

CERTIFICATE IN ISSUES IN NATURAL RESOURCE MANAGEMENT

Units required for Certificate: 15, in addition to requirements for BS

Program Description

The Academic Achievement Certificate in *Issues in Natural Resource Management* is designed to provide an interdisciplinary perspective on the conflicts, controversies, and biopolitical issues that natural resource biologists must deal with in their careers, and to introduce students to the non-biological considerations that influence decision making processes in natural resource utilization and management.

A minimum of 15 units selected from the following list in addition to requirements for the BS in Biological Sciences with a concentration in Biological Conservation. The certificate may also be awarded to students completing the BS in General Biology with the approval of the Biological Conservation advisors.

Program Requirements

| Code | Title | Units |
|--|--|-----------|
