BS IN BIOLOGICAL SCIENCE (GENERAL BIOLOGY)

Units required for Major: 73-85, includes units of study in chosen concentration (see below).

Total units required for BS: 120

Program Description

The general biology concentration is intended to give students a broad training in the Biological Sciences and an opportunity to explore a wide range of elective courses. It also provides necessary preparation for most graduate programs and selected entry level technical positions in industry and government. The BS in Biological Sciences meets the Subject Matter Competency requirement to enter a Biology Single Subject Teaching Credential Program (the Biology Subject Matter Waiver Program requires three additional geoscience and environmental studies courses) and also satisfies requirements for admission to health professional schools (with additional coursework in Math and Chemistry).

Notes:

- Pre-Health Professional students should take the Chemistry and Math requirements as stated in the Pre-Health Professional Program section of this catalog.
- With approval, up to six units of upper division coursework from related fields may be applied as electives in the major.
