous least squares approximation.

MATH 108. Introduction to Formal Mathematics.
Term Typically Offered: Fall, Spring
Logic of mathematical proof, set theory, relations, functions. Examples and applications from set cardinality, algebra, and analysis.

MATH 110A. Modern Algebra.
Term Typically Offered: Fall, Spring
First half of a one-year introductory course in algebraic concepts. Topics include: groups, subgroups, properties of groups, permutation groups, factor groups, homomorphism theorems.

MATH 110B. Modern Algebra.
Term Typically Offered: Fall, Spring
Continuation of MATH 110A.
Note: Topics include

MATH 117. Linear Algebra.
Term Typically Offered: Fall, Spring
Abstract linear spaces and linear transformations; invariant subspaces; canonical forms.

MATH 121. College Geometry.
Term Typically Offered: Fall, Spring
Study of the axioms and theorems of Euclidean geometry. A comparison of several geometry axiom systems and their theorems, including those of some non-Euclidean and finite geometries.

MATH 130A. Functions of a Real Variable.
Term Typically Offered: Fall, Spring
First half of a one-year upper division course in functions of a real variable. The first semester will consist of a rigorous development of the theory of real-valued sequences and continuity and differentiation for functions of one real variable.

MATH 130B. Functions of a Real Variable.
Term Typically Offered: Fall, Spring
Continuation of MATH 130A. This semester will be devoted to a rigorous development of the theory of Riemann integration, infinite series, and sequences and series of functions.

MATH 134. Functions of a Complex Variable and Applications.
Term Typically Offered: Spring only
Complex plane; analytic functions; integration and Cauchy’s Theorem; sequences and series; residue calculus; applications to potential theory; Fourier and Laplace transforms.
MATH 198. Seminar for Mathematics Tutors. 2 Units
Prerequisite(s): Students must be working as tutors in a campus-based program.
Term Typically Offered: Fall, Spring
Supports Sacramento State students who are working in tutorial and related roles in mathematics programs on campus. Focus on questioning as a fundamental strategy for teaching mathematics, on classroom observation, and on communication among mathematics instructors in support of effective teaching and learning.
Note: May be repeated up to two times for credit.

Credit/No Credit

MATH 199. Special Problems. 1 - 6 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading. Open only to those students who appear competent to carry on individual work. Admission to this course requires the approval of the faculty member under whom the individual work is to be conducted, in addition to the approval of the advisor and the Department Chair.
Credit/No Credit

MATH 202. Theory of Numbers. 3 Units
Prerequisite(s): Math 110A or equivalent; Math 110B is recommended.
Term Typically Offered: Fall, Spring
Divisibility properties of the integers, primes, modular arithmetic, Chinese Remainder Theorem, quadratic reciprocity and quadratic forms, arithmetic functions, the Möbius inversion formula, and Diophantine equations. Possible additional topics include elliptic curves, algebraic numbers, primes in arithmetic progressions, the geometry of numbers, p-adic numbers, primality tests, modular forms, and encryption.

MATH 210A. Algebraic Structures. 3 Units
Prerequisite(s): MATH 110B.
Term Typically Offered: Fall only
Graduate level course in algebraic structures. Topics include group theory including permutation groups, subgroups, homomorphisms, quotient groups, group actions, Sylow theorems and the theory of finite Abelian groups, as well as an introduction to ring theory including ideals, quotient rings, and integral domains.

MATH 210B. Algebraic Structures. 3 Units
Prerequisite(s): MATH 210A.
Term Typically Offered: Fall, Spring
Fields; vector spaces; Galois theory.

MATH 220A. Topology. 3 Units
Prerequisite(s): MATH 130B.
Term Typically Offered: Fall, Spring
Point set topology, continuity, compactness, connectedness.

MATH 220B. Topics In Topology. 3 Units
Prerequisite(s): MATH 220A.
Term Typically Offered: Fall, Spring
Continuation of MATH 220A with topics selected from: General topology/Foundations, Geometric Topology, Continuum Theory, Homology Theory, Homotopy Theory, Topological Dynamics.
Note: May be taken twice with approval of the graduate coordinator.

MATH 230A. Real Analysis. 3 Units
Prerequisite(s): MATH 130B.
Term Typically Offered: Fall, Spring
Metric topology; the theory of the derivative; measure theory.

MATH 230B. Real Analysis. 3 Units
Prerequisite(s): MATH 230A.
Term Typically Offered: Fall, Spring
Continuation of MATH 230A, with topics selected from: Theory of the integral, including Riemann, Riemann-Stieltjes, and Lebesgue integrals.
Note: May be taken twice with approval of the graduate coordinator.

MATH 234A. Complex Analysis. 3 Units
Prerequisite(s): MATH 130B; MATH 105B or MATH 134 is recommended.
Term Typically Offered: Fall, Spring
Complex numbers, complex functions, analytic functions, complex integration, harmonic functions.

MATH 234B. Topics in Complex Analysis. 3 Units
Prerequisite(s): MATH 234A.
Term Typically Offered: Fall, Spring
Continuation of MATH 234A with topics selected from: Partial Fractions and Infinite Products, Entire Functions, Riemann Zeta Function, Normal Families, Riemann Mapping Theorem, Conformal Mapping of Polygons, Dirichlet Problem, Analytic Continuation.
Note: May be taken twice with approval of the graduate coordinator.

MATH 241A. Methods of Applied Mathematics. 3 Units
Prerequisite(s): MATH 241A.
Term Typically Offered: Fall, Spring
Note: May be repeated for credit provided topic is not repeated.

MATH 241B. Topics in Applied Mathematics. 3 Units
Prerequisite(s): MATH 241A.
Term Typically Offered: Fall, Spring
Continuation of MATH 241A with topics: Calculus of Variations, Functional Analysis, Dynamical Systems, Integral Equations, Sobolev Spaces, Fourier Analysis, Potential Theory, and Optimal Control Theory.
Note: May be taken twice with approval of the graduate coordinator.

MATH 248. Lie Theory. 3 Units
Prerequisite(s): Math 110A and Math 130A, or consent of instructor.
Term Typically Offered: Fall, Spring
Introduction to Lie algebras, Lie groups, and their connection. Emphasis is placed on examples given by matrices. Representation theory of Lie algebras or groups. Additional topics may include: applications to physics, the Baker-Campbell-Hausdorff Formula, one-parameter subgroups, root systems, the structure and classification of simple Lie algebras, and the topology of Lie groups.
MATH 296B. Theory of Numbers. 3 Units
Prerequisite(s): Math 110A or equivalent.
Term Typically Offered: Fall, Spring

This class will cover divisibility properties of the integers, primes and primality tests, modular arithmetic, Chinese Remainder Theorem, quadratic reciprocity and quadratic forms, arithmetic functions, the Mobius inversion formula, and Diophantine equations. Possible additional topics include elliptic curves, algebraic numbers, primes in arithmetic progressions, the geometry of numbers and encryptions.

MATH 296C. Lie Theory. 3 Units
Prerequisite(s): Math 110A and Math 130A, or consent of instructor.
Term Typically Offered: Fall, Spring

The course gives a basic introduction to Lie algebras and their connections to Lie groups. Emphasis will be on examples given by matrices. Beyond an introduction to Lie algebras and groups, possible specific topics are: the classification and construction of simple Lie algebras; ADE classification; universal enveloping algebras; semi-simple Lie algebras and their representation theory; Lie group representations; subgroups and subalgebras; one-parameter subgroups; and the exponential map.

MATH 299. Special Problems. 1 - 6 Units
Term Typically Offered: Fall, Spring

Any properly qualified student who wishes to pursue a problem may do so if the proposed subject is acceptable to the supervising instructor and to the student's advisor. Credit/No Credit

MATH 316. The Psychology of Mathematics Instruction. 2 Units
Prerequisite(s): Admission to the Mathematics Blended Program.
Term Typically Offered: Fall only

A survey course for students in the Blended Program in Mathematics that relates broad areas of educational psychology and theories of learning to instruction in the secondary mathematics classroom. The focus is on practical applications of theories through the design of lesson and unit plans. Students will design learning activities for diverse classes of learners, including English Language Learners, and build and refine assessment plans that include formative assessments. Lecture two hours.

MATH 371A. Schools and Community A. 2 Units
Corequisite(s): Enrollment in EDTE 470A.
Term Typically Offered: Fall, Spring

The first of a two-part sequence supporting student teachers in the Mathematics Blended Program. Focus is on strategies for secondary mathematics instruction, the process of reflection on teaching, communication among mathematics teachers in support of effective teaching and learning, strategies for engagement, questioning, creating a safe classroom environment, classroom management, assessment, and familiarity with school and community resources. Emphasis on issues related to English Language Learners, special needs students, and intervention strategies. Seminar two hours. Credit/No Credit

MATH 371B. Schools and Community B. 2 Units
Corequisite(s): Enrollment in EDTE 470B.
Term Typically Offered: Fall, Spring

The second of a two-part sequence supporting student teachers in the Mathematics Blended Program. Focus is on strategies for secondary mathematics instruction, the process of reflection on teaching, communication among mathematics teachers in support of effective teaching and learning, strategies for engagement, questioning, creating a safe classroom environment, classroom management, assessment, and familiarity with school and community resources. Emphasis on issues related to English Language Learners, special needs students, and intervention strategies. Seminar two hours. Credit/No Credit

MATH 500. Culminating Experience. 1 - 3 Units
Prerequisite(s): Advanced to candidacy and permission of the graduate coordinator.
Term Typically Offered: Fall, Spring

Directed reading programs for master's candidates preparing for written comprehensive examinations.

Mechanical Engineering (ME)

ME 37. Manufacturing Processes. 3 Units
Term Typically Offered: Fall, Spring, Summer

Principles of manufacturing processes in the areas of metal removal, forming, joining and casting and fundamentals of numerical control. Study includes applications of equipment, e.g., lathe, milling machine, drill press, saw, grinder, welder, molding equipment and core makers. Emphasis on safety during hands-on operations. Two hours lecture, one three-hour lab.

ME 76. Programming and Problem Solving in Engineering. 2 Units
Prerequisite(s): Math 30; Phys 11A; Phys 11A may be taken concurrently
Term Typically Offered: Fall, Spring, Summer

Introduction to the use of computers for engineering, science and mathematical computations. Provides basic computer operation skills, and includes the use of modern interactive symbolic and numerical computation packages as well as an introduction to programming methods for solving engineering problems. Both analytical and graphical tools will be used for applications. Sample applications will be drawn from a variety of science and engineering areas.

ME 105. Introduction to Technical Problem Solving. 3 Units
Prerequisite(s): ENGR 17 and ENGR 30.
Term Typically Offered: Fall, Spring, Summer

Introduction to the use of computers for engineering, science and mathematical computations. Introduction to linear algebra and matrix applications. Introduction to concepts of programming and visualization using MATLAB and PBasic. Practical applications involving design using a microcontroller. Applications will be drawn from a variety of science and engineering areas. Lecture two hours, Laboratory three hours.
ME 106. Applications of Programming in Mechanical Engineering. 1 Unit
**Prerequisite(s):** ME 76 or equivalent
**Term Typically Offered:** Fall, Spring, Summer
Application of programming in the solution of practical engineering problems. Topics include problem formulation, algorithm development, advanced graphical user-interface development, and generating simulations using software packages such as Simulink. A project that involves programming a robot to perform designated tasks is included.

ME 108. Professional Topics for Mechanical Engineers. 2 Units
**Prerequisite(s):** MATH 31. MATH 31 may be taken concurrently.
**Term Typically Offered:** Fall, Spring
Introduction to statistical methods applied to analysis of engineering systems. Topics include data collection, distribution characteristics, probability, uses of regression analysis, and decision-making under uncertainty. Introduction to economic analysis applied to engineering designs. Topics include marginal or incremental economic analysis using multiple standard methods while addressing organizational constraints and market factors. Investigations into the roles engineers play in society in working toward sustainability, and ethical decision making in a technological world.

ME 114. Vibrations. 3 Units
**Prerequisite(s):** ENGR 110, ME 105.
**Term Typically Offered:** Fall, Spring

ME 115. Dynamics of Machinery and Multi-Body Systems. 3 Units
**Prerequisite(s):** ENGR 110, ME 105.
**Term Typically Offered:** Fall, Spring
Kinematic and kinetic analysis of mechanisms. Rigid and flexible multi-body assembly models in two and three dimensions. Use of solid modeling, dynamic analysis and finite element methods. Study of loads on linkages, cams, gears as integral functioning components of machines, ground and space vehicles. Study of forces and moments in machinery under impulsive and impact forces, balancing, and elements of vibration.

ME 116. Machinery Design I. 2 Units
**Prerequisite(s):** ENGR 112, and ME 37. ENGR 112 and ME 37 may be taken concurrently.
**Term Typically Offered:** Fall, Spring, Summer
Introduction to basic design methodology for mechanical systems and devices. Detail design of machine components; application of analytical methods in the design of complex machines. Failure mode analysis, theories of failure, yield, fracture, deflection, and fatigue analysis of machine elements. Design of common machine elements such as bearings and shafts.

ME 117. Machinery Design II. 2 Units
**Prerequisite(s):** ME 116.
**Term Typically Offered:** Fall, Spring
Introduction to design of machine components; application of analytical methods in the design of complex machines. Design of common machine elements such as threaded fasteners, springs, flexible drive components, gears, and friction devices. Introduction to stress and deflection analysis using finite element software.

ME 120. Fluid Mechanics for Mechanical Engineers. 3 Units
**Prerequisite(s):** ENGR110 or concurrent enrollment.
**Term Typically Offered:** Fall, Spring, Summer
Fundamentals of fluid mechanics, including fluid statics; mass, momentum and energy conservation laws and analysis; inviscid and viscous (laminar, turbulent) flow; pumps, turbines, internal flow in pipes; external flow on moving or submerged objects; dimensional analysis, modeling, applications. Lecture. 3 units.

ME 121. Solar Thermal and Energy Storage Systems. 2 Units
**Prerequisite(s):** ENGR 124.
**Term Typically Offered:** Fall, Spring
Study of solar thermal heat and power and energy storage including the characterization, theory, operation, analysis and modeling of solar thermal and energy storage systems.

ME 122. Geothermal and Bioenergy Systems. 2 Units
**Prerequisite(s):** ENGR 124.
**Term Typically Offered:** Fall, Spring
Study of geothermal and bioenergy systems including the characterization, theory, operation, analysis and modeling.

ME 123. Wind, Hydro and Ocean Energy. 3 Units
**Prerequisite(s):** ENGR 124 and ME120.
**Term Typically Offered:** Fall, Spring
Exploring sustainable energy and power generation, through study of wind, hydro and ocean energy systems, including the characterization, theory, operation, analysis, modeling, planning impacts and design process.

ME 126. Heat Transfer. 3 Units
**Prerequisite(s):** ENGR 124 and ME 120.
**Term Typically Offered:** Fall, Spring, Summer
Basic principles of heat transfer, including processes of conduction, convection, radiation, evaporation and condensation. Lecture three hours.

ME 126W. Heat Transfer Workshop. 1 Unit
**Corequisite(s):** ME 126.
**Term Typically Offered:** Fall, Spring, Summer
Problem solving and discussion of heat transfer to enhance students’ understanding of subject matter.
**Note:** May be repeated for credit.
**Credit/No Credit**
ME 128. Thermal-Fluid Systems. 3 Units
Prerequisite(s): ME 126 (may be taken concurrently).
Term Typically Offered: Fall, Spring, Summer
Fundamentals of the Otto, Diesel, Brayton and Rankine power cycles, vapor-compression refrigeration, psychrometric processes and chemical reactions. Theory and application of temperature, pressure, flow, and velocity instruments, introduction to experiment design, errors, uncertainty and data acquisition, data analysis and presentation.

ME 129. Power Plant Engineering. 3 Units
Prerequisite(s): Thermodynamics (ENGR 124) and Thermal-Fluid Systems (ME 128). ME 128 may be taken concurrently.
Term Typically Offered: Fall, Spring
In this course, the students will be able to understand the fundamentals of power industry, including electricity production, transmission, and distribution. They will also apply their engineering knowledge gained in the fundamental courses to understand and conceptually design various modern power plant technologies for electric power generation and cogeneration, including steam power plants, gas turbines, combined cycles, and nuclear power plants and their components.

ME 132. Solar Energy, Geothermal Energy, and Bioenergy Systems. 3 Units
Prerequisite(s): Thermodynamics (ENGR 124)
Term Typically Offered: Fall, Spring
In this course, the students will study solar energy, geothermal energy, and bioenergy systems. They will apply their engineering knowledge gained in the fundamental courses to design these systems. They will also learn about theoretical foundations, characterization, operation, and environmental impacts of these energy systems.

ME 136. Numerical Control Programming. 3 Units
Prerequisite(s): ME 37 and ME 105; ME 105 may be taken concurrently.
Term Typically Offered: Fall, Spring
Computer programming languages for automated manufacturing, including CNC manual programming, cutter compensation, geometric definition of products, cutting tool definition, continuous path part programming, computation, decision, looping, computer graphics programming and intelligent machines.

ME 137. Product Design for Manufacturing and Automation. 3 Units
Prerequisite(s): ME 117.
Term Typically Offered: Fall, Spring
Various manufacturing and automation aspects of product design, including design for machining, design for automation, applications of CAD/CAM software in product design and automation, and rapid prototyping. Virtual design and manufacturing and agile manufacturing will also be discussed.

ME 138. Concurrent Product and Process Design. 3 Units
Prerequisite(s): ME 37 and ME 116.
Term Typically Offered: Fall, Spring
Manufacturing considerations in product design including: design for manufacturing (DFM), design for assembly (DF A), design to cost (DTC), design to life cycle cost (DTLCC), design for quality and reliability (DFQR); introduction to concurrent engineering. Two hours lecture, three-hour lab.

ME 140. Introduction to Motors and Actuators. 2 Units
Prerequisite(s): ME 172 or EEE 184.
Term Typically Offered: Fall, Spring
Power conversion hardware used in electromechanical systems. Operation and sizing of electric motors, both DC and AC systems, motor controllers, and power electronics; sensors; design in fluid power systems, both pneumatic and hydraulic; and power transmission systems such as ball screws and belt drivers.

ME 141. Introduction to Tolerance Analysis. 2 Units
Prerequisite(s): ME 116
Term Typically Offered: Fall, Spring
Introduction to techniques used in manufacturing tolerance analysis. Assembly tolerance analysis using standard industry practices; application of geometric dimensioning techniques to tolerance analysis; drawing practices for indicating dimensional tolerances; statistical techniques; tolerance allocation. Introduction to computer aided tolerance analysis.

ME 143. Vehicle Dynamics and Design. 3 Units
Prerequisite(s): ENGR 110 and ME 117.
Term Typically Offered: Fall, Spring

ME 145. Vehicle Crash Reconstruction. 3 Units
Prerequisite(s): ENGR 110
Term Typically Offered: Fall, Spring
Study of forensic engineering using state of the art technology. Application of principles of dynamics for forensic investigation and reconstruction of vehicle collisions. Cases involving, cars, motorcycles, bicycles and commercial vehicles. Study of devices that contribute to passenger safety and stability. Analysis of seat belts, airbags, and electrohydraulic stabilizers. Data analysis of Event Data Recorders (EDRs) and verification with real cases using state of the art reconstruction techniques, photogrammetry and the use of computer simulations in two and three dimensions.

ME 151. Fundamentals of Combustion. 3 Units
Term Typically Offered: Fall, Spring
Principles of combustion and pyrolysis of gaseous, liquid, and solid materials. Applications of principles, including analysis and design of stationary and mobile powerplants, waste management, and fire safety.

ME 152. Turbomachinery Design. 3 Units
Prerequisite(s): ME 120 and ENGR 124
Term Typically Offered: Fall, Spring
Theoretical analysis of energy transfer between fluid and rotor; principles of axial, mixed, and radial flow compressors and turbines. Applications and computer-aided design of various types of turbomachines.
ME 153. Thermodynamics of Combustion Engines. 3 Units
Prerequisite(s): ENGR 124, ENGR 132, ME 105.
Term Typically Offered: Fall, Spring

Application of thermodynamic and fluid mechanical analysis to various kinds of engines, including those based on Otto, Diesel, Brayton, Rankine, and Stirling cycles. Development of computer models and comparison of cycles in terms of applications to land, marine, and aerospace propulsion.

ME 154. Alternative Energy Systems. 3 Units
Prerequisite(s): ENGR 124.
Term Typically Offered: Fall, Spring

Study of alternative energy technologies, such as renewable fuels, wind, solar, oceanic and geothermal power. Concentration on fundamental thermodynamic principles, modern design features and non-technical aspects of each technology.

ME 155. Gas Dynamics. 3 Units
Prerequisite(s): ME 105.
Term Typically Offered: Fall, Spring

ME 156. Heating and Air Conditioning Systems. 3 Units
Prerequisite(s): ENGR 124, ENGR 132.
Term Typically Offered: Fall, Spring

Theory and design of heating, ventilating and air conditioning for industrial and comfort applications. Topics include refrigeration cycles, heating and cooling load calculations, psychrometrics, solar heating and cooling component, and system design.

ME 157. Solar Energy Engineering. 3 Units
Prerequisite(s): ME 126; may be taken concurrently.
Term Typically Offered: Fall, Spring

In-depth study of the basics of solar engineering, including the nature and availability of solar radiation; operation, theory and performance of solar collectors; energy storage and model of solar systems.

ME 159. High Efficiency HVAC. 3 Units
Prerequisite(s): ME 156 or instructor permission.
Term Typically Offered: Fall, Spring

Starts with a review of the theory and design of HVAC systems. Recent improvements and new developments in cooling and heating equipment are studied in detail. Computer models such as the Trane TRACE Program are used to size an HVAC system with an emphasis on high efficiency. Computer based controls and energy management systems are discussed and demonstrated. Field trips to energy efficient installations are included. Field trip(s) may be required.

ME 164. Introduction to Test Automation. 3 Units
Prerequisite(s): ME 105, ME 117.
Term Typically Offered: Fall, Spring

Basic concepts to automate testing procedures. Introduction to sensors, signal conditioning, sampling theory, design of experiments, data acquisition software, and data reduction techniques. Hands-on experience with PC based data acquisition software and hardware which will be used to create testing programs. Lecture two hours; laboratory three hours.

ME 165. Introduction To Robotics. 3 Units
Prerequisite(s): ME 105, ME 116.
Term Typically Offered: Fall, Spring

Fundamentals of design and application of industrial robotics. Manipulator kinematics, trajectory planning and controller design, design of end effectors and actuators, sensors, programming languages, and machine vision. Applications in manufacturing, approach to implementing robotics, economic analysis for robotics. Lecture two hours; laboratory three hours.

ME 171. Modeling and Simulation of Mechatronics and Control Systems. 3 Units
Prerequisite(s): ENGR 110, ME 105.
Term Typically Offered: Fall, Spring, Summer

Computer modeling and mathematical representation of mechanical, electrical, hydraulic, thermal, and electronic systems or combinations of these. Development of system design criteria and solutions using computer simulation. Use of state of the art automated modeling and simulation methods to build models of multi-energy mechatronics and control systems. Vibration concepts, applied, natural frequencies, eigenvectors, and solution of differential equations using computer simulation. Introduction to state variable feedback control systems. A design project is required.

ME 172. Control System Design. 3 Units
Prerequisite(s): ME 171.
Term Typically Offered: Fall, Spring, Summer

Use of mathematical models for the generation of equations of motion for mechanical and electrical systems. Evaluation of single and multiple degrees of freedom systems in the time and frequency domain. Topics include feedback control systems, Laplace transform, state space representation, transfer functions, error analysis, stability of control systems and system response. Automatic control system design using root locus and frequency response methods. Design of compensating controls using state of the art software and automation tools. Introduction to digital control.

ME 173. Applications of Finite Element Analysis. 3 Units
Prerequisite(s): ENGR 112, ME 105.
Term Typically Offered: Fall, Spring

ME 176. Product Design & CAD. 3 Units
Prerequisite(s): ENGR 6, ME 105 and ME 116.
Term Typically Offered: Fall, Spring

Digital product development using an integrated CAD system. Philosophy of parametric design. Component and assembly design, basic drawing creation, and simulations. Team product design investigating the effects of variations in geometry, dimensions, and material selection. Lecture two hours; laboratory three hours.
ME 177. Product Design and 3D Parametric Solid Modeling. 3 Units
Prerequisite(s): ENGR 6, ME 105 and ME 116.
Term Typically Offered: Fall, Spring

Introduction to Solid Modeling and its application to mechanical product design. Digital product development using 3D Parametric Solid Modeling tools. Also covers component and assembly design, basic drawing creation. Reverse design project engineering investigating the effects of variations in geometry, dimensions, and material selection. Lecture two hours; laboratory three hours.

ME 180. Mechanical Properties of Materials. 3 Units
Prerequisite(s): ENGR 112
Term Typically Offered: Fall, Spring, Summer

Principles of mechanical properties of metals, including strength under combined loads, fatigue, and fracture mechanics. Laboratory includes study of strengthening mechanisms, and principles of experimental stress analysis. Lecture two hours; Laboratory three hours.

ME 180W. Mechanical Properties of Materials Workshop. 1 Unit
Corequisite(s): ME 180.
Term Typically Offered: Fall, Spring, Summer

Problem solving and discussion of mechanical properties of materials to enhance students' understanding of subject matter. Credit/No Credit

ME 182. Introduction to Composite Materials. 3 Units
Prerequisite(s): ME 180.
Term Typically Offered: Fall, Spring

Properties, mechanics, and applications of anisotropic fiber-reinforced materials with an emphasis on the considerations and methods used in the design of composite structures.

ME 183. Materials Selection in Engineering Design. 3 Units
Prerequisite(s): ENGR 45 and ME 116. ME 116 may be taken concurrently.
Term Typically Offered: Fall, Spring

Quantitative treatment of materials selection for engineering applications. Discussion of the relationship between design parameters and materials properties. Emphasis on the influence of processing and fabrication on the properties of metals, ceramics, polymers and composites as related to the overall design process. Sustainability, Eco-Design, and manufacturability considerations.

ME 184. Corrosion and Wear. 3 Units
Prerequisite(s): ME 180.
Term Typically Offered: Fall, Spring

Introduction to the phenomena of corrosion and wear, including the electro-mechanical bases of corrosion, examples of corrosion of iron, steel and stainless steels, and prevention of corrosion. Fundamentals of wear are covered including effects of loads, material properties, and lubrication on wear rates.

ME 186. Fracture Mechanics in Engineering Design. 3 Units
Prerequisite(s): ME 180.
Term Typically Offered: Fall, Spring

Fracture mechanics approach to mechanical design; role of microstructure in fracture toughness and embrittlement; environmentally-induced cracking under monotonic and fatigue loads; laboratory techniques; service failures in various industries and failure mechanisms.

ME 190. Project Engineering I. 3 Units
Prerequisite(s): ME 117
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring, Summer

Beginning of a two semester project; design of a product, device, or apparatus that will be fabricated in ME 191. Students work in small groups, interacting with product users, vendors, technicians, and faculty advisors. Lecture two hours; laboratory three hours.

ME 191. Project Engineering II. 2 Units
Prerequisite(s): ME 190.
Term Typically Offered: Fall, Spring, Summer

Continuation of the project begun in ME 190. Part II consists of fabrication and assembly of equipment, testing and evaluation, and reporting. Seminar one hour; laboratory three hours.

ME 194. Career Development in Mechanical Engineering. 1 Unit
Prerequisite(s): Senior status.
Term Typically Offered: Fall, Spring

Designed for Mechanical Engineering students making career decisions. Instruction will include effective career planning strategies and techniques including skill assessment, employment search strategy, goal setting, time management, interview techniques and resume writing. Lecture one hour.

Note: Units earned can not be used to satisfy major requirements.

ME 195. Professional Practice. 1 - 6 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Supervised employment in a professional engineering or computer science environment. Placement arranged through the College of Engineering and Computer Science. Requires satisfactory completion of the work assignment and a written report. Credit/No Credit

ME 195A. Professional Practice. 1 - 12 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Supervised employment in a professional engineering or computer science environment. Placement arranged through the College of Engineering and Computer Science. Requires satisfactory completion of the work assignment and a written report. Credit/No Credit

ME 196A. Motion and Dynamic Analysis using Solid Modeling. 3 Units
Prerequisite(s): ENGR 6 and ME 117.
Term Typically Offered: Fall, Spring

Practical approach to study of motion and dynamic analysis of machine components and assemblies in two or three dimensions. Uses solid modeling software to analyze the forces, moments and dynamic loads for parts and entire assemblies in motion. Topics include stress and strain during motion, kinematics, kinetics, drop tests in two and three dimensions, frequency analysis, buckling, dynamic fatigue and finite element analysis, time history of motion, harmonics, and vibrations.

**Prerequisite Notes:***

- ENGR 112
- ENGR 132
- ENGR 45
- ME 116
- MATH 45

**Course Descriptions:**

- **ME 196B:** Study of product design process and formal design methodologies. Various topics in product and system design including creativity, visualizations and communications, human factors, design for X methodology decision science, economics, product design and robust quality design.

- **ME 196C:** Computer programming languages such as C/C++, Java, Processing, and their applications to engineering problem solving using computer graphics, simulations, and physical prototyping. Programming computer communications with microprocessors for controlling sensors and motors.

- **ME 196D:** Study of forensic engineering using state of the art technology in vehicles that contribute to passenger safety and stability. Application of principles of dynamics for forensic investigation and reconstruction of vehicle collisions. Study of seat belts, airbags, and electrohydraulic stabilizers. Study of the Event Data Recorders (EDRs), data analysis and verification of real cases using classical reconstruction techniques, and the use of computer simulations in two and three dimensions.

- **ME 196E:** Study of forensic engineering using state of the art technology in vehicles that contribute to passenger safety and stability. Application of principles of dynamics for forensic investigation and reconstruction of vehicle collisions. Study of seat belts, airbags, and electrohydraulic stabilizers. Study of the Event Data Recorders (EDRs), data analysis and verification of real cases using classical reconstruction techniques, and the use of computer simulations in two and three dimensions.

- **ME 196F:** Quantitative treatment of materials selection for engineering applications. Discussion of the relationship between design parameters and materials properties. Emphasis on the influence of processing and fabrication on the properties of metals, ceramics, polymers and composites as related to the overall design process. Sustainability, Eco-Design, and manufacturability considerations.

- **ME 196G:** Air quality standards. Stationary and transportation emission sources. Chemical and physical interactions of air pollutants, including greenhouse gases, with the atmosphere. Introduction to air quality modeling, including atmospheric temperature effects due to longwave thermal radiation. Air Quality measurement. Emission control strategies and design. Air resources economics and policy.

- **ME 196H:** Thermodynamics and kinetics of common phase transformations and metal alloys with emphasis on relationships between them. Industrial applications for ceramic and glass components along with the processing and materials selection options available for a given material and application. Topics covered include common ceramic structures, thermal and physical properties of ceramics, powder processing, creep resistance and toughening mechanisms, electronic properties of ceramics, and glass forming.

- **ME 196I:** Fundamentals of structure, processing and properties of engineering ceramics with an emphasis on the relationships between them. Industrial applications for ceramic and glass components along with the processing and materials selection options available for a given material and application. Topics covered include common ceramic structures, thermal and physical properties of ceramics, powder processing, creep resistance and toughening mechanisms, electronic properties of ceramics, and glass forming.

- **ME 196J:** Fundamentals of structure, processing and properties of metals and metal alloys with emphasis on relationships between them. Thermodynamics and kinetics of common phase transformations and resulting microstructures and mechanical properties. Slip mechanisms in single crystals, and metallic alloy strengthening mechanisms including grain size, solute, precipitation, cold-work, and martensite. Specific heat treatment and mechanical processing procedures for steel and aluminum alloys as well as application of these processes to other alloy systems.

- **ME 199:** Individual projects or directed reading. Note: Open only to students who appear competent to carry on individual work. Admission requires approval of an instructor and the student’s advisor. May be repeated for credit.

- **ME 206:** Fundamentals and applications of stochastic processes for engineers, including a review of engineering statistics, autoregression moving average (ARMA) models, characteristics of ARMA models, ARMA modeling and forecasting, and transformation from discrete models to continuous models. Applications of stochastic processes in engineering field, e.g., precision manufacturing, monitoring and diagnosis of machines, tools, and processes, system identification, vibrations, and statistical process control (SPC).

</tbody>
</table>
Analytical and numerical analysis of Navier-Stokes equations for laminar flow; stability of laminar flow and its transition to turbulence. Analyzes stream functions and the velocity potential, and vorticity dynamics. The mathematical analysis of incompressible turbulent flows; development of Reynolds stress equations, turbulent boundary layer equations, turbulent flow in pipes and channels, and turbulent jets and wakes.

**ME 255. Advanced Heat Transfer.** 3 Units
*Term Typically Offered:* Fall, Spring

Advanced topics in heat transfer including analytical and numerical solutions to heat conduction equations in both the steady and unsteady state; use of approximate and analytical techniques for the prediction of convective heat transfer in laminar and turbulent flows, heat transfer in high-velocity flows; analysis of the nature of thermal radiation and radiative heat transfer in enclosures.

**ME 256. Mechanics and Thermodynamics of Compressible Flow.** 3 Units
*Prerequisite(s):* ENGR 201 or ENGR 202; ENGR 201 or ENGR 202 may be taken concurrently.
*Term Typically Offered:* Fall, Spring

Application of the laws of fluid mechanics and thermodynamics to problems of compressible flow in two and three dimensions; small perturbation theory, hodograph method and similarity rules for supersonic flow. Method of characteristics, shock wave analysis for steady, unsteady and supersonic, one-dimensional flows.

**ME 258. Advanced Thermodynamics.** 3 Units
*Prerequisite(s):* ENGR 202.
*Term Typically Offered:* Fall, Spring

Advanced topics in thermodynamics including applications of fundamental postulates to chemical, mechanical, magnetic and electric systems, theory of fluctuations, and irreversible thermodynamics.

**ME 259. Introduction to Computational Fluid Dynamics.** 3 Units
*Prerequisite(s):* ENGR 132, ME 105 and ME 126.
*Term Typically Offered:* Fall, Spring

Fundamentals of computational fluid dynamics, modeling of physical processes, including the fluid flow, heat and mass transfer, and computer skills. Basic concepts of numerical analysis using computer, including the solutions of ordinary and partial differential equations. Basic hands-on experience on using commercial computational fluid dynamics software packages.

**ME 270. Advanced Computer-Aided Design of Dynamic Systems.** 3 Units
*Prerequisite(s):* ME 114 or ME 171.
*Term Typically Offered:* Fall, Spring

Computer analysis, synthesis and modeling of physical systems including single and multiple degree of freedom, and linear/nonlinear systems. Use of Computer-Aided Modeling software (CAMP-G) and Advanced Digital Simulation Languages (ADSL). Design and analysis of multi-energy systems using Block Diagrams, Bond Graphs, and state space equation representation. Design of electromagnetic, electro-hydraulic servomechanisms, actuators and driven systems; introduction to multi-variable control of complex systems; stability, controllability, and observability.

**ME 272. Finite Element Modeling in Computer-Aided Design.** 3 Units
*Prerequisite(s):* ME 105, ME 173.
*Term Typically Offered:* Fall, Spring

Finite-element methods in the analysis and optimal design of machine components, structures, and distributed systems. Generation of FEA models using computers. Theoretical and practical application of a finite element code such as PATRAN to the solution of engineering problems. Topics include static and vibration analysis, stress analysis buckling, normal modes, direct and modal frequency response, transient analysis, and heat transfer.

**ME 273. Multibody Dynamics of Rigid and Flexible Systems.** 3 Units
*Prerequisite(s):* Graduate standing.
*Term Typically Offered:* Fall, Spring

Analysis and design of rigid and flexible multi-body assemblies in two and three dimensions with applications to mechanisms, machinery, ground and space vehicles. Kinematic and kinetic analysis in two and three dimensions; impulse and impact forces; modes of vibration. Use of solid modeling, dynamic analysis and finite element analysis methods.

**ME 274. Introduction to Flight Dynamics.** 3 Units
*Prerequisite(s):* MATH 45, ENGR 110.
*Term Typically Offered:* Fall, Spring

**ME 275. Analysis of Aircraft Structures.** 3 Units
*Prerequisite(s):* Graduate standing.
*Term Typically Offered:* Fall, Spring

**ME 276. Advanced Vibration Theory.** 3 Units
*Prerequisite(s):* ME 114, ME 171, or CE 166.
*Term Typically Offered:* Fall, Spring

**ME 277. Space Systems Engineering Management.** 3 Units
*Prerequisite(s):* ENGR 110.
*Term Typically Offered:* Fall, Spring

Systems Engineering approach to plan and direct engineering projects. Emphasizes systems engineering process, requirement design fundamentals, subsystem fundamentals, trade studies, integration, technical reviews, case studies and ethics. Space exploration used as an example; skills applicable to any engineering project. Project-orientated course to plan the design of space and ground vehicles, satellites, airplanes and multidisciplinary subsystems.
ME 280. Advanced Mechanical Properties of Materials. 3 Units
Prerequisite(s): ME 180
Term Typically Offered: Fall, Spring

Mechanical properties of materials, with special attention to dislocations/defects and deformation and fracture control mechanisms. Mechanical properties of conventional engineering materials as well as advanced materials such as nanostructured materials are considered. Effects of defects on mechanical behavior at ambient and elevated temperature are discussed with attention given to strengthening mechanisms, creep, fatigue and fracture.

ME 285. Materials for Extreme Environments. 3 Units
Prerequisite(s): ME 180 or PHYS 110
Term Typically Offered: Fall, Spring

Comprehensive study of material applications in extreme environments, with special attention to mechanical, thermal and electronic behavior. Extreme temperature, pressure, corrosive or toxic environments and high rate deformation are considered. Currently available materials as well as emerging materials are explored for specific applications such as undersea, outer space, ballistic, nuclear, combustion, and other extreme application arenas.

ME 295. Fieldwork. 1 - 3 Units
Prerequisite(s): Permission of Graduate Coordinator or Department Chair.
Term Typically Offered: Fall, Spring

Supervised employment in industry or government that provides practical work experience. Requires satisfactory completion of the work assignment and a written report.

Note: Units may not be applied toward meeting the 30-unit requirement of the degree.

Credit/No Credit

ME 296L. Creative Engineering Design for Quality Products. 3 Units
Prerequisite(s): ME 138 and ME 180.
Term Typically Offered: Fall, Spring

Introduction to analytical and systematic design methodologies in creative and quality product design. Topics include product design process, creative conceptual design tools such as axiomatic design, theory of inventive problem solving (TRIZ), and engineering decision making. Quality product design including design of experiments, robust design techniques, and design optimization. Assignments include application of these principals to solving open-ended design problems using computing tools. Two hour lecture; Three hour laboratory.

ME 296M. Space Mission Design and Analyses. 3 Units
Term Typically Offered: Fall, Spring

This course examines the methods of systems design and analyses required to design and optimize the space mission over its life cycle. The process of optimization covers all the major elements of a space mission such as the ground systems, launch vehicles, spacecraft/payload, space environment, in-orbit operation and maintenance, and end-of-life disposal. The optimization of the overall mission must balance between performance, cost and reliability of all the major elements.

ME 296O. Advanced Heat Transfer. 3 Units
Prerequisite(s): ME 126 and ENGR 202.
Corequisite(s): ENGR 202.
Term Typically Offered: Fall, Spring

Advanced topics in heat transfer including analytical and numerical solutions to heat conduction equations in both the steady and unsteady state; use of approximate and analytical techniques for the prediction of convective heat transfer in laminar and turbulent flows, heat transfer in high-velocity flows; analysis of the nature of thermal radiation and radiative heat transfer in enclosures.

ME 296P. Advanced Dynamics. 3 Units
Prerequisite(s): Graduate Standing
Term Typically Offered: Fall, Spring

ME 296Q. Advanced Solid Modeling. 3 Units
Prerequisite(s): Student must pass ME 116.
Term Typically Offered: Fall, Spring

Advanced topics in computer-aided design for mechanical product design. Reviews on fundamental part and assembly modeling, and engineering drawings. Advanced modeling topics such as surface modeling, top-down assembly, macros and API programming, manufacturing oriented design such as sheet metal, plastic and mold design.

ME 296S. Advanced CAD for Aerospace Applications. 3 Units
Term Typically Offered: Fall, Spring

Design of aerospace systems including profile definition, constraints, operations and visualizations, component design, transformation features, and insertions using advanced CAD software such as CATIA. Creation of complete assembly design including creation of product files, identifying, inserting and displacing components, constraining parts, numbering parts and scene creation. Specifics of sheet metal design for aerospace design including creation of flange, cut-out, joggle, holes, stampings and patterns.

ME 296U. Advanced Computer-Aided Product Design. 3 Units
Prerequisite(s): ENGR 6 and ME 116, or graduate-level status
Term Typically Offered: Fall, Spring

Advanced topics in computer-aided design and applications for mechanical product design. Reviews of fundamental parts, assembly modeling, and engineering drawings. Advanced modeling topics such as surface modeling, design for manufacturing, simulation-based design, top-down assembly, macros and API programming.
ME 296V. Advanced Control System Design. 3 Units
Prerequisite(s): ME 172
Design of Multi-Input/Multi-Output controllers using linear quadratic regulator method and advanced controls architectures. Architectures include Proportional, Proportional Integral and Proportional Integral Derivative (filter) schemes. The course also includes Digital Control, Optimal Control, Introduction to Guidance, Navigation and Control techniques.

ME 296W. Accident Biomechanics. 3 Units
Prerequisite(s): ENGR 110
Study of the interaction of human body kinematics and dynamic biomechanics in accidents involving human activities and vehicles. Impact injury mechanisms, response of the human body using computer models and software analysis tools. Biomechanical response to impact, and tolerance levels. Human factors that influence the biomechanical reactions of people with their vehicles and the environment. Photographic and video analysis, computer graphics, and computer simulations. Forensic engineering to determine the dynamic forces that cause injury in different situations.

ME 299. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Any properly qualified student who wishes to pursue a problem of his/her own choice may do so if the proposed subject is acceptable to the faculty member with whom he/she works and to his/her advisor. Credit/No Credit

ME 500. Master's Thesis. 1 - 6 Units
Prerequisite(s): Open to students who have advanced to candidacy and have secured approval of a Thesis proposal form one full semester prior to registration
Term Typically Offered: Fall, Spring
Completion of a thesis. Credit given upon successful completion of a Master's Thesis (4 - 6 units; maximum 6 units).
Note: Course may be repeated for no more than 6 units total.

Military Science (MILS)

MILS 14. Introduction to Military Science I. 1 Unit
Term Typically Offered: Fall, Spring
Discussion of the military as one element of national power; its role in American defense; its purpose, weapons and organizations; its participation in international treaties. Discussion of other subjects required for a student to understand the military and its place in modern society. Fall only.

MILS 15. Introduction to Military Science II. 1 Unit
Term Typically Offered: Fall, Spring
Discussion of the military's role in American Society, current society attitudes, sources of its leaders, and an examination of its structure. Spring only.

MILS 24. Principles and Tactics of the Soldier. 1 Unit
Term Typically Offered: Fall, Spring
Familiarizes students with the nine principles of war, and gain an appreciation for the role of the commander in warfare. A study of small unit level will enable the student to understand the nature of the battlefield environment, and will put the decisions of the commander into perspective. These discussions will lead to the discussion of the elements of leadership to be presented in MILS 25. Fall only.

MILS 25. Leadership Assessment and Beginning Counseling Skills. 1 Unit
Term Typically Offered: Fall, Spring
Students will gain insight and practical experience in the manager-leader skills of counseling using the Army's sixteen leadership dimensions as a model. The student will understand the elements of leadership, and undergo the Army's Leadership Assessment Program in class. Interactive role playing scenarios will be conducted and behavior recorded in a group setting. The student will be given individual feedback on the results of the assessment by scheduling a private appointment with the instructor. Spring only.

MILS 99. Special Problems. 1 - 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring
Intensive examination of one or more special problems in Military Science. Possible areas of study include examination of the structure of the military and its place in modern society, participation in international treaties, leadership skills, decision making, as well as other topics in military science.

MILS 134. Principles Of Instruction. 2 Units
Term Typically Offered: Fall, Spring
Principles and practice in fundamentals applicable to military instruction to include planning, presentation, execution and evaluation. Student presentations exemplify lecture material. Application of small combat unit tactics (squad and platoon) will solidify concepts discussed in class. Fall only.

MILS 135. Military Operations. 2 Units
Prerequisite(s): Upper division standing, MILS 134 or instructor permission.
Term Typically Offered: Fall, Spring
Military small unit tactical theory and application are taught and serve as a basis for leadership development. Introduces principals of combat contemporary operating environment, Geneva Law of Land Warfare, and military offensive and defensive operations. Emphasis is placed on developing critical thinking, problem solving, and communication skills. Spring only.

MILS 144. Principles of Military Administration. 2 Units
Term Typically Offered: Fall, Spring
Comprehensive course in the organization, structure, and functions of the various types of staffs and an introduction to the theory and application of military law and legal systems focusing on the Uniform Code of Military Justice and the rights of the accused under the Constitution. Fall only.

MILS 145. Military Leadership and Ethics. 2 Units
Term Typically Offered: Fall, Spring
Capstone seminar designed to bring together all previous Military Science instruction. Examines contemporary leadership problems. Designed to provide the ROTC cadet with the basic management skills necessary for a foundation for future growth as a junior officer. Spring only.
MS Business Analytics (MSBA)

MSBA 201. Programming for Business Analytics. 3 Units
Term Typically Offered: Fall, Spring, Summer

The purpose of this course is to introduce and familiarize students with key aspects of Python and R programming languages that are necessary for computation in business analytics. Upon successful completion of this course, students will be familiar with Python and R programming constructs, data structures, retrieving data from Excel, databases and other online sources, pre-processing data, and various types of data analysis techniques.

MSBA 202. Data Management for Business Analytics. 3 Units
Term Typically Offered: Fall, Spring, Summer

The course is designed to provide the student with the essential knowledge needed to analyze, evaluate, design, implement, and administer a business database. The topics include: 1. The terminology and fundamental concepts associated with the relational database; 2. The design and implementation of a relational database; and 3. The business data analysis using Oracle SQLPlus.

MSBA 203. Data Visualization and Communication for Business Analytics. 3 Units
Term Typically Offered: Fall, Spring, Summer

This course examines advanced information technologies that extract non-trivial, actionable, and novel knowledge from data to achieve strategic goals of organizations. The course emphasizes data visualization, data communication, business intelligence applications data warehousing, and data mining.

MSBA 204. Operations Analytics and Decision Models. 3 Units
Term Typically Offered: Fall, Spring, Summer

Introduces students to operations analytics and decision models for the solution and analysis of business problems. Topics include mathematical programming, decision theory, analysis of waiting lines, simulation, and Markov processes.

MSBA 205. Data Analytics for Business. 3 Units
Prerequisite(s): MSBA 201
Term Typically Offered: Fall, Spring, Summer

This data analytics course focuses on the application of statistical methods to business problems. Emphasis is placed on case studies, model building techniques, statistical reasoning, and communications of statistical results. A statistical computer package will be used in the course.

MSBA 206. Data Mining for Business. 3 Units
Prerequisite(s): MSBA 205
Term Typically Offered: Fall, Spring, Summer

This course covers data mining methods commonly used in business including advanced data visualization, dimension reduction, classification methods, association rules, cluster analysis, forecasting time series analysis. This course focuses on applications of data mining methods in the business environment.

MSBA 207. Machine Learning for Business. 3 Units
Prerequisite(s): MSBA 206
Term Typically Offered: Fall, Spring, Summer

This course provides an introduction to machine learning and statistical pattern recognition and covers basic concepts, principles, methods, implementation techniques, and applications of machine learning in business.

MSBA 211. Marketing Analytics. 3 Units
Prerequisite(s): MSBA 205
Term Typically Offered: Fall, Spring, Summer

The course covers current developments in marketing analytics. Topics include methodologies for market forecasting, estimating market size, and demand; evaluating marketing ROI and customer lifetime value; modeling of segmentation, positioning, competitive analysis, conjoint analysis, distribution channel analytics, and sales analytics. Students will also learn the latest analytics tools to collect, analyze, and visualize data for decision making and communicating to senior executives.

MSBA 212. Social Media Analytics. 3 Units
Prerequisite(s): MSBA 206
Term Typically Offered: Fall, Spring, Summer

This course prepares students to draw business insights and make business decisions by mining social media data.

MSBA 213. Financial Analytics. 3 Units
Prerequisite(s): MSBA 205
Term Typically Offered: Fall, Spring, Summer

This course introduces and develops the collection, analysis, visualization, and interpretation of financial data. The course utilizes current statistical programming environments and techniques applied to analytics-friendly finance problems including optimum portfolio selection, quantitative security analysis, performance measurement, and back-testing.

MSBA 214. Big Data Technologies for Business. 3 Units
Prerequisite(s): MSBA 201, MSBA 202
Term Typically Offered: Fall, Spring, Summer

This course addresses the concepts and principles of Big Data and how Big Data can be used in the enterprise. The course starts with an overview of the fundamental principles of Big Data and its role in making better decisions and predictions in the organization. Following the fundamentals of Big Data, we address the technology, infrastructure and applications of Big Data.
Music (MUSC)

MUSC 3.  MIDI Sequencing and Notation.  2 Units  
Term Typically Offered: Fall, Spring

Introduction to professional music software applications and MIDI hardware. Exploration of various hardware options such as keyboards, computers, synthesizers, samplers, and drum machines. Topics include basic MIDI principles, creating, performing, and printing music using computer-based sequencing and notation software.

MUSC 4.  Elements Of Music.  2 Units  
Term Typically Offered: Fall only

Elements of Music is designed to introduce you to some of the fundamental materials of music and musicianship with the goal of attaining basic musical literacy. The course focuses on the understanding of some of the ways rhythm and pitch function in music, the interpretation of the most common elements of a musical score, and the association of music notation with sound.

MUSC 8.  Basic Music.  3 Units  
General Education Area/Graduation Requirement: Arts (Area C1)  
Term Typically Offered: Fall, Spring

Orientation designed to provide musical knowledge, skills, and competencies necessary for reading music or listening to music.  
Note: May not be taken for credit by music majors.

MUSC 9.  Music In World Cultures.  3 Units  
General Education Area/Graduation Requirement: Arts (Area C1)  
Term Typically Offered: Fall, Spring

Designed as a survey of world music for music majors. Explores how music is used as a form of human expression in all cultures. Musical instruments, forms and styles, and the roles and functions of music in traditional and contemporary societies in various cultures throughout the world.

MUSC 10A.  Survey of Music Literature I.  3 Units  
General Education Area/Graduation Requirement: Arts (Area C1)  
Term Typically Offered: Fall only

Survey of Medieval, Renaissance and Baroque music literature in Western art music, its stylistic development, and cultural context. Emphasis on score reading and listening. Introduction to primary source readings and musicological literature.

MUSC 10B.  Survey of Music Literature II.  3 Units  
General Education Area/Graduation Requirement: Arts (Area C1)  
Term Typically Offered: Spring only

Survey of Classical and Romantic music literature in Western art music, its stylistic development, and cultural context. Emphasis on critical listening and reading multi-part musical notation in treble and bass clefs. Introduction to primary source readings and musicological literature.

MUSC 10C.  Survey of Music Literature III.  3 Units  
Term Typically Offered: Fall only

Survey of 20th and 21st Century music literature in Western art music, its stylistic development, and cultural context. Emphasis on score reading and listening. Introduction to primary source readings and musicological literature.

MUSC 11A.  Music Theory I.  2 Units  
Prerequisite(s): MUSC 4 or placement by exam at the time of university enrollment.  
Corequisite(s): MUSC 12A for students enrolled in all music degree programs other than the BA Music degree.  
Term Typically Offered: Fall, Spring

Music theory I is designed to introduce students to some of the materials and structures of certain styles of tonal and modal music. The course begins with a brief review of fundamentals before moving quickly into the understanding of two important kinds of notational shorthand. The second half of the course is concerned primarily with the study of counterpoint. These studies will prepare students to engage two topics critical to the success of a musician: interpretation and expression.

MUSC 11B.  Music Theory II.  2 Units  
Prerequisite(s): MUSC 11A or placement by exam at the time of university enrollment.  
Corequisite(s): MUSC 12B for students enrolled in all music degree programs other than the BA Music degree.  
Term Typically Offered: Fall, Spring

Theory II is designed to deepen students’ understanding of some of the materials and structures of certain styles of tonal and modal music. The course is a balance of taking music apart through score analysis and putting music together through model composition, or creating original music that imitates a particular style. These studies will prepare students to engage two topics critical to the success of a musician: interpretation and expression.

MUSC 11C.  Music Theory III.  2 Units  
Prerequisite(s): MUSC 11B or placement by exam at the time of university enrollment.  
Corequisite(s): MUSC 12C for students enrolled in a music degree program other than the BA Music degree.  
Term Typically Offered: Fall, Spring

Theory III is designed to deepen students’ understanding of some of the materials and structures of certain styles of tonal and modal music. The course is a balance of taking music apart through score analysis and putting music together through model composition, or creating original music that imitates a particular style. These studies will prepare students to engage two topics critical to the success of a musician: interpretation and expression.

MUSC 12A.  Musicianship I.  2 Units  
Prerequisite(s): MUSC 4 or placement by exam at the time of university enrollment.  
Corequisite(s): MUSC 11A  
Term Typically Offered: Fall, Spring

Musicianship I is a skills-focused course designed to improve the way students associate music notation with sound. By improving their skills in this area, students will be able to read music more quickly and accurately, and understand better the music they are listening to. They will accomplish these tasks through a structured approach to sight-reading, transcription, improvisation, and keyboard playing. These studies will prepare students to engage two topics critical to the success of a musician: interpretation and expression.
MUSC 12B. Musicianship II. 2 Units
Prerequisite(s): MUSC 12A or placement by exam at the time of university enrollment.
Corequisite(s): MUSC 11B.
Term Typically Offered: Fall, Spring

Musicianship II is a skills-focused course designed to improve the way students associate music notation with sound. By improving their skills in this area, students will be able to read music more quickly and accurately, and understand better the music they are listening to. They will accomplish these tasks through a structured approach to sight-reading, transcription, improvisation, and keyboard playing. These studies will prepare students to engage two topics critical to the success of a musician: interpretation and expression.

MUSC 12C. Musicianship III. 2 Units
Prerequisite(s): MUSC 12B or placement by exam at the time of university enrollment.
Corequisite(s): MUSC 11C.
Term Typically Offered: Fall, Spring

Musicianship III is a skills-focused course designed to improve the way students associate music notation with sound. By improving their skills in this area, students will be able to read music more quickly and accurately, and understand better the music they are listening to. They will accomplish these tasks through a structured approach to sight-reading, transcription, improvisation, and keyboard playing. These studies will prepare students to engage two topics critical to the success of a musician: interpretation and expression.

MUSC 14B. Basic Piano for Majors. 1 Unit
Prerequisite(s): Music major or minor and instructor permission.
Term Typically Offered: Fall, Spring

Development of fundamental keyboard skills for the non-keyboard Music major. Sectioned according to the ability of the student. Completion of MUSC 14D meets the departmental piano requirement.

MUSC 14C. Basic Piano for Majors. 1 Unit
Prerequisite(s): Music major or minor and instructor permission.
Term Typically Offered: Fall, Spring

Development of fundamental keyboard skills for the non-keyboard Music major. Sectioned according to the ability of the student. Completion of MUSC 14D meets the departmental piano requirement.

MUSC 14D. Basic Piano for Majors. 1 Unit
Prerequisite(s): Music major or minor and instructor permission.
Term Typically Offered: Fall, Spring

Development of fundamental keyboard skills for the non-keyboard Music major. Sectioned according to the ability of the student. Completion of MUSC 14D meets the departmental piano requirement.

MUSC 17. Voice Class. 1 Unit
Term Typically Offered: Fall, Spring

Elementary instruction in the correct use of the singing voice and the development of style in singing. Open to all students beginning the study of voice. Recommended for elementary credential candidates. May be taken for credit four times.

MUSC 18. Music Appreciation. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

Basic music orientation for the layman. A non-technical consideration of the various aspects of music literature designed to stimulate interest in all phases of music.

Note: Not open to music majors.

MUSC 21. First Year Seminar: Becoming an Educated Person. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall only

Introduction to the meaning of higher education for a music major, to the resources of the University, and to skills for lifelong learning. Designed to help students develop academic success strategies, time management for the music major, and to improve information literacy, intercultural competence, and integrative thinking. Special attention to career readiness for music majors. Provides students with the opportunity to interact with fellow students and seminar faculty to build a community of academic and personal support.

MUSC 25. Voice For Music Theater. 1 Unit
Prerequisite(s): Instructor permission and proficiency examination.
Term Typically Offered: Fall, Spring

Training in vocal techniques and repertoire of the modern American musical theater. May be taken for credit twice.

MUSC 32A. Piano: Intermediate. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 32B. Piano: Intermediate - BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 35A. Harpsichord/Organ: Intermediate. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only.

Note: May be taken for credit four times.
MUSC 35B. Harpsichord/Organ: Intermediate - BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only.
Note: May be taken for credit four times.

MUSC 37A. Voice: Intermediate. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 37B. Voice: Intermediate - BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 38S. Beginning Shakuhachi. 1 Unit
Term Typically Offered: Fall, Spring
Elementary class instruction in the fundamentals of playing the traditional Japanese flute known as the shakuhachi. The focus is on fundamental blowing and fingering techniques, as well as the basis of the fu ho u notation system.
Note: Open to Music majors and minors; others by instructor permission.

MUSC 39. Beginning Folk Guitar. 1 Unit
Term Typically Offered: Fall, Spring
Folk guitar for the beginner, with emphasis on chords and strums as well as the playing of melodies. Guitars are to be furnished by the student.

MUSC 40B. Brass Methods. 1 Unit
Term Typically Offered: Fall only
Class instruction in brass instruments including performance techniques and pedagogy. Required for Music Education majors; other music majors admitted if space permits.

MUSC 40P. Percussion Methods. 1 Unit
Term Typically Offered: Spring only
Class instruction in percussion instruments including fundamental performance techniques and pedagogy. Required for Music Education majors; other music majors admitted if space permits.

MUSC 40S. String Methods. 1 Unit
Term Typically Offered: Fall only
Class instruction in string instruments. Instruction of fundamental performance techniques and pedagogy of string instruments. Required for Music Education majors; other music majors admitted if space permits.

MUSC 40W. Woodwinds Methods. 1 Unit
Term Typically Offered: Spring only
Class instruction in woodwind instruments. Instruction of fundamental performance techniques and pedagogy. Required for Music Education majors; other music majors admitted if space permits.

MUSC 42. Introductory Composition. 2 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall only
Individual instruction in composition for the beginning composition major. Work will be designed to fit the preparation of the student, with emphasis on principles of sound melodic and harmonic construction. Original compositions will develop a mastery of the smaller forms. May be taken twice for credit.

MUSC 43A. Jazz Improvisation I. 2 Units
Prerequisite(s): MUSC 11B
Term Typically Offered: Fall, Spring
Part one of a two-semester study of jazz improvisation required of all jazz studies majors. This course will provide the student with basic and intermediate skills of creative improvisation styles in the jazz idiom. In order to expand the skill level of improvisation of each particular jazz student, this class will focus on four main areas: listening, scale and chord development, repertory development and transcribing jazz solos.

MUSC 43B. Jazz Improvisation II. 2 Units
Prerequisite(s): MUSC 43A
Term Typically Offered: Fall, Spring
Part two of a two-semester study of jazz improvisation required of all jazz studies majors. The course will provide the student with intermediate and advanced skills of creative improvisation styles in the jazz idiom. In order to expand the skill levels of improvisation of each particular jazz student, this class will focus on four main areas: listening, scale and chord development, repertory development, and transcribing jazz solos.

MUSC 45A. West African Drumming. 1 Unit
Term Typically Offered: Fall, Spring
Students will turn the classroom into a cross-cultural space as they engage and explore West African folkloric music through guided viewing of multimedia; discussion of culture as a living, evolving entity; and rehearsing and performing on West African percussion instruments as an ensemble. Students will improve their rhythm skills, learn about West African musical performance practice, experience and reflect on new modes of artistic expression, and deepen their understanding of African culture and its relationship to the West.
Note: Instruments will be provided to students at no charge.

MUSC 50. Jazz Applied: Intermediate. 1 Unit
Prerequisite(s): Approval by jazz area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction in jazz performance.
Note: May be taken for credit four times.
MUSC 55A. Violin: Intermediate. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 55B. Violin: Intermediate - BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 56A. Viola: Intermediate. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 56B. Viola: Intermediate - BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 57A. Cello: Intermediate. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 57B. Cello: Intermediate - BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 58A. Double Bass: Intermediate. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 58B. Double Bass: Intermediate - BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 60. Introduction to String Project Pedagogy. 1 Unit
Term Typically Offered: Fall, Spring
In this course students study pedagogical techniques and participate in a step-by-step practicum as assistant teachers in the Sacramento State String Project. Set in a rigorous teaching lab, the course gives students experience both observing and assistant teaching in the String Project program. Student assistants master effective methods of teaching fundamental string instrument skills to beginners, including correct position, tone production, reading proficiency, intonation, phrasing and listening.

MUSC 65A. Flute: Intermediate. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 65B. Flute: Intermediate - BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 66A. Oboe: Intermediate. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 66B. Oboe: Intermediate - BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 67A. Bassoon: Intermediate. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 67B. Bassoon: Intermediate - BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 68A. Clarinet: Intermediate. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.
MUSC 68B. Clarinet: Intermediate - BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission. Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 69A. Saxophone: Intermediate. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission. Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 69B. Saxophone: Intermediate - BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission. Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 70A. Percussion: Intermediate. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission. Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 70B. Percussion: Intermediate - BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission. Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 71A. Harp: Intermediate. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission. Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 71B. Harp: Intermediate - BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission. Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 74A. Guitar: Intermediate. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission. Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 74B. Guitar: Intermediate - BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission. Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 79A. Trumpet: Intermediate. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission. Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 79B. Trumpet: Intermediate - BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission. Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 80A. Trombone: Intermediate. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission. Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 80B. Trombone: Intermediate - BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission. Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 81A. Baritone: Intermediate. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission. Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 81B. Baritone: Intermediate - BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission. Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 83A. French Horn: Intermediate. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission. Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.
MUSC 93B. French Horn: Intermediate - BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 94A. Tuba: Intermediate. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 94B. Tuba: Intermediate - BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 96. Intro to Hip-Hop Beat-Making. 1 Unit
Corequisite(s): MUSC 118D

This one-unit course is an optional lab supplement to the Area C1 GE course 118D: Hip-Hop in Urban America. Students will learn skills in hip-hop production software including Reason and Ableton Live. Students will learn to create beats including instrument building, sampling, and sequencing. The lab will offer students the opportunity to engage in a hands-on way with the course material in Music 118D, and will track the regional scope of the course schedule closely.

MUSC 96A. West African Drumming. 1 Unit

Term Typically Offered: Fall, Spring

Students will turn the classroom into a cross-cultural space as they engage and explore West African folkloric music through readings, critical listening, essay responses, and performance in an ensemble setting using several West African drums and percussion instruments. Students will improve their rhythm skills, learn about West African musical performance practice, experience and reflect on new modes of artistic expression, and deepen their understanding of African culture and its relationship to the West.

Note: Instruments will be provided to students at no charge.

MUSC 99. Special Problems. 1 - 3 Units
Prerequisite(s): Approval of the faculty member under whom the work is to be conducted and the Department Chair.
Term Typically Offered: Fall, Spring

Individual projects or directed reading for lower division students. Open only to students who appear competent to carry on individual work.

Credit/No Credit

MUSC 100A. Concert Attendance. 1 Unit
Term Typically Offered: Fall, Spring

Designed to develop critical listening, aural analysis, and the appreciation of a wide range of musical forms and genres. Each student will be required to attend a minimum of ten concerts approved by the Music Department and submit a portfolio of programs attended. Written reviews are required for a determined number of the ten concerts attended.

MUSC 100B. Concert Attendance. 1 Unit
Term Typically Offered: Fall, Spring

Designed to develop critical listening, aural analysis, and the appreciation of a wide range of musical forms and genres. Each student will be required to attend a minimum of ten concerts approved by the Music Department and submit a portfolio of programs attended with comments about the music and performance. May be taken for credit eight times.

MUSC 101. Experiences In Music. 3 Units
Term Typically Offered: Fall, Spring

Development of essential musical skills and knowledge for teaching music in the elementary classroom including competencies necessary for reading and notating music in the elementary classroom. The study of curriculum and literature through songs, rhythmic movement, instrumental activities, creating and improvisation, and listening. Lecture/lab.

Note: Required for the Liberal Studies major.

MUSC 104. Contemporary Music Theory and Musicianship. 3 Units
Prerequisite(s): MUSC 11C and MUSC 12C, or placement by exam at the time of university enrollment.
Term Typically Offered: Spring only

In this course, students will engage the art music of today from both a theoretical standpoint; that is, an understanding of musical materials and structures through analysis; and a creative standpoint; that is, creating your their music based upon the models they study through composition and improvisation.

MUSC 107. Composition. 2 Units
Prerequisite(s): Undergraduate major in music, MUSC 42, or instructor permission.
Term Typically Offered: Fall, Spring

Individualized practical experience in the composition of music. Students are allowed freedom in the development of a personal music style and the exploration of forms and genres. May be taken for credit four times.

MUSC 108A. Jazz Arranging I. 2 Units
Prerequisite(s): MUSC 3 or instructor permission.
Term Typically Offered: Fall, Spring

Part 1 of a two-semester study of arranging. Provides basic and intermediate tools of creative writing and arranging styles in the jazz idiom as applied to the small jazz ensemble (jazz combo).

MUSC 108B. Jazz Arranging II. 2 Units
Prerequisite(s): MUSC 108A or instructor permission.
Term Typically Offered: Fall, Spring

Part 2 of a two-semester study of arranging. Addresses creative writing in the idiom of the large jazz ensemble (big band). Two major projects are required, performed and recorded. Jazz orchestration is the central focus with special attention to the idiomatic demands from the sections of the big band and how they relate to each other.
MUSC 109. Instrumentation and Arranging. 3 Units
Prerequisite(s): MUSC 11C and MUSC 12C, or placement by exam at the time of university enrollment.
Term Typically Offered: Fall only

This class is designed to introduce students to two topics: instrumentation, or the properties of various instruments and voices, and how to write for them; and orchestration, or how to combine instruments effectively. The approach will be hands-on in nature: students will be called upon to demonstrate their instrument and perform in class, and they will often orchestrate music for their classmates to perform in class.

MUSC 110. Research in Music History. 3 Units
Prerequisite(s): MUSC 10A, 10B, and 10C; MUSC 11C, Music majors or minors only, and GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Capstone research in special topics of music history. Emphasis on critical reading, writing, and speaking. This course satisfies the writing intensive requirement for music majors.

MUSC 118B. American Popular Music: Jazz History. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

A survey of jazz history. Emphasis is placed on the evolution of different jazz styles and trends, through the study of recorded examples and videos by some of the major artists of the 20th century. Discussion of the social conditions surrounding the evolution of jazz will be included.

MUSC 118C. History of Rock Music. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

A survey of rock music history. Emphasis is placed on the diverse influences and subsequent development of classic rock musical styles through the study of recorded examples and videos by major artists of the 20th century. Discussion of the social conditions surrounding the evolution of rock music will be included.

MUSC 118D. Hip-Hop in Urban America. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

A survey course of hip-hop history. Emphasis is on the musical and cultural evolution of hip-hop through the study of recorded examples, videos, and articles focused on five urban hip-hop centers: New York, Los Angeles, Chicago, and New Orleans.

MUSC 119A. World Music: Asia. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

Examines music from cultures in Asia. Music is examined as a cultural process, a cultural object and as sound. Musical instruments, forms and styles are discussed along with the roles and functions of music. Although traditional music will be emphasized, contemporary and popular music will also be discussed.

MUSC 119B. World Music: Africa. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

Examines music from cultures in Africa. Music is examined as a cultural process, a cultural object and as sound. Musical instruments, forms and styles are discussed along with the roles and functions of music. Although traditional music will be emphasized, contemporary and popular music will also be discussed.

MUSC 119C. World Music: Latin America. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

Examines music from cultures in Latin America. Music is examined as a cultural process, a cultural object and as sound. Musical instruments, forms and styles are discussed along with the roles and functions of music. Although traditional music will be emphasized, contemporary and popular music will also be discussed.

MUSC 125. Advanced Voice for Music Theater. 1 Unit
Prerequisite(s): MUSC 25 or instructor permission and proficiency examination.
Term Typically Offered: Fall, Spring

Designed to give singers advanced training in vocal techniques, interpretation, stage presence, audition preparation, through the utilization of modern musical theater repertoire commensurate with the individual abilities of each class participant.

Note: May be taken twice for credit.

MUSC 127. The American Musical Theater. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Arts (Area C1), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Study of Broadway musicals. Examination of the music, lyrics, dramatic structure, and use of dance in selected shows which demonstrate the evolution of the American musical from its inception through contemporary forms. Includes reading, discussion, listening assignments, and attendance at live performances.

MUSC 129. American Society and its Music. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Arts (Area C1)
Term Typically Offered: Fall, Spring

Introduction, through reading, discussion, taped assignments in the Music Department listening center, live music in the classroom, and outside live listening assignments, to all significant manifestations of American music, their roots, and their place in American life. Includes folk, religious, popular, jazz, and fine-art music.
MUSC 130. Pedagogy of Music Theory and Musicianship. 3 Units  
Prerequisite(s): MUSC 11C and MUSC 12C, or placement by exam at the time of university enrollment.  
Term Typically Offered: Fall only  

This course will serve as a laboratory in which you will learn about and try out effective written theory and aural skills pedagogical practices. You will read research by leading music theorists and cognitive scientists, survey textbooks, develop lesson plans and courses, practice-teach your classmates, and tutor Sacramento State students.  

MUSC 132A. Piano: Advanced. 1 Unit  
Prerequisite(s): Approval by applied area committee and instructor permission.  
Term Typically Offered: Fall, Spring  

Individual instruction. Music majors only. May be taken for credit four times.  

MUSC 132B. Piano: Advanced - BM. 1 Unit  
Prerequisite(s): Admission to the BM degree program, approval by applied area committee and instructor permission.  
Term Typically Offered: Fall, Spring  

Individual instruction. Music majors only. May be taken for credit four times.  

MUSC 135A. Harpsichord/Organ: Advanced. 1 Unit  
Prerequisite(s): Approval by applied area committee and instructor permission.  
Term Typically Offered: Fall, Spring  

Individual instruction. Music majors only.  
Note: May be taken for credit four times.  

MUSC 135B. Harpsichord/Organ: Advanced - BM. 1 Unit  
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission.  
Term Typically Offered: Fall, Spring  

Individual instruction. Music majors only.  
Note: May be taken for credit four times.  

MUSC 136A. Diction For Singers. 3 Units  
Term Typically Offered: Fall, Spring  

International Phonetic Alphabet and its application to song literature in Latin, Italian, German, French, and English. Designed for advanced voice majors, others admitted by instructor permission.  

MUSC 136B. Vocal Pedagogy. 3 Units  
Term Typically Offered: Fall, Spring  

Study of the methods, problems and practical application of teaching singing. Topics will include the functional unity of the singing voice, pedagogical principles, and current methods/resources in voice training, teaching the beginning singer. Designed for voice majors; others admitted with instructor permission.  

MUSC 136C. Song Literature for Solo Performance and Study. 3 Units  
Prerequisite(s): Junior standing (must have completed 60 units prior to registration).  
Term Typically Offered: Fall, Spring  

A broad survey of classical song literature for solo voice and piano from the Baroque era to the present day. Topics will include the joining of music and poetry in the art song; identifying stylistic elements of classical song and poetry; cultural influences on its development; compositional techniques used by selected European, South American, and North American composers; and the use of art song in teaching. Designed for music majors; others admitted with instructor permission.  

MUSC 137A. Voice: Advanced. 1 Unit  
Prerequisite(s): Approval by applied area committee and instructor permission.  
Term Typically Offered: Fall, Spring  

Individual instruction. Music majors only. May be taken for credit four times.  

MUSC 137B. Voice: Advanced - BM. 1 Unit  
Prerequisite(s): Admission to the Bachelor of Music degree program, approval by applied area committee and instructor permission.  
Term Typically Offered: Fall, Spring  

Individual instruction. Music majors only. May be taken for credit four times.  

MUSC 140. Jazz Theory and Harmony. 2 Units  
Prerequisite(s): MUSC 11C and instructor permission.  
Term Typically Offered: Spring only  

Introduction to the theoretical language of jazz improvisation: rhythms, articulations, style, harmony and melody, forms, simple analysis, chord/scale relationships, ear training and keyboard harmony.  

MUSC 141A. Piano Chamber Music. 2 Units  
Prerequisite(s): MUSC 11C and instructor permission.  
Corequisite(s): MUSC 132B or equivalent.  
Term Typically Offered: Fall, Spring  

Instruction in small ensemble rehearsal performance. Focus given to duos, trios, and quartets of various instrumentation with piano. Includes required performances, listening, reading, and examination.  

MUSC 141B. Piano Chamber Music. 2 Units  
Prerequisite(s): MUSC 141A.  
Corequisite(s): MUSC 132B or equivalent.  
Term Typically Offered: Fall, Spring  

Continued instruction in small ensemble rehearsal performance. Focus on duos, trios, and quartets of various instrumentation with piano. Includes required performances, listening, reading, and examination.  

MUSC 142B. Concert Band. 1 Unit  
Term Typically Offered: Fall, Spring  

Note: May be taken for credit eight times.
MUSC 142C. University Chorale. 1 Unit
Term Typically Offered: Fall, Spring
The University Chorale is a large performing ensemble open to students and experienced volunteers, pending a formal audition. On-campus and off-campus performances as announced each semester. This highly select ensemble performs music from historic periods as well as the most contemporary. This ensemble is often called upon to represent the University in various capacities, including recruitment and performance tours.

MUSC 142M. Marching Band. 2 Units
Term Typically Offered: Fall, Spring
Note: May be taken for credit eight times.

MUSC 142S. Orchestra. 1 Unit
Term Typically Offered: Fall, Spring
Note: May be taken for credit eight times.

MUSC 142T. Opera Theater. 1 Unit
Term Typically Offered: Fall, Spring
Note: May be taken for credit eight times.

MUSC 142U. Choral Union. 1 Unit
Term Typically Offered: Fall, Spring
Choral Union is a large performing ensemble open to students, faculty, or staff pending a brief audition. On-campus and off-campus performances as announced each semester. This ensemble performs music from historic periods as well as the most contemporary. This ensemble might be called upon to represent the University in various capacities.

MUSC 142W. Symphonic Wind Ensemble. 1 Unit
Term Typically Offered: Fall, Spring
Note: May be taken for credit eight times.

MUSC 142X. University Singers. 1 Unit
Term Typically Offered: Fall, Spring
University Singers is a large performing ensemble of treble voices (soprano & alto) and is open to students and experienced volunteers, pending a formal audition. On-campus and off-campus performances as announced each semester. This select ensemble performs music from historic periods as well as the most contemporary. This ensemble is sometimes called upon to represent the University in various capacities, including recruitment and performance tours.

MUSC 143J. Instrumental Jazz Ensemble. 1 Unit
Term Typically Offered: Fall, Spring
Rehearsal and performance of literature written for instrumental jazz ensemble.
Note: May be taken for credit eight times.

MUSC 143V. Vocal Jazz Ensemble. 1 Unit
Term Typically Offered: Fall, Spring
Rehearsal and performance of literature written for vocal jazz ensemble.
Note: May be taken for credit eight times.
MUSC 146. Camerata Capistrano Baroque. 1 Unit
Term Typically Offered: Fall, Spring
A conductor-less ensemble that explores in-depth score study, detailed techniques for stylistic performance, and advanced concertante playing of varied repertoire from the Renaissance to contemporary works in groupings of diverse size. Instrumentalists, keyboardists and singers are invited to experience repertoire not normally encountered in the symphony orchestra or traditional chamber groups. Students will achieve a more comprehensive understanding of musical preparation, ensemble discipline and conductor-less performance, culminating in a final concert for a public audience. Paired with MUSC 246.

Note: Each participant must be an enrolled student or registered volunteer, admitted with Instructor permission. Non-Music majors must purchase a music fee card (Lassen Hall) in order to participate. Registered volunteers will receive a parking pass for rehearsal times after required paperwork is completed. May be taken for credit eight times.

MUSC 150. Jazz Applied: Advanced BM. 2 Units
Prerequisite(s): Approval by jazz area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction in jazz performance.

Note: May be taken for credit four times.

MUSC 150A. Jazz Applied: Advanced Mus Ed Emphasis. 1 Unit
Prerequisite(s): Approval by jazz area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction in jazz performance for students pursuing the Music Education emphasis.

Note: May be taken for credit four times.

MUSC 151. Fundamentals of Conducting. 2 Units
Prerequisite(s): MUSC 2, MUSC 7.
Term Typically Offered: Fall only
Basic techniques and skills of conducting. Areas of concern are all basic patterns in simple, compound and asymmetrical meters, correct baton technique, styles, appropriate left hand usage, tempi, fermatas, and introduction to simple score reading.

MUSC 153. Advanced Choral Conducting. 2 Units
Prerequisite(s): MUSC 151.
Term Typically Offered: Spring only
Choral techniques, including rehearsal procedures, score analysis, choral/orchestral repertoire, and approaches to choral literature from the main history eras.

MUSC 154. Advanced Instrumental Conducting. 2 Units
Prerequisite(s): MUSC 151.
Term Typically Offered: Spring only
Instrumental conducting techniques including refinement of basic conducting skills, rehearsal procedures, score study, and familiarization with and interpretation of instrumental literature.

MUSC 155A. Violin: Advanced. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 155B. Violin: Advanced -- BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 156A. Viola: Advanced. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 156B. Viola: Advanced -- BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 157A. Cello: Advanced. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 157B. Cello: Advanced -- BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 158A. Double Bass: Advanced. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 158B. Double Bass: Advanced -- BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.
MUSC 160. Advanced String Project Pedagogy. 1 Unit
Prerequisite(s): MUSC 60 and instructor consent
Term Typically Offered: Fall, Spring

This course is a step-by-step practicum that prepares students to be lead teachers in the Sacramento State Strings Project. Set in rigorous teaching lab, the course gives students experience in creating lesson plans and teaching in the String Project program. Student teachers learn to apply effective pedagogical methods and techniques to teach fundamental skills to beginning level children and more advanced skills to intermediate-level children.

MUSC 161. Jazz Pedagogy. 2 Units
Term Typically Offered: Spring only

Develops skills in the teaching of jazz in all of its facets and dimensions by a variety of approaches to materials, techniques and philosophies surrounding jazz education. Choosing, editing, rehearsing and programming concert materials will be taught. Also taught are scheduling, music and equipment maintenance, basic administration concerns, and other factors pertinent to operating a jazz program.

MUSC 162. Foundations of Music Education. 2 Units
Prerequisite(s): Sophomore status in music or instructor permission.
Term Typically Offered: Fall only

For majors considering a teaching career. Overview of the history, principal philosophies, current issues, methodologies and materials related to Music Education in kindergarten through twelfth grade. Guided classroom and/or rehearsal observations at the elementary, middle/junior high school and senior high levels. Required for the Music Education major.

MUSC 164. Music in General Education. 2 Units
Prerequisite(s): Sophomore status in music or instructor permission.
Term Typically Offered: Spring only

Curricular and instructional strategies for non-performance music classes in kindergarten through twelfth grade. Teaching techniques for classroom instruments, with emphasis on folk guitar. Required for the Music Education major.

MUSC 165A. Flute: Advanced. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 165B. Flute: Advanced -- BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 166A. Oboe: Advanced. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 166B. Oboe: Advanced -- BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 167A. Bassoon: Advanced. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 167B. Bassoon: Advanced -- BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 168A. Clarinet: Advanced. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 168B. Clarinet: Advanced -- BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 169A. Saxophone: Advanced. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 169B. Saxophone: Advanced -- BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.

MUSC 170A. Percussion: Advanced. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Music majors only. May be taken for credit four times.
MUSC 170B. Percussion: Advanced -- BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 171A. Harp: Advanced. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 171B. Harp: Advanced -- BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 172. Repertoire Class in the Performance Major. 1 Unit
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring
Parallel class taken in conjunction with the performance major to supplement student’s knowledge of the literature, performance practice, pedagogy, and criticism of their chosen instrument or voice. May be taken for credit eight times.

MUSC 173A. Vocal Accompanying. 2 Units
Corequisite(s): MUSC 142.
Prerequisite(s): 4 semesters of MUSC 142.
Term Typically Offered: Fall, Spring
Introductory course to piano accompanying with an emphasis on vocal literature. Includes techniques of sight reading, elementary transposition, and interpretation of lieder from the pianist’s point of view.

MUSC 173B. Vocal Accompanying. 2 Units
Prerequisite(s): MUSC 173A.
Corequisite(s): MUSC 132B or equivalent.
Term Typically Offered: Fall, Spring
Continuing study of piano accompanying with an emphasis on art song repertoire. Includes techniques of sight reading, transposition, rehearsing, as well as realization of orchestral reductions. Performances required.

MUSC 174A. Guitar: Advanced. 1 Unit
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 174B. Guitar: Advanced -- BM. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 175. Junior Recital. 1 Unit
Prerequisite(s): Admission to the Bachelor of Music degree program, or instructor permission.
Term Typically Offered: Fall, Spring
Formal recital demonstrating the performance abilities of the student. Contents of the program must be approved by instructor in the major performance medium, and permission to enroll approved by the appropriate faculty committee of the performance medium.

MUSC 176. Piano Pedagogy. 2 Units
Corequisite(s): 4 units of MUSC 32B or equivalent; admission to Bachelor of Music program, or instructor permission.
Term Typically Offered: Spring only
Study of the content, methods and problems of teaching the piano with an emphasis on the first years of instruction for both the child and adult beginner.

MUSC 177. Vocal Literature and Materials (Grades 4-12). 3 Units
Corequisite(s): Phase III Student Teaching.
Term Typically Offered: Fall only
Methods and materials for teaching voice and choral music in grades 4-12. Includes introduction to singing, care and development of the student voice, rehearsal techniques, and selection of materials appropriate for use in small and large choral ensembles.

MUSC 178. Instrumental Literature and Materials. 2 Units
Prerequisite(s): 4 units in MUSC 40.
Term Typically Offered: Fall, Spring
Methods and materials for teaching voice and choral music in grades 4-12. Includes introduction to singing, care and development of the student voice, rehearsal techniques, and selection of materials appropriate for use in small and large choral ensembles.

MUSC 179. Vocal Literature and Materials (Grades 4-12). 3 Units
Corequisite(s): Phase III Student Teaching.
Term Typically Offered: Fall only
Methods and materials for teaching voice and choral music in grades 4-12. Includes introduction to singing, care and development of the student voice, rehearsal techniques, and selection of materials appropriate for use in small and large choral ensembles.

MUSC 180. Advanced Counterpoint. 2 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring
In this course, students learn contrapuntal techniques used in musical styles from the 16th century to the present. Students analyze extant works from a contrapuntal perspective, complete short composition exercises, and create original pieces in various historical styles. The styles and exercises will be designed to a large extent to fit the needs, preparation, and interest of individual students.

MUSC 183. Digital Synthesis and Sampling. 2 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring
Course for students with previous electronic music experience who wish to gain more technical background. Topics include various principles of digital synthesis with an emphasis on independent voice construction, principles of sampling synthesizers, computer-based digital synthesis, and advanced MIDI applications.
MUSC 184. Senior Seminar.
Prerequisite(s): Music major with senior standing
Term Typically Offered: Fall, Spring
Weekly seminar for senior students in the B.A. Music concentration. Senior portfolio preparation, resume preparation, and career planning. Credit/No Credit

MUSC 185A. Senior Audition.
Term Typically Offered: Fall, Spring
Informal program presented before a faculty committee and invited guests. It is designed to accommodate students who have special problems in developing their performance to Senior Recital level. Registration must be approved by the applied music faculty, and contents of the audition approved and supervised by instructor in the performing medium.

MUSC 185B. Trumpet: Advanced.
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 185C. French Horn: Advanced.
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 185D. Baritone: Advanced.
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 185E. Senior Recital Music Education.
Term Typically Offered: Fall, Spring
Formal half recital, generally shared with another student. Required of students completing the BM in Music Education degree. Registration must be approved by the applied music faculty and contents of the audition approved and supervised by instructor in the performing medium.

MUSC 185F. Trombone: Advanced.
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 185G. Tuba: Advanced.
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 185H. Honors Recital.
Term Typically Offered: Fall, Spring
Applied music faculty may designate outstanding performers for an Honors Recital. Contents of the program must be approved and supervised by instructor in the performance medium.

MUSC 185I. Senior Recital Jazz.
Prerequisite(s): Permission by appropriate faculty committee.
Term Typically Offered: Fall, Spring
Formal recital demonstrating the performance abilities of the student in the Jazz Studies concentration. Contents of the program must be approved and supervised by instructor in the performance medium.

MUSC 185J. Trombone: Advanced -- BM.
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 185K. Tuba: Advanced -- BM.
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 185L. French Horn: Advanced -- BM.
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 185M. Baritone: Advanced -- BM.
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 185N. Trumpet: Advanced -- BM.
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 185O. Harp: Advanced.
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 185P. Vibraphone: Advanced.
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 185Q. Percussion: Advanced.
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 185R. Harpsichord: Advanced.
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 185S. Organ: Advanced.
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 185T. Piano: Advanced.
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 185U. Voice: Advanced.
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 185V. Music Theory: Advanced.
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 185W. Ethnomusicology: Advanced.
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 185X. Composition: Advanced.
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 185Y. Conducting: Advanced.
Prerequisite(s): Approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 185Z. Conducting: Advanced -- BM.
Prerequisite(s): Admission to the Bachelor of Music program, approval by applied area committee and instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Music majors only. May be taken for credit four times.

MUSC 186. Senior Portfolio.
Term Typically Offered: Fall, Spring
Senior portfolio preparation, resume preparation, and career planning. Credit/No Credit

MUSC 187. Senior Seminar.
Term Typically Offered: Fall, Spring
Weekly seminar for senior students in the B.A. Music concentration. Senior portfolio preparation, resume preparation, and career planning. Credit/No Credit
MUSC 195. Fieldwork in Music. 1 - 3 Units
Term Typically Offered: Fall, Spring

Directed observation and work experience with public agencies. Field work is offered for the purpose of giving students orientation in occupational specialties. Supervision is provided by both university instructional staff and cooperating agencies. Each student is required to maintain a record of activities and assignments and to prepare periodic reports. The student must make arrangements with a faculty member for a work program prior to admittance.
Credit/No Credit

MUSC 196E. Extended Techniques for Piano. 1 Unit
Prerequisite(s): Upper Division students only, or Instructor approval.
Term Typically Offered: Spring only – odd years

Upper-division elective will survey unusual and important compositional techniques for piano, beginning with the 17th century and culminating with living composers of our time. Examples of both notation and execution techniques will be studied, demonstrated, and then applied in composition. Specific 20th and 21st century composers whose techniques will be discussed in depth may include Cowell, Ives, Cage, Crumb, Curtis-Smith, Diemer, Pärt, Pärt, Santiago, Bolcom, and Say.

MUSC 197. Music And Business. 3 Units
Term Typically Offered: Fall, Spring

Introduction to career possibilities in the area of music and business. Students will explore and develop directions of interest and opportunity through reading, discussion, lectures, and outside speakers. Individual field projects will provide the opportunity to see at close hand the workings of Sacramento area music businesses of the student’s choice.

MUSC 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading. Open only to students who appear competent to carry on individual work. Admission requires the approval of the faculty member under whom the work is to be conducted and of the Department Chair.
Credit/No Credit

MUSC 201. Introduction to Graduate Study. 3 Units
Prerequisite(s): An undergraduate degree with music major or instructor permission.
Term Typically Offered: Fall, Spring

Systematic and historical study of the various disciplines related to music. Prepares the student to do advanced study and research. Required of all MM students in Music. Must be taken the first time scheduled after student is enrolled.
Note: Graduate Writing Intensive

MUSC 202A. Seminar in Music Education. 3 Units
Term Typically Offered: Fall, Spring

Study of current methodology in the development of reliable knowledge in the field of music education. Includes identification and formation of research problems, designing, and strategies.

MUSC 202B. Seminar in Music Education. 3 Units
Term Typically Offered: Fall, Spring

Review of current research trends in music education. Includes review of relevant literature and the definition, design, and justification of a research problem.

MUSC 206. Topics in Music History. 3 Units
Prerequisite(s): Undergraduate major in music or instructor permission.
Term Typically Offered: Fall, Spring

Detailed study of topics in music history and their relation to musical style, performance, reception, and cultural context. Designed to allow narrow focus on the historical contexts of a particular theory, repertoire, performance practice, or critical stance. May be repeated for credit with different topics.

MUSC 207. Topics in Music Analysis. 3 Units
Prerequisite(s): Undergraduate major in music or instructor permission.
Term Typically Offered: Fall, Spring

Detailed study of topics in music analysis and its relation to harmony, rhythm, style, and form. Designed to allow narrow focus on music of a select composer or small group of composers. May be repeated for credit with different topics.

MUSC 208. Topics in Ethnomusicology. 3 Units
Prerequisite(s): Undergraduate major in music or instructor permission.
Term Typically Offered: Fall, Spring

Current practices, methodologies, and scholarly agendas in the field of ethnomusicology including global studies of traditional, classical, folk, and popular musics. Readings from interdisciplinary literature. Students respond in discussion and writing to this scholarly discourse in order to familiarize themselves with theoretical approaches current in the discipline and to practice the spoken and written conventions of the field.

MUSC 210. Composition. 2 Units
Prerequisite(s): Undergraduate composition and instructor permission.
Term Typically Offered: Fall, Spring

Advanced work in composition for students seeking the MM degree with composition option. May be taken for credit twice.

MUSC 211. Graduate Music Theory. 3 Units
Term Typically Offered: Fall, Spring

Comprehensive and intensive overview of the major disciplines of music theory with an emphasis on application of skills. Focus is mainly on tonal practice (part writing, figured bass realization, chromatic harmony, melodic construction, phrase structure, reductive analysis, forms) but also includes discussion of post-tonal music and applicable analytical techniques (extended scalar resources, dodecaphony, set-theory).

MUSC 217A. Choral Conducting Applied Music. 1 Unit
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Graduate music majors only. May be taken for credit four times.
Note: Limited to choral conducting students only.

MUSC 217B. Instrumental Conducting Applied Music. 1 Unit
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Individual instruction. Graduate music majors only. May be taken for credit four times.
Note: Limited to instrumental conducting students only.
MUSC 218A. Choral Conducting Techniques. 1 Unit
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Training in technique and repertoire at the graduate level. May be taken for credit four times.
Note: Limited to choral conducting students only.

MUSC 218B. Instrumental Conducting Techniques. 1 Unit
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Training in technique and repertoire at the graduate level. May be taken for credit four times.
Note: Limited to instrumental conducting students only.

MUSC 219. Graduate Applied Music. 1 Unit
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Classified graduate Music majors and graduate music credential candidates only. May be taken for credit four times.

MUSC 220. Performance Techniques. 1 Unit
Prerequisite(s): Approval by area applied music committee to enter performance option for the MM; instructor permission.
Term Typically Offered: Fall, Spring
Individual instruction. Classified graduate Music majors only. Training in technique and repertoire at the graduate level. May be taken for credit four times.

MUSC 221. Graduate Applied Music for Performer's Certificate. 1 Unit
Prerequisite(s): Performance Certificate Students Only
Term Typically Offered: Fall, Spring
Individual instruction. Training in technique and repertoire at the post-baccalaureate level. May be taken for credit four times.

MUSC 222. Performance Techniques. 1 Unit
Prerequisite(s): Performance Certificate Students Only
Term Typically Offered: Fall, Spring
Individual instruction. Training in applied music performance at the post-baccalaureate level. May be taken for credit four times.

MUSC 242. Advanced Large Performance Ensemble. 1 Unit
Term Typically Offered: Fall, Spring
Study, rehearsal, and public performance of musical repertoire appropriate for the specific ensemble (e.g. orchestra, band, choir, opera, etc.).

MUSC 244. Advanced Chamber Music. 1 Unit
Term Typically Offered: Fall, Spring
Study, rehearsal, and public performance of musical repertoire appropriate for the specific ensemble (e.g. string quartet, wind quintet, etc.).

MUSC 246. Camerata Capistrano Baroque. 1 Unit
Term Typically Offered: Fall, Spring
A conductor-less ensemble that explores in-depth score study, detailed techniques for stylistic performance, and advanced concertante playing of repertoire from the Renaissance to newly composed works. In groupings of diverse size. Instrumentalists, keyboardists and singers are invited to experience repertoire not normally encountered in the symphony orchestra or traditional chamber groups. Students will ultimately achieve a more comprehensive understanding of musical preparation, ensemble discipline and conductor-less performance, culminating in a final concert for a public audience. Paired with MUSC 146.
Note: This course is paired with MUSC 146. Students who have received credit for MUSC 146 as an undergraduate student at CSU Sacramento will not receive credit for MUSC 246. Each participant must be an enrolled student or registered volunteer, admitted with Instructor permission. Non-Music majors must purchase a music fee card (Lassen Hall) in order to participate. Registered volunteers will receive a parking pass for rehearsal times after required paperwork is completed. May be taken for credit four times.

MUSC 285. Graduate Recital. 2 Units
Prerequisite(s): Approval by the student’s recital committee, consisting of student’s primary instructor in the area of concentration and two additional, qualified faculty members, preferably from the student’s area of concentration, chosen by the primary instructor in consultation with the student.
Term Typically Offered: Fall, Spring
Public recital of approximately fifty minutes of music demonstrating the student’s skill, artistry, and maturity in their degree concentration. The content and performance (MM in Conducting and Performance) of the recital, or the quality of the content (MM in Composition, Performer’s Certificate) of the recital, must be evaluated by a committee consisting of the student’s primary applied instructor and two additional, qualified faculty members, preferably from the student's area of concentration.

MUSC 295. Fieldwork in Music. 1 - 3 Units
Term Typically Offered: Fall, Spring
Directed observation and work experience. Fieldwork is offered for the purpose of giving students orientation in occupational specialties.
Supervision is provided by both the instructional staff of the university and cooperating agencies. Each student is required to maintain a record of activities and assignments and to prepare periodic reports. The student must make arrangements with a faculty member for a work program prior to admittance to the course.
Credit/No Credit

MUSC 297. Comprehensive Examination. 1 Unit
Prerequisite(s): MUSC 285 and Advancement to Candidacy
Term Typically Offered: Fall, Spring
Comprehensive oral examination covering student's major field of study. Credit / No Credit.
Credit/No Credit
MUSC 299. Special Problems. 1 - 3 Units
Prerequisite(s): Approval of the faculty member under whom the work is to be conducted and the Department Chair.
Term Typically Offered: Fall, Spring

Individual projects or directed reading. Open only to students who appear competent to carry on individual work.
Credit/No Credit

MUSC 500. Culminating Experience. 1 - 3 Units
Prerequisite(s): Advanced to candidacy and permission from the graduate coordinator.
Term Typically Offered: Fall, Spring

Completion of thesis or project approved for the Master's degree. Three options are available:

Natural Sciences and Mathematics (NSM)

NSM 12A. Peer-Assisted Learning for CHEM 4. 1 Unit
Corequisite(s): CHEM 4
Term Typically Offered: Fall, Spring

Students concurrently enrolled in CHEM 4 and under the guidance of a trained student leader (PAL leader) work collaboratively through problem sets designed by the CHEM 4 instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in CHEM 4.
Note: May be repeated for credit
Credit/No Credit

NSM 12B. Peer-Assisted Learning for MATH 29. 1 Unit
Corequisite(s): MATH 29
Term Typically Offered: Fall, Spring

Students concurrently enrolled in MATH 29 and under the guidance of a trained student leader (PAL leader) work collaboratively through problem sets designed by the MATH 29 instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in MATH 29.
Note: May be repeated for credit
Credit/No Credit

NSM 12C. Peer-Assisted Learning for CHEM 1A. 1 Unit
Corequisite(s): CHEM 1A
Term Typically Offered: Fall, Spring

Students concurrently enrolled in CHEM 1A and under the guidance of a trained student leader (PAL leader) work collaboratively through problem sets designed by the CHEM 1A instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in CHEM 1A.
Note: May be repeated for credit
Credit/No Credit

NSM 12D. Peer-Assisted Learning for CHEM 1B. 1 Unit
Corequisite(s): CHEM 1B
Term Typically Offered: Fall, Spring

Students concurrently enrolled in CHEM 1B and under the guidance of a trained student leader (PAL leader) work collaboratively through problem sets designed by the CHEM 1B instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in CHEM 1B.
Note: May be repeated for credit
Credit/No Credit

NSM 12E. Peer-Assisted Learning for MATH 30. 1 Unit
Corequisite(s): MATH 30
Term Typically Offered: Fall, Spring

Students concurrently enrolled in MATH 30 and under the guidance of a trained student leader (PAL leader) work collaboratively through problem sets designed by the MATH 30 instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in MATH 30.
Note: May be repeated for credit
Credit/No Credit

NSM 12F. Peer-Assisted Learning MATH 31. 1 Unit
Corequisite(s): Enrollment in MATH 31
Term Typically Offered: Fall, Spring

NSM 12F Peer-Assisted Learning MATH 31. Discussion, 2 hours. Students concurrently enrolled in MATH 31 and under the guidance of a trained student facilitator work collaboratively through problem sets designed by a MATH 31 instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in MATH 31.
Credit/No Credit

NSM 12G. Peer-Assisted Learning PHYS 11A. 1 Unit
Corequisite(s): Enrollment in PHYS 11A
Term Typically Offered: Fall, Spring

NSM 12G Peer-Assisted Learning Physics 11A. Discussion, 2 hours. Students concurrently enrolled in PHYS 11A and under the guidance of a trained student facilitator work collaboratively through problem sets designed by a PHYS 11A instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in MATH 31.
Credit/No Credit

NSM 12H. Peer-Assisted Learning BIO 121. 1 Unit
Corequisite(s): Enrollment in BIO 121
Term Typically Offered: Fall, Spring

NSM 12F Peer-Assisted Learning BIO 121. Discussion, 2 hours. Students concurrently enrolled in BIO 121 and under the guidance of a trained student facilitator work collaboratively through problem sets designed by a BIO 121 instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in BIO 121.
Credit/No Credit
NSM 12I. Peer-Assisted Learning BIO 22.
Corequisite(s): Enrollment in BIO 22
Term Typically Offered: Fall, Spring

NSM 12I Peer-Assisted Learning BIO 22. Discussion, 2 hours. Students concurrently enrolled in BIO 22 and under the guidance of a trained student facilitator work collaboratively through problem sets designed by the BIO 22 instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in BIO 22. Credit/No Credit

NSM 12J. Peer-Assisted Learning Math 32.
Corequisite(s): MATH 32

1 Unit

Students concurrently enrolled in MATH 32 and under the guidance of a trained student facilitator work collaboratively through problem sets designed by a MATH 32 instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in MATH 32. Credit/No Credit

NSM 12K. Peer-Assisted Learning BIO 139.
Corequisite(s): BIO 139

1 Unit

Students concurrently enrolled in BIO 139 and under the guidance of a trained student facilitator work collaboratively through problem sets designed by a BIO 139 instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in BIO 139. Credit/No Credit

NSM 12L. Peer-Assisted Learning BIO 184.
Corequisite(s): BIO 184

1 Unit

Students concurrently enrolled in BIO 184 and under the guidance of a trained student facilitator work collaboratively through problem sets designed by a BIO 184 instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in BIO 184. Credit/No Credit

NSM 12M. Peer-Assisted Learning CHEM 5.
Corequisite(s): CHEM 5

1 Unit

Students concurrently enrolled in CHEM 5 and under the guidance of a trained student facilitator work collaboratively through problem sets designed by a CHEM 5 instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in CHEM 5. Credit/No Credit

NSM 12N. Peer-Assisted Learning CHEM 24.
Corequisite(s): CHEM 24

1 Unit

Students concurrently enrolled in CHEM 24 and under the guidance of a trained student facilitator work collaboratively through problem sets designed by a CHEM 24 instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in CHEM 24. Credit/No Credit

NSM 12P. Peer-Assisted Learning STAT 1.
Corequisite(s): STAT 1

1 Unit

Term Typically Offered: Fall, Spring

NSM 12P Peer-Assisted Learning STAT 1. Discussion, 2 hours. Students concurrently enrolled in STAT 1 and under the guidance of a trained student facilitator work collaboratively through problem sets designed by a STAT 1 instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in STAT 1. Credit/No Credit

NSM 12Q. Peer-Assisted Learning STAT 50.
Corequisite(s): STAT 50

1 Unit

Term Typically Offered: Fall, Spring

NSM 12Q Peer-Assisted Learning STAT 50. Discussion, 2 hours. Students concurrently enrolled in STAT 50 and under the guidance of a trained student facilitator work collaboratively through problem sets designed by a STAT 50 instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in STAT 50. Credit/No Credit

NSM 12R. Peer-Assisted Learning MATH 12.
Corequisite(s): MATH 12

1 Unit

Term Typically Offered: Fall, Spring

NSM 12R Peer-Assisted Learning MATH12. Discussion, 2 hours. Students concurrently enrolled in MATH 12 and under the guidance of a trained student facilitator work collaboratively through problem sets designed by a MATH 12 instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in MATH 12. Credit/No Credit

NSM 12S. Peer-Assisted Learning CHEM 124.
Corequisite(s): CHEM 124

1 Unit

Term Typically Offered: Fall, Spring

NSM 12S Peer-Assisted Learning CHEM 124. Discussion, 2 hours. Students concurrently enrolled in CHEM 124 and under the guidance of a trained student facilitator work collaboratively through problem sets designed by a CHEM 124 instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in CHEM 124. Credit/No Credit

NSM 12T. Peer-Assisted Learning PHYS 5A.
Corequisite(s): PHYS 5A

1 Unit

Term Typically Offered: Fall, Spring

NSM 12T Peer-Assisted Learning PHYS 5A. Discussion, 2 hours. Students concurrently enrolled in PHYS 5A and under the guidance of a trained student facilitator work collaboratively through problem sets designed by a PHYS 5A instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in PHYS 5A. Credit/No Credit

Corequisite(s): STAT 50

1 Unit

Term Typically Offered: Fall, Spring

NSM 12U Peer-Assisted Learning Bio 39. Discussion, 2 hours. Students concurrently enrolled in Bio 39 and under the guidance of a trained student facilitator work collaboratively through problem sets designed by a Bio 39 instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in Bio 39. Credit/No Credit

NSM 12V. Peer-Assisted Learning BIO 25.
Corequisite(s): BIO 25

1 Unit

Term Typically Offered: Fall, Spring

NSM 12V Peer-Assisted Learning BIO 25. Discussion, 2 hours. Students concurrently enrolled in BIO 25 and under the guidance of a trained student facilitator work collaboratively through problem sets designed by a BIO 25 instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student success in BIO 25. Credit/No Credit
Field trip(s) may be required.

NSM 86A. STEM Learning Practices for Future Teachers. 3 Units
Prerequisite(s): Three years of high school mathematics and three years of high school science preferred.
Term Typically Offered: Fall only

The first course in a two-course pairing. The course is for freshmen intending to be elementary/junior high school teachers with special skills and knowledge in science curriculum and science pedagogy for the K-9 grade span. Students will learn course content through activities, tasks, and assignments that require them to expand their knowledge of science and mathematics concepts and skills as well as synthesize them in relation to real-world issues and problems.

Field trip(s) may be required.

NSM 86B. Advanced STEM Learning Practices for Future Teachers. 3 Units
Prerequisite(s): NSM 86A
Term Typically Offered: Spring only

The second course in a two-course pairing, intended for future elementary/junior high school teachers especially interested in science. This course extends the learning of mathematics and science content knowledge and disciplinary practices from NSM 86A by integrating engineering content and the engineering design cycle. Students will learn course content through activities, tasks, and assignments that require them to synthesize and apply their knowledge of science, engineering, and mathematics concepts and skills to complex and inter-disciplinary real-world issues and problems.

Note: Field trip. Observations in local public K-8 schools.

Field trip(s) may be required.

NSM 88. Exploring Health Careers. 1 Unit
Term Typically Offered: Fall, Spring

Designed for pre-professional students, this self exploration course will assist students in determining whether a career in the health professions is suitable to their interest, skills, and values. In addition to exploring the traditional health professions medicine, pharmacy, etc., students will have opportunity to explore alternative health professions and career options. This active learning course will include lectures, discussions, individual and group projects, informational interviews, and guest speakers. One hour per week.

Credit/No Credit

NSM 90. Biomedical Research Seminars. 1 Unit
Term Typically Offered: Fall, Spring

Professional scientists, graduate students and senior undergraduate researchers in biomedical sciences will present their research. Students will develop critical skills to become active participants in dialogs with seminar presenters. Students will explore and cultivate their interest towards biomedical research careers and compile a portfolio to archive their course achievements. During their senior year, undergraduate researchers will also deliver presentations of their own work.

Credit/No Credit

NSM 100B. Transfer Seminar II. 1 Unit
Prerequisite(s): second-semester transfer student

Designed for second-semester transfer students in the College of NSM. Series of at least 10 seminars related to campus and career-based opportunities, integration with peers, and promotion of academic mindset.

Credit/No Credit

NSM 175. Summer Undergraduate Research Experience Seminar. 1 Unit
Term Typically Offered: Summer only

This seminar supports students who have received a Summer Undergraduate Research Experience Award through the College of Natural Sciences and Mathematics. Seminar topics will include laboratory safety, research ethics and dissemination of research results. These sessions will prepare students to disseminate their research at the NSM Student Research Symposium.

Credit/No Credit
NSM 190. Senior Thesis Seminar. 3 Units
Term Typically Offered: Spring only

Develops the ability of undergraduate researchers to search, interpret, and add to the biomedical research literature. Students develop a senior thesis or proposal and an oral presentation. Includes analysis of primary research articles, peer review of student writing samples, and presentation of scientific information. These activities improve students’ understanding of how scientific questions are developed, posed, and answered through proposals and dissemination of research results.

NSM 193. Emerging Leaders in STEM. 1 Unit
Prerequisite(s): Sophomore standing (must have completed 30 units prior to registration).
Term Typically Offered: Fall, Spring

This course focuses on in-depth leadership training for professional STEM success. Students will explore aspects of effective leadership, uncover their own leadership capacity and skills, and enhance their leadership prowess by studying and applying recognized best practices. Topics include setting personal and professional goals, becoming a productive team member, how to step into a leadership role, how to motivate team members, and how to develop productive work-flow processes.

Cross listed: ENGR 193.

NSM 195A. STEM Pedagogical Practices. 1 Unit
Prerequisite(s): All lower division coursework for a NSM major must be completed.
Term Typically Offered: Fall, Spring

STEM Pedagogical Practices. Students will be introduced to research-supported pedagogical practices appropriate to Technology, Engineering, and Mathematics (STEM) instruction in secondary schools. Topics include: the Common Core Math Standards, the New Generation Science Standards (NGSS), classroom questioning strategies, active learning strategies, and different forms of assessment.

Note: NSM 195A will provide pedagogical context to support students in their field experience (NSM 195B).

Credit/No Credit

NSM 195B. Field Experience in Secondary STEM Classrooms. 1 Unit
Prerequisite(s): NSM 195A. NSM 195A may be taken concurrently.
Term Typically Offered: Fall, Spring

Field Experience in Secondary STEM Classrooms. Orientation to high quality Science, Technology, Engineering, and Mathematics (STEM) instruction in secondary schools. Coursework is divided into two components: field experience in either middle or high-school STEM classroom; and weekly meetings to reflect on field experiences.

Credit/No Credit

NSM 196. Conceptual Understanding of Science for Teachers. 1 - 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Intensive examination of selected topics in science for teachers. The goal is to develop a deep conceptual understanding of the science under consideration, knowledge of common misconceptions about the concept, and effective ways to guide student learning of the selected topic.

Cross Listed: NSM 296; only one may be counted for credit.

Credit/No Credit

NSM 196A. Science Topics for Middle School. 1 - 3 Units
Prerequisite(s): Multiple Subject Credential and instructor permission
Term Typically Offered: Fall, Spring

Intensive examination of selected topics in science for teachers pursuing subject matter knowledge needed for a general science credential. The goal is to deepen and broaden students’ conceptual and factual knowledge base for selected topics. Course will involve hands-on tasks designed to enhance conceptual understanding as well as lectures, small group work and independent tasks necessary for learning the subject matter.

NSM 197. Seminar in Peer-Assisted Learning. 2 Units
Prerequisite(s): Instructor permission
Corequisite(s): Acceptance as PAL facilitator
Term Typically Offered: Fall, Spring

Specific classroom training for advanced students who are concurrently serving as PAL facilitators within NSM. Action research on learning theory as applied to classroom settings with culminating research presentation.

NSM 197B. Advanced Seminar in Peer-Assisted Learning. 2 Units
Prerequisite(s): NSM 197
Term Typically Offered: Fall, Spring

Specific classroom training for advanced students who are concurrently serving as PAL facilitators within NSM. Action research on learning theory as applied to classroom settings with culminating research presentation.

Instructor permission required for enrollment. Lecture & Discussion, 2 hours.

NSM 197C. Seminar for Lead & Supervisory Facilitators. 2 Units
Prerequisite(s): NSM 197A or NSM 197B
Specific classroom training for advanced students who are concurrently serving Lead or Supervisory PAL facilitators within NSM. Leadership and assessment of program effectiveness with a culminating research presentation. Instructor permission required for enrollment.

NSM 198. Co-curricular Activities in Natural Sciences and Mathematics. 1 - 3 Units
Prerequisite(s): Admission to this course requires approval of instructor.
Term Typically Offered: Fall, Spring

Earned credit by participating as tutor or teacher assistant in public schools, volunteering as an instructor or tutor in K-12 courses or programs offered by other community organizations, or engagement in community education programs, which are based in one or more disciplines in NSM. Participation requires three to twelve hours weekly.

Note: May be taken more than once but no more than three units may be applied toward the baccalaureate degree.

Credit/No Credit

NSM 296. Conceptual Understanding of Science for Teachers. 1 - 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Intensive examination of selected topics in science for teachers. The goal is to develop a deep conceptual understanding of the science under consideration, knowledge of common misconceptions about the concept, and effective ways to guide student learning of the selected topic.

Note: May be repeated for credit. Cross listed: NSM 196.

Credit/No Credit
Nursing (NURS)

NURS 9. Reasoning and Critical Thinking on Health Topics. 3 Units
General Education Area/Graduation Requirement: Critical Thinking (A3)
Term Typically Offered: Fall, Spring, Summer

Provides students with an introduction to critical thinking and reasoning in evaluating societal issues related to health. Students will examine sources of health information, including mass and social media to critically examine fact versus fiction. Emphasizes logical steps in problem-solving, decision-making, reasoning, and the construction of arguments about health problems and promotion. The study of critical thinking will be supplemented with readings, discussions, collaboration, presentations, dialogues, and written assignments around the topic of health.

NURS 10. Health Care: Issues and Delivery Systems. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Explores the relationships between social, political and economic systems, and the health care and delivery systems currently operational in the U.S. today. Provides a format to debate current biomedical issues and explores cross-cultural health practices. Lecture three hours.

NURS 14. Pharmacology. 2 Units
Prerequisite(s): Entry level physiology course, such as BIO 25 or BIO 26
Term Typically Offered: Fall, Spring

Basic principles of pharmacology with a focus on pharmacokinetics, pharmacodynamics and related therapeutic implications for major drug categories. May be taken by pre-nursing or non-nursing students. Lecture two hours.

NURS 21. First Year Seminar: Becoming an Educated Person. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

A first-year seminar intended to provide students with an introduction to the meaning of higher education, resources of the University, and skills for lifelong learning. This course is designed to help students develop academic success strategies, and to improve information literacy, intercultural competence, and integrative thinking. The seminar also provides students with the opportunity to interact with fellow students, and seminar faculty to build a community of academic and personal support.

NURS 53. Paramedic Skills Part 1. 2 Units
Prerequisite(s): Admission to the Paramedic program
Corequisite(s): NURS 51
Term Typically Offered: Fall, Spring

Part 1 of foundational ALS skills content for pre-hospital care in the Emergency Medical System (EMS). Participants apply theoretical knowledge of Advanced Life Support in skills lab and simulated patient care experiences. Students will practice assessment and intervention of psychomotor skills for Advanced Life Support (ALS), Advanced Cardiac Life Support (ACLS), Pediatric Advanced Cardiac Life Support (PALS) and International Trauma Life Support (ITLS).

NURS 54. Paramedic Skills Part 2. 3 Units
Prerequisite(s): Admission to the Paramedic program, NURS 51 & NURS 53
Corequisite(s): NURS 52
Term Typically Offered: Fall, Spring

Part 2 of foundational ALS skills content for pre-hospital care in the Emergency Medical System (EMS). Participants apply theoretical knowledge of Advanced Life Support in skills lab and simulated patient care experiences. This is the skills section of NURS 52. Students will practice assessment and intervention of psychomotor skills for Advanced Life Support (ALS), Advanced Cardiac Life Support (ACLS), Pediatric Advanced Cardiac Life Support (PALS) and International Trauma Life Support (ITLS).

NURS 111. Introduction to Professional Nursing. 3 Units
Prerequisite(s): Admission to Nursing Program or instructor permission
Term Typically Offered: Fall, Spring

Provides a conceptual base for the practice of professional nursing. The changing and expanding roles of the professional nurse in the health care delivery system are explored, with an emphasis on professional behavior, ethics, evidence-based practice and informatics. Lecture three hours.

Note: may be repeated for credit

NURS 112. Nursing Care Of Adults. 5 Units
Prerequisite(s): Admission to the Nursing Program
Corequisite(s): NURS 111, NURS 113
Term Typically Offered: Fall, Spring

Introduction and application of nursing concepts in meeting health needs of adults. Emphasis is placed on health promotion and disease management across the adult life span. Lecture three hours; laboratory six-eight hours.

Note: This course require safety training and personal protective equipment (PPE).

NURS 113. Professional Nursing Communication, Assessment and Skills. 4 Units
Prerequisite(s): Admission to nursing program
Corequisite(s): NURS 111 and NURS 112
Term Typically Offered: Fall, Spring

Apply nursing practice concepts in assessment, skills, and professional communication in the context of laboratory scenarios and field experiences across the lifespan. Laboratory twelve hours.

NURS 119. Mental Health Nursing for the LVN 30-Unit Option. 4 Units
Prerequisite(s): Microbiology with a lab, Physiology with a lab, and California licensure as a Vocational Nurse.
Corequisite(s): NURS 123.
Term Typically Offered: Fall, Spring

Theoretical basis for the nursing care of individuals who require nursing intervention to achieve and maintain mental health through adaptive processes. The course includes a supervised practicum which incorporates therapeutic modalities. A variety of psychodynamic theories related to anxiety, interpersonal relationships, crisis intervention, and group process are discussed.
NURS 120. Nursing Application of Research and Critical Analysis.  
Prerequisite(s): NURS 111, NURS 112, NURS 113 or instructor permission.  
Term Typically Offered: Fall, Spring  
Evaluation and application of research to nursing practice. Emphasis is placed on application of evidence to improve quality and safety in healthcare and advance nursing practice. Develop an understanding of the humanities and diverse cultures through the lens of nursing practice. Application of a critical framework of sociocultural, historical, and economic perspectives to analyze scholarly inquiry of health and healthcare.

NURS 123. Nursing Families in Complex Illness.  
Prerequisite(s): NURS 111, NURS 112 and NURS 113; or instructor permission.  
Term Typically Offered: Fall, Spring  
Provides students with the opportunity to learn and apply nursing concepts through the care of individuals and families experiencing complex illness across the adult lifespan. The focus is on skill development and the synthesis of data from multiple sources to formulate nursing interventions. Lecture three hours; laboratory six-eight hours.  
Note: This course require safety training and personal protective equipment (PPE).

NURS 129. Mental Health Nursing.  
Prerequisite(s): NURS 111, NURS 112 and NURS 113; or instructor permission.  
Term Typically Offered: Fall, Spring  
Provides an overview of multidimensional factors, perspectives, and approaches associated with mental health across the lifespan. Mental health concepts and interventions are applied across multiple settings. Lecture three hours; laboratory six-eight hours.  
Note: This course require safety training.

NURS 130. Leadership and Management for the LVN to RN.  
Prerequisite(s): Microbiology with a lab; Physiology with a lab; NURS 119 and NURS 123  
Corequisite(s): NURS 137 and NURS 138  
Term Typically Offered: Fall, Spring  
This course is designed to present leadership and management skills for the Licensed Vocational Nurse transitioning to the Registered Nurse role. The principle and processes of administration, management, and supervision will be discussed within an organizational framework. Lecture two hours.

NURS 136. Nursing Laboratory for the Childbearing Family.  
Prerequisite(s): NURS 120, NURS 123 and NURS 129, or instructor permission.  
Corequisite(s): NURS 137  
Term Typically Offered: Fall, Spring  
Application of skills and assessment in the care of the childbearing family and women experiencing reproductive health changes across the lifespan. Lecture three hours; laboratory six-eight hours.  
Note: This course require safety training and personal protective equipment (PPE).

NURS 137. Nursing the Childbearing Family.  
Prerequisite(s): NURS 120, NURS 123, NURS 129 or instructor permission.  
Corequisite(s): NURS 136  
Term Typically Offered: Fall, Spring  
Application of nursing concepts in the care of the childbearing family and women experiencing reproductive health changes across the lifespan. Lecture three hours; laboratory six-eight hours.  
Note: This course require safety training and personal protective equipment (PPE).

NURS 138. Nursing the Childrearing Family.  
Prerequisite(s): NURS 120, NURS 123, NURS 129, or instructor permission.  
Corequisite(s): NURS 139  
Term Typically Offered: Fall, Spring  
Introduction and application of nursing concepts in meeting health needs of the child from birth through adolescence. Emphasis is placed on health promotion and disease management within the context of the family and applied across multiple settings. Lecture three hours; laboratory six-eight hours.  
Note: This course require safety training.

NURS 139. Nursing Laboratory for the Childrearing Family.  
Prerequisite(s): NURS 120, NURS 123, NURS 129, or instructor permission.  
Corequisite(s): NURS 138  
Term Typically Offered: Fall, Spring  
Acquisition of knowledge and practice using tools and techniques for assessing the child and the family in a variety of settings. Laboratory three hours.  
Note: May be repeated for credit  
Credit/No Credit

NURS 143. Leadership and Management in Nursing Practice.  
Prerequisite(s): NURS 136, NURS 137, NURS 138, and NURS 139, or instructor permission.  
Term Typically Offered: Fall, Spring  
Integration of leadership and management principles to promote health across the lifespan and care settings. Application of leadership and management principles in the examination of organizational structures, processes, and approaches to quality and safety concepts in health care systems and practice environments. Emphasis will be placed on career development and transition to professional practice.  
Note: May be repeated for credit. Lecture three hours.
NURS 144. Community Health Nursing. 5 Units
Prerequisite(s): NURS 136, NURS 137, NURS 138, and NURS 139, or instructor permission.
Term Typically Offered: Fall, Spring

Contemporary role of the community health nurse is presented within a public health framework, emphasizing the concept of community as client. Presents nursing interventions related to groups and aggregates identified as high risk for the development of health problems. Clinical experience is provided across community settings. Lecture and clinical hours.

NURS 145. Clinical Leadership and Professional Role Development. 6 Units
Prerequisite(s): NURS 136, NURS 137, NURS 138, NURS 139 or instructor permission.
Corequisite(s): NURS 144.
Term Typically Offered: Fall, Spring

The purpose of this culminating senior practicum is to facilitate the transition of the nursing student into the role of a professional BSN graduate nurse. The course will integrate the theoretical and clinical nursing concepts acquired throughout the curriculum into a precepted senior practicum. Students will apply principles of clinical nursing, nursing management and nursing leadership in a selected clinical setting. Credit/No Credit

NURS 146. Women's Health. 3 Units
Term Typically Offered: Fall, Spring

Designed for people seeking knowledge about women's health, women's health risks, and the delivery of traditional and non-traditional medical interventions for the maintenance of health and management of illness. Covers the physiological and psychological components of women's health. The leading acute and chronic illnesses which affect women are introduced. Discussions include: means of sustaining a wellness lifestyle; identification, management and consultation for acute and chronic illness; normal physiological life changes and adaptations to aging; mind/body connection in the control of health and illness; pharmacology and drug therapy for women; health management for infants and children; access and control of care for women in traditional and non-traditional health settings; and research in women's health. Lecture-discussion three hours.

NURS 147. Transitions: The Baccalaureate Nurse. 6 Units
Prerequisite(s): Acceptance into the RN to BSN Program or instructor permission.
Term Typically Offered: Fall, Spring

This course provides an overview of nursing research and application to practice. Students will identify components of evidence-based practice and develop skills in critiquing research and in professional writing.

NURS 148. Transitional Concepts: The Baccalaureate Nurse. 6 Units
Prerequisite(s): NURS 170, may be taken concurrently.
Term Typically Offered: Fall, Spring

This course expands students' knowledge of theories, concepts, and social issues which have implications for nursing practice. Assignments and experiences are designed to transition the RN to the baccalaureate level of proficiency.

NURS 149. Research for Evidence-Based Nursing Practice. 3 Units
Term Typically Offered: Fall, Spring

This course expands students' knowledge of theories, concepts, and social issues which have implications for health across the lifespan. Assignments and experiences are designed to transition the RN to the baccalaureate level of proficiency.
NURS 173. Theoretical Foundations for Leadership and Management. 6 Units
Prerequisite(s): NURS 170, may be taken concurrently.
Term Typically Offered: Fall, Spring

This course provides the theoretical foundations for leadership and management across multiple settings. Theories related to the principles and processes of leadership and management will be applied to select practice experiences.

NURS 173A. Theoretical Foundations for Leadership. 3 Units
Prerequisite(s): NURS 170, may be taken concurrently
This course provides the theoretical foundations for leadership across multiple settings. Theories related to the principles and processes of leadership will be applied to select practice experiences.

NURS 173B. Theoretical Foundations for Management. 3 Units
Prerequisite(s): NURS 170, may be taken concurrently
This course provides the theoretical foundations for management across multiple settings. Theories related to the principles and processes of management will be applied to select practice experiences.

NURS 174. Community Health Nursing: Concepts and Practice. 4 Units
Prerequisite(s): NURS 170, may be taken concurrently.
Term Typically Offered: Fall, Spring

This course presents the role of the community health nurse within a public health framework and examines public health systems, policies, and sociocultural factors that shape the health of individuals, groups, and communities. Students will be introduced to principles of population health, epidemiology, disease prevention, and health promotion, to plan community health nursing interventions.

NURS 174C. Community Health Nursing: Clinical Elective. 2 Units
Prerequisite(s): NURS 170, NURS 174, both may be taken concurrently.
Term Typically Offered: Fall, Spring, Summer

In this course students will integrate and apply knowledge of population-based nursing and evaluate the role of the community health nurse in various systems. Students will provide care to individuals, families, or communities within a public health framework. This course meets the California BRN clinical requirements for the Public Health Nurse Certificate.

Note: NURS 174C is an elective course that is only required for students wishing to apply for the California Board of Registered Nursing Public Health Nurse Certificate; students not planning to apply for a Public Health Nurse Certificate must petition for an exemption from this clinical course; students who are granted exemption for NURS 174C will only complete 44 units.

NURS 178. Culminating Project. 3 Units
Prerequisite(s): Completion of 19 units in the program or instructor permission.
Term Typically Offered: Fall, Spring

Students will apply leadership and management principles within a community to determine a defined need or issue, identify goals to meet or solve the issue, and complete the culminating project based on previous course work.

NURS 179. Professional Communication and Reasoning Development. 3 Units
Prerequisite(s): NURS 170, may be taken concurrently; and either department permission or GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Humanities (Area C2)
Term Typically Offered: Fall, Spring

This hybrid course is designed to expand communication and leadership skills among RN to BSN students in their professional practice. Students will develop an understanding of the humanities and diverse cultures through the lens of nursing practice. Specifically, students will reflect on how culture and experience determines the human condition which is reflected in their animating ideas and values towards health and healthcare.

NURS 180. Transition to Graduate Nursing Education through Writing. 2 Units
Prerequisite(s): Acceptance into the Advanced Nursing Bridge pathway or department permission.
Term Typically Offered: Spring, Summer

This course provides an introduction to the role of the nurse leader by exploring theoretical and ethical concepts, professional communication, and evidence-based practice. Students will undertake critical analysis of nursing practice and healthcare systems with a focus on professional role development.

NURS 181. Research as the Foundation for Evidence-Based Nursing Practice. 3 Units
General Education Area/Graduation Requirement: Upper Division Further Studies in Area B5
Term Typically Offered: Fall, Spring, Summer

This course provides students with a clear understanding of the interrelationship between research, theory, and evidence-based nursing practice. Interpretation of quantitative and qualitative research findings to determine statistical and clinical significance. Application of research and epidemiological concepts to improve patient and population health outcomes.

NURS 190A. Work Study in Nursing. 1 - 12 Units
Prerequisite(s): NURS 120, NURS 123 and NURS129; School of Nursing faculty recommendation; Instructor permission; Minimum 2.5 GPA
Corequisite(s): Enrollment in undergraduate nursing program
Term Typically Offered: Fall, Spring

Nursing students participate in clinical nursing experiences that reflect the realities of the healthcare environment and have opportunity to master learned skills.

Note: May be repeated for credit
Credit/No Credit

NURS 195. Field Study. 1 - 6 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Guided study and experience in a specified nursing area.
Credit/No Credit
NURS 199. Special Problems. 2 Units
Term Typically Offered: Fall, Spring
Individual projects and directed reading for students who are competent to assume independent work. Admission to this course requires approval of faculty member under whom the independent work is to be conducted. Credit/No Credit

NURS 209. Advanced Role Development in Nursing. 3 Units
Prerequisite(s): Admission to Graduate Program.
Term Typically Offered: Fall, Spring
Students will explore emerging issues in healthcare and consider how these issues shape their practice. Through examination of current issues and challenges confronting the nursing profession, analysis of the literature, examination of personal values, rights, and obligations, and the application of ethical decision-making processes, students’ ability to engage in ethical discussions will be enhanced, as will their ability to provide professional leadership.
Note: Satisfies the GWAR requirement.

NURS 210. Research as the Foundation for Advanced Nursing. 3 Units
Prerequisite(s): Admission to the graduate program for nursing
Term Typically Offered: Fall, Spring
Participants will explore nursing research as the foundation for clinical and organizational decision making. Content will include understanding key elements of evidence-based practice, developing skills to access data bases in nursing and healthcare, evaluation of evidence in nursing including published nursing research, problem identification within the practice setting, and incorporation of evidence in initiating change and improving clinical practice.

NURS 213. Seminar in Organizational and Systems Leadership. 3 Units
Prerequisite(s): NURS 209 and NURS 210, and 21 units of graduate coursework.
Term Typically Offered: Fall, Spring
This course requires that students operationalize knowledge, skills, and dispositions acquired in previous courses. Students will identify contemporary healthcare issues and apply graduate core competencies to guide nursing praxis in the planning, implementation and evaluation of quality healthcare for individuals, families, groups and communities.

NURS 213C. Seminar in Specialized Nursing Processes: School Nursing I. 4 Units
Prerequisite(s): Admission to School Nurse Credential Program.
Term Typically Offered: Fall, Spring
Provision and application of concepts needed for nursing practice in the schools. Focuses on the three major competencies of school nursing practice: providing health and wellness services, direct client care services for school age children (pre-k through age 22), and professional management of school nursing services. Emphasis is on the foundations of school nursing practice, legal and ethical issues, special education services, and management of episodic illness and chronic health conditions.

NURS 213D. Seminar in Specialized Nursing Processes: School Nursing II. 4 Units
Prerequisite(s): NURS 213C.
Term Typically Offered: Fall, Spring
Provision and application of concepts needed for nursing practice in the schools. Focuses on the three major competencies of school nursing practice: providing health and wellness services, direct client care services for school age children (pre-k through age 22), and health service program coordination and management. Emphasis is on ethical issues and federal laws addressing education for students with disabilities, health promotion programs, issues of adolescent health, and behavior assessment and management including considerations for students receiving special education services.

NURS 214. Educational Program Development in Nursing. 3 Units
Prerequisite(s): NURS 209 and NURS 210 or instructor’s permission
Term Typically Offered: Fall, Spring
Introduction to curriculum development and instructional design concepts in preparation for the role of educator in an educational institution or health care setting. Emphasis will be on instructional design, instructional strategies, and measurement of learner outcomes. Lecture three hours.
Note: FOCUS alternates between K-12 and higher education.

NURS 214C. Educational Program Development in Nursing II. 3 Units
Prerequisite(s): NURS 214B.
Corequisite(s): NURS 294C.
Term Typically Offered: Fall, Spring
Introduction to curriculum development and instructional design concepts in preparation for the role of educator in an educational institution or health care setting. Continues emphasis on instructional design, related to curriculum development and implementation, and to program evaluation. Lecture three hours.
Note: FOCUS alternates between K-12 and higher education.

NURS 215. Community Health Services and Policy. 3 Units
Prerequisite(s): NURS 209 and NURS 210, or instructor’s permission
Term Typically Offered: Fall, Spring
Examines issues of health policy, financing, and the organization and delivery of health services at the local, national, and global levels. Health promotion will be defined and the influence of community on the individual, group, and family’s health will be explored. Epidemiological data bases will be identified. These data bases will be critiqued and used to develop a health promotion program.

NURS 216. Vision and Scoliosis Screening. 1 Unit
Term Typically Offered: Fall, Spring
Theory and practice of detecting idiopathic scoliosis, and visual disorders resulting from inadequate refraction, ocular mal-alignment, and color deficiency in the school setting. The pathophysiology of said conditions will be presented, the nursing role delineated, and opportunities for paired screening practice provided.

NURS 230. Advanced Concepts in Pathophysiology. 3 Units
Term Typically Offered: Fall, Spring
Seminar designed to promote the understanding and application of fundamental disease processes and physiological principles in cross-clinical settings for the purpose of improving nursing assessments and patient care management. Lecture three hours.
NURS 231. Pharmacology for Advanced Practice. 3 Units
Term Typically Offered: Fall, Spring
Conceptual and systematic study of pharmacodynamics, pharmacokinetics, pharmacoeconomics and therapeutic implications for healthcare practitioners. Efficient use of traditional and web based pharmaceutical resources is encouraged. Designed to meet Board of Registered Nursing requirements for prescriptive privileges. Requires familiarity with disease process. Lecture three hours.

NURS 232. Advanced Physical Assessment Across the Lifespan. 3 Units
Prerequisite(s): NURS 209 and NURS 210.
Term Typically Offered: Fall, Spring
Advanced concepts and skills in health and physical assessment are essential to the clinical decision making and caring process for the nurse in advanced practice and leadership roles. The emphasis is on eliciting an accurate and thorough history considering the client's multiple dimensions, development of advanced physical examination skills and the development of documentation skills to provide a database for continuous improvement of nursing practice.
Note: Availability of a stethoscope is required. Individual practice outside of class is required.

NURS 232A. Advanced Physical Assessment: Infant, Child, Adolescent. 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring
Seminar designed to present techniques related to the physical assessment, in the school or home setting, of the child, age birth through 18 years. Emphasis is on the common morbidities and mortalities of these age groups including interrelationship of the physical, emotional and socioeconomic causes of health problems and illnesses. Availability of an otoscope and stethoscope required. Individual practice required outside of class. Lecture three hours.

NURS 293. Practicum in Organizational and Systems Leadership. 3 Units
Prerequisite(s): NURS 209, NURS 210, NURS 214, NURS 230, NURS 231, NURS 232, and instructor permission.
Corequisite(s): NURS 213.
Term Typically Offered: Fall, Spring
This course provides supervised field experience to provide the student with an opportunity to apply theoretical concepts from NURS 213 in a clinical practice setting focusing on the care of adult clients. The emphasis of this experience will be to application of graduate core competencies to guide leadership in nursing praxis in the planning, implementation and evaluation of quality healthcare for individuals, families, and groups.
Credit/No Credit

NURS 293D. Practicum in Specialized Nursing Processes: School Nursing. 4 Units
Prerequisite(s): NURS 213C.
Corequisite(s): NURS 213D.
Term Typically Offered: Fall, Spring
Application of a planned sequence of supervised clinical experiences in one or more California public school districts offering nursing services to infants, children and adolescents for the purpose of developing a clinical leadership role in school nursing. Focuses on the three major competencies of school nursing practice: providing health and wellness services, providing direct client care services for school age-children (pre-k through age 22, including students with special health care needs), and professional management of school nursing services.
Credit/No Credit

NURS 294. Practicum in Educational Program Development in Nursing. 3 Units
Prerequisite(s): NURS 214, may be taken concurrently.
Term Typically Offered: Fall, Spring
Opportunity for analysis and synthesis of concepts of management and leadership in an educational setting while practicing the role of a nursing educator.
Credit/No Credit

NURS 295. Field Study. 1 - 6 Units
Term Typically Offered: Fall, Spring
Experiences in an off-campus facility are provided for the continued development of clinical or functional role skills. Each student spends 45 hours per unit. Field study is not designed to be used in lieu of regularly scheduled practicums. Enrollment in NURS 295 requires permission of a faculty member who will serve as sponsor and coordinator of the experience.
Credit/No Credit

NURS 299. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual research, study, and directed reading in an area not directly covered in the Division's core courses, role preparations or electives. Students pursue a particular course of study on a one-to-one basis with a faculty member. Educational objectives must be specified in advance.
Credit/No Credit

NURS 500. Culminating Experience. 3 Units
Prerequisite(s): Advanced to candidacy for the Master's degree and must be in the final semester of the program.
Term Typically Offered: Fall, Spring
The Culminating Experience is in the form of a comprehensive examination. The comprehensive examination is an original scholarly paper that reflects an in-depth problem-solving proposal or a business proposal. Students that wish to do a thesis or project as the culminating experience must petition the Division of Nursing Graduate Committee and will be approved on an individual basis.
Nutrition and Food (NUFD)

NUFD 5. Science of Food. 3 Units
General Education Area/Graduation Requirement: Physical Science (B1)
Term Typically Offered: Fall, Spring, Summer

Introduction to food science fundamentals including food composition, chemical and physical reactions, and nutritional properties of food. Overview of evidence-based practices for food selection, storage, and preparation. Examination of specific issues such as food safety, food technology, food supply, and food law. Lecture 3 hours.

NUFD 9. Food Safety and Sanitation. 3 Units
Term Typically Offered: Fall, Spring, Summer

Introduction to food safety principles and application, microbiology of food safety, infection control, and safety issues. Examination of laws and regulations related to consumer and food service operations. Preparation for national food service sanitation certification exam.

NUFD 10. Nutrition And Wellness. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring, Summer

Introduction to the basic principles of nutrition and the relationship of the human diet to health. Overview of the nutrition profession, the biological uses of nutrients and tools for dietary planning. Examination of specific issues such as weight loss, sports nutrition, food safety, the diet-disease relationship and global nutrition. Analysis of special nutritional requirements and needs during the life cycle. Evaluation of personal dietary habits using current dietary guidelines and nutritional assessment methods.

NUFD 11. Principles of Food Preparation. 3 Units
Prerequisite(s): NUFD majors and FACS majors only.
Term Typically Offered: Fall, Spring

Chemical, physical, sensory, and nutritional properties of food related to processes used in food preparation. Activity includes preparation and evaluation of individual food products.

NUFD 100. Research: Methods and Application in Nutrition and Food. 3 Units
Prerequisite(s): 6 NUFD units completed. NUFD majors or minors only.
Term Typically Offered: Fall, Spring, Summer

Study of methods and application of research in the field of Nutrition & Food. Focus on scientific inquiry, methodology, evidenced-based practice, interpretation of research results, program and project evaluation, and professional communication. Includes the examination of ethical practices, professional presentation skills, and technical writing skills.

NUFD 107. Nutrition Education, Communication, and Counseling. 3 Units
Prerequisite(s): NUFD 10 and an additional 3 NUFD units
Term Typically Offered: Fall, Spring

Nutrition Education, communication and counseling techniques for use by the nutrition/dietetcs professional. Introduction and application of various health behavior theories to promote change in diverse target audiences. Development of nutrition care plans, educational materials and activities for individual groups. Understand and apply methods of dietary assessment and motivational interviewing.

NUFD 110. Food Production and Sustainability. 4 Units
Prerequisite(s): NUFD 9, NUFD 10 and NUFD 11
Term Typically Offered: Fall, Spring, Summer

Study and laboratory experience in planning, procuring, production, serving and evaluation of food for individuals, families, commercial, and institutional foodservice operations. Application of menu development techniques such as recipe modification and standardization to various target populations. Examination and application of marketing analysis and promotion. Understanding of current issues and sustainability topics related to food production.

NUFD 111. Grocery Procurement & Merchandising. 3 Units
Prerequisite(s): NUFD 5 or NUFD 10; and NUFD 9
Term Typically Offered: Fall, Spring

This course examines the processes for purchasing and receiving food and non-food products in a retail market setting. The course focuses on procurement and merchandising strategies in the grocery industry which tap into consumer trends and preferences.

NUFD 112. Current Topics in Nutritional Sciences. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Further Studies in Area B (B5), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring, Summer

Examination of contemporary and controversial topics in nutrition science and how they relate to nutritional needs of different population groups. Analyzes the research process and evaluation of validity of nutrition research. Lecture, discussion.

NUFD 113. Nutrition And Metabolism. 3 Units
Prerequisite(s): NUFD 10; BIO 2 or BIO 10 or BIO 20; and Chem 1A or Chem 5 or Chem 6A
General Education Area/Graduation Requirement: Upper Division Further Studies in Area B5
Term Typically Offered: Fall, Spring, Summer

Study of the structures, types and metabolism of carbohydrates, lipids and proteins. Discussion of the biological roles of vitamins and minerals. Application and integration of metabolic knowledge with health promotion and chronic disease. Lecture, discussion.

NUFD 114. Cultural and Social Aspects of Food. 3 Units
Prerequisite(s): FACS/NUFD 10
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Examination of the cross-cultural and social meaning of food and dietary behaviors. Regional, ethnic, religious, economic, and environmental influences on food habits and health status. Study of how cultural and societal values affect intake, health belief practices, and communication styles. Overview of health disparities in the context of socioeconomic status, race, ethnicity, and education. Understanding implicit bias, cultural differences, diversity, equity, and inclusion while working in a multicultural and diverse environment.
NUFD 115. Nutrition: Pre-conception Through Childhood. 3 Units
**Prerequisite(s):** NUFD 113
**Term Typically Offered:** Fall, Spring

Examination of nutritional requirements, metabolism and issues during stages of the early life cycle, including: pre-conception, pregnancy, lactation, infancy, and early and late childhood. Study of assessment and methods for achieving nutritional needs through dietary selection and promotion of maternal, infant, and child health. Analysis of social, environmental, physical and economic factors affecting nutritional status.

NUFD 116. Food Service Management. 3 Units
**Prerequisite(s):** NUFD 110.
**Term Typically Offered:** Fall, Spring

Study of financial, facility, human resource management in commercial and noncommercial foodservice operations. Application of accounting principles, evaluation and selection of equipment, layout and design, and principles and practices of human resource management as an entry-level manager.

NUFD 117. Community Nutrition. 3 Units
**Prerequisite(s):** NUFD 107, and either NUFD 115 or NUFD 119.
**Term Typically Offered:** Fall

Study of theory, concepts and philosophy affecting nutrition education and services in the community. Introduction to techniques of interviewing and counseling clients. Emphasis on culturally sensitive approaches to dietary assessment, counseling and community nutrition research. Use of a variety of teaching methods to improve nutrition status of the community. Field study involves practical experience in a community nutrition program. Lecture, discussion two hours; field study three hours.

NUFD 118A. Medical Nutrition Therapy I. 3 Units
**Prerequisite(s):** NUFD 113, NUFD 121, and BIO 131.
**Term Typically Offered:** Fall only

Study of the principles of medical nutrition therapy and the Nutrition Care Process. Use the Nutrition Care Process to make decisions, identify nutrition-related problems and determine and evaluate nutrition interventions with patients/clients with various conditions, including, cardiovascular and gastrointestinal disorders.

NUFD 118B. Medical Nutrition Therapy II. 3 Units
**Prerequisite(s):** NUFD 118A, and CHEM 161 or instructor permission.
**Term Typically Offered:** Spring only

Continuation of principles, methods, and skills as developed in NUFD 118A. Review of the etiology, development and dietary prevention and intervention of diseases influenced by nutrition such as: diabetes mellitus, hepatic and biliary diseases, cancer, renal disease, pulmonary disease, neurological disorders, HIV and AIDS, and inborn errors of metabolism. Lecture, discussion two hours; activity two hours.

NUFD 119. Nutrition: Adolescence Through Older Adulthood. 3 Units
**Prerequisite(s):** NUFD 113
**Term Typically Offered:** Fall, Spring

Examination of nutritional requirements, metabolism and issues during stages of the life cycle, including: adolescence, adulthood, and old age. Study of assessment and methods for achieving nutritional needs through dietary selection and promotion of adolescent, adult, and elderly adult health. Analysis of social, environmental, physical and economic factors affecting nutritional status.

NUFD 120. Practical Application in Sports Nutrition. 3 Units
**Prerequisite(s):** NUFD 113
**Term Typically Offered:** Fall, Spring

A survey course in nutrition with an emphasis on the relationship among diet, physical activity, and health; exploration of the changes in the metabolism of carbohydrates, lipids, protein and water; discussion of the function of vitamins and minerals; practical application of evidence-based dietary recommendations for common sports and varying physical intensity.

NUFD 121. Nutrition Assessment, Methods and Support. 3 Units
**Prerequisite(s):** NUFD 113
**Term Typically Offered:** Fall, Spring, Summer

Study of health care systems, the nutrition care process including assessment and support, and clinical implications of malnutrition. Topics include nutrition-focused physical examination, anthropometric, biochemical, dietary, body composition, and functional status evaluation and an understanding of advantages and disadvantages of assessment approaches. Application of various assessment methods and problem solving will be achieved through hands on training and clinical case studies in the context of malnutrition, nutrition support, cancer, eating disorders, and obesity.

NUFD 122. Social Media for Nutrition Communication. 3 Units
**Prerequisite(s):** NUFD 10 and NUFD 100 or NUFD 113
**Term Typically Offered:** Fall, Spring

Examine the uses of social media in the nutrition field and develop a framework to apply to future social media use in professional ventures. Focus on the critical analysis of the appropriateness, potential target populations, health behavior change strategies, the risks and benefits, and overall intended outcomes of social media communication. Create the design and evaluation framework of a social media campaign/initiative.

NUFD 168. Senior Seminar. 3 Units
**Prerequisite(s):** 21 NUFD and/or FACS units
**Term Typically Offered:** Fall, Spring, Summer

Designed to synthesize knowledge in the Nutrition and Food discipline. Examination of the major and career exploration. Analysis of public policy and ethical issues, professionalism and leadership strategies. Includes a capstone project and development of an academic and/or professional portfolio.

NUFD 190D. Dietetic Pathways. 1 Unit
**Prerequisite(s):** Senior standing in the Dietetics Concentration or instructor permission.
**Term Typically Offered:** Fall only

Examination of dietetics career paths, processes and options. Students will learn about the profession of dietetics, including professionalism, the professional organization, pathways, mentoring and the code of ethics.
NUFD 200. Research Methods. 3 Units
Prerequisite(s): Admittance to the NUFD graduate program or instructor permission.
Term Typically Offered: Spring only

A critical examination of quantitative and qualitative research methods used in the nutrition and food discipline. Develop skills in research design, selection, measurement, analysis, and interpretation and presentation of results. Study human research ethics and IRB submission protocol. Explore techniques to ensure assessment tools are valid, reliable, and culturally appropriate.

NUFD 213. Advanced Nutrition with Community Program Applications. 3 Units
Prerequisite(s): Admittance into the MS program or instructor permission.
Term Typically Offered: Fall only

In-depth review of current knowledge and research of nutrients in food application to nutrition policy and public health practice within the US and globally. Examination of physiological function, metabolism, transport, deficiency, toxicity, and interrelationships of macro and micronutrients in relation to the nutrient-disease relationship. Evaluating scientific findings relating to nutrient function, with an emphasis on nutrients of public health concern and food components that pose public health challenges.

NUFD 221A. Advanced Clinical Nutrition A. 3 Units
Prerequisite(s): Admission into Dietetic Internship Program or instructor permission.
Term Typically Offered: Fall only

Perform nutrition assessment of patients with complex medical conditions. Integration of pathophysiology into medical nutrition therapy. Development, supervision and evaluation of nutrition care plans. Select, calculate, monitor and evaluate nutritional support regiments for patients. Lecture, composition.

NUFD 221B. Advanced Clinical Nutrition B. 1 Unit
Prerequisite(s): Admission into Dietetic Internship Program or instructor permission.
Term Typically Offered: Spring only

Continuation of principles and skills as developed in FACS 221A with application to other complex disease conditions and integration to multiple diseases. Application of genetics and pathophysiology to complex disease conditions. Demonstration of skills in assignments and presentations. Lecture, composition.

NUFD 222. Advanced Community Nutrition and Nutrition Education. 3 Units
Prerequisite(s): Admission into NUFD graduate program, Dietetic Internship program, or instructor permission.
Term Typically Offered: Fall only

The course will examine the implementation of nutrition care for population groups across the lifespan. Explore assessment and evaluation methodologies of community based food and nutrition programs. Nutrition policy development and evaluation based on community needs and resources to address health disparities. Learn advanced nutrition education intervention techniques applying behavioral models and theories.

NUFD 223. Advanced Foodservice Management and Administration. 2 Units
Prerequisite(s): Admission into Dietetic Internship Program or instructor permission.
Term Typically Offered: Fall only

Management of procurement, distribution, and service of food, and integration of financial, human, physical and material resources. Production of food that meets nutrition guidelines, cost parameters, and consumer acceptance; safety and sanitation issues related to food. Analysis of the operations of food service organization. Lecture, written assignments and practical experience.

NUFD 224. Advanced Community Nutrition and Policy. 3 Units
Prerequisite(s): Admission into NUFD graduate program, Dietetic Internship Program, or instructor permission.
Term Typically Offered: Spring only

Learn and apply the nutrition care process and manage nutrition care for population groups. Conclude outcome assessment, planning, implementation, marketing and evaluation of nutrition programs. Apply the research process and critically evaluate nutrition research. Develop an understanding of nutrition policy and resources.

NUFD 225. Food Production and Sustainability Policy. 3 Units
Prerequisite(s): Admittance into the NUFD graduate program or instructor permission.
Term Typically Offered: Fall only

Exploration of a variety topics including food policies, food systems and sustainable food production. The course will review the political landscape of both food and agriculture and current social movements towards sustainable and just food systems.

NUFD 280. Teaching Methods in Family and Consumer Sciences/Home Economics. 3 Units
Prerequisite(s): Current enrollment in a teaching credential program or instructor permission.
Term Typically Offered: Summer only

This course is designed to provide students with materials, classroom management strategies and methods necessary to successfully teach Family & Consumer Sciences (FCS)/Home Economics Careers and Technology (HECT) at the secondary level. Teacher candidates will become acquainted with legislation, standards, teaching strategies, resources, research and student leadership programs.

NUFD 295. Field Study. 1 - 7 Units
Prerequisite(s): Enrolled in Graduate Studies in NUFD Dietetic Internship Program
Term Typically Offered: Fall, Spring

Guided study, observation or work experience in an area in which the graduate student needs advanced and specialized study.
Note: May be repeated for credit

Credit/No Credit

NUFD 299. Special Problems. 1 - 3 Units
Prerequisite(s): Undergraduate major or minor in Family and Consumer Sciences.
Term Typically Offered: Fall, Spring

Any properly qualified student may pursue a problem after approval by his/her advisor and the staff member with whom he/she works.
Credit/No Credit
NUFD 500. Culminating Experience. 3 Units
Prerequisite(s): Advanced to candidacy or permission of the graduate coordinator.
Term Typically Offered: Spring only
Guides students through the completion of a thesis or project approved for the Master of Nutrition and Food degree.

Operations Management (OPM)
OPM 101. Operations Management. 3 Units
Prerequisite(s): Student must be a Business Major or Business Administration minor to enroll in this course
Corequisite(s): DS 101
Term Typically Offered: Fall, Spring
Introduction to the basic concepts and methods used to analyze and improve performance of operations in manufacturing and service organizations.

Overseas Student Program (REG)
REG 220. Enrolled in online class at a participating CSU Campus through CourseMatch. 1 - 10 Units
Term Typically Offered: Fall, Spring
Enrollment in an online class at a CSU campus through CourseMatch. Any questions or enrollment changes (drop, withdrawal, change of grade basis, etc.) must be done through the CSU campus hosting the class. Details about the class will be recorded on your Home campus record after completion.

Philosophy (PHIL)
PHIL 2. Ethics. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
Examination of the concepts of morality, obligation, human rights and the good life. Competing theories about the foundations of morality will be investigated.

PHIL 4. Critical Thinking. 3 Units
General Education Area/Graduation Requirement: Critical Thinking (A3)
Term Typically Offered: Fall, Spring
Study of the basic skills of good reasoning needed for the intelligent and responsible conduct of life. Topics include: argument structure and identification, validity and strength of arguments, common fallacies of reasoning, use and abuse of language in reasoning, principles of fair play in argumentation.

PHIL 6. Introduction to Philosophy: Knowledge, World and Self. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
Representative selection of philosophical problems will be explored in areas such as knowledge, reality, religion, science, politics, art and morals.

PHIL 60. Deductive Logic I. 3 Units
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Fall, Spring
Introduction to deductive logic. Topics include: basic concepts of deductive logic; techniques of formal proof in propositional and predicate logic.

PHIL 61. Inductive Logic I. 3 Units
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Fall, Spring
Introduction to inductive logic and the problem of decision under uncertainty. Topics include: the nature of inductive rationality, philosophical theories of induction and probability, cognitive biases and common errors in inductive reasoning, and philosophical problems in defining risk, rational agency, and the expected value of an action.
PHIL 99. Philosophical Methods. 2 Units
Prerequisite(s): Student must be a declared Philosophy Major.
Term Typically Offered: Fall, Spring

An introduction to philosophical methods and basic concepts to prepare students for coursework in the major. The survey of topics will emphasize developing skills in reading philosophical texts, writing philosophical analyses, and engaging in philosophical discussions.

PHIL 101. Ethics and Social Issues. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), GE AREA D
Term Typically Offered: Fall, Spring, Summer

Moral controversies that divide society today, such as abortion, the death penalty, affirmative action, sexism, war and peace. Emphasis is on identifying the relevant values and moral principles underlying competing views and subjecting them to rational assessment.

PHIL 102. Professional and Public Service Ethics. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring, Summer

Prepares students planning careers in professional practice or public service to identify, understand, and resolve ethical problems. Includes examinations of (i) ethical theory, rights and duties, virtue ethics, utilitarian ethics, social contract theory, and role morality; (ii) the philosophical underpinnings of professional codes of conduct, regulations, and norms of professional and public service practices; (iii) moral reasoning and argumentation; (iv) the relation between ethical judgement and action; (v) the relation between professional practice, public service, and democratic principles.

PHIL 103. Business and Computer Ethics. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring, Summer

Analytical treatment of controversial moral issues which emerge in the business world, e.g., affirmative action, corporate responsibility, the global economy, industry and environmental damage, social effects of advertising, the computer threat to personal privacy, ownership of computer programs. Discussion will focus on basic moral principles and concepts relevant to these issues.

PHIL 104. Bioethics. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring, Summer

Ethical dilemmas faced by professionals and patients in the field of medicine, e.g., patient self-determination and informed consent, discrimination in health care, euthanasia, abortion, surrogate motherhood, genetic modification, and rights to health care. Emphasis is on the well-reasoned application of general moral principles to practical medical decisions.

PHIL 105. Science and Human Values. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), GE AREA D
Term Typically Offered: Fall, Spring

Examination of the values implicit in a scientific culture and the problems that arise as a commitment to the development of scientific knowledge and technology. These problems include: distinguishing good scientific practice from bad; the intrinsic value of scientific knowledge independent of its benefits in application; the proper and improper applications of scientific knowledge.

PHIL 106. Philosophy of Medicine. 3 Units
Term Typically Offered: Fall, Spring

Examination of philosophical issues arising in medical theory and practice. Topics include: concepts and theories of health, disease, disability, and death; causal inference, extrapolation, and statistical inference in medical research; ethical concepts and theories relevant to therapeutic treatment and research; animal experimentation; evidence-based medicine and randomized clinical trials; objectivity and bias; expertise and clinical judgment; public health policy and health inequalities.

PHIL 112. History Of Ethics. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Humanities (Area C2)
Term Typically Offered: Fall, Spring

Investigation of the main approaches to ethics in Western moral philosophy. Emphasis on Plato, Aristotle, Hume, Kant and Mill.

PHIL 115. Philosophy In Literature. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Spring only – even years

Study of selected works of fiction which focus on philosophically controversial questions, e.g., basic moral dilemmas, the meaning of life, alienation, nihilism, the existence of God.
PHIL 117. Existentialism. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Humanities (Area C2), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall only
Study of the problem of the existing individual, or inner self – most especially the problem of choice in the context of radical freedom and finitude. Particular attention will be paid to the philosophical writings of Kierkegaard, Nietzsche, Heidegger and Sartre, through some major literary works of these figures and others (Camus, Dostoevsky) will also be considered.

PHIL 122. Political Philosophy. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
A philosophical examination of the individual, the community, and rights; the conflict between individual rights and the common good; various conceptions of justice, equality, liberty and the public good; and the relationship of politics to ethics, economics, law; war and peace.

PHIL 123. Philosophy and Feminism. 3 Units
Term Typically Offered: Spring only – even years
Study of feminist perspectives on important philosophical questions. Examples of the questions treated are: mind-body dualism; reason and emotion; the fact/value distinction; the nature of the public and private realms; equal rights; and whether knowledge is intrinsically “gendered.” Different feminist perspectives will be considered and compared with traditional approaches to these questions.

PHIL 125. Philosophy Of Science. 3 Units
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring, Summer
Study of the philosophical problems that arise in the sciences: the nature of scientific reasoning, the limits and styles of explanation, identifying pseudoscience, values in science, unity and diversity of the sciences, and science’s impact on our world view.

PHIL 127. History of Ancient Philosophy. 3 Units
Prerequisite(s): PHIL 89.
Term Typically Offered: Fall, Spring
Examination of the origins of Western philosophy, with emphasis on the works of the Pre-Socratics, Plato, and Aristotle.

PHIL 128. History of Modern Philosophy. 3 Units
Prerequisite(s): PHIL 89.
Term Typically Offered: Fall, Spring
Examination of the major developments in Western philosophy after the Middle Ages with emphasis on the period from Descartes to Kant.

PHIL 131. Philosophy Of Religion. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Summer only
Introduction to philosophical theology, the philosophical study of religious assertions, arguments, and beliefs: the existence and nature of God; the rationality of religious belief; the relation of faith to reason; the problem of evil, immortality and resurrection; the possibility of miracles; the meaning of religious language. Includes both traditional and contemporary approaches.

PHIL 136. Philosophy Of Art. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring
Inquiry into the nature of art, beauty and criticism, with critical consideration of representative theories.

PHIL 145A. Chinese Philosophy. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Humanities (Area C2)
Term Typically Offered: Fall only
Survey of the major philosophical traditions of China and Japan, focusing on concepts of nature, man, society, freedom and knowledge. Special attention will be given to Confucianism, Taoism, Buddhism, and recent philosophical movements. Taught alternate semesters with PHIL 145B.

PHIL 145B. Philosophies Of India. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Humanities (Area C2)
Term Typically Offered: Fall only
Survey of the major schools of Indian philosophical development. The emphasis will be on the Hindu and Buddhist traditions, with consideration given to competing notions of the self, consciousness, the origin of human suffering, and the possibility of transcendence.
Note: Taught alternate semesters with PHIL 145A.

PHIL 153. Philosophy Of Mind. 3 Units
Prerequisite(s): 3 units in philosophy or instructor permission.
Term Typically Offered: Spring only
Rival theories of the nature of the mind and mental activity, including dualism, materialism, functionalism. Difficulties in achieving a theoretical understanding of familiar psychological concepts such as belief, sensation, emotion, intention.
PHIL 154. Philosophy Of Language. 3 Units
Term Typically Offered: Fall only

Study of philosophical issues concerning language: theories of the nature of linguistic meaning, in particular those involving the concepts of sense, reference, truth conditions, intention, convention, speech act, and force. Topics include the relation between meaning and reference to objects, and between meaning and mental processes. Emphasis on contemporary views, including views on the promise of a theory of language to shed light on fundamental philosophical problems in metaphysics and the philosophy of mind.

PHIL 155. Philosophy Of Law. 3 Units
Term Typically Offered: Spring only

Theories of the nature of law, e.g., natural law, legal positivism, legal realism. Selected controversies in contemporary law will also be studied, such as the justification of punishment, the legislation of morality, judicial activism vs. judicial restraint.

PHIL 156. Philosophy of the Social Sciences. 3 Units
Term Typically Offered: Fall, Spring

An examination of concepts and problems arising in the philosophical study of the social sciences, including issues pertaining to ontology, epistemology, methodology, values & objectivity, scientific models, and explanation. Some questions explored are: What are social phenomena and social categories? What makes social science different from natural science? How do values influence the practice of social science? What kinds of mathematical and computational models are used in social science? How does social science explain social phenomena?

PHIL 157. Deductive Logic II. 3 Units
Prerequisite(s): CSC 28 or PHIL 60 or instructor permission.
Term Typically Offered: Spring only

Further study of deductive logic. Topics include: principles of inference for quantified predicate logic; connectives; quantifiers; relations; sets; modality; properties of formal logical systems, e.g. consistency and completeness; and interpretations of deductive systems in mathematics, science, and ordinary language.

PHIL 158. Twentieth Century Anglo-American Philosophy. 3 Units
Term Typically Offered: Spring only

Rise of the analytic tradition in contemporary Anglo-American philosophy represents a turn toward common sense, science, language, logic and rigor. Readings will cover the philosophical movements of common sense, logical atomism, logical positivism, ordinary language philosophy and more recent analytical philosophy.

PHIL 159. Knowledge and Understanding. 3 Units
Prerequisite(s): PHIL 60 or 61; PHIL 127 and 128 or instructor permission.
Term Typically Offered: Fall, Spring

Examines the nature of knowledge and understanding, as well as related concepts such as explanation, justification, and belief. Representative topics include: the Gettier problem, skepticism, the factivity of understanding, naturalized epistemology, pragmatic encroachment, and the value of knowledge. Emphasis is on contemporary formulations.

PHIL 181. Metaphysics. 3 Units
Prerequisite(s): PHIL 60 or 61; PHIL 127 and 128 or instructor permission.
Term Typically Offered: Fall, Spring

Examines arguments concerning the nature of reality. Representative topics include: substance, space, time, God, free will, determinism, identity, universals. Emphasis is on contemporary formulations.

PHIL 182. Ethical Theory. 3 Units
Prerequisite(s): PHIL 60 or 61; PHIL 127 and 128 or instructor permission.
Term Typically Offered: Fall, Spring

Examines major topics in normative ethics and meta ethics. Representative topics in normative ethics include principles of goodness, virtue, and right action as featured in utilitarianism, virtue theory, Kantianism, or rights-based theories. Representative topics in meta ethics include the semantics of moral terms, the epistemology of moral belief, and the metaphysics of moral properties.

PHIL 183. Rationality. 3 Units
Prerequisite(s): PHIL 60 or 61, PHIL 127, PHIL 128
Term Typically Offered: Fall, Spring

Examines the nature of rationality, its value, structure, limits, purpose, origins, operations, and proper use. Topics include the nature of deductive rationality, inductive rationality, bounded rationality, irrationality, reasoning under ignorance and uncertainty, probabilistic decision-making, expected value theory, utility theory, and game theory.

PHIL 184. Senior Seminar in Philosophy. 1 Unit
Prerequisite(s): Philosophy majors (any concentration), 21 upper-division units in Philosophy, and graduating semester; or instructor permission.
Corequisite(s): Philosophy major (any concentration) and graduating semester; or instructor permission.
Term Typically Offered: Fall, Spring

A required capstone experience in the philosophy major. The course involves: completion of a senior essay under direction of a faculty member; preparation for knowledge and skills examination; submission of written critiques for three public events in philosophy; completion of departmental assessment questionnaire.

PHIL 185. Selected Philosophers. 3 Units
Prerequisite(s): 6 units in Philosophy or instructor permission.
Term Typically Offered: Fall, Spring

An examination of the works of one or more important philosophers in different philosophical areas such as ethics, political philosophy, metaphysics, logic and epistemology.
Note: This course can be repeated for credit once if the second iteration focuses on a different philosopher than the first

PHIL 186. Topics in Bioethics. 3 Units
Prerequisite(s): 6 units of Philosophy or instructor permission
Term Typically Offered: Fall, Spring

Advanced in-depth study of an ethical dilemma faced by professionals and patients in the field of medicine, such as patient self-determination and informed consent, discrimination in health care, euthanasia, abortion, surrogate motherhood, genetic modification, or rights of health care.
### PHIL 192E. Topics in Epistemology.
**Prerequisite(s):** 6 units in Philosophy or instructor permission.
**Term Typically Offered:** Fall, Spring

Topics include: the nature of inquiry, knowledge, explanation, understanding, rationality, judgment, and decision.

**Note:** This course can be repeated for credit once if the second iteration focuses on a different specific topic within Epistemology.

### PHIL 192F. Topics in Ethics.
**Prerequisite(s):** 6 units in Philosophy or instructor permission.
**Term Typically Offered:** Fall, Spring

Topics include: animal rights, abortion, euthanasia and assisted suicide, poverty, race, gender, same-sex marriage, war and humanitarian intervention, environmental ethics, ethics of science or technology, and other advanced topics in bioethics.

**Note:** This course can be repeated once for credit if the second iteration focuses on a different specific topic within Ethics.

### PHIL 192L. Topics in Philosophy Language.
**Prerequisite(s):** 6 units in philosophy or instructor permission.
**Term Typically Offered:** Fall, Spring

Advanced topics in the philosophy of language. Topics may include: sense and reference, meaning and force, intentions vs. conventions, conditions for sameness of sense, conditions for successful reference, propositional content, indexical and demonstrative reference, and the semantics of propositional attitude and perceptual reports, linguistic pragmatics.

### PHIL 192M. Topics in Philosophy of Mind.
**Prerequisite(s):** 6 units in philosophy or instructor permission.
**Term Typically Offered:** Fall, Spring

Topics in Philosophy of Mind. Topics may include: Artificial Intelligence; Qualia; functionalism; philosophy of neuroscience; property dualism; eliminative materialism; or specific theories of consciousness. Emphasis is on contemporary formulations.

### PHIL 192O. Topics in Contemporary Metaphysics.
**Prerequisite(s):** 6 units in Philosophy or instructor permission.
**Term Typically Offered:** Fall, Spring

Contemporary topics in metaphysics. Topics may include: Ontology; realism and anti-realism; universals; individuals; substance; identity through time and change; kinds and degrees of necessity; physicalism; moral realism; realism regarding social entities. Emphasis is on contemporary formulations.

### PHIL 192P. Topics in Social and Political Philosophy.
**Prerequisite(s):** 6 units in Philosophy or instructor permission.
**Term Typically Offered:** Fall, Spring

Topics include: specific theories such as anarchism, libertarianism, and contractualism; feminist theories; critical race theory; philosophy of education; and other concepts such as authority, justice, rights, equality, and freedom.

**Note:** This course can be repeated for credit once if the second iteration focuses on a different specific topic within Social and Political Philosophy.

### PHIL 192R. Topics in Philosophy of Religion.
**Prerequisite(s):** 6 units of Philosophy or instructor permission.
**Term Typically Offered:** Fall, Spring

Topics may include: The problem of evil, atheism, modal arguments for God's existence, design arguments for God's existence, reformed epistemology, recent work in natural theology, divine hiddenness, skeptical theism, or Molinism. Emphasis is on contemporary formulations.

### PHIL 192S. Topics in Philosophy of Science.
**Prerequisite(s):** 6 units of Philosophy or instructor permission.
**Term Typically Offered:** Fall, Spring

Topics include: Issues in the epistemology and ontology of science; special problems in the philosophy of mathematics, physics, chemistry, cognitive science, and biology; naturalistic and non naturalistic approaches to understanding scientific inquiry.

**Note:** This course can be repeated for credit once if the second iteration focuses on a different specific topic within the Philosophy of Science.

### PHIL 192T. Topics in Philosophy of Social Science.
**Prerequisite(s):** 6 units in Philosophy or instructor permission.
**Term Typically Offered:** Fall, Spring

Topics include: the ontology of social kinds, social construction, individualism vs. structuralism, philosophy of economics, explanations of social injustice, critical theory, methodology of social sciences, and categorization and measurement in the social sciences.

**Note:** This course can be repeated for credit once if the second iteration focuses on a different specific topic within the Philosophy of Social Science.

### PHIL 195. Philosophy Internship.
**Prerequisite(s):** Instructor permission.
**Term Typically Offered:** Fall, Spring

Supervised work experience in an approved office or organization where significant philosophical issues are raised. The student must write regular reports on these issues. Supervision is provided by the faculty instructor and a managing official in the work situation. Open to majors only.

Credit/No Credit

### PHIL 196. Experimental Offerings in Philosophy.
**Term Typically Offered:** Fall, Spring

Experimental offerings will be scheduled as needed.

### PHIL 197. Honors Thesis.
**Prerequisite(s):** Admission into Philosophy Department Honors Concentration.
**Term Typically Offered:** Fall, Spring

Capstone seminar for Honors Program students in Philosophy major. Student will propose, research, write, and present an honors thesis; student will also provide comments and criticism of other honors theses.

### PHIL 199. Special Problems.
**Term Typically Offered:** Fall, Spring

Special projects calling for independent philosophical investigation under the supervision of an individual faculty member.

**Note:** Requires prior approval of the faculty member under whom work is to be conducted.

Credit/No Credit
PHIL 299. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Special projects calling for independent philosophical investigation under the supervision of an individual faculty member.
Note: Requires graduate status and prior approval of the faculty member under whom work is to be conducted.
Credit/No Credit

Photography (PHOT)

PHOT 11. Digital Photography I. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring
An introduction to digital photographic image making. Course acquaints students with photographic equipment and techniques used to create and disseminate digital images. Aesthetic, conceptual, and cultural issues surrounding the production and application of photographic images are also discussed.

PHOT 12. Digital Photography II. 3 Units
Prerequisite(s): PHOT 11. Fee course.
Term Typically Offered: Fall, Spring
An introduction to composited photographic images. Course provides a broad primer to digital editing and compositing techniques. Lectures and discussions provide artistic and ethical context for contemporary photographic practice.
Fee course.

PHOT 15. Survey of Photography. 3 Units
Term Typically Offered: Fall, Spring

PHOT 20. The Photographic Self. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring
Focuses on photography’s influence on notions of self from its inception in 1938 to the present. Enhances students’ understanding of how and why photography became the powerful and ubiquitous tool that shaped a new form of visual self-expression.

PHOT 40. Darkroom Photography. 3 Units
Term Typically Offered: Fall, Spring
Course covers basic concepts and skills in chemical-process photography. Emphasis is placed on basic camera theory, film exposure and development, darkroom printing, and post processing techniques. Lectures, discussions, and assignments provide artistic and historical context for the creation and interpretation of photographic images.
Note: This course requires safety training. This course requires personal protective equipment (PPE).

PHOT 101. Photography, Inception to Mid-Century. 3 Units
Term Typically Offered: Fall only
Introduces students to the history of photography, from inception to Mid-20th Century. Practices of photographers and artists, working with photographic technologies, will be discussed. The course examines photographic vision and the impact of the medium through lectures and readings by art historians and photographers.
Cross-listed: ART 101.

PHOT 102. Photography, a Social History. 3 Units
Term Typically Offered: Spring only
Examines photographic vision and the impact of the medium on society through readings by both photographers and photographic critics. Establishes the importance of photography as a contemporary medium, explores the development of photographic vision and the relationship between photographs and cultural events. Lecture/discussion.

PHOT 111. Intermediate Digital Photography. 3 Units
Prerequisite(s): PHOT 11 and PHOT 40
Term Typically Offered: Fall, Spring
Covers intermediate to advanced concepts and techniques in digital photographic practice, providing students with the ability to explore both new and previously mastered software and hardware applications. Emphasis is on using digital techniques to generate and print effective and imaginative photographs. Lectures, discussions, and assignments focus on expanding the technical, aesthetic, and conceptual concerns surrounding the creation and application of photographic imagery.
Note: This course requires safety training. This course requires personal protective equipment (PPE).

PHOT 141. Intermediate Darkroom Photography. 3 Units
Prerequisite(s): PHOT 11 and PHOT 111
Term Typically Offered: Fall, Spring
Course covers intermediate level concepts and skills in chemical-process photographic practice. Emphasis is placed on the artistic potential of camera- and darkroom-based image production and manipulation. Lectures, discussions, and assignments focus on expanding the aesthetic and conceptual concerns surrounding the creation and application of photographic imagery.

PHOT 148. Artificial Light, Studio. 3 Units
Prerequisite(s): PHOT 111 and PHOT 141
Corequisite(s): PHOT 102 and PHOT 155
Term Typically Offered: Spring only
A commercially oriented course with assignments covering such topics as food, fashion and products photographed with artificial light in the studio. Business, legal and ethical practices in commercial and editorial photography are discussed as they apply to work done in a studio setting. Students are expected to become visually and technically competent with artificial light sources used in a studio setting.

PHOT 149. Artificial Light, Location. 3 Units
Prerequisite(s): PHOT 148 and PHOT 155
Corequisite(s): PHOT 165
Term Typically Offered: Fall only
A location lighting course covering the use of artificial light and non-studio photography. Assignments cover such topics as: interior and exterior architecture, food and fashion shot on location. Techniques for combining the use of hot lights, electronic flash and ambient light are discussed. Students will use a body of work demonstrating their visual and technical understanding of artificial light sources for editorial and commercial application.
PHOT 155. Advanced Photography Techniques. 3 Units
Prerequisite(s): PHOT 111 and PHOT 141
Corequisite(s): PHOT 102 and PHOT 148
Term Typically Offered: Spring only

Explores advanced techniques in the production of photographic imagery, with special emphasis on the hybridization of photographic processes. Lectures cover advanced chemical and digital photographic procedures in camera use and printing techniques. Students must demonstrate a high level of visual awareness and technical competency, and must be willing to take risks in the creative application of photographic processes.

PHOT 161. Photography in the Field. 3 Units
Prerequisite(s): PHOT 141 or instructor permission.
Term Typically Offered: Fall, Spring

The class visits specific sites followed by a group critique of the resulting photographic work. The course objective is to examine how one situation can be interpreted by many varied sensibilities, broadening the artist's visual vocabulary. Students are required to create visually unified portfolio that demonstrates a sense of place.
Cross-listed: ART 161.

PHOT 162. Alternative Photographic Processes. 3 Units
Prerequisite(s): PHOT 141 or instructor permission.
Term Typically Offered: Fall, Spring

Studio course exploring alternative photographic processes that may include: printing-out paper, new cyanotype, argyrotype, and platinum-palladium. Slide discussions, individual and class critiques.
Cross-listed: ART 162.

PHOT 163. Pinhole Photography. 3 Units
Prerequisite(s): PHOT 40 or equivalent.
Term Typically Offered: Fall, Spring

Intermediate course investigating the theory, history, and practice of pinhole photography. Use of student-made pinhole cameras of varying focal lengths using black and white and color materials. Emphasis on creative approach in both camera making and image formation, supported by intermediate-level photographic technique. Individual final portfolios and group exhibition of cameras and prints at conclusion of course.
Cross-listed: ART 163.

PHOT 165. Issues in Contemporary Photographic Practice. 5 Units
Prerequisite(s): PHOT 148 and PHOT 155 Fee course.
Term Typically Offered: Fall only

Covers advanced problems in the process of creating photographic work. Emphasis is on the ways which content/form relationships within a body of work are informed by the artist's conceptual and material engagement, as well as the way in which process and context shape meaning in photographic work. Course centers on readings in contemporary theory and aesthetics, discussion, the production of photographic work, and critique.
Note: Type III Fee, $45

PHOT 175. Studio Topics in Photography. 3 Units
Prerequisite(s): PHOT 148 and PHOT 155
Term Typically Offered: Fall, Spring

This class is a broad investigation of photography's potential. Each semester the class concentrates on a photographic strategy including but not limited to: documentary, journalism, fabrication, image and text, and the archive. Students are introduced to photography's varied application, new developments and conversations in the medium. Readings and discussions will enlist a range of theoretical and critical approaches. Course center on readings, discussion, production of photographic work and critique.

PHOT 180. Senior Portfolio. 5 Units
Prerequisite(s): PHOT 165 Fee course
Term Typically Offered: Spring only

A senior level course aimed at furthering student's knowledge of postgraduate opportunities. The required final portfolio of images will reflect the student's photographic education, experience and area of expertise. The content and format of this portfolio will depend on the student's future academic or professional goals.
Note: Type III Fee $45

PHOT 195. Studio Topics in Photography. 3 Units
Prerequisite(s): PHOT 148 and PHOT 155
Term Typically Offered: Spring only

A minimum of two upper division photography courses.

PHOT 199. Internship In Photography. 1 - 3 Units
Prerequisite(s): A minimum of two upper division photography courses.
Term Typically Offered: Fall, Spring

Directed observation and work experience with public agencies, organizations, publications, design or photography studios. Fieldwork is offered to give students experience, personal contacts and orientation in the area of professional photography. Supervision is provided by faculty and the cooperating community employer. Students are required to maintain a detailed record of activities and report regularly to the supervising faculty member. To receive credit the selected activity must be approved prior to adding the course. Ten hours weekly.
Credit/No Credit

PHOT 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed readings in photography. Open to students who are working at an advanced level of photography and competent to carry on individual work.
Credit/No Credit

PHOT 299. Special Problems. 1 - 3 Units
Prerequisite(s): Requires instructor approval.
Term Typically Offered: Fall, Spring

Individual projects or directed readings in photography for graduate level students. Open to students who are working at an advanced level of photography and competent to carry on individual work.
Credit/No Credit
Physical Science (PHSC)

PHSC 75. Introduction to Machine Shop Practices. 2 Units
Term Typically Offered: Fall, Spring
Safe machine operation techniques on common fabrication equipment. Study of materials and methods used to build testing and measuring equipment. Reading and calibrating measuring devices, gauging and optical gauging. Study of measuring conventions and understanding of precision. Interpretation of drawings, tolerances and tactics for maintaining tolerances. Jigs and mounts for dynamic data collection equipment. Prototype manufacturing. Students completing this course qualify to perform work in the shop with minimum supervision. Lecture one hour; Laboratory three hours.

PHSC 107. History of the Physical Sciences. 3 Units
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring
Study of the development of the major physical laws presently used in describing our physical world. Some considerations of the influences of these developments on other areas of knowledge and on society in general. Cross Listed: HIST 107; only one may be counted for credit.

PHSC 199. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading.
Note: Open only to students who appear competent to assume individual work on the approval of the instructor. Up to 4 units may be taken for grade.
Credit/No Credit

Physical Therapy (PT)

PT 280. Graduate PT Seminar II. 1 Unit
Term Typically Offered: Fall, Spring
Presented after the final clinical field experience, will review students' experiences in the clinic and promote reflection on the professional practice of physical therapy. Serves as a review of a variety of physical therapy subjects in preparation for the licensure examination. Students will use computer interactive software to assist with preparation for this standardized national test format.
Note: Open to Physical Therapy majors only.

PT 295. Physical Therapy Clinical Experience. 1 - 3 Units
Term Typically Offered: Fall, Spring
Supervised clinical affiliation equivalent to two full-time weeks up to six full-time weeks in a physical therapy setting under the direct supervision of a licensed Physical Therapist.
Note: Placement is arranged through the Program. Permission of Clinical Coordinator required.
Credit/No Credit

PT 299. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading designed for students capable of independent study.
Note: Admission requires written approval of instructor and program director.
Credit/No Credit

PT 510. Audiology Progress Exam. 1 Unit
Prerequisite(s): Admission to Doctor of Audiology program; CSAD 611, CSAD 612, CSAD 613, CSAD 614, CSAD 620, CSAD 620C, CSAD 621, CSAD 622, CSAD 622L, CSAD 623, CSAD 624, CSAD 630, CSAD 630C, CSAD 631, CSAD 632.
Term Typically Offered: Summer only
Formative written and practical exam based on coursework and clinical experiences from the first year of the Doctor of Audiology program.
Credit/No Credit

PT 600. Pathokinesiology. 5 Units
Prerequisite(s): Open to Physical Therapy majors only.
Corequisite(s): BIO 633, PT 602, PT 608, PT 630.
Term Typically Offered: Fall, Spring
This course will address functional anatomy, surface anatomy with palpation, arthrology, biomechanics, pathologies related to the musculoskeletal and nervous systems. Both normal motion and pathological motion will be addressed. Students will gain competence in surface anatomy and palpation skills.

PT 602. Evidence Informed Practice I. 3 Units
Prerequisite(s): Open to Physical Therapy majors only.
Corequisite(s): BIO 633, PT 600, PT 608, PT 630.
Term Typically Offered: Fall, Spring
This course is designed to teach students to critically read and interpret the physical therapy scientific literature. Topics will include research design and statistical testing procedures commonly used in physical therapy. Students will review and critique current physical therapy articles utilizing the research designs and statistical testing procedures being studied.

PT 604. Principles of Human Movement. 2 Units
Prerequisite(s): BIO 633, PT 600, PT 602, PT 608, PT 630.
Corequisite(s): PT 606, PT 614, PT 618, PT 620, PT 622.
Term Typically Offered: Fall, Spring
This course focuses on developing an understanding of components of human movement under normal and pathological conditions. Content includes the American Physical Therapy Association Model of Practice, models of disablement, contemporary concepts of motor learning and motor control, task analysis, and theories of the recovery of function. The course includes a review of the foundations of neuroanatomy for normal movement.
Note: Open to Physical Therapy majors only.
PT 606. Therapeutic Measurements and Techniques. 4 Units
Prerequisite(s): BIO 633, PT 600, PT 602, PT 608, PT 630.
Corequisite(s): PT 604, PT 614, PT 618, PT 620, PT 622.
Term Typically Offered: Fall, Spring

In this course students acquire general physical therapy examination, evaluation and patient handling skills. Students will practice and demonstrate techniques under faculty supervision in the following areas: Measurement of vital signs, manual strength testing, testing of joint range of motion and muscle length, patient positioning, transfer techniques, gait training, use of wheelchairs, and use of assistive devices.

Note: Open to Physical Therapy majors only.

PT 608. PT/Patient/Professional Interactions. 2 Units
Corequisite(s): BIO 633, PT 600, PT 602, PT 630.
Term Typically Offered: Fall, Spring

The course prepares physical therapy students to learn about themselves, others, and the environment in which they will interact with others as professionals. It addresses professionalism, self-awareness, communication, cultural competence, ethics, documentation, and end-of-life care. This course assists students with transitioning into their professional roles.

Note: Graduate Writing Intensive (GWI) course that is part of the Writing Enriched Curriculum (WEC) of the program; open to Physical Therapy majors only

PT 614. Neuroscience for Physical Therapy. 3 Units
Prerequisite(s): BIO 633, PT 600, PT 602, PT 608, PT 630.
Corequisite(s): PT 604, PT 606, PT 618, PT 620, PT 622.
Term Typically Offered: Fall, Spring

This course is designed to prepare clinicians to better understand the neurological control of human behavior. A systems approach is used to examine the major anatomical and physiological principles and mechanisms by which the nervous system controls behavior under normal and pathological conditions. Because the course is being taught to health care professionals, clinical correlates of each system will also be presented. One class session is dedicated to presentation of human gross anatomical specimens.

PT 618. Foundations for Patient Management. 1 Unit
Prerequisite(s): BIO 633, PT 600, PT 602, PT 608, PT 630.
Corequisite(s): PT 604, PT 606, PT 614, PT 618, PT 620, PT 622.
Term Typically Offered: Fall, Spring

This course introduces the disablement model that forms the conceptual framework for understanding and organizing the practice of physical therapy. The model delineates the possible consequences of disease and injury for the person and society. The course goes on to identify how the model informs the five elements of patient management: Examination, Evaluation, Diagnosis, Prognosis (including Plan of Care), and Intervention. The course will further expand on professionalism introduced in PT 608.

Note: Open to Physical Therapy majors only.

PT 620. Physical Therapy Interventions I. 3 Units
Prerequisite(s): BIO 633, PT 600, PT 602, PT 608, PT 630.
Corequisite(s): PT 604, PT 606, PT 614, PT 618, PT 622.
Term Typically Offered: Fall, Spring

In this course students learn, practice and demonstrate the clinical application of basic exercise regimes for the prevention of limitations, improvement of functional abilities and the treatment of disorders associated with the neuromuscular, skeletal and cardiopulmonary systems. In addition, the application of motor control principles to exercise and aquatic therapy are addressed.

Note: Open to Physical Therapy majors only.

PT 622. Evidence Informed Practice II. 3 Units
Corequisite(s): PT 604, PT 606, PT 614, PT 618, PT 620.
Term Typically Offered: Fall, Spring

Designed to build upon the data analysis and research design topics covered in PT 602. Emphasis will be placed on evidence based methodologies currently used in the physical therapy literature evaluating the effectiveness of interventions, the validity of outcome measures, the validity of diagnostic measures, and the identification of prognostic measures.

Note: Open to Physical Therapy majors only. Prerequisite

PT 624. Adult Neuromuscular Patient Management I. 4 Units
Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 630, PT 632, PT 634, PT 638.
Corequisite(s): PT 625, PT 626, PT 636, PT 640, PT 646.
Term Typically Offered: Fall, Spring

This course is first in a three course sequence focused on acquisition and integration of knowledge and skills needed to manage patients with movement dysfunction caused by neurological damage (Refered to in the Guide as Neuromuscular Practice Patterns). Focus is on development and implementation of plans of care based on sound evaluative, treatment and problem-solving skills.

Note: Open to Physical Therapy majors only.

PT 625. Musculoskeletal Patient Management I. 4 Units
Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 630, PT 632, PT 634, PT 638.
Corequisite(s): PT 624, PT 626, PT 636, PT 640, PT 646.
Term Typically Offered: Fall, Spring

This course, the first of three, focuses on acquisition, integration, knowledge and skills involved in developing and implementing a patient management plan for the patient with musculoskeletal dysfunction based on sound evaluative findings. Lectures address etiology, signs and symptoms, medical, surgical, and physical therapy management of musculoskeletal dysfunction. Labs address skill development for performing evaluation and interventions safely and effectively. The course addresses the management of lower extremity dysfunction.

Note: Open to Physical Therapy majors only.
PT 626. Clinical Agents. 2 Units
Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 630, PT 632, PT 634, PT 638.
Corequisite(s): PT 624, PT 625, PT 636, PT 640, PT 646.
Term Typically Offered: Fall, Spring

This course presents theory, demonstration and laboratory practice in physical therapy modalities and techniques including thermal agents, hydrotherapy, ultrasound (US), ultraviolet, diathermy and massage. Theory, demonstration and practice using electrical modalities are included. Case studies will be utilized for decision making in the proper application of modalities based on current research evidence, knowledge of indications, contradictions and physiologic effects.

Note: Open to Physical Therapy majors only.

PT 627. Physical Therapy Educator. 1 Unit
Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640, PT 646.
Corequisite(s): PT 644, PT 645, PT 648, PT 662, PT 669.
Term Typically Offered: Fall, Spring

This course presents the role of the physical therapist as health educator. The course introduces teaching and learning theory, learning domains, the identification of learning styles, and teaching strategies to address different learner needs across the life-span. Students will practice instructional formats and prepare and analyze patient education materials. Students will practice applications of appropriate technology for the design of professional presentations. Self-assessment, reflection and peer-assessment are required course components.

Note: Open to Physical Therapy majors only.

PT 630. Pathophysiology. 3 Units
Prerequisite(s): Admission to the Doctor of Physical Therapy Program.
Corequisite(s): BIO 633, PT 600, PT 602, PT 608.
Term Typically Offered: Fall, Spring

This course is designed to promote the understanding and application of fundamental disease processes in clinical settings. General concepts of disease, including etiology, pathogenesis, morphology, and clinical significance are discussed within the context of cases. General pathophysiology concepts include: cell injury, necrosis, inflammation, wound healing and neoplasia. These concepts are applied in a systems-orientated approach to disease processes affecting musculoskeletal, cardiopulmonary, renal, nervous, gastrointestinal, immune, hematological and endocrine systems.

PT 632. Pharmacology for Physical Therapists. 2 Units
Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 630.
Corequisite(s): PT 634, PT 638.
Term Typically Offered: Fall, Spring

This course provides a study of pharmacological agents and their effects on the musculoskeletal, neuromuscular, cardiopulmonary and integumentary systems. Particular emphasis is placed on recognition of adverse reactions and side effects of various drugs as they affect patients receiving physical therapy.

Note: Open to Physical Therapy Majors only.

PT 634. Diagnostic Imaging for Physical Therapy. 2 Units
Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 630.
Corequisite(s): PT 632, PT 638.
Term Typically Offered: Fall, Spring

This course provides an overview of imaging techniques commonly used in radiology and their implications to the role of physical therapists in professional practice. The role of imaging techniques in the diagnostic and intervention-planning processes for physical therapists is presented.

Note: Open to Physical Therapy Majors only.

PT 636. Geriatrics/Gerontology for Physical Therapists. 2 Units
Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 630, PT 632, PT 634, PT 638.
Corequisite(s): PT 624, PT 625, PT 626, PT 640, PT 646.
Term Typically Offered: Fall, Spring

This course explores normal and pathological aging and the implications of both on Physical therapist practice. It will explore the ramifications of aging components of patient management interventions including major practice patterns: musculoskeletal, neuromuscular, cardiopulmonary, and integumentry. It will also explore how aging may impact patient teaching.

Note: Open to Physical Therapy majors only.

PT 638. Health, Wellness and Ergonomics in Physical Therapy. 2 Units
Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 630, PT 632, PT 634.
Corequisite(s): PT 632, PT 634.
Term Typically Offered: Fall, Spring

This course presents basic philosophical, historical, psychological and scientific foundations in wellness; reviews cultural forces/theories that affect individuals and society; applies concepts of healthy lifestyle education to reach an understanding of the importance of wellness and to establish an effective and potentially fulfilling lifestyle.

Note: Open to Physical Therapy majors only.

PT 640. Physical Therapy Interventions II. 3 Units
Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 630, PT 632, PT 634, and PT 638.
Corequisite(s): PT 624, PT 625, PT 626, PT 636, PT 646.
Term Typically Offered: Fall, Spring

This course is a continuation of Physical Therapy Interventions I. This course focuses on the presentation of selected topics in acute care and cardiopulmonary Physical Therapy. Students will learn how to perform appropriate and comprehensive examinations, interpret the examination findings as well as design and implement a plan of care based upon the next available evidence.

Note: Open to Physical Therapy majors only.
PT 644.  Adult Neuromuscular Patient Management II.  4 Units
Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640 and PT 646.
Corequisite(s): PT 627, PT 645, PT 648, PT 662, PT 669.
Term Typically Offered: Fall, Spring
This course is the second in a three course sequence focused on acquisition and integration of knowledge and skills needed to manage patients with movement dysfunctions caused by neurological damage (Referred to in the Guide as Neuromuscular Practice Patterns). Focus is on development and implementation of plans of care based on sound evaluative findings and evidence of efficacy. Case presentation, video demonstrations, and patient contact is used to develop evaluation, treatment and problem solving skills.
Note: Open to Physical Therapy majors only.

PT 645.  Musculoskeletal Patient Management II.  4 Units
Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640 and PT 646.
Corequisite(s): PT 627, PT 644, PT 645, PT 648, PT 662, PT 669.
Term Typically Offered: Fall, Spring
This course, the second of three, focuses on acquisition and integration of knowledge and skills involved in developing and implementing management plans for patients with musculoskeletal dysfunction from sound evaluative findings. Lectures address etiology, signs and symptoms, medical, surgical, and physical therapy management of musculoskeletal dysfunction. Labs address safe and effective evaluation and interventions, specifically joint mobilizations. Joint mobilizations will cover one technique per joint restriction. This course addresses upper extremity and spine dysfunction.
Note: Open to Physical Therapy majors only.

PT 646.  Acute Care and Cardiopulmonary Physical Therapy.  2 Units
Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 630, PT 632, PT 634, PT 636 and PT 638.
Corequisite(s): PT 624, PT 625, PT 626, PT 640.
Term Typically Offered: Fall, Spring
This course focuses on the presentation of selected topics in acute care and cardiopulmonary Physical Therapy. The course includes a discussion of common pathologies in the cardiopulmonary system and those associated with an acute care setting, as well as common medical tests, laboratory tests, surgical procedures and pharmacological interventions used with this patient population.
Note: Open to Physical Therapy majors only.

PT 648.  Health Care Delivery in Physical Therapy I.  2 Units
Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640 and PT 646.
Corequisite(s): PT 627, PT 644, PT 645, PT 662, PT 669.
Term Typically Offered: Fall, Spring
This course provides a historical overview of health care delivery and financing in the U.S., up to and including the current effects on the delivery of physical therapy care. The continuum of care concept, an overview of national economic policy and the mechanisms for financing physical therapy services will be presented. Administrative topics including human resources, financial management, planning, marketing, patient’s rights, and medical records management will be covered.
Note: Open to Physical Therapy majors only.

PT 660A.  Graduate Physical Therapy Seminar A: Research.  1 Unit
Prerequisite(s): BIO 633, PT 600, PT 602, PT 608, PT 630
Term Typically Offered: Fall, Spring, Summer
This seminar is the first designed for advanced study and mentoring in physical therapy research. Students will be participating in faculty-directed research projects. Students’ activities will vary depending on the faculty member and research project being conducted. Students are required to perform at least 50 hours of activities toward the directed research project to receive credit for this course. This course satisfies one of two requirements for selected seminars in the curriculum.

PT 660B.  Graduate Physical Therapy Seminar B: Research.  1 Unit
Prerequisite(s): BIO 633, PT 600, PT 602, PT 608, PT 630
Term Typically Offered: Fall, Spring, Summer
This seminar is the second designed for advanced study and mentoring in physical therapy research. Students will be participating in faculty-directed research projects. Students’ activities will vary depending on the faculty member and research project being conducted. Students are required to perform at least 50 hours of activities toward the directed research project to receive credit for this course. This course satisfies one of two requirements for selected seminars in the DPT curriculum.

PT 660C.  Graduate Physical Therapy Seminar C: Research.  1 Unit
Prerequisite(s): BIO 633, PT 600, PT 602, PT 608, PT 630
Term Typically Offered: Fall, Spring, Summer
This seminar is the third designed for advanced study and mentoring in physical therapy research. Students will be participating in faculty directed research projects. Students’ activities will vary depending on the faculty member and research project being conducted. Students are required to perform at least 50 hours of activities toward the directed research project to receive credit for this course. This course satisfies one of two requirements for selected in the DPT curriculum.
Note: Open to Physical Therapy majors only.
**PT 660D. Graduate Physical Therapy Seminar ID: Electrotherapeutics.**

2 Units

**Prerequisite(s):** BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 627, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640, PT 646.

**Corequisite(s):** PT 627, PT 644, PT 645, PT 648, PT 662, PT 669.

**Term Typically Offered:** Fall, Spring

This is a seminar laboratory experience focusing on electrophysiology and electrodiagnostics in physical therapy. The lab will allow students to research and apply evidence-based practice and gain advanced hands-on practice in performing and interpreting the results of electromyographic and nerve conduction velocity testing with clients. This course satisfies one of two requirements for selected seminars in the curriculum.

**Note:** Open to Physical Therapy majors only.

**PT 660E. Graduate Physical Therapy Seminar IE: NeuroPediatric Laboratory.**

2 Units

**Prerequisite(s):** BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 627, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640, PT 644, PT 645, PT 646, PT 648, PT 662, PT 669.

**Corequisite(s):** PT 663, PT 664, PT 665, PT 668, PT 680, PT 690.

**Term Typically Offered:** Fall, Spring

This seminar laboratory experience focuses on pediatric patient management. The lab will allow students to research and apply evidence-based practice and gain advanced hands-on practice in pediatric physical therapy. This course is best suited for students planning a career in pediatric patient management. The course satisfies one of two requirements for selected seminars in the curriculum.

**Note:** Open to Physical Therapy majors only.

**PT 660F. Graduate Physical Therapy Seminar IF: Adult Neuromuscular Laboratory.**

2 Units

**Prerequisite(s):** BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 627, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640, PT 646, PT 648, PT 662, PT 669.

**Corequisite(s):** PT 663, PT 664, PT 665, PT 668, PT 680, PT 690.

**Term Typically Offered:** Fall, Spring

This seminar laboratory experience focuses on adult neuromuscular patient management. The laboratory will allow students to research and apply evidence-based practice and gain advanced hands-on practice in adult neurorehabilitation. Students will also serve as mentors for the Mock Clinic portion of PT 624. This course satisfies one of two requirements for selected seminars in the curriculum.

**Note:** Open to Physical Therapy majors only.

**PT 660G. Certified Strength and Conditioning Specialist (CSCS).**

2 Units

**Prerequisite(s):** BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640, PT 644, PT 645, PT 646, PT 648, PT 662, PT 669.

**Corequisite(s):** PT 663, PT 664, PT 665, PT 668

**Term Typically Offered:** Fall, Spring

This seminar is designed to prepare students to take the Certified Strength and Conditioning Specialist Examination. The seminar covers the topics of exercise physiology, bioenergetics, nutritional factors in performance, resistance, speed, and agility training, endocrine responses to resistance training, exercise testing, and other training considerations. This course satisfies one of two requirements for selected seminars in the curriculum.

**Note:** Open to Physical Therapy majors only.

**PT 660H. Graduate Physical Therapy Seminar H: Cardiovascular Wellness Clinic Experience.**

1 Unit

**Prerequisite(s):** BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640, PT 644, PT 645, PT 646, PT 648, PT 662, PT 669.

This elective provides mentored clinical experience for students in the area of cardiovascular wellness. The student will design and implement an evaluation of a volunteer client in a cardiovascular wellness program, develop an individualized plan of care, and monitor the impact of the intervention. A written comprehensive case report will analyze the impact of the interventions on the cardiovascular wellness of the client.

**Note:** Open to Physical Therapy majors only.

**PT 660J. Graduate Physical Therapy Seminar IJ: Adv. Biomechanics I.**

1 Unit

**Prerequisite(s):** BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640, PT 644, PT 645, PT 646, PT 648, PT 662, PT 669.

This elective is designed to prepare students to run a gait analysis clinic. The course covers the topics of assessment of balance, lower extremity strength assessment, special tests, and running analysis from both the research “gold standard” as well as the clinically feasible perspective with a particular focus on running.

**Note:** Open to Physical Therapy majors only.

**PT 660K. Graduate Physical Therapy Seminar 1K Adv. Biomechanics II.**

1 Unit

**Prerequisite(s):** BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640, PT 644, PT 645, PT 646, PT 648, PT 662, PT 669.

This elective is designed to prepare students to run a gait analysis clinic in the biomechanics laboratory. The course is one unit of lecture and one unit of lab, and covers the topics of assessment of balance, lower extremity strength assessment, special tests, and running analysis from both the research “gold standard” as well as the clinically feasible perspective with a particular focus on running.
PT 662.  Differential Diagnosis in Physical Therapy.  3 Units
Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640 and PT 646.
Corequisite(s): PT 627, PT 644, PT 645, PT 648, PT 669.
Term Typically Offered: Fall, Spring

This course focuses on learning and practicing screening techniques for physical therapists to detect medical or other problems for which a referral to a medical doctor or another health care provider is indicated. Students will learn to screen patients for dysfunction in a variety of physiological systems by taking medical history, medication history, performing a risk factor assessment and manual examination, and screening various physiological systems.

Note: Open to Physical Therapy majors only.

PT 663.  Integumentary Patient Management.  2 Units
Prerequisite(s): BIO 633, PT 600, 602, 604, 606, 608, 614, 618, 620, 622, 624, 625, 626, 627, 630, 632, 634, 636, 638, 640, 644, 645, 646, 648, 662, 669 and 695A.
Corequisite(s): PT 664, PT 665, PT 668, PT 680, PT 690.
Term Typically Offered: Fall, Spring

This course focuses on the management of patients with integumentary impairments and their related sequelae. Topics include post-surgical management of patients with amputations, prosthetics, and management of the patient with a wound or burn injury. Lecture, case presentation, video demonstrations, and laboratory activities will be used to develop patient management skills.

Note: Open to Physical Therapy majors only.

PT 664.  Neuropediatric Patient Management.  2 Units
Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 627, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640, PT 644, PT 645, PT 646, PT 648, PT 662, PT 669 and PT 695A.
Corequisite(s): PT 663, PT 665, PT 668, PT 680, PT 690.
Term Typically Offered: Fall, Spring

This course is the third part of a three course series focusing on the acquisition and integration of knowledge and skills involved in developing and implementing a treatment plan based on sound evaluative findings for the patient with neurological dysfunction. In this course, the focus is on the pediatric patient with neurological dysfunction. Case presentation, video demonstrations, and actual patient contact will be used to develop evaluation, treatment, and problem-solving skills.

Note: Open to Physical Therapy Majors only.

PT 665.  Musculoskeletal Patient Management III.  3 Units
Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 627, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640, PT 644, PT 645, PT 646, PT 648, PT 662, PT 669, PT 695A. Corequisite: PT 663, PT 664, PT 668, PT 690.
Term Typically Offered: Fall, Spring

This course builds on the foundational intervention techniques established for management of the patient with musculoskeletal dysfunction in PT 625 and PT 645. It will address additional manual therapy skills and students will apply their developing skills under faculty supervision to patients referred from the Student Health Center. Students will be responsible for patient management of a case load including accurate documentation and submission of patient records to the Student Health Center.

Note: Open to Physical Therapy Majors only.

PT 666.  Health Care Delivery in Physical Therapy II.  2 Units
Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 627, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640, PT 644, PT 645, PT 646, PT 648, PT 662, PT 669 and 695A.
Corequisite(s): PT 663, PT 664, PT 665, PT 680, PT 690.
Term Typically Offered: Fall, Spring

In this course, students will have professional practice behavior expectations and requirements previously introduced in other courses reinforced through the review of the American Physical Therapy Association documents: the Standard of Practice for Physical Therapy and the Code of Ethics, as well as the State of California’s Physical Therapy Practice Act. Additionally, students will hear from other health care professionals on their expectations of the physical therapist’s role on a health care team.

Note: Open to Physical Therapy Majors only.

PT 667.  Psychosocial Issues in Physical Therapy.  1 Unit
Prerequisite(s): BIO 633, PT 600, PT 602, PT 604, PT 606, PT 608, PT 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 627, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640, PT 644, PT 645, PT 646.
Corequisite(s): PT 627, PT 644, PT 645, PT 648, PT 662.
Term Typically Offered: Fall, Spring

This course examines psychological and social impact of and reactions to illness and physical disability. Explores elements of the psycho-social dynamics related to disability with a focus on adjustments required of the disabled and the provider. The course addresses social, cultural, personal, and familial factors which impact comprehensive rehabilitation in the clinical setting. Attention will be placed on interpersonal relationships between patients, family, health care providers, and society.

Note: Open to Physical Therapy Majors only.
PT 680. Graduate Physical Therapy Seminar II. 1 Unit
Prerequisite(s): BIO 633, PT 600, 602, 604, 606, 608, 614, 618, 620, 622, 624, 625, 626, 627, 630, 632, 634, 636, 638, 640, 644, 645, 646, 648, 662 and 669.
Corequisite(s): PT 663, PT 664, PT 665, PT 668, PT 690.
Term Typically Offered: Fall, Spring

This course, presented just prior to the final clinical internships, will review student's experiences in the curriculum and promote reflection on the professional practice of physical therapy. The course will review professional core values and expectations for clinical internships. The course will also review portfolio requirements to determine students' readiness to proceed into final internships. In addition, students will be expected to develop five year personal professional development plans.
Note: Open to Physical Therapy majors only.

PT 689. Doctoral Project Proposal. 1 Unit
Prerequisite(s): BIO 633, PT 600, 602, 604, 606, 608, 614, 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 630, PT 632, PT 634, PT 636, PT 638, PT 640, and PT 646
Corequisite(s): PT 627, PT 644, PT 645, PT 648, PT 662, and PT 669
Term Typically Offered: Spring only

The Doctoral Project Proposal must demonstrate students' understanding of the application of current evidence-based practice to physical therapist practice in a multicultural and complex health care environment. The case report proposal and oral defense are the final requirements for Advancement to Candidacy in the Doctor of Physical Therapy program. The 3000-word minimum case report completes the Writing Enriched Curriculum began in PT608 for fulfilling the Graduate Writing Assessment Requirement (GWAR) in the DPT program.
Note: Graduate Writing Intensive (GWI) course that is part of the Writing Enriched Curriculum (WEC) of the program; Open to Physical Therapy Majors only.
Credit/No Credit

PT 690. Doctoral Project/Culminating Experience. 3 Units
Prerequisite(s): BIO 633, PT 600, 602, 604, 606, 608, 614, PT 618, PT 620, PT 622, PT 624, PT 625, PT 626, PT 627, PT 630, PT 632, PT 634, PT636, PT 638, PT 640, PT 644, PT 645, PT 646, PT 648, PT 662, PT 663, PT 664, PT665, PT 668, PT 669, PT 680, and PT 695A
Term Typically Offered: Fall, Spring

The Doctoral Project/Culminating Experience may include evidence-based practice projects, clinical research projects, or case reports consistent with the Chancellor's Office Executive Order. Culminating events must demonstrate students' understandings of the application of current evidence-based practice in a multicultural and complex health care environment. They must be of sufficient rigor to ensure students' demonstrations of critical and independent thinking and abilities to interpret the research literature and apply to current physical therapist practice.

Credit/No Credit

PT 695A. Clinical Experience I. 6 Units
Prerequisite(s): BIO 633, PT 600, 602, 604, 606, 608, 614, 618, 620, 622, 624, 625, 626, 627, 630, 632, 634, 636, 638, 640, 644, 645, 646, 648, 669 and 689.
Term Typically Offered: Fall, Spring, Summer

The first full-time clinical experience in the Doctor of Physical Therapy (DPT) program curriculum totals 12 weeks of clinical education in an assigned clinical setting under the direct supervision of a licensed physical therapist. Students improve and refine evaluation and treatment abilities developed during their first two academic years and integrate knowledge and skills in a selected variety of clinical settings.
Note: Open to Physical Therapy majors only who have successfully completed the first five semester of the DPT curriculum.
Credit/No Credit

PT 695B. Clinical Experience II. 6 Units
Prerequisite(s): BIO 633, PT 600, 602, 604, 606, 608, 614, 618, 620, 622, 624, 625, 626, 627, 630, 632, 634, 636, 638, 640, 644, 645, 646, 648, 669, 689, 663, 664, 665, 668, 690 and 695A.
Term Typically Offered: Fall, Spring, Summer

The second full-time clinical education experience in the Doctor of Physical therapy (DPT) program curriculum totals 12 weeks of clinical education in an assigned clinical setting under the direct supervision of a licensed physical therapist. Students improve and refine patient management skills and abilities developed during their first seven semesters.
Note: Open to Physical Therapy majors only who have successfully completed the first seven semesters of the DPT curriculum.
Credit/No Credit

PT 695C. Clinical Experience III. 6 Units
Prerequisite(s): BIO 633, PT 600, 602, 604, 606, 608, 614, 618, 620, 622, 624, 625, 626, 627, 630, 632, 634, 636, 638, 640, 644, 645, 646, 648, 669, 689, 663, 664, 665, 668, 690, 695A, and 695B.
Term Typically Offered: Fall, Spring, Summer

The third full-time clinical education experience in the Doctor of Physical therapy (DPT) program curriculum totals 12 weeks of clinical education in an assigned clinical setting under the direct supervision of a licensed physical therapist. Students improve and refine patient management skills and abilities developed during their first eight semesters.
Notes: Open to Physical Therapy majors only who have successfully completed the first eight semesters of the DPT curriculum.
Credit/No Credit

PT 695J. Graduate Physical Therapy Seminar IJ Adv. Biomechanics I. 2 Units
Prerequisite(s): BIO 633, PT 600, PT 602, PT 608, PT 630, PT 604, PT 606, PT 614, PT 618, PT 620, PT 622, PT 623, PT 634, PT 636, PT 638, PT 640, PT 624, PT 625, PT 626, PT 640, and PT 646
Corequisite(s): PT 627, PT 644, PT 645, PT 648, PT 669, and PT 662
This elective is designed to prepare students to run a gait analysis clinic in the biomechanics laboratory. The course is one unit of lecture and one unit of lab, and covers the topics of assessment of balance, lower extremity strength assessment, special tests, and running analysis from both the research “gold standard” as well as the clinically feasible perspective with a particular focus on running.
Note: Fall semester only
Physics (PHYS)

PHYS 1. Physical Reasoning and Calculation. 2 Units
Term Typically Offered: Fall, Spring

Introduction to the analytical skills needed for the study of Physics. The focus is to prepare students to take PHYS 11A, however, PHYS 1 is also suitable as preparation for PHYS 5A. Emphasis is on reasoning and problem-solving, including conceptualization, visualization, and interpretation of written descriptions of physical situations, and on the connection of physical laws to the mathematical techniques used in their solution.

PHYS 2. Topics in Elementary Physics. 4 Units
Prerequisite(s): A recent one year course in high school algebra and one year of plane geometry or a college course in algebra (MATH 9).
General Education Area/Graduation Requirement: Physical Science (B1)
Term Typically Offered: Fall, Spring

One semester introductory physics course including a laboratory. Covers the fundamental concepts of physics with an emphasis on everyday life situations and applications. The range of material includes mechanics, waves, electricity and optics. One hour lecture, two hour discussion, and a three hour laboratory session.

PHYS 5A. General Physics: Mechanics, Heat, Sound. 4 Units
Prerequisite(s): Recently completed three years of high school algebra and geometry; and a college course in algebra and trigonometry (MATH 9 recommended) for those having an inadequate mathematics background.
General Education Area/Graduation Requirement: Laboratory (B3), Physical Science (B1)
Term Typically Offered: Fall, Spring, Summer

The PHYS 5A-B sequence is a two-semester course in introductory physics in which fundamental concepts are emphasized including some physiological applications. Lecture two hours; discussion one hour; laboratory three hours.

PHYS 5B. General Physics: Light, Electricity and Magnetism, Modern Physics. 4 Units
Prerequisite(s): PHYS 5A or instructor permission.
Term Typically Offered: Fall, Spring, Summer

Lecture two hours; discussion one hour; laboratory three hours.

PHYS 10. Physics In Our World. 3 Units
General Education Area/Graduation Requirement: Physical Science (B1)
Term Typically Offered: Fall, Spring

Introductory course designed for non-science students completing general education requirements. Students will be introduced to basic concepts in Physics through the study of astronomy, atomic nature of matter, electromagnetic waves, energy, sound and earthquake waves, current electricity, magnetism, and nuclear processes. Development of reasoning and quantitative skills and applying them to scientific and technological topics of current importance will be emphasized.

PHYS 10L. Physics In Our World Laboratory. 1 Unit
Prerequisite(s): PHYS 10; may be taken concurrently.
Term Typically Offered: Fall, Spring

Laboratory course complements PHYS 10 and satisfies the general education science lab requirement. Emphasis is placed on the nature of scientific observation and measurement and their relationship to general physical concepts. Students will be given a concrete, hands-on sense of observing and interpreting data from a variety of experimental environments.

PHYS 11A. General Physics: Mechanics. 4 Units
Prerequisite(s): MATH 30, MATH 31; or equivalent certificated high school courses. MATH 31 may be taken concurrently.
General Education Area/Graduation Requirement: Laboratory (B3), Physical Science (B1)
Term Typically Offered: Fall, Spring, Summer

PHYS 11 A, B, and C is a three semester course in introductory physics requiring elementary calculus. This course satisfies the lower division physics requirement for a major in physics, chemistry, geology, or engineering. PHYS 11A covers the basics of classical mechanics, including kinematics, Newton's laws, conservation laws and rotational dynamics. Lecture two hours; discussion one hour; laboratory three hours.

PHYS 11B. General Physics: Heat, Light, Sound, Modern Physics. 4 Units
Prerequisite(s): PHYS 11C.
Term Typically Offered: Fall, Spring

PHYS 11 A, B, and C is a three semester course in introductory physics requiring elementary calculus. This course satisfies the lower division physics requirement for a major in physics, chemistry, geology, or engineering. PHYS 11B covers the basics of thermodynamics, light propagation, sound, and an introduction to modern physics. Lecture two hours; discussion one hour; laboratory three hours.

PHYS 11C. General Physics: Electricity and Magnetism. 4 Units
Prerequisite(s): MATH 31, PHYS 11A.
Term Typically Offered: Fall, Spring, Summer

PHYS 11 A, B, and C is a three semester course in introductory physics requiring elementary calculus. This course satisfies the lower division physics requirement for a major in physics, chemistry, geology, or engineering. PHYS 11C covers the basics of electricity and magnetism. Lecture two hours; discussion one hour; laboratory three hours.

PHYS 30. Science and Pseudoscience. 3 Units
General Education Area/Graduation Requirement: Critical Thinking (A3)
Term Typically Offered: Fall, Spring

Examination of the methodology of science. Comparison of legitimate investigations with others that do not meet high scientific standards, including both science poorly done and nonsense posing as science. Examples will be drawn primarily from the physical sciences. Analyzes will require study of basic skills of reasoning, types of logical argument, structure and validity of arguments, common reasoning fallacies, critical evaluation of evidence, and understanding of the scientific thinking process.

All courses are offered as 3 Units unless otherwise noted.
PHYS 150. Quantum Mechanics. 3 Units
Prerequisite(s): MATH 45, PHYS 106, PHYS 110.
Term Typically Offered: Fall only

Foundations of wave mechanics, including wave packets, superposition, and the uncertainty principle. The Schroedinger equation and its relation to operators and eigenstates. Symmetric systems and conserved quantities. Introduction to matrix mechanics, spin, scattering, and perturbation theory.

PHYS 151. Advanced Modern Physics. 3 Units
Prerequisite(s): PHYS 150.
Term Typically Offered: Spring only

Structure of matter including basic elements of atoms, molecular, solid state, nuclear and particle physics. Topics will also include photon and electron gases, lasers, superconductivity, Bose-Einstein condensation and superfluidity.

PHYS 156. Classical and Statistical Mechanics. 3 Units
Prerequisite(s): PHYS 110, PHYS 124.
Term Typically Offered: Fall only

PHYS 162. Scientific Computing: Basic Methods. 3 Units
Prerequisite(s): MATH 26A or MATH 30 and PHYS 5A, or MATH 30 and PHYS 11A, or MATH 105A concurrently.
Term Typically Offered: Fall only

Basic methods and skills of applying computers to the solution of scientific problems. Numerical calculation methods, numbers and data, algebraic equations, rate processes, iterative techniques, approximation methods, statistical analysis and data fitting, relaxation methods, and use of software and other programming resources on the web. Practical experience emphasized throughout.

PHYS 163. Scientific Computing: Modeling, Simulation, and Visualization. 3 Units
Prerequisite(s): PHYS 162.
Term Typically Offered: Spring only

Application of computer modeling, simulation, and visualization to the solution of scientific problems. Projects drawn from various scientific disciplines will be used to develop the necessary skills, including a capstone project. Examples include projectile motion with air drag, time development of a biological population, chemical reactions with several reactants, and random walk and Monte Carlo methods. Practical experience emphasized throughout.

PHYS 164. Physics of Energy and the Environment. 3 Units
Prerequisite(s): Completion of GE Area B1
General Education Area/Graduation Requirement: Further Studies in Area B (B5)

Our society requires and consumes energy. In this course, students will gain an understanding of the wide variety of our energy sources and how the energy is generated, distributed, and stored. We will examine the large scale and small scale role that energy plays in society and the impact that energy policy and practices have on the environment.

PHYS 172. Biological Physics. 3 Units
Prerequisite(s): MATH 26A or MATH 30, PHYS 5A and PHYS 5B; or PHYS 11A and PHYS 11B and PHYS 11C.
Term Typically Offered: Fall only

Investigation of subcellular and cellular biological systems using the fundamentals of physics. Topics will include a quantitative treatment of: the role of forces and energy in biology; thermodynamics of living systems; biopolymer, cytoskeletal and cellular mechanics; the physics of molecular motors and intracellular transport; applications of physical tools to study biological systems. Focus is on the interplay between physics and biology, and on how physical properties determine the biological function and behavior of living systems.

Note: PHYS 11B or PHYS 5B may be taken concurrently with instructors consent; no biology coursework is required, though some knowledge of cell biology is helpful, and it is recommended that students consider taking a lower-division college course in biology prior to enrollment.

PHYS 175. Advanced Physics Laboratory. 2 Units
Prerequisite(s): 12 units of upper division physics, including PHYS 106 and either PHYS 115 or PHYS 145 and a satisfaction of the Advanced Writing requirement.
Term Typically Offered: Fall, Spring

Advanced experiments chosen from several of the major areas of physics, performed usually on an individual basis. Laboratory six hours.

PHYS 181. Modern Physics for Everyone. 3 Units
Prerequisite(s): Completion of GE Area B1 and B4.
General Education Area/Graduation Requirement: Further Studies in Area B (B5)

A conceptual course in the topics of modern physics including Quantum Mechanics, Special Relativity, and other contemporary topics for a general audience. This course meets General Education Area B5 (Further Studies in Physical Science, Life Forms, and Quantitative Reasoning) and satisfies the upper-division Area B requirement.

PHYS 182. Physics of Sports. 3 Units
Prerequisite(s): Completion of GE Area B1 and B4.
General Education Area/Graduation Requirement: Further Studies in Area B (BS)

Term Typically Offered: Fall, Spring

A conceptual course in the application of the laws of physics in the context of sport. Focusing mainly on classical physics, we will cover topics such as force, energy, momentum, collisions, pressure, and fluids to explain what we see on the court, field, pool, and road. This course meets General Education Area B5 (Further Studies in Physical Science, Life Forms, and Quantitative Reasoning) and satisfies the upper-division Area B requirement.

PHYS 184. Physics of Energy and the Environment. 3 Units
Prerequisite(s): Completion of GE Area B1
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring

Our society requires and consumes energy. In this course, students will gain an understanding of the wide variety of our energy sources and how the energy is generated, distributed, and stored. We will examine the large scale and small scale role that energy plays in society and the impact that energy policy and practices have on the environment.
PHYS 186.  Musical Acoustics: Science and Sound.  3 Units
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring
Physical principles of vibration and wave motion, with illustrations involving musical instruments and concert hall acoustics; principles of electronic synthesis, recording, and reproduction of sound; operation of the human ear and brain in receiving and analyzing sound; relation of the harmonic series to sound quality, harmony and scales; proper roles for science in explaining music as an artistic activity.
Note: No technical background required; course cannot be used to meet Physics BS program requirements. It is recommended that student have already completed their B1 and B4 requirement prior to enrollment. Some experience with music is also helpful.

PHYS 187.  Seeing the Light.  3 Units
Prerequisite(s): Completion of GE Area B1 and B4.
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall only
An extensive study of light, mostly in the context of applications. Topics include basics of light and natural phenomena, optics, color, light and energy (solar power), and holography; as well as more advanced topics such as wave/particle model of light, diffraction and polarization. The course will also cover optical instrumentation such as cameras, microscopes, telescopes, displays, and photoreceptors.

PHYS 190.  Physics Seminar.  1 - 2 Units
Term Typically Offered: Fall, Spring
Special lecture series on announced topics by local and visiting speakers, emphasizing current research developments, with related reading assignments.
Note: May be taken for credit in sequential semesters for a maximum of two units total.
Credit/No Credit

PHYS 191.  Senior Project.  1 - 2 Units
Prerequisite(s): Department chair permission.
Term Typically Offered: Fall, Spring
Research Project under faculty supervision. Project may consist of laboratory or theoretical research project, instrumentation/demonstration development, or literature research project. Projects require written and oral reports.
Note: May be taken for credit in sequential semesters for a maximum of four units total. Grade assigned upon completion of the project.

PHYS 194.  Physics Related Work Experience.  6 - 12 Units
Prerequisite(s): Upper-division status and Department Chair permission.
Term Typically Offered: Fall, Spring
Supervised employment in a physics or astronomy related company or agency. Placement is arranged through the department and the Cooperative Education Program office. Requires completion of a three-to-six month work assignment and a written report.
Note: PHYS 194 may not be used to meet major requirements in Physics; May be taken for credit in sequential semesters
Credit/No Credit

PHYS 195.  Teaching Internship.  1 - 2 Units
Prerequisite(s): Completion of all math and physics lower division courses for the B.A. in Physics. Approval from the Teacher Preparation Concentration Coordinator.
Term Typically Offered: Fall, Spring
Supervised teaching internship for high school physics class, or for one of the following courses: PHYS 2, 5A-B, 10, 11A-C, 107, or ASTR 4. The students will meet weekly with the faculty teaching this class, and with their supervisor or mentor to help prepare and teach the class.
Note: May be taken for credit in sequential semesters for a maximum of six units total.

PHYS 196.  Cooperative Education Program.  3 Units
General Education Area/Graduation Requirement: Further Studies in Area B (B6)
Term Typically Offered: Fall, Spring
May be taken for credit in sequential semesters for a maximum of six units total.

PHYS 197.  Laboratory Teaching Assistant.  1 - 2 Units
Prerequisite(s): Completion of all math and math lower division courses required for the B.A. in Physics. Completion of the same course in which the student will take this class with a grade higher than B and/or consent from the Teacher Preparation Concentration program coordinator.
Term Typically Offered: Fall only
Student will be a supervised laboratory teaching assistant for one of the following courses: PHYS 2, 5A-B, 10, 11A-C, 107, or ASTR 6. The student will meet weekly with the faculty teaching this class, and with their supervisor or mentor to help prepare and teach the laboratory.
Note: May be taken for credit in sequential semesters for a maximum of six units total.

PHYS 198.  Co-Curricular Activities.  1 - 3 Units
Term Typically Offered: Spring only
Students may provide special tutoring to students taking physics courses, participate in community oriented projects, assist in activity sessions for teacher training courses, or engage in activities related to the subject matter and concerns of the Physics and Astronomy Department. Up to 4 units may be taken.
Credit/No Credit

PHYS 199.  Special Problems.  1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading. Open only to students who appear competent to assume individual work on the approval of the instructor. Up to 4 units may be taken for grade.
Credit/No Credit

Political Science (POLS)

POLS 1.  Essentials Of Government.  3 Units
General Education Area/Graduation Requirement: GE AREA D, U.S. Constitution + California State & Local Govt
Term Typically Offered: F_S_S_W
Examines the U.S. Constitution, the U.S. system of governments and the ideas and values on which they are based. Fulfills state code requirements for U.S. Constitution and California State and Local Government. Students who believe they have a good fundamental knowledge of the institutions of American Government are encouraged to consider a designated upper division course to fulfill the state requirement.
POLS 1H.  Honors Government.  3 Units  
General Education Area/Graduation Requirement: GE AREA D, U.S. Constitution + California State & Local Govt  
Term Typically Offered: Fall, Spring  
Explores some of the most influential works of politics and political writing in American history, and challenges contemporary analysis of political institutions and processes. Examines the structure of the Constitution, issues of federalism, the growth of civil rights, and the processes of government, with a comparative element. Explores the unique characteristics of California state politics.  

POLS 10.  The Meaning of Government: An Introduction to Political Ideas.  3 Units  
General Education Area/Graduation Requirement: Humanities (Area C2)  
Term Typically Offered: Fall only  
Examination of the ideas of various authors about governing and being governed. Topics include: the scope and limits of freedom, the causes and characteristics of the state, the content of politics, the nature of authority, the problems of power and the duty to obey.  

POLS 21.  First Year Seminar: Becoming an Educated Person.  3 Units  
General Education Area/Graduation Requirement: Understanding Personal Development (E)  
Term Typically Offered: Fall, Spring  
Introduction to the meaning of higher education, the resources of the University, and skills for lifelong learning. Designed to help students develop academic success strategies, and to improve information literacy, intercultural competence, and integrative thinking. Provides students with the opportunity to interact with fellow students and seminar faculty to build a community of academic and personal support. Units may not be applied toward Political Science, International Relations, or Political Science-Journalism majors, or Political Science minor.  

POLS 35.  World Politics.  3 Units  
General Education Area/Graduation Requirement: GE AREA D  
Term Typically Offered: Fall, Spring  
Basic introduction to global politics focusing on a broad range of issues and problems relating to conflict and cooperation among nations, and on similarities and differences among nations' governmental institutions, structures and processes.  

POLS 96.  California Constitution & Government.  1 Unit  
Prerequisite(s): Instructor approval required.  
Examines the California state constitution, the structure and role played by both the state government and local governments in California. Students who pass the course will petition the Dean of Undergraduate Studies for credit in meeting the California Government portion of the American Institution requirement.  
Note: Experimental course.  
Credit/No Credit  

POLS 100.  Introduction to Research Methods in Political Science.  3 Units  
Term Typically Offered: Fall, Spring  
Examines the foundations of scientific research methodology in political and social science. Designed to introduce students to the basic conceptual, observational and analytical methods of empirical research in political science and related social sciences.  

POLS 102.  Quantitative Reasoning in Political Science.  3 Units  
General Education Area/Graduation Requirement: Further Studies in Area B (B5)  
Term Typically Offered: Fall only  
Exploration and applications of analytical reasoning to topics and issues in political science. Focuses on the quantitative aspects of political behavior, interactions, and institutions. Topics may include electoral systems, rational choice, models of voting, polling, redistricting, and game theory.  

POLS 110.  Political Thought I.  3 Units  
Term Typically Offered: Fall, Spring  
History of political theory, covering some important thinkers and topics during the Ancient, Medieval and Early Modern periods.  

POLS 111.  Political Thought II.  3 Units  
Term Typically Offered: Fall, Spring  
History of political theory, covering some important thinkers and topics from the Early Modern period to the early 20th century.  

POLS 112.  Current Political Thought.  3 Units  
Term Typically Offered: Fall, Spring  
Current issues in political thought, with emphasis upon developments in the political philosophies of democracy, fascism, communism, conservatism, liberalism. Ideas are analyzed with reference to assumptions on which they are based and their relevance for political institutions and problems.  

POLS 113.  American Political Thought.  3 Units  
General Education Area/Graduation Requirement: U.S. Constitution + California State & Local Govt, GE AREA D  
Term Typically Offered: Fall, Spring  
Assessment of ideas that are central to the development of an American political tradition, as those ideas influence government at the federal, state and local levels. Meets the state requirements in U.S. Constitution and California State and Local Government.  

POLS 115.  Democratic Theory.  3 Units  
Term Typically Offered: Spring only  
Introduction to basic questions of democracy. Draws on classical and contemporary writings to explore what democracy means and various forms of democratic government, politics, and culture: direct, representative, liberal, republican, pluralist, elitist. Specific topics may include: definitions of democracy, justifications for democracy, arguments for increasing or limiting democratic participation, tasks of political representatives, democratization of social institutions, and the relationship between globalization and democracy.  

POLS 117.  Black Political Thought.  3 Units  
Term Typically Offered: Spring only  
Systematically and analytically introduces the predominant political trends and concepts presently entertained and harbored in the Black Community. A necessary adjunct to this dialogue is the racist theme in American society since on balance this is the matrix out of which the political alternatives and concepts grew. Cross Listed: ETHN 117; only one may be counted for credit.
POLS 118. Just War, Natural Right, and the Law of Nations.  3 Units
Term Typically Offered: Fall only
Examines fundamental conceptual questions about morality, law, and international relations through great works of political theory. Topics will cover natural right, sovereignty, just war, imperialism, national security, and international obligations. Authors read will include Thucydides, Aristotle, Aquinas, Machiavelli, Grotius, Montesquieu, Kant, Hegel, Marx, Mill and Nietzsche.

POLS 119A. Socialism Marxism-Communism.  3 Units
Term Typically Offered: Fall only
Analyzes the basic writings and ideas of Socialist and Marxist writers and the implications of their ideas.

POLS 119B. Greek Political Thought.  3 Units
Term Typically Offered: Fall only
Study of the political thought of Greece from Homer to Demosthenes, including Plato, Thucydides, Sophocles, and other Greek thinkers. Topics include the birth of democracy, the sciences and philosophy. Athens’ rise to prominence, its defense of freedom against Persia, and its own development of an empire. Examination of Greek thoughts about justice, authority, freedom, equality, and culture. The events that shaped ideas and ideas that shaped events, as well as our understanding of the modern world, will be covered.

POLS 119D. Shaping of the Modern World.  3 Units
Term Typically Offered: Spring only
This course examines major problems that have shaped the modern world, the historical and intellectual roots of the modern world, and debates over the meaning of modernity. Considers how both advocates and critics of modernity have understood the relation of history, philosophy, politics, nature, religion, economics, and other key concepts. Specific topics may include: the development of modern science, technological progress, democratic institutions, capitalism, colonialism, secularization, religious tolerance, and individual freedom.

POLS 120A. Constitutional Law.  3 Units
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Fall, Spring
Basic junior level course in Public Law. A study of leading decisions of the U.S. Supreme Court and other materials pertaining to the power of Congress, the President and the Judiciary; relations between states and nation; and civil rights. Considers such topics as the separation of powers, judicial review, Congress, and the President.

POLS 120B. Constitutional Rights and Liberties.  3 Units
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Fall, Spring
Basic junior level course in Public Law. A study of rights and immunities under the U.S. Constitution: examines leading decisions of the U.S. Supreme Court and other materials pertaining to freedom of expression, freedom of association, equality and due process of law.

POLS 121. American Legal History.  3 Units
Term Typically Offered: Fall only
Examines the interaction of law, society, and politics in America from the colonial period to the present with special emphasis on law as an arena of social and cultural conflict. Major topics include the development of the common law in early America; the law of slavery and its impact on constitutional development; the role of the law in defining controversies over race and gender; legal thought and education; and the role of the Supreme Court in 20th Century America. Cross Listed: HIST 180; only one may be counted for credit.

POLS 122. The Law and Bureaucracy.  3 Units
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Not offered
Examines constitutional and statutory limits of bureaucratic power in the American political system.

POLS 123. Elements Of Law.  3 Units
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Fall only
Current legal thought in the U.S. with special emphasis on the relationship of law to history, economics, anthropology, and government; the nature of law; the role of legislators, lawyers, and judges in making the legal system.

POLS 126. Politics and Lawyers.  3 Units
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Fall, Spring
Examines and analyzes the pervasiveness of lawyers and their activities in political realities; what do lawyers do; politics of prosecution and defense; politics within the profession; professional mobility; politics of the judiciary; lawyers in government.

POLS 127. International Law.  3 Units
Term Typically Offered: Spring only
This course links both theoretical and practical aspects of international law and international relations, from the traditional law of nations to individual subjects, jurisdictions, and immunities. The course surveys topics such as genocide, human rights, immigration, the use of force, international courts and tribunals, the environment, and the law of the sea, using illustrative court cases, treaties, and customs that establish important precedents in international law.

POLS 128. Environment and the Law.  3 Units
Term Typically Offered: Spring only
Introduction to environmental law, including: the evolution of environmental legislation, environmental issues in the court system, environmental regulation and administrative law and environmental torts. Emphasis is on understanding legal process and the special challenges environmental problems present to the legal system. Cross Listed: ENVS 128; only one may be counted for credit.

POLS 130. International Politics.  3 Units
Term Typically Offered: Fall, Spring
Basic junior-level course in International Relations. Current international tensions; the motivating forces influencing world politics; and the role of diplomacy and international organizations in resolving conflicts.
Hiroshima. The problem of international security in the Nuclear Age is also addressed.

**POLS 132. War and Peace in the Nuclear Age.**
3 Units

Examines human efforts to create supranational organizations to promote world peace and prosperity. The focus will be on social, political, and economic activities and problems which have developed and proliferated since the end of the second World War.

**POLS 133. American Defense and National Security.**
3 Units

Covers the discovery of atomic fission, the development of the atomic bomb and the evolution of U.S. nuclear weapons and strategy from 1945 to the present. It examines political, strategic, bureaucratic, economic and cultural forces that have shaped U.S. nuclear policy since Hiroshima. The problem of international security in the Nuclear Age is also addressed.

**POLS 134. War, Peace and the Mass Media.**
3 Units

Examines human efforts to create supranational organizations to promote world peace and prosperity. It focuses on social, political, and economic activities and problems which have developed and proliferated since the end of the second World War.

**POLS 135. American Foreign Policy.**
3 Units

Covers basic theoretical approaches; historical evolution of international economy; creation and role of international financial institutions; development issues; globalization and integration.

**POLS 136. International Political Economy.**
3 Units

This course examines the origins and evolution of the theory and practice of international development; considers the meaning of international development; examines theoretical models and approaches to understanding the conditions, effects, and processes of international development. It explores the history and current state of theories and approaches to international development and addresses contemporary and essential issues in the field.

**POLS 137. Nationalism.**
3 Units

This undergraduate seminar examines writings and other materials that analyze how race and racism, class and economic exploitation, gender and patriarchy, and intersectionality have influenced the theory and practice of international relations from the sixteenth through the twenty-first centuries.

Term Typically Offered: Spring only

**POLS 138. UN Simulation.**
3 Units

Examines human efforts to create supranational organizations to promote world peace and prosperity. It focuses on social, political, and economic activities and problems which have developed and proliferated since the end of the second World War.

Term Typically Offered: Fall, Spring

**POLS 138B. UN Simulation Practicum.**
3 Units

Prerequisite(s): POLS 138. Instructor permission only.

Term Typically Offered: Spring only

This course examines the origins and evolution of the theory and practice of international development; considers the meaning of international development; examines theoretical models and approaches to understanding the conditions, effects, and processes of international development. It explores the history and current state of theories and approaches to international development and addresses contemporary and essential issues in the field.

Term Typically Offered: Fall only – odd years

Prerequisite: An upper division course in the field and/or instructor permission.

**POLS 139A. Globalization.**
3 Units

Explores the nature of, and issues in, globalization. It does so in five parts. Part I examines alternative conceptions of globalization. Part II identifies and examines the primary forms of economic globalization. Part III considers globalization's effects on the territorial state, the welfare state, organized violence, culture, immigration, gender, and the environment. Part IV investigates the politics of the anti-globalization backlash. Part V concludes with an assessment of the shape and future of contemporary globalization.

Term Typically Offered: Fall only – even years

Prerequisite(s): GOVT 130 or Instructor Permission

**POLS 139B. International Politics and International Development.**
3 Units

This course examines the origins and evolution of the theory and practice of international development; considers the meaning of international development; examines theoretical models and approaches to understanding the conditions, effects, and processes of international development. It explores the history and current state of theories and approaches to international development and addresses contemporary and essential issues in the field.

Term Typically Offered: Fall only – even years

Prerequisite(s): GOVT 130 or Instructor Permission

**POLS 139C. Critical Writings in International Relations.**
3 Units

This undergraduate seminar examines writings and other materials that analyze how race and racism, class and economic exploitation, gender and patriarchy, and intersectionality have influenced the theory and practice of international relations from the sixteenth through the twenty-first centuries.

Term Typically Offered: Fall only – odd years

Prerequisite(s): POLS 130

Credit/No Credit

Prerequisite(s): GOVT 135 or GOVT 150

Term Typically Offered: Spring only

Prerequisite(s): GOVT 1 or GOVT 150

Term Typically Offered: Not offered

Prerequisite(s): GOVT 1 or GOVT 150

Term Typically Offered: Spring, Summer

Prerequisite(s): GOVT 1 or GOVT 150

Term Typically Offered: Fall only

Prerequisite(s): GOVT 1 or GOVT 150

Term Typically Offered: Fall, Spring

Prerequisite(s): GOVT 1 or GOVT 150

Term Typically Offered: Spring, Summer

Prerequisite(s): GOVT 1 or GOVT 150

Term Typically Offered: Spring only

Prerequisite(s): GOVT 1 or GOVT 150

Term Typically Offered: Spring only

Prerequisite(s): GOVT 1 or GOVT 150

Term Typically Offered: Fall only

Prerequisite(s): GOVT 1 or GOVT 150

Term Typically Offered: Fall only

Prerequisite(s): GOVT 130 or Instructor Permission

Term Typically Offered: Fall only
POLS 139G. Intelligence and Espionage. 3 Units
Term Typically Offered: Fall only

Involves students in the study of the field of intelligence, as it relates to national security, foreign policy, law and ethics. Comparative analysis of the practice and experience of the U.S., the former Soviet Union and other nations will be emphasized.

POLS 139S. Topics in Human Security. 3 Units
Term Typically Offered: Spring only

This course introduces students to the broad field of the study of human security and many essential current topics in that field, such as access to food and water, security against personal violence, and economic security. Students will examine how international forces and structural elements of society can endanger or ensure the security of groups and individuals within the borders of nation-states. Students will learn to research, analyze, and address the connections between international forces and their affects upon human beings around the world.

POLS 139E. International Conflict and Ethnicity. 3 Units
Term Typically Offered: Fall, Spring

This course examines the role of ethnicity or identity in violent and nonviolent international conflicts. This course traces the dynamics of violent and nonviolent conflicts around the globe from a comparative approach, and unpacks the role identity plays in the mobilization, strategies, and responses of the international community to these conflicts.

POLS 139. Government and Politics in Africa. 3 Units
Term Typically Offered: Spring only

Deals with the politics and governments of Africa. The most important themes concern precolonial African systems, colonialism, nationalism and nation-building. Previous exposure to African Studies is desired but not required.

POLS 140. Comparative Politics. 3 Units
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Fall, Spring

Survey of the field of comparative government and politics including a review of historic uses of comparison in political science research but with emphasis on the methods of study and analytical means of research currently employed. The subject matter of study: national political systems of all types and the component parts of political systems will be an integral feature.

POLS 141. Politics of the African Diaspora. 3 Units
General Education Area/Graduation Requirement: GE AREA D, Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall only

Examines the social, political, cultural, and economic factors which have been important to the African diaspora. Examines how African people have responded to those factors, both in terms of formal, political thought, and in terms of political movements and political institutions. Examines thought and practice, comparability to Africa, U.S., Caribbean, Central and South America. Cross Listed: ETHN 141; only one may be counted for credit.

POLS 142. Government and Politics in Africa. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Spring only – even years

Survey of the governmental institutions and the political processes in the region, with emphasis on the problems of social change. Focuses on the colonial situation, the growth of nationalism, the revolution of rising expectations, Islamic political theory and its contemporary manifestations, the role of the military, and the current regional conflicts.
POLS 149A. Original Research in Comparative Politics. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X. POLS or IR majors or instructor consent only.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Students will engage in a cross-national research agenda. Students will conduct original research in comparative politics. Countries and topics acceptable for comparison will vary with instructor.

POLS 149R. Comparative Revolutions. 3 Units
Term Typically Offered: Fall, Spring

This course is primarily concerned with the causes, trajectories, and consequences of major revolutions and revolutionary movements of the 20th and 21st centuries. The course addresses the questions: what defines a revolution? What are the causes of revolutionary social change? Why do some revolutions fail to achieve their intended objectives and others succeed? How can political scientists investigate the possibility of objectively assessing revolutionary success or failure?

POLS 150. American Governments. 3 Units
General Education Area/Graduation Requirement: U.S. Constitution + California State & Local Govt, GE AREA D
Term Typically Offered: Fall, Spring, Summer

Federal system of government; the U.S. Constitution; legislative, executive, and judicial processes; political parties, interest groups, and the relationships and obligations of citizens to their government(s). Fulfills the California state graduation and credential requirements for U.S. Constitution and California State and Local Government. May be substituted for GOVT 1, but may not be used as an elective toward the major.

POLS 151. Bureaucracy. 3 Units
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Not offered

Evaluation of the role and background of a professionalized bureaucracy with references to American national, state and local administrative systems as well as non-American administrative systems.

POLS 152. Political Psychology. 3 Units
Term Typically Offered: Fall, Spring

Examines the ways in which political behavior is shaped by individual beliefs, personalities, cognitive patterns, biases, and other psychological mechanisms. Students will engage with a wide range of research on topics such as cognitive styles, personality, obedience, psychological roots of terrorism, the psychology of ideology, and the role of emotion in politics.
Cross Listed: PSYC 153

POLS 153. The American Presidency. 3 Units
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Spring only

Examines the development of the Presidency as an institution; sources and uses of presidential power in contemporary politics; the President’s relationship with Congress and the bureaucracy; and current issues relating to the office.

POLS 154. Political Parties in America. 3 Units
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Fall, Spring

Examination and analysis of American political parties. An exploration of the nature and functions of political parties including party organization, electorate, and government. Topics include the various historical party systems, the two-party system, elections, and campaign financing. Includes discussion of the presidential nominating process.

POLS 155. United States Congress. 3 Units
Term Typically Offered: Fall only

Analysis of the historical, political, and institutional factors which influence Congress in the United States. Explores the historical development and organization of the institution, the role of leadership and political parties, chamber differences, congressional elections, and the relationship with the executive branch. Examines the legislative process. Evaluates the nature of representation in contemporary society.

POLS 156. Interest Groups. 3 Units
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Fall only – odd years

Examination and analysis of interest groups in American political systems. The nature, role, formation, organization and activities of interest groups; how interest groups influence the public, political campaigns, public policy-making, and policy implementation. Representative interest groups will be studied.

POLS 157. Politics, Opinion, and Participation. 3 Units
Term Typically Offered: Fall, Spring

How we learn and change our political beliefs, including the influence of media, religion and social standing. The various forms of political participation; who participates and who doesn’t and why. The meaning and conduct of elections in the modern era.

POLS 158. Mass Media and American Politics. 3 Units
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Fall only

Focuses on the role the mass media plays in the political life of our democracy. Five primary topics are covered: the proper media role in a democracy; the relationship between the media, public opinion and agenda setting; the effects of media coverage on campaigns, elections, and voting; how elected officials influence and “spin” coverage; and the impact of media on policy-making. Students will develop critical analysis skills and emerge as more savvy media consumers and citizens.

POLS 159A. Campaigns and Elections. 3 Units
Term Typically Offered: Fall only – even years

Exploration of American campaigns and elections. Topics include the electoral process, voting behavior, the role of political parties, the media, interest groups, and candidate and campaign strategies. Focus will be on contemporary/current campaigns and elections.

POLS 159B. American Politics Seminar: Problems in Democratic Institutions. 3 Units
Term Typically Offered: Not offered

Examines the concept of representation and how it functions in the U.S. Congress and in state legislatures. In the first section different meanings of representation are discussed. In the second section interactions between legislators and their constituents are explored. Finally, the tradeoffs to different designs of representative institutions are studied.
POLS 159D. Politics, Immigration, and Citizenship. 3 Units
Prerequisite(s): GOVT 1
Term Typically Offered: Fall, Spring

This course will provide an overview of the political discussions and decisions related to immigration and citizenship in the US. More specifically, this course examines: (1) key political and policy actors in the development of immigrant admissions and immigrant integration policies, (2) the nature and consequences of immigration at the national, state, and local levels, (3) evolving racial and ethnic relations in the US, (4) public opinion and immigration-immigrants participation in American political life, and (5) contemporary issues.

POLS 162. American Film and Culture in the Nuclear Age. 3 Units
Term Typically Offered: Fall only

Explores the impact of the revolutionary change represented by the atomic bomb on forms of cultural response and expression in America. Attempts to analyze the bomb-culture relationship by reviewing important films, television programs, novels, essays, music and poetry that revealed, and helped shape, the hopes and anxieties that have characterized life in the nuclear age.

POLS 163. Introduction to Black Politics in the U.S. 3 Units
Prerequisite(s): GOVT 1 or GOVT 150
General Education Area/Graduation Requirement: GE AREA D, Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring, Summer

Examines historically and currently the political life of black people in the U.S. Emphasis on understanding underlying conditions.

POLS 164. History of American Capitalism. 3 Units
Term Typically Offered: Spring only

Traces the development of the relationship between business and government in the U.S., especially in relation to state and federal regulations of those industries. Examines how individual entrepreneurs and regulators have contributed to the development of the modern American political economy.

Cross Listed: HIST 164; only one may be counted for credit.

POLS 165. Politics of the Underrepresented. 3 Units
Prerequisite(s): GOVT 1 or GOVT 150; and GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), GE AREA D, Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring, Summer

Examines the phenomenon of political underrepresentation in the U.S.A. It will identify significant affected groupings, examine the conditions which have resulted in such underrepresentation, evaluate the effects of underrepresentation on the lives of affected groups, and consider relevant political strategies. Emphasis on particular groups may vary with instructor.

POLS 166. Gender and Politics. 3 Units
Term Typically Offered: Spring only

This course examines the influence of socially constructed meanings of femininity and masculinity on the political participation of women, candidate selection, election campaigns, and electoral outcomes in executive and legislative offices in the U.S. and worldwide. Students will develop a rich understanding of the relationship between gender and women’s political representation and analyze and discuss institutional, structural, cultural, and historical conditions associated with women’s voting behavior, political advancement, leadership styles, and impacts of political representation on women.

POLS 167. American Political Development. 3 Units
Term Typically Offered: Fall only

Focuses on key transformative sequences in American political history and their consequences. Topics include the nature of American political culture and its role in shaping U.S. political institutions and public policy; the process of government growth or “state building”; the role of political institutions in channeling societal demands and influencing public policy; the nature of American party systems or “regimes” and the electoral “realignments” that link them; and connections between long-term economic and political cycles.

POLS 168. LGBTQ Politics. 3 Units
Term Typically Offered: Fall, Spring

This course provides an in-depth examination of the politics and history of the lesbian, gay, bisexual, transgender, and queer (LGBTQ) communities in the United States. Particular emphasis will be placed on current American political issues impacting the LGBTQ community.

POLS 169A. Science, Technology, and Politics. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall only

Social and political dimensions of science and technology. Examines how science and technology both shape politics and are shaped by politics. Considers the role of scientific advisors in government and society; dilemmas of expert authority and bias; relations between experts and non-experts; science and technology in popular culture; science and technology policy; implications of emerging technologies such as genetic engineering and the Internet for civil rights, moral values, and democracy.

POLS 169D. Latino/a Politics. 3 Units
Prerequisite(s): GOVT 1
Term Typically Offered: Fall, Spring

Systematically and analytically examines the predominant political trends, concepts, and policies presently impacting Latino/a communities. Includes such topics as an examination of Latino/a identity, immigration and citizenship, political organization and participation, and relationships with other minority groups in the United States.

POLS 170. Public Policy Development. 3 Units
Prerequisite(s): GOVT 1 or GOVT 150 and GWAR Certification before Fall 09, or WPJ score of 70+, or at least a C- in ENGL 109M or ENGL 109W.
Term Typically Offered: Fall, Spring

Examines the policy development process in the U.S. by exploring the ideological predispositions of the American public, the analytical approaches applied to policy development and assessment, and the institutional and political environment in which policy is made. Typically, the understanding derived from this examination is applied to several policy issues of current interest.
POLS 171. Environmental Politics and Policy. 3 Units
Term Typically Offered: Spring only
Politics of human interaction with land, air and water. Political analysis of agenda setting, policy formation and administration (national, state, and local) of environmental programs. Focus on contemporary issues such as energy alternatives, management of toxics, land development, and pollution control. Cross Listed: ENVS 171; only one may be counted for credit.

POLS 180. California State and Local Government. 3 Units
General Education Area/Graduation Requirement: California State & Local Government, GE AREA D
Term Typically Offered: Fall, Spring, Summer
California state, city and county politics and government. Comparisons with governments in other states. Meets State requirements in California State and Local Governments. Permits students who have fulfilled U.S. Constitution requirement in another state to meet graduation requirements for California State and Local Governments.

POLS 181. Comparative State Government. 3 Units
Prerequisite(s): GOVT 1 or GOVT 150.
Term Typically Offered: Spring only
Examines the political diversity of the fifty states, with special attention paid to variations in state governing institutions. Topics covered include legislatures, governors, judicialities, political parties, interest groups, elections, direct democracy, and state budget procedures.

POLS 182A. Sem Calif Govt+Politics. 3 Units
Term Typically Offered: Spring only
Open to selected students from each of the 20 CSU campuses, the Sacramento Semester program provides students with an opportunity to spend the semester studying and working directly in California State government. Participating students work as interns at the State Capitol for 25 or more hours each week. Interns are placed in legislators’ offices, with legislative committees, party caucuses, lobbyists and interest groups, or in various executive, administrative, and judicial agencies. In addition to the internships, students participate in an academic seminar, California Government and Politics. The seminars frequently include as resource persons individuals who work in key policy-making positions in the state government.

POLS 182B. Sem Calif Govt+Politics. 3 Units
Term Typically Offered: Spring only
Open to selected students from each of the 20 CSU campuses, the Sacramento Semester program provides students with an opportunity to spend the semester studying and working directly in California State government. Participating students work as interns at the State Capitol for 25 or more hours each week. Interns are placed in legislators’ offices, with legislative committees, party caucuses, lobbyists and interest groups, or in various executive, administrative, and judicial agencies. In addition to the internships, students participate in an academic seminar, California Government and Politics. The seminars frequently include as resource persons individuals who work in key policy-making positions in the state government.

POLS 184. Introduction to Urban Politics. 3 Units
Prerequisite(s): GOVT 1 or GOVT 150
Term Typically Offered: Fall only
Problems of urban areas and proposed solutions; politics and government. May be offered as lecture-discussion class or as a seminar. Field study may be required.

POLS 195A. Internship. 1 - 6 Units
Prerequisite(s): GWAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109 M/W. Minimum GPA of 2.5 (both in the major and overall).
Term Typically Offered: Fall, Spring, Summer
Credit/No Credit

POLS 195B. Internship Sacramento Semester. 1 - 6 Units
Prerequisite(s): Minimum GPA of 2.5 (both in the major and overall).
Term Typically Offered: Spring only
Credit/No Credit

POLS 195D. Internship - Washington DC. 6 Units
Prerequisite(s): GWAR certification before Fall 09, WPJ score of 70+, or at least a C- in ENGL 109 M/W.
Term Typically Offered: Fall, Spring
Credit/No Credit

POLS 198A. Odyssey Peer Advisers. 1 - 3 Units
Prerequisite(s): Instructor permission
Term Typically Offered: Fall, Spring
Provides individualized learning opportunities (1-3 units per semester) for engaging in peer advising along with elective activities such as tutoring, assisting faculty with research, event planning and other activities of a comparable nature. Students should be upper division students or graduate students. The units may not be applied towards unit requirement of the Government major, Government IR and Government/ Journalism.
Note: This course may be repeated up to a total of six units.
Credit/No Credit

POLS 198B. Peer Advising by Odyssey. 1 Unit
Prerequisite(s): Instructor permission
Term Typically Offered: Fall, Spring
Provides opportunity for lower division students, students on probation, and newly declared majors to be mentored by more advanced upper division students or graduate students. This peer advising will help students meet academic deadlines, achieve academic success, become engaged in campus activities and integrated into the Government Department. Units may not be applied towards unit requirement of the Government major, Government IR and Government/Journalism.
Note: This course may be repeated one time only for unit credit.
Credit/No Credit

POLS 199. Independent Studies. 1 - 3 Units
Prerequisite(s): GOVT 1 or equivalent, and nine units upper division government courses.
Term Typically Offered: Fall, Spring
Permits a student to pursue study and research in an area not otherwise available through the regular curriculum. Open only to upper division Government majors with at least a 3.0 GPA in the major.
Credit/No Credit
POLS 200.  Method and Scope in Political Science.  3 Units
Prerequisite(s):  STAT 1 or its equivalent.
Term Typically Offered:  Fall, Spring

Introduction to the philosophy of science, and the scope and methods of empirical research in political, social and policy science. In the area of philosophy of science, focuses on the logic of scientific inquiry, theory testing and confirmation and causal explanation. In the area of scope and methods, critically examines the scientific merits of several competing approaches to the study of politics and policy, as well as some of the major methodological controversies and debates in the literature.

POLS 201.  Writing in Political Science.  3 Units
Term Typically Offered:  Fall, Spring

A graduate-level seminar which introduces students to the research and literature in major fields in political science. Explores the norms of writing across the political science discipline, including for example: formal academic writing, policy writing, persuasive advocacy writing, methodological writing, and peer review. Broadly examines the literature from International Relations, Comparative Politics, American Politics, Political Theory, and Methods.

POLS 210.  Political Theory.  3 Units
Prerequisite(s):  An upper division course in the field and/or instructor permission.
Term Typically Offered:  Fall, Spring

Historical and social roots, democratic or authoritarian ideologies; the conflict of ideologies; philosophic approaches.
Note: May be repeated for credit with permission of Graduate Coordinator.

POLS 213.  Special Topics in American Political Thought.  3 Units
Term Typically Offered:  Fall, Spring

A class examining the historical and philosophical discourse in America on central topics of debate, such as the meaning of citizenship, civil society, democracy, federalism, religion, and civil rights open to both advanced undergraduates and graduate students.
Note: Undergraduates are strongly encouraged to have completed GOVT 113 or an equivalent course.

POLS 218.  Special Topics in International Political Thought.  3 Units
Term Typically Offered:  Fall, Spring

A class examining the philosophical underpinnings and the theatrical problems of central concepts and problems in international relations, including human rights, intercultural dialogue, problems of just war and international justice through a study of historical and contemporary texts open to both advanced undergraduates and graduate students.
Note: Undergraduates are strongly encouraged to have completed GOVT 118 or an equivalent course.

POLS 219.  Specialized Studies in Political Theory.  3 Units
Prerequisite(s):  Instructor permission.
Term Typically Offered:  Fall, Spring

Makes it possible for political theory students to deal with questions which theorists have asked, and to attempt to answer such questions for themselves.
Note: May be repeated for credit with permission of Graduate Coordinator.

POLS 230.  Theories of International Relations.  3 Units
Prerequisite(s):  Upper division course in the field and/or instructor permission.
Term Typically Offered:  Fall, Spring

Examination of the theory and practice of international relations including such subfields as international law, international organization, foreign policy and national security policy.
Note: May be repeated for credit with permission of Graduate Coordinator. Cross Listed: IA 210; only one may be counted for credit.

POLS 236.  Seminar in International Political Economy.  3 Units
Prerequisite(s):  An upper division course in the field and/or instructor permission.
Term Typically Offered:  Fall, Spring

This seminar is a graduate-level introduction to the theory and substance of international political economy (IPE). It examines the various theoretical approaches to IPE; considers the role of trade, money, and finance in the international political economy; analyzes the pattern and structure of global production, with an emphasis on multinational corporations; surveys international development issues, including Third World economic development strategies, the debt crises, structural adjustment, and economies in transition; and investigates the politics of globalization.
Cross Listed: IA 221; only one may be counted for credit.

POLS 239.  Globalization and International Relations.  3 Units
Prerequisite(s):  An upper division course in international relations or instructor permission.
Term Typically Offered:  Fall, Spring

Introduction to the theories and substance of globalization. It examines alternative theories of globalization; considers globalization's political impact on the territorial state, regionalism, the welfare state, the military, immigration, and the environment; investigates the politics of the anti-globalization backlash; and concludes with an assessment of the future political trends of globalization.
Cross Listed: IA 230; only one may be counted for credit.

POLS 240.  Comparative Government and Politics.  3 Units
Prerequisite(s):  Advanced course in the field.
Term Typically Offered:  Fall, Spring

Advanced study of some of the world's governmental and political systems. May focus on single countries, groups of countries or general categories of systems. Considers theoretical concept and methodology.
Note: May be repeated for credit with permission of Graduate Coordinator. Cross Listed: IA 222; only one may be counted for credit.

POLS 249A.  Middle East Politics and the United States.  3 Units
Prerequisite(s):  Instructor permission.
Term Typically Offered:  Fall, Spring

Graduate introduction to politics and governments of the Middle East and the impact of the United States foreign policy in the region. Relies on a comparative frame to tease out the causes of intrastate and interstate conflicts in the region, as well as the effects of the American foreign policy on the contemporary political trends in the Middle East, including those relating to the Arab-Israeli conflict, Islamic political resurgence, and terrorism.
POLS 250. Basic Issues of American Government. 3 Units
Prerequisite(s): An upper division course in the field and/or instructor permission.
Term Typically Offered: Fall, Spring
Exploration in-depth of topics such as federalism, executive-legislative relationships, problems of representation, government reorganization, congressional reform, the electoral process.
Note: May be repeated for credit with permission of Graduate Coordinator.

POLS 270. Political Behavior and Political Processes: California and Beyond. 3 Units
Term Typically Offered: Fall, Spring
Course will explore public opinion, voting behavior, representation and political psychology with special focus on California.
Note: Undergraduates may take the course with instructor permission.

POLS 280. California Politics. 3 Units
Term Typically Offered: Fall, Spring
Advanced study of California's state and local governments, with emphasis on political history, political institutions, and the role of direct democracy on the state's government, budget and politics. Demographic and geographic elements will be scrutinized through a political focus. California's policy and political process will also be examined, as well as discussion of various political reforms.
Note: Undergraduates may take the course with instructor permission.
Prerequisite

POLS 281. Comparative State Government. 3 Units
Term Typically Offered: Fall, Spring
Examines state political institutions and processes. Special attention will be paid to how the political variation among the states shapes processes and outcomes. Topics covered will include governors, legislatures, interest groups, public opinion, political parties, and elections.

POLS 284. Urban Politics. 3 Units
Term Typically Offered: Fall, Spring
In-depth exploration of the socio-economic problems of urban and metropolitan areas and an evaluation of proposed political and governmental solutions.
Note: May be repeated for credit with permission of Graduate Coordinator. Cross Listed: PPA 284; only one may be counted for credit.

POLS 293A. Senate Fellows Introductory Seminar. 3 Units
Term Typically Offered: Fall, Spring
Critical analysis and examination of the operation of the State Capitol and the larger political environment of political parties, interest groups, and public opinion.
Note: Open only to students admitted to the California Senate Fellows Program.

POLS 293B. Senate Fellows Policy Seminar. 3 Units
Term Typically Offered: Fall, Spring
Seminar will analyze procedural issues and public policy questions within the State Senate, legislature, and contemporary California politics.
Note: Open only to students admitted to the California Senate Fellows Program.

POLS 294A. Assembly Fellows Introductory Seminar. 3 Units
Term Typically Offered: Fall, Spring
Critical examination of state and local governmental institutions and processes. Seminar will impart an advanced understanding of the structures and processes of California's political institutions, government and legislature.
Note: Open only to students admitted to the Jesse M. Unruh Assembly Fellowship Program.

POLS 294B. Assembly Fellows Policy Seminar. 3 Units
Term Typically Offered: Fall, Spring
Seminar focuses on current California policy issues and the lawmaking process.
Note: Open only to students admitted to the Jesse M. Unruh Assembly Fellowship Program.

POLS 295. Government Internship. 1 - 6 Units
Term Typically Offered: Fall, Spring
Supervised work experience in an approved legislative or administrative office at some level of local or state government, or in a politically-related organization that is concerned with government. Supervision is provided by the faculty instructor and responsible officials in the work situation.
Note: Open to all graduate students, subject to instructor permission. No more than 3 units of GOVT 295 may be counted toward the Master's degree.
Credit/No Credit

POLS 299. Independent Study. 1 - 3 Units
Term Typically Offered: Fall, Spring
For advanced graduate students who have demonstrated their ability to carry on advanced, independent research. Permits a student to pursue study and research in an area not otherwise available through the regular curriculum. Student must be advanced to candidacy.
Credit/No Credit

POLS 500. Culminating Experience. 3 Units
Prerequisite(s): Advanced to candidacy.
Term Typically Offered: Fall, Spring
Should be taken after completion of all other requirements for the degree. Students may choose from the following options, which they must declare when they advance to candidacy: Thesis, Project, or Comprehensive Examination.

Psychology (PSYC)

PSYC 2. Introductory Psychology. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
Provides a general overview of theory and research concerning psychological processes at the basic, individual and social levels. Topics will include physiological psychology, comparative psychology, learning, motivation, sensation and perception, developmental psychology, personality, social psychology, maladaptive behavior, individual differences, and selected other topics. Requires three hours of participation as a research subject.
PSYC 4. Navigating Psychology: The Major and Careers. 1 Unit
Prerequisite(s): PSYC 2 and Psychology majors only.
Term Typically Offered: Fall, Spring

Covers requirements for the major and career options in psychology and related fields. Students learn to design plans of study to meet requirements for the major and enhance career objectives. Introduces career options in various areas such as academic psychology, applied behavior analysis, counseling and mental health, education, industrial-organizational psychology and related fields. Class activities clarify students’ career goals and develop skills for job seeking and graduate education. Requires participation as a research subject.
Credit/No Credit

PSYC 8. Methods of Psychology. 3 Units
Corequisite(s): PSYC 2.
Term Typically Offered: Fall, Spring

Introduction to methods of the science of psychology. The topics include psychology as a way of knowing, the role of science in psychology, the nature of psychological research, research ethics, psychological literature and report writing, psychological measurement, and the design and analysis of case studies, survey research, field studies, correlational methods, and experimental methods. Requires three hours of participation as an experimental subject.

PSYC 9. Introductory Statistics for Psychology. 3 Units
Prerequisite(s): PSYC 2, may be taken concurrently.
Term Typically Offered: Fall, Spring

Introduction to descriptive and inferential statistics as tools for evaluating data from Psychological research. Topics include: measures of central tendency, measures of variability, correlation and regression, sampling distributions, hypothesis testing procedures including t-tests and analysis of variance. Application of hand computation will be emphasized to include the interpretation and significance of the statistical findings.

PSYC 100. Cross-Cultural Psychology. 3 Units
Prerequisite(s): PSYC 2, PSYC majors only.
Corequisite(s): PSYC 8.
Term Typically Offered: Fall, Spring

Examination of similarities and differences in human behavior, cognition, and emotion across cultures. Empirical evidence from cross-cultural research in the various areas of psychology, including biological, clinical, cognitive, developmental, social, personality, and industrial/organizational psychology, is evaluated with the purpose of developing a global perspective on the psychological processes underlying human behavior, cognition, and emotion.

PSYC 101. Statistics for Psychology. 3 Units
Prerequisite(s): Passing score on ELM; PSYC 2, PSYC 4, PSYC 8. PSYC majors only. PSYC 4 may be taken concurrently.
Term Typically Offered: Fall, Spring

Introduction to descriptive and inferential statistics as tools for evaluating data from Psychological research. Topics include: measures of central tendency, measures of variability, correlation and regression, sampling distributions, hypothesis testing procedures including t-tests and analysis of variance, and selected other topics. Application of hand computation will be emphasized to include the interpretation and significance of the statistical findings.

PSYC 102. Advanced Methods and Statistics in Psychological Research. 4 Units
Prerequisite(s): PSYC 121; Psychology majors only.
Term Typically Offered: Fall, Spring

Plan and conduct projects using experimental, quasi-experimental and correlational methods. Evaluate published research and write proposals with attention to such issues as the reliability and validity of methods, the degree to which statistical assumptions are met, the adequacy of statistical power, and the internal and external validity of the project. Contemporary research design, measurement, and analysis techniques are examined, including the use of statistical software, for varieties of univariate and multivariate research designs. Lecture-discussion three hours; laboratory three hours.

PSYC 103. Perception. 3 Units
Prerequisite(s): PSYC 2, PSYC or CRJ majors only. PSYC 8 and PSYC 9 are recommended.
Term Typically Offered: Fall, Spring

Examination of how information about the outside world is sensed and how that information is organized and interpreted to form perceptions. Vision and audition will be primarily examined, along with some coverage of the other senses. Topics may include psychophysical methods, basic physiology and function of sensory systems, perception of color and form, motion, distance, auditory patterns, body and limb position, temperature, pain, perceptual constancies, attention, perceptual learning, adaptation, and perceptual development.

PSYC 104. Learning Theories. 3 Units
Prerequisite(s): PSYC 2, PSYC 8, PSYC 9, and PSYC majors only or instructor permission.
Term Typically Offered: Fall, Spring

Examination of classical and contemporary theories of learning, and a sampling of experimental findings which bear directly on the theories. Some attention is given to theory construction in psychology.

PSYC 105. Motivation. 3 Units
Prerequisite(s): PSYC 2; PSYC majors only or instructor permission.
Term Typically Offered: Fall, Spring

Study of theories and experimental findings related to basic processes in animal and human motivation.

PSYC 106. Organizational Psychology. 3 Units
Prerequisite(s): PSYC 121; Psychology majors only
Term Typically Offered: Fall, Spring

This course will provide an overview of the dynamics of human behavior in organizations, using the lens of psychological theory. Students will explore individual-, group-, and systems-level phenomena in organizations, with the overriding goal of understanding how to maximize performance, well-being, and satisfaction at work. Topics may include job attitudes, teams, organizational culture, individual differences, leadership, employee development, organizational change, occupational stress, fairness and diversity, and more.
PSYC 110. Cognitive Psychology. 3 Units
Prerequisite(s): PSYC 2; PSYC majors only. PSYC 8 and PSYC 9 are recommended.
Term Typically Offered: Fall, Spring
Examination of the basic concepts of cognitive psychology, including sensory storage, pattern recognition, attention, short-term memory, long-term memory, visual imagery, semantic memory structure, text processing, problem solving and decision-making. The relations among artificial intelligence, mental modeling, and the simulation of cognitive processes will also be explored.

PSYC 111. Foundations of Behavioral Neuroscience. 3 Units
Prerequisite(s): PSYC 2; PSYC majors and PSYC minors only. PSYC 8 and PSYC 9 are recommended.
Term Typically Offered: Fall, Spring
Introductory overview of the neurobiology of behavior. Emphasis is on the central and autonomic nervous systems and the endocrine system. Topics include physiological, biological and genetic factors involved in sensation and perception, motivation, learning and memory, emotion, social behavior, and mental disorders.

PSYC 115. Introduction to Neuroscience. 4 Units
Prerequisite(s): PSYC 2 and PSYC 8; PSYC or BIO majors only. PSYC 9 recommended.
Term Typically Offered: Spring only
Introduction to the structure and function of the nervous system including neuroanatomy, neurophysiology, and systems neuroscience. Lectures and readings emphasize the empirical questions, techniques and methods used in neuroscience research. Laboratory activities focus on nervous system structure and some of the specialized techniques used within the fields of cellular, systems, and behavioral neuroscience. Lecture-discussion three hours; laboratory three hours. Cross Listed: BIO 115; only one may be counted for credit.

PSYC 116. Animal Behavior. 3 Units
Prerequisite(s): PSYC 2; PSYC majors only or instructor permission.
Term Typically Offered: Fall, Spring
Basic principles of animal behavior including the genetic, evolutionary and ecological mechanisms underlying courtship, reproduction, aggression, territoriality, communication and parental behavior; applied aspects of animal behavior; innate or naturally occurring behavior patterns necessary for survival in the natural environment; physiological, social and acquired aspects of animal and, secondarily, human behavior.

PSYC 117. Drugs and Behavior. 3 Units
Prerequisite(s): PSYC majors only or instructor permission.
Term Typically Offered: Fall, Spring
Examination of the classification of psychoactive drugs and their mode of action. Covers effects of psychoactive drugs on central nervous system structure and function and on behavior; use, abuse, effects, and dangers of therapeutic and recreational drugs; motivational aspects of drug use, and methods for treating addiction.

PSYC 118. Cognitive Neuroscience. 3 Units
Prerequisite(s): PSYC 111 or PSYC 115 or PSYC 117 or BIO 132.
Term Typically Offered: Fall, Spring
Examines how the nervous system accomplishes cognitive functioning. Brain mechanisms of higher functions such as memory, attention, sensorimotor integration, decision making, and language will be covered.

PSYC 119. Human Factors Psychology. 3 Units
Prerequisite(s): PSYC 2
Term Typically Offered: Fall, Spring
Study of the scientific application of psychology and human performance to the design of products and complex systems. Applications of perception, cognition, and human physical limitations are covered, with an emphasis on understanding how they relate to design. Topics include perception, attention, decision making, memory, action, and how they related to areas such as product design, human-machine interaction, health and medicine, aviation and aerospace, ergonomics of the workplace, and designing for special populations.

PSYC 120. Psychological Testing and Measurement. 3 Units
Prerequisite(s): PSYC 8; PSYC 9; PSYC majors only.
Term Typically Offered: Fall, Spring
Overview of the history and applications of psychological tests and assessments, including measures of mental abilities, personality, interests, and attitudes. Principles of measurement including construction of tests and assessments, alternative formats, methods for administration and scoring, analyzing items and the reliability of scores, and evaluating evidence regarding the validity of score interpretations.

PSYC 121. Methods and Statistics in Psychological Research. 3 Units
Prerequisite(s): PSYC 4 (may be taken concurrently), PSYC 8, and PSYC 9; PSYC majors only.
Term Typically Offered: Fall, Spring
Project-based experience of Psychology. Study of scientific processes in research such as literature reviews; developing testable hypotheses; design; IRB review; data collection, analysis, and interpretation; critical analysis of studies; APA paper preparation; and issues in dissemination. Study of some advanced statistical processes such as factorial ANOVAs, planned and post hoc comparisons, and multiple regression. Study of statistical software programs used in the analysis of data.

PSYC 122. Qualitative Research in Psychology. 3 Units
Prerequisite(s): PSYC 121 and PSYC majors only.
Term Typically Offered: Fall, Spring
Examines the philosophy underpinning the use of qualitative research and the methods and analyses strategies used in qualitative research. Methods may include interviews, focus groups, participant observation, and behavioral observation. Analyses strategies may include grounded theorizing, negative case analyses, developing case studies, and content coding. Issues pertaining to data accuracy and consistency will be examined, and the researcher's role in interpreting results. Students will complete research projects involving the collection and/or analyses of qualitative data.

PSYC 123. Program Evaluation. 3 Units
Prerequisite(s): PSYC 8, PSYC 9, PSYC 100; psych majors only
Term Typically Offered: Fall, Spring, Summer
This course develops knowledge and skills in empirical research methods as applied to program evaluation. Students gain practice skills needed to assist community service providers, state agencies, and other organizations to evaluate and improve programs and interventions. Students design program evaluation proposals that utilize psychological research techniques to support organizational effectiveness. Students learn to tailor program evaluations to the mission of an organization or purpose of an intervention, such as the promotion of social justice, well-being, and/or other goals.

- PSYC 137: Fall, Spring.
- PSYC 142: Fall, Spring.
- PSYC 143: Fall, Spring.
- PSYC 145: Fall, Spring.
- PSYC 148: Fall, Spring.
- PSYC 149: Fall, Spring.

**Course Descriptions:**

Covers evaluating and thinking critically about behavioral research (i.e., data collection, logic, designs). Topics include: comparing group and single-case designs; observational strategies and measuring inter-observer reliability; displaying and interpreting behavioral data; single-case experimental design including reversal, multiple-baseline, alternating treatments, changing-criterion, and combinatorial designs; research ethics; identifying characteristics of pseudoscience; and disseminating behavioral research. The versatility of single-case designs will be discussed by including a wide range of case examples from multiple disciplines in the social and behavioral sciences and education.

PSYC 130. Personality Theories.

Detailed examination of classic and contemporary personality theories such as those of Freud, Jung, Adler, Horney, Fromm, Skinner, Dollard and Miller, Rotter, Bandura, Kelly, Rogers, Maslow and May. Theories will be considered with respect to content, conceptual image of the individual, and current status.

PSYC 134. Psychology of Human Sexuality.

This course covers key theories and insights from the psychological study of human sexuality. It includes classic and contemporary research on human sexual behaviors, bodies, cognitions, and social identities. Course topics may include: social constructionism and essentialism, sexual and gender diversity, sexuality across the lifespan, relationships, attraction, sexual anatomy and physiology, and the history of sexology, among others.

PSYC 135. Psychology of Multicultural Groups.

Examines the role of culture, race, ethnicity, gender, and social class in human development and behavior within diverse cultural groups. Presents sociocultural and ecological perspectives on human development, i.e., that individuals must be understood in the context of his or her culturally patterned social relations, practices, institutions, and ideas. Explores psychological issues that pertain to the major ethnic minority groups in the U.S.

PSYC 137. Stress Management.

Examination of the causes and manifested effects of various stressors related to acculturation, socio-economic, physical, occupational, and psychological pressures. Techniques for recognizing and coping with stress will be explored. Emphasis is on the development of skills to handle commonly encountered stress-producing situations.

PSYC 142. Community Psychology.

This course is designed to introduce you to the field of community psychology, which is concerned with the scientific study of social problems through collaborative research. This course will provide you with ecological frameworks that aim to reduce social problems (e.g., poverty, mental illness and others) as well as core values of community well-being, empowerment, and collaboration. You will be exposed to prevention and intervention programs employed to solve social concerns as well as potential implications for practice and policy.

PSYC 143. Practicum in Community Psychology.

Classroom and on-site experience in community psychology. Students will complete 60 hours of service learning experience related to their community organization with supervision by authorized persons at the organization. Students will also attend class meetings to discuss the application of concepts in community psychology to their service learning experience. Topics include: ethics, structure and capacity of community organizations, working with diverse populations, and professional relationships.

**Note:** Enrolling in or completing PSYC 142 is preferred, but not required, and Seniors will be prioritized for enrollment before Juniors.

PSYC 145. Social Psychology.

Empirical examination of the emotion, behavior, and cognition of individuals in social situations. Topics can include: social psychology methods, social perception, social cognition, attitudes, persuasion, social identity, gender identity, prejudice and discrimination, interpersonal attraction, close relationships, conformity, compliance, obedience to authority, helping behavior, aggression, group processes, and social psychology applications. Multiple perspectives discussed.

Examination of behavioral and physiological development during the prenatal period, and behavioral, cognitive and social development during infancy and childhood. Theories, methods and empirical research will be studied.

PSYC 149. Psychology of Adolescence.

Growth and development during the adolescent period and the interrelationships between adolescents and their culture are studied. Physical, psychological, social and educational problems and their implications are considered.
PSYC 150. Psychological Aspects of Aging. 3 Units
**Prerequisite(s):** PSYC 2
**Term Typically Offered:** Fall, Spring

Developmental study of human aging emphasizing psychosocial, psychopathological, biological, intellectual and personality processes from a theoretical and research-oriented perspective. Influences including culture, gender, gender identity, race, ethnicity, sexual orientation, and socio-economic status on aging are examined.

PSYC 151. Psychological Aspects of Death and Dying. 3 Units
**Prerequisite(s):** Student's academic level must be Junior or higher to enroll in this class.
**Term Typically Offered:** Fall, Spring

Examination of the beliefs, attitudes, and behaviors associated with death and dying. Topics covered include children's and adults' concepts of dying and death; causes and types of death; self-destructive behavior; grief and mourning in the dying person and their survivors; physician aid in dying and other legal and ethical issues; and cross-cultural and historical perspectives on death.

Cross listed: GERO 124

PSYC 152. Psychological Aspects of Health, Wellness, and Illness. 3 Units
**Prerequisite(s):** PSYC 2 and PSYC 8.
**Term Typically Offered:** Fall, Spring

Examines social, psychological, and behavioral factors important for physical health and emotional well-being. Psychological perspectives are applied to such topics as behavioral medicine, health promotion and compromise, the stress-illness relationship, social relations, personality, emotions, chronic illness, death and dying, and health care provider and patient interactions. Explores the development of health problems and the causes of premature death, as well as research on how psychology can help people live longer, healthier lives.

PSYC 153. Political Psychology. 3 Units
**Term Typically Offered:** Fall, Spring

Examines the ways in which political behavior is shaped by individual beliefs, personalities, cognitive patterns, biases, and other psychological mechanisms. Students will engage with a wide range of research on topics such as cognitive styles, personality, obedience, psychological roots of terrorism, the psychology of ideology, and the role of emotion in politics.

Cross Listed: GOVT 152

PSYC 157. Psychology of Women. 3 Units
**Prerequisite(s):** PSYC 2 or instructor permission.
**Term Typically Offered:** Fall, Spring

Contemporary psychological theories and issues related to the psychology of women in America and globally. Psychological theories may include but are not limited to feminism, cognitive-behavioral, self-object relations, humanistic, social learning and existential. Issues may include development, sexuality, mental health, psychotherapy, physical health, education, work, violence against women, gender inequality, multicultural perspectives, aging, parenting, criminal behavior, politics, sexual slavery, reproductive rights, religion, spirituality, and the arts.

**Note:** A service course for WOMS.

PSYC 160. Psychology of Sexual Orientation and Gender Identity. 3 Units
**Prerequisite(s):** PSYC 2. Psychology major, Psychology minor, LGBTQ Studies minor, or Peace Corps Prep Certificate
**Term Typically Offered:** Fall, Spring

This course explores the landscape of contemporary psychological research on gender and sexual diversity with a focus on the identities and experiences of lesbian, gay, bisexual, transgender, queer, intersex, and asexual people and all sexual and gender minorities. Course topics include cissexism and heterosexism, identity development and disclosure, parenting, aging, intersectionality, and minority stress, among others.

PSYC 165. Evolutionary Psychology. 3 Units
**General Education Area/Graduation Requirement:** Further Studies in Area B (B5)
**Term Typically Offered:** Fall only

Examination of empirical literature on emotion, behavior, and cognition of individuals from an evolutionary perspective. Topics can include: scientific methods in evolutionary psychology, survival strategies, mating strategies, parenting, kinship, cooperation, altruism, aggression, sexual conflict, and social dominance.

PSYC 166. Psychology in Personnel Training and Development. 3 Units
**Prerequisite(s):** PSYC 2.
**Term Typically Offered:** Fall, Spring

Application of psychological principles to problems of personnel training and development; techniques for determining training requirements, motivating trainees, providing feedback on trainee performance, and ensuring positive transfer of training to the job situation; personnel development programs.

PSYC 167. Abnormal Psychology. 3 Units
**Prerequisite(s):** PSYC 2.
**Term Typically Offered:** Fall, Spring

Detailed consideration of behavior disorders and maladaptive behavior: theories of causation, descriptions of the disorders, and strategies of various therapies.

PSYC 168. Industrial Psychology. 3 Units
**Prerequisite(s):** PSYC 2, PSYC 8.
**Term Typically Offered:** Fall, Spring

Comprehensive overview of various human resources practices and policies, with an emphasis on people's psychological reactions to them. Topics include: recruitment, employee selection, training, employee compensation, legal aspects of employment decisions, and ethics in human resource management.

PSYC 171. Applied Behavior Analysis. 3 Units
**Prerequisite(s):** PSYC 2 and PSYC majors or posted Behavior Analysis Certificate only, or instructor permission.
**Term Typically Offered:** Fall, Spring, Summer

Introduction to theory, historical background, and philosophical assumptions relevant to behavior analysis with individuals. Lectures and laboratory activities in basic principles of behavior and methodology.
PSYC 177. Special Topics Capstone: Advanced Study in Psychology. 3 Units
Prerequisite(s): PSYC 4, 8, 9, must have Senior status to enroll in course.
Term Typically Offered: Fall, Spring, Summer
Examine a special topic of interest in psychology. Offered by rotating instructors, the capstone explores selected topics in psychology, and contemporary developments in theories, methodologies, and/or methods in the selected sub-discipline or topical area. Topics can include subject matter from all areas of psychology, including, but not limited to: applied behavior analysis, clinical, cognitive, community, cultural, developmental, experimental, feminist, health, industrial-organizational, neuroscience, perception, quantitative, social, etc., as well as related methodologies. Recommend prior coursework in area of focus.
Note: May be repeated for credit providing the topic and instructor are not the same.

PSYC 181. Experimental Analysis of Behavior. 4 Units
Prerequisite(s): PSYC 9, PSYC 171, and PSYC majors only.
Term Typically Offered: Fall only
Extensive analysis of single subject experimental research on intermittent reinforcement of behavior, including complex schedules, stimulus control, generalization, and verbal behavior. Lecture-discussion three hours; laboratory three hours; laboratory may include a component of self paced instruction.

PSYC 183. Teaching of Psychology. 3 Units
Prerequisite(s): Instructor permission
Term Typically Offered: Fall, Spring
Study of best practices in the Teaching of Psychology. Selected topics may include, course preparation, skills for fostering student learning, strategies for improving student writing, theories of assessment, using technology in the classroom, sensitivity to diversity, teaching special populations, and the ethical and legal issues faced in the classroom. Students attend scheduled seminars on course topics and course are mentored by a professor in the Department of Psychology (called Faculty Mentor/Sponsor).

PSYC 184. Clinical Issues in Applied Behavior Analysis. 4 Units
Prerequisite(s): PSYC 2 and PSYC 171, and PSYC majors or ABA Certificate students only
Term Typically Offered: Spring only
Extensive study of applied behavior analytic methods in the assessment, development, and implementation of treatment programs for a variety of clinical issues including pediatric behavior problems, developmental disabilities, hyperactivity, parent-child difficulties, school-related problems, behavioral safety, brain injury, and dementia. Lecture three hours; laboratory three hours.

PSYC 185. Psychology of Exceptional Children. 3 Units
Prerequisite(s): PSYC 2
Term Typically Offered: Fall, Spring
Examines characteristics, special needs, and problems of children who differ from the group norm because of their level of abilities, physical handicaps, or other deviations.

PSYC 190. History and Systems of Psychology. 3 Units
Prerequisite(s): PSYC 9 and PSYC majors only.
Term Typically Offered: Fall, Spring
Covers the development of the various schools and systems of psychology, and their philosophical roots, interrelationships and differences. Normally taught with a seminar or proseminar format.

PSYC 191. Ethics in Behavior Analysis. 3 Units
Prerequisite(s): PSYC 171
Term Typically Offered: Fall, Spring
Classroom experience in applied behavior analysis. Students will meet in class for three hours a week to present and review relevant literature. Emphasis will be placed on ethics and professional conduct in applied behavior analysis following the BACB Professional and Ethical Compliance Code for Behavior Analysts.

PSYC 194. Cooperative Research. 1 - 6 Units
Prerequisite(s): PSYC 2, PSYC 8, and PSYC 9. PSYC 121 recommended.
Term Typically Offered: Fall, Spring
Opportunity for dedicated students interested in graduate school or a career involving research to work cooperatively on a psychological research project under faculty supervision.
Note: May be repeated once for up to 6 units of credit.

PSYC 195A. Fieldwork in the Teaching of Psychology. 1 - 6 Units
Term Typically Offered: Fall, Spring
Supervised experience in various educational and instructionally related tasks, such as leading discussion groups, setting up and presenting demonstrations, constructing and scoring tests, and tutoring, at selected educational institutions in the Sacramento area.
Note: Requires permission of instructor and the Department Chair. May be repeated once for credit.
Credit/No Credit

PSYC 195B. Fieldwork in Child Observation. 3 Units
Prerequisite(s): PSYC 148 or equivalent.
Term Typically Offered: Fall, Spring
Supervised observation of preschool children in a formal school setting.
Note: Requires permission of instructor and the Department Chair. May be repeated once for credit.
Credit/No Credit

PSYC 195C. Fieldwork in Industrial and Organizational Psychology. 1 - 6 Units
Term Typically Offered: Fall, Spring
Supervised work experience at an appropriate level in business and governmental organizations.
Note: Requires permission of instructor and the Department Chair. May be repeated once for credit.
Credit/No Credit
PSYC 195F. Fieldwork in Community Psychology. 1 - 4 Units
Term Typically Offered: Fall, Spring

Supervised experience in various community and governmental agencies, such as the Suicide Prevention Service, Planned Parenthood, and the California Youth Authority. The experience must be of an applied psychological nature, determined collectively by the agency, the supervising faculty member, and the student.

Note: Requires permission of instructor and the Department Chair. May be repeated once for credit and a third time if another agency is involved.

Credit/No Credit

PSYC 195G. Fieldwork. 1 - 6 Units
Term Typically Offered: Fall, Spring

Projects in contemporary areas of psychology under the supervision of one or more faculty.

Note: Requires permission of instructor and the Department Chair. May be repeated once for credit.

Credit/No Credit

PSYC 196S. Psychology of Religion. 3 Units
Prerequisite(s): PSYC 2
Term Typically Offered: Fall, Spring

Introduction to psychological aspects of religion, including its foundations, measurement, and research methods. Selected topic areas include: religious & spiritual development; religion and spirituality in neuroscience, cognitive psychology, emotion, personality, social psychology, and cross-cultural psychology; religion and spirituality in health, mental health, coping, and psychotherapy.

PSYC 196T. Black Psychology. 3 Units
Prerequisite(s): PSYC 2
Term Typically Offered: Fall, Spring

Examines the concepts, issues and theories related to the psychology of the African American experience. Through the exploration of topics related to the African American experience in the United States, including, but not limited to, African philosophy, the US Census, media representations, language, and political enfranchisement, the course utilizes an interdisciplinary approach to interrogate the cultural, historical, political, and social factors influencing Black identity in the US and the creation of Black Psychology.

PSYC 196U. Psychology of Happiness. 3 Units
Prerequisite(s): PSYC 2
Term Typically Offered: Fall, Spring

Examines the scientific study of human happiness from a psychological perspective that includes its foundations, measurement, research methods, theories, and recent advances in the literature. Explores the correlates, predictors, and consequences of happiness at the individual and cultural levels. Topics include benefits of being happy; the roles of age, gender, culture, genes, personality, life circumstances, income, health, and social relationships in happiness; cultural comparisons in happiness; and happiness interventions (i.e., how to increase and sustain happiness).

PSYC 197A. Advanced Research I. 1 - 4 Units
Prerequisite(s): PSYC 194 and permission of instructor and Department Chair. Graded; 1 - 4 units.
Term Typically Offered: Fall only

Advanced research opportunity for students who have completed previous research experiences in PSYC 194. Students in the course are expected to develop advanced skills in research methods, data management, data analysis, and the communication of research findings by conducting research on collaborative projects under the guidance of a psychology faculty supervisor.

PSYC 197B. Advanced Research II. 1 - 4 Units
Prerequisite(s): PSYC 197A and permission of instructor and Department Chair. Graded; 1 - 4 units.
Term Typically Offered: Fall, Spring

Advanced research opportunity for students who have completed previous research experiences in PSYC 197A. Students in the course are expected to demonstrate competence in advanced research skills in research methods, data management, data analysis, and the communication of research findings by conducting research on collaborative projects under the guidance of a psychology faculty supervisor.

PSYC 198A. Prospects for Success: Peer Mentee. 1 Unit
Term Typically Offered: Fall, Spring

Provide psychology majors with information and experiences necessary for developing academic goals, skills, and better understanding of the Psychology major. Weekly meetings with peer mentors to discuss topics that include academic planning, website navigation, preparation for meeting with professors, academic skills, student professionalism and resume/CV development.

Note: May be repeated for credit

Credit/No Credit

PSYC 198B. Prospects for Success: Peer Mentor. 2 - 3 Units
Prerequisite(s): PSYC 4 and permission from instructor
Term Typically Offered: Fall, Spring

Provide peer mentoring and advising to Psychology majors. Develop peer mentoring knowledge and skills through training and assigned readings. Peer mentors provide psychology majors with information and experiences necessary for developing academic goals, skills, and a better understanding of the Psychology major. Conduct weekly mentee meetings to discuss topics that include academic planning, website navigation, preparations for meetings with professors, academic skills, student professionalism and resume/CV development.

PSYC 199. Special Problems. 1 - 6 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading.

Note: Requires permission of instructor and the Department Chair.

Credit/No Credit
PSYC 200. Methods in Empirical Psychology. 3 Units
Prerequisite(s): PSYC 8, PSYC 101, PSYC 102.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Philosophy of science, critical thinking in the design of research studies, and professional issues. Topics include: nature of science; observational, experimental, and case study designs; formulating research questions; measurement strategies; scaling and coding; internal and external validity; naturalism in research; quasi-experiments; archival research; physical traces; data collection; interpreting results; program evaluation; professional writing; and ethics.

PSYC 202. Survey of Contemporary Statistical Methods in Psychological Research. 3 Units
Prerequisite(s): Graduate standing; PSYC 102 or equivalent
Term Typically Offered: Fall, Spring

Broad coverage of common univariate and multivariate designs and analyses used in contemporary psychological research. Primary focus is on providing the basic tools for carrying out the analyses in statistical software and interpreting the results, as well as understanding results presented in published research reports. Topics include various ANOVA and multiple regression models and applications including related categorical and multivariate alternatives, such as logistic regression analysis, discriminant function analysis, MANOVA, path analysis, factor analysis, canonical correlation analysis.

PSYC 204. Advanced Topics in Statistical Methods for Psychological Research. 3 Units
Prerequisite(s): PSYC 202
Term Typically Offered: Fall, Spring

Advanced treatment of selected research design and analysis methods of psychological research. Applications of the general and generalized linear models (e.g., multiple regression models, structural equation models, multilevel models, and limited dependent variable models) for a variety of research designs and data structures. Intermediate to advanced training in statistical software and data management. Focus is on understanding foundations and assumptions of the methods, understanding interrelationships between the methods, performing specialized and non-routine analyses when needed, and interpreting results in detail.

PSYC 205. Measurement Methods for Psychological Research and Practice. 3 Units
Prerequisite(s): PSYC 202
Term Typically Offered: Fall, Spring

Detailed coverage of classical and modern theories and models of psychological measurement, and their applications in research and professional testing settings. Primary focus is on principles of constructing and analyzing measures, including both paper-and-pencil tests/surveys and performance-based tests that require rater judgment in scoring. Measurement models include classical testing theory, generalizability theory, confirmatory factor analysis, Rasch measurement, and item response theory.

PSYC 206. Tests and Measurement. 3 Units
Prerequisite(s): Graduate standing and PSYC 102 or its equivalent.
Term Typically Offered: Fall, Spring

Examines the administration, interpretation, and application of psychological tests used by behavioral scientists in clinical, educational, organizational, and other settings. Test development, reliability and validity, and legal considerations will be discussed.

PSYC 209. Seminar in Systems of Psychology. 3 Units
Term Typically Offered: Fall, Spring

Historical review of the systems of thought which led to modern psychology. An examination of current psychological systems and their development. Factors that differentiate psychological systems will be studied.

PSYC 210. Theories of Personality. 3 Units
Prerequisite(s): PSYC 102 or equivalent; PSYC 102 may be taken concurrently.
Term Typically Offered: Fall, Spring

Study of the role of personality theory in the field of psychology, and an examination of the current theories.

PSYC 216. Current Literature in Personnel and Organizational Psychology. 3 Units
Prerequisite(s): Course work in Personnel and Organizational Psychology; PSYC 102 or its equivalent.
Term Typically Offered: Fall, Spring

Analyzes selected current articles on theory and research in such journals as the Journal of Applied Psychology, Personnel Psychology, and Organizational Dynamics, with written and oral critiques.

Note: May be repeated twice for credit.

PSYC 216A. Current Literature and Applications in Industrial-Organizational Psychology. 3 Units
Term Typically Offered: Fall only

Seminar to review current literature in selected organizational psychology topics, and develop proposals for applied research in industrial-organizational psychology. Literature focus will be centered on personal and interpersonal factors influencing the quality of work life and experiences of employees. Application focus will be centered on identifying organizational problems amenable to research, reviewing literature and common practices to identify potential solutions, designing a research methodology to address the problem and evaluate the solution, and writing research proposals including Human Subjects Review.

PSYC 216B. Current Literature and Applications in industrial-Organizational Psychology. 3 Units
Prerequisite(s): PSYC 216A
Term Typically Offered: Spring only

Seminar to discuss implementation of applied research proposals from the previous semester and review current literature in performance management and workforce planning systems. Application focus will be centered on understanding organizational contexts and constraints for implementing research, obtaining managerial and participant cooperation, maintaining methodological rigor in the field, systematically and objectively recording data, and preparing data for analysis. Literature focus will be centered on methods for measuring employee performance relative to objectives, understanding performance barriers, and identifying human resource needs.
### PSYC 217. Seminar in Social Psychology.
3 Units

**Prerequisite(s):** Graduate standing  
**Term Typically Offered:** Fall, Spring

Review of classic and contemporary theories and research in social psychology. Topics may include group dynamics, social influence, aggression, helping behavior, attitudes, dissonance and self-justification, prejudice, stereotyping, and discrimination; automaticity and social cognition, motivation, and gender. Emphasis upon the application of social psychological theories and research to social problems.

### PSYC 240. Seminar in Behavioral Neuroscience.
3 Units

**Prerequisite(s):** Graduate standing  
**Term Typically Offered:** Fall, Spring

Surveys the fundamental principles of Behavioral Neuroscience, the connection between the brain and behavior. Topics may include: neuroanatomy, electrochemical transmission, sites and mechanism of drug action, sensation and perception, motor systems, developmental processes, neuroendocrine systems, learning and memory, attention, emotion, executive function, neurodegenerative disease and the neurobiology of mental illness. Seminal experiments and recent discoveries within the field will be reviewed and discussed with a focus on how these findings impacted and continue to influence past and current theory.

### PSYC 241. Seminar in Cognitive Psychology.
3 Units

**Prerequisite(s):** Graduate standing  
**Term Typically Offered:** Fall, Spring

Provides a survey of topics in human information processing. Selected topics may include perception, attention, memory, knowledge, categorization, problem solving, reasoning, decision making, and language comprehension and production. Classical theories and experiments in these areas will be reviewed in addition to applications of this work to practical problems.

### PSYC 242. Seminar in Learning and Behavior.
3 Units

**Prerequisite(s):** Graduate standing  
**Term Typically Offered:** Fall, Spring

Surveys the area of Psychology concerned with how people and animals learn and how their behaviors are changed as a result of this learning. Selected topics include: Inmate behaviors, respondent and operant learning, behavioral economics, comparative cognition, theories of imitation, choice and self-control. Classical theories and current experiments in these areas will be reviewed in addition to implications of this work to practical problems.

### PSYC 251. Developmental Processes.
3 Units

**Prerequisite(s):** PSYC 148 or PSYC 149.  
**Term Typically Offered:** Fall, Spring

Study of the psychological processes underlying development throughout the life span. Covers such topics as cognitive, language, emotional, and relationship development in terms of the individual. Attention will be given to functioning of the individual within social units such as the family.

### PSYC 262. Theoretical Foundations of Organizational Psychology.
3 Units

**Prerequisite(s):** PSYC 108 or equivalent.  
**Term Typically Offered:** Fall, Spring

Major theories that made significant theoretical contributions to organizational psychology are covered, along with areas of significant research which have provided the foundations of modern organizational psychology.

### PSYC 267. Training & Employee Development.
3 Units

**Term Typically Offered:** Fall only

This course will provide an overview of the application of psychological principles to employee training and development, and an in-depth review of common training and development practices. Additional topics include techniques for determining training requirements, motivating trainees, providing feedback on trainee performance, ensuring positive transfer of training to the job environment, and employee development programs.

### PSYC 268. Advanced Psychopathology.
3 Units

**Term Typically Offered:** Fall, Spring

Covers an advanced and detailed discussion of the description, etiology, development, dynamics and treatment of individuals with mental disorders. Since the DSM-IV is the major classification system used by mental health professionals, it will also be discussed. This manual describes essential features of a variety of disorders and outlines the basis on which an experienced clinician can differentiate one disorder from another.  
**Note:** May substitute EDC 231.

### PSYC 269. Analysis of Work and Employee Selection.
3 Units

**Term Typically Offered:** Spring only

Survey of work analysis, with emphasis on designing employee selection systems. Topics to include multiple methods for analysis of different types and aspects of work, and applications of the results such as: Explicating the performance construct for a given job; identifying human attributes required for successful performance; evaluating jobs in terms of compensation; selecting appropriate measurement methods for predictor and criterion constructs; evaluating predictor utility; and the legal environment for employee selection practice.

### PSYC 271. Advanced Applied Behavior Analysis.
4 Units

**Prerequisite(s):** Graduate status and instructor permission.  
**Term Typically Offered:** Fall, Spring

Designed both for graduate students who are interested in gaining knowledge about the fundamental principles of behavioral psychology and those who are pursuing certification as a Board Certified Behavior Analyst. Students will not only learn behavioral theory and the means by which behavior is increased, decreased, shaped and maintained, but they will learn to apply behavioral principles to more complex topics such as concept formation and novel behaviors.
PSYC 272. Research Methods in Behavior Analysis. 3 Units  
**Prerequisite(s):** PSYC 171 or PSYC 181.  
**Term Typically Offered:** Fall, Spring  
Covers methods related to single-case research (i.e., data collection, logic, designs). Course content is based primarily on contemporary books and articles from peer-review journals. Topics include: measurement of behavior, methods of assessing inter-rater agreement, experimental design including, reversal designs, changing-criterion designs, alternating treatment designs, and multiple-baseline designs; and displaying and interpreting behavioral data. Current methodological issues will be discussed.

PSYC 274. Theoretical Foundations of Behavior Analysis. 3 Units  
**Prerequisite(s):** PSYC171 or PSYC181 or equivalent.  
**Term Typically Offered:** Fall, Spring  
Covers major theories that have made significant contributions to behavior analysis, along with areas of significant research providing the foundations of radical behaviorism and contemporary behavior analysis. Topics include history of behaviorism, selection by consequences as a casual mode, pragmatism, determinism, logical positivism, dualism x monism, verbal behavior and private events.

PSYC 275. Applied Behavior Analysis in the Workplace. 3 Units  
**Prerequisite(s):** Graduate students only  
**Term Typically Offered:** Fall only  
Overview of contemporary research and practice on the use of applied behavior analysis techniques in the workplace. Students will learn to use several performance assessment and improvement tools based on the operant learning literature, as well as learn strategies for effective supervision, training, and management of staff in human service organizations.

PSYC 277. Special Topics Graduate Seminar in Psychology. 3 Units  
**Prerequisite(s):** Graduate Student Status  
**Term Typically Offered:** Fall, Spring  
Examines a special topic of interest in psychology at the graduate level. Offered by rotating instructors, the course explores selected topics in psychology, and contemporary developments in theories, methodologies, and/or methods in the selected sub-discipline or topical area. Topics can include subject matter from all areas of psychology, including, but not limited to: applied behavior analysis, clinical, cognitive, community, cultural, developmental, experimental, feminist, health, industrial-organizational, neuroscience, perception, quantitative, social, etc., or related methodologies. Recommend prior coursework in area of focus.

PSYC 281. Advanced Experimental Analysis of Behavior. 4 Units  
**Prerequisite(s):** PSYC 271.  
**Term Typically Offered:** Fall, Spring  
Advanced consideration of small-N research designs. Analysis of complex contingencies of reinforcement and stimulus control as they apply to such topics as perceiving, thinking, abstractions, and concept formation. In-depth examination of behavior analytic principles in relation to choice behavior and verbal behavior.

PSYC 283. Teaching Of Psychology. 3 Units  
**Term Typically Offered:** Fall, Spring  
Covers the historical background of higher education, the social and administrative structure of colleges and universities, and the selection, preparation and planning of undergraduate psychology courses, particularly introductory courses.

PSYC 284. Assessment and Treatment of Behavior Problems. 4 Units  
**Prerequisite(s):** Graduate status and instructor permission.  
**Term Typically Offered:** Fall, Spring  
Advanced study and practical experience in application and teaching of behavior analytic methods of assessment, data collection, program construction and evaluation for a variety of behavior problems. Students will become proficient in conducting functional analyses, positive programming, and constructing and implementing behavior intervention programs for behavior excesses (consistent with State of California laws) including, antecedent manipulations, differential reinforcement schedules, functional communication training, and response cost. They will be required to develop didactic skills with respect to these various programs. Lecture three hours; Lab three hours.

PSYC 291. Professional Issues in Behavior Analysis. 3 Units  
**Prerequisite(s):** PSYC 271.  
**Term Typically Offered:** Fall, Spring  
Classroom and on-site experience in applied behavior analysis. Students will work at an approved agency for a minimum of 10 hours per week under the supervision of a Board Certified Behavior Analyst. Students will also meet in class to present and review their cases. Emphasis will be placed on treatment integrity and ethics.  
**Note:** Requires permission of instructor. May be repeated for credit.

PSYC 294. Cooperative Research. 1 - 6 Units  
**Term Typically Offered:** Fall, Spring  
Students work cooperatively on a psychological research project under faculty supervision.  
**Note:** Requires permission of instructor and the Department Chair. May be repeated once for credit.

PSYC 295A. Fieldwork in the Teaching of Psychology. 1 - 6 Units  
**Term Typically Offered:** Fall, Spring  
Supervised experience in various educational and instructionally related tasks, such as leading discussion groups, setting up and presenting demonstrations, constructing and scoring tests, and tutoring, at selected educational institutions in the Sacramento area.  
**Note:** Requires permission of instructor and the Department Chair. May be repeated once for credit.  
**Credit/No Credit**

PSYC 295C. Fieldwork in Personnel and Organizational Psychology. 1 - 6 Units  
**Term Typically Offered:** Fall, Spring  
Supervised work experience at a professional level in business and governmental organizations.  
**Note:** Requires permission of instructor and the Department Chair. May be repeated once for credit.  
**Credit/No Credit**

PSYC 295G. Fieldwork. 1 - 6 Units  
**Term Typically Offered:** Fall, Spring  
Projects in contemporary areas of psychology under the supervision of one or more faculty.  
**Note:** Requires permission of instructor and the Department Chair. May be repeated once for credit.  
**Credit/No Credit**
PSYC 297A. Advanced Graduate Research I. 1 - 4 Units
Prerequisite(s): PSYC 294
Term Typically Offered: Fall, Spring

Advanced research opportunity for graduate students who have completed previous research experiences in PSYC 294. Students in the course are expected to develop advanced skills in research methods, data management, data analysis, and the communication of research findings by conducting research on collaborative projects under the guidance of a psychology faculty supervisor.

PSYC 297B. Advanced Graduate Research II. 1 - 4 Units
Prerequisite(s): PSYC 297A
Term Typically Offered: Fall, Spring

Advanced research opportunity for graduate students who have completed previous research experiences in PSYC 297A. Students in the course are expected to demonstrate competence in research methods, data management, data analysis, and the communication of research findings by conducting research on collaborative projects under the guidance of a psychology faculty supervisor.

PSYC 299. Special Problems. 1 - 6 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading. Requires approval of instructor and Department Chair.
Credit/No Credit

PSYC 500A. Culminating Experience. 4 Units
Prerequisite(s): Advanced to candidacy and permission of the graduate coordinator.
Term Typically Offered: Fall, Spring

Completion of a thesis or project approved for the Master's degree.

PSYC 500B. Culminating Experience. 2 Units
Prerequisite(s): PSYC 500A.
Term Typically Offered: Fall, Spring

Continuation of work on thesis or project.

Public Health (PUBH)

PUBH 50. Healthy Lifestyles. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Examines the concepts of: health and wellness; the determinants of health and wellness; and the concept of self-responsibility for health and wellness. These health and wellness concepts shall be applied to the areas of: mental wellness, nutrition, fitness, human sexuality, and drugs. The lecture/discussion format provides for a sharing of views regarding the integrated concepts of health that emphasizes the physical, mental, emotional, social, spiritual, and environmental factors that influence an individual's health status.

PUBH 98. Health Science ProSeminar. 3 Units
Term Typically Offered: Fall, Spring

Potential and beginning Health Science students become oriented to the Health Science discipline. They will acquire and develop the knowledge and understanding needed to fulfill the Health Science major learning outcomes. Students will develop their individual learning plans designed to assure fulfillment of the Health Science major, General Education, and University graduation requirements.

PUBH 106. Occupational Health. 3 Units
Prerequisite(s): must be a Public Health or a Fire Service Management major or minor to enroll in this class
Term Typically Offered: Spring only

Explores global and national issues in occupational and non-occupational safety and health. Subjects include motor vehicle, consumer, workplace, fire, school, and home safety. Examines concepts and principles related to the cause, control, and mitigation of unintentional injuries and illnesses. Emphasizes the development, implementation, and integration of effective safety and health program strategies in the prevention and control of loss.

PUBH 107. Occupational Safety. 3 Units
Prerequisite(s): Public Health majors or minors only, or instructor permission.
Term Typically Offered: Spring only

Examines common hazards and problems encountered in the workplace, including concepts and principles related to the control and mitigation of occupational safety hazards. Emphasizes the development, implementation, and integration of effective occupational safety and health program components.

PUBH 108. Occupational Health and Safety Laws and Regulations. 3 Units
Prerequisite(s): Public Health majors or minors only; or instructor permission.
Term Typically Offered: Fall only

Overview of regulatory agencies involved in occupational health and safety and their functions in the enforcement of regulation and/or compliance of safety laws. Special emphasis on Cal/OSHA. Other topics: application of surveillance, research, control technology, and trained personnel to maintain compliance. Recognizes that strategies to achieve a safe workplace includes an analysis of economic and employment impacts on the employer.
PUBH 109. Cause and Control of Occupational Loss. 3 Units
Prerequisite(s): Public Health majors or minors only, or instructor permission.
Term Typically Offered: Fall only

Study of the characteristics, causes, and control of occupational loss; influence of the work environment and system structure on incident outcomes; and analysis of occupational injuries and illnesses through the application of incident investigation and system safety techniques. Course will use occupational injuries and illnesses to focus on the process of problem identification and analysis, including the development and implementation of control measures.

PUBH 110. Issues in Occupational Health and Safety. 3 Units
Prerequisite(s): PUBH 100 or instructor permission
Term Typically Offered: Fall, Spring

Examines current and emerging issues in occupational health and safety, including historical, philosophical, and conceptual factors that serve as a basis for predicting, understanding, and resolving occupational health and safety issues. Examples include: Issues in high hazard industries, special populations at risk, emerging technologies, occupational hazards, and traumatic injuries.

PUBH 112. Disease Prevention. 3 Units
Prerequisite(s): Public Health majors or minors only; or instructor permission
Term Typically Offered: Fall, Spring

Surveys the current methods of promoting high level wellness through a preventive medicine approach for the promotion of more enjoyable and productive living. Attention directed toward the specific methods of promoting personal health through various current methodologies including the "holistic health" movement. Meets the needs of major students as well as those in allied fields such as nursing, social work and other interested students.

PUBH 114. Human Ecology and Health. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring, Summer

Emphasizes the social and natural environmental influences that have a direct impact upon the health of the individual. Primary consideration is directed to an analysis of health as influenced by a person's interaction with his/her environment.

PUBH 116. Public Health Policy, Management & Administration. 3 Units
Prerequisite(s): Must be a Public Health, Health Sciences, or Gerontology major or minor or admitted by permission of instructor
Term Typically Offered: Fall, Spring

In Public Health Policy, Management and Administration we will build an understanding of: how public health systems are structured and managed; how public health policy is shaped and implemented; and the reciprocal relationship between culture, context, and economics and public health policies and systems. We will compare and contrast public policies, systems and management at local, national, and global levels.

PUBH 117. Global Health. 3 Units
Prerequisite(s): Public Health majors or minors only; or instructor permission
Term Typically Offered: Fall, Spring

Introduction to the globalization of public health and the critical health issues facing all citizens of the world, with special emphasis on health concerns of developing countries. Topics include global malnutrition, primary health care, maternal and child health, international environmental health, comparative health care systems, epidemiology and international health threats, and sustainable health and development programs undertaken by nongovernmental organizations.

PUBH 118. Introduction to Public Health. 3 Units
Prerequisite(s): Must be a Public Health major or minor
Term Typically Offered: Fall, Spring

The course introduces students to a range of topics, issues, methods, approaches, and frameworks to help understand current public health issues, systems and areas of practice. This course explores the ways in which public health practice prevents harm and promotes and protects health and well-being of people, communities and their environments.

PUBH 119. Community Health Promotion. 3 Units
Prerequisite(s): Must be a Public Health major or minor with a minimum "C" grade or better in PUBH 118 or have instructor permission
Term Typically Offered: Fall, Spring

In this course, we will explore the theoretical constructs of community, community building, community organizing and community-based participatory action research as levers to address social determinants of health to promote individual and community health and well-being. Emphasis on developing effective community health promotion materials, strategies and advocacy activities.

PUBH 122. Health Psychology. 3 Units
Prerequisite(s): Must be a Public Health or Child Development major or minor
Term Typically Offered: Fall, Spring

Introduction to behavioral and social factors which influence health and illness. Explores the causes of premature death, the relationships between personality and health, and the development of health problems. Includes an overview of psychological principles in behavioral medicine, physiological foundations of health psychology, the role of emotions in immune function, and topical theories of, techniques for, and research on how psychology can help people live longer, healthier lives.

PUBH 124. Ethical Considerations in Public Health. 3 Units
Prerequisite(s): WPJ score of 80 or above, or 3-unit placement in ENGL 109M/W; or 4-unit placement in ENGL 109M/W + co-enrollment in ENGL; or WPJ score of 70/71 + co-enrollment in ENGL 109X
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring, Summer

This course examines ethical issues related to public health practice, policy, and research. Questions of autonomy, liberty, individual rights, power, coercion, social justice, discrimination, stigma, community paternalism, and the common good are the basis of ethical challenges in public health. Public health ethical considerations in health promotion, health policy, healthcare, and issues of safety where people work, live, and play will be the focus both domestically and globally. Students will develop an analytical methodology to apply to public health work.

Note: Students must be eligible to take a writing intensive course.
PUBH 130.  Alcohol and Other Drugs.  
General Education Area/Graduation Requirement: GE AREA D  
Term Typically Offered: Fall, Spring, Summer

Various aspects of drug usage will be studied with emphasis on the role of health education in reducing abuse. This course is designed to explore contemporary issues related to drug and alcohol use. The course will examine the physiological, psychological, social, and cultural impact of licit and illicit drugs.

PUBH 134. Understanding Human Sexuality.  
General Education Area/Graduation Requirement: GE AREA D  
Term Typically Offered: Fall, Spring

This course is designed to explore gender and social issues associated with human sexuality. The course will examine the impact of physiological, psychological, social, and cultural differences and similarities on the sexual health of diverse groups. The course will explore issues related to age, ability/disability, sexual identity, sexual myths, misconceptions, and gender expression.

PUBH 136. School Health Education.  
Prerequisite(s): CPR training; may be taken concurrently.  
Term Typically Offered: Fall, Spring, Summer

Provides teacher candidates, social workers, and nurses an understanding of the educational methods, processes, and content of the scope of health education as provided in the Framework for Health Instruction of the California State Department of Education. Offers an understanding of current problems related to personal, family, and community health. General theories and organization for teaching health education will be discussed. Meets the requirement for teacher candidates under the SB2042.

Note: Not open to lower division students.

PUBH 1344. Community Health Planning and Evaluation.  
Prerequisite(s): PUBH 118, PUBH 148; GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X; or instructor permission; restricted to Public Health majors and minors.  
Term Typically Offered: Fall, Spring

Introduces students to the process and practice of program planning and evaluation. Examines the social and physical determinants of health; the impact of the community structure on health status; and, the influence of personal health behavior on community health education practice. These concepts shall be applied in the planning, implementation, and evaluation of health education services.

PUBH 147. Health Data Analysis.  
Prerequisite(s): STAT 1, Public Health major or instructor permission.  
Term Typically Offered: Fall, Spring

Introduction to methods and statistical practices used in the health sciences. Emphasis on the methods of collection, analysis, interpretation, and presentation of health data. Conceptual learning will be facilitated by sessions using computational software.

PUBH 148. Epidemiology.  
Prerequisite(s): STAT 1 or instructor permission; Public Health or Biological Sciences major or minor.  
Term Typically Offered: Fall, Spring, Summer

Designed to offer cognitive insights into community health epidemiology. Provides understanding of the study of the distribution and determinants of communicable, infectious and chronic disease, and of injuries in the human population.

PUBH 150. Aging and Health.  
Prerequisite(s): Student must be admitted to the Public Health, Kinesiology, or Gerontology major or minor, or have instructor permission to enroll in this course.  
Term Typically Offered: Fall, Spring

Designed to introduce students to the basic aging and health concerns of older people and to broader issues of aging, health and society. Examines the: demography of the aging population, biological theories of aging, social and psychological aspects of aging. Includes such issues as nutrition, drugs, exercise, sexuality, patterns of health services utilization, institutionalization, alternatives to the provision of long-term care in institutions, and dying.

PUBH 151. Introduction to the U.S. Healthcare System.  
Prerequisite(s): Student must be admitted to the Public Health major or minor, or have instructor permission to enroll in this course.  
Term Typically Offered: Fall, Spring

This course presents an overview of the historical, structural, and operational aspects of the nation’s healthcare systems. Students will examine the factors that shape public policy regarding the allocation of health care resources and will gain an understanding of the relationship between healthcare costs, quality of care, and the access to health services. The influence of professional associations, medical technology, and social values in health reform initiatives is discussed.

Prerequisite(s): Public Health majors and minors only; or instructor permission  
Term Typically Offered: Fall, Spring

Introduce students to a broad range of issues related to managing healthcare organizations. Students will explore areas such as organizational behavior and theory applied to healthcare organizations and the role of administrators in planning, organizing, and overseeing the delivery of healthcare services. Organizational principles and decision-making strategies are applied to functional areas of health administration including finance, human resources, performance improvement, strategic planning, and healthcare information systems.

Prerequisite(s): Public Health majors only  
Term Typically Offered: Fall, Spring

Introduction to the study of healthcare administration. Examines the broad field of healthcare administration. Topics include healthcare management, leading healthcare professionals, strategic planning in healthcare, healthcare budgeting and finance, healthcare insurance, healthcare marketing, healthcare information technology, healthcare ethics and law, and healthcare fraud and abuse.
PUBLIC HEALTH (PUBH)

PUBH 154. Healthcare Organizational Behavior. 3 Units
Prerequisite(s): Public Health majors only
The study of healthcare organizational behavior including individual and group dynamics in the context of healthcare settings. Examines the impact of organizational contexts on the behavior of individuals and groups in healthcare organizations. Topics include individual motivation, power and influence, leadership theory, stress in the workplace, decision-making, conflict and negotiation, group dynamics, and change planning in healthcare.

PUBH 155. Introduction to Healthcare Process Improvement. 3 Units
Prerequisite(s): Public Health majors only
Term Typically Offered: Fall, Spring
An exploration of the basic principles and techniques of process improvement in healthcare through a range of topics, including measurement of health care system performance to creating high-quality services that result in organizational improvement and customer satisfaction.

PUBH 195. Fieldwork - Health or Safety. 2 - 4 Units
Prerequisite(s): Permission of faculty advisor, program coordinator and Department chair.
Term Typically Offered: Fall, Spring, Summer
To obtain insights into the practical application of the classroom teachings, fieldwork experiences are required of those preparing for a career in community health education or other areas of health and safety studies.
Note: Submit an application for field work no later than the fourth week of the semester prior to taking HLSC 195. May be repeated once for credit.
Credit/No Credit

PUBH 196. Experimental Offerings in Health Science. 1 - 3 Units
Term Typically Offered: Fall, Spring
Undergraduate seminar designed to provide an in-depth examination and discussion of current topics in the area of personal and community health and safety.

PUBH 196A. Public Health International Study Abroad. 3 Units
Term Typically Offered: Summer only
Students experience a unique culture first-hand and through designed learning experiences, view a different society through the lens of health and wellbeing while expanding one's cultural awareness. Students will understand and compare the organization of different healthcare and the public health systems, and gain insight into how to bring positive change into the systems in which they work.

PUBH 199. Special Problems. 1 - 3 Units
Prerequisite(s): Permission of faculty under whom individual work will be conducted, program coordinator, and Department chair; PUBH 116, PUBH 118, PUBH 119, and PUBH 148 are strongly recommended.
Term Typically Offered: Fall, Spring
Note: Open only to HLSC majors and minors who appear competent to conduct independent work such as
Credit/No Credit

PUBH 201. Behavioral and Social Sciences in Public Health. 3 Units
Prerequisite(s): MPH major or instructor approval.
Term Typically Offered: Fall, Spring
Psychological and social concepts and models relevant to population health are reviewed and critiqued. The course will enable students to describe core theoretical perspectives from each of the social science disciplines of psychology, sociology, and anthropology. Students will learn how to select and apply appropriate social and behavioral models to the design of public health interventions and policies. The course will also cover the critical interrelationships among social determinants, environmental influences, behavioral risk factors, and health disparities.

PUBH 202. Ecological Determinants of Human Health. 3 Units
Term Typically Offered: Fall, Spring
This course will explore both natural and built environments and their impact and consequences on human health. It will examine the social, structural & political determinants affecting ecology, examining social & environmental justice. An emphasis will be placed on unintentional consequences of human interactions with respect to their physical environment. The course will examine current national and international issues in environmental health, including but not limited to anthropogenic climate change, biodiversity loss, ocean acidification, and carbon footprinting.

PUBH 203. Public Health Management and Leadership. 3 Units
Prerequisite(s): MPH major or instructor permission.
Term Typically Offered: Fall, Spring
This course examines the role of management and leadership practices in public health organizations and draws on theory to explore the role of public health leaders in planning, budgeting, staffing, and controlling performance. Students will explore relevant leadership topics such as organization development, employee motivation, and emotional intelligence. The nuances of leading in a government agency are also considered. These topics are set in the context of ethical management and leadership practices.

PUBH 204. Healthcare Systems, Structures, and Policies. 3 Units
Prerequisite(s): MPH major or instructor permission.
Term Typically Offered: Fall, Spring
This course explores health care systems from a macro perspective, including historical development, information technology, healthcare policy and resource allocation, the healthcare workforce, issues surrounding access to healthcare, prevention in healthcare, population health and medicine, various delivery models, and public health's partnership with healthcare. Comparisons are made between the US health care system and other nations in relation to costs and quality.

PUBH 207A. Health Research Methods and Analysis (A). 3 Units
Prerequisite(s): MPH major or instructor permission.
Term Typically Offered: Fall, Spring
Introduces students to the fundamentals of research methodology in applied epidemiology, biostatistics and evaluation research. Students learn quantitative, qualitative, mixed method and participatory approaches to research, as well as ethical behavior in conducting research. Through the mix of texts, articles from the public health literature and course work, students will build skills for conducting research and analysis across a variety of public health applications.
PUBH 207B. Health Research Methods and Analysis (B). 3 Units
Prerequisite(s): MPH major or instructor permission.
Term Typically Offered: Fall, Spring

Explores intermediate and advanced research methods in applied epidemiology, biostatistics and evaluation research. Students learn about tools for describing central tendency and variability in data, methods for performing inference on population parameters via sample data, statistical hypothesis testing and its application to group comparisons, issues of power and sample size in study design, and sampling techniques. Students will also examine common research methods used in program evaluation.

PUBH 220. Health Policy Analysis. 3 Units
Prerequisite(s): MPH major or instructor approval.
Term Typically Offered: Fall, Spring

Students develop strategies for the analysis of health policy issues and learn to communicate effectively in the policy environment. Students gain a local, state, and federal perspective on the historical and political context of health policy and its effects on public health and health care systems, with an emphasis on population health outcomes.

PUBH 221. Strategies for Community Engagement. 3 Units
Prerequisite(s): MPH major or instructor permission.
Term Typically Offered: Fall, Spring

Students master the concepts and practices of community engagement, including defining a community, developing community coalitions, forming multi-sector partnerships, social network theory, community-based participatory research, the community engagement continuum of impact, trust, and readiness, models of community change/intervention, community psychology, and community organizing. Students will apply these concepts in a culminating semester project that includes developing a community engagement strategy to address a health issue. Ethics in community engagement underlies the basic approach taken throughout the course.

PUBH 222. Methods of Health Promotion. 3 Units
Prerequisite(s): Master of Public Health major or instructor permission.
Term Typically Offered: Fall, Spring

This course explores theories of health communication, teaching and learning, marketing and advertising, and health behavior to prepare students to design effective health promotion interventions. Students will learn to utilize multiple methods of health promotion, including presentation planning, social marketing, material design, and mediated communication. This course also emphasizes the importance of public engagement and the development of effective communication with public health stakeholders including consumers, community groups, policy makers, health care providers, news media, and the general public.

PUBH 223. Leadership in Public Health Practice. 3 Units
Prerequisite(s): MPH major or instructor permission.
Term Typically Offered: Fall, Spring

Examines the role of leadership in public health practice at the program, agency, and community-organization level, with an emphasis on leading community health improvement efforts. Students become aware of their leadership style through assessment and experiential activities, while learning to adapt their approach to leading across multiple settings. Particular emphasis is placed on leading groups and teams in practice settings often encountered by public health professionals.

PUBH 224. Program Planning and Evaluation. 3 Units
Prerequisite(s): Master of Public Health majors or instructor permission.
Field trip.
Term Typically Offered: Fall, Spring

Covers the essential elements of planning, implementing, and evaluating a health promotion program. Aspects of the course include the application of health behavior theory and program planning models, consideration of the social and physical determinants of health, structural influences on personal health status, and the influences of social and health policy on communities.

PUBH 225. Topics in Public Health Seminar. 3 Units
Prerequisite(s): MPH major or instructor permission.
Term Typically Offered: Summer only

Introduces students to a variety of pressing issues impacting current public health practice and provides an opportunity to explore one or more of those issues in greater depth. Students conduct research using multiple sources on a variety of topics, present findings to the class, and create a solution-centered project with potential applications for practice.

PUBH 295. Public Health Practicum. 3 Units
Prerequisite(s): Master of Public Health major or instructor permission.
Term Typically Offered: Fall, Spring, Summer

Provides students with an in-depth, supervised experience in an applied practice setting. Students explore broad areas of public health practice and conduct supervised field research on a specific area of professional interest. Students further develop expertise in an area of interest by providing consultation and technical assistance to a project or organization engaged in public health work. Credit/No Credit

PUBH 500. Public Health Capstone. 3 Units
Prerequisite(s): MPH major or instructor permission.
Term Typically Offered: Fall, Spring

Guides students through a culminating experience in the Master of Public Health program. Seminars discuss and review the integration of core public health concepts and concentration competencies. Students create materials that demonstrate the analysis, synthesis, and intersection of course work, while demonstrating mastery of the broad field of public health.

Public Policy and Administration (PPA)

PPA 100. Introduction to Public Policy and Administration. 3 Units
Prerequisite(s): GOVT 1 or GOVT 150 or equivalent.
Term Typically Offered: Fall, Spring

Explores context and process for policy making by national and California state governments, including ethical dimensions. Applications are developed from students' and instructor's areas of interest including K-12 and higher education, land-use policy, and aging issues such as elder advocacy, Social Security, and Medicaid. Provides background and skills for entry level positions in public or non-profit organizations. Cross Listed: GERO 102; only one may be counted for credit.
PPA 200. Introduction to Public Policy and Administration. 3 Units
Term Typically Offered: Fall, Spring

Examines public policy and administration by exploring major policy processes, particularly in California state and local government. Topics include the emergence and specification of issues, developing and selecting policy options, implementing and administering policies and evaluating and terminating public policies. The course approach is comprehensive, transdisciplinary and human centered – concerned with the interplay of values in shaping policy outcomes. The intent is to provide conceptual frameworks and operational principles required in identifying and resolving issues emerging in public settings.

Note: Satisfies the Graduate Writing Intensive Requirement (GWI).

PPA 205. Research in Public Policy and Administration. 3 Units
Term Typically Offered: Fall, Spring

Emphasizes fundamental research and management skills necessary in generating accurate and useful decision-related information for policy makers. Topics include conceptualizing and structuring research questions, collecting valid and relevant data and interpreting and presenting results. The course approach is pragmatic, transdisciplinary, and oriented to producers and users of policy research information. The intent is to enhance research skills in analyzing and resolving policy issues.

PPA 207. Quantitative Methods in Public Policy and Administration. 3 Units
Prerequisite(s): PPA 205 or instructor permission.
Term Typically Offered: Fall, Spring

Study of quantitative methods as applied in public policy analysis. Concentrates on interpreting the results of econometric, statistical, and other public policy studies, and on determining the relevance and applicability of quantitative analysis with the larger scheme of public policy decision making.

PPA 210. Political Environment of Policy Making. 3 Units
Prerequisite(s): PPA 200 or instructor permission.
Term Typically Offered: Fall, Spring

Assists students in learning to identify the political factors impinging on the policy process and in learning to cope with them. With special emphasis on the California political environment and issues, employs case studies, structured role-playing, and including politically feasible policy alternatives and advice to hypothetical clients. The goal is to equip students to work effectively as politically aware policy analysts.

PPA 220A. Applied Economic Analysis I. 3 Units
Prerequisite(s): ECON 1B, or instructor permission.
Term Typically Offered: Fall, Spring

Presents the basic concepts, tools, and models of microeconomics in the context of public sector choices. The standard market demand and supply model is developed and used to analyze the effect of public policies (particularly those of California state and local governments) on consumers and businesses. The principles of welfare economics are presented and used to evaluate economic performance.

Note: Graduate Writing Intensive Course.

PPA 220B. Applied Economic Analysis II. 3 Units
Prerequisite(s): PPA 220A.
Term Typically Offered: Fall, Spring

Continuation of PPA 220A which focuses specifically on the role of government in a market-oriented economy with emphasis on market failures including: public goods, externalities, and monopoly. Corrective taxes and expenditure programs are discussed, and the technique of cost-benefit analysis is developed and applied to various state and local government projects.

PPA 230. Public Budgeting and Finance. 3 Units
Term Typically Offered: Fall, Spring

Enables students to understand, analyze, and evaluate the governmental budget process including revenue and expenditure patterns. The primary emphasis is on California state and local governments. The federal budget process is discussed primarily to reflect the impact that it has on state and local governments. Features both theoretical and practical approaches to budgets, including alternate budget formats. Various perspectives are utilized to explore the political, economic, and policy concerns inherent in the development and implementation of public sector budgets.

PPA 240A. Public Management and Administration I. 3 Units
Prerequisite(s): 1) graduate standing and 2) completion of PPA program prerequisites, or instructor permission.
Term Typically Offered: Fall, Spring

Examines concepts and approaches used in analyzing and understanding complex organizations. Organizational theory, management concepts, and behavioral analysis is employed to understand the dynamics and evolution of public sector organizations. Emphasis is placed on applying classic organizational theory and introductory leadership skills and issues.

PPA 240B. Public Management and Administration II. 3 Units
Prerequisite(s): PPA 240A.
Term Typically Offered: Fall, Spring

Continuation of PPA 240A. Examines concepts and approaches used in analyzing and understanding complex organizations. Emphasis is placed on ability to intervene and assist public agencies by designing intervention plans, engaging in strategic planning, promoting interdepartmental effectiveness, using advanced leadership issues and techniques, and using advanced organizational development strategies.

PPA 250. California Land Use Policy. 3 Units
Term Typically Offered: Fall, Spring

Examines public policies that influence land use. Reviews tools of land use planning and development and applies them to issues that dominate California policy choices including urban design, fiscalization of land use, sustained growth, and the challenges of social equity.
PPA 251. Urban Problems, Economics and Public Policy. 3 Units
Prerequisite(s): PPA 220A or ECON 100B.
Corequisite(s): ECON 251; only one of these courses may be counted for credit.
Term Typically Offered: Fall, Spring

Historical development, economics and possible policy solutions of the most pressing problems facing central cities and urban areas in the U.S. are presented. Problems discussed include poverty, crime, urban abandonment/suburban sprawl, edge cities, deteriorating infrastructures, and fiscal stress. Cross Listed: ECON 251; only one may be counted for credit.

PPA 270. Introduction to Collaborative Policy Making. 3 Units
Prerequisite(s): PPA 200 and PPA 210, or approval of instructor.
Term Typically Offered: Fall, Spring

Examines the theory and practice of collaborative policy-making using case studies of major collaborative processes. Topics include interpretative policy analysis, deliberative democracy theory, public participation, collaborative policy networks, the use of dialogue in public policy, resolution of policy controversies, and consensus building.

PPA 272. Collaborative Governance Advanced Practice. 3 Units
Prerequisite(s): PPA 270 with a grade of B- or better, or instructor permission.
Term Typically Offered: Fall, Spring

Practice driven, highly participatory course for professionals who require more advanced skills into collaborative methods. Topics include conflict analysis and assessment, analysis of advocacy speech, public participation, working with the media, and interagency networks. Focuses on active learning with practice in a wide variety of collaborative skills.

PPA 284. Urban Policy. 3 Units
Term Typically Offered: Fall, Spring

Exploration in-depth of the socio-economic problems of urban and metropolitan areas and evaluation of proposed political and governmental solutions. Cross Listed: GOVT 284; only one may be counted for credit.

PPA 291. Court Governance and Operations. 3 Units
Term Typically Offered: Fall, Spring

Studies the state judiciary as both independent and interdependent with the legislative and executive branches of government at both the state and local level. The goal is to develop foundational knowledge of the historical and evolving governing and operational principles of the California court system.

PPA 292. Court Management. 3 Units
Prerequisite(s): PPA 291 or instructor permission.
Term Typically Offered: Fall, Spring

Provides training in key court administrative areas identified by such organizations as the National Association of Court Management (e.g., case flow management). Drawing from interdisciplinary literature on management theory, court case studies illustrate and provide context.

PPA 293. Court Leadership. 3 Units
Term Typically Offered: Fall, Spring

Examines leadership in the court environment as distinct from management. Investigates how leadership principles are exercised in pivotal areas of the courts such as: community relations, creativity and innovation, organizational change, workforce development, succession planning, strategic planning and re-engineering.

PPA 294. Emerging Issues in Judicial Administration. 3 Units
Term Typically Offered: Fall, Spring

Addresses pressing issues in judicial administration (e.g., courts in an electronic world, rising administrative workloads, greater number of self-represented litigants). Specific topics may change from year to year depending on the urgency of topics and nature of policy implications.

PPA 296E. Intergovernmental Relations. 3 Units
Term Typically Offered: Fall, Spring

A review of the origins of federalism in the U.S. and various theoretical approaches to understanding the relationships between various levels of government, including ways in which the different levels of government relate to one another both vertically and horizontally.

PPA 296M. Policy Prototyping. 3 Units
Prerequisite(s): At least one graduate course in political science, economics, and administration or management; no more than one of which may be taken as a co-requisite.
Term Typically Offered: Spring only

Applies policy and administrative prototyping to policy topics such as transportation and mobility, environment and resources, and education, workforce, and justice. The course uses the drafting and iteration of statutes, ordinances, and regulations, budget and personnel plans, organizational designs, and vote counts, along with sketching design thinking applications, to explore innovative strategies for addressing these policy topics, with an emphasis on implementation.

PPA 297A. Executive Fellows Introductory Seminar. 3 Units
Term Typically Offered: Fall, Spring

Seminar will enhance Executive Fellows' understanding of the state policy making and administrative process, policy implementation, ethical responsibilities of policy and administrative actors.
Note: Open only to students admitted to the Executive Fellowship Program.

PPA 297B. Executive Fellows Policy Seminar. 3 Units
Prerequisite(s): PPA 297A
Term Typically Offered: Fall, Spring

Seminar will extend the examination and analysis of the Executive branch of government to include alternative administrative practices, policy implementation strategies, and related administrative issues.
Note: Open only to students admitted to the Executive Fellowship Program.

PPA 298A. Judicial Administration Fellows Introductory Seminar. 3 Units
Term Typically Offered: Fall, Spring

Critical examination and analysis of the administrative operation of the California judicial system and its structures, policies and practices.
Note: Open only to students admitted to the Judicial Administration Fellows Program.
Punjabi (PUNJ)

PUNJ 1A. Elementary Punjabi. 4 Units
Term Typically Offered: Fall only
Introduction to Punjabi as spoken in India and Pakistan. Instruction will be in all four language skills: speaking, reading, listening and writing. In addition to getting a start in modern Punjabi, students will also learn about social aspects of the use of Punjabi.

PUNJ 1B. Elementary Punjabi. 4 Units
Prerequisite(s): PUNJ 1A.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement, Humanities (Area C2)
Term Typically Offered: Spring only
Continuation of PUNJ 1A, with emphasis on reading, writing, listening and speaking. Punjabi culture and its reflection in the language is given continued attention.

Real Estate & Land Use (RELU)

RELU 199. Special Problems in Real Estate and Land Use Affairs. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects or directed reading for students qualified to carry on independent work. Admission requires approval of the instructor and the Associate Dean. Petitions can be obtained from the Undergraduate Business Advising Center, Tahoe 1030. Credit/No Credit

Recreation, Parks, and Tourism Administration (RPTA)

RPTA 1. Orientation to Recreation, Parks and Tourism Administration. 1 Unit
Term Typically Offered: Spring, Summer
Introduction to the RPTA major with an emphasis on degree options, major advising, referrals to GE for general advising, information about the RPTA undergraduate student association, other local, statewide and national professional associations, scholarship opportunities, the 600-hour volunteer/paid placement prior to the internship, an overview of the internship process. Credit/No Credit

RPTA 21. First Year Seminar: Becoming an Educated Person. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall only
A first-year seminar intended to provide students with an introduction to the meaning of higher education, resources of the University, and skills for lifelong learning. This course is designed to help students develop academic success strategies and to improve information literacy, intercultural competence, and integrative thinking. The seminar also provides students with the opportunity to interact with fellow students and seminar faculty to build a community of academic and personal support.

RPTA 22. Happiness, Quality of Life, and Recreation Over the Lifespan. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring
This course focuses on the interrelationship between happiness, positive leisure, recreation, one's personal growth and development, and quality of life. Emphasis is placed on the interplay between psychological, physical, and social factors that affect one's development and lifestyle choices. The course offers a survey of philosophical and scientific concepts linked to happiness and well-being as pertains to important components of the life experience ranging from conception to the end of life.

RPTA 30. Recreation, Parks and Tourism in Contemporary Society. 3 Units
Term Typically Offered: Fall, Spring
Orientation to the nature, scope and significance of the recreation, park and tourism in today's world. Analyzes philosophical and related elements essential to the effective delivery of leisure services, including the role of affective, cognitive and social motivations and outcomes.
RPTA 32. Leadership and Group Development. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

The purpose of this course is for students to develop an understanding of the theory and practice of leadership in various recreational organizational settings. The course will allow students the opportunity to develop leadership skills through lectures, self-assessments, experiential exercises, class discussions, and case studies. Students are exposed to diverse theories and perspectives on leadership and are encouraged to apply critical thinking skills to develop their own working philosophy of the leadership that will serve them in their career contexts.

RPTA 33. Race, Class Gender and Leisure. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Examination of the role of leisure in the social construction of markers of identity across gender, race, class, sexuality and disability; and leisure's role in the construction of institutional oppressions such as racism, sexism, homophobia and discrimination based on class and disability.

RPTA 34. The Outdoor Recreation Experience. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Encourages the student to identify and demonstrate an understanding of the value, meaning and benefits of outdoor recreation experiences and to explore a variety of outdoor adventure experiences. Outing skills such as trip planning, meal preparation, camp selection and set-up, equipment and clothing, map and compass, hygiene and first aid will be discussed and practiced. Students will also develop an awareness of and appreciation for minimum impact wilderness travel techniques and environmental responsibility and ethics.

RPTA 42. Recreation and Parks: Natural, Cultural, and Heritage Resources. 3 Units
Term Typically Offered: Fall, Spring

Examines the use of natural, cultural, and heritage resources for recreation, tourism and leisure purposes in a variety of settings and under the auspices of various agencies. Includes study of various protected areas and facilities, including parks, forests, museums, and cultural sites and how they are influenced by social trends, conflicting use demands, agency responsibilities, environmental considerations, and fiscal implications.

RPTA 50. Introduction to Rock Climbing. 1 Unit
Term Typically Offered: Fall, Spring

Designed to provide students with the basic knowledge, skills, and techniques of modern rock climbing. Students will learn skills pertaining to indoor top-rope and lead climbing, indoor and outdoor bouldering, and outdoor sport climbing. Students will also learn and discuss outdoor ethics and environmental impact in relation to rock climbing.

RPTA 60. Budgeting for Recreation Services. 3 Units
Prerequisite(s): RPTA major and minors only, or instructor permission.
Term Typically Offered: Fall only

Introduces students to budget topics in Recreation, Parks, and Tourism, through the use of theoretical readings, case studies, and a series of professional speakers. Students will gain a broad understanding of the planning and implementation of the budget process for a leisure service agency, primarily those that are non-profit or tax-supported.
Note: Only one of RPTA 60 or RPTA 61 may be counted for credit

RPTA 61. Cost Management for Hospitality. 3 Units
Prerequisite(s): RPTA major and minors only, or instructor permission.
Term Typically Offered: Spring only

Introduces students to a broad range of topics related to cost management in hospitality, and teaches students to analyze numerical data for decision-making in hospitality operations. Considers systems, techniques, information types, and presentational forms commonly used by hospitality managers. Additional topics include, financial statements and ratio analysis, various pricing methods, types of costs in hospitality and service industries, cost-volume-profit techniques, and the application of standard cost controls used in hospitality.
Note: Only one of RPTA 60 or RPTA 61 may be counted for credit

RPTA 62. Introduction to Recreation Law. 3 Units
Prerequisite(s): RPTA majors and minors only, or instructor permission.
Term Typically Offered: Fall, Spring

Introduces students to legal topics and regulations in Recreation, Parks and Tourism industries. Students are given a practical knowledge of the law, operation of the legal system, contracts, and legal applications to agency management, human rights and personnel. Course uses text book readings, case law from actual published decisions in the field of Recreation law, courtroom visitations, and professional speakers.

RPTA 80. Introduction to Hospitality and Tourism. 3 Units
Term Typically Offered: Fall only

Hospitality and tourism are vitally important to California’s image and economy, and these two related industries are among the world’s top employment providers. This course provides an introductory overview of the broad hospitality and tourism industries, covering several topics, including growth and development, trends and current concerns, and professional employment sectors.

RPTA 82. Introduction to Hospitality and Tourism Law. 3 Units
Term Typically Offered: Fall, Spring

This course provides insight into the laws and regulations governing the hospitality and tourism industries with an emphasis on labor relations and human resources best practices. The course addresses the general concepts of tort, contracts, liability, risk management, employment practices, licensing, and insurance needs. The course also explores the legal issues that today’s industry professionals face such as privacy, labor laws, the common law system for innkeepers and newer hospitality products in the shared economy such as AirBnB or VRBO. Field Trip(s) may be required.
RPTA 84. Hotel and Lodging Operations. 3 Units
Term Typically Offered: Fall, Spring

This course is designed to provide knowledge of hotel and lodging operations. Students will acquire an understanding of how a variety of lodging types, specifically hotels, operate by detailed examination of the departments common to most lodging properties, including the front office, sales and marketing, housekeeping, maintenance, and others. Additionally, topics relevant to operations like green initiatives and revenue optimization will be discussed in this course. Field Trip(s). Field trip(s) may be required.

RPTA 100. Recreation and Leisure Lifestyle Development. 3 Units
Term Typically Offered: Fall, Spring

A broad general overview of the recreation and leisure movement followed by a specific examination of changing leisure lifestyles and their impact on the individual's choice of recreation and leisure patterns. Also examine the impact that the choice of leisure lifestyles has on other aspects of the individual's life as well as the negative effects of restrictive or inadequate leisure involvement.

RPTA 101. Senior Seminar. 1 Unit
Prerequisite(s): RPTA 1 and senior status
Term Typically Offered: Fall, Spring, Summer

Students will focus on identifying potential internships, refining resumes and writing cover letters for securing internships. Students will also complete the RPTA Department Exit Exam.

Credit/No Credit

RPTA 102. Recreation Therapy Professional Practice. 1 Unit
Prerequisite(s): RPTA 1, RPTA 106, RPTA 115, RPTA 116, RPTA 117, RPTA 118 and senior level.
Corequisite(s): RPTA 115, RPTA 116, and/or RPTA 118 may be taken concurrently.
Term Typically Offered: Fall, Spring

This senior level course is intended to build upon a student's previous coursework in recreation therapy, and link the theoretical foundation with day-to-day practical applications. Students will fine-tune skills and interests in recreation therapy, learn methods for effective networking, and develop interviewing techniques in order to identify appropriate internships and employment opportunities.

Credit/No Credit

RPTA 105. Management in Recreation, Parks and Tourism. 3 Units
Prerequisite(s): RPTA 30 or instructor permission
Term Typically Offered: Fall, Spring

Analyzes the functions of managers including planning, organizing, staffing, leading and controlling. Also examines basic principles, techniques and tools associated with these functions. Consideration of internal and external environments which influence the managerial process and the manager's role in various areas of enterprise activity.

RPTA 106. Introduction to Inclusive Recreation and Recreation Therapy. 3 Units
Prerequisite(s): RPTA majors or minors or HLSC majors or minors only, or instructor permission.
Term Typically Offered: Fall, Spring, Summer

Addresses the etiology and nature of common disabling conditions and examines issues of leisure participation and inclusion for underrepresented populations. Topics include: attitudinal barriers, advocacy, normalization, universal design, activity analysis and modification, and legislation. Emphasis on leadership, supervision and organizational development of inclusive and recreation therapy programs.

RPTA 110. Research and Evaluation in Recreation, Parks and Tourism. 3 Units
Prerequisite(s): RPTA 1 and RPTA 30.
Term Typically Offered: Fall, Spring

Provides students with tools to analyze leisure behavior, interests and the motivational basis of leisure as they apply to the field of recreation and leisure services. Emphasizes applied research techniques including qualitative, descriptive and analytical methods, and program evaluation.

RPTA 115. Recreation Therapy Assessment and Documentation. 3 Units
Prerequisite(s): CHDV 30, PSYC 168, RPTA 30, RPTA 106 and RPTA 117; or instructor permission.
Term Typically Offered: Fall, Spring

Assessment procedures and instruments used to assure competence in assessment of client function in leisure. Documentation, assessment, regulations in different settings (i.e., community hospital, and clinical settings), protocols and development of individual treatment plans. Students are exposed to the Recreation Therapy process (APIE) in a variety of clinical and community settings.

RPTA 116. Recreation Therapy Principles and Practices and the Recreation Therapy Process. 3 Units
Prerequisite(s): CHDV 30, RPTA 30, RPTA 106 and RPTA 117; or instructor permission. RPTA 117 may be taken concurrently.
Term Typically Offered: Fall, Spring

Philosophy and principles underlying the work performed by the recreation therapist are studied including assessment, individual program planning, interpersonal interaction skills, and working with families.

RPTA 117. Recreation Therapy and Contemporary Aspects of Disability. 3 Units
Prerequisite(s): RPTA 106; RPTA 106 may be taken concurrently.
Term Typically Offered: Fall, Spring

In-depth exploration of a variety of disabilities and diseases, including physical disabilities, developmental disabilities, intellectual disabilities, mental health, hearing and vision impairments, and disabilities related to aging. Content will focus on etiology, prognosis, symptomatic conditions, prescription drugs, and recreation therapy interventions. Medical terminology will be covered.
RPTA 118. Recreation Therapy Facilitation Techniques. 3 Units
Prerequisite(s): CHDV 30, PSYC 168, RPTA 30, RPTA 106 and RPTA 117; or instructor permission.
Term Typically Offered: Fall, Spring

Covers basic concepts, methods and techniques associated with the practice of recreation therapy. Students will understand and apply the recreation therapy process through intervention and facilitation methods that are critical to helping clients in health and human service settings. The goal is to assist students in developing the ability to use recreation, leisure and play in recreation therapy programs as interventions in the treatment process.

RPTA 119. Recreation Therapy Management and Advancement of the Profession. 3 Units
Prerequisite(s): BIO 25, CHDV 30, PSYC 168, RPTA 105, RPTA 106, RPTA 115, RPTA 116, RPTA 117 and RPTA 118; or instructor permission.
Term Typically Offered: Fall, Spring

Examination of existing recreation programs in clinical settings (acute care hospitals, rehabilitation centers, state hospitals, skilled nursing facilities, intermediate care facilities, etc.); review of standards and regulations pertaining to recreation programs, development of recreation therapy programs, review of the roles of practitioners in related disciplines. Review of intervention techniques, program organization, management, and advancement of the profession and professional ethics.

RPTA 120. Leisure Education. 3 Units
Prerequisite(s): RPTA 106.
Term Typically Offered: Fall, Spring

History, scope and process of leisure education. A survey of guidance theories and procedures, including assessment techniques, program development, implementation and evaluations. The role of leisure education in diverse leisure delivery systems and with diverse populations. Legal, ethical, and professional aspects of leisure education.

RPTA 121. Innovations in Recreation for Health and Wellness. 3 Units
Term Typically Offered: Fall, Spring

This course provides an introduction to the outcomes and benefits of engagement in recreation, parks, and tourism activities. Examines how play, recreation, and engagement in nature, travel, and social activities contribute to enhancing the health and wellness of individuals and society. Innovative trends and issues will be explored from a holistic health perspective looking at quality of life.

RPTA 122. Perspectives On Leisure. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Understanding Personal Development (E), Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring, Summer

Basic philosophical, historical, psychological and scientific foundations and developments in leisure and recreation theory; review of the cultural forces, institutions and theories that affect individuals and society.

RPTA 124. The Science of Nature Engagement and Human Health & Wellbeing. 3 Units
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring, Summer

This course examines contemporary and emerging research evidence on human health and wellbeing impacts from nature engagement. It is anecdotally understood that spending leisure time outdoors is beneficial, but public understanding of the science behind this phenomenon is lacking. Areas of scientific literature covered include relevant scientific theories, validity of evidence-based forms of nature engagement, and mechanistic pathways of benefits. Analyzes the scientific research methodologies utilized globally and impacts on equity issues for different population groups¿ access to nature-based activities.

RPTA 125. Leisure, the Individual, and Contemporary Society. 3 Units
Prerequisite(s): Students must have passed the WPE or Eng 109W/E prior to enrollment in RPTA 125
General Education Area/Graduation Requirement: GE AREA D, Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Provides an understanding of the social science of leisure in contemporary society by examining the philosophical, socio-cultural, ethical, economic, behavioral, political and historical dimensions of leisure; exploration of the interrelationship between individuals, groups, and society in the context of leisure. Course also examines beliefs, values, and social structures, and compares and contrasts them with individual and social influences such as race, ethnicity, gender, gender expression, sexuality, age, economic status and ability.

RPTA 126. The Science of Play. 3 Units
General Education Area/Graduation Requirement: Upper Division Further Studies in Area B5
Term Typically Offered: Fall, Spring, Summer

Play is a basic biological drive as integral to our health as eating or sleeping. While we learn to play as children, it is scientifically proven to be valuable beyond that. When we engage in play, it changes us physiologically, psychologically, emotionally, and increases our health and wellbeing. The course investigates competing scientific literature and analyzes research methodologies, including theories, consequences of mediated play for children and adults, and the impacts of access, equity, and diversity for different populations.

Note: The course will be a lecture format.

RPTA 128. Recreation Services for Diverse, Underserved and Underrepresented Populations. 3 Units
Term Typically Offered: Spring only

Examines how recreation service providers work with diverse segments of the community. Class will examine a variety of populations that have been underserved and that may be at risk. Examines the impact of factors such as racism, sexism, classism, ageism, ableism and heterosexism that affect access to programs and services for diverse populations.
RPTA 129. Youth Development in Recreation, Parks & Tourism. 3 Units
Term Typically Offered: Fall, Spring

This course will focus on examining contemporary issues and trends related to youth development and recreation in the United States. Students will be introduced to theories of youth development, the role of recreation professionals, and the dynamics of community organization practices and actions. Students will explore the role of the recreation and leisure service practitioner in bringing about community change and how to apply those frameworks to recreation-based settings. Students will learn about the importance of engaging youth in the process of program planning and development.

RPTA 130. Community Sport Programming. 3 Units
Term Typically Offered: Fall, Spring

This course emphasizes sport as a program component of community-based recreation services in both public and private settings. Students will develop skills related to successful sport program development, implementation, and evaluation, through in-class lecture, site visits, and student-developed projects. Additional topics will include promotion, funding, staffing, purchasing, and maintenance as related to managing sport programs.

RPTA 131. Morale Welfare and Recreation (MWR): Military Recreation Services. 3 Units
Term Typically Offered: Fall, Spring

Students develop an understanding of the administration and programming of Morale, Welfare and Recreation Services for individuals serving in the military and their families. Recreation facilities and programs for all branches of the military, including the US Army, US Navy, US Marines, US Air Force and US Coast Guard, are covered. The course utilizes lectures, experiential exercises, class discussions, and visits to military installations.

RPTA 132. Campus Recreation. 3 Units
Term Typically Offered: Fall, Spring

This course introduces students to campus recreation programs. Students will be introduced to theories of student development in these recreational settings; the organizational context and history of recreational programs within a college setting; and the range of programming, facilities, and managerial duties within campus and base recreation. This will provide a great starting point for students preparing for a profession on campus, institutional and/or military recreation, or students wanting to broaden their knowledge in the overall field.

RPTA 136. Program and Event Planning in Recreation, Parks and Tourism. 3 Units
Prerequisite(s): RPTA 32.
Term Typically Offered: Fall, Spring

The program/event planning process will be described and explained. Relevant principles and methods will be identified. Students will develop a program/event plan for a local organization. Field trips may be required. Field trip(s) may be required.

RPTA 137. Community Organization. 3 Units
Term Typically Offered: Fall, Spring

Study of institutions and leisure service systems within the community, and the dynamics of community organization practices and actions. The role of the recreation and leisure service practitioner in bringing about community changes. Defining and promoting citizen participation through advisory council membership, survey applications, and public hearing attendance.

RPTA 139. Conference and Meeting Planning. 3 Units
Prerequisite(s): Restricted to declared RPTA majors and minors or instructor permission
Term Typically Offered: Fall only

Analyzes this varied, growth industry. Considers the range of conferences and meetings, from small corporate retreats to international conventions. Topics include: the scope of the industry, the role of convention centers, hotel and resort based meeting facilities, organizations that hold meetings and the nature of those meetings, meeting planning and the role of the professional planner and industry related careers. Field trips may be required. Field trip(s) may be required.

RPTA 148. Experiential Education in Outdoor Recreation Settings. 3 Units
Term Typically Offered: Spring only

Exposes the students to theoretical and philosophical concepts of experiential education and provides a means through which they can put theory into practice in outdoor recreation settings. Using methods such as demonstrations, observation, presentations, and discussions, the course will explore the history and current trends of experience-based learning.

RPTA 149. Developing and Programming Adventure Experiences. 3 Units
Term Typically Offered: Fall only

Provides students with the working knowledge needed to produce enriching and fulfilling adventure leisure experiences. In order to most effectively aid and assist others in the process of maximizing their leisure experiences, the student of leisure must first know how to maximize these experiences for and within themselves. Therefore, students will be participating in leisure adventure experiences so they can be as effective as possible when developing and programming leisure adventure experience opportunities for others.

RPTA 150. Ecology Of Resource Areas. 3 Units
Term Typically Offered: Fall

Study of the fundamentals of ecology, silvics, soil science and manipulations of an ecosystem with emphasis on the whole biota as it relates to outdoor recreation areas. Designed to provide an understanding of the scientific basis for and the operational rationale of manipulation of natural resources for a variety of recreation uses.

RPTA 151. Visitor Management in Recreation Areas. 3 Units
Term Typically Offered: Fall

Visitor safety in recreation areas as it relates to the role and functions of management. Emphasis is given to principles and current legislation in hazard reduction, deviant behavior, liability, law enforcement, and other related topics.

RPTA 152. Law Enforcement for Forest and Park Rangers. 3 Units
Term Typically Offered: Spring

State, county and federal park rangers and wardens differ from other peace officers in that they are trained to protect visitors and natural resources on the public lands. This course offers a survey of topics related to the Peace Officer level of rangers across America's diverse public land systems, with an emphasis on career opportunities in park, forest, and wildlife management.
RPTA 153. Environmental Interpretation. 3 Units
Term Typically Offered: Fall, Spring
Connecting visitors to natural, cultural, and historic resources is the primary focus of this course. Theories, principles and techniques are covered focusing on interpreting park and protected area values to people during their leisure. Personal and non-personal communication techniques will be practiced. Field sites in and around the Sacramento region will be visited to understand the diverse nature of the practice of interpretation. Designed for ranger naturalists, park interpretive staff, teachers, camp leaders, outdoor educators, and recreation program staff.

RPTA 154. Management of Recreation Facilities. 3 Units
Term Typically Offered: Fall only
An introduction to aspects of recreation facility administration for several facility types, including campus recreation facilities, health clubs, community centers, park facilities and aquatic centers. Course topics include administration techniques related to staffing and outsourcing, the roles of the facility manager, analyzing financing sources, best practices in facility maintenance, and issues related to facility design. The course utilizes class discussions, guest speakers and facility site visits on and off campus.

RPTA 156. Administration in Recreation, Parks and Tourism. 3 Units
Prerequisite(s): RPTA 105.
Term Typically Offered: Fall, Spring
Designed to provide the student with various in-depth perspectives regarding the use of management/administrative process in recreation, parks and tourism.

RPTA 157. Professional Organization Leadership. 3 Units
Prerequisite(s): RPTA 30, RPTA 32, and RPTA 105, or instructor permission
Term Typically Offered: Fall, Spring
This course is designed to introduce students to the historical and philosophical foundations of professionalism, and provide the necessary conceptual and technical competencies to organize and lead a successful professional organization/association. Political, legal and ethical issues will be discussed as well as the functions and roles of professional organizations/associations. The relationship between professionalism and advocacy will be examined.

RPTA 158. Traumatology: An Introduction to Posttraumatic Growth. 3 Units
General Education Area/Graduation Requirement: Upper Division Further Studies in Area B5
Term Typically Offered: Fall, Spring
Traumatic and challenging life events occur. Although there are levels and degrees of significance and damage, when these events happen, individual survivors, families, friends, health care professionals and communities are affected. This life science course uses critical experiences and observations, pre-existing assumptions, trauma informed care, neuroscience, genetics and contemporary research to analyze and compare ideas and practices involving current rehabilitation models in an effort to guide survivors toward personal resilience, grit and posttraumatic growth (PTG).

RPTA 159. Human Resources Management in the Hospitality Industry. 3 Units
Prerequisite(s): RPTA 80 or Instructor Permission.
Term Typically Offered: Spring only
Comprehensive study of personnel management in today’s hospitality profession, familiarizing students with many of the functions related to recruiting, selecting, orienting, training, and retaining outstanding lodging industry staff. Additionally, the course familiarizes students with the effects of rising labor costs, increasing competition for quality staff, changing employees attitudes, evolving guest expectations, and a proliferation of new laws that impact human resources policies and activities.

RPTA 160. Revenue Management for Hospitality. 3 Units
Prerequisite(s): RPTA 61 or Instructor Permission.
Term Typically Offered: Spring only
Revenue management is critical to the hospitality industry due to the perishable nature of a service-based product. This course introduces students to topics related to revenue management in hospitality and teaches students techniques to manage revenue in a dynamic hospitality environment, all with the goal of managing profits for the company. Capacity management, demand and revenue forecasting, discounting, overbooking practices, channel management, and pricing execution for the hospitality operations are discussed.
Overview of the historical and philosophical foundations of the commercial recreation field. Identification of providers of commercial recreation goods and services. Analyzes current functions and trends in the operation of commercial leisure enterprises.

RPTA 182. Travel And Tourism. 3 Units
Term Typically Offered: Fall only

Examination of the history, significance and nature of travel and tourism in the world with emphasis on the U.S. Analyzes economic, cultural and social factors underlying development and growth of travel and tourism and a review of related research. Identification and description of travel and tourism service providers including their organization, financing and management practices. Prerequisite: Declared RPTA majors and minors only or instructor permission

RPTA 183. Marketing Recreation Services. 3 Units
Prerequisite(s): RPTA 30 or instructor permission
Term Typically Offered: Fall, Spring

Fields of recreation (including therapeutic, commercial, municipal, etc.), tourism and hospitality, while diverse, all offer products that are primarily intangible. The management and marketing of such service products can differ profoundly from those of goods products (often the focus of traditional business programs). Addresses the nature of the service product and services marketing in the people intensive, experiential world of recreation.

RPTA 184. Hospitality Administration. 3 Units
Prerequisite(s): Restricted to declared RPTA major and minors or instructor permission
Term Typically Offered: Spring only

Introduces students to resorts and hotels and their position within the tourism and hospitality industries. The scope of the hospitality industry and various issues concerning the successful development of a hospitality product will be discussed. Prepares students to engage in an internship or employment in this or a related industry, including restaurants and retail. It also helps these and other students to reinforce concepts and skills learned elsewhere by providing concrete, real-world examples of marketing and management methods.

RPTA 185. Advanced Seminar in Commercial Recreation Administration. 3 Units
Prerequisite(s): RPTA 180, RPTA 105 and RPTA 183; RPTA 183 may be taken concurrently; or instructor permission.
Term Typically Offered: Fall, Spring

In-depth analysis of the management of recreational business on a for-profit basis. Focuses on advanced topics, analytical skills, and problem solving in the management arena.

RPTA 187. Food Tourism. 3 Units
Prerequisite(s): RPTA 80 or Instructor Permission.
Term Typically Offered: Spring only

Tourists are increasingly motivated to travel for food and drink. Visiting the location and touring the production facilities is also important. This course provides an overview of the global culinary and gastronomic tourism industry, focusing on the ability of a destination to market itself (both people and place) through food. The various social and cultural contexts in which gastronomic tourism takes place are discussed as well as positive and negative impacts of global and local gastronomic tourism (food tourism).

RPTA 188. Sacramento Region Craft Beer Industry Tourism. 3 Units
Prerequisite(s): Declared RPTA major or minor, or instructor permission.
Term Typically Offered: Fall only

Introduction to visitation and tourism related to California’s craft beer industry, specifically in the Sacramento region. This course will provide students with a basic knowledge of craft beer as one of several local products that combine to create a unique agritourism selling proposition for Sacramento. Tourism-related products (beer festivals and contests, beer trails, beer bikes, and beer apps), hospitality (brewery tasting rooms and beer retail), as well as beer laws, and beer pairings will also be discussed.

Note: Must be 21 or over to enroll in the course. Field Trip(s).

Field trip(s) may be required.

RPTA 189. California Wine and Agri-Tourism. 3 Units
Prerequisite(s): Restricted to declared RPTA majors and minors or instructor permission
Term Typically Offered: Spring only

Introduction to the wine tourism and agri-tourism industries, specifically in the region surrounding Sacramento. Emphasis on wine regions, wineries as event stages, wine mythology and wine in popular culture. Additionally, the course will cover the role of agricultural festivals, related agri-tourism products, slow-food, specialty crop tourism, winery and farm retail, culinary destinations, wine list creation, ag natural tourism products and the role of agri-tourism as part of Sacramento’s cultural identity.

RPTA 191. Service Learning Option for Recreation, Parks and Tourism Administration Courses. 1 Unit
Term Typically Offered: Fall, Spring

Individual goals, activities, and academic requirements for community service work and the service-learning credit option are outlined in a Service Learning Option/Contract agreed upon and signed by the student, instructor, and agency sponsor. Enrolled students are required to attend mid-semester and final learning assessment workshops and to complete written evaluations. Credit for the course awarded only if contract and course requirements are completed. Credit/No Credit
RPTA 195B. Partial Internship: Recreation and Park Management. 4 Units
**Prerequisite(s):** RPTA 1, RPTA 30, RPTA 32, RPTA 42, RPTA 101, RPTA 105, RPTA 106, RPTA 109, RPTA 110, RPTA 136 and approval of academic advisor and internship coordinator.
**Term Typically Offered:** Fall, Spring

Supervised part-time or short-term internship in a recreation, park or tourism organization or business. Supervision is provided by faculty and also by personnel at the host site.

**Note:** Refer to the RPTA Internship Manual for procedures and requirements.

RPTA 195D. Recreation Therapy Internship. 10 - 15 Units
**Prerequisite(s):** BIO 25, CHDV 30, PSYC 168, RPTA 1, RPTA 30, RPTA 102, RPTA 106, RPTA 110, RPTA 115, RPTA 116, RPTA 117, RPTA 118, RPTA 119, and RPTA 136; completion of required administrative paperwork in the semester prior to internship, approval of major advisor.
**Term Typically Offered:** Fall, Spring

Supervised full-time therapeutic internship in a recreation, park or tourism organization or business. Supervision is provided by faculty and also by certified personnel at the host site. Meets the professional certification requirements at the national or state levels.

**Note:** Refer to the RPTA Internship Manual for procedures and requirements.

RPTA 195G. Partial Internship: Hospitality and Tourism Management. 4 - 6 Units
**Prerequisite(s):** RPTA 1, RPTA 30, RPTA 61, RPTA 80, RPTA 82, RPTA 101, RPTA 105, RPTA 106, RPTA 110, RPTA 136, and approval of academic advisor.
**Term Typically Offered:** Fall, Spring, Summer

Supervised part-time or short-term internship designed to give students an increased understanding of the nature and scope of industry operations. Supervision is provided by the faculty and the cooperating agencies.

**Note:** Refer to the HTM Internship Manual for procedures and requirements.

RPTA 195R. Internship: Recreation, Park and Nonprofit Management. 10 - 15 Units
**Prerequisite(s):** RPTA 1, RPTA 30, RPTA 32, RPTA 42, RPTA 60, RPTA 62, RPTA 101, RPTA 105, RPTA 106, RPTA 110, RPTA 136 and approval of academic advisor and internship coordinator.
**Term Typically Offered:** Fall, Spring, Summer

Supervised, part-time work experience in a recreation, park, or nonprofit agency designed to give students an increased understanding of the nature and scope of industry operations. Supervision is provided by the faculty and by the cooperating agencies.

**Note:** Refer to the RPTA Internship Manual for procedures and requirements.

RPTA 195Q. Partial Internship: Recreation, Park and Nonprofit Management. 4 - 6 Units
**Prerequisite(s):** RPTA 1, RPTA 30, RPTA 32, RPTA 42, RPTA 60, RPTA 62, RPTA 101, RPTA 105, RPTA 106, RPTA 110, RPTA 136 and approval of academic advisor and internship coordinator.
**Term Typically Offered:** Fall, Spring, Summer

Supervised, part-time work experience in a recreation, park, or nonprofit agency designed to give students an increased understanding of the nature and scope of industry operations. Supervision is provided by the faculty and by the cooperating agencies.

**Note:** Refer to the RPTA Internship Manual for procedures and requirements.

RPTA 196U. Advanced Leadership in Service Organizations. 3 Units
**Prerequisite(s):** RPTA 30 and RPTA 32, graduate student status, or instructor permission.
**Term Typically Offered:** Fall, Spring, Summer

To attain an overview of the leadership roles and responsibilities of the field of Recreation, Park & Tourism Administration. Gain a philosophical and contextual overview of leadership in the leisure services profession. Examination of various leadership techniques within the following recreation-based settings including Outdoor & Natural Resources, Community Recreation - Municipal and Non-Profit Organization, Hospitality and Tourism, and Recreational Therapy.

RPTA 198. Co-Curricular Activities. 1 - 3 Units
**Prerequisite(s):** Approval of an instructor and the Department chair.
**Term Typically Offered:** Fall, Spring

Co-curricular activities related to the subject matter and professional concerns of Recreation and Leisure Studies. For example, students may earn credit by participating as a tutor or discussion leader for recreation and leisure studies classes or a teacher or leader in programs offered by community organizations.

**Note:** The course may be repeated three times for a maximum total of 3 units. Students can enroll for a class that counts as 1, 2 or 3 units. No more than 3 units of RPTA 198 may be used to meet the major requirements.

Credit/No Credit
RPTA 199. Special Problems. 1 - 3 Units
Prerequisite(s): Approval of an instructor and the Department chair.
Term Typically Offered: Fall, Spring

Individual projects or directed reading.
Note: Open only to students who appear competent to carry on individual work. Can be repeated six times for a maximum total of 6 units. Students can enroll for a class that counts as 1, 2 or 3 units. No more than 6 units of RPTA 198 and RPTA 199 in combination may be used to meet major requirements.

Credit/No Credit

RPTA 200A. Orientation to Graduate Studies in Recreation, Hospitality, Parks, and Nonprofit Organizations. 1 Unit
Prerequisite(s): Restricted to MS in Recreation, Hospitality, Parks, & Nonprofit Management students
Term Typically Offered: Fall, Spring, Summer

This course covers several topics related to the M.S. degree program in Recreation, Hospitality, Parks, and Nonprofit Management. Topics include expectations of the graduate program and different options for the culminating experience. This course will review several other aspects important to graduate students' work in the RPTA department, including department and university deadlines and paperwork, library and campus resources, Office of Graduate Studies resources, scholarships, life-school balance, graduate school terminology, and financial aid and funding resources.

Credit/No Credit

RPTA 200B. Culminating Experience Preparation in Recreation, Hospitality, Parks and Nonprofit Management. 2 Units
Prerequisite(s): RPTA 200A
Term Typically Offered: Fall, Spring, Summer

This course provides students with faculty and peer support for the process of developing their thesis, culminating project or comprehensive exam. This includes the clarification of expectations, familiarization with research resources, and support provided through feedback in a structured environment.

Credit/No Credit

RPTA 200C. Foundations of Recreation, Hospitality, Parks, and Nonprofit Management. 3 Units
Term Typically Offered: Fall, Spring, Summer

This course examines the foundation and role of recreation, hospitality, parks, and nonprofit management on the society. Discussions will address the historical, political, social and economic impact on the recreation, hospitality, parks and nonprofits industry. Students will identify evidence-based practice in the literature and identify theories associated in recreation, hospitality, parks, and nonprofit management.

RPTA 200D. Advanced Leadership in Service Organizations. 3 Units
Prerequisite(s): RPTA 30 and RPTA 32, graduate student status, or instructor permission.
Term Typically Offered: Fall, Spring, Summer

To attain an overview of the leadership roles and responsibilities of the field of Recreation, Park & Tourism Administration. Gain a philosophical and contextual overview of leadership in the leisure services profession. Examination of various leadership techniques within the following recreation-based settings including Outdoor & Natural Resources, Community Recreation - Municipal and Non-Profit Organization, Hospitality and Tourism, and Recreational Therapy.

RPTA 201. Advanced Studies in Leisure, Recreation, Parks and Tourism. 3 Units
Prerequisite(s): RPTA 200
Term Typically Offered: Fall, Spring

The purpose of this course is to move students beyond conceptual foundations of leisure, recreation, parks and tourism administration to more theoretically advanced aspects of the field. In this course, students will pursue an in-depth exploration of the theories and research related to leisure, recreation, parks and tourism.

RPTA 202. Policies, Trends, and Issues in Recreation, Hospitality, Parks, and Nonprofit Organizations. 3 Units
Term Typically Offered: Fall, Spring, Summer

Major environmental and recreational issues and problems affecting the recreation, hospitality, parks, and nonprofit field are discussed, analyzed, and evaluated. Ramifications involving the policy-making and planning processes of major federal, state, and local agencies involved with recreation, hospitality, parks, and nonprofit delivery services are also covered.

RPTA 203. Advanced Management in Recreation, Hospitality, Parks and Nonprofit Organizations. 3 Units
Term Typically Offered: Fall, Spring, Summer

Examination of contemporary resources, techniques, and tools available to managers in various types of RHPN organizations. Leadership and management are broad areas and a class such as this cannot realistically provide a full overview of all the skills necessary to effectively manage an organization in the 21st Century. What we can achieve is to identify and discuss some skills, techniques, tools, and issues that are particularly important to the management of organizations within the broad recreation field.

RPTA 204. Advanced Research Methods in Recreation, Hospitality, Parks, and Nonprofit Management. 3 Units
Term Typically Offered: Fall, Spring, Summer

Provides an analysis of major research methods used in recreation, hospitality, parks, & nonprofit organizations. Addresses basic and applied research orientations, research designs, research proposals, data collection tools and methods, data analysis, and reporting of research findings.

RPTA 206. Liability and Risk Management in Recreation, Parks and Tourism. 3 Units
Prerequisite(s): Graduate status or instructor permission.
Term Typically Offered: Fall, Spring

In-depth analysis of the principles of legal liability as they pertain to recreation, parks and tourism administration. An examination of the pervasive nature of risk as it pertains to the provision of recreation, parks and tourism programs and opportunities, and the concepts and methods of risk management. Includes field trips, mock trials or other related activities. Field trip(s) may be required.
RPTA 206A. Introduction to Inclusive Recreation & Recreation Therapy. 3 Units
Term Typically Offered: Fall, Spring, Summer
Addresses the etiology and nature of common disabling conditions and examines issues of leisure participation and inclusion for underrepresented populations. Topics include: attitudinal barriers, advocacy, normalization, universal design, activity analysis and modification, and legislation. Including an emphasis on leadership, supervision, and organizational development of inclusive and therapeutic recreation programs.

RPTA 208. Liability and Risk Management in Recreation, Parks and Tourism. 3 Units
Term Typically Offered: Fall, Spring
In-depth analysis of the principles of legal liability as they pertain to recreation, parks and tourism administration. An examination of the pervasive nature of risk as it pertains to the provision of recreation, parks and tourism programs and opportunities, and the concepts and methods of risk management. Includes field trips, mock trials or other related activities. Field trip(s) may be required.

RPTA 209. Seminar in Advanced Leisure Education. 3 Units
Term Typically Offered: Fall, Spring
Surveys current and historical perspectives of leisure education from a multicultural and life span viewpoint. Current modes of service delivery will be discussed as they relate to leisure theories. Methods of leisure education provision in diverse settings from school-park collaboratives, retirement and rehabilitation centers, to corporate wellness will be investigated. Development, implementation and management of viable leisure education services will be covered as well presentation, training and consultation skills.

RPTA 263. Grant Writing for Social, Community, and Human Service Organizations. 3 Units
Term Typically Offered: Fall, Spring
A detailed examination of grant writing as a means of augmenting agency revenues for social, community and human service organizations. Course focuses on techniques and strategies used for developing grant proposals, managing grants, and finding funders. Students will develop a full grant proposal including an evaluation and budget plan. Graduate students will conduct an in-depth comparison grant writing processes and budget analyses.
Note: Students may not take both RPTA 163 and RPTA 263 for credit.

RPTA 264. Leadership and Fundraising for Nonprofit Organizations. 3 Units
Term Typically Offered: Fall, Spring, Summer
The purpose of this course is to provide the principles and concepts of nonprofit leadership with an emphasis on youth and human service agencies. This course will explore and provide a historical and philosophical foundations of nonprofit organizations; board/committee development and operation; and the various roles of human service professionals as they relate to the nonprofit field. This course will consist of lectures, readings, discussion, guest speakers, nonprofit agency visitations, active learning exercises, and a community-learning component.

RPTA 284. Hospitality Administration. 3 Units
Term Typically Offered: Fall, Spring, Summer
Introduces students to resorts and hotels and their position within the tourism and hospitality industries. The scope of the hospitality industry and various issues concerning the successful development of a hospitality product will be discussed. Prepares students to engage in an internship or employment in this or a related industry, including restaurants and retail. It also helps these and other students to reinforce concepts and skills learned elsewhere by providing concrete, real-world examples of marketing and management methods.

RPTA 295. Practicum. 3 - 6 Units
Prerequisite(s): Approval of major advisor.
Term Typically Offered: Fall, Spring
Graduate internship experiences in a practical setting.
Note: Open only to graduate students. Can be repeated two times for a maximum total of 6 units. Students can enroll for a class that counts as 3, 4, 5 or 6 units. No more than 6 units of RPTA 295 and RPTA 299 in combination may be used to meet degree requirements.
Credit/No Credit

RPTA 299. Individual Study. 1 - 6 Units
Prerequisite(s): Approved petition filed in the department office.
Term Typically Offered: Fall, Spring
Individual project, problem, practical study, survey, and/or directed reading on the graduate level.
Note: Can be repeated six times for a maximum total of 6 units. Students can enroll for a class that counts as 1, 2, 3, 4, 5 or 6 units. No more than six units of RPTA 295 and RPTA 299 in combination may be used to meet major requirements.
Credit/No Credit

RPTA 500A. Culminating Experience: Thesis. 1 - 3 Units
Prerequisite(s): Advanced to candidacy and permission of graduate coordinator.
Term Typically Offered: Fall, Spring
Successful completion of a thesis approved for the Master's degree. Student must have approval from first reader.
Credit/No Credit

RPTA 500B. Culminating Experience: Project. 1 - 3 Units
Prerequisite(s): Advanced to candidacy and permission of graduate coordinator.
Term Typically Offered: Fall, Spring
Successful completion of a project approved for Master's degree. Student must have approval from the first reader.
Credit/No Credit

RPTA 500C. Culminating Experience: Comprehensive Exam. 1 - 3 Units
Prerequisite(s): Advanced to candidacy and permission of the graduate coordinator.
Term Typically Offered: Fall, Spring
Successful completion of a comprehensive examination approved for Master's degree.
Credit/No Credit
**ROTC - Aerospace Studies (AERO)**

**AERO 1A. Heritage and Values of the United States Air Force I.**  1 Unit  
Term Typically Offered: Fall, Spring  
Orientation to the Air Force and AFROTC. This is a survey course designed to introduce students to the United States Air Force and provides an overview of the basic characteristics, missions, organizations of the Air Force, and benefits of Air Force membership. Students will be required to complete an oral and written project.

**AERO 1B. Heritage and Values of the United States Air Force II.**  1 Unit  
Term Typically Offered: Fall, Spring  
Continuation of AERO 1A: completes students' orientation to the Air Force. Specific topics include evolution of Airpower, Air Force structure, and social media and the Air Force. Students will be required to complete an oral and written project.

**AERO 21A. Team Leadership and Fundamentals I.**  1 Unit  
Term Typically Offered: Fall, Spring  
Focuses on laying the foundation for teams and leadership in the Air Force. Topics include skills that will allow cadets to improve their leadership on a personal level and within a team. Cadets will experience initial field training preparation. Communication skills will be emphasized and include: public speaking, writing, and class participation.

**AERO 21B. Team Leadership and Fundamentals II.**  1 Unit  
Term Typically Offered: Fall, Spring  
Continuation of AERO 21A. The purpose of this course is to instill a leadership mindset and to motivate sophomore students to transition from AFROTC cadets to AFROTC offer candidates. Topics include conflict management, human relations, building teams. Communication skills will be emphasized and include: speaking, writing, and class participation.

**AERO 99. Special Problems.**  1 - 4 Units  
Term Typically Offered: Fall, Spring  
Academic study and evaluation in specified topics associated with aerospace development, technology, and doctrine.  
**Note:** Open only to those students who appear competent to complete assigned work and who meet prerequisites established by the Department of Aerospace Studies. Approval in writing by the Department Chair required.

**AERO 135A. Leading People and Effective Communication I.**  3 Units  
Term Typically Offered: Fall, Spring  
This course teaches cadets advanced skills and knowledge in management and leadership. Also a survey of selected concepts, principles, and theories on decision making, change management, effective supervision and Air Force diversity issues. Students will be given the opportunity to improve speaking and writing skills.

**AERO 135B. Leading People and Effective Communication II.**  3 Units  
Term Typically Offered: Fall, Spring  
Continuation of AERO 135A. Survey of selected concepts, principles, and theories on negotiating in teams, bias, creating a vision, public affairs, and professionalism. Students will be given the opportunity to improve speaking and writing skills.

**AERO 145A. National Security and Preparation for Active Duty I.**  3 Units  
Term Typically Offered: Fall, Spring  
Provides an overview of the role of the military in our national security policy and processes. It includes an analysis of the roles of the three branches of government as they relate to national security; organization of the Air Force as well as other branches of the military; an overview of military ethics; how the Air Force deploys; and a discussion of global current events which impact our national security. Students are expected to participate in class discussions/complete written/oral presentations.

**AERO 145B. National Security and Preparation for Active Duty II.**  3 Units  
Term Typically Offered: Fall, Spring  
Continuation of AERO 145A. Presentation of critical issues facing today's military professionals. A wide variety of topics are discussed including: the military legal system; the laws of armed conflict; security issues; personal finance; professional/unprofessional relationships; information warfare; and issues pertinent to the first assignment after commissioning into the Air Force. Students will be expected to participate in class discussions and complete a written and oral presentation.

**AERO 199. Special Problems.**  1 - 4 Units  
Term Typically Offered: Fall, Spring  
Academic study and evaluation in specified topics associated with aerospace development, technology, and doctrine.  
**Note:** Open only to those students who appear competent to complete assigned work and who meet prerequisites established by the Department of Aerospace Studies. Approval in writing by the Department Chair required.

**Russian (RUSS)**

**RUSS 1A. Elementary Russian.**  5 Units  
Term Typically Offered: Fall only  
Russian language beginning course with primary emphasis on the development of communication skills. Russian life and culture are introduced through readings and video/films.

**RUSS 1B. Elementary Russian.**  5 Units  
**Prerequisite(s):** RUSS 1A or instructor permission.  
General Education Area/Graduation Requirement: Humanities (Area C2), Foreign Language Graduation Requirement  
Term Typically Offered: Fall, Spring  
Continuation of RUSS 1A. Continued emphasis on communication skills and continued integration of cultural-historical components with the language learning experience.

**RUSS 2A. Intermediate Russian.**  4 Units  
**Prerequisite(s):** RUSS 1B or instructor permission.  
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement  
Term Typically Offered: Fall, Spring  
Continuation of RUSS 1 with further emphasis on the development of communication skills. Meets the Foreign Language Graduation Proficiency Requirement.
Social Work (SWRK)

SWRK 95. Introduction to Social Work. 3 Units
Term Typically Offered: Fall, Spring

Provides an overview of the social work profession and of social welfare systems especially in relation to marginalized populations. Also introduces a generalist perspective to social work practice with emphasis on professional development. Students are exposed to the values and ethics of social work, as well as the important ideologies that have shaped social welfare and social work.

Note: Includes a 30 hour volunteer experience to aid in assessing student's appropriateness for the profession. A grade of "C" or better is required before taking SWRK 140A.

SWRK 102. Crosscultural Theory and Practice: Issues of Race, Gender and Class. 3 Units
Term Typically Offered: Fall, Spring, Summer

Increase student awareness of social, political, economic, and cultural diversity. Addresses patterns and consequences of discrimination and oppression as well as theoretical and practice content and strategies for social change.

SWRK 110. Statistics and Research for Social Workers. 3 Units
Term Typically Offered: Fall, Spring, Summer

Descriptive and inferential statistics, sampling, probability distribution, introduction to research methods, relationship of statistics to research methods, illustrations drawn from the field of human services.

SWRK 111. Research Methods and Program Evaluation. 3 Units
Prerequisite(s): SWRK 110.
Corequisite(s): SWRK 140B or SWRK 140C.
Term Typically Offered: Fall, Spring

User oriented research methods focusing on locating, understanding, and using the professional research literature relevant to the development of skills for the human service practitioner; and methods of evaluating ones own practice and agency programs.

SWRK 118. Chemical Dependency and Social Work Practice. 3 Units
Term Typically Offered: Fall, Spring

Introduction to social work practice with the alcoholic/addicted individual or family. The ecological framework will be utilized for studying alcohol and drug dependence and its prevention/intervention. Emphasis will be placed on addiction as a biopsychosocial problem with a special focus on oppressed and marginalized populations.

SWRK 125A. Human Behavior and the Social Environment: Theory. 3 Units
Prerequisite(s): SWRK Majors only with Junior status; completion of pre-major BIO 1, BIO 10, BIO 20 or ANTH 1; and ECON 1A, ECON 1B, PSYC 2, or SOC 1; and CRJ 1, GERO 100, SOC 3 or SOC 10.
Term Typically Offered: Fall only

Theory forms the foundation of all social work practice, attempting to explain complicated human behavior in interaction with diverse environments. This course examines core theories of human behavior, families, small groups, organizations, social movements, and human society from a variety of social science disciplines. Each theory will be critically examined in respect to application towards diverse groups and the vulnerable populations that social workers serve.
SWRK 125B. Human Behavior and the Social Environment: The Life Course. 3 Units
Prerequisite(s): SWRK majors only and SWRK 125A
Term Typically Offered: Spring only

This course examines growth and development with special focus on lifespan from birth through old age in the context of family, community, complex organizations, and society. With technological, economic, political and ecological systems rapidly changing, the course will also examine the effects on the interplay between human life and the environment.

SWRK 126. Theories of Criminal Behavior. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: GE AREA D, Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring, Summer

Analyzes various theories in terms of their logic, historical origins, and policy implications. Focus on developing a critical framework.

SWRK 129. Human Sexuality in Social Work Perspectives. 3 Units
Term Typically Offered: Fall only

Examines psycho-social-cultural influences on sexual identity and sexual behavior; analyzes problems confronting the victims of sex-discrimination and oppression; considers education and treatment programs.

SWRK 132. Social Work and Spirituality. 3 Units
Term Typically Offered: Spring only

This course examines how spirituality serves as a liberating, and at times constricting force in the lives of our clients and communities. Competencies for both assessing and engaging in discussions about our clients’ spiritual world as well as self-awareness regarding social work practitioner spiritual orientations are emphasized. Diverse spiritual and religious backgrounds (including those who consider themselves non-spiritual or non-religious) are welcomed and celebrated in the classroom.

SWRK 134. Crimes Without Victims. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall only

Focuses on the study of particular behavior defined as criminal, including addiction, pornography, homosexuality, prostitution and abortion. The role of morality is examined.

SWRK 136. Poverty and Homelessness in America. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Analyzes social theory and its relationship to the generation and retention of institutional poverty. Within this context, public and private welfare programs serving low-income populations will be examined.

SWRK 137. The Child and the Law. 3 Units
Term Typically Offered: Spring only

Both civil and criminal aspects of the relationship of the applicability and effect of the law on minors, including juvenile court, wardship and dependency, liability for torts, the child and divorce.

SWRK 138. Violence In The Family. 3 Units
Term Typically Offered: Fall only

Provides basic information on victims and perpetrators of violence in the family. The focus is on child maltreatment, spouse/partner battering, abuse of the elderly, and the roles and responsibilities of social workers responding to family violence.

SWRK 140A. Social Work Practice. 3 Units
Prerequisite(s): SWRK 95 and SWRK 125A; SWRK majors only; Junior standing and a grade of “C” or better in all previous SWRK courses
Corequisite(s): SWRK 125B
Term Typically Offered: Fall, Spring

Provides an introduction to the profession and generalist social work practice with individuals, families, groups, organizations, and communities. Practice skills focus on application of the planned changed process from an empowerment approach.

SWRK 140B. Social Work Practice. 3 Units
Prerequisite(s): SWRK 95, SWRK 102, SWRK 125B, SWRK 140A, SWRK 150; SWRK majors only; senior standing; Minimum grade of "C" in all previously completed SWRK courses; GWAR certification or having met university writing requirements
Corequisite(s): SWRK 195A
Term Typically Offered: Fall, Spring

Generalist practice through a cross-cultural lens. Focuses on culturally competent relationship building, assessment, and intervention with individuals, organizations and communities.

SWRK 140C. Social Work Practice. 3 Units
Prerequisite(s): SWRK 195A and SWRK 140B
Corequisite(s): SWRK 195B
Term Typically Offered: Fall, Spring

Focuses on family intervention through an emphasis on strengths-based case management and children and youth issues. Group work processes and intervention examined through experiential and formal learning.
Corequisite: SWRK 195B.

SWRK 144. Working with LGBTQ+ Publics. 3 Units
Prerequisite(s): Be a junior or senior undergraduate. Paired.
Term Typically Offered: Spring only

This elective provides students with an in-depth understanding and critical framework to conduct applied work with individuals who are LGBTQ+, and their kinship networks and communities. Various perspectives (e.g., person-in-environment, historical, political, psychological, critical theory, intersectional) are utilized to better understand contemporary issues, social and health inequities, and lived experiences of LGBTQ+ people. Assignments deepen self-awareness in service of professional development. This course is open to upper division undergraduates of all majors, and to all graduate students.

SWRK 150. Welfare In America. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring, Summer

Examines the history, purpose, structure and costs of current American social welfare policy and programs and the role of social work in policy and program development.
SWRK 151. Health Services and Systems. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring, Summer

Examines the delivery of health and mental health service with a focus on problems experienced by economically disadvantaged and oppressed populations.

SWRK 153. Child Welfare Services. 3 Units
Term Typically Offered: Fall, Spring

Provides basic information on the recognition and treatment of problems of children in the home, school and community, and on the public and private social services and laws which promote and protect the welfare of children.

SWRK 191. Exploration of Veteran Studies: An Ethnographic Approach. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), GE AREA D
Term Typically Offered: Fall, Spring

Through the review of ethnographic works, qualitative research articles and other significant recent literature on veterans’ issues, students are introduced to the qualitative research process. Most significantly students simultaneously gain knowledge of the issues and challenges faced by veterans returning from combat as they transition to civilian life as well as the best practices in supporting positive transitions from combat to civilian life. Students will develop analytical thinking skills and writing skills for preparing literature reviews.

SWRK 195A. Field Instruction + Integration Seminar. 6 Units
Prerequisite(s): SWRK 102, SWRK 125A, SWRK 125B, SWRK 140A and SWRK 150 and permission of the Field Director (or designee).
Corequisite(s): SWRK 140B
Term Typically Offered: Fall only

Two-semester sequence of instruction that takes place in an approved social service agency. Under the supervision of a certified field instructor, students demonstrate their ability to apply knowledge, skills, critical thinking and professional competencies required of undergraduate generalist social workers. Students are required to provide own transportation to and from agency.
Note: Enrollment is limited to students who have secured an approved field placement; Field placements begins in the first week of January.
Credit/No Credit

SWRK 195B. Field Instruction + Integration Seminar. 6 Units
Prerequisite(s): SWRK 95, SWRK 102, SWRK 125A, SWRK 125B, SWRK 140A, SWRK 140B, SWRK 195A and SWRK 150; and permission of the Field Director (or designee).
Corequisite(s): SWRK 140C
Term Typically Offered: Spring only

Two-semester sequence of instruction that takes place in an approved social service agency. Under the supervision of a certified field instructor, students demonstrate their ability to apply knowledge, skills, critical thinking and professional competencies required of undergraduate generalist social workers. Students are required to provide own transportation to and from agency.
Note: Enrollment is limited to students who have secured an approved field placement; Field placements begins in the first week of January.
Credit/No Credit

SWRK 198. Co-Curricular Activities. 1 - 3 Units
Prerequisite(s): Permission of the Undergraduate Social Work Coordinator.
Term Typically Offered: Fall, Spring

Co-curricular activities related to the subject matter and intellectual concerns of the Division of Social Work, including service on division policy-making committees and participation in ASI approved organizations.
Credit/No Credit

SWRK 199. Special Problems. 1 - 3 Units
Prerequisite(s): Approval of the faculty sponsor of the project and Division Chair.
Term Typically Offered: Fall, Spring

Independent research, project or directed reading.
Note: Open to students who are capable of independent work.
Credit/No Credit

SWRK 202. Social Work and Diverse Populations. 3 Units
Term Typically Offered: Fall, Spring

Prepares students to understand cultural and social diversity. Addresses theoretical and practice dimensions of social work with diverse and oppressed and vulnerable people for personal and social empowerment in behalf of human dignity and social justice.

SWRK 204A. Social Work Practice I. 3 Units
Corequisite(s): SWRK 295A.
Term Typically Offered: Fall, Spring

Building on the liberal arts framework and using the ecological model, this course introduces students to generalist social work practice with individuals, families, small groups, organizations, disadvantaged populations, communities, and society.

SWRK 204B. Social Work Practice II. 3 Units
Prerequisite(s): SWRK 204A, SWRK 295A.
Corequisite(s): SWRK 295B.
Term Typically Offered: Fall, Spring

Broadens the ecological perspective to address economic and political issues, social stratification, and racism as they impact practice with at-risk populations; promoting change at multiple levels of intervention.
SWRK 206A. Multi-Level Practice for Behavioral Health. 3 Units
Prerequisite(s): SWRK 204B, SWRK 295B.
Corequisite(s): SWRK 296A
Term Typically Offered: Fall only
Builds upon content of SWRK 204B and provides advanced knowledge and skills for mental health assessments, diagnosis and treatment and to provide long-term and acute mental health treatment, respond to acute trauma and indigent populations.
Note: Enrollment is limited to students who have secured an approved Field placement.

SWRK 206B. Multi-Level Practice for Behavioral Health. 3 Units
Prerequisite(s): SWRK 206A, SWRK 296A
Corequisite(s): SWRK 296B
Term Typically Offered: Spring only
Builds upon content of SWRK 206A and provides advanced knowledge and skills for mental health assessments, diagnosis and treatment and to provide long-term and acute mental health treatment, respond to acute trauma and indigent populations.
Note: Enrollment is limited to students who have secured an approved Field placement.

SWRK 207A. Multi-Level Practice for Children & Families. 3 Units
Prerequisite(s): SWRK 204B, SWRK 295B.
Corequisite(s): SWRK 297A
Term Typically Offered: Fall only
Builds upon content of SWRK 204B and provides advanced knowledge and skills in areas affecting children and families with a specific focus on training students in Child Protective Services, abuse, neglect and human trafficking.
Note: Enrollment is limited to students who have secured an approved Field placement.

SWRK 207B. Multi-Level Practice for Children & Families. 3 Units
Prerequisite(s): SWRK 207A, SWRK 297A.
Corequisite(s): SWRK 297B
Term Typically Offered: Spring only
Builds upon content of SWRK 207A and provides advanced knowledge and skills in areas affecting children and families with a specific focus on training students in Child Protective Services, abuse, neglect and human trafficking.
Note: Enrollment is limited to students who have secured an approved Field placement.

SWRK 208A. Multi-Level Practice for Health & Aging. 3 Units
Prerequisite(s): SWRK 204B, SWRK 295B
Corequisite(s): SWRK 298A
Term Typically Offered: Fall only
Builds upon content of SWRK 204B and provides advanced knowledge and skills for hospital and hospice care, respond to the needs of Baby Boomers, support diversity in aging choices while assisting clients with management of health care, housing and quality of life optimization.
Note: Enrollment is limited to students who have secured an approved Field placement.

SWRK 208B. Multi-Level Practice for Health & Aging. 3 Units
Prerequisite(s): SWRK 208A, SWRK 298A.
Corequisite(s): SWRK 298B
Term Typically Offered: Spring only
Builds upon content of SWRK 208A and provides advanced knowledge and skills for hospital and hospice care, respond to the needs of Baby Boomers, support diversity in aging choices while assisting clients with management of health care, housing and quality of life optimization.
Note: Enrollment is limited to students who have secured an approved Field placement.

SWRK 210. Methods of Social Research. 3 Units
Prerequisite(s): Undergraduate social statistics course.
Term Typically Offered: Fall, Spring
Examination of quantitative and qualitative methods of social work research. Includes problem formulation, selection of various conceptual frameworks, research designs, sampling, collecting data, experimental design and computer technology.

SWRK 213. Public Child Welfare Practice. 3 Units
Prerequisite(s): SWRK 204A, SWRK 204B.
Term Typically Offered: Fall, Spring
Integrates the concepts and skills learned in Advanced Practice, Advanced Policy, and Research courses of the MSW program and applies to the specific client population of public child welfare agencies. Required for Title IV-E stipend students; open to others on basis of space availability.

SWRK 215. Mediation & Restorative Justice. 3 Units
Term Typically Offered: Fall, Spring
The course examines the principles, policies, goals, and practice of mediation and restorative justice in social work settings including the adult and juvenile criminal justice systems, family court, child welfare, schools, mental health, health, and community dispute resolution centers. Students will learn mediation and restorative justice practice skills to work effectively with individuals as both clients and providers of services, as well as within various institutions, systems, and communities.

SWRK 218. Chemical Dependence: Strategies and Tactics for Social Work Practice. 3 Units
Term Typically Offered: Fall, Spring
Designed to increase the sensitivity of graduate social work students to the major intervening variables contributing to the problem of chemical dependence in contemporary American society.

SWRK 219. Social Work Practice in Health Care Settings. 3 Units
Term Typically Offered: Fall, Spring
Provides intervention strategies useful in health care settings. Individual, family and group practice strategies are presented as well as discharge planning, advocacy, ethnically sensitive issues, and collaboration practice within hospital settings.

SWRK 221. Community Organizing Practice. 3 Units
Prerequisite(s): SWRK 204A, SWRK 204B or instructor permission.
Term Typically Offered: Fall, Spring
Focuses on intervention at the community level with a special emphasis on grass roots organizing and advocacy.
SWRK 223. DSM New Developments in Psychodiagnosis. 3 Units
Term Typically Offered: Fall, Spring

Designed to give practitioners and students hands-on experience in using the DSM IV Manual. Videotapes, case vignettes, and small group discussions used.

SWRK 224. Advanced Mental Health Practice. 3 Units
Prerequisite(s): SWRK 204A, SWRK 204B or instructor permission.
Term Typically Offered: Fall, Spring

Examines a variety of theoretical views on adaptations of childhood and adulthood with accompanying models for assessment and treatment. Explores current views on intra-psychic and interpersonal functioning utilized in mental health settings.

SWRK 225. Advanced Group Work Methods: Process and Intervention Strategies. 3 Units
Term Typically Offered: Fall, Spring

Covers small group theory and process, and group method in a variety of settings, with emphasis on group development.

SWRK 226. Family Intervention: Contemporary Issues in Social Work Practice. 3 Units
Term Typically Offered: Fall, Spring

Critically addresses the origins and contemporary context and models of interventions with families.

SWRK 228. Clinical Intervention in Sexual Abuse. 3 Units
Term Typically Offered: Fall, Spring

Presents an intervention system that can assist professionals to work with sexually abusive families and victims of sexual abuse. Assessment, planning, and treatment are described and methods of intervention demonstrated.

SWRK 232. Spirituality and Social Work. 3 Units
Term Typically Offered: Fall, Spring

Considers the role of spirituality in the socialization process of the professional as well as the client by examination of spirituality, values, ethics, principles, and philosophies as influences on personal and professional interactions.

SWRK 235A. Theoretical Bases of Social Behavior. 3 Units
Term Typically Offered: Fall, Spring

Examines the growth, change and interaction of individuals, families and groups, organizations, and communities with special attention to lifespan development and systems theory.

SWRK 235B. Theoretical Bases of Social Behavior. 3 Units
Prerequisite(s): SWRK 235A.
Term Typically Offered: Fall, Spring

Focuses on major personality theories; principal theories of health, illness and disordered behavior; child and family dynamics; and theories of group and organizational behavior.

SWRK 238A. Issues and Practice in Schools. 3 Units
Prerequisite(s): Admission to the College of Social Work Program.
Corequisite(s): SWRK 204C, SWRK 295C.
Term Typically Offered: Fall, Spring

Introduces the student to the field of school social work in its dynamic social, educational, legal, political, and human complexity. Examines the challenges of rapid social and demographic change in California as well as the need for restructuring education and innovative responses.

Note: Required for Pupil Personnel Services Credential.

SWRK 238B. Issues and Practice in Schools. 3 Units
Prerequisite(s): SWRK 204C, SWRK 238A, SWRK 295C.
Corequisite(s): SWRK 204D, SWRK 295D.
Term Typically Offered: Fall, Spring

Continuation of SWRK 238A, course examines classroom management, case assessment, alternative education practices, discipline and attendance law, impediments to individual development as well as case studies, interagency collaboration, new community partnerships, and media and high technology uses.

Note: Required for Pupil Personnel Services Credential.

SWRK 244. Working with LGBTQ+ Publics. 3 Units
Prerequisite(s): MSW I or II, or other graduate student. Paired.
Term Typically Offered: Spring only

This elective provides students with an in-depth understanding and critical framework to conduct applied work with individuals who are LGBTQ+ and their kinship networks and communities. Various perspectives (e.g., person-in-environment, historical, political, psychological, critical theory, intersectional) are utilized to better understand contemporary issues, social and health inequities, and lived experiences of LGBTQ+ people. Assignments deepen self-awareness in service of professional development. This course is open to upper division undergraduates of all majors, and to all graduate students.

SWRK 245. Death, Grief And Growth. 3 Units
Term Typically Offered: Fall, Spring

Death and the process of terminating life seen from the social, cultural, personal and medical perspectives. Comparisons of competing, contradictory or complementary views of death among specific religions, social classes, ethnic groups and superstitions and taboos connected with the dead.

SWRK 250. Social Welfare Policy and Services. 3 Units
Term Typically Offered: Fall, Spring

Analyzes contemporary social welfare policy and the ways in which policy is carried out through a broad spectrum of agencies and services, in a historical and philosophical context relevant to professional social workers. This course meets the foundation competencies of social welfare policies and services within the specific context of thinking, reading and writing in social work policy practice.

Note: Graduate Writing Intensive (GWI) course.
SWRK 252.  Advanced Policy for Behavioral Health.  3 Units  
Prerequisite(s): SWRK 250.  
Term Typically Offered: Fall only  
Builds on the foundation content of SWRK 250 with deeper knowledge of diverse theoretical and practical approaches to policy analysis, development, implementation, and evaluation to empower communities and individuals, to advance and protect human rights, and to optimize social justice. Focuses on behavioral Health policy and services, involuntary commitment, access to care and patients' rights, financing and organization of Behavioral Health services, legislation and community engagement around Behavioral Health issues.

SWRK 253.  Advanced Policy for Children & Families.  3 Units  
Prerequisite(s): SWRK 250  
Term Typically Offered: Fall only  
Builds on the foundation content of SWRK 250 with deeper knowledge of diverse theoretical and practical approaches to policy analysis, development, implementation, and evaluation to empower communities and individuals, to advance and protect human rights, and to optimize social justice. Focuses on sociopolitical issues, laws and court decisions, history and role of government in public child welfare practice, children's and parents' rights, child custody, sexual abuse laws, and emancipation.

SWRK 254.  Advanced Policy for Health & Aging.  3 Units  
Prerequisite(s): SWRK 250  
Term Typically Offered: Fall only  
Builds on the foundation content of SWRK 250 with deeper knowledge of diverse theoretical and practical approaches to policy analysis, development, implementation, and evaluation to empower communities and individuals, to advance and protect human rights, and to optimize social justice. Focuses on the policies and services for meeting the health, economic, psychological, and the social needs of the older adults and those in health care settings.

SWRK 258.  Advanced Policy - Children and Families.  3 Units  
Prerequisite(s): SWRK 251.  
Term Typically Offered: Fall, Spring  
Building upon SWRK 251, this course examines the history of child and family services, introduces the students to theories and methods of policy analysis, and focuses on analysis of selected federal, state, and local policies specifically relevant to children and families, as well as how social workers influence policy formulation and implementation.  
Note: Required for title IV-E students.

SWRK 259.  International Social Work.  3 Units  
Term Typically Offered: Fall, Spring

SWRK 261.  Grant Writing and Resource Development.  3 Units  
Term Typically Offered: Fall, Spring  
Prepares students for resource and grant proposal development as well as grant project management and evaluation. Students will develop various skills including how to identify and communicate with appropriate funding sources, conceptualize, write and submit a grant proposal, prepare a grant budget; administer a grant funded program; and evaluate program outcomes, and peer reviews of grant proposals.

SWRK 262.  Social Work Practice in Rehabilitation.  3 Units  
Prerequisite(s): Admission to MHSA cohort and instructor permission.  
Term Typically Offered: Fall, Spring  
Reflects the current best practices of psychosocial rehabilitation, and pays particular attention to the nuances of those practice expectations within the context of the Mental Health Services Act of 2004. The course requirement for all students who are recipients of the mental health stipend in the Division of Social Work.

SWRK 268.  Advanced Clinical Social Work with Older Adults.  3 Units  
The focus of this course is on specialized practice with aging clientele. The curriculum is intended to help students adapt social work theory (person-in-environment), practice principles, standards and values to practice with older adults. This course includes a critical analysis of the theoretical underpinnings of gerontological thought and assists students to view aging through multiple perspectives with an examination of physiological, psychological and sociological phenomenon.

SWRK 295A.  Field Instruction.  3 Units  
Prerequisite(s): Must be classified graduate Social Work student and approval of the Field Director or designee.  
Corequisite(s): SWRK 204A.  
Term Typically Offered: Fall, Spring  
Field Instruction  
Note: Enrollment is limited to students who have secured an approved Field placement

SWRK 295B.  Field Instruction.  4 Units  
Prerequisite(s): SWRK 204A and 295A; Must be classified graduate Social Work student and approval of the Field Director or designee.  
Corequisite(s): SWRK 204B.  
Term Typically Offered: Fall, Spring  
Field Instruction  
Note: Enrollment is limited to students who have secured an approved Field placement.

SWRK 295E.  Post Master's Pupil Personnel Services Fieldwork.  3 Units  
Prerequisite(s): Admission to Post Master’s PPS program.  
Term Typically Offered: Fall, Spring  
School based sites for the development of Pupil Personnel Services skills. Two days per week.  
Credit/No Credit

SWRK 295F.  Post Master's Pupil Personnel Services Fieldwork.  3 Units  
Prerequisite(s): Admission to Post Master's PPS program.  
Term Typically Offered: Fall, Spring  
School based sites for the development of Pupil Personnel Services skills. Two days per week.  
Credit/No Credit
SWRK 296A. Field Instruction for Behavioral Health. 5 Units
Prerequisite(s): SWRK 204B, SWRK 296B
Corequisite(s): SWRK 206A
Term Typically Offered: Fall only

Field Instruction for Behavioral Health
Note: Enrollment is limited to students who have secured an approved field placement.

Credit/No Credit

SWRK 296B. Field Instruction for Behavioral Health. 5 Units
Prerequisite(s): SWRK 206A, SWRK 296A
Corequisite(s): SWRK 206B
Term Typically Offered: Spring only

Field Instruction for Behavioral Health
Note: Enrollment is limited to students who have secured an approved field placement.

Credit/No Credit

SWRK 296D. Advanced Social Work Practice with Persons with a Developmental Disability. 3 Units
The definition, incidence, etiology, and prevention of developmental disabilities will be presented. This course examines the life course needs of people with developmental disabilities including the collaboration of families and community, the role of social workers and other health professionals in the California Regional Center System and the Department of Developmental Disabilities, as well as presenting general issues related to service delivery systems, advocacy movements, the Department of Developmental Disabilities, as well as presenting general issues related to service delivery systems, advocacy movements, criminal justice system involvement, mental health, sexuality issues as well as social policy issues.

SWRK 297A. Field Instruction for Children & Families. 5 Units
Prerequisite(s): SWRK 204B, SWRK 297A.
Corequisite(s): SWRK 207A
Term Typically Offered: Fall only

Field Instruction for Children & Families
Note: Enrollment is limited to students who have secured an approved field placement.

Credit/No Credit

SWRK 297B. Field Instruction for Children & Families. 5 Units
Prerequisite(s): SWRK 207A, SWRK 297A.
Corequisite(s): SWRK 207B
Term Typically Offered: Spring only

Field Instruction for Children & Families
Note: Enrollment is limited to students who have secured an approved field placement.

Credit/No Credit

SWRK 298A. Field Instruction for Health & Aging. 5 Units
Prerequisite(s): SWRK 204B, SWRK 298A.
Corequisite(s): SWRK 208A
Term Typically Offered: Fall only

Field Instruction for Health & Aging
Note: Enrollment is limited to students who have secured an approved field placement.

Credit/No Credit

SWRK 298B. Field Instruction for Health & Aging. 5 Units
Prerequisite(s): SWRK 208A, SWRK 298A, and advancement to candidacy
Corequisite(s): SWRK 208B
Term Typically Offered: Spring only

Field Instruction for Health & Aging
Note: Enrollment is limited to students who have secured an approved field placement.

Credit/No Credit

SWRK 299. Special Problems. 1 - 3 Units
Prerequisite(s): Approval by faculty sponsor and division director.
Term Typically Offered: Fall, Spring

Individual research and directed reading. Written report required.
Credit/No Credit

SWRK 500. Culminating Experience. 2 - 4 Units
Prerequisite(s): Advanced to candidacy. SWRK 210.
Term Typically Offered: Fall, Spring

Completion of either: A. Thesis (an original contribution to knowledge) OR B. Research Project (addition to technical/professional knowledge or application of knowledge through case study, field study, documentary report, substantial annotated bibliography, or article of publishable quality) OR C. Directed Study and Comprehensive Examination (seminar, portfolio, examination).

SWRK 501. Advanced Research Methods. 2 Units
Prerequisite(s): SWRK 202, SWRK 204A, SWRK 204B, SWRK 210, SWRK 250 and Advancement to Candidacy
Term Typically Offered: Fall, Spring

This course offers a classroom structure to project-based research education. Class includes both qualitative and quantitative study design, theory construction, advanced methods of data analysis. This course expands on the knowledge gained from SWRK 210 (Methods of Research). Students will experience a mixture of advanced research content including: quantitative research designs, sampling, data collection and analysis, advanced quantitative research designs, sampling, data collection and analysis.

SWRK 502. Integrative Capstone Project. 2 Units
Prerequisite(s): SWRK 501
Term Typically Offered: Fall, Spring

This course is designed to reflect the student's proficiency in the core competencies of the social work profession. The focus of this course is the identification of a social work problem, developing a research design which appropriately addresses the problem, and presentation of the findings. Students demonstrate professional competencies in: ethics, communication, diversity, theory, research, direct and indirect and indirect practice, leadership and organizational processes and evidence of a professional self.

Sociology (SOC)

SOC 1. Principles of Sociology. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Introduction to the field of sociology; its basic concepts and principles; the analysis and explanation of culture, personality, social institutions, social change, population, social processes and collective behavior.
SOC 2. You, Sociology and the University. 1 Unit
Term Typically Offered: Fall, Spring
This course is an introduction for students to the campus, campus resources, and the department of Sociology at Sac State. The goal is to connect students to information and resources to help them be successful as students in the Sociology program at CSUS, as well as clarify the process for success within, throughout, and beyond the Sociology program. This course is for all sociology majors. The class will be taught as a hybrid class.
Note: Required to be taken during first semester students changes or adds the major.
Credit/No Credit

SOC 3. Social Problems. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
Introduction to major social problems in the U.S., with an emphasis on systemic problems, such as economic, racism and sexism. Problems in major social institutions such as the family, social services, criminal justice and the environment are also addressed.

SOC 5. Exploring Issues Facing Contemporary Families. 3 Units
Term Typically Offered: Fall, Spring
An exploration of social issues that contemporary families face every day with an integration of the life course perspective and sociopsychological viewpoint. Issues covered may include varying family constellations, mate selection, intimacy, communication, adjustment, cohesion, attachment, aging, foster care and adoption, gender, race/ethnic/cultural influences, social stratification, family/partner violence, health, and social policy.

SOC 8. Sense and Nonsense in Social Issues and Research. 3 Units
General Education Area/Graduation Requirement: Critical Thinking (A3)
Term Typically Offered: Fall, Spring
Introduces basic steps in the research process and/or basic steps in critically evaluating discussions on social issues. Students are taught to recognize common errors through the analysis of non-technical applied research and/or through newspapers and sociological articles about social issues and problems. Emphasizes the logical steps involved in thinking critically about social research and/or social problems such as quality of operational definitions, weaknesses in research design, sampling errors, value assumptions, logical consistency between premises and conclusions, and the structure of arguments.

SOC 10. Issues in Crime and Social Control. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
Introduces the concepts utilized by sociologists in the analysis of controversial issues in crime and social control, e.g., norms, roles, subcultures, labeling, social conflict, social stratification, racism, sexism, etc. Particular attention is paid to sources of data and trends over time. Issues covered include, but are not limited to: capital punishment, drugs and drug policy, domestic violence, abortion, driving under the influence, police use of deadly force, private prisons and juvenile justice reform.

SOC 101. Introduction to Statistics for Sociologists. 4 Units
Prequisite(s): Sociology majors only
Term Typically Offered: Fall, Spring, Summer
Provides students with an overall view of the role and techniques of statistics in the presentation and interpretation of social science data. Lectures emphasize descriptive statistics: measures of central tendency and variability, and association and correlation. Introduction is given to statistical inference: sampling distributions, hypothesis-testing, and estimation. Lab sessions provide demonstrations and training in the practical application of concepts and techniques dealt with in lectures. Students learn to use the computer as an aid in data processing and analysis.

SOC 101X. Collaborative Practice for SOC 101. 1 Unit
Corequisite(s): SOC 101.
Term Typically Offered: Fall, Spring
SOC 101X Collaborative Practice for SOC 101. Discussion, 1 hour. Students concurrently enrolled in SOC 101 work collaboratively on, and discuss, problem sets designed by the SOC 101 instructor. Pedagogical strategies that encourage active, engaged learning are employed to facilitate student understanding and success in SOC 101.
Credit/No Credit

SOC 102. Research Methods in Sociology. 4 Units
Prequisite(s): SOC 101; Sociology majors only
Term Typically Offered: Fall, Spring, Summer
Students will be introduced to the basic steps in research; problem definition, research design, sampling, data collection methods, and analysis. Laboratory exercises reinforce methodological processes, including finding and evaluating existing research studies, operationalizing concepts, developing questionnaires, and analyzing primary data. Students will learn how to process and analyze both qualitative and quantitative data, including analytic induction, manipulation of computerized data files, bivariate and multivariate analysis, table construction, and preparation of written research reports. Lab exercises reinforce computer and statistical skills.

SOC 103. Advanced Sociological Analysis. 3 Units
Prequisite(s): SOC 101 and SOC 102
Term Typically Offered: Fall, Spring
An advanced course in research design and analysis. Introduces students to advanced data analysis techniques and how to use them to investigate social problems and issues. Students will build on the knowledge they have accumulated in previous courses in sociological research methods and theory to design and complete a research project. Specific methodological strategies taught will vary, and could include regression analysis, ethnography, comparative-historical methods, qualitative interviewing, evaluation research and longitudinal survey analysis.
Note: May be repeated for credit

SOC 106. Births, Deaths and Borders. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
Studies population including growth and decline, fertility and mortality trends, migration, human ecology, and the interrelationship of population and socioeconomic change.
SOC 110. Urban Life and Problems. 3 Units
Term Typically Offered: Fall, Spring
Takes a political economic approach to urban development, with special emphasis on the roles played by various social groups and institutions. Particular attention is given to the effects of urban growth, oppositional movements to growth and the global developments that affect urban conditions.

SOC 118. Chicano Community. 3 Units
General Education Area/Graduation Requirement: GE AREA D, Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring
Analyzes the institutions, norms, values, and traditions of the Chicano community. Included is an examination of the Chicano community's progress in mainstream American life with attention to the effect of ethnocentrism, racism and class.

SOC 120. Ethnic and Race Relations. 3 Units
General Education Area/Graduation Requirement: GE AREA D, Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring
Analyzes relations among various racial, religious, nationality, and gender groups as they interact with racism, ethnocentrism and class in the U.S. and the world.

SOC 122. Immigration Studies. 3 Units
Term Typically Offered: Fall, Spring
Examines the social phenomena of labor migration, immigration, and transnationalism, and places their origins and development in the context of political-economic national inequalities. Advances an understanding of why societies experience migration, immigration, and transnationalism, and evaluates competing and complementary theoretical frameworks explaining these migratory processes, particularly as they relate to the U.S. Special attention will be given to race, gender, and class relations as impacted by labor migration processes.

SOC 123. Black Studies in Sociology. 3 Units
Term Typically Offered: Fall, Spring
Introduces students to the sociological analysis of Black American life in the U.S. -- the complex phenomena of Black issues, emerging theories of race, and the cumulative scholarship on black identity, experience, socio-economic status, and social organization. Focus is on the original contributions of social scientists to Black Studies in Sociology.

SOC 124. Social Justice in Interdisciplinary Perspective. 3 Units
Prerequisite(s): Sophomore standing or instructor permission.
Term Typically Offered: Fall, Spring
Examines the nature and forms of social justice and injustice. Key philosophical and theoretical models and debates over the meaning of social justice, using historical and contemporary examples to highlight important concepts and controversies are addressed. Faculty from different departments within SSIS, and occasionally from other colleges, will address how their discipline understands and analyzes issues of social justice. Students will be encouraged to critically assess the assumptions of various perspectives on social justice, and to address the relationship of academe and social activism in achieving social justice. Cross listed as ANTH 130, ID 124, ENVS 124, ETHN 124 and FACS 124. Only one may be counted for credit.

SOC 125. Social Inequalities. 3 Units
Prerequisite(s): SOC 1 or equivalent.
Term Typically Offered: Fall, Spring
Examination of the ways race, class and gender, as well as the intersection of all three, affect the distribution of valued resources in a society. Other social inequalities such as age, sexual orientation, or nationality, etc. may also be examined. Attention is given to struggles to change or preserve economic and political inequalities.

SOC 126. Sociology of Gender. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
Examines how gender designation of “male” and “female” impacts an individual’s life; explores the social construction of masculinity and femininity in the family, school, workplace, everyday interactions, and within racialized and colonized societies; studies the consequences of gender difference and inequality that result in violence and abuse, sexual harassment, hate crimes, wage differentials and unequal opportunities.

SOC 127. Men, Masculinity and Society. 3 Units
Term Typically Offered: Fall, Spring
Introduces students to the field of men and masculinity. Examines the construction of masculinity in sports, family, work and other social relationships, showing how it affects and is affected by people, institutions and society. Explores the diverse experiences based on race, class, occupation, physical ability and sexuality, and the implications for people from such diverse groups.

SOC 128. Sociology Of Sexuality. 3 Units
Prerequisite(s): SOC 1 or instructor permission.
Term Typically Offered: Fall, Spring
Studies sexuality including historical and cultural differences in sexual attitudes, beliefs and behaviors. Also examines the mutual influence of sexuality and social institutions, such as the family, the economy, politics and religion.

SOC 129. Social Change and Migration in Latin America. 3 Units
Term Typically Offered: Fall, Spring, Summer
This course examines the social, political, and economic changes many societies underwent in Latin America throughout the 20th and 21st century, the role the U.S. played in shaping these changes, how this past has shaped today's U.S.-Latin American relations, and how this interconnectedness has shaped migration to the U.S. Focus will be on specific case studies and using a sociological perspective to study and understand these social changes globally and locally.

SOC 130. Political Sociology. 3 Units
Prerequisite(s): SOC 1 or equivalent.
Term Typically Offered: Fall, Spring
Analyzes political order and change from the viewpoint of cultural values and the institutional structure of societies. Examines group behavior patterns related to ideology, elites, masses, classes, movements, parties, and other power groups. Surveys differing theories and methodologies for the study of political processes across cultures and societies.
SOC 133. Sport in a Global Perspective. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring
Examines sport in a global context, focusing on the dynamic nature of sports in response to changes in society. Addresses the effect sport has on both the society and the individual, from socialization to nationalism. Focuses on both participants (youth, amateurs, professionals) and spectators (parents, fans, etc.) at all levels of involvement, from community to international competition. Highlights cross-cultural differences in the relationships between sport and other social institutions such as government, corporations, and the media.

SOC 134. Sociology of Film. 3 Units
Term Typically Offered: Fall, Spring
Introduces the "Sociological Imagination" by linking the personal histories found in films to larger social structures. The evolution of important contemporary global and domestic social issues is discussed by analyzing the sociological content of major motion pictures. The socio-historical development of the American film industry is also examined to explore its ideological role in challenging and perpetuating various forms of class, race, and gender discrimination.

SOC 135. Sociology of Popular Culture. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring
Analyzes social processes that produce popular culture by contrasting interrelationships between institutional power structures and collective behavior. Examines theories of popular culture, mass movements, and individualism; social change, cultural hegemony, sub-cultures, and organizational studies.

SOC 136. Social Movements. 3 Units
Prerequisite(s): SOC 1 or instructor permission.
Term Typically Offered: Fall, Spring
Analyzes old and new social movements -- pre-political and political, cultural and identity types -- class, labor, feminist, ethnic, environmental, left and right. Challenges by movements to institutional order. Surveys differing theories and methodologies for the study of movements and degree of change (reform, revolutionary) across cultures and societies.

SOC 137. Sociology of Science. 3 Units
Term Typically Offered: Fall, Spring
Examines paradigm changes of science in society and how views of science and technology are socially constructed. Analyzes the representations of scientists, scientific inquiry, and technological innovation. Explores the ways in which science has driven social change, and vice-versa.

SOC 138. Environmental Sociology. 3 Units
Term Typically Offered: Fall, Spring
Studies human society, the natural environment, and their mutual interactions. Examines environmental sociology at several levels, from the micro level of individual communities to the meso level of government policies to macro theoretical considerations. Analysis of environmental issues in a global context also included.

SOC 139. Animals in Society. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
Examines social relationships between humans and animals as pets, companions, workers, entertainers, and food. Analyzes the representations of animals. Studies our relationships with animals both on the level of social groups and as individuals. Applies sociological approaches to the study of human-animal relationships, including the social movements around animal rights.

SOC 140. Sociology of Education. 3 Units
Prerequisite(s): SOC 1 or equivalent.
Term Typically Offered: Fall, Spring
Examines the organization and functions of educational institutions; the rise of mass education and changes in educational systems to the present; the role of teachers, parents, and schools in education; the impact of gender, race, and class on educational outcomes and processes.

SOC 144. Sociology of Health and Illness. 3 Units
Prerequisite(s): SOC 1 or instructor permission.
Term Typically Offered: Fall, Spring
Examines the social contexts of health, illness, and medical care. Emphasizes the debates and contrasting perspectives that characterize the sociological study of health and illness. Topics include the social, global, environmental, and occupational factors influencing health and illness; the politics surrounding physical and mental illness; the patient’s perspective on illness; ethical issues in medicine as they relate to medical technology; and health care reform. The influence of health status on identity and interaction will also be addressed.

SOC 145. Sociology of Aging. 3 Units
Term Typically Offered: Fall, Spring
Examines the process of aging in the context of social structure and processes. Specifically, it deals with such issues as the age structure of society, social values and norms that define the aged, social stratification and aging, social institutions and the aged, theoretical and methodological issues in social gerontology.

SOC 146. Social Psychology. 3 Units
Term Typically Offered: Fall, Spring
Examines major principles governing face to face interaction and their application in understanding the student’s own experience: creating and preserving meaning, “realities” and selves through dramaturgy, negotiation and power; the relationship between status and intimacy; the impact of status resources (such as race and gender) on the status assignment process; the self concept; the role of emotions in social life.

SOC 150. Social Psychology. 3 Units
Term Typically Offered: Fall, Spring
Examines social dimensions — causes and characteristics — of adult crime and deviant behavior in American society. Makes some international comparisons. Police, courts and prisons are examined. Special attention is given to current issues in crime and deviance.
SOC 156. Delinquency. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Examines social determinants of juvenile delinquency, including family, urban conditions, social-psychological and sociological factors. Analyzes the juvenile justice system, including law enforcement, the courts and community treatment programs.

SOC 157. Issues in Courts and Prisons. 3 Units
Term Typically Offered: Fall, Spring

Sociologically analyzes American courts and prisons from prosecutorial intake through sentencing and incarceration. Emphasis is on the role of social factors (in particular race, class and gender) in decision-making practices at each stage of processing. Topics will include, but are not limited to: preventive detention, prosecutorial intake, plea-bargaining, jury selection, pre-sentence investigation reports, sentencing, and legal reconstruction of the American prison in the modern era.

SOC 158. Sociology of Deviance. 3 Units
Term Typically Offered: Fall, Spring

Introduces students to the history of attempts to define and explain deviant behavior; explains social conditions and processes associated with careers of deviants; examines relationship of deviance to problems of social control.

SOC 160. Asian Societies. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Cross-cultural study focuses on Japanese and Chinese societies and cultures and their influences on other Asian developments. Emphasizes their distinctive institutions, norms, values, and traditions in relation to contemporary social, economic, and political processes.

SOC 162. Middle Eastern Societies and Culture. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Discusses the fundamental aspects of Middle East Societies covering such topics as population, family, women, patterns of living, social stratification, education, economic development, politics and armies in the Middle East.

SOC 163. Conflict, Oil and Development in the Middle East. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Examines in detail the major sources of conflict in the Middle East with special reference to the Arab-Israeli conflict, the arms buildup in the Arabian-Persian Gulf, energy crisis and the multi-national aspect of Middle East oil. Attempts to discuss the impact of these conflicts on the processes of social and economic development.

SOC 164. Sociology of Globalization. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Examines globalization and its effect on local societies, including the impact of globalization on local labor and work practices, the social organization of local firms and business enterprises, local social structures such as gender, class, race/ethnicity, and local social patterns such as consumption and leisure activities.

SOC 165. Work and Occupations. 3 Units
Term Typically Offered: Fall, Spring

Examines the social organization of work and economic organization; the rise of industrial society and changes in workplace relations to the present; the role of technology and ideology in the workplace; industrial reforms and alternative forms of economic organization.

SOC 166. The Family. 3 Units
Term Typically Offered: Fall, Spring

Introduces students to the sociology of the family including an examination of the family in various cultures with the emphasis on the American family in all its many forms.

SOC 168. Self and Society. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

Examines the relationship between the individual and society: social interaction, human development, behavior in groups and collectivities, personality and social structure. Theories and empirical studies.

SOC 169. Changing American Family. 3 Units
Term Typically Offered: Spring only

Analyzes the American family, past, present, and future, focusing on explanation and consequences of changes in child-bearing, courtship, marriage, and the interrelationships between the individual and the family and society. Focuses on connecting course material to real world organizations and programs in the community that are associated with or linked to families. Per week: lecture two hours; fieldwork in the community two to three hours.

SOC 170. Sociology of Children and Adolescents. 3 Units
Term Typically Offered: Fall, Spring

Introduces students to the sociology of childhood and adolescence, focusing on theoretical foundations, methodological challenges, and empirical examination of youth from preschool through high school. Focuses on peer relations within wider contexts shaped by gender, race, and social class.

SOC 171. Sociology of Religion. 3 Units
Term Typically Offered: Fall, Spring

Acquaints students with the sociological foundations of religion in society. Emphasis is on the history, development and overall structure of the institution of religion, its relation to social, ethnic and class-based groups and its effect on society in general, and how its social development in America differs from other cultures.

SOC 175. Work and Occupations. 3 Units
Term Typically Offered: Fall, Spring

Examines the social organization of work and economic organization; the rise of industrial society and changes in workplace relations to the present; the role of technology and ideology in the workplace; industrial reforms and alternative forms of economic organization.
SOC 176. Labor and the American Social Structure. 3 Units  
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X. 
General Education Area/Graduation Requirement: Writing Intensive  
Term Typically Offered: Fall, Spring  
Introduction to the study of labor in the U.S., including the nature of work, characteristics of the work force, and an overview of contemporary labor and industrial relations systems within the framework of current U.S. economic and political developments. 
Cross Listed: LBRS 100; only one may be counted for credit.

SOC 185. Bullying as a Social Experience. 3 Units  
Term Typically Offered: Fall, Spring  
This course educates students on bullying as a social experience, introducing how social forces, environment and context impact the culture of bullying. Students will develop an understanding about how programs and policies impact bullying rates based on social theoretical perspective. Students will gain a better understanding of how research is related to intervention and prevention practices. Then, from a whole school approach, using the resources available to the school, students will implement different components of an anti-bullying program at a school site.

SOC 190. Sociology of Small Groups. 3 Units  
Prerequisite(s): SOC 1 or equivalent.  
Term Typically Offered: Fall, Spring  
Examines social structure and social determinants of behavior in small groups; socialization, social control, social change, leadership, social ranking, social conflict and morale.

SOC 191. Culminating Course in Sociology. 1 Unit  
Prerequisite(s): 85 units need to be completed prior to start of the course.  
Term Typically Offered: Fall, Spring  
The course offers Sociology students a culminating experience that has students reflect on their experience as a student in the sociology major, their success in the learning goals and outcomes of the Sociology program, and ultimately engage with their future career goals and their preparation to reach them. This class will be taught fully online. 
Note: Students are expected to take this class during their second to last semester (the penultimate semester).

SOC 192. Sociological Theory. 3 Units  
Prerequisite(s): SOC 1.  
Term Typically Offered: Fall, Spring  
Surveys the history of sociological theory from Comte to the present.

SOC 193A. Mentoring in Sociology. 1 Unit  
Prerequisite(s): Instructor permission.  
Term Typically Offered: Fall, Spring  
Provides opportunity for freshman, sophomores, and juniors majoring in sociology to be mentored for improved student success and retention. Students receive peer mentoring to facilitate closer integration into campus community through participation in events, organizations, and conferences sponsored by the sociology department. Students learn how to build productive relationships with professors and receive timely advising for better retention and success rates. Course does not count toward sociology major but toward degree requirements. 
Note: May be repeated twice for credit; Three times with exception as determined by the instructor. 
Credit/No Credit

SOC 193B. Peer Mentoring in Sociology. 2 Units  
Prerequisite(s): One year of residency at Sac State; 2.8 GPA required; Open only to Sociology majors.  
Term Typically Offered: Fall, Spring  
Provides opportunities for junior and senior sociology majors to mentor and gain practical out-of-class experience. Students learn the principles of mentoring and contribute to student retention and success and close the retention gap. Course provides practical orientation and guidance for the best practices in mentoring that contribute to a positive campus culture. 
Note: May be repeated twice for credit; Three times with exception to be determined by the instructor. 
Credit/No Credit

SOC 194. Special Topics in Sociology. 3 Units  
Prerequisite(s): SOC 1 or instructor permission.  
Term Typically Offered: Fall, Spring  
Examines contemporary issues and social developments within the research specialization of department faculty. Provides a forum to discuss and evaluate controversies and advancements in the discipline of sociology, including theory and methodology.

SOC 195. Internship and Fieldwork. 1 - 3 Units  
Prerequisite(s): Instructor permission.  
Term Typically Offered: Fall, Spring  
Supervised internship and fieldwork experience in a variety of settings: (1) public or private agencies in the Sacramento community, and (2) ethnic and/or minority communities. Supervision is provided by authorized persons in the field and collaborative supervision is provided by sociology faculty at Sacramento State. 
Credit/No Credit

<th>Term Typically Offered</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 101</td>
<td>Orientation to Graduate Studies in Sociology</td>
<td>1 Unit</td>
<td>Classified graduate status.</td>
<td>Fall, Spring</td>
<td>Describes our graduate program, clearly explains our requirements and standards for successful completion of the M.A., shows students how the profession works and how to work in the profession (public submissions, conference presentations, job searches), and explains how to get through the program in a timely manner with a strong thesis. We will discuss Ph.D. programs and the application process, job opportunities and the role of professional sociologists outside academe.</td>
</tr>
<tr>
<td>SOC 198</td>
<td>Linking Statistics Education and Practice</td>
<td>1 - 2 Units</td>
<td>SOC 101 and instructor permission.</td>
<td>Fall, Spring</td>
<td>Advanced exploration of the scholarship of learning as applied to sociological methods and/or data analysis. Students will work independently on an applied semester project, but will also attend agreed upon number of computer lab hours each week and engage in course activities with a focus on how to best structure learning opportunities and apply content. Note: Admission requires approval of professor and Department Chair. No more than 3 units from SOC 195, SOC 198, or SOC 199 combined may be applied to the Sociology upper division major requirement.</td>
</tr>
<tr>
<td>SOC 199</td>
<td>Individual Study Projects.</td>
<td>1 - 3 Units</td>
<td>Fall, Spring</td>
<td></td>
<td>Individual projects or directed reading; open only to students who appear competent to carry on independent work. Admission requires approval of the sponsor of the project and the Department Chair. Credit/No Credit</td>
</tr>
<tr>
<td>SOC 200</td>
<td>Orientation and Writing for Sociological Graduate Studies</td>
<td>3 Units</td>
<td>Admission to MA in Sociology program.</td>
<td>Fall only</td>
<td>This course introduces students to our graduate program and provides students with insights into how the profession works. Students will learn about campus and departmental resources that will aid them in their studies. This class fulfills the requirements for the required Graduate Writing Intensive Course and will train students in the skills needed for successfully writing sociological papers at a graduate level. Students will also be introduced to department faculty who will share their research interests and writing strategies.</td>
</tr>
<tr>
<td>SOC 200A</td>
<td>Orientation to Graduate Studies in Sociology</td>
<td>1 Unit</td>
<td>Fall, Spring</td>
<td></td>
<td>Describes our graduate program, clearly explains our requirements and standards for successful completion of the M.A., shows students how the profession works and how to work in the profession (public submissions, conference presentations, job searches), and explains how to get through the program in a timely manner with a strong thesis. We will discuss Ph.D. programs and the application process, job opportunities and the role of professional sociologists outside academe.</td>
</tr>
<tr>
<td>SOC 200B</td>
<td>Thesis Prospectus/Project Preparation Seminar</td>
<td>2 Units</td>
<td>Completion of a minimum of 6 hours of graduate study.</td>
<td>Fall, Spring</td>
<td>Provides students with faculty and peer support for the process of developing a draft of a thesis prospectus or project proposal. This includes the clarification of expectations, familiarization with research resources, and support provided through feedback in a structured environment. Credit/No Credit</td>
</tr>
<tr>
<td>SOC 210</td>
<td>Urban Sociology.</td>
<td>3 Units</td>
<td>Classified graduate status.</td>
<td>Fall, Spring</td>
<td>Critically examines major theories, research, and debates in the field of urban sociology, including social ecology, Marxist, subcultural, and postmodernist perspectives. Course materials will be framed within two main themes; the dynamics of cooperation and conflict under urban conditions, and the tension between private interests and public life in urban settings. Methodological emphasis will be on case studies, ethnographic, and social historical analysis.</td>
</tr>
<tr>
<td>SOC 215</td>
<td>Data Analysis.</td>
<td>3 Units</td>
<td>SOC 101 or equivalent, or instructor permission.</td>
<td>Fall only</td>
<td>Deals specifically with such issues as the role of research within the discipline, the ethics of conducting research, the rationale behind field and survey methods, the validity and reliability of data collected through these methods and alternative approaches to data collection. Note: Open to classified graduate students in sociology, all others by instructor permission only; Graduate Writing Intensive</td>
</tr>
<tr>
<td>SOC 220</td>
<td>Seminar: Social Change.</td>
<td>3 Units</td>
<td>Classified graduate status in sociology; all others by instructor permission only.</td>
<td>Fall, Spring</td>
<td>Course deals with main theoretical orientations in sociology representing radical, liberal and conservative viewpoints on social change. Examines the historical context of events that affected Western countries such as the Industrial Revolution, French Revolution, and the emergence of nationalism and human rights. Course approach is theoretical, historical and global.</td>
</tr>
<tr>
<td>SOC 222</td>
<td>Immigration and Coloniality.</td>
<td>3 Units</td>
<td>Fall, Spring</td>
<td></td>
<td>This course focuses on human migration and its modern origins and development in a global context of political-economic inequalities. The course offers historical, comparative, and theoretical perspectives on immigration and incorporation of immigrants to the United States. It examines competing and complementary theories on migration, and assesses their explanatory power on the basis of historical, empirical, and standpoint evidence. This graduate elective course aligns with various program learning objectives including critical thinking, intercultural knowledge and competency; and inquiry and analysis.</td>
</tr>
<tr>
<td>SOC 225</td>
<td>Social Stratification.</td>
<td>3 Units</td>
<td>Classified graduate status in sociology; all others by instructor permission only.</td>
<td>Fall, Spring</td>
<td>Analyzes contemporary issues in stratification literature including class, status, power, sex/gender, identity, ethnicity, mobility, equality/inequality. Discusses differing theories, methodologies, and controversies according to student interests.</td>
</tr>
</tbody>
</table>
SOC 226. Sociology of Gender. 3 Units
Term Typically Offered: Fall, Spring

Intended to introduce graduate students to diverse theories that explain gender relations in contemporary society. Provides a critical perspective on how we construct men's and women's identities and how the consequences of such a construction affect institutions, culture and society. Broken up in four sections: origins of gender inequality and issues surrounding research, theoretical perspectives, marginalized groups, and gendered issues in society.

SOC 230. Seminar: Social Organization. 3 Units
Prerequisite(s): Classified graduate status or instructor permission.
Term Typically Offered: Fall, Spring

Analyzes and critiques institutional structure. Studies shared understanding in groups, corporations, communities, institutions or societies and their hierarchical order.

SOC 235. Social Psychology. 3 Units
Prerequisite(s): Open to classified graduate students in sociology, all others by instructor permission only.
Term Typically Offered: Fall, Spring

Examines advanced social psychology. Focuses on symbolic interactionism, ethnomethodology and other recent developments in sociological social psychology, phenomenology, humanistic social psychology and critical reflexive sociology.

SOC 238. Environmental Sociology. 3 Units
Term Typically Offered: Fall, Spring

Examines the complex relationship between human society and its surrounding environment. Theoretical perspectives are complemented by empirical research on environmental issues. Special attention is given to issues relating to the local and regional California environment. Analyzes environmental issues in a global context.

SOC 240. Seminar: Sociological Theory. 3 Units
Prerequisite(s): Classified graduate status in sociology; all others by instructor permission only.
Term Typically Offered: Fall, Spring

Analyzes and critiques terms and issues in social and sociological theory including levels of social reality and differing perspectives - positivism, idealism, realism, post-modernism, feminism, etc.

SOC 255. Social Research in Crime and Deviance. 3 Units
Term Typically Offered: Fall, Spring

Comprehensively reviews and evaluates major sociological theories of crime and deviance, methods of studying crime and deviance, current empirical research in crime and deviance, empirical testing of sociological explanations of crime and deviance, and empirical evaluation of crime and deviance control policy.

SOC 260. Contemporary Issues of the Middle East and North Africa. 3 Units
Term Typically Offered: Fall, Spring

Discusses in-depth several contemporary issues such as the political dimension of Islam, population growth and food security, oil and development, regional conflict, national integration and forces of modernization, etc. The selection of the topics will depend on current events.

SOC 265. Race and Ethnic Relations. 3 Units
Term Typically Offered: Fall, Spring

Examines the social constructs of race and ethnicity as "central organizing principles" in the making and development of our modern world, particularly in the U.S., and how they have interacted with class and gender to create and maintain cultural and material social inequalities. Evaluates competing and complementary theoretical frameworks explaining how race and ethnicity affect individual and group social-structural location (e.g., class position, educational attainment, and political power).

SOC 266. Sociology of The Family. 3 Units
Prerequisite(s): Classified graduate status or instructor permission.
Term Typically Offered: Fall, Spring

Sociologically examines the family, with an emphasis on the contemporary American family. The numerous stages and variations of the family life cycle will be considered, with an emphasis on changes and the causes and consequences of the changes.

SOC 294. Special Topics in Sociology. 3 Units
Term Typically Offered: Fall, Spring

Examines advanced social psychology. Focuses on symbolic interactionism, ethnomethodology and other recent developments in sociological social psychology, phenomenology, humanistic social psychology and critical reflexive sociology.

SOC 295. Internship and Fieldwork. 1 - 3 Units
Prerequisite(s): Classified graduate status in sociology; all others by instructor permission.
Term Typically Offered: Fall, Spring

Supervised internship and fieldwork experience in a variety of settings: (1) public or private agencies in the Sacramento community, (2) ethnic and/or minority communities, and (3) educational institutions including area community colleges and universities. Supervision is provided by authorized persons in the field and collaborative supervision is provided by sociology faculty at Sacramento State. Credit/No Credit

SOC 299. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring

Individual projects or directed reading.
Note: Open only to students who appear competent to carry on individual work. Admission requires approval of the sponsor of the project and the Department Chair. Credit/No Credit

SOC 500. Culminating Experience. 3 - 6 Units
Prerequisite(s): Advancement to candidacy, successful thesis prospectus hearing, and a minimum 3.0 GPA.
Term Typically Offered: Fall, Spring

Completion of a thesis or a project. Thesis: the 6 unit master's thesis requirement must be completed under the direction of the student's thesis committee. Project: the 6 unit project requirement must be completed under the direction of the student’s project committee.
Sp Ed, Rehab, School Psychology & Deaf Studies (EDS)

EDS 140. Introductory Behavioral Statistics. 3 Units
Term Typically Offered: Fall, Spring
Descriptive and interpretative statistics in education and allied fields. Use of calculators and statistical tables. Lecture three hours.

EDS 202. Seminar in Neurodevelopmental Disabilities. 3 Units
Term Typically Offered: Fall, Spring
Examines topics and issues in neurodevelopmental disabilities and includes educational, clinical, habilitative, therapeutic, and medical perspectives. Focuses on collaborative, interdisciplinary perspectives on educational and related interventions with students who have neurodevelopmental disabilities.

EDS 203. Seminar for Resource Specialists: Management and Delivery of Services. 3 Units
Prerequisite(s): EDS 201, EDS 101 and Special Education Credential.
Term Typically Offered: Fall, Spring
Review of literature, and simulated experience in the various roles of the resource specialist in special education programs in the schools. Professional problem-solving strategies; standards and procedures; model program organizational alternatives; management approaches of resource specialist program (RSP); major developments and trends at Federal, State and local levels; references to legal provisions, rules and regulations in special education.
Credit/No Credit

EDS 213B. Mathematics Curriculum and Instruction in Inclusive Classrooms Lab. 1 Unit
Prerequisite(s): Admittance to Mild/Moderate or Moderate/Severe Credential Program or permission of respective special education coordinator.
Corequisite(s): EDS 213A.
Term Typically Offered: Fall, Spring
Field-based practice lab (30 hours). Lab will be a synthesis and application of course content (EDS 213A) in a setting for students who receive special and/or general education services.
Credit/No Credit

EDS 214A. Social Science Curriculum and Instruction in Inclusive Classrooms. 2 Units
Prerequisite(s): Admittance to Mild/Moderate or Moderate/Severe Credential program or permission of respective special education coordinator.
Corequisite(s): EDS 214B.
Term Typically Offered: Fall, Spring
Prepares mild/moderate/severe and multiple subject teacher candidates to teach history-social science content standards for California public schools to all students, including English Learners and students with disabilities; to use analytical and critical thinking skills in history and social science; and to integrate history-social science topics, themes and concepts with other subject areas. Pedagogical topics include the use of timelines, maps, and artifacts, case studies, simulations, literature, art, multiple perspectives, SDAIE, cooperative projects, and research activities.

EDS 214B. Social Science Curriculum and Instruction in Inclusive Classrooms Lab. 1 Unit
Prerequisite(s): Admittance to Mild/Moderate or Moderate/Severe Credential program or permission of respective special education coordinator.
Corequisite(s): EDS 214A.
Term Typically Offered: Fall, Spring
Field-based practice lab (30 hours). Lab will be a synthesis and application of course content (EDS 214A) in a setting for students who receive special and/or general education services.
Credit/No Credit

EDS 215A. Science Curriculum and Instruction in Inclusive Classrooms. 2 Units
Prerequisite(s): Admittance to Mild/Moderate or Moderate/Severe Credential program or permission of respective special education coordinator
Corequisite(s): EDS 215B.
Term Typically Offered: Fall, Spring
Prepares mild/moderate/serve and multiple subject teacher candidates to teach science content standards for California public schools to all students. Give participants the knowledge of basic principles and strategies related to science education appropriate for general education (k-8) teacher candidates. Participants will also develop, implement, and evaluate science curricula appropriate for those students with mild/moderate/severe disabilities. This includes an expanded treatment of science pedagogy, manipulative, technological supports, accommodations, inclusive instructional techniques, and other strategies specially suited to the instruction of English Learners and students with disabilities.

EDS 215B. Science Curriculum and Instruction in Inclusive Classrooms Lab. 1 Unit
Prerequisite(s): Admittance to Mild/Moderate or Moderate/Severe Credential Program or permission of respective special education coordinator
Corequisite(s): EDS 215A.
Term Typically Offered: Fall, Spring
Field-based practice lab (30 hours). Lab will be a synthesis and application of course content (EDS 215A) in a setting for students who receive special and general education services.
Credit/No Credit

EDS 222. Perspectives Workforce Dev. 3 Units
Term Typically Offered: Fall, Spring
Examines the premises of workforce development and advocacy with emphases on adult learning styles and learning communities. Explores the specific needs of the formal and informal vocational, technical and adult learning community in an ever-changing work environment.

EDS 223. Organization Learning Comm. 3 Units
Term Typically Offered: Fall, Spring

EDS 224. WF Assess+Accountability. 3 Units
Term Typically Offered: Fall, Spring

EDS 226. Resource Enhance For WDA. 3 Units
Term Typically Offered: Fall, Spring

EDS 227. Issues Impacting WDA. 3 Units
Term Typically Offered: Fall, Spring
EDS 228.  Sem: Future Workforce Development.  3 Units
Term Typically Offered: Fall, Spring

EDS 250.  Educational Research.  3 Units
Prerequisite(s): Graduate status
Term Typically Offered: Spring only

Studies qualitative and quantitative methods in the development of reliable knowledge in the field of education. Includes identification and formulation of research problems, research designs and presentation of reports representative of different research strategies. Classified students are encouraged to take this course early in their graduate programs.

EDS 252A.  Advanced Teacher Induction Seminar.  2 Units
Prerequisite(s): Admission to Special Education Level II program.
Corequisite(s): EDS 252B.
Term Typically Offered: Fall, Spring

Leads to the development of a Professional Level II Education Specialist Credential induction plan for the support and professional development of the teacher credential candidate as required by the California Commission on Teacher Credentialing. The candidate, the university advisor, and the employer's representative work together to plan course work, and provide individual assistance, and professional development opportunities to address individual performance goals. Seminar.

EDS 252B.  Advanced Teacher Induction Seminar Lab.  1 Unit
Prerequisite(s): Admission to Special Education Level II program.
Corequisite(s): EDS 252A.
Term Typically Offered: Fall, Spring

Level II candidate, university advisor/supervisor and employer's representative work collaboratively to develop a professional plan which relates to the CCTC standards and the individual learning needs of the student. The class is designed as a lab to support the acquisition of all proscribed Level II standards and to support the development of the candidate's professional portfolio for assessment of designated competencies.

EDS 254.  Seminar in Counseling: Work Evaluation.  3 Units
Term Typically Offered: Fall, Spring

Study of the work evaluation process and the modalities utilized, with emphasis on the use of work evaluation in the rehabilitation process.

EDS 265.  Current Issues in Counseling: Disabled.  1 Unit
Term Typically Offered: Fall, Spring

Examination of myths regarding the disabled client. Course includes an exploration of counseling families with a disabled member, the impact of disability upon sexuality and upon interpersonal relationships. Factual data will be presented. The student's attitude toward the disabled will be examined.

EDS 267A.  Advanced Studies in Special Education-Seminar I.  3 Units
Corequisite(s): EDS 267B.
Term Typically Offered: Fall, Spring

For candidates accepted into the Level II Alternative Option Program; skills for in-service training, working with paraprofessionals, coordinating meetings, developing consensus, dealing with conflict and serving as part of collaborative teams; e-mail, use of Listproc and attendance at monthly seminars required; attaining and documenting competencies and developing portfolios related to outcomes of the Level II Mild/Moderate or Moderate/Severe Specialist Credential. Lecture.

EDS 267B.  Advanced Studies in Special Education Seminar I Laboratory.  3 Units
Corequisite(s): EDS 267A.
Term Typically Offered: Fall, Spring

Will be a synthesis and application of course content (EDS 267A) in a setting(s) for students who receive special education services. The 3-unit lab section requires approximately 90 hours of related field-based and/or on-the-job activities. E-mail/Internet access required.

EDS 268A.  Advanced Studies in Special Education-Seminar II.  3 Units
Corequisite(s): EDS 268B.
Term Typically Offered: Fall, Spring

For candidates accepted into the Level II Alternative Option Program; skills for ongoing individualized assessment and curriculum adaptation to meet needs of diverse populations and advanced skills for behavioral management in inclusive settings; e-mail, use of Listproc and attendance at monthly seminars required; attaining and documenting competencies and developing portfolios related to outcomes of the Level II Mild/Moderate or Moderate/Severe Specialist Credentials; individualized planning for candidates who are self-directed and committed to self improvement. Lecture.

EDS 268B.  Advanced Studies in Special Education Seminar II Laboratory.  3 Units
Corequisite(s): EDS 268A.
Term Typically Offered: Fall, Spring

Synthesis and application of course content (EDS 268A) in a setting(s) for students who receive special education services. The 3-unit lab section requires approximately 90 hours of related field-based and/or on-the-job activities. E-mail/internet access required.

EDS 269A.  Collaborative Strategies for Inclusive Practice.  2 Units
Prerequisite(s): CCTC Preliminary Multiple or Single Subject credential.
Sacramento State graduate status or CCE/Open University enrollee.
Corequisite(s): EDS 269B.
Term Typically Offered: Fall, Spring

For candidates seeking to meet Special Education CCTC requirements for Level 2 (Induction) Multiple or Single Subject Teaching Credentials. Candidates must demonstrate skills for ongoing IDEA and State mandates, curriculum adaptation to meet individual needs, and advanced skills for behavioral management in inclusive settings. All activities will be tied to attaining and documenting CCTC Level 2 special education standards through individual portfolios. Assignments will be designed to emphasize an interdisciplinary perspective to collaborative problem solving. E-mail/Internet access required.
EDS 269B. Collaborative Strategies for Inclusive Practice Lab. 1 Unit
Prerequisite(s): CCTC Preliminary Multiple or Single Subject credential. Sacramento State graduate status or CCE/Open University enrollee.
Corequisite(s): EDS 269A.
Term Typically Offered: Fall, Spring
Field-based practice lab (30 hours field). Lab will be synthesis and application of course content in a setting for students who receive special education services. Students will verify experiences across the age-span and in inclusive settings, agencies, and/or other natural environments.
Credit/No Credit

EDS 273A. Instructional Strategies - Mild/Moderate. 2 Units
Prerequisite(s): Admittance into Mild/Moderate Credential or M.A. in Education programs.
Corequisite(s): EDS 273B.
Term Typically Offered: Fall, Spring
Development of knowledge, strategies, and skills in the areas of dyslexia, social skills and transition, and other specific learning challenges for individuals with mild/moderate disabilities.

EDS 273B. Instructional Strategies - Mild/Moderate - Lab. 1 Unit
Prerequisite(s): Admittance into Mild/Moderate Credential or M.A. in Education programs.
Corequisite(s): EDS 273A.
Term Typically Offered: Fall, Spring
Field-based practice lab (30 hours). Lab will be a synthesis and application of course content (EDS 273A) in developing instructional strategies for the Mild/Moderate Credential Program area. Students are required to participate in class visitations, student tutoring, and interviews.
Credit/No Credit

EDS 280. Foundational Elements of Adult Learning Disability Intervention. 2 Units
Term Typically Offered: Fall, Spring
Explore and analyze the most common social, emotional and psychological problems of adults with learning disabilities (LD) impacting cognition and learning. Topics include: current definitions, characteristics of learning disabilities (LD), the impact of dual diagnosis, and the collaborative role of the LD specialist regarding issues of professional conduct, ethics, and legality. Differences will be examined between LD and other disability categories such as Attention Deficit Disorder (ADD), Acquired Brain Injury (ABI), Developmentally Delayed Learners (DDL), etc.

EDS 281. Assessing Achievement in Adults with Learning Disabilities. 3 Units
Term Typically Offered: Fall, Spring
EDS 282A. Assess Cognitive Skls Adult LD. 3 Units
Term Typically Offered: Fall, Spring
EDS 282B. Assess Cognitive Skls Adult LD II. 3 Units
Term Typically Offered: Fall, Spring
EDS 283. Legal Issues+Adult Learning Di. 1 Unit
Term Typically Offered: Fall, Spring

EDS 285. Strategies to Enhance Academic Skills for Adults with Learning Disabilities. 3 Units
Term Typically Offered: Fall, Spring, Summer
For adults with learning disabilities (LD), compensatory learning strategies are vital tools for success in the post secondary academic arena and beyond. Learn to utilize the most effective teaching and learning strategies and review material and method for teaching adults with disabilities in reading, writing, spelling and mathematics. Topics include: subtypes of learning disabilities; historical as well as current teaching approaches; formal and informal assessment methods; cognitive function as a basis of understanding learning behaviors and learning strategies; and current technologies available to enhance learning opportunities. Learn how to empower adults with LD with the ability to adapt commonly used learning strategies to meet individual needs.

EDS 290. Issues in Early Childhood Education for Children with Disabilities. 3 Units
Term Typically Offered: Fall, Spring
Overview of current theories, research, policies and practices regarding educational services for children, from birth to 8, with disabilities and their families. Topics emphasized include typical/atypical development, interdisciplinary assessment, family involvement, community resources, program planning, mainstreaming, and collaborative case management. Requires observations/field study in settings serving young children with disabilities.

EDS 291A. Technology in Special Education. 2 Units
Prerequisite(s): Admittance to Special Education Program or instructor permission.
Corequisite(s): EDS 291B.
Term Typically Offered: Fall, Spring
Offers an overview of technology usage in special education. Topics covered include: current research; identification of needs of exceptional children that can be met through use of microcomputers; evaluation and prescription of software, hardware and assistive devices; writing computer-assisted instructional programs to meet special needs; time management, and the general implementation of microcomputers into a special education program.

EDS 291B. Technology in Special Education Lab. 1 Unit
Prerequisite(s): Admittance to Special Education Program or instructor permission.
Corequisite(s): EDS 291A.
Term Typically Offered: Fall, Spring
Field-based practice lab (30 hours). Lab will be a synthesis and application of course content (EDS 291A) in technology usage with students who receive special education services.
Credit/No Credit
EDS 332. Assessment Center Laboratory for Multiple Subject Candidates. 2 Units
Prerequisite(s): Admittance to Mild/Moderate or Moderate/Severe Credential program or permission of respective special education instructor.
Corequisite(s): EDSP 420B or approved equivalent by assigned advisor or department chair.
Term Typically Offered: Fall, Spring

Individual support to guide multiple subject candidates through the process of completing and submitting the culminating PACT Teaching Event and completion of their electronic portfolio. The signature assignments, formative PACT assessments and summative PACT Teaching Event represent a working electronic portfolio embedded throughout the credential program, and the summative component will be polished and formally submitted at the conclusion of the EDS 332.

EDS 412. Student Teaching: Moderate/Severe. 5 - 10 Units
Corequisite(s): EDSP 233. A total of 10 units is required.
Term Typically Offered: Fall, Spring

Students teaching in a cooperating LEA/District providing services for students receiving Moderate/Severe special education program services. Candidates must meet the criteria for student teaching to be accepted to this course.

Note: Approximately 320 hours are required to meet competencies.

EDS 439B. Early Fieldwork in School Psychology. 1 - 10 Units
Prerequisite(s): Satisfactory completion of first year coursework and EDS 439A Graded: Credit / No Credit Units: 1.0 -10.0
Term Typically Offered: Fall, Spring

Advanced fieldwork experience providing the opportunity for students to engage in the following activities: individual and group counseling; consultation with teachers, parents, and other school staff, and assessment of students. Students will work under the supervision of a credentialed school psychologist. A faculty supervisor from the School Psychology Training Program will work with students and field supervisor.

Credit/No Credit

EDS 460. Practicum in Individual Counseling/VRC. 3 Units
Prerequisite(s): Approval as a candidate in the Vocational Rehabilitation program; approval of advisor, and department petition.
Term Typically Offered: Fall, Spring

Supervised practice in individual counseling.

Credit/No Credit

EDS 461. Field Study in Counseling/VRC. 3 - 15 Units
Prerequisite(s): Approval as a candidate in the Vocational Rehabilitation program, completion of core courses except EDS 560, EDS 561, or Comprehensive Examination (oral or written), approval of advisor, and department petition.
Term Typically Offered: Fall, Spring

Directed field study for rehabilitation counselors. Supervised experiences are arranged in rehabilitation counseling. Forty hours of experience required for each unit of credit.

Credit/No Credit

EDS 472E. Student Teaching: Serious Emotional Disturbance. 10 Units
Corequisite(s): EDS 277.
Term Typically Offered: Fall, Spring

Students will be placed in approved settings which serve students with serious emotional disturbance as a primary disability; be expected to demonstrate skills for instruction across content areas; interact with emotionally disturbed students using a combination of counseling and behavior management strategies; and consult with families, co-workers, mental health representatives and other in a collaborative style.

Credit/No Credit

EDS 530. Project In WDA I. 2 Units
Term Typically Offered: Fall, Spring

EDS 531. Project In WDA II. 4 Units
Term Typically Offered: Fall, Spring

Spanish (SPAN)

SPAN 1A. Elementary Spanish. 4 Units
Term Typically Offered: Fall, Spring

Beginning Spanish language with primary emphasis on the development of audio-lingual skills. Attention will also be given to the interrelatedness of language and civilization and culture. Additional attention will be given to the development of reading and writing. Students will be expected to spend several hours per week in the language laboratory. Not recommended for students with any previous study of Spanish.

SPAN 1B. Elementary Spanish. 4 Units
Prerequisite(s): SPAN 1A, or instructor permission.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement, Humanities (Area C2)
Term Typically Offered: Fall, Spring

Continuation of SPAN 1A with a greater emphasis on the development of speaking, reading, writing, and listening skills. Cultural knowledge continues to be an important component: elements of Hispanic character, customs, and the way in which the Spanish and Latin American peoples view themselves and others in the world is studied.

SPAN 1C. Intensive Elementary Spanish. 6 Units
Prerequisite(s): Two years of high school Spanish or equivalent.
General Education Area/Graduation Requirement: Foreign Language Graduation Requirement
Term Typically Offered: Fall, Spring

This course emphasizes a rapid development of the four language skills—speaking, reading, writing, and listening—covered in the first two semesters of university Spanish. Cultural knowledge is also an important component of this course, and elements of Hispanic character, customs, and the way in which the Spanish and Latin American peoples view themselves and others in the world will be studied. Recommended for students who have had some previous study of Spanish, but need a quick review of the structures covered in the first two years of high school Spanish or the equivalent.

SPAN 103. Advanced Spanish Grammar. 3 Units
Prerequisite(s): SPAN 47 or equivalent or a "S" on the Spanish Language AP exam.
Term Typically Offered: Fall, Spring
Study of the specific components of Spanish grammar with particular emphasis on the Spanish verbal system, the subjunctive, and other problematic aspects of grammar. Will be of particular interest to those planning to teach Spanish as well as to the Spanish-speaking students.

SPAN 106. Advanced Spanish Composition. 3 Units
Prerequisite(s): SPAN 103 and completion of all lower division requirements.
Term Typically Offered: Fall, Spring
Increased practice in writing with emphasis on sentence and paragraph structure, and compositions to effectively convey meaning and ideas. Attention will be given to narrative, descriptive, expository prose, and dialogue, as well as to letters and other forms of written communication.

SPAN 110. Survey of Spanish Literature to 1800. 3 Units
Prerequisite(s): SPAN 100.
Term Typically Offered: Fall only
Advanced readings, lectures, and discussions dealing with a panoramic view of Spanish literature from early works through the Golden Age and up to the 1800s.

SPAN 111. Survey of Spanish Literature from 1800 to the Present. 3 Units
Prerequisite(s): SPAN 100.
Term Typically Offered: Spring only
Continuation of SPAN 110; deals with literature from the Neoclassic period to the contemporary. Readings taken from works and genres of this period.

SPAN 113. Latin American Literature, Beginnings to Modernism. 4 Units
Prerequisite(s): SPAN 100.
Term Typically Offered: Fall only
Study of the major writers and trends in Latin American literature from beginnings until Modernism.

SPAN 114. Latin American Literature, Modernism to Present. 3 Units
Prerequisite(s): SPAN 100.
Term Typically Offered: Spring only
Study of the major writers and trends in Latin American literature from Modernism to the present.

SPAN 115. Magical Realism. 3 Units
Prerequisite(s): SPAN 100.
Term Typically Offered: Spring only
Magic and the wonderful infra-mythical world of major contemporary Latin America writers are explored in this in-depth study of Magical Realism. Short stories and novels are examined as they create a marvelous "other world" or reality. Authors studied include Gortazar, Carpenter, Bombal, Borges, Rulfo, Garcia Marquez, Fuentes, Sainz, Esquivel, and others.

SPAN 121. Spanish For Professionals. 3 Units
Prerequisite(s): SPAN 2A or equivalent.
Term Typically Offered: Fall, Spring
Designed to teach present and future professionals in criminal justice and related fields, including Social Work and Sociology, the necessary vocabulary and structures for effective communication in interviews, visits, etc. Some attention to local dialect differences.

SPAN 121J. Spanish Language For Criminal Justice Professionals. 3 Units
Prerequisite(s): SPAN 8A and 8B, or instructor permission.
Term Typically Offered: Fall, Spring
Designed to teach present and future professional in criminal justice and related fields, including Social Work and Sociology, the necessary vocabulary and structures for effective communication in interviews, visits, etc. Some attention to local dialect differences. Readings, visuals, and discussion of Latino/Hispanic culture and cross-cultural practices variation within Latin America and Spain as related to conducting interviews and writing reports in the criminal justice fields and other professions.

SPAN 123. Topics in Spanish Literature. 3 Units
Prerequisite(s): SPAN 100
Term Typically Offered: Fall only
Topics in literature from Spain offered as needed. Typical topics are: Spanish novel through the Golden Age; 19th and 20th century Spanish novel; Spanish drama from the Middle Ages to the Golden Age; Spanish Contemporary drama.
Note: May be repeated for credit provided topic is different.

SPAN 125. Introduction to Spanish-English Translation and Interpreting. 3 Units
Prerequisite(s): Spanish 47 or Instructor Consent
Term Typically Offered: Fall only
Teaches foundational technical and critical skills that bilingual Spanish-English speakers need to embark on the path to successful written translation and spoken interpreting in fields such as healthcare, law, education, business, and community service. Students engage theoretical readings, authentic case studies, and hands-on practice. By the end of the semester, students develop critical observation skills and build confidence to explore specialization in translation and/or interpreting.

SPAN 126. Spanish-English Medical Interpreting. 3 Units
Prerequisite(s): SPAN 6B or SPAN 125
Term Typically Offered: Spring only
The proposed course teaches technical and critical skills needed to address the growing demand for qualified Spanish-English medical interpreters. In addition to meeting community needs, the course increases career opportunities for bilingual speakers of Spanish and English by fulfilling the prerequisite for certification through the National Board of Certification for Medical Interpreters. The course adds an option for students pursuing the Spanish major, Spanish minor, and HEALS certificate (Form B expected Fall 2023) who wish to focus on interpreting.
Note: Teaches the technical and critical skills needed for successful Spanish-English interpreting in the field of medicine. Students engage theoretical readings, glossaries of medical terminology, authentic case studies, and hands-on practice. Includes preparation for certification exams.
SPAN 129. Spanish Civil War. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

In-depth examination of the Spanish Civil War (1936-1939) focusing on its social, political, and cultural contexts. The course also examines the war's historical origins, immediate aftermath and implications for understanding modern Spain.
Cross listed: HIST 136.

SPAN 130. Contemporary Mexican Literature. 3 Units
Prerequisite(s): SPAN 100.
Term Typically Offered: Spring only

Inquiry into the significance of the individual in contemporary Mexican culture and his greater relationship to the cosmos as seen through his literature. May be of particular interest to the Mexican American.

SPAN 131. Special Topics in Latin American Literature. 3 Units
Prerequisite(s): SPAN 100
Term Typically Offered: Spring only

Topics in literature from Latin America offered. Class will focus on marginalized literary genres, places, or peoples. Possible class topics include: Caribbean Literature, Female Writers from Latin America, Afro Latinx Voices, Indigenous Authors from Latin America, Latin American Playwrights, etc.
Note: May be repeated for credit provided topic is different.

SPAN 134. The Short Story in Latin America. 3 Units
Prerequisite(s): SPAN 100.
Term Typically Offered: Spring only

Development of the short story in Latin America with some introductory study of the North American short story by way of comparison. Selected readings from different countries where the short story has had an important development. Emphasis on the contemporary short story.

SPAN 142. Advanced Spanish Conversation. 3 Units
Prerequisite(s): SPAN 47.
Term Typically Offered: Fall, Spring

Increases language fluency and acquisition of new vocabulary through intensive conversational practice, based on topics of contemporary interest.

SPAN 151. Civilization and Culture of Hispanic America. 3 Units
Prerequisite(s): SPAN 47
Term Typically Offered: Fall, Spring

Readings, visuals, and discussion of the history, geography, anthropology, sociology, politics, economics, folklore, and artistic expression of the nations of Hispanic America.

SPAN 152. Civilization and Culture of Spain. 3 Units
Prerequisite(s): SPAN 47
Term Typically Offered: Fall, Spring

Reading and discussion of the history, geography, anthropology, sociology, political science, economics, folklore, music, art, and the dance as these areas relate to Modern Spain.

SPAN 153. Civilization and Culture of Mexico. 3 Units
Prerequisite(s): SPAN 47
Term Typically Offered: Fall, Spring

Reading and discussion of the history, geography, anthropology, sociology, political science, economics, folklore, music, art, and the dance of Mexico.

SPAN 159. Cultures of Latin America for the Professions. 3 Units
Prerequisite(s): SPAN 6A, 6B, and SPAN 121 or instructor approval.
Term Typically Offered: Spring only

Readings, visuals, and discussion of Latino/Hispanic culture and cross-cultural practices variation within Latin America as related to healthcare and other professions such as Criminal Justice, Social Work, Sociology, and Psychology.
Note: Students will need to pay a fee to cover for the cost of the Spanish Proficiency Exam, which will be used for Assessment Purposes.

SPAN 159J. Cultures of Spain and Latin America for the Professions in Criminal Justice. 3 Units
Prerequisite(s): SPAN 8A, 8B, and SPAN 121J or instructor approval.
Term Typically Offered: Fall, Spring

Readings, visuals, and discussion of Latino/Hispanic culture and cross-cultural practices variation within Latin America and Spain as related to Criminal Justice and other professions, including Social Work and Sociology.

SPAN 194. Field Experience/Internship. 1 - 3 Units
Prerequisite(s): Intermediate competency in Spanish and instructor permission.
Term Typically Offered: Intermediate competency in Spanish and instructor permission.

Directed fieldwork in a project which uses the language skills developed through previous study of Spanish. The projects may include interpreting and translating for public and/or private agencies in Sacramento, teaching or tutoring in the community, or other projects approved by the faculty supervisor. All work will be monitored by Sacramento State faculty. The student must submit written reports to his/her supervisor. Can be taken more than once for credit.
Credit/No Credit

SPAN 195. Internship/Field Experience. 1 - 3 Units
Prerequisite(s): Intermediate competency in Spanish and instructor permission.
Term Typically Offered: Intermediate competency in Spanish and instructor permission.

Directed fieldwork in a project which uses the language skills developed through previous study of Spanish. The projects may include internship experiences with agencies in the community that serve the Spanish-speaking population in Sacramento. Field experience sites have to be approved and monitored by the faculty supervisor. The student must submit oral and written reports to supervisor. Can be taken more than once for a total of 3 units of credit.
Credit/No Credit
SPAN 199. Special Problems. 1 - 3 Units
Prerequisite(s): Permission of instructor supervising work, the advisor, and the Department Chair.
Term Typically Offered: Fall, Spring

Individual projects or directed reading.
Note: Open only to students who appear competent to carry on individual work, and enrollment will be limited to hardship cases.

Credit/No Credit

SPAN 201A. General Spanish Linguistics. 3 Units
Prerequisite(s): SPAN 102 and SPAN 103; or equivalent.
Term Typically Offered: Fall, Spring

Depending upon the interest of the group, one topic of Spanish Linguistics will be chosen. The emphasis may be Comparative, Popular Spanish divergencies, or psycho- or socio-linguistics, especially the development of Mexican-American Spanish and the learning problems of bilinguals.

SPAN 201B. History of the Spanish Language. 3 Units
Prerequisite(s): SPAN 102 and SPAN 103; or equivalent.
Term Typically Offered: Fall, Spring

Historical evolution of the Spanish language from Vulgar Latin to the present day with special emphasis on the phonetic and morphological changes involved in this evolution. Some attention will be devoted to Old Spanish readings as well as the differences between Old and Modern Spanish. Knowledge of Latin is helpful, but not required.

SPAN 201C. Contrastive Grammatical Structures of Spanish and English. 3 Units
Prerequisite(s): SPAN 102 and SPAN 103; or equivalent.
Term Typically Offered: Fall, Spring

Analyzes the major differences between the grammatical system of Spanish and English, with particular emphasis on those areas of contrast which are vital to the teacher.

SPAN 201D. Applied Spanish Linguistics. 3 Units
Prerequisite(s): SPAN 102 and SPAN 103; or equivalent.
Term Typically Offered: Fall, Spring

Application of linguistic theory, principally to the areas of language teaching and learning acquisition. Occasionally the application of linguistics to other fields may be examined.

SPAN 220A. Spanish Literature in the Middle Ages. 3 Units
Prerequisite(s): SPAN 100 and an upper division course in Peninsular Literature; or equivalent.
Term Typically Offered: Fall, Spring

Specific topic from this period will be chosen for intensive study as announced.

SPAN 220B. Spanish Literature in the Golden Age. 3 Units
Prerequisite(s): SPAN 100 and an upper division course in Peninsular Literature; or equivalent.
Term Typically Offered: Fall, Spring

Specific topic from this period will be chosen for intensive study as announced.

SPAN 220C. Spanish Literature in the 18th and 19th Centuries. 3 Units
Prerequisite(s): SPAN 100 and an upper division course in Peninsular Literature; or equivalent.
Term Typically Offered: Fall, Spring

Specific topic from this period will be chosen for intensive study as announced.

SPAN 220D. Contemporary Spanish Literature. 3 Units
Prerequisite(s): SPAN 100 and an upper division course in Peninsular Literature; or equivalent.
Term Typically Offered: Fall, Spring

Specific topic from this period will be chosen for intensive study as announced.

SPAN 224A. Spanish-American Literature to 1825. 3 Units
Prerequisite(s): SPAN 100 and an upper division course in Latin American Literature; or equivalent.
Term Typically Offered: Fall, Spring

Beginnings of Spanish American Literature from the period of discovery and conquest through the colonial period until the end of the Wars of Independence in 1825. Covers the Renaissance, Baroque, and Neo- Classical Periods.

SPAN 224B. Spanish-American Literature, 1825 to 1880. 3 Units
Prerequisite(s): SPAN 100 and an upper division course in Latin American Literature; or equivalent.
Term Typically Offered: Fall, Spring

Independence (1825) through 1880. Covers the following movements: Romanticism, Realism, and Naturalism and deals with selected authors.

SPAN 224C. Spanish-American Literature, 1880 to 1945. 3 Units
Prerequisite(s): SPAN 100 and an upper division course in Spanish American Literature; or equivalent.
Term Typically Offered: Fall, Spring

Specific topic from this period will be chosen for intensive study as announced.

SPAN 224D. Spanish-American Literature, 1945 to Present. 3 Units
Prerequisite(s): SPAN 100 and an upper division course in Spanish American Literature; or equivalent.
Term Typically Offered: Fall, Spring

Specific topic from this period will be chosen for intensive study as announced.

SPAN 250A. Civilization and Culture of Spain. 3 Units
Prerequisite(s): Graduate status with fluency in understanding, speaking, reading, and writing contemporary Spanish.
Term Typically Offered: Fall, Spring

Seminar examining aspects of the national character and personality of Spain as revealed through Hispanic social and literary studies from prehistory to 1700.

SPAN 250B. Civilization and Culture of Modern Spain. 3 Units
Prerequisite(s): Graduate status with fluency in understanding, speaking, reading, and writing contemporary Spanish.
Term Typically Offered: Fall, Spring

Seminar examining aspects of the character and personality of the various political, geographical, and cultural groups of Spain as revealed through the social and literary studies of Spain from 1700 to the present.
SPAN 250C. Civilization and Culture of Hispanic America. 3 Units
Prerequisite(s): Graduate status with fluency in understanding, speaking, reading, and writing contemporary Spanish.
Term Typically Offered: Fall, Spring
Seminar examining aspects of the character and personality of the various nations of Hispanic America as revealed through Hispanic-American social and literary studies. Attention will be given to the various ethnic groups found in Hispanic America.

SPAN 250D. Civilization and Culture of Mexico. 3 Units
Prerequisite(s): Graduate status with fluency in understanding, speaking, reading, and writing contemporary Spanish.
Term Typically Offered: Fall, Spring
Seminar examining aspects of the national character and personality of Mexico as revealed through Mexican social and literary studies.

SPAN 299. Special Problems. 1 - 3 Units
Prerequisite(s): Permission of instructor supervising work, the advisor, and the Department chair.
Term Typically Offered: Fall, Spring
Individual projects or directed reading.
Note: Open only to students who have the required number of units in residence and who appear competent to carry on individual work. Enrollment will be limited to hardship cases. Only 3 units of upper division or 3 units of graduate division credit will be accepted for any one degree in Spanish.
Credit/No Credit

SPAN 500. Culminating Experience. 1 - 4 Units
Prerequisite(s): Advanced to candidacy and permission of the graduate coordinator.
Term Typically Offered: Fall, Spring
Completion of a thesis, project or comprehensive examination.

Speech Pathology and Audiology (SPHP)

SPHP 227. Dysphagia and the Medical Setting. 3 Units
Prerequisite(s): CSAD 218, CSAD 221, instructor permission.
Term Typically Offered: Fall, Spring
Swallowing problems from infancy through old age; growth patterns and failures in younger populations; feeding and swallowing problems related to normal aging processes and those associated with neurogenic disorders. Assessment and treatment. Includes theoretical and experiential components. Overview of the role Speech-Language Pathologist in the hospital setting including learning how to read medical charts, basic insurance information, understanding other disciplines and how they affect the job and career of an SLP in the hospital, and medical terms/abbreviations.

SPHP 250. Speech/Language Internships Seminar. 2 Units
Corequisite(s): CSAD 295I, or CSAD 295M, or CSAD 295P or CSAD 295S.
Term Typically Offered: Fall, Spring
Assessment, scheduling and conducting language speech and hearing programs in schools. Related issues including scope of practice, managed care, interagency cooperation and transdisciplinary approaches.

Statistics (STAT)

STAT 1. Introduction to Statistics. 3 Units
Prerequisite(s): Math 10 or a score of 51 or higher on a proctored ALEKS PPL exam.
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Fall, Spring
Descriptive statistics, basic concepts of probability and sampling with the aim of introducing fundamental notions and techniques of statistical inference.

STAT 10A. Introductory Statistics with Developmental Mathematics. 3 Units
Term Typically Offered: Fall, Spring, Summer
Prepares students for STAT 10B that requires background in data analysis process, descriptive statistics and the concept of randomness. Topics include: Summarizing the data distribution graphically and numerically; reasoning about bivariate numerical data; linear correlation and regression; linear, quadratic and exponential functions as a way of modeling a correspondence between two variables; reasoning about bivariate categorical data; basic concepts of probability and the law of large numbers; conditional probability; discrete random variables; binomial distribution; and an introduction to continuous random variables. Lecture three hours.

STAT 10B. Introductory Statistics with Developmental Mathematics. 3 Units
Prerequisite(s): STAT 10A
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)
Term Typically Offered: Spring only
Continuation of STAT 10A. Stat 10B prepares students for research methods applications/ courses in various disciplines. Topics include: Continuous random variables and normal distribution; sampling distributions and the central limit theorem; confidence intervals and tests of hypotheses for means, proportions, difference in means and difference in proportions; and chi-squared tests for categorical data analysis. Lecture three hours.
STAT 50. Introduction to Probability and Statistics. 4 Units
Prerequisite(s): MATH 26A, MATH 30, or appropriate high school based AP credit.  
General Education Area/Graduation Requirement: Math Concepts & Quantitative Reasoning (B4)  
Term Typically Offered: Fall, Spring, Summer  
Sample spaces, combinatorics, and random variables. Density and distribution functions. Expectation, variance, and covariance. The binomial, uniform, poisson, negative binomial, hypergeometric, exponential, gamma, beta, and normal distributions. Sampling distributions, estimation, and hypothesis tests. Students are given periodic writing assignments which encourage them to think through concepts of the course.

STAT 96. Experimental Offerings in Statistics. 1 - 6 Units  
Term Typically Offered: Fall, Spring  
When there is a demand from a sufficient number of qualified students, one of the staff will conduct a seminar on some topic in statistics.

STAT 103. Intermediate Statistics. 3 Units  
Prerequisite(s): STAT 50 or instructor consent  
Term Typically Offered: Spring only – even years  

STAT 115A. Introduction to Probability Theory. 3 Units  
Prerequisite(s): MATH 31 and either STAT 1 or STAT 50  
Term Typically Offered: Fall only  
Probability axioms, discrete and continuous random variables, functions of random variables, joint densities, expectation, moment generating functions. Chebyshhev’s inequality, transformations, weak law of large numbers, central limit theorem.

STAT 115B. Introduction to Mathematical Statistics. 3 Units  
Prerequisite(s): STAT 115A  
Term Typically Offered: Spring only  
Point Estimation, interval estimation, hypothesis testing, the multivariate normal distribution, non-parametric tests.

STAT 128. Statistical Computing. 3 Units  
Prerequisite(s): (STAT 1 or STAT 50) and (MATH 26A or MATH 30) or consent of the instructor.  
Computer methods for accessing, transforming, summarizing, graphing and making statistical inferences from data; focus is on command-line statistical software, but menu-driven software may be introduced; application of computer methods to solve problems selected from the areas of modeling, simulation, inference and statistical learning.

STAT 129. Analyzing and Processing Big Data. 3 Units  
Prerequisite(s): (STAT 1 or STAT 50) and (MATH 26A or MATH 30) and (STAT 128 or CSC 20), or consent of the instructor.  
Term Typically Offered: Fall, Spring  
Statistical analysis of large, complex data sets. Topics include memory efficient data processing, the split-apply-combine strategy, rewriting programs for scalability, handling complex data formats, and applications such as statistical learning, dimension reduction, and efficient data representation. Students will access data and run code on remote servers.

STAT 155. Introduction to Techniques of Operations Research. 3 Units  
Prerequisite(s): MATH 31; STAT 50, STAT 103, or STAT 115A; MATH 31 may be taken concurrently.  
Term Typically Offered: Spring only – odd years  
Formulation and analysis of mathematical models with emphasis on real systems applications. Introduction to Queueing theory and Markov Processes for application.

STAT 196J. Statistical Computing. 3 Units  
Prerequisite(s): STAT 1 or STAT 50, and MATH 26A or MATH 30  
Term Typically Offered: Fall only  
Computer methods for accessing, transforming, summarizing, graphing, and making statistical inferences from data. Both a command-line statistical software package such as R and menu-driven package such as SAS will be used. Students will learn to apply computer methods to solve problems selected from the areas of modeling, simulation, inference and statistical learning. The intent of this course is to provide students with the software skills needed for statistical work in industry or academia.

STAT 196L. Linear Models. 3 Units  
Prerequisite(s): (Stat 1 or Stat 50) and (Math 35 or Math 100); an introductory programming course such as Math 64 or Stat 128 is recommended.  
Term Typically Offered: Fall, Spring  
Practical statistical modeling of data using professional-grade statistical software. Simple and multiple linear regression; analysis of variance; logistic regression; variable transformation; variable selection; model selection; residual analysis.

STAT 199. Special Problems. 1 - 6 Units  
Term Typically Offered: Fall, Spring  
Individual projects or directed reading. Open only to students who appear competent to carry on individual work. Admission to this course requires approval of the instructor in addition to the approval of the advisor and the Department Chair. Credit/No Credit

STAT 215A. Introduction to Mathematical Statistics. 3 Units  
Prerequisite(s): STAT 115A, STAT 115B; MATH 134 is recommended.  
Term Typically Offered: Fall, Spring  
Probability measure, conditional probability and independence, random variables, characteristic and moment-generating functions, modes of convergence.

STAT 215B. Topics in Introduction to Mathematical Statistics. 3 Units  
Prerequisite(s): STAT 215A.  
Term Typically Offered: Fall, Spring  
Note: May be taken twice with approval of Graduate Coordinator.

STAT 299. Special Problems. 1 - 6 Units  
Term Typically Offered: Fall, Spring  
Any properly qualified student who wishes to pursue a problem may do so if the proposed subject is acceptable to the department committee, the supervising instructor and the student’s advisor.
Teacher Education (EDTE)

EDTE 214. Classroom Assessment and School Accountability Issues. 3 Units
Term Typically Offered: Fall, Spring
Focuses on classroom assessment, grounded in sound principles of measurement and evaluation of learning. Assessment is considered in the context of historical, social, political, legal, educational, and ethical trends, and concerns including reviews of socio-cultural diversity and individual differences as they relate to accurate appraisal of what learners know how to do.

EDTE 219A. Intro To Information Services. 3 Units
Term Typically Offered: Fall, Spring

EDTE 219G. Networks For School Lib Med Ct. 2 Units
Term Typically Offered: Fall, Spring

EDTE 219K. Eval & Sel Learn Res & Info Se. 3 Units
Term Typically Offered: Fall, Spring

EDTE 219L. Lit For Children/Lib Media Svc. 3 Units
Term Typically Offered: Fall, Spring

EDTE 219M. Mgmt School Library Media Cent. 3 Units
Term Typically Offered: Fall, Spring

EDTE 219N. Org Of Info & Learning Resourc. 3 Units
Term Typically Offered: Fall, Spring

EDTE 219P. Lib Media Ctr+Core Curriculum. 2 Units
Term Typically Offered: Fall, Spring

EDTE 219Z. Field Study School Librariansh. 2 - 4 Units
Term Typically Offered: Fall, Spring
Credit/No Credit

EDTE 220. Seminar in Mathematics Education. 3 Units
Term Typically Offered: Fall, Spring
Research of mathematical instruction trends, problems of teaching math and successful mathematics programs.

EDTE 221. Curriculum Development in Mathematics Education. 3 Units
Term Typically Offered: Fall, Spring
Examining successful curricular materials and techniques for use with slow, average and rapid learners of mathematics, and programs directed at the non-college-bound population. Creating materials for exceptional as well as for average learners.

EDTE 222. Teaching Mathematics in the Twenty-First Century. 3 Units
Term Typically Offered: Fall, Spring
Investigation of issues and trends being faced by elementary and secondary teachers in California. An overall goal is to develop a significant body of examples of successful mathematics teaching, designed to be useful with learners from all of California’s diverse student population.

EDTE 222C. Theoretical Issues in Adult Literacies. 3 Units
Term Typically Offered: Fall, Spring
Introduces students to current theories surrounding the pedagogies and politics of adult literacies within a wide variety of contexts, including community colleges, prisons, and community projects. Incorporates information on technological literacies, information literacies, cultural literacies, and multiliteracies. In addition, students will be partnered with community literacy experts and required to complete formal observations of adult reading classrooms throughout the semester, fostering collaboration between the local community and the university. Cross-listed: ENGL 225C; only one may be counted for credit.

EDTE 226. Seminar: Strategies for Teachers. 3 Units
Term Typically Offered: Fall, Spring
Seminar focuses on analyzing various teaching strategies used in classrooms, K-12. Teaching strategies will be analyzed to identify teacher competencies and learning outcomes. Additional attention will be given to appropriate classroom management strategies.

EDTE 227. Seminar in Curriculum and Instruction, K-12. 3 Units
Term Typically Offered: Fall, Spring
Individual and group study of current programs, issues, trends and research in elementary and secondary instruction and curricular areas.

EDTE 228. Introduction to Ethnomathematics. 3 Units
Term Typically Offered: Fall, Spring
Students will learn aspects of mathematical modeling used to uncover mathematics as used in non-school contexts, a basic premise to ethnomathematics is that the mathematics found in other traditions is strongly influenced by, indeed reflects, a given individual’s cultural heritage and world view. Students examine alternative mathematical thought practices of other, mainly nonwestern cultures; consider how ethnomathematics is that the mathematics found in other traditions

EDTE 230. Introduction to Computers in the Classroom. 3 Units
Term Typically Offered: Fall, Spring
Practical introduction to the use and applications of computer-based technologies in the Kindergarten-twelfth grade classroom. Major topics include basic computer terminology and functions, educational software evaluation and integration into instruction, using telecommunication, multimedia authoring and issues relating to the impact of computers in a democratic society. No prior experience with computers required.

EDTE 232. Educational Applications of Computers. 3 Units
Prerequisite(s): EDMS 330 or EDS 291A and EDS 291B; or equivalent.
Term Typically Offered: Fall, Spring
Examines how application programs such as word processing, database management, spreadsheets and presentation tools can be used as part of the teaching, management and learning processes. Also includes instruction on the setup and management of telecommunications and classroom networks.
EDTE 233. Teaching Problem-Solving with Educational Technology. 3 Units

Prerequisite(s): EDTE 232 or equivalent.
Term Typically Offered: Fall, Spring

Examines the theoretical presuppositions underlying the use of educational technology to teach problem-solving, conditions under which problem-solving opportunities are likely to arise, computer programming as a problem-solving medium and the potential of software programs designed to teach problem-solving skills. Includes Internet-based problem-solving and principles of distributed learning.

EDTE 234. Curriculum and Staff Development with Educational Technology. 3 Units

Prerequisite(s): EDTE 232 or equivalent.
Term Typically Offered: Fall, Spring

Provides the student with an in-depth understanding of the principles and processes of analyzing curriculum for the purpose of integrating educational technology at the classroom, school and district levels. Students will analyze curricula, identify appropriate technology applications, and create plans for establishing, monitoring, and evaluating technology-based programs. Special emphasis will be placed on professional development.

EDTE 235. Enhancing Curriculum with Multimedia and the Web. 3 Units

Prerequisite(s): EDTE 232 or equivalent.
Term Typically Offered: Fall, Spring

Provides the student with an in-depth understanding of the principles of multimedia and web-based design. Students will apply these principles to developing curriculum for the technology-infused classroom. Intensive hands-on experience in the development of web and multimedia including video based on principles of human information processing and aesthetics.

EDTE 237. The Professional Lives of Teachers. 4 Units

Prerequisite(s): EDTE 226 and EDTE 251.
Term Typically Offered: Fall, Spring

Building upon the historical role of the position in society, the cultural influences that affect public and personal perception of teachers, the theoretical models of teaching, and research on teacher identity, participants will explore the continuum of a teacher’s professional life (preservice, induction, professional growth, mentorship), teacher professionalism, and what teachers’ professional lives look like in practice. Students will define their career stage and create a vision for the rest of their career in the field.

EDTE 238. Professional Development of Teachers in Democratic Schools. 4 Units

Prerequisite(s): EDTE 237.
Corequisite(s): EDTE 239.
Term Typically Offered: Fall, Spring

Examines contemporary issues in professional development for teachers. Students learn specific foundations and procedures for professional development that have well-documented effects on student achievement, e.g., professional learning communities. Students also analyze and design appropriate strategies for implementing and evaluating professional development for the contexts in which they are teaching as well as for a variety of other settings.

EDTE 239. Schools and Schooling in a World of Policy and Practices. 4 Units

Term Typically Offered: Fall, Spring

Beginning with a historical framework of reform, examines theories and models of school reform in the U.S. and international contexts. Students engage in researching and identifying how political and social forces impact the development of educational policy and reform initiatives. Using the lens of contemporary reform, students analyze recent school reform initiatives as well as the ideas and ideals of professional development within their own educational contexts.

EDTE 242. Key Issues in National Board Certification. 3 Units

Prerequisite(s): Admission to the Master of Arts In Education (Curriculum and Instruction) and the selection to the National Board Cohort.
Term Typically Offered: Fall, Spring

Through action research, professional reading and guided discussions, students will explore key elements of the National Board Standards including engaging student learning, assessment, decision making in lesson design, and identifying essential "big ideas" in content areas.

EDTE 250. Educational Research. 3 Units
Term Typically Offered: Fall, Spring, Summer

Studies qualitative and quantitative research methods in the field of education. Includes identification and formulation of research problems, research designs and presentation of reports representative of different research strategies.

EDTE 250I. Educational Research for IMET. 3 Units

Prerequisite(s): Acceptance into Master of Arts (Educational Technology).
Term Typically Offered: Fall, Spring

Studies qualitative and quantitative research methods in the field of education with special emphasis on educational technology. Includes identification and formulation of research problems, research designs and presentation of reports representative of different research strategies.

EDTE 251. Education for a Democratic, Pluralistic Society. 3 Units
Term Typically Offered: Fall, Spring

Advanced study of social and psychological issues which need to be considered in education relating to the client, the educator, the community and society. Addresses implications of theories of learning, assessment, individual differences, cultural, historical, philosophical, and social/political influences. Includes an overview of research and an introduction to APA formatting. Must be taken first semester in EDTE uncohorted Masters' program.
**EDTE 251. Education in Democratic, Pluralistic Society for Educational Technology.** 3 Units

**Prerequisite(s):** Acceptance into MA in Education (Educational Technology) program.

**Term Typically Offered:** Fall, Spring

Advanced study of social and psychological issues which need to be considered in education relating to the client, the educator, the community, and society, with a focus on the effects of educational technology advancements and influences. Addresses implications of theories of learning, assessment, individual differences, cultural, historical, philosophical, and social/political influences.

**Note:** Fee course.

Fee course.

**EDTE 258. Intersectionality and Media Literacy.** 3 Units

**Term Typically Offered:** Fall, Spring, Summer

The course will explore relationships between popular Western media and the social constructions of race and gender. The course will examine interpretations of media portrayals, provide a critical analyses of media culture and media content, and consider what can be done to combat oppressive media narratives.

**EDTE 262. Experiencing the Arts in Education.** 3 Units

**Prerequisite(s):** Admission into the Masters of Arts in Education (Curriculum and Instruction) or instructor permission.

**Term Typically Offered:** Fall, Spring

Involves experiencing, appreciating and generating the arts. Develops a creative, collaborative community for learning and teaching through the arts which will be sustained throughout the Master of Arts in Education (Curriculum and Instruction) and beyond.

**EDTE 263. Gender Leadership and Integrative Thinking.** 3 Units

**Term Typically Offered:** Fall, Spring, Summer

This course explores methods of integrative thinking, holistic leadership practices, cultural perspectives, and mindful communication techniques for current and future leaders. This course defines leadership styles, explores gender dynamics in leadership and gives students the opportunity to apply integrative thinking models across multiple disciplines.

**EDTE 266. Gender Constructs in Education.** 3 Units

**Term Typically Offered:** Fall, Spring

Examination and analysis of methods, practices, and social construct prevalent in educational institutions and society and their ultimate effect on females and males, both as individuals and as a members of society. Students will examine the limiting factors in their own gender-role socialization and the dangers of perpetuating them in their own teaching or managerial practices.

**EDTE 267. The Human Brain and Its Function for Effective Teaching and Learning.** 3 Units

**Prerequisite(s):** Graduate status.

**Term Typically Offered:** Fall, Spring

Brain-based teaching and learning practices are related directly to the functions of the limbic system; the frontal, parietal, temporal and occipital lobes; and the reticular activating system, brainstem and vestibular apparatus. Students will understand why, from a brain perspective, certain learning/teaching practices are successful/unsuccessful.

**EDTE 268. Theory and Practice of Gender Issues and Race.** 3 Units

**Term Typically Offered:** Fall, Spring

This course is designed to enhance the understanding of theoretical frameworks on gender/race dynamics in education and society. Educational philosophy and history are examined in order to develop theoretical constructs for examining contemporary challenges. Using a theoretical lens, historical and modern day experiences of people of color will be of particular interest. This course will contribute to the graduate level coursework in the areas of education, gender equity, multiculturalism, and interdisciplinary studies.

**EDTE 270. Advanced Teaching Skills through Teacher Induction for Beginning Teachers - Year 1.** 3 - 6 Units

**Term Typically Offered:** Fall, Spring

The Teacher Induction program provides support to credentialed teachers in their first and second year of teaching. Each beginning teacher participates in professional development and formative assessment in seminars and weekly meetings with a trained support provider. Year 1 focuses on the California Standards for the Teaching Profession, creating an effective classroom environment, planning standards-based instruction for all learners, using technology to access information, and providing effective support for English learners and special populations. Instructor Approval Required For Enrollment. Credit/No Credit

**EDTE 271. Advanced Teaching Skills through Teacher Induction for Beginning Teachers - Year 2.** 3 - 6 Units

**Term Typically Offered:** Fall, Spring

Teacher Induction Year Two emphasizes the California student content standards and frameworks. Seminars and individualized assessment and support extend the abilities of second year teachers to collect evidence of their teaching practice, use state and local student assessment data to make informed instructional choices, differentiate instruction to support student achievement of the California student content standards, use research-based strategies to improve the achievement of English learners and students with disabilities, and use technology to maximize instructional effectiveness. Instructor Approval Required for Enrollment. Credit/No Credit

**EDTE 272. Mentoring Skills for Teacher Induction (Year 1).** 3 - 6 Units

**Term Typically Offered:** Fall, Spring

Professional development of Mentors (year 1) including research-based practices to provide coaching support for new teachers and to develop teachers’ professional practice; professional development related to effective mentoring practice related to the California Standards for the Teaching Profession, provide formative assessment using observations, reflection and self-assessment, as well as assist in the creation of an electronic portfolio documenting the teacher’s individual professional growth journey. The program is grounded in the California Standards for the Teaching Profession (CSTPs). Credit/No Credit
EDTE 273. Mentoring Skills for Teacher Induction (Year 2). 1 - 6 Units  
Term Typically Offered: Fall, Spring  
Continuation of EDTE 272 which includes research-based practices to provide coaching support for new teachers and to develop teachers' professional practice. Students will engage in professional development in effective mentoring practice related to the CA Standards for the Teaching Profession, provide formative assessment using observations, reflection and self-assessment, as well as assist in the creation of an electronic portfolio documenting the teacher's individual professional growth journey.  
Note: For Teacher Mentors in Year 2  
Fee course.

EDTE 280A. Fundamentals of Online Pedagogy & Instructional Design. 3 Units  
Prerequisite(s): Acceptance into MA in Education (Educational Technology) program.  
Term Typically Offered: Fall, Spring  
Introduces students to a variety of online instructional strategies, skills, and instructional design and their theories and practices. Will include an introduction to distributed education, including synchronous and asynchronous modes of instruction, and their applications to instruction.  
Note: Fee course.

EDTE 280B. Instructional Design. 3 Units  
Prerequisite(s): Acceptance into MA in Education (Educational Technology) program.  
This course provides students with experiences to develop the knowledge, skills, and dispositions essential in the design of instruction that involves uses of technology for learning. Students will explore and apply instructional design processes and theories for analysis, planning, and evaluation of learning activities. Students will work together to develop learning activities that utilize multimedia technologies. Learning activities that students work to develop may include webinars, parts of a course or workshop, online learning, or others with the instructor's approval.  
Note: Fee course.

EDTE 281. Tools and the Curriculum. 3 Units  
Prerequisite(s): Acceptance into MA in Education (Educational Technology) program.  
Term Typically Offered: Fall, Spring  
Seamlessly blends basic technological applications with established areas of the curriculum. Students will create and use an array of educational technology applications, including multimedia and interactive tools, as integrated facets of well-established teaching and design strategies. Learning and applying strategies to new and unique problem-solving including online learning and instructional situations is expected. In the process, students evaluate and synthesize theories of learning best suited to designing and developing instruction.  
Note: Fee course.

EDTE 282. Strategies for Application and Presentation. 3 Units  
Prerequisite(s): Acceptance into Master of Arts (Educational Technology).  
Term Typically Offered: Fall, Spring  
Develops techniques for presenting and teaching thinking skills and problem solving in schools. Students research social and cultural problems as well as local and curricular problems and apply teaching strategies that develop higher-order thinking processes. Inquiry and problem-based strategies are used and integrated with technological applications. Students design web-based units that focus on logic as well as creative thinking that lead toward a solution to curricular or social and cultural problems.

EDTE 283. Staff Development and Presentation Applications. 3 Units  
Prerequisite(s): Acceptance into MA in Education (Educational Technology) program.  
Term Typically Offered: Fall, Spring  
Focuses on the need for staff development and on effective instructional practices. Explores the necessary elements that facilitate integrated technology to staff members. Students practice a variety of delivery methods for staff development that include multimedia, online resources, and hands-on integrated curricular activities that teachers or instructional leaders or designers can use within the organizational culture.  
Note: Fee course.

EDTE 284. Problem Solving and Project Development. 3 Units  
Prerequisite(s): Acceptance into Master of Arts (Educational Technology).  
Term Typically Offered: Fall, Spring  
Students will focus on integrating curriculum, equity, and/or staff development strands into an overall educational technology implementation strategy. Complex problem-solving techniques, research, distributed learning, methodology, and evaluation will be emphasized.

EDTE 285. Technology and Modern Practices. 3 Units  
Prerequisite(s): Acceptance into MA in Education (Educational Technology) program.  
Term Typically Offered: Fall, Spring  
Students will learn to understand, construct, and manage communications-based technologies in educational settings. Focuses on modern communications technology, terminology, educational practices, and instructional technology strategies. Emphasis will be placed on mentoring, management, and leadership.

EDTE 286. Special Topics in Educational Technology. 3 Units  
Prerequisite(s): Acceptance into MA in Education (Educational Technology) program.  
Term Typically Offered: Fall, Spring  
Development and innovations in modern technology, especially as related to instructional design, teaching and learning. Composition will vary from semester to semester and over time. However, it will consistently utilize cutting-edge technology to support teaching, learning, and instructional design.  
Note: Fee course.

Fee course.
EDTE 290. Seminar: Preparation of Master’s Thesis/Project. 3 Units
Prerequisite(s): Approval of Master’s Thesis Proposal or instructor permission
Term Typically Offered: Fall, Spring
Seminar course will focus on topics/elements/expectations to be included in the culminating experience: abstract writing, development of organizational schemes for the review of literature; format requirements; thesis/project planning; range and breadth of evidence for a comprehensive review; integrating the review with thesis/project; writing style and quality; revisions and critical feedback. Successful completion of the course requires the completion of Chapters 1 and 2 of the thesis/project and the beginning of Chapter 3. Graded: Credit/No Credit

EDTE 296O. Introduction to Response To Intervention/Instruction (RT12). 3 Units
Prerequisite(s): Must hold a minimum of a Bachelors Degree.
Term Typically Offered: Fall, Spring
This is the first course of three with the purpose of providing participants with an introduction to Response to Intervention/Instruction (RT12). Participants will gain knowledge of the state laws behind RT12, current implementation models, critical components and best practices in implementing a RT12 system. This course will lay a solid foundation of knowledge for the proceeding two courses of the RT12 certificate program.

EDTE 296P. Response To Intervention/Instruction (RT12): Assessment and Intervention. 4 Units
Prerequisite(s): Student must hold a minimum of a Bachelors Degree.
Term Typically Offered: Fall, Spring
Response to Instruction/Intervention (RT12) is a proactive approach to student learning that uses data to determine student need, monitor student progress, and make decisions about instructional changes to maximize student achievement and to address behavioral concerns. This course will examine the various methods of data collection, data analysis and research-based interventions found in an RT12 framework. Participants will be involved in real world Case Studies to apply RT12 practices at individual, school, and district levels.

EDTE 296Q. Response to Intervention: Practical Application. 3 Units
Prerequisite(s): Student must hold a minimum of a Bachelors degree and have completed EDTE 296O and EDTE 296P with a minimum C- grade or better to enroll in this course.
Term Typically Offered: Fall, Spring
This course is the culmination of courses EDTE 296O and EDTE 296P. It is a practicum course that will help students transfer new learning’s from the previous two courses into a RTI plan of action for the classroom, site, or district. This course will help students further explore and research systems and practices in place at their site or district to help develop a RTI plan.

EDTE 298. Capstone. 3 Units
Prerequisite(s): Acceptance into MA in Education (Educational Technology) program and Advancement to Candidacy.
In the final course in the Educational Technology Master’s program, students review, reflect, and discuss personal and professional evolution of program experiences, and create and present a final showcase. Students will select assignments from their courses to create a media-rich final ePortfolio that will be evaluated by both peers and faculty. Additionally students will discuss and present selected elements of their Master’s project developments with their cohorted peers, and identify methods to apply in disseminating results related to their Culminating Experience.
Note: Fee course.

EDTE 299. Special Problems. 1 - 3 Units
Term Typically Offered: Fall, Spring
Individual projects at graduate level especially for students capable of independent study. Admission by written approval of the instructor with whom the student will be working and the Department Chair.

EDTE 329D. Helping Writing Happen. 3 Units
Term Typically Offered: Fall, Spring
Problems of teaching foreign language; evaluation of methods in the light of objectives; discussion of techniques and source materials. Should be taken prior to or with student teaching. Discussion, participation in such classroom activities as panel discussions, presentations and demonstrations.
Cross listed: FORL 385

EDTE 385. Foreign Languages in the Secondary School. 3 Units
Term Typically Offered: Fall, Spring
The course will focus on topics/elements/expectations to be included in the culminating experience: abstract writing, development of organizational schemes for the review of literature; format requirements; thesis/project planning; range and breadth of evidence for a comprehensive review; integrating the review with thesis/project; writing style and quality; revisions and critical feedback. Successful completion of the course requires the completion of Chapters 1 and 2 of the thesis/project and the beginning of Chapter 3. Graded: Credit/No Credit
Theatre (THEA)

THEA 1. Introduction To Theatre. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

Primarily for non-majors interested in acquiring a background of information in theatre. Plays, history, acting theories, technical methods and people in the theatre. Lectures, demonstrations and discussions will characterize the greater portion of the course.

THEA 2. History of the Theatre: Ancient to Renaissance. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall only

Broad survey of the nature and development of theatrical performance from ancient times through the Renaissance which emphasizes the relationship between theatre and the larger philosophical social and political concerns of its time.

THEA 3. Theatre History After 1660. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Spring only

Investigates the relationship between the development of theatre styles, structures and institutions, and philosophical, political, and cultural practices after 1660. Considers plays, production styles, theatre as an institution, and issues of representation of gender, race and class.

THEA 5. Aesthetics of Theatre and Film. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

Interpretations of seminal dramatic scripts emphasizing the aesthetics of the theatrical art in relation to the cinematic medium.

THEA 9. Appreciation Of Acting. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Fall, Spring

Examination of the art of acting, including a review of actors and acting - past and present. Basic exercises in voice and diction, movement, and character will be utilized.

THEA 11. Acting Study I. 3 Units
Prerequisite(s): Theatre and Dance Majors or Minors or instructor permission.
Term Typically Offered: Fall, Spring

An introduction to, and a solid working foundation of, the basic building blocks of the acting craft. Through ensemble building, personal reflection, physical commitment, and vocal awareness exercises, students have the opportunity to improve and grow as an actor in both individual and partnered performance. Key learning goals include the ability to understand, interpret and execute the foundational elements of drama (plot, character, thought, and language).

THEA 14. Stage Makeup and Costume Construction. 3 Units
Term Typically Offered: Fall, Spring

This course provides a comprehensive look at the technical side of stage makeup and stage costumes, with an emphasis on makeup application and costume construction. Students learn use of materials, equipment, theatre terminology, and the practical aspects of costume and stage makeup realization. Students work on costume and makeup projects from start to finish in the makeup lab and costume shop.
Note: Enrollment restricted to Theatre Majors/Minors, Dance Majors/Minors; non-majors enrolled with Department approval only; Instructor permission required to enroll concurrently with THEA 16 or 20.

THEA 16. Stagecraft. 3 Units
Term Typically Offered: Fall, Spring

Principles of scenic and stage prop construction, techniques of mounting and shifting stage scenery, and the study of ground plans and construction drawings for theatrical production. Lecture/lab activity.
Note: May not be taken concurrently with THEA 14 or THEA 20 without instructor permission.

THEA 20. Lighting. 3 Units
Term Typically Offered: Fall, Spring

Principles of stage lighting, fixtures, control and color. Introduction to basic concepts and practices of lighting design. Lecture/lab activity.
Note: May not be taken concurrently with THEA 14 or THEA 16 without instructor permission.

THEA 21. First Year Seminar: Becoming an Educated Person. 3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Introduction to the meaning of higher education, resources of the University, and skills for lifelong learning. Designed to help students develop academic success strategies and to improve information literacy, intercultural competence, and integrative thinking. Provides students with the opportunity to interact with fellow students and seminar faculty to build a community of academic and personal support.

THEA 96A. Stage and Production Management. 3 Units
Term Typically Offered: Spring only

Explores the relationship between stage and production management, including the preparation of prompt scripts, pre- and post-production planning and organization, as well as the management of actors, technical rehearsals, and performances. This course focuses on historical and global perspectives, communication tools, and strategies used in the creation and organization of a theatrical production. May count as an elective for the major with advisor approval.

THEA 100. Script Analysis. 3 Units
Prerequisite(s): THEA 2, THEA 3
Corequisite(s): THEA 3
Term Typically Offered: Spring only

Through lecture and discussion, students explore the foundational elements of play scripts. The class investigates the structure of a play as well as its use of character, thought, plot, diction, song, and spectacle to analyze how a play’s social and cultural elements inform potential productions.
THEA 102A. Voice and Movement I. 3 Units
Prerequisite(s): THEA 11.  
Term Typically Offered: Fall, Spring

Introduction to the basic fundamentals of voice production and movement for the actor. Basic anatomy and physiology, relaxation, alignment, and breath work and its connection to movement. Feldenkrais, the Alexander Technique, and physical strengthening exercises are used in combination with vocal exercises to develop the actor’s voice and body. Vocal and physical improvisation are introduced through various voice and movement exercises.

THEA 102B. Voice and Movement II. 3 Units
Prerequisite(s): THEA 11, THEA 102A or instructor permission.  
Term Typically Offered: Fall, Spring

Strengthening and enhancing the vocal work developed in Voice and Movement I is continued with an in depth study of the International Phonetic Alphabet and its importance when performing heightened language plays. Solo presentation and a devised final ensemble project round out the course requirements.

THEA 104. Acting Study II. 3 Units
Prerequisite(s): THEA 11, THEA 102A or instructor permission.  
Term Typically Offered: Fall, Spring

To further develop the basic concepts of acting through scene work from the American modern repertoire. Particular emphasis is placed on the importance of a play’s given circumstances, and the commitment required to make bold, active tacit choices when developing a character. Further investigation of the actor’s process in analyzing text and incorporating research through character analysis, as it ties into performance, are explored.

THEA 106. Latin American Film. 3 Units
Term Typically Offered: Fall, Spring

Exploration of the major movements in Latin American cinema beginning with the initial impetus of the Argentine and Mexican film industry of the late 1940’s and the relationship of their aesthetic formulas to the cultural and socio/political climate of major Latin American nations.

THEA 107. Directing. 3 Units
Prerequisite(s): THEA 2, THEA 3, THEA 11, THEA 14, THEA 16, THEA 20, THEA 100  
Term Typically Offered: Fall only

Practical experience in production procedures, characterization and basic principles of play direction. Analyzes directing techniques. Class typically attends a rehearsal and performance at Capital Stage (professional theatre in Midtown).

Note: Field trip.

Field trip(s) may be required.

THEA 109. Musical Theatre. 3 Units
Prerequisite(s): THEA 11  
Term Typically Offered: Spring only

Practical study in singer-actor performance techniques. Major consideration is given to coordination of gesture and/or choreography, dialogue, melody, and lyric.

THEA 110. Acting Study III: Advanced Acting. 3 Units
Prerequisite(s): THEA 11, THEA 102A and/or THEA 102B, THEA 104 or instructor permission.  
Term Typically Offered: Fall, Spring

The study of ways to research, rehearse and perform advanced acting styles and techniques with an emphasis on text analysis, given circumstances, subtext, and heightened language.

Note: May be taken twice for credit.

THEA 111. Audition Technique. 3 Units
Prerequisite(s): THEA 11, THEA 102A &/OR THEA 102B, THEA 104; Musical Theatre minors must also take THEA 109.  
Term Typically Offered: Spring only

An in-depth study of the business of becoming a working professional actor and the techniques needed when auditioning for a professional theatre company. Students prepare an audition repertoire that is appropriate to their age and type; audition for a panel of theatre professionals and receive feedback for both areas of skill and those needing improvement. Resumes, headshots, trade papers, skill sets, and financial budgeting are examples of the areas included within the content of this course. An introduction to television/commercial and musical theatre audition techniques is also incorporated.

THEA 113. Acting Styles: Shakespeare. 3 Units
Prerequisite(s): THEA 11, THEA 102A &/or THEA 102B, THEA 104;  
Term Typically Offered: Fall, Spring

Designed to familiarize the intermediate acting student with the very specific demands of performing the works of William Shakespeare. Beginning with an in-depth study of the structure and meter of verse poetry, THEA 113 provides the vocal, physical, and analytical tools with which to approach this material in an intelligent and confident manner. Scene and monologue work is detailed and extensive.

THEA 115. Puppetry. 3 Units
Term Typically Offered: Fall, Spring

Play production with puppets. Practical work in constructing and manipulating various kinds of puppets. Simple puppets for use at elementary level; hand puppet production. Lecture/lab activity.

THEA 115A. Multicultural Puppetry. 3 Units  
General Education Area/Graduation Requirement: Arts (Area C1), Race & Ethnicity Graduation Requirement (RE)  
Term Typically Offered: Fall, Spring

Multicultural puppetry was developed to introduce the student to the techniques and construction of puppetry and its use in a multicultural setting. Puppetry has been found to be an excellent tool for the teaching of multiculturalism to children. Emphasizes the methodology in the development of multicultural/multilingual scripts and their use in the implementation of curriculum. The ability to speak a second language is not a prerequisite.

THEA 118. Children’s Theatre. 3 Units  
Term Typically Offered: Fall, Spring

Study of special problems and techniques in the production of formal and improvisational drama for children; a consideration of techniques, methods and materials for use in the classroom to support and supplement curricular goals.

THEA 175. Multicultural Perspectives in American Film. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1), Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring
Study of the historical and artistic contributions of Native American, Chicano/Latino, African-Americans and Asian American to the American cinema. The course will concentrate on a range of films with an emphasis on multicultural theoretical and critical writings and will examine the cultural and socio-political climate in which these films were crafted.

THEA 190. Senior Production. 2 Units
Prerequisite(s): THEA 2, THEA 3, THEA 11, THEA 14, THEA 16, THEA 20, THEA 100, THEA 120A, THEA 104, THEA 107, THEA 120 (3 units), THEA 121 and THEA 123 or THEA 131.
Corequisite(s): THEA 120 (3 units) may be taken concurrently if needed
Term Typically Offered: Spring only
This capstone course provides practical experience in theatrical production by focusing on the foundational elements of play production and the collaborative page-to-page production process.

THEA 194. Theatre-Related Work Experience. 3 - 12 Units
Prerequisite(s): Consent of Department chair.
Term Typically Offered: Fall, Spring
Supervised employment in a company or producing agency working on theatre-related work, arranged through the Theatre and Dance Department and the Cooperative Education Program office. Requires preparation of application packet, completion of a 3-6 month full-time or part-time work assignment, and a written report. No more than 3 units will be counted towards the degree.
Note: Open only to upper division or graduate students with appropriate course preparation.
Credit/No Credit

THEA 195. Fieldwork. 2 - 3 Units
Prerequisite(s): Junior or Senior standing and permission of the instructor of record.
Term Typically Offered: Fall, Spring
Internship with local theatre company or arts organization that provides direct, supervised experience with different aspects of performance and/or theatre management. Requires students to maintain a journal and submit a final paper to faculty internship coordinator. Graded: Credit/No Credit Units: 2.00 - 3.00 Credit/No Credit

THEA 199. Special Problems in Theatre. 1 - 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring
Individual project or directed reading.
Note: Departmental petition required.

THEA 500. Culminating Experience. 3 Units
Prerequisite(s): Advanced to candidacy and permission of the graduate coordinator.
Term Typically Offered: Fall, Spring
Completion of a thesis, directing project, or playwriting project.

Women's and Gender Studies (WGS)

WGS 50. Introduction to Gender & Sexuality. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
Introduction to basic concepts and issues informing studies in gender, gay, lesbian, bisexual and transsexual/gender (GLBT) identities. Classic and contemporary texts from different cultures will cover biological, historical and social constructions of gender and sexuality. Transformations in family and society, global and intersectional perspectives on GLBT identity, political activism, cultural and social perceptions of gender and sexuality will be discussed.

WGS 75. Introduction to Disability Studies. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
This course is an introduction to disability studies. An intersectional approach to knowledge construction about disability will be examined. This interdisciplinary study draws on humanities and social sciences, feminism, medical and scientific literature, and popular sources. How gender, race, class, sexuality, ethnicity, and nationality intersect with disability to shape experience will be analyzed. Historical and contemporary social movements and activism by people with disabilities will also be discussed.

WGS 85. Introduction to Women's & Gender Studies. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring
This course is an introduction to basic concepts and issues informing studies in gender, gay, lesbian, bisexual and transsexual/gender (GLBT) identities. Classic and contemporary texts from different cultures will cover biological, historical and social constructions of gender and sexuality. Transformations in family and society, global and intersectional perspectives on GLBT identity, political activism, cultural and social perceptions of gender and sexuality will be discussed.

WGS 110. Introduction to Feminist Movements in the United States. 3 Units
General Education Area/Graduation Requirement: GE AREA D, United States History
Term Typically Offered: Fall, Spring
An examination of the institutional structures, practices and ideals contributing to feminist struggles, and achievements of feminist movements in the United States. Including contemporary struggles for social justice by women and LGBTQ people, this course explores how factors of race, class, gender, and sexuality have contributed to the emergence of feminist consciousness and struggles for rights in the United States from the nineteenth century to the present time.
WGS 118. Asian American Women. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Using an interdisciplinary approach, course offers a broad introduction to broad principle values and traditions shaping Asian American women's lives in the U.S. Examines cultural diversity, gender inequality and conflicts between traditions and social practices through critical analysis of literature, film and cultural theories as expressions of identity. Topics covered include: cultural heritage and philosophies, intergenerational conflict, transnationalism, gender roles and socio-economic practices. Comprehensive understanding principle factors governing Asian American women's lives at the nexus of Asian and American cultures. Cross-listed: ETHN 118.

WGS 120. Mother Woman Person. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall only

This course applies principles of feminism to the study of motherhood as social institution and private experience. Students explore family, cultural and social values that influenced their mothers and grandmothers, analyzing the impact of social institutions on their own childhood and adulthood. Students develop awareness of the historic evolution of women's social and private roles and the changing emphasis on woman as mother, wife/sexual companion and wage earning person largely through African American women's social movements.

WGS 121. Women Of The Middle East. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Provides an introduction to historical and contemporary conditions affecting women's lives and contributions to Middle Eastern societies. Readings will be framed with a focus on women within state systems and political life, economic activity, family systems, religious thought and law, health, arts and literature.

WGS 125. Sex & Gender in South Asia. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Spring, Summer

This course focuses on love, sex & gender in the cultures of South Asia starting with ancient times to the present. The influence of social customs, traditions, religion, and social class on human relationships will be examined using various texts and films. Gender and sexual identity, sexual desire, eroticism, sex role stereotyping, violence against women, gay and transgender people, subversive desires and the threat they pose to patriarchal structures will be explored.

WGS 133. Gender & Health. 3 Units
General Education Area/Graduation Requirement: Further Studies in Area B (B5)
Term Typically Offered: Fall, Spring

This course explores feminist analyses of medicine. An intersectional approach to how medical science constructs knowledge about health will be examined. This interdisciplinary study draws on humanities and social sciences; feminism; medical, scientific, and clinical literature; popular sources; and web discourses. How gender, race, class, sexuality, ethnicity, nationality, and disability intersect and shape behavior and experience will be analyzed. Contemporary social movements and activism by women and LGBTQIA+ people will also be discussed.

WGS 136. Gender, Race, and Class. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), Race & Ethnicity Graduation Requirement (RE), GE AREA D
Term Typically Offered: Fall, Spring

Designed to examine the effects of the dynamic interaction of gender, race, and class on women. The social construction of gender, race, and class will also be examined. Other topics to be discussed and researched are the effects of sexism, racism, and classicism on institutions such as academia, business, government, religion, and social movements. Also provides an analysis of effective techniques to end sexism, racism, and classicism.

WGS 137. Women of Color. 3 Units
General Education Area/Graduation Requirement: Race & Ethnicity Graduation Requirement (RE), GE AREA D
Term Typically Offered: Fall, Spring, Winter

This course examines significant issues that have contributed to the historical experiences of cisgender and transgender women of color in the United States. Contemporary resistance to violence and struggles for social justice will also be examined. Topics such as racial and cultural stereotypes, economic exploitation, gender stratification, struggles over identity, immigration status, and community activism and organizing efforts by Black, Native American, Latinx, Middle Eastern and Asian American women will be examined using classic and contemporary feminist readings and films.

WGS 138. Women and Work. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: Writing Intensive Graduation Requirement (WI), GE AREA D
Term Typically Offered: Fall, Spring

Explores topics basic to discussion of women's paid and unpaid work from historical and crosscultural perspectives. Consideration is given to popular conceptions and stereotypes of work and "women's issues" in the industrialized world; the private and public lives of women and men with emphasis on work and social realities; and the maintenance of patriarchy under capitalism, socialism and communism, with some possible feminist "solutions."

WGS 139. Violence Against Women. 3 Units
General Education Area/Graduation Requirement: GE AREA D
Term Typically Offered: Fall, Spring

Examines the gendered and systemic nature of violence. Focuses on understanding and preventing violence against women. This course investigates oppression and privilege using an intersectional and transnational feminist lens and looks at how gender-based violence is perpetuated through some of the following: sexual harassment and assault, domestic violence, child abuse, medical and psychiatric violence, economic violence, military violence, and state violence. This course also examines the ways that women are individually and collectively combating these various forms of violence.
WGS 140. Latinx Feminist Studies. 3 Units
General Education Area/Graduation Requirement: GE AREA D, Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring

This course offers students feminist frameworks for understanding Latinx feminisms as a field of study and political inquiry. Latinx feminisms and their development are mapped alongside queer, trans, Black, Indigenous, women of color, and antiracist feminisms and movements. Centers the creative and critical ways in which Latinx feminists conceptualize oppression, resistance, social transformation, and the abolition of systems of domination. Students will analyze the complexity, heterogeneity, and interconnectedness of U.S. based Latinx feminisms.

WGS 144. Women and Theatre: Staging Diversity. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1), Race & Ethnicity Graduation Requirement (RE)
Term Typically Offered: Fall, Spring

Includes study of recent feminist performance theory and criticism and its application to acting, directing, and writing for the theatre. Students will participate in both lecture/discussion and activities, including the creation of a final performance. Lecture two hours; lab two hours.
Cross Listed: THEA 144; only one may be counted for credit.

WGS 145. Feminism and the Spirit. 3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall only

This course examines Goddess cultures and the power of feminist spirituality and healing across different cultures and time-periods using Art & Literature. Sexism in institutionalized religions, advances women are making, and the backlashes they are suffering will be discussed. The `witch craze¿ which began in Europe, how women across the world continue to suffer from accusations of witchcraft today will be covered. We will examine aspects of the modern feminist spiritual movement and its strong ties to the environmental movements.

WGS 146. Women In Art. 3 Units
General Education Area/Graduation Requirement: Arts (Area C1)
Term Typically Offered: Spring only

Study of the unique and important contributions of women to the visual arts (Renaissance to present) and their personal struggle toward success and recognition. The Women's Art Movement and its impact on education, museums and women's status in the arts are important topics of this class.

WGS 147. Women & Globalization. 3 Units
Prerequisite(s): Minimum 45 units completed
Term Typically Offered: Fall only

This advanced interdisciplinary course will explore the gendered effects of globalization across the world at local, national, and global scales. Using feminist approaches, the course will examine issues of gender equity and uneven distribution of power created by the intersection between capitalism, colonialism, and patriarchy. Topics such as economic globalization, war and militarism, tourism, sex trafficking, food security and environmental justice, gender-based violence, healthcare, migration and global activism will be covered in the course.

WGS 150. Introduction to Queer and Trans Studies. 3 Units
Prerequisite(s): WGS 50 or instructor permission.
Term Typically Offered: Fall only

Introduces students to the fields of queer theory and trans theory from a transnational feminist perspective. Includes theoretical approaches to the history of sexuality and the politics of sexual and gender normativity. Places queer and trans studies in conversation with Native studies, disability studies, postcolonial theory, critical race and ethnic studies, and feminist theory.

WGS 166. Gender and Politics. 3 Units
Term Typically Offered: Spring only

This course examines the influence of socially constructed meanings of femininity and masculinity on the political participation of women, candidate selection, election campaigns, and electoral outcomes in executive and legislative offices in the U.S. and worldwide. Students will develop a rich understanding of the relationship between gender and women's political representation and analyze and discuss institutional, structural, cultural, and historical conditions associated with women's voting behavior, political advancement, leadership styles, and impacts of political representation on women.
Cross Listed: POLS 166; only one may be counted for credit.

WGS 172A. LGBTQ Histories. 3 Units
Term Typically Offered: Spring only

This course provides an introduction to the study of lesbian, gay, bisexual, transgender, and queer (LGBTQ) histories. Uses an interdisciplinary and comparative approach to explore the historical emergence and development of LGBTQ identities, communities, and political movements. Includes theoretical analysis of the history of gender and sexuality and the practice of historical analysis.
Cross Listed: HIST 172A; only one may be taken for credit.

WGS 175. Gender & Disability. 3 Units
Prerequisite(s): GWAR certification before Fall 09; or WPJ score of 80+; or 3-unit placement in ENGL 109M or ENGL 109W; or 4-unit placement in ENGL 109M or ENGL 109W and co-enrollment in ENGL 109X; or WPJ score 70 or 71 and co-enrollment in ENGL 109X.
General Education Area/Graduation Requirement: GE AREA D, Writing Intensive Graduation Requirement (WI)
Term Typically Offered: Fall, Spring

This interdisciplinary course utilizes texts from various humanities and social sciences disciplines to survey the field of feminist disability studies, with emphasis on intersectional feminist disability theory, narrative, and practice. Attention will be given to historical and contemporary social movements and activism by disabled people, focusing particularly on disability justice. Students will analyze how individual experiences of gender, race, class, sexuality, ethnicity, and nationality intersect with disability to reflect institutional bias against multiply marginalized disabled people.

WGS 180. Seminar in Feminist Theory. 3 Units
Prerequisite(s): WGS 110 or instructor permission.
Term Typically Offered: Spring only

Advanced course providing detailed inquiry into specific feminist theories, including their conceptual framework and development, relationship to other political theories and application to the current practices of feminism.
WGS 195A.  Fieldwork in Women's Studies.  1 - 3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Supervised experience in selected women's organizations and projects in the Sacramento area; for example, the Rape Crisis Center, Women Escaping a Violent Environment (WEAVE), Sacramento Women's Center. Credit/No Credit

WGS 198.  Special Topics in Women's and Gender Studies.  3 Units
Prerequisite(s): WGS 85 or WGS 110
Term Typically Offered: Fall, Spring

Examines various topics within the field of women's and gender studies. Different issues will be covered based on the interests and expertise of the faculty teaching the course. Approaches topics from broadly intersectional perspectives using feminist concepts and methods. Potential topics include: Feminism & War; Queer & Trans Migrations; Gender, Sexuality & Mass Incarceration; Gender & Human Rights; Reproductive Justice; Feminist Disability Studies; LGBTQ Health; Black Motherhood; Black Feminist Activism; Gender & Education; Comparative Feminisms.

WGS 199.  Special Problems.  1 - 3 Units
Prerequisite(s): WGS 115 and instructor permission.
Term Typically Offered: Fall, Spring

Supervised individual research projects or directed reading specifically related to Women's Studies topics. Should be taken by students who can work on an individual basis. Credit/No Credit

WGS 299.  Special Research Problems.  1 - 3 Units
Term Typically Offered: Fall, Spring

Supervised research projects and directed study specifically related to Women's Studies and taken on an individual basis by Graduate students in the Special Major Graduate Program. Credit/No Credit

World Languages & Literatures (WLL)

WLL 15.  World Literatures in Film.  3 Units
General Education Area/Graduation Requirement: Humanities (Area C2)
Term Typically Offered: Fall, Spring

Interpreting cinema as literary text, this course will explore, compare, and contrast diverse cultures through cinema. All films will be viewed in the original language with English subtitles. The focus will be on linguistic, cultural, and regional characteristics, values, and differences. This section will focus on cinematic interpretations of world literatures.

WLL 21.  First Year Seminar: Becoming an Educated Person.  3 Units
General Education Area/Graduation Requirement: Understanding Personal Development (E)
Term Typically Offered: Fall, Spring

Introduction to the meaning of higher education, resources of the University, and skills for lifelong learning. Designed to help students develop academic success strategies and to improve information literacy, intercultural competence, and integrative thinking. Provides students with the opportunity to interact with fellow students build a community of academic and seminar faculty to and personal support.

WLL 120A.  Language and written culture in Ancient Greece.  3 Units
Term Typically Offered: Fall, Spring

This is the first part of the two-semester hybrid course on Ancient Greek language and written culture. The language component of the course is taught online through interactive language-teaching website, while the weekly meetings are mainly discussions on Ancient Greek texts in translation. The focus in this first part is on basic grammatical rules, the reading and construction of simple sentences, and the study of Greek written culture from its beginnings to the Classical Period. Note: This course cannot be used to fulfill the undergraduate foreign language graduation requirement. Cross listed: HIST 101A; only one may be counted for credit.

WLL 120B.  Language and written culture in Ancient Greece.  3 Units
Prerequisite(s): WLL 120A
Term Typically Offered: Fall, Spring

This is the second part of a two-semester hybrid course on Ancient Greek language and written culture. The language component of the course is taught online through an interactive language-teaching website, while the weekly meetings are mainly discussions on Ancient Greek texts in translation. The focus in this second part is on advanced grammar, the reading and understanding of long passages, and the study of Greek written culture from the Classical Period to the Roman era. Note: This course cannot be used to fulfill the undergraduate foreign language graduation requirement. Cross listed: HIST 101B; only one may be counted for credit.

WLL 199.  Special Problems.  1 - 3 Units
Prerequisite(s): Permission of instructor supervising work, the advisor, and the Department Chair.
Term Typically Offered: Fall, Spring

Individual projects or directed reading. Open only to students who appear competent to carry on independent study.

WLL 385.  Foreign Languages in the Secondary School.  3 Units
Prerequisite(s): Instructor permission.
Term Typically Offered: Fall, Spring

Problems of teaching foreign language; evaluation of methods in the light of objectives; discussion of techniques and source materials. Should be taken prior to or with student teaching. Discussion, participation in such classroom activities as panel discussions, presentations and demonstrations. Cross listed: EDTE 385.

WLL 385A.  Methods in World Language Education, A.  1.5 Units
Corequisite(s): EDTE 474A
Term Typically Offered: Fall, Spring

This course is designed for candidates who are preparing to teach world languages in secondary school settings in California public schools. Candidates will learn about current theoretical bases for second-language acquisition and how such theories inform classroom practice. Candidates have introductory opportunities to practice principles of learning from which teachers can draw as they make decisions about instruction. Lecture Discussion and simulation. Prerequisite Admission into the Single Subject Teacher Credential Program Cross Listed: EDTE 385A; only one may be counted for credit.
WLL 385B. Methods in World Languages Education, B. 1.5 Units

Prerequisite(s): WLL 385A or EDTE 385A
Corequisite(s): EDTE 474B
Term Typically Offered: Fall, Spring

This course continues learning initiated in WLL 385A and is designed for candidates preparing to teach world languages in secondary school settings in California public schools. Candidates will learn additional methodologies for planning and delivering instruction in world languages. Candidates will practice instructional strategies and will design lessons. Candidates will implement assessments that capture student learning of key world language outcomes, including oral language and written language development and reading fluency. Strategies for teaching cultural appreciation are also embedded. Lecture, discussion and simulation.

Cross Listed: EDTE 385B; only one may be counted for credit.

FORD, TIMOTHY (2009), Associate Professor of Economics, ECON,B.A., Tufts University, Massachusetts; M.B.A, Bentley College, Massachusetts; M.A., Ph.D. University of New Hampshire

FORREST, JOHN (2003), Professor, Department of Design, Graphic Design Program, DOD,B.S., M.A., Kent State University, Ohio

FOSS-SNOWDEN, MICHELE S. (2006), Professor of Communication Studies, COMS,B.A., Stanford University; M.A., University of California, Davis; Ph.D., University of Florida

FOX, JAMES (2016), Librarian, Head of Special Collections and University Archives, SPB.A., UC Santa Cruz; M.A., University of Chicago; M.L.S., Columbia University

FOX, ELYSE (2022), Senior Assistant Librarian, Digital Initiatives, SPB.A., San Francisco State University; M.L.I.S., Simmons College

FOX, NICOLE (2017), Assistant Professor of Criminal Justice, CRJ,B.A., University of California, Davis; M.A., State University of New York at Buffalo; Ph.D., Brandeis University

FRANKENBACH, CHANTAL (2013), Associate Professor of Music, MUSC,B.A., University of California, Irvine; M.A., Ph.D. University of California, Davis

FUDGE, DARCY (2013), Assistant Professor of Strategic Management, BUS,B. Comm (Hons) and M.S. University of Manitoba; Ph.D. University of Minnesota - Twin Cities

FULLER, RYAN (2016), Associate Professor of Management, BUS,B.A., Communication, University of California, Davis; M.B.A., Management, San Francisco State University; Ph.D., Communication, University of California, Santa Barbara

FULTON, JULIAN (2016), Associate Professor of Environmental Studies, ENVS,B.A., University of California, Berkeley; M.S. University of California, Berkeley; Ph.D. University of California, Berkeley

FURTAK, SHARON (2012), Professor of Psychology, PSYC,B.A., University of Massachusetts; M.S., M.Phil., Ph.D. Yale University

G

GABRIEL, HANNAH (2020), Assistant Professor of Economics, ECON,B.A., Lawrence University, M.A., Ph.D. Michigan State University

GAETA, LAURA (2018), Assistant Professor of Communication Sciences and Disorders, CSAD,B.A., University of Florida; B.H.S., University of Florida; Ph.D. University of Oklahoma

GALE, ELAINE E. (2006), Professor of Communication Studies, COMS,B.A., Boston University; M.F.A., Antioch University; Ph.D., University of Denver

GALLET, CRAIG (2001), Professor of Economics, ECON,B.A., California State University, Sacramento; M.A., University of California, Davis; Ph.D., Iowa State University

GAO, LINYUE (2021), Assistant Professor of Mechanical Engineering, M.E.B.Eng., M.S., North China Electric Power University, Beijing, China; Ph.D. Iowa State University, Ames, IA

GARCIA, JOSE (2018), Assistant Professor of Civil Engineering, CE,B.S., M.S., Ph.D., University of Texas, Austin

GARCIA, LUIS (2019), Assistant Professor of Art, ART,B.A. Art Education, California State University, Los Angeles; Master of Public Art Studies, University of Southern California; PhD Education, Claremont Graduate University

GARCIA, WILLIAM (2015), Associate Professor of Physical Therapy, PT,B.S., Northern Arizona University; M.P.T., College of Osteopathic Medicine of the Pacific, Pomona, CA; D.P.T., Evidence in Motion, Louisville, KY

GARCIA PERAZA, PAULETTE (2022), Assistant Professor of Psychology, PSYC,B.A., Chapman University; M.A., California State University, Fullerton; Ph.D., University of California, Santa Cruz

GARCIA-NEVAREZ, ANA (2002), Professor, College of Education, Undergraduate Studies in Education, UGSE,B.A., California State University, Northridge; M.Ed., Ph.D., Arizona State University

GARDNER, SHARYN (2005), Professor of Management, BUS,B.A., University of California, Davis; Ph.D., University of Maryland

GARG, SARGAM (2017), Assistant Professor of Human Resources Management, BUS,B.A., Lady Shri Ram College; MBA, Amity Business School; M.M., University of Texas at Arlington; M.S., Rutgers University; Ph.D., Rutgers University

GARRAWAY, ARIEL (2023), Maryjane Rees Language, Speech and Hearing Center Audiology Clinic Education Coordinator, Full-Time Lecturer, CSAD,Aud. Audiology Pacific University - Hillsboro, Oregon, M.Sc. University of Manchester, B.A., Communication Sciences and Disorders
GONSIER-GERDIN, JEAN (2003), Professor, College of Education, Teaching Credentials, TC,B.A., M.Ed., Ph.D., University of British Columbia, Vancouver

GEE, KATHLEEN (2003), Professor, College of Education, Teaching Credentials, TC,B.A., University of California, Berkeley; M.A., San Francisco State University; Ph.D., University of California, Berkeley w/ San Francisco State University

GEOGE III, CLARENCE (2021), Assistant Professor of Ethnic Studies, ETHN,B.A., California State University, Sacramento; M.A., San Francisco State University; Ph.D., Michigan State University

GERMAN, JAMES D. (2018), Professor of History; Dean of Undergraduate Studies, HIST,B.A., Whitworth College; Ph.D. University of California, Riverside

GERSAIS, BRUCE R. (2003), Professor of Geography, GEOG,B.A., San Francisco State University; M.A., University of California, Davis; Ph.D., University of California, Los Angeles

GHERMAN, BENJAMIN (2006), Professor of Chemistry, CHEM,B.S., Carnegie Mellon University; Ph.D., Columbia University

GHOSAL, TORSA (2017), Assistant Professor of Psychology, PSYC,B.A., University of South Carolina; M.A., University of Toledo; M.A., University of Georgia, Athens; Ph.D. University of Georgia, Athens

GIBBS, DAVID (2018), MPP; Associate Dean for Collections & Discovery, University Library, SP,B.A., Duke University; M.A., New York University; M.A., University of Paris; M.L.I.S., University of California, Los Angeles

GIBBS, CAROLYN (2000), Professor, Department of Design, Interior Architecture Program, DOD,B.Arch., Rhode Island School of Design; M.Arch., University of California, Berkeley

GIEGER, JASON C. (2001), Professor of English, ENGL,B.A., California State University, Fresno; M.A., Ph.D., Rutgers, The State University of New Jersey

GIGUERE, DAVID (2019), Assistant Professor of Psychology, PSYC,B.A., University of California, Santa Barbara

GONZALEZ, AMBER (2013), Associate Professor, College of Education, Undergraduate Studies in Education, UGSE,B.A., California State University, Fullerton; M.A., Ph.D., University of California, Santa Barbara

GONZALEZ, HENRY (2018), Assistant Professor of Family Studies and Human Development, FACS,B.S., University of California, Davis; M.S., University of Arizona; Ph.D., University of Arizona

GONZALEZ-ORTA, ENID T. (2008), Professor of Biological Sciences, BIO,B.S., University of Minnesota-Twin Cities; Ph.D., University of Wisconsin-Madison

GORDON, V. SCOTT (2002), Professor of Computer Science, CSC,B.S., M.S., California State University, Sacramento; Ph.D., Colorado State University, Colorado

GOSDIN, MELISSA (2017), Lecturer in Sociology, SOC,B.A., Stephen F. Austin State University, Texas; M.S.Ph.D., University of North Texas, Denton

GOW, WILLIAM (2021), Assistant Professor of Ethnic Studies, ETHN,B.A., New York University; M.A., University of California, Los Angeles; Ph.D., University of California, Berkeley

GRANDA, JOSE (1983), Professor of Mechanical Engineering, ME,B.S., National Polytechnical University, Ecuador; M.S., University of California, Berkeley; Ph.D., University of California, Davis

GREEN, RICKY (1998), Associate Professor of Ethnic Studies, ETHN,B.A., California State University, Sacramento; M.A., Ph.D., University of California, Santa Barbara

GREEN, ERIN (2019), Assistant Professor of Physical Therapy, PT,B.A., University of California San Diego; M.S., DPT, University of California San Francisco

GREGORY, CANDACE (2003), Professor of History, HIST,B.A., Loyola University, New Orleans; M.A., Ph.D., Yale University

GREGORY, ELIZA (2022), Assistant Professor, Department of Design; Photography Program, DOD,B.A., Princeton University; M.F.A., Portland State University

GRIFFIN, JULIE (2018), Assistant Professor of Geology, GEOL,B.A., Bryn Mawr M.S., Ph.D., University of California Davis

GRUSKIN, DONALD (2001), Professor, College of Education, Undergraduate Studies in Education, UGSE,B.A., Gallaudet College; M.A., Gallaudet University; Ph.D., University of Arizona

GUADALUPE, KRISHNA L. (1999), Professor of Social Work, SWRK,B.A., Stockton State College; M.S.W., Rutgers University; Ph.D., University of South Carolina

GUTIERREZ, RICKY (2000), Professor of Criminal Justice, CRJ,B.A., Eastern Washington University; M.A., Washington State University; Ph.D., Washington State University, Pullman
HUR, JUNGYUN "CHRISTINE" (2016), Associate Professor of Recreation, Parks and Tourism Administration, RPTA,B.A., Sookmyung Women's University, Seoul, Korea; M.S., Griffith University, Australia; M.B.A., Le Cordon Bleu & Sookmyung Women's University, Seoul, Korea; Ph.D., Purdue University

JENSEN, DONNA (2014), Associate Professor of Gerontology, Chair, Department of Gerontology, GERO,Ph.D., Fielding Graduate University; MSW, California State University, Sacramento; MA, Fielding Graduate University; BSW California State University, Chico

JENSEN, MIKKEL (2015), Associate Professor of Physics and Astronomy, PHYS,B.S., University of Southern Denmark; M.A., Ph.D., Boston University

JIN, YING (2004), Professor of Computer Science, CSC,B.E., Tianjin University, Tianjin, China; M.E., Northeastern University, Shenyang, China; Ph.D., Arizona State University, Tempe

JONES, MARLYN (2001), Professor of Criminal Justice, CRJ,B.A., M.A., and Ph.D., Simon Fraser University, Burnaby, British Columbia

JONES, CARA (2017), Assistant Professor of Women's & Gender Studies, WGS,B.S., Rochester Institute of Technology, B.A., Mansfield University of Pennsylvania, M.A., Louisiana State University, Ph.D., Louisiana State University

JORGENSEN-EASTERLA, LISA J. (2007), Professor of Recreation, Parks and Tourism Administration, RPTA,B.S., M.A., California State University, Chico, Ph.D., University of Utah

JOSEPHSON, TRISTAN (2014), Associate Professor of Women's & Gender Studies, WGS,B.A. University of Puget Sound, M.A. San Francisco State University; Ph.D. University of California, Davis.

JOUGANATOS, SARAH (2016), Associate Professor of Education, Graduate and Professional Studies in Education; Chair, Graduate and Professional Studies in Education, GPSE,B.A., M.A. California State University, Chico Ed.D. Sacramento State University

K

KANDEL, SANTOSH (2022), Assistant Professor of Mathematics and Statistics, MATH,M.A., University of Toledo, M.S. University of California, Davis, Ph.D. University of Notre Dame

KANG, MINJEO (2009), Associate Professor of Fashion Merchandising and Management, FACS,B.A., Ewha Woman's University, Seoul, Korea; M.S., Ph.D., University of Minnesota, Minneapolis/Saint Paul

KAPLAN, JONATHAN (2003), Professor of Economics, ECON,B.A., Humboldt State University; M.S., University of Maine; Ph.D., University of California, Davis

KASIC, KATHY (2018), Assistant Professor of Communication Studies, COMS,B.S., The University of Texas; M.A., The University of Texas; M.F.A., Montana State University

KAUTZMAN, AMY (2015), MPP; Dean, University Library, SPB.A., University of Minnesota; M.S.LS., Simmons College; M.A., Northeastern University

KEEGAN, CAROLINE (2023), Assistant Professor of Geography, GEOG,B.A., University of Colorado; M.A., Ph.D., University of Georgia
KELLEN-YUEN, CYNTHIA (2001), Professor of Chemistry, CHEM, B.A., Gustavus Adolphus College; Ph.D., Stanford University

KELLY, LAUREN (2019), Assistant Professor, Department of Design, Graphic Design Program, DOD.B.A., University of California, Davis, M.F.A., University of California, Davis

KENNEY, JENNIFER (2019), Assistant Professor, SWRK,B.S., Philosophy of Interdisciplinary Studies, Miami University, M.S.W., University of Minnesota, M.P.H., University of Minnesota, Ph.D., (Social Work), Columbia University

KHAN, GHAZAN (2013), Associate Professor of Civil Engineering; Chair, Department of Civil Engineering, CE.B.S. N.W.F.P., University of Engineering and Technology Peshawar; M.S., Ph.D., University of Wisconsin, Madison

KIM, EUISUK (2014), Professor of Spanish, WLL.B.A., Korea University; M.A., Pontificia Universidad Javeriana; Ph.D., University of Minnesota

KIM, WON JUNG (2019), Assistant Professor of Accountancy, BUS,B.A., Dongguk University; M.A. Indiana University; PhD The University of Utah

KIM, Yaeeun "Nathan" (2020), Assistant Professor of Entrepreneurship, BUS.B.B.A Seoul National University; M.S. Queen's University, Ontario; Ph.D. Western University, Ontario

KIM, Yaeun (2020), Assistant Professor of Marketing, BUS,B.A. and M.S. Korea Advanced Institute of Science and Technology; Ph.D Temple University

KIM-JU, GREGORY (2003), Professor of Psychology, PSYC.B.A., St. John's University; M.A., Ph.D., Boston College

KIRVAN, CHRISTINE A. (2003), Professor of Biological Sciences, BIO.B.S., California State University, Fresno; M.S., Ph.D., University of California, Davis

KITKA, CLAUDIA (1974), Professor of Music, MUSC.B.A., Duke University; M.M., Eastman School of Music, University of Rochester, New York

KIVEL, B. DANA (2003), Professor of Recreation, Parks and Tourism Administration, RPTA.B.A., University of Wisconsin; M.S., San Francisco State University; Ed.D., University of Georgia

KLIMASZEWSKI-PATTERSON, ANNA (2016), Associate Professor of Geography, GEOG,B.A., San Diego State University; M.A.G. New Mexico State University; Ph. D. University of Nevada Reno

KLUCHIN, REBECCA (2005), Professor of History, HIST.B.A., Washington University; M.A., Ph.D., Carnegie Mellon University

KNEITEL, JAMIE M. (2004), Professor of Biological Sciences; Chair, Department of Biological Sciences, BIO.B.A., University of California, Santa Cruz; M.S., California State University, Northridge; Ph.D., Florida State University

KNIFSEND, CASEY (2014), Associate Professor of Psychology, PSYC.B.S., University of California, Davis; M.A., Ph.D., University of California, Los Angeles

KOCHAI, JAMIL JAN (2022), Assistant Professor of English, ENGL.B.A., California State University, Sacramento; M.A. University of California, Davis; M.F.A., University of Iowa

KOMIYAMA, REIKO (2009), Professor of English, ENGL.B.A., Rikkyo (St. Paul's) University, Tokyo, Japan; M.A., Ohio University; Ph.D., Northern Arizona University

KOSS, CATHERYN (2017), Assistant Professor of Gerontology, GERO.Ph.D., University of Kansas, Lawrence, KS; JD, Oklahoma City University School of Law, Oklahoma City, OK; MA, University of Central Oklahoma, Edmond, OK; BA Smith College

KRAJUL, MATTHEW (2016), Associate Professor of Mathematics and Statistics, MATH.B.S., University of California, Los Angeles; M.A., Ph.D. University of California, Santa Cruz

KRECKMANN, ANDREW (2018), Assistant Professor of Music, MUSC.BME, University of Delaware; M.M. Michigan State University; DMA Texas Tech University

KROVETZ, TED D. (2002), Professor of Computer Science, CSC.B.S., Stanford University, Palo Alto, California; M.S., Oxford University, Oxford, England; Ph.D., University of California, Davis

KUBICEK, LAURIE (2002), Professor of Criminal Justice, CRJ.B.A., California State University, Stanislaus; J.D., University of the Pacific McGeorge School of Law

KUEHL-KITCHEN, JULIE M. (2000), Associate Professor of Kinesiology, KINS.B.A., M.A., California State University, Chico; Ph.D., Florida State University, Tallahassee

KUMAGAI, AKIHIKO (2000), Professor of Mechanical Engineering, ME.B.S., M.S., University of Florida, Gainesville, Ph.D., University of Wisconsin-Milwaukee

KUMAR, AMAL (2022), Assistant Professor of Public Policy and Administration, PP.A.B., Georgetown University; Ed.M., Harvard Graduate School of Education; Ph.D., Harvard University

LEE, JAI JOON "JAY" (2007), Professor of Strategic Management, BUS,B.S., Purdue University, M.B.A., University of Rochester, PhD University of Pittsburgh

LEE, YOUNG-IM (2017), Assistant Professor of Political Science, POLS,B.A., Sogang University, Seoul, Korea; M.A., Ph.D., University of Missouri, St. Louis

LESLE, ANGELA (2016), Associate Professor, College of Education, Undergraduate Studies in Education, UGSE,B.A., M.A., California State University, Sacramento; Ed.D., University of San Francisco

LI, SHUYING (2022), Assistant Professor of Music, MUSC,B.M., The Hartt School, M.M., D.M.A., University of Michigan, Ann Arbor

LI, MIN (2002), Professor of Decision Sciences, BUS,B.A., Hanover College; Ph.D., University of Cincinnati

LI, YANG (2013), Associate Professor of Supply Chain Management, BUS,B.A., Beijing University of Technology; M.S., The Graduate School of Chinese Academy of Sciences; Ph.D., Duke University

LI, HERMAN (2017), Associate Professor of Economics, ECON,B.A., University of Pennsylvania; Ph.D., The Pennsylvania State University

LILES-LOURICK, ELISABETH (2009), Professor of Education, Graduate and Professional Studies in Education; Chair, Graduate and Professional Studies in Education, GPSE,B.A., M.A., Ph.D., University of Nevada, Reno

LILLY, FRANK (2003), Professor of Education, Graduate and Professional Studies in Education, GPSE,B.A., University of Central Oklahoma; M.A., University of Central Oklahoma; Ph.D., McGill University

LIM, BRIAN S. (1998), Professor, College of Education, Teaching Credentials, TC, UGSE, B.A., Central Washington University, Ellensburg; M.Ed., Ph.D., University of Washington, Seattle

LIN, XIAOLIN (2022), Assistant Professor of Management Information Systems, BUS,B.S. Fuzhou University MBA & M.S. University of Detroit Mercy, Ph.D. Washington State University

LIN, HAO (2006), Professor of Finance, BUS,B.B., Nanyang Technological University, M.S., Ph.D., University of Warwick, UK

LIN, ERIC C. (2007), Professor of Finance, BUS,B.S., Xavier University, M.B.A., Kansas State University; Ph.D., University of North Texas

LINDGREN, SUSANNE W. (1997), Professor of Biological Sciences, BIO,B.S., Muhlenberg College, Allentown, PA; Ph.D., Uniformed Services University of the Health Sciences, Bethesda, MD

LINDSAY, ANNE (2015), Associate Professor of History, HIST,B.A., Arizona State University; M.A., Ph.D., University of California, Riverside

LINDSAY, BRENDA (2013), Associate Professor of History; Coordinator, California Studies Program, HIST,B.A., California State Polytechnic University, Pomona; M.A., Ph.D., University of California, Riverside

Linklater, Wayne (2019), Professor of Environmental Studies; Chair, Department of Environmental Studies, ENV, B.S., Zoology, University of Canterbury, New Zealand; M.Sc. Zoology, University of Canterbury, New Zealand, Ph.D Ecology, Massey University, New Zealand

LINVILLE, CYNTHIA (2000), Lecturer of English, ENGL,B.A., M.A., California State University, Sacramento

LIU, AMY (1997), Professor of Sociology; Chair, Department of Sociology, SOC,B.A., Zhengzhou University, People's Republic of China; M.S., Portland State University, Oregon; Ph.D., Iowa State University

LIU, HSIANG (Sean) (2007), Lecturer of English, ENGL,M.A., California State University Sacramento; M.A., Fu-Jen Catholic University

LIU, CAIXING (2004), Professor of Accountancy, BUS,B.A., M.S., Peking University; Ph.D., University of Hawaii

LIU, LAYN (2008), Professor of Finance, BUS,B.Bus., Nanyang Technological University, Singapore; M.S., Ph.D., University of Warwick, UK; C.F.A.

LIU, FENG "Oliver" (2010), Professor of Marketing, BUS,B.A., Shandong University (China); M.A., University of Wisconsin-Milwaukee; Ph.D., University of Wisconsin-Milwaukee
LIU, CHANG (2019), Assistant Professor of Finance, BUS,B.E & M.S. Hunan University; M.A. & PhD Washington State University

LIU, YUJUAN (2020), Assistant Professor of Chemistry, CHEM,B.S., Qufu Normal University; Ph.D., Nanjing University; Ph.D., University of South Florida

LOEZA, PORFIRIO (2001), Professor, College of Education, Teaching Credentials, TC,B.A., M.A., Ph.D., University of California, Berkeley

LUJO, MAUREEN (2000), Professor of Supply Chain Management, BUS,B.A., University of California, Berkeley; M.S., Yale University; Ph.D., M.I.T.

LOPEZ, CHRIS (2020), Assistant Professor of Biological Sciences, BIO,B.S., Ph.D., University of California, Davis

LUO, BIN (2003), Professor of Mathematics and Statistics, MATH,B.S., Xi’an University of Technology; M.S., Tennessee Tech University; M.S., Ph.D., Louisiana State University

LUCERO, CLAUDIA (2008), Associate Professor of Chemistry, CHEM,B.S., University of California, Berkeley; Ph.D., University of California, Irvine

LUDWIG, MARK D. (2002), Professor of Communication Studies, Chair, Department of Communication Studies, COMS,Professor of Communication Studies, Chair, Department of Communication Studies

LUNDAKER, ANNE (2016), Associate Professor of Sociology, SOC,B.A., University of California, Berkeley; J.D./M.A., University of Arizona; Ph.D., Howard University

LUNDMARK, JENNIFER ANN (1996), Professor of Biological Sciences, BIO,B.S., Ph.D., University of California, Davis

LUPO, M. SCOTT (2006), Full-time Temporary, HIST,B.A., University of Louisiana, Monroe; M.A., University of Texas, Tyler; M.A., Fuller Theological Seminary; Ph.D., University of Nevada, Reno

LUVAAS, ERIK (2018), Assistant Professor of Recreation, Parks and Tourism Administration, RPTA,B.S., University of Idaho; M.A., CSU, Chico; Ph.D., University of Idaho

LYON, ELIZABETH (2016), Associate Professor of Accountancy, BUS,B.A., University of California, Davis; M. Law in Taxation, University of San Francisco; J.D., University of California, San Francisco

MACIEL, FERNANDA ARAUJO (2020), Assistant Professor of Decision Sciences, BUS,B.S., Universidade Federal de Rio do Janeiro; M.S. Pontificia Universidade Catolica do Rio de Janeiro; M.S. and Ph.D. Bentley University

MACK, JEFF (2005), Lecturer of Chemistry, CHEM,B.S., California Polytechnic State University, San Luis Obispo; Ph.D., University of California, Santa Barbara

MacLEOD, TORAN (2014), Associate Professor of Physical Therapy, PT,B.S., California State University, San Jose; M.S., M.P.T, California State University, Sacramento; Ph.D., University of Delaware, Newark

MADRIGAL-GARCIA, YANIRA (2022), Assistant Professor, College of Education, Undergraduate Studies in Education, UGSE,B.A. University of California, Berkeley; M.A. San José State University; Ph.D. University of California, Davis

MAHMOOD, RAMZI J. (2006), Professor of Civil Engineering; Director, Office of Water Programs, CE, UGSE, B.S., University of Baghdad; M.S. (Environmental Engineering), M.S. (Mathematics), Ph.D., Utah State University; California Registered Civil Engineer; EMP, Stanford University

MALVINI REDDEN, SHAWNA (2016), Associate Professor of Communication Studies, COMS,B.A., Walla Walla University; M.A. California State University. Sacramento; Ph.D., Arizona State University

MANSYUR, CAROL L. (2017), Assistant Professor of Public Health, PUBH,B.S., M.A., University of Houston; Ph.D., University of Texas

MANTELL, ANDY (2018), Assistant Professor of Construction Management, CM,B.S., M.S., University of California, Berkeley; Registered Professional Engineer

MARBACK, TIMOTHY L. (2005), Professor of Mechanical Engineering, ME,B.S., St. Mary’s University, San Antonio, Texas; M.S., Ph.D., University of Oklahoma, Norman

MARGONINER, VERA (2007), Professor of Physics and Astronomy, PHYS,B.S., Universidade de Sao Paulo, Brazil; Ph.D., Observatorio Nacional, Brazil

MARKOVIC, MILICA (2003), Professor of Electrical and Electronic Engineering, EEE, UGSE, B.S., Belgrade University, Yugoslavia; M.S., Ph.D., University of Colorado, Boulder

MARSH, LISA (2022), Lecturer; Field Director, SWRK,B.S.W., M.S.W., Loma Linda University

MARSHALL, RACHAEL (2018), Assistant Professor of Education, Graduate and Professional Studies in Education; Fieldwork Coordinator, Counselor Education, GPSE,B.A., University of Tennessee, Knoxville; M.S., lipscomb University; Ph.D., University of Tennessee, Knoxville

MARTIN, DANIELLE J. (2014), Associate Professor of Political Science, POLS,B.A., Gonzaga University; M.A., Ph.D, University of California, Davis

MARTINEZ, JESSICA (2009), Lecturer, College of Education, Undergraduate Studies in Education, UGSE,B.A., M.A., California State University, Sacramento

MARTINEZ, ROSA (2016), Assistant Professor of English, ENGL,B.A., M.A., California State University, Chico; Ph.D., University of California, Berkeley
MARTINS, GABRIEL (2019), Assistant Professor of Mathematics and Statistics, MATH,B.A., M.A., Universidade Federal do Rio de Janeiro, Ph.D., University of California, Santa Cruz

MASUYAMA, KAZUE (2003), Professor of Japanese, WLL, UGSE,B.A., M.A., University of Oregon, Ph.D., State University of New York

MATSUMOTO, ERIC E. (1994), Professor of Civil Engineering, CE,B.S., M.Eng., Cornell University, Ph.D., University of Texas at Austin

MATTERN-BAXTER, KATRIN (2012), Professor of Physical Therapy, PT, International Baccalaureate, Mörke Gymnasium, Göppingen, Germany; Licensed P.T., Albert-Ludwig University, Freiburg, Germany; D.P.T., A.T. Still University, Arizona

MATTHEUS, CHARL (2017), Assistant Professor of Public Health, PUBH,B.S., M.B.A., Indiana Wesleyan University, D.B.A., Walden University

MAYBERRY, MARIA (2006), Professor of Spanish, WLL,B.A., Itesm, Mexico; B.A., M.A., Ph.D., University of Texas at Austin

McCARTHY HINTZ, MARY (1998), Professor of Chemistry, CHEM,B.A., California State University, Fullerton; B.S., M.S., University of West Florida; Ph.D., University of California, Davis

MCCLELLAN, SAMANTHA (2018), Senior Assistant Librarian, Instruction Coordinator, SPB,A., University of North Carolina, Chapel Hill; M.L.S., Indiana University

MCCORMICK, MATTHEW S. (2003), Professor of Philosophy, PHIL, UGSE, B.A., Missouri Southern State College; M.A., Ph.D., University of Rochester

MCCURRY, LESLIE (2007), Lecturer, College of Education, Undergraduate Studies in Education, UGSE,B.A., California State University Sacramento; M.A., California State University Sacramento.

MCDONALD, KELLY (2009), Professor of Biological Sciences; Director, Center for Math and Science Success, BIO,B.S., Ph.D., University of Florida

McKEOUGH, D. MICHAEL (2006), Professor of Physical Therapy; Chair, Department of Physical Therapy, PT,B.S., M.S., University of New Mexico; B.S., Medical College Georgia; M.Ed., Ed.D., Columbia University

McKinney, Joshua B. (1999), Professor of English; Creative Writing Coordinator, ENGL,B.A., M.A., Humboldt State University; Ph.D., University of Denver

McREYNOLDS, KATHERINE (2001), Professor of Chemistry, CHEM,B.S., California Polytechnic State University, San Luis Obispo; M.A., Ph.D., University of Arizona

MEDURI, PRAVEEN (2017), Assistant Professor of Electrical and Electronic Engineering, EEE,B.Tech., Jawaharlal Nehru Technological University; M.S., Southern Illinois University, Carbondale; Ph.D., Old Dominion University, Norfolk

MENARD, NATHEN (2022), Lecturer in Sociology, SOC,B.A., University of California, Berkeley; M.A., University of California, Davis; Ph.D., University of California, Davis

MENDOZA, RUBEN (Ruby) (2023), Assistant Professor of English, ENGL,B.A. California State University, Chico; M.A., San Diego State University; Ph.D. Michigan State University

MERAYYAN, SAAD (2000), Professor of Civil Engineering, CE,B.S.C.E., Jordan University of Science and Technology, Irbid, Jordan; M.S.C.E., University of Missouri-Columbia, Ph.D., Wayne State University, Detroit, Michigan

MERRIAM, GARRET (2017), Associate Professor of Philosophy, PHIL,B.A., University of California, Davis; M.A., Ph.D., Rice University

MERRIFIELD, EMILY (2016), Senior Assistant Librarian, Undergraduate Experience, SPB,A., California State University, Long Beach; M.L.I.S., San Jose State University

MICHAEL, BONIFACE (2008), Professor of Human Resources Management, BUS,B.A., Delhi University, India; M.B.A., Foundation of Organizational Research and Education, India; M.S., Ph.D., Rutgers, The State University of New Jersey

MICHAELS, ANN (2007), Lecturer of English, ENGL,B.A., M.A., California State University, Sacramento

MICKEL, AMY E. (2000), Professor of Human Resources Management, BUS, UGSE, B.A., University of California, Los Angeles; Ph.D., University of Washington

MIGUEL, CAIO F. (2006), Professor of Psychology, PSYC,B.A., Pontificia Universidade Catolica de Sao Paulo, SP, Brazil; M.A., Ph.D., Western Michigan University, Kalamazoo

MIHALITCHENKO, ANDREY (2009), Professor of Marketing, Associate Dean for Academic Programs, College of Business, BUS,B.A., Moscow State University Institute of Afro-Asian Studies; M.B.A, Syracuse University, New York; D.B.A., Cleveland State University

MILLER, CHRISTINE (1987), Professor of Communication Studies, COMS,B.A., University of Oregon; M.S., Southern Illinois University, Carbondale; Ph.D., Pennsylvania State University

MILLER, RACHEL (2016), Assistant Professor of Art, ART,B.A., Kenyon College, Gambier, OH; M.A., University of Pittsburgh, Pittsburgh, PAPh.D., University of Pittsburgh, Pittsburgh, PA

MILLER-SCHULZE, JUSTIN (2014), Associate Professor of Chemistry, CHEM,B.S., University of California, San Diego; Ph.D., University of Washington

MINK, MICHAEL D. (2018), Professor of Public Health; Chair, Department of Public Health, PUBH,B.A., College of William and Mary; M.P.A. University of North Carolina, Chapel Hill; Ph.D. University of South Carolina

MIRANDA, JAMES (2006), Professor of Chemistry, CHEM,B.S., California Polytechnic State University, San Luis Obispo; M.S., California State University, Fresno; Ph.D., University of California, Santa Barbara

MITCHELL, REBECCA (1995), Lecturer of English, ENGL, UGSE, B.A., M.A., California State University, Sacramento

MIZRAHI, STEPHANIE (2009), Associate Professor of Criminal Justice, CRJ,B.S. University of the Pacific; J.D., McGeorge School of Law; M.A., Washington State University
MOGHDAM, ROHOLLA (ROHAM) (2022), Assistant Professor of Electrical and Electronic Engineering, EEE,B.S., Azad University, Iran; M.S., Shahrood University of Technology, Iran; Ph.D., Missouri University of Science and Technology, Rolla

MOHAPATRA, PARTHA (2017), Assistant Professor of Accountancy, BUS,B.S., National Institute of Technology; MBA, Xavier University; Ph.D., University of Kentucky

MOLANA, HANIEH (2020), Assistant Professor of Geography, GEOG,B.S., University of Tehran; M.S., Ph.D., Kent State University

MONI, SUJATHA (2009), Professor of Women's & Gender Studies; Department Chair, Women's & Gender Studies, WGS,B.A., M.A., M.Phil., University of Madras, Chennai, India; Ph.D. Rutgers University, New Jersey.

MONTGOMERY, CHRISTINE LUPO (2017), Associate Professor of English, ENGL,B.A., Santa Clara University; Ph.D., UC Santa Cruz

MOORE, ANDREA (2015), Associate Professor of Ethnic Studies; Director, Cooper-Woodson College Enhancement Program, ETHN,B.A., M.A., Ph.D., University of California, Davis

MOORE, DAVID (2011), Professor of Finance, BUS,B.S., Purdue University; M.B.A., Arizona State University, Ph.D., University of Tennessee

MOORE, BRIAN (2015), Associate Professor of Physical Therapy, PT,B.S., Allegheny College, Pennsylvania; D.P.T., Emory University, School of Medicine, Georgia

MORALES, SYLVIA (2006), Lecturer of English, ENGL,B.A., M.A., California State University, Sacramento

MORENO, JESSICA (2017), Assistant Professor of Education, Graduate and Professional Studies in Education, GPSE,B.A., M.S., California State University, Chico; DMFT, Loma Linda University

MORGAN, ELIZABETH (2021), Assistant Professor of Education, Graduate and Professional Studies in Education, GPSE,B.S., Xavier University of Louisiana; M.A., Harvard University; Ph.D. UC Davis

MORLEY, MORGAN (2022), Assistant Professor of Communication Studies, COMS,B.A., University of Kansas; M.S., Texas Christian University; Ph.D., University of Nebraska

MORRIS, AMANDA (2022), Assistant Professor of Kinesiology, KINS,B.S. M.S. California Polytechnic State University, San Luis Obispo; Ph.D. University of Oregon

MORRIS, TRISH (2015), Associate Professor of Sociology, SOC,B.A., Rhodes College; M.A., Ph.D., Northeastern University, Boston

MORRIS, ELIZA (2018), Assistant Professor of Physics and Astronomy, PHYS,B.S., California State University, Sacramento; Ph.D. Harvard University

MORRISON, ALEXANDRA (2017), Assistant Professor of Psychology, PSYC,B.A., Colby College; M.A., Ph.D., Temple University, Philadelphia

MORSE, MATTHEW (2017), Associate Professor of Music, MUSC,B.A., Thomas Edison State University, New Jersey; M.A. Indiana University of Pennsylvania; D.M.A. University of North Texas

MOSS, JOSHUA (2014), Associate Professor of Physics and Astronomy, PHYS,B.S., Hiram College; M.S., Ph.D., College of William and Mary

MOTLAGH, AMIR (2017), Assistant Professor of Civil Engineering, CE,B.S., Shiraz University; M.S. University of Toledo, Ph.D. University of Utah

MOUNTAIN, CAREL (2022), Assistant Professor of Nursing, NURS,A.S.N., Pacific Union College, Angwin, CA; B.S in P.R., Pacific Union College; M.S.N., Sonoma State University; D.N.P., California State University Fresno & San Jose; Northern Ca Consortium

MOYLAN, J. ANN (1987), Professor of Family Studies and Human Development, FACS,B.A., Wake Forest University, Winston-Salem, North Carolina; M.S., Purdue University; Ph.D., The University of Georgia

MUBAKO, GRACE (2018), Assistant Professor of Accountancy, BUS,B.A., ACCA (Glasgow), M.S., Ph.D. Southern Illinois University, Carbondale

MUKERJI, JOYA (2019), Assistant Professor of Biological Sciences, BIO,B.A., Princeton University; Ph.D. Harvard University

MULASI, URVASHI (2016), Associate Professor of Nutrition and Food; Director, Didactic Program in Dietetics, FACS,B.SA., M.S., Ph.D., University of Minnesota

MULHOLLAND, REBEKKAH Y. (2020), Assistant Professor of History; Coordinator, Public History M.A. Program, HIST,B.A., M.A., Wright State University; Ph.D., University of Memphis

MULLIGAN, KIMBERLY (2015), Associate Professor of Biological Sciences, BIO,B.S., University of California, San Diego; Ph.D. Stanford University

MUNK, KIRSTEN (2020), Assistant Professor of Nursing, NURS,B.A., California State University, Chico; M.S.N., California State University, Sacramento; D.N.P., CU, Northern California Consortium

MURPHY, LIAM (2002), Professor of Anthropology, ANTH,B.A., Saint Mary's University; M.A., The University of Calgary; Ph.D. Yale University

MUYAN-OZCELİK, PİNAR (2014), Associate Professor of Computer Science, CSC,B.S., Ege University, Izmir, Turkey; M.S., University of British Columbia, British Columbia; Ph.D., University of California, Davis

N

NAKAOKA, SUSAN (2018), Assistant Professor of Social Work (resigned), SWRK,PhD

NALDER, KIMBERLY L. (2002), Professor of Political Science, POLS, UGSE,B.A., Utah State University; M.A., Ph.D., University of California, Davis

NAM, KISUN (2008), Associate Professor of Social Work, SWRK,B.A., M.A., Seoul National University, Republic of Korea; M.S.S.W., Ph.D., University of Wisconsin-Madison

NATZEL, MARGARET (2013), Lecturer, College of Education, Undergraduate Studies in Education, UGSE,B.A., University of California at Santa Barbara; M.A., University of Phoenix, Arizona

NEVAREZ, CARLOS (2001), Professor of Education, Graduate and Professional Studies in Education; Provost, GPSE,B.A., California State University, Fresno; M.A., Ph.D. Arizona State University
NEWSOME, CHEVELLE A. (1994), Professor of Communication Studies; Dean for Graduate Studies, COMS,B.A., M.A., California State University, Sacramento; Ph.D., University of Oklahoma

NGUYEN, HAO (2002), Professor of Biological Sciences, BIO,B.A., Rice University, Houston; M.S., Ph.D., University of Texas at Dallas

NINH, THIEN-HUONG (2016), Lecturer in Sociology, SOC,B.A., University of California, Los Angeles; M.A., Ph.D., University of Southern California

NIU, KUEI-HSIEN “JEFF” (2008), Professor of Strategic Management, BUS,B.A., National Taipei University; M.B.A., Pacific Lutheran University; Ph.D., University of North Texas

NOBLE, JENNIFER (2015), Associate Professor of Criminal Justice, CRJ,B.A., California State University, Sacramento; J.D., University of the Pacific, McGeorge School of Law

NOEL, JANA (2000), Professor, College of Education, Undergraduate Studies in Education (FERP), UGSE,B.S., M.S., Drake University; Ph.D., University of California, Los Angeles

NORRIS, ANN MICHELLE (2008), Professor of Mathematics and Statistics, MATH,B.A., M.A., California State University, Sacramento; Ph.D., University of California, Davis.

NORRIS, AAMINAH (2016), Associate Professor, College of Education, Teaching Credentials, TC,B.A. Alabama State MA, PhD, University of California, Berkeley

NUNEZ, JOANNA (2021), Assistant Professor of Women's & Gender Studies, WGS,B.A., University of Nevada; M.A. University of Minnesota, Ph.D. University of Minnesota

NYLUND, DAVID (2003), Associate Professor of Social Work, SWRK,B.A., Michigan State University; M.S.W., California State University, Sacramento; M.A., Ph.D., University of California, Davis

O’HARA, KAREN (2000), Professor, College of Education, Undergraduate Studies in Education; Associate Dean, College of Education, UGSE,B.A., Ph.D., University of California, Davis

O’KEEFE, SUZANNE (2001), Professor of Economics, ECON, UGSE, B.A., B.S., University of California, Davis; Ph.D., University of California, Berkeley

O’MALLEY, MEAGAN (2016), Associate Professor of Education, Graduate and Professional Studies in Education; Internship Coordinator, School Psychology, GPSE,B.A. Psychology, M.A. Sacramento State University, Ph.D University of California State Barbara

OBERLE, PATRICK (2019), Assistant Professor of Geography, GEOG,B.A., State University of New York, College at Geneseo; M.A., Syracuse University; Ph.D., Syracuse University

OĽSAN, ERIN (2019), Assistant Professor of Biological Sciences, BIO,B.S., California Polytechnic State University, San Luis Obispo; M.A., Ph.D., University of California, Santa Barbara

OMORI, KIKUKO (2017), Associate Professor of Communication Studies, COMS,B.A., Senshu University (Japan), Business Administration; M.A., University of Kansas, Communication Studies, Ph.D., University of Wisconsin-Milwaukee, Communication

ORCUTT, ERICA (2022), Assistant Professor of Geography, GEOG,B.S., Ph.D., University of California, Davis

ORTBAL, ROBERT (2005), Professor of Art, ART,B.A., San Francisco State University; M.F.A., University of California, Davis

Ouyang, Jinsong (2002), Professor of Computer Science, CSC,B.S., M.S., University of Electronic Science & Technology of China; Ph.D., University of New South Wales, Sydney, Australia

Overby, Blair (2008), Lecturer of English, ENGL,B.A., San Diego State University; M.A., California State University, Sacramento

Ozcelik, Hakan (2004), Professor of Organizational Behavior, BUS,B.A., M.B.A., Bosphorus University; Ph.D., University of British Columbia (Canada)

PAGANELIS, GEORGE I. (2003), Librarian, Curator, Tsakopoulos Hellenic Collection, SPJ,B.A., University of California, Davis; M.A., University of Colorado at Boulder; M.S., University of Illinois at Urbana-Champaign

Palermo, Joseph A. (2002), Professor of History, HIST,B.A., University of California, Santa Cruz; M.A., San Jose State University; Ph.D., Cornell University

PAN, RAVIN (2009), Associate Professor, College of Education, Teaching Credentials, TC,B.A., University of Illinois, Urbana-Champaign; M.A., Ph.D., University of Michigan, Ann Arbor, MI

Pang, Jing (2003), Professor of Electrical and Electronic Engineering, EEE,B.S., M.S., Xi’an Jiaotong University, Shannxi, P.R. China; Ph.D., Ohio University, Athens

Panggabean, Tota (2015), Associate Professor of Accountancy, BUS,B.S., Sekolah Tinggi Akuntansi Negara, Jakarta; M.S. University of Illinois, Urbana-Champaign; Ph.D., Simon Fraser University, Burnaby

Pannu, Jasdeep (2019), Assistant Professor of Mathematics and Statistics, MATH,B.S. GNDU, M.S. Eastern Michigan University, Ph.D. Auburn University

Papouchis, Christopher (2011), Lecturer of Environmental Studies, ENVS,M.S., Antioch University of New England, B.A Cornell University

Pappas, Christopher (2014), Lecturer in Sociology, SOC,B.A., Bard College, New York; M.A., Ph.D., University of Minnesota, Minneapolis

Parady, Scott (2003), Professor of Art, ART,B.F.A., Kansas City Art Institute; M.F.A., Pennsylvania State University

Park, Myung (2002), Professor, Department of Design, Graphic Design Program, DOD, UGSE, B.F.A., Ewha Woman’s University, Seoul, Korea; M.A., M.F.A., Iowa State University

Park, Jennifer K. (2012), Lecturer of Kinesiology, KINS, UGSE, B.S., M.S., M.P.T., D.P.T.,California State University, Sacramento

Park, Sangmin (2017), Assistant Professor of Education, Graduate and Professional Studies in Education, GPSE,B.A., M.A., Seoul National University, Ph.D., University of Iowa
R

RAE, JAMES DeSHAW (2006), Professor of Political Science, POLS,B.A.,
University of Iowa; M.A., American University, Washington, D.C.; Ph.D.,
University of Hawaii at Manoa

RAMIREZ, ELVIA (2009), Professor of Ethnic Studies, ETHN,B.A., M.A.,
Ph.D., University of California, Riverside

RASCHIG, MEGAN (2018), Assistant Professor of Anthropology,
ANTH,B.A., University of British Columbia; M.A., Ph.D., University of
Amsterdam

RASMUSSEN, COURTNEY (2014), Lecturer of English, ENGL,B.A., M.A.,
California State University, Sacramento

RATTI, VARDAYANI (2022), Assistant Professor of Mathematics and
Statistics, MATH,B.Sc Guru Nanak Dev University, MSc Panjab
University, MSc, Ph.D. University of Guelph

RAY, MICHAEL (2015), Associate Professor of Physics and Astronomy,
PHYS,B.S., Ohio State University, M.S., Ph.D., University of
Massachusetts, Amherst

RAZAVI, SAHAR (2018), Assistant Professor of Political Science,
POLS,B.A., California State University, San Marcos; MA., Ph.D.,
Northern Arizona University

REAMS, ANDREW (2013), Associate Professor of Biological Sciences,
BIO,B.S., California State University, Chico; Ph.D. University of Georgia,
Athens

RECHS, ADAM J. (2003), Professor of Biological Sciences, BIO, UGSE,
B.S., Ph.D., University of California, Davis

REDFIELD, CLAY (2015), Associate Professor of Music, MUSC,B.A.,
California State University, Sacramento; M.A., American Band College
of Southern Oregon University; D.M.A. University of Nevada, Las
Vegas

REED, ANNETTE (1998), Professor of Ethnic Studies; Chair, Department
of Ethnic Studies, ETHN,B.A., University of California, Berkeley; M.A.,
University of California, Davis; Ph.D., University of California, Berkeley

REED, SARAH (2019), Assistant Professor of Social Work, SWRK,B.A.,
Social Work & American Racial and Multicultural Studies, St.
Olaf College, M.S.W., M.P.H., University of Washington, Seattle,
Ph.D. (Nursing Science and Health-Care Leadership), University of
California, Davis

REEDE, JAMES (2003), Lecturer of Environmental Studies, ENVS,B.S.,
Ed.D., University of San Francisco

REESE, PHILLIP (2017), Assistant Professor of Communication Studies,
COMS,B.A., North Carolina State University; M.A., University of North
Carolina at Greensboro

RENZ, FRANZISKA (2022), Assistant Professor of Human Resources
Management, BUS,B.S. University of Passau, MBA Murray State
University, M.S. University of Regensburg, Ph.D. The University of
Texas at El Paso

RICCIOTTI, DIEGO (2019), Assistant Professor of Mathematics and
Statistics, MATH,B.S., M.S. University of Bologna, Ph.D. University of
Pittsburgh

RICE, DOUGLAS F. (2000), Professor of English (FERP), ENGL,B.A.,
Slippery Rock State College; M.A., Duquesne University, Pittsburgh

RICHARDS, JOSEPH (2001), Professor of Marketing, BUS,B.Tech., M.B.A.,
Indian Institute of Technology, Kharagpur, Ph.D. Syracuse University

RIOLLI, LAURA (2000), Professor of Human Resources Management, BUS,
UGSE, B.S., University of Tirana, Albania; M.A., Ph.D., University of
Nebraska-Lincoln

RIVAS, BITA (2018), Assistant Professor of Education, Graduate and
Professional Studies in Education; Program Coordinator, Counselor
Education, GPSE,B.S., Metropolitan State University of Denver; M.A.,
Ed.D., Argosy University

RIVAS, ANTHONY (2019), Assistant Professor of Education, Graduate and
Professional Studies in Education; Accreditation and Data
Coordinator, Counselor Education, GPSE,B.S., Metropolitan State
University of Denver; M.A., Ed.D., Argosy University

ROACH, STEVE (2001), Professor of Music, MUSC,B.M., Indiana
University; M.M., Northern Illinois University; D.M.A., University of
Northern Colorado

ROBERTS, LISA (1998), Associate Librarian, Electronic Resources, SPB.A.,
Loyola University, Chicago, Illinois; M.L.I.S., Rosary College Graduate
School of Library and Information Science, River Forest, Illinois

ROBERTS, LINDA M. (1995), Professor of Chemistry, CHEM,B.A.,
University of Vermont; Ph.D., Washington State University

ROBERTS, KIM A. (1997), Lecturer of Psychology, PSYC,B.A., University of
San Diego; M.S., Ph.D., Washington State University

ROBERTS, ROSLYN (2017), Assistant Professor of Accountancy,
BUS,B.F.A and M.A., University of New England NSW; Ph.D., University
of Sydney

RODRIGUEZ, TOMAS (2016), Lecturer in Sociology, SOC,B.S., Florida
International University; M.A., Ph.D., The Johns Hopkins University

RODRIGUEZ, JUDY (1996), Lecturer of Spanish, WLL,B.A., M.A., California
State University, Sacramento

ROLLOFF, DAVID (2002), Professor of Recreation, Parks and Tourism
Administration, RPTA,B.A., St. Olaf College; M.S., Western Illinois
University; Ph.D., Oregon State University

ROMAN, MARCUS (2009), Lecturer of Mechanical Engineering, ME,B.S.,
M.S., California State University, Sacramento

ROMERO, LISA (2012), Professor of Education, Graduate and Professional
Studies in Education, GPSE,B.S., Indiana University; M.A., University
of Houston; Ph.D., University of California, Riverside

ROMERO, BRENDA (2020), Assistant Professor of Spanish, WLL,B.A.,
M.A., Ph.D., University of Utah

ROSEBERRY-MCKIBBIN, CELESTE (1999), Professor of Communication
Sciences and Disorders, CSAD,B. A., California State University,
Fresno; M. A., California State University, Fresno; Ph.D., Northwestern
University

ROY, NITIN (2020), Assistant Professor of Public Health, PUBH,B.S., Indian
Institute of Technology; Ph.D. Texas A&M University
RUIZ, MIGUEL (2014), Lecturer in Sociology, SOC,B.A., University of Utah; B.S., University of Utah; M.A., Ph.D., University of California, Davis

RUSSEL, BEATRICE (2004), Associate Professor of French, WLL,B.A., University of Bujumbura, Burundi; M.A., University of Arkansas, Fayetteville; Ph.D., University of California, Davis

SCHUDSON, ZACHARY (2020), Assistant Professor of Psychology, PSYC,B.A., Pomona College; Ph.D., University of Michigan

SCOTT-HALLET, KIMBERLY (1984), Lecturer in Civil Engineering, CE,B.S., California State University, Sacramento, MS University of Washington, CA Registered Civil Engineer, CA Registered Structural Engineer

SCHNURBUSH, KIM (2014), Associate Professor of Criminal Justice, CRJ,B.A., University of New Hampshire; M.S. Fitchburg State College; Ph.D. Sam Houston State University

SCHEPPARD, ANITA V. (1998), Lecturer of English, ENGL, UGSE, B.A., California State University, Sacramento

SCHILLING, JASON (2015), Lecturer of English, ENGL,B.A., M.A., California State University, Sacramento

SCHMIDTLEIN, MATHEW (2008), Professor of Geography; Chair, Department of Geography, GEOG,B.S., Brigham Young University; M.S., Ph.D., University of South Carolina

SCHNEIDER, KHAL (2016), Associate Professor of History, HIST,B.A., University of Minnesota, M.A., Ph.D., University of California, Berkeley

SCHNURBUSH, KIM (2014), Associate Professor of Criminal Justice, CRJ,B.A., University of New Hampshire; M.S. Fitchburg State College; Ph.D. Sam Houston State University

SCHUDSON, ZACHARY (2020), Assistant Professor of Psychology, PSYC,B.A., Pomona College; Ph.D., University of Michigan

SCOTT-HALLET, KIMBERLY (1984), Lecturer in Civil Engineering, CE,B.S., California State University, Sacramento, MS University of Washington, CA Registered Civil Engineer, CA Registered Structural Engineer

SENYONGA, MARY (2022), Assistant Professor of Women's & Gender Studies, WGS,B.A., Occidental College, M.A. University of California Los Angeles, Ph.D. University of California Los Angeles.

SEO, MI-SUK (2008), Professor of English, ENGL,B.A., M.A., Seoul National University, Korea; Ph.D., University of Illinois

SCHILLING, JASON (2015), Lecturer of English, ENGL,B.A., M.A., California State University, Sacramento

SCHILDKRATZ, ANNA (2018), Assistant Professor of History, HIST,B.A., University of Minnesota, M.A., Ph.D., University of California, Los Angeles

SHEPPARD, ANTHONY G. (1997), Professor of Recreation, Parks and Tourism Administration; Interim Chair, Department of Recreation, Parks and Tourism Administration (through August 2019), RPTA,B.S., University of Sheffield, England; M.Ed., Pennsylvania State University, University Park; Ph.D., Clemson University

SHIGIHARA, AMANDA (2018), Associate Professor of Sociology; Graduate Coordinator, SOC,B.A., St. Mary's College of CA; M.A., San Jose State University; Ph.D., University of Colorado, Boulder
SHILTS, MICAL (2003), Professor of Nutrition and Food, FACS,B.S., California State University, Sacramento; M.S., Ph.D., University of California, Davis

SHIMABUKURO, DAVID (2013), Associate Professor of Geology, GEOL,A.B., University of California, Berkeley; Ph.D., University of California, Berkeley

SHINBROT, VICTORIA (2003), Professor of Humanities and Religious Studies, HRS,B.A., University of California, Santa Barbara; M.A., California State University, San Francisco; Ph.D., University of California, Davis

SHINER, KARA (2018), Assistant Professor of Nursing, NURS,B.S.N., & M.S.N., California State University, Sacramento

SHIRSAT, ABHIJEET (2018), Assistant Professor of Recreation, Parks and Tourism Administration, RPTA,B.S., University of Pune, India; Post Graduate Diploma, Ealing, Hammersmith and West London College; M.S., Oklahoma State University; Ed.D., Bowling Green State University

SHOBAKI, GHASSAN (2015), Associate Professor of Computer Science, CSC,B.S., University of Jordan, Amman, Jordan; M.S., University of California, Davis; Ph.D., University of California, Davis

SIEGEL, MONA (2003), Professor of History, HIST,B.A., University of Colorado; M.A., Ph.D., University of Wisconsin

SIEGLER, MARK (2002), Professor of Economics, ECON, UGSE, B.A., University of California, Santa Cruz; M.A., Ph.D., University of California, Davis

SIMPSON, LEE M.A. (2001), Professor of History; Director, General Education Honors Program, HIST,B.A., Willamette University; M.A., Ph.D., University of California, Riverside

SINGH, NANDINI (2017), Assistant Professor of Anthropology, ANTH,B.A., Knox College, IL; M.Sc., University College London; Ph.D., Max Planck Institute of Evolutionary Anth, Germany

SINGH, AJAY (2017), Associate Professor of Environmental Studies, ENVS,B.A. University of Oregon, Eugene; M.A. California State University, Chico; Ph.D. Ohio State, Columbus

SKINNER, STEVEN (2014), Associate Professor of Geology, GEOL,B.S., University of California, Los Angeles; M.A., California State University, Long Beach; Ph.D., California State University, Long Beach Ph.D., University of Nebraska Omaha

SLAKOFF, DANIELLE (2020), Assistant Professor of Criminal Justice, CRJ,B.A., California State University, Long Beach; M.S., California State University, Long Beach Ph.D., University of Nebraska Omaha

SLEDGE, DAVID (2021), Assistant Professor, Department of Design, Interior Architecture Program, DOD,B.Arch., North Carolina State University; M.S.Arch., Massachusetts Institute of Technology; Ed.D. Drexel University

SMART, CHRISTIE (2014), Assistant Professor of Nursing; RN-BSN Coordinator, NURS,B.S.N., California State University, Long Beach; M.S.N., California State University, Dominguez Hills; DNP Fresno State University

SMITH, MAUREEN M. (1995), Professor of Kinesiology, KINS,B.S., M.S., Ithaca College, New York; M.A., Ph.D., The Ohio State University, Columbus

SMITH, CURTIS (2014), Professor of Chinese; Chair, Department of World Languages and Literatures, WLL,B.A., University of Wisconsin - Madison; M.A., University of Hawaii at Manoa; Ph.D. National Taiwan Normal University

SNYDER, BRUCE (2005), Lecturer of Political Science, POLS,B.A., University of California Los Angeles; J.D Loyola University; M.A., Ph.D., Claremont Graduate University

SOLARI, LYNN J (1998), Lecturer, College of Education, Teaching Credentials, TC,B.A., California State University, Sacramento; M.A., Northcentral University, San Diego, CA

SOZA WAR SOLDIER, ROSE (2021), Assistant Professor of Ethnic Studies, ETHN,B.A., University of California, Davis; Ph.D., Arizona State University

SPENCE, JOHN (2004), Professor of Chemistry, CHEM,B.S., St. Mary's College; Ph.D., University of California, Davis

SPROTT, KENNETH S. (2003), Professor of Mechanical Engineering, ME,B.S., University of California, Berkeley; M.S., University of California, Irvine; Ph.D., University of California, Davis

STARK, RACHEL (2017), Senior Assistant Librarian, Health Science, SP,B.A., Willamette University; M.L.I.S., Drexel University

STARK, JENNY (2002), Professor of Communication Studies, COMS,B.F.A., University of Houston; M.F.A., California Institute of the Arts

STARK, HARVEY (2014), Associate Professor of Humanities and Religious Studies; Chair, Department of Humanities and Religious Studies, HRS,B.A., Cornell University; MSc University of Bath, UK, Ph.D. Princeton University

STEVENS, MICHELLE (2007), Professor of Environmental Studies, ENVS,B.A., Humboldt State University; M.S., University of Wisconsin, Madison; Ph.D., University of California, Davis

STEVENS, NATHAN E. (2012), Associate Professor of Anthropology, ANTH,B.A., University of California, Davis; M.A., California State University, Sacramento; Ph.D. University of California, Davis

STITT, CARMEN (2008), Professor of Communication Studies, COMS,B.A University of Pittsburgh, M.S. California State University, Sacramento, M.A., Ph.D. University of Arizona

STONE, LYNDA D. (1998), Professor, College of Education, Undergraduate Studies in Education, UGSE,B.A., California State University, Dominguez Hills; M.A., University of San Francisco; Ph.D., University of California, Los Angeles

STRAND, SARAH (2011), Lecturer of Psychology, PSYC,B.S., Iowa State University; M.S., Ph.D., University of Massachusetts, Amherst
STRICKLAND, Oriel J. (1996), Professor of Psychology, PSYC, B.S., University of North Carolina, Chapel Hill; M.S., Ph.D., Purdue University

SUH, Yong S. (2004), Professor of Mechanical Engineering, ME, B.S., M.S., Seoul National University, Korea; Ph.D., Rensselaer Polytechnic Institute, Troy, New York

SULLIVAN, Roger (2003), Professor of Anthropology, ANTH, B.A., M.A., Ph.D., University of Auckland, New Zealand

SUN, Li-Ling (1998), Professor, College of Education, Undergraduate Studies in Education, UGSE, B.A., M.A., National Cheng-Chi University, Taipei, Taiwan; Ph.D., University of California, Santa Barbara

SUN, Xiaoyan (2016), Assistant Professor of Computer Science, CSC, B.E., Shandong Normal University, China; M.E., University of Science and Technology of China; Ph.D., Pennsylvania State University, Pennsylvania

Swami, Sruthi (2022), Assistant Professor of Education, Graduate and Professional Studies in Education, GPSE, Illinois University; M.S.W., George Williams College; Ed.D., Northern Illinois University

Swan, Kyle S. (2013), Professor of Philosophy; Director, Center for Practical and Professional Ethics, PHIL, B.A., Grove City College; M.A., Ph.D., Bowling Green State University

Sweet, Nancy F. (2005), Professor of English; Graduate Coordinator, ENGL, B.A., Vassar College; M.A., M.Phil., Ph.D., Columbia University

Taboga, Paolo (2016), Associate Professor of Kinesiology, KINS, M.S., Politecnico di Milano, Italy; Ph.D., University of Udine, Italy

Tacla, Craig P. (2005), Associate Professor of Kinesiology, KINS, B.A., M.A., California State University, Chico; Ph.D., Virginia Polytechnic Institute and State University, Blacksburg

Tadle, Raul (2017), Assistant Professor of Economics, ECON, B.A., University of California, San Diego; M.A., Ph.D., University of California, Santa Cruz

Tama, Lily (2022), Assistant Professor of History, HIST, B.A., University of California, Santa Barbara; M.A., California State University, Northridge; Ph.D., University of California, Santa Barbara

Tang, Hong-Yue (Ray) (2018), Assistant Professor of Mechanical Engineering, ME, B.S., M.S. University of Wisconsin-Madison, Ph.D., University of California, Davis

Tashiro, Lynn (1991), Professor of Physics and Astronomy; Director, Center for Teaching and Learning, PHYS, UGSE, B.S., University of California, Los Angeles; M.A., Ph.D., Stanford University

Tath, Sedah (2007), Lecturer, College of Education, Undergraduate Studies in Education, UGSE, B.A., M.A., California State University, Sacramento

Taylor, Susan A. (2000), Professor of Social Work, SWRK, B.G.S., University of Missouri-St. Louis; M.S.W., Ph.D., St. Louis University

Taylor, Lisa (1990), Professor of Mathematics and Statistics, MATH, UGSE, B.A., California State University, Sacramento; M.A., Ph.D., University of California, San Diego

Taylor, Christopher L. (2003), Professor of Physics and Astronomy; Chair, Department of Physics and Astronomy, PHYS, B.S., Michigan State University; Ph.D., University of Minnesota

Taylor, Joseph (2016), Associate Professor of Management Information Systems, BUS, B.A., Brigham Young University, Provo; M.B.A., Thunderbird University; Ph.D., Washington State University

Tello, Bernadette (2007), Lecturer in Sociology, SOC, B.S., University of Texas at Austin; M.A. California State University, Sacramento

Terry, Andrea (2020), Assistant Professor of Communication Studies, COMS, B.A., California Polytechnic State University, San Luis Obispo; M.A., California State University, Sacramento; Ph.D Texas A&M University

Thakur, Sudhir (2005), Professor of Real Estate, Land Use, and Quantitative Methods, BUS, B.A., University of Delhi; M.A., Punjab University; M.A., University of Akron; Ph.D., The Ohio State University

Theodorides, Harry N. (2004), Associate Professor of Kinesiology, KINS, B.S., M.S., California State University, Sacramento; Ed.D., University of Wyoming

Thoma, Judy (2005), Lecturer in Humanities and Religious Studies, HRS, UGSE, B.A., M.A., California State University, Sacramento

Thomas, Julie (2003), Librarian, Special Collections and University Archives Instruction/ Electronic Archivist, SPB, A., Northern Illinois University; M.A., M.I.L.I.S., University of Wisconsin-Milwaukee

Thompson, Kelly (2014), Professor of Nutrition and Food, FACS, B.A., California State University, Sacramento; M.S., Ph.D., Kansas State University

Thompson, Irwin Scott (2019), Assistant Professor of Physical Therapy, PT, B.S., Springfield College, M.S. University of Puget Sound, Ed.D. University of Liverpool

Timmons, Craig (2014), Associate Professor of Mathematics and Statistics, MATH, B.A., M.A., California State University, San Marcos; Ph.D., University of California, San Diego

Toise, David W. (2003), Professor of English, ENGL, B.A., Amherst College; M.A., Ph.D., Rutgers, The State University of New Jersey

Toledo Bustamante, Nadieli (2019), Assistant Professor, College of Education, Undergraduate Studies in Education, UGSE, B.A., M.A., Universidad Autónoma de México (UNAM); M.A., Ph.D., University of Chicago

Tong, Pingsheng (2007), Professor of Marketing, BUS, B.A., Capital Normal University; M.S., Iowa State University; M.B.A., Ph.D., Washington State University

Topping, Troy (2013), Associate Professor of Mechanical Engineering; Chair, Department of Mechanical Engineering, ME, B.S. California State University, Sacramento; Ph.D., University of California, Davis

Torres, Jr., Santos (1999), Professor of Social Work, SWRK, B.A., Aurora University; M.S.W., George Williams College; Ed.D., Northern Illinois University
TOUPS, TRACY (2015), Assistant Professor of Electrical and Electronic Engineering, EEE,B.Sc., M.S., PhD., Louisiana State University, Baton Rouge

TOWLER, CHRIS (2017), Assistant Professor of Political Science, POLS,B.A., University of Colorado, Boulder; M.A., Ph.D., University of Washington, Seattle

TRICHUR, RAGHURAMAN (2002), Professor of Anthropology, ANTH,B.Com., University of Bombay; M.Ed., George Washington University; M.A., Ph.D., Temple University

TRIMBLE, JEREMY (2016), Lecturer of English, ENGL,B.A., M.A., California State University, Sacramento

TUDOR, KRISTEN A. (2003), Lecturer of Communication Studies, COMS,B.A., Mills College; M.A., California State University, Sacramento, E.D.D., California State University Sacramento, C.A.

TUTSCHKA, MONICKA B. (2008), Professor of Political Science, POLS,B.A., Tufts University, M.A., Boston College; Ph.D., University of Michigan

TUZCU, ILHAN (2008), Professor of Mechanical Engineering, ME,B.S., Dokuz Eylul University, Izmir, Turkey; M.S., University of Connecticut, Storrs; Ph.D., Virginia Polytechnic Institute and State University, Blacksburg

U

UWAZIE, ERNEST (1991), Professor of Criminal Justice; Chair, Division of Criminal Justice, CRJ, UGSE, B.A., M.A., St. Edwards University, Austin; Ph.D., Arizona State University

VA, KA (1999), Associate Professor, College of Education, Undergraduate Studies in Education, UGSE,B.A., M.A., California State University, Sacramento; Ed.D., University of San Francisco

VALADEZ, MERCEDES (2017), Assistant Professor of Criminal Justice, CRJ,B.A.: California State University, Bakersfield; M.S.: California State University, Fresno; Ph.D.: Arizona State University

VALDEZ, LINDY A. (1998), Professor of Kinesiology, KINS,B.A., M.S., California State University, Sacramento; Ed.D., University of Southern California

VAN GAASBECK, KRISTIN (2002), Professor of Economics, ECON,B.A., Smith College; M.A., Ph.D., University of California, Davis

VANKEUREN, AMELIA (2015), Associate Professor of Geology, GEOL,B.S., University of Southern California, Los Angeles; M.A., Ph.D., Columbia University

VANN, MICHAEL (2005), Professor of History, HIST,B.A., M.A., Ph.D., University of California, Santa Cruz

VANVALKENBURGH, MICHAEL (2014), Associate Professor of Mathematics and Statistics, MATH,B.A., M.A., Ph.D., University of California, Los Angeles

VARESIO, ROSEMARY (2007), Lecturer in Sociology, SOC,B.S., California State University, Sacramento; M.A. California State University, Sacramento

VARJOS, MARIA (2017), Assistant Professor of Ethnic Studies, ETHN,B.A., New Mexico State University, Las Cruces; M.A., Ph.D., University of Maryland-College Park

VARSHNEY, SANJAY (2005), Professor of Finance, BUS,B.S., Bombay University, M.S., University of Cincinnati; Ph.D., Louisiana State University in Baton Rouge; C.F.A.

VASSIL, KRISTINA (2016), Associate Professor of Japanese, WLL,B.A., Oberlin College; M.A., University of Pittsburg; Ph.D., University of Michigan

VELIANTIS, SPIROS (2001), Lecturer of Management Information Systems, BUS,B.S., M.S., California State University, Sacramento

VENKITAKRISHNAN, SOUMYA (2022), Assistant Professor of Audiology Doctorate, CSAD,Bachelors in Audiology and Speech-Language Pathology (B.A.S.L.P) Bharati Vidyapeeth Deemed University; Masters in Audiology and Speech-Language Pathology (M.A.S.L.P) Maharashtra University of Health Sciences 2014; Certificate in Animal Audiology University of Cincinnati; Doctorate in Audiology (Au.D.) The University of Iowa; Doctor of Philosophy (Ph.D.) The University of Iowa

VENTSIS, SUMMER (2017), Assistant Professor of Art, ART,B.A., Grinnell College, Grinnell, IAM.F.A., University of Colorado, Boulder, CO

VICARS, BELINDA (2007), Lecturer, College of Education, Undergraduate Studies in Education, UGSE,B.A., Vermont College, Montpelier; M.A., Pacific University

VICKERS, EMILY (2022), Senior Assistant Librarian, Fine & Performing Arts Librarian, SP,B.A., Chapman University; M.A., M.L.I.S., Indiana University, Bloomington

VICTOR, KRISTINA (2018), Assistant Professor of Political Science, POLS,B.A., M.A., California State University, Sacramento; Ph.D., University of California, Davis

VISINGER, CLAYTON J. (2017), Assistant Professor of Biological Sciences, BIOL,B.S., California State University, Sacramento; Ph.D., University of Florida

VOGT, RUSTIN (2010), Associate Professor of Mechanical Engineering, ME,B.S., California State University, Sacramento; Ph.D., University of California, Davis

VYGODINA, ANNA (2005), Professor of Finance, BUS,B.S., M.B.A., M.S., University of Nebraska at Omaha; Ph.D., University of Nebraska, Lincoln

W

WAGNER, AMY (2015), Associate Professor of Geology; Chair, Department of Geology, GEOL,B.S., M.S., Ph.D., Texas A&M University at Galveston

WALKER, JUDY (2013), Lecturer, College of Education, Undergraduate Studies in Education, UGSE,B.A. California State University, Sacramento; M.A. California State University, Sacramento

WALKER, MICHAEL M. (2010), Associate Professor of Anthropology, ANTH,B.A., University of Southern Mississippi; M.A., Ph.D., Michigan State University
WALL PARILO, DENISE (2003), Professor of Nursing, NURS,B.S.N., M.S.N., California State University, Sacramento; Ph.D., University of California, San Francisco

WANG, CHENG (2022), Assistant Professor of Strategic Management, BUS,B.E. Beijing Language and Culture University, M.S. Bus Admin & M.S. Finance University of Illinois at Urbana-Champaign, Ph.D. Drexel University

WANG, HONG (2001), Librarian, Social Sciences, SPB.A., Wuhan University, China; M.A., University of South Florida; M.S., University of Illinois at Urbana-Champaign

WANG, TA-CHEN (2006), Professor of Economics, Econ,B.A., M.A., National Taiwan University; Ph.D., Stanford University

WANG, XUYU (2018), Assistant Professor of Computer Science, CSC,B.S., M.S., Xidian University, Xian, China; Ph.D., Auburn University, Alabama

WANKET, JAMES A. (2003), Professor of Geography, GEOG,B.A., Humboldt State University; M.A., Ph.D., University of California, Berkeley

WASSMER, ROBERT W. (1995), Professor of Public Policy and Administration; Vice Chair, PPB.A.S., Oakland University, Michigan; M.A., State University of New York at Binghamton; Ph.D., Michigan State University

WATSON, VAJRA (2020), Associate Professor of Education; Graduate and Professional Studies in Education; Faculty Director EdD program, GPSE,B.A., UC Berkeley; Ed.M., Ed.D., Harvard University

WEHR, KEVIN (2003), Professor of Sociology, SOC,B.A., University of California, Santa Cruz; M.S., Ph.D., University of Wisconsin, Madison

WELKLEY, DEBRA (1999), Lecturer in Sociology, SOC,B.A., Aurora University; M.A., Baylor University; Ed.D., University of New England

WHEELER, MARIA (2022), Assistant Professor of Nursing, NURS,B.S.N., Samuel Merritt University, San Francisco; M.S.N., University of California, Davis

WICKELGREN, EMILY A. (2001), Professor of Psychology, PSYC, UGSE, B.A., Grinnell College; Ph.D., Indiana University

WIE, SEUNGHEE (2001), Professor of Nutrition and Food, FACS, UGSE, B.S., Ewha Woman's University, Seoul, Korea; M.S., Iowa State University; Ph.D., Kansas State University

WILBER, PAMELA (1999), Lecturer, College of Education, Undergraduate Studies in Education, UGSe,B.A., M.A., California State University, Sacramento

WILLIAMS, PETER (2016), Associate Professor of Art, ART,B.A., University of Western Ontario; B.A., University of Maryland, Baltimore CountyM.F.A., University of Maryland, Baltimore County

WILLIAM, LISA (2002), Professor of Education, Graduate and Professional Studies in Education, GPSE,B.A., Humboldt State University; M.A., University of San Francisco; Ph.D., University of California, Davis

WILLIAMS, ALTON (2021), Lecturer in Sociology, SOC,B.A., M.A., California State University, Sacramento

WILLIAMS, MARK A.E. (2003), Professor of Communication Studies, COMS,B.A., Oral Roberts University; M.A., Ph.D., Louisiana State University, Baton Rouge

WILLIAMS, EBONY (2016), Associate Professor of Education, Graduate and Professional Studies in Education, GPSE,B.A. UC Davis; (2) M.As & Psy.D, John F. Kennedy University

WILLIAMS, (SAMUEL) BRETT (2018), Assistant Professor of English, ENGL,B.A., Ouachita Baptist University; M.F.A., Rutgers, The State University of New Jersey

WILSON, MELINDA D. (2005), Professor of Theatre and Dance; Associate Dean, College of Arts and Letters, THEA,B.A., Vanderbilt University, Nashville, Tennessee; M.A., Ph.D., Northwestern University, Evanston, Illinois

WILSON, JEFFREY K. (2009), Professor of History; Chair, Department of History, HIST,B.A. University of California, Davis; M.A., Ph.D., University of Michigan

WISCONS, TOPAZ (2018), Assistant Professor of Mathematics and Statistics, MATH,B.S., University of California, Davis; Ph.D. University of Colorado, Boulder

WISCONS, JOSHUA (2016), Associate Professor of Mathematics and Statistics, MATH,B.S., M.S., Southern Illinois University, Carbondale; Ph.D. University of Colorado, Boulder

WONG, PIA L. (1995), Professor of Education, Graduate and Professional Studies in Education; Associate Dean, College of Education, GPSE,B.A., M.C.P., University of California, Berkeley; Ph.D., Stanford University

WONG, PIA L. (1995), Professor of Education, Graduate and Professional Studies in Education; Associate Dean, College of Education, TC,B.A., M.C.P., University of California, Berkeley; Ph.D., Stanford University

WOO, NATE (2022), Assistant Professor of Communication Studies, COMS,B.A., University of California, Davis; M.A., San Diego State University; Ph.D., University of Arizona

WRIGHT, MICHAEL T. (2002), Professor of Kinesiology; Chair, Department of Kinesiology, KINS,B.A., California State University, Chico; Ph.D., Oregon State University

WRIGHT, T. MICHAEL (2016), Associate Professor of Biological Sciences, Bio,B.S., M.S., California State University, San Marcos; Ph.D. Emory University

WYCOFF, SUSAN E. (1997), Professor of Education, Graduate and Professional Studies in Education, GPSE,B.A., M.S., California State University, Sacramento; Ph.D., University of New Mexico, Albuquerque

XIE, HENG "JOHN" (2022), Assistant Professor of Decision Sciences, BUS,B.S. Huazhong University of Science and Technology, M.S. The University of Texas at Dallas, Ph.D. University of North Texas

XIONG, YAN (2002), Professor of Accountancy, BUS, UGSE, B.S., Hunan Institute Finance and Economics; M.S., Xiamen University; M.S., Ph.D., Washington State University

XIONG, MAIKO (2019), Assistant Professor of Education, Graduate and Professional Studies in Education, GPSE,B.S, UC Davis,M.S,California State University, Sacramento Ph.D Kent State University
Y

YAMASHITA, WENDSOR (2021), Assistant Professor of Ethnic Studies, ETHN,B.A., University of California, San Diego; M.A., Ph.D., University of California, Los Angeles

YANG, JINGWEI (2018), Assistant Professor of Computer Science, CSC,B.S., Zhejiang University, China; M.E. Tsinghua University, China; Ph.D. Iowa State University, Iowa

YAZDANI, ATOUISA (2015), Assistant Professor of Electrical and Electronic Engineering, EEE,B.Sc. Tehran University; M.Sc., Tehran Polytechnics University; Ph.D., Missouri University of Science and Technology, Rolla

YE, YUAN (2018), Assistant Professor of Supply Chain Management, BUS,B.S., M.S., Central China Normal University; M.S. Georgia Southern University; Ph.D. University of Houston

YONEMURA, AYANNA (2016), Lecturer in Sociology, SOC,B.A., University of California, Santa Cruz; M.A., Ph.D., University of California, Los Angeles

YOUNG, BRITTANY (2019), Assistant Professor of Psychology, PSYC,B.S., California State University, San Marcos; M.S., Ph.D., University of California Santa Cruz

Z

ZABIHIAN, FARSHID (2011), Assistant Professor of Mechanical Engineering: Graduate Coordinator, Department of Mechanical Engineering, ME,B.S., Amirkabir University of Technology, Tehran, Iran; M.S., Iran University of Science and Technology, Tehran, Iran; Ph.D., Ryerson University, Toronto, Ontario, Canada

ZARAGOZA, BRIANA (2021), Librarian, Education, SP,B.A., Lehigh University; M.L.I.S., University of Denver

ZARCHY, LEAH (2016), Associate Professor, College of Education, Undergraduate Studies in Education, UGSE,B.S., New Mexico University; M.A., Gallaudet University; Ph.D., The University of Texas at Austin

ZARGHAMI, MAHYAR (2011), Associate Professor of Electrical and Electronic Engineering; Chair, Department of Electrical and Electronic Engineering, EEE,B.S., K.N. Toosi University of Technology, Tehran, Iran; M.S., Sharif University of Technology, Tehran, Iran; Ph.D., Missouri University of Science and Technology, Rolla

ZARINS, KIM (2009), Professor of English, ENGL,B.A., University of California Los Angeles; M.A., Ph.D., Cornell University;

ZEANAH, DAVID W. (1999), Professor of Anthropology, ANTH,B.A., University of Alabama, Tuscaloosa; Ph.D., University of Utah, Salt Lake City

ZEIGLER, DAVID (2003), Professor of Mathematics and Statistics, MATH,B.A., University of California, Berkeley; M.S., Ph.D., Texas A&M University

ZHANG, BIN (2003), Librarian, Digital Information Services Librarian, SP,B.S., Xinjiang Agricultural University; M.L.I.S., University of Hawaii at Manoa

ZHANG, CUI (1996), Professor of Computer Science; Chair, Department of Computer Science, CSC,B.S., M.S., Ph.D., Nanjing University, China

ZHANG, JIN (2008), Professor of Accountancy, BUS,M.S. Nanki University, Ph.D., University of Texas, Dallas

ZHONG, JIAN-YUAN KATHY (2003), Professor of Mathematics and Statistics, MATH,B.S., Beijing University; M.S., Ph.D., Louisiana State University

ZOU, JIAN-ZHONG (JOE) (2000), Librarian, Head of Reference, SPB,S., Physics, Beijing Normal University; M.L.I.S., Dominican University, River Forest, IL.; M.B.A., University of Delaware, Newark

ZOU, YAN (2006), Professor of Economics, ECON,B.A., M.A., Renmin University of China; M.A., Ph.D., University of California, Santa Cruz

ZHU, TONGREN (2022), Assistant Professor of Civil Engineering, CE,B.S., Tongji University, M.S., Ph.D., University of Texas, Austin

ZUCKERMAN, S. DAVID (2003), Professor of Communication Studies, COMS,B.A., California Polytechnic State University, Pomona; M.A., California State University, Los Angeles; Ph.D., University of Oklahoma

ZUNIGA, ALICIA (2022), Senior Assistant Librarian, Public Health & Science Librarian, SP,B.A., University of California, San Diego; M.L.I.S., San Jose State University

MARENS, RICHARD S. (2002), Professor of Management Emeritus (2016)
MARINOBLE, RITA M. (1994), Professor, College of Education Emeritus
MARK, GREGORY (2001), Professor of Ethnic Studies Emeritus
MARKOVIC, MIROSLAV (1978), Professor of Electrical and Electronic Engineering Emeritus (2009)
MARRAH, GEORGE L. (1957), Professor Finance Emeritus (1983)
MARSHALL, PATRICIA (1983), Professor, College of Education Emeritus
MARTIN, DAVID (1983), Professor of Communication Studies Emeritus (2005)
MARTINEZ, MIGUEL (1979), Professor, College of Education Emeritus
MARTINEZ, KATHERINE R. (1993), Lecturer of Recreation, Parks and Tourism Administration (2021)
MATTHEWS, RILDA (2007), Lecturer Emeritus (2014)
MAYER, CAROLE (1977), Professor of Speech Pathology and Audiology Emeritus (2003)
MAYES, G. RANDOLPH (2001), Professor of Philosophy Emeritus
MCADAM, J. ROBERT (1960), Professor, College of Education Emeritus
MCBRIDE, JOEL P. (1966), Professor of Political Science Emeritus (1997)
MCCARTNEY, JAMES H. (1974), Professor of Speech Pathology and Audiology Emeritus (2005)
McDANIEL, GERALD R. (1961), Professor of Political Science Emeritus (1992)
McGINNIS, PAUL J. (1958), Professor of English Emeritus (1991)
McGINTY, SUSAN (1995), Professor of Physical Therapy Emeritus
McNAMEE, CAROLE (1991), Professor of Computer Science Emeritus (2001)
MEEKER, GARY L. (1967), Professor of Biological Sciences Emeritus (2001)
MEIER, SUSAN T. (1976), Professor of Criminal Justice Emeritus (2000)
MEINDL, ROBERT J. (1965), Professor of English Emeritus (2002)
MEJORADO, MARIA (2001), Professor, College of Education Emeritus (2001)
MERINO, RENE (1973), Professor, College of Education Emeritus (1997)
MERLINGO, SCOTT A. (2001), Associate Professor of Music Emeritus (2002)
METCALF, ROBERT (1970), Professor of Biological Sciences Emeritus (2007)
METZ, SUSAN (2008), Associate Professor of Music (2022)
MEYERS, MARTIN (1984), Lecturer Emeritus (2005)
MIGLIACCI, TODD (2002), Professor of Sociology Emeritus (2002)
MIKAL-FLYNN, JOYCE (2005), Professor of Nursing Emeritus (2005)
MILCHRIST, PAMELA (1973), Professor of Kinesiology Emeritus (2000)
MITCHELL, WILLIAM J. (1984), Professor of Computer Science Emeritus (2010)
MOMENT, JOAN V. (1972), Professor of Art Emeritus (2002)
MONICAL, SALLY K. (2007), Lecturer of Kinesiology Emeritus
MONEITH, TOM (2002), Professor of Art Emeritus (2021)
MOORE, CHARLES A. (1968), Professor of English Emeritus (1998)
MOORE, KATHLEEN C. (1996), Professor of Spanish Emeritus (2009)
MOORE, JOEL K. (1979), Professor of Civil Engineering Emeritus (2003)
MORSE, JOHN THOMAS (1968), Professor of Biological Sciences Emeritus (1995)
MOSER, CHARLES R. (1966), Professor of Biological Sciences Emeritus (2000)
MOULDS, ELIZABETH F. (1972), Professor of Public Policy and Administration Emeritus (2003)
MULLER, WAYNE CLINTON (1968), Professor of Political Science Emeritus (1994)
MULLINIX, FLOYD L (1956), Professor, College of Education Emeritus (1998)
MURAI, HAROLD M. (1973), Professor, College of Education Emeritus (1998)

N

NEAL, JAMES R. (1976), Professor, College of Education Emeritus (1998)
NEIDE, JOAN L. (1991), Professor of Kinesiology Emeritus (2001)
NELSON, CHARLES G. (1965), Professor of Electrical and Electronic Engineering Emeritus (1998)
NELSON, ROBYN M. (1973), Professor of Nursing Emeritus (2007)
NEUMAN, WILLIAM R. (1962), Professor of Civil Engineering Emeritus (1997)
NEWCOMB, CHARLES P. (1969), Professor of Physics Emeritus (2001)
NICKLES, RICHARD A. (1975), Professor of Civil Engineering Emeritus (1990)
NICOLA, JO-ANN (1973), Professor of Family and Consumer Sciences Emeritus (2000)
NOBLE, PAUL (1970), Professor of Chemistry; Associate Vice President for Academic Affairs, Planning and Resources Emeritus (2006)
NOUREDDINE, NASSRINE (2007), Associate Professor of Nursing Emeritus (2022)
NUMARK, MITCHELL (2008), Associate Professor of History Emeritus (2022)
NYE, VIRGINIA (1962), Professor of Music Emeritus (1991)
NYSTROM, BRADLEY (1991), Professor of Humanities and Religious Studies Emeritus (2018)
O'BRIEN, ELAINE (1998), Professor of Art Emeritus (2019)
O'CONNOR, BARBARA (1972), Professor of Communication Studies Emeritus (2005)
O'KEEFE, MAURA (2005), Professor of Social Work (FERP)
O'LEARY, MARION H. (1996), Professor of Chemistry; Dean, College of Natural Sciences and Mathematics Emeritus
O'NEILL, SHEILA K. (1999), Librarian, Special Collections and University Archives Emeritus (2017)
ODEN, ROBERT STANLEY (2001), Professor of Political Science Emeritus (2021)
OGDEN, JAC M. (1965), Professor of Art Emeritus (1999)
OGILBY, SUZANNE M. (1990), Professor of Accountancy (2022)
OKADA, DANIEL (2002), Professor of Criminal Justice (2022)
OLSON, CRYSTAL (2002), Associate Professor of Education Emeritus
OLSON, CRYSTAL (2002), Professor, College of Education Emeritus
OREY, DANIEL C. (1987), Professor of Education Emeritus
OREY, DANIEL C. (1987), Professor, College of Education Emeritus
ORSINI, JOSEPH L. (1983), Professor of Marketing Emeritus (2001)
OSBORNE, PHILLIP WALLACE (1968), Professor of Mechanical Engineering Emeritus (1982)
OSBORNE, CHERYL (1984), Professor & Chair Emerita, Department of Gerontology Emeritus (2022)
OSBORNE, JACK H. (1999), Lecturer of Physics and Astronomy Emeritus (2022)
OSTERTAG, BRUCE (1981), Professor, College of Education Emeritus
OTIS, JR., MORGAN (1970), Professor, College of Education Emeritus
OWEN, BILL (1990), Professor of Communication Studies Emeritus (1990)
OWENS, WILLIAM THOMAS (1998), Professor, College of Education, Teaching Credentials Emeritus
P
PAGE, JEROME M. (1955), Professor, College of Education Emeritus
PALMER, LINDA (1983), Professor of English Emeritus (2002)
PANNETON, JOHN (2006), Assistant Professor of Criminal Justice Emeritus (2011)
PAPA, ROSEMARY (1999), Professor, College of Education Emeritus
PARADIS, JEFFREY (2002), Professor of Chemistry Emeritus (2021)
PARKER, BRIAN P. (1973), Professor of Criminal Justice Emeritus (1988)
PARROTT, GEORGE L. (1969), Professor of Psychology Emeritus (2007)
PEARSON, MARY JANE (1980), Professor, College of Education Emeritus
PEEK, RONALD WILLIAM (1968), Professor of Kinesiology Emeritus (2004)
PERFLER, OLAF K. (1967), Professor of German Emeritus (2000)
PETERS, LORNA (1998), Professor of Music (2019)
PFEIFER, JEANNE E. (1985), Professor, College of Education Emeritus
PHelps, JAMES O. (1982), Professor of Physics and Astronomy Emeritus (Fall 2009)
PICKETT, MANUEL (1980), Professor of Theatre and Dance (2007)
PINCH, KATHERINE (2002), Professor of Recreation, Parks and Tourism Administration (2020)
PINCKNEY, NEAL T. (1967), Professor, College of Education Emeritus
PITTMAN, DEBORAH (1970), Professor of Music Emeritus (2008)
PLATZNER, ROBERT L. (1970), Professor of Humanities and Religious Studies Emeritus (2001)
PLESSAS, GUS P. (1957), Professor, College of Education Emeritus
PLETCHER, DALE D. (1975), Professor of Finance Emeritus (2004)
POLAND, JAMES M. (1975), Professor of Criminal Justice Emeritus (2004)
PLESSAS, GUS P. (1957), Professor, College of Education Emeritus
PLETCHER, DALE D. (1975), Professor of Finance Emeritus (2004)
POLAND, JAMES M. (1975), Professor of Criminal Justice Emeritus (2004)
POLASTRI, RICCARDO P. (1981), Associate Professor of Management Emeritus (1988)
POMO, ROBERTO (1999), Professor of Theatre and Dance Emeritus (2020)
POST, JAMES L. (1968), Professor of Civil Engineering Emeritus (1992)
POTTER, ROLLIN R. (1990), Professor of Music Emeritus (2004) - Chair
PRAJS, JANUSZ (1980), Associate Professor of Economics Emeritus (2001)
PRENTICE, WARREN L. (1959), Professor, College of Education Emeritus
PRICE, JONATHAN LEE (1968), Professor of English Emeritus (2005)
PRICE, NORMA LEE (1969), Professor of Physical Education Emeritus (1991)
PRITCHARD, ROBERT (1985), Professor, College of Education Emeritus
PYNE, THOMAS F. (1984), Professor of Philosophy Emeritus
QUADE, ANE M. (1989), Associate Professor of Economics Emeritus (2001)
RAINGRUBER, BONNIE (1991), Professor of Nursing Emeritus (2018)
RASKE, DAVID (1976), Professor, College of Education Emeritus
REARDON, FREDERICK H. (1966), Professor of Mechanical Engineering Emeritus (2001)
REDDICK, MARY (2001), Librarian, Head of User Services Emeritus (2017)
REESE, ROBIN (1981), Professor of Kinesiology Emeritus (2006)
REIHMAN, MARY ANN (1977), Professor of Biological Sciences Emeritus (2007)
REISNER, RONALD (2007), Professor of Theatre and Dance Emeritus (2018)
REN, XIN (1990), Professor of Criminal Justice Emeritus (2020)
RENDON, ANDRES (1970), Professor of Sociology and Ethnic Studies Emeritus (2001)
REVELEY, BETTY R. (1965), Professor of English Emeritus (1991)
RICE, JUANITA J. (1985), Professor of Theatre and Dance Emeritus (2001)
RICHARDS-EKEH, KAYLENE A. (1989), Associate Professor of Criminal Justice Emeritus (2011)
RIGEL, MICHAEL B. (1976), Professor of Art Emeritus (2005)
RITCHIE, JAMES M. (1977), Professor of Chemistry Emeritus (2017)
ROBERTS, PATRICIA L.B. (1977), Professor, College of Education Emeritus
ROBERTS, THERESA A. (1985), Professor, College of Education Emeritus
ROBERTS, MILES (1990), Professor of Geography Emeritus (2020)
RODRIGUEZ, CIRENIO (1981), Professor, College of Education Emeritus
RODRIGUEZ, RAUL (1987), Professor, College of Education Emeritus
ROGERS, MARTIN (1968), Professor of Psychology Emeritus (2002)
ROLOFF, HARVEY J. (1956), Professor of Physical Education Emeritus (1983)
ROMBOLD, CHARLES C. (1968), Professor of Recreation and Leisure Studies Emeritus (1991)
ROSCE, ADA (1976), Professor of Spanish Emeritus (1995)
ROSE, KATHLEEN , Lecturer Emeritus
ROSSER, ELLEN (1966), Professor of English Emeritus (1986)
RUIZ, NADEEN (1992), Professor, College of Education Emeritus
RUSSELL, JOSEPH L. (1972), Professor of Criminal Justice Emeritus (2000)
RUSSELL, DALE (2001), Associate Professor of Social Work Emeritus
SACO-POLLITT, CARMEN (1990), Professor, College of Education Emeritus
SAMANTRAI, KRISHNA (1987), Professor of Social Work Emeritus (1997)
SAMPSON, JAN (2004), Associate Professor of Nursing Emeritus (2019)
SANDMAN, THOMAS E. (1990), Professor of Management Information Systems Emeritus (2014)
SANTANA, JORGE A. (1972), Professor of Spanish Emeritus (2006)
SANTANA, MARIELA (1998), Associate Professor of Spanish Emeritus (2017)
SANTORA, RONALD A. (1972), Professor of English Emeritus (2005)
SAITO, EDWARD H. (1964), Professor of Recreation and Leisure Studies Emeritus (1983)
SAITOSUKI, INA (1994), Professor, College of Education Emeritus
SAUM, JAMES A. (1956), Professor, College of Education Emeritus
SAVINO, RICHARD (1985), Professor of Music Emeritus
SCARBOROUGH, KAREN L. (1973), Professor of Kinesiology Emeritus (2000)
SCHAEUBLE, JOHN LOWELL (1968), Professor of Psychology Emeritus (2006)
SCHAFFER, BURTON F. (1975), Professor of Finance Emeritus (2002)
SCHEEL, DANIEL CURTIS (1969), Professor of Economics Emeritus (2001)
SCHMANDT, MICHAEL J. (2006), Professor of Geography Emeritus (2019)
SCHMITZ, DENNIS M. (1966), Professor of English Emeritus (1997)
SCHOLL, DALE (1977), Professor of Theatre and Dance Emeritus (2004)
SCOTT, OTIS, Professor of Ethnic Studies Emeritus
SENKEY, DONALD (1970), Professor of Political Science Emeritus (2002)
SERI, ARMAND (1964), Professor of Mathematics and Statistics Emeritus (1996)
SERRANO, ESTELA S. (1964), Professor of Spanish and Ethnic Studies Emeritus (2000)
SHEA, EDWARD (1990), Professor of Mathematics and Statistics Emeritus (2017)
SHEK, RICHARD H. (1976), Professor of Humanities and Religious Studies Emeritus (2014)
SHEPARD, WILLIAM (1982), Professor of Biological Sciences Emeritus (2003)
SHOEMAKER, GARY (1983), Professor of Physics and Astronomy Emeritus (2012)
SHULOCK, NANCY B. (1974), Professor of Public Policy and Administration Emeritus (2014)
SHUMATE, HARVEY L. (1960), Professor of Theatre Arts Emeritus (1991)
SIME, RODNEY J. (1959), Professor of Chemistry Emeritus (1992)
SIMES, JAMES GORDON (1968), Professor of Electrical and Electronic Engineering Emeritus (1998)
SINGER, JENNIE (2007), Professor of Criminal Justice- Emeritus 2021
SKUBE, JOHN E. (1964), Professor of Kinesiology and Health Science Emeritus (1998)
SLAYMAKER, SUSAN CLARK (1973), Professor of Geology Emeritus (2005)
SMITH, CHERRYL (1990), Professor of English Emeritus
SMITH, WARREN D. (1973), Professor of Electrical and Electronic Engineering Emeritus (2020)
SMITH, GERRI (1991), Professor of Communication Studies Emeritus (2021)
SMITH, VAL R. (1976), Professor of Communication Studies Emeritus (2018)
SMITH, NATHAN (1973), Professor, College of Education Emeritus
SOBREDO, JAMES, Associate Professor of Ethnic Studies Emeritus (2021)
SPRAY, LINDA C (1990), Professor, College of Education Emeritus
SPRAY, GARY D. (1974), Professor, College of Education Emeritus
SPROWLS, ROSALEE (1990), Professor of Biological Sciences (2020)
STEVENS, JOHN L. (1970), Professor of Physics and Astronomy Emeritus (2005)
STEVENSON, ELIZABETH MARILYN (1968), Professor of Physical Education Emeritus (1991)

STEWARD, DONALD L. (1987), Professor of Civil Engineering Emeritus (1998)

STEWARD, DONALD V. (1978), Professor of Computer Science Emeritus (1996)

STOCKERT, BRAD (2002), Professor of Physical Therapy Emeritus

STOFFERS, KARL E. (1965), Professor of Electrical and Electronic Engineering Emeritus (1998)

STOLTZ, ANN (2001), Professor of Nursing Emeritus (2010)

STONER, MARK REED (1989), Professor of Communication Studies Emeritus (2019)

STRADLEY, LYNN (1977), Professor of Music Emeritus (2007)

STRASSER, M. ELIZABETH (1990), Professor of Anthropology Emeritus (2017)

SU, HON-HSIEH (1967), Professor of Civil Engineering Emeritus (1997)

SUDE, HAZEL B. (1973), Professor of Home Economics Emeritus (1983)

SUMMERS, WORTH C. (1967), Professor of Sociology Emeritus (1995)

SUTHERLAND, SUZANNE (1986), Professor of Nursing Emeritus (2013)

SWEET, ROXANNA (1973), Professor of Criminal Justice Emeritus (1992)

SYER, JOHN (1983), Professor of Political Science Emeritus (2001)

TAIT, CHARLES W. (1972), Professor of Management Emeritus (1984)

TAYLOR, THEODORE (1970), Professor, College of Education Emeritus

TAYLOR, DONALD (1990), Professor of Communication Studies (FERP)

TAYLOR, STANLEY A. (1983), Professor of Decision Sciences (retired 2021)

THEODORATUS, DOROTHEA J. (1967), Professor of Anthropology Emeritus (1994)

THOMAS, TERRANCE A. (1969), Professor, College of Education Emeritus

THOMPSON, HEATHER (2015), Associate Professor; Department Chair of Communication Sciences and Disorders

TIKASINGH, ANGEL J. (1967), Professor, College of Education Emeritus

TIMMER, LOUISE F. (1976), Professor of Nursing Emeritus (2021)

TOOTELIAN, DENNIS H. (1973), Professor of Marketing Emeritus (2010)

TORCOM, JEAN (1970), Professor of Political Science Emeritus (2002)

TOTO, JR., CHARLES (1968), Professor, College of Education Emeritus

TRAIN, JILL, Professor of Biological Sciences Emeritus (2017)

TRAPP, GENE R. (1970), Professor of Biological Sciences Emeritus (2001)

TSAI, SAN-YUN W. (1978), Professor of Management Information Systems Emeritus

TUCKER, STEPHANIE (1986), Professor of English Emeritus (2005)

TURNER, MARY ANN (1965), Professor of Physical Education Emeritus (1995)

TURRILL, CATHERINE L. (1995), Professor of Art Emeritus (2016)

TZAKIRI, ROBERT JEAN-PIERRE (1973), Professor of French Emeritus (1998)

UNDERWOOD, TERRY L. (1998), Professor, College of Education Emeritus

URONE, PAUL PETER (1973), Professor of Physics and Astronomy Emeritus (2005)

VADHVA, SURESH K. (1986), Professor of Electrical and Electronic Engineering Emeritus (2019)

VAIL, ROGER W. (1972), Professor of Art Emeritus (2006)

VAN AUKER, ROSALIND (1980), Librarian, Reference Emeritus (2016)

VAN DE LINDT, WILLIAM (1982), Professor of Electrical and Electronic Engineering Emeritus (1990)

VANCOUWENBERGHE, CAROLYN (1983), Professor of Nursing Emeritus (2016)

VANDENBERGE, PETER (1973), Professor of Art Emeritus (1998)

VANICEK, C. DAVID (1967), Professor of Biological Sciences Emeritus (2000)

VARANO, CHARLES S. (1998), Professor of Sociology (FERP)

VENEZIA, PETER S. (1975), Professor of Criminal Justice Emeritus (1996)

VILLEGAS, VELMA (1997), Professor, College of Education Emeritus

VINES, ROSE LEIGH (1979), Professor of Biological Sciences Emeritus (2011)

VIZZARD, WILLIAM J. (1996), Professor of Criminal Justice Emeritus (2011)

VON DEN STEINEN, KARL (1968), Professor of History Emeritus (2002)

WADE, ALAN D. (1967), Professor of Social Work Emeritus (1992)
WADE, MARJORIE D. (1974), Professor of German Emeritus (2020)
WAGNER, DAVID L. (1975), Professor of Communication Studies; Vice President for Human Resources Emeritus
WALBURG, GERALD S. (1968), Professor of Art Emeritus (2000)
WANG, CHIANG (1984), Professor of Decision Sciences Emeritus (2007)
WANG, RUTH (1984), Professor of Decision Sciences Emeritus (2009)
WANLASS, SUSAN (1985), Professor of English Emeritus (2015)
WARE, JELINE H. (1977), Professor of Family and Consumer Sciences Emeritus (1998)
WASTE, ROBERT (1997), Professor of Public Policy and Administration Emeritus (2006)
WATSON, ANNITA B. (1970), Professor of Nursing Emeritus (2002)
WEBB, DONALD P. (1975), Professor of French Emeritus (1995)
WEISS, MELFORD S. (1967), Professor of Anthropology Emeritus (2001)
WEISSMAN, SHEL (1974), Professor, College of Education Emeritus
WELDY, ANN T. (1974), Professor of English and Associate Dean Emeritus, College of Arts and Letters (1997)
WESPIESER, HOWARD F. (1965), Professor of Social Work Emeritus (1980)
WHEELER, GREGORY (1978), Professor of Geology Emeritus (2010)
WHITE, MALCOLM A. (1969), Professor of Marketing Emeritus (1992)
WHITEHEAD, ROBERT J. (1960), Professor, College of Education Emeritus
WILCOX, ANN (1969), Professor, College of Education Emeritus
WILIAM, THOMAS L. (1990), Professor, College of Education Emeritus
WILLIAMS, JOHN L. (1986), Professor of Communication Studies (FERP)
WILSON, MARTHA C. (2004), Professor of Supply Chain Management Emeritus (2022)
WINDESHAUSEN, H. NICHOLAS (1962), Professor of Management Emeritus (1986)
WINKLER, MARIA (1977), Professor of Art Emeritus (2005)
WINTERS, MARILYN (1981), Professor, College of Education Emeritus
WOOD, JR., CLIFFORD P. (1968), Librarian, Humanities Reference Emeritus (2001)
WOODWARD, PATRICIA J. (2003), Assistant Professor of Public Health Emeritus
WUNDER, HAROLDENE (1993), Professor of Accountancy Emeritus (2015)
X
Y
YAMANAKA, TOHRU (1964), Professor of Economics and Ethnic Studies Emeritus; Associate Dean of Arts & Letters Emeritus (1989)
YEN, JULIE W. (1991), Professor of English Emeritus
YUEN, FRANCIS K.O. (1999), Professor of Social Work (FERP)
Z
ZHOU, TONG (1988), Professor of Mechanical Engineering Emeritus (2005)
ZHOU, KECHENG (1990), Professor of Mathematics and Statistics Emeritus (2012)
ZHOU, DONGMEI (2005), Professor of Mechanical Engineering Emeritus (2021)
ZUCKER, LAUREL L. (1988), Professor of Music Emeritus
