

INTERDISCIPLINARY STUDIES

College of Social Sciences and Interdisciplinary Studies

Program Description

The Interdisciplinary Studies program recognizes that some subject matter is more thoroughly explored by drawing on various perspectives and methodologies from more than one discipline. Students, with faculty supervision, engage learning opportunities that encourage combining a range of information and experiences into a challenging individualized learning project. In addition, Interdisciplinary Studies is the administrative home to the Military Studies Minor, the Peace Corps Prep Certificate, and field experience courses associated with the Peer Health Educator Internship Program. The office administering, guiding, reviewing, and monitoring the interdisciplinary efforts, when they cross College or Divisional lines, is that of the Dean of the College of Social Sciences and Interdisciplinary Studies. Offerings are listed under the heading Interdisciplinary (ID) in the *Class Schedule*. Questions pertaining to the establishment and "equivalency" of courses should be directed to the Dean of the College of Social Sciences and Interdisciplinary Studies
