

# MINOR IN ECONOMICS

---

Units required for Minor: 21, twelve of which must be upper division Economics units

## Program Description

A minor in Economics may be especially attractive to students majoring in Business Administration, Government, and Environmental Studies or in one of the other Social Science disciplines. The Economics minor adds both theoretical and analytical depth. In addition, it provides the historical and institutional background important to an understanding of contemporary economic issues. It offers students in other majors a broader-based undergraduate education while widening the choice of job possibilities. Employers view the minor in Economics favorably.

## Program Requirements

Code	Title	Units
ECON 1A	Introduction to Macroeconomic Analysis	3
